#### 1. CONSOLIDATED RESULTS OF OPERATIONS AND FINANCIAL CONDITIONS

#### (1) Analysis of Results of Operations

Reviewing the economic environment over the fiscal year ended March 31, 2013, despite the continuing weakness in the recovery of the global economy and the further slowdown of the economy being felt particularly in Europe and China last summer, there are visible signs of recovery as concerns over the Euro region s debt problems have been eased to some degree.

In the United States, gradual recovery in the economy continues on the basis of increased consumer spending due to an improvement in employment conditions among other things. On the other hand, while the expiration of the major tax-relief was avoided, the risk of a slackening in the economy remains with the budget sequestration set in motion in March 2013 as part of a large-scale austerity measure known as the fiscal cliff. In Europe, the economies of the region are gradually slowing down, with the fiscal problems experienced by certain countries impacting the real economy. Although the concerns in the financial markets have eased to some degree due to measures such as the establishment of the European Stability Mechanism (ESM), the circumstances in which a reduced budget may result in an economic slowdown or political instability are expected to continue, particularly among southern European countries, and it is difficult to predict the effects of the slow down of the European economy on the global economy. In Asia, although the economies of the region as a whole are slowing from the impact of, among other things, the decline in exports to Europe, China is following a course of gradual economic recovery mainly due to increased public investments, and the trend is affecting other Asian countries.

In Japan, although the economy was not showing much improvement with decreased exports and production, among other things, mainly due to the slowdown in overseas economies, there are visible signs of recovery. As for the future direction of the economy, while there are causes for concern, such as the downturn in overseas economies, posing a risk to act as a drag on economic growth, there are prospects for the economy to be back on course for recovery due to the improved export situation following the depreciation of the yen against other currencies and the effects of economic measures and monetary policies, among other things.

Under the foregoing business environment, we recorded Consolidated Gross Profits of ¥2,171.7 billion for fiscal 2012, increasing by ¥168.6 billion from the end of the previous fiscal year.

Gross Profits of aggregate figures for Mizuho Bank, Mizuho Corporate Bank, and Mizuho Trust & Banking on a non-consolidated basis (the 3 Banks) increased by ¥78.5 billion on a year-on-year basis to ¥1,686.1 billion. Total income from Customer Groups including domestic business increased by ¥26.4 billion, with an increase in income from overseas business, particularly from Asia. Income from Trading and Others increased by ¥52.2 billion. General and Administrative Expenses of the 3 Banks decreased by ¥39.6 billion on a year-on-year basis to ¥839.7 billion.

Consolidated Gross Profits (Net Operating Revenues) of Mizuho Securities (simple aggregate figures for Mizuho Investors Securities (before the merger with Mizuho Securities conducted on January 4, 2013) and Mizuho Securities) increased by ¥80.9 billion on a year-on-year basis and Selling, General and Administrative Expenses decreased by ¥1.9 billion on a year-on-year basis.

As a result, Consolidated Net Business Profits increased by ¥193.0 billion on a year-on-year basis to ¥912.1 billion.

Consolidated Credit-related Costs amounted to ¥111.8 billion with a year-on-year change of ¥139.5 billion.

Consolidated Net Gains (Losses) related to Stocks decreased by ¥44.7 billion on a year-on-year basis to net losses of ¥82.9 billion, mainly due to recording impairment losses for certain stocks reflecting a decline in stock prices.

Mizuho Securities (simple aggregate figures for Mizuho Investors Securities (before the merger with Mizuho Securities conducted on January 4, 2013) and Mizuho Securities) returned to the black for the first time since fiscal 2009, with Consolidated Net Income of ¥25.9 billion.

As a result, Consolidated Net Income increased by ¥75.9 billion on a year-on-year basis to ¥560.5 billion.

This result shows a 112% achievement against the earnings plan for fiscal 2012 of ¥500.0 billion.

As for earnings estimates for fiscal 2013, we estimate Ordinary Profits of ¥740.0 billion and Net Income of ¥500.0 billion on a consolidated basis.

