THE COMPANY

Our Company

We are a leading producer of coal in Northern and Central Appalachia with a broad range of mid- to high-Btu, low- to medium-sulfur steam and metallurgical coal. Our 12 Appalachian mining complexes are located in West Virginia, Kentucky, Virginia and Maryland. We also have a complementary mining complex of mid- to high-sulfur steam coal strategically located in the Illinois Basin. We market our coal to a diverse customer base of largely investment grade electric utilities, as well as domestic and international industrial customers. The high quality of our coal and the availability of multiple transportation options, including rail, truck and barge, throughout the Appalachian region enable us to participate in both the domestic and international coal markets. Coal markets, particularly Appalachian coal markets, have exhibited significant price volatility over the past several years and may continue to do so due to a number of factors, including regulatory and other actions delaying the issuance of necessary permits, general economic conditions and customer usage of coal.

As of September 30, 2010, management estimates that we owned or controlled approximately 318 million tons of metallurgical quality coal reserves and approximately 769 million tons of steam coal reserves. Management's estimates were developed considering an initial evaluation, as well as subsequent acquisitions, dispositions, depleted reserves, changes in available geological or mining data and other factors. Further, we own or control approximately 433 million tons of non-reserve coal deposits. Our assets are high quality reserves strategically located in Appalachia and the Illinois Basin and are operated union free.

For the nine months ended September 30, 2010, we sold 12.8 million tons of coal, of which approximately 12.4 million tons were produced from our mining activities and approximately 0.4 million tons were purchased through brokered coal contracts (coal purchased from third parties for resale), at an average sale price of \$65.58 and \$56.19, respectively. Of the tons sold, 11.1 million tons were steam coal and 1.7 million tons were metallurgical coal. Our steam coal sales volume in 2009 consisted of mid- to high-quality, high-Btu (greater than 12,000 Btu/lb.), low- to medium-sulfur (1.5% or less) coal, which typically sells at a premium to lower quality, lower Btu, higher sulfur steam coal. Our three largest customers for the year ended December 31, 2009 were Progress Energy, Georgia Power and Santee Cooper and we derived approximately 36% of our revenues from sales to our five largest customers. We did not derive more than 10% of our revenues from any single customer in 2009.

We have three reportable business segments, which are based on the coal regions in which we operate: (i) Central Appalachian, comprised of both surface and underground mines, (ii) Northern Appalachian, comprised of both surface and underground mines and (iii) Illinois Basin, representing one underground mine.

RISK FACTORS

Investing in our common stock involves a high degree of risk. Our Annual Report on Form 10-K for the fiscal year ended December 31, 2009 and our Quarterly Reports on Form 10-Q for the fiscal quarters ended March 31, 2010, and June 30, 2010, each incorporated by reference into this prospectus, include extensive risk factors relating to our business and government regulation as well as certain risks relating to our common stock. You should carefully consider those risks and the risks described below, as well as the other information included or incorporated by reference into this prospectus, before making a decision to invest in our common stock.

Risks Related to Our Common Stock

The market price of our common stock may be volatile, which could cause the value of your investment to decline.

The market price of our common stock has experienced, and may continue to experience, significant volatility. Between January 1, 2008 and December 31, 2009, the trading price of our common stock on the New York Stock Exchange ranged from a low of \$1.09 per share to a high of \$13.90 per share. In addition, between January 1, 2010 and December 10, 2010, the trading price of our common stock on the New York Stock Exchange ranged from a low of \$3.36 per share to a high of \$8.58 per share. There are numerous factors contributing to the market price of our common stock, including many over which we have no control. These risks include, among other things:

our operating and financial performance and prospects;

our ability to repay our debt;

investor perceptions of us and the industry and markets in which we operate;

changes in earnings estimates or buy/sell recommendations by analysts; and

general financial, domestic, international, economic and other market conditions.

In addition, the stock market in recent years has experienced extreme price and trading volume fluctuations that often have been unrelated or disproportionate to the operating performance of individual companies. These broad market fluctuations may adversely affect the price of our common stock, regardless of our operating performance. Furthermore, stockholders may initiate securities class action lawsuits if the market price of our stock drops significantly, which may cause us to incur substantial costs and could divert the time and attention of our management. As a result of these factors, among others, the value of your investment may decline, and you may be unable to resell your shares of our common stock at or above the offering price.

Sales of additional shares of our common stock or conversions of our convertible securities into common stock could cause the price of our common stock to decline.

