NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(1) Overview

Headquartered in West Warwick, Rhode Island, Astro-Med Inc. designs, develops, manufactures and distributes a broad range of specialty printers and data acquisition and analysis systems. Our products are distributed through our own sales force and authorized dealers in the United States. We also sell to customers outside of the United States primarily through our Company offices in Canada, Europe and Southeast Asia as well as with independent dealers and representatives. Astro-Med, Inc. products are sold under the brand names Astro-Med[®] Test & Measurement and QuickLabel[®] Systems and are employed around the world in a wide range of aerospace, apparel, automotive, avionics, chemical, computer peripherals, communications, distribution, food and beverage, general manufacturing, packaging and transportation applications.

Unless otherwise indicated, references to Astro-Med, the Company, we, our, and us in this Quarterly Report on Form 10-Q refer to Astro-Med, Inc. and its consolidated subsidiaries.

(2) Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission, and reflect all adjustments consisting of normal recurring adjustments which, in the opinion of management, are necessary for a fair presentation of the results of the interim periods included herein. These financial statements do not include all disclosures associated with annual financial statements and, accordingly, should be read in conjunction with footnotes contained in the Company's Annual Report on Form 10-K for the fiscal year ended January 31, 2015.

Results of operations for the interim periods presented herein are not necessarily indicative of the results that may be expected for the full year.

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported and disclosed in the condensed consolidated financial statements and accompanying notes. Some of the more significant estimates relate to the allowances for doubtful accounts and credits, inventory valuation, impairment of long-lived assets and goodwill, income taxes, share-based compensation, accrued expenses and warranty reserves. Management's estimates are based on the facts and circumstances available at the time estimates are made, past historical experience, risk of loss, general economic conditions and trends, and management's assessments of the probable future outcome of these matters. Consequently, actual results could differ from those estimates.

Certain amounts in prior year's financial statements have been reclassified to conform to the current year's presentation.

(3) Principles of Consolidation

The accompanying condensed consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All significant intercompany accounts and transactions are eliminated in consolidation.

(4) Net Income Per Common Share

Basic net income per share is calculated by dividing net income by the weighted average number of shares outstanding during the period. Diluted net income per share is calculated by dividing net income by the weighted average number of shares and, if dilutive, common equivalent shares for stock options and restricted stock units outstanding during the period. A reconciliation of the shares used in calculating basic and diluted net income per share is as follows:

	Three Months Ended	
	May 2, 2015	May 3, 2014
Weighted Average Common Shares Outstanding Basic	7,280,246	7,600,780
Effect of Dilutive Options and Restricted Stock Units	173,936	247,520
Weighted Average Common Shares Outstanding Diluted	7,454,182	7,848,300

For the three months ended May 2, 2015 and May 3, 2014 the diluted per share amounts do not reflect common equivalent shares outstanding of 76,200 and 75,600, respectively, because their effect would have been anti-dilutive, as the exercise price was greater than the average market price of the underlying stock during the period presented.

(5) Intangible Assets

Intangible assets are as follows:

	May 2, 2015			January 31, 2015		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
(\$ In thousands)

Intangible assets, net	\$ 3,400	\$ (791)	\$ 2,609	\$ 3,400	\$ (702)	\$ 2,698

There were no impairments to intangible assets during the periods ended May 2, 2015 and May 3, 2014. Amortization expense of \$89,000 and \$175,000 in regards to the above acquired intangibles has been included in the condensed consolidated statements of income for the periods ended May 2, 2015 and May 3, 2014, respectively.

Estimated amortization expense for the next five years is as follows:

Table of Contents**(6) Share-Based Compensation**

Astro-Med has one equity incentive plan (the Plan) under which incentive stock options, non-qualified stock options, restricted stock units (RSUs), restricted stock awards (RSAs) and other equity based awards may be granted to directors, officers and certain employees. An aggregate of 1,000,000 shares were authorized for awards under the Plan. At May 2, 2015, 124,302 shares were available for grant under the Plan. Options granted to employees vest over four years. The exercise price of each stock option will be established at the discretion of the Compensation Committee; however, any incentive stock options granted must be at an exercise price of not less than fair market value at the date of grant. In fiscal year 2013, a portion of the Company's executive's long-term incentive compensation was awarded in the form of RSUs (2013 RSUs). The 2013 RSUs were earned based on the Company achieving specific thresholds of net sales and annual operating income as established under the fiscal 2013 Domestic Management Bonus Plan and vested fifty percent on the first anniversary of the grant date and fifty percent on the second anniversary of the grant date provided that the grantee was employed on each vesting date by Astro-Med or an affiliate company. All such 2013 RSUs were earned and vested as of March 2014. In April 2013, the Company granted options and RSUs to officers (2014 RSUs). Each 2014 RSU will be earned and vest as follows: twenty-five percent of the 2014 RSU vests on the third anniversary of the grant date, fifty percent of the 2014 RSU vests upon the Company achieving its cumulative budgeted net sales target for fiscal years 2014 through 2016 (the Measurement Period), and twenty-five percent of the total 2014 RSU vests upon the Company's achieving a target average annual ORONA (operating income return on net assets as calculated under the Domestic Management Bonus Plan) for the Measurement Period. The grantee may not sell, transfer or otherwise dispose of more than fifty percent of the common stock issued upon vesting of the RSU until the first anniversary of the vesting date. On February 1, 2014, the Company accelerated the vesting of 4,166 of the RSUs held by Everett Pizzuti in connection with his retirement. None of the remaining 2014 RSUs, have vested as of May 2, 2015.

The Plan provides for an automatic annual grant of ten-year options to purchase 5,000 shares of stock to each non-employee director upon the adjournment of each shareholders' meeting. Each such option is exercisable at the fair market value as of the grant date and vests immediately prior to the next succeeding shareholders' meeting. In addition to the automatic option grant under Plan, the Company has a Non-Employee Director Annual Compensation Program (the Program) which provides that each non-employee director is entitled to an annual cash retainer of \$7,000 (the Annual Cash Retainer), plus \$500 for each Board and committee meeting attended. In addition, effective August 1, 2014, the Chairman of the Board also receives an annual retainer of \$6,000 and the Chair of the Audit Committee and Compensation Committee each receive an annual retainer of \$4,000 each (Chair Retainer). The non-employee director may elect for any fiscal year to receive all or a portion of the Annual Cash Retainer and/or Chair Retainer (collectively the Cash Retainer) in the form of common stock of the Company, which will be issued under the Plan. If a non-employee director elects to receive all or a portion of the Cash Retainer in the form of common stock, such shares shall be issued in four quarterly installments on the first day of each fiscal quarter, and the number of shares of common stock to be issued shall be based on the fair market value of such common stock on the date such installment is payable. The common stock received in lieu of such Cash Retainer will be fully vested. However, a non-employee director who receives common stock in lieu of all or a portion of the Cash Retainer may not sell, transfer, assign, pledge or otherwise encumber the common stock prior to the first anniversary of the date on which such shares were issuable. In the event of the death or disability of a nonemployee director, or a change in control of the Company, any shares of common stock issued in lieu of such Cash Retainer, shall no longer be subject to such restrictions on transfer.

In addition, under the Program, each non-employee director receives RSAs with a value equal to \$20,000 (the Equity Retainer) upon adjournment of each annual shareholders meeting. If a non-employee director is first appointed or elected to the Board of Directors effective on a date other than at the annual shareholders meeting, on the date of such appointment or election, the director shall receive a pro rata award of restricted common stock having a value based

on the number of days remaining until the next annual meeting. The Equity Retainer will vest on the earlier of 12 months after the grant date or the date immediately prior to the next annual meeting of the shareholders following the meeting at which such RSAs were granted. However, a non-employee director may not sell, transfer, assign, pledge or otherwise encumber the vested common stock prior to the second anniversary of the vesting date. In the event of the death or disability of a non-employee director, or a change in control of the Company, the RSAs shall immediately vest and shall no longer be subject to such restrictions on transfer.

We account for compensation cost related to share-based payments based on fair value of the stock options, RSUs and RSAs when awarded to an employee or director. We have estimated the fair value of each option on the date of grant using the Black-Scholes

