**CAPITAL SENIOR LIVING CORPORATION**

**NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**

**March 31, 2012**

**1. BASIS OF PRESENTATION**

Capital Senior Living Corporation, a Delaware corporation (together with its subsidiaries, the Company), is one of the largest operators of senior living communities in the United States in terms of resident capacity. The Company owns, operates, develops and manages senior living communities throughout the United States. As of March 31, 2012, the Company operated 90 senior living communities in 23 states with an aggregate capacity of approximately 12,500 residents, including 41 senior living communities which the Company either owned or in which the Company had an ownership interest and 49 senior living communities that the Company leased. As of March 31, 2012, the Company also operated one home care agency. The accompanying consolidated financial statements include the financial statements of Capital Senior Living Corporation and its wholly owned subsidiaries. All material intercompany balances and transactions have been eliminated in consolidation. The Company accounts for significant investments in unconsolidated companies, in which the Company has significant influence, using the equity method of accounting.

The accompanying consolidated balance sheet, as of December 31, 2011, has been derived from audited consolidated financial statements of the Company for the year ended December 31, 2011, and the accompanying unaudited consolidated financial statements, as of and for the three month periods ended March 31, 2012 and 2011, have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in the annual financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to those rules and regulations. For further information, refer to the financial statements and notes thereto for the year ended December 31, 2011, included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 12, 2012.

In the opinion of the Company, the accompanying consolidated financial statements contain all adjustments (all of which were normal recurring accruals) necessary to present fairly the Company's financial position as of March 31, 2012, results of operations for the three month periods ended March 31, 2012 and 2011, and cash flows for the three month periods ended March 31, 2012 and 2011. The results of operations for the three month period ended March 31, 2012, are not necessarily indicative of the results for the year ending December 31, 2012.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

*Investments in Unconsolidated Joint Ventures*

The Company accounts for its investments in unconsolidated joint ventures under the equity method of accounting. As of March 31, 2012, the Company owns member interests in three unconsolidated joint ventures. The Company has not consolidated these joint venture interests because the Company has concluded that the other members of each joint venture have substantive kick-out rights or substantive participating rights. Under the equity method of accounting, the Company records its investments in unconsolidated joint ventures at cost and adjusts such investments for its share of earnings and losses of the joint ventures.

*Development Agreement Guarantees*

The Company, on its three joint venture developments, has guarantees that the communities will be completed and operated at the budgeted costs approved by the joint venture members. These costs include the hard and soft construction costs and operating costs until each community reaches breakeven. The budgeted costs include contingency reserves for potential cost overruns and other unforeseen costs. The terms of these guarantees generally do not provide for a limitation on the maximum potential future payments. These joint venture communities are currently in lease up and one of the joint ventures had exhausted its lease up reserve. The Company will be required to fund any operating deficits until the joint venture reaches breakeven for three consecutive months. Any amounts funded by the Company under this commitment, up to \$0.5 million, may be recoverable from the joint ventures in the event of liquidation. As of March 31, 2012, the Company has recognized deficit charges of approximately \$1.1 million under these development agreement guarantees. During the third quarter of fiscal 2011, the Company met the breakeven requirements of the

development agreement guarantees for two of these joint venture developments resulting in full satisfaction and termination of these respective guarantees.

---

**Table of Contents***Lease Accounting*

The Company determines whether to account for its leases as either operating, capital or financing leases depending on the underlying terms of each lease agreement. This determination of classification is complex and requires significant judgment relating to certain information including the estimated fair value and remaining economic life of the community, the Company's cost of funds, minimum lease payments and other lease terms. The lease rates under the Company's lease agreements are subject to certain conditional escalation clauses, which are recognized when probable or incurred, and are based on changes in the consumer price index or certain operational performance measures. As of March 31, 2012, the Company leased 49 communities and classified each of the leases as an operating lease. The Company incurs lease acquisition costs and amortizes these costs over the term of the respective lease agreement. Certain leases entered into by the Company qualified as sale/leaseback transactions and as such any related gains have been deferred and are being amortized over the respective lease term. Facility lease expense in the Company's Consolidated Statements of Income and Comprehensive Income includes rent expense plus amortization expense relating to leasehold acquisition costs offset by the amortization of deferred gains and lease incentives.

As of March 31, 2012, the Company has a non-cancelable lease which expires in 2013 for ten 12-passenger Ford Minibuses that are used to transport residents of certain communities. The lease is classified as a capital lease because it contains a bargain purchase option which resulted in the Company initially recording a capital lease obligation for \$247,000 of which \$66,000 remains outstanding at March 31, 2012.

There are various financial covenants and other restrictions in the Company's lease agreements. Under the terms of certain lease agreements, the Company has deposited additional cash collateral. The balance of the additional cash collateral totaled approximately \$3.0 million at March 31, 2012. Once the Company reaches certain performance targets, the additional cash collateral deposited is returnable to the Company. In anticipation of a potential lease covenant violation related to its portfolio of ten properties with a certain landlord, the Company has negotiated certain amendments delaying the effective date of a coverage ratio requirement until June 30, 2012. As a result, the Company was not in default on any aspect of its coverage ratio requirement as of March 31, 2012. Since current and projected operations are not anticipated to meet the lease coverage ratio requirement as of June 30, 2012, the Company and landlord have agreed to terms that provide a long-term solution to this matter. The solution is anticipated to be effective as of June 30, 2012, subject to usual and customary closing conditions. However, if a long-term solution is not finalized or the Company is unable to negotiate modifications to or extensions of existing amendments, the Company may be found in default of the lease agreement. In the event of default, the landlord has the right to declare all amounts outstanding to be immediately due and payable or terminate the lease, as well as other remedies. Earnings related to these properties were not significant to the consolidated operating results of the Company for the first quarter ended March 31, 2012.

