Form 10-Q
August 11, 2017

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

**QUARTERLY REPORT PURSUANT TO SECTION 13 or 15 (D) OF THE SECURITIES EXCHANGE
ACT OF 1934**

For the quarterly period ended June 30, 2017

or

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE
ACT OF 1934**

Commission File Number 001-12103

PEOPLES FINANCIAL CORPORATION

(Exact name of registrant as specified in its charter)

**Mississippi
(State or other jurisdiction)**

**64-0709834
(I.R.S. Employer)**

of incorporation or organization)

Identification No.)

Lameuse and Howard Avenues, Biloxi, Mississippi

39533

(Address of principal executive offices)

(Zip Code)

(228) 435-5511

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files.) Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Emerging growth Company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the last practicable date. Peoples Financial Corporation has only one class of common stock authorized. At July 31, 2017, there were 15,000,000 shares of \$1 par value common stock authorized, with 5,123,186 shares issued and outstanding.

PEOPLES FINANCIAL CORPORATION AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

For the Six Months Ended June 30, 2017 and 2016

1. Basis of Presentation:

Peoples Financial Corporation (the Company) is a one-bank holding company headquartered in Biloxi, Mississippi. It has two operating subsidiaries, PFC Service Corp., an inactive company, and The Peoples Bank, Biloxi, Mississippi (the Bank). The Bank provides a full range of banking, financial and trust services to state, county and local government entities and individuals and small and commercial businesses operating in those portions of Mississippi, Louisiana and Alabama which are within a fifty mile radius of the Waveland, Wiggins and Gautier branches, the Bank's three most outlying locations (the trade area).

The accompanying unaudited consolidated financial statements and notes thereto contain all adjustments, consisting only of normal recurring adjustments, necessary to present fairly, in accordance with accounting principles generally accepted in the United States of America (GAAP), the financial position of the Company and its subsidiaries as of June 30, 2017 and the results of their operations and their cash flows for the periods presented. The interim financial information should be read in conjunction with the annual consolidated financial statements and the notes thereto included in the Company's 2016 Annual Report and Form 10-K.

The results of operations for the quarter or six months ended June 30, 2017, are not necessarily indicative of the results to be expected for the full year.

Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Material estimates common to the banking industry that are particularly susceptible to significant change in the near term include, but are not limited to, the determination of the allowance for loan losses, the valuation of other real estate acquired in connection with foreclosure or in satisfaction of loans and valuation allowances associated with the realization of deferred tax assets, which are based on future taxable income.

Summary of Significant Accounting Policies - The accounting and reporting policies of the Company conform to GAAP and general practices within the banking industry. There have been no material changes or developments in the application of principles or in our evaluation of the accounting estimates and the underlying assumptions or methodologies that we believe to be Critical Accounting Policies as disclosed in our Form 10-K for the year ended December 31, 2016.

New Accounting Pronouncements - In January 2017, the Financial Accounting Standards Board (the FASB) issued Accounting Standards Update (ASU) 2017-03, *Accounting Changes and Error Corrections (Topic 250) and Investments - Equity Method and Joint Ventures (Topic 323): Amendments to SEC Paragraphs Pursuant to Staff Announcements at the September 22, 2016*

and November 17, 2016 EITF Meetings. ASU 2017-03 incorporates into the Accounting Standards Codification recent SEC guidance about disclosing the effect on financial statements of adopting the revenue, leases and credit losses standards. This update is effective upon issuance. The adoption of this ASU is not expected to have a material effect on the Company's financial position, results of operations or cash flows.

In February 2017, the FASB issued ASU 2017-05, *Other Income – Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20): Clarifying the Scope of Asset Derecognition Guidance and Accounting for Partial Sales of Nonfinancial Assets*. ASU 2017-05 conforms the derecognition guidance on nonfinancial assets with the model for transactions the new revenue standard. This update will be effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017. The adoption of this ASU is not expected to have a material effect on the Company's financial position, results of operations or cash flows.

In March 2017, the FASB issued ASU 2017-07, *Compensation – Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*. ASU 2017-07 amends the requirements related to the income statement presentation of the components of net periodic benefit cost for an entity's sponsored defined benefit pension and other postretirement plans. This update will be effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017. The adoption of this ASU is not expected to have a material effect on the Company's financial position, results of operations or cash flows.

In March 2017, the FASB issued ASU 2017-08, *Receivables – Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities*. ASU 2017-08 shortens the amortization period for the premium on such securities to the earliest call date. This update will be effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. The adoption of this ASU is not expected to have a material effect on the Company's financial position, results of operations or cash flows.

2. Earnings Per Share:

Per share data is based on the weighted average shares of common stock outstanding of 5,123,186 for the quarters and six months ended June 30, 2017 and 2016.

3. Statements of Cash Flows:

The Company has defined cash and cash equivalents as cash and due from banks. The Company paid \$627,233 and \$507,061 for the six months ended June 30, 2017 and 2016, respectively, for interest on deposits and borrowings. No income tax payments were made during the six months ended June 30, 2017. Income tax payments of \$78,435 were made during the six months ended June 30, 2016. Loans transferred to other real estate amounted to \$44,391 and \$853,758 during the six months ended June 30, 2017 and 2016, respectively.

4. Investments:

The amortized cost and fair value of securities at June 30, 2017 and December 31, 2016, are as follows (in thousands):

| June 30, 2017 | Amortized Cost | Gross Unrealized Gains | Gross Unrealized Losses | Fair Value |

| Corporate bond | | | 1,462 | 2 | 1,462 | 2 |
| TOTAL | \$ 184,402 | \$ 4,843 | \$ 2,051 | \$ 3 | \$ 186,453 | \$ 4,846 |

At June 30, 2017, 21 of 26 securities issued by the U.S. Treasury, 3 of the 6 securities issued by U.S. Government agencies, 30 of the 136 securities issued by states and political subdivisions and 10 of the 26 mortgage-backed securities contained unrealized losses.

