PROXY STATEMENT

FOR ANNUAL MEETING OF SHAREHOLDERS

TO BE HELD ON MAY 21, 2013

PROXY SOLICITATION AND VOTING INFORMATION

Why am I receiving these materials?

The Board of Directors (the "Board") of Ameris Bancorp (the "Company") has made these materials available to you on the Internet or, upon your request, has delivered printed versions of these materials to you by mail, in connection with the solicitation of proxies by and on behalf of the Board for use at the Company's Annual Meeting of Shareholders (the "Annual Meeting") to be held at the Company's offices located at 24 Second Avenue Southeast, Moultrie, Georgia, on Tuesday, May 21, 2013, at 9:30 a.m., local time, and any adjournment or postponement thereof. These materials were first made available to shareholders on April 5, 2013. Shareholders of the Company are invited to attend the Annual Meeting and are requested to vote on the proposals described in this Proxy Statement.

What is included in these materials?

These materials include:

the Company's Proxy Statement; and

the Company's 2012 Annual Report to Shareholders, which includes the Company's audited consolidated financial statements. If you request printed versions of these materials by mail, these materials will also include the proxy card for the Annual Meeting.

What am I voting on?

You will be voting on each of the following:

the election of two Class I directors for a three-year term of office and one Class III director for a two-year term of office;

Edgar Filing: Ameris Bancorp - Form DEF 14A

the ratification of the appointment of Porter Keadle Moore, LLC (PKM) as the Company s independent auditor for 2013;

the advisory approval of the Company s executive compensation; and

any other business that may properly come before the Annual Meeting or any adjournment or postponement thereof.
As of the date of this Proxy Statement, the Board knows of no other matters that will be brought before the Annual Meeting.

You may not cumulate your votes for any matter being voted on at the Annual Meeting, and you are not entitled to appraisal or dissenters rights.

Table of Contents

Why did I receive a one-page notice in the mail or e-mail notification regarding the Internet availability of proxy materials instead of a full set of proxy materials?

Pursuant to rules adopted by the U.S. Securities and Exchange Commission (the "SEC"), the Company has provided access to its proxy materials over the Internet. Accordingly, the Company is sending a Notice of Internet Availability of Proxy Materials (the "Notice") to shareholders of record and beneficial owners. All shareholders will have the ability to access the proxy materials on the website referred to in the Notice, free of charge, or request to receive a printed set of the proxy materials. Instructions on how to access the proxy materials over the Internet or to request a printed copy may be found in the Notice. In addition, shareholders may request to receive proxy materials electronically by e-mail on an ongoing basis.

How can I get electronic access to the proxy materials?

The Notice provides you with instructions regarding how to:

view proxy materials for the Annual Meeting on the Internet and execute a proxy; and

instruct the Company to send future proxy materials to you electronically by e-mail.

Choosing to receive future proxy materials by e-mail will save the Company the cost of printing and mailing documents to you and will reduce the impact of its annual meetings on the environment. If you choose to receive future proxy materials by e-mail, you will receive an e-mail next year with instructions containing a link to those materials and a link to the proxy voting site. Your election to receive proxy materials by e-mail will remain in effect until you terminate it.

Who can vote?

You may vote if you owned shares of the Company's common stock, \$1.00 par value per share (the "Common Stock"), as of the close of business on March 12, 2013, the record date for the Annual Meeting (the "Record Date"). As of the Record Date, there were 23,882,585 shares of Common Stock outstanding and entitled to vote.

How do I vote?

You have four voting options. You may vote using one of the following methods:

over the Internet, which you are encouraged to do if you have access to the Internet;

by telephone;

for those shareholders who request to receive a paper proxy card in the mail, by completing, signing and returning the proxy; or

by attending the Annual Meeting and voting in person.

The Notice provides instructions on how to access your proxy card, which contains instructions on how to vote via the Internet or by telephone. For those shareholders who request to receive a paper proxy card in the mail, instructions for voting via the Internet, by telephone or by mail are set forth on the proxy card. Please follow the directions on your proxy card carefully.

Can I vote at the Annual Meeting?

Edgar Filing: Ameris Bancorp - Form DEF 14A

You may vote your shares at the Annual Meeting if you attend in person. Even if you plan to be present at the Annual Meeting, you are encouraged to vote your shares by proxy. You may vote your proxy via the Internet, by telephone or by mail. Even if you have already voted your shares by proxy, you may change your vote and vote your shares at the Annual Meeting if you attend in person.

Table of Contents

What if my shares are registered in more than one person's name?

If you own shares that are registered in the name of more than one person, each person must sign the proxy. If an attorney, executor, administrator, trustee, guardian or any other person signs the proxy in a representative capacity, the full title of the person signing the proxy should be given and a certificate should be furnished showing evidence of appointment.

What does it mean if I receive more than one Notice?

If you receive more than one Notice, then you have multiple accounts with brokers or the Company's transfer agent. Please vote all of these shares. It is recommended that you contact your broker or the Company's transfer agent, as applicable, to consolidate as many accounts as possible under the same name and address. The Company's transfer agent is Computershare Investor Services, which may be contacted by telephone at (800) 568-3476.

Can I change my mind after I vote?

You may change your vote at any time before the polls close at the Annual Meeting. You may do this by using one of the following methods:

voting again by telephone or over the Internet prior to 1:00 a.m., Eastern Daylight Time, on May 21, 2013;

giving written notice to the Company's Corporate Secretary at the address indicated on the first page of this Proxy Statement;

delivering a later-dated proxy; or

voting in person at the Annual Meeting.

How many votes am I entitled to?

All holders of Common Stock are entitled to cast one vote per share held as of the Record Date.

How many votes must be present to hold the Annual Meeting?

In order for the Company to conduct the Annual Meeting, the holders of a majority of the shares of Common Stock outstanding and entitled to vote as of the Record Date must be present at the Annual Meeting. This is referred to as a quorum. Your shares will be counted as present at the Annual Meeting if you do one of the following:

vote via the Internet or by telephone;

return a properly executed proxy by mail (even if you do not provide voting instructions); or

attend the Annual Meeting and vote in person.

How many votes are needed to elect directors?

Directors will be elected by a plurality of the votes present in person or represented by proxy and entitled to vote at the Annual Meeting, meaning that the two Class I nominees receiving the most votes will be elected as Class I directors and the Class III nominee receiving the most votes will be elected as a Class III director.

Edgar Filing: Ameris Bancorp - Form DEF 14A

How many votes are needed to ratify the appointment of PKM as the Company's independent auditor for 2013 and approve the advisory vote on executive compensation?

Approval of each of these proposals requires the affirmative vote of a majority of the shares of Common Stock present in person or represented by proxy and entitled to vote at the Annual Meeting.

Table of Contents

How many votes are needed for other matters?

The affirmative vote of a majority of the shares of Common Stock present in person or represented by proxy and entitled to vote at the Annual Meeting will be required to approve any other matter that properly comes before the Annual Meeting. The Board knows of no other matters that will be brought before the Annual Meeting. If other matters are properly introduced, the persons named in the proxy as the proxy holders will vote on such matters in their discretion.

Will my shares be voted if I do not provide my proxy?

Your shares may be voted under certain circumstances if they are held in the name of a brokerage firm. Brokerage firms have the authority under stock exchange rules to vote customers' unvoted shares on routine matters, which include the ratification of the appointment of the Company's independent auditor. Accordingly, if a brokerage firm votes your shares on these matters in accordance with these rules, your shares will count as present at the Annual Meeting for purposes of establishing a quorum and will count as for votes or against votes, as the case may be, with respect to all routine matters voted on at the Annual Meeting. If you hold your shares directly in your own name, they will not be voted if you do not vote them or provide a proxy. If a brokerage firm signs and returns a proxy on your behalf that does not contain voting instructions, your shares will count as present at the Annual Meeting for quorum purposes and will count as a for vote for the appointment of PKM as the Company's independent auditor for 2013 but will not count as a for vote or a withhold vote on the election of the director nominees named in this Proxy Statement and will not be counted as an advisory vote on executive compensation. These are referred to as broker non-votes. Questions regarding these procedures may be directed to the Corporate Secretary at the address indicated on the first page of this Proxy Statement.

PROPOSAL 1 ELECTION OF DIRECTORS

The business and affairs of the Company are managed under the direction of the Board in accordance with the Georgia Business Corporation Code, subject to any limitations set forth in the Company's Articles of Incorporation and Bylaws. The Board selects and oversees the members of senior management, who are charged by the Board with conducting the business of the Company.

The Company has a classified board of directors currently consisting of two Class I directors (Edwin W. Hortman, Jr. and Daniel B. Jeter, who currently serves as Chairman of the Board), three Class II directors (J. Raymond Fulp, Robert P. Lynch and Brooks Sheldon), and three Class III directors (R. Dale Ezzell, Leo J. Hill and Jimmy D. Veal). The Class I directors currently serve until the Annual Meeting, and the Class II and Class III directors currently serve until the annual meetings of shareholders to be held in 2014 and 2015, respectively, except that shareholders are being asked to re-elect Mr. Hill as a Class III director at the Annual Meeting. After the Annual Meeting, the Class I, Class II and Class III directors will serve until the annual meetings of shareholders to be held in 2016, 2014 and 2015, respectively, and until their respective successors are duly elected and qualified.