Table of Contents

option-pricing model. Our estimate requires a number of complex and subjective assumptions including our stock price volatility, employee exercise patterns (expected life of the options), the risk-free interest rate and the Company's dividend yield. The stock price volatility assumption is based on the historical weekly price data of our common stock over a period equivalent to the weighted average expected life of our options. Management evaluated whether there were factors during that period which were unusual and would distort the volatility figure if used to estimate future volatility and concluded that there were no such factors. In determining the expected life of the option grants, the Company has observed the actual terms of prior grants with similar characteristics and the actual vesting schedule of the grant and has assessed the expected risk tolerance of different option groups. The risk-free interest rate is based on the actual U.S. Treasury zero coupon rates for bonds matching the expected term of the option as of the option grant date. The dividend assumption is based upon the prior year's average dividend yield. Reductions in compensation expense associated with the forfeited options are estimated at the date of grant, and this estimated forfeiture rate is adjusted periodically based on actual forfeiture experience. Our accounting for share-based compensation for RSUs and RSAs is also based on the fair value method. The fair value of the RSUs and RSAs is based on the closing market price of the Company's common stock on the grant date of the RSU or RSA.

Share-based compensation expense was recognized as follows:

Employee Stock Purchase Plan

Astro-Med has an Employee Stock Purchase Plan allowing eligible employees to purchase shares of common stock at a 15% discount from fair value on the date of purchase. A total of 247,500 shares were reserved for issuance under this plan. During the quarters ended May 2, 2015 and May 3, 2014, there were 732 and 815 shares respectively, purchased under this plan. As of May 2, 2015, 56,273 shares remain available.

(7) Inventories

Inventories are stated at the lower of cost (first-in, first-out) or market and include material, labor and manufacturing overhead. The components of inventories are as follows:

(In thousands)	May 2, 2015	January 31, 2015
Materials and Supplies	\$ 9,487	\$ 10,600

Inventory Reserve	(3,478)	(3,155)
	\$ 14,488	\$ 15,582

(8) Income Taxes

The Company's effective tax rates for the period, which are based on the projected effective tax rate for the full year, are as follows:

	Three Months Ended
Fiscal 2016	28.0%
Fiscal 2015	28.5%

During the first quarter of fiscal 2016, the Company recognized an income tax expense of approximately \$471,000. The effective tax rate in this quarter was directly impacted by a \$135,000 tax benefit related to the statute of limitations expiring on a previously uncertain tax position. During the three months ended May 3, 2014, the Company recognized income tax expense of \$449,000 which includes a benefit of approximately \$100,000 related to the favorable resolution of a previously uncertain tax position.

As of May 2, 2015, the Company's cumulative unrecognized tax benefits totaled \$633,000 compared to \$707,000 as of January 31, 2015. There were no other developments affecting unrecognized tax benefits during the quarter ended May 2, 2015.

(9) Note Receivable and Line of Credit Issued

On January 30, 2012, the Company completed the sale of its label manufacturing operations in Asheboro, North Carolina to Label Line Ltd. The net sale price of \$1,000,000 was received in the form of a promissory note issued by Label Line Ltd. and is fully

Table of Contents

secured by a first lien on various collateral, including the Asheboro plant and plant assets. The note bears interest at 3.75% and is payable in sixteen quarterly installments of principal and interest which commenced on January 30, 2013. As of May 2, 2015, \$375,000 remains outstanding on this note which approximates its estimated fair value.

The terms of the Asheboro sale also included an agreement for Astro-Med to provide Label Line Ltd. with additional financing in the form of a revolving line of credit in the amount of \$600,000. This line of credit is fully secured by a first lien on various collateral of Label Line Ltd., including the Asheboro plant and plant assets, and bears interest at a rate equal to the United States prime rate plus an additional margin of two percent on the outstanding credit balance. The term of this revolving line of credit has been extended through January 31, 2016. As of May 2, 2015, \$170,000 remains outstanding on this revolving line of credit. The estimated fair value of the line of credit approximates its carrying value.

(10) Segment Information

Astro-Med reports two segments: QuickLabel Systems (QuickLabel) and Test & Measurement (T&M). The Company evaluates segment performance based on the segment profit before corporate expenses.

Summarized below are the Net Sales and Segment Operating Profit for each reporting segment:

(11) Recent Accounting Pronouncements*Revenue Recognition*

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers (Topic 606). ASU 2014-09 completes the joint effort by the FASB and International Accounting Standards Board (IASB) to improve financial reporting by creating common revenue recognition guidance for U.S. GAAP and International Financial Reporting Standards (IFRS). ASU 2014-09 applies to

all companies that enter into contracts with customers to transfer goods or services and is effective for public entities for interim and annual reporting periods beginning after December 15, 2016. Early application is not permitted and entities have the choice to apply ASU 2014-09 either retrospectively to each reporting period presented or by recognizing the cumulative effect of applying ASU 2014-09 at the date of initial application and not adjusting comparative information. The Company is currently evaluating the requirements of ASU 2014-09 and has not yet determined its impact on the Company's consolidated financial statements.

