Table of Contents

UNITED CONTINENTAL HOLDINGS, INC. AND UNITED AIRLINES, INC.

COMBINED NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

United Continental Holdings, Inc. (together with its consolidated subsidiaries, UAL or the Company) is a holding company and its principal, wholly-owned subsidiary is United Airlines, Inc. (together with its consolidated subsidiaries, United). This Quarterly Report on Form 10-Q is a combined report of UAL and United including their respective consolidated financial statements. As UAL consolidates United for financial statement purposes, disclosures that relate to activities of United also apply to UAL, unless otherwise noted. United's operating revenues and operating expenses comprise nearly 100% of UAL's revenues and operating expenses. In addition, United comprises approximately the entire balance of UAL's assets, liabilities and operating cash flows. When appropriate, UAL and United are named specifically for their individual contractual obligations and related disclosures and any significant differences between the operations and results of UAL and United are separately disclosed and explained. We sometimes use the words we, our, us, and the Company in this report for disclosures that relate to all of UAL and United.

The UAL and United unaudited condensed consolidated financial statements shown here have been prepared as required by the U.S. Securities and Exchange Commission (the SEC). Some information and footnote disclosures normally included in financial statements that comply with accounting principles generally accepted in the United States (GAAP) have been condensed or omitted as permitted by the SEC. The financial statements include all adjustments, including normal recurring adjustments and other adjustments, which are considered necessary for a fair presentation of the Company's financial position and results of operations. The UAL and United financial statements should be read together with the information included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013 (the 2013 Annual Report). The Company's quarterly financial data is subject to seasonal fluctuations and historically its second and third quarter financial results, which reflect higher travel demand, are better than its first and fourth quarter financial results.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

Frequent Flyer Accounting. On March 30, 2014, US Airways exited Star Alliance. Effective with the exit date, the Company updated its estimated selling price for miles to a value based on the equivalent ticket value less fulfillment discount, which incorporates the expected redemption of miles. The equivalent ticket value used as the basis for the estimated selling price of miles is based on the prior 12 months weighted average equivalent ticket value of similar fares as those used to settle award redemptions while taking into consideration such factors as redemption pattern, cabin class, loyalty status and geographic region. The estimated selling price of miles is adjusted by a fulfillment discount that considers a number of factors, including redemption patterns of various customer groups. This change in estimate was applied on a prospective basis beginning April 1, 2014. The estimated impact of this change on consolidated revenue is expected to be an increase of approximately \$75 million in 2014.

Related Party Receivables. At December 31, 2013, United had receivables from two affiliates, which were wholly-owned subsidiaries of UAL, of \$232 million that were classified against stockholder's equity. UAL transferred all of its equity interest in each of the two subsidiaries to United in the first quarter of 2014, and the transfers have been reflected as reductions in paid in capital.

Recently Issued Accounting Standards. In May 2014, the Financial Accounting Standards Board (FASB) amended the FASB Accounting Standards Codification and created a new Topic 606, Revenue from Contracts with Customers. This amendment prescribes that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The amendment supersedes the revenue recognition requirements in Topic 605, Revenue Recognition, and most industry-specific guidance throughout the Industry Topics of the Codification. The amendments will become effective for the Company's annual and interim reporting periods beginning January 1, 2017. The Company is evaluating the impact on its financial statements.

Table of Contents**NOTE 2 - EARNINGS PER SHARE**

The table below represents the computation of UAL's basic and diluted earnings per share amounts and the number of securities that have been excluded from the computation of diluted earnings per share amounts because they were antidilutive (in millions, except per share amounts):

During the second quarter of 2014, UAL used cash to purchase and retire \$28 million aggregate principal amount of its 4.5% Convertible Notes due 2015 (the "4.5% Convertible Notes") in market transactions. The corresponding equivalent amount of shares of UAL common stock are excluded from the determination of diluted weighted-average shares outstanding for the three and six months ended June 30, 2014 from the date the debt was purchased.

In the first quarter of 2014, UAL issued approximately five million additional shares of UAL common stock in exchange for, or upon conversion of, \$46 million in aggregate principal amount of UAL's outstanding 6% convertible senior notes due 2029 held by holders of these notes. The newly issued shares of UAL common stock are included in the determination of basic weighted-average shares outstanding for the three and six months ended June 30, 2014 from the date the shares were issued. The Company retired the 6% convertible senior notes acquired in the exchange.

Also, in the first quarter of 2014, holders of substantially all of the remaining \$156 million outstanding principal amount of the 4.5% Senior Limited-Subordination Convertible Notes due 2021 (the "4.5% Notes") exercised their right to convert such notes into approximately five million shares of UAL common stock at a conversion rate of 30.6419 shares of UAL common stock per \$1,000 principal amount of 4.5% Notes. The newly issued shares of UAL common stock are included in the determination of basic weighted-average shares outstanding for the three and six months ended June 30, 2014 from the date the shares were issued. See Note 9 for additional information related to exercises of rights under the 4.5% Notes.

Edgar Filing: United Continental Holdings, Inc. - Form 10-Q

UAL's Board of Directors has authorized a share repurchase program to acquire up to \$1 billion of UAL's common stock. UAL may repurchase shares through the open market, privately negotiated transactions, block trades, or accelerated share repurchase transactions from time to time in accordance with applicable securities laws. UAL will repurchase shares of common stock subject to prevailing market conditions, and may discontinue such repurchases at any time. On July 24, 2014, UAL entered into agreements under which it will repurchase approximately \$200 million of shares of UAL common stock through an accelerated share repurchase program. The specific number of shares that UAL will ultimately repurchase under this accelerated share repurchase program will be determined based on a calculation period not to exceed approximately three months.

(a) UAL and United amounts are substantially the same except for an additional \$6 million of income tax benefit at United in the six months ended June 30, 2013 and additional (losses) gains related to investments and other of \$(1) million and \$1 million in the three months ended June 30, 2014 and the six months ended June 30, 2013, respectively.

(b) Income tax expense for these items was offset by the Company's valuation allowance.

(c) This AOCI component is included in the computation of net periodic pension and other postretirement costs (see Note 5 of this report for additional details).

Table of Contents**NOTE 4 - INCOME TAXES**

Our effective tax rates are lower than the federal statutory rate of 35% primarily because of the impact of changes to existing valuation allowances. We continue to provide a valuation allowance for our deferred tax assets in excess of deferred tax liabilities because we have concluded that it is more likely than not that such deferred tax assets will ultimately not be realized.

NOTE 5 - EMPLOYEE BENEFIT PLANS

Defined Benefit Pension and Other Postretirement Benefit Plans. The Company's net periodic benefit cost includes the following components (in millions):

	Pension Benefits		Other Postretirement Benefits	
	Three Months Ended		Three Months Ended	
	June 30,		June 30,	
	2014	2013	2014	2013
Service cost	\$ 25	\$ 32	\$ 4	\$ 14

Settlement (gain) loss		(1)		
Total	\$ 66	\$ 113	\$ 13	\$ 88

During the three and six months ended June 30, 2014, the Company contributed \$61 million and \$118 million to its tax-qualified defined benefit pension plans.

Table of Contents

Share-Based Compensation. In February 2014, UAL granted share-based compensation awards pursuant to the United Continental Holdings, Inc. 2008 Incentive Compensation Plan. These share-based compensation awards include approximately 0.3 million shares of restricted stock and 0.5 million restricted stock units (RSUs) that vest pro-rata over three years on the anniversary of the grant date. The time-vested RSUs are cash-settled based on the 20-day average closing price of UAL common stock immediately prior to the vesting date. In addition, the Company granted 0.6 million performance-based RSUs that will vest based on the Company's return on invested capital for the three years ending December 31, 2016. If this performance condition is achieved, cash payments will be made after the end of the performance period based on the 20-day average closing price of UAL common stock immediately prior to the vesting date. The Company accounts for the RSUs as liability awards. The table below presents information related to share-based compensation (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Share-based compensation expense (a)	\$ 14	\$ 13	\$ 46	\$ 40
	June 30, 2014		December 31, 2013	
Unrecognized share-based compensation	\$ 74	\$ 44		

(a) Includes \$3 million of expense recognized in merger integration-related costs for the six months ended June 30, 2014. Includes \$3 million and \$11 million of expense recognized in merger integration-related costs for the three and six months ended June 30, 2013, respectively.

Profit Sharing Plans. Substantially all employees participated in profit sharing plans, which depending on the work group, pay from 5% to 20% of total pre-tax earnings, excluding special items and share-based compensation expense, to eligible employees when pre-tax profit, excluding special items, profit sharing expense and share-based compensation program expense, exceeds \$10 million. Eligible U.S. co-workers in each participating work group received a profit sharing payout using a formula based on the ratio of each qualified co-worker's annual eligible earnings to the eligible earnings of all qualified co-workers in all domestic work groups. The international profit sharing plan paid eligible non-U.S. co-workers the same percentage of eligible pay that is calculated under the U.S. profit sharing plan for management and administrative employees. Profit sharing expense is recorded as a component of salaries and related costs in the consolidated statements of operations.

Table of Contents**NOTE 6 - FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS**

The table below presents disclosures about the financial assets and financial liabilities measured at fair value on a recurring basis in the Company's financial statements (in millions):

Available-for-sale investment maturities - The short-term investments and EETC securities shown in the table above are classified as available-for-sale. As of June 30, 2014, asset-backed securities have remaining maturities of less than one year to approximately 40 years, corporate debt securities have remaining maturities of less than one year to approximately seven years, CDARS have maturities of less than one year, and auction rate securities have remaining maturities of approximately 24 to 32 years. U.S. government and other securities have maturities of less than one year to approximately four years. The EETC securities have various maturities with the final maturity in 2019.