At each annual meeting of shareholders, directors are duly elected for a full term of three years to succeed those whose terms are expiring, although directors may be elected for shorter terms in certain instances, such as filling a vacancy in a particular class of directors. Vacancies on the Board and newly created directorships also can generally be filled by a vote of a majority of the directors then in office. The Company's executive officers are appointed annually by the Board and serve at the discretion of the Board, subject to applicable employment agreements.

At the Annual Meeting, shareholders are being asked to (i) re-elect Messrs. Hortman and Jeter to serve as Class I directors until the 2016 annual meeting of shareholders and until their successors are duly elected and qualified and (ii) re-elect Mr. Hill to serve as a Class III director until the 2015 annual meeting of shareholders and until his successor is duly elected and qualified. Mr. Hill was elected by the Board to serve as a Class III director in January 2013 to fill the vacancy resulting from the resignation in June 2012 of V. Wayne Williford.

Proxies cannot be voted at the Annual Meeting for a greater number of persons than the number of nominees named.

Unless otherwise directed, the persons named as proxies and attorneys in the enclosed form of proxy intend to vote FOR the election of all nominees as directors for the ensuing term and until their successors are duly elected and qualified. If any such nominee for any reason should not be available as a candidate for director, votes will be cast pursuant to authority granted by the enclosed proxy for such other candidate or candidates as may be nominated by the Board. The Board is unaware of a nominee who is unable to serve as a director or will decline to serve as a director, if elected.

(3) Mr. Williford resigned from the Board of Directors of the Company and the Bank on June 14, 2012.

Each director attended at least 75% of all meetings of the full Board and of those committees on which he served and was eligible to attend in 2012. Additionally, the independent directors met in executive sessions, without any members of management or other employees, four times in 2012. These executive sessions allow the Board to review key decisions and discuss matters in a manner that is independent of management.

The Company's 2012 annual meeting of shareholders was attended by all members of the Board, except Mr. Fulp, who was absent due to personal obligations. Directors are expected to attend annual meetings of shareholders absent exceptional cause.

Identifying and Evaluating Nominees

With respect to the nomination process, the Corporate Governance and Nominating Committee reviews the composition and size of the Board to ensure that it has the proper expertise and independence; determines the criteria for the selection of Board members and Board committee members; plans for continuity on the Board as existing Board members retire or rotate off the Board; establishes criteria for qualifications as independent directors, consistent with applicable laws and listing standards; maintains a file of suitable candidates for consideration as nominees to the Board; reviews Board candidates recommended by shareholders in compliance with all director nomination procedures for shareholders; and recommends to the Board the slate of nominees of directors to be elected by the shareholders and any directors to be elected by the Board to fill vacancies.

The Corporate Governance and Nominating Committee has not established specific minimum age, education, years of business experience or specific types of skills for potential candidates but, in general, expects qualified candidates will have ample experience and a proven record of business success and leadership. Director candidates will be evaluated based on their financial literacy, business acumen and experience, independence for purposes of compliance with SEC and Nasdaq rules and willingness, ability and availability for service. In addition, the Corporate Governance and Nominating Committee requires that each Board candidate have the highest personal and professional ethics, integrity and values, including respectfulness, honesty and a commitment to teamwork and high standards consistent with the core values of the Company, and consistently exercise sound and objective business judgment. It is also anticipated that the Board as a whole have individuals with significant appropriate senior management or other leadership experience, a long-term and strategic perspective and the ability to advance constructive debate.

The Corporate Governance and Nominating Committee has not adopted a formal policy with regard to the consideration of diversity in identifying director nominees. In determining whether to recommend a director nominee, the members of the Corporate Governance and Nominating Committee consider and discuss diversity, among other factors, with a view toward the role and needs of the Board as a whole. When identifying and recommending director nominees, the members of the Corporate Governance and Nominating Committee generally view diversity expansively to include, without limitation, concepts such as race, gender, national origin, differences of viewpoint and perspective, professional experience, education, skill and other qualities or attributes that together contribute to the functioning of the Board. The Corporate Governance and Nominating Committee believes that the inclusion of diversity as one of many factors considered in selecting director nominees is consistent with the goal of creating a Board that best serves the needs of the Company and the interests of its shareholders.

The Corporate Governance and Nominating Committee has performed a review of the experience, qualifications, attributes and skills of the Company's current directors and nominees and believes that such persons possess a variety of complementary skills and characteristics, including the following:

personal characteristics, including leadership, character, integrity, accountability, sound business judgment and personal reputation;

successful business or professional experience;

various areas of expertise or experience, including financial, strategic and general management;

expertise or experience in various industries, including banking and financial services, hospitality, consumer finance, automotive, construction, planning and engineering, real estate, timber and agricultural;

residence in the Bank's market area;

willingness and ability to commit the necessary time to fully discharge the responsibilities of a director in connection with the affairs of the Company; and

a demonstrated commitment to the success of the Company.

For a discussion of the specific backgrounds and qualifications of our current directors and nominees, see Proposal 1 Election of Directors in this Proxy Statement.

Although the Corporate Governance and Nominating Committee has authority to retain a search firm or consultant to assist in identifying director candidates, to date no such search firm or consultant has been engaged, and the Company has never received a proposed director candidate from a source outside of the Company. However, the Corporate Governance and Nominating Committee would consider any director candidate proposed by any shareholder of record who has given timely written notice to the Corporate Secretary as required by Article III, Section 2(b) of the Company's Bylaws. The proposing shareholder's notice to the Corporate Secretary must set forth the information required by such section, including the director candidate's name, credentials, contact information and his or her consent to be considered as a director candidate, as well as the proposing shareholder's own contact information and a statement of his or her share ownership (how many shares held and for how long). To be timely, a proposing shareholder's notice must be received at the Company's principal executive office no later than the date determined in accordance with the Company's Bylaws. There are no differences in the manner in which the Corporate Governance and Nominating Committee evaluates director candidates it identifies and candidates who are recommended for nomination for membership on the Board by a shareholder.

Board Leadership Structure and Role in Risk Oversight

The Company is committed to having sound corporate governance principles and practices, and independent board oversight is valued as an essential component of our corporate governance framework. Our commitment to independent oversight is demonstrated by the fact that all of our directors, except our Chief Executive Officer, are independent. In addition, all of the members of the Board's Audit Committee, Compensation Committee and Corporate Governance and Nominating Committee are independent.

The Company currently has an independent, non-executive Chairman separate from the Chief Executive Officer. The Board believes that this structure enhances (i) its oversight of, and independence from, management, (ii) its ability to carry out its role and responsibilities on behalf of the Company's shareholders, and (iii) the Company's overall corporate governance. While the Board believes that having an independent Chairman is the most appropriate leadership structure for the Board at this time, the Board retains the flexibility to revise this structure in the future based upon its assessment of the Company's needs.

The Audit Committee is primarily responsible for overseeing the Company's risk management processes on behalf of the full Board, although the Board and all of its committees are sensitive to risks relating to the Company and its operations. The Audit Committee focuses on financial reporting risk, oversees the entire audit function and evaluates the effectiveness of internal and external audit efforts. It receives reports from management regularly regarding the Company's assessment of risks and the adequacy and effectiveness of internal control systems. Through its interaction with the Company's Chief Risk Officer, the Audit Committee oversees credit risk, market risk (including liquidity and interest rate risk) and operational risk (including compliance and legal risk). Our Chief Risk Officer meets with the Audit Committee as necessary to discuss potential risk or control issues. In addition, our external auditors meet at least quarterly with the Audit Committee in executive session to discuss potential risk and control issues involving the Company. The Audit Committee reports regularly to the full Board, which also considers the Company's entire risk profile, including additional strategic and reputational risks. While the Board oversees the Company's risk management, management is responsible for the day-to-day risk management processes. We believe that this division of responsibility is the most effective approach for addressing the risks facing the Company; however, we will continue to re-examine our Board leadership structure on a regular basis, recognizing that different structures may be appropriate in different situations faced by the Company.

Director Reviews and Education

The Board conducts a self-assessment annually, and individual directors are separately evaluated each year in connection with director performance reviews. The Corporate Governance and Nominating Committee reviews and discusses with the Board the results of these annual assessments.

Director education is an essential component of good governance and effective compliance practices for financial institutions. It increases the likelihood of retaining good directors and attracting more highly skilled candidates to serve on the boards of banks.

Reflecting our commitment to principles of strong corporate governance in general and director education in particular, in October 2012, Messrs. Lynch and Sheldon attended the South Georgia Community Bank Symposium sponsored by the Georgia Bankers Association and the Langdale College of Business at Valdosta State University. This seminar, designed specifically for banking executives, directors and key managers, focused on challenges currently faced by the banking industry, with discussion of such topics as the economic outlook for 2012 and 2013, market trends in agriculture, accounting rules, compliance and regulation.

