## Entergy Notes / ITC Refiling

10.21.13 Final Version

### Transmission Merger Application Refiled with PUCT

Plans for Entergy Texas, Inc. to separate its transmission business and transfer it to a subsidiary of ITC Holdings Corp. are back on the table at the Public Utility Commission of Texas.

An initial application requesting PUCT approval of the plan was withdrawn in August and a new application filed in September so the companies could fully address questions raised by the state's regulatory group. A hearing is set for November 21-22 at the PUCT. The plan was approved by the Federal Energy Regulatory Commission in June.

The transaction is designed to secure a stronger grid, increase reliability and lower energy costs. Because infrastructure investment will be required, the companies recognize that it will take some time for customers to realize all of the transaction's benefits. The two companies, therefore, have committed almost \$93 million to Texas ratepayers to mitigate costs over the next five years.