*Income Taxes*

At March 31, 2012, the Company had recorded on its consolidated balance sheet net deferred tax assets of approximately \$7.5 million. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The effective tax rates for the first quarters of fiscal 2012 and 2011 differ from the statutory tax rates due to state income taxes and permanent tax differences. The Company is impacted by the Texas Margin Tax ( TMT ), which effectively imposes tax on modified gross revenues for communities within the State of Texas. The Company consolidated 34 Texas communities in the first quarter of fiscal 2012 and 29 Texas communities in the first quarter of fiscal 2011 and the TMT increased the overall provision for income taxes. Management regularly evaluates the future realization of deferred tax assets and provides a valuation allowance, if considered necessary, based on such evaluation. The Company has evaluated future expectations of income and believes based upon this analysis that the realization of the net deferred tax assets is reasonably assured and therefore has not provided for a valuation allowance. However, the benefits of the net deferred tax assets might not be realized if actual results differ from expectations.

The Company evaluates uncertain tax positions through consideration of accounting and reporting guidance on criteria, measurement, derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition that is intended to provide better financial-statement comparability among different companies. The Company is required to recognize a tax benefit in its financial statements for an uncertain tax position only if management's assessment is that its position is more likely than not (i.e., a greater than 50 percent likelihood) to be upheld on audit based only on the technical merits of the tax position. The Company's policy is to recognize interest related to unrecognized tax benefits as interest expense and penalties as income tax expense. The Company is not subject to income tax examinations for tax years prior to 2006.

**Table of Contents***Net Income Per Share*

Basic net income per common share is computed by dividing net income remaining after allocation to unvested restricted shares by the weighted average number of common shares outstanding for the period. Except when the effect would be anti-dilutive, the calculation of diluted net income per common share includes the net impact of unvested restricted shares and shares that could be issued under outstanding stock options.

The following table sets forth the computation of basic and diluted net income per share (in thousands, except for per share amounts):

	Three Months Ended March 31,	
	2012	2011
Net income	\$ 143	\$ 1,298
Net income allocable to unvested restricted shares	(4)	(26)
<b>Undistributed net income attributable to common shares</b>	<b>\$ 139</b>	<b>\$ 1,272</b>
Weighted average shares outstanding basic	27,262	26,884
Effects of dilutive securities:		
Employee equity compensation plans	52	109
<b>Weighted average shares outstanding diluted</b>	<b>27,314</b>	<b>26,993</b>
Basic income per share	\$ 0.01	\$ 0.05
<b>Diluted income per share</b>	<b>\$ 0.01</b>	<b>\$ 0.05</b>

Awards of unvested restricted stock representing approximately 828,000 and 550,000 shares were outstanding for the first quarters ended March 31, 2012 and 2011, respectively, and were included in the computation of allocable net income.

*Treasury Stock*

The Company accounts for treasury stock under the cost method and includes treasury stock as a component of stockholders' equity.

*Reclassifications*

Certain reclassifications have been made to prior year quarterly amounts to conform to year end and current year presentation. Assets are classified as held for sale when the Company has committed to selling the asset and believes that it will be disposed of within one year. The Company periodically reevaluates assets held for sale to determine if the assets are still recorded at the lower of fair value, net of cost of disposal, or carrying value and whether the assets continue to meet the criteria to be classified as held for sale. Based on this evaluation, at December 31, 2011 the Company reclassified one parcel of land valued at \$0.4 million that was previously classified as held for sale to property and equipment within the Consolidated Balance Sheets, which had no impact on total assets.

*Recently Issued Accounting Guidance*

In May 2011, the Financial Accounting Standards Board ( FASB ) issued Accounting Standards Update No. 2011-04, *Fair Value Measurement* ( ASU 2011-04 ), which amended Accounting Standards Codification (ASC) 820 to clarify existing guidance and minimize differences between U.S. GAAP and International Financial Reporting Standards (IFRS). ASU 2011-04 requires entities to provide information about valuation techniques and unobservable inputs used in fair value measurements and provide additional disclosures for classes of assets and liabilities

## Edgar Filing: CAPITAL SENIOR LIVING CORP - Form 10-Q

disclosed at fair value. The Company adopted ASU 2011-04 as of January 1, 2012, which did not have a material impact on our financial statements.

In June 2011, the FASB issued Accounting Standards Update No. 2011-05, *Statement of Comprehensive Income* ( ASU 2011-05 ), which requires entities to present net income and other comprehensive income in either a single continuous statement or in two separate, but consecutive, statements of income and comprehensive income. ASU 2011-05 was effective for the Company January 1, 2012, and the update did not impact the reported results of operations of the Company.