United's debt-related derivatives presented in the tables above relate to (a) supplemental indenture agreements that provide that United's convertible debt is convertible into shares of UAL common stock upon the terms and conditions specified in the indentures, and (b) the embedded conversion options in United's convertible debt that are required to be separated and accounted for as though they are free-standing derivatives as a result of the United debt becoming convertible into the common stock of a different reporting entity. The derivatives described above relate to the 6% Convertible Junior Subordinated Debentures due 2030 and the 4.5% Convertible Notes. Gains (losses) on these derivatives are recorded in Nonoperating income (expense): Miscellaneous, net in United's Statements of Consolidated Operations. These derivatives along with their gains (losses) are reported in United's separate financial statements and are eliminated in consolidation for UAL.

Table of Contents

Derivative instruments and investments presented in the tables above have the same fair value as their carrying value. The table below presents the carrying values and estimated fair values of financial instruments not presented in the tables above (in millions):

	Carrying Amount	Fair Value of Debt by Fair Value Hierarchy Level				Carrying Amount	Fair Value			
		June 30, 2014					December 31, 2013			
		Total	Level 1	Level 2	Level 3		Total	Level 1	Level 2	Level 3
UAL debt	\$ 11,522	\$ 12,771	\$	\$ 9,182	\$ 3,589	\$ 11,539	\$ 12,695	\$ 8,829	\$ 3,866	
United debt	11,423	12,453		8,864	3,589	11,388	12,249	8,383	3,866	

Quantitative Information About Level 3 Fair Value Measurements (in millions)

Item	Fair Value at June 30, 2014	Valuation Technique	Unobservable Input	Range (Weighted Average)
Auction rate securities	\$ 26	Valuation Service / Broker Quotes	Broker quotes (a)	NA
EETC	59	Discounted Cash Flows	Structure credit risk (b)	3%
Convertible debt	449	Binomial Lattice Model	Expected volatility (c)	40% - 60% (41%)
derivative asset			Own credit risk (d)	5%
Convertible debt	(263)	Binomial Lattice Model	Expected volatility (c)	40% - 60% (42%)
option liability			Own credit risk (d)	5%

(a) Broker quotes obtained by a third-party valuation service.

(b) Represents the credit risk premium of the EETC structure above the risk-free rate that the Company has determined market participants would use when pricing the instruments.

(c) Represents the range in volatility estimates that the Company has determined market participants would use when pricing the instruments.

(d) Represents the range of Company-specific risk adjustments that the Company has determined market participants would use as a model input.

Valuation Processes - Level 3 Measurements - Depending on the instrument, the Company utilizes broker quotes obtained from third-party valuation services, discounted cash flow methods, or option pricing methods, as indicated above. Valuations using discounted cash flow methods are generally conducted by the Company. Valuations using option pricing models are generally provided to the Company by third-party valuation experts. Each reporting period, the Company reviews the unobservable inputs used by third-party valuation experts for reasonableness utilizing relevant information available to the Company from other sources.

The Company uses broker quotes obtained from a valuation service (in replacement of a discounted cash flows method) for valuing auction rate securities. This approach provides the best available information.

Sensitivity Analysis - Level 3 Measurements - Changes in the structure credit risk would be unlikely to cause material changes in the fair value of the EETCs.

The significant unobservable inputs used in the fair value measurement of the United convertible debt derivative assets and liabilities are the expected volatility in UAL common stock and the Company's own credit risk. Significant increases (decreases) in expected stock volatility would result in a higher (lower) fair value measurement. Significant increases (decreases) in the Company's own credit risk would result in a

lower (higher) fair value measurement. A change in one of the inputs would not necessarily result in a directionally similar change in the other.

Table of Contents

Fair value of the financial instruments included in the tables above was determined as follows:

Description	Fair Value Methodology
<i>Cash and cash equivalents</i>	The carrying amounts approximate fair value because of the short-term maturity of these assets.
<i>Short-term investments and Restricted cash</i>	Fair value is based on (a) the trading prices of the investment or similar instruments, (b) an income approach, which uses valuation techniques to convert future amounts into a single present amount based on current market expectations about those future amounts when observable trading prices are not available, (c) internally-developed models of the expected future cash flows related to the securities, or (d) broker quotes obtained by third-party valuation services.
<i>Fuel derivatives</i>	Derivative contracts are privately negotiated contracts and are not exchange traded. Fair value measurements are estimated with option pricing models that employ observable inputs. Inputs to the valuation models include contractual terms, market prices, yield curves, fuel price curves and measures of volatility, among others.
<i>Foreign currency derivatives</i>	Fair value is determined with a formula utilizing observable inputs. Significant inputs to the valuation models include contractual terms, risk-free interest rates and forward exchange rates.
<i>Debt</i>	Fair values were based on either market prices or the discounted amount of future cash flows using our current incremental rate of borrowing for similar liabilities.
<i>Convertible debt derivative asset and option liability</i>	United used a binomial lattice model to value the conversion options and the supplemental derivative assets. Significant binomial model inputs that are not objectively determinable include volatility and the Company's credit risk component of the discount rate.

NOTE 7 - HEDGING ACTIVITIES***Fuel Derivatives***

Aircraft fuel has been the Company's single largest operating expense for the last several years. The availability and price of aircraft fuel significantly affects the Company's operations, results of operations, financial position and liquidity. Aircraft fuel prices can fluctuate based on a multitude of factors including market expectations of supply and demand balance, inventory levels, geopolitical events, economic growth expectations, fiscal/monetary policies and financial investment flows. To protect against increases in the prices of aircraft fuel, the Company routinely hedges a portion of its future fuel requirements. As of June 30, 2014, the Company had hedged approximately 21%, 19% and less than 1% of its projected fuel requirements (416 million gallons, 742 million gallons and 35 million gallons, respectively) for the remainder of 2014, 2015 and 2016, respectively, with commonly used financial hedge instruments based on aircraft fuel or closely related commodities, such as diesel fuel and crude oil. As of June 30, 2014, the Company had fuel hedges expiring through March 2016. The Company does not enter into derivative instruments for non-risk management purposes.

As required, the Company assesses the effectiveness of each of its individual hedges on a quarterly basis. The Company also examines the effectiveness of its entire hedging program on a quarterly basis utilizing statistical analysis. This analysis involves utilizing regression and other statistical analyses that compare changes in the price of aircraft fuel to changes in the prices of the commodities used for hedging purposes.

Upon proper qualification, the Company accounts for certain fuel derivative instruments as cash flow hedges. All derivatives designated as hedges that meet certain requirements are granted hedge accounting treatment. The types of instruments the Company utilizes that qualify for special hedge accounting treatment typically include swaps, call options, collars (which consist of a purchased call option and a sold put option) and four-way collars (a collar with a higher strike sold call option and a lower strike purchased put option). Generally, utilizing hedge accounting, all periodic changes in fair value of the derivatives designated as hedges that are considered to be effective are recorded in AOCI until the underlying fuel is consumed and recorded in fuel expense. The Company is exposed to the risk that its hedges may not be effective in offsetting changes in the cost of fuel and that its hedges may not continue to qualify for hedge accounting. Hedge ineffectiveness results when the change in the fair value of the derivative instrument exceeds the change in the value of the Company's expected future cash outlay to purchase and consume fuel. To the extent that the periodic changes in the fair value of the derivatives are not effective, that ineffectiveness is classified as Nonoperating income (expense): Miscellaneous, net in the statements of consolidated operations.

Table of Contents

The Company also utilizes certain derivative instruments that are economic hedges but do not qualify for hedge accounting under U.S. GAAP. As with derivatives that qualify for hedge accounting, the purpose of these economic hedges is to mitigate the adverse financial impact of potential increases in the price of fuel. Currently, the only such economic hedges in the Company's hedging portfolio are three-way collars (a collar with a higher strike sold call option). The Company records changes in the fair value of three-way collars to Nonoperating income (expense): Miscellaneous, net in the statements of consolidated operations.

If the Company terminates a derivative prior to its contractual settlement date, then the cumulative gain or loss recognized in AOCI at the termination date remains in AOCI until the forecasted transaction occurs. In a situation where it becomes probable that a hedged forecasted transaction will not occur, any gains and/or losses that have been recorded to AOCI would be required to be immediately reclassified into earnings. All cash flows associated with purchasing and settling derivatives are classified as operating cash flows in the condensed statements of consolidated cash flows.

The Company records each derivative instrument as a derivative asset or liability (on a gross basis) in its consolidated balance sheets, and, accordingly, records any related collateral on a gross basis. The table below presents the fair value amounts of fuel derivative assets and liabilities and the location of amounts recognized in the Company's financial statements.

The Company's derivatives were reported in its consolidated balance sheets as follows (in millions):

Classification	Balance Sheet Location	June 30, 2014	December 31, 2013
<u>Derivatives designated as cash flow hedges</u>			
<i>Assets:</i>

Derivative Credit Risk and Fair Value

The Company is exposed to credit losses in the event of nonperformance by counterparties to its derivative instruments. While the Company records derivative instruments on a gross basis, the Company monitors its net derivative position with each counterparty to monitor credit risk. Based on the fair value of our fuel derivative instruments, our counterparties may require us to post collateral when the price of the underlying commodity decreases, and we may require our counterparties to provide us with collateral when the price of the underlying commodity increases. The Company did not post or hold collateral as of June 30, 2014 and December 31, 2013.

