EXPLANATORY NOTE

This Current Report on Form 8-K/A is filed as an amendment to the Current Report on Form 8-K filed by Transgenomic, Inc. (We or Company) on January 4, 2011 reporting that We acquired substantially all of Clinical Data, Inc. s assets and rights relating to FAMILION Testing and Pharmacogenomics Biomarker Development Business (FAMILION or FAMILION Product Line). This Amendment No. 1 is being filed to include the financial information required under Item 9.01 that We previously omitted in accordance with Item 9.01(a)(4) and Item 9.01(b)(2).

Historical audited financial statements of an acquired business are required if the acquisition exceeds certain quantitative tests of significance. FAMILION represents a significant acquisition at a level requiring two years of historical audited financial statements. We concluded that it was impracticable to prepare full financial statements of FAMILION and, in January 2011, began a dialogue with the staff of the Division of Corporate Finance of the Securities and Exchange Commission (the Staff) regarding the financial statements and pro forma financial information of the acquired FAMILION Product Line required by Item 9.01 of Form 8-K. In a letter dated January 19, 2010, the Staff indicated that, on the basis of the unique facts and circumstances, the Division would not object to the presentation of statements of assets acquired and liabilities assumed and statements of revenues and direct expenses of the acquired FAMILION Product Line in lieu of full financial statements.

The conclusion that it was impracticable to prepare full historical financial statements for the FAMILION Product Line was based on a number of factors, including:

FAMILION was neither a separate legal entity nor an entity that had been subject to discrete financial reporting. On a historical basis, separate financial statements for FAMILION had never been prepared.

Clinical Data, Inc. did not maintain separate general and administrative support functions for FAMILION.

Certain expenses, such as interest and income taxes, had never been allocated to FAMILION. In addition to the conclusion that full financial statements were impracticable, We believe that the historical information that follows is a more meaningful financial reporting alternative than full financial statements since it provides information that is specific to the FAMILION Product Line.

Since We filed our Form 10-K on March 14, 2011, prior to this Form 8-K/A, a pro forma balance sheet is neither required nor presented.

Item 9.01 of the Current Report on Form 8-K filed by Transgenomic, Inc. on January 4, 2011 is hereby amended to read as follows:

ITEM 9.01. FINANCIAL STATEMENTS AND EXHIBITS.

(a) Financial Statements of Business Acquired.