Management evaluates securities for other-than-temporary impairment on a monthly basis. In performing this evaluation, the length of time and the extent to which the fair value has been less than cost, the fact that the Company's securities are primarily issued by U.S. Treasury and U.S. Government Agencies and the cause of the decline in value are considered. In addition, the Company does not intend to sell and it is not more likely than not that it will be required to sell these securities before maturity. While some available for sale securities have been sold for liquidity purposes or for gains, the Company has traditionally held its securities, including those classified as available for sale, until maturity. As a result of the evaluation of these securities, the Company has determined that the unrealized losses summarized in the tables above are not deemed to be other-than-temporary.

Proceeds from sales and calls of available for sale securities were \$23,703,484 and \$21,250,806 during the six months ended June 30, 2017 and 2016, respectively. Available for sale debt securities were sold or called for a realized gain of \$136,781 and \$90,738 for the six months ended June 30, 2017 and 2016, respectively.

Securities with a fair value of \$186,710,004 and \$180,659,168 at June 30, 2017 and December 31, 2016, respectively, were pledged to secure public deposits, federal funds purchased and other balances required by law.

5. Loans:

The composition of the loan portfolio at June 30, 2017 and December 31, 2016, is as follows (in thousands):

| | June 30, 2017 | December 31, 2016 |
|----------------------------------|-------------------|-------------------|
| Gaming | \$ 19,278 | \$ 31,311 |
| Residential and land development | 273 | 291 |
| Real estate, construction | 30,978 | 32,503 |
| Real estate, mortgage | 191,817 | 206,172 |
| Commercial and industrial | 37,319 | 37,035 |
| Other | 6,804 | 8,043 |
| Total | \$ 286,469 | \$ 315,355 |

The age analysis of the loan portfolio, segregated by class of loans, as of June 30, 2017 and December 31, 2016, is as follows (in thousands):

| | Number of Days Past Due | | | Total Past Due | Current | Total Loans | Loans Past Due Greater Than 90 Days & Still Accruing |
|----------------------------------|-------------------------|-----------------|------------------|----------------------|-------------------|-------------------|---|
| | 30 - 59 | 60 - 89 | Than 90 | | | | |
| June 30, 2017: | | | | | | | |

| Commercial and industrial | 867 | | 8 | 875 | 36,160 | 37,035 | |
| Other | 44 | 36 | 80 | 160 | 7,883 | 8,043 | |
| Total | \$ 6,421 | \$ 2,175 | \$ 5,932 | \$ 14,528 | \$ 300,827 | \$ 315,355 | \$ |

The Company monitors the credit quality of its loan portfolio through the use of a loan grading system. A score of 1 5 is assigned to the loan on factors including repayment ability, trends in net worth and/or financial condition of the borrower and guarantors, employment stability, management ability, loan to value fluctuations, the type and structure of the loan, conformity of the loan to bank policy and payment performance. Based on the total score, a loan grade of A, B, C, S, D, E or F is applied. A grade of A will generally be applied to loans for customers that are well known to the Company and that have excellent sources of repayment. A grade of B will generally be applied to loans for customers that have excellent sources of repayment which have no identifiable risk of collection. A grade of C will generally be applied to loans for customers that have adequate sources of repayment which have little identifiable risk of collection. A grade of S will generally be applied to loans for customers who meet the criteria for a grade of C but also warrant additional monitoring by placement on the watch list. A grade of D will generally be applied to loans for customers that are inadequately protected by current sound net worth, paying capacity of the borrower, or pledged collateral. Loans with a grade of D have unsatisfactory characteristics such as cash flow deficiencies, bankruptcy filing by the borrower or dependence on the sale of collateral for the primary source of repayment, causing more than acceptable levels of risk. Loans 60 to 89 days past due receive a grade of D. A grade of E will generally be applied to loans for customers with weaknesses inherent in the D classification and in which collection or liquidation in full is questionable. In addition, on a monthly basis the Company determines which loans are 90 days or more past due and assigns a grade of E to them. A grade of F is applied to loans which are considered uncollectible and of such little value that their continuance in an active bank is not warranted. Loans with this grade are charged off, even though partial or full recovery may be possible in the future.

An analysis of the loan portfolio by loan grade, segregated by class of loans, as of June 30, 2017 and December 31, 2016, is as follows (in thousands):

| | Loans With A Grade Of: | | | | | Total |
|----------------------------------|------------------------|------------------|------------------|------------------|-----------|-------------------|
| | A, B or C | S | D | E | F | |
| June 30, 2017: | | | | | | |

| Total | \$ 238,858 | \$ 39,766 | \$ 24,327 | \$ 12,404 | \$ | \$ 315,355 |

A loan may be impaired but not on nonaccrual status when the loan is well secured and in the process of collection. Total loans on nonaccrual as of June 30, 2017 and December 31, 2016, are as follows (in thousands):

| | June 30, 2017 | December 31, 2016 |
|----------------------------------|---------------|-------------------|
| Residential and land development | \$ 273 | \$ 291 |
| Real estate, construction | 1,651 | 1,598 |
| Real estate, mortgage | 10,822 | 9,445 |
| Commercial and industrial | 955 | 515 |
| Other | 4 | 5 |
| Total | \$ 13,705 | \$ 11,854 |

Prior to 2016, certain loans were modified by granting interest rate concessions to these customers with such loans being classified as troubled debt restructurings. During 2016 and 2017, the Company did not restructure any additional loans. Specific reserves of \$92,000 and \$100,000 were allocated to troubled debt restructurings as of June 30, 2017 and December 31, 2016, respectively. The Bank had no commitments to lend additional amounts to customers with outstanding loans classified as troubled debt restructurings as of June 30, 2017 and December 31, 2016.