No other new accounting pronouncements, issued or effective during the first three months of the current year, have had or are expected to have a material impact on our consolidated financial statements.

(12) Securities Available for Sale

Pursuant to our investment policy, securities available for sale include state and municipal securities with various contractual or anticipated maturity dates ranging from one to 21 months. Securities available for sale are carried at fair value, with unrealized gains and losses reported as a component of accumulated other comprehensive income (loss) in shareholders' equity until realized. Realized gains and losses from the sale of available for sale securities, if any, are determined on a specific identification basis. A decline in the fair value of any available for sale security below cost that is determined to be other than temporary will result in a write-down of its carrying amount to fair value. No such impairment charges were recorded for any period presented. All short-term investment securities have original maturities greater than 90 days.

Table of Contents

The fair value, amortized cost and gross unrealized gains and losses of securities available for sale are as follows:

(In thousands)

May 2, 2015	Amortized Cost	Gross Unrealized		Fair Value
		Gains	Losses	
State and Municipal Obligations	\$ 15,841	\$ 14	\$ (18)	\$ 15,837

January 31, 2015	Amortized Cost	Gross Unrealized		Fair Value
		Gains	Losses	
State and Municipal Obligations	\$ 15,150	\$ 26	\$ (2)	\$ 15,174

(13) Fair Value

We measure our financial assets at fair value on a recurring basis in accordance with the guidance provided in ASC 820, Fair Value Measurement and Disclosures which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). In addition, ASC 820 establishes a three-tiered hierarchy for inputs used in management's determination of fair value of financial instruments that emphasizes the use of observable inputs over the use of unobservable inputs by requiring that observable inputs be used when available. Observable inputs are inputs that reflect management's belief about the assumptions market participants would use in pricing a financial instrument based on the best information available in the circumstances.

The fair value hierarchy is summarized as follows:

Level 1 Quoted prices in active markets for identical assets or liabilities;

Level 2 Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; and

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Cash and cash equivalents, accounts receivables, accounts payable, accrued compensation and other expenses and income tax payable are reflected in the condensed consolidated balance sheet at carrying value, which approximates fair value due to the short term nature of the these instruments.

Assets measured at fair value on a recurring basis are summarized below:

Total	\$ 3,028	\$ 15,174	\$	\$ 18,202

For our money market funds and state and municipal obligations, we utilize the market approach to measure fair value. The market approach is based on using quoted prices for identical or similar assets.

Table of Contents

Non-financial assets measured at fair value on a recurring basis are summarized below:

May 2, 2015 (In thousands)	Level 1	Level 2	Level 3
Asset Held for Sale	\$	\$ 1,900	\$

January 31, 2015 (In thousands)	Level 1	Level 2	Level 3
Asset Held for Sale	\$	\$ 1,900	\$

Asset held for sale consists of Astro-Med's former Grass facility in Rockland, Massachusetts which is being actively marketed for sale. In accordance with ASC 360, Property, Plant and Equipment, assets held for sale are written down to fair value less cost to sell and as such, the Company has recorded impairment charges of \$220,000 and \$779,000, in the fourth quarter of fiscal 2015 and 2014, respectively. The Company estimated the fair value of the Rockland facility using the market values for similar properties less the cost to sell and expects to sell this property within the next twelve months.

(14) Accumulated Other Comprehensive Loss

The changes in the balance of accumulated other comprehensive income (loss) by component are as follows:

(In thousands)	Foreign Currency Translation Adjustments	Unrealized Holding Gain on Available for Sale Securities	Total
Balance at January 31, 2015	\$ (714)	\$ 15	\$ (699)
Other Comprehensive Income (Loss)	8	(18)	(10)
Balance at May 2, 2015	\$ (706)	\$ (3)	\$ (709)

The amounts presented above in other comprehensive income (loss) are net of taxes, except for translation adjustment associated with our German Subsidiary.

(15) Commitments and Contingencies*Product Replacement Program*

In April 2013, tests conducted by the Company revealed that one of its suppliers had been using a non-conforming part in power supplies for certain models of Astro-Med's Test & Measurement printers. No malfunctions have been reported by customers as a result of the non-conforming material.

