SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

x **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended June 30, 2016

or

.. **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from _____ to _____

Commission File Number: 001-15375

CITIZENS HOLDING COMPANY
(Exact name of registrant as specified in its charter)

Mississippi
(State or other jurisdiction of
incorporation or organization)

521 Main Street, Philadelphia, MS
(Address of principal executive offices)

64-0666512
(IRS Employer
Identification No.)

39350
(Zip Code)

601-656-4692
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Number of shares outstanding of each of the issuer's classes of common stock, as of August 5, 2016:

Title	Outstanding
Common Stock, \$0.20 par value	4,875,079

Table of Contents

CITIZENS HOLDING COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As of and for the three and six months ended June 30, 2016

(Unaudited)

Note 1. Basis of Presentation

These interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). However, these interim consolidated financial statements do not include all of the information and footnotes required by GAAP for complete financial statements. The interim consolidated financial statements are unaudited and reflect all adjustments and reclassifications, which, in the opinion of management, are necessary for a fair presentation of the results of operations and financial condition as of and for the interim periods presented. All adjustments and reclassifications are of a normal and recurring nature. Results for the period ended June 30, 2016 are not necessarily indicative of the results that may be expected for any other interim period or for the year as a whole.

The interim consolidated financial statements of Citizens Holding Company include the accounts of its wholly-owned subsidiary, The Citizens Bank of Philadelphia (the Bank and collectively with Citizens Holding Company, the Corporation). All significant intercompany transactions have been eliminated in consolidation.

For further information and significant accounting policies of the Corporation, see the Notes to Consolidated Financial Statements of Citizens Holding Company included in the Corporation s Annual Report on Form 10-K for the year ended December 31, 2015, filed with the Securities and Exchange Commission on March 15, 2016.

Note 2. Commitments and Contingent Liabilities

In the ordinary course of business, the Corporation enters into commitments to extend credit to its customers. The unused portion of these commitments is not reflected in the accompanying financial statements. As of June 30, 2016, the Corporation had entered into loan commitments with certain customers with an aggregate unused balance of \$40,135,208 compared to an aggregate unused balance of \$44,358,972 at December 31, 2015. There was \$2,952,480 of letters of credit outstanding at June 30, 2016 and \$2,860,480 at December 31, 2015. The fair value of such commitments is not considered material because letters of credit and loan commitments often are not used in their entirety, if at all, before they expire. The balances of such letters and commitments should not be used to project actual future liquidity requirements. However, the Corporation does incorporate expectations about the utilization under its credit-related commitments and into its asset and liability management program.

The Corporation is a party to lawsuits and other claims that arise in the ordinary course of business, all of which are being vigorously contested. In the regular course of business, management evaluates estimated losses or costs related to litigation, and provisions are made for anticipated losses whenever management believes that such losses are probable and can be

Table of Contents

reasonably estimated. At the present time, management believes, based on the advice of legal counsel, that the final resolution of pending legal proceedings will not likely have a material impact on the Corporation's consolidated financial condition or results of operations.

Note 3. Net Income per Share

Net income per share - basic has been computed based on the weighted average number of shares outstanding during each period. Net income per share - diluted has been computed based on the weighted average number of shares outstanding during each period plus the dilutive effect of outstanding stock options using the treasury stock method. Net income per share was computed as follows:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2016	2015	2016	2015
Basic weighted average shares outstanding	4,880,568	4,877,614	4,877,824	4,873,097
Dilutive effect of granted options	5,383	1,170	7,398	907
Diluted weighted average shares outstanding	4,885,951	4,878,784	4,885,222	4,874,004
Net income	\$ 1,779,003	\$ 1,828,587	\$ 3,305,173	\$ 3,422,133
Net income per share-basic	\$ 0.36	\$ 0.37	\$ 0.68	\$ 0.70
Net income per share-diluted	\$ 0.36	\$ 0.37	\$ 0.68	\$ 0.70

Note 4. Equity Compensation Plans

The Corporation has adopted the 2013 Incentive Compensation Plan (the 2013 Plan), which the Corporation intends to use for all future equity grants to employees, directors or consultants until the termination or expiration of the 2013 Plan.

Prior to the adoption of the 2013 Plan, the Corporation utilized two stock-based compensation plans, the 1999 Directors' Stock Compensation Plan (the Directors' Plan) for directors, and the 1999 Employees' Long-Term Incentive Plan (the Employees' Plan) for employees, both of which are currently expired.

Table of Contents

This table is a summary of the stock option activity for the six months ended June 30, 2016.

	Directors Plan		Employees Plan		2013 Plan	
	Number	Weighted Average	Number	Weighted Average	Number	Weighted Average
	of	Exercise	of	Exercise	of	Exercise
	Shares	Price	Shares	Price	Shares	Price
Outstanding at December 31, 2015	87,000	\$ 21.35	23,000	\$ 23.46		\$
Granted						
Exercised						
Expired	(9,000)	23.70	(23,000)	23.46		
Outstanding at June 30, 2016	78,000	\$ 21.08		\$		\$

The intrinsic value of options previously granted under the Directors Plan at June 30, 2016, was \$118,125, the intrinsic value of options previously granted under the Employees Plan at June 30, 2016, was \$0, and since there were no options granted under the 2013 Plan during the six-month period ending June 30, 2016, the intrinsic value for the 2013 Plan is \$0, for an aggregate intrinsic value at June 30, 2016, of \$118,125.

During the quarter ended June 30, 2016, the Corporation's directors received restricted stock grants totaling 7,500 shares of common stock under the 2013 Plan. These grants vest over a one-year period ending April 27, 2017 during which time the recipients have rights to vote the shares and to receive dividends. The grant date fair value of these shares was \$161,325 and will be recognized over the one-year vesting period at a cost of \$13,444 per month less deferred taxes of \$5,016 per month. Also during the quarter ended June 30, 2016, there were 1,500 shares of restricted stock that vested pursuant to an incentive plan for senior management. The Corporation recognized \$31,725 in expense in the second quarter for the vesting of this restricted stock.

Note 5. Income Taxes

The income tax topic of the Accounting Standards Codification (ASC) defines the threshold for recognizing the benefits of tax return positions in the financial statements as more-likely-than-not to be sustained by the taxing authority. This topic also provides guidance on the de-recognition, measurement and classification of income tax uncertainties, along with any related interest and penalties, and includes guidance concerning accounting for income tax uncertainties in interim periods. As of June 30, 2016, the Corporation had no unrecognized tax benefits related to federal and state income tax matters. Therefore, the Corporation does not anticipate any material increase or decrease in the effective tax rate during 2016 relative to any tax positions taken. It is the Corporation's policy to recognize interest or penalties related to income tax matters in income tax expense.

The Corporation files a consolidated United States federal income tax return. The Corporation is currently open to audit under the statute of limitations by the Internal Revenue Service for all tax years after 2013. The Corporation's consolidated state income tax returns are also open to audit under the statute of limitations for the same period.

Table of Contents**Note 6. Securities**

The amortized cost and estimated fair value of securities available-for-sale and the corresponding amounts of gross unrealized gains and losses recognized in accumulated other comprehensive income were as follows:

June 30, 2016	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
Securities available-for-sale				
Obligations of U.S. Government agencies				
	\$ 195,734,684	\$ 575,801	\$ 477,018	\$ 195,833,467
Mortgage backed securities				
	104,737,622	793,179	240,982	105,289,819
State, County, Municipals				
	128,982,373	3,395,113	660,047	131,717,439
Other investments				
	2,899,027	45,665		2,944,692
Total	\$ 432,353,706	\$ 4,809,758	\$ 1,378,047	\$ 435,785,417

December 31, 2015	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
Securities available-for-sale				
Obligations of U.S. Government agencies				
	\$ 83,826,411	\$ 1,100	\$ 1,577,145	\$ 82,250,366
Mortgage backed securities				
	92,602,875	467,693	1,348,603	91,721,965
State, County, Municipals				
	87,948,336	2,609,469	181,442	90,376,363
Other investments				
	2,931,134		15,425	2,915,709
Total	\$ 267,308,756	\$ 3,078,262	\$ 3,122,615	\$ 267,264,403

During the six months ended June 30, 2016, the Corporation increased the investment in available-for-sale securities and decreased the investment in held-to-maturity securities as they were called or matured.

During the quarter ended June 30, 2014, the Corporation transferred securities with an amortized cost of \$222,322,423 from available-for-sale to held-to-maturity. This transfer was completed after consideration of the Corporation's ability and intent to hold these securities to maturity.