Sales of substantial amounts of our common stock in the public market, or the perception that those sales may occur, could adversely affect the trading price of our common stock. In addition, future issuances of equity securities, including pursuant to the exercise of options for those securities, could dilute the interests of our existing stockholders, including you, and could cause the market price for our common stock to decline. We may issue equity securities in the future for a number of reasons, including to finance our operations and business strategy, to adjust our ratio of debt to equity, to satisfy our obligations upon the exercise of outstanding convertible securities, warrants or options or for other reasons.

As of September 30, 2010, there were:

5,802,204 shares of common stock issuable upon the exercise of stock options outstanding with a weighted-average exercise price of \$4.91;

1,151,017 shares of nonvested restricted stock; and

315,420 restricted share units issued to directors to be converted to common stock upon separation of service.

In addition, our \$115.0 million aggregate principal amount of outstanding 4.00% Convertible Senior Notes due 2017, or the 2017 Convertible Notes, may be convertible into shares of our common stock in certain circumstances. In addition, our \$731,000 aggregate principal amount of outstanding 9.00% Convertible Senior Notes due 2012, or the 2012 Convertible Notes, may also be convertible into a combination of cash and shares of our common stock in certain circumstances. Any conversion of any of those notes could dilute the interests of our existing stockholders, including you, and could cause the market price for our common stock to decline.

We do not intend to pay cash dividends on our common stock in the foreseeable future.

We have never declared or paid a cash dividend, and we currently do not anticipate paying any cash dividends in the foreseeable future. If we were to decide in the future to pay dividends, our ability to do so would be dependent on the ability of our subsidiaries to make cash available to us, by dividend, debt repayment or otherwise. The ability of our subsidiaries to make cash available to us is limited by restrictions in our asset-based loan facility, or ABL Loan Facility, and the indenture governing our 9.125% Senior Secured Second-Priority Notes due 2018, or the Senior Notes.

Our leverage may harm our financial condition and results of operations.

Our total consolidated long-term debt as of September 30, 2010 was approximately \$340.0 million. Our level of indebtedness could have important consequences on our future operations, including:

making it more difficult for us to meet our payment and other obligations under our debt;

resulting in an event of default if we fail to comply with the financial and other covenants contained in our debt agreements, which could result in all of our debt becoming immediately due and payable;

subjecting us to the risk of increased sensitivity to interest rate increases on our debt with variable interest rates, including borrowings under our ABL Loan Facility;

reducing the availability of our cash flow to fund working capital, capital expenditures, acquisitions and other general corporate purposes, and limiting our ability to obtain additional financing for these purposes;

limiting our flexibility in planning for, or reacting to, and increasing our vulnerability to, changes in our business, the industry in which we operate and the general economy; and

placing us at a competitive disadvantage compared to our competitors that have less debt or are less leveraged.

If we or our subsidiaries incur additional debt, the related risks that we and they now face could intensify.

Our ability to pay principal and interest on and to refinance our debt depends upon the operating performance of our subsidiaries, which will be affected by, among other things, general economic, financial, competitive, legislative, regulatory and other factors, many of which are beyond our control. In particular, economic conditions could cause the price of coal to fall and our revenue to decline and hamper our ability to repay our debt.

Edgar Filing: International Coal Group, Inc. - Form S-3ASR

Our business may not generate sufficient cash flow from operations and future borrowings may not be available to us under our ABL Loan Facility or otherwise in an amount sufficient to enable us to pay our debt or to fund our other liquidity needs. We may need to refinance all or a portion of our debt on or before maturity. We may not be able to refinance any of our debt on commercially reasonable terms, on terms acceptable to us or at all.

Future sales of our common stock by our major stockholders may depress our share price and influence our management policies.

WLR and Fairfax, which respectively own approximately 12% and 22% of our common stock as of September 30, 2010, may sell our common stock. We have previously granted to WLR and to Fairfax demand and piggyback registration rights relating to their shares of our common stock. Sales of substantial amounts of our common stock in the public market, or the perception that these sales may occur, could cause the market price of our common stock to decline. In addition, if either WLR or Fairfax were to sell its entire holdings to one person, that person would have significant influence over our management policies. This prospectus relates generally to the sale of an indeterminate number of shares of our common stock by selling stockholders, including sales by WLR or Fairfax.

The covenants in our ABL Loan Facility and the indentures governing our debt instruments impose restrictions that limit our operating and financial flexibility.