#### (2) Analysis of Financial Conditions

Consolidated total assets as of March 31, 2013 amounted to ¥177,411.0 billion, increasing by ¥12,050.5 billion from the end of the previous fiscal year, mainly due to increases in Cash and Due from Banks.

#### (2) Management s Medium/Long-term Targets and Issues to be Resolved

The Group started a new medium-term business plan for the three years from fiscal year 2013. This proactive business plan has been named the One MIZUHO New Frontier Plan Stepping up to the Next Challenge, and it aims to launch the new Mizuho toward the new frontier of the next generation of finance, in response to structural and regulatory changes in the economy and society both in Japan and overseas. As part of this plan, the Group has developed five basic policies based on Mizuho s vision for the Group s future, the necessary elements for the new frontier of finance, and the Group s future direction based on an analysis of Mizuho s current situation, and also, adding more detail to these five basic policies, we have developed ten basic strategies in terms of business strategy and management foundations as follows:

#### [Mizuho s Vision]

The most trusted financial services group with a global presence and a broad customer base, contributing to the prosperity of the world, Asia, and Japan.

- 1. The most trusted financial services group
- 2. The best financial services provider
- 3. The most cohesive financial services group

#### [Five Basic Policies]

- 1. Further develop integrated strategies across the group for each customer segment to respond to the diverse needs of our customers.
- 2. Contribute to sustainable development of the world and Japan by proactively responding to change.
- 3. Mizuho Means Asia: accelerate globalization.
- 4. Build strong financial and management foundations to support the essence of Mizuho.
- 5. Form strong corporate governance and culture in the spirit of One MIZUHO.

#### [Ten Basic Strategies]

#### [Business Strategy]

- 1. Strengthen integrated financial services by unifying banking, trust banking and securities functions to respond to finely delineated corporate and personal banking segments.
- 2. Perform consulting functions taking advantage of our industry and business knowledge and forward-looking perspective.
- 3. Support formation of personal financial assets in Japan and invigorate their investment.

- 4. Strengthen proactive risk-taking functions for growth industries and corporations.
- 5. Strengthen and expand Asia-related business in Japan and on a global basis.
- 6. Cultivate multi-level transactions by capturing the accelerating global capital and trade flows.

[Business Management, Management Foundations, etc.]

- 7. Strengthen stable financial foundations based on abundant liquidity and appropriate capital levels.
- 8. Establish the optimal management foundations (human resources and business infrastructure) to support business strategy.
- 9. Further strengthen proactive governance and risk management.
- 10. Embed the new Mizuho corporate identity toward forming a common culture throughout the group and take actions toward being the best financial services provider.

In addition, in April 2013, the Group turned MHSC, which had been a consolidated subsidiary of MHFG, into a directly-held subsidiary of MHFG, and moved to a new group capital structure which places banking, trust banking, securities and other major group companies under the direct control of the holding company. The merger between MHBK and MHCB is scheduled for July 2013, on the condition that, among other things, permission is obtained from the relevant authorities in Japan. This will lead to a move to a single bank and single securities structure.

Further, from April 2013, for the purpose of promoting timely and unified group strategic planning under the strong governance of the holding company, in addition to the strengthening of group governance, the Group moved to a new group operational structure. Specifically, the executive officers in charge of corporate planning and management at the holding company have been serving in five-way concurrent positions at MHFG, MHBK, MHCB, MHTB and MHSC, and also, we have clarified their positioning as the group chief officers. In addition, the holding company established ten business units and head-office coordination divisions to determine strategies and initiatives across the group-wide banking, trust banking, securities and other business areas, based on the ten business units across MHBK and MHCB under the substantive one bank structure.

We also established at the holding company five group strategy conferences concerning the strategies for retail (personal), wholesale (corporate), international (overseas), asset management, and markets, as forums to comprehensively deliberate on important matters in terms of group business strategy among units. With the establishment of these strategy conferences, the existing three global groups were abolished.

| Mizuho | Financial | Group, | Inc. |
|--------|-----------|--------|------|
|--------|-----------|--------|------|

#### **Group Structure of Mizuho**

Decisions have been made to conduct a merger between Mizuho Bank, Ltd. and Mizuho Corporate Bank, Ltd. on the assumption that, among other things, permission is obtained from the relevant authorities in Japan.