Also, in October 2012, Mr. Ezzell attended the Auburn University Bank Directors College sponsored by Jones Walker, Porter Keadle Moore, LLC, Promontory Financial Group, LLC, SunTrust Robinson Humphrey and AloStar Bank of Commerce. The program's agenda included economic and regulatory updates, as well as a discussion of mergers and acquisitions, risk management, strategic and capital planning and creation of shareholder value.

As we continue to encourage ongoing educational initiatives, the majority of the Board's monthly meetings now include an educational and strategic session focused on keeping directors informed about legislative and regulatory developments, important banking industry trends and fundamental basics of bank directorship. In addition, our corporate counsel annually updates the Board on corporate governance.

Compensation Committee Interlocks and Insider Participation

From January 2012 through June 2012, Messrs. Fulp, Jeter and Veal served as members of the Compensation Committee. From June 2012 through December 2012, Messrs. Fulp, Jeter, Lynch and Veal served as members of the Compensation Committee. None of Messrs. Fulp, Jeter, Lynch or Veal is or has been an officer or employee of the Company.

Communication with the Board and its Committees

Our shareholders may communicate with the Board by directing correspondence to the Board, any of its committees or one or more individual members, in care of the Corporate Secretary, Ameris Bancorp, 310 First Street, S.E., Moultrie, Georgia 31768. The Corporate Secretary will forward such correspondence to whom it is addressed.

Table of Contents**COMPENSATION OF DIRECTORS**

During 2010, the Board suspended the payment of all fees to directors, committee members and members of the Company's community bank boards. The community board fee (a retainer of \$300 per member per month paid in arrears) was reinstated in November 2011. In September 2012, this fee was increased to \$400 per member per month. Beginning in January 2012, directors became entitled to retainer fees of \$1,000 per month for Board service and \$1,000 for in-person attendance at each regular Board meeting. In September 2012, these fees were increased to \$1,500 per month for Board service and \$1,500 for in-person attendance at each regular Board meeting. Directors are entitled to one-half of the attendance fee if they participate via teleconference. It was determined that committee fees were included in the Board service fees and that, as a result, no additional fees would be paid for committee service. The following table provides a summary of the Company's director fee schedule in effect during 2012.

EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

The following Compensation Discussion and Analysis may contain statements regarding future individual and Company performance targets or goals. We have disclosed these targets or goals in the limited context of the Company's compensation programs; therefore, you should not take these statements to be statements of management's expectations or estimates of results or other guidance. We specifically caution investors not to apply such statements in other contexts.

This Compensation Discussion and Analysis is intended to assist our shareholders in understanding the Company's compensation programs. It presents and explains the philosophy underlying our compensation strategy and the fundamental elements of compensation paid to our Chief Executive Officer, Chief Financial Officer and other individuals included in the Summary Compensation Table (collectively, "named executive officers") for 2012. Specifically, this Compensation Discussion and Analysis addresses the following:

our compensation philosophy and the objectives of our compensation programs;

what our compensation programs are designed to reward;

our process for determining executive officer compensation, including:

the role and responsibility of the Compensation Committee;

the role of the Chief Executive Officer and other named executive officers;

the role of compensation consultants; and

benchmarking and other market analyses;

elements of compensation provided to our executive officers, including:

the purpose of each element of compensation;

why we elect to pay each element of compensation;

how we determine the levels or payout opportunities for each element; and

decisions on final payments for each element and how these align with performance; and

other compensation and benefit policies affecting our executive officers.

Compensation Philosophy and the Objectives of Our Compensation Programs

The Compensation Committee believes that the most effective compensation programs strive to accomplish the following objectives:

aligning the interests of the employee with those of the Company's shareholders;

attracting and retaining talented individuals and top performers; and

motivating performance toward the achievement of short-term and long-term goals.

To meet these objectives, the Compensation Committee has carefully structured the Company's compensation programs in the following manner:

base compensation levels benchmarked to, and competitive with, the 50th percentile of market, defined in terms of geography, company type and company size, with actual base pay varying in a normal range around the 50th percentile based on individual performance;

Table of Contents

annual incentive compensation that varies in a consistent manner with the achievement of both the financial and operating objectives of the Company and individual performance objectives, which together support our business strategy;

long-term incentive compensation (equity) based on retention and the achievement of longer-term (minimum three-year) financial and strategic goals;

executive benefits that are meaningful and competitive with, and comparable to, those offered by similar organizations; and

an appropriate balance between base pay, short-term incentives, long-term incentives and benefits that provides total compensation at a percentile of market compensation levels that approximates the Company's performance relative to its peers.

In designing and administering the Company's executive compensation program, the Compensation Committee strives to maintain an appropriate balance across all of the various compensation elements, realizing that at times some objectives may be more difficult to achieve than others, or even in conflict with others. In addition, external factors, such as the general state of the economy and the banking industry or legislative changes impacting executive compensation, may impact the effectiveness of existing approaches to executive compensation. Such events require ongoing monitoring and a careful reconsideration of existing approaches by the Compensation Committee. On an annual basis the Compensation Committee carefully evaluates and, where appropriate, makes decisions and adjustments to future compensation programs to consistently implement the strategic objectives of executive compensation.

What Our Executive Compensation Program is Designed to Reward

Our executive officers' compensation program uses different components to reward different performance considerations. Base salary is provided to reward each executive for daily contributions and the application of his or her knowledge, experience and talent to the success of the Company. Base salary is also a reflection of the external value of each executive's position in the job market and the internal value of his or her assigned roles and responsibilities to the success and ongoing viability of the Company.

Annual incentives are provided to focus performance on the key strategic short-term objectives defined and established on an annual basis. These incentives are strongly linked to the success of achieving annual goals and provide each executive with cash rewards commensurate with the Company's annual performance and the Board's assessment of the executive's personal performance.

Long-term incentives reward executives for the longer-term success of the Company. Historically, the Company provided long-term incentives in the form of stock options and restricted stock with both time-based and performance-based vesting provisions. This equity-based compensation rewards executives for the long-term performance of the Company and maintains the alignment between executive compensation levels and shareholder value. As the value of the stock held by shareholders increases, the value of the equity-based long-term incentives provided to each executive increases. Conversely, as shareholder value declines, the value of the equity awards vesting for each executive declines.

Benefits provided to each executive officer are in line with our broad-based employee benefits, which meet basic health and welfare needs. As discussed in the section of this Proxy Statement entitled Retirement Benefits, in November 2012, we entered into supplemental executive retirement agreements with certain of our key executive officers. Perquisites for our executives remain conservative and primarily serve to enhance our executives' business development activities.

TARP Compensation Requirements

Because of the Company's participation in the Troubled Asset Relief Program (TARP) of the U.S. Department of the Treasury (the Treasury) in November 2008, the Company has been subject to a number of compensation limitations in recent years. These limitations were in effect until June 14, 2012, after which they ceased to apply to the Company, when the Treasury sold in a registered public offering all of the shares of the Company's Fixed Rate Cumulative Perpetual Preferred Stock, Series A, that it had been issued in 2008. Any impact of these limitations is reflected in the compensation reported in this Proxy Statement for 2010, 2011 and 2012.

In June 2009, the Treasury published an interim final rule applicable to the Company and other financial institutions participating in the Capital Purchase Program under TARP with respect to executive compensation and corporate governance standards imposed by the Emergency Economic Stabilization Act of 2008 (EESA), as amended by the American Recovery and Reinvestment Act of 2009 (ARRA). The following summary addresses certain requirements that were applicable to the Company during the time that the Treasury held its preferred stock investment in the Company (the TARP period).

Limits on Incentive Compensation The scope of limits on incentive compensation vary based upon the amount of funds received under TARP. In our case, we were prohibited during the TARP period from paying or accruing any bonus, retention award or incentive compensation for any of our Senior Executive Officers (SEOs), which are defined for purposes of EESA to include the top five most highly compensated executives of a public company whose compensation is required to be disclosed pursuant to SEC regulations. This prohibition does not apply (i) to any bonus payments required to be paid pursuant to a written employment agreement executed on or before February 11, 2009; or (ii) to the granting of long-term restricted stock or restricted stock units, provided that such restricted stock and units do not fully vest during the TARP period and are not awarded on an annual basis at a value exceeding one-third of the covered employee's total annual compensation.

Prohibition on Compensation that Provides an Incentive to Take Unnecessary and Excessive Risks This restriction prohibits the participating financial institution from providing incentive compensation arrangements that encourage SEOs to take unnecessary and excessive risks that threaten the value of the financial institution. Treasury regulations also require the institution's compensation committee to review SEO incentive compensation arrangements with its senior risk officers to ensure that the SEOs are not encouraged to take such risks. The regulations require the institution's compensation committee to meet at least semi-annually with its senior risk officers to discuss and review the relationship between its risk management policies and practices and the SEO incentive compensation arrangements. The Compensation Committee has performed all required reviews, and its conclusions are included in its report in this Proxy Statement. The Company has never knowingly provided incentives that encouraged SEOs to take unnecessary and excessive risks that threaten the value of the Company.