The fair value of the securities transferred as of the date of transfer was \$205,260,985 with a net unrealized loss of \$17,061,438. In accordance with ASC 320-10-35-16, the discount on each security that resulted from this transfer is amortized over the remaining lives of the individual securities. Any unrealized holding losses on the date of the transfer are not recognized in net income but remain in accumulated other comprehensive loss. In accordance with ASC 320-10-15-10d, the unrealized loss amounts in accumulated other comprehensive loss are amortized simultaneously against interest income as the discount is accreted on the transferred securities. There is no effect on net income as the discount accretion offsets the accumulated other comprehensive loss amortization. The unamortized unrealized loss, before deferred taxes, was \$6,183,648 and \$11,305,438 at June 30, 2016 and December 31, 2015,

respectively.

Table of Contents

The amortized cost and estimated fair value of securities held-to-maturity and the corresponding amounts of gross unrecognized gains and losses were as follows:

June 30, 2016	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
Securities held-to-maturity				
Obligations of U.S. Government agencies	\$ 78,122,952	\$ 6,243,134	\$	\$ 84,366,086
Total	\$ 78,122,952	\$ 6,243,134	\$	\$ 84,366,086

December 31, 2015	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
Securities held-to-maturity				
Obligations of U.S. Government agencies	\$ 161,043,404	\$ 8,002,431	\$	\$ 169,045,835
Total	\$ 161,043,404	\$ 8,002,431	\$	\$ 169,045,835

The amortized cost and estimated fair value of securities by contractual maturity at June 30, 2016 and December 31, 2015 are shown below. Actual maturities may differ from contractual maturities because issuers have the right to call or prepay certain obligations.

Table of Contents

The tables below show the Corporation's gross unrealized losses and fair value of available-for-sale and held-to-maturity investments, aggregated by investment category and length of time that individual investments were in a continuous loss position at June 30, 2016 and December 31, 2015.

A summary of unrealized loss information for securities available-for-sale, categorized by security type follows (in thousands):

June 30, 2016	Less than 12 months		12 months or more		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Description of Securities						
Obligations of U. S. government agencies	\$ 90,372	\$ 453	\$ 9,062	\$ 24	\$ 99,434	\$ 477
Mortgage backed securities	34,078	99	29,051	142	63,129	241
State, County, Municipal	36,802	633	3,959	27	40,761	660
Total	\$ 161,252	\$ 1,185	\$ 42,072	\$ 193	\$ 203,324	\$ 1,378

December 31, 2015	Less than 12 months		12 months or more		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Description of Securities						
Obligations of U. S. government agencies	\$ 50,915	\$ 716	\$ 26,335	\$ 861	\$ 77,250	\$ 1,577
Mortgage backed securities	83,001	1,349			83,001	1,349
State, County, Municipal	2,393	10	12,623	172	15,016	182
Other investments			2,916	15	2,916	15
Total	\$ 136,309	\$ 2,075	\$ 41,874	\$ 1,048	\$ 178,183	\$ 3,123

The Corporation's unrealized losses on its obligations of United States government agencies, mortgage backed securities and state, county and municipal bonds are the result of an upward trend in interest rates, mainly in the mid-term sector. None of the unrealized losses disclosed in the previous table are related to credit deterioration. The Corporation has determined that none of the securities in this classification are other-than-temporarily impaired at June 30, 2016 or at December 31, 2015.

Table of Contents**Note 7. Loans**

The composition of net loans (in thousands) at June 30, 2016 and December 31, 2015 is as follows:

	June 30, 2016	December 31, 2015
Real Estate:		
Land Development and Construction	\$ 31,344	\$ 33,133
Farmland	20,408	23,293
1-4 Family Mortgages	101,852	104,046
Commercial Real Estate	176,028	180,691
Total Real Estate Loans	329,632	341,163

Total Consumer Loans	26,117	26,625
Total Gross Loans	403,154	430,268
Unearned income	(786)	(686)
Allowance for loan losses	(4,809)	(6,474)
Loans, net	\$ 397,559	\$ 423,108

Loans are considered to be past due if the required principal and interest payments have not been received as of the date such payments were due. Loans are placed on non-accrual status, when, in management's opinion, the borrower may be unable to meet payment obligations as they become due, as well as when required by regulatory provisions. Loans may be placed on non-accrual status regardless of whether such loans are considered past due. When interest accruals are discontinued, all unpaid accrued interest is reversed. Interest income is subsequently recognized only to the extent cash payments are received in excess of principal due. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

Table of Contents

Period-end, non-accrual loans (in thousands), segregated by class, were as follows:

	June 30, 2016	December 31, 2015
Real Estate:

Loans are considered impaired when, based on current information and events, it is probable the Corporation will be unable to collect all amounts due in accordance with the original contractual terms of the loan agreement, including scheduled principal and interest payments. In determining which loans to evaluate for impairment, management looks at all loans over \$100,000 that are past due loans, bankruptcy filings and any situation that might lend itself to cause a borrower to be unable to repay the loan according to the original agreement terms. If a loan is determined to be impaired and the collateral is deemed to be insufficient to fully repay the loan, a specific reserve will be established. Interest payments on impaired loans are typically applied to principal unless collectability of the principal amount is reasonably assured, in which case interest is recognized on a cash basis. Impaired loans or portions thereof, are charged-off when deemed uncollectible.

Table of Contents

Impaired loans (in thousands) as of June 30, 2016, segregated by class, are as follows:

<u>June 30, 2016</u>	Unpaid Principal Balance	Recorded Investment With No Allowance	Recorded Investment With Allowance	Total Recorded Investment	Related Allowance	Average Recorded Investment

Total Loans	\$ 11,990	\$	\$ 11,990	\$ 11,990	\$ 1,575	\$ 11,558

During the first quarter of 2016, management reviewed the impaired loan listing according to the Corporation's policy of reviewing individual loans for impairment over \$100,000. During this review, 97 loans under that threshold in the amount of \$2,731,121 and 6 loans in the amount of \$1,651,023 that were over the threshold but were determined to not be impaired at March 31, 2016, were removed from the impaired loan listing. Management believes this more accurately reflects the amount of impaired loans evaluated for impairment as part of the computation of the allowance for loan losses.

Table of Contents

Impaired loans (in thousands) as of December 31, 2015, segregated by class, are as follows:

December 31, 2015	Unpaid Principal Balance	Recorded Investment With No Allowance	Recorded Investment With Allowance	Total Recorded Investment	Related Allowance	Average Recorded Investment

Table of Contents

The following table presents troubled debt restructurings (in thousands, except for number of loans), segregated by class:

	Number of	Pre-Modification	Post-Modification
	Loans	Outstanding	Outstanding
June 30, 2016		Recorded	Recorded
		Investment	Investment
Commercial real estate	3	\$ 4,871	\$ 3,537
Total	3	\$ 4,871	\$ 3,537

	Number of	Pre-Modification	Post-Modification
	Loans	Outstanding	Outstanding
December 31, 2015		Recorded	Recorded
		Investment	Investment
Commercial real estate	3	\$ 4,871	\$ 3,858
Total	3	\$ 4,871	\$ 3,858

Changes in the Corporation's troubled debt restructurings (in thousands, except for number of loans) are set forth in the table below:

	Number	Recorded
	of Loans	Investment
Totals at January 1, 2016	3	\$ 3,858
Reductions due to:		
Principal paydowns		(321)
Total at June 30, 2016	3	\$ 3,537

The allocated allowance for loan losses attributable to restructured loans was \$174,274 at June 30, 2016 and December 31, 2015. The Corporation had no remaining availability under commitments to lend additional funds on these troubled debt restructurings as of June 30, 2016.

Table of Contents

The Corporation utilizes a risk grading matrix to assign a risk grade to each of its loans when originated and is updated as factors related to the strength of the loan changes. Loans are graded on a scale of 1 to 9. A description of the general characteristics of the 9 risk grades follows.

Grade 1. MINIMAL RISK - These loans are without loss exposure to the Corporation. This classification is reserved for only the best, well secured loans to borrowers with significant capital strength, low leverage, stable earnings and growth and other readily available financing alternatives. This type of loan would also include loans secured by a program of the government.

Grade 2. MODEST RISK - These loans include borrowers with solid credit quality and moderate risk of loss. These loans may be fully secured by certificates of deposit with another reputable financial institution, or secured by readily marketable securities with acceptable margins.

Grade 3. AVERAGE RISK - This is the rating assigned to the majority of the loans held by the Corporation. This includes loans with average loss exposure and average overall quality. These loans should liquidate through possessing adequate collateral and adequate earnings of the borrower. In addition, these loans are properly documented and are in accordance with all aspects of the current loan policy.

