PROXY STATEMENT

INTRODUCTION

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of Greatbatch, Inc. (the "Company") of proxies in the accompanying form for use at the 2008 Annual Meeting of Stockholders or any adjournment or adjournments thereof. The Company will bear the expense of preparing, printing and mailing this proxy statement and the proxies solicited hereby.

The Annual Meeting of Stockholders of the Company will be held at 10:00 a.m. on May 20, 2008 at The Mansion on Delaware Avenue, 414 Delaware Avenue, Buffalo, New York 14202. The Company's mailing address is 10000 Wehrle Drive, Clarence, New York 14031, and its telephone number is (716) 759-5600.

This Proxy Statement and the accompanying form of proxy are first being sent to stockholders of record on or about April 23, 2008. A copy of the Company's 2007 Annual Report and 2007 Form 10-K, including financial statements, has either previously been delivered or accompanies this Proxy Statement, but is not part of the proxy solicitation materials.

VOTING RIGHTS

Stockholders of record at 5:00 p.m., Eastern Standard Time, on April 4, 2008 are entitled to vote at the Annual Meeting. At that time, the Company had outstanding 22,867,829 shares of common stock, \$0.001 par value per share ("Common Stock"). Each share of Common Stock is entitled to one vote. An individual who has a beneficial interest in shares allocated to the Company stock fund account under the Greatbatch, Inc. 401(k) Retirement Plan (the "401(k) Plan") is entitled to vote the Common Stock allocated to that account.

Shares may not be voted at the meeting unless the owner is present or represented by proxy. A stockholder can be represented through the return of a physical proxy or by utilizing the telephone or Internet voting procedures. An individual with a beneficial interest in the 401(k) Plan may give directions to the trustee of the 401(k) Plan, or its designated representative, as to how the allocated shares should be voted by returning the proxy card or using the telephone or Internet voting methods. The telephone and Internet voting procedures are designed to authenticate stockholders by use of a control number and allow stockholders to confirm that their instructions have been properly recorded. The method by which you vote will in no way limit your right to vote at the Annual Meeting if you later decide to attend in person. A stockholder giving a proxy may revoke it at any time before it is exercised by giving written notice of such revocation or by delivering a later dated proxy, in either case, to Timothy G. McEvoy, the Company's Secretary, at the Company's mailing address set forth above, or by the vote of the stockholder in person at the Annual Meeting.

Proxies will be voted in accordance with the stockholder's direction, if any. Unless otherwise directed, proxies will be voted in favor of the election as directors of the persons named under the caption "NOMINEES FOR DIRECTOR" and in favor of ratifying the appointment of Deloitte & Touche LLP ("Deloitte & Touche") as the independent registered public accounting firm of the Company for fiscal year 2008.

The presence in person or by proxy of the holders of a majority of the outstanding Common Stock will constitute a quorum for the transaction of business at the meeting. Broker non-votes, abstentions and directions to

Edgar Filing: GREATBATCH, INC. - Form DEF 14A

withhold authority will be counted as being present or represented at the meeting for purposes of establishing a quorum.

The vote of a plurality of the shares of Common Stock present or represented at the meeting is required for the election of directors, assuming a quorum is present or represented at the meeting.

The vote of a majority of the votes cast at the meeting is required to ratify the appointment of Deloitte & Touche as the independent registered public accounting firm of the Company for fiscal year 2008, assuming a quorum is present or represented at the meeting. In determining whether the proposal has received the requisite number of affirmative votes, an abstention with respect to the ratification of Deloitte & Touche as the independent registered public accounting firm of the Company will be counted and will have the same effect as a vote against. Broker non-votes will not constitute votes cast for purposes of determining, and therefore will have no effect on, the outcome of the vote for the ratification of Deloitte & Touche as the independent registered public accounting firm of the Company.

Under Section 16(a) of the Exchange Act, the Company's directors and officers are required to report their beneficial ownership of the Common Stock and any changes in that beneficial ownership to the SEC and the New York Stock Exchange. The Company believes that these filing requirements were satisfied by its directors and officers during 2007, except that Messrs. In making the foregoing statement, the Company has relied on copies of the reporting forms received by it or on the written representations from such reporting persons that no forms were required to be filed under the applicable rules of the SEC.