Clawback on Incentive Compensation Compensation plans must provide for the recovery of any bonus, retention award or incentive compensation paid to SEOs and the next 20 most highly compensated employees (up to a total of 25 employees) that were based upon financial statements or other criteria that are later found to be materially inaccurate. In addition, compensation plans that would encourage manipulation of reported earnings to enhance the compensation of any employee are prohibited.

Limit on Tax Deduction This provision of EESA limits the tax deduction for compensation paid to any SEO to \$500,000 annually. This provision of EESA amended Section 162(m) of the Internal Revenue Code by adding Section 162(m)(5), which sets forth the \$500,000 deduction limit. In addition, prior to the amendment, certain performance-based compensation paid under shareholder-approved plans did not count toward such deduction limit. EESA and Section 162(m)(5) eliminated that exclusion for the Company.

Table of Contents

Prohibitions on Golden Parachutes TARP recipients are prohibited from making any golden parachute payments to CEOs and the next five most highly compensated employees (up to a total of 10 employees). Golden parachute payments are defined as any payment for departure from a company for any reason, except for payments for services performed or benefits accrued. In addition, any amount due upon a change in control event of a TARP recipient, as well as the acceleration of vesting due to a departure or a change in control event, is treated as a golden parachute payment.

Limitations on Luxury Expenditures A TARP recipient must have a policy regarding excessive or luxury expenditures, including entertainment or events, office and facility renovations, aviation or other transportation services, and other activities or events that are not reasonable expenditures for staff development or reasonable performance incentives.

Prohibition of Tax Gross-Ups TARP recipients are prohibited from providing gross ups to any CEO and the next 20 most highly compensated employees. This requirement prohibits the reimbursement of taxes owed on any compensation, such as golden parachutes and perquisites.

Non-Binding Advisory Proposal on Executive Compensation As required by ARRA, the Board authorized a non-binding advisory shareholder vote on the Company's executive compensation plans, programs and arrangements in 2009, 2010, 2011 and 2012.

Compensation Program Risk

The Company also reviews its compensation policies and practices in accordance with SEC guidance to identify instances in which its compensation plans may encourage participants to take risks that are reasonably likely to have a material adverse effect on the Company. This review extends to our senior executive officers as well as all other employees. With the assistance of the Company's senior risk officers and Matthews, Young Management Consulting (Matthews Young), the compensation consultants engaged directly by the Compensation Committee, we conducted a comprehensive review of the purpose of each short-term and long-term compensation plan, eligible participants in each plan, how we assigned administrative authority for each plan, categories of performance measures in each plan and incentive award opportunity levels.

For each compensation plan, we reviewed a broad range of specific risk elements, rated the level of relative risk for each element, and identified and took action to eliminate or mitigate risk wherever appropriate in each plan. In addition, Matthews Young reviewed the competitiveness and mix of compensation elements in our overall executive compensation program and reported to the Compensation Committee during the fourth quarter of 2012. As a result of our review, we determined that (i) there is sufficient balance in our overall compensation mix; (ii) executive officer base salaries are appropriately competitive without need to receive a high level of bonus or incentive in order to earn adequate cash compensation; (iii) our use of equity grants as long-term incentives provides an effective and balanced focus between short- and long-term objectives; and (iv) the Company's compensation policies, plans and practices do not encourage unnecessary or unreasonable risk taking and do not encourage executives or employees to take risks that are reasonably likely to have an adverse effect on the Company.

Process for Determining Executive Officer Compensation

Role of the Compensation Committee

The Compensation Committee administers the Company's executive compensation program. From January 2012 through June 2012, the Compensation Committee consisted of J. Raymond Fulp (Chairman), Daniel B. Jeter and Jimmy D. Veal. From July 2012 through December 2012, the Compensation Committee consisted of J. Raymond Fulp (Chairman), Daniel B. Jeter, Robert P. Lynch and Jimmy D. Veal. The members of the Compensation Committee all qualify as independent, outside members of the Board in accordance with the requirements of Nasdaq, current SEC regulations and Section 162(m) of the Internal Revenue Code.

Table of Contents

The Compensation Committee is responsible for all compensation decisions for the Chief Executive Officer and the other named executive officers. The Compensation Committee annually reviews the levels of compensation along with the performance results on goals and objectives relating to compensation for the named executive officers. Based on this evaluation, the Compensation Committee makes decisions related to our executive compensation program with final approval by the Board.

Additionally, the Compensation Committee periodically reviews our incentive plans and other equity-based plans. The Compensation Committee reviews, adopts and submits to the Board any proposed arrangement or plan and any amendment to an existing arrangement or plan that provides or will provide benefits to the executive officers collectively or to an individual executive officer. The Compensation Committee has sole authority to retain and terminate compensation consultants and other advisors as it deems appropriate.

Role of the Executive Officers

The Chief Executive Officer, with the assistance of the Company's Chief Administrative Officer, annually reviews the performance of the other named executive officers, after which the Chief Executive Officer presents his conclusions and recommendations to the Compensation Committee for approval. The Compensation Committee has absolute discretion as to whether it approves the recommendations of the Chief Executive Officer or makes adjustments, as it deems appropriate. The Chief Executive Officer, Chief Financial Officer and Chief Administrative Officer may also work with the Compensation Committee to gather and compile data needed for benchmarking purposes or for other analysis conducted by the Compensation Committee's independent consultants and advisors.

Role of Compensation Consultant

In making compensation decisions for 2012, the Compensation Committee engaged Matthews Young to conduct an overall compensation review for the Company's top executive employees, including the named executive officers. The Compensation Committee also worked with Matthews Young in the review and analysis of risk in the Company's compensation programs. Matthews Young, working in conjunction with our senior risk officers, provided a comprehensive risk assessment of compensation programs throughout the Company. Matthews Young reported directly to the Compensation Committee in connection with this engagement.

Both the Board and the Compensation Committee received assistance with the proxy disclosure process from Matthews Young. Throughout the disclosure process, Matthews Young coordinated the collection of compensation data, policies and plans with the Board, the Compensation Committee and senior management of the Company.

It is our policy that all compensation consulting firms retained by the Board and the Compensation Committee be fully independent entities and that each report directly to the Board and/or the Compensation Committee, as appropriate. No services were provided by any compensation consulting firm other than the foregoing compensation consulting services, and consulting fees did not approach or exceed \$120,000 in fiscal 2012.

Benchmarking

In November 2012, the Compensation Committee, in conjunction with Matthews Young, conducted an overall review of the Company's executive compensation program. As part of this review, the peer group of 25 banks used in the prior benchmarking analysis completed in 2011 was analyzed and updated. Consistent with prior year updates, we again considered a range of relevant factors, including SEC reporting status, national exchange listing, state in which headquarters are located, organizational size (including states in which operations are conducted, number of offices and size of workforce), balance sheet size (including assets and capitalization) and market capitalization, as well as total net revenues, asset quality and overall financial strength. For 2012, we retained the same group of peer institutions that we used in 2011.

Stephen A. Melton	EVP and CRO	Number 4 Proxy Executive
<u>Say-on-Pay</u>		

The Committee attempts to balance the interests of shareholders, regulators and other interested parties. Since 2009, we have provided an annual say-on-pay advisory vote regarding executive compensation. In 2012, more than 98% of all votes cast were cast in favor of the compensation of our named executive officers. We did not make any changes to our executive compensation policies as a result of past say-on-pay votes.

Elements of Compensation

Total direct compensation typically includes cash, in the form of base salary and annual incentives, and long-term equity incentives. The Compensation Committee evaluates the mix between these elements based on the pay practices of comparable companies. The Compensation Committee strives to be fully informed in its determination of the appropriate compensation mix and award levels for the named executive officers, including consideration of publicly available information and the retention of compensation consultants when deemed appropriate. The Compensation Committee's guiding principles of fairness to employees, retention of talented executives and fostering improved Company performance guide all of its compensation decisions. With respect to the named executive officers, the elements of compensation used during 2012 include the following:

base salary;

discretionary cash bonus;

long-term equity awards;

retirement benefits, including newly added supplemental retirement benefits;

Table of Contents

health and insurance benefits; and

perquisites.

Following is a discussion of each element of compensation used in 2012 for our named executive officers, including the purpose of each element of compensation, why we elect to pay each element of compensation, how each element of compensation was determined by the Compensation Committee and how each element and our decisions regarding the payment of each element relate to our goals.