Grade 4. ACCEPTABLE RISK - Borrower generates sufficient cash flow to fund debt service but most working asset and capital expansion needs are provided from external sources. Profitability and key balance sheet ratios are usually close to peers but one or more may be higher than peers.

Grade 5. MANAGEMENT ATTENTION - Borrower has significant weaknesses resulting from performance trends or management concerns. The financial condition of the borrower has taken a negative turn and may be temporarily strained. Cash flow is weak but cash reserves remain adequate to meet debt service. Management weakness is evident.

Grade 6. OTHER LOANS ESPECIALLY MENTIONED (OLEM) - Loans in this category are fundamentally sound but possess some weaknesses. OLEM loans have potential weaknesses which may, if not checked or corrected, weaken the asset or inadequately protect the bank's credit position at some future date. These loans have an identifiable weakness in credit, collateral, or repayment ability but there is no expectation of loss.

Grade 7. SUBSTANDARD ASSETS - Assets classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Assets classified as substandard must have a well-defined weakness based upon objective evidence. Assets classified as substandard are characterized by the distinct possibility that the insured institution will sustain some loss if the deficiencies are not corrected. The possibility that liquidation would not be timely requires a substandard classification even if there is little likelihood of total loss.

Grade 8. DOUBTFUL - A loan classified as doubtful has all the weaknesses of a substandard classification and the added characteristic that the weakness makes collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable or

Table of Contents

improbable. The possibility of loss is extremely high, but because of certain important and reasonable specific pending factors which may work to the advantage and strengthening of the asset, its classification as an estimated loss is deferred until its more exact status may be determined. A doubtful classification could reflect the fact that the primary source of repayment is gone and serious doubt exists as to the quality of a secondary source of repayment.

Grade 9. LOSS - Loans classified loss are considered uncollectible and of such little value that their continuance as bankable assets is not warranted. This classification does not mean that the asset has absolutely no recovery or salvage value, but rather it is not practical or desirable to defer writing off this basically worthless asset even though partial recovery may occur in the future. Also included in this classification is the defined loss portion of loans rated substandard assets and doubtful assets.

These internally assigned grades are updated on a continual basis throughout the course of the year and represent management's most updated judgment regarding grades at June 30, 2016.

The following table details the amount of gross loans (in thousands), segregated by loan grade and class, as of June 30, 2016:

Grades	Satisfactory 1, 2, 3, 4	Special Mention 5,6	Substandard 7	Doubtful 8	Loss 9	Total Loans

The allowance for loan losses is a reserve established through a provision for loan losses charged to expense, which represents management's best estimate of probable losses within the existing portfolio of loans. The allowance, in the judgment of management, is necessary to reserve for estimated loan losses and risks inherent in the loan portfolio.

The allowance on the majority of the loan portfolio is calculated using a historical chargeoff percentage applied to the current loan balances by loan segment. This historical period is the average of the previous twenty quarters with the most current quarters weighted more heavily to show the effect of the most recent chargeoff activity. This percentage is also adjusted for economic factors such as local unemployment and general business conditions, both local and nationwide.

The group of loans that are considered to be impaired are individually evaluated for possible loss and a specific reserve is established to cover any loss contingency. Loans that are determined to be a loss with no benefit of remaining in the portfolio are charged off to the allowance. These specific reserves are reviewed periodically for continued impairment and adequacy of the specific reserve and adjusted when necessary.

Table of Contents

The following table details activity in the allowance for loan losses by portfolio segment for the six months ended June 30, 2016:

June 30, 2016	Real Estate	Business Loans	Consumer	Total
Beginning Balance, January 1, 2016	\$ 5,238,895	\$ 643,248	\$ 591,560	\$ 6,473,703

Table of Contents

The Corporation's recorded investment in loans as of June 30, 2016 and December 31, 2015 related to each balance in the allowance for possible loan losses by portfolio segment and disaggregated on the basis of the Corporation's impairment methodology was as follows (in thousands):

June 30, 2016	Real Estate	Business Loans	Consumer	Total
Loans individually evaluated for specific impairment	\$ 11,990	\$	\$	\$ 11,990
Loans collectively evaluated for general impairment	317,642	47,405	26,117	391,164
	\$ 329,632	\$ 47,405	\$ 26,117	\$ 403,154

December 31, 2015	Real Estate	Business Loans	Consumer	Total
Loans individually evaluated for specific impairment	\$ 15,519	\$ 28	\$ 36	\$ 15,583
Loans collectively evaluated for general impairment	325,644	62,452	26,589	414,685
	\$ 341,163	\$ 62,480	\$ 26,625	\$ 430,268

Table of Contents**Note 8. Fair Value of Financial Instruments**

The fair value topic of the ASC establishes a framework for measuring fair value and requires enhanced disclosures about fair value measurements. This topic clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. This topic also requires disclosure about how fair value was determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant levels of inputs as follows:

Level 1 Quoted prices in active markets for identical assets or liabilities;

Level 2 Inputs other than quoted prices in active markets for similar assets and liabilities included in Level 1 that are observable for the asset or liability either directly or indirectly; or

Level 3 Unobservable inputs for an asset or liability, such as discounted cash flow models or valuations.

The determination of where assets and liabilities fall within this hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following table presents assets and liabilities that are measured at fair value on a recurring basis as of June 30, 2016:

	Fair Value Measurements Using:			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Totals
Securities available for sale				
Obligations of U. S. Government Agencies	\$	\$ 195,833,467	\$	\$ 195,833,467
Mortgage-backed securities		105,289,817		105,289,817
State, county and municipal obligations		131,717,440		131,717,440
Other investments			2,944,693	2,944,693
Total	\$	\$ 432,840,724	\$ 2,944,693	\$ 435,785,417

Table of Contents

The following table presents assets and liabilities that are measured at fair value on a recurring basis as of December 31, 2015:

	Fair Value Measurements Using:			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Totals
Securities available for sale				
Obligations of U. S. Government Agencies	\$	\$ 82,250,366	\$	\$ 82,250,366
Mortgage-backed securities		91,721,965		91,721,965
State, county and municipal obligations		90,376,363		90,376,363
Other investments			2,915,709	2,915,709
Total	\$	\$ 264,348,694	\$ 2,915,709	\$ 267,264,403

The following table reports the activity for 2016 in assets measured at fair value on a recurring basis using significant unobservable inputs.

	Fair Value Measurements Using: Significant Unobservable Inputs (Level 3) Structured Financial Product
Balance at January 1, 2016	\$ 2,915,709
Principal payments received	(32,107)
Unrealized gains included in other comprehensive income	61,091
Balance at June 30, 2016	\$ 2,944,693

The Corporation recorded no gains or losses in earnings for the period that were attributable to the change in unrealized gains or losses relating to assets still held at the reporting date.

Table of Contents

For assets measured at fair value on a nonrecurring basis during 2016 that were still held on the Corporation's balance sheet at June 30, 2016, the following table provides the hierarchy level and the fair value of the related assets:

	Fair Value Measurements Using:			Totals		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)			
Impaired loans	\$	\$	\$ 5,630,192	\$ 5,630,192		
Other real estate owned			76,875	76,875		
Total	\$	\$	\$ 5,707,067	\$ 5,707,067		

For assets measured at fair value on a nonrecurring basis during 2015 that were still held on the Corporation's balance sheet at December 31, 2015, the following table provides the hierarchy level and the fair value of the related assets:

	Fair Value Measurements Using:			Totals		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)			
Impaired loans	\$	\$	\$ 8,926,364	\$ 8,926,364		
Other real estate owned			538,262	538,262		
Total	\$	\$	\$ 9,464,626	\$ 9,464,626		

Impaired loans with a carrying value of \$11,989,836 and \$12,286,822 had an allocated allowance for loan losses of \$1,575,222 and \$2,996,708 at June 30, 2016 and December 31, 2015, respectively. The allocated allowance is based on the carrying value of the impaired loan and the fair value of the underlying collateral less estimated costs to sell.

Real estate acquired through foreclosure or deed in lieu, sometimes referred to as other real estate owned (OREO) acquired during the six-month period ended June 30, 2016, and recorded at fair value, less costs to sell, was \$177,375, of which \$0 was acquired and sold during this period. There were no writedowns during the period on properties owned. OREO acquired during 2015 and recorded at fair value, less costs to sell, was \$869,564. There were no

additional writedowns during 2015 on OREO acquired in previous years.