(Effective Date of Merger: July 1, 2013)

With the fixing of these structures, the Group will continue to build the most effective and advanced group management structure. The Group will also continue to consider the possibility of consolidation that includes MHTB, with the new MHBK, after the merger between MHBK and MHCB.

#### **New Group Operational Structure of Mizuho**

- \* In principle, group companies other than the above belong to each segment depending on the characteristics of their businesses.
- \* The five group strategy conferences (Group Retail Strategy Conference, Group Wholesale Strategy Conference, Group International Strategy Conference, Group Asset Management Strategy Conference, and Group Markets Strategy Conference) are established at the holding company as the forums to comprehensively deliberate on important matters regarding group business strategy among units.

#### [Business Strategy]

Moreover, the Group will cooperate with customers among regional financial institutions as their area partner with an aim to invigorate the regions.

With respect to overseas business, the Group will seamlessly develop a wide range of sophisticated financial services based in Asia and Japan. The Group will also seek to build medium to long-term relationships with customers, not merely those developed through loan transactions, but also those backed by the Group s industry knowledge and ability to provide products. In addition, the Group will strengthen the overseas transaction business so as to be capable to respond to the accelerating global capital and trade flows and devote itself to providing distinctive settlement services especially in Asia.

With respect to asset management business, the Group will provide customers with optimum asset portfolios to meet their needs as well as innovative products supported by advanced financial knowledge and high-level financial technology.

With respect to markets business, the Group will make efforts to strengthen its capability to respond to customer needs by developing global sales and trading activities across group-wide banking, trust banking and securities functions.

[Business Management, Management Foundations, etc.]

The Group will also strengthen its business management, management foundations, etc. based on the ten basic strategies under the new medium-term business plan.

While making efforts to strengthen stable financial foundations based on abundant liquidity and appropriate capital levels, with respect to capital management, the Group will continue to pursue a disciplined capital policy by appropriately balancing stable capital enhancement and steady returns to shareholders. Under the new capital regulations, including the framework to identify global systemically important financial institutions (G-SIFIs), the Group believes it will be able to sufficiently meet the new capital regulations mainly by accumulating retained earnings and improving asset efficiency through its various initiatives to be implemented under the new medium-term business plan.

In its establishment of the optimal management foundations to support its business strategy, the Group aims to allocate and develop human resources on a group-wide basis and optimize business operations, and the Group will also strive to secure stable and accurate system operations as well as to establish a solid system infrastructure.

The Group has also reviewed its brand strategy from the perspective of building the optimal brand for the new Mizuho and established a new brand slogan, One MIZUHO: Building the future with you.

Mizuho Financial Group, Inc.

The Group will make an effort to have the new Mizuho corporate identity embedded into the Group. Additionally, the Group will share with management and employees of the Group the determination represented by the brand slogan. In the spirit of One MIZUHO, the Group strongly recognizes its social responsibility and the importance of its identity as Mizuho. By making steady progress in pursuing the new group strategy, the Group will further promote its corporate values.

Other Debt Purchased related to the relevant credited loans is stated at fair value at the consolidated balance sheet date.

Interest received and the gains or losses on the sale of the relevant credited loans during the fiscal year, including the gains or losses resulting from any change in the value between the beginning and the end of the fiscal year, are recognized in Other Operating Income and Other Operating Expenses on the consolidated statements of income.

#### 2. Trading Assets & Liabilities and Trading Income & Expenses

Trading transactions intended to take advantage of short-term fluctuations and arbitrage opportunities in interest rates, currency exchange rates, market prices of securities and related indices are recognized on a trade date basis and recorded in Trading Assets or Trading Liabilities on the consolidated balance sheet. #### Securities

Investments in non-consolidated subsidiaries and affiliates, which are not under the equity method, are stated at acquisition cost and determined by the moving average method. As to Other Securities, in principle, fair value of Japanese stocks is determined based on the average quoted market price over the month preceding the consolidated balance sheet date. Fair value of securities other than Japanese stocks is determined at the quoted market price if available, or other reasonable value at the consolidated balance sheet date (cost of securities sold is calculated primarily by the moving average method). Other Securities, the fair values of which are extremely difficult to determine, are stated at acquisition cost or amortized cost and determined by the moving average method.