EXECUTIVE COMPENSATION Compensation Discussion and Analysis

Overview

Our executive compensation programs are designed to be consistent with our compensation philosophy. Our philosophy is to provide senior level managers with a compensation package that is both competitive and encourages those executives to act in the best interest of our stockholders. To achieve this, we design our compensation programs to provide fixed cash and equity based compensation at the targeted competitive market median rate and performance or "at risk" cash and equity based compensation at above competitive market median rates if above competitive market median performance is achieved. In general, we believe that performance and equity based compensation should increase as a percentage of total direct compensation as salary grade levels increase. The ratio of the President & Chief Executive Officer's total direct compensation compared to the other Named Executive Officers is targeted to be within the range of the ratios observed in the Company's peer group of companies. By following this philosophy we believe we can attract and retain executives who have the appropriate skill set to carry out our strategic plans and attain both our short and long term financial and strategic goals. The following graphs depict the mix of cash (salary and annual cash incentive) vs. equity (LTIP and SALT) of compensation granted to our Named Executive Officers during 2007 assuming target level performance:

[PIE CHART INDICATED BELOW]

	Cash	Equity
President & CEO	40%	60%
CFO	58%	42%
Business Leaders	58%	42%

Our compensation programs are designed by management in collaboration with our Compensation Committee and approved by our Board. Our performance-driven compensation programs consist of the following cash and non-cash components:

- o Base Salary
- o Annual Cash Incentives
- o Long-Term Equity Awards
- o Retirement and Change in Control Agreements
- o Other Personal Benefits

Other than as discussed within this section, we do not believe the compensation for our Named Executive Officers in 2008 will change materially from 2007.

Compensation Committee Practices and Procedures

Management, in collaboration with the Compensation Committee, is responsible for the design and administration of our compensation programs with appropriate approval and general oversight from the Board. This responsibility includes the determination of compensation levels and awards provided. Historically, the Compensation Committee has directly engaged Ernst & Young LLP to advise the Company on these matters. Consistent with corporate governance best practices, beginning in 2007 management began utilizing PricewaterhouseCoopers LLP as an external compensation consultant. During 2007, Ernst & Young served as the independent advisors to the Compensation Committee in matters of executive compensation and benefits in response to recommendations made by management in collaboration with PricewaterhouseCoopers. A representative of Ernst & Young was present in person or by telephone for four out of the seven meetings held by the Compensation Committee during 2007. Representatives from PricewaterhouseCoopers did not attend any of the Compensation Committee meetings.

The Compensation Committee is also responsible for recommending to the Board for approval the performance and merit adjustments for our President & Chief Executive Officer. For the remaining Named Executive Officers, the President & Chief Executive Officer makes recommendations regarding performance and merit adjustments to the Compensation Committee for approval. Grants of equity-based compensation are determined by management in collaboration with the Compensation Committee and approved by the Board in accordance with approved equity grant guidelines previously established by the Compensation Committee with market data assistance from Ernst & Young.

During 2007, Thomas J. Hook, President & Chief Executive Officer, Thomas J. Mazza, Senior Vice President & Chief Financial Officer, Barbara M. Davis, Vice President of Human Resources and Timothy G. McEvoy, Vice President, General Counsel & Secretary, attended meetings of the Compensation Committee to provide counsel and assistance to the Compensation Committee. These executives were excused from meetings when items pertaining to their individual compensation were discussed.

Competitive Market Review

As one factor in considering approval of levels and elements of our compensation programs, the Compensation Committee compares our compensation programs and

Edgar Filing: GREATBATCH, INC. - Form DEF 14A

performance against an approved peer group of companies. The peer group, which is periodically reviewed and updated by the Compensation Committee, consists of fifteen publicly traded companies that are similar in size and in similar industries as the Company and with whom we may compete for executive talent. The companies comprising our compensation peer group, which was last changed in 2007, are:

Arrow International, Inc.	SonoSite, Inc.
CONMED Corporation	Symmetry Medical, Inc.
Cyberonics, Inc.	Thoratec Corporation
Datascope Corporation	Viasys Healthcare, Inc.
DJO, Inc.	Vital Signs, Inc.
Ev3, Inc.	Wright Medical Group, Inc.
Integra LifeSciences Holdings Corp.	ZOLL Medical Corporation
Merit Medical Systems, Inc.	

