**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Plan Administrator and Members of

The Hartford Investment and Savings Plan

Hartford, Connecticut

We have audited the accompanying statements of net assets available for benefits of The Hartford Investment and Savings Plan (the Plan) as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the year ended December 31, 2015, in conformity with accounting principles generally accepted in the United States of America.

The supplemental schedule of assets (held at end of year) as of December 31, 2015, has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental schedule is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental schedule reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, such schedule is fairly stated, in all material respects, in relation to the financial statements as a whole.

**AND FOR THE YEAR ENDED DECEMBER 31, 2015**

**(\$ IN THOUSANDS)**

**Note 1. Description of the Plan**

The following description of The Hartford Investment and Savings Plan (the Plan or ISP) as of December 31, 2015 is provided for general information purposes only. Members should refer to the Plan document for more complete information. Members refers to eligible participants of the Plan.

The Hartford Financial Services Group, Inc. ( HFSG , together with its subsidiaries, The Hartford , the Company ) is an insurance and financial services company. The Hartford, headquartered in Connecticut, is among the largest providers of property and casualty insurance and group life and disability products to individual and business customers in the United States of America. The Hartford is also a provider of mutual funds to investors and The Hartford continues to manage life and annuity products previously sold. The Plan Sponsor, Hartford Fire Insurance Company, is a wholly owned subsidiary of The Hartford.

Information with regard to eligibility, contributions, distributions, vesting, trustees, withdrawals, loans, fund redistribution and certain definitions are contained in the Plan Document. A Summary Plan Description ( SPD ) setting forth the highlights of the Plan is available to Members on the Fidelity Net Benefits website. Fidelity Workplace Services LLC serves as the record keeper of the Plan.

**Plan Changes**

See Note 10 for a general description of amendments made to the Plan Document during 2014. There were no amendments during 2015.

**General**

The Plan is a defined contribution plan covering substantially all full-time and part-time employees of the Company. The Pension Administration Committee of the Company controls and manages the operation and administration of the Plan, subject to certain exemptions that are specified in the Plan Document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ( ERISA ).

The Trust, as defined in the Plan Document, is the aggregate funds held by the trustee, State Street Bank and Trust Company (the Trustee ), under the trust agreement established for the purposes of the Plan. The Investment and Savings Plan Investment Committee ( ISPIC ) is responsible for the management of Plan assets except with respect to matters that are the responsibility of Evercore Trust Company as fiduciary with respect to the common stock of HFSG ( Hartford Stock ) held in The Hartford Stock Fund. The ISPIC may from time to time add investment funds to, or eliminate investment funds from, the group of investment funds available under the Plan, provided, however, that the ISPIC has no authority with respect to the Hartford Stock in The Hartford Stock Fund.

### Contributions

Members may elect to save a percentage of their eligible compensation (including, effective January 1, 2013, overtime and certain annual bonuses and sales incentives) and may designate their savings as before-tax, Roth 401(k), after-tax or a combination thereof. Generally, savings may be elected based on 1% to 30% of eligible compensation. Members who are highly compensated employees may have contribution limits of less than 30% due to the operation of certain tests required under the Internal Revenue Code of 1986, as amended (the "IRC"). If Members do not elect otherwise, they will be automatically enrolled to make before-tax contributions equal to 6% (3% prior to January 1, 2016) of eligible compensation.

The Company's contributions include a non-elective contribution of 2% of eligible compensation and a dollar-for-dollar matching contribution of up to 6% of eligible compensation contributed by the Member each pay period ("Matching Company contributions").

Members' savings in excess of 6% of the applicable compensation are Supplemental Savings that are not matched by the Company.

F-4

## **Table of Contents**

### **Note 1. Description of the Plan (continued)**

#### **Administrative Costs**

The Trust pays certain administrative expenses of the Plan out of the assets of the Trust. Expenses not paid by the Trust are borne by the Company.

#### **Member Accounts**

Individual accounts are maintained for each Member of the Plan. Each Member's account is credited with that Member's contributions and allocations of (a) the Matching Company contributions and Non-Elective Company contributions and (b) Plan earnings, and is charged with withdrawals and an allocation of administrative expenses and Plan losses. Allocations are based on Member account balances, as defined in the Plan Document. The benefit to which a Member is entitled is the benefit that can be provided from that Member's vested account balance.