Impaired loans, which include loans classified as nonaccrual and troubled debt restructurings, segregated by class of loans, as of June 30, 2017 and December 31, 2016, are as follows (in thousands):

| | Unpaid Principal Balance | Recorded Investment | Related Allowance | Average Recorded Investment | Interest Income Recognized |

7. Deposits:

Time deposits of \$100,000 or more at June 30, 2017 and December 31, 2016 included brokered deposits of \$5,000,000, which mature in 2017.

Time deposits of \$250,000 or more totaled approximately \$29,260,000 and \$25,143,000 at June 30, 2017 and December 31, 2016, respectively.

8. Fair Value Measurements and Disclosures:

The Company utilizes fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. Available for sale securities are recorded at fair value on a recurring basis. Additionally, from time to time, the Company may be required to record other assets at fair value on a non-recurring basis, such as impaired loans and ORE. These non-recurring fair value adjustments typically involve application of lower of cost or market accounting or write-downs of individual assets. Additionally, the Company is required to disclose, but not record, the fair value of other financial instruments.

Fair Value Hierarchy

The Company groups assets and liabilities at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

Level 1 - Valuation is based upon quoted prices for identical instruments traded in active markets.

Level 2 - Valuation is based upon quoted market prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market.

Level 3 - Valuation is generated from model-based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include the use of option pricing models, discounted cash flow models and similar techniques.

Following is a description of valuation methodologies used to determine the fair value of financial assets and liabilities.

Cash and Due from Banks

The carrying amount shown as cash and due from banks approximates fair value.

Available for Sale Securities

The fair value of available for sale securities is based on quoted market prices. The Company's available for sale securities are reported at their estimated fair value, which is determined utilizing several sources. The primary source is Interactive Data Corporation, which utilizes pricing models that vary based on asset class and include available trade, bid and other market information and whose methodology includes broker quotes, proprietary models and vast descriptive databases. Another source for determining fair value is matrix pricing, which is a mathematical technique used widely in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark securities. The Company's available for sale securities for which fair value is determined through the use of such pricing models and matrix pricing are classified as Level 2 assets. If the fair value of available for sale securities is generated through model-based techniques, including the discounting of estimated cash flows, such securities are classified as Level 3 assets.

Held to Maturity Securities

The fair value of held to maturity securities is based on quoted market prices.

Other Investments

The carrying amount shown as other investments approximates fair value.

Federal Home Loan Bank Stock

The carrying amount shown as Federal Home Loan Bank Stock approximates fair value.

Loans

The fair value of fixed rate loans is estimated by discounting the future cash flows using the current rates at which similar loans would be made to borrowers with similar credit ratings for the remaining maturities. The cash flows considered in computing the fair value of such loans are segmented into categories relating to the nature of the contract and collateral based on contractual principal maturities. Appropriate adjustments are made to reflect probable credit losses. Cash flows have not been adjusted for such factors as prepayment risk or the effect of the maturity of balloon notes. The fair value of floating rate loans is estimated to be its carrying value. At each reporting period, the Company determines which loans are impaired. Accordingly, the Company's impaired loans are reported at their estimated fair value on a non-recurring basis. An allowance for each impaired loan, which are generally collateral-dependent, is calculated based on the fair value of its collateral. The fair value of the collateral is based on appraisals performed by third-party valuation specialists. Factors including the assumptions and techniques utilized by the appraiser are considered by Management. If the recorded investment in the impaired loan exceeds the measure of fair value of the collateral, a valuation allowance is recorded as a component of the allowance for loan losses. Impaired loans are non-recurring Level 3 assets.

Other Real Estate

In the course of lending operations, Management may determine that it is necessary to foreclose on the related collateral. Other real estate acquired through foreclosure is carried at fair value, less estimated costs to sell. The fair value of the collateral is based on appraisals performed by third-party valuation specialists. Factors including the assumptions and techniques utilized by the appraiser are considered by Management. If the current appraisal is more than one year old and/or the loan balance is more than \$200,000, a new appraisal is obtained. Otherwise, the Bank's in-house property evaluator and Management will determine the fair value of the collateral, based on comparable sales, market conditions, Management's plans for disposition and other estimates of fair value obtained from principally independent sources, adjusted for estimated selling costs. Other real estate is a non-recurring Level 3 asset.

Cash Surrender Value of Life Insurance

The carrying amount of cash surrender value of bank-owned life insurance approximates fair value.

Deposits

The fair value of non-interest bearing demand and interest bearing savings and demand deposits is the amount reported in the financial statements. The fair value of time deposits is estimated by discounting the cash flows using current rates of time deposits with similar remaining maturities. The cash flows considered in computing the fair value of such deposits are based on contractual maturities, since approximately 98% of time deposits provide for automatic renewal at current interest rates.

Borrowings from Federal Home Loan Bank

The fair value of Federal Home Loan Bank (FHLB) fixed rate borrowings is estimated using discounted cash flows based on current incremental borrowing rates for similar types of borrowing arrangements. The fair value of FHLB variable rate borrowings is estimated to be its carrying value.

The balances of available for sale securities, which are the only assets measured at fair value on a recurring basis, by level within the fair value hierarchy and by investment type, as of June 30, 2017 and December 31, 2016 are as follows (in thousands):

| | Total | Fair Value Measurements Using | | |
|-----------------------------------|-------------------|----------------------------------|-------------------|-----------|
| | | Level 1 | Level 2 | Level 3 |

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

GENERAL

The Company is a one-bank holding company headquartered in Biloxi, Mississippi. The Company has two operating subsidiaries, PFC Service Corp., an inactive company, and The Peoples Bank, Biloxi, Mississippi (the Bank). The Bank provides a full range of banking, financial and trust services to state, county and local government entities and individuals and small and commercial businesses operating in those portions of Mississippi, Louisiana and Alabama which are within a fifty mile radius of the Waveland, Wiggins and Gautier branches, the Bank's three most outlying locations (the trade area).