Table of Contents

We have master trading agreements with all of our fuel hedging counterparties that allow us to net our fuel hedge derivative positions. We have elected not to net the fair value positions recorded on our consolidated balance sheets. The following table shows the potential net fair value positions (including fuel derivatives and related collateral) had we elected to offset. The table reflects offset at the counterparty level (in millions):

	June 30, 2014	December 31, 2013

NOTE 8 - COMMITMENTS AND CONTINGENCIES

Edgar Filing: United Continental Holdings, Inc. - Form 10-Q

Commitments. As of June 30, 2014, United had firm commitments to purchase aircraft from The Boeing Company (Boeing), Embraer S.A. (Embraer) and Airbus S.A.S. (Airbus) presented in the table below:

Aircraft Type	Number of Firm Commitments (a)
Airbus A350-1000	35
Boeing 737-900ER	43
Boeing 737 MAX 9	100
Boeing 787-8/-9/-10	54
Embraer 175	26

(a) United also has options and purchase rights for additional aircraft.

Table of Contents

The aircraft listed in the table above are scheduled for delivery for the remainder of 2014 through 2025. In the remainder of 2014, United expects to take delivery of nine Boeing 737-900ER aircraft, one Boeing 787-8 aircraft, two Boeing 787-9 aircraft and 15 Embraer 175 aircraft.

The table below summarizes United's commitments as of June 30, 2014, which primarily relate to the acquisition of aircraft and related spare engines, aircraft improvements and include other commitments primarily to acquire information technology services and assets. The table below is adjusted to include the impact of the Company's July 2014 agreement with Boeing to convert seven Boeing 787-8 aircraft originally scheduled to be delivered between 2017 and 2018, to seven Boeing 787-10 aircraft scheduled to be delivered starting after 2018 and other scheduled adjustments.

	(in billions)
Last six months of 2014	\$ 1.7
2015	2.9
2016	1.6
2017	1.2
2018	2.1
After 2018	13.8
	\$ 23.3

Any incremental firm aircraft orders, including through the exercise of purchase options and purchase rights, will increase the total future capital commitments of the Company.

As of June 2014, United has arranged for EETC and bank debt financing for all 2014 aircraft deliveries other than seven Embraer 175 aircraft. In addition, United has secured backstop financing commitments from certain of its aircraft manufacturers for a limited number of its future aircraft deliveries, subject to certain customary conditions. Financing will be necessary to satisfy the Company's capital commitments for its firm order aircraft and other related capital expenditures. The Company can provide no assurance that any financing not already in place for aircraft and spare engine deliveries will be available to the Company on acceptable terms when necessary or at all. See Note 9 of this report for additional information on aircraft financing.

Guarantees and Off-Balance Sheet Financing

Guarantees. United is the guarantor of approximately \$1.6 billion in aggregate principal amount of tax-exempt special facilities revenue bonds and interest thereon. These bonds, issued by various airport municipalities, are payable solely from rentals paid under long-term agreements with the respective governing bodies. The leasing arrangements associated with \$1.3 billion of these obligations are accounted for as operating leases with the associated expense recorded on a straight-line basis resulting in ratable accrual of the lease obligation over the expected lease term. The leasing arrangements associated with \$272 million of these obligations are accounted for as capital leases. All of these bonds are due between 2015 and 2038.

In the Company's financing transactions that include loans, the Company typically agrees to reimburse lenders for any reduced returns with respect to the loans due to any change in capital requirements and, in the case of loans in which the interest rate is based on the London Interbank Offered Rate (LIBOR), for certain other increased costs that the lenders incur in carrying these loans as a result of any change in law, subject in most cases to obligations of the lenders to take certain limited steps to mitigate the requirement for, or the amount of, such increased costs. At June 30, 2014, the Company had \$1.9 billion of floating rate debt and \$246 million of fixed rate debt, with remaining terms of up to twelve years, that are subject to these increased cost provisions. In several financing transactions involving loans or leases from non-U.S. entities, with remaining terms of up to twelve years and an aggregate balance of \$2.1 billion, the Company bears the risk of any change in tax laws that would subject loan or lease payments thereunder to non-U.S. entities to withholding taxes, subject to customary exclusions.

Credit Facilities. As of June 30, 2014, United had the entire capacity of \$1.0 billion available under the revolving credit facility of the Company's Credit and Guaranty Agreement (the Credit Agreement). See Note 9 of this report for additional information.

Labor Negotiations. As of June 30, 2014, United had approximately 86,000 active employees, of whom approximately 80% were represented by various labor organizations. We are currently in the process of negotiating amended collective bargaining agreements with our employee groups without joint collective bargaining agreements, including our technicians and flight attendants.

Table of Contents**NOTE 9 - DEBT**

As of June 30, 2014, a substantial portion of our assets is pledged as collateral for our debt. These assets principally consist of aircraft, route authorities and loyalty program intangible assets. As of June 30, 2014, the Company was in compliance with its debt covenants.

4.5% Convertible Notes. During the second quarter of 2014, UAL used cash to purchase and retire \$28 million aggregate principal amount of its 4.5% Convertible Notes in market transactions. As of June 30, 2014, the outstanding balance is \$202 million.

6% Convertible Senior Notes. During the three months ended March 31, 2014, UAL issued approximately five million additional shares of UAL common stock in exchange for, or upon conversion of, \$46 million in aggregate principal amount of UAL's outstanding 6% convertible senior notes due 2029 held by the holders of these notes. As of June 30, 2014, the outstanding balance is \$58 million.

8% Notes Due 2024. UAL redeemed in cash at par value all \$400 million aggregate principal amount of its 8% Notes due 2024 on January 17, 2014.

4.5% Senior Limited-Subordination Convertible Notes. In June 2011, UAL repurchased at par value approximately \$570 million of the \$726 million outstanding principal amount of its 4.5% Notes with cash after notes were put to UAL by the noteholders. In the first quarter of 2014, holders of substantially all of the remaining \$156 million outstanding principal amount of the 4.5% Notes exercised their right to convert such notes into approximately five million shares of UAL common stock at a conversion rate of 30.6419 shares of UAL common stock per \$1,000 principal amount of 4.5% Notes.

2013 Credit and Guaranty Agreement. The Credit Agreement consists of a \$900 million term loan due April 1, 2019 and a \$1.0 billion revolving credit facility available for drawing until April 1, 2018. As of June 30, 2014, United had its entire capacity of \$1.0 billion available under the revolving credit facility of the Company's Credit Agreement. In March 2014, United amended the Credit Agreement to reduce the interest rate payable on the existing \$893 million term loan from LIBOR plus a margin of 3.0% per annum to LIBOR plus a margin of 2.75% per annum, subject to a 0.75% floor.

See Note 11 in the 2013 Annual Report for additional information on the terms of the Credit Agreement.

EETCs. In April 2014 and August 2013, United created separate EETC pass-through trusts, each of which issued pass-through certificates. The proceeds of the issuance of the pass-through certificates are used to purchase equipment notes issued by United and secured by its aircraft. The Company records the debt obligation upon issuance of the equipment notes rather than upon the initial issuance of the pass-through certificates. The pass-through certificates represent fractional undivided interests in the respective pass-through trusts and are not obligations of United. The payment obligations under the equipment notes are those of United. Proceeds received from the sale of pass-through certificates are initially held by a depository in escrow for the benefit of the certificate holders until United issues equipment notes to the trust, which purchases such notes with a portion of the escrowed funds. These escrowed funds are not guaranteed by United and are not reported as debt on our consolidated balance sheet because the proceeds held by the depository are not United's assets. United expects to receive all proceeds from these pass-through trusts by the end of 2014. Certain details of the pass-through trusts are as follows (in millions, except interest rate):

EETC Date	Class	Principal	Final expected distribution date	Stated interest rate	Total debt recorded as of June 30, 2014	Proceeds received from issuance of debt in the six months ended June 30, 2014	Remaining proceeds from issuance of debt to be received in future periods
April 2014	A	\$ 736	April 2026	4.0%	\$ 248	\$ 248	\$ 488
April 2014	B	213	April 2022	4.75%	72	72	141
August 2013	A	720	August 2025	4.3%	720	567	
August 2013	B	209	August 2021	5.375%	209	165	
		\$ 1,878			\$ 1,249	\$ 1,052	\$ 629

Table of Contents

The table below presents contractual principal payments at June 30, 2014 under then-outstanding long-term debt agreements in each of the next five calendar years (in millions):

	UAL	United
Last six months of 2014	\$ 518	\$ 518
2015	2,070	2,070
2016	1,114	1,114
2017	677	677
2018	1,201	1,201
After 2018	6,096	6,038
	\$ 11,676	\$ 11,618

NOTE 10 - SPECIAL CHARGES

For the three and six months ended June 30, special charges consisted of the following (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Costs associated with permanently grounding Embraer ERJ 135 aircraft	\$ 66	\$	\$ 66	\$
Severance and benefits	38		52	14
Impairment of assets held for disposal	32		33	
Integration-related costs	17	45	51	115
Losses on sale of assets and other special (gains) losses, net	16		19	(3)
Additional costs associated with the temporarily grounded Boeing 787 aircraft		7		18
Special charges	169	52	221	144
Venezuela local currency loss			21	
Income tax benefit			(1)	
Total operating and nonoperating special charges, net of income taxes	\$ 169	\$ 52	\$ 241	\$ 144

During the three months ended June 30, 2014, the Company recorded \$66 million for the permanent grounding of 21 of the Company's Embraer ERJ 135 regional aircraft under lease through 2018, which includes an accrual for remaining lease payments and an amount for maintenance return conditions. As a result of the current fuel prices, new Embraer 175 regional jet deliveries and impact of pilot shortages at regional carriers, the Company decided to permanently ground these 21 Embraer ERJ 135 aircraft. The Company continues to operate nine Embraer ERJ 135 aircraft and will assess the possibility of grounding those aircraft when the current capacity purchase contracts end in the fourth quarter of 2014.

