WisdomTree CEF Fixed Income Fund

THE INFORMATION IN THIS PROSPECTUS IS NOT COMPLETE AND MAY BE CHANGED. WE MAY NOT SELL THIS SECURITY UNTIL THE REGISTRATION STATEMENT FILED WITH THE SECURITIES AND EXCHANGE COMMISSION IS EFFECTIVE. THIS PROSPECTUS IS NOT AN OFFER TO SELL THE SECURITY AND IT IS NOT SOLICITING AN OFFER TO BUY THE SECURITY IN ANY STATE WHERE THE OFFER OR SALE IS NOT PERMITTED.

THE SECURITIES AND EXCHANGE COMMISSION (SEC) HAS NOT APPROVED OR DISAPPROVED THESE SECURITIES OR PASSED UPON THE ADEQUACY OF THIS PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

Table of Contents

WisdomTree Trust

WisdomTree Trust (the Trust) is a registered investment company that consists of separate investment portfolios. This Prospectus describes the **WisdomTree CEF Fixed Income Fund** (the Fund).

The Fund is an exchange traded fund. This means that shares of the Fund are listed on a national securities exchange, such as NYSE Arca, and trade at market prices. The market price for the Fund's shares may be different from its net asset value per share (NAV). The Fund has its own CUSIP number and exchange trading symbol.

The Fund issues and redeems shares at NAV only in large blocks of shares, typically 50,000 shares or more (Creation Units). These transactions are usually in exchange for a basket of securities and an amount of cash. As a practical matter, only institutions or large investors purchase or redeem Creation Units. Except when aggregated in Creation Units, shares of the Fund are not redeemable securities.

A NOTE TO RETAIL INVESTORS

Shares can be purchased directly from the issuing Fund only in exchange for a basket of securities that is expected to be worth several million dollars. Most individual investors, therefore, will not be able to purchase shares directly from a Fund. Instead, these investors will purchase shares in the secondary market through a brokerage account or with the assistance of a broker. Thus, some of the information contained in this Prospectus such as information about purchasing and redeeming shares from a Fund and references to transaction fees imposed on purchases and redemptions is not relevant to most individual investors. Shares purchased or sold through a brokerage account or with the assistance of a broker may be subject to brokerage commissions and charges.

WisdomTree CEF Fixed Income Fund

**Ticker symbol:
Overview**

Cusip:

This Prospectus provides the information you need to make an informed decision about investing in the Fund. It contains important facts about the Trust as a whole and the Fund in particular. The Fund is an exchange-traded fund (ETF). ETFs are funds whose shares are listed on a stock exchange and traded like equity securities at market prices. ETFs, such as the Fund, allow you to buy or sell shares that represent the collective performance of a selected group of securities. ETFs are designed to add the flexibility, ease and liquidity of stock-trading to the benefits of traditional index-fund investing.

WisdomTree Asset Management, Inc. (WisdomTree Asset Management) is the investment adviser to the Fund. WisdomTree Investments, Inc. (WisdomTree Investments) is the parent company of WisdomTree Asset Management.*

Investment Objective

The **WisdomTree CEF Fixed Income Fund** seeks to track the price and yield performance, before fees and expenses, of the S-Network Fixed Income Closed-End Funds Index (the Index). The Index consists of seventy-five listed closed-end funds that invest in U.S. and/or non-U.S. taxable fixed income securities and meet other specified Index requirements. A closed-end fund, or CEF, is a pooled investment vehicle that is registered as an investment company with the Securities and Exchange Commission. CEF shares are listed and traded on national securities exchanges at market prices. Since the Fund's investment objective has been adopted as a non-fundamental investment policy, the Fund's investment objective may be changed without a vote of shareholders.

Principal Investment Strategies

The Fund attempts to track the Index by using a representative sampling strategy to invest in shares of the CEFs included in the Index. This means that the Fund invests in a sample of those CEFs whose risk, return and other characteristics closely resemble the risk, return and other characteristics of the Index as a whole. The Fund attempts to invest all, or substantially all, of its assets in the CEFs included in the Index. The Fund seeks to provide investors with the potential for fixed income yields through investment in a portfolio of CEFs that, in turn, invest in fixed income instruments. The Fund also seeks potential capital appreciation through investment in CEFs that have historically traded at a discount (i.e., below their net asset value). The CEFs held by the Fund pursue an array of investment strategies across the fixed income spectrum. Through investment in these CEFs, the Fund expects to have exposure to a wide range of fixed income instruments, such as corporate bonds, government bonds, loan participations and mortgage-backed securities, as well as securities, such as preferred stock, that share many of the characteristics of traditional fixed income instruments. The Fund is designed to have exposure to U.S. and non-U.S. markets, including emerging markets, and to investments of varying credit quality, including both high yield and investment grade securities. For these reasons, the Fund may be appropriate for investors seeking the potential for taxable yield, as well as capital appreciation, through investment in a diversified portfolio of fixed income CEFs.

Under normal circumstances, at least 95% of the Fund's total assets (exclusive of collateral held in connection with securities lending) will be invested in the CEFs included in the Index. The Fund generally may invest up to 5% of its total assets in securities not included in the Index, but which the Fund believes will help it track its Index. For example, the Fund may invest in securities that are not components of its Index in order to reflect various corporate actions and other changes to its Index (such as reconstitutions, additions and deletions). Under normal circumstances, as long as the Fund invests at least 95% of its total assets in the CEFs included

Table of Contents

in the Index, it also may invest its other assets in cash and cash equivalents, as well as in shares of other investment companies, futures contracts, options on futures contracts, options, and swaps. As noted above, the Index consists of seventy-five listed closed-end funds that invest in U.S. and/or non-U.S. taxable fixed income securities and meet other designated Index requirements. In general, the Index consists of seventy-five CEFs that (i) have a stated investment objective of investing in U.S. or non-U.S. fixed income securities, or a combination of such securities, (ii) have a market capitalization of at least \$100 million, and (iii) have an average daily dollar trading volume of at least \$500,000 for a specified period. The Index ranks those CEFs that are eligible to be included in the Index based on market capitalization, daily trading volume and their respective percentage discount to net asset value. The CEFs with the seventy-five highest average rankings are included in the Index. The Index rules provide that no single CEF can make up more than 8% of the capitalization weight of Index. In addition, the total weight in the Index of all CEFs with weights more than 5% is capped at 40% of the Index. The Index also is screened for diversification across various segments of the economy, based on the stated style of the CEFs included in the Index. The exposure of the Index to various market segments, based on the stated investment objective of each CEF, generally will not exceed the following capitalization weights: Multi-Sector, 30%; Emerging Markets Income, 25%; Global Income, 25%; Preferred, 20%; Loan Participation, 20%; Government, 15%; High Yield, 15%; Mortgage-Backed, 10%; Hybrid, 10%; Investment Grade, 10%.

Additional information about the Index and the methodology used to construct and calculate the Index contained in the Fund's Statement of Information and available at www.wisdomtree.com.

* WisdomTree is a registered mark of WisdomTree Investments and has been licensed for use by the Trust. WisdomTree Investments has patent applications pending on the methodology and operation of its Indexes and the Funds.

Table of Contents

Principal Risk Factors

The Fund is subject to the risks described below. Some or all of these risks may adversely affect a Fund's NAV, trading price, yield, total return and/or its ability to meet its objectives.

Investment Risk

As with all investments, an investment in the Fund is subject to investment risk. Investors in the Fund could lose money, including the possible loss of the entire principal amount of an investment, over short or even long periods of time.

Investment Style Risk

The Fund invests in the securities included in, or representative of, its Index regardless of their investment merit. The Fund does not attempt to outperform its Index or take defensive positions in declining markets. As a result, the Fund's performance may be adversely affected by a general decline in the U.S. or foreign market segments relating to its Index. The returns from the types of securities in which the Fund invests may underperform returns from the various general securities markets or different asset classes. This may cause the Fund to underperform other investment vehicles that invest in different asset classes. Different types of securities (for example, stocks, government bonds and corporate bonds) tend to go through cycles of doing better or worse than the general securities markets. In the past, these periods have lasted for as long as several years.

Closed-End Fund Risk

The Fund pursues its investment objective by investing its assets primarily in closed-end funds or CEFs that invest in fixed income securities. A CEF is a pooled investment vehicle that is registered under the Investment Company Act of 1940 and whose shares are listed and traded on U.S. national securities exchanges. The Fund's investment performance, therefore, depends on the secondary market price and investment performance of the underlying CEFs in which it invests. An investment in the Fund will be subject to the risks associated with investing in these CEFs. Like any stock, a CEF's share price will fluctuate in response to market conditions and other factors. Secondary market trading prices of CEFs should be expected to fluctuate and such prices may be higher or lower than the net asset value of a CEF's portfolio holdings. When such prices are higher, shares are said to be trading at a premium. When they are lower, shares are said to be trading at a discount. CEF shares frequently trade at persistent and ongoing discounts to the net asset value of the CEF's portfolio investments. There can be no guarantee that shares of a CEF held by the Fund will not trade at a persistent and ongoing discount. Nor can there be any guarantee that an active market in shares of the CEFs held by the Fund will exist. The Fund may not be able to sell CEF shares at a price equal to the net asset value of the CEF. While the Fund seeks to achieve capital appreciation by taking advantage of differences between the net asset value of CEF shares and any secondary market premiums or discounts, the Fund may not be able to do so. In addition, there can be no assurance that any CEF will achieve its stated investment objective. While the Fund attempts to invest in a diversified basket of CEFs, lackluster performance of a single CEF can have a negative impact on the performance of the Fund as a whole. The Fund may lose money on its investment in any CEF which, in turn, may cause investors to lose money on an investment in the Fund. References to the investments and risks of the Fund should be understood also to be references to the investments and risks of the underlying CEFs in which the Fund invests (unless otherwise indicated).

Interest Rate Risk

The value of fixed income securities, and therefore the value of an investment in the Fund, may change in response to changes in interest rates. Generally, if U.S. interest rates rise, then the value of a U.S. fixed income security is expected to decrease. Similarly, if non-U.S. interest rates rise, the value of a security denominated in that non-U.S. currency would also be expected to decrease. In general, securities with longer maturities are more vulnerable to interest rate changes. The average portfolio maturity of a CEF is the average of all the current maturities of the individual securities in the CEF's portfolio. Average portfolio maturity is important to investors as an indication of a CEF's sensitivity to changes in interest rates. Funds with longer portfolio maturities generally are subject to greater interest rate risk.

Table of Contents

Low Interest Rate Risk

Financial crisis, recession, and deflation could contribute to declines in U.S. and international interest rates. Recent events in the financial sector have resulted, and may continue to result, in downward pressure on interest rates and returns on money market instruments and other investments. If this continues to occur, rates may decline to levels where the interest earned by the Fund's investments becomes insufficient to cover the expenses of the Fund. In these circumstances, the Fund may need to use available cash or sell securities out of the Fund to compensate for this shortfall. In addition, in order to invest in higher quality, more liquid investments, the Fund may need to accept lower returns on investment. These circumstances could cause a decline in the NAV of the Fund, could have negative tax consequences and could cause investors to lose money.

Market Risk

The price of fixed income securities, and therefore the value of an investment in the Fund, may fluctuate in response to a variety of general market factors. These factors include economic, market and political developments that affect specific market segments and the market as a whole. The Fund's NAV and market price, like fixed income securities prices generally, may fluctuate within a wide range in response to these factors. As a result, an investor in the Fund could lose money over short or even long periods.

Recent events in the financial sector have resulted, and may continue to result, in an unusually high degree of volatility in the financial markets, both domestic and foreign. Both domestic and foreign fixed income and equity markets have been experiencing extreme volatility and turmoil. Issuers that have exposure to the real estate, mortgage and credit markets have been particularly affected and well-known financial institutions have experienced significant liquidity and other problems. Some of these institutions have declared bankruptcy or defaulted on their debt. It is uncertain whether or for how long these conditions will continue. These events and possible continuing market turbulence may have an adverse effect on Fund performance.

Credit Risk

The CEFs in which the Fund invests are exposed to credit risk. Credit risk is the risk that the financial condition of an issuer of a fixed income security may cause it to default or become unable to pay interest or principal due on the security. Investors cannot collect interest and principal payments on a security if the issuer defaults. The CEFs may invest in bonds rated below investment grade. These bonds generally are considered to be riskier and more likely to default than bonds that are deemed to be investment grade. Recent events in the financial sector have resulted in increased concerns about credit risk and exposure. Well-known financial institutions have experienced significant liquidity and other problems and have defaulted on their debt. The degree of credit risk for a particular security may be reflected in its credit rating. However, credit ratings can change quickly and may not accurately reflect the risk of an issuer. Generally, investment risk and price volatility increase as the credit rating of a security declines. While the Fund attempts to maintain diversified credit exposure through investment in a number of CEFs, the value of an investment in a Fund may change quickly and without warning in response to credit events that have a material impact the value of the underlying CEFs' portfolio holdings.

Non-U.S. Securities Risk.

The CEFs in which the Fund invests may invest in non-U.S. fixed income securities. The Fund is therefore exposed to the risks of investing in these securities. Non-U.S. markets may be more volatile than the U.S. market due to increased risks of adverse issuer, political, regulatory, market, or economic developments and can perform differently from the U.S. market. Investing in securities issued by foreign companies directly, or in financial instruments that are indirectly linked to the performance of foreign issuers, may involve risks not typically associated with investing in U.S. issuers. The value of securities denominated in foreign currencies, and of dividends from such securities, can change significantly when foreign currencies strengthen or weaken relative to the U.S. Dollar. Foreign securities markets generally have less trading volume and less liquidity than U.S. markets, and prices in some foreign markets may fluctuate more than those of securities traded on U.S. markets. Many foreign countries lack accounting and disclosure standards comparable to those that apply to U.S. companies, and it may be more difficult to obtain reliable information regarding a foreign issuer's financial condition and operations. Transaction costs and costs associated with custody services are generally higher for foreign securities than they are for U.S. securities.

Table of Contents

Emerging Markets Risk

The CEFs in which the Fund invests may invest in fixed income instruments issued by companies or governments in emerging market countries. The Fund is therefore exposed to the risks of investing in these securities. Securities issued and traded in emerging markets may be subject to additional risks associated with emerging market economies. Such risks may include: (i) greater market volatility, (ii) lower trading volume, (iii) greater social, political and economic uncertainty, (iv) governmental controls on foreign investments and limitations on repatriation of invested capital, (v) the risk that companies may be held to lower disclosure, corporate governance, auditing and financial reporting standards than companies in more developed markets, and (vi) the risk that there may be less protection of property rights than in other countries. Emerging markets are generally less liquid and less efficient than developed securities markets.

Financial Sector Risk

The CEFs in which the Fund invests each may invest a relatively large percentage of its assets (i.e., concentrate) in debt obligations and other securities of issuers in the financial sector and therefore the performance of the Fund will be impacted by events affecting the financial sector. This sector can be significantly affected by changes in interest rates, the rate of corporate and consumer debt defaulted, price competition, and the availability and cost of capital funds. Recent events have severely impacted the value of investments in financial sector companies, particularly those with exposure to real estate and mortgage securities. Debt obligations and other securities of such companies may be less liquid and more susceptible to credit risk than in the past. While the Fund attempts to maintain diversified exposure to the financial sector through investment in a number of CEFs, the value of an investment in a Fund may change quickly and without warning in response to events that have a material impact the financial sector and the value of the underlying CEFs' portfolio holdings.

Non-Correlation Risk

As with all index funds, the performance of a Fund and its Index may vary somewhat for a variety of reasons. For example, the Fund incurs operating expenses and portfolio transaction costs not incurred by its Index. In addition, applicable regulations, such as the Investment Company Act of 1940, may limit the ability of the Fund to invest in the closed-end funds included in the Index to the same extent as the Index. Also, the use of representative sampling techniques, while potentially reducing portfolio transaction costs, increases non-correlation risk since the Fund may not hold all of the securities included in the Index or in the same proportion as they are included in the Index.

Shares of the Funds May Trade at Prices Other Than NAV

As with all ETFs, Fund shares may be bought and sold in the secondary market at market prices. Although it is expected that the market price of the shares of the Fund will approximate the respective Fund's NAV, there may be times when the market price and the NAV vary significantly. Thus, you may pay more than NAV when you buy shares of the Fund in the secondary market, and you may receive less than NAV when you sell those shares in the secondary market.

The market price of Fund shares during the trading day, like the price of any exchange-traded security, includes a bid/ask spread charged by the exchange specialist, market makers or other participants that trade the Fund shares. The bid/ask spread on ETF shares is likely to be larger on ETFs that are traded less frequently. In addition, in times of severe market disruption, the bid/ask spread can increase significantly. At those times, Fund shares are most likely to be traded at a discount to NAV, and the discount is likely to be greatest when the price of shares is falling fastest, which may be the time that you most want to sell your shares. You may wish to discuss ETF trading strategies, such as the use of limit orders and stop orders, with your broker.

Lack of Governmental Insurance or Guarantee

An investment in the Fund is not a bank deposit and it is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Table of Contents

Performance Information

No performance information is presented for the Fund because it has been in operation for less than one full calendar year. After the first full calendar year, a risk/return chart and table will be provided. Any past performance of the Fund that will be shown will not be an indication of future results.

Fees and Expenses

The following table describes the fees and expenses you may pay if you buy and hold shares of the Fund. The fees are expressed as a percentage of the Fund's average net assets. You may also incur customary brokerage charges when buying or selling Fund shares.

Shareholder Fees

(fees paid directly from your investment, but see the Creation Transaction Fees and Redemption Transaction Fees section below)

Annual Fund Operating Expenses (expenses deducted from Fund assets)

Management Fees

Distribution and/or Service (12b-1) Fees

Other Expenses^(a)

Acquired Fund Fees and Expenses^(b)

Total Annual Fund Operating Expenses

^(a) WisdomTree Asset Management has agreed to pay all operating expenses of the Fund, except interest expenses and taxes, brokerage expenses, future distribution fees or expenses, and extraordinary expenses through _____, 2010. WisdomTree Asset Management receives a fee of up to ___% in exchange for providing certain non-advisory services to the Fund.

^(b) Acquired Fund Fees and Expenses reflect fees and expenses that are not directly paid by the Fund. Rather, they are indirectly incurred as a result of investment in shares of the underlying closed-end funds. This amount is based on an estimate of the Fund's allocation to these underlying funds for the current fiscal year.

