PROXY STATEMENT

General Information

Our Board of Directors is furnishing this proxy statement and the accompanying Annual Report to Stockholders, notice of annual meeting and proxy card in connection with its solicitation of proxies for use at our 2010 annual meeting of stockholders or any adjournment thereof. The annual meeting will be held on Tuesday, May 25, 2010, beginning at 11:00 a.m., Pacific Daylight Time at the following location:

Nautilus World Headquarters

16400 SE Nautilus Drive

Vancouver, Washington 98683

Our Board of Directors has designated the two persons named on the enclosed proxy card, Edward J. Bramson and Wayne M. Bolio, to serve as proxies in connection with the annual meeting. These proxy materials and the accompanying Annual Report to Stockholders are being mailed on or about April 23, 2010 to our stockholders of record as of April 9, 2010.

Our principal executive offices are located at 16400 SE Nautilus Drive, Vancouver, Washington 98683. As used in this proxy statement, the terms we, our, us, Nautilus, and Company refer to Nautilus, Inc. and its subsidiaries.

Revocability of Proxies

You may revoke any proxy you execute at any time prior to its use at the annual meeting by:

delivering written notice of revocation to our Secretary;

delivering an executed proxy bearing a later date to our Secretary; or

attending the annual meeting and voting in person.

Record Date

Our Board of Directors has fixed the close of business on April 9, 2010 as the record date for determining which of our stockholders are entitled to notice of and to vote at the annual meeting. At the close of business on the record date, 30,744,336 shares of our common stock were outstanding.

Voting; Quorum

Each share of common stock outstanding on the record date is entitled to one vote per share at the annual meeting. Stockholders are not entitled to cumulate their votes. The presence, in person or by proxy, of the holders of a majority of our outstanding shares of common stock is necessary to constitute a quorum at the annual meeting.

Votes Required to Approve each Proposal

If a quorum is present at the annual meeting:

(i) the six nominees who receive the greatest number of votes cast for the election of Directors by the shares present and voting in person or by proxy will be elected as Directors; and

Table of Contents

(ii) the ratification of Deloitte & Touche LLP as our independent registered public accounting firm will be approved if the number of votes cast in favor of the proposal exceeds the number of votes cast against it.

Effect of Abstentions

If you abstain from voting, your shares will be deemed present at the annual meeting for purposes of determining whether a quorum is present. Directors are elected by a plurality of the votes cast, and only votes cast in favor of a nominee will have an effect on the outcome. Therefore, abstention from voting will not affect the outcome of the election of Directors. Abstentions will also not affect the outcome of the proposal to ratify Deloitte & Touche LLP as our independent registered public accounting firm.

Effect of Broker Non-Votes

If you hold your shares in street name through a broker or other nominee, your broker or nominee may not be permitted to exercise voting discretion with respect to the proposals to be voted upon at the annual meeting of stockholders. Thus, if you do not give your broker or nominee specific voting instructions, your shares will not be voted on these matters. Such broker non-votes will be counted for determining whether there is a quorum, but will not be counted as votes for or against. Thus broker non-votes will not have any effect on the proposal for election of directors or ratification of Deloitte & Touche LLP as our registered independent public accounting firm.

Proxy Procedure

When a proxy card is properly dated, executed and returned, the shares it represents will be voted at the annual meeting in accordance with the instructions specified in the proxy. If no specific instructions are given, the shares will be voted FOR the election of the Director nominees described below, and FOR the ratification of Deloitte & Touche LLP as our registered independent public accounting firm. If other matters come before the annual meeting, the persons named in the accompanying proxy will vote in accordance with their best judgment with respect to such matters.

Cost of Proxy Solicitation

The Company does not plan to hire a proxy solicitor in connection with the annual meeting, but to the extent the Company chooses to use proxy solicitor services, the Company will pay the related fees and expenses.

Procedures for Stockholder Proposals and Nominations

Under Nautilus Bylaws, nominations for Directors at an annual meeting may be made only by (1) the Board of Directors or a committee of the Board, or (2) a stockholder entitled to vote who has delivered notice to the Company within 90 to 120 days before the first anniversary of the

Edgar Filing: NAUTILUS, INC. - Form DEF 14A

date of the mailing of the notice for the preceding year's annual meeting.