For 2008, the following changes were made to our peer group:

Additions -----	Deletions -----
CTS Corporation	Arrow International, Inc.
Edwards Lifesciences Corp.	Cyberonics, Inc.
ResMed Inc.	Viasys Healthcare, Inc.

The additions for 2008 were made to replace the companies deleted from the peer group in order to maintain the number of companies at fifteen. We believe that this is an appropriate size for a peer group in order to get a representative sample of our market yet keeping the size of the peer group at a manageable level for analysis purposes. We believe the new companies (1) have relevant overlap with our industry, customers and products, (2) are similar in size and (3) have key metrics that are consistent with our high growth strategy. The key metrics considered included revenue size and growth rate, EPS growth, average gross margins, enterprise value, EBITDA/enterprise value and revenue/enterprise value. Two of the companies deleted from the peer group were removed as they were acquired during 2007. The last company was removed as we believed that it no longer exhibited the above attributes.

Our total compensation packages are based upon a 2007 market study performed by Ernst & Young utilizing compensation peer group data supplemented by market survey data. This study was updated in 2008 taking into consideration the revised peer group which reflects our significant growth and complexity as an organization as well as updated blended survey data from the sources cited below.

The 2007 market study provided base salary, total cash compensation and total direct compensation based upon our peer group proxy data and blended publicly available 2006 survey data trended to 2007 as follows:

Title -----	Publisher -----	Year -----
Economic Research Institute	ERI	2006
Mercer Executive Compensation Survey	William M. Mercer	2006
Top/Middle Management Compensation Calculator	Watson Wyatt	2006/2007

Edgar Filing: GREATBATCH, INC. - Form DEF 14A

In determining recommended compensation levels, the Ernst & Young analysis for 2008 utilized various analytical tools including total remuneration analysis, tally sheets, internal pay equity analysis and equity wealth accumulation and sensitivity analysis. In making final compensation decisions for 2008, the Compensation Committee considered all of these analyses. While the Compensation Committee has utilized tally sheets historically since 2005, the Compensation Committee did not utilize these analytical tools for determining pay in 2007. The Compensation Committee has determined that, absent a meaningful change in circumstances, such tools should be utilized on a periodic, as opposed to annual, basis.

When setting performance goals for our annual cash incentive and long-term equity programs, the Compensation Committee, with input from management, considers the performance of our three largest customers supplemented by performance information for our peer group as well as relevant market indices. We believe the performance of our three largest customers should be considered since they account for 67% of our sales. Additionally, we believe broader market indices are appropriate for consideration in establishing future performance metrics given that the peer group companies above do not have businesses that are exactly comparable to ours. The market indices considered include:

- o High and low revenue growth rates as published by Morgan Stanley, Lehman Brothers, Bank of America, Bear Sterns and Merrill Lynch;
- o Neuromodulation Forecast; and
- o Oil & Gas Market Growth (as a proxy for our Commercial Power Segment).

Base Salary

We want to provide senior level managers with a fixed level of cash compensation in the form of base salary that is consistent with their skill level, experience, knowledge, length of service with the Company and the level of responsibility and complexity of their position. The target salary for our senior level managers is based in part on the competitive market median of our compensation peer group, supplemented by published survey data (the "competitive market"). Our general practice is to be within 90% to 110% of the competitive market median. Actual base salaries may differ from the competitive market median target as a result of various factors including length of service, the level of responsibility and complexity of their position, prior individual performance and expected future contributions, internal equity within our Company and the degree of difficulty in replacing the individual. The base salaries of senior level managers are reviewed by the Compensation Committee on an annual basis, as well as at the time of promotion or significant changes in responsibility. We expect the base salaries of our Named Executive Officers to generally increase in-line with any increases to the median competitive market rates.