The following example is intended to help retail investors compare the cost of investing in the Fund with the cost of investing in other funds. It illustrates the hypothetical expenses that such investors would incur over various periods if they invest \$10,000 in the Fund for the time periods indicated and then redeemed all of the shares at the end of those periods. This example assumes that the Fund provides a return of 5% a year and that operating expenses remain the same. This example does not include the brokerage commission that retail investors may pay to buy and sell shares of the Fund. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

	1 Year	3 Years
	\$	\$

You would pay the following expenses if you did not redeem your shares:

	1 Year	3 Years
	\$	\$

Table of Contents

Management

Investment Adviser

As investment adviser, WisdomTree Asset Management has overall responsibility for the general management and administration of the Trust. WisdomTree Asset Management provides an investment program for the Fund. WisdomTree Asset Management also arranges for sub-advisory, transfer agency, custody, fund administration, and all other non-distribution related services necessary for the Funds to operate.

Under the Investment Advisory Agreement for the Fund, WisdomTree Asset Management agrees to pay all expenses of the Trust, except compensation and expenses of the Independent Trustees, counsel to the Independent Trustees and the Trust’s Chief Compliance Officer, interest expenses and taxes, brokerage expenses, and other expenses connected with the execution of portfolio transactions, any distribution fees or expenses, legal fees or expenses and extraordinary expenses. Pursuant to a separate contractual arrangement, WisdomTree Asset Management arranges for the provision of chief compliance officer (CCO) services with respect to the Fund and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees.

The basis for the Board of Trustees’ approval of the Investment Advisory Agreements is available in the Trust’s Annual Report to Shareholders for the period ended _____, 2010.

WisdomTree Asset Management expects to receive fees from the Fund, based on a percentage of the Fund’s average daily net assets, as shown in the following table:

Name of Fund	Management	Fee
WisdomTree CEF Fixed Income Fund		
WisdomTree Asset Management is a registered investment adviser with offices located at 380 Madison Avenue, 21st Floor, New York, NY 10017 and is a leader in ETF management.		

Sub-Adviser

[] serves as sub-adviser to the Funds. [], a registered investment adviser, is a leading innovator in the investment industry and manages global quantitative-based investment strategies for institutional and private investors. Its principal office is located at []. As of [], 2009, [] had assets under management totaling approximately \$____ billion. [] is a wholly-owned indirect subsidiary of [] a publicly traded financial holding company. [] chooses the Fund’s portfolio investments and places orders to buy and sell the Funds’ portfolio investments.

The Sub-Adviser is entitled to receive the fees indicated for acting as Sub-Adviser: []

Table of Contents

Portfolio Managers

The Fund is managed by a team of managers. The individual members of the team responsible for the day-to-day management of the Fund's portfolio are:

[To follow]

The Trust's Statement of Additional Information (SAI) provides additional information about the Portfolio Managers' compensation, other accounts managed by the Portfolio Managers, and the Portfolio Managers' ownership of shares in the Funds for which they are Portfolio Managers.

Portfolio Holdings Information

Information about the Fund's daily portfolio holdings is available at www.wisdomtree.com. In addition, the Fund discloses its complete portfolio holdings as of the end of its fiscal year (August 31) and its second fiscal quarter (February 28) in its reports to shareholders. The Fund files its complete portfolio holdings as of the end of its first and third fiscal quarters (November and May, respectively) with the SEC on Form N-Q no later than 60 days after the relevant fiscal period. You can find the SEC filings on the SEC's website, www.sec.gov. A summarized description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio holdings is available in the Trust's SAI.

Buying and Selling Shares

Most investors will buy and sell shares of the Fund through brokers. Shares of the Fund trade on national securities exchanges and elsewhere during the trading day and can be bought and sold throughout the trading day like other shares of publicly-traded securities. When buying or selling shares through a broker, most investors will incur customary brokerage commissions and charges.

Shares of the Fund trade under the trading symbols listed for the Fund. Shares of the Funds may be acquired or redeemed directly from a Fund only in Creation Units or multiples thereof, as discussed in the Creation and Redemption section. Once created, shares of the Funds trade in the secondary market in amounts less than a Creation Unit.

Share Trading Prices

As with other types of securities, the trading prices of shares in the secondary market can be affected by market forces such as supply and demand, economic conditions and other factors. The price you pay or receive when you buy or sell your shares in the secondary market may be more or less than the NAV of such shares.

The approximate value of shares of the Fund is disseminated every fifteen seconds throughout the trading day by the national securities exchange on which the Fund is listed or by other information providers. This approximate value should not be viewed as a real-time update of the NAV, because the approximate value may not be calculated in the same manner as the NAV, which is computed once per day. The approximate value generally is determined by using current market quotations and/or price quotations obtained from broker-dealers that may trade in the portfolio securities held by the Fund. The Fund is not involved in, or responsible for, the calculation or dissemination of the approximate value and makes no warranty as to its accuracy.

Determination of Net Asset Value

The NAV of the Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time (the NAV Calculation Time). NAV per share is calculated by dividing the Fund's net assets by the number of Fund shares outstanding.

Stocks held by the Fund are valued at their market value when reliable market quotations are readily available. Certain short term debt instruments, which may be used to manage the Fund's cash, are valued on the basis of amortized cost. The values of any foreign securities held by the Fund are converted into U.S. dollars using an exchange rate deemed appropriate by the Fund.

Table of Contents

When reliable market quotations are not readily available, securities are priced at their fair value, which is the price a security's owner might reasonably expect to receive upon its sale. The Fund may also use fair-value pricing if the value of a security it holds has been materially affected by events occurring before the Fund's pricing time but after the close of the primary markets or exchanges on which the security is traded. For example, this may occur with foreign securities, which may trade on foreign exchanges that close many hours before the Fund's pricing time. Intervening events might be company-specific (e.g., earnings report, merger announcement), country-specific (e.g., natural disaster, economic or political news, act of terrorism, interest rate change), or global. Intervening events may include price movements in U.S. markets that are deemed to affect the value of foreign securities. Fair-value pricing also may be used if, for example, trading in a security is halted and does not resume before the Fund's pricing time or if a security does not trade in the course of a day. Fair-value prices are determined by the Funds according to procedures adopted by the Board of Trustees. When fair-value pricing is employed, the prices of securities used by the Fund to calculate its NAV may differ from quoted or published prices for the same securities.

Transactions in Fund shares will be priced at NAV only if you purchase or redeem shares directly from the Fund in Creation Units. Fund shares are purchased or sold on a national securities exchange at market prices, which may be higher or lower than NAV.

Dividends and Distributions

The Fund pays out dividends, if any, to investors at least annually. The Fund distributes its net realized capital gains, if any, to investors annually. The Fund may occasionally be required to make supplemental distributions at some other time during the year. Distributions in cash may be reinvested automatically in additional whole shares only if the broker through whom you purchased shares makes such option available. Your broker is responsible for distributing the income and capital gain distributions to you.

Book Entry

Shares of the Fund are held in book-entry form, which means that no stock certificates are issued. The Depository Trust Company (DTC) or its nominee is the record owner of all outstanding shares of the Fund.

Investors owning shares of the Fund are beneficial owners as shown on the records of DTC or its participants. DTC serves as the securities depository for all shares of the Funds. Participants include DTC, securities brokers and dealers, banks, trust companies, clearing corporations, and other institutions that directly or indirectly maintain a custodial relationship with DTC. As a beneficial owner of shares, you are not entitled to receive physical delivery of stock certificates or to have shares registered in your name, and you are not considered a registered owner of shares. Therefore, to exercise any right as an owner of shares, you must rely upon the procedures of DTC and its participants. These procedures are the same as those that apply to any securities that you hold in book entry or street name form. Your broker will provide you with account statements, confirmations of your purchases and sales, and tax information.

Delivery of Shareholder Documents Householding

Householding is an option available to certain investors of the Funds. Householding is a method of delivery, based on the preference of the individual investor, in which a single copy of certain shareholder documents can be delivered to investors who share the same address, even if their accounts are registered under different names. Householding for the Funds is available through certain broker-dealers. If you are interested in enrolling in householding and receiving a single copy of prospectuses and other shareholder documents, please contact your broker-dealer. If you are currently enrolled in householding and wish to change your householding status, please contact your broker-dealer.

Frequent Purchases and Redemptions of Fund Shares

The Funds have adopted policies and procedures with respect to frequent purchases and redemptions of Creation Units of Fund shares. Since the Funds are ETFs, only a few institutional investors (known as Authorized Participants) are authorized to purchase and redeem shares directly with the Funds. Because purchase and redemption transactions with Authorized Participants are an essential part of the ETF process and help keep ETF trading prices in line with NAV, the Fund accommodates frequent purchases and redemptions by Authorized Participants. Frequent purchases and redemptions for cash may increase index tracking error and portfolio transaction costs and may lead to realization of capital gains. Frequent in-kind creations and redemptions do not give rise to these

Table of Contents

concerns. The Fund reserves the right, to reject any purchase order at any time. The Fund reserves the right to impose restrictions on disruptive, excessive, or short-term trading and may reject purchase or redemption orders in such instances.

Taxes

The following discussion is a summary of some important U.S. federal income tax considerations generally applicable to investments in the Funds. Your investment in a Fund may have other tax implications. Please consult your tax advisor about the tax consequences of an investment in Fund shares, including the possible application of foreign, state, and local tax laws.

The Fund intends to qualify each year as a regulated investment company. A regulated investment company is not subject to tax at the fund level on income and gains from investments that are timely distributed to shareholders. However, a Fund's failure to qualify as a regulated investment company would result in fund-level taxation, and consequently, a reduction in income available for distribution to shareholders.

Unless your investment in shares is made through a tax-exempt entity or tax-deferred retirement account, such as an individual retirement account, you need to be aware of the possible tax consequences when:

n A Fund makes distributions,

n You sell shares, and

n You purchase or redeem Creation Units (for institutional investors only)

Taxes on Distributions

For federal income tax purposes, distributions of investment income are generally taxable as ordinary income. Taxes on distributions of capital gains (if any) are determined by how long a Fund owned the investments that generated them, rather than how long you have owned your Fund shares. Distributions of net capital gains (the excess of net long-term capital gains from the sale of investments that a Fund owned for more than one year over net short-term capital losses) that are properly designated by the Fund as capital gain dividends (Capital Gain Dividends) will be taxable as long-term capital gains. Long-term capital gain rates have been temporarily reduced in general, to 15%, with lower rates applying to taxpayers in the 10% and 15% rate brackets for taxable years beginning before January 1, 2011. Distributions of gains from the sale of investments that a Fund owned for one year or less will be taxable as ordinary income.

For taxable years beginning before January 1, 2011, distributions of investment income designated by a Fund as derived from qualified dividend income are taxed to individuals at rates applicable to long-term capital gain, provided holding period and other requirements are met at both the shareholder and the Fund level.

In general, your distributions are subject to federal income tax for the year in which they are paid. Certain distributions paid in January, however, may be treated as paid on December 31 of the prior year. Distributions are taxable even if they are paid from income or gains earned by a Fund before your investment (and thus were included in the price you paid for your shares).

If you are neither a resident nor a citizen of the United States or if you are a foreign entity, dividends (other than Capital Gain Dividends) paid to you by the Funds will generally be subject to a 30% U.S. withholding tax, unless a lower treaty rate applies.

The Funds (or financial intermediaries, such as brokers, through which a shareholder owns Fund shares) generally are required to withhold and remit to the U.S. Treasury a percentage of the taxable distributions and sale or redemption proceeds paid to any shareholder who fails to properly furnish a correct taxpayer identification number, who has under-reported dividend or interest income, or who fails to certify that he, she or it is not subject to such withholding.

Taxes When Fund Shares are Sold

Edgar Filing: WisdomTree Trust - Form 485APOS

Any capital gain or loss realized upon a sale of Fund shares is generally treated as a long-term gain or loss if the shares have been held for more than one year. Any capital gain or loss realized upon a sale of Fund shares held for one year or less is generally treated

Table of Contents

as a short-term gain or loss, except that any capital loss on a sale of shares held for six months or less is treated as long-term capital loss to the extent that capital gain dividends were paid with respect to such shares. The ability to deduct capital losses may be limited.

Taxes on Creation and Redemption of Creation Units

An Authorized Participant who exchanges securities for Creation Units generally will recognize a gain or a loss equal to the difference between the market value of the Creation Units at the time of the exchange and the sum of the exchanger's aggregate basis in the securities surrendered and the cash component paid. A person who redeems Creation Units will generally recognize a gain or loss equal to the difference between the exchanger's basis in the Creation Units and the sum of the aggregate market value of the securities and the amount of cash received for such Creation Units. The Internal Revenue Service, however, may assert that a loss realized upon an exchange of securities for Creation Units cannot be deducted currently under the rules governing wash sales, or on the basis that there has been no significant change in economic position. Persons exchanging securities for Creation Units should consult a tax advisor with respect to whether the wash sale rules apply and when a loss might be deductible.

Any capital gain or loss realized upon a redemption (or creation) of Creation Units is generally treated as long-term capital gain or loss if the Fund shares (or securities surrendered) have been held for more than one year and as short-term capital gain or loss if the shares (or securities surrendered) have been held for one year or less.

If you purchase or redeem Creation Units, you will be sent a confirmation statement showing how many shares you purchased or sold and at what price. Persons purchasing or redeeming Creation Units should consult their own tax advisors with respect to the tax treatment of any creation or redemption transaction.

Creation and Redemption

The shares that trade in the secondary market are created at NAV. The Fund issues and redeems shares only in large blocks of shares, typically 50,000 shares or more (Creation Units). Only institutional investors who have entered into an authorized participant agreement purchase or redeem Creation Units. Creation Units generally are issued and redeemed in exchange for a specified basket of securities approximating the holdings of a Fund and a designated amount of cash. Each business day prior to the opening of trading the Fund publishes the specific securities and designated amount of cash included in that day's basket for the Fund through the National Securities Clearing Corporation (NSCC) or other method of public dissemination. The Fund reserves the right to accept or pay out a basket of securities or cash that differs from the published basket. The prices at which creations and redemptions occur are based on the next calculation of NAV after an order is received in proper form.

Creations and redemptions must be made by an Authorized Participant or through a firm that is either a member of the Continuous Net Settlement System of the NSCC or a DTC participant, and in each case, must have executed an agreement with the Distributor with respect to creations and redemptions of Creation Unit aggregations. Information about the procedures regarding creation and redemption of Creation Units is included in the Trust's SAI.

Authorized Participants and the Continuous Offering of Shares

Because new shares may be created and issued on an ongoing basis, at any point during the life of a Fund, a distribution, as such term is used in the Securities Act of 1933 (Securities Act), may be occurring. Broker-dealers and other persons are cautioned that some activities on their part may, depending on the circumstances, result in their being deemed participants in a distribution in a manner that could render them statutory underwriters and subject to the prospectus-delivery and liability provisions of the Securities Act. Nonetheless, any determination of whether one is an underwriter must take into account all the relevant facts and circumstances of each particular case.

Broker-dealers should also note that dealers who are not underwriters, but are participating in a distribution (as contrasted to ordinary secondary transactions), and thus dealing with shares that are part of an unsold allotment within the meaning of Section 4(3)(C) of the Securities Act, would be unable to take advantage of the prospectus delivery exemption provided by Section 4(3) of the Securities Act. For delivery of prospectuses to exchange members, the prospectus delivery mechanism of Rule 153 under the Securities Act is only available with respect to transactions on a national securities exchange.

Table of Contents

Creation and Redemption Transaction Fees for Creation Units

The Fund may impose a creation transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units of shares. The creation and redemption transaction fees applicable to the Fund are listed below. The standard creation transaction fee is charged to each purchaser on the day such purchaser creates a Creation Unit. The standard fee is a single charge and will be the amount indicated below regardless of the number of Creation Units purchased by an investor on the same day. Similarly, the standard redemption transaction fee will be the amount indicated regardless of the number of Creation Units redeemed that day. Purchasers and redeemers of Creation Units of a Fund for cash will also be subject to an additional variable charge of up to a maximum of four times the amount shown below under **Maximum Creation/Redemption Transaction Fee** to offset the transaction cost to the Fund of buying portfolio securities. In addition, purchasers and redeemers of shares in Creation Units are responsible for payment of the costs of transferring securities to or out of a Fund. From time to time, WisdomTree Asset Management may cover the cost of any transaction fees.

The following table also shows, as of July 1, 2009, the approximate value of one Creation Unit per Fund, including the standard creation and redemption transaction fee. These fees are payable only by investors who purchase shares directly from a Fund. Retail investors who purchase shares through their brokerage account will not pay these fees.

Name of Fund	Approximate Value of One Creation Unit	Standard Creation/ Redemption Transaction Fee	Maximum Creation/ Redemption Transaction Fee
WisdomTree CEF Fixed Income Fund Distribution			

ALPS Distributors, Inc. (the **Distributor**) serves as the distributor of Creation Units for the Fund on an agency basis. The Distributor does not maintain a secondary market in shares of the Funds. The Distributor's principal address is 1290 Broadway, Suite 1100, Denver, Colorado 80203.

The Distributor has no role in determining the policies of the Fund or the securities that are purchased or sold by the Fund.

Additional Notices

WisdomTree Investments, WisdomTree Asset Management and the Funds make no representation or warranty, express or implied, to the owners of shares of the Funds or any member of the public regarding the advisability of investing in securities generally or in the Funds particularly or the ability of the Indexes to track general stock market performance. WisdomTree Investments is the licensor of certain trademarks, service marks and trade names of the Funds. WisdomTree Investments has no obligation to take the needs of the Funds or the owners of shares of the Funds into consideration in determining, composing, or calculating the Indexes. WisdomTree Investments is not responsible for, and has not participated in, the determination of the timing of, prices at, or quantities of shares of the Funds to be issued or in the determination or calculation of the equation by which the shares of the Funds are redeemable.

Shares of the Trust are not sponsored, endorsed, or promoted by any listing exchange (**Exchange**). The Exchange makes no representation or warranty, express or implied, to the owners of the shares of any Fund or any member of the public regarding the ability of a fund to track the total return performance of any Index or the ability of any Index identified herein to track stock market performance. The Exchange is not responsible for, nor has it participated in, the determination of the compilation or the calculation of any Index, nor in the determination of the timing of, prices of, or quantities of the shares of any Fund to be issued, nor in the determination or calculation of the equation by which the shares are redeemable. The Exchange has no obligation or liability to owners of the shares of any Fund in connection with the administration, marketing, or trading of the shares of the Fund.

