Item 8.01 Other Events

Handleman Company today announced selected unaudited preliminary financial results expected for the fiscal year ended May 2, 2009.

Handleman Company expects that as of May 2, 2009 proceeds from the liquidation of assets will be insufficient to provide payment in full to its creditors. Under the liquidation basis of accounting, Handleman Company expects to report that the excess of its liabilities over the net proceeds from the liquidation of assets as of May 2, 2009 will be in the range of \$5.5 million to \$6.3 million. As a result, as of May 2, 2009, cash available for payment to general unsecured creditors is expected to be in the range of 80-85% of such claims. Handleman Company is in the process of liquidating assets and identifying and reconciling creditors' claims, which such process is expected to take at least six to twelve months from the date of this report. As a result, Handleman Company does not expect to be in a position to make payments to general unsecured creditors in the ordinary course for at least six to twelve months.

The assumptions on which the unaudited preliminary financial results are based are subject to change based on the timing of, and proceeds from, asset sales and the ultimate settlement of liabilities, particularly the pension plan obligations of Handleman Company. The unaudited preliminary financial results are also based on a number of estimates and assumptions that affect the reported amount of assets, liabilities, revenues and expenses. While management believes these estimates and assumptions to be reasonable under the circumstances, Handleman Company's estimate of net proceeds from the liquidation of assets and the amounts of creditors' claims are subject to change, perhaps significantly.

As of January 31, 2009, Handleman Company's estimate of the excess of proceeds from the liquidation of assets over its liabilities was \$3.1 million. The largest changes from the estimate as of January 31, 2009 to May 2, 2009 were primarily driven by increased pension costs to terminate the U.S. pension plan, a reduction in net proceeds related to the sale/wind down of Crave and REPS, and increased payroll costs incurred due to the sale of assets taking longer than anticipated.