Table of Contents

The financial instruments topic of the ASC requires disclosure of financial instruments fair values, as well as the methodology and significant assumptions used in estimating fair values. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. In that regard, the derived fair value estimates cannot be substantiated by comparison to independent markets and, in many cases, could not be realized in immediate settlement of the instrument. The financial instruments topic of the ASC excludes certain financial instruments from its disclosure requirements. Accordingly, the aggregate fair value amounts presented do not represent the underlying value of the Corporation and may not be indicative of amounts that might ultimately be realized upon disposition or settlement of those assets and liabilities.

The following represents the carrying value and estimated fair value of the Corporation's financial instruments at June 30, 2016:

	Carrying Value	Fair Value Measurements Using:			Total Fair Value
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
June 30, 2016					
Financial assets					
Cash and due from banks	\$ 24,334,437	\$ 24,334,437	\$	\$	\$ 24,334,437
Interest bearing deposits with banks	17,457,142	17,457,142			17,457,142
Securities held-to-maturity	78,122,952		84,366,086		84,366,086
Securities available-for-sale	435,785,417		432,840,724	2,944,693	435,785,417
Net loans	397,558,888			399,100,065	399,100,065
Financial liabilities					
Deposits	\$ 779,658,600	\$ 577,145,059	\$	\$ 202,641,846	\$ 779,786,905

Securities Sold under Agreement to Repurchase	104,298,182	104,298,182			104,298,182

The fair value estimates, methods and assumptions used by the Corporation in estimating its fair value disclosures for financial statements were as follows:

Cash and Due from Banks and Interest Bearing Deposits with Banks

The carrying amounts reported in the balance sheet for these instruments approximate fair value because of their immediate and shorter-term maturities, which are considered to be three months or less when purchased.

Securities Held-to-Maturity

Securities held-to-maturity consist of debt securities such as obligations of states and other political subdivisions. Where quoted market prices in active markets are available, securities are classified within Level 1 of the fair value hierarchy. If quoted prices from active markets are not available, fair values are based on quoted market prices for similar instruments traded in active markets, quoted market prices for identical or similar instruments traded in markets that are not active, or model-based valuation techniques where all significant assumptions are observable in the market. Such instruments are classified within Level 2 of the fair value hierarchy. When assumptions used in model-based valuation techniques are not observable in the market, the assumptions used by management reflect estimates of assumptions used by other market participants in determining fair value. When there is limited transparency around the inputs to the valuation, the instruments are classified within Level 3 of the fair value hierarchy.

Table of Contents

Securities Available-for-Sale

Fair values for investment securities are based on quoted market prices, when available (Level 1). If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments (Level 2). When neither quoted prices nor comparable instruments are available, unobservable inputs are needed to form an expected future cash flow analysis to establish fair values (Level 3).

The Corporation owns certain beneficial interests in one collateralized debt obligation secured by community bank trust preferred securities. These interests do not trade in a liquid market, and therefore, market quotes are not a reliable indicator of their ultimate realizability. The Corporation utilizes a discounted cash flow model using inputs of (1) market yields of trust-preferred securities as the discount rate and (2) expected cash flows which are estimated using assumptions related to defaults, deferrals and prepayments to determine the fair values of these beneficial interests. Many of the factors that adjust the timing and extent of cash flows are based on judgment and not directly observable in the markets. Therefore, these fair values are classified as Level 3 valuations for accounting and disclosure purposes. Since observable transactions in these securities are extremely rare, the Corporation uses assumptions that a market participant would use in valuing these instruments. These assumptions primarily include cash flow estimates and market discount rates. The cash flow estimates are sensitive to the assumptions related to the ability of the issuers to pay the underlying trust preferred securities according to their terms. The market discount rates depend on transactions, which are rare given the lack of interest of investors in these types of beneficial interests.

Net Loans

For variable-rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying values. The fair values for other loans, including impaired loans, (i.e., commercial real estate and rental property mortgage loans, commercial and industrial loans, financial institution loans, and agricultural loans) are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality.

Deposits

The fair values for demand deposits, NOW and money market accounts and savings accounts are, by definition, equal to the amount payable on demand at the reporting date (i.e., their carrying amounts). The carrying amounts for variable-rate, fixed-term money market accounts and time deposits approximate their fair values at the reporting date. Fair values for fixed-rate time deposits are estimated using a discounted cash flow calculation that applies interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities on time deposits.

Federal Home Loan Bank (FHLB) Borrowings

The fair value of FHLB advances is based on a discounted cash flow analysis.

Table of Contents

Securities Sold Under Agreement to Repurchase

Due to the short term nature of these instruments, which is generally three months or less, the carrying amount is equal to the fair value.

Off-Balance Sheet Instruments

The fair value of commitments to extend credit and letters of credit are estimated using fees currently charged to enter into similar agreements. The fees associated with these financial instruments are not material.

Note 9. Recent Accounting Pronouncements

On June 16, 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments* (ASU 2016-13). The update will significantly change the way entities recognize impairment on many financial assets by requiring immediate recognition of estimated credit losses expected to occur over the asset s remaining life. The FASB describes this impairment recognition model as the current expected credit loss (CECL) model and believes the CECL model will result in more timely recognition of credit losses since the CECL model incorporates expected credit losses versus incurred credit losses. The scope of FASB s CECL model would include loans, held-to-maturity debt instruments, lease receivables, loan commitments and financial guarantees that are not accounted for at fair value. For public companies, this update becomes effective for interim and annual periods beginning after December 15, 2019. Management is currently evaluating the impact this ASU will have on the Company s consolidated financial statements and will continue to monitor FASB s progress on this topic.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

FORWARD LOOKING STATEMENTS

In addition to historical information, this Quarterly Report on Form 10-Q (the "Quarterly Report") contains statements that constitute forward-looking statements and information within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which are based on management's beliefs, plans, expectations and assumptions and on information currently available to management. The words may, should, expect, anticipate, intend, plan, continue, believe, seek, estimate and similar words used in this Quarterly Report that do not relate to historical facts are intended to identify forward-looking statements. These statements appear in a number of places in this Quarterly Report. The Corporation notes that a variety of factors could cause the actual results or experience to differ materially from the anticipated results or other expectations described or implied by such forward-looking statements. The risks and uncertainties that may affect the operation, performance, development and results of the Corporation's business include, but are not limited to, the following: (a) the risk of adverse changes in business conditions in the banking industry generally and in the specific markets in which the Corporation operates; (b) changes in the legislative and regulatory environment that negatively impact the Corporation through increased operating expenses; (c) increased competition from other financial institutions; (d) the impact of technological advances; (e) expectations about the movement of interest rates, including actions that may be taken by the Federal Reserve Board in response to changing economic conditions; (f) changes in asset quality and loan demand; (g) expectations about overall economic strength and the performance of the economies in the Corporation's market area; and (h) other risks detailed from time to time in the Corporation's filings with the Securities and Exchange Commission. The Corporation does not undertake any obligation to update or revise any forward-looking statements subsequent to the date of this Quarterly Report, or if earlier, the date on which such statements were made.

Table of Contents

Management's discussion and analysis is intended to provide greater insight into the results of operations and the financial condition of Citizens Holding Company and its wholly owned subsidiary, The Citizens Bank of Philadelphia (the Bank, and collectively with Citizens Holding Company, the Corporation). The following discussion should be read in conjunction with the consolidated financial statements and notes appearing elsewhere in this Quarterly Report.

LIQUIDITY

The Corporation has an asset and liability management program that assists management in maintaining net interest margins during times of both rising and falling interest rates and in maintaining sufficient liquidity. A measurement of liquidity is the ratio of net deposits and short-term liabilities divided by the sum of net cash, short-term investments and marketable assets. This measurement for liquidity of the Corporation at June 30, 2016, was 40.27% and at December 31, 2015, was 32.73%. The increase was due to an increase in short term marketable assets at June 30, 2016. Management believes it maintains adequate liquidity for the Corporation's current needs.

The Corporation's primary source of liquidity is customer deposits, which were \$779,658,600 at June 30, 2016, and \$753,404,788 at December 31, 2015. Other sources of liquidity include investment securities, the Corporation's line of credit with the Federal Home Loan Bank (FHLB) and federal funds lines with correspondent banks. The Corporation had \$435,785,417 invested in available-for-sale investment securities at June 30, 2016, and \$267,264,403 at December 31, 2015. The Corporation also had \$17,457,142 in interest bearing deposits at other banks at June 30, 2016 and \$42,267,777 at December 31, 2015. The decrease in interest bearing deposits was the result of funds being invested in longer term investments, including certain mortgage backed products, which are expected to produce more interest income. The Corporation had secured and unsecured federal funds lines with correspondent banks in the amount of \$45,000,000 at both June 30, 2016 and December 31, 2015. In addition, the Corporation has the ability to draw on its line of credit with the FHLB. At June 30, 2016, the Corporation had unused and available \$135,768,288 of its line of credit with the FHLB and at December 31, 2015, the Corporation had unused and available \$146,840,812 of its line of credit with the FHLB. The decrease in the amount available under the Corporation's line of credit with the FHLB from the end of 2015 to June 30, 2016, was the result of a decrease in the amount of loans eligible for the collateral pool securing the credit line with the FHLB. The Corporation had no federal funds purchased as of both June 30, 2016 and December 31, 2015. The Corporation purchase federal funds from correspondent banks on a temporary basis to meet short term funding needs.