GENERAL DESCRIPTION OF THE TRUST AND THE FUND

WisdomTree Trust (the Trust) was organized as a Delaware statutory trust on December 15, 2005 and is authorized to have multiple series or portfolios. The Trust is an open-end, non-diversified management investment company, registered under the Investment Company Act of 1940, as amended (the 1940 Act). The offering of the Trust's shares is registered under the Securities Act of 1933, as amended (the Securities Act). This SAI describes one series of the Trust: the WisdomTree CEF Fixed Income Fund (the Fund).

The Fund seeks investment returns that closely correspond to the price and yield performance, before fees and expenses, of the S-Network Fixed Income Closed-End Funds Index (the Index). The Index is an index of closed-end funds that invest in U.S. and/or non-U.S. fixed income securities. The Index is created using proprietary methodology developed by S-Network Global Indexes LLC (S-Network). S-Network is a publisher and developer of proprietary and custom indexes. S-Network was founded in 1997 to serve as a consultant to the financial services industry.

The Fund issues and redeems shares at net asset value per share (NAV) only in large blocks of shares, typically 50,000 shares or more (Creation Units). These transactions are usually in exchange for a basket of securities and an amount of cash. As a practical matter, only institutions or large investors purchase or redeem Creation Units. Except when aggregated in Creation Units, shares of the Fund are not redeemable securities.

Shares of the Fund are listed on a national securities exchange, such as NYSE Arca or the NASDAQ Stock Market (NASDAQ) (each, a Listing Exchange), and trade throughout the day on the Listing Exchange and other secondary markets at market prices that may differ from NAV. As in the case of other publicly traded securities, brokers' commissions on transactions will be based on negotiated commission rates at customary levels.

The Trust reserves the right to adjust the share prices of shares in the future to maintain convenient trading ranges for investors. Any adjustments would be accomplished through stock splits or reverse stock splits, which would have no effect on the net assets of the applicable Fund.

WisdomTree is a registered mark of WisdomTree Investments and has been licensed for use by the Trust. WisdomTree Investments has patent applications pending on the methodology and operation of its Indexes and the Funds.

INVESTMENT STRATEGIES AND RISKS

Principal Investment Strategy

As a matter of general policy, the Fund will invest at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in the types of investments suggested by its name. If, subsequent to an investment, the 80% requirement is no longer met, the Fund's future investments will be made in a manner that will bring the Fund into compliance with this policy. The Trust will provide shareholders with sixty (60) days prior notice of any change to this policy for the Fund.

The **WisdomTree CEF Fixed Income Fund** seeks to track the price and yield performance, before fees and expenses, of the S-Network Fixed Income Closed-End Funds Index (the Index). The Index is an index of closed-end, fixed income funds. To achieve its investment objective, the Fund intends to invest its assets primarily in shares of U.S. stock exchange listed closed-end funds (CEFs) that make up the Index. The Index measures the performance of 75 CEFs which invest in the fixed income sector and that meet specified requirements as of the Index measurement date. Additional information about the Index is included herein under the heading Description of the Index.

General Risks. An investment in the Fund should be made with an understanding that the value of the Fund's portfolio securities may fluctuate in accordance with changes to the trading prices of the closed-end funds in which it invests and the value of the portfolio holdings of such closed-end funds.

The Fund pursues its investment objective by investing its assets primarily in closed-end funds or CEFs that invest in fixed income securities. The Fund's investment performance, therefore, depends on the secondary market price and investment performance of the underlying CEFs in which it invests. An investment in the Fund will be subject to the risks associated with investing in these CEFs. Like any stock, a CEF's share price will fluctuate in response to market conditions and other factors. Secondary market trading prices of CEFs should be expected to fluctuate and such prices may be higher or lower than the net asset value of a CEF's portfolio holdings. When such prices are higher, shares are said to be trading at a premium. When they are lower, shares are said to be

Table of Contents

trading at a discount. CEF shares frequently trade at persistent and ongoing discounts to the net asset value of the CEF's portfolio investments. There can be no guarantee that the Fund will be able to make money by seeking to take advantages of differences between these discounts and the net asset value of the CEFs included in the Index. There can be no assurance that any CEF will achieve its investment objective. References to the investments and risks of the Fund should be understood, unless otherwise indicated, to be references to the investments and risks of the underlying CEFs. The value of the portfolio holdings of CEFs is affected by a variety of factors, including the financial condition of an issuer or counterparty, changes in specific economic or political conditions that affect a particular security or issuer and changes in general economic or political conditions.

An investment in the Fund should also be made with an understanding of the risks inherent in an investment in securities, including the risk that the general condition of the stock, fixed income and commodities markets may deteriorate and the risk that market events may have a negative impact on specific issuers and counterparties. The performance of equity securities, fixed income securities, commodities and other instruments is influenced by a variety of unpredictable factors. Market events could have a negative effect on the value of a Fund's portfolio holdings and the value of an investment in a Fund. Investors may lose all or a portion of the value of an investment over short or long periods of time.

Recent events in the financial sector have resulted, and may continue to result, in an unusually high degree of volatility in the financial markets, both domestic and foreign. Both domestic and foreign fixed income, equity and commodity markets have been experiencing significant volatility and disruption. Issuers that have exposure to the real estate, mortgage and credit markets have been particularly affected and well-known financial institutions have experienced significant liquidity and other problems. Some of these institutions have declared bankruptcy or defaulted on their debt. It is uncertain whether or for how long these conditions will continue. These events and possible continuing market turbulence may have an adverse effect on Fund performance. Although the Fund attempts to invest in liquid securities and instruments, there can be no guarantees that a liquid market for such securities and instruments will be maintained. The price at which securities may be sold and the value of a Fund's shares will be adversely affected if trading markets for a Fund's portfolio holdings are limited.

A discussion of some of the other risks associated with an investment in the Fund is contained in the Fund's Prospectus.

Specific Investment Strategies. As noted, the Fund pursues its investment objective by investing its assets primarily in closed-end funds or CEFs that invest in fixed income securities. The Fund's investment performance, therefore, depends on the investment performance of the underlying CEFs in which it invests. An investment in the Fund will be subject to the risks associated with investing in these CEFs. References to the investments and risks of the Fund should be understood also to be references to the investments and risks of the underlying CEFs (unless otherwise indicated). Descriptions of certain investment strategies and types of investments used by the Fund and the CEFs in which it invests are set forth below.

Closed-End Funds

The Fund pursues its investment objective by investing its assets primarily in closed-end funds or CEFs that invest in fixed income securities. A CEF is a pooled investment vehicle that is registered under the Investment Company Act of 1940 and whose shares are listed and traded on U.S. national securities exchanges. The Fund's investment performance, therefore, depends on the secondary market price and investment performance of the underlying CEFs in which it invests. An investment in the Fund will be subject to the risks associated with investing in these CEFs. Like any stock, a CEF's share price will fluctuate in response to market conditions and other factors. Secondary market trading prices of CEFs should be expected to fluctuate and such prices may be higher or lower than the net asset value of a CEF's portfolio holdings. When such prices are higher, shares are said to be trading at a premium. When they are lower, shares are said to be trading at a discount. CEF shares frequently trade at persistent and ongoing discounts to the net asset value of the CEF's portfolio investments. There can be no guarantee that shares of a CEF held by the Fund will not trade at a persistent and ongoing discount. Nor can there be any guarantee that an active market in shares of the CEFs held by the Fund will exist. The Fund may not be able to sell CEF shares at a price equal to the net asset value of the CEF. While the Fund seeks to achieve capital appreciation by taking advantage of differences between the net asset value of CEF shares and any secondary market premiums or discounts, the Fund may not be able to do so. In addition, there can be no assurance that any CEF will achieve its stated investment objective. While the Fund attempts to invest in a diversified basket of CEFs, lackluster performance of a single CEF can have a negative impact on the performance of the Fund as a whole. The Fund may lose money on its investment in any CEF which, in turn, may cause investors to lose money on an investment in the Fund. References to the investments and risks of the Fund should be understood also to be references to the investments and risks of the underlying CEFs in which the Fund invests (unless otherwise indicated).

Bank Deposits and Obligations. The Fund and the CEFs may invest in deposits and other obligations of U.S. and non-U.S. banks and financial institutions. Deposits and obligations of banks and financial institutions include certificates of deposit, time deposits, and bankers' acceptances. Certificates of deposit and time deposits represent an institution's obligation to repay funds deposited with it that earn a specified interest rate. Certificates of deposit are negotiable certificates, while time deposits are non-negotiable deposits. A banker's acceptance is a time draft drawn on and accepted by a bank that becomes a primary and unconditional liability of the bank upon acceptance. Investments in obligations of non-U.S. banks and financial institutions may involve risks that are different from

Table of Contents

investments in obligations of U.S. banks. These risks include future unfavorable political and economic developments, seizure or nationalization of foreign deposits, currency controls, interest limitations or other governmental restrictions that might affect the payment of principal or interest on the securities held in the Fund or a CEF.

Money Market Instruments. The Fund and the CEFs may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which a Fund may invest include: (i) short-term obligations issued by the U.S. Government; (ii) negotiable certificates of deposit (CDs), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions; (iii) commercial paper rated at the date of purchase Prime-1 by Moody's or A-1+ or A-1 by S&P or, if unrated, of comparable quality as determined by the Fund; and (iv) repurchase agreements. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions. The CEFs may invest in other types of money market instruments.

U.S. Government Securities. The Fund and the CEFs may purchase short-term obligations issued or guaranteed by the U.S. Treasury or the agencies or instrumentalities of the U.S. government. U.S. government securities are obligations of, or guaranteed by, the U.S. government, its agencies or government-sponsored enterprises. U.S. government securities are subject to market and interest rate risk, and may be subject to varying degrees of credit risk. U.S. government securities include inflation-indexed fixed income securities, such as U.S. Treasury Inflation Protected Securities (TIPS). U.S. government securities include zero coupon securities, which tend to be subject to greater market risk than interest-paying securities of similar maturities.

Non-U.S. Government Securities and Supranational Entities. The CEFs held by the Fund may invest in short-term securities issued or guaranteed by non-U.S. governments, agencies and instrumentalities. Non-U.S. government securities include direct obligations, as well as obligations guaranteed by a foreign government. These guarantees do not guarantee the market value of the obligations, which can increase or decrease in value. Securities issued by supranational entities include securities issued by organizations designated or supported by governmental entities to promote economic development and international financial institutions and related government agencies, such as the World Bank. These securities are subject to varying degrees of credit risk and interest rate risk.

Sovereign Debt Obligations. The CEFs held by the Fund may invest in sovereign debt obligations. Sovereign debt obligations involve special risks that are not present in corporate debt obligations. The foreign issuer of the sovereign debt or the foreign governmental authorities that control the repayment of the debt may be unable or unwilling to repay principal or interest when due, and a fund may have limited recourse in the event of a default. During periods of economic uncertainty, the market prices of sovereign debt, and the Fund's net asset value, to the extent it invests in such securities, may be more volatile than prices of debt obligations of U.S. issuers. In the past, certain foreign countries have encountered difficulties in servicing their debt obligations, withheld payments of principal and interest and declared moratoria on the payment of principal and interest on their sovereign debt. A sovereign debtor's willingness or ability to repay principal and pay interest in a timely manner may be affected by, among other factors, its cash flow situation, the extent of its foreign currency reserves, the availability of sufficient foreign exchange, the relative size of the debt service burden, the sovereign debtor's policy toward principal international lenders and local political constraints. Sovereign debtors may also be dependent on expected disbursements from foreign governments, multilateral agencies and other entities to reduce principal and interest arrearages on their debt. The failure of a sovereign debtor to implement economic reforms, achieve specified levels of economic performance or repay principal or interest when due may result in the cancellation of third party commitments to lend funds to the sovereign debtor, which may further impair such debtor's ability or willingness to service its debts.

Inflation-Linked Bonds. The CEFs held by the Fund may invest in inflation-linked bonds. Inflation-indexed bonds are fixed income securities whose principal value is periodically adjusted according to the rate of inflation. Repayment of the original bond principal upon maturity (as adjusted for inflation) is guaranteed in the case of U.S. Treasury inflation-indexed bonds. However, the current market value of the bonds is not guaranteed, and will fluctuate with market conditions. Investments in other inflation-linked bonds may not provide a similar guarantee and the principal amount repaid could be less than the original principal if inflation falls over the period.

The value of inflation-indexed bonds is expected to change in response to changes in real interest rates. Real interest rates in turn are tied to the relationship between nominal interest rates and the rate of inflation. Therefore, if the rise in inflation exceeds the rise in nominal rates, real rates are likely to decline, leading to an increase in the market value of the bonds. Conversely, if the rise in nominal interest rates outpaces the pickup in the rate of inflation, real interest might rise, generating a decline in the market value of the inflation-linked security.

The periodic adjustment of U.S. inflation-indexed bonds generally is tied to the Consumer Price Index for Urban Consumers (CPI-U), which is calculated monthly by the U.S. Bureau of Labor Statistics. The CPI-U is a measurement of changes in the cost of living, made up of components such as housing, food, transportation and energy. Inflation-indexed bonds issued by a foreign government are generally adjusted to reflect a comparable inflation index, calculated by that government. There can be no assurance

Table of Contents

that the CPI-U or any foreign inflation index will accurately measure the real rate of inflation in the prices of goods and services. Moreover, there can be no assurance that the rate of inflation in a foreign country will be correlated to the rate of inflation in the United States. Any increase in the principal amount of an inflation-indexed bond will be considered taxable ordinary income, even though investors do not receive their principal until maturity.

Floating and Adjustable Rate Notes. The CEFs held by the Fund may purchase floating rate and adjustable rate obligations, such as demand notes, bonds, and commercial paper. These securities may bear interest at a rate that resets based on standard money market indices or are remarketed at current market rates. The issuer of such obligations may also have the right to prepay, in its discretion, the principal amount of the obligations plus any accrued interest.

Commercial Paper. The Funds and the CEFs may invest in commercial paper. Commercial paper is an unsecured short-term promissory note with a fixed maturity of generally no more than 270 days issued by corporations, generally to finance short-term business needs.

Corporate Debt Obligations. The CEFs held by the Fund may invest in corporate debt obligations. Corporate debt securities are interest-bearing securities in which the corporate issuer has a contractual obligation to pay interest at a stated rate on specific dates and to repay principal periodically or on a specified maturity date.

Mortgage-Backed and Asset-Backed Securities. The CEFs held by the Fund may invest in mortgage backed and asset-backed securities. Mortgage-backed securities are secured (or backed) by pools of commercial or residential mortgages. Asset-backed securities are secured (or backed) by other types of assets, such as automobile loans, installment sale contracts, credit card receivables or other similar assets. Mortgage-backed and asset-backed securities are issued by entities such as Ginnie Mae, Fannie Mae, the Federal Home Loan Mortgage Corporation, commercial banks, trusts, special purpose entities, finance companies, finance subsidiaries of industrial companies, savings and loan associations, mortgage banks and investment banks. Investing in mortgage-backed and asset-backed securities is subject to credit risk and interest rate risk. They are also subject to the risk of prepayment, which can change the nature and extent of the Fund's interest rate risk. The market for mortgage-backed securities may not be liquid under all interest rate scenarios, which may prevent a CEF from selling such securities held in its portfolio at times or prices that it desires.

Currency Transactions. The CEFs held by the Fund may enter into foreign currency transactions, including forward and foreign currency futures contracts. A forward currency contract involves a privately negotiated obligation to purchase or sell a specific currency at a future date (usually less than one year) at a price set at the time of the contract. A non-deliverable forward contract is a forward contract where there is no physical settlement of two currencies at maturity. Non-deliverable forward contracts are contracts between parties in which one party agrees to make periodic payments to the other party (the Counterparty) based on the change in market value or level of a specified currency. In return, the Counterparty agrees to make periodic payments to the first party based on the return of a different specified currency. Non-deliverable forward contracts will usually be done on a net basis where each receives or pays only the net amount of the two payments. The risk of loss with respect to non-deliverable forward contracts generally is limited to the net amount of payments that a party is contractually obligated to make or receive. A foreign currency futures contract is a contract involving an obligation to deliver or acquire the specified amount of a specific currency, at a specified price and at a specified future time. Futures contracts may be settled on a net cash payment basis rather than by the sale and delivery of the underlying currency. Foreign exchange transactions involve a significant degree of risk and the markets in which foreign exchange transactions are effected are highly volatile, highly specialized and highly technical. Significant changes, including changes in liquidity and prices, can occur in such markets within very short periods of time, often within minutes. Foreign exchange trading risks include, but are not limited to, exchange rate risk, maturity gap, interest rate risk, and potential interference by foreign governments through regulation of local exchange markets, foreign investment or particular transactions in foreign currency.

High-Yield Securities. The CEFs held by the Fund may invest in higher-yielding (and, therefore, higher risk) debt securities. These securities are judged to be more speculative than other types of fixed income securities. While they may offer the potential for higher yield, they generally are regarded as riskier and more likely to default on payment obligations. The issuers of such securities may face significant uncertainties and may not be able to market timely interest and principal payments or continue as going-concerns. The Fund's exposure to such instruments may cause the Fund to lose money and increase the volatility of an investment in the Fund.

Convertible Securities. The CEFs held by the Fund may invest in convertible securities. Convertible securities may be converted at either a stated price or stated rate into underlying shares of common stock. Convertible securities have characteristics similar to both fixed-income and equity securities. The market value of convertible securities tends to decline as interest rates increase (and tends to increase as interest rates decline). In addition, because the securities can be converted to common stock, the market value of convertible securities tends to vary with fluctuations in the market value of the underlying stock. While convertible securities are designed to provide generally stable income and higher yields than common stocks, there is no guarantee they will do so as the issuer of the convertible securities may default on its obligations. In addition, because securities prices fluctuate, there can be no assurance that conversion feature of convertible securities will produce capital appreciation.

Table of Contents

Preferred Stock. The CEFs held by the Fund may invest in preferred stock. While preferred stock is a form of equity ownership, it embodies many of the trading and investment characteristics of a fixed income security. The dividend on a preferred stock is a fixed payment which the issuer of the stock is not obligated to pay. Preferred stock is typically subordinate to a corporation's senior debt, and therefore may present more significant credit risk than some types of debt. Preferred stock may be convertible into shares of common stock. A holder of convertible preferred stock has the potential to receive a stream of dividend payments while maintaining the option to convert the preferred stock to common stock.