The ABL Loan Facility includes negative covenants that limit our ability and the ability of our subsidiaries to, among other things:

make, create, incur, assume or suffer to exist liens, other than specified permitted liens;

engage in mergers, acquisitions, consolidations, sale-leasebacks and asset sales;

make investments and loans;

create, incur, assume or permit to exist additional indebtedness or guarantees;

pay dividends, make payments or redeem or repurchase capital stock;

engage in transactions with affiliates;

prepay, redeem or purchase indebtedness;

amend or otherwise alter terms of indebtedness;

make capital expenditures; and

alter the business that our subsidiaries conduct.

In addition, the ABL Loan Facility contains a covenant that, in the event availability under the ABL Loan Facility falls below a specified amount, we will be required to maintain a minimum ratio of EBITDA to fixed charges.

The indenture governing the Senior Notes contains a number of significant restrictions and covenants that may limit our ability and our subsidiaries' ability to, among other things:

incur additional indebtedness;

Edgar Filing: International Coal Group, Inc. - Form S-3ASR

subordinate indebtedness to other indebtedness unless such subordinated indebtedness is also subordinated to the 2012 Convertible Notes and Senior Notes;

pay dividends or make other distributions or repurchase or redeem our stock or subordinated indebtedness;

make investments;

sell assets and issue capital stock of restricted subsidiaries;

incur liens;

enter into agreements restricting our subsidiaries' ability to pay dividends;

enter into sale and leaseback transactions;

enter into transactions with affiliates; and

consolidate, merge or sell all or substantially all of our assets.

Operating results below current levels or other adverse factors, including a significant increase in interest rates, could result in us being unable to comply with certain debt covenants. If we violate these covenants and are unable to obtain waivers, our debt under these agreements would be in default and could be accelerated and could permit the lenders to foreclose on our assets securing the debt thereunder. If the indebtedness is accelerated, we may not be able to repay our debt or borrow sufficient funds to refinance it. Even if we are able to obtain new financing, it may not be on commercially reasonable terms or on terms that are acceptable to us. If our debt is in default for any reason, our cash flows, results of operations or financial condition could be materially and adversely affected. In addition, complying with these covenants may also cause us to take actions that are not favorable to holders of our common stock and may make it more difficult for us to successfully execute our business strategy and compete against companies that are not subject to such restrictions.

Our variable rate indebtedness subjects us to interest rate risk, which could cause our annual debt service obligations to increase significantly.

Borrowings under our ABL Loan Facility are at variable rates of interest and expose us to interest rate risk. If interest rates increase, our debt service obligations on the variable rate indebtedness would increase even though the amount borrowed remained the same, and our net income would decrease. An increase in debt service obligations under our variable rate indebtedness could affect our ability to make payments required under the terms of our debt obligations.

Our ability to realize our deferred tax assets may be reduced if our estimates of future taxable income and tax planning strategies do not support the carrying amount, and the value of net operating loss carryforwards may be reduced if sales of our securities result in an ownership change as defined for U.S. federal income tax purposes.

As of September 30, 2010, we had deferred tax assets, net of valuation allowances, of \$227.6 million. These and future deferred tax assets may be reduced if our estimates of future taxable income from our operations and tax planning strategies do not support the amount of the deferred tax assets.

It is possible that the sale of shares of our common stock by selling stockholders may cause a reduction in the value of our net operating loss, or NOL, carryforwards realizable for income tax purposes. Section 382 of the Internal Revenue Code of 1986, as amended, or the Code, imposes restrictions on the use of a corporation's NOLs, as well as certain recognized built-in losses and other carryforwards, after an ownership change occurs. A Section 382 ownership change occurs if one or more stockholders or groups of stockholders who own at least 5% of our stock increase their ownership by more than 50 percentage points over their lowest ownership percentage within a rolling three-year period. Even if the sale of shares of our common stock by selling stockholders does not cause an ownership change, other future issuances or sales of shares of our common stock or conversions of our convertible securities into common stock (including certain transactions involving our stock that are outside of our control) could also result in an ownership change under Section 382. If an ownership change occurs, Section 382 would impose an annual limit on the amount of pre-ownership change NOLs and other losses we can use to reduce our taxable income generally equal to the product of the total value of our outstanding equity immediately prior to the ownership change (subject to certain adjustments) and the applicable federal long-term tax-exempt interest rate for the month of the ownership change. The applicable rate for ownership changes occurring in the month of December 2010 is 3.67%.