When the Corporation has more funds than it needs for its reserve requirements or short-term liquidity needs, the Corporation increases its investment portfolio, increases the balances in interest bearing due from accounts or sells federal funds. It is management's policy to maintain an adequate portion of its portfolio of assets and liabilities on a short-term basis to insure rate flexibility and to meet loan funding and liquidity needs. When deposits decline or do not grow sufficiently to fund loan demand, management will seek funding either through federal funds purchased or advances from the FHLB.

Table of Contents**CAPITAL RESOURCES**

Total shareholders' equity was \$92,884,860 at June 30, 2016, as compared to \$86,425,336 at December 31, 2015. The increase in shareholders' equity was the result of a decrease in the accumulated other comprehensive loss brought about by the investment securities market value adjustment as well as the increase in the amount of earnings in excess of dividends paid. The market value increase was due to general market conditions, specifically the decrease in medium term interest rates, which caused an increase in the market price of the investment portfolio.

The Corporation paid aggregate cash dividends in the amount of \$2,342,267, or \$0.48 per share, during the six-month period ended June 30, 2016.

Quantitative measures established by federal regulations to ensure capital adequacy require the Corporation to maintain minimum amounts and ratios of Total and Tier 1 capital (primarily common stock and retained earnings, less goodwill) to risk weighted assets, and of Tier 1 capital to average assets. Management believes that as of June 30, 2016, the Corporation meets all capital adequacy requirements to which it is subject.

	Actual		Minimum Capital Requirement to be Well Capitalized		Minimum Capital Requirement to be Adequately Capitalized	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
June 30, 2016						
Citizens Holding Company						
Tier 1 leverage ratio	\$ 91,461	9.23%	\$ 49,562	5.00%	\$ 39,650	4.00%
Common Equity tier 1 capital ratio	91,461	9.23%	64,430	6.50%	44,606	4.50%
Tier 1 risk-based capital ratio	91,461	17.45%	41,942	8.00%	31,457	6.00%
Total risk-based capital ratio	96,270	18.36%	52,428	10.00%	41,942	8.00%
December 31, 2015						
Citizens Holding Company						
Tier 1 leverage ratio	\$ 90,392	9.26%	\$ 48,822	5.00%	\$ 39,058	4.00%
Common Equity tier 1 capital ratio	90,392	9.26%	63,469	6.50%	43,940	4.50%
Tier 1 risk-based capital ratio	90,392	16.37%	44,175	8.00%	33,131	6.00%
Total risk-based capital ratio	96,866	17.54%	55,219	10.00%	44,175	8.00%

The Dodd-Frank Act requires the Federal Reserve Bank (FRB), the Office of the Comptroller of the Currency (OCC) and the FDIC to adopt regulations imposing a continuing floor on the risk based capital requirements. In December 2010, the Basel Committee released a final framework for a strengthened set of capital requirements, known as Basel III . In early July 2013, each of the U.S. federal banking agencies adopted final rules relevant to us: (1) the Basel III regulatory capital reforms; and (2) the standardized approach of Basel II for non-core banks and bank holding companies , such as the Bank and the Corporation. The capital framework under Basel III will replace the existing regulatory capital rules for all banks, savings associations and U.S. bank holding companies with greater than \$500 million in total assets, and all savings and loan holding companies.

Table of Contents

Beginning January 1, 2015, the Corporation and the Bank were required to comply with the final Basel III rules, although the rules will not be fully phased-in until January 1, 2019. Among other things, the final Basel III rules will impact regulatory capital ratios of banking organizations in the following manner, when fully phased-in:

Create a new requirement to maintain a ratio of common equity Tier 1 capital to total risk-weighted assets of not less than 4.5%;

Increase the minimum leverage capital ratio to 4% for all banking organizations (currently 3% for certain banking organizations);

Increase the minimum Tier 1 risk-based capital ratio from 4% to 6%; and

Maintain the minimum total risk-based capital ratio at 8%.

In addition, the final Basel III rules, when fully phased-in, will subject a banking organization to certain limitations on capital distributions and discretionary bonus payments to executive officers if the organization did not maintain a capital conservation buffer of common equity Tier 1 capital in an amount greater than 2.5% of its total risk-weighted assets. The effect of the capital conservation buffer, when fully phased-in, will be to increase the minimum common equity Tier 1 capital ratio to 7%, the minimum Tier 1 risk-based capital ratio to 8.5% and the minimum total risk-based capital ratio to 10.5% for banking organizations seeking to avoid the limitations on capital distributions and discretionary bonus payments to executive officers.

The final Basel III rules also changed the capital categories for insured depository institutions for purposes of prompt corrective action. Under the final rules, to be well capitalized, an insured depository institution must maintain a minimum common equity Tier 1 capital ratio of at least 6.5%, a Tier 1 risk-based capital ratio of at least 8%, a total risk-based capital ratio of at least 10.0%, and a leverage capital ratio of at least 5%. In addition, the final Basel III rules established more conservative standards for including an instrument in regulatory capital and imposed certain deductions from and adjustments to the measure of common equity Tier 1 capital.

Management believes that, as of June 30, 2016, the Corporation and the Bank would meet all capital adequacy requirements under Basel III and the banking agencies' proposals on a fully phased-in basis, if such requirements were currently effective. The changes to the calculation of risk-weighted assets required by Basel III did not have a material impact on the Corporation's capital ratios as presented. Management will continue to monitor these and any future proposals submitted by the Corporation's and Bank's regulators.

Table of Contents**RESULTS OF OPERATIONS**

The following table sets forth for the periods indicated, certain items in the consolidated statements of income of the Corporation and the related changes between those periods:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2016	2015	2016	2015
Interest Income, including fees	\$ 7,625,334	\$ 7,696,319	\$ 15,205,068	\$ 15,402,390
Interest Expense	755,077	735,674	1,524,137	1,486,858
Net Interest Income	6,870,257	6,960,645	13,680,931	13,915,532
Provision for Loan Losses	(147,048)	81,818	(86,550)	265,994
Net Interest Income after				
Provision for Loan Losses	7,017,305	6,878,827	13,767,481	13,649,538
Other Income	1,908,139	1,851,851	3,723,827	3,603,596
Other Expense	6,655,469	6,321,150	13,299,784	12,808,124
Income Before Provision For				
Income Taxes	2,269,975	2,409,528	4,191,524	4,445,010
Provision for Income Taxes	490,972	580,941	886,351	1,022,877
Net Income	\$ 1,779,003	\$ 1,828,587	\$ 3,305,173	\$ 3,422,133
Net Income Per share Basic	\$ 0.36	\$ 0.37	\$ 0.68	\$ 0.70
Net Income Per Share-Diluted	\$ 0.36	\$ 0.37	\$ 0.68	\$ 0.70

See Note 3 to the Corporation's Consolidated Financial Statements for an explanation regarding the Corporation's calculation of Net Income Per Share basic and diluted.

Annualized return on average equity (ROE) was 7.55% for the three months ended June 30, 2016, and 8.71% for the corresponding period in 2015. For the six months ended June 30, 2016, ROE was 7.28% compared to 8.20% for the six months ended June 30, 2015. In both instances, the decrease in ROE was caused by the increase in equity balances for both periods.

The book value per share increased to \$19.05 at June 30, 2016, compared to \$17.73 at December 31, 2015. The increase in book value per share reflects the amount of earnings in excess of dividends and a decrease in other comprehensive loss due to the increase in fair value of the Corporation's investment securities. Average assets for the six months ended June, 2016, were \$988,755,801 compared to \$945,269,885 for the year ended December 31, 2015.

Table of Contents**NET INTEREST INCOME / NET INTEREST MARGIN**

One component of the Corporation's earnings is net interest income, which is the difference between the interest and fees earned on loans and investments and the interest paid for deposits and borrowed funds. The net interest margin is net interest income expressed as a percentage of average earning assets.