Our Bylaws also provide that business may not be brought before an annual meeting unless it is (1) specified in the notice of meeting (which includes stockholder proposals that the Company is required to include in its proxy statement under SEC Rule 14a-8), (2) brought before the meeting by or at the direction of the Board, or (3) brought by a stockholder entitled to vote who has delivered notice to the Company (containing certain information specified in the Bylaws) within 90 to 120 days before the first anniversary of the date of the mailing of the notice for the preceding year's annual meeting. In addition, you must comply with SEC Rule 14a-8 to have your proposal included in the Company's proxy statement.

A copy of the full text of the Company's Bylaws may be obtained upon written request to the Corporate Secretary at the address provided on page 1 of this proxy statement.

Transactions with Related Persons

The Company's Board of Directors recognizes that related person transactions present a heightened risk of conflict of interest and/or improper valuation (or the perception thereof) and, therefore, has adopted a policy which shall be followed in connection with all related person transactions. Specifically, this policy addresses our procedures for the review, approval and ratification of all related person transactions.

The Board of Directors has determined that the Audit Committee of the Board is best suited to review and approve related person transactions. Accordingly, any related person transactions recommended by management shall be presented to the Audit Committee for approval at a regularly scheduled meeting of the Audit Committee. Any transaction with a related person (as such terms are defined in Item 404 of Regulation S-K) shall be consummated or shall continue only if the Audit Committee approves the transaction, the disinterested members of the Board of Directors approve the transaction, or the transaction involves compensation approved by the Company's Compensation Committee.

The Company's largest stockholder, Sherborne Investors LP (Sherborne) undertook a successful action to replace four of the Company's Directors with Sherborne nominees in a December 2007 special meeting of stockholders. In May 2008, stockholders approved the reimbursement of up to \$0.6 million of expenses incurred by Sherborne in connection with the stockholder action. Payment requires the approval of the disinterested members of the Company's Board and is not anticipated until some time after the Company returns to profitability.

In February 2009, the disinterested members of the Company's Board of Directors approved a separate agreement with Sherborne Investors Management (Sherborne Investors) under which the Company is obligated to reimburse Sherborne Investors, \$20,000 per month, for the use of Sherborne's New York office space and administrative, information technology and communications services to support the Company's Chief Executive Officer.

Company and the range of talent and experience represented on the Board. In evaluating particular candidates, the Committee will review the nominee's personal and professional integrity, judgment, experience, and ability to serve the long-term interest of the stockholders. The Committee will also take into account the ability of a Director to devote the time and effort necessary to fulfill his or her responsibilities. The Committee also considers matters of diversity, including gender, race and national origin, education, professional experience and differences in viewpoints and skills. While the Committee does not have a formal policy with respect to diversity, both the Board and the Committee believe that it is essential that Board members represent a diverse range of experience, expertise and viewpoints.

The Nominating and Corporate Governance Committee is comprised of three independent Directors, Richard A. Horn (Chairman), Ronald P. Badie and Michael A. Stein. Messrs. Horn and Stein were appointed to the committee and Mr. Horn was named the committee's Chairman on December 31, 2007. In 2009, the Nominating and Corporate Governance Committee met three times.

Board Leadership Structure

At this time, the Board believes that combining the Chairman and CEO role is most effective for the Company's leadership and governance. Having one person as Chairman and CEO provides unified leadership and direction to the Company and strengthens the ability of the CEO to develop and implement strategic initiatives and respond efficiently in various situations. The Board also believes the combination of Chairman and CEO position is appropriate in light of the independent oversight provided by the Board. Nautilus has a Lead Independent Director, currently Mr. Badie, who: presides over executive sessions of independent directors; serves as a liaison between the chairman and independent

directors; consults with the Chairman and CEO regarding information sent to directors; reviews meeting agendas and schedules; may call meetings of independent directors; and, if asked by major stockholders, would be available for direct communication if appropriate. In addition to the Lead Independent Director, the Board has a majority of independent directors. Four out of the six director nominees are independent. The Audit, Compensation, and Nominating and Corporate Governance Committees are each composed solely of independent directors.