Base Salary

It is the Company's philosophy that employees be paid a base salary that is competitive with the salaries paid by comparable organizations based on each employee's experience, performance and any other unique factors or qualifications. Generally, the Company has chosen to position cash compensation in a range around market median levels in order to remain competitive in attracting and retaining executive talent. The range is also benchmarked, and employees are paid within the market benchmarked range based on their unique situation. This range varies above and below the market median compensation by as much as 35% of the median. Actual base salaries paid vary within the range based on performance over time. The allocation of total cash compensation between base salary and annual bonus or incentives is based on a variety of factors. In addition to the market positioning of the base salary and the mix of total compensation, the Compensation Committee also takes into consideration the following:

the executive's performance;

the performance of the Company;

the performance of the individual business or corporate function for which the executive is responsible;

the nature and importance of the position and role within the Company;

the scope of the executive's responsibility; and

the current compensation package in place for the executive, including the executive's current annual salary and potential bonus awards under the Company's bonus plan.

In 2012, recognizing that certain of the Company's executive officers had not had an increase in base salary for more than five years, we reviewed base salaries and made appropriate adjustments based on competitive market salary levels as shown in the table below. Most of the increase was due to market movement during the last five years. In addition, the Committee determined that performance of these executives warranted the market adjustments. Some executives were granted smaller increases because they had recently had market adjustments or were recently hired closer to market. We did not pursue other courses of action (e.g., the use of salary stock) to supplement base pay levels. Based on the analysis and peer benchmarking conducted by Matthews Young, the resulting 2012 base salaries for all of our named executive officers shown in the table below are within a range that is competitive with the market median ($\pm 10\%$ of the market median). Salaries for each individual named executive officer ranged from 13% to 2% below the market median (50th percentile), with an overall average for the entire group of 5% below the market median (50th percentile).

Annual Incentives

While it has been five years since a plan based incentive was paid, annual incentives have been provided to the executive officers through the Company's Annual Incentive Compensation Plan (the "AIP") in the past. Annual incentives are primarily designed to focus the executive officers on our goals for a particular year and to reward executive officers upon achievement of those goals. The Compensation Committee believes that a formalized plan, with specifically defined and clearly communicated goals, helps strengthen the link between pay and performance.

For 2012, several compensation plans, including the AIP, were suspended. For 2013, the Compensation Committee will review plans and plan features to determine whether any plans should be reactivated and/or updated.

Long-Term Equity Awards

The Compensation Committee believes that the Company's executive compensation program should include a significant equity-based component because this best aligns the interests of our executives with those of the Company's shareholders. For purposes of retention, the Compensation Committee believes that the equity-based compensation should have meaningful conditions to encourage valued employees to remain with the Company.

The Company's officers and certain other employees may participate in the Company's shareholder-approved 2005 Omnibus Stock Ownership and Long-Term Incentive Plan (the "2005 Plan"). The 2005 Plan was set forth as *Appendix A* to the Company's Definitive Proxy Statement for the Company's 2005 annual meeting of shareholders. Awards may be granted under the 2005 Plan from time to time and may be in the form of qualified or nonqualified stock options, restricted stock, stock appreciation rights, long-term incentive compensation units consisting of a combination of cash and Common Stock or any combination thereof within the limitations set forth in the 2005 Plan.

The 2005 Plan provides that awards may be made for 10 years from its effective date of March 10, 2005. The 2005 Plan is administered by the Compensation Committee, which selects eligible employees to participate in the 2005 Plan and determines the type, amount and duration of all individual awards. Prior to the adoption of the 2005 Plan, equity awards were granted pursuant to the ABC Bancorp Omnibus Stock Ownership and Long-Term Incentive Plan that was adopted in 1997 and which now is operative only with respect to the exercise of options that remain outstanding under such plan.

The Compensation Committee carefully considers the following factors when determining the type and amount of equity to award:

prior awards issued to the executive officer;

the current amount and intrinsic value of unvested equity held by the executive officer;

current number of shares owned by the executive officer;

proportion of total compensation on an annual basis consisting of equity awards; and

market data on the median level of equity awarded to comparable positions.

Table of Contents

Equity awards provided to our named executive officers under the 2005 Plan have historically consisted of annual awards of incentive stock options, restricted stock grants or a blend of both. Vesting schedules applied to these awards ranged from three- to five-year periods. Between 2005 and 2007, as well as 2009, all equity awards to our named executive officers were granted with performance conditions applied in addition to time-based requirements. The intent of applying performance vesting provisions was two-fold – first to increase the ability to drive performance with equity awards beyond the innate performance nature of equity, and second, to provide the Company with the ability to reverse the expense associated with certain equity grants should performance goals fail to be achieved. The drawback of the approach is that performance-vesting on all equity awards leads to the possible risk of the officers holding no actively vesting awards and thereby leaving nothing of value behind should they choose to voluntarily resign from the organization. In such event, the equity grants lose all possible retention value.

In 2012, we continued our use of time and performance vesting restricted stock to maintain the balance of short-term and long-term compensation in our executive compensation program. All such equity grants were made in compliance with TARP restrictions regarding the use of equity compensation.

The levels of the awards provided to each named executive officer were based on a compensation analysis conducted by Matthews Young and were targeted to provide equity levels comparable to peers at the market median for these positions.

In addition to the equity awards granted to our named executive officers, 2012 performance results impacted the vesting of prior awards granted with performance vesting provisions.

Perquisites

The Company provided a company car and club membership in 2012 to certain executive officers. The aggregate cost of all perquisites for all of our named executive officers was approximately \$88,900. No individual named executive officer received a total value of perquisites in excess of \$41,700 during 2012. Additional details on perquisites are provided in a supplementary table to the Summary Compensation Table included in this Proxy Statement.

We view certain perquisites as being beneficial to the Company, in addition to being directly compensatory to the executive officers. For example, the club memberships are regularly used in the general course of our business, such as for business meetings and entertaining. Company cars provided to executive officers are used primarily for business purposes. In addition, these perquisites, as a minor expense to the Company, provide a useful benefit in our efforts to recruit, attract and retain top executive talent.

Retirement Benefits

On November 7, 2012, the Bank and certain executive officers and other employees of the Bank and the Company entered into Supplemental Executive Retirement Agreements (the "Retirement Agreements"), the purpose of which is to provide a select group of employees who are expected to contribute significantly to the future business success of the Company and the Bank with supplemental retirement income and death benefits. Such benefits are meant to retain quality executive talent over a long period of time, which is required in order to execute long term strategy. Each Retirement Agreement provides for the payment of an annual retirement benefit, payable in monthly installments, commencing when the employee reaches age 65, provided that the employee is then employed by the Bank. Included among the officers entering into a Retirement Agreement were three named executive officers, each of whom is to receive annual retirement benefits under his or her respective Retirement Agreement as follows: (i) Edwin W. Hortman, Jr., \$250,000 for 10 years; (ii) Dennis J. Zember Jr., \$200,000 for 15 years; and (iii) Jon S. Edwards, \$100,000 for 15 years.

Table of Contents

Each Retirement Agreement provides for a reduced benefit in the event that the employee terminates his or her employment prior to reaching age 65. If the termination is voluntary and without good reason, as defined in the Retirement Agreements (with reference to that term as defined in any employment agreement between the employee and the Company), then the termination benefit is equal to the liability balance then accrued in the Company's accounting records for the employee, to be paid out in monthly installments ratably over a period of 10 years commencing at age 65; however, Mr. Hortman does not become vested in this benefit until after the five-year anniversary of the date of his Retirement Agreement, and each of Messrs. Zember and Edwards does not become vested in this benefit until after the 10-year anniversary of the date of his Retirement Agreement. If the termination of employment is involuntary and without cause, as defined in the Retirement Agreements (with reference to that term as defined in any employment agreement between the employee and the Company), or is voluntary but with good reason, then the termination benefit is equal to the liability balance then accrued in the Company's accounting records for the employee, to be paid out in monthly installments ratably over a period of 10 years commencing at age 65, without a time-vesting precondition. If the employee is terminated for cause at any time, then all remaining benefits under his or her Retirement Agreement will be forfeited.

Each Retirement Agreement also provides that if the applicable employee dies prior to reaching age 65, then the annual retirement benefit amount set forth above will be payable in monthly installments to the employee's beneficiary for a period of years, commencing upon the employee's death. In addition, if the employee becomes disabled prior to reaching age 65, then the employee will be entitled to a benefit equal to the liability balance then accrued in the Company's accounting records for the employee, to be paid out in monthly installments ratably over a period of five years commencing at the time of disability. The Retirement Agreement with Mr. Hortman further provides that, following a change in control (defined to mean a change in the ownership or effective control of, or a change in the ownership of a substantial portion of the assets of, the Bank, as provided in Section 409A of the Internal Revenue Code), Mr. Hortman will be entitled to receive the annual retirement benefit amount set forth above in monthly installments for a period of 10 years commencing at age 65, without regard to whether he continues to be employed by the Bank until reaching age 65.