Because U.S. federal NOLs generally may be carried forward for up to 20 years, the annual limitation may effectively provide a cap on the cumulative amount of pre-ownership change losses, including certain

recognized built-in losses, that may be utilized. Such pre- ownership change losses in excess of the cap may be lost. In addition, if an ownership change were to occur, it is possible that the limitations imposed on our ability to use pre- ownership change losses and certain recognized built-in losses could cause a net increase in our U.S. federal income tax liability and U.S. federal income taxes to be paid earlier than otherwise would be paid if such limitations were not in effect. Further, if the amount or value of these deferred tax assets is reduced, such reduction would have a negative impact on the book value of our common stock.

USE OF PROCEEDS

We will not receive any proceeds from the sale of any shares of our common stock by selling stockholders. The selling stockholders will receive all of the net proceeds from the sales of shares of our common stock offered by them under this prospectus. Selling stockholders will pay certain costs related to the sale of shares, such as commissions and discounts of agents or broker-dealers and transfer taxes, if any. We will bear all other costs, fees and expenses incurred in effecting the registration of the shares covered by this prospectus, including, without limitation, all registration and filing fees and fees and expenses of our counsel and our accountants.

Common Stock

As of September 30, 2010, our authorized capital stock consisted of 2,000,000,000 shares of common stock, par value \$0.01 per share, of which 203,844,907 shares (including 1,151,017 shares of nonvested restricted stock) were issued and 203,798,715 were outstanding. Shares of our common stock were held of record by 254 stockholders as of September 30, 2010.

Holders of common stock are entitled to one vote per share on all matters submitted to be voted upon by the stockholders. The holders of our common stock do not have cumulative voting rights in the election of directors.

Subject to any superior rights of any holders of preferred stock or any class or series of stock having a preference over the common stock with respect to payment of dividends, holders of our common stock are entitled to such dividends as may be declared and paid from time to time by our board of directors out of legally available funds. Our current credit facility imposes restrictions on our ability to declare dividends with respect to our common stock. For additional information, see Dividend Policy below.

In the event of our liquidation, dissolution or winding up, the holders of common stock are entitled to receive ratably the assets available for distribution to the stockholders after payment of liabilities and any amounts due to the holders of preferred stock.

The holders of our common stock have no preemptive rights and no rights to convert or exchange their common stock into any other securities. There are no redemption or sinking fund provisions applicable to our common stock. All outstanding shares of our common stock are fully paid and non-assessable.

Preferred Stock

Our amended and restated certificate of incorporation authorizes our board of directors to, without stockholder approval, issue up to 200,000,000 shares of preferred stock in one or more series and to fix the rights, preferences, privileges and restrictions granted to or imposed upon the preferred stock, including voting rights, dividend rights, conversion rights, terms of redemption, liquidation preference, sinking fund terms, subscription rights and the number of shares constituting any series or the designation of a series.

Our board of directors can issue preferred stock with voting and conversion rights that could adversely affect the voting power of the holders of common stock, without stockholder approval. No shares of preferred stock are currently outstanding and we have no present plan to issue any shares of preferred stock.

Dividend Policy

We have never declared or paid a dividend on our common stock. We may retain any future earnings to support the development and expansion of our business or make additional payments under our ABL Loan Facility and, as a result, we may not pay cash dividends in the foreseeable future. Our payment of any future dividends will be at the discretion of our board of directors after taking into account various factors, including our financial condition, operating results, cash needs, growth plans and the terms of any credit agreements that we may be a party to at the time. Our ABL Loan Facility and the indenture that governs our Senior Notes limit us from paying cash dividends or other payments or distributions with respect to our capital stock in excess of certain amounts. In addition, the terms of any future credit agreement or indenture may contain similar restrictions on our ability to pay dividends or make payments or distributions with respect to our capital stock.

Registration Rights

We have granted our founding stockholders, including WLR, demand and piggyback registration rights relating to their shares of common stock pursuant to a registration rights agreement. In addition, Fairfax Financial Holdings Limited, or Fairfax, also received demand and piggyback registration rights relating to their shares of common stock pursuant to a registration rights agreement dated May 16, 2008. These rights are summarized below.