The 2007 bases salaries for our Named Executive Officers compared to our peer group market median are as follows:

	Base Salary	% of Peer Group Market Median
	-----	-----
Thomas J. Hook	\$452,800	115%
Thomas J. Mazza	255,800	111%
Mauricio Arellano	235,800	101%
Susan M. Bratton	235,800	101%
Susan H. Campbell	235,800	101%

The 2008 bases salaries for our Named Executive Officers compared to the 2008 market median are as follows. Note that this comparison was versus the revised peer group for 2008 which, as discussed in the Competitive Market Review

Edgar Filing: GREATBATCH, INC. - Form DEF 14A

section, reflects our significant growth and complexity as an organization:

	Base Salary -----	% of Competitive Market Median -----
Thomas J. Hook	\$475,000	104%
Thomas J. Mazza	262,000	106%
Mauricio Arellano	249,000	87%
Susan M. Bratton	242,000	84%
Susan H. Campbell	249,000	87%

Annual Cash Incentives

Overview. The payment of annual cash incentives is formula-based and is governed by our Short-Term Incentive Compensation Program ("STIC Program"). The objective of the STIC Program is to provide a target level of cash compensation that is based upon the achievement of internal Company performance objectives which takes into consideration the competitive market median performance with the opportunity for above median compensation for above median performance up to 65% to 75% of the competitive market.

Employees at the manager level or above are eligible to participate in our STIC Program. STIC Program awards for the Company's executive officers are based upon Company-wide performance goals. For all other levels, STIC Program awards are primarily based upon the achievement of specific individual operational goals, although Company-wide performance is also a factor. As a result, this component of compensation can be highly variable from year to year.

STIC Program awards are calculated based upon the following formulas:

Total Available Award (TAA) = (Base Salary x Individual STIC %) x STIC Funding %
 Actual Award = ((TAA x 75%) x Individual Performance %) + (TAA x 25%)

STIC Funding %. Overall funding of the STIC Program is based upon a Company-wide performance measure as recommended by the Compensation Committee and approved by the Board at the first meeting of every year. This measure is subject to adjustment based upon Compensation Committee-approved unusual or extraordinary items that were not contemplated when the performance measure was set. Funding of the STIC Program is calculated in accordance with the following scale:

Achievement of Performance Measure -----	Funding % -----
0% - 75%	0%
75%	50%
76% - 99%	50% - 100%
100%	100%
101% - 132%	100% - 200%
133%	200% (Maximum)

This funding model was generally designed to provide stockholders with a three-to-one payout ratio compared to management. That is for every four dollars earned above the target, one dollar is paid in additional incentive compensation to fund the STIC Program, up to the maximum threshold. Thus, three dollars are returned to the stockholders in the form of reinvestment in the business.

For 2007, the STIC Program funding performance measure was adjusted earnings per share ("Adjusted EPS") of \$1.30 per share. We selected Adjusted EPS because of its direct correlation with the interests of our stockholders. In establishing

Edgar Filing: GREATBATCH, INC. - Form DEF 14A

this measure, the Compensation Committee considered both the 2007 budget, the three-year compound annual growth rate the 2007 measure would provide and how that growth rate compared to our competitive market. Achievement at the 100% target level was deemed to be a "realistic" goal for senior level managers and any amount greater than the target was believed to be a "stretch" goal. As a result of stronger than expected financial performance, for 2007 the STIC Program was funded at 140% of the target, based upon the Company achieving Adjusted EPS that was 113% of the target or \$1.47 per share. The main difference between the 2007 Adjusted EPS and our EPS under generally accepted accounting principles ("GAAP") of \$0.67 per share is the exclusion of non-recurring acquisition related charges (mainly in-process research and development and inventory step-up amortization), costs incurred related to our consolidation initiatives, and gain on the extinguishment of our debt, all of which were not included in the original STIC target. All of these adjustments were reviewed and approved by the Compensation Committee.

For 2006, the STIC Program funding performance measure was Adjusted EPS of \$1.05 per share. As a result of stronger than expected financial performance, the 2006 STIC Program was funded at 190% of the target, based upon the Company achieving Adjusted EPS that was 131% of the target or \$1.38 per share. The main difference between the 2006 Adjusted EPS and our EPS under generally accepted accounting principals of \$0.73 per share is the exclusion of costs incurred related to our consolidation initiatives and costs associated with stock-based compensation which were not included in the original STIC target. All of these adjustments were reviewed and approved by the Compensation Committee.

Individual STIC %. Individual cash incentives are calculated by multiplying the funding percentage by the individual's target payout. The individual target payout was determined by the Compensation Committee in order to provide targeted total cash compensation (base salary + cash incentive) at the median of our competitive market and between the 65th and 75th percentile of our competitive market for above competitive market median performance.