Derivatives. Derivatives are financial contracts whose value depends on, or is derived from, the value of an underlying asset, reference rate or index. The CEFs held by the Fund may use derivatives for a number of reasons. For example, a CEF may use derivatives as a substitute for taking a position in an underlying asset, as part of a strategy designed to increase or reduce exposure to specific asset classes, or to hedge against or reduce other risks, such as interest rate risk or currency risk. The use of derivative instruments involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. Derivatives are subject to a number of risks, such as interest rate risk, the risk of default by a counterparty, and the risk that there may not be an active trading market for the derivatives. Derivatives also involve the risk of mispricing or improper valuation and the risk that changes in the value of the derivative may not correlate perfectly with the underlying asset, rate or index. All of these things may cause the value of a derivative to decline and may cause a CEF using derivatives (and therefore the Fund) to lose money and investments in a CEF (and the Fund) to be more volatile.

Financial Sector Investments. The CEFs held by the Fund may invest in debt securities and other instruments of companies that are considered to be in the financial sector, including commercial banks, brokerage firms, diversified financial services, a variety of firms in all segments of the insurance industry (such as multi-line, property and casualty, and life insurance) and real estate related companies. There can be no guarantee that these strategies may be successful. The CEFs, and therefore the Fund, may lose money as a result of defaults or downgrades within the financial sector. Recent events in the financial sector have resulted in increased concerns about credit risk and exposure. Well known financial institutions have experienced significant liquidity and other problems and have defaulted on their debt obligations. Issuers that have exposure to real estate, mortgage and credit markets have been particularly affected. It is uncertain whether or how long these conditions will continue. These events and possible continuing market turbulence may have an adverse affect on Fund performance.

Illiquid Securities. The Fund may invest up to an aggregate amount of 10% of its net assets in illiquid securities. Illiquid securities include securities subject to contractual or other restrictions on resale and other instruments that lack readily available markets. The inability of a Fund to dispose of illiquid or not readily marketable investments readily or at a reasonable price could impair a Fund's ability to raise cash for redemptions or other purposes. In the event that such a security is deemed to be no longer liquid, a Fund's holdings will be reviewed to determine what action, if any, is required to ensure that the retention of such security does not result in a Fund having more than 10% of its assets invested in illiquid or not readily marketable securities.

Investments in Fixed Income Instruments of Foreign Issuers. The CEFs held by the Fund may invest in bonds and other securities issued by foreign companies and governments or other instruments whose performance is indirectly linked to the performance of foreign issuers. Foreign markets can be more volatile than the U.S. market due to increased risks of adverse issuer, political, regulatory, market, or economic developments and can perform differently from the U.S. market. Investing in securities of foreign companies directly, or in financial instruments that are indirectly linked to the performance of foreign issuers, may involve risks not typically associated with investing in U.S. issuers. The value of bonds and instruments denominated in foreign currencies, and the interest and other payments attributable to such bonds and instruments, can change significantly when foreign currencies strengthen or weaken relative to the U.S. Dollar. Foreign securities markets generally have less trading volume and less liquidity than U.S. markets, and prices in some foreign markets may fluctuate more than those of securities traded on U.S. markets. Many foreign countries lack accounting and disclosure standards comparable to those that apply to U.S. companies, and it may be more difficult to obtain reliable information regarding a foreign issuer's financial condition and operations. Transaction costs and costs associated with custody services are generally higher for foreign securities than they are for U.S. securities.

Investments in Fixed Income Instruments of Emerging Markets. The CEFs held by the Fund may invest in fixed income instruments issued by companies or governments in emerging market countries. Securities listed and traded in emerging markets may be subject to additional risks associated with emerging market economies. Such risks may include: (i) greater market volatility, (ii) lower trading volume, (iii) greater social, political and economic uncertainty, (iv) governmental controls on foreign investments and limitations on repatriation of invested capital, (v) the risk that companies may be held to lower disclosure, corporate governance, auditing and financial reporting standards than companies in more developed markets, and (vi) the risk that there may be less protection of property rights than in other countries. Emerging markets are generally less liquid and less efficient than developed securities markets.

Table of Contents

Repurchase Agreements. The Fund may enter into repurchase agreements with counterparties that are deemed to present acceptable credit risks. A repurchase agreement is a transaction in which a party purchases securities or other obligations from a bank or securities dealer (or its affiliate) and simultaneously commits to resell them to a counterparty at an agreed-upon date or upon demand and at a price reflecting a market rate of interest unrelated to the coupon rate or maturity of the purchased obligations. The Fund maintains custody of the underlying obligations prior to their repurchase, either through its regular custodian or through a special triparty custodian or sub-custodian that maintains separate accounts for both the Fund and its counterparty. Thus, the obligation of the counterparty to pay the repurchase price on the date agreed to or upon demand is, in effect, secured by such obligations.

Repurchase agreements carry certain risks not associated with direct investments in securities, including a possible decline in the market value of the underlying obligations. If their value becomes less than the repurchase price, plus any agreed upon additional amount, the counterparty must provide additional collateral so that at all times the collateral is at least equal to the repurchase price plus any agreed upon additional amount. The difference between the total amount to be received upon repurchase of the obligations and the price that was paid upon acquisition is accrued as interest and included in its net investment income. Repurchase agreements involving obligations other than U.S. government securities (such as commercial paper and corporate bonds) may be subject to special risks and may not have the benefit of certain protections in the event of the counterparty's insolvency. If the seller or guarantor becomes insolvent, the Fund may suffer delays, costs and possible losses in connection with the disposition of collateral.

Reverse Repurchase Agreements. The Fund may enter into reverse repurchase agreements, which involve the sale of securities held by a Fund subject to its agreement to repurchase the securities at an agreed upon date or upon demand and at a price reflecting a market rate of interest. Reverse repurchase agreements are subject to the Fund's limitation on borrowings and may be entered into only with banks or securities dealers or their affiliates. While a reverse repurchase agreement is outstanding, the Fund will maintain the segregation, either on its records or with the Trust's custodian, of cash or other liquid securities, marked to market daily, in an amount at least equal to its obligations under the reverse repurchase agreement.

Reverse repurchase agreements involve the risk that the buyer of the securities sold by a Fund might be unable to deliver them when that Fund seeks to repurchase. If the buyer of securities under a reverse repurchase agreement files for bankruptcy or becomes insolvent, the buyer or trustee or receiver may receive an extension of time to determine whether to enforce a Fund's obligation to repurchase the securities, and the Fund's use of the proceeds of the reverse repurchase agreement may effectively be restricted pending such decision.

Securities Lending. The Fund may lend portfolio securities to certain creditworthy borrowers, including the Fund's securities lending agent. Loans of portfolio securities provide the Funds with the opportunity to earn additional income on the Fund's portfolio securities. All securities loans will be made pursuant to agreements requiring the loans to be continuously secured by collateral in cash or high-grade debt obligations at least equal at all times to the market value of the loaned securities. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Fund retains all or a portion of the interest received on investment of cash collateral or receive a fee from the borrower. Lending portfolio securities involves risks of delay in recovery of the loaned securities or in some cases loss of rights in the collateral should the borrower fail financially. Furthermore, because of the risks of delay in recovery, the Fund may lose the opportunity to sell the securities at a desirable price. The Fund will generally not have the right to vote securities while they are being loaned.

Borrowing. The Fund may borrow money to the extent permitted by the 1940 Act. The Fund may borrow money to facilitate management of the Fund's portfolio by enabling the Funds to meet redemption requests when the liquidation of portfolio instruments would be inconvenient or disadvantageous. Such borrowing is not for investment purposes and will be repaid by the Fund promptly. As required by the 1940 Act, the Fund must maintain continuous asset coverage (total assets, including assets acquired with borrowed funds, less liabilities exclusive of borrowings) of 300% of all amounts borrowed. If, at any time, the value of the Fund's assets should fail to meet this 300% coverage test, the Fund, within three days (not including Sundays and holidays), will reduce the amount of the Fund's borrowings to the extent necessary to meet this 300% coverage requirement. Maintenance of this percentage limitation may result in the sale of portfolio securities at a time when investment considerations otherwise indicate that it would be disadvantageous to do so. In addition to the foregoing, the Funds are authorized to borrow money as a temporary measure for extraordinary or emergency purposes in amounts not in excess of 5% of the value of the Fund's total assets. Borrowings for extraordinary or emergency purposes are not subject to the foregoing 300% asset coverage requirement. The Fund is authorized to pledge portfolio securities as the Advisor deems appropriate in connection with any borrowings for extraordinary or emergency purposes.

Future Developments. The Board may, in the future, authorize the Fund to invest in securities contracts and investments other than those listed in this SAI and in the Fund's Prospectus, provided they are consistent with the Fund's investment objective and do not violate any investment restrictions or policies.

Table of Contents

PROXY VOTING POLICY

The Trust has adopted as its proxy voting policies for the Fund the proxy voting guidelines of []. The Trust has delegated to [] the authority and responsibility for voting proxies on the portfolio securities held by the Fund. The remainder of this section discusses the Fund's proxy voting guidelines and [] role in implementing such guidelines.

[], through its participation on [] Proxy Policy Committee (PPC), has adopted a Proxy Voting Policy, related procedures, and voting guidelines which are applied to those client accounts over which it has been delegated the authority to vote proxies. In voting proxies, [] seeks to act solely in the best financial and economic interest of the applicable client. [] will carefully review proposals that would limit shareholder control or could affect the value of a client's investment. It will generally oppose proposals designed to insulate an issuer's management unnecessarily from the wishes of a majority of shareholders. It will generally support proposals designed to provide management with short-term insulation from outside influences so as to enable management to negotiate effectively and otherwise achieve long-term goals. On questions of social responsibility where economic performance does not appear to be an issue, [] will attempt to ensure that management reasonably responds to the social issues. Responsiveness will be measured by management's efforts to address the proposal including, where appropriate, assessment of the implications of the proposal to the ongoing operations of the company. The PPC will pay particular attention to repeat issues where management has failed in its commitment in the intervening period to take actions on issues. [] recognizes its duty to vote proxies in the best interests of its clients. [] seeks to avoid material conflicts of interest through its participation in the PPC, which applies detailed, pre-determined proxy voting guidelines (the Voting Guidelines) in an objective and consistent manner across client accounts, based on internal and external research and recommendations provided by a third party vendor, and without consideration of any client relationship factors. Further, [] and its affiliates engage a third party as an independent fiduciary to vote all proxies for [] securities and affiliated mutual fund securities.

Proxy voting proposals are reviewed, categorized, analyzed and voted in accordance with the Voting Guidelines. These guidelines are reviewed periodically and updated as necessary to reflect new issues and any changes in our policies on specific issues. Items that can be categorized under the Voting Guidelines will be voted in accordance with any applicable guidelines or referred to the PPC, if the applicable guidelines so require. Proposals that cannot be categorized under the Voting Guidelines will be referred to the PPC for discussion and vote. Additionally, the PPC may review any proposal where it has identified a particular company, industry or issue for special scrutiny. With regard to voting proxies of foreign companies, [] may weigh the cost of voting, and potential inability to sell the securities (which may occur during the voting process) against the benefit of voting the proxies to determine whether or not to vote.

In evaluating proposals regarding incentive plans and restricted stock plans, the PPC typically employs a shareholder value transfer model. This model seeks to assess the amount of shareholder equity flowing out of the company to executives as options are exercised. After determining the cost of the plan, the PPC evaluates whether the cost is reasonable based on a number of factors, including industry classification and historical performance information. The PPC generally votes against proposals that permit the repricing or replacement of stock options without shareholder approval.

A complete copy of the Proxy Voting Policy may be obtained by writing to: []

The Trust is required to disclose annually the Funds' complete proxy voting record on Form N-PX covering the period from July 1 of one year through June 30 of the next and to file Form N-PX with the SEC no later than August 31 of each year. The current Form N-PX for the Funds is available at no charge upon request by calling 866-909-9473 or through the Trust's website at www.wisdomtree.com. The Funds' Form N-PX is also available on the SEC's website at www.sec.gov.

PORTFOLIO HOLDING DISCLOSURE POLICIES AND PROCEDURES

The Trust has adopted a Portfolio Holdings Policy (the Policy) designed to govern the disclosure of Fund portfolio holdings and the use of material non-public information about Fund holdings. The Policy applies to all officers, employees, and agents of the Funds, including the WisdomTree Asset Management and any sub-adviser (together, the Advisers). The Policy is designed to ensure that the disclosure of information about the Fund's portfolio holdings is consistent with applicable legal requirements and otherwise in the best interest of the Fund.

As exchange traded funds, information about the Fund's portfolio holdings is made available on a daily basis in accordance with the provisions of any Order of the Securities and Exchange Commission (SEC) applicable to the Funds, regulations of the Funds' Listing Exchange and other applicable SEC regulations, orders and no-action relief. Such information typically reflects all or a portion of a Fund's anticipated portfolio holdings as of the next Business Day. This information is used in connection with the Creation and Redemption process and is disseminated on a daily basis through the facilities of the Listing Exchange, the National Securities Clearing Corporation (NSCC) and/or third party service providers.

Table of Contents

The Fund may disclose on the Funds' website at the start of each Business Day the identities and quantities of the securities and other assets held by the Fund that will form the basis of the Fund's calculation of its NAV on that Business Day. The portfolio holdings so disclosed will be based on information as of the close of business on the prior Business Day and/or trades that have been completed prior to the opening of business on that Business Day and that are expected to settle on that Business Day.

Daily access to the Fund's portfolio holdings is permitted to personnel of the Advisers, the Funds' distributor and the Funds' administrator, custodian and accountant and other agents or service providers of the Trust who have need of such information in connection with the ordinary course of their respective duties to the Funds. The Funds' Chief Compliance Officer may authorize disclosure of portfolio holdings.

The Fund may disclose its complete portfolio holdings or a portion of its portfolio holdings online at www.wisdomtree.com. Online disclosure of such holdings is publicly available at no charge.

The Fund will disclose its complete portfolio holdings schedule in public filings with the SEC on a quarterly basis, based on the Fund's fiscal year, within sixty (60) days of the end of the quarter, and will provide that information to shareholders, as required by federal securities laws and regulations thereunder.

No person is authorized to disclose a Fund's portfolio holdings or other investment positions except in accordance with the Policy. The Trust's Board reviews the implementation of the Policy on a periodic basis.

DESCRIPTION OF THE INDEX

As noted above, the Index consists of seventy-five listed closed-end funds that invest in U.S. and/or non-U.S. taxable fixed income securities and meet other designated Index requirements. In general, the Index consists of seventy-five CEFs that (i) have a stated investment objective of investing in U.S. or non-U.S. fixed income securities, or a combination of such securities, (ii) have a market capitalization of at least \$100 million, and (iii) have an average daily dollar trading volume of at least \$500,000 for a specified period. The Index ranks those CEFs that are eligible to be included in the Index based on market capitalization, daily trading volume and their respective percentage discount to net asset value. The CEFs with the seventy-five highest average rankings are included in the Index. The Index rules provide that no single CEF can make up more than 8% of the capitalization weight of Index. In addition, the total weight in the Index of all CEFs with weights more than 5% is capped at 40% of the Index. The Index also is screened for diversification across various segments of the economy, based on the stated style of the CEFs included in the Index. For example, the exposure of the Index to various market segments is limited to the following capitalization weights: Global Income, 30%; Preferred, 30%; Government, 20%; Mortgage-Backed, 15%; Investment Grade, 15%. CEFs that traded at average premiums of 20% or more to their net asset values are not eligible to be included in the Index.

Additional information about the Index and the methodology used to construct and calculate the Index is available at www.wisdomtree.com.

INVESTMENT LIMITATIONS

The following fundamental investment policies and limitations supplement those set forth in the Fund's Prospectus. Unless otherwise noted, whenever a fundamental investment policy or limitation states a maximum percentage of the Fund's assets that may be invested in any security or other asset, or sets forth a policy regarding quality standards, such standard or percentage limitation will be determined immediately after and as a result of the Fund's acquisition of such security or other asset. Accordingly, other than with respect to the Fund's limitations on borrowings, any subsequent change in values, net assets, or other circumstances will not be considered when determining whether the investment complies with the Fund's investment policies and limitations.

The Fund's fundamental investment policies cannot be changed without the approval of the holders of a majority of the Fund's outstanding voting securities as defined under the 1940 Act. The Fund, however, may change the non-fundamental investment policies described below, its investment objective, and its underlying Index without a shareholder vote provided that it obtains Board approval and notifies its shareholders with at least sixty (60) days prior written notice of any such change.

Fundamental Policies. The following investment policies and limitations are fundamental and may NOT be changed without shareholder approval.

The Fund, as a fundamental investment policy, may not:

Senior Securities

Edgar Filing: WisdomTree Trust - Form 485APOS

Issue senior securities, except as permitted under the 1940 Act.

Borrowing

Borrow money, except as permitted under the 1940 Act.

Table of Contents

Underwriting

Act as an underwriter of another issuer's securities, except to the extent that the Fund may be considered an underwriter within the meaning of the Securities Act of 1933 in the disposition of portfolio securities.

Concentration

Purchase the securities of any issuer (other than securities issued or guaranteed by the U.S. Government or any of its agencies or instrumentalities) if, as a result, more than 25% of the Fund's total assets would be invested in the securities of companies whose principal business activities are in the same industry, except that the Fund will invest more than 25% of its total assets in securities of the same industry to approximately the same extent that the Fund's underlying Index concentrates in the securities of a particular industry or group of industries.

Real Estate

Purchase or sell real estate unless acquired as a result of ownership of securities or other instruments (but this shall not prevent the fund from investing in securities or other instruments backed by real estate, real estate investment trusts or securities of companies engaged in the real estate business).

Commodities

Purchase or sell physical commodities unless acquired as a result of ownership of securities or other instruments (but this shall not prevent the Fund from purchasing or selling options and futures contracts or from investing in securities or other instruments backed by physical commodities).

Loans

Lend any security or make any other loan except as permitted under the Investment Company Act of 1940.

This means that no more than 33 1/3% of its total assets would be lent to other parties. This limitation does not apply to purchases of debt securities or to repurchase agreements, or to acquisitions of loans, loan participations or other forms of debt instruments, permissible under the Fund's investment policies.

Non-Fundamental Policies. The following investment policy is not fundamental and may be changed without shareholder approval.