The net unrealized gains (losses) on Other Securities are included directly in Net Assets, net of applicable income taxes after excluding gains and losses as a result of the fair-value hedge methods.

(ii) Securities which are held as trust assets in Money Held in Trust accounts are valued in the same way as given in (i) above.

## 5. Depreciation of Fixed Assets

Buildings: 2 years to 50 years Others: 2 years to 20 years

1-25

(Changes in accounting policies which are difficult to distinguish from changes in accounting estimates)

The effect of this application on the consolidated statement of income is immaterial.

(2) Intangible Fixed Assets (Except for Lease Assets)

Amortization of Intangible Fixed Assets is computed by the straight-line method. Development costs for internally-used software are capitalized and amortized over their estimated useful lives of mainly from five to ten years as determined by MHFG and consolidated subsidiaries.

(3) Lease Assets

Depreciation of lease assets booked in Tangible Fixed Assets and Intangible Fixed Assets which are concerned with finance lease transactions that do not transfer ownership is mainly computed by the same method as the one applied to fixed assets owned by us.

- Deferred Assets
- (1) Bond issuance costs

Bond issuance costs are expensed as incurred.

(2) Bond discounts

Bonds are stated at amortized costs computed by the straight-line method on the consolidated balance sheets.

Bond discounts booked on the consolidated balance sheets as of March 31, 2006 are amortized under the straight-line method over the term of the bond by applying the previous accounting method and the unamortized balance is directly deducted from bonds, based on the tentative measure stipulated in the Tentative Solution on Accounting for Deferred Assets (ASBJ Report No. 19, August 11, 2006).

#### 7. Reserves for Possible Losses on Loans

Reserves for Possible Losses on Loans of major domestic consolidated subsidiaries are maintained in accordance with internally established standards for write-offs and reserve provisions.

For claims extended to obligors that are legally bankrupt under the Bankruptcy Law, Special Liquidation under the Company Law or other similar laws (Bankrupt Obligors), and to obligors that are effectively in similar conditions (Substantially Bankrupt Obligors), reserves are maintained at the amounts of claims net of direct write-offs described below and expected amounts recoverable from the disposition of collateral and the amounts recoverable under guarantees. For claims extended to obligors that are not yet legally or formally bankrupt but are likely to be bankrupt (Intensive Control Obligors), reserves are maintained at the amounts deemed necessary based on overall solvency analyses of the amounts of claims net of expected amounts recoverable from the disposition of collateral and the amounts recoverable under guarantees.

For claims extended to Intensive Control Obligors and Obligors with Restructured Loans and others, if the exposure to an obligor exceeds a certain specific amount, reserves are provided as follows: (i) if future cash flows of the principal and interest can be reasonably estimated, the discounted cash flow method is applied, under which the reserve is determined as the difference between the book value of the loan and its present value of future cash flows discounted using the contractual interest rate before the loan was classified as a Restructured Loan, and (ii) if future cash flows of the principal and interest cannot be reasonably estimated, reserves are provided for the losses estimated for each individual loan. For claims extended to other obligors, reserves are maintained at rates derived from historical credit loss experience and other factors. Reserve for Possible Losses on Loans to Restructuring Countries is maintained in order to cover possible losses based on analyses of the political and economic climates of the countries.

All claims are assessed by each claim origination department in accordance with the internally established Self-assessment Standard, and the results of the assessments are verified and examined by the independent examination departments.

In the case of claims to Bankrupt Obligors and Substantially Bankrupt Obligors, which are collateralized or guaranteed by a third party, the amounts deemed uncollectible (calculated by deducting the anticipated proceeds from the sale of collateral pledged against the claims and amounts that are expected to be recovered from guarantors of the claims) are written off against the respective claims balances. The total directly written-off amount was ¥270,388 million.