**Table of Contents****3. TRANSACTIONS WITH AFFILIATES***SHPII/CSL*

In November 2004, the Company with Senior Housing Partners II, L.P. ( SHPII ) formed four joint ventures (collectively, SHPII/CSL ) that owned four senior living communities (the Spring Meadows Communities ). SHPII/CSL was owned 95% by SHPII, a fund managed by Prudential Real Estate Investors ( Prudential ), and 5% by the Company. The Company had contributed \$1.3 million for its interests in SHPII/CSL. The Company accounted for its investment in SHPII/CSL under the equity method of accounting and the Company recognized earnings in the equity of SHPII/CSL of \$61,000 in the first quarter ended March 31, 2011. In addition, the Company earned \$0.3 million in management fees on the Spring Meadows Communities during the first quarter ended March 31, 2011.

On April 8, 2011, SHPII/CSL closed the sale of the four senior living communities to Health Care REIT, Inc. ( HCN ). Upon closing the sale, the Company leased the four senior living communities from HCN (the Spring Meadows Transaction ). The Company received proceeds, including incentive distributions, from the sale by SHPII/CSL of approximately \$17.0 million, compared to its original investment of approximately \$1.3 million. After closing costs and taxes, the Company received net proceeds of approximately \$11.5 million from the transaction. The gain realized from the sale was deferred and amortized as a reduction in facility rent expense over the life of the initial lease term.

*SHPIII/CSL Miami*

In May 2007, the Company with Senior Housing Partners III, L.P. ( SHPIII ) formed SHPIII/CSL Miami, L.L.C. ( SHPIII/CSL Miami ) to develop a senior housing community in Miamisburg, Ohio. Under the joint venture and related agreements, the Company earns development and management fees and may receive incentive distributions. As of March 31, 2012, the Company has contributed \$0.8 million to SHPIII/CSL Richmond Heights for its 10% interest. The Company accounts for its investment in SHPIII/CSL Richmond Heights under the equity method of accounting and recognized earnings of \$1,000 and losses of (\$20,000) in the equity of SHPIII/CSL Richmond Heights in the first three months ended March 31, 2012 and 2011, respectively. In addition, the Company earned \$61,000 and \$45,000 in management fees on the SHPIII/CSL Richmond Heights community during the first three months ended March 31, 2012 and 2011, respectively.

The Company contributed land to SHPIII/CSL Richmond Heights as a capital contribution during formation of the joint venture in November 2007 resulting in a \$0.2 million gain to the Company. The gain had been deferred when the land was initially contributed to SHPIII/CSL Richmond Heights due to the continuing involvement of the Company as a result of a development agreement guarantee. The Company met the breakeven requirements of the development agreement guarantee during the third quarter of fiscal 2011 resulting in full satisfaction and termination of the guarantee and recognition of the deferred gain as a component of Gain on disposition of assets, net, within the Company's Consolidated Statement of Income and Comprehensive Income.

**Table of Contents****4. ACQUISITIONS***Fiscal 2012*

Effective March 30, 2012, the Company closed the acquisition of one senior living community located in Jeffersonville, Indiana, for approximately \$15.3 million (the Riverbend Transaction). The community consists of 97 assisted living units. ### *Share Repurchases*

common stock and the share repurchase authorization has no stated expiration date. Shares of stock repurchased under the program will be held as treasury shares. Pursuant to this authorization, during fiscal 2009, the Company purchased 349,800 shares at an average cost of \$2.67 per share for a total cost to the Company of approximately \$0.9 million. **7. STOCK-BASED COMPENSATION**

The Company recognizes compensation expense for share-based stock awards to employees, including grants of employee stock options and awards of restricted stock, in the Consolidated Statements of Income and Comprehensive Income based on their fair values.

On May 8, 2007, the Company's stockholders approved the 2007 Omnibus Stock and Incentive Plan for Capital Senior Living Corporation (the 2007 Plan), which provides for, among other things, the grant of restricted stock awards and stock options to purchase shares of the Company's common stock. The 2007 Plan authorizes the Company to issue up to 2.6 million shares of common stock and the Company has reserved 1.0 million shares of common stock for future issuance pursuant to awards under the 2007 Plan. Effective May 8, 2007, the 1997 Omnibus Stock and Incentive Plan (as amended, the 1997 Plan) was terminated and no additional shares will be granted under the 1997 Plan. The Company has reserved 0.5 million shares of common stock for future issuance upon the exercise of stock options that remain outstanding pursuant to the 1997 Plan.

*Stock Options*

The Company's stock option program is a long-term retention program that is intended to attract, retain and provide incentives for employees, officers and directors and to more closely align stockholder and employee interests. The Company's options generally vest over a period of one to five years and the related expense is amortized on a straight-line basis over the vesting period.

A summary of the Company's stock option activity and related information for the three-month period ended March 31, 2012, is presented below:

	Outstanding at Beginning of Period	Granted	Exercised	Forfeited	Outstanding at End of Period	Options Exercisable
Shares	285,100		2,000		283,100	283,100
Weighted average exercise price	\$ 6.28	\$	\$ 3.75	\$	\$ 6.30	\$ 6.30

The options outstanding and the options exercisable at March 31, 2012, each had an intrinsic value of \$0.9 million.