The following presents Management's discussion and analysis of the consolidated financial condition and results of operations of Peoples Financial Corporation and Subsidiaries. These comments should be considered in combination with the Consolidated Financial Statements and Notes to Consolidated Financial Statements included in this report on Form 10-Q and the Consolidated Financial Statements, Notes to Consolidated Financial Statements and Management's Discussion and Analysis included in the Company's Form 10-K for the year ended December 31, 2016.

Forward-Looking Information

Congress passed the Private Securities Litigation Act of 1995 in an effort to encourage corporations to provide information about a company's anticipated future financial performance. This act provides a safe harbor for such disclosure which protects the companies from unwarranted litigation if actual results are different from management expectations. This report contains forward-looking statements and reflects industry conditions, company performance and financial results. These forward-looking statements are subject to a number of factors and uncertainties which could cause the Company's actual results and experience to differ from the anticipated results and expectations expressed in such forward-looking statements. Such factors and uncertainties include, but are not limited to: changes in interest rates and market prices, changes in local economic and business conditions, increased competition for deposits and loans, a deviation in actual experience from the underlying assumptions used to determine and establish the allowance for loan losses, changes in the availability of funds resulting from reduced liquidity, changes in government regulations and acts of terrorism, weather or other events beyond the Company's control.

New Accounting Pronouncements

The Financial Accounting Standards Board (FASB) has issued several new accounting standards updates for the first half of 2017 which are disclosed in the Notes to Unaudited Consolidated Financial Statements. The Company does not generally expect that these updates will have a material effect on its financial position or results of operations but the effect of ASU 2016-13 is still being considered.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires Management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company evaluates these estimates and assumptions on an on-going basis using historical experience and other factors, including the current economic environment. We adjust such estimates and assumptions when facts and circumstances dictate. Certain critical accounting policies affect the more significant estimates and assumptions used in the preparation of the consolidated financial statements.

Investments

Investments which are classified as available for sale are stated at fair value. A decline in the market value of an investment below cost that is deemed to be other-than-temporary is charged to earnings for the decline in value deemed to be credit related and a new cost basis in the security is established. The decline in value attributed to non-credit related factors is recognized in other comprehensive income. The determination of the fair value of securities may require Management to develop estimates and assumptions regarding the amount and timing of cash flows.

Allowance for loan losses

The Company's allowance for loan losses (ALL) reflects the estimated losses resulting from the inability of its borrowers to make loan payments. The ALL is established and maintained at an amount sufficient to cover the estimated loss associated with the loan portfolio of the Company as of the date of the financial statements. Credit losses arise not only from credit risk, but also from other risks inherent in the lending process including, but not limited to, collateral risk, operation risk, concentration risk and economic risk. As such, all related risks of lending are considered when assessing the adequacy of the ALL. On a quarterly basis, Management estimates the probable level of losses to determine whether the allowance is adequate to absorb reasonably foreseeable, anticipated losses in the existing portfolio based on our past loan loss experience, known and inherent risk in the portfolio, adverse situations that may affect the borrowers' ability to repay and the estimated value of any underlying collateral and current economic conditions. Management believes that the ALL is adequate and appropriate for all periods presented in these financial statements. If there was a deterioration of any of the factors considered by Management in evaluating the ALL, the estimate of loss would be updated, and additional provisions for loan losses may be required. The analysis divides the portfolio into two segments: a pool analysis of loans based upon a five year average loss history which is updated on a quarterly basis and which may be adjusted by qualitative factors by loan type and a specific reserve analysis for those loans considered impaired under GAAP. All credit relationships with an outstanding balance of \$100,000 or greater that are included in Management's loan watch list are individually reviewed for impairment. All losses are charged to the ALL when the loss actually occurs or when a determination is made that a loss is likely to occur; recoveries are credited to the ALL at the time of receipt.

Other Real Estate

Other real estate (ORE) includes real estate acquired through foreclosure. Each ORE property is carried at fair value, less estimated costs to sell. Fair value is principally based on appraisals performed by third-party valuation specialists. If Management determines that the fair value of a property has decreased subsequent to foreclosure, the Company records a write down which is included in non-interest expense.

Employee Benefit Plans

Employee benefit plan liabilities and pension costs are determined utilizing actuarially determined present value calculations. The valuation of the benefit obligation and net periodic expense is considered critical, as it requires Management and its actuaries to make estimates regarding the amount and timing of expected cash outflows including assumptions about mortality, expected service periods and the rate of compensation increases.

Income Taxes

GAAP requires the asset and liability approach for financial accounting and reporting for deferred income taxes. We use the asset and liability method of accounting for deferred income taxes and provide deferred income taxes for all significant income tax temporary differences. As part of the process of preparing our consolidated financial statements, the Company is required to estimate our income taxes in each of the jurisdictions in which we operate. This process involves estimating our actual current tax exposure together with assessing temporary differences resulting from differing treatment of items, such as the provision for the allowance for loan losses, for tax and financial reporting purposes. These differences result in deferred tax assets and liabilities that are included in our consolidated statement of condition. We must also assess the likelihood that our deferred tax assets will be recovered from future taxable income, and to the extent we believe that recovery is not likely, we must establish a valuation allowance. Significant management judgment is required in determining our provision for income taxes, our deferred tax assets and liabilities and any valuation allowance recorded against our net deferred tax assets. To the extent the Company establishes a valuation allowance or adjusts this allowance in a period, we must include an expense or benefit within the tax provision in the consolidated statement of income.