#### **Vesting**

Members are 100% vested at all times with respect to Member contributions and earnings thereon. Members first hired prior to January 1, 2016 are 100% vested in Matching Company and Non-Elective Company contributions made after January 1, 2013 after two years of service. Effective January 1, 2016, Members first hired on or after January 1, 2016 are 100% vested in Matching Company Contributions and Non-Elective Company contributions after three years of service.

Members are vested 20% in Matching Company contributions made prior to January 1, 2013 for each completed year of service, until five years of service at which time the Members are 100% vested. Members are fully vested in floor company contributions (0.5% of highly compensated eligible employees' base salary and 1.5% of all other eligible employees' base salary) made prior to January 1, 2013.

Notwithstanding the foregoing statement, a Member becomes fully vested in such Member's Matching Company contribution account upon retirement (for retirement eligible Members), disability, death, reaching age 65, or upon the complete discontinuance of Company contributions or termination of the Plan.

#### **Investment Options**

Members may direct the investment of their future contributions and/or existing account balances into various investment options offered by the Plan and may change investments and transfer amounts between funds daily. As of December 31, 2015, Member contributions and Matching Company contributions may be invested in any of the twenty-two investment options of the Plan in multiples of 1%, as elected or deemed elected by the Member (Member directed investments).

Certain investment options are parties-in-interest with The Hartford. See Notes 9 for further discussion.

#### **Member Loans**

Members may borrow from their accounts a minimum of \$0.5 to a maximum equal to the lesser of \$50 or 50% of their vested account balance, reduced by any pre-existing outstanding loan amounts during the last 12 months. Loan

transactions are treated as transfers between the investment funds and the loan fund. Loan terms range from one to five years, or up to 15 years for the purchase of a primary residence. The loan is secured by the balance in the Member's account. The interest rate on a loan in a calendar quarter is set on the last business day of the prior February, May, August or November based on the prime rate provided by Thomson Reuters on that date plus one percentage point and is fixed for the term of the loan. Principal and interest is paid ratably through payroll deductions.

#### Payment of Benefits

On termination of service due to death, disability, or certain other reasons, Members or their designated beneficiaries may elect to receive either a lump sum amount equal to the value of their vested account balance, or, in the case of Members meeting certain requirements, annual installments over a period not greater than thirty years (subject to certain conditions), or annual installments over the recipient's life expectancy.

F-5

## **Table of Contents**

### **Note 1. Description of the Plan (continued)**

Distributions may be paid in cash or, with respect to The Hartford Stock Fund, in stock distributions. Members or their designated beneficiaries may also elect to defer distributions subject to certain conditions.

#### **Forfeitures**

When a Member terminates employment before he or she has vested in his or her Matching Company and Non-Elective Company contributions, the non-vested portion of the Member's account as defined by the Plan, represents a forfeiture. The Plan document permits the use of forfeitures to either reduce future employer contributions or Plan administrative expenses for the Plan year. However, if a participant is re-employed and fulfills certain requirements, as defined in the Plan document, the account will be reinstated. At December 31, 2015 and 2014, forfeited non-vested account balances totaled \$748 and \$131, respectively.

These forfeitures are applied to reduce future Matching Company contributions. During the year ended December 31, 2015, Matching Company contributions were reduced by \$2,722 from forfeitures.

### **Note 2. Accounting Policies**

#### **Basis of Accounting**

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ( U.S. GAAP ) and the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

#### **Use of Estimates**

The preparation of financial statements in conformity with U.S. GAAP requires management of the Plan to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

#### **Investment Valuation and Income Recognition**

The Plan's investments are stated at fair value, except for fully benefit-responsive guaranteed investment contracts ( GICs ), which are reported at contract value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the amount Plan participants would receive if they were to initiate permitted transactions under the terms of the Plan (see Note 3). See Note 4 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities, which are reflected in the Statement of Changes in Net Assets Available for Benefits, may

occur in the near term and such changes could materially affect the amounts reported in the financial statements.

Investment expenses charged to the Plan for investments in mutual funds and collective investment trusts are charged directly against the assets of the fund and are not separately reflected. Consequently, investment expenses are reflected as a reduction of investment return for such investments. For investments other than mutual funds and collective investment trusts, investment expenses are reflected as investment management fees paid out of the assets of the Fund and are recognized as expenses of the Plan. As of December 31, 2015 and 2014 there were no unfunded commitments or redemption restrictions on collective investment trusts and mutual funds.

#### Payment of Benefits

Benefits paid to Members are recorded when distributed.