The Fund has adopted a non-fundamental investment policy in accordance with Rule 35d-1 under the 1940 Act to invest, under normal circumstances, at least 80% of the value of its net assets, plus the amount of any borrowings for investment purposes, in the types of securities suggested by the Fund's name. If, subsequent to an investment, the 80% requirement is no longer met, a Fund's future investments will be made in a manner that will bring the Fund into compliance with this policy.

CONTINUOUS OFFERING

The method by which Creation Unit Aggregations of shares are created and traded may raise certain issues under applicable securities laws. Because new Creation Unit Aggregations of shares are issued and sold by the Fund on an ongoing basis, at any point a distribution, as such term is used in the Securities Act, may occur. Broker-dealers and other persons are cautioned that some activities on their part may, depending on the circumstances, result in their being deemed participants in a distribution in a manner which could render them statutory underwriters and subject them to the prospectus delivery requirement and liability provisions of the Securities Act.

For example, a broker-dealer firm or its client may be deemed a statutory underwriter if it takes Creation Unit Aggregations after placing an order with the Fund's distributor, breaks them down into constituent shares, and sells such shares directly to customers, or if it chooses to couple the creation of a supply of new shares with an active selling effort involving solicitation of secondary market demand for shares. A determination of whether one is an underwriter for purposes of the Securities Act must take into account all the facts and circumstances pertaining to the activities of the broker-dealer or its client in the particular case, and the examples mentioned above should not be considered a complete description of all the activities that could lead to a categorization as an underwriter.

Edgar Filing: WisdomTree Trust - Form 485APOS

Broker-dealer firms should also note that dealers who are not underwriters but are effecting transactions in shares, whether or not participating in the distribution of shares, generally are required to deliver a prospectus. This is because the prospectus delivery exemption in Section 4(3) of the Securities Act is not available in respect of such transactions as a result of Section 24(d) of the 1940 Act. Firms that incur a prospectus delivery obligation with respect to shares of the Fund are reminded that, pursuant to Rule 153 under the Securities Act, a prospectus delivery obligation under Section 5(b)(2) of the Securities Act owed to an exchange member in connection with the sale on the Listing Exchange is satisfied by the fact that the prospectus is available at the Listing Exchange upon request. The prospectus delivery mechanism provided in Rule 153 is only available with respect to transactions on an exchange.

Table of Contents

MANAGEMENT OF THE TRUST

Trustees and Officers

The Board of Trustees has responsibility for the overall management and operations of the Fund, including general supervision of the duties performed by WisdomTree Asset Management and other service providers. The Board of Trustees elects the officers of the Trust who are responsible for administering the Trust's day-to-day operations. Each Trustee serves until his or her successor is duly elected or appointed and qualified.

The address of each Trustee and Officer is c/o WisdomTree Asset Management, Inc., 380 Madison Avenue, 21st Floor, New York, NY 10017.

Interested Trustee and Officers

Name (year of birth)	Position	Term of office and Length of Time Served	Principal Occupation(s) During the Past 5 Years	Number of Portfolios in Fund Complex Overseen by Trustee and Officers+	Other Directorships Held by Trustee and Officers

Table of Contents

The following table sets forth, as of December 31, 2008 the dollar range of equity securities beneficially owned by each Trustee in the Funds and in other registered investment companies overseen by the Trustee within the same family of investment companies as the Trust.

Name of Trustee	Dollar Range of Equity Securities in the Funds	Aggregate Dollar Range of Equity Securities in All Registered Investment Companies Overseen by Trustee in Family of Investment Companies			
Interested Trustee:					
Jonathan Steinberg	Emerging Markets Equity Income Fund	\$10,001	\$50,000	\$50,001	\$100,000
	DEFA Equity Income Fund	\$10,001	\$50,000		
	SmallCap Earnings Fund	\$10,001	\$50,000		
Independent Trustees:					
Gregory Barton	Total Dividend Fund	\$50,001	\$100,000	Over \$100,000	
	DEFA Fund	\$1	\$10,000		
Toni Massaro	International Dividend ex-Financials	\$1	\$10,000	\$1	\$10,000
	Japan SmallCap Dividend Fund	\$1	\$10,000		
	Dividend ex-Financials Fund	\$1	\$10,000		
Victor Ugolyn	LargeCap Dividend Fund	\$10,001	\$50,000	\$50,001	\$100,000
	International LargeCap Dividend Fund	\$10,001	\$50,000		

As of December 31, 2008 none of the Trustees who are not interested persons (as defined in the 1940 Act) of the Trust (Independent Trustees) or their immediate family members owned beneficially or of record any securities of WisdomTree Asset Management, the Sub-Adviser, the Funds Distributor, or any person controlling, controlled by or under control with WisdomTree Asset Management, the Sub-Adviser or the Funds Distributor.

The Board of Trustees of the Trust met eight times during the fiscal year ended March 31, 2009.

Committees of the Board of Trustees

Audit Committee. Each Independent Trustee is a member of the Trust's Audit Committee (the Audit Committee). The principal responsibilities of the Audit Committee are the appointment, compensation and oversight of the Trust's independent auditors, including the resolution of disagreements regarding financial reporting between Trust management and such independent auditors. The Audit Committee's responsibilities include, without limitation, to (i) oversee the accounting and financial reporting processes of the Trust and its internal control over financial reporting and, as the Committee deems appropriate, to inquire into the internal control over financial reporting of certain third-party service providers; (ii) oversee the quality and integrity of the Funds' financial statements and the independent audits thereof; (iii) oversee, or, as appropriate, assist Board oversight of, the Trust's compliance with legal and regulatory requirements that relate to the Trust's accounting and financial reporting, internal control over financial reporting and independent audits; (iv) approve prior to appointment the engagement of the Trust's independent auditors and, in connection therewith, to review and evaluate the qualifications, independence and performance of the Trust's independent auditors; and (v) act as a liaison between the Trust's independent auditors and the full Board. The Board of the Trust has adopted a written charter for the Audit Committee. The Audit Committee has retained independent legal counsel to assist it in connection with these duties. During the fiscal year ended March 31, 2009, the Audit Committee held five meetings.

Governance and Nominating Committee. Each Independent Trustee is also a member of the Trust's Governance and Nominating Committee. The principal responsibilities of the Governance and Nominating Committee are to (i) oversee Fund governance matters and (ii) identify individuals qualified to serve as Independent Trustees of the Trust and to recommend its nominees for consideration by the full Board. While the Governance and Nominating Committee is solely responsible for the selection and nomination of the Trust's Independent Trustees, the Nominating Committee may consider nominations for the office of Trustee made by Trust stockholders as it deems appropriate. The Governance and Nominating Committee considers nominees recommended by shareholders if such nominees are submitted in accordance with Rule 14a-8 of

Edgar Filing: WisdomTree Trust - Form 485APOS

the Securities Exchange Act of 1934 (the 1934 Act), in conjunction with a shareholder meeting to consider the election of Trustees. Trust stockholders who wish to recommend a nominee should send nominations to the Secretary of the Trust that include biographical information and set forth the qualifications of the proposed nominee. During the fiscal year ended March 31, 2009, the Nominating Committee held one meeting.

Table of Contents

Remuneration of Trustees. Pursuant to its Investment Advisory Agreement with the Trust, WisdomTree Asset Management pays all compensation of officers and employees of the Trust as well as the fees of all Trustees of the Trust who are affiliated persons of WisdomTree Investments or its subsidiaries.

Each Independent Trustee receives annual compensation of \$100,000. The Audit Committee Chairman will be paid an additional 10% and the Independent Chairman of the Board will be paid an additional 50% of this amount. The Trust also reimburses each Trustee for travel and other out-of-pocket expenses incurred by him/her in connection with attending meetings. Prior to December 2007, each Independent Trustee received annual compensation of \$40,000. The Audit Committee Chairman received an additional 10% and the Independent Chairman received an additional 50% of this amount.

The following table sets forth the fees paid to each Trustee for the fiscal year-ended March 31, 2009.

Name of Interested Trustee	Aggregate Compensation from the Trust	Pension or Retirement Benefits Accrued as Part of Company Expenses	Estimated Annual Benefits upon Retirement	Total Compensation from the Funds and Fund Complex
Jonathan Steinberg	None	None	None	None

Name of Independent Trustee	Aggregate Compensation from the Trust	Pension or Retirement Benefits Accrued as Part of Company Expenses	Estimated Annual Benefits upon Retirement	Total Compensation from the Funds and Fund Complex
Gregory Barton	\$ 123,200	None	None	\$ 123,200
Toni Massaro	\$ 113,478	None	None	\$ 113,478
Victor Ugolyn	\$ 171,497	None	None	\$ 171,497

Trustees and officers of the Trust collectively owned less than 1% of each of the Trust's outstanding shares as of June 30, 2009.

Control Persons and Principal Holders of Securities.

Since the Funds had not commenced operations as of the date of this SAI, there are no owners of record of 5% or more of the outstanding shares of a Fund.

Table of Contents

Investment Adviser. WisdomTree Asset Management serves as investment adviser to the Fund pursuant to an Investment Advisory Agreement between the Trust and WisdomTree Asset Management. WisdomTree Asset Management is a Delaware corporation registered as an investment adviser under the Investment Advisers Act of 1940, as amended (the Advisers Act), and has offices located at 380 Madison Avenue, 21st Floor, New York, NY 10017.

Under the Investment Advisory Agreement, WisdomTree Asset Management has overall responsibility for the general management and administration of the Trust. WisdomTree Asset Management provides an investment program for the Fund. WisdomTree Asset Management also arranges for sub-advisory, transfer agency, custody, fund administration and all other non-distribution related services necessary for the Fund to operate.

The Fund pays WisdomTree Asset Management the Management Fee indicated below.

Name of Fund	Management Fee
WisdomTree CEF Fixed Income Fund	

Table of Contents

The Advisory Agreement with respect to the Fund continues in effect for two years from its effective date, and thereafter is subject to annual approval by (i) the Board of Trustees of the Trust or (ii) the vote of a majority of the outstanding voting securities (as defined in the 1940 Act) of the Fund, provided that in either event such continuance also is approved by a vote of a majority of the Trustees of the Trust who are not interested persons (as defined in the 1940 Act) of the Fund, by a vote cast in person at a meeting called for the purpose of voting on such approval. If the shareholders of any Fund fail to approve the Advisory Agreement, WisdomTree Asset Management may continue to serve in the manner and to the extent permitted by the 1940 Act and rules and regulations thereunder.

The Advisory Agreement with respect to the Fund is terminable without any penalty, by vote of the Board of Trustees of the Trust or by vote of a majority of the outstanding voting securities (as defined in the 1940 Act) of that Fund, or by WisdomTree Asset Management, in each case on not less than 30 days nor more than 60 days prior written notice to the other party; provided, that a shorter notice period shall be permitted for the Fund in the event its shares are no longer listed on a national securities exchange. The Investment Advisory Agreement will terminate automatically and immediately in the event of its assignment (as defined in the 1940 Act).

Sub-Adviser. [], a registered investment adviser, with its principal office is located at [] serves as Sub-Adviser for the Fund. As of [] 2009, [] managed approximately []. The Sub-Adviser chooses the Fund's portfolio investments and places orders to buy and sell the Fund's portfolio investments. WisdomTree Asset Management pays the Sub-Adviser for providing sub-advisory services to the Funds as describer below.

Sub-Adviser's Fees for the Fund

The Sub-Adviser is entitled to receive the fees indicated below for acting as Sub-Adviser to the Fund: [_____].

- n [] believes that it may perform Sub-Advisory and related services for the Trust without violating applicable banking laws or regulations. However, the legal requirements and interpretations about the permissible activities of banks and their affiliates may change in the future. These changes could prevent [] from continuing to perform services for the Trust. If this happens, the Board would consider selecting other qualified firms. Any new investment Sub-Advisory agreement would be subject to shareholder approval.

Table of Contents

Portfolio Manager. The Fund is managed [] management team. The individual members of the team responsible for the day-to-day management of the Fund's portfolio are []

Including the WisdomTree ETFs, as of [], 2009, the [] team managed [] registered investment companies with approximately \$[] billion in assets; one pooled investment vehicle with approximately \$[] billion in assets and [] with approximately \$[] billion in assets.

Portfolio Manager Fund Ownership

As of [] 2009, the dollar range of securities beneficially owned by the following Portfolio Managers in the Trust is as follows:

Portfolio Manager	Dollar Range of Securities Beneficially Owned
--------------------------	--

Portfolio Manager Compensation

As of [], 2009, the Sub-Adviser's portfolio managers responsible for managing the Funds are generally eligible for compensation consisting of base salary, bonus, and payments under [] long-term incentive compensation program. All compensation is paid by [] and not by the Funds. The same methodology described below is used to determine portfolio manager compensation with respect to the management of mutual funds and other accounts.

Portfolio managers are also eligible for the standard retirement benefits and health and welfare benefits available to all [] employees. Certain portfolio managers may be eligible for additional retirement benefits under several supplemental retirement plans that [] provides to restore dollar-for-dollar the benefits of management employees that had been cut back solely as a result of certain limits due to the tax laws. These plans are structured to provide the same retirement benefits as the standard retirement benefits. In addition, portfolio managers whose compensation exceeds certain limits may elect to defer a portion of their salary and/or bonus under [] deferred compensation plan.

A portfolio manager's base salary is determined by the manager's experience and performance in the role, taking into account the ongoing compensation benchmark analyses. A portfolio manager's base salary is generally a fixed amount that may change as a result of an annual review, upon assumption of new duties, or when a market adjustment of the position occurs.

A portfolio manager's bonus is determined by a number of factors. One factor is gross performance of the fund relative to expectations for how the fund should have performed, given its objectives, policies, strategies and limitations, and the market environment during the measurement period. Additional factors include the overall financial performance of the company, the performance of all accounts (relative to expectations) for which the portfolio manager has responsibility, the portfolio manager's contributions to the investment management functions within the sub-asset class, contributions to the development of other investment professionals and supporting staff, and overall contributions to strategic planning and decisions for the investment management group. The target bonus is expressed as a percentage of base salary. The actual bonus paid may be more or less than the target bonus, based on how well the manager satisfies the objectives stated above. The bonus is paid on an annual basis.

Under the long-term incentive compensation program, certain portfolio managers are eligible to receive a payment from the company's long-term incentive compensation plan based on their years of service, job level and, if applicable, management responsibilities. Each year, a portion of the firm's profits is allocated to the long-term incentive compensation award. The annual awards are paid after three years.

Description of Material Conflicts of Interest

Because the portfolio managers manage multiple portfolios for multiple clients, the potential for conflicts of interest exists. Each portfolio manager generally manages portfolios having substantially the same investment style as the Funds. However, the portfolios managed by a portfolio manager may not have portfolio compositions identical to those of the Funds managed by the portfolio manager due, for example, to specific investment limitations or guidelines present in some portfolios or accounts, but not others. The portfolio managers may purchase securities for one portfolio and not another portfolio, and the performance of securities purchased for one portfolio may vary from the performance of securities purchased for other portfolios. A portfolio manager may place transactions on behalf of other accounts that are directly or indirectly contrary to investment decisions made on behalf of the Fund, or make investment decisions that are similar to those made for the

Edgar Filing: WisdomTree Trust - Form 485APOS

Fund, both of which have the potential to adversely impact the Fund depending on market conditions. For example, a portfolio manager may purchase a security in one portfolio while appropriately selling that same security in another portfolio. In addition, some of these portfolios have fee structures that are or have the potential to be higher than the advisory fees paid by the Fund, which can cause potential conflicts in the allocation of investment opportunities between the Fund and the other accounts. However, the compensation structure for portfolio managers does not generally provide incentive to favor one account over another because that part of a manager's bonus based on performance is not based on the

Table of Contents

performance of one account to the exclusion of others. There are many other factors considered in determining the portfolio manager's bonus and there is no formula that is applied to weight the factors listed (see Portfolio Managers Compensation). In addition, current trading practices do not allow the sub-adviser to intentionally favor one portfolio over another as trades are executed as trade orders are received. Portfolio rebalancing dates also generally vary between fund families. Program trades created from the portfolio rebalance are executed at market on close.

Code of Ethics. The Trust, WisdomTree Asset Management, the Sub-Adviser and the Funds' distributor have each adopted a Codes of Ethics pursuant to Rule 17j-1 under the 1940 Act. The Codes of Ethics permit personnel subject to the Codes of Ethics to invest in securities for their personal investment accounts, subject to certain limitations, including securities that may be purchased or held by the Funds. The Codes of Ethics are on public file with, and are available from, the SEC.

Administrator, Custodian and Transfer Agent. [] serves as administrator, custodian and transfer agent for the Fund. [] principal address is []. Under the Fund Administration and Accounting Agreement with the Trust, [] provides necessary administrative, legal, tax, accounting services and financial reporting for the maintenance and operations of the Trust and the Fund. In addition, [] makes available the office space, equipment, personnel and facilities required to provide such services. Under the custody agreement with the Trust, [] maintains in separate accounts cash, securities and other assets of the Trust and the Fund, keeps all necessary accounts and records, and provides other services. [] is required, upon the order of the Trust, to deliver securities held by [] and to make payments for securities purchased by the Trust for the Fund. Also, under a Delegation Agreement, [] is authorized to appoint certain foreign custodians or foreign custody managers for Fund investments outside the United States. Pursuant to a Transfer Agency and Service Agreement with the Trust, [] acts as transfer agent for the Fund's authorized and issued shares of beneficial interest, and as dividend disbursing agent of the Trust. As compensation for the foregoing services, [] receives certain out of pocket costs, transaction fees and asset-based fees which are accrued daily and paid monthly by the Trust from the Trust's custody account with [].

[] serves as the Portfolio's custodian. [] does not receive any additional compensation for performing these services.

Distributor. The principal address of ALPS Distributors, Inc. is 1290 Broadway, Suite 1100, Denver, Colorado 80203. The Distributor has entered into a Distribution Agreement with the Trust pursuant to which it distributes shares of the Fund. The Distribution Agreement will continue for two years from its effective date and is renewable annually. Shares are continuously offered for sale by the Funds through the Distributor only in Creation Unit Aggregations, as described in the applicable Prospectus and below in the Creation and Redemption of Creation Units Aggregations section. Shares in less than Creation Unit Aggregations are not distributed by the Distributor. The Distributor will deliver the applicable Prospectus and, upon request, this SAI to persons purchasing Creation Unit Aggregations and will maintain records of both orders placed with it and confirmations of acceptance furnished by it. The Distributor is a broker-dealer registered under the 1934 Act and a member of the Financial Industry Regulatory Authority (FINRA). The Distributor is not affiliated with WisdomTree Investments, WisdomTree Asset Management, nor any stock exchange.