These holders, or their permitted transferees, will be entitled to unlimited piggyback registration rights. These rights entitle the holders to notice of a registration prior to the filing of a registration statement and to include, at our expense (except for Fairfax which must bear out-of-pocket registration expenses after the first demand), their shares of common stock in any of our registrations of our common stock (other than registrations we file on Form S-4 or S-8, or any successor forms thereto, or filed solely in connection with an offering made solely to our existing stockholders or employees), including the registration statement of which this prospectus is a part. We and our underwriters can reduce the number of shares of common stock requested to be included by holders of piggyback registration rights in view of market conditions.

In addition, WLR, any other founding stockholder or stockholders representing 20% of all registrable securities or their permitted transferees or Fairfax are entitled to demand rights to register all or a portion of their registrable securities under the Securities Act if the reasonably anticipated aggregate price to the public of these shares (net of underwriting discounts and commission) would exceed \$75 million, except if the value of Fairfax's remaining shares is less than \$75 million, the Company must still register the sale of Fairfax's remaining shares. We are also obligated to undertake three demand registrations by WLR, two demand registrations by Fairfax, one demand registration by each other individual founding stockholder and two additional demand registrations by a group of the founding stockholders representing 20% of the registrable securities. If we are eligible to register our securities on a Form S-3 under the Securities Act, holders can specify that the requested registration be a shelf registration for an offering on a delayed or continuous basis pursuant to Rule 415 of the Securities Act.

If our stockholders with registration rights cause a large number of securities to be registered and sold in the public market, those sales could cause the market price of our common stock to decline. If we initiate a registration and include registrable securities as a result of the exercise of registration rights, the inclusion of registrable securities could adversely affect our ability to raise capital.

Anti-Takeover Effects of Certain Provisions of Our Amended and Restated Certificate of Incorporation and Bylaws

Our amended and restated certificate of incorporation and bylaws contain several provisions that may make it more difficult to acquire us by means of a tender offer, open market purchase, proxy fight or otherwise.

These provisions in our amended and restated certificate of incorporation and bylaws are designed to encourage persons seeking to acquire control of us to negotiate with our board. We believe that, as a general rule, our interests and the interests of our stockholders would be served best if any change in control results from negotiations with our board based upon careful consideration of the proposed terms, such as the price to be paid to stockholders, the form of consideration to be paid and the anticipated tax effects of the transaction.

These anti-takeover provisions in our amended and restated certificate of incorporation and bylaws could, however, have the effect of discouraging a prospective acquiror from making a tender offer for our shares or otherwise attempting to obtain control of us. To the extent that these provisions discourage takeover attempts, they could deprive stockholders of opportunities to realize takeover premiums for their shares. Moreover, these provisions could discourage accumulations of large blocks of common stock, thus depriving stockholders of any advantages which large accumulations of stock might provide.

Set forth below is a summary of the relevant provisions of our amended and restated certificate of incorporation and bylaws and certain applicable sections of the General Corporation Law of the State of Delaware. This summary does not purport to be complete and is subject to, and qualified in its entirety by reference to, all of the provisions of our amended and restated certificate of incorporation, our bylaws and sections of the General Corporation Law of the State of Delaware.

Delaware Anti-Takeover Statute

We are governed by Section 203 of the General Corporation Law of the State of Delaware. Section 203, subject to certain exceptions, prohibits a Delaware corporation from engaging in any business combination with any interested stockholder for a period of three years following the time that such stockholder became an interested stockholder, unless:

prior to such time, the board of directors of the corporation approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;

upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding specified shares; or

at or subsequent to such time, the business combination is approved by the board of directors and authorized at an annual or special meeting of stockholders, and not by written consent, by the affirmative vote of at least 66 ²/₃% of the outstanding voting stock that is not owned by the interested stockholder.

The application of Section 203 may limit the ability of stockholders to approve a transaction that they may deem to be in their best interests.

In general, Section 203 defines "business combination" to include:

any merger or consolidation involving the corporation and the interested stockholder;

any sale, lease, exchange, mortgage, pledge, transfer or other disposition of 10% or more of the assets of the corporation to or with the interested stockholder;

subject to certain exceptions, any transaction which results in the issuance or transfer by the corporation of any stock of the corporation to the interested stockholder;

any transaction involving the corporation which has the effect of increasing the proportionate share of the stock of any class or series of the corporation beneficially owned by the interested stockholder; or

the receipt by the interested stockholder of the benefit of any loans, advances, guarantees, pledges or other financial benefits provided by or through the corporation.