## Table of Contents

### **Note 2. Accounting Policies (continued)**

#### Contributions

Member and Matching Company contributions are recorded in the period during which the Company makes payroll deductions from Members' compensation.

#### Excess Contribution Payable

The Plan is required to return contributions received during the Plan year in excess of the IRC limits.

#### Notes Receivable from Members

Notes receivable from Members are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent Member loans are recorded as deemed distributions based on the terms of the Plan Document.

#### New Accounting Standards

On May 1, 2015, the Financial Accounting Standards Board ( FASB ) issued Accounting Standards Update ( ASU ) No. 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* ( ASU 2015-07 ) which removes the requirement to present within the fair value hierarchy table certain investments for which the practical expedient is used to measure fair value at net asset value. Instead, a Plan would be required to include those investments as a reconciling item so that the total fair value amount of investments in the disclosure is consistent with the fair value investment balance on the statement of net assets available for benefits. ASU 2015-07 is effective for public companies for fiscal years beginning after December 15, 2015, with early adoption permitted. The Plan elected to early adopt ASU 2015-07 as of December 31, 2015, as permitted, and has applied ASU 2015-07 retrospectively, as required. The Plan presents the investment disclosure required by this new guidance in Note 4, Fair Value Measurements. There are no effects on the Statements of Net Assets Available for Benefits or the changes therein.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirement to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure to disclose for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate by general type investments that are measured using fair value; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Part III is not applicable to the Plan. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. The Plan has elected to early adopt ASU 2015-12 as of December 31, 2015, as permitted, and has applied the provisions of ASU 2015-12 retrospectively, as required. Parts I and II are reflected in the statements of assets available for benefits and in the notes to the financial statements. The adoption resulted in the reclassification of the adjustment from fair value to contract value for fully benefit-responsive investment contracts totaling \$21,756, in the Statements of Net Assets Available for Benefits.

Certain historical disclosures that are no longer required were removed.

**Note 3. Fully Benefit-Responsive Investment Contract with Financial Institutions**

The Plan's Stable Value Fund is comprised primarily of synthetic GICs. A synthetic GIC is an investment contract issued by an insurance company or other financial institution where the contract issuer is contractually obligated to provide a specified interest rate return. The GICs are backed by a portfolio of financial instruments which are held in a trust that is owned by the Plan. The interest rate return is provided under benefit responsive wrap contracts (or wrapper). Standish Mellon Asset Management Company LLC, a wholly owned subsidiary of The Bank of New York Mellon Corporation, provides investment management services to the Stable Value Fund. The fair value of the benefit-responsive wrapper contracts was \$51 at December 31, 2015 and \$(9) at December 31, 2014. The wrap contract provides that Members execute Plan transactions at contract value. These contracts are fully benefit-responsive and are included in the financial statements at contract value (see Note 2). Fully benefit-responsive contracts provide for a stated return on principal invested over a specified period and permit withdrawals at contract value for benefit payments, loans, or transfers. Contract value represents contributions made under the contract, plus earnings, less Plan withdrawals and administrative expenses. Certain events, such as a Plan termination, divestiture or reduction in force may limit the ability of the Plan to transact at contract value or may allow for the termination of the wrapper contract at less than contract value.

F-7

**Table of Contents****Note 3. Fully Benefit-Responsive Investment Contract with Financial Institutions (continued)**

The Plan Sponsor does not believe that it is probable that any such events would limit the ability of the Plan to transact at contract value.

The relationship of future crediting rates and the contract values reported on the Statements of Net Assets Available for Benefits are provided through the mechanism of the crediting rate formula. The crediting rate is based on the current yield-to-maturity, the duration of the portfolio, and the amortization of gains and losses. Gains and losses are defined as the difference between the market value of the underlying securities and contract value of the wrapper. Key factors that could influence future crediting rates include, but are not limited to, Plan cash flows, changes in interest rates, total return performance of the fair market value of the underlying securities within each synthetic GIC, default or credit failures of any of the securities, investment contracts, or other investments held in the associated fund and the initiation of an extended termination of one or more synthetic GICs by the manager or the contract issuer. The rate of return earned on a synthetic GIC is generally reset quarterly by the issuer but the rate cannot be less than zero.

