Item 2.04 Triggering Events That Accelerate or Increase a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement.

On April 24, 2014, we notified Chambers Energy Management, LP (Chambers) that we determined that we were not in compliance with the Collateral Ratio Covenant under the credit agreement between our subsidiary American Shale Development, Inc. (American Shale), the lenders thereto and Chambers Energy Management, LP as the administrative agent (the ASD Credit Agreement). In addition, we have determined that we will not be able to timely deliver to Chambers financial statements for the year ended December 31, 2013 for American Shale. If these defaults under the ASD Credit Agreement are not waived or otherwise resolved within the cure periods provided, Chambers will have the right to accelerate all of the outstanding indebtedness under the ASD Credit Facility. If Chambers were to accelerate all of the obligations outstanding under the ASD Credit Facility, we estimate that we would be required to pay approximately \$94,908,102 to Chambers and the lenders.

We are currently in discussions regarding a financing that, if completed, is intended to refinance our existing debt, including the ASD Credit Agreement, and to provide funding for an expansion of our development program. While we hope to close the financing as soon as possible, definitive documentation is subject to negotiation. Additionally, we can provide no assurances that we will be able to obtain such additional capital, that the terms of any such financing will be acceptable to us or the timing or closing of such financing.