In general, Section 203 defines an "interested stockholder" as any person that is:

the owner of 15% or more of the outstanding voting stock of the corporation;

Edgar Filing: International Coal Group, Inc. - Form S-3ASR

an affiliate or associate of the corporation and was the owner of 15% or more of the outstanding voting stock of the corporation at any time within three years immediately prior to the relevant date; and

the affiliates and associates of the above.

Under specific circumstances, Section 203 makes it more difficult for an interested stockholder to effect various business combinations with a corporation for a three-year period, although the stockholders may, by adopting an amendment to the corporation's certificate of incorporation or bylaws, elect not to be governed by this section, effective twelve months after adoption.

Our amended and restated certificate of incorporation and bylaws do not exclude us from the restrictions imposed under Section 203. We anticipate that the provisions of Section 203 may encourage companies interested in acquiring us to negotiate in advance with our board of directors since the stockholder approval requirement would be avoided if a majority of the directors then in office approve either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder.

Stockholder Action; Special Meetings

Our certificate of incorporation provides that stockholder action can be taken only at an annual or special meeting of stockholders and cannot be taken by written consent in lieu of a meeting. Our certificate of incorporation and our bylaws provide that, except as otherwise required by law, special meetings of the stockholders can only be called by the chairman of our board, our chief executive officer, our president or our secretary at the request of a majority of the number of directors that we would have if there were no vacancies on our board. Stockholders are not permitted to call a special meeting or to require our board to call a special meeting.

Stockholder Proposals

At an annual meeting of stockholders, only business that is properly brought before the meeting will be conducted or considered. To be properly brought before an annual meeting of stockholders, business must be specified in the notice of the meeting (or any supplement to that notice), brought before the meeting by the presiding officer or by or at the direction of the majority of the total number of directors that our board would have if there were no vacancies, or properly requested by a stockholder to be brought before the meeting.

For business to be properly requested by a stockholder to be brought before an annual meeting, the stockholder must:

be a stockholder of record at the time of the giving of the notice for the meeting;

be entitled to vote at the meeting; and

have given timely written notice of the business to our secretary.

To be timely, a stockholder's notice must be delivered to or mailed and received at our principal executive offices not less than 60, nor more than 90, calendar days prior to the first anniversary date on which we first mailed our proxy materials for the preceding year's annual meeting of stockholders; provided, however, that if there was no annual meeting in the preceding year or the date of the annual meeting is advanced more than 30 calendar days prior to, or delayed by more than 30 calendar days after the anniversary of the preceding year's annual meeting, notice by the stockholder to be timely must be so delivered not later than the close of business on the later of the 90th calendar day prior to such annual meeting or the 10th calendar day following the day on which public disclosure of the date of such meeting is first made. A stockholder's notice must set forth:

(A) as to each matter the stockholder proposes to bring before the annual meeting: (1) a description in reasonable detail of the business desired to be brought before the annual meeting; (2) the text of the proposal or business (including the text of any resolutions proposed for consideration and, if the business includes a proposal to amend the bylaws or the certificate of incorporation, the language of the proposed amendment); and (3) the reasons for conducting the business at the annual meeting; and

(B) as to each stockholder giving the notice and any stockholder associate: (1) the name and address of the stockholder, as it appears on the company's stock ledger, and, if different, the current name and address of the stockholder, and the name and address of any stockholder associate; (2) a representation that at least one of these persons is a holder of record or beneficially of securities of the company entitled to vote at the meeting and intends to remain so through the date of the meeting and to appear in person or by proxy at the meeting to present the business stated in the stockholder's notice; (3) the

class, series and number of any securities of the company that are owned of record or beneficially by each of these persons as of the date of the stockholder's notice; (4) a description of any material interests of any of these persons in the business proposed and of all agreements, arrangements and understanding between these persons and any other person (including their names) in connection with the proposal of the business by the stockholder; (5) a description of any proxy, contract, arrangement, understanding or relationship pursuant to which any of these persons has a right to vote any shares of any securities of the company; (6) a description of any derivative positions related to any class or series of securities of the company owned of record or beneficially by the stockholder or any stockholder associate; (7) a description of whether and the extent to which any hedging, swap or other transaction or series of transactions has been entered into by or on behalf of, or any other agreement, arrangement or understanding (including any short position or any borrowing or lending of securities) has been made, the effect or intent of which is to mitigate loss to, or manage risk of stock price changes for, or to increase the voting power of, the stockholder or any stockholder associate with respect to any securities of the company; and (8) a representation that after the date of the stockholder's notice and up to the date of the annual meeting, each of these persons will provide written notice to the Secretary of the company as soon as practicable following a change in the number of securities of the company held as described in response to subclause (3) above that equals 1% or more of the then-outstanding shares of the company, and/or entry, termination, amendment or modification of the agreements, arrangements or understandings described in response to subclause (6) above that results in a change that equals 1% or more of the then-outstanding shares of the company or in the economic interests underlying those agreements, arrangements or understandings; and

