Excerpt from transcript of video interview, Are We Entering the Golden Age of ETFs?, with Ron O Hanley, CEO of State Street Global Advisors, referencing SPDR Gold Trust posted to Bloomberg.com on May 3, 2016

Interviewer: So, GLD, one of your products, is leading flows this year, but still, lot of people worry that the gold won't be there if there is a major crisis. What do you say to those concerns?

O Hanley: In the case of GLD, there are physicals behind it. So if anybody wants to see a picture of the vault, we can show them the vault. We work with the World Gold Council on that, they are a terrific partner. And there is actually physical gold there - no derivative there - so the gold goes up and down depending on levels of GLD.