Board Role in Risk Oversight

While risk management is primarily the responsibility of the Company’s management team, the Board of Directors is responsible for overall supervision of the company’s risk management efforts as they relate to the key business risks facing the organization. Management identifies, assesses, and manages the risks most critical to the Company’s operations and routinely advises the Board on those matters. Those areas of material risk can include

operational, financial, legal and regulatory, human capital, informational technology and security, and strategic and reputational risks. The Board role in risk oversight of the Company is consistent with the Company's leadership structure, with senior management having responsibility for assessing and managing the Company's risk exposure, and the Board and its Committees providing oversight as necessary in connection with those efforts.

Governance of the Company's Executive Compensation Program

The Compensation Committee of the Board of Directors (Committee) has overall responsibility for the evaluation, approval and oversight of the Company's compensation plans, policies and programs and the total direct compensation of the Company's executive officers.

The Committee has sole responsibility for determining the Chief Executive Officer's compensation and reviewing it with the Board of Directors. The Chief Executive Officer provides recommendations to the Committee on compensation matters for the other executive officers. The Committee seeks input from an independent consultant who advises the Committee regarding executive compensation matters.

The Committee has engaged Compensia to serve as its independent compensation consultant. Compensia assists the Committee in reviewing the Company's compensation practices and provides advice to the Committee regarding compensation of the Company's executive officers.

Compensia reports directly to the Committee and supports the Committee by:

Edgar Filing: NAUTILUS, INC. - Form DEF 14A

Providing information on executive compensation best practices and current trends;

Reviewing compensation guiding principles and recommending assessment methodologies;

Conducting detailed executive compensation assessments and providing preliminary recommendations for executive compensation adjustments; and,

Providing conceptual guidance and design advice on short-term and long-term incentive programs.

Compensation Philosophy

The Company's executive compensation program is designed with two primary objectives in mind:

Attracting, retaining and motivating key executives critical to the Company's turnaround and future success; and,

Rewarding executives for meeting ambitious financial, operational and individual performance goals and taking effective actions which are expected to increase stockholder value over time.

Consistent with these objectives, the Company offers a mix of base salary, short-term incentive compensation, long-term equity based incentives, health and welfare benefits and employment contracts. While we do not target a specific percentage allocation for base salary, short-term incentive compensation or long-term incentives (as a percent of total direct compensation), we operate under the general philosophy of targeting a total direct compensation opportunity that is competitive within our market for executive talent. Relative to our peer group, we believe that we generally target a greater percentage of the executives' total direct compensation opportunity as variable compensation. The elements of our compensation program are not structured to encourage excessive risk taking by any executive, but are part of an overall compensation and management philosophy designed to increase stockholder value over time.

Peer group data is used to compare the Company's compensation program for top executives with that of executives in comparable roles at peer group companies. A consumer products industry peer group has been established, with the Company trending toward the middle of the range, based on total annual revenues. Secondly, the Committee also considered equity market capitalization. In the Committee's judgment total annual revenues and product/market similarity were deemed most important. Based upon the selection criteria, the following companies were chosen for the peer group:

Audiovox Corporation (VOXX)
Flexsteel Industries, Inc. (FLXS)
Golfsmith International Holdings, Inc. (GOLF)
Johnson Outdoors Inc. (JOUT)
Leapfrog Enterprises, Inc. (LF)
Libbey Inc. (LBY)
Lifetime Brands, Inc. (LCUT)

Movado Group, Inc (MOV)
National Presto Industries Inc. (NPK)
Plantronics, Inc. (PLT)
Salton, Inc. (SFPI)
Select Comfort Corp.(SCSS)
Steinway Musical Instruments, Inc. (LVB)

The compensation comparisons generally include base salaries, and short-term and long-term incentive targets. Peer group data is supplemented by data from published compensation surveys, providing additional market-based analytical data for corporate executive pay at companies similar in industry, annual revenues or other relevant metrics.