11

The target payout as a percentage of base salary for our Named Executive Officers is as follows:

		2006	2007 (1)	2008
		----	-----	----
o	President & CEO	80%	80%	80%
o	CFO	70%	65%	70% (2)
o	Business Leaders	65%	65% (3)	65%

(1) Consistent with a decision made in late 2004, in 2007 the Compensation Committee continued to reduce the annual cash incentive target payout percentages for certain senior level managers and increase the level of equity based compensation. This was done to better align the mix between cash and equity based and between short-term and long-term compensation with our competitive market.

(2) Includes a promotional increase in 2008.

(3) Includes a promotional increase in 2007.

Actual annual cash incentive awards may differ from the target payout as a result of the achievement of individual business unit and functional goals (Individual Performance %), which impact 75% of the actual award and cannot exceed 100%. The remaining 25% of the award is determined by the achievement of the Company performance target (same as funding target). In general, the higher the salary grade of an employee, the more the individual performance goals are based upon the performance of the Company. The Company's executive officers'

Edgar Filing: GREATBATCH, INC. - Form DEF 14A

individual performance goals are based on overall Company performance.

The STIC Program for our Named Executive Officers was included in our 2007 proxy statement and approved by our stockholders in order to meet the requirements for an income tax deduction under Internal Revenue Code ("IRC") ss.162(m). Under IRC ss.162(m), a limitation is placed on the tax deductibility of compensation to certain executives of a publicly-held corporation that exceeds \$1,000,000 in any taxable year, unless the compensation meets certain requirements. Currently our STIC Program is designed to meet these requirements. Historically, our deductions for executive compensation were not limited by IRC ss.162(m), except in isolated circumstances.

Long-Term Equity Awards

Overview. In addition to cash incentives, we also compensate senior level managers with long-term equity awards. These awards are designed to align management's performance with the interest of our stockholders. Additionally, they are used as a recruiting and retention tool for key managers. Historically we granted equity awards under various existing equity compensation plans, including the following: (1) the 1997 Stock Option Plan; (2) the 1998 Stock Option Plan; (3) the 1999 Non-Employee Director Stock Option Plan; (4) the 2002 Restricted Stock Plan; and (5) the 2005 Stock Incentive Plan. A proposal was included in our 2007 proxy statement and approved by our stockholders which increased the shares available for issuance under the 2005 Stock Incentive Plan by 1,450,000 shares and froze all of our outstanding equity plans except the 2005 Stock Incentive Plan.

The award of equity based compensation is both discretionary and formula-based as described in our Long-Term Incentive Award Program ("LTIP Program") and Supplemental Annual Long-Term Incentive Award Program ("SALT Program"). The objective of the LTIP and SALT Programs is to provide total direct compensation (total cash compensation + equity based compensation) at the median of our competitive market and up to the 75th percentile of our competitive market for performance above the competitive market median.

In addition to LTIP and SALT Program awards, all managers and above are eligible for equity awards at the time of hire, upon promotion and for special recognition or significant changes in responsibility.

Our equity-based compensation plans and awards are designed and administered by management in collaboration with the Compensation Committee and subject to the approval of our Board. Historically, we have granted employees equity-based compensation in the form of non-qualified and incentive stock options and restricted stock. The LTIP and SALT Program awards are generally issued before April of every year once financial results from the prior year and performance targets for the current and future years are determined. Equity awards issued for recognition or newly hired or newly promoted employees are typically granted at the next scheduled Board meeting following the event date. The Board typically meets five times per year based upon a schedule determined several months in advance. Accordingly, the proximity of any awards to earnings announcements or the release of material non-public information would be coincidental. All stock options are issued with strike prices that are equal to the value of our closing stock price on the grant date, which is the Board meeting date.

Except as described in the "Employment Agreement" and "Executive Retirement Guidelines" sections, all unvested stock-based awards expire upon death, disability, termination by employee and termination by the Company, other than for cause. Upon termination for cause, all outstanding stock-based awards expire immediately. Upon death, disability, termination by employee and termination by the Company, other than for cause, all vested stock-based awards expire at various times, up to one year, based upon the termination reason and the equity

Edgar Filing: GREATBATCH, INC. - Form DEF 14A

plan they were awarded from. In the event of a change in control, all unvested time-based equity awards immediately vest. See further discussion regarding change of control in the "Change in Control Agreements" section.

