**Item 2.05 Costs Associated with Exit or Disposal Activities.**

On May 1, 2013, the Company's Chief Executive Officer, as authorized by the Company's Board of Directors, decided to proceed with an earnings quality improvement plan, which is an initiative to deliver meaningful cost savings and network optimization.

The costs associated with this plan will primarily consist of (i) a reduction in headcount and other costs associated with divisional realignment and connected profitability improvement programs, including severance and termination benefits for employees, expected to be approximately \$90 million to \$95 million, (ii) costs associated with incremental supply chain network optimization projects, including facility relocation and closures, expected to be approximately \$85 million to \$95 million, and (iii) other costs associated with the plan, currently estimated to be approximately \$5 million to \$10 million. These amounts are preliminary estimates based on the information currently available to management. The plan is expected to be completed by the end of 2015. The Company currently estimates that it will incur aggregate total costs of approximately \$180 million to \$200 million in connection with implementation of this plan, including capital expenditures of approximately \$55 million to \$70 million. We estimate there will be one-time cash costs of \$65 million in 2013.