The Committee has established a desired competitive position for target total cash compensation levels in the 50th to 75th percentile range of the peer group. Individual levels within this range would also be affected by experience, performance and potential.

Chief Executive Officer Compensation

Edgar Filing: NAUTILUS, INC. - Form DEF 14A

Mr. Bramson, Chief Executive Officer and Chairman of the Board, has elected not to take any salary, benefits or incentives from the Company. As a partner of Sherborne Investors Management LP, a significant stockholder of Nautilus, Inc., Mr. Bramson hopes to realize substantial economic benefit in the form of appreciation in the value of Nautilus, Inc. stock which is owned by Sherborne Investors.

The Company reimburses Sherborne Investors Management LP, \$20,000 per month, for the use of New York office space and administrative, information technology and communications services to support Mr. Bramson in his role as the Company's Chief Executive Officer. The Company also reimburses Mr. Bramson for customary travel and other business expenses incurred while conducting Company business.

Table of Contents**Base Salaries of Executives Other Than the Chief Executive Officer**

Base salaries for the executive officers other than Mr. Bramson are intended to attract and retain executives (as part of the total compensation package) by providing a competitive base level of compensation. Base salaries are typically considered by the Committee on an annual basis, as well as in connection with the hiring of a new executive from outside the company, a promotion or other changes in an incumbent executive's job responsibilities. Base salaries for executives are determined by evaluating the responsibilities of the position, the experience and performance of the individual, and by reference to the competitive marketplace median for corporate executives in comparable positions (similarity in scope, duties and responsibilities).

In February 2009, Compensia presented an executive compensation analysis, summarizing the current position of executive officers, noting base salaries generally below the market 50th percentile and target total cash compensation averaging near the market 65th percentile. In view of business and market conditions at that time, the Committee decided not to make any changes to then current salaries and target total cash compensation levels.

Short-Term Incentive Program for Executives Other Than the Chief Executive Officer

The Company's short-term incentive program for executives other than the Chief Executive Officer is designed to reward accomplishment of strategic, financial and individual goals. Achievement relative to measurable, pre-determined Company goals provides the basis of the program. Individual goals are also established, the achievement of which further impacts the amount of potential short-term incentive.

The program focuses on specific short-term objectives to improve the Company's financial performance and accelerate needed turnaround efforts, with quarterly measurements and payments. Individual bonus targets reflect the Company's emphasis on leveraging variable pay upon achievement of ambitious performance objectives.

The calculation for determining an individual's quarterly incentive amount earned is a product of: 1) the individual's quarterly eligible wages; 2) the individual's target bonus percentage; 3) the weighting of each Company performance factor; and 4) the degree to which each Company performance factor is actually achieved. The calculation is performed for each Company performance factor. The Company performance amounts are then totaled and multiplied by the individual's goal achievement percentage. The Company and individual performance objectives are tied directly to the quarterly business plan. While achievability was reasonably uncertain at the time the performance criteria were established, in all quarters the performance targets were set such that the business plan must be surpassed in order to achieve a payout at or above the target level.

Individual Bonus Targets for our NEOs ranged from 50% to 100% of quarterly eligible wages, as follows:

	Individual Bonus Target (% of eligible wages)
Edward J. Bramson ⁽¹⁾	N/A
Kenneth L. Fish	100%
Wayne M. Bolio	50%

Edgar Filing: NAUTILUS, INC. - Form DEF 14A

Deborah H. Marsh	50%
Ryan A. Neal	100%
Sebastien R. Goulet	100%
Timothy J. Joyce	100%

(1) Mr. Bramson has elected not to take any compensation directly from the Company. See Chief Executive Officer Compensation herein.

Company Performance Criteria are determined on a calendar quarter basis. Each Company performance factor has an assigned weighting.

Equity Compensation

Long-term incentives are intended to focus executive behavior on making decisions that meaningfully contribute to the long-term success of the Company, as reflected in the Company's stock price. Under the 2005 Long-Term Incentive Plan (the Plan), the Committee may grant equity awards (stock options, stock appreciation rights, restricted stock, performance units or stock units) to executive officers and other employees. Stock options are priced at fair market value as defined by the Plan. In granting these awards, the Committee may establish conditions or restrictions it deems appropriate.