GAAP Reconciliation and Explanation

This Form 10-Q contains non-GAAP financial measures determined by methods other than in accordance with GAAP. Such non-GAAP financial measures include taxable equivalent interest income and taxable equivalent net interest income. Management uses these non-GAAP financial measures because it believes they are useful for evaluating our operations and performance over periods of time, as well as in managing and evaluating our business and in discussions about our operations and performance. Management believes these non-GAAP financial measures provide users of our financial information with a meaningful measure for assessing our financial results, as well as comparison to financial results for prior periods. These non-GAAP financial measures should not be considered as a substitute for operating results determined in accordance with GAAP and may not be comparable to other similarly titled financial measures used by other companies. A reconciliation of these operating performance measures to GAAP performance measures for the three months and six months ended June 30, 2017 and 2016 is included in the table on the following page.

RECONCILIATION OF NON-GAAP PERFORMANCE MEASURES (In thousands)

| | Three Months Ended June 30 | | Six Months Ended June 30, | |

OVERVIEW

The Company is a community bank serving the financial and trust needs of its customers in our trade area, which is defined as those portions of Mississippi, Louisiana and Alabama which are within a fifty mile radius of the Waveland, Wiggins and Gautier branches, the bank subsidiary's three most outlying locations. Maintaining a strong core deposit base and providing commercial and real estate lending in our trade area are the traditional focuses of the Company. Growth has largely been achieved through de novo branching activity, and it is expected that these strategies will continue to be emphasized in the future.

The Company earned net income of \$1,153,000 for the second quarter of 2017 compared with net income of \$61,000 for the second quarter of 2016 and earned net income of \$1,227,000 for the first two quarters of 2017 compared with net income of \$137,000 for the first two quarters of 2016. Results in 2017 for both time periods were significantly impacted by a non-recurring gain of \$429,000 from the redemption of death benefits on bank owned life insurance and a tax benefit of \$338,000, which reflects a correction to expected refunds for prior years.

Managing the net interest margin in the Company's highly competitive market and in context of larger economic conditions has been very challenging and will continue to be so, for the foreseeable future. Net interest income for the second quarter of 2017 as compared with the second quarter of 2016 decreased \$30,000 as the reduction in interest and fees on loans was offset by the increase in interest and dividends on securities. Net interest income for the two quarters ended June 30, 2017, decreased \$246,000 as the decrease in interest and fees on loans decreased more than the increase in interest and dividends on investments.

Monitoring asset quality, estimating potential losses in our loan portfolio and addressing non-performing loans continue to be emphasized during these difficult economic times, as the local economy continues to negatively impact collateral values and borrowers' ability to repay their loans. The provision for the allowance for loan losses was \$30,000 and \$56,000 for the second quarter and first two quarters of 2017, respectively, compared with \$24,000 and \$137,000, respectively, for the second quarter and first two quarters of 2016. The Company is working diligently to address and reduce its non-performing assets. The Company's nonaccrual loans totaled \$13,705,000 and \$11,854,000 at June 30, 2017 and December 31, 2016, respectively. Most of these loans are collateral-dependent, and the Company has rigorously evaluated the value of its collateral to determine potential losses.

Non-interest income increased \$647,000 and \$546,000 for the second quarter and first two quarters of 2017 as compared with 2016 results as a result of the gain discussed in the Overview.

Non-interest expense decreased \$65,000 and \$293,000 for the second quarter and first two quarters of 2017 as compared with 2016 results. This decrease for the second quarter of 2017 was the result of decreases in net occupancy expenses of \$72,000 and FDIC and state banking assessments of \$104,000, which were partially offset by an increase in Other real estate expense of \$145,000 as compared with 2016. This decrease for the first two quarters of 2017 was the result of decreases in net occupancy expenses of \$184,000, FDIC and state banking assessments of \$232,000, and Other real estate expense of \$144,000, which were partially offset by an increase in Other expense as compared with 2016.

Total assets at June 30, 2017 decreased \$34,253,000 as compared with December 31, 2016. Total loans decreased \$28,886,000 as principal payments, maturities, charge-offs and foreclosures relating to existing loans outpaced new loans. Total deposits decreased \$32,684,000 at June 30, 2017 as compared with December 31, 2016 as customers in the casino industry and county and municipal entities reallocate their resources periodically.

RESULTS OF OPERATIONS

Net Interest Income

Net interest income, the amount by which interest income on loans, investments and other interest-earning assets exceeds interest expense on deposits and other borrowed funds, is the single largest component of the Company's income. Management's objective is to provide the largest possible amount of income while balancing interest rate, credit, liquidity and capital risk. Changes in the volume and mix of interest-earning assets and interest-bearing liabilities combined with changes in market rates of interest directly affect net interest income.

Quarter Ended June 30, 2017 as Compared with Quarter Ended June 30, 2016

The Company's average interest-earning assets increased approximately \$7,686,000, or 1%, from approximately \$597,507,000 for the second quarter of 2016 to approximately \$605,173,000 for the second quarter of 2017. Average balances due from financial institutions increased approximately \$17,246,000 and Held to maturity taxable securities increased approximately \$26,947,000 as a result of the decrease in average loans. The Company's average loans decreased approximately \$34,266,000 as principal payments, maturities, charge-offs and foreclosures relating to existing loans outpaced new loans.

The average yield on earning assets decreased by 2 basis points, from 3.15% for the second quarter of 2016 to 3.13% for the second quarter of 2017. The yield on average loans increased from 4.31% for the second quarter of 2016 to 4.44% for the second quarter of 2017 primarily as a result of the effect of the increase in prime rate during December 2016 on the Company's floating rate loans. The yield on average taxable available for sale securities increased from 1.27% for the second quarter of 2016 to 1.50% for the second quarter of 2017 as the Company has changed its investment strategy to improve yield while not compromising duration and credit risk.

