PROFIT FORECAST

October 15, 2013

Dear Elan Shareholder

On July 29, 2013, Perrigo Company (Perrigo) and Elan Corporation, plc (Elan), announced that they had entered into a definitive agreement pursuant to which Perrigo Company Limited, a new holding company incorporated in Ireland that will be renamed Perrigo Company plc (New Perrigo), will acquire Elan and Perrigo (the Transaction). On October 8, 2013, New Perrigo filed with the SEC Amendment No. 4 to its registration statement on Form S-4 in connection with the Transaction, which included a joint proxy statement of Perrigo and Elan that also serves as a prospectus of New Perrigo (the Joint Proxy Statement/Prospectus). The Form S-4 was declared effective on October 9, 2013, and the Joint Proxy Statement/Prospectus is included along with this letter.

As Elan is an Irish incorporated company, the Transaction is subject to the Irish Takeover Rules. In accordance with the Irish Takeover Rules, where Perrigo gives earnings guidance (known as a profit forecast under the Irish Takeover Rules), that profit forecast must be repeated in the proxy statement sent to Elan shareholders and certain attestations to that profit forecast must also be provided.

As Perrigo has previously publicly disclosed a profit forecast for the financial year ending June 28, 2014, this profit forecast has been repeated in the Joint Proxy Statement/Prospectus on pages 325 through 326, and is repeated in this letter. In addition, included with this letter are reports required by the Irish Takeover Rules from Perrigo's reporting accountants, Ernst & Young LLP, confirming that the Perrigo profit forecast has been properly compiled on the basis of the assumptions set forth in the profit forecast and the basis of accounting used is consistent with the accounting policies of Perrigo, and Perrigo's financial advisor, Barclays Bank PLC (acting through its investment bank), confirming that the Perrigo profit forecast has been prepared with due care and consideration.

Very truly yours,

Joseph C. Papa

Chairman, President and Chief Executive Officer

Perrigo Company

This document includes certain forward looking statements within the meaning of, and subject to the safe harbor created by, Section 21E of the Securities Exchange Act of 1934, as amended, with respect to the business, strategy and plans of each of Perrigo and New Perrigo, their respective expectations relating to the transactions contemplated by the Transaction Agreement and their respective future financial condition and performance, including estimated synergies. Statements that are not historical facts, including statements about Perrigo's, New Perrigo's or their respective managements' beliefs and expectations, are forward looking statements. Words such as believes, anticipates, estimates, expects, intends, aims, potential, will, would, could, considered, likely, estimate and words and similar future or conditional expressions are intended to identify forward looking statements but are not the exclusive means of identifying such statements. Examples of such forward looking statements include, but are not limited to, statements about expected benefits and risks associated with the transactions contemplated by the Transaction Agreement, projections or expectations of profit attributable to shareholders, including estimated synergies, anticipated provisions or writedowns, economic profit, dividends, capital structure or any other financial items or ratios; statements of plans, objectives or goals of Perrigo, New Perrigo, Elan or the combined business following the transactions contemplated by the Transaction Agreement; statements about the future trends in tax or interest rates, liquidity, foreign exchange rates, stock market levels and demographic trends and any impact that those matters may have on Perrigo, New Perrigo, Elan or the combined company following the transactions contemplated by the Transaction Agreement; statements concerning any future Irish, UK, US or other economic or regulatory environment or performance; statements about strategic goals, competition, regulation, regulatory approvals, dispositions and consolidation or technological developments in the healthcare and lifesciences industry; and statements of assumptions underlying such statements. While Perrigo and New Perrigo believe these expectations, assumptions, estimates and projections are reasonable, such forward-looking statements are only predictions and involve known and unknown risks and uncertainties, many of which are beyond Perrigo's and New Perrigo's control.

By their nature, forward looking statements involve risk and uncertainty because they

relate to events and depend upon future circumstances that may or may not occur. Actual results may differ materially from Perrigo's and New Perrigo's current expectations depending upon a number of factors affecting Perrigo's business, New Perrigo's business, Elan's business and risks associated with acquisition transactions. These factors include, among others, the inherent uncertainty associated with financial projections; restructuring in connection with, and successful close of, the transactions contemplated by the Transaction Agreement; subsequent integration of the transactions contemplated by the Transaction Agreement and the ability to recognize the anticipated synergies and benefits of the transactions contemplated by the Transaction Agreement; the receipt of required regulatory approvals for the transactions contemplated by the Transaction Agreement (including the approval of antitrust authorities necessary to complete the transactions contemplated by the Transaction Agreement); access to available financing (including financing for the transactions contemplated by the Transaction Agreement) on a timely basis and on reasonable terms; the risks and uncertainties normally incident to the pharmaceutical industry, including product liability claims and the availability of product liability insurance; market acceptance of and continued demand for Perrigo's, New Perrigo's and Elan's products; changes in tax laws or interpretations that could increase Perrigo's or the combined company's consolidated tax liabilities; and such other risks and uncertainties detailed in Perrigo's periodic public filings with the SEC, including but not limited to those discussed under "Risk Factors" in Perrigo's Form 10-K for the fiscal year ended June 29, 2013, in Perrigo's subsequent filings with the SEC and in other investor communications of Perrigo or New Perrigo from time to time. The forward-looking statements are made only as of the date hereof, and unless otherwise required by applicable securities laws, each of Perrigo and New Perrigo disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Elan Cautionary Statement Regarding Forward-Looking Statements