*Restricted Stock*

The Company may grant restricted stock awards to employees, officers, and directors in order to attract, retain, and provide incentives for such individuals and to more closely align stockholder and employee interests. For restricted stock awards without performance-based vesting conditions, the Company records compensation expense for the entire award on a straight-line basis over the requisite service period, which is generally a period of three to four years, but such awards are considered outstanding at the time of grant since the holders thereof are entitled to dividends and voting rights. For restricted stock awards with performance-based vesting conditions, total compensation expense is recognized over the requisite service period for each separately vesting tranche of the award as if the award is, in substance, multiple awards once the performance target is deemed probable of achievement. Performance goals are evaluated periodically and if such goals are not ultimately met or it is not probable the goals will be achieved, no compensation expense is recognized and any previously recognized compensation expense is reversed.

The Company recognizes compensation expense of a restricted stock award over its respective vesting or performance period based on the fair value of the award on the grant date, net of forfeitures. A summary of the Company's restricted stock awards activity and related information for the three-month period ended March 31, 2012, is presented below:

Issued      Vested      Forfeited

Edgar Filing: CAPITAL SENIOR LIVING CORP - Form 10-Q

	Outstanding at Beginning of Period			Outstanding at End of Period	
Shares	626,442	460,691	255,740	3,500	827,893

**Table of Contents**

The restricted stock outstanding at March 31, 2012, had an intrinsic value of \$7.7 million.

During the three months ended March 31, 2012, the Company awarded 460,691 shares of restricted common stock to certain employees of the Company. The average market value of the common stock on the date of grant was \$7.71. These awards of restricted stock vest over a one to four-year period and had an intrinsic value of \$3.6 million on the date of issue.

*Stock Based Compensation*

The Company uses the Black-Scholes option pricing model to estimate the grant date fair value of its stock options. The Black-Scholes model requires the input of certain assumptions including expected volatility, expected dividend yield, expected life of the option and the risk free interest rate. The expected volatility used by the Company is based primarily on an analysis of historical prices of the Company's common stock. The expected term of options granted is based primarily on historical exercise and vesting patterns on the Company's outstanding stock options. The risk free rate is based on zero-coupon U.S. Treasury yields in effect at the date of grant with the same period as the expected option life. The Company does not currently plan to pay dividends on its common stock and therefore has used a dividend yield of zero in determining the fair value of its awards. The option forfeiture rate assumption used by the Company, which affect the expense recognized as opposed to the fair value of the awards, is based primarily on the Company's historical option forfeiture patterns. The Company issued no stock options during each of the first quarters of fiscal 2012 and 2011. The Company recognizes compensation expense of a restricted stock award over its vesting period based on the fair value of the award on the grant date, net of estimated forfeitures.

The Company has total stock-based compensation expense, including estimated forfeitures, of \$4.7 million, which was not recognized as of March 31, 2012, and expects this expense to be recognized over approximately a three to four year period.

**8. CONTINGENCIES**

The Company has claims incurred in the normal course of its business. Most of these claims are believed by management to be covered by insurance, subject to normal reservations of rights by the insurance companies and possibly subject to certain exclusions in the applicable insurance policies. Whether or not covered by insurance, these claims, in the opinion of management, based on advice of legal counsel, should not have a material effect on the consolidated financial statements of the Company if determined adversely to the Company.

**9. FAIR VALUE OF FINANCIAL INSTRUMENTS**

The carrying amounts and fair values of financial instruments at March 31, 2012, and December 31, 2011, are as follows (in thousands):

	2012		2011	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Cash and cash equivalents	\$ 17,714	\$ 17,714	\$ 22,283	\$ 22,283
Restricted cash	9,111	9,111	9,102	9,102
Notes payable	279,471	281,337	233,136	237,536

The following methods and assumptions were used in estimating its fair value disclosures for financial instruments:

*Cash and cash equivalents and Restricted cash:* The carrying amounts reported in the balance sheets for cash and cash equivalents and restricted cash approximate fair value.

*Notes payable:* The fair value of notes payable is estimated using discounted cash flow analysis, based on current incremental borrowing rates for similar types of borrowing arrangements, which represent level 2 inputs as defined in the accounting standards codification.

The Company is one of the largest operators of senior living communities in the United States. The Company's operating strategy is to provide quality senior living services to its residents, while achieving and sustaining a strong, competitive position within its chosen markets, as well as to continue to enhance the performance of its operations. The Company provides senior living services to the elderly, including independent living, assisted living, skilled nursing and home care services.

As of March 31, 2012, the Company operated 90 senior living communities in 23 states with an aggregate capacity of approximately 12,500 residents, including 38 senior living communities that the Company owned, three senior living communities in which the Company had an ownership interest, and 49 senior living communities that the Company leased. As of March 31, 2012, the Company also operated one home care agency.

**Significant Financial and Operational Highlights**

The Company's operating strategy is to provide quality senior living communities and services to its residents, while achieving and sustaining a strong, competitive position within its chosen markets, as well as to continue to enhance the performance of its operations. The Company provides senior living services to the elderly, including independent living, assisted living, skilled nursing and home care services. Many of the Company's communities offer a continuum of care to meet its residents' needs as they change over time. This continuum of care, which integrates independent living and assisted living and is bridged by home care through independent home care agencies or the Company's home care agency, sustains residents' autonomy and independence based on their physical and mental abilities.