Executive officers generally are provided an equity grant upon commencement of employment with the Company. The Committee reviews the equity position of executive officers on a periodic basis. Additionally, an executive's overall equity position is reviewed at the time of promotion and an additional grant may be considered.

Table of Contents

A grant of options for 10,000 shares of Company common stock was provided to Mr. Neal upon commencement of his employment with the Company. The grant vests in four equal annual installments on the anniversary date of Mr. Neal's employment.

There were no other equity grants to our NEOs in 2009.

Early 2010 Compensation Decisions

The Committee met in early 2010 to review and establish compensation levels for 2010 under the Company's short-term incentive program. The Committee determined that base salary levels will remain the same, and approved short-term incentive plan performance criteria and potential achievement ranges for the first quarter of 2010, recommended by the Chief Executive Officer, as follows:

Company Performance Criteria⁽¹⁾:

	Consumer Consolidated Operating Income/(Loss)	Consumer Consolidated Inventory	Consumer Consolidated Accounts Receivable
First Quarter	80%	10%	10%

(1) The criteria are applicable to all participants.

Achievement Ranges (Thresholds, Targets and Maximums):

	Consumer Consolidated Operating Income/(Loss)	Consumer Consolidated Inventory	Consumer Consolidated Accounts Receivable
Threshold	10%	10%	10%
Target	100%	100%	100%
Maximum	150%	150%	150%

The Committee also approved equity grants for our NEOs, as follows:

	Options⁽¹⁾	Performance Share Units⁽²⁾
Kenneth L. Fish	21,000	40,000
Wayne M. Bolio	9,250	16,500
Deborah H. Marsh	9,250	16,500
Ryan A. Neal	9,250	16,500

- (1) At the money stock options vest one-third annually over three years.
- (2) Performance share units are subject to both time-based vesting (one-third annually over three years) and achievement of a stock price target of two times the grant date price. If, over the three-year period, the stock price does not close at or above two times the grant date price over any 20 of 30 consecutive days, the entire award is forfeited.

Perquisites and Other Benefits

Executive officers are eligible to participate in the Company's medical, dental, vision, flexible spending, life, disability, and 401(k) programs on substantially the same terms as eligible non-executive employees, subject to legal limits on the amounts that may be contributed or paid to executive officers under these plans. We suspended company matching contributions under our 401(k) program in mid-2009.

Table of Contents

Post-Employment Obligations

The Company believes that modest post-employment benefits are an important factor in maintaining stability of the executive management team, especially at a time when there is significant uncertainty about market conditions for the Company's products and the economy in general.

The Company has a separate severance arrangement with each NEO under his or her respective employment agreement or employment offer. These documents outline the terms and conditions of the post employment benefits. The agreements generally provide that the Company will pay severance, ranging from six months to twelve months of the employee's base salary, in the event of an involuntary termination of employment for reasons other than cause. In general, the definition of "cause" includes: indictment or conviction of the employee for a crime that, in the Company's judgment, makes the employee unfit or unable to perform his or her duties, or adversely affects the Company's reputation; employee dishonesty related to his or her employment; violation of key Company policies; insubordination; serious conflicts of interest or self-dealing; intentional or grossly negligent conduct by the employee that is significantly injurious to the Company; certain serious performance failures by the employee; and, death or disability of the employee.

Severance payments are made in accordance with the Company's normal payroll cycle over the severance period. The agreements also generally provide for continuation, during the severance period, of health benefits under COBRA for the employee and covered dependents, at active employee premium rates. Refer to the table entitled Other Potential Post-Employment Payments and related notes, elsewhere herein, for information regarding severance and post-employment benefits that may be payable to our NEOs upon their termination.

Tax and Accounting Considerations

Section 162(m) of the Internal Revenue Code limits to \$1 million the amount the Company can deduct for compensation paid to its Chief Executive Officer and three other most highly-compensated executive officers (excluding the Chief Financial Officer) in any year. The limit on deductibility does not apply to performance-based compensation meeting certain requirements.