Upon identifying this issue, Astro-Med immediately suspended production of the printers, notified all customers and contacted the supplier who confirmed the problem. Astro-Med is continuing to work with its customers to replace the non-conforming material on existing printers with conforming material. The estimated costs associated with the replacement program were \$672,000, which was based upon the number of printers shipped during the period the non-conforming material was used. Those estimated costs were recognized and recorded as a reserve in the first quarter of fiscal 2014. As of May 2, 2015, the Company had expended \$338,000 in replacement costs which have been charged against this reserve. The remaining reserve amount of \$334,000 is included in Other Accrued Expenses in the accompanying condensed consolidated balance sheet dated May 2, 2015.

Astro-Med is currently receiving power supplies with compliant parts and has resumed printer production and shipments to customers.

Since the supplier deviated from the agreed upon specifications for the power supply while providing certificates of conformance to the original specifications, in January 2014, Astro-Med received a non-refundable \$450,000 settlement from the supplier for recovery of the costs and expense associated with this issue. In addition to this cash settlement, the Company is receiving lower product prices from the supplier through fiscal 2017.

(16) Line of Credit

The Company has a three-year, \$10 million revolving line of credit available for ongoing working capital requirements, business acquisitions or general corporate purposes as needed. Any borrowings made under this line of credit bear interest at either a fluctuating base rate equal to the highest of (i) the Prime Rate, (ii) 1.50% above the daily one month LIBOR, and (iii) the Federal Funds Rate in effect plus 1.50% or at a fixed rate of LIBOR plus an agreed upon margin of between 0% and 2.25%, based on the Company's funded debt to EBITDA ratio as defined in the agreement. In addition, the new agreement provided for two financial covenant requirements, namely, Total Funded Debt to Adjusted EBITDA (as defined) of not greater than 3 to 1 and a Fixed Charge Coverage Ratio (as defined) of not less than 1.25 to 1, both measured at the end of each quarter on a rolling four quarter basis. As of May 2, 2015, there have been no borrowings against this line of credit and the Company was in compliance with its financial covenants.

(17) Subsequent Event

On May 20, 2015, the Company's shareholders approved the 2015 Equity Incentive Plan (the "2015 Plan") under which equity based awards, including incentive stock options, non-qualified stock options, RSUs and RSAs, may be granted to directors, officers, key employees and certain other individuals providing services to the Company. The maximum number of shares of common stock of the Company authorized for issuance under the 2015 Plan is 500,000, subject to adjustment for stock splits, stock dividends and other changes to the Company's capital structure.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Business Overview

This section should be read in conjunction with Astro-Med's Condensed Consolidated Financial Statements included elsewhere herein and our Annual Report on Form 10-K for the fiscal year ended January 31, 2015.

Astro-Med is a multi-national enterprise that leverages its proprietary data visualization technologies to design, develop, manufacture, distribute and service a broad range of products that acquire, store, analyze and present data in multiple formats. The Company organizes its structure around a core set of competencies, including research and development, manufacturing, service, marketing and distribution. It markets and sells its products and services through the following two sales product groups:

QuickLabel Systems Product Group (QuickLabel) offers product identification and label printer hardware, software, servicing contracts, and consumable products.

Test and Measurement Product Group (T&M) offers a suite of products and services that acquire and record visual and electronic signal data from local and networked sensors as well as wired and wireless networks. The recorded data is processed and analyzed and then stored and presented in various visual output formats. T&M products are offered in both fixed installation and portable versions. The Company supplies a range of products and services that include hardware, software and consumables to customers who are in a variety of industries, including aerospace, automotive, defense, rail, energy, industrial, and general manufacturing.

Astro-Med markets and sells its products and services globally through a diverse distribution structure of direct sales personnel, manufacturer's representatives and authorized dealers that deliver a full complement of branded products and services to customers in our respective markets.

Results of Operations

Three Months Ended May 2, 2015 vs. Three Months Ended May 3, 2014

Net sales by segment and current quarter percentage change over prior year for the three months ended May 2, 2015 and May 3, 2014 were:

<i>(Dollars in thousands)</i>	May 2, 2015	As a % of Net Sales	May 3, 2014	As a % of Net Sales	% Change Over Prior Year
QuickLabel	\$ 15,644	70.4%	\$ 14,423	69.4%	8.5%
T&M	6,562	29.6%	6,351	30.6%	3.3%
Total	\$ 22,206	100.0%	\$ 20,774	100.0%	6.9%

Net sales for the first quarter of the current year were \$22,206,000, representing a 6.9% increase as compared to the previous year's first quarter sales of \$20,774,000. Sales through the domestic channels for the current quarter were \$15,720,000, an increase of 7.5% over the prior year's first quarter. International sales for the first quarter of the current year were \$6,486,000, representing a 5.4% increase from the previous year. Current year's first quarter international sales include an unfavorable foreign exchange rate impact of \$953,000.