This document includes certain "forward looking statements" with respect to the business, strategy and plans of Elan and its expectations relating to the transactions contemplated by the Transaction Agreement and its future financial condition and performance. Statements that are not historical facts, including statements about Elan's or its management's beliefs and expectations, are forward looking statements. Words such as "believes", "anticipates", "estimates", "expects", "intends", "aims", "potential", "will", "would", "could", "considered", "likely", "estimate" and variations of similar future or conditional expressions are intended to identify forward looking statements but are not the exclusive means of identifying such statements. By their nature, forward looking statements involve risk and uncertainty because they relate to events and depend upon future circumstances that may or may not occur. Examples of such forward looking statements include, but are not limited to, statements about expected benefits and risks associated with the transactions contemplated by the Transaction Agreement, projections or expectations of profit attributable to shareholders, anticipated provisions or write-downs, economic profit, dividends, capital structure or any other financial items or ratios; statements of plans, objectives or goals of Perrigo, New Perrigo, Elan or the combined business following the transactions contemplated by the Transaction Agreement; statements about the future trends in tax or interest rates, liquidity, foreign exchange rates, stock market levels and demographic trends and any impact that those matters may have on Perrigo, New Perrigo, Elan or the combined company following the transactions contemplated by the Transaction Agreement; statements concerning any future Irish, UK, US or other economic or regulatory environment or performance; statements about strategic goals, competition, regulation, regulatory approvals, dispositions and consolidation or technological developments in the healthcare and lifesciences industry; and statements of assumptions underlying such statements. Factors that could cause actual results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward looking statements made by Elan or on its behalf include, but are not limited to, general economic conditions in Ireland, the United States or elsewhere; regulatory scrutiny, legal proceedings or complaints; changes in competition and pricing environments; the inability to hedge certain risks economically; the adequacy of loss reserves; the ability to secure new customers and develop more business from existing customers; the transactions contemplated by the Transaction Agreement not being completed or not being completed as currently envisaged; additional unanticipated costs associated with the transactions contemplated by the Transaction Agreement or the operating of the combined company; or an inability to implement the strategy of the combined company or achieve the benefits of the transactions contemplated by the

Transaction Agreement set out herein. Additional factors that

could cause actual results to differ materially from forward looking statements are set out in the most recent annual reports and accounts of Elan, including Elan's most recent annual report on Form 20-F for the fiscal year ended 31 December 2012 and its Reports of Foreign Issuer on Form 6-K filed with the SEC. Forward-looking statements only speak as of the date on which they are made, and the events discussed herein may not occur. Subject to compliance with applicable law and regulation, Elan disclaims any obligation to update publicly or revise forward-looking statements, whether as a result of new information, future events or otherwise. Elan's principal source of revenue may remain a royalty on sales of Tysabri®, the potential of Tysabri®, which may be severely constrained by increases in the incidence of serious adverse events (including death) associated with Tysabri® (in particular, by increases in the incidence rate for cases of PML), or by competition from existing or new therapies (in particular, oral therapies), and the potential for the successful development and commercialisation of products, whether internally or by acquisition, especially given the separation of the Prothena business which left Elan with no material pre-clinical research programs or capabilities; Elan's ability to maintain sufficient cash, liquid resources, and investments and other assets capable of being monetised to meet its liquidity requirements; the success of our development activities, and R&D activities in which Elan retains an interest, including, in particular, the impact of the announced discontinuation of the development of bapineuzumab intravenous in mild to moderate Alzheimer's disease; failure to comply with anti-kickback, bribery and false claims laws in the United States, Europe and elsewhere; difficulties or delays in manufacturing and supply of Tysabri®; trade buying patterns; the impact of potential biosimilar competition, the trend towards managed care and health care cost containment, including Medicare and Medicaid; legislation and other developments affecting pharmaceutical pricing and reimbursement (including, in particular, the dispute in Italy with respect to Tysabri® sales), both domestically and internationally; failure to comply with Elan's payment obligations under Medicaid and other governmental programs; exposure to product liability (including, in particular, with respect to Tysabri®) and other types of lawsuits and legal defence costs and the risks of adverse decisions or settlements related to product liability, patent protection, securities class actions, governmental investigations and other legal proceedings; Elan's ability to protect its patents and other intellectual property; claims and concerns that may arise regarding the safety or efficacy of Elan's product candidates; interest rate and foreign currency exchange rate fluctuations and the risk of a partial or total collapse of the euro; governmental laws and regulations affecting domestic and foreign operations, including tax obligations; whether Elan is deemed to be an investment company or a passive foreign investment company; general changes in United States and international generally accepted accounting principles; growth in costs and expenses; and the impact of acquisitions, divestitures, restructurings, product withdrawals and other unusual items. A further list and description of these risks, uncertainties and other matters can be found in Elan's Annual Report on Form 20-F for the fiscal year ended 31 December 2012, and in its Reports of Foreign Issuer on Form 6-K filed with the SEC. Elan assumes no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.

We planned and performed our work so as to obtain the information and explanations we considered necessary in order to provide us with reasonable assurance that the Profit Forecast has been properly compiled on the basis stated.