Executive officers are also eligible to participate in our 401(k) and profit sharing retirement plan, which is a Company-wide, tax-qualified retirement plan. The intent of this plan is to provide all employees with a tax-advantaged savings opportunity for retirement. We sponsor this plan to help employees in all levels of the Company save and accumulate assets for use during their retirement. As required, eligible pay under this plan is capped at Internal Revenue Code annual limits. The Company offers a discretionary match to employee contributions based upon the performance of the Company and subject to the approval of the Board. Company contributions to the 401(k) and profit sharing plan vest in equal annual installments over a five-year period. Due to the Company's financial performance, the Company's matching contributions were suspended during 2010 and 2011, but were reinstated in April 2012.

In addition, we also provide our employees with an employee stock purchase plan, which provides the employee with the opportunity to purchase shares of Common Stock via payroll deduction. The minimum purchase is \$50, and the plan does not provide discounts or look-back features. The plan covers the administrative costs involved in the purchase of the stock.

Health and Welfare Plans

The named executive officers are eligible to participate in Company-sponsored benefit plans on the same terms and conditions as those generally provided to salaried employees. Basic health benefits, dental benefits and similar programs are provided to make certain that access to healthcare and income protection is available to our employees and their family members. Health benefits also include a Section 125 plan or a health savings account to provide for pre-tax deferral for non-reimbursable health expenses. The cost of Company-sponsored benefit plans is negotiated with the providers of such benefits, and the executive officers contribute to the cost of the benefits.

Total Compensation

The allocation of total compensation between base salary, annual bonus, long-term (equity) compensation and other compensation is based on a variety of factors. The Compensation Committee considers a combination of the executive's performance, the performance of the Company and the individual business or corporate function for which the executive is responsible, the nature and importance of the position and the executive's role within the Company.

In 2012, the total compensation of our named executive officers who were employed for the full year in both 2011 and 2012 (which excludes Stephen A. Melton, who was hired in October 2011) increased 37.7%. The total compensation reflected the improving economic environment and the Company's ceasing to be subject to the Treasury's compensation limitations applicable to TARP participants following the Treasury's sale of its preferred stock investment in the Company in June 2012.

Cash compensation (the sum of base salary, cash bonus, annual cash incentives and other compensation) increased 53.8% in 2012 after remaining generally flat over 2010 and 2011. This is primarily the result of the Company's no longer being subject to the Treasury's compensation limitations applicable to TARP participants after June 2012, and also reflects the improving economy.

Table of Contents

As discussed above, equity compensation continues to be a significant element of total compensation, primarily in the form of restricted stock.

Table of Contents

The following chart presents the actual pay mix results from 2010 through 2012 for each of our named executive officers. As discussed above, our compensation philosophy is to maintain a significant equity-based component as a part of our executive compensation program because this best aligns the interests of our executives with those of our shareholders. For purposes of retention, the Compensation Committee believes that equity-based compensation should have meaningful conditions to encourage valued employees to remain with the Company. In 2012, the Compensation Committee awarded equity grants to maintain the alignment of our executive compensation levels with the Company's compensation philosophy and maintain market competitive levels of equity and total compensation.

Stock Ownership Requirements

To further ensure that the long-term interests of the Company's senior management are aligned with those of the Company's shareholders, the named executive officers, as well as the Company's directors and other officers, are required by the Company's stock ownership guidelines to acquire and maintain a specified investment in the Company. Our current guidelines require our directors to own 7,500 shares of stock, with a five-year period provided to attain this level of ownership. We require our named executive officers to own stock with a book value (determined as of the end of the first quarter of each year) equivalent to three times the executive's base salary. Newly hired or promoted executives are provided a five-year time frame to meet this ownership requirement.

Table of Contents

The Board and the Corporate Governance and Nominating Committee review our stock ownership guidelines annually. During the annual review conducted in June 2011, it was determined that the existing guidelines would be modified by an additional one year, with the result that all ownership requirements should be met by July 1, 2016. During the annual review conducted in June 2012, no additional changes were made to the requirements.

Insider Trading Policy

The Board has adopted an insider trading policy statement. The provisions of this policy expressly prohibit directors, officers and other employees from trading, either directly or indirectly, in securities of the Company after becoming aware of material nonpublic information related to the Company. To further ensure adherence with this policy, guidelines have been established for blackout periods and for appropriate disclosure of internal information to external parties. The insider trading policy provides guidance as to what constitutes material information and when information becomes public. The insider trading policy addresses transactions by family members and under Company plans, as well as other transactions which may be prohibited, such as short-term trading, short sales, publicly trading in options, hedging transactions, margin purchases and post-termination transactions. The policy discusses the consequences of an insider trading violation, additional trading restrictions and certain reporting requirements applicable to directors, officers and designated key employees. The policy requires all senior officers, including all named executive officers, to provide written certification of their understanding of, and intent to comply with, the policy.

Policy on Stock Options Repricing

Stock options are granted at the fair market value of a share of Common Stock on the date of grant and are not subject to repricing.

Policy on Timing of Stock Option Awards

The timing of stock awards under an established plan must be consistent with program guidelines. In every instance, the Board will approve any stock award prior to the granting of such an award. Stock option awards must be approved by the Board and should always be dated subsequent to the date of Board approval.

Tax Deductibility of Executive Officer Compensation

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public companies for compensation over \$1 million paid to a corporation's Chief Executive Officer and the four other most highly compensated executive officers. In connection with the compensation of our named executive officers, the Compensation Committee is aware of Section 162(m) as it relates to deductibility of qualifying compensation paid to our named executive officers. The Compensation Committee gives strong consideration to the deductibility of compensation in making its compensation decisions for executive officers, while balancing the goal of maintaining an executive compensation program that will enable the Company to attract and retain qualified executives with the goal of maximizing the creation of long-term shareholder value. To date, this provision has had no effect on the Company because no officer of the Company has received the threshold level of applicable remuneration in any year. In addition, the Compensation Committee believes that compensation earned for 2012 does not exceed the deductibility limitations on non-excluded compensation to our named executive officers.

Employment Agreements

We currently maintain an employment agreement with each of our named executive officers other than Stephen A. Melton, the Company's Executive Vice President and Chief Risk Officer. The employment agreements provide for the payment of severance to the executive officer upon a termination by the executive for good reason (as defined) in connection with a Change of Control (as defined). Payments are not provided with respect to other termination events. We do not maintain a separate severance plan for our executive officers. Severance benefits for our executive officers are limited to those set forth in the executive officer's employment agreement. We provide details on the estimated payments associated with a qualifying termination in connection with a Change of Control in the section of this Proxy Statement entitled Potential Payments Upon Termination or Change in Control.

Set forth below are the general terms and conditions of each employment agreement applicable to our named executive officers.

General Agreement Provisions

All agreements limit severance benefits to a termination of employment by the executive for good reason in association with a Change of Control and cap payments with respect to Section 280G of the Internal Revenue Code. The following summarizes the definition of good reason as set forth in the agreements:

a change in the executive's reporting responsibilities, titles or offices or any removal of the executive from, or any failure to re-elect the executive to, any of the executive's positions held which has the effect of diminishing the executive's authority or responsibility;

a reduction in base salary or change in bonus opportunity or incentive performance plan criteria adversely affecting the executive;

requiring the executive to relocate (either outside of the state or outside a 50-mile radius of current executive offices);

a failure to continue health, welfare and benefit plans without a replacement, or to reduce the existing benefits under such plans; or

adversely altering the physical conditions of the workplace.

Each agreement specifies term, position and duties, salary and bonus/incentive eligibility, benefits, perquisites, expense reimbursement and vacation. In addition, each agreement includes non-compete and non-solicit covenants. Following are certain details with respect to each agreement.

Individual Employment Agreement Provisions

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis contained in this Proxy Statement with the Company's management and, based on such review and discussions, has recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

Consistent with our overall compensation philosophy and commitment to paying for performance, the Compensation Committee took the following actions during 2012:

adjusted executive officer salaries, mostly unchanged for several years, to better reflect the 50th percentile salary levels of our peer group, with the resulting average increase of 7.8% closing the gap in aggregate salaries of the named executive officers to 97% of peer group median salaries;

continued, for the fifth year, the suspension of our annual, cash-based incentive plan in compliance with applicable TARP regulations, to which the Company was subject through June 14, 2012, but worked closely with executive management to identify and monitor key annual performance priorities, resulting in a reward of discretionary bonuses after TARP restrictions were eliminated;

made grants of restricted stock that require both future service over a multi-year period and eventual repayment of TARP funds, as applicable, before shares are transferred to the grantees; and

implemented supplemental executive retirement agreements to better align retirement benefits with competitive market levels. These decisions regarding the compensation of our key executives reflect our ongoing commitment to a pay-for-performance philosophy and recognize that the Company demonstrated significant performance improvement in 2012 over the prior year and accomplished the following:

increased market capitalization by 45.0% during 2012;

increased total revenue (excluding gains on acquisitions) by 9.2%;

improved credit quality by decreasing non-performing legacy assets by 33.0%;

completed two FDIC-assisted acquisitions, thereby expanding the Company's service footprint and maintaining uninterrupted service to banking customers in these acquired markets; and

increased net interest margin, common book value per share and non-interest income.