The Distribution Agreement for the Fund will provide that it may be terminated at any time, without the payment of any penalty, on at least sixty (60) days prior written notice to the other party (i) by vote of a majority of the Independent Trustees or (ii) by vote of a majority of the outstanding voting securities (as defined in the 1940 Act) of the relevant Fund. The Distribution Agreement will terminate automatically in the event of its assignment (as defined in the 1940 Act).

The Distributor may also enter into agreements with securities dealers (Soliciting Dealers) who will solicit purchases of Creation Unit Aggregations of shares. Such Soliciting Dealers may also be Authorized Participants (as defined below) or DTC Participants (as defined below).

WisdomTree Asset Management may, from time to time and from its own resources, pay, defray or absorb costs relating to distribution, including payments out of its own resources to the Distributor, or to otherwise promote the sale of shares.

BROKERAGE TRANSACTIONS

The Sub-Adviser assumes general supervision over placing orders on behalf of the Fund for the purchase and sale of portfolio securities. In selecting the brokers or dealers for any transaction in portfolio securities, the Sub-Adviser's policy is to make such selection based on factors deemed relevant, including but not limited to, the breadth of the market in the security, the price of the security, the reasonableness of the commission or mark-up or mark-down, if any, execution capability, settlement capability, back office efficiency and the financial condition of the broker or dealer, both for the specific transaction and on a continuing basis. The overall reasonableness of brokerage commissions paid is evaluated by the Sub-Adviser based upon its knowledge of available information as to the general level of commissions paid by other institutional investors for comparable services. Brokers may also be selected because of their ability to handle special or difficult executions, such as may be involved in large block trades, less liquid securities, broad distributions, or other circumstances. The Sub-Adviser does not

consider the provision or value of research,

Table of Contents

products or services a broker or dealer may provide, if any, as a factor in the selection of a broker or dealer or the determination of the reasonableness of commissions paid in connection with portfolio transactions. The Trust has adopted policies and procedures that prohibit the consideration of sales of a Fund's shares as a factor in the selection of a broker or a dealer to execute its portfolio transactions.

ADDITIONAL INFORMATION CONCERNING THE TRUST

Shares. The Trust was established as a Delaware statutory trust on December 15, 2005. The Trust currently is comprised of 54 Funds. The Fund issues shares of beneficial interest, with \$0.001 par value. The Board may designate additional Funds. The Trust is registered with the SEC as an open-end management investment company.

Each share issued by a Fund has a pro rata interest in the assets of that Fund. Shares have no preemptive, exchange, subscription or conversion rights and are freely transferable. Each share is entitled to participate equally in dividends and distributions declared by the Board of Trustees with respect to the relevant Fund, and in the net distributable assets of such Fund on liquidation.

Each share has one vote with respect to matters upon which a shareholder vote is required consistent with the requirements of the 1940 Act and the rules promulgated thereunder. Shares of all Funds vote together as a single class except that, if the matter being voted on affects only a particular Fund, and, if a matter affects a particular Fund differently from other Funds, that Fund will vote separately on such matter.

Under Delaware law, the Trust is not required to hold an annual meeting of shareholders unless required to do so under the 1940 Act. The policy of the Trust is not to hold an annual meeting of shareholders unless required to do so under the 1940 Act. All shares (regardless of the Fund) have noncumulative voting rights for the Board. Under Delaware law, Trustees of the Trust may be removed by vote of the shareholders.

Following the creation of the initial Creation Unit Aggregation(s) of shares of a Fund and immediately prior to the commencement of trading in such Fund's shares, a holder of shares may be a control person of the Fund, as defined in the 1940 Act. A Fund cannot predict the length of time for which one or more shareholders may remain a control person of the Fund.

Shareholders may make inquiries by writing to the Trust, c/o ALPS Distributors, Inc. at 1290 Broadway, Suite 1100, Denver, Colorado 80203.

Absent an applicable exemption or other relief from the SEC or its staff, beneficial owners of more than 5% of the shares of a Fund may be subject to the reporting provisions of Section 13 of the 1934 Act and the SEC's rules promulgated thereunder. In addition, absent an applicable exemption or other relief from the SEC staff, officers and Trustees of a Fund and beneficial owners of 10% of the shares of a Fund (Insiders) may be subject to the insider reporting, short-swing profit and short sale provisions of Section 16 of the 1934 Act and the SEC's rules promulgated thereunder. Beneficial owners and Insiders should consult with their own legal counsel concerning their obligations under Sections 13 and 16 of the 1934 Act.

Termination of the Trust or a Fund. The Trust or a Fund may be terminated by a majority vote of the Board of Trustees or the affirmative vote of a super majority of the holders of the Trust or such Fund entitled to vote on termination. Although the shares are not automatically redeemable upon the occurrence of any specific event, the Trust's organizational documents provide that the Board will have the unrestricted power to alter the number of shares in a Creation Unit Aggregation. In the event of a termination of the Trust or a Fund, the Board, in its sole discretion, could determine to permit the shares to be redeemable in aggregations smaller than Creation Unit Aggregations or to be individually redeemable. In such circumstance, the Trust may make redemptions in-kind, for cash, or for a combination of cash or securities.

Role of DTC. DTC acts as Securities Depository for the Shares of the Trust. Shares of the Fund are represented by securities registered in the name of DTC or its nominee and deposited with, or on behalf of, DTC.

DTC, a limited-purpose trust company, was created to hold securities of its participants (DTC Participants) and to facilitate the clearance and settlement of securities transactions among the DTC Participants in such securities through electronic book-entry changes in accounts of the DTC Participants, thereby eliminating the need for physical movement of securities certificates. DTC Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of whom (and/or their representatives) own DTC. More specifically, DTC is owned by a number of its DTC Participants and by the NYSE, the AMEX and FINRA. Access to the DTC system is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly (Indirect Participants).

Beneficial ownership of shares is limited to DTC Participants, Indirect Participants and persons holding interests through DTC Participants and Indirect Participants. Ownership of beneficial interests in shares (owners of such beneficial interests are referred to herein as Beneficial Owners) is shown on, and the transfer of ownership is effected only through, records maintained by DTC (with

Table of Contents

respect to DTC Participants) and on the records of DTC Participants (with respect to Indirect Participants and Beneficial Owners that are not DTC Participants). Beneficial Owners will receive from or through the DTC Participant a written confirmation relating to their purchase of shares. No Beneficial Owner shall have the right to receive a certificate representing such shares.

Conveyance of all notices, statements and other communications to Beneficial Owners is effected as follows. Pursuant to the Depositary Agreement between the Trust and DTC, DTC is required to make available to the Trust upon request and for a fee to be charged to the Trust a listing of the shares of the Fund held by each DTC Participant. The Trust shall inquire of each such DTC Participant as to the number of Beneficial Owners holding shares, directly or indirectly, through such DTC Participant. The Trust shall provide each such DTC Participant with copies of such notice, statement or other communication, in such form, number and at such place as such DTC Participant may reasonably request, in order that such notice, statement or communication may be transmitted by such DTC Participant, directly or indirectly, to such Beneficial Owners. In addition, the Trust shall pay to each such DTC Participant a fair and reasonable amount as reimbursement for the expenses attendant to such transmittal, all subject to applicable statutory and regulatory requirements.

Share distributions shall be made to DTC or its nominee, Cede & Co., as the registered holder of all shares of the Trust. DTC or its nominee, upon receipt of any such distributions, shall credit immediately DTC Participants' accounts with payments in amounts proportionate to their respective beneficial interests in shares of the Fund as shown on the records of DTC or its nominee. Payments by DTC Participants to Indirect Participants and Beneficial Owners of shares held through such DTC Participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in a street name, and will be the responsibility of such DTC Participants.

The Trust has no responsibility or liability for any aspect of the records relating to or notices to Beneficial Owners, or payments made on account of beneficial ownership interests in such shares, or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests, or for any other aspect of the relationship between DTC and the DTC Participants or the relationship between such DTC Participants and the Indirect Participants and Beneficial Owners owning through such DTC Participants. DTC may decide to discontinue providing its service with respect to shares of the Trust at any time by giving reasonable notice to the Trust and discharging its responsibilities with respect thereto under applicable law. Under such circumstances, the Trust shall take action to find a replacement for DTC to perform its functions at a comparable cost.

CREATION & REDEMPTION OF CREATION UNIT AGGREGATIONS

Creation. The Trust issues and sells shares of the Fund only in Creation Unit Aggregations on a continuous basis through the Distributor, without a sales load, at the NAV next determined after receipt, on any Business Day (as defined below), of an order in proper form.

A Business Day with respect to the Fund is any day on which the national securities exchange on which the Fund is listed for trading (each a Listing Exchange) is open for business. As of the date of this SAI, each Listing Exchange observes the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day (observed), Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

Fund Deposit. The consideration for purchase of Creation Unit Aggregations of a Fund generally consists of the in-kind deposit of a designated portfolio of equity securities (the Deposit Securities), which constitutes a substantial replication, or a portfolio sampling representation, of the stocks involved in the relevant Fund's underlying Index and an amount of cash (the Cash Component) computed as described below. Together, the Deposit Securities and the Cash Component constitute the Fund Deposit, which represents the minimum initial and subsequent investment amount for a Creation Unit Aggregation of any Fund.

The Cash Component is sometimes also referred to as the Balancing Amount. The Cash Component serves the function of compensating for any differences between the NAV per Creation Unit Aggregation and the Deposit Amount (as defined below). The Cash Component is an amount equal to the difference between the NAV of the shares (per Creation Unit Aggregation) and the Deposit Amount, which is an amount equal to the market value of the Deposit Securities. If the Cash Component is a positive number (i.e., the NAV per Creation Unit Aggregation exceeds the Deposit Amount), the creator will deliver the Cash Component. If the Cash Component is a negative number (i.e., the NAV per Creation Unit Aggregation is less than the Deposit Amount), the creator will receive the Cash Component. Computation of the Cash Component excludes any stamp duty tax or other similar fees and expenses payable upon transfer of beneficial ownership of the Deposit Securities, which shall be the sole responsibility of the Authorized Participant.

The Fund, through the National Securities Clearing Corporation makes available on each Business Day, prior to the opening of business on the applicable Listing Exchange (currently 9:30 a.m., Eastern time), the list of the names and the required number of shares of each Deposit Security to be included in the current Fund Deposit (based on information at the end of the previous Business Day) for the Fund.

Table of Contents

Such Deposit Securities are applicable, subject to any adjustments as described below, in order to effect creations of Creation Unit Aggregations of a given Fund until such time as the next-announced composition of the Deposit Securities is made available.

The identity and number of shares of the Deposit Securities required for a Fund Deposit for the Fund changes as rebalancing adjustments and corporate action events are reflected from time to time by the Trust with a view to the investment objective of the relevant Fund. The composition of the Deposit Securities may also change in response to adjustments to the weighting or composition of the component securities of the relevant underlying Index.

In addition, the Trust reserves the right to permit or require the substitution of an amount of cash (i.e., a cash in lieu amount) to be added to the Cash Component to replace any Deposit Security that may not be available in sufficient quantity for delivery or that may not be eligible for transfer through the systems of DTC or the Clearing Process (discussed below). The Trust also reserves the right to permit or require a cash in lieu amount where the delivery of the Deposit Security by the Authorized Participant (as described below) would be restricted under the securities laws or where the delivery of the Deposit Security to the Authorized Participant would result in the disposition of the Deposit Security by the Authorized Participant becoming restricted under the securities laws, or in certain other situations. The adjustments described above will reflect changes known to the Trust on the date of announcement to be in effect by the time of delivery of the Fund Deposit, in the composition of the underlying Index being tracked by the relevant Fund or resulting from certain corporate actions.

Procedures for Creation of Creation Unit Aggregations. To be eligible to place orders with the Distributor and to create a Creation Unit Aggregation of a Fund, an entity must be: (i) a Participating Party, i.e., a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the NSCC (the Clearing Process), a clearing agency that is registered with the SEC; or (ii) a DTC Participant, and, in each case, must have executed an agreement with the Distributor with respect to creations and redemptions of Creation Unit Aggregations (Participant Agreement) (as discussed below). A Participating Party and DTC Participant are collectively referred to as an Authorized Participant. Investors should contact the Distributor for the names of Authorized Participants that have signed a Participant Agreement. All shares of a Fund, however created, will be entered on the records of DTC in the name of Cede & Co. for the account of a DTC Participant.

All orders to create shares must be placed for one or more Creation Unit Aggregations. Orders to create Creation Unit Aggregations of the International Funds cannot be placed through the Clearing Process. Except as described herein, all orders to create Creation Unit Aggregations, whether through the Clearing Process (through a Participating Party) or outside the Clearing Process (through a DTC Participant), must be received by the Distributor no later than the closing time of the regular trading session on the applicable Listing Exchange (Closing Time) (ordinarily 4:00 p.m., Eastern time) in each case on the date such order is placed in order for creation of Creation Unit Aggregations to be effected based on the NAV of shares of the applicable Fund as next determined on such date after receipt of the order in proper form. Orders must be transmitted by an Authorized Participant by telephone or other transmission method acceptable to the Distributor pursuant to procedures set forth in the Participant Agreement, as described below. Economic or market disruptions or changes, or telephone or other communication failure, may impede the ability to reach the Distributor or an Authorized Participant.

All orders to create Creation Unit Aggregations shall be placed with an Authorized Participant, as applicable, in the form required by such Authorized Participant. In addition, the Authorized Participant may request the investor to make certain representations or enter into agreements with respect to the order, e.g., to provide for payments of cash, when required. Investors should be aware that their particular broker may not have executed a Participant Agreement and, therefore, orders to create Creation Unit Aggregations of a Fund have to be placed by the investor's broker through an Authorized Participant that has executed a Participant Agreement. In such cases, there may be additional charges to such investor. At any given time, there may be only a limited number of broker-dealers that have executed a Participant Agreement and only a small number of such Authorized Participants may have international capabilities.

Those placing orders for Creation Unit Aggregations of Domestic Funds through the Clearing Process should afford sufficient time to permit proper submission of the order to the Distributor prior to the Closing Time on the Transmittal Date. Orders for Creation Unit Aggregations of Domestic Funds that are effected outside the Clearing Process are likely to require transmittal by the DTC Participant earlier on the Transmittal Date than orders effected using the Clearing Process. Those persons placing orders outside the Clearing Process should ascertain the deadlines applicable to DTC and the Federal Reserve Bank wire system by contacting the operations department of the broker or depository institution effectuating such transfer of Deposit Securities and Cash Component.

Table of Contents

Those placing orders for Creation Unit Aggregations of International Funds should ascertain the applicable deadline for cash transfers by contacting the operations department of the broker or depository institution making the transfer of the Cash Component. This deadline is likely to be significantly earlier than the closing time of the regular trading session on the applicable Listing Exchange. Investors should be aware that the Authorized Participant may require orders for Creation Units placed with it to be in the form required by the individual Authorized Participant, which form may not be the same as the form of purchase order specified by the Trust that the Authorized Participant must deliver to the Distributor.

Placement of Creation Orders for Domestic Funds Using the Clearing Process. The Clearing Process is the process of creating or redeeming Creation Unit Aggregations. Fund Deposits made through the Clearing Process must be delivered through a Participating Party that has executed a Participant Agreement. The Participant Agreement authorizes the Distributor to transmit through BNY to NSCC, on behalf of the Participating Party, such trade instructions as are necessary to effect the Participating Party's creation order. Pursuant to such trade instructions to NSCC, the Participating Party agrees to deliver the requisite Deposit Securities and the Cash Component to the Trust, together with such additional information as may be required by the Distributor. An order to create Creation Unit Aggregations through the Clearing Process is deemed received by the Distributor on the Transmittal Date if: (i) such order is received by the Distributor not later than the Closing Time on such Transmittal Date; and (ii) all other procedures set forth in the Participant Agreement are properly followed.

Placement of Creation Orders for Domestic Funds Outside the Clearing Process. Fund Deposits made outside the Clearing Process must be delivered through a DTC Participant that has executed a Participant Agreement. A DTC participant who wishes to place an order creating Creation Unit Aggregations to be effected outside the Clearing Process does not need to be a Participating Party, but such orders must state that the DTC Participant is not using the Clearing Process and that the creation of Creation Unit Aggregations will instead be effected through a transfer of securities and cash directly through DTC. The Fund Deposit transfer must be ordered by the DTC Participant on the Transmittal Date in a timely fashion so as to ensure the delivery of the requisite number of Deposit Securities through DTC to the account of the Fund by no later than 2:00 p.m., Eastern time, on the Settlement Date. The Settlement Date is typically the third Business Day following the Transmittal Date. The Fund reserves the right to settle transactions on a basis other than T+3 (T plus three Business Days (i.e., days on which the NYSE is open) (T+3)). In certain cases Authorized Participants will create and redeem Creation Unit Aggregations of the same Fund on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis.

All questions as to the number of Deposit Securities to be delivered, and the validity, form and eligibility (including time of receipt) for the deposit of any tendered securities, will be determined by the Trust, whose determination shall be final and binding. The amount of cash equal to the Cash Component must be transferred directly to the Custodian through the Federal Reserve Bank wire transfer system in a timely manner so as to be received by the Custodian no later than 2:00 p.m., Eastern time, on the Settlement Date. An order to create Creation Unit Aggregations outside the Clearing Process is deemed received by the Distributor on the Transmittal Date if: (i) such order is received by the Distributor not later than the Closing Time on such Transmittal Date; and (ii) all other procedures set forth in the Participant Agreement are properly followed. However, if the Custodian does not receive both the required Deposit Securities and the Cash Component by 2:00 p.m. on the Settlement Date, such order may be canceled. Upon written notice to the Distributor, such canceled order may be resubmitted the following Business Day using a Fund Deposit as newly constituted to reflect the then current NAV of the Fund. The delivery of Creation Unit Aggregations so created generally will occur no later than the Settlement Date.

An additional charge of up to three (3) times the normal transaction fee (for a total charge of up to four (4) times the normal transaction fee) may be imposed with respect to transactions effected outside the Clearing Process (through a DTC participant) and in the limited circumstances in which any cash can be used in lieu of Deposit Securities to create Creation Units.