The Company primarily derives its revenue by providing senior living and healthcare services to the elderly and operating senior living communities under joint venture arrangements. Operating results from recent acquisitions have added to the Company's growing profitability. When comparing the first quarter of fiscal 2012 to the first quarter of fiscal 2011, the Company has generated total revenues of \$72.2 million compared to total revenues of \$59.8 million, respectively, representing an increase of approximately \$12.4 million, or 20.7%, of which approximately 98.3% were derived from resident and healthcare services during the first quarter of fiscal 2012 compared to 95.1% during the first quarter of fiscal 2011.

Effective March 30, 2012, the Company closed the acquisition of one senior living community located in Jeffersonville, Indiana, for approximately \$15.3 million. The community consists of 97 assisted living units. The Company obtained financing through Fannie Mae for approximately \$11.5 million of the acquisition price at a fixed rate of 4.76% with a 10-year term with the balance of the acquisition price paid from the Company's existing cash resources.

## **Table of Contents**

Effective March 30, 2012, the Company also closed the acquisition of four senior living communities located in Arlington, College Station, Conroe and Stephenville, Texas, for approximately \$34.1 million. The four properties acquired are part of a five property transaction with the fifth property located in Corpus Christi, Texas, which is expected to close during the second quarter of fiscal 2012. The four communities acquired consist of 45 independent living units and 211 assisted living units. The Company obtained financing through Fannie Mae for approximately \$26.1 million of the acquisition price at a fixed rate of 4.69% with a 10-year term with the balance of the acquisition price paid from the Company's existing cash resources.

Effective March 1, 2012, the Company closed the acquisition of a senior living community located in Granbury, Texas, for approximately \$7.0 million. The Company obtained financing through Fannie Mae for approximately \$5.4 million of the acquisition price at a fixed rate of 4.38% with a 10-year term with the balance of the acquisition price paid from the Company's existing cash resources.

The senior living industry continues to be impacted by challenging conditions in the housing, credit and financial markets, generally resulting in lower than anticipated operating results. During the first quarter of fiscal 2012 and throughout fiscal 2011, in response to these conditions, the Company has continued to focus on maintaining an emphasis on occupancy increases, improvement in rental rates, expense management and growth in net operating income per unit, conversions of existing units to higher levels of care, acquisitions of senior living communities in regions where the Company has existing operations, and other opportunities to enhance cash flow and shareholder value.

### ***Joint Venture Transactions and Management Contracts***

As of March 31, 2012, the Company managed three communities owned by joint ventures in which the Company has a minority interest. For communities owned by joint ventures, the Company typically receives a management fee of 5% of gross revenues.

The Company's joint venture management fees are primarily based on a percentage of gross revenues. As a result, the cash flow and profitability of such contracts to the Company are more dependent on the revenues generated by such communities and less dependent on net cash flow than for owned or leased communities. Further, the Company is not responsible for capital investments in managed communities. The management contracts are generally terminable only for cause or upon the sale of a community, subject to the Company's right to offer to purchase such community.

### ***SHPII/CSL Transactions***

In November 2004, the Company formed SHPII/CSL with SHPII. SHPII/CSL was owned 95% by SHPII, a fund managed by Prudential, and 5% by the Company. Effective as of November 30, 2004, SHPII/CSL acquired the Spring Meadows Communities which currently comprise 628 units with a combined capacity of 758 residents. The Company contributed \$1.3 million for its interests in SHPII/CSL and accounted for its investment in SHPII/CSL under the equity method of accounting.

The Company was party to a series of property management agreements (the SHPII/CSL Management Agreements) with SHPII/CSL, which collectively owned and operated the Spring Meadows Communities. The SHPII/CSL Management Agreements extended until various dates through November 2014. The SHPII/CSL Management Agreements generally provided for management fees of 5% of gross revenue plus reimbursement for costs and expenses related to the communities.

On April 8, 2011, SHPII/CSL closed the Spring Meadows Transaction. Upon closing the sale, the Company leased the four Spring Meadows Communities from HCN. The lease has an initial term of 15 years, with one 15-year renewal extension available at the Company's option. The initial lease rate is 7.25% and is subject to certain conditional lease escalation clauses. The Company incurred approximately \$0.9 million in lease acquisition costs which have been deferred and are being amortized over the initial 15-year lease term. The Company has accounted for this lease as an operating lease. As a result of this transaction, the Company received cash proceeds, including incentive distributions, from the sale by SHPII/CSL of approximately \$17.0 million, net of closing costs, resulting in a gain to the Company of approximately \$16.1 million, which has been deferred and is being recognized in the Company's Consolidated Statements of Income and Comprehensive Income as a reduction in facility lease expense over the initial 15-year lease term.

### ***SHPIII Transactions***

In May 2007, the Company and SHPIII formed SHPIII/CSL Miami to develop a senior housing community in Miamisburg, Ohio. Under the joint venture and related agreements, the Company earns development and management fees and may receive incentive distributions. The senior housing community opened in August 2008 and currently consists of 101 independent living units and 45

The Company has contributed \$0.8 million to SHPIII/CSL Richmond Heights for its 10% interest and accounts for its investment in SHPIII/CSL Richmond Heights under the equity method of accounting. The Company contributed land to SHP III/CSL Richmond Heights as a capital contribution during formation of the joint venture in November 2007 resulting in a \$0.2 million gain to the Company. The gain had been deferred when the land was initially contributed to SHP III/CSL Richmond Heights due to the continuing involvement of the Company as a result of a development agreement guarantee. The Company met the breakeven requirements of the development agreement guarantee during the third quarter of fiscal 2011 resulting in full satisfaction and termination of guarantee and recognition of the deferred gain as a component of Gain on disposition of assets, net, within the Company's Consolidated Statement of Income and Comprehensive Income.