In furtherance of its ongoing commitment to recognizing and rewarding management for performance, the Compensation Committee will continue to closely monitor performance and compensation and act in a manner that supports this philosophy.

The Compensation Committee has concluded, through a comprehensive risk assessment conducted on a semiannual basis, that the compensation programs and practices at the Company do not encourage employees, including the named executive officers, to take unnecessary and excessive risks that would threaten the value of the Company. The risk assessment included various discussions and review and evaluation of the Company's compensation plans and practices, including analysis and assistance from the Compensation Committee's independent, outside

compensation advisor.

The risk assessment included reviews of the following: (i) the various elements of compensation and the appropriate mix of such elements; (ii) applicable performance metrics to ensure that each plan's performance metrics do not focus solely on short-term results; (iii) performance goals and payout curves to ensure that each plan's goals and payouts are consistent with industry standards; (iv) the amount and type of any equity incentives to ensure that such grants were appropriate; and (v) the performance appraisal process to ensure that excessive emphasis is not placed on short-term or quantitative achievements. For each compensation plan, we also reviewed a broad range of specific risk elements, rated the level of relative risk for each element, and identified and took action to eliminate or mitigate risk wherever appropriate in each plan.

For 2012, several compensation plans, including the Company's Annual Incentive Compensation Plan, were suspended. For 2013, the Compensation Committee will review plans and plan features to determine whether any of such plans should be reactivated and/or updated.

The Compensation Committee certifies that: (i) it has reviewed with senior risk officers the senior executive officer compensation plans and has made all reasonable efforts to ensure that these plans do not encourage senior executive officers to take unnecessary and excessive risks that threaten the value of the Company; (ii) it has reviewed with senior risk officers the employee compensation plans and has made all reasonable efforts to limit any unnecessary risks these plans pose to the Company; and (iii) it has reviewed the employee compensation plans to eliminate any features of these plans that would encourage the manipulation of reported earnings of the Company to enhance the compensation of any employee.

Table of Contents

Potential Payments Upon Termination or Change in Control

The following discussion presents the potential payments for each named executive officer upon termination or change in control. Pursuant to applicable SEC rules, the analysis contained in this discussion does not consider or include payments made to a named executive officer with respect to contracts, agreements, plans or arrangements to the extent they do not discriminate in scope, terms or operation in favor of executive officers of the Company and that are available generally to all salaried employees. The actual amounts that would be paid upon a named executive officer's termination of employment can only be determined at the time of such executive officer's termination. Due to the number of factors that affect the nature and amount of any compensation or benefits provided upon the termination events, any actual amounts paid or distributed may be higher or lower than reported. Among other factors that could affect these amounts are the timing during the year of any such event and our stock price.

In accordance with applicable SEC rules, the following discussion assumes that: (i) the termination event in question occurred on December 31, 2012; and (ii) with respect to calculations based on our stock price, the applicable price is \$12.49, which is the reported closing price of one share of Common Stock on December 31, 2012.

The employment agreements between the Company and all of the named executive officers other than Stephen A. Melton require the Company to make severance payments and provide severance benefits to the applicable executive if he terminates his employment with the Company for good reason within 12 months after the date of a Change of Control and in certain cases beyond 12 months after such an event. There are no severance payments otherwise required under the employment agreements, including in connection with any of the following termination events:

voluntary termination/early retirement;

involuntary termination for Cause (as defined in the employment agreements);

termination due to disability; or

termination due to death.

However, the Retirement Agreements provide for potential payments to certain of the named executive officers upon a termination of their employment. These payments are discussed in greater detail in the section of this Proxy Statement entitled Retirement Benefits.

For purposes of the employment agreements, good reason is generally defined to mean that the executive has determined in good faith that one or more of the following events has occurred following or in anticipation of a Change of Control:

a change in the executive's reporting responsibilities, titles or offices, which has the effect of diminishing the executive's responsibility or authority;

a reduction in the executive's salary or a change in the eligibility requirements or performance criteria under any bonus, incentive or compensation plan which adversely affects the executive;

the executive is required to relocate outside a 50-mile radius of Moultrie, Georgia (or in the case of Mr. Edwards, he is required to relocate outside the State of Georgia);

Edgar Filing: Ameris Bancorp - Form DEF 14A

the Company's discontinuance of any pension, bonus, incentive, stock ownership, purchase, option, life insurance, health, accident, disability or other benefit plan in which the executive is participating or any other action by the Company that would adversely affect the executive's participation or materially reduce the executive's benefits under any such plan; or

the taking of any action by the Company that would materially adversely affect the physical conditions under which the executive performs his employment duties.

Table of Contents

A Change of Control occurs under the employment agreements with the named executive officers if:

a majority of the Board becomes persons other than persons for whose election proxies shall have been solicited by the Board or who are then serving as directors appointed by the Board to fill vacancies caused by death, resignation or the creation of new directorships;

25% of the outstanding voting power of the Company is acquired or becomes beneficially owned by any person or by any two or more persons acting as a partnership, syndicate or other group acting in concert for the purpose of acquiring, holding or disposing of any voting stock of the Company, which group does not include the executive; or

there occurs:

a merger or consolidation of the Company with or into another corporation (other than a transaction with a subsidiary of the Company or a transaction in which (a) the holders of voting stock of the Company immediately prior to the merger continue to hold immediately after the merger at least a majority of all outstanding voting power of the surviving or resulting corporation or its parent and (b) all holders of each outstanding class or series of voting stock of the Company immediately prior to the merger or consolidation have the right to receive substantially the same cash, securities or other property in exchange for their voting stock of the Company as all other holders of such class or series);

a statutory exchange of shares of one or more classes or series of outstanding voting stock of the Company for cash, securities or other property;

the sale or other disposition of all or substantially all of the assets of the Company; or

the liquidation or dissolution of the Company;

unless, in each case, 25% or more of the voting equity of the surviving corporation or the corporation or other entity acquiring all or substantially all of the assets of the Company (in the case of a merger, consolidation or disposition of assets) or of the Company or its resulting parent corporation (in the case of a statutory share exchange) is beneficially owned by the executive or a group that includes the executive.

If a named executive officer terminates his employment under his employment agreement for good reason within 12 months after the date of a Change of Control, then the executive will receive the following:

one additional year of current base salary (or three years in the case of Mr. Hortman and two years in the case of Mr. Zember), plus a bonus/incentive payment (which in the case of Messrs. Hortman, Zember and Edwards will not be less than 40% of the salary payable to such executive upon termination), payable in accordance with the Company's standard payment practices;

continued participation for one year (or three years in the case of Mr. Hortman and two years in the case of Mr. Zember) in the employee welfare benefit plans in which the executive was entitled to participate prior to termination;

continued Company contributions for one year at the maximum amount allowable under its 401(k) plan for the benefit of the executive (such contribution to be made for a period of two years in the case of Mr. Zember); and

in the case of Messrs. Hortman, Zember and Edwards, the executive will receive payment from the Company for reasonable relocation expenses if the executive relocates within 500 miles of Moultrie, Georgia and the relocation occurs within 180 days after the date of termination.

In addition, under each named executive officer's employment agreement, the executive will be entitled, for a period of 90 days after termination, to purchase all of the stock of the Company that would be issuable under all outstanding stock options previously granted to the executive, at the exercise prices set forth in such options, whether or not such options otherwise are then exercisable. The 2005 Plan also provides that in such event the executive's equity awards will become fully vested and, in the case of options, fully exercisable.

Table of Contents

The foregoing payments and benefits are subject to reduction under the named executive officers' employment agreements in connection with certain tax matters. Those agreements provide that if the severance and change of control benefits payable to the executive would be subject to the excise tax imposed under Section 4999 of the Internal Revenue Code, or would be nondeductible to the Company pursuant to Section 280G of the Internal Revenue Code, then such benefit payments shall be reduced to be the largest amounts that will result in no portion of the benefit payments being subject to the tax imposed by Section 4999 of the Internal Revenue Code or nondeductible by the Company. For purposes of Section 409A of the Internal Revenue Code, all of the named executive officers' employment agreements have been modified to be in compliance with payment timing and other relevant requirements.

The estimated severance benefits payable to each of the named executive officers other than Stephen A. Melton, based upon a hypothetical termination of each named executive officer on December 31, 2012, are presented in the following table. The following table also sets forth the benefits payable to each of the named executive officers other than Stephen A. Melton following a change of control of the Company. The amounts include cash, equity, welfare benefits and retirement benefits. In addition, the table below presents the impact of limitations under Section 280G of the Internal Revenue Code. Mr. Melton is not a party to either an employment agreement with the Company or a Retirement Agreement and, as a result, is not entitled to any potential payments or benefits upon a change of control of the Company or upon a termination of employment other than any payments or benefits that would generally be available to all salaried employees of the Company.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD

The Board has established a separately-designated standing Audit Committee and adopted an Audit Committee Charter. The Audit Committee is comprised solely of independent directors, as defined by the listing standards of Nasdaq. The Board has determined that Mr. Sheldon is an audit committee financial expert, as defined by the rules of the SEC. The primary purpose of the Audit Committee is to assist the Board in its general oversight of the Company's financial reporting, internal controls and audit functions.