12

We believe that compensation from our stock options granted under the 2005 Stock Incentive Plan are deductible and not limited by IRC ss.162(m). Our deductions for restricted stock grants may be limited in the future under IRC ss.162(m).

LTIP Program. The objective of the LTIP Program is to provide a fixed level of equity-based compensation at the median of our competitive market and adjusted for individual performance. The 2007 LTIP Program awards were determined based upon the following formula:

$$\text{Total Available Shares (TAS)} = (\text{Base Salary} \times \text{Individual LTIP \%}) / \text{Black Scholes Value}$$
$$\text{Actual Share Payout} = \text{TAS} \times \text{Individual Performance \%}$$
$$\text{Non-Qualified Stock Option Grant} = \text{Actual Share Payout} \times 1/2$$
$$\text{Restricted Stock Grant} = (\text{Actual Share Payout} \times 1/2) / 2.5$$

Individual LTIP %. The target grant of LTIP Program equity awards as a percentage of base salary for our Named Executive Officers is as follows. The target number of shares is calculated using the Black Scholes value of our stock on the date of grant:

	2006	2007 (1)	2008
	----	-----	----
o President & CEO	125%	150%	150%
o CFO	60%	70%	80% (2)
o Business Leaders	50%	70% (3)	70%

- (1) Consistent with a decision made in late 2004, in 2007 the Compensation Committee continued to reduce the annual cash incentive target payout percentages for certain senior level managers and increase the level of equity based compensation. This was done to better align the mix between cash and equity based and between short-term and long-term compensation with our competitive market.
- (2) Includes a promotional increase in 2008.
- (3) Includes a promotional increase in 2007.

The actual amount of awards granted may differ from the target percentage as a result of the consideration by the Compensation Committee of individual business unit and functional goals (Individual Performance %). The individual performance percentage that may be taken into account by the Compensation Committee is the same individual performance percentage used to calculate annual cash incentive awards under the STIC Program.

The 2007 LTIP Program awards were granted in the form of non-qualified stock options (one-half payout target) and restricted stock (one-half payout target) with the restricted stock being converted on a 2.5 to 1 ratio. This ratio was used as restricted stock was valued at approximately 2.5x the Black Scholes value of our stock options and was intended to reflect the difference in value between restricted stock and stock options. The mix between stock options and restricted stock was determined by management in collaboration with the Compensation Committee in their desire to balance between share ownership and potential future dilution to stockholders.

Edgar Filing: GREATBATCH, INC. - Form DEF 14A

In order to simplify the LTIP formula, in 2008 the 2.5 restricted stock ratio was removed from the formula. The restricted stock portion of the LTIP grant for 2008 was calculated as follows:

(Base Salary x Individual LTIP % x Individual Performance % x 1/2) / closing stock price on

LTIP Program stock option awards vest 25% at the end of each year, including the year of grant. The LTIP Program restricted stock awards vest 50% at the end of the second year, including the year of grant and 25% at the end of the third and fourth years.

SALT Program. The objective of the SALT Program is to provide a supplemental award that targets total direct compensation up to the 75th percentile of our competitive market if 75th percentile performance goals, set at the beginning of the period, are met. This is consistent with our philosophy of providing above competitive market median compensation for above competitive market median performance. The use of SALT Program awards puts a larger percentage of our Named Executive Officers pay in equity and "at risk," which we believe is appropriate and consistent with our compensation philosophy. SALT Program awards are determined based upon the following formula:

Actual Share Payout = (Base Salary x Individual SALT %) / Black Scholes Value

13

Individual SALT %. The SALT Program equity awards expressed as a percentage of base salary for our Named Executive Officers is as follows:

		2006 ----	2007(1) -----	2008(2) -----
o	President & CEO	100%	125%	175%
o	CFO	40%	50%	85%(3)
o	Business Leaders	40%	50%(4)	70%

- (1) Consistent with a decision made in late 2004, in 2007 the Compensation Committee continued to reduce the annual cash incentive target payout percentages for certain senior level managers and increase the level of equity based compensation. This was done to better align the mix between cash and equity based and between short-term and long-term compensation with our competitive market.
- (2) Includes increase in order to bring total direct compensation up to the 75th percentile of the competitive market.
- (3) Includes a promotional increase in 2008.
- (4) Includes a promotional increase in 2007.