The contract issuer is not allowed to terminate any of the synthetic GICs and settle at an amount different from contract value unless there is a breach of the contract which is not corrected within the applicable cure period. Actions that will result in a breach include, but are not limited to, material misrepresentation, failure to pay synthetic GIC fees, or any other payment due under the contract, and failure to adhere to investment guidelines. The Plan did not breach any terms of the synthetic GICs in 2015 or 2014.

During 2015, there were no changes in contracts within the Stable Value Fund.

Average yields:	<b>2015</b>	<b>2014</b>
Based on annualized earnings (1)	2.36%	2.32%
Based on interest rate credited to participants (2)	2.44%	2.41%

- (1) Calculated based on actual investment income from the underlying investments for the last month of the year, annualized, divided by the fair value of the investment portfolio as of December 31, 2015 and 2014, respectively.
- (2) Calculated based on the interest rate credited to participants from the underlying investments for the last month of the year, annualized, divided by the fair value of the investment portfolio as of December 31, 2015 and 2014, respectively.

The following table represents the contract value for each of the contracts as of December 31, 2015:

<b>Contract Issuer</b>	<b>Contract Number</b>	<b>Major</b>	<b>Investments at Contract Value</b>
		<b>Credit Ratings</b>	
Transamerica Premier Life	MDA01097TR	AA- / Aa2	\$ 223,638
American General Life	1646368	AA / Aa2	98,118

American General Life	1635582	AA+ / Aaa	64,412
RGA	RGA00058	AA / Aa2	40,495
New York Life	GA29021	AA+ / Aaa	90,857
Prudential	GA62433	AA / Aa1	163,827
<b>Total</b>			<b>\$ 681,347</b>

The Stable Value Fund also held cash and cash equivalents totaling \$19,876 as of December 31, 2015.

The following table represents the contract value for each of the contracts as of December 31, 2014:

Contract Issuer	Contract Number	Major	Investments at Contract Value
		Credit Ratings	
Transamerica Premier Life	MDA01097TR	AA- / Aa2	\$ 227,472
American General Life	1646368	AA / Aa2	96,058
American General Life	1635582	AA+ / Aaa	63,527
RGA	RGA00058	AA / Aa2	39,401
New York Life	GA29021	AA+ / Aaa	88,449
Prudential	GA62433	AA / Aa1	158,967
<b>Total</b>			<b>\$ 673,874</b>

The Stable Value Fund also held cash and cash equivalents totaling \$9,651 as of December 31, 2014.

## **Table of Contents**

### **Note 4. Fair Value Measurements**

The Plan estimates of fair value are based on ASC 820, *Fair Value Measurements and Disclosures*, which provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value and requires that observable inputs be used in valuations when available.

The disclosure of fair value estimates in the fair value accounting guidance hierarchy is based on whether the significant inputs into the valuation are observable. In determining the level of the hierarchy in which the estimate is disclosed, the highest priority is given to unadjusted quoted prices in active markets and the lowest priority to unobservable inputs that reflect the Plan's significant market assumptions. The level in the fair value hierarchy within which the fair value measurement is reported is based on the lowest level input that is significant to the measurement in its entirety. The three levels of the hierarchy are as follows:

Level 1 - Unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or valuations based on models where the significant inputs are observable (e.g., interest rates, yield curves, prepayment speeds, default rates, loss severities, etc.) or can be corroborated by observable market data.

Level 3 - Valuations based on models where significant inputs are not observable. The unobservable inputs reflect the Plan's own assumptions about the inputs that market participants would use in a current market exchange absent actual market exchanges.

**Asset Valuation Techniques** Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Generally, the Plan determines the estimated fair value of its fixed income securities, equity securities and short-term investments using the market approach. The income approach is used for securities priced using a pricing matrix, as well as for derivative instruments. The collective investment trust assets are measured at fair value using a NAV as a practical expedient. For Level 1 investments, which are comprised primarily of exchange-traded equity securities, valuations are based on observable inputs that reflect quoted prices for identical assets in active markets that the Plan has the ability to access at the measurement date.

#### *Debt Securities:*

For most of the Plan's debt securities, the following inputs are typically used in the Plan's pricing methods: reported trades, benchmark yields, bids and/or estimated cash flows. For securities except U.S. Treasuries, inputs also include issuer spreads, which may consider credit default swaps.

A description of additional inputs used for Debt Securities is listed below:

Asset-Backed Securities ( ABS ), Commercial Mortgage-Backed Securities ( CMBS ) and Residential Mortgage-Backed Securities ( RMBS ) Primary inputs also include monthly payment information, collateral performance, which varies by vintage year and includes delinquency rates, collateral valuation loss severity rates, collateral refinancing assumptions and, for ABS and RMBS, estimated prepayment rates.