During the three and six months ended June 30, 2014, the Company recorded \$38 million and \$52 million, respectively, related to reductions of management and front-line employees, including from Hopkins International Airport (Cleveland), as part of its cost savings initiatives. The Company reduced its average daily departures from Cleveland by over 60 percent during the second quarter. The Company is currently evaluating its options regarding its long-term contractual commitments at Cleveland. The capacity reductions at Cleveland may result in further special charges, which could be significant, related to our contractual commitments.

During the three and six months ended June 30, 2014, the Company recorded \$32 million and \$33 million, respectively, for charges related primarily to impairment of its flight equipment held for disposal associated with its Boeing 737-300 and 737-500 fleets.

Integration-related costs include compensation costs related to systems integration and training and relocation for employees.

Edgar Filing: United Continental Holdings, Inc. - Form 10-Q

The Company incurred losses on sales of aircraft and other assets and other special losses totaling \$16 million and \$19 million during the three and six months ended June 30, 2014, respectively.

During the three months ended March 31, 2014, the Company recorded \$21 million of losses as part of Nonoperating income (expense): Miscellaneous, net due to ongoing negotiations applicable to funds held in local Venezuelan currency. Approximately \$100 million of the Company's unrestricted cash balance was held as Venezuelan bolivars as of June 30, 2014.

During the six months ended June 30, 2013, the Company recorded \$14 million associated with a voluntary program offered by United in which certain flight attendants took an unpaid 13-month leave of absence. The flight attendants continue to receive

Table of Contents

medical benefits and other Company benefits while on leave under this program. Approximately 1,300 flight attendants opted to participate in the program. In addition, the Company recorded \$18 million associated with the temporary grounding of its Boeing 787 aircraft. The charges were comprised of aircraft depreciation expense and dedicated personnel costs that the Company incurred while the aircraft were grounded. Also, the Company recorded a \$5 million gain related to a contract termination and \$2 million in losses on the sale of assets.

Accruals

The accrual for severance and medical costs was \$82 million as of June 30, 2014, compared to \$38 million as of June 30, 2013. The severance-related accrual as of June 30, 2014 is expected to be paid through 2015.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Overview

United Continental Holdings, Inc. (together with its consolidated subsidiaries, UAL or the Company) is a holding company and its principal, wholly-owned subsidiary is United Airlines, Inc. (together with its consolidated subsidiaries, United). This Quarterly Report on Form 10-Q is a combined report of UAL and United including their respective consolidated financial statements. As UAL consolidates United for financial statement purposes, disclosures that relate to activities of United also apply to UAL, unless otherwise noted. United's operating revenues and operating expenses comprise nearly 100% of UAL's revenues and operating expenses. In addition, United comprises approximately the entire balance of UAL's assets, liabilities and operating cash flows. When appropriate, UAL and United are named specifically for their individual contractual obligations and related disclosures and any significant differences between the operations and results of UAL and United are separately disclosed and explained. We sometimes use the words we, our, us, and the Company in this report for disclosures that relate to all of UAL and United.

The Company transports people and cargo through its mainline operations, which utilize jet aircraft with at least 118 seats, and regional operations, which utilize smaller aircraft that are operated under contract by United Express carriers. The Company serves virtually every major market around the world, either directly or through participation in Star Alliance®, the world's largest airline alliance. The Company operates an average of more than 5,200 flights a day to 374 airports across six continents.

Second Quarter Financial Highlights

Second quarter 2014 net income was \$919 million, or \$2.34 diluted earnings per share, excluding \$169 million of special charges, and excluding \$46 million of mark-to-market gains recorded in Nonoperating expense from fuel hedges settling in future periods and adjusting for \$7 million of prior period gains recorded in Nonoperating expense on fuel contracts settled in the current period (combined, Economic Hedge Adjustments). Unadjusted second quarter 2014 net income was \$789 million, or \$2.01 diluted earnings per share.

Passenger revenue increased 3.6% to \$9.0 billion during the second quarter of 2014 as compared to the second quarter of 2013.

Second quarter 2014 aircraft fuel cost increased 1.1% year-over-year due mainly to a 2.3% increase in fuel prices, partially offset by a 1.2% decrease in fuel consumption.

Unrestricted liquidity was \$6.8 billion, including \$1.0 billion of undrawn commitments under the revolving credit facility of the Company's Credit and Guaranty Agreement (the Credit Agreement).

UAL's Board of Directors has authorized a share repurchase program to acquire up to \$1 billion of UAL's common stock. UAL may repurchase shares through the open market, privately negotiated transactions, block trades, or accelerated share repurchase transactions.

Edgar Filing: United Continental Holdings, Inc. - Form 10-Q

from time to time in accordance with applicable securities laws. UAL will repurchase shares of common stock subject to prevailing market conditions, and may discontinue such repurchases at any time. On July 24, 2014, UAL entered into agreements under which it will repurchase approximately \$200 million of shares of UAL common stock through an accelerated share repurchase program. The specific number of shares that UAL will ultimately repurchase under this accelerated share repurchase program will be determined based on a calculation period not to exceed approximately three months.

Second Quarter Operational Highlights

For the quarter ended June 30, 2014, United recorded a U.S. Department of Transportation on-time arrival rate of 75.9% and a system completion factor of 99.0%.

Consolidated traffic increased 0.6% and consolidated capacity decreased 0.1% during the second quarter of 2014 as compared to the second quarter of 2013. The Company's load factor for the second quarter of 2014 was 85.3%.

Table of Contents

The Company took delivery of 10 Boeing 737-900ER aircraft, one Boeing 787-8 aircraft and three Embraer 175 aircraft during the second quarter of 2014.

During the second quarter of 2014, the Company announced that it will be making changes to the MileagePlus loyalty program. Effective March 1, 2015, the MileagePlus program will be modified from the current model in which members earn redeemable miles based on distance traveled to one based on ticket price (including base fare and carrier imposed surcharges). Members will be able to earn between five and eleven miles per dollar spent based on their MileagePlus status. The updated program will enhance the rewards for customers who spend more with United and give them improved mileage-earning opportunities.

The Company announced that the dispatcher work group ratified a new joint collective bargaining agreement.

Outlook

In order to generate sustained profitability over the business cycle, the Company manages its capacity to balance with expected demand for travel. The Company expects full-year 2014 consolidated capacity to be between flat and up 1% year-over-year. The Company expects full year 2014 cost per available seat mile (CASM) excluding profit sharing, third-party business expense, fuel and special charges to increase 1% to 2% year-over-year. We are unable to project CASM including profit sharing, third-party business expense, fuel and special charges as the nature or amount of special charges are not determinable at this time.

United expanded its industry-leading global route network, launching nonstop flights from Houston to Munich; Newark to Santiago, Dominican Republic; and new seasonal service between Chicago and Edinburgh, Scotland, and from Washington D.C. to both Madrid and Nassau, Bahamas. The Company continued to develop its industry-leading Pacific gateway in San Francisco by launching service to Chengdu, China, and announcing service to Tokyo's Haneda airport. The Company also announced new service from Houston to Santiago, Chile, and announced new routes from Chicago to Belize City, Belize; Denver to Panama City, Panama; Houston to Punta Cana, Dominican Republic; and San Francisco to Kelowna, British Columbia. Should fuel prices increase significantly or should the U.S. or global economic growth outlook decline substantially, we would likely adjust our capacity plans to reflect the different operating environment.

RESULTS OF OPERATIONS

The following discussion provides an analysis of results of operations and reasons for material changes therein for the three months ended June 30, 2014 as compared to the corresponding period in 2013.

Second Quarter 2014 Compared to Second Quarter 2013

The Company recorded net income of \$789 million in the second quarter of 2014 as compared to net income of \$469 million in the second quarter of 2013. Excluding special charges and with Economic Hedge Adjustments, the Company had net income of \$919 million in the second quarter of 2014 as compared to net income of \$608 million in the second quarter of 2013. See Reconciliation of GAAP to Non-GAAP Financial Measures at the end of this item for additional information related to accounting principles generally accepted in the United States (GAAP) to Non-GAAP financial measures. We consider a key measure of our performance to be operating income, which was \$906 million for the second quarter of 2014, as compared to \$770 million for the second quarter of 2013. Significant components of our operating results for the three months ended June 30 are as follows (in millions, except percentage changes):

	2014	2013	Increase (Decrease)	% Increase (Decrease)
Operating revenue	\$ 10,329	\$ 10,001	\$ 328	3.3
Operating expense	9,423	9,231	192	2.1
Operating income	906	770	136	17.7
Nonoperating expense	(115)	(299)	(184)	(61.5)
Income tax expense	2	2		
Net income	\$ 789	\$ 469	\$ 320	68.2

NM - Not meaningful

Table of Contents

Certain consolidated statistical information for the Company's operations for the three months ended June 30 is as follows:

	2014	2013	Increase (Decrease)	% Increase (Decrease)
Passengers (thousands) (a)	35,837	35,952	(115)	(0.3)
Revenue passenger miles (RPMs) (millions) (b)	53,900	53,581	319	0.6
Available seat miles (ASMs) (millions) (c)	63,214	63,251	(37)	(0.1)
Passenger load factor (d)	85.3 %	84.7 %	0.6 pts.	N/A
Passenger revenue per available seat mile (PRASM) (cents)	14.21	13.70	0.51	3.7
Average yield per revenue passenger mile (cents) (e)	16.66	16.18	0.48	3.0
CASM (cents)	14.91	14.59	0.32	2.2
Average price per gallon of fuel, including fuel taxes	\$ 3.09	\$ 3.02	\$ 0.07	2.3
Fuel gallons consumed (millions)	1,004	1,016	(12)	(1.2)
Average full-time equivalent employees	82,000	85,200	(3,200)	(3.8)

(a) The number of revenue passengers measured by each flight segment flown.