The target number of shares is calculated using the Black Scholes value of our stock on the date of grant. SALT Program awards are granted in the form of non-qualified stock options and are both time and performance based. Stock options vest either at 100% or 0% depending on whether or not the Company achieves certain three-year performance measures. If the performance measures are achieved, the awards are still subject to an additional one year service period. The form of the SALT Program awards is reviewed annually by the Compensation Committee. The 2007 SALT Program awards performance measures were as follows:

- o 2007 - 2009 cumulative revenue;

Edgar Filing: GREATBATCH, INC. - Form DEF 14A

- o 2007 - 2009 cumulative operating income; and
- o 2007 - 2009 cumulative cash provided by operations.

These performance measures reflect our confidential strategic plan and we do not disclose the amount of these measures publicly for competitive reasons. These measures were chosen based upon the importance of these objectives in the achievement of our strategic plan, providing quality earnings and creating value for our stockholders. In setting these performance targets we also considered the performance of our peer group, market indices and our customer base with the intent that these goals represent stretch goals that would result in superior upper quartile performance relative to our customers and peers. Achievement of these targets is believed to be a "challenging" goal for our Company. If all three performance goals are met, the SALT awards will fully vest at the end of 2010. These performance measures are subject to adjustment based upon unusual or extraordinary items that were not contemplated when the performance measures were set. The Compensation Committee approves all adjustments.

2007 was the final performance year for the 2005 SALT award. During the three year period from 2005 to 2007, we earned cumulative revenues of \$804 million and cumulative Adjusted EPS of \$3.83. This compares to the 2005 grant metrics of \$770 million and \$3.51, respectively. Thus, in 2008 our Board approved the achievement of these metrics. The awards will fully vest on December 31, 2008 if continued employment is maintained up until that time. The difference between the cumulative revenue for the three year period from 2005 to 2007 and our revenues under GAAP of \$831 million is the exclusion of revenue for acquired companies which were not included in the original SALT target. The main difference between the Adjusted EPS and our EPS under GAAP of \$1.86 per share is the exclusion of non-recurring acquisition related charges (mainly in-process research and development and inventory step-up amortization), costs incurred related to our consolidation initiatives as well as the gain on the extinguishment of our debt, all of which were not included in the original SALT target. All of these adjustments were reviewed and approved by the Compensation Committee.

In 2008, the SALT Program was modified to remove the "all-or-none" vesting restriction relative to the achievement of the three performance metrics utilized in the SALT program. This change was made as, based upon our analysis in 2006, we found that none of our peer group was in the top 25% for all three metrics and only a few were in the top 25% for two of the three metrics. Thus, we believe that requiring upper quartile performance for all three metrics would not achieve our objective of awarding 75th percentile total compensation for 75th percentile performance. Starting in 2008, each metric will be tracked independently and achievement of one or more will allow for at least pro rata vesting of the award depending on how many of the metrics are achieved and the percentage achievement of the metrics which were not achieved. For example, if two of the performance goals are met and the third metric was only 90% of the target (and thus did not vest), then 2/3 of the award multiplied by 90% will vest. Additionally, beginning in 2008, the SALT targets will be adjusted to reflect acquisitions in addition to the unusual or extraordinary items that were not contemplated when the performance measures were set. This change was made in order to provide incentive for senior level managers to ensure acquisitions are successful.

Other Equity Based Compensation. In addition to the LTIP and SALT Programs, senior level managers may receive additional equity based compensation at the date of hire, upon promotion, for special recognition or upon a significant change in responsibility. These awards are used as a recruiting and retention tool. Historically, these grants were made in the form of incentive stock options or restricted stock and are typically granted as a percentage of the respective employee's base salary. The amount of incentive stock options granted that become exercisable in any one year by an individual employee is subject to the \$100,000 limit imposed by IRC ss.422(d). In 2007, these awards were made in

Edgar Filing: GREATBATCH, INC. - Form DEF 14A

the form of non-qualified stock options and restricted stock. Also during 2007, the Company's executive officers, except for the President and CEO who received a similar type grant upon his promotion in 2006, received a one-time restricted stock grant equal to 100% of their base salary. This grant will serve as an additional retention tool for the executive officers as they vest over four years (50% at the end of the second year, including the year of grant and 25% at the end of the third and fourth years).