Corporates Valued using pricing models maximizing the use of observable inputs for similar securities. Inputs also include observations of credit default swap curves related to the issuer. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote, if available.

Municipals Primary inputs also include Municipal Securities Rulemaking Board reported trades and material event notices, and issuer financial statements.

*Short-term Investments* Primary inputs also include material event notices and new issue money market rates.

*Mutual Funds* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

**Table of Contents****Note 4. Fair Value Measurements (continued)**

*Collective Investment Trusts* Valued at the NAV of units of a collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Member transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

*Equity Securities* Valued at the closing price reported on the active market on which the individual securities are traded.

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2015 and 2014.

<b>Investment Assets at Fair Value as of December 31, 2015</b>				
	<b>Active Markets for Identical Assets (Level 1)</b>	<b>Other Observable Inputs (Level 2)</b>	<b>Significant Unobservable Inputs (Level 3)</b>	<b>Total</b>
<b>Invested Assets</b>

**Table of Contents****Note 4. Fair Value Measurements (continued)**

**Transfers Between Levels** The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended, December 31, 2015 and 2014 there were no transfers between levels.

**Rollforward of Fair Value Measurements Using Significant Unobservable Inputs (Level 3)**

The tables below set forth a summary of changes in the fair value of the Plan's Level 3 investments using significant unobservable inputs for the years ended December 31, 2015 and 2014. As reflected in the table below, the net unrealized gain/(loss) on Level 3 investment assets was \$(35) and \$(550) as of December 31, 2015 and 2014, respectively.

**Level 3 Investment Assets and Investment Liabilities**  
**Year Ended December 31,**  
**2015**

<b>Bond Investments</b>		
Balance, beginning of year	\$	1,212
Realized gains/(losses), net		(16)
Change in unrealized gains/(losses), net		(35)
Purchases		887
Issuances		
Settlements		
Sales		(274)
Transfers in to Level 3		
Transfers out of Level 3		(792)
Balance, end of year	\$	982

**Level 3 Investment Assets and Investment Liabilities**  
**Year Ended December 31,**  
**2014**

<b>Bond Investments</b>		
Balance, beginning of year	\$	2,374
Realized gains/(losses), net		(567)
		(392)

Change in unrealized gains/(losses), net	
Purchases	1,123
Issuances	
Settlements	
Sales	(1,326)
Transfers in to Level 3	
Transfers out of Level 3	
Balance, end of year	\$ 1,212

The change in unrealized gains/(losses) included in the Statement of Changes in Net Assets Available for Benefits related to Level 3 assets still held at the reporting date totaled \$161 and \$(158) as of December 31, 2015 and 2014, respectively.

The valuation methods described in Note 2 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

During the year ended December 31, 2015, transfers out of Level 3 are primarily attributable to the appearance of market observable information and the re-evaluation of the observability of pricing inputs.

## **Table of Contents**

### **Note 5. Derivative Financial Instruments**

**Futures Contracts** The Plan enters into futures contracts as part of the Stable Value Fund in the normal course of its investing activities to manage market risk associated with the Plan's fixed-income investments and to achieve overall investment portfolio objectives. These contracts involve elements of market risk in excess of amounts recognized in the Statements of Net Assets Available for Benefits. The credit risk associated with these contracts is minimal, as they are traded on organized exchanges and settled daily. The current day's gains and losses are classified as derivatives receivable/payable for the investment portfolio, with a value of \$0 and \$2 at December 31, 2015 and December 31, 2014, respectively.

During 2015 and 2014, the Plan was a party to futures contracts held for trading purposes for U.S. Treasury bonds. Upon entering into a futures contract, the Plan is required to deposit either in cash or securities an amount (initial margin) equal to a certain percentage of the nominal value of the contract. Subsequent payments are then made or received by the Plan, depending on the daily fluctuation in the value of the underlying contracts. Short-term investments owned and included in the investments of the Plan, with a value of \$50 at December 31, 2014 were held by the Plan's brokers as performance security on futures contracts. There were no investments of the Plan held by the Plan's brokers as performance security on futures contracts at December 31, 2015.

During 2015, the Plan exited all investments in futures contracts for trading purposes. At December 31, 2014, the Plan had futures contracts to purchase or sell U.S. Treasury bonds contracts.