(b) The number of scheduled miles flown by revenue passengers.

(c) The number of seats available for passengers multiplied by the number of scheduled miles those seats are flown.

(d) Revenue passenger miles divided by available seat miles.

(e) The average passenger revenue received for each revenue passenger mile flown.

Operating Revenue

The table below shows year-over-year comparisons by type of operating revenue for the three months ended June 30 (in millions, except for percentage changes):

	2014	2013	Increase (Decrease)	% Change
Passenger Mainline	\$ 7,148	\$ 6,829	\$ 319	4.7
Passenger Regional	1,833	1,839	(6)	(0.3)
Total passenger revenue	8,981	8,668	313	3.6
Cargo	232	236	(4)	(1.7)
Other operating revenue	1,116	1,097	19	1.7
	\$ 10,329	\$ 10,001	\$ 328	3.3

The table below presents selected passenger revenue and operating data, broken out by geographic region, expressed as second quarter year-over-year changes:

Domestic	Pacific	Atlantic	Latin	Total Mainline	Regional	Consolidated
----------	---------	----------	-------	-------------------	----------	--------------

Edgar Filing: United Continental Holdings, Inc. - Form 10-Q

Increase (decrease) from

2013 (a):

Passenger revenue (in millions)	\$ 208	\$ (3)	\$ 46	\$ 68	\$ 319	\$ (6)	\$ 313
Passenger revenue	6.3 %	(0.3) %	2.8 %	10.3 %	4.7 %	(0.3)%	3.6 %
Average fare per passenger	6.1 %	3.0 %	2.6 %	(1.7)%	3.5 %	2.8 %	3.9 %

Passenger load factor (points)	0.8	(1.4)	0.3	2.3	0.4	1.6	0.6

(a) See Item 6 of the Company's Annual Report on Form 10-K for the year ended December 31, 2013 for the definition of these statistics.

Consolidated passenger revenue in the second quarter of 2014 increased 3.6% as compared to the year-ago period due to an increase in consolidated yield of 3.0% year-over-year and an increase of 0.6% in traffic, offset by a reduction in capacity of 0.1% year-over-year.

Table of Contents

Cargo revenue decreased \$4 million, or 1.7%, in the second quarter of 2014 as compared to the year-ago period due to lower yield on freight, primarily in the Pacific region, partially offset by higher freight volumes in the Atlantic and Pacific regions and an improvement in mail revenue versus the year-ago period.

Other operating revenue in the second quarter of 2014 increased \$19 million, or 1.7%, as compared to the year-ago period due primarily to an increase in the sale of aircraft fuel to a third party and increases in ancillary revenue and contract services revenue.

Operating Expenses

The table below includes data related to the Company's operating expenses for the three months ended June 30 (in millions, except for percentage changes):

	2014	2013	Increase (Decrease)	% Change
Aircraft fuel	\$ 3,101	\$ 3,068	\$ 33	1.1
Salaries and related costs	2,187	2,175	12	0.6
Regional capacity purchase	591	628	(37)	(5.9)
Landing fees and other rent	567	507	60	11.8
Aircraft maintenance materials and outside repairs	471	480	(9)	(1.9)
Depreciation and amortization	417	425	(8)	(1.9)
Distribution expenses	346	347	(1)	(0.3)
Aircraft rent	222	235	(13)	(5.5)
Special charges	169	52	117	NM
Other operating expenses	1,352	1,314	38	2.9
	\$ 9,423	\$ 9,231	\$ 192	2.1

Aircraft fuel expense increased \$33 million, or 1.1%, year-over-year primarily due to a 2.3% increase in the average price per gallon of aircraft fuel, partially offset by a 1.2% decrease in fuel consumption in the second quarter of 2014 compared to the year-ago period. The table below presents the significant changes in aircraft fuel cost per gallon in the three month period ended June 30, 2014 as compared to the year-ago period:

	(In millions)			Average price per gallon		
	2014	2013	% Change	2014	2013	% Change
Total aircraft fuel purchase cost excluding fuel hedge impacts	\$ 3,100	\$ 3,059	1.3	\$ 3.09	\$ 3.01	2.7
Hedge losses reported in fuel expense	1	9	NM		0.01	NM
Fuel expense as reported	3,101	3,068	1.1	3.09	3.02	2.3
Cash received on settled hedges that do not qualify for hedge accounting (a)	5	5	NM	0.01	0.01	NM
Fuel expense including all gains (losses) from settled hedges	\$ 3,096	\$ 3,063	1.1	\$ 3.08	\$ 3.01	2.3
Total fuel consumption (gallons)	1,004	1,016	(1.2)			

(a) Includes ineffectiveness gains (losses) on settled hedges and gains (losses) on settled hedges that were not designated for hedge accounting. Ineffectiveness gains (losses) and gains (losses) on hedges that do not qualify for hedge accounting are recorded in Nonoperating income (expense): Miscellaneous, net.

Edgar Filing: United Continental Holdings, Inc. - Form 10-Q

Salaries and related costs increased \$12 million, or 0.6%, in the second quarter of 2014 as compared to the year-ago period primarily due to higher pay rates driven by new collective bargaining agreements, partially offset by lower pension and post-employment benefit costs.

Regional capacity purchase expense decreased \$37 million, or 5.9%, in the second quarter of 2014 as compared to the year-ago period primarily due to a transition from paying regional carriers for landing fees to paying airports directly. Landing fees paid directly to airports are charged to Landing fees and other rent while payments to regional carriers are recorded to Regional capacity purchase. As a result of this change, there has been a significant shift of expense out of Regional capacity purchase into Landing fees and other rent in the second quarter of 2014 versus the year-ago period. These benefits were partially offset by higher rates primarily due to annual rate escalations.

Table of Contents

Landing fees and other rent increased \$60 million, or 11.8%, in the second quarter of 2014 as compared to the year-ago period primarily due to a transition from paying regional carriers for landing fees to paying airports directly. Landing fees have also increased due to airport security services and modernization projects at certain airport locations.

Aircraft rent decreased \$13 million, or 5.5%, in the second quarter of 2014 as compared to the year-ago period primarily due to aircraft lease expirations and terminations of certain leases resulting from the Company's purchase of the leased aircraft.

Other operating expenses increased \$38 million, or 2.9%, in the second quarter of 2014 as compared to the year-ago period primarily due to an increase in aircraft fuel sold to a third party and increases in other personnel-related expenses and purchased services.

Details of the Company's special charges include the following for the three months ended June 30 (in millions):

	2014	2013
Costs associated with permanently grounding Embraer ERJ 135 aircraft	\$ 66	\$
Severance and benefits	38	
Impairment of assets held for disposal	32	
Integration-related costs	17	45
Losses on sale of assets and other special losses	16	
Additional costs associated with the temporarily grounded Boeing 787 aircraft		7
Special charges	\$ 169	\$ 52

See Note 10 to the financial statements included in Part I, Item 1 of this report for additional information.

Nonoperating Income (Expense). The following table illustrates the year-over-year dollar and percentage changes in the Company's nonoperating income (expense) for the three months ended June 30 (in millions, except for percentage changes):

	2014	2013	Increase (Decrease)	% Change
Interest expense	\$ (186)	\$ (194)	\$ (8)	(4.1)
Interest capitalized	13	12	1	8.3
Interest income	4	6	(2)	(33.3)
Miscellaneous, net	54	(123)	177	NM
Total	\$ (115)	\$ (299)	(184)	(61.5)

Interest expense decreased \$8 million, or 4.1%, in the second quarter of 2014, compared to the year-ago period primarily due to the Company's extinguishment of certain debt instruments and the refinancing of certain debt instruments at lower interest rates.

During the second quarter of 2014, Miscellaneous, net included gains of \$39 million from derivatives not qualifying for hedge accounting as compared to losses of \$81 million in the year-ago period. Second quarter 2014 Miscellaneous, net also reflects gains on investments and improvements in foreign currency gains/losses versus the year-ago period.

Income Taxes. Our effective tax rates are lower than the federal statutory rate of 35% primarily because of the impact of changes to existing valuation allowances. We continue to provide a valuation allowance for our deferred tax assets in excess of deferred tax liabilities because management has concluded that it is more likely than not that such deferred tax assets will ultimately not be realized. See Note 4 to the financial statements included in Part I, Item 1 of this report.