Table of Contents

Hardware sales in the current quarter were \$8,401,000, a slight decrease as compared to prior year's first quarter sales of \$8,563,000. Hardware sales were down 3.4% in the T&M segment due primarily to a decline in sales Ruggedized product line sales in the current year. Current quarter hardware sales in the QuickLabel segment remained relatively constant with prior year. Consumables sales in the current quarter were \$11,769,000, representing an 8.6% increase over prior year's first quarter consumable sales of \$10,838,000. The current quarter increase in consumable sales as compared to the first quarter of the prior year is attributable to a double-digit increase in sales of digital color printer supplies and the label and tag products within the QuickLabel segment.

Service and other revenues of \$2,036,000 in the current quarter were up 48.3% from prior year's first quarter service and other revenues of \$1,374,000, primarily due to the increase in repairs and parts revenue during the quarter related to the fiscal 2014 Miltope acquisition.

Current year first quarter gross profit was \$9,030,000, representing a 4.6% improvement as compared to prior year's first quarter gross profit of \$8,635,000; however, the Company's gross profit margin of 40.7% in the current quarter reflects a decrease from the prior year's first quarter gross profit margin of 41.6%. The higher gross profit for the current quarter as compared to prior year is primarily attributable to higher sales, while the current quarter's decrease in margin is due to product mix and lower factory absorption.

Operating expenses for the current quarter were \$7,582,000, an increase as compared to prior year's first quarter operating expenses of \$6,936,000. Specifically, G&A expenses increased in the first quarter to \$1,457,000 as compared to \$1,191,000 in the prior year. The increase is due to increases in wages and benefits and professional fees spending. R&D expenses increased 30.9% in the current quarter as compared to the prior year, due to outside R&D design and product testing to accelerate on-going development. The R&D spending level, as a percentage of net sales, for the current quarter is 8.1% as compared to 6.6% for the same period of the prior year. Selling and marketing expenses for the current quarter decreased slightly to \$4,329,000 as compared to \$4,374,000 in the first quarter of the prior year.

Other income during the first quarter was \$234,000 compared to other expense of \$121,000 in the first quarter of the previous year. The increase in income was primarily due to the \$248,000 of income recognized from a settlement in an escrow account related to the Miltope transaction. In addition, other expense in fiscal 2014 included a \$251,000 write-down on the disposition of inventory related to the conclusion and settlement of the Grass Transition Service Agreement. The current quarter increase was slightly tempered by the increase in foreign exchange loss for the current quarter as compared to the same period of the prior year.

Table of Contents

The provision for federal, state and foreign taxes for the first quarter of the current year was \$471,000 which includes a benefit of \$135,000 related to the statute of limitations expiring on a previous uncertain tax position and reflects an effective tax rate of 28.0%. This compares to the prior year's first quarter tax provision on income of \$449,000, which includes a benefit of \$100,000 related to the favorable resolution of a previous uncertain tax position and reflected an effective tax rate of 28.5%.

The Company reported net income of \$1,211,000 for the first quarter of the current year, generating EPS of \$0.16 per diluted share as compared to the prior year's first quarter net income of \$1,129,000 and related \$0.14 per diluted share. Return on sales was 5.4% for the first quarter in both fiscal 2016 and fiscal 2015.

Segment Analysis

The Company reports two segments: QuickLabel Systems (QuickLabel) and Test & Measurement (T&M). The Company evaluates segment performance based on the segment profit before corporate and financial administration expenses.