Creation Unit Aggregations of Domestic Funds may be created in advance of receipt by the Trust of all or a portion of the applicable Deposit Securities as described below. In these circumstances, the initial deposit will have a value greater than the NAV of the shares on the date the order is placed in proper form since, in addition to available Deposit Securities, cash must be deposited in an amount equal to the sum of (i) the Cash Component, plus (ii) at least 105%, which the Trust may change from time to time, of the market value of the undelivered Deposit Securities (the Additional Cash Deposit) with the Fund pending delivery of any missing Deposit Securities.

If an Authorized Participant determines to post an additional cash deposit as collateral for any undelivered Deposit Securities, such Authorized Participant must deposit with the Custodian the appropriate amount of federal funds by 2:00 p.m., Eastern time, on the date of requested settlement. If the Authorized Participant does not place its purchase order by the closing time or the Custodian does not receive federal funds in the appropriate amount by such time, then the order may be deemed to be rejected and the Authorized Participant shall be liable to the Fund for losses, if any, resulting therefrom. An additional amount of cash shall be required to be deposited with the Custodian, pending delivery of the missing Deposit Securities to the extent necessary to maintain the Additional Cash Deposit with the Trust in an amount at least equal to 105%, which the Trust may change from time to time, of the daily marked to market value of the missing Deposit Securities. To the extent that missing Deposit Securities are not received by 2:00 p.m., Eastern time, on the Settlement Date or in the event a marked-to-market payment is not made within one Business Day following notification by the Distributor that such a payment is required, the Trust may use the cash on deposit to

purchase the missing Deposit Securities.

Table of Contents

Authorized Participants will be liable to the Trust for the costs incurred by the Trust in connection with any such purchases. These costs will be deemed to include the amount by which the actual purchase price of the Deposit Securities exceeds the market value of such Deposit Securities on the transmittal date plus the brokerage and related transaction costs associated with such purchases. The Trust will return any unused portion of the Additional Cash Deposit once all of the missing Deposit Securities have been properly received by the Custodian or purchased by the Trust and deposited into the Trust. In addition, a transaction fee, as listed below, will be charged in all cases. The delivery of Creation Unit Aggregations so created generally will occur no later than the Settlement Date.

Cash Purchases. When, in the sole discretion of the Trust, cash purchases of Creation Unit Aggregations of Shares are available or specified for a Fund, such purchases shall be effected in essentially the same manner as in-kind purchases thereof. In the case of a cash purchase, the Authorized Participant must pay the cash equivalent of the Deposit Securities it would otherwise be required to provide through an in-kind purchase, plus the same Cash Component required to be paid by an in-kind purchaser. In addition, to offset the Trust's brokerage and other transaction costs associated with using the cash to purchase the requisite Deposit Securities, the Authorized Participant must pay a fixed purchase Transaction Fee, plus an additional variable charge for cash purchases, which is expressed as a percentage of the value of the Deposit Securities. The Transaction Fees for in-kind and cash purchases of Creation Units of Shares are described in the Prospectus.

Acceptance of Orders for Creation Unit Aggregations. The Trust reserves the absolute right to reject or revoke acceptance of a creation order transmitted to it by the Distributor in respect of the Fund if: (i) the order is not in proper form; (ii) the investor(s), upon obtaining the shares ordered, would own 80% or more of the currently outstanding shares of the Fund; (iii) the Deposit Securities delivered are not as disseminated through the facilities of the NSCC for that date by the Fund as described above; (iv) acceptance of the Deposit Securities would have certain adverse tax consequences to the Fund; (v) acceptance of the Fund Deposit would, in the opinion of counsel, be unlawful; (vi) acceptance of the Fund Deposit would otherwise, in the discretion of the Trust or WisdomTree Asset Management, have an adverse effect on the Trust or the rights of beneficial owners; or (vii) in the event that circumstances outside the control of the Trust, the Custodian, the Distributor or WisdomTree Asset Management make it for all practical purposes impossible to process creation orders. Examples of such circumstances include acts of God; public service or utility problems such as fires, floods, extreme weather conditions and power outages resulting in telephone, telecopy and computer failures; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Trust, WisdomTree Asset Management, the Distributor, DTC, NSCC, the Custodian or a sub-custodian or any other participant in the creation process, and similar extraordinary events. The Distributor shall notify a prospective creator of a Creation Unit and/or the Authorized Participant acting on behalf of the creator of a Creation Unit Aggregation of its rejection of the order of such person. The Trust, BNYM, a sub-custodian and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits nor shall any of them incur any liability for the failure to give any such notification.

All questions as to the number of shares of each security in the Deposit Securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered shall be determined by the Trust, and the Trust's determination shall be final and binding.

Creation Transaction Fee. The Fund imposes a Transaction Fee on investors purchasing or redeeming Creation Units. For this reason, investors purchasing or redeeming through the DTC Process generally will pay a higher Transaction Fee than will investors doing so through the NSCC Process. The Transaction Fee will be limited to amounts that have been determined by WisdomTree Asset Management to be appropriate. The purpose of the Transaction Fee is to protect the existing shareholders of the Funds from the dilutive costs associated with the purchase and redemption of Creation Units. Where a Fund permits an in-kind purchaser to deposit cash in lieu of depositing one or more Deposit Securities, the purchaser may be assessed a higher Transaction Fee to offset the transaction cost to the Fund of buying those particular Deposit Securities. Transaction Fees will differ for the Fund, depending on the transaction expenses related to the Fund's portfolio securities. Every purchaser of a Creation Unit will receive a Prospectus that contains complete disclosure about the Transaction Fee, including the maximum amount of the Transaction Fee charged by the Fund. Investors who use the services of a broker or other such intermediary may be charged a fee for such services.

The following table sets forth the approximate value of one Creation Unit per Fund, and the standard and maximum creation transaction fee for the Fund, as of _____, 2009.

Name of Fund	Approximate Value of One Creation Unit	Standard Creation Transaction Fee	Maximum Creation Transaction Fee
WisdomTree CEF Fixed Income Fund	\$	\$	\$

Placement of Redemption Orders for Domestic Funds Using the Clearing Process. Orders to redeem Creation Unit Aggregations of the Fund through the Clearing Process must be delivered through a Participating Party that has executed the Participant Agreement. Except as described herein, an order to redeem Creation Unit Aggregations using the Clearing Process is deemed received by the Trust on the Transmittal Date if (i) such order is received by the Transfer Agent not later than the Closing Time on such Transmittal Date, and (ii) all other procedures set forth

Edgar Filing: WisdomTree Trust - Form 485APOS

in the Participant Agreement are properly followed. Such order will be effected based on the NAV of the Fund as next determined. The requisite Fund Securities and the Cash Redemption Amount generally will be transferred by the third NSCC Business Day following the date on which such request for redemption is deemed received.

Table of Contents

Placement of Redemption Orders for The Fund Outside the Clearing Process.

Orders to redeem Creation Unit Aggregations of The Fund outside the Clearing Process must be delivered through a DTC Participant that has executed the Participant Agreement. A DTC Participant who wishes to place an order for redemption of Creation Unit Aggregations to be effected outside the Clearing Process does not need to be a Participating Party, but such orders must state that the DTC Participant is not using the Clearing Process and that redemption of Creation Unit Aggregations will instead be effected through transfer of shares directly through DTC. An order to redeem Creation Unit Aggregations outside the Clearing Process is deemed received by the Trust on the Transmittal Date if: (i) such order is received by the Transfer Agent not later than the Closing Time on such Transmittal Date; (ii) such order is accompanied or followed by the requisite number of shares of the Fund specified in such order, which delivery must be made through DTC to the Transfer Agent no later than 11:00 a.m., Eastern time, on the contracted settlement date; and (iii) all other procedures set forth in the Participant Agreement are properly followed. After the Trust has deemed an order for redemption outside the Clearing Process received, the Trust will initiate procedures to transfer the requisite Fund Securities which are expected to be delivered within three Business Days and the Cash Redemption Amount to the Authorized Participant on behalf of the redeeming Beneficial Owner by the Settlement Date. In certain cases Authorized Participants will redeem and create Creation Unit Aggregations of the same Fund on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis.

Cash Redemptions. In the event that, in the sole discretion of the Trust, cash redemptions are permitted or required by the Trust, proceeds will be paid to the Authorized Participant redeeming Shares on behalf of the redeeming investor as soon as practicable after the date of redemption.

TAXES

The following discussion of certain U.S. federal income tax consequences of investing in the Funds is based on the Code, U.S. Treasury regulations, and other applicable authority, all as in effect as of the date of the filing of this SAI. These authorities are subject to change by legislative or administrative action, possibly with retroactive effect. The following discussion is only a summary of some of the important U.S. federal income tax considerations generally applicable to investments in the Funds. There may be other tax considerations applicable to particular shareholders. Shareholders should consult their own tax advisors regarding their particular situation and the possible application of foreign, state, and local tax laws.

Qualification as a Regulated Investment Company. The Fund intends to elect to be treated and qualify each year as a RIC under Subchapter M of the Code. In order to qualify for the special tax treatment accorded RICs and their shareholders, the Fund must, among other things:

- (a) derive at least 90% of its gross income each year from (i) dividends, interest, payments with respect to securities loans, gains from the sale or other disposition of stock or securities or foreign currencies, or other income (including but not limited to gains from options, futures or forward contracts) derived with respect to its business of investing in such stock, securities or currencies, and (ii) net income derived from interests in qualified publicly traded partnerships (as defined below);
- (b) diversify its holdings so that, at the end of each quarter of its taxable year, (i) at least 50% of the market value of a Fund's total assets consists of cash and cash items, U.S. government securities, securities of other RICs and other securities, with investments in such other securities limited with respect to any one issuer to an amount not greater than 5% of the value of a Fund's total assets and not greater than 10% of the outstanding voting securities of such issuer, and (ii) not more than 25% of the value of a Fund's total assets is invested in (x) the securities (other than those of the U.S. government or other RICs) of any one issuer or two or more issuers that are controlled by a Fund and that are engaged in the same, similar or related trades or businesses or (y) the securities of one or more qualified publicly traded partnerships; and
- (c) distribute with respect to each taxable year at least 90% of its investment company taxable income (as that term is defined in the Code without regard to the deduction for dividends paid generally taxable ordinary income and the excess, if any, of net short-term capital gains over net long-term capital losses) and net tax-exempt interest income.

Table of Contents

In general, for purposes of the 90% of gross income requirement described in (a) above, income derived from a partnership will be treated as qualifying income only to the extent such income is attributable to items of income of the partnership that would be qualifying income if realized directly by a Fund. However, 100% of the net income derived from an interest in a qualified publicly traded partnership (generally, a partnership (x) interests in which are traded on an established securities market or are readily tradable on a secondary market or the substantial equivalent thereof, (y) that derives at least 90% of its income from the passive income sources specified in Code section 7704(d), and (z) that derives less than 90% of its income from the qualifying income described in (a)(i) of the prior paragraph) will be treated as qualifying income. In addition, although in general the passive loss rules of the Code do not apply to RICs, such rules do apply to a RIC with respect to items attributable to an interest in a qualified publicly traded partnership.

Taxation of the Funds. If the Fund qualifies as a RIC, that Fund will not be subject to federal income tax on income and gains that are distributed in a timely manner to its shareholders in the form of dividends.

If the Fund fails to qualify for any taxable year as a RIC, all of its taxable income (including its net capital gains) will be subject to tax at corporate income tax rates without any deduction for distributions to shareholders, and all distributions from earnings and profits, including any distributions of net long-term capital gains and net tax-exempt income, would be taxable to shareholders as dividend income. In addition, a Fund could be required to recognize unrealized gains, pay substantial taxes and interest and make substantial distributions before requalifying as a RIC that is accorded special tax treatment.

The Fund intends to distribute at least annually to its shareholders substantially all of its investment company taxable income and its net capital gains. Investment company taxable income that is retained by a Fund will be subject to tax at regular corporate rates. If a Fund retains any net capital gain, that gain will be subject to tax at corporate rates, but the Fund may designate the retained amount as undistributed capital gains in a notice to its shareholders who (i) will be required to include in income for federal income tax purposes, as long-term capital gain, their shares of such undistributed amount, and (ii) will be entitled to credit their proportionate shares of the tax paid by the Fund on such undistributed amount against their federal income tax liabilities, if any, and to claim refunds on a properly-filed U.S. tax return to the extent the credit exceeds such liabilities. For federal income tax purposes, the tax basis of shares owned by a shareholder of that Fund will be increased by an amount equal to the difference between the amount of undistributed capital gains included in the shareholder's gross income and the tax deemed paid by the shareholder under clause (ii) of the preceding sentence.

If the Fund fails to distribute in a calendar year an amount at least equal to the sum of 98% of its ordinary income for such year and 98% of its capital gain net income for the one-year period ending October 31 of such year, plus any retained amount from the prior year, the Fund will be subject to a nondeductible 4% excise tax on the undistributed amount. For these purposes, a Fund will be treated as having distributed any amount on which it has been subject to corporate income tax for the taxable year ending within the calendar year. A dividend paid to shareholders in January of a year generally is deemed to have been paid by the Fund on December 31 of the preceding year if the dividend was declared and payable to shareholders of record on a date in October, November, or December of that preceding year. The Fund intends to declare and pay dividends and distributions in the amounts and at the times necessary to avoid the application of the 4% excise tax, although there can be no assurance that it will be able to do so.

Fund Distributions. Distributions are taxable whether shareholders receive them in cash or reinvest them in additional shares. Moreover, distributions on the Fund's shares are generally subject to federal income tax as described herein to the extent they do not exceed the Fund's realized income and gains, even though such dividends and distributions may economically represent a return of a particular shareholder's investment. Such distributions are likely to occur in respect of shares purchased at a time when the Fund's NAV reflects gains that are either unrealized, or realized but not distributed. Such realized gains may be required to be distributed even when a Fund's NAV also reflects unrealized losses.

Distributions by the Fund of investment income are generally taxable as ordinary income. Taxes on distributions of capital gains are determined by how long the Fund owned the investments that generated those gains, rather than how long a shareholder has owned his or her Fund shares. Distributions of net capital gains from the sale of investments that the Funds owned for more than one year and that are properly designated by the Funds as capital gain dividends (Capital Gain Dividends) will be taxable as long-term capital gains. Distributions from capital gains are generally made after applying any available capital loss carryovers. Long-term capital gain rates applicable to individuals have been temporarily reduced in general, to 15%, with lower rates applying to taxpayers in the 10% and 15% rate brackets for taxable years beginning before January 1, 2011. Distributions of gains from the sale of investments that the Fund owned for one year or less will be taxable as ordinary income.

In determining its net capital gain for Capital Gain Dividend purposes, a RIC generally must treat any net capital loss or any net long-term capital loss incurred after October 31 as if it had been incurred in the succeeding year.

Treasury Regulations permit a RIC, in determining its taxable income, to elect to treat all or a part of any net capital loss, any net long-term capital loss or any foreign currency loss incurred after October 31 as if it had been incurred in the succeeding year.

Table of Contents

For taxable years beginning before January 1, 2011, distributions of investment income designated by a Fund as derived from qualified dividend income will be taxed in the hands of individuals at the rates applicable to long-term capital gain, provided holding period and other requirements are met at both the shareholder and Fund level. In order for some portion of the dividends received by a Fund shareholder to be qualified dividend income, the Fund making the distribution must meet holding period and other requirements with respect to some portion of the dividend-paying stocks in its portfolio and the shareholder must meet holding period and other requirements with respect to the Fund's shares. A dividend will not be treated as qualified dividend income (at either the Fund or shareholder level) (1) if the dividend is received with respect to any share of stock held for fewer than 61 days during the 121-day period beginning on the date that is 60 days before the date on which such share becomes ex-dividend with respect to such dividend (or, in the case of certain preferred stock, 91 days during the 181-day period beginning 90 days before the ex-dividend date), (2) to the extent that the recipient is under an obligation (whether pursuant to a short sale or otherwise) to make related payments with respect to positions in substantially similar or related property, (3) if the recipient elects to have the dividend income treated as investment income for purposes of the limitation on deductibility of investment interest, or (4) if the dividend is received from a foreign corporation that is (a) not eligible for the benefits of a comprehensive income tax treaty with the United States (with the exception of dividends paid on stock of such a foreign corporation that is readily tradable on an established securities market in the United States) or (b) treated as a passive foreign investment company.

In general, distributions of investment income designated by a Fund as derived from qualified dividend income will be treated as qualified dividend income by a shareholder taxed as an individual, provided the shareholder meets the holding period and other requirements described above with respect to a Fund's shares. If the aggregate qualified dividends received by a Fund during any taxable year are 95% or more of its gross income (excluding net long-term capital gain over net short-term capital loss), then 100% of a Fund's dividends (other than dividends properly designated as Capital Gain Dividends) will be eligible to be treated as qualified dividend income.

Dividends of net investment income received by corporate shareholders of a Fund will qualify for the 70% dividends received deduction generally available to corporations to the extent of the amount of qualifying dividends received by the Funds from domestic corporations for the taxable year. A dividend received by a Fund will not be treated as a qualifying dividend (1) if the stock on which the dividend is paid is considered to be debt-financed (generally, acquired with borrowed funds), (2) if it has been received with respect to any share of stock that the Fund has held for less than 46 days during the 91-day period beginning on the date that is 45 days before the date on which the share becomes ex-dividend with respect to such dividend (91 days during the 181-day period beginning 90 days before the ex-dividend date in the case of certain preferred stock) or (3) to the extent that the Fund is under an obligation (pursuant to a short sale or otherwise) to make related payments with respect to positions in substantially similar or related property. Moreover, the dividends received deduction may be disallowed or reduced (1) if the corporate shareholder fails to satisfy the foregoing requirements with respect to its shares of a Fund or (2) by application of the Code.

To the extent that a Fund makes a distribution of income received by the Fund in lieu of dividends (a substitute payment) with respect to securities on loan pursuant to a securities lending transaction, such income will not constitute qualified dividend income to individual shareholders and will not be eligible for the dividends received deduction for corporate shareholders.

If a Fund makes distributions to a shareholder in excess of the Fund's current and accumulated earnings and profits in any taxable year, the excess distribution will be treated as a return of capital to the extent of the shareholder's tax basis in its shares, and thereafter as capital gain. A return of capital is not taxable, but reduces a shareholder's tax basis in its shares, thus reducing any loss or increasing any gain on a subsequent taxable disposition by the shareholder of its shares.