(C) a representation as to whether the stockholder giving notice and any stockholder associate intends, or intends to be part of a group that intends: (1) to deliver a proxy statement and/or form of proxy to holders of at least the percentage of the company's outstanding capital stock required to approve or adopt the proposal; and/or (2) otherwise to solicit proxies from stockholders in support of the proposal.

Similarly, at a special meeting of stockholders, only such business as is properly brought before the meeting will be conducted or considered. To be properly brought before a special meeting, business must be specified in the notice of the meeting (or any supplement to that notice) given by or at the direction of the chairman of our board, our chief executive officer, our president or our secretary at the request of a majority of the number of directors that we would have if there were no vacancies on our board or, otherwise brought before the meeting by the presiding officer or by or at the direction of the majority of the total number of directors that our board would have if there were no vacancies.

Nomination of Candidates for Election to Our Board

Under our bylaws, only persons that are properly nominated will be eligible for election to be members of our board. To be properly nominated, a director candidate must be nominated at an annual meeting of the stockholders by or at the direction of our board or committee thereof or properly nominated by a stockholder. To be properly nominated by a stockholder, such stockholder must have delivered a proxy statement and form of proxy to the holders of at least the percentage of shares of our voting stock required to approve such nomination and included in such materials a timely and proper notice in proper written form to our secretary.

To be timely, a stockholder's notice must be delivered to or mailed and received at our principal executive offices not less than 60 nor more than 90 calendar days prior to the first anniversary of the date on which we first mailed our proxy materials for the preceding year's annual meeting of stockholders. If, however, there was no annual meeting in the preceding year or the date of the annual meeting is advanced more than 30 calendar days prior to, or delayed by more than 30 calendar days after the anniversary of the preceding year's annual meeting, notice by the stockholder to be timely must be so delivered not later than the later of the 90th calendar day prior to such annual meeting or the tenth calendar day following the day on which public announcement of the date of such meeting is first made.

To be in proper written form, such stockholder's notice must include:

as to each person who is not an incumbent director of the company whom the stockholder proposes to nominate for election as a director, (A) the name, age, business address and residence address of such person; (B) the principal occupation or employment of such person; (C) the class, series and number of securities of the company that are owned of record or beneficially by such person; (D) the date or dates the securities were acquired and the investment intent of each acquisition; (E) any other information relating to such person that is required to be disclosed in solicitations for proxies for election of directors pursuant to Regulation 14A under the Exchange Act (or any comparable successor rule or regulation under the Exchange Act); and (F) any other information relating to such person that the board of directors or any nominating committee of the board of directors reviews in considering any person for nomination as a director, as will be provided by the Secretary of the company upon request;

as to the stockholder giving the notice and any stockholder associate, (A) the name and address of the stockholder, as they appear on the company's stock ledger, and, if different, the current name and address of the stockholder, and the name and address of any stockholder associate; (B) a representation that at least one of these persons is a holder of record or beneficially of securities of the company entitled to vote at the meeting and intends to remain so through the date of the meeting and to appear in person or by proxy at the meeting to nominate the person or persons specified in the stockholder's notice; (C) the class, series and number of securities of the company that are owned of record or beneficially by each of these persons as of the date of the stockholder's notice; (D) a description of any material relationships, including legal, financial and/or compensatory, among the stockholder giving the notice, any stockholder associate and the proposed nominee(s); (E) a description of any derivative positions related to any class or series of securities of the company owned of record or beneficially by the stockholder or any stockholder associate; (F) a description of whether and the extent to which any hedging, swap or other transaction or series of transactions has been entered into by or on behalf of, or any other agreement, arrangement or understanding (including any short position or any borrowing or lending of securities) has been made, the effect or intent of which is to mitigate loss to, or manage risk of stock price changes for, or to increase the voting power of, the stockholder or any stockholder associate with respect to any securities of the company; and (G) a representation that after the date of the stockholder's notice and up to the date of the annual meeting each of these persons will provide written notice to the Secretary of the company as soon as practicable following a change in the number of securities of the company held as described in response to subclause (C) above that equals 1% or more of the then-outstanding shares of the company, and/or entry, termination, amendment or modification of the agreements, arrangements or understanding described in response to subclause (F) above that results in a change that equals 1% or more of the then-outstanding shares of the company or in the economic interests underlying these agreements, arrangements or understanding;