The annualized net interest margin was 3.12% for the quarter ended June 30, 2016 compared to 3.39% for the corresponding period of 2015. For the six months ended June 30, 2016, annualized net interest margin was 3.12% compared to 3.41% for the six months ended June 30, 2015. The decrease in net interest margin for both periods ended June 30, 2016, when compared to the same periods in 2015, was the result of the decrease in yields on earning assets exceeding the decrease in rates paid on deposits and borrowed funds, as detailed below. Earning assets averaged \$916,422,553 for the three months ended June 30, 2016. This represents an increase of \$69,339,484, or 8.2%, over average earning assets of \$847,083,069 for the three months ended June 30, 2015. The increase in average earning assets for the three months ended June 30, 2016, is the result of an increase in investment securities.

Interest bearing deposits averaged \$624,538,992 for the three months ended June 30, 2016. This represents an increase of \$43,798,742, or 7.5%, from the average of interest bearing deposits of \$580,740,250 for the three months ended June 30, 2015. This was due, in large part, to an increase in interest-bearing NOW, money market accounts and savings accounts partially offset by a decrease in certificates of deposit.

Other borrowed funds averaged \$124,862,780 for the three months ended June 30, 2016. This represents an increase of \$9,684,666, or 8.4%, over the other borrowed funds of \$115,178,114 for the three months ended June 30, 2015. This increase in other borrowed funds was due to a \$9,695,701 increase in the securities sold under agreements to repurchase, a \$13,233 decrease in the Agribusiness Enterprise Loan Liability and offset by a \$2,198 increase in Federal Funds Purchased for the three months ended June 30, 2016, when compared to the three months ended June 30, 2015.

Interest bearing deposits averaged \$621,412,181 for the six months ended June 30, 2016. This represents an increase of \$50,862,721, or 8.9%, from the average of interest bearing deposits of \$570,549,460 for the six months ended June 30, 2015. This was due, in large part, to an increase in interest-bearing NOW, money market accounts and savings accounts, partially offset by a decrease in certificates of deposit.

Other borrowed funds averaged \$123,788,429 for the six months ended June 30, 2016. This represents a decrease of \$1,283,778, or 1.0%, over the other borrowed funds of \$125,072,207 for the six months ended June 30, 2015. This decrease in other borrowed funds was due to a \$1,273,908 decrease in the securities sold under agreements to repurchase, a \$14,113 decrease in the Agribusiness Enterprise Loan Liability and offset by a \$4,243 increase in Federal Funds Purchased for the six months ended June 30, 2016, when compared to the six months ended June 30, 2015.

Table of Contents

Net interest income was \$6,870,257 for the three months ended June 30, 2016, a decrease of \$90,388 from \$6,960,645 for the three months ended June 30, 2015, primarily due to a decrease in interest rates partially offset by an increase in earning assets. The changes in volume in earning assets and in deposits and in borrowed funds are discussed above. As for changes in interest rates in the three months ended June 30, 2016, the yields on earning assets decreased more than the rates paid on deposits and borrowed funds decreased from the same period in 2015. The yield on all interest bearing assets decreased 29 basis points to 3.44% in the three months ended June 30, 2016 from 3.73% for the same period in 2015. At the same time, the rate paid on all interest bearing liabilities for the three months ended June 30, 2016 dropped 3 basis points to 0.40% from 0.43% in the same period in 2015. As longer term interest bearing assets and liabilities mature and reprice, management believes that the yields on interest bearing assets and rates on interest bearing liabilities will both increase.

The following table shows the interest and fees and corresponding yields for loans only.

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2016	2015	2016	2015
Interest and Fees	\$ 4,734,009	\$ 4,988,452	\$ 9,518,514	\$ 9,996,012
Average Gross Loans	408,891,725	406,060,056	414,348,029	403,657,500
Annualized Yield	4.63%	4.91%	4.59%	4.95%

The decrease in interest rates in the three and six months ended June 30, 2016, reflects the decrease in all loan interest rates for both new and refinanced loans in the period.

CREDIT LOSS EXPERIENCE

As a natural corollary to the Corporation's lending activities, some loan losses are to be expected. The risk of loss varies with the type of loan being made and the overall creditworthiness of the borrower over the term of the loan. The degree of perceived risk is taken into account in establishing the structure of, and interest rates and security for, specific loans and for various types of loans. The Corporation attempts to minimize its credit risk exposure by use of thorough loan application and approval procedures.

The Corporation maintains a program of systematic review of its existing loans. Loans are graded for their overall quality. Those loans, which management determines require further monitoring and supervision, are segregated and reviewed on a regular basis. Significant problem loans are reviewed monthly by the Corporation's management and Board of Directors.

The Corporation charges off that portion of any loan that the Corporation's management and Board of Directors has determined to be a loss. A loan is generally considered by management to represent a loss, in whole or in part, when exposure beyond the collateral value is apparent, servicing of the unsecured portion has been discontinued or collection is not anticipated based on the borrower's financial condition. The general economic conditions in the borrower's industry influence this determination. The principal amount of any loan that is declared a loss is charged against the Corporation's allowance for loan losses.

Table of Contents

The Corporation's allowance for loan losses is designed to provide for loan losses that can be reasonably anticipated. The allowance for loan losses is established through charges to operating expenses in the form of provisions for loan losses. Actual loan losses or recoveries are charged or credited to the allowance for loan losses. The Board of Directors determines the amount of the allowance. Among the factors considered in determining the allowance for loan losses are the current financial condition of the Corporation's borrowers and the value of security, if any, for their loans. Estimates of future economic conditions and their impact on various industries and individual borrowers are also taken into consideration, as are the Corporation's historical loan loss experience and reports of banking regulatory authorities. As these estimates, factors and evaluations are primarily judgmental, no assurance can be given as to whether the Corporation will sustain loan losses in excess or below its allowance or that subsequent evaluation of the loan portfolio may not require material increases or decreases in such allowance.

The following table summarizes the Corporation's allowance for loan losses for the dates indicated:

	Quarter Ended June 30, 2016	Year Ended December 31, 2015	Amount of Increase (Decrease)	Percent of Increase (Decrease)
BALANCES:				
Gross Loans	\$ 403,153,556	\$ 430,267,746	\$ (27,114,190)	-6.30%
Allowance for Loan Losses	4,808,995	6,473,703	(1,664,708)	-25.71%
Nonaccrual Loans	12,796,359	14,422,613	(1,626,254)	-11.28%
Ratios:				
Allowance for loan losses to gross loans	1.19%	1.50%		
Net loans charged off to allowance for loan losses	32.82%	9.66%		

The provision for loan losses for the three months ended June 30, 2016, was a negative \$147,048, a decrease of \$228,866 from the \$81,818 provision for the same period in 2015. The provision for loan losses for the six months ended June 30, 2016, was a negative \$86,550, a decrease of \$352,544 from the \$265,994 provision for the same period in 2015. The change in The Corporation's loan loss provisions for the three and six months ended June 30, 2016 is a result of management's assessment of inherent loss in the loan portfolio, including the impact caused by current local, national and international economic conditions. The Corporation's model used to calculate the provision is based on the percentage of historical charge-offs applied to the current loan balances by loan segment and specific reserves applied to certain impaired loans. Nonaccrual loans decreased during this period due to the amount of payments received and loans charged off in excess of new loans being added to the nonaccrual loan list.

Table of Contents

For the three months ended June 30, 2016, net loan losses charged to the allowance for loan losses totaled \$52,699, an increase of \$37,973 from the \$14,726 charged off in the same period in 2015. For the six months ended June 30, 2016, net loan losses charged to the allowance for loan losses totaled \$1,578,158, an increase of \$1,462,752 from the \$115,406 charged off in the same period in 2015. The net loan losses for the six-month period ended June 30, 2016 contained a \$1,523,401 loss on a single, long-term commercial real estate loan that the Corporation had previously provided for a specific reserve against this loss through the provision for loan loss.

Management reviews quarterly with the Corporation's Board of Directors the adequacy of the allowance for loan losses. The loan loss provision is adjusted when specific items reflect a need for such an adjustment. Management believes that there were no material loan losses during the six months ended June 30, 2016 that have not been charged off. Management also believes that the Corporation's allowance will be adequate to absorb probable losses inherent in the Corporation's loan portfolio. However, it remains possible that additional provisions for loan loss may be required.