As more fully described in its charter, the Audit Committee reviews the Company's financial reporting process on behalf of the Board. The Company's management has the primary responsibility for the financial statements and the reporting process, and Porter Keadle Moore, LLC (PKM), the Company's independent auditor, is responsible for performing an audit in accordance with the standards of the Public Company Accounting Oversight Board to obtain reasonable assurance that the Company's consolidated financial statements are free from material misstatement and for expressing an opinion on the conformity of the financial statements with generally accepted accounting principles. The Company's internal auditors are responsible to the Audit Committee and the Board for testing the integrity of the financial accounting and reporting control systems and such other matters as the Audit Committee and Board determine.

The Audit Committee has met concerning, and has held discussions and reviewed with management, the Company's internal auditors and PKM, the consolidated financial statements for the fiscal year ended December 31, 2012. Management has represented to the Audit Committee that the Company's consolidated financial statements were prepared in accordance with generally accepted accounting principles, and the Audit Committee discussed with PKM the matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees), as amended and adopted by the Public Company Accounting Oversight Board.

In addition, the Audit Committee received the written disclosures and the letter from PKM required by the applicable requirements of the Public Company Accounting Oversight Board regarding PKM's communications with the Audit Committee concerning independence, and has discussed with PKM its independence from the Company.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2012 for filing with the SEC.

Submitted by the Audit Committee:

R. Dale Ezzell

J. Raymond Fulp

Robert P. Lynch

Brooks Sheldon (Chairman)

Table of Contents**PROPOSAL 2 RATIFICATION OF APPOINTMENT****OF INDEPENDENT AUDITOR**

The Company has appointed PKM as its independent auditor for the current fiscal year, which ends December 31, 2013. Shareholders are being asked to ratify such appointment at the Annual Meeting. In view of the difficulty and expense involved in changing auditors on short notice, should the shareholders not ratify the selection of PKM, it is contemplated that the appointment of PKM for the year ending December 31, 2013 will stand unless the Board finds other compelling reasons for making a change. Disapproval by the shareholders will be considered a recommendation that the Board select other auditors for the following year.

Representatives of PKM (our independent auditor for the current year as well as for the most recently completed year) are expected to be present at the Annual Meeting, will have the opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions by shareholders.

Fees and Services

The following is a summary of the fees billed to the Company by PKM for professional services rendered for the fiscal years ended December 31, 2012 and December 31, 2011:

Fee Category	Fiscal 2012 Fees	Fiscal 2011 Fees
Audit Fees ⁽¹⁾	\$ 549,473	\$ 480,406
Audit-related Fees ⁽²⁾		
Tax Fees ⁽³⁾		
All Other Fees ⁽⁴⁾		
Total Fees	\$ 549,473	\$ 480,406

- (1) Consists of fees billed for professional services rendered for the audit of the Company's annual consolidated financial statements, review of the interim consolidated financial statements included in quarterly reports, attestation services related to management's assertions related to internal controls and services that are normally provided by such accountants in connection with statutory and regulatory filings or engagements.
- (2) Consists of fees billed for assurance and related services that are reasonably related to the performance of the audit or review of the Company's consolidated financial statements and are not reported under Audit Fees. These services include employee benefit plan audits, consultations concerning financial accounting and reporting standards and assistance with SEC inquiries.
- (3) Consists of fees billed for professional services for tax compliance, tax advice and tax planning. These services include assistance regarding federal, state and local tax compliance and assistance with tax notices.
- (4) Consists of fees for products and services other than the services reported above. There were no fees paid to such accountants in fiscal 2012 or 2011 that are not included in the above classifications.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services

All services provided by PKM are subject to pre-approval by the Audit Committee. The Audit Committee may authorize any member of the Audit Committee to approve services by PKM in the event there is a need for such approval prior to the next full Audit Committee meeting. However, the Audit Committee must review the decisions made by such authorized member of the Audit Committee at its next scheduled meeting. Before granting any approval, the Audit Committee gives due consideration to whether approval of the proposed service will have a detrimental impact on PKM's independence.

The Board recommends that you vote FOR ratification of the appointment of PKM as the independent auditor of the Company. Proxies will be voted FOR ratifying this selection unless otherwise specified.

PROPOSAL 3 ADVISORY APPROVAL
OF EXECUTIVE COMPENSATION

In accordance with Section 14A of the Exchange Act, the Company's shareholders are being asked to provide advisory approval of the 2012 compensation of the Company's named executive officers, as it has been described in the Executive Compensation section of this Proxy Statement. This proposal, commonly known as a say-on-pay proposal, gives each shareholder the opportunity to endorse or not endorse the Company's executive pay program. This vote is not intended to address any specific item of compensation, but rather the overall compensation of the named executive officers and the philosophy, policies and practices described in this Proxy Statement. While this vote is advisory and not binding on the Company, it will provide the Company with information regarding investor sentiment about its executive compensation philosophy, policies and practices, which the Compensation Committee will be able to consider when determining executive compensation for the remainder of fiscal 2013 and beyond.

In response to the voting results for the frequency of the say-on-pay vote at the Company's 2012 annual meeting of shareholders, shareholders are being given the opportunity to provide a say-on-pay advisory vote on an annual basis. In 2012, over 15.5 million shares of Common Stock were voted on the shareholder say on pay resolution, and, excluding abstentions, over 98% of all votes cast were cast in favor of the executive officer compensation program described in the Company's 2012 proxy statement.

The Company believes that its executive compensation policies and procedures are competitive, focused on pay-for-performance principles, strongly aligned with the long-term interests of the Company's shareholders and designed to attract and retain the talent needed to drive shareholder value and help the Company meet or exceed its financial and performance targets. The Company also believes that the compensation of its named executive officers for 2012 reflected the Company's financial results for 2012. The Company employs an executive compensation program for its senior executives that emphasizes long-term compensation over short-term compensation, with a significant portion weighted toward equity awards. This approach strongly aligns senior executive compensation with the interest of the Company's shareholders. Accordingly, shareholders are being asked to vote on the following resolution to be presented at the Annual Meeting:

RESOLVED, that the holders of the Common Stock hereby approve the compensation of the named executive officers as described in this Proxy Statement under Executive Compensation, including the Compensation Discussion and Analysis, the compensation tables and related material.

The vote by the shareholders will be a non-binding, advisory vote, meaning that the voting results will not be binding on the Company, the Board or the Compensation Committee or overrule or affect any previous action or decision by the Board or the Compensation Committee or any compensation previously paid or awarded. However, the Board and the Compensation Committee will take the voting results into account when determining executive compensation matters in the future.

The Board recommends that you vote FOR the approval of the compensation of the named executive officers as set forth in this Proxy Statement under Executive Compensation, including the Compensation Discussion and Analysis, the compensation tables and related material. Proxies will be voted FOR the approval of the named executive officers' compensation unless otherwise specified.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires the Company's directors, executive officers and persons who own more than 10% of the Common Stock to file with the SEC initial reports of ownership and reports of changes in ownership of the Common Stock. They are also required to furnish the Company with copies of all Section 16(a) forms they file with the SEC.

To the Company's knowledge, based solely on its review of the copies of such reports furnished to it and written representations that no other reports were required, during the fiscal year ended December 31, 2012, all of the Company's officers, directors and greater than 10% shareholders complied with all applicable Section 16(a) filing requirements.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The Company and the Bank have engaged in, and in the future expect to engage in, banking transactions in the ordinary course of business with directors and officers of the Company and the Bank and their family members and associates, including corporations, partnerships and other organizations in which such directors and officers have an interest. The Company and the Audit Committee review all relationships and transactions in which the Company and such related persons are participants, including such banking transactions, on a case-by-case basis. In performing such review, consideration is given to (i) the nature of the related person's interest in the transaction, (ii) the material terms of the transaction, (iii) the significance of the transaction to the related person or the Company, and (iv) other matters deemed appropriate. Company policy prohibits the making of loans to executive officers.

At December 31, 2012, certain employees and directors and their affiliates were indebted to the Bank in the aggregate amount of approximately \$1.4 million. These loans were made in the ordinary course of business, on substantially the same terms (including interest rates, collateral and repayment terms) as those prevailing at the time for comparable transactions with others not related to the Company or the Bank and, in the opinion of management, do not involve more than the normal risk of collectibility or present other unfavorable features.

OTHER MATTERS

The Board does not contemplate bringing before the Annual Meeting any matter other than those specified in the accompanying Notice of Annual Meeting of Shareholders, nor does it have information that other matters will be presented at the Annual Meeting. If other matters come before the Annual Meeting, signed proxies will be voted upon such questions in the discretion of the persons named in the proxies as proxy holders.