Our general philosophy is to structure executive compensation to maximize deductibility under Section 162(m). In 2009, 100% of our executive compensation was deductible by the Company. Base salary is not performance-based under Section 162(m), and our short-term incentive awards do not meet the performance-based compensation requirements of Section 162(m) because these awards are not granted under a stockholder-approved plan. However, we were able to deduct all of this compensation because no executive officer exceeded the \$1 million limit. Should executive officer compensation approach \$1 million in the future, our Compensation Committee will consider deductibility of compensation under Section 162(m) as one (but not the sole) factor in setting executive compensation.

The graph below compares the cumulative total stockholder return of our common stock with the cumulative total return of the *NYSE Composite Index*, the *S&P SmallCap 600 Index*, and the *NASDAQ*, for the period commencing December 31, 2004 and ending on December 31, 2009. The *S&P SmallCap 600 Index* was chosen because we do not believe we can reasonably identify an industry index or specific peer issuer that would offer a meaningful comparison. The *S&P SmallCap 600 Index* represents a broad-based index of companies with similar market capitalization. Our common stock was added to the *S&P SmallCap 600 Index* on March 19, 2003.

Each current member of the Audit Committee meets the independence, financial literacy and experience requirements contained in the corporate governance listing standards of the New York Stock Exchange (NYSE) relating to audit committees. The Board of Directors has determined that all Audit Committee members qualify as audit committee financial experts under the regulations of the SEC. Although all members of our Audit Committee meet the current NYSE regulatory requirements for accounting or related financial management expertise, and the Board of Directors has determined that each of them qualifies as an audit committee financial expert, members of our Audit Committee are not professionally engaged in the practice of auditing or accounting and are not technical experts in auditing or accounting.

The Audit Committee oversees Nautilus, Inc.'s financial reporting process on behalf of the Board and operates under a written charter, approved by the Audit Committee and ratified by the Board. In fulfilling its oversight responsibilities, the Audit Committee reviewed the audited financial statements in the Annual Report on Form 10-K with management, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

Management has the primary responsibility for the preparation, presentation and integrity of the Company's financial statements and the reporting process, including internal control over financial reporting and disclosure controls and procedures. Management is responsible for maintaining and evaluating appropriate accounting and financial reporting principles and internal controls and procedures designed to ensure compliance with accounting standards and applicable laws and regulations.

The Audit Committee reviewed with the independent registered public accounting firm, which is responsible for expressing an opinion on the conformity of Nautilus, Inc.'s audited financial statements with accounting principles generally accepted in the United States, their judgments as to the quality, not just the acceptability, of the Company's accounting principles. The Audit Committee also has discussed with the independent registered public accounting firm the matters required to be discussed by Statement on Auditing Standards No. 61, as amended, as adopted by the Public Company Accounting Oversight Board in Rule 3200T, *Communication with Audit Committees*. The audit committee has received the written disclosures and the letter from the independent accountant required by the Public Company Accounting Oversight Board regarding the independent accountant's communications with the audit committee concerning independence, and has discussed with the independent accountant the independent accountant's independence from the Company and its management, and has considered whether the independent registered public accounting firm's provision of non-audit services to the Company is compatible with maintaining such firm's independence.

The Audit Committee discussed with the Company's independent registered public accounting firm the overall scope and plans for their audit. In addition, the Audit Committee met with the independent registered public accounting firm, with and without management present, to discuss the results of their examination, their evaluation of the Company's internal control over financial reporting, and the overall quality of the Company's financial reporting for the year ended December 31, 2009.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board, and the Board has approved, that the audited financial statements and management's report on internal control over financial reporting be included in the Annual Report on Form 10-K for the year ended December 31, 2009, for filing with the SEC. The Audit Committee has determined that provision by Deloitte & Touche LLP of other non-audit services is compatible with maintaining Deloitte & Touche LLP's independence. The Audit Committee and the Board have also recommended, subject to stockholder ratification, the selection of Deloitte & Touche LLP as the Company's independent registered public accounting firm for the year ending December 31, 2010.