Table of Contents**OTHER INCOME**

Other income includes service charges on deposit accounts, wire transfer fees, safe deposit box rentals and other revenue not derived from interest on earning assets. Other income for the three months ended June 30, 2016 was \$1,908,139, an increase of \$56,288, or 3.0%, from \$1,851,851 the same period in 2015. Service charges on deposit accounts were \$898,500 in the three months ended June 30, 2016, compared to \$954,093 for the same period in 2015. Other service charges and fees increased by \$43,914, or 7.8%, to \$607,075 in the three months ended June 30, 2016, compared to \$563,161 for the same period in 2015. Other operating income not derived from service charges or fees increased \$67,967, or 20.3% to \$402,564 in the three months ended June 30, 2016, compared to \$334,597 for the same period of 2015.

Other income for the six months ended June 30, 2016 was \$3,723,827, an increase of \$120,231, or 3.3%, from \$3,603,596 for the same period in 2015. Service charges on deposit accounts were \$1,785,304 in the six months ended June 30, 2016, compared to \$1,840,877 for the same period in 2015. Other service charges and fees increased by \$98,483, or 9.0%, to \$1,193,497 in the six months ended June 30, 2016, compared to \$1,095,014 for the same period in 2015. Other operating income not derived from service charges or fees increased \$77,321, or 11.6% to \$745,026 in the six months ended June 30, 2016, compared to \$667,705 for the same period of 2015.

The following is a detail of the other major income classifications that are included in other operation income on the income statement:

	Three months		Six months	
	Ended June 30,		Ended June 30,	
	2016	2015	2016	2015
Other operating income				
BOLI Insurance	\$ 144,000	\$ 144,000	\$ 280,000	\$ 288,000
Mortgage Loan Origination Income	142,813	78,234	242,629	182,388
Income from security sales, net	37,138		37,138	
Other Income	78,613	112,363	185,259	197,317
Total Other Income	\$ 402,564	\$ 334,597	\$ 745,026	\$ 667,705

OTHER EXPENSES

Other expenses include salaries and employee benefits, occupancy and equipment, and other operating expenses. Aggregate non-interest expenses for the three months ended June 30, 2016 and 2015 were \$6,655,469 and \$6,321,150, respectively, an increase of \$334,319, or 5.3%. Salaries and benefits increased to \$3,478,227 for the three months ended June 30, 2016, from \$3,341,381 for the same period in 2015. Occupancy expense decreased by \$88,722, or 6.8%, to \$1,208,043 for the three months ended June 30, 2016, compared to \$1,296,765 for the same period of 2015. Other operating expenses increased by \$286,195 to \$1,969,199 for the three months ended June 30, 2016, compared to \$1,683,004 for the same period of 2015. A detail of the major expense classifications is set forth below.

Table of Contents

Total non-interest expenses for the six months ended June 30, 2016 and 2015 were \$13,299,784 and \$12,808,124, respectively, an increase of \$491,660, or 3.8% from 2015 to 2016. Salaries and benefits increased to \$6,880,545 for the six months ended June 30, 2016, from \$6,696,684 for the same period in 2015. Occupancy expense decreased by \$59,012, or 2.3%, to \$2,537,247 for the six months ended June 30, 2016, when compared to \$2,596,259 for the same period in 2015. Other operating expenses increased by \$366,811 to \$3,881,992 for the six months ended June 30, 2016, when compared to \$3,515,181 for the same period in 2015. A detail of the major expense classifications is set forth below.

The following is a detail of the major expense classifications that make up the other operating expense line item in the income statement:

Other Operating Expense	Three months ended June 30,		Six months ended June 30,	
	2016	2015	2016	2015
Advertising	183,820	179,984	436,382	389,407
Office Supplies	127,089	116,302	284,872	274,553
Legal and Audit Fees	114,280	14,173	227,177	214,060
Telephone expense	117,342	105,670	218,057	212,101
Postage and Freight	106,871	117,888	237,377	232,136
Loan Collection Expense	245,136	44,019	289,846	91,346
Other Losses	44,405	16,494	211,134	181,748
Regulatory and related expense	209,879	192,798	419,200	380,978
Debit Card/ATM expense	99,207	112,020	187,727	197,844
Travel and Convention	61,794	75,546	138,315	141,239
Other expenses	659,376	708,110	1,231,905	1,199,769
Total Other Expense	\$ 1,969,199	\$ 1,683,004	\$ 3,881,992	\$ 3,515,181

The Corporation's efficiency ratio for the three months ended June 30, 2016, was 73.92% compared to the 69.80% for the same period in 2015. For the six months ended June 30, 2016 and 2015, the Corporation's efficiency ratio was 74.40% and 71.15%, respectively. The efficiency ratio is the ratio of non-interest expenses divided by the sum of net interest income (on a fully tax equivalent basis) and non-interest income.

Table of Contents**BALANCE SHEET ANALYSIS**

	June 30, 2016	December 31, 2015	Amount of Increase (Decrease)	Percent of Increase (Decrease)
Cash and Due From Banks	\$ 24,334,437	\$ 14,947,690	\$ 9,386,747	62.80%
Interest Bearing deposits with Other Banks	17,457,142	42,267,777	(24,810,635)	-58.70%
Investment Securities	513,908,369	428,307,807	85,600,562	19.99%
Loans, net	397,558,888	423,108,391	(25,549,503)	-6.04%
Premises and Equipment	18,302,910	18,655,691	(352,781)	-1.89%
Total Assets	1,014,585,080	973,504,542	41,080,538	4.22%
Total Deposits	779,658,600	753,404,788	26,253,812	3.48%
Total Shareholders Equity	92,884,860	86,425,336	6,459,524	7.47%

CASH AND CASH EQUIVALENTS

Cash and cash equivalents, which consist of cash, balances at correspondent banks and items in process of collection, balance at June 30, 2016 was \$24,334,437, which was an increase of \$9,386,747 from the balance of \$14,947,690 at December 31, 2015. The increase was due to an increase in the balances at correspondent banks due to an increase in the amount of checks drawn on other banks in the normal process of clearing funds between these banks.

INVESTMENT SECURITIES

The Corporation's investment securities portfolio primarily consists of United States agency debentures, mortgage-backed securities and obligations of states, counties and municipalities. The Corporation's investment securities portfolio at June 30, 2016, increased by \$85,600,562, or 20.0%, to \$513,908,369 from \$428,307,807 at December 31, 2015. This increase was due to additional purchases of mortgage backed securities, agency and state county and municipal securities, which was partially funded by decreasing the Corporation's balances at correspondent banks and by changes in the market value of the Corporation's investment securities portfolio.

LOANS

The Corporation's loan balance decreased by \$25,549,503 during the six months ended June 30, 2016, to \$397,558,888 from \$423,108,391 at December 31, 2015. Loan demand weakened, especially in business loan and consumer loan categories, and competition for available loans continued to be strong during the six months ended June 30, 2016. No material changes were made to the loan products offered by the Corporation during this period.

Table of Contents**PREMISES AND EQUIPMENT**

During the six months ended June 30, 2016, the Corporation's premises and equipment decreased by \$352,781, or 1.9%, to \$18,302,910 from \$18,655,691 at December 31, 2015. The decrease was due to depreciation expense exceeding the amount of property and equipment added for the period.

DEPOSITS

The following table shows the balance and percentage change in the various deposits:

DEPOSITS

	June 30, 2016	December 31, 2015	Amount of Increase (Decrease)	Percent of Increase (Decrease)
Noninterest-Bearing Deposits	\$ 150,964,393	\$ 148,724,257	\$ 2,240,136	1.51%
Interest-Bearing Deposits	353,081,295	323,381,170	29,700,125	9.18%
Savings Deposits	73,099,371	70,534,886	2,564,485	3.64%
Certificates of Deposit	202,513,541	210,764,475	(8,250,934)	-3.91%
Total deposits	\$ 779,658,600	\$ 753,404,788	\$ 26,253,812	3.48%

Interest-bearing and noninterest-bearing deposits and savings increased while certificates of deposit decreased during the six months ended June 30, 2016. Management continually monitors the interest rates on loan and deposit products to ensure that the Corporation is in line with the rates dictated by the market and our asset and liability management objectives. These rate adjustments impact deposit balances.

OFF-BALANCE SHEET ARRANGEMENTS

Please refer to Note 2 to the consolidated financial statements included in this Quarterly Report for a discussion of the nature and extent of the Corporation's off-balance sheet arrangements, which consist solely of commitments to fund loans and letters of credit.

CONTRACTUAL OBLIGATIONS

There have been no material changes outside of the ordinary course of the Corporation's business to the contractual obligations set forth in Note 12 to the Corporation's financial statements contained in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2015.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

The following discussion of operations outlines specific risks that could affect the Corporation's ability to compete, change the Corporation's risk profile or eventually impact the Corporation's financial condition or results. The risks the Corporation faces generally are similar to those experienced, to varying degrees, by all financial services companies.