Table of Contents**First Six Months 2014 Compared to First Six Months 2013**

UAL recorded net income of \$180 million in the first six months of 2014 as compared to net income of \$52 million in the first six months of 2013. Excluding operating and nonoperating special charges and with Economic Hedge Adjustments, UAL had net income of \$430 million in the first six months of 2014 as compared to net income of \$250 million in the first six months of 2013. See *Reconciliation of GAAP to Non-GAAP Financial Measures* at the end of this item for additional information related to GAAP to Non-GAAP financial measures. We consider a key measure of our performance to be operating income, which was \$557 million for the first six months of 2014, as compared to \$506 million for the first six months of 2013. Significant components of our operating results for the first six months of 2014 are as follows (in millions, except percentage changes):

	2014	2013	Increase (Decrease)	% Increase (Decrease)
Operating Revenue	\$ 19,025	\$ 18,722	\$ 303	1.6
Operating Expense	18,468	18,216	252	1.4
Operating Income	557	506	51	10.1
Nonoperating Expense	(372)	(461)	(89)	(19.3)
Income Tax Expense (Benefit)	5	(7)	12	NM
Net Income	\$ 180	\$ 52	\$ 128	246.2

NM - Not meaningful

Certain consolidated statistical information for UAL's operations for the six months ended June 30 is as follows:

	2014	2013	Increase (Decrease)	% Increase (Decrease)
Passengers (thousands) (a)	67,737	68,307	(570)	(0.8)
RPMs (millions) (b)	100,283	100,125	158	0.2
ASMs (millions) (c)	120,430	120,623	(193)	(0.2)
Passenger load factor (d)	83.3 %	83.0 %	0.3 pts.	N/A
PRASM (cents)	13.59	13.45	0.14	1.0
Average yield per revenue passenger mile (cents) (e)	16.32	16.21	0.11	0.7
CASM (cents)	15.34	15.10	0.24	1.6
Average price per gallon of fuel, including fuel taxes	\$ 3.13	\$ 3.15	\$ (0.02)	(0.6)
Fuel gallons consumed (millions)	1,920	1,940	(20)	(1.0)
Average full-time equivalent employees	82,600	85,000	(2,400)	(2.8)

(a) The number of revenue passengers measured by each flight segment flown.

(b) The number of scheduled miles flown by revenue passengers.

(c) The number of seats available for passengers multiplied by the number of scheduled miles those seats are flown.

(d) Revenue passenger miles divided by available seat miles.

(e) The average passenger revenue received for each revenue passenger mile flown.

Operating Revenue

The table below shows year-over-year comparisons by type of operating revenue for the six months ended June 30 (in millions, except for percentage changes):

	2014	2013	Increase (Decrease)	% Change
Passenger Mainline	\$ 12,996	\$ 12,767	\$ 229	1.8
Passenger Regional	3,369	3,460	(91)	(2.6)
Total passenger revenue	16,365	16,227	138	0.9
Cargo	441	463	(22)	(4.8)
Other operating revenue	2,219	2,032	187	9.2
	\$ 19,025	\$ 18,722	\$ 303	1.6

Table of Contents

The table below presents selected passenger revenue and operating data, broken out by geographic region, expressed as year-over-year changes for the six months ended June 30, 2014 compared to the six months ended June 30, 2013:

	Domestic	Pacific	Atlantic	Latin	Total Mainline	Regional	Consolidated
Increase (decrease) from							
2013 (a):							
Passenger revenue (in millions)	\$ 215	\$ (60)	\$ 24	\$ 50	\$ 229	\$ (91)	\$ 138
Passenger revenue	3.5 %	(2.6) %	0.8 %	3.7 %	1.8 %	(2.6)%	0.9 %
Average fare per passenger	4.3 %	%	1.8 %	(4.3)%	1.8 %	(0.1)%	1.7 %
Yield	3.8 %	(2.5) %	1.4 %	(1.0)%	1.6 %	(2.5)%	0.7 %
PRASM	4.8 %	(4.4) %	%	1.4 %	1.6 %	(0.4)%	1.0 %
Average stage length	1.3 %	3.2 %	0.4 %	(2.8)%	1.5 %	3.2 %	2.5 %
Passengers	(0.8)%	(2.6) %	(0.9)%	8.4 %	%	(2.5)%	(0.8)%
RPMs (traffic)	(0.3)%	(0.1) %	(0.6)%	4.8 %	0.2 %	(0.1)%	0.2 %
ASMs (capacity)	(1.2)%	1.9 %	0.9 %	2.3 %	0.2 %	(2.2)%	(0.2)%
Passenger load factor (points)	0.8	(1.7)	(1.1)	2.0	0.1	1.8	0.3

(a) See Item 6 of the Company's Annual Report on Form 10-K for the year ended December 31, 2013 for the definition of these statistics.

Consolidated passenger revenue in the first six months of 2014 increased 0.9% as compared to the year-ago period due to an increase in consolidated yield of 0.7% year-over-year and an increase of 0.2% in traffic, offset by a reduction in capacity of 0.2% year-over year.

Cargo revenue decreased \$22 million, or 4.8%, in the first six months of 2014 as compared to the year-ago period due to lower yield on freight, primarily in the Pacific region, partially offset by higher freight volumes in the Atlantic and Pacific regions and an improvement in mail revenue versus the year-ago period.

Other operating revenue in the first six months of 2014 increased \$187 million, or 9.2%, as compared to the year-ago period due primarily to an increase in the sale of aircraft fuel to a third party and increases in MileagePlus, other ancillary and contract services revenues.

Operating Expenses

The table below includes data related to UAL's operating expenses for the six months ended June 30 (in millions, except for percentage changes):

	2014	2013	Increase (Decrease)	% Change
Aircraft fuel	\$ 6,018	\$ 6,118	\$ (100)	(1.6)
Salaries and related costs	4,340	4,302	38	0.9
Regional capacity purchase	1,150	1,216	(66)	(5.4)
Landing fees and other rent	1,139	1,004	135	13.4
Aircraft maintenance materials and outside repairs	929	918	11	1.2
Depreciation and amortization	826	833	(7)	(0.8)
Distribution expenses	664	675	(11)	(1.6)
Aircraft rent	446	475	(29)	(6.1)
Special charges	221	144	77	NM
Other operating expenses	2,735	2,531	204	8.1
	\$ 18,468	\$ 18,216	\$ 252	1.4

Table of Contents

Aircraft fuel expense decreased \$100 million, or 1.6%, year-over-year primarily due to a 0.6% decrease in the average price per gallon of aircraft fuel and a 1.0% decrease in fuel consumption in the first six months of 2014 compared to the year-ago period. The table below presents the significant changes in aircraft fuel cost per gallon in the six months ended June 30, 2014 as compared to the year-ago period.

	(In millions)			Average price per gallon		
	2014	2013	% Change	2014	2013	% Change
Total aircraft fuel purchase cost excluding fuel hedge impacts	\$ 6,014	\$ 6,100	(1.4)	\$ 3.13	\$ 3.14	(0.3)
Hedge losses reported in fuel expense	4	18	NM		0.01	NM
Fuel expense as reported	6,018	6,118	(1.6)	3.13	3.15	(0.6)
Cash received on settled hedges that do not qualify for hedge accounting (a)	12	22	NM		0.01	NM
Fuel expense including all gains (losses) from settled hedges	\$ 6,006	\$ 6,096	(1.5)	\$ 3.13	\$ 3.14	(0.3)
Total fuel consumption (gallons)	1,920	1,940	(1.0)			

(a) Includes ineffectiveness gains (losses) on settled hedges and gains (losses) on settled hedges that were not designated for hedge accounting. Ineffectiveness gains (losses) and gains (losses) on hedges that do not qualify for hedge accounting are recorded in Nonoperating income (expense): Miscellaneous, net.

Salaries and related costs increased \$38 million, or 0.9%, in the first six months of 2014 as compared to the year-ago period primarily due to higher pay rates driven by new collective bargaining agreements, partially offset by lower pension and post-employment benefit costs.

Regional capacity purchase expense decreased \$66 million, or 5.4%, in the first six months of 2014 as compared to the year-ago period primarily due to a transition from paying regional carriers for landing fees to paying airports directly. Landing fees paid directly to airports are charged to Landing fees and other rent while payments to regional carriers are recorded to Regional capacity purchase. As a result of this change, there has been a significant shift of expense out of Regional capacity purchase into Landing fees and other rent in the first six months of 2014 versus the year-ago period. Regional capacity expense also decreased due to a significant number of weather-driven flight cancellations in the first quarter of 2014. These benefits were partially offset by higher rates primarily due to annual rate escalations and higher aircraft ownership expenses related to an increase in the number of aircraft flying under capacity purchase agreements versus the year-ago period.

Landing fees and other rent increased \$135 million, or 13.4%, in the first six months of 2014 as compared to the year-ago period primarily due to a transition from paying regional carriers for landing fees to paying airports directly. Landing fees have also increased due to airport security services and modernization projects at certain airport locations.

Distribution expenses decreased \$11 million, or 1.6%, in the first six months of 2014 as compared to the year-ago period primarily due to reduced fees with our online ticket agents and reduced global distribution fees paid, offset by higher credit card discount fees driven by higher revenue volume.

Aircraft rent decreased \$29 million, or 6.1%, in the first six months of 2014 as compared to the year-ago period primarily due to aircraft lease expirations and terminations of certain leases resulting from the Company's purchase of the leased aircraft.

Other operating expenses increased \$204 million, or 8.1%, in the first six months of 2014 as compared to the year-ago period primarily due to an increase in aircraft fuel sold to a third party and increases in advertising expenses, other personnel-related expenses and purchased services.

Details of UAL's special charges include the following for the six months ended June 30 (in millions):

2014 2013

Edgar Filing: United Continental Holdings, Inc. - Form 10-Q

Costs associated with permanently grounding Embraer ERJ 135 aircraft	\$ 66	\$
Severance and benefits	52	14
Impairment of assets held for disposal	33	
Integration-related costs	51	115
Losses on sale of assets and other special (gains) losses, net	19	(3)
Additional costs associated with the temporarily grounded Boeing 787 aircraft		18
Special charges	\$ 221	\$ 144

See Note 10 to the financial statements included in Part I, Item 1 of this report for additional information.

Table of Contents

Nonoperating Income (Expense). The following table illustrates the year-over-year dollar and percentage changes in UAL's nonoperating income (expense) for the six months ended June 30 (in millions, except for percentage changes):

	2014	2013	Increase (Decrease)	% Change
Interest expense	\$ (373)	\$ (395)	\$ (22)	(5.6)
Interest capitalized	27	23	4	17.4
Interest income	9	11	(2)	(18.2)
Miscellaneous, net	(35)	(100)	(65)	(65.0)
Total	\$ (372)	\$ (461)	(89)	(19.3)

Interest expense decreased \$22 million, or 5.6%, in the first six months of 2014, compared to the year-ago period primarily due to the Company's extinguishment of certain debt instruments and the refinancing of certain debt instruments at lower interest rates.