In December 2007, the Company and SHPIII formed SHPIII/CSL Levis Commons to develop a senior housing community near Toledo, Ohio. Under the joint venture and related agreements, the Company earns development and management fees and may receive incentive distributions. The senior housing community opened in April 2009 and currently consists of 101 independent living units and 45 assisted living units with a capacity of 197 residents. The Company has contributed \$0.8 million to SHPIII/CSL Levis Commons for its 10% interest and accounts for its investment in SHPIII/CSL Levis Commons under the equity method of accounting. During the third quarter of fiscal 2011, the Company met the breakeven requirements of the development agreement guarantee for this joint venture development resulting in full satisfaction and termination of the guarantee.

The Company is party to a series of property management agreements (the SHPIII/CSL Management Agreements) with SHPIII/CSL Miami, SHPIII/CSL Richmond Heights, and SHPIII/CSL Levis Commons (collectively SHPIII/CSL), which joint ventures are owned 90% by SHPIII, a fund managed by Prudential Investment Management, Inc. (Prudential Investment) and 10% by the Company, which collectively own and operate SHPIII/CSL. The SHPIII/CSL Management Agreements are for initial terms of ten years from the date the certificate of occupancy was issued and currently extend until various dates through January 2019. The SHPIII/CSL Management Agreements generally provide for management fees of 5% of gross revenue plus reimbursement for costs and expenses related to the communities.

**Facility Lease Transactions**

The Company currently leases 49 senior living communities from certain REITs and accounts for each of the leases as an operating lease. The lease terms are generally for 10-15 years with renewal options for 5-20 years at the Company's option. Under these agreements the Company is responsible for all operating costs, maintenance and repairs, insurance and property taxes. The following table summarizes each of the Company's lease agreements (dollars in millions):

## **Table of Contents**

Facility lease expense in the Company's Consolidated Statements of Income and Comprehensive Income includes rent expense plus amortization expense relating to leasehold acquisition costs offset by the amortization of deferred gains and lease incentives.

There are various financial covenants and other restrictions in the Company's lease agreements. Under the terms of certain lease agreements, the Company has deposited additional cash collateral. The balance of the additional cash collateral totaled approximately \$3.0 million at March 31, 2012. Once the Company reaches certain performance targets, the additional cash collateral deposited is returnable to the Company. In anticipation of a potential lease covenant violation related to its portfolio of ten properties with a certain landlord, the Company has negotiated certain amendments delaying the effective date of a coverage ratio requirement until June 30, 2012. As a result, the Company was not in default on any aspect of its coverage ratio requirement as of March 31, 2012. Since current and projected operations are not anticipated to meet the lease coverage ratio requirement as of June 30, 2012, the Company and landlord have agreed to terms that provide a long-term solution to this matter. The solution is anticipated to be effective as of June 30, 2012, subject to usual and customary closing conditions. However, if a long-term solution is not finalized or the Company is unable to negotiate modifications to or extensions of existing amendments, the Company may be found in default of the lease agreement. In the event of default, the landlord has the right to declare all amounts outstanding to be immediately due and payable or terminate the lease, as well as other remedies. Earnings related to these properties were not significant to the consolidated operating results of the Company for the first quarter ended March 31, 2012.

### ***Recently Issued Accounting Guidance***

In May 2011, the FASB issued ASU 2011-04, which amended ASC 820 to clarify existing guidance and minimize differences between U.S. GAAP and IFRS. ASU 2011-04 requires entities to provide information about valuation techniques and unobservable inputs used in fair value measurements and provide additional disclosures for classes of assets and liabilities disclosed at fair value. The Company adopted ASU 2011-04 as of January 1, 2012, which did not have a material impact on our financial statements.

In June 2011, the FASB issued ASU 2011-05, which requires entities to present net income and other comprehensive income in either a single continuous statement or in two separate, but consecutive, statements of income and comprehensive income. ASU 2011-05 was effective for the Company January 1, 2012, and the update did not impact the reported results of operations of the Company.

**Three Months Ended March 31, 2012 Compared to the Three Months Ended March 31, 2011***Revenues.*

Total revenues were \$72.2 million for the three months ended March 31, 2012, compared to \$59.8 million for the three months ended March 31, 2011, representing an increase of \$12.4 million, or 20.7%. This increase in revenue is primarily the result of an increase in resident and healthcare revenue of \$14.1 million offset by a decrease in affiliated management services revenue of \$0.3 million and a decrease in community reimbursement revenue of \$1.4 million.

The increase in resident and healthcare revenue primarily results from an increase of \$6.4 million from the Spring Meadows Transaction, an increase of \$5.7 million from the GreenTree at Kokomo Transaction, Keystone Woods and Wynnfield Crossing Transaction, Summit Point Transaction, Pulliam Transaction, Granbury Transaction, Esperanza Transaction, and Riverbend Transaction and an increase in occupancy of 1.0% and average monthly rental rates of 2.6% at the Company's other consolidated

same-store communities.

The decrease in affiliated management services revenue of \$0.3 million primarily results from the Spring Meadows Transaction.