Respectfully Submitted,

Marvin G. Siegert, Chairman

Richard A. Horn

Michael A. Stein

Table of Contents**PROPOSAL NO. 2:****RATIFICATION OF APPOINTMENT OF REGISTERED INDEPENDENT PUBLIC****ACCOUNTING FIRM FOR 2010**

The Audit Committee has appointed Deloitte & Touche LLP, the member firms of Deloitte Touche Tomatsu and their respective affiliates (collectively, Deloitte & Touche) as our registered independent public accounting firm to audit our consolidated financial statements for the year ended December 31, 2010. Although we are not required to seek stockholder approval of this appointment, the Board has determined it to be sound corporate governance to do so. If the appointment is not ratified by stockholders, the Audit Committee will investigate the possible bases for the negative vote and will reconsider the appointment in light of the results of its investigation.

We employed Deloitte & Touche as our registered independent public accounting firm during 2009. There have been no disagreements with Deloitte & Touche on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedure which, if not resolved to the satisfaction of Deloitte & Touche, would have caused Deloitte & Touche to make reference to the matter in their report. A representative of Deloitte & Touche is expected to be present at the annual meeting. The representative will be given the opportunity to make a statement on behalf of Deloitte & Touche if the representative so desires, and the representative will be available to respond to appropriate stockholder questions.

We understand the need for Deloitte & Touche to maintain objectivity and independence in its audit of our financial statements. To minimize relationships that could appear to impair the objectivity of Deloitte & Touche, our Audit Committee has restricted the non-audit services that Deloitte & Touche may provide. These determinations are among the key practices adopted by the Audit Committee in its Policies and Procedures for the Approval of Audit and Non-audit Services Provided by the Independent Auditor, effective April 2003.

Under these policies, with Audit Committee pre-approval, the Company may use Deloitte & Touche for the following categories of non-audit services: merger and acquisition due diligence and audit services; tax services; internal control reviews; employee benefit plan audits; and reviews and procedures that the Company requests Deloitte & Touche to undertake to provide assurances on matters not required by laws or regulations.

The aggregate fees and expenses billed for professional services rendered by Deloitte & Touche for the years ended December 31, 2009 and 2008 were as follows:

Type of Fees	2009	2008
Audit Fees	\$ 1,170,000	\$ 1,551,000
Tax Fees	233,000	126,000
All Other Fees	35,000	28,000
Total	\$ 1,438,000	\$ 1,705,000

Edgar Filing: NAUTILUS, INC. - Form DEF 14A

Audit fees are fees we paid Deloitte & Touche for professional services for the audit of our consolidated financial statements included in our Form 10-K and review of financial statements included in our Form 10-Qs, or for services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements, including the audit required by Section 404 of the Sarbanes-Oxley Act of 2002. Section 404 audit requirements did not apply for the year ended December 31, 2009 due to our status as a Smaller Reporting Company.

Tax fees are fees for tax compliance, tax advice and tax planning.

All other fees are fees billed by Deloitte & Touche for any services not included in the first three categories, including fees for services related to employee benefit plan audits.

All of the services performed by Deloitte & Touche LLP in 2009 and 2008 were pre-approved in accordance with the pre-approval policy and procedures adopted by the Audit Committee. This policy describes the permitted audit, audit-related, tax, and other services that the independent auditors may perform. Generally, pre-approval is provided at regularly scheduled meetings; however, the authority to pre-approve services between meetings, as necessary, has been delegated to the Chairman of the Audit Committee, subject to formal approval by the Committee at the next regularly scheduled meeting.

The Audit Committee believes that the foregoing expenditures are compatible with maintaining the independence of the Company's registered independent public accounting firm.

THE BOARD UNANIMOUSLY RECOMMENDS THAT THE STOCKHOLDERS VOTE FOR THE RATIFICATION OF THE AUDIT COMMITTEE'S APPOINTMENT OF DELOITTE & TOUCHE LLP AS OUR REGISTERED INDEPENDENT PUBLIC ACCOUNTING FIRM.