Miscellaneous, net improved by \$65 million in the first six months of 2014 due primarily to improvements in fuel hedge derivatives results, gains on investments and improvements in foreign currency translation results, partially offset by \$21 million of losses due to the recent exchange rate changes implemented in Venezuela applicable to funds held in local currency.

Income Taxes. Our effective tax rates are lower than the federal statutory rate of 35% primarily because of the impact of changes to existing valuation allowances. We continue to provide a valuation allowance for our deferred tax assets in excess of deferred tax liabilities because management has concluded that it is more likely than not that such deferred tax assets will ultimately not be realized. See Note 4 to the financial statements contained in Part I, Item 1 of this report for additional information.

LIQUIDITY AND CAPITAL RESOURCES**Current Liquidity**

As of June 30, 2014, the Company had \$5.8 billion in unrestricted cash, cash equivalents and short-term investments, as compared to \$5.1 billion at December 31, 2013. At June 30, 2014, the Company also had \$351 million of restricted cash and cash equivalents, which is primarily collateral for performance bonds, letters of credit, estimated future workers' compensation claims and credit card processing agreements. As of June 30, 2014, the Company had its entire commitment capacity of \$1.0 billion under the revolving credit facility of the Company's Credit Agreement available for letters of credit or borrowings.

Approximately \$100 million of the Company's unrestricted cash balance was held as Venezuelan bolivars as of June 30, 2014.

As is the case with many of our principal competitors, we have a high proportion of debt compared to capital. We have a significant amount of fixed obligations, including debt, aircraft leases and financings, leases of airport property and other facilities, and pension funding obligations. At June 30, 2014, the Company had approximately \$12.3 billion of debt and capital lease obligations, including \$1.3 billion that will become due in the next 12 months. In addition, we have substantial non-cancelable commitments for capital expenditures, including the acquisition of new aircraft and related spare engines.

The Company will continue to evaluate opportunities to repurchase its debt in open market transactions to reduce its indebtedness and the amount of interest paid on its indebtedness.

As of June 30, 2014, United had firm commitments and options to purchase aircraft from The Boeing Company (Boeing), Embraer S.A. (Embraer) and Airbus S.A.S. (Airbus) presented in the table below:

Aircraft Type	Number of Firm Commitments (a)
---------------	-----------------------------------

Edgar Filing: United Continental Holdings, Inc. - Form 10-Q

Airbus A350-1000	35
Boeing 737-900ER	43
Boeing 737 MAX 9	100
Boeing 787-8/-9/-10	54
Embraer 175	26

(a) United also has options and purchase rights for additional aircraft.

Table of Contents

The aircraft listed in the table above are scheduled for delivery for the remainder of 2014 through 2025. In the remainder of 2014, United expects to take delivery of nine Boeing 737-900ER aircraft, one Boeing 787-8 aircraft, two Boeing 787-9 aircraft and 15 Embraer 175 aircraft.

As of June 2014, United has arranged for EETC and bank debt financing for all 2014 aircraft deliveries except for seven Embraer 175 aircraft. In addition, United has secured backstop financing commitments from certain of its aircraft manufacturers for a limited number of its future aircraft deliveries, subject to certain customary conditions. Financing will be necessary to satisfy the Company's capital commitments for its firm order aircraft and other related capital expenditures. The Company can provide no assurance that any financing not already in place for aircraft and spare engine deliveries will be available to the Company on acceptable terms when necessary or at all. See Note 9 to the financial statements included in Part I, Item 1 of this report for additional information on aircraft financing.

As of June 30, 2014, adjusted to include the impact of the Company's July 2014 agreement with Boeing to convert seven Boeing 787-8 aircraft originally scheduled to be delivered between 2017 and 2018, to seven Boeing 787-10 aircraft scheduled to be delivered starting after 2018 and other scheduled adjustments, UAL and United have total capital commitments primarily related to the acquisition of aircraft and related spare engines, aircraft improvements and acquisition of information technology services and assets of approximately \$23.3 billion, of which approximately \$1.7 billion, \$2.9 billion, \$1.6 billion, \$1.2 billion, \$2.1 billion and \$13.8 billion are due in the last six months of 2014 and for the full year for 2015, 2016, 2017, 2018 and thereafter, respectively.

Any incremental firm aircraft orders, including through the exercise of purchase options and purchase rights, will increase the total future capital commitments of the Company.

As of June 30, 2014, a substantial portion of the Company's assets, principally aircraft, route authorities and certain other intangible assets, were pledged under various loan and other agreements. We must sustain our profitability and/or access the capital markets to meet our significant long-term debt and capital lease obligations and future commitments for capital expenditures, including the acquisition of aircraft and related spare engines.

Credit Ratings. As of the filing date of this report, UAL and United had the following corporate credit ratings:

	S&P	Moody's	Fitch
UAL	B	B2	B
United	B	*	B

* The credit agency does not issue corporate credit ratings for subsidiary entities.

These credit ratings are below investment grade levels. Downgrades from these rating levels, among other things, could restrict the availability or increase the cost of future financing for the Company.

Sources and Uses of Cash

Operating Activities. Cash flow provided by operations for the six months ended June 30, 2014 was \$2.2 billion compared to \$1.5 billion in the same period in 2013. The increase is primarily attributable to an increase in operating income and advanced ticket sales, partially offset by an increase in other working capital items.

Investing Activities. Capital expenditures were \$953 million and \$821 million in the six months ended June 30, 2014 and 2013, respectively. Capital expenditures for the six months ended June 30, 2014 were primarily attributable to the purchase of aircraft, facility and fleet-related costs.

In addition to capital expenditures during the six months ended June 30, 2014, we acquired 27 aircraft through the issuance of debt. See Financing Activities below for additional information.

Financing Activities. During the six months ended June 30, 2014, the Company made debt and capital lease payments of \$1.0 billion.

During the second quarter of 2014, UAL used cash to purchase and retire \$28 million aggregate principal amount of its 4.5% Convertible Notes due 2015 in market transactions. As of June 30, 2014, the outstanding balance was \$202 million.

Edgar Filing: United Continental Holdings, Inc. - Form 10-Q

During the six months ended June 30, 2014, UAL issued approximately five million additional shares of UAL common stock in exchange for, or upon conversion of, \$46 million in aggregate principal amount of UAL's outstanding 6% convertible senior notes due 2029 held by the holders of these notes.

Table of Contents

UAL redeemed in cash at par value all \$400 million aggregate principal amount of its 8% Notes due 2024 on January 17, 2014.

On January 10, 2014, UAL called the 4.5% Senior Limited-Subordination Convertible Notes due 2021 (the 4.5% Notes) that remained outstanding for redemption on February 10, 2014. In the first quarter of 2014, holders of substantially all of the remaining \$156 million outstanding principal amount of the 4.5% Notes exercised their right to convert such notes into approximately five million shares of UAL common stock at a conversion rate of 30.6419 shares of UAL common stock per \$1,000 principal amount of 4.5% Notes.

The Company's Credit Agreement consists of a \$900 million term loan due April 1, 2019 and a \$1.0 billion revolving credit facility available for drawing until April 1, 2018. As of June 30, 2014, United had its entire capacity of \$1.0 billion available under the revolving credit facility of the Company's Credit Agreement. The obligations of United under the Credit Agreement are secured by liens on certain international route authorities between certain specified cities, certain take-off and landing rights and related assets of United. In March 2014, United amended the Credit Agreement to reduce the interest rate payable on the existing \$893 million term loan from LIBOR plus a margin of 3.0% per annum to LIBOR plus a margin of 2.75% per annum, subject to a 0.75% floor. Certain covenants in the Credit Agreement and in the Company's indentures are summarized in Note 11 of the 2013 Annual Report.

Share Repurchase Program. UAL's Board of Directors has authorized a share repurchase program to acquire up to \$1 billion of UAL's common stock. UAL may repurchase shares through the open market, privately negotiated transactions, block trades, or accelerated share repurchase transactions from time to time in accordance with applicable securities laws. UAL will repurchase shares of common stock subject to prevailing market conditions, and may discontinue such repurchases at any time. On July 24, 2014, UAL entered into agreements under which it will repurchase approximately \$200 million of shares of UAL common stock through an accelerated share repurchase program. The specific number of shares that UAL will ultimately repurchase under this accelerated share repurchase program will be determined based on a calculation period not to exceed approximately three months.