Community reimbursement revenue is comprised of reimbursable expenses from non-consolidated communities that the Company operates under long-term management agreements. The decrease in community reimbursement revenue primarily results from the Spring Meadows Transaction.

## **Table of Contents**

### *Expenses.*

Total expenses were \$68.2 million in the first quarter of fiscal 2012 compared to \$54.6 million in the first quarter of fiscal 2011, representing an increase of \$13.5 million, or 24.8%. This increase is primarily the result of a \$8.4 million increase in operating expenses, a \$0.9 million increase in general and administrative expenses, a \$2.1 million increase in facility lease expense, a \$0.4 million increase in stock-based compensation expense, and a \$3.1 million increase in depreciation and amortization expense offset by a \$1.4 million decrease in community reimbursement expense.

The increase in operating expenses primarily results from an increase of \$3.4 million from the Spring Meadows Transaction, an increase of \$3.5 million from the GreenTree at Kokomo Transaction, Keystone Woods and Wynnfield Crossing Transaction, Summit Point Transaction, Pulliam Transaction, Granbury Transaction, Esperanza Transaction, and Riverbend Transaction, and an increase in operating costs at the Company's other consolidated same-store communities of \$1.5 million. The increase in operating costs at the Company's other consolidated same-store communities was primarily due to an increase of \$1.0 million in employee wages and benefits, an increase of \$0.2 million in food costs, and an increase of \$0.3 million for insurance and casualty losses.

The increase in facility lease expense primarily results from an increase of \$2.6 million from the Spring Meadows Transaction offset by a decrease of \$0.5 million for in-place lease intangibles that were fully amortized in the third quarter of fiscal 2011 associated with the leasehold interests in 12 communities acquired in the lease transaction with HCN and Signature Assisted Living of Texas, LLC in September 2010 (the HCN/Signature Transaction).

Depreciation and amortization expense increased \$3.1 million primarily from an increase of \$2.8 million from the GreenTree at Kokomo Transaction, Keystone Woods and Wynnfield Crossing Transaction, Summit Point Transaction, Pulliam Transaction, Granbury Transaction, Esperanza Transaction, and Riverbend Transaction, and an increase of \$0.3 million as a result of an increase in depreciable assets at the Company's other consolidated same-store communities.

General and administrative expenses increased \$0.9 million primarily from an increase of \$0.4 million for due diligence and legal expenses incurred in connection with the Company's acquisitions during the first quarter of fiscal 2012, an increase of \$0.1 million in wages and benefits for existing and additional full time employees hired subsequent to the first quarter of fiscal 2011, and an increase of \$0.4 million in employee insurance benefits and claims paid, which resulted in higher health insurance costs to the Company.

Community reimbursement expense represents payroll and administrative costs paid by the Company for the benefit of non-consolidated communities and joint ventures. The decrease in community reimbursement expense primarily results from the Spring Meadows Transaction.

### *Other income and expense.*

Interest income reflects interest earned on the investment of cash balances and interest earned on escrowed funds. Interest income increased primarily due to slightly higher interest rates in fiscal 2012 compared to fiscal 2011.

Interest expense increased \$0.8 million in the first quarter of fiscal 2012 when compared to the first quarter of fiscal 2011 primarily due to the additional mortgage debt associated with Company's acquisitions of senior living communities in fiscal 2011 and 2012.

### *Provision for income taxes.*

Provision for income taxes for the first quarter of fiscal 2012 was \$0.2 million, or 63.3% of income before taxes, compared to a provision for income taxes of \$1.0 million, or 43.3% of income before taxes, for the first quarter of fiscal 2011. The effective tax rates for the first quarters of fiscal 2012 and 2011 differ from the statutory tax rates due to state income taxes and permanent tax differences. The Company is impacted by

## Edgar Filing: CAPITAL SENIOR LIVING CORP - Form 10-Q

the TMT which effectively imposes tax on modified gross revenues for communities within the State of Texas. The Company consolidated 34 Texas communities in the first quarter of fiscal 2012 and 29 Texas communities in the first quarter of fiscal 2011 and the TMT increased the overall provision for income taxes. Management regularly evaluates the future realization of deferred tax assets and provides a valuation allowance, if considered necessary, based on such evaluation. The Company has evaluated future expectations of income and believes, based upon this analysis, that the realization of net deferred tax assets is reasonably assured and therefore has not provided for a valuation allowance at March 31, 2012.

**Table of Contents***Net income and comprehensive income.*

As a result of the foregoing factors, the Company reported net income and comprehensive income of \$0.1 million for the three months ended March 31, 2012, compared to a net income of \$1.3 million for the three months ended March 31, 2011.

**Liquidity and Capital Resources**

The impact of the current economic environment could result in decreases in the fair value of assets, slowing of transactions, and tightening liquidity and credit markets. These impacts could make securing debt for acquisitions or financings for the Company, its joint ventures, or buyers of the Company's properties more difficult or on terms not acceptable to the Company. Additionally, the Company may be more susceptible to being negatively impacted by operating or performance deficits based on the exposure associated with certain development guarantees or lease coverage requirements.

