Item 2.05. Costs Associated with Exit or Disposal Activities.

On June 25, 2007, Genesee & Wyoming Inc. (the Company) issued a press release announcing that its Mexican subsidiary, Ferrocarriles Chiapas-Mayab, S.A. de C.V. (FCCM), was formally notifying the Mexican Secretaria de Comunicaciones y Transporte of its intent to cease its rail operations and to terminate its 30-year concession from the Mexican government. The decision to cease FCCM's operations was made on June 22, 2007, and was a result of the damage from Hurricane Stan in October of 2005 to certain bridges and track segments along FCCM's rail line in the State of Chiapas, as well as the absence of any repairs thereto. FCCM has suffered severe financial consequences as a result of the hurricane and without the reconstruction of the hurricane-damaged line, it is impractical for FCCM to continue its operations.

The Company expects that FCCM will wind down its operations and discontinue rail service over the next four weeks, and that the formal liquidation of FCCM will be completed by year-end 2007.

In connection with the liquidation of FCCM, the Company expects to record charges in 2007 of approximately \$12 million after tax, or \$0.30 per share.

A copy of the press release is attached hereto as Exhibit 99.1 and is incorporated herein by reference.