EETCs. In April 2014 and August 2013, United created separate EETC pass-through trusts, each of which issued pass-through certificates. The proceeds of the issuance of the pass-through certificates are used to purchase equipment notes issued by United and secured by its aircraft. The Company records the debt obligation upon issuance of the equipment notes rather than upon the initial issuance of the pass-through certificates. The pass-through certificates represent fractional undivided interests in the respective pass-through trusts and are not obligations of United. The payment obligations under the equipment notes are those of United. Proceeds received from the sale of pass-through certificates are initially held by a depository in escrow for the benefit of the certificate holders until United issues equipment notes to the trust, which purchases such notes with a portion of the escrowed funds. These escrowed funds are not guaranteed by United and are not reported as debt on our consolidated balance sheet because the proceeds held by the depository are not United's assets. United expects to receive all proceeds from these pass-through trusts by the end of 2014. Certain details of the pass-through trusts are as follows (in millions, except interest rate):

EETC Date	Class	Principal	Final expected distribution date	Stated interest rate	Total debt recorded as of June 30, 2014	Proceeds received from issuance of debt in the six months ended June 30, 2014	Remaining proceeds from issuance of debt to be received in future periods
April 2014	A	\$ 736	April 2026	4.0%	\$ 248	\$ 248	\$ 488
April 2014	B	213	April 2022	4.75%	72	72	141
August 2013	A	720	August 2025	4.3%	720	567	
August 2013	B	209	August 2021	5.375%	209	165	
		\$ 1,878			\$ 1,249	\$ 1,052	\$ 629

Commitments, Contingencies and Liquidity Matters

As described in the 2013 Annual Report, the Company's liquidity may be adversely impacted by a variety of factors, including, but not limited to, obligations associated with fuel hedge settlements and related collateral requirements, pension funding obligations, reserve requirements associated with credit card processing agreements, guarantees, commitments and contingencies. See the 2013 Annual Report and Notes 5, 7, 8 and 9 to the financial statements contained in Part I, Item 1 of this report for additional information.

RECONCILIATION OF GAAP TO NON-GAAP FINANCIAL MEASURES

The Company evaluates its financial performance utilizing various GAAP and Non-GAAP financial measures, including net income/loss and net earnings/loss per share. The Non-GAAP financial measures in this report are presented because they provide

Table of Contents

management and investors the ability to measure and monitor the Company's performance on a consistent basis. The Company believes that adjusting for operating and nonoperating special charges is useful to investors because they are nonrecurring charges not indicative of UAL's ongoing performance. In addition, the Company believes that reflecting Economic Hedge Adjustments is useful because the adjustments allow investors to better understand the cash impact of settled hedges in a given period. Reconciliations of net income and diluted earnings per share to the Non-GAAP financial measures of net income and diluted earnings per share, excluding operating and nonoperating special charges and reflecting Economic Hedge Adjustments, for the three and six months ended June 30 are as follows in the tables below (in millions, except per share amounts):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Net income - GAAP	\$ 789	\$ 469	\$ 180	\$ 52
Operating and nonoperating special charges, net (a)	169	52	241	144
Mark-to-market (gains) losses from fuel hedges settling in future periods	(46)	62	(33)	23
Prior period gains on fuel contracts settled in the current period	7	25	42	31
Net income excluding operating and nonoperating special charges, net and reflecting Economic Hedge Adjustments - Non-GAAP	\$ 919	\$ 608	\$ 430	\$ 250

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Diluted earnings per share - GAAP	\$ 2.01	\$ 1.21	\$ 0.47	\$ 0.15

CRITICAL ACCOUNTING POLICIES

See Critical Accounting Policies in Management's Discussion and Analysis of Financial Condition and Results of Operations in the 2013 Annual Report for a discussion of the Company's critical accounting policies. See Note 1 to the financial statements included in Part I, Item 1 of this report for a discussion of changes in accounting for revenue for the Company's loyalty program.

FORWARD-LOOKING INFORMATION

Certain statements throughout Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this report are forward-looking and thus reflect our current expectations and beliefs with respect to certain current and future events and financial performance. Such forward-looking statements are and will be subject to many risks and uncertainties relating to our operations and business environment that may cause actual results to differ materially from any future results expressed or implied in such forward-looking statements. Words such as expects, will, plans, anticipates, indicates, believes, forecast, guidance, outlook and similar expressions are intended to identify forward-looking statements.

Additionally, forward-looking statements include statements that do not relate solely to historical facts, such as statements which identify uncertainties or trends, discuss the possible future effects of current known trends or uncertainties, or which

Table of Contents

indicate that the future effects of known trends or uncertainties cannot be predicted, guaranteed or assured. All forward-looking statements in this report are based upon information available to us on the date of this report. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, changed circumstances or otherwise, except as required by applicable law.

The Company's actual results could differ materially from these forward-looking statements due to numerous factors including, without limitation, the following: its ability to comply with the terms of its various financing arrangements; the costs and availability of financing; its ability to maintain adequate liquidity; its ability to execute its operational plans and revenue-generating initiatives, including optimizing its revenue; its ability to control its costs, including realizing benefits from its resource optimization efforts, cost reduction initiatives and fleet replacement programs; its ability to utilize its net operating losses; its ability to attract and retain customers; demand for transportation in the markets in which it operates; an outbreak of a disease that affects travel demand or travel behavior; demand for travel and the impact that global economic conditions have on customer travel patterns; excessive taxation and the inability to offset future taxable income; general economic conditions (including interest rates, foreign currency exchange rates, investment or credit market conditions, crude oil prices, costs of aircraft fuel and energy refining capacity in relevant markets); economic and political instability and other risks of doing business globally; its ability to cost-effectively hedge against increases in the price of aircraft fuel; any potential realized or unrealized gains or losses related to fuel or currency hedging programs; the effects of any hostilities, act of war or terrorist attack; the ability of other air carriers with whom the Company has alliances or partnerships to provide the services contemplated by the respective arrangements with such carriers; disruptions to its regional network; the costs and availability of aviation and other insurance; industry consolidation or changes in airline alliances; competitive pressures on pricing and on demand; its capacity decisions and the capacity decisions of its competitors; U.S. or foreign governmental legislation, regulation and other actions (including open skies agreements and environmental regulations); labor costs; its ability to maintain satisfactory labor relations and the results of the collective bargaining agreement process with its union groups; any disruptions to operations due to any potential actions by its labor groups; weather conditions; the possibility that expected merger synergies will not be realized or will not be realized within the expected time period; and other risks and uncertainties set forth under Part I, Item 1A., Risk Factors of the 2013 Annual Report and Part II, Item 1A., Risk Factors of this report, as well as other risks and uncertainties set forth from time to time in the reports the Company files with the U.S. Securities and Exchange Commission (the "SEC").

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

There have been no material changes in market risk from the information provided in Part II, Item 7A. Quantitative and Qualitative Disclosures About Market Risk in our 2013 Annual Report except as follows:

Aircraft Fuel. As of June 30, 2014, the Company had hedged approximately 21%, 19% and less than 1% of its projected fuel requirements (416 million gallons, 742 million gallons and 35 million gallons, respectively) for the remainder of 2014, 2015 and 2016, respectively, with commonly used financial hedge instruments based on aircraft fuel or closely related commodities, such as diesel fuel and crude oil. As of June 30, 2014, the Company had fuel hedges expiring through March 2016.

At June 30, 2014, fuel derivatives were in a net asset position of \$116 million. See Note 7 to the financial statements included in Part I, Item 1 of this report for additional information related to fuel hedges.

ITEM 4. CONTROLS AND PROCEDURES.***Evaluation of Disclosure Control and Procedures***

The Company maintains controls and procedures that are designed to ensure that information required to be disclosed in the reports filed or submitted to the SEC is recorded, processed, summarized and reported, within the time periods specified by the SEC's rules and forms, and is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. The Company's management, including the Chief Executive Officer and Chief Financial Officer, performed an evaluation to conclude with reasonable assurance that UAL's and United's disclosure controls and procedures were designed and operating effectively to report the information each company is required to disclose in the reports they file with the SEC on a timely basis. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer of UAL and United have concluded that as of June 30, 2014, disclosure controls and procedures of each of UAL and United were effective.

Changes in Internal Control over Financial Reporting during the Quarter Ended June 30, 2014

Edgar Filing: United Continental Holdings, Inc. - Form 10-Q

During the three months ended June 30, 2014, there were no changes in UAL's or United's internal control over financial reporting that materially affected, or are reasonably likely to materially affect, their internal control over financial reporting (as

Table of Contents

defined in rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934) other than those internal controls surrounding the Company's use of equivalent ticket value less fulfillment discount used as the basis for the estimated selling price of miles as discussed in Note 1 to the financial statements included in Part I, Item I of this report.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

See Part I, Item 3., Legal Proceedings of the 2013 Annual Report for a description of legal proceedings.

ITEM 1A. RISK FACTORS.

See Part I, Item 1A., Risk Factors, of the 2013 Annual Report and Part II, Item 1A., Risk Factors of the Company's Form 10-Q for the quarter ended March 31, 2014 (the First Quarter 2014 Form 10-Q) for a detailed discussion of the risk factors affecting UAL and United. The disclosure below includes updates to certain risk factor disclosures included in the 2013 Annual Report, which are in addition to, and not in lieu of, those disclosures contained in the 2013 Annual Report and the First Quarter 2014 Form 10-Q.

Increases in insurance costs or reductions in insurance coverage may materially and adversely impact the Company's results of operations and financial condition.

The Company could be exposed to significant liability or loss if its property or operations were to be affected by a natural catastrophe or other event, including aircraft accidents. If the Company is unable to obtain sufficient insurance (including but not limited to aviation hull and liability insurance, workers' compensation, and property and business interruption coverage) to cover such liabilities or losses, whether due to insurance market conditions or otherwise, its results of operations and financial condition could be materially and adversely affected.

Following the terrorist attacks on September 11, 2001, the Company's insurance costs increased significantly and the availability of third-party war risk (terrorism) insurance decreased significantly. From September 2001 through May 2014, the Company obtained third-party war risk (terrorism) insurance through a Federal Aviation Administration (the FAA)-administered program. In anticipation of the government discontinuing this program, effective May 2014, the Company terminated its FAA-administered insurance and returned to the commercial insurance markets to obtain third-party war risk (terrorism) insurance. If the Company is unable in the future to obtain third-party war risk (terrorism) insurance with acceptable terms, or if the coverage obtained is insufficient relative to actual liability or losses that the Company experiences, its results of operations and financial condition could be materially and adversely affected.