Other consolidated subsidiaries provide the amount necessary to cover the loan losses based upon past experience and other factors for general claims and the assessment for each individual loan for other claims.

#### 11. Reserve for Director and Corporate Auditor Retirement Benefits

#### 17. Assets and Liabilities denominated in foreign currencies

Assets and Liabilities denominated in foreign currencies and accounts of overseas branches of domestic consolidated banking subsidiaries and a domestic consolidated trust banking subsidiary are translated into Japanese yen primarily at the exchange rates in effect at the consolidated balance sheet date, with the exception of the investments in non-consolidated subsidiaries and affiliates not under the equity method, which are translated at historical exchange rates.

Assets and Liabilities denominated in foreign currencies of the consolidated subsidiaries, except for the transactions mentioned above, are translated into Japanese yen primarily at the exchange rates in effect at the respective balance sheet dates.

#### 18. Hedge Accounting

(1) Interest Rate Risk

The deferred method, the fair-value hedge method or the exceptional accrual method for interest rate swaps are applied as hedge accounting methods.

The portfolio hedge transaction for a large volume of small-value monetary claims and liabilities of domestic consolidated banking subsidiaries and domestic consolidated trust banking subsidiaries is accounted for in accordance with the method stipulated in the Accounting and Auditing Treatment relating to Adoption of Accounting Standards for Financial Instruments for Banks (JICPA Industry Audit Committee Report No.24).

The effectiveness of hedging activities for the portfolio hedge transaction for a large volume of small-value monetary claims and liabilities is assessed as follows:

- (i) as for hedging activities to offset market fluctuation risks, the effectiveness is assessed by bracketing both the hedged instruments, such as deposits and loans, and the hedging instruments, such as interest-rate swaps, in the same maturity bucket.
- (ii) as for hedging activities to fix the cash flows, the effectiveness is assessed based on the correlation between a base interest rate index of the hedged instrument and that of the hedging instrument.

The effectiveness of the individual hedge is assessed based on the comparison of the fluctuation in the market or of cash flows of the hedged instruments with that of the hedging instruments.

Among Deferred Gains or Losses on Hedges recorded on the consolidated balance sheet, those deferred hedge losses are included that resulted from the application of the macro-hedge method based on the Tentative Accounting and Auditing Treatment relating to Adoption of Accounting Standards for Financial Instruments for Banks (JICPA Industry Audit Committee Report No.15), under which the overall interest rate risks inherent in loans, deposits and others are controlled on a macro-basis using derivatives transactions. The deferred hedge gains/losses are amortized as interest income or interest expenses over the remaining maturity and average remaining maturity of the respective hedging instruments. The unamortized amounts of gross deferred hedge losses and gross deferred hedge gains on the macro-hedges, before net of applicable income taxes were \mathbf{\frac{y}{4}},330 million and \mathbf{\frac{y}{2}},955 million, respectively.

#### (2) Foreign Exchange Risk

Domestic consolidated banking subsidiaries and some of domestic consolidated trust banking subsidiaries apply the deferred method of hedge accounting to hedge foreign exchange risks associated with various financial assets and liabilities denominated in foreign currencies as stipulated in the Accounting and Auditing Treatment relating to Adoption of Accounting Standards for Foreign Currency Transactions for Banks (JICPA

Industry Audit Committee Report No.25). The effectiveness of the hedge is assessed by confirming that the amount of the foreign currency position of the hedged monetary claims and liabilities is equal to or larger than that of currency-swap transactions, exchange swap transactions, and similar transactions designated as the hedging instruments of the foreign exchange risk.

In addition to the above methods, these subsidiaries apply the deferred method or the fair-value hedge method to portfolio hedges of the foreign exchange risks associated with investments in subsidiaries and affiliates in foreign currency and Other Securities in foreign currency (except for bonds) identified as hedged items in advance, as long as the amount of foreign currency payables of spot and forward foreign exchange contracts exceeds the amount of acquisition cost of the hedged foreign securities in foreign currency.