The fair value of futures contracts in the Statements of Net Assets Available for Benefits is zero at December 31, 2015 and 2014, as cash settlements are done daily. Changes in fair value are reflected in net appreciation in fair value of investments on the Statement of Changes in Net Assets Available for Benefits. For the year ended December 31, 2015 the net loss related to future contracts was (\$18).

### **Note 6. Federal Income Tax Status**

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated September 23, 2013 that the Plan and related Trust are designed in accordance with the applicable regulations of the IRC. The Plan has been amended since receiving the determination letter. The Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and related Trust continue to be tax-exempt. In January 2016, an application was submitted to the IRS for a new determination letter. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. No provision for income taxes has been included in the Plan's financial statements.

The Plan is subject to audit by the IRS; however there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

### **Note 7. Plan Termination**

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to suspend, reduce, or partially or completely discontinue its contributions at any time and to terminate the Plan, the Trust agreement and the Trust hereunder, subject to the provisions of ERISA. In the event of termination or partial termination of the Plan or complete discontinuance of contributions, the interests of affected Members automatically become fully-vested in their accounts.

**Note 8. Reconciliation of Financial Statements to Form 5500**

The following is a reconciliation of net assets available for benefits between the accompanying financial statements and the amounts reflected in Form 5500 as of December 31, 2015 and 2014:

	<b>2015</b>	<b>2014</b>
Net assets available for benefits per accompanying financial statements	\$ 3,559,683	\$ 3,531,005
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	11,783	21,756
Net assets per Form 5500	\$ 3,571,466	\$ 3,552,761

F-12

**Table of Contents****Note 8. Reconciliation of Financial Statements to Form 5500 (continued)**

The following is a reconciliation of total investment gain and contributions on the accompanying financial statements and the amount reflected in Form 5500 for the year ended December 31, 2015:

Total investment gain and contributions per accompanying financial statements	\$ 282,352
Adjustment from contract value to fair value for fully benefit-responsive investment contracts at beginning of the year	(21,756)
Adjustment from contract value to fair value for fully benefit-responsive investment contracts at the end of the year	11,783
Total income per Form 5500	\$ 272,379

The following is a reconciliation of benefits paid to Members between the accompanying financial statements and the amount reflected in Form 5500 for the year ended December 31, 2015:

Benefits paid to Members per accompanying financial statements	\$ 250,090
Deduct corrective distributions	1
Deduct amounts allocated to deemed loan distributions	48
Benefits paid to Members per Form 5500	\$ 250,041

**Note 9. Exempt Party-in-Interest Transactions**

Certain plan investments are in funds managed by the Trustee and certain subsidiaries of the Company. Fees paid by the Plan for trustee, custodial and investment management services amounted to \$70 for the year ended December 31, 2015. Fees paid by the Plan to a subsidiary of the Company pursuant to a group annuity contract issued by a subsidiary, for The Hartford Index Fund, amounted to \$45 for the year ended December 31, 2015. In addition, certain Plan investments are shares of mutual funds that are sponsored by The Hartford and shares of Hartford Stock. At December 31, 2015 and 2014, the Plan held 5,026,863 shares and 5,316,940 shares of Hartford Stock with a cost basis of \$167,805 and \$177,210, respectively. During the year ended December 31, 2015, the Plan recorded dividend income from Hartford Stock and The Hartford's mutual funds of \$9,631.

**Note 10. Plan Amendments and Other Changes**

Effective April 1, 2014, there is no minimum amount for an in-service withdrawal (prior to April 1, 2014, there was a minimum withdrawal amount of \$0.5, other than for hardship withdrawals).

Effective April 1, 2014, monthly periodic installment payments may be made to a Member, Deferred Member or Beneficiary who has attained age 55 and terminated employment in an amount requested by an investment manager appointed by, and with the consent of, a Member, Deferred Member or Beneficiary in accordance with Plan rules.

Effective April 1, 2014, the Plan was amended to clarify that the Plan Administrator has the full discretionary authority to determine all questions and to make all factual determinations regarding the correction of errors that result from the operation of Investment Options.

**Note 11. Subsequent Events**

Effective January 1, 2016, the Plan was amended to change the vesting period for Members hired on or after January 1, 2016, Members will be 100% vested in Matching Company and non-elective Company contributions made after January 1, 2016 after three years of service.

For the year ended December 31, 2015, subsequent events were evaluated through the date the financial statements were issued.