In addition to approximately \$17.7 million of unrestricted cash balances on hand as of March 31, 2012, the Company's principal sources of liquidity are expected to be cash flows from operations and from SHPIII/CSL Miami, SHP III/CSL Richmond Heights, SHPIII/CSL Levis Commons, supplemental debt financings, and/or proceeds from the sale of assets. The Company expects its available cash and cash flows from operations and from SHPIII/CSL Miami, SHP III/CSL Richmond Heights, SHPIII/CSL Levis Commons, supplemental debt financings, and proceeds from the sale of assets to be sufficient to fund its short-term working capital requirements. The Company's long-term capital requirements, primarily for acquisitions and other corporate initiatives, could be dependent on its ability to access additional funds through joint ventures and the debt and/or equity markets. The Company, from time to time, considers and evaluates transactions related to its portfolio including supplemental debt financings, purchases and sales, reorganizations and other transactions. There can be no assurance that the Company will continue to generate cash flows at or above current levels or that the Company will be able to obtain the capital necessary to meet the Company's short and long-term capital requirements.

In summary, the Company's cash flows were as follows (in thousands):

	<b>Three Months Ended</b>	
	<b>March 31,</b>	
	<b>2012</b>	<b>2011</b>

Net cash provided by (used in) financing activities	45,814	(3,458)
Net decrease in cash and cash equivalents	\$ (4,569)	\$ (1,307)

*Operating Activities.*

The net cash provided by operating activities for the first quarter of fiscal 2012 primarily results from net income of \$0.1 million, net non-cash charges of \$6.9 million, a decrease in accounts receivable of \$0.2 million, a decrease in property tax and insurance deposits of \$2.4 million, a decrease in prepaid expenses and other assets of \$0.6 million, and a decrease in federal and state income taxes receivable of \$0.5 million offset by a decrease in accounts payable of \$0.8 million and a decrease in accrued expenses of \$1.6 million. The net cash provided by operating activities for the first quarter of fiscal 2011 primarily results from net income of \$1.3 million, net non-cash charges of \$5.1 million, a decrease in property tax and insurance deposits of \$1.5 million, and a decrease in prepaid expenses and other of \$1.1 million offset by an increase in accounts receivable of \$0.2 million, an increase in other assets of \$2.2 million, a decrease in accounts payable of \$0.7 million, a decrease in accrued expenses of \$1.7 million, and an increase in federal and state income taxes receivable of \$0.2 million.

*Investing Activities.*

The net cash used in investing activities for the first quarter of fiscal 2012 primarily results from capital expenditures of \$2.3 million, acquisitions of \$56.4 million for the Granbury Transaction, Esperanza Transaction, and Riverbend Transaction, and contributions to joint ventures of \$0.1 million. The net cash used in investing activities for the first quarter of fiscal 2011 primarily results from capital expenditures of \$1.4 million and net investments in joint ventures of \$0.4 million.

---

**Table of Contents***Financing Activities.*

The net cash provided by financing activities for the first quarter of fiscal 2012 primarily results from notes payable proceeds of \$48.6 million of which \$43.0 million was from the Granbury Transaction, Esperanza Transaction, and Riverbend Transaction and \$5.6 million was from supplemental financing on existing communities and \$0.2 million resulted from proceeds and excess tax benefits from the issuance of common stock offset by repayments of notes payable of \$2.2 million and deferred financing charges paid of \$0.7 million. The net cash used in financing activities for the first quarter of fiscal 2011 primarily results from repayments of notes payable of \$2.0 million and additions to restricted cash of \$2.6 million offset by proceeds from the issuance of common stock of \$0.8 million and excess tax benefits from the issuance of common stock of \$0.3 million.

## **Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.**

The Company's primary market risk is exposure to changes in interest rates on debt and lease instruments. As of March 31, 2012, the Company had \$279.5 million in outstanding debt comprised solely of fixed rate debt instruments. In addition, as of March 31, 2012, the Company had \$508.7 million in future facility lease obligations with contingent rent increases on certain leases based on changes in the consumer price index or certain operational performance measures.

Changes in interest rates would affect the fair market values of the Company's fixed rate debt instruments, but would not have an impact on the Company's earnings or cash flows. Increases in the consumer price index could have an effect on future facility lease expense if the leased community exceeds the contingent rent escalation thresholds set forth in each of the Company's lease agreements.

## **Item 4. CONTROLS AND PROCEDURES.**

### **Effectiveness of Controls and Procedures**

The Company's management, with the participation of the Company's Chief Executive Officer ( CEO ) and Chief Financial Officer ( CFO ), has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act )) as of the end of the period covered by this report. The Company's disclosure controls and procedures are designed to ensure that information required to be disclosed by

the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. The Company's disclosure controls and procedures are also designed to ensure that such information is accumulated and communicated to the Company's management, including the CEO and CFO as appropriate, to allow timely decisions regarding required disclosure.

Based upon the controls evaluation, the Company's CEO and CFO have concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures are effective.

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the Company's fiscal quarter ended March 31, 2012 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**Part II. OTHER INFORMATION****Item 1. LEGAL PROCEEDINGS.**

The Company has claims incurred in the normal course of its business. Most of these claims are believed by management to be covered by insurance, subject to normal reservations of rights by the insurance companies and possibly subject to certain exclusions in the applicable insurance policies. Whether or not covered by insurance, these claims, in the opinion of management, based on advice of legal counsel, should not have a material effect on the consolidated financial statements of the Company if determined adversely to the Company.

**Item 1A. RISK FACTORS.**

Our business involves various risks. When evaluating our business the following information should be carefully considered in conjunction with the other information contained in our periodic filings with the SEC.