a representation as to whether the stockholder giving notice and any stockholder associate intends, or intends to be part of a group that intends: (A) to deliver a proxy statement and/or form of proxy to stockholders; and/or (B) otherwise to solicit proxies from stockholders in support of the proposed nominee; and

a written consent of each proposed nominee to serve as a director of the company, if elected, and a representation that the proposed nominee (A) does not or will not have any undisclosed voting commitments or other arrangements with respect to his or her actions as a director; and (B) will comply with the bylaws and all applicable publicly disclosed corporate governance, conflict of interest, confidentiality and stock ownership and trading policies and guidelines of the company.

Amendment to Our Bylaws

Our bylaws may be amended, altered or repealed by the affirmative vote of a majority of our board or by the affirmative vote of the holders of at least 80% of our voting stock. Provisions that require the affirmative vote of the holders of 80% of our voting stock may make it more difficult to change our bylaws for the purpose of gaining control over us.

Selling stockholders may offer and sell shares of common stock covered by this prospectus and any applicable prospectus supplement from time to time but are under no obligation to offer or sell any such shares. Because selling stockholders may sell, transfer or otherwise dispose of shares of common stock covered by this prospectus, or may acquire additional shares from us in the future, we cannot determine the number of such shares of common stock that will be sold, transferred or otherwise disposed of by selling stockholders or the amount or percentage of shares of common stock that will be held by selling stockholders upon termination of any particular offering.

Pursuant to Section 145(a) of the Delaware General Corporation Law, or DGCL, International Coal Group, Inc. may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding (other than an action by or in the right of the corporation) by reason of the fact that the person is or was a director, officer, agent or employee of International Coal Group, Inc. or is or was serving at International Coal Group, Inc.'s request as a director, officer, agent, or employee of another corporation, partnership, joint venture, trust or other enterprise, against expenses, including attorneys' fees, judgment fines and amounts paid in settlement actually and reasonably incurred by the person in connection with such action, suit or proceeding.

Pursuant to Section 145(b) of the DGCL, the power to indemnify also applies to actions brought by or in the right of International Coal Group, Inc., but only to the extent of defense expenses (including attorneys' fees) actually and reasonably incurred by the person in connection with the defense or settlement of such action or suit. Pursuant to Section 145(b), no Delaware corporation shall indemnify any person in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to it unless and only to the extent that the Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstance of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper. The power to indemnify under Sections 145(a) and (b) of the DGCL applies (i) if such person is successful on the merits or otherwise in defense of any action, suit or proceeding, or (ii) if such person acted in good faith and in a manner he reasonably believed to be in the best interest, or not opposed to the best interest, of the Delaware corporation, and with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful.

Section 174 of the DGCL provides, among other things, that a director, who willfully or negligently approves of an unlawful payment of dividends or an unlawful stock purchase or redemption, may be held liable for such actions. A director who was either absent when the unlawful actions were approved or dissented at the time, may avoid liability by causing his or her dissent to such actions to be entered in the books containing the minutes of the meetings of the board of directors at the time such action occurred or immediately after such absent director receives notice of the unlawful acts.

Charter and/or Bylaw Indemnification Provisions of International Coal Group, Inc.

As permitted by Section 102 of the Delaware General Corporation Law, or the DGCL, the certificate of incorporation and bylaws for International Coal Group, Inc. include provisions eliminating the personal liability of the International Coal Group, Inc.'s officers and directors.

The indemnification provisions contained in International Coal Group, Inc.'s certificate of incorporation and/or bylaws are not exclusive of any other rights to which a person may be entitled by law, agreement, vote of stockholders or disinterested directors or otherwise.

As permitted by Sections 102, 145 and 174 of the DGCL, International Coal Group, Inc.'s Second Amended and Restated Certificate of Incorporation and Third Amended and Restated Bylaws provide for indemnification of its officers and directors and provide that:

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement;

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof. *Provided, however,* that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

- (i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;
 - (ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;
 - (iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and
 - (iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.
- (b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
- (c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