Average interest-bearing liabilities decreased approximately \$2,996,000, or 1%, from approximately \$445,926,000 for the second quarter of 2016 to approximately \$442,930,000 for the second quarter of 2017. Average time deposits increased \$4,136,000 as a result of a promotion on these accounts. Average borrowings from the Federal Home Loan Bank decreased approximately \$7,057,000 due to the liquidity needs of the bank subsidiary.

The average rate paid on interest-bearing liabilities for the second quarter of 2016 was .24% as compared with .31% for the second quarter of 2017 as the Company was able to pay off lower rate borrowings from FHLB.

The Company's net interest margin on a tax-equivalent basis, which is net interest income as a percentage of average earning assets, was 2.98% for the second quarter of 2016 as compared with 2.90% for the second quarter of 2017.

Six Months Ended June 30, 2017 as Compared with Six Months Ended June 30, 2016

The Company's average interest-earning assets increased approximately \$14,367,000, or 2%, from approximately \$599,974,000 for the first two quarters of 2016 to approximately \$614,341,000 for the first two quarters of 2017. Average balances due from financial institutions increased approximately \$8,945,000 and held to maturity taxable securities increased approximately \$27,556,000 as a result of the decrease in average loans. The Company's average loans decreased approximately \$32,515,000 as principal payments, maturities, charge-offs and foreclosures relating to existing loans outpaced new loans.

The average yield on earning assets decreased by 13 basis points, from 3.22% for the first two quarters of 2016 to 3.09% for the first two quarters of 2017. The yield on average taxable available for sale securities increased from 1.38% for the first two quarters of 2016 to 1.47% for the first two quarters of 2017 as the Company has changed its investment strategy to improve yield while not compromising duration and credit risk.

Average interest-bearing liabilities increased approximately \$6,377,000, or 1%, from approximately \$447,914,000 for the first two quarters of 2016 to approximately \$454,291,000 for the first two quarters of 2017. Average savings and interest bearing DDA balances increased approximately \$10,940,000 and average time deposits increased \$3,773,000 primarily as several large commercial customers reallocate their balances periodically. Average borrowings from the Federal Home Loan Bank decreased approximately 8,336,000 due to the liquidity needs of the bank subsidiary.

The average rate paid on interest-bearing liabilities for the first two quarters of 2016 was .23% compared with .27% for the first two quarters of 2017 as a result of the increase in prime rate.

The Company's net interest margin on a tax-equivalent basis, which is net interest income as a percentage of average earning assets, was 3.05% for the first two quarters of 2016 as compared with 2.88% for the first two quarters of 2017.

The tables on the following pages analyze the changes in tax-equivalent net interest income for the quarters and six months ended June 30, 2017 and 2016.

Provision for the Allowance for Loan Losses

In the normal course of business, the Company assumes risk in extending credit to its customers. This credit risk is managed through compliance with the loan policy, which is approved by the Board of Directors. The policy establishes guidelines relating to underwriting standards, including but not limited to financial analysis, collateral valuation, lending limits, pricing considerations and loan grading. The Company's Loan Review and Special Assets Departments play key roles in monitoring the loan portfolio and managing problem loans. New loans and, on a periodic basis, existing loans are reviewed to evaluate compliance with the loan policy. Loan customers in concentrated industries such as gaming and hotel/motel, as well as the exposure for out of area; residential and land development; construction and commercial real estate loans, and their direct and indirect impact on its operations are evaluated on a monthly basis. Loan delinquencies and deposit overdrafts are closely monitored in order to identify developing problems as early as possible. Lenders experienced in workout scenarios consult with loan

officers and customers to address non-performing loans. A watch list of credits which pose a potential loss to the Company is prepared based on the loan grading system. This list forms the foundation of the Company's allowance for loan loss computation.

Management relies on its guidelines and existing methodology to monitor the performance of its loan portfolio and identify and estimate potential losses based on the best available information. The potential effect of the continuing decline in real estate values and actual losses incurred by the Company were key factors in our analysis. Much of the Company's loan portfolio is collateral-dependent, requiring careful consideration of changes in the value of the collateral.

The Company's analysis includes evaluating the current values of collateral securing all nonaccrual loans. Even though nonaccrual loans were \$13,705,000 and \$11,854,000 at June 30, 2017 and December 31, 2016, respectively, specific reserves of only \$443,000 and \$317,000, respectively, have been allocated to these loans as collateral values appear sufficient to cover loan losses or the loan balances have been charged down to their realizable value.

The Company's on-going, systematic evaluation resulted in the Company recording a provision for the allowance for loan losses of \$30,000 and \$24,000 for the second quarters of 2017 and 2016, respectively, and \$56,000 and \$137,000 for the first two quarters of 2017 and 2016, respectively. The allowance for loan losses as a percentage of loans was 1.91% and 1.73% at June 30, 2017 and December 31, 2016, respectively. The Company believes that its allowance for loan losses is appropriate as of June 30, 2017.

The allowance for loan losses is an estimate, and as such, events may occur in the future which may affect its accuracy. The Company anticipates that it is possible that additional information will be gathered in future quarters which may require an adjustment to the allowance for loan losses. Management will continue to closely monitor its portfolio and take such action as it deems appropriate to accurately report its financial condition and results of operations.

Non-interest income

Quarter Ended June 30, 2017 as Compared with Quarter Ended June 30, 2016

Non-interest income increased \$647,000 for the second quarter of 2017 as compared with the second quarter of 2016 primarily as the result of the increase in gain on liquidation, sales and calls of securities and the gain from death benefits from life insurance. The Company had more opportunities to sell securities in order to generate gains in the current year and, as a result, recognized \$109,000 more in 2017 as compared with 2016. As a result of the death of a participant in the Company's deferred compensation plans during 2017, a non-recurring gain of \$429,000 from the redemption of bank owned life insurance was recorded.