Sale or Exchange of Shares. A sale or exchange of shares in the Funds may give rise to a gain or loss. In general, any gain or loss realized upon a taxable disposition of shares will be treated as long-term capital gain or loss if the shares have been held for more than 12 months. Otherwise, the gain or loss on the taxable disposition of shares will be treated as short-term capital gain or loss. However, any loss realized upon a taxable disposition of shares held for six months or less will be treated as long-term, rather than short-term, to the extent of any long-term capital gain distributions received (or deemed received) by the shareholder with respect to the shares. All or a portion of any loss realized upon a taxable disposition of shares will be disallowed if other substantially identical shares of a Fund are purchased within 30 days before or after the disposition. In such a case, the basis of the newly purchased shares will be adjusted to reflect the disallowed loss.

Backup Withholding. The Fund (or financial intermediaries, such as brokers, through which a shareholder holds Fund shares) generally is required to withhold and to remit to the U.S. Treasury a percentage of the taxable distributions and sale or redemption proceeds paid to any shareholder who fails to properly furnish a correct taxpayer identification number, who has under-reported dividend or interest income, or who fails to certify that he, she or it is not subject to such withholding. The backup withholding tax rate is 28% for amounts paid through 2010. This rate will expire and the backup withholding rate will be 31% for amounts paid after December 31, 2010, unless Congress enacts legislation providing otherwise.

Table of Contents

Federal Tax Treatment of Certain Fund Investments. Transactions of the Fund in options, futures contracts, hedging transactions, forward contracts, swap agreements, participation certificates, straddles and foreign currencies may be subject to various special and complex tax rules, including mark-to-market, constructive sale, straddle, wash sale and short sale rules. These rules could affect whether gains and losses recognized by the Fund are treated as ordinary income or capital gain, accelerate the recognition of income to a Fund, or defer the Fund's ability to recognize losses. These rules may in turn affect the amount, timing or character of the income distributed to shareholders by a Fund.

Tax-Exempt Shareholders. Under current law, income of a RIC that would be treated as UBTI if earned directly by a tax-exempt entity generally will not be attributed as UBTI to a tax-exempt entity that is a shareholder in the RIC. Notwithstanding this blocking effect, a tax-exempt shareholder could realize UBTI by virtue of its investment in a Fund if shares in that Fund constitute debt-financed property in the hands of the tax-exempt shareholder within the meaning of Code Section 514(b). A tax-exempt shareholder may also recognize UBTI if a Fund recognizes excess inclusion income derived from direct or indirect investments in REMICs or TMPs.

In addition, special tax consequences apply to charitable remainder trusts (CRTs) that invest in RICs that invest directly or indirectly in residual interests in REMICs or TMPs. Under legislation enacted in December 2006, a CRT (as defined in Section 664 of the Code) that realizes any UBTI for a taxable year must pay an excise tax annually of an amount equal to such UBTI. Under IRS guidance issued in October 2006, a CRT will not recognize UBTI as a result of investing in a Fund that recognizes excess inclusion income. Rather, if at any time during a taxable year a CRT (or one of certain other tax-exempt shareholders, such as the United States, a state or political subdivision, or an agency or instrumentality thereof, and certain energy cooperatives) is a record holder of a share in a Fund that recognizes excess inclusion income, then a Fund will be subject to a tax on that portion of its excess inclusion income for the taxable year that is allocable to such shareholders at the highest federal corporate income tax rate. The extent to which this IRS guidance remains applicable in light of the December 2006 legislation is unclear. To the extent permitted under the 1940 Act, the Fund may elect to specially allocate any such tax to the applicable CRT, or other shareholder, and thus reduce such shareholder's distributions for the year by an amount of the tax that relates to that shareholder's interest in a Fund. The Funds have not yet determined whether such an election will be made. CRTs are urged to consult their tax advisors concerning the consequences of investing in the Funds. The Funds do not intend to invest directly or indirectly in residual interests in REMICs.

Non-U.S. Shareholders. In general, dividends other than Capital Gain Dividends paid by the Fund to a shareholder that is not a U.S. person within the meaning of the Code (a foreign person) are subject to withholding of U.S. federal income tax at a rate of 30% (or lower applicable treaty rate) even if they are funded by income or gains (such as portfolio interest, short-term capital gains, or foreign-source dividend and interest income) that, if paid to a foreign person directly, would not be subject to withholding.

Effective for taxable years beginning before January 1, 2008, and assuming certain certification requirements were complied with, a RIC generally was not required to withhold any amounts (i) with respect to distributions attributable to U.S.-source interest income that would be treated as portfolio interest and accordingly would not be subject to U.S. federal income tax if earned directly by an individual foreign person, and (ii) with respect to distributions of net short-term capital gains in excess of net long-term capital losses, in each case to the extent such distributions were properly designated by the RIC. Pending legislation would extend the exemption from withholding for interest-related and short-term capital gain distributions. At the time of this filing, it is unclear whether the legislation will be enacted and, if enacted, what the term of the extension will be. Even if such legislation is enacted, depending on the circumstances, the Funds may make such designations with respect to all, some or none of their potentially eligible dividends or treat such dividends, in whole or in part, as ineligible for this exemption from withholding. Moreover, in the case of shares held through an intermediary, the intermediary may withhold even if a Fund makes a designation with respect to a payment.

A beneficial holder of shares who is a foreign person is not, in general, subject to U.S. federal income tax on gains (and is not allowed a U.S. income tax deduction for losses) realized on a sale of shares of a Fund or on Capital Gain Dividends unless (i) such gain or dividend is effectively connected with the conduct of a trade or business carried on by such holder within the United States or (ii) in the case of an individual holder, the holder is present in the United States for a period or periods aggregating 183 days or more during the year of the sale or the receipt of the Capital Gain Dividend and certain other conditions are met.

In order for a foreign investor to qualify for an exemption from backup withholding, the foreign investor must comply with special certification and filing requirements. Foreign investors in the Funds should consult their tax advisors in this regard. Backup withholding is not an additional tax. Any amounts withheld may be credited against the shareholder's U.S. federal income tax liability, provided the appropriate information is furnished to the Internal Revenue Service.

A beneficial holder of shares who is a foreign person may be subject to state and local tax and to the U.S. federal estate tax in addition to the federal income tax consequences referred to above. If a shareholder is eligible for the benefits of a tax treaty, any effectively connected income or gain will generally be subject to U.S. federal income tax on a net basis only if it is also attributable to a permanent establishment maintained by the shareholder in the United States.

Edgar Filing: WisdomTree Trust - Form 485APOS

Creation and Redemption of Creation Units. An Authorized Participant who exchanges securities for Creation Units generally will recognize a gain or a loss. The gain or loss will be equal to the difference between the market value of the Creation Units at the time

Table of Contents

and the sum of the exchanger's aggregate basis in the securities surrendered plus the amount of cash paid for such Creation Units. A person who redeems Creation Units will generally recognize a gain or loss equal to the difference between the exchanger's basis in the Creation Units and the sum of the aggregate market value of any securities received plus the amount of any cash received for such Creation Units. The Internal Revenue Service, however, may assert that a loss realized upon an exchange of securities for Creation Units cannot be deducted currently under the rules governing wash sales, or on the basis that there has been no significant change in economic position. Any capital gain or loss realized upon the creation of Creation Units will generally be treated as long-term capital gain or loss if the securities exchanged for such Creation Units have been held for more than one year.

Any capital gain or loss realized upon the redemption of Creation Units will generally be treated as long-term capital gain or loss if the shares comprising the Creation Units have been held for more than one year. Otherwise, such capital gains or losses will be treated as short-term capital gains or losses.

In some circumstances, a redemption of Creation Units may be treated as resulting in a distribution to which section 301 of the Code applies, potentially causing amounts received by the shareholder in the redemption to be treated as dividend income rather than as a payment in exchange for Creation Units. The rules for determining when a redemption will be treated as giving rise to a distribution under section 301 of the Code and the tax consequences of Code section 301 distributions are complex.

Persons purchasing or redeeming Creation Units should consult their own tax advisors with respect to the tax treatment of any creation or redemption transaction.

Section 351. The Trust on behalf of the Fund has the right to reject an order for a purchase of shares of the Trust if the purchaser (or group of purchasers) would, upon obtaining the shares so ordered, own 80% or more of the outstanding shares of a given Fund and if, pursuant to Section 351 of the Code, that Fund would have a basis in the securities different from the market value of such securities on the date of deposit. The Trust also has the right to require information necessary to determine beneficial share ownership for purposes of the 80% determination.

Tax Shelter Reporting Regulations. Under U.S. Treasury regulations, if a shareholder recognizes a loss of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder, the shareholder must file with the Internal Revenue Service a disclosure statement on Form 8886. Direct shareholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, shareholders of a RIC are not excepted. Future guidance may extend the current exception from this reporting requirement to shareholders of most or all RICs. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer's treatment of the loss is proper. Shareholders should consult their tax advisors to determine the applicability of these regulations in light of their individual circumstances.

General Considerations. The federal income tax discussion set forth above is for general information only. Prospective investors should consult their tax advisors regarding the specific federal income tax consequences of purchasing, holding and disposing of shares of the Funds, as well as the effect of state, local and foreign tax law and any proposed tax law changes.

Table of Contents

DETERMINATION OF NAV

The NAV of the Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the NYSE, generally 4:00 p.m. New York time (the NAV Calculation Time). NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding.

Stocks held by a Fund are valued at their market value when reliable market quotations are readily available. Certain short-term debt instruments which may be used to manage a Fund's cash are valued on the basis of amortized cost. The values of any foreign securities held by a Fund are converted into U.S. dollars using an exchange rate deemed appropriate by the Fund.

When reliable market quotations are not readily available, securities are priced at their fair value, which is the price a security's owner might reasonably expect to receive upon its sale. A Fund also will use fair-value pricing if the value of a security it holds has been materially affected by events occurring before the NAV Calculation Time but after the close of the primary markets or exchanges on which the security is traded. This most commonly occurs with foreign securities, which may trade on foreign exchanges that close many hours before the Fund's pricing time. Intervening events might be company-specific (e.g., earnings report, merger announcement); country-specific (e.g., natural disaster, economic or political news, act of terrorism, interest rate change); or global. Intervening events include price movements in U.S. markets that are deemed to affect the value of foreign securities. Fair-value pricing also may be used for domestic securities if, for example, (i) trading in a security is halted and does not resume before the Fund's pricing time or if a security does not trade in the course of a day, or (ii) the Fund holds enough of the security that its price could affect the Fund's NAV.

Fair-value prices are determined by the Fund according to procedures adopted by the Board of Trustees. When fair-value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities.

Fund shares are purchased or sold on a national securities exchange at market prices, which may be higher or lower than NAV. No secondary sales will be made to brokers or dealers at a concession by the Distributor or by a Fund. Purchases and sales of shares in the secondary market, which will not involve a Fund, will be subject to customary brokerage commissions and charges. Transactions in Fund shares will be priced at NAV only if you purchase or redeem shares directly from a Fund in Creation Units.

DIVIDENDS AND DISTRIBUTIONS

The Fund intends to pay out dividends, if any, to investors quarterly, but in any event no less frequently than annually. The Fund distributes its net realized capital gains, if any, to investors annually. The Fund may occasionally be required to make supplemental distributions at some other time during the year. Distributions in cash may be reinvested automatically in additional whole shares only if the broker through whom you purchased shares makes such option available. Your broker is responsible for distributing the income and capital gain distributions to you.

The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of the Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income.

FINANCIAL STATEMENTS

The audited financial statements, including the financial highlights appearing in the Trust's annual report to shareholders for the fiscal year ended March 31, 2009 and filed electronically with the SEC, are incorporated by reference and made part of this SAI. You may request a copy of the Trust's Annual Report at no charge by calling 866-909-9473 or through the Trust's website at www.wisdomtree.com.

Item 24. Persons Controlled by or under Common Control with Registrant

Not applicable.

Item 25. Indemnification

Reference is made to Article IX of the Registrant's Trust Instrument included as Exhibit (a)(1) to this Registration Statement with respect to the indemnification of the Registrant's trustees and officers, which is set forth below:

Section 1. LIMITATION OF LIABILITY.

All Persons contracting with or having any claim against the Trust or a particular Series shall look only to the assets of the Trust or Assets belonging to such Series, respectively, for payment under such contract or claim; and neither the Trustees nor any of the Trust's officers, employees, or agents, whether past, present, or future, shall be personally liable therefor. Every written instrument or obligation on behalf of the Trust or any Series shall contain a statement to the foregoing effect, but the absence of such statement shall not operate to make any Trustee or officer of the Trust liable thereunder. Provided they have exercised reasonable care and have acted

Table of Contents

under the reasonable belief that their actions are in the best interest of the Trust, the Trustees and officers of the Trust shall not be responsible or liable for any act or omission or for neglect or wrongdoing of them or any officer, agent, employee, Investment Adviser, or independent contractor of the Trust, but nothing contained in this Trust Instrument or in the Delaware Act shall protect any Trustee or officer of the Trust against liability to the Trust or to Shareholders to which he would otherwise be subject by reason of willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of his office.

Section 2. INDEMNIFICATION.

(a) Subject to the exceptions and limitations contained in subsection (b) below:

- (i) every Person who is, or has been, a Trustee or an officer, employee, or agent of the Trust (Covered Person) shall be indemnified by the Trust or the appropriate Series (out of Assets belonging to that Series) to the fullest extent permitted by law against liability and against all expenses reasonably incurred or paid by him in connection with any claim, action, suit, or proceeding in which he becomes involved as a party or otherwise by virtue of his being or having been a Covered Person and against amounts paid or incurred by him in the settlement thereof; provided that the transfer agent of the Trust or any Series shall not be considered an agent for these purposes unless expressly deemed to be such by the Trustees in a resolution referring to this Article.
- (ii) as used herein, the words claim, action, suit, or proceeding shall apply to all claims, actions, suits, or proceedings (civil, criminal, or other, including appeals), actual or threatened, and the words liability and expenses shall include attorneys fees, costs, judgments, amounts paid in settlement, fines, penalties, and other liabilities.

(b) No indemnification shall be provided hereunder to a Covered Person:

- (i) who has been adjudicated by a court or body before which the proceeding was brought (A) to be liable to the Trust or its Shareholders by reason of willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of his office or (B) not to have acted in good faith in the reasonable belief that his action was in the best interest of the Trust; or
 - (ii) in the event of a settlement, unless there has been a determination that such Covered Person did not engage in willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of his office (A) by the court or other body approving the settlement, (B) by at least a majority of those Trustees who are neither Interested Persons of the Trust nor are parties to the matter based on a review of readily available facts (as opposed to a full trial-type inquiry), or (C) by written opinion of independent legal counsel based on a review of readily available facts (as opposed to a full trial-type inquiry).
- (c) The rights of indemnification herein provided may be insured against by policies maintained by the Trust, shall be severable, shall not be exclusive of or affect any other rights to which any Covered Person may now or hereafter be entitled, and shall inure to the benefit of the heirs, executors, and administrators of a Covered Person.

(d) To the maximum extent permitted by applicable law, expenses in connection with the preparation and presentation of a defense to any claim, action, suit, or proceeding of the character described in subsection (a) of this Section shall be paid by the Trust or applicable Series from time to time prior to final disposition thereof on receipt of an undertaking by or on behalf of such Covered Person that such amount will be paid over by him to the Trust or applicable Series if it is ultimately determined that he is not entitled to indemnification under this Section, provided that either (i) such Covered Person has provided appropriate security for such undertaking, (ii) the Trust is insured against losses arising out of any such advance payments, or (iii) either a majority of the Trustees who are neither Interested Persons of the Trust nor parties to the matter, or independent legal counsel in a written opinion, has determined, based on a review of readily available facts (as opposed to a full trial-type inquiry) that there is reason to believe that such Covered Person will not be disqualified from indemnification under this Section.

Table of Contents

(e) Any repeal or modification of this Article IX by the Shareholders, or adoption or modification of any other provision of this Trust Instrument or the By-laws inconsistent with this Article, shall be prospective only, to the extent that such repeal, modification, or adoption would, if applied retrospectively, adversely affect any limitation on the liability of any Covered Person or indemnification available to any Covered Person with respect to any act or omission that occurred prior to such repeal, modification, or adoption.

Reference is made to Article VI of the Registrant's By-Laws included as Exhibit (b) to this Registration Statement with respect to the indemnification of the Registrant's trustees and officers, which is set forth below:

Section 6.2. Limitation of Liability.

The Declaration refers to the Trustees as Trustees, but not as individuals or personally; and no Trustee, officer, employee or agent of the Trust shall be held to any personal liability, nor shall resort be had to their private property for the satisfaction of any obligation or claim or otherwise in connection with the affairs of the Trust; provided, that nothing contained in the Declaration or the By-Laws shall protect any Trustee or officer of the Trust from any liability to the Trust or its Shareholders to which he would otherwise be subject by reason of willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his office.

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, may be provided to trustees, officers and controlling persons of the Trust, pursuant to the foregoing provisions or otherwise, the Trust has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933, as amended, and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Trust of expenses incurred or paid by a trustee, officer or controlling person of the Trust in connection with the successful defense of any action, suit or proceeding or payment pursuant to any insurance policy) is asserted against the Trust by such trustee, officer or controlling person in connection with the securities being registered, the Trust will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

Item 26. Business and Other Connections of the Investment Adviser

WisdomTree Asset Management, Inc. (WTAM), 380 Madison Avenue, 21st Floor, New York, NY 10017, a wholly-owned subsidiary of WisdomTree Investments, Inc., is a registered investment adviser and serves as manager for all funds of the Registrant. The description of WTAM under the caption of Management-Investment Adviser in the Prospectus and under the caption Management of the Trust in the Statement of Additional Information constituting Parts A and B, respectively, of this Registration Statement are incorporated herein by reference.

Each of the directors and officers of WTAM will also have substantial responsibilities as directors and/or officers of WisdomTree Investments, Inc., 380 Madison Avenue, 21st Floor, New York, NY 10017. To the knowledge of the Registrant, except as set forth below, none of the directors or executive officers of WTAM is or has been at any time during the past two fiscal years engaged in any other business, profession, vocation or employment of a substantial nature.

Name	Position with WisdomTree Asset	Principal Business(es) During the
	Management, Inc.	Last Two Fiscal Years
Jonathan Steinberg	President, (Principal Executive Officer) and Trustee	Chief Executive Officer of WisdomTree Investments (formerly, Index Development Partners, Inc.); Director of WisdomTree Investments, Inc.; President of the WisdomTree Funds since 2005
