**Item 2.05 Costs Associated with Exit or Disposal Activities**

On July 25, 2013, the Board of Directors of Smith Micro Software, Inc. (the Company) approved a plan of restructuring intended to bring the Company's operating expenses better in line with revenues. The restructuring plan involves a realignment of organizational structures, facility consolidations/closures and headcount reductions that will amount to approximately 25-30% of the Company's worldwide workforce. The restructuring plan is expected to be implemented primarily during the third quarter of the Company's 2013 fiscal year.

The Company currently expects that implementation of the restructuring plan will result in special charges totaling approximately \$5.0-6.8 million which will be recorded during the third quarter of 2013. These charges include lease/rental terminations of approximately 3.5 million, severance costs for affected employees of approximately \$0.9-1.5 million, and other related costs of approximately \$0.6-1.8 million all of which are cash expenditures. It is estimated that approximately \$2.7-3.1 million of cash expenditures will be paid out in 2013, and the remaining cash expenditures will be paid in future years.

The amounts stated above are preliminary and subject to change as we finalize our assessment of the charges and costs associated with the above items. These charges and cash expenditures do not take into consideration any potential cost savings associated with the plan of restructuring.

**Safe Harbor Statement:**

*This Current Report on Form 8-K contains forward-looking statements that involve risks and uncertainties, including without limitation forward-looking statements relating to the Company's efforts to reduce operating expenses, amount and composition of special charges and cash expenditures, and the timing for completion of the restructuring plan. Among the factors that could cause actual results to differ materially from those expressed or implied in the forward-looking statements are fluctuations and uncertainties in estimating the Company's operating results and future operating losses, logistical problems in implementing the restructuring plan, changes in demand for the Company's products, new and changing technologies and mobile communications products, customer acceptance of those technologies and products, new and continuing adverse economic conditions, and the Company's ability to compete effectively with other software providers. These and other factors discussed in the Company's filings with the Securities and Exchange Commission, including its filings on Forms 10-K and 10-Q, could cause actual results to differ materially from those expressed or implied in any forward-looking statements. The forward-looking statements contained in this filing are made on the basis of the views and assumptions of management regarding future events and business performance as of the date of this filing, and the Company does not undertake any obligation to update these statements to reflect events or circumstances occurring after the date of this filing.*