Mizuho Financial Group, Inc.

#### (3) Inter-company Transactions

Inter-company interest rate swaps, currency swaps and similar derivatives among consolidated companies or between trading accounts and other accounts, which are designated as hedges, are not eliminated and related gains and losses are recognized in the statement of income or deferred under hedge accounting, because these inter-company derivatives are executed according to the criteria for appropriate outside third-party cover operations which are treated as hedge transactions objectively in accordance with JICPA Industry Audit Committee Reports No. 24 and 25.

- Loans and Bills Discounted include Loans to Bankrupt Obligors of ¥33,688 million and Non-Accrual Delinquent Loans of ¥637,911 million.

Loans to Bankrupt Obligors are loans, excluding loans written-off, on which delinquencies in payment of principal and/or interest have continued for a significant period of time or for some other reason there is no prospect of collecting principal and/or interest ( Non-Accrual Loans ), as per Article 96, Paragraph 1, Item 3, Subsections 1 to 5 or Item 4 of the Corporate Tax Law Enforcement Ordinance (Government Ordinance No. 97, 1965).

Non-Accrual Delinquent Loans represent Non-Accrual Loans other than (i) Loans to Bankrupt Obligors and (ii) loans on which interest payments have been deferred in order to assist or facilitate the restructuring of the obligors.

4. Balance of Loans Past Due for Three Months or More: ¥3,468 million

Loans Past Due for Three Months or More are loans on which payments of principal and/or interest have not been made for a period of three months or more since the next day following the first due date without such payments, and which are not included in Loans to Bankrupt Obligors, or Non-Accrual Delinquent Loans.

5. Balance of Restructured Loans: ¥694,732 million

Restructured Loans represent loans whose contracts were amended in favor of obligors (e.g. reduction of, or exemption from, stated interest, deferral of interest payments, extension of maturity dates and renunciation of claims) in order to assist or facilitate the restructuring of the obligors. Loans to Bankrupt Obligors, Non-Accrual Delinquent Loans and Loans Past Due for Three Months or More are not included.

6. Total balance of Loans to Bankrupt Obligors, Non-Accrual Delinquent Loans, Loans Past Due for Three Months or More, and Restructured Loans: ¥1,369,801 million

The amounts given in Notes 3 through 6 above are gross amounts before deduction of amounts for the Reserves for Possible Losses on Loans.

7. In accordance with Treatment of Accounting and Auditing of Application of Accounting Standard for Financial Instruments in the Banking Industry (JICPA Industry Audit Committee Report No. 24), bills discounted are accounted for as financing transactions. The banking subsidiaries have rights to sell or pledge these bankers acceptances, commercial bills, documentary bills and foreign exchange bills purchased. The face value of these bills amounted to ¥1,038,435 million.

## 8. The following assets were pledged as collateral:

| Trading Assets:             | ¥ 5,202,949 million  |
|-----------------------------|----------------------|
| Securities:                 | ¥ 21,651,304 million |
| Loans and Bills Discounted: | ¥ 8,642,462 million  |
| Other Assets:               | ¥ 6,126 million      |

The following liabilities were collateralized by the above assets:

| Deposits:  | ¥ 258,984 million    |
|--|----------------------|
| Call Money and Bills Sold:   | ¥ 1,579,600 million  |
| Payables under Repurchase Agreements:                              | ¥ 7,726,231 million  |
| Guarantee Deposits Received under Securities Lending Transactions: | ¥ 10,919,210 million |
| Borrowed Money:  | ¥ 5,854,006 million  |

In addition to the above, the settlement accounts of foreign and domestic exchange transactions or derivatives transactions and others were collateralized, and margins for futures transactions were substituted by Cash and Due from Banks of ¥13,113 million, Trading Assets of ¥266,909 million, Securities of ¥2,101,482 million, and Loans and Bills Discounted of ¥123,719 million.

None of the assets was pledged as collateral in connection with borrowings by the non-consolidated subsidiaries and affiliates.