The Corporation's strategies and its management's ability to react to changing competitive and economic environments have historically enabled the Corporation to compete effectively and manage risks to acceptable levels. The Corporation has outlined potential risks below that it presently believes could be important; however, other risks may prove to be important in the future. New risks may emerge at any time and the Corporation cannot predict with certainty all potential developments that could affect the Corporation's financial condition or results of operation. The following discussion highlights potential risks, which could intensify over time or shift dynamically in a way that might change the Corporation's risk profile.

Competition Risks

The market in which the Corporation competes is saturated with community banks seeking to provide a service-oriented banking experience to individuals and businesses compared with what the Corporation believes is the more rigid and less friendly environment found in larger banks. This requires the Corporation to offer most, if not all, of the products and conveniences that are offered by the larger banks, but with a service differentiation. In doing so, it is imperative that the Corporation identify the lines of business that the Corporation can excel in, prudently utilize the Corporation's available capital to acquire the people and platforms required thereof, and execute on the strategy.

Credit Risks

Like all lenders, the Corporation faces the risk that the Corporation's customers may not repay their loans and that the realizable value of collateral may be insufficient to avoid a loss of principal. In the Corporation's business, some level of credit loss is unavoidable and overall levels of credit loss can vary over time. The Corporation's ability to manage credit risk depends primarily upon the Corporation's ability to assess the creditworthiness of customers and the value of collateral, including real estate. The Corporation controls credit risk by diversifying the Corporation's loan portfolio and managing its composition, and by recording and managing an allowance for expected loan losses in accordance with applicable accounting rules. At the end of June 30, 2016, the Corporation had approximately \$4.8 million of available reserves to cover such losses. The models and approaches the Corporation uses to originate and manage loans are regularly reviewed, if necessary or advisable, updated to take into account changes in the competitive environment, in real estate prices and other collateral values, and in the economy, among other things, based on the Corporation's experience originating loans and servicing loan portfolios.

Table of Contents

Financing, Funding and Liquidity Risks

One of the most important aspects of management's efforts to sustain long-term profitability for the Corporation is the management of interest rate risk. Management's goal is to maximize net interest income within acceptable levels of interest-rate risk and liquidity.

The Corporation's assets and liabilities are principally financial in nature and the resulting earnings thereon are subject to significant variability due to the timing and extent to which the Corporation can reprice the yields on interest-earning assets and the costs of interest bearing liabilities as a result of changes in market interest rates. Interest rates in the financial markets affect the Corporation's decisions on pricing its assets and liabilities, which impacts net interest income, an important cash flow stream for the Corporation. As a result, a substantial part of the Corporation's risk-management activities are devoted to managing interest-rate risk. Currently, the Corporation does not have any significant risks related to foreign currency exchange, commodities or equity risk exposures.

Interest Rate and Yield Curve Risks

A significant portion of the Corporation's business involves borrowing and lending money. Accordingly, changes in interest rates directly impact the Corporation's revenues and expenses, and potentially could compress the Corporation's net interest margin. The Corporation actively manages its balance sheet to control the risks of a reduction in net interest margin brought about by ordinary fluctuations in rates.

Like all financial services companies, the Corporation faces the risk of abnormalities in the yield curve. The yield curve shows the interest rates applicable to short and long term debt. The curve is steep when short-term rates are much lower than long-term rates, it is flat when short-term rates are equal, or nearly equal, to long-term rates, and it is inverted when short-term rates exceed long-term rates. Historically, the yield curve has been positively sloped. A flat or inverted yield curve tends to decrease net interest margin, as funding costs increase relative to the yield on assets. Currently, the yield curve is positively sloped.

Regulatory and Legal Risks

The Corporation operates in a heavily regulated industry and therefore is subject to many banking, deposit, and consumer lending laws as well as the rules and regulations promulgated by the FDIC, FRB, Securities and Exchange Commission and the NASDAQ stock market. Failure to comply with applicable regulations could result in financial or operational penalties. In addition, efforts to comply with applicable regulations may increase the Corporation's costs and/or limit the Corporation's ability to pursue certain business opportunities. Federal and state regulations significantly limit the types of activities in which the Corporation, as a financial institution, may engage. In addition, the Corporation is subject to a wide array of other regulations that govern other aspects of how the Corporation conducts business, such as in the areas of employment and intellectual property. Federal and state legislative and regulatory authorities occasionally consider changing these regulations or adopting new ones. Such actions could limit the amount of interest or fees the Corporation can charge, could restrict the

Table of Contents

Corporation's ability to collect loans or realize on collateral or could materially affect us in other ways. Additional federal and state consumer protection regulations could also expand the privacy protections afforded to customers of financial institutions, restricting the Corporation's ability to share or receive customer information and increasing the Corporation's costs. In addition, changes in accounting rules can significantly affect how the Corporation records and reports assets, liabilities, revenues, expenses and earnings.

The Corporation also faces litigation risks from customers (individually or in class actions) and from federal or state regulators. Litigation is an unavoidable part of doing business, and the Corporation manages those risks through internal controls, personnel training, insurance, litigation management, the Corporation's compliance and ethics processes and other means. However, the commencement, outcome and magnitude of litigation cannot be predicted or controlled with any certainty.

Accounting Estimate Risks

The preparation of the Corporation's consolidated financial statements in conformity with GAAP requires management to make significant estimates that affect the financial statements. The Corporation's most critical estimate is the level of the allowance for credit losses. However, other estimates occasionally become highly significant, especially in volatile situations such as litigation and other loss contingency matters. Estimates are made at specific points in time as actual events unfold, estimates are adjusted accordingly. Due to the inherent nature of these estimates, it is possible that, at some time in the future, the Corporation may significantly increase the allowance for credit losses or sustain credit losses that are significantly higher than the provided allowance, or the Corporation may make some other adjustment that will differ materially from the estimates that the Corporation previously made.

Expense Control

Expenses and other costs directly affect the Corporation's earnings. The Corporation's ability to successfully manage expenses is important to its long-term profitability. Many factors can influence the amount of the Corporation's expenses, as well as how quickly they grow. As the Corporation's businesses change or expand, additional expenses can arise from asset purchases, structural reorganization, evolving business strategies, and changing regulations, among other things. The Corporation manages expense growth and risk through a variety of means, including actual versus budget management, imposition of expense authorization, and procurement coordination and processes.

Table of Contents

ITEM 4. CONTROLS AND PROCEDURES.

The management of the Corporation, with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of our disclosure controls and procedures in ensuring that the information required to be disclosed in our filings under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, including ensuring that such information is accumulated and communicated to the Corporation's management as appropriate to allow timely decision regarding required disclosure. Based on such evaluation, our principal executive officer and principal financial officer have concluded that such disclosure controls and procedures were effective as of June 30, 2016 (the end of the period covered by this Quarterly Report).

There were no changes to the Corporation's internal control over financial reporting that occurred in the six months ended June 30, 2016, that have materially affected, or are reasonably likely to materially affect, the Corporation's internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

The Corporation is a party to lawsuits and other claims that arise in the ordinary course of business, all of which are being vigorously contested. In the regular course of business, management evaluates estimated losses or costs related to litigation, and provisions are made for anticipated losses whenever management believes that such losses are probable and can be reasonably estimated. At the present time, management believes, based on the advice of legal counsel, that the final resolution of pending legal proceedings will not likely have a material impact on the Corporation's consolidated financial condition or results of operations.

ITEM 1A. RISK FACTORS.

The Corporation's business, future financial condition and results of operations are subject to a number of factors, risks and uncertainties, which are disclosed in Item 1A, Risk Factors, in Part I of our Annual Report on Form 10-K for the year ended December 31, 2015, which the Corporation filed with the Securities and Exchange Commission on March 15, 2016. Additional information regarding some of those risks and uncertainties is contained in the notes to the condensed consolidated financial statements appearing in Part I, Item 1 of this Quarterly Report, in Management's Discussion and Analysis of Financial Condition and Results of Operations appearing in Part I, Item 2 of this Quarterly Report and in Quantitative and Qualitative Disclosures About Market Risk appearing in Part I, Item 3 of this Quarterly Report. The risks and uncertainties disclosed in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2015, the Corporation's quarterly reports on Form 10-Q and other reports filed with the SEC are not necessarily all of the risks and uncertainties that may affect the Corporation's business, financial condition and results of operations in the future.

There have been no material changes to the risk factors as disclosed in the Corporation's Annual Report on Form 10-K for the Corporation's year ended December 31, 2015.