Summarized below are the Net Sales and Segment Operating Profit for each reporting segment:

(In thousands)	Three Months Ended			
	Net Sales		Segment Operating Profit	
	May 2, 2015	May 3, 2014	May 2, 2015	May 3, 2014
QuickLabel	\$ 15,644	\$ 14,423	\$ 1,977	\$ 2,198
T&M	6,562	6,351	928	692
Total	\$ 22,206	\$ 20,774	2,905	2,890
Corporate Expenses			1,457	1,191
Operating Income			1,448	1,699
Other Expense Net			234	(121)
Income Before Income Taxes			1,682	1,578
Income Tax Provision			471	449
Net Income			\$ 1,211	\$ 1,129

QuickLabel Systems QuickLabel

Sales revenues from the QuickLabel product group increased 8.5% with sales of \$15,644,000 in the first quarter of the current year as compared to \$14,423,000 in the same period of the prior year. The current quarter received a strong contribution from the consumables product line as consumable sales increased 9.3% from the same period in the prior year. The current quarter increase in consumable sales is due to the increased demand for label and tag products as well as digital color printer supplies products, both which have experienced double-digit growth as compared to the prior year. QuickLabel's current quarter segment operating profit was \$1,977,000, reflecting a profit margin of 12.6%.

down from prior year's first quarter segment profit of \$2,198,000 and related profit margin of 15.2%. The decrease in QuickLabel's current year's segment operating profit and related margin is primarily due to product mix as well as higher manufacturing costs and R&D expenses.

Table of Contents**Test & Measurement T&M**

Sales revenues from the T&M products were \$6,562,000 for the first quarter of the current fiscal year, representing a 3.3% increase as compared to sales of \$6,351,000 for the same period in the prior year. The slight increment is traceable to the increased demand for our high speed data acquisition product lines as well as growth in parts and repairs revenue during the quarter. T&M's first quarter segment operating profit of \$928,000 resulted in a 14.2% profit margin as compared to the prior year's segment operating profit of \$692,000 and related operating margin of 10.9%. The higher segment operating profit and related margin were due to higher sales, and favorable product mix.

Financial Condition and Liquidity

The Company believes that cash provided by operations will continue to be sufficient to meet operating and capital needs for at least the next twelve months. However, in the event that cash from operations is not sufficient, the Company has a substantial cash and short term marketable securities balance as well as a \$10.0 million revolving bank line of credit. Borrowings made under this line of credit bear interest at either a fluctuating base rate equal to the highest of (i) the Prime Rate, (ii) 1.50% above the daily one month LIBOR, and (iii) the Federal Funds Rate in effect plus 1.50% or at a fixed rate of LIBOR plus an agreed upon margin of between 0% and 2.25%, based on the Company's funded debt to EBITDA ratio as defined in the agreement. As of the filing date of this Quarterly Report on Form 10-Q, there have been no borrowings against this new line of credit and the entire line is currently available.

The Company's statements of cash flows for the three months ended May 2, 2015 and May 3, 2014 are included on page 6. Net cash flows provided by operating activities were \$2,972,000 in the current year compared to cash used of \$2,404,000 in the previous year. The increase in operating cash flow for the first three months of the current year as compared to the previous year is related to income tax payments made in the prior year in connection with the gain on the sale of Grass, as well as lower accounts receivable and inventory balances in the current year. The accounts receivables balance decreased to \$14,012,000 at the end of the first quarter as compared to \$14,107,000 at year-end and the accounts receivable collection cycle remained at 52 days sales outstanding from year end. Inventory declined to \$14,488,000 at the end of the first quarter compared to \$15,582,000 at year end and inventory days on hand decreased to 101 days on hand at the end of the current quarter from 106 days at year end.

The Company's cash, cash equivalents and investments at the end of the first quarter totaled \$24,652,000 compared to \$23,132,000 at year end. The increased cash and investment position at May 2, 2015 resulted from current quarter's net income and decreases in accounts receivables and inventory, as discussed above. This increase was partially offset by dividends paid of \$510,000; restricted cash of \$600,000; and cash used to acquire property, plant and equipment of \$654,000.

The Company's backlog increased 20.6% from year-end to \$14,537,000 at the end of the current first quarter.

Critical Accounting Policies, Commitments and Certain Other Matters

In the Company's Annual Report on Form 10-K for the fiscal year ended January 31, 2015, the Company's most critical accounting policies and estimates upon which our financial status depends were identified as those relating to revenue recognition, warranty claims, bad debts, inventories, income taxes, long-lived assets, goodwill and share-based compensation. We considered the disclosure requirements of Financial Release (FR) 60 (FR-60) regarding critical accounting policies and FR-61 regarding liquidity and capital resources, certain trading activities and related party disclosures, and concluded that nothing materially changed during the quarter that would warrant further disclosure under these releases.