Other Assets includes guarantee deposits of ¥101,985 million, margins for futures transactions of ¥79,222 million and collateral pledged for financial instruments and others of ¥510,935 million.

Rediscount of bills is conducted as financing transaction based on the JICPA Industry Audit Committee Report No. 24. There was no balance for bankers acceptances, commercial bills, documentary bills or foreign exchange bills purchased.

9. Overdraft protection on current accounts and contracts of the commitment line for loans are contracts by which banking subsidiaries are bound to extend loans up to the prearranged amount, at the request of customers, unless the customer is in breach of contract conditions. The unutilized balance of these contracts amounted to ¥67,950,272 million. Of this amount, ¥58,289,578 million relates to contracts of which the original contractual maturity is one year or less, or which are unconditionally cancelable at any time.

Since many of these contracts expire without being exercised, the unutilized balance itself does not necessarily affect future cash flows. A provision is included in many of these contracts that entitles the banking subsidiaries to refuse the execution of loans, or reduce the maximum amount under contracts when there is a change in the financial situation, necessity to preserve a claim or other similar reasons. The banking subsidiaries require collateral such as real estate and securities when deemed necessary at the time the contract is entered into. In addition, they periodically monitor customers business conditions in accordance with internally established standards and take necessary measures to manage credit risks such as amendments to contracts.

10. In accordance with the Land Revaluation Law (Proclamation No.34 dated March 31, 1998), land used for business operations of domestic consolidated banking subsidiaries was revalued. The applicable income taxes on the entire excess of revaluation are included in Deferred Tax Liabilities for Revaluation Reserve for Land under Liabilities, and the remainder, net of applicable income taxes, is stated as Revaluation Reserve for Land included in Net Assets.

Revaluation date: March 31, 1998

Revaluation method as stated in Article 3, Paragraph 3 of the above law: Land used for business operations was revalued by calculating the value on the basis of the valuation by road rating stipulated in Article 2, Paragraph 4 of the Enforcement Ordinance relating to the Land Revaluation Law (Government Ordinance No.119 promulgated on March 31, 1998) with reasonable adjustments to compensate for sites with long depth and other factors, and also on the basis of the appraisal valuation stipulated in Paragraph 5.

The difference at the consolidated balance sheet date between the total fair value of land for business operation purposes, which has been revalued in accordance with Article 10 of the above-mentioned law, and the total book value of the land after such revaluation was \mathbb{\pmathbb{1}}163,523 million.

- \* In addition to Securities on the consolidated balance sheets, NCDs in Cash and Due from Banks, certain items in Other Debt Purchased and certain items in Other Assets are also included.
- \* Fair value of Japanese stocks with a quoted market price is determined based on the average quoted market price over the month preceding the consolidated balance sheet date.
  - Fair value of securities other than Japanese stocks is determined at the quoted market price if available, or other reasonable value at the consolidated balance sheet date.
- \* The book values of Other Securities which have readily determinable fair value are stated at fair value, so Unrealized Gains/Losses indicate the difference between book values on the consolidated balance sheets and the acquisition costs.
- \* Unrealized Gains/Losses include ¥3,311 million, ¥(3,079) million and ¥(7,343) million, which were recognized in the statement of income for March 31, 2013, September 30, 2012 and March 31, 2012, respectively, by applying the fair-value hedge method and others.

  As a result, the base amounts to be recorded directly to Net Assets after tax and consolidation adjustments as of March 31, 2013, September 30, 2012 and March 31, 2012 are ¥878,131 million, ¥3.868 million and ¥91,209 million, respectively.
- \* Unrealized Gains (Losses) on Other Securities, net of Taxes (recorded directly to Net Assets after tax and consolidation adjustments, excluding the amount recognized in the statement of income by applying the fair-value hedge method and others, including translation differences regarding securities, the fair values of which are extremely difficult to determine) as of March 31, 2013, September 30, 2012 and March 31, 2012 are ¥615,883 million, ¥(33,425) million and ¥37,857 million, respectively.