Six Months Ended June 30, 2017 as Compared with Six Months Ended June 30, 2016

Non-interest income increased \$546,000 for the first two quarters of 2017 as compared with the first two quarters of 2016 primarily as the result of the increase in gain on liquidation, sales and calls of securities and income from other investments as well as the gain from death benefits from life insurance. The Company had more opportunities to sell securities in order to generate

gains in the current year and, as a result, recognized \$46,000 more in 2017 as compared with 2016. Income from other investments increased \$42,000 from operations of the investment in a low income housing partnership as a result of increased occupancy in 2017 as compared with 2016. As a result of the death of a participant in the Company's deferred compensation plans during 2017, a non-recurring gain of \$429,000 from the redemption of bank owned life insurance was recorded.

Non-interest expense

Quarter Ended June 30, 2017 as Compared with Quarter Ended June 30, 2016

Total non-interest expense decreased \$65,000 for the second quarter of 2017 as compared with the first quarter of 2016. Net occupancy decreased \$72,000, FDIC and state banking assessments decreased \$104,000 and other real estate expense increased \$145,000 in 2017 as compared with 2016.

Net occupancy expense decreased as result of the Company's efforts to decrease its telecommunication and insurance costs.

FDIC and state banking assessments decreased as the regulators decreased the premiums for deposit insurance in the current year.

ORE expense increased due to the increase in writedowns in the value of ORE.

Six Months Ended June 30, 2017 as Compared with Six Months Ended June 30, 2016

Total non-interest expense decreased \$293,000 for the first two quarters of 2017 as compared with the first two quarters of 2016. Net occupancy decreased \$184,000, FDIC and state banking assessments decreased \$232,000, other real estate expense decreased \$144,000 and other expense increased \$174,000 in 2017 as compared with 2016.

Net occupancy expense decreased as result of the Company's efforts to decrease its telecommunication and insurance costs.

FDIC and state banking assessments decreased as the regulators decreased the premiums for deposit insurance in the current year.

ORE expense decreased due to the decrease in writedowns in the value of ORE.

Other expense increased primarily as the Company engaged consultants to assist with several projects related to improving I/T security and operations.

Income Taxes

At December 31, 2014, the Company established a full valuation allowance on its deferred tax assets. Until such time as the Company returns to sustained earnings, and it is determined that it is more likely than not that the deferred tax asset will be realized, no income tax benefit or expense will generally be recorded.

The Company did record income tax expense of \$78,000 during the second quarter of 2016 relating to the resolution of a recent examination by the Internal Revenue Service.

For the year ended December 31, 2014, the Company estimated it would be able to carryback net operating losses and general business credits resulting in Federal refunds totaling \$300,000. Accordingly, a \$300,000 income tax receivable was recorded at December 31, 2014. Upon preparation of the amended 2011 and 2012 Federal tax returns, the actual refunds recoverable were \$642,000. As a result, the Company recorded an income tax benefit of \$338,000 during the second quarter of 2017 as an immaterial correction of an error.

FINANCIAL CONDITION

Cash and due from banks increased \$8,415,000 at June 30, 2017, compared with December 31, 2016 in the management of the bank subsidiary's liquidity position.

Available for sale securities decreased \$10,188,000 at June 30, 2017, as compared with December 31, 2016. This is the result of the Company investing some of the proceeds of maturities of these securities in cash to meet liquidity needs.

Loan decreased \$28,886,000 at June 30, 2017, as compared with December 31, 2016 as principal payments, maturities, charge-offs and foreclosures relating to existing loans outpaced new loans.

Insurance proceeds receivable is the amount due the bank subsidiary from the death benefits on bank owned life insurance.

Total deposits decreased \$32,684,000 at June 30, 2017, as compared with December 31, 2016. Typically, significant increases or decreases in total deposits and/or significant fluctuations among the different types of deposits from quarter to quarter are anticipated by Management as customers in the casino industry and county and municipal entities reallocate their resources periodically.

SHAREHOLDERS EQUITY AND CAPITAL ADEQUACY

Strength, security and stability have been the hallmark of the Company since its founding in 1985 and of its bank subsidiary since its founding in 1896. A strong capital foundation is fundamental to the continuing prosperity of the Company and the security of its customers and shareholders.

As of June 30, 2017, the most recent notification from the Federal Deposit Insurance Corporation categorized the bank subsidiary as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, the bank subsidiary must have a Total risk-based capital ratio of 10.00% or greater, a Common Equity Tier 1 Capital ratio of 6.50% or greater, a Tier 1 risk-based capital ratio of 8.00% or greater and a Leverage capital ratio of 5.00% or greater. As of January 1, 2017, the Company must have a capital conservation buffer above these requirements of 1.25% for 2017. There are no conditions or events since that notification that Management believes have changed the bank subsidiary's category.

The Company's actual capital amounts and ratios and required minimum capital amounts and ratios as of June 30, 2017 and December 31, 2016, are as follows (in thousands):

| | Actual | | For Capital Adequacy Purposes | |
|--|-----------|--------|-------------------------------|-------|
| | Amount | Ratio | Amount | Ratio |
| June 30, 2017: | | | | |
| Total Capital (to Risk Weighted Assets) | \$ 96,205 | 24.53% | \$ 31,376 | 8.00% |
| Common Equity Tier 1 Capital (to Risk Weighted Assets) | 91,295 | 23.28% | 17,649 | 4.50% |
| Tier 1 Capital (to Risk Weighted Assets) | 91,295 | 23.28% | 23,532 | 6.00% |
| Tier 1 Capital (to Average Assets) | 91,295 | 13.11% | 27,863 | 4.00% |
| December 31, 2016: | | | | |
| Total Capital (to Risk Weighted Assets) | \$ 95,262 | 22.94% | \$ 33,220 | 8.00% |
| Common Equity Tier 1 Capital (to Risk Weighted Assets) | 90,068 | 21.69% | 18,687 | 4.50% |
| Tier 1 Capital (to Risk Weighted Assets) | 90,068 | 21.69% | 24,915 | 6.00% |
| Tier 1 Capital (to Average Assets) | 90,068 | 13.12% | 27,464 | 4.00% |

The actual capital amounts and ratios and required minimum capital amounts and ratios for the Bank as of June 30, 2017 and December 31, 2016, are as follows (in thousands):

| | Actual | | For Capital Adequacy Purposes | | To Be Well Capitalized | |
|--|-----------|--------|-------------------------------|-------|------------------------|--------|
| | Amount | Ratio | Amount | Ratio | Amount | Ratio |
| June 30, 2017: | | | | | | |
| Total Capital (to Risk Weighted Assets) | \$ 92,877 | 23.85% | \$ 31,158 | 8.00% | \$ 38,947 | 10.00% |
| Common Equity Tier 1 Capital (to Risk Weighted Assets) | 88,001 | 22.59% | 17,526 | 4.50% | 25,316 | 6.50% |
| Tier 1 Capital (to Risk Weighted Assets) | 88,001 | 22.59% | 23,368 | 6.00% | 31,158 | 8.00% |
| Tier 1 Capital (to Average Assets) | 88,001 | 12.95% | 27,176 | 4.00% | 33,969 | 5.00% |
| December 31, 2016: | | | | | | |
| Total Capital (to Risk Weighted Assets) | \$ 91,882 | 22.29% | \$ 32,975 | 8.00% | \$ 41,219 | 10.00% |
| Common Equity Tier 1 Capital (to Risk Weighted Assets) | 86,726 | 21.04% | 18,548 | 4.50% | 26,792 | 6.50% |
| Tier 1 Capital (to Risk Weighted Assets) | 86,726 | 21.04% | 24,731 | 6.00% | 32,975 | 8.00% |
| Tier 1 Capital (to Average Assets) | 86,726 | 12.47% | 27,820 | 4.00% | 34,775 | 5.00% |

Management continues to emphasize the importance of maintaining the appropriate capital levels of the Company and has established the goal of being well-capitalized by the banking regulatory authorities.

LIQUIDITY

Liquidity represents the Company's ability to adequately provide funds to satisfy demands from depositors, borrowers and other commitments by either converting assets to cash or accessing new or existing sources of funds. Management monitors these funds requirements in such a manner as to satisfy these demands and provide the maximum earnings on its earning assets. The Company manages and monitors its liquidity position through a number of methods, including through the computation of liquidity risk targets and the preparation of various analyses of its funding sources and utilization of those sources on a monthly basis. The Company also uses proforma liquidity projections which are updated on a monthly basis in the management of its liquidity needs and also conducts periodic contingency testing on its liquidity plan.

Deposits, payments of principal and interest on loans, proceeds from maturities of investment securities and earnings on investment securities are the principal sources of funds for the Company. Borrowings from the FHLB, federal funds sold and federal funds purchased are utilized by the Company to manage its daily liquidity position. The Company has also been approved to participate in the Federal Reserve Bank's Discount Window Primary Credit Program, which it intends to use only as a contingency.

REGULATORY MATTERS

During 2016, Management identified opportunities for improving information technology operations and security, risk management and earnings, addressing asset quality concerns, analyzing and assessing the Bank's management and staffing needs, and managing concentrations of credit risk as a result of its own investigation as well as examinations performed by certain bank regulatory agencies. In concert with the regulators, the Company had identified specific corrective steps and actions to enhance its information technology operations and security, risk management, earnings, asset quality and staffing. The Company and the Bank may not declare or pay any cash dividends without the prior written approval of their regulators.

Item 4: Controls and Procedures

As of June 30, 2017, an evaluation was performed under the supervision and with the participation of the Chief Executive Officer and Chief Financial Officer of the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e)). Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective to ensure that the information required to be disclosed by the Company in the reports it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms.

There were no changes in the Company's internal control over financial reporting that occurred during the period ended June 30, 2017 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1: Legal Proceedings

The Bank is involved in various legal matters and claims which are being defended and handled in the ordinary course of business. None of these matters is expected, in the opinion of Management, to have a material adverse effect upon the financial position or results of operations of the Company.

Item 5: Other Information

None.

Item 6 - Exhibits and Reports on Form 8-K

(a) Exhibits

- Exhibit 31.1: Certification of Chief Executive Officer Pursuant to Section 302 of the Sarbanes - Oxley Act of 2002
- Exhibit 31.2: Certification of Chief Financial Officer Pursuant to Section 302 of the Sarbanes - Oxley Act of 2002
- Exhibit 32.1: Certification of Chief Executive Officer Pursuant to 18 U.S.C. ss. 1350
- Exhibit 32.2: Certification of Chief Financial Officer Pursuant to 18 U.S.C. ss. 1350
- Exhibit 101 The following materials from the Company's quarterly report on Form 10-Q for the quarter ended June 30, 2017, formatted in XBRL (Extensible Business Reporting Language): (i) Consolidated Statements of Condition at June 30, 2017 and December 31, 2016, (ii) Consolidated Statements of Income for the quarters and six months ended June 30, 2017 and 2016, (iii) Consolidated Statements of Comprehensive Income for the quarters and six months ended June 30, 2017 and 2016, (iv) Consolidated Statement of Changes in Shareholders' Equity for the six months ended June 30, 2017, (v) Consolidated Statements of Cash Flows for the six months ended June 30, 2017 and 2016 and (vi) Notes to the Unaudited Consolidated Financial Statements for the six months ended June 30, 2017 and 2016.

(b) Reports on Form 8-K

A Form 8-K was filed on April 26, 2017, April 27, 2017 and July 26, 2017.

SIGNATURES

Pursuant to the requirement of Section 13 of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