Share Ownership Guidelines. In order to better align the interests of our executives with the interests of our stockholders and to promote our commitment to sound corporate governance, in 2006 the Compensation Committee designed and the Board approved stock ownership guidelines for senior level managers and non-employee directors. These guidelines require non-employee directors to own at least \$90,000 in shares of the Company. The ownership requirement for our current Named Executive Officers is calculated as a percentage of base salary as follows:

	Multiple of Base Salary

President & CEO	5.0x
CFO	3.0x
Business Leaders	3.0x

The directors and executives are required to be in compliance with these guidelines within 5 years of becoming subject to the policy and "meaningful" progress must be made and is monitored throughout that time period.

The ownership guidelines also contain a holding period requirement for equity based awards. Non-employee directors are expected to hold all equity based awards, net of applicable taxes, until their tenure as a Board member has ended. Senior level managers are required to hold exercised stock options and vested restricted stock, net of applicable taxes, for one year following the exercise or vesting. For purposes of these guidelines, a 50% tax rate is assumed.

Retirement and Change in Control Agreements

Overview. We believe that it is in the best interest of our Company and stockholders to have the unbiased dedication of our executives, without the distraction of personal uncertainties such as retirement or a change in control. We have designed our senior level managers' retirement and other post-employment benefit programs to reduce such distraction. We believe that our programs allow for a "smooth" transition in the event of retirement or a change in control without providing "windfall" benefits to senior level managers. We also believe that these benefits are competitive with those of other comparable companies.

The components of our retirement and post-employment benefits program are as follows:

- o Executive Retirement Guidelines
- o 401(k) Plan
- o Change in Control Agreements

We do not offer our employees defined benefit pension, post-retirement or deferred compensation benefits. This decision was made as we believe that such plans are both undervalued by employees and more expensive to administer in comparison to the programs that we do offer. When designing our retirement and other post-employment benefit programs we consider IRC ss.409A and continue to evaluate our programs in light of the new guidance continuously being issued.

Edgar Filing: GREATBATCH, INC. - Form DEF 14A

We currently do not have a formal severance plan for our employees. In the past, we have provided post-employment severance benefits to our employees who are terminated in connection with a reduction-in-force or corporate reorganization. Generally these benefit amounts are based upon length of service and position level with the Company. Future severance payments are at the discretion of management.

Executive Retirement Guidelines. Higher-level senior managers who are at least 59 1/2 with a combination of age and length of service equal to at least 69 1/2 are eligible to receive certain benefits under our Executive Retirement Guidelines. These guidelines have been approved by our Board and allow for the following:

- a. accelerated vesting of all outstanding time-based stock incentive awards;
- b. discretionary vesting of all outstanding performance-based stock incentive awards; and
- c. a discretionary extension of the time eligible to exercise outstanding stock options.

In exchange for these benefits, the executives are required to sign a two-year non-compete agreement. In order to be considered for these benefits, executives must submit a voluntary retirement request form at least one year prior to their anticipated retirement date and facilitate the transition of their responsibilities to their successor. All requests for retirement and benefits under our Executive Retirement Guidelines by Named Executive Officers are reviewed and approved by our Board.

15

401(k) Plan. Nearly all of our employees are eligible to participate in our defined contribution 401(k) plan. This plan provides for the deferral of employee compensation up to the maximum IRC limit and a discretionary Company match. In 2007, this match was \$0.35 per dollar of participant deferral, up to 6% of the base salary for each participant.

In addition to the discretionary contributions described above, employees are eligible to receive an additional discretionary contribution equal to 5% of their base salary to the 401(k) plan. This discretionary contribution is made in the form of Greatbatch stock and is subject to certain Internal Revenue Service limits.

Each year we perform standard year-end coverage, nondiscrimination and compliance testing on our 401(k) plan to ensure compliance with applicable Internal Revenue Service rules and regulations. In the event the plan does not meet the nondiscrimination requirements, a prorated portion of the contributions made by "highly compensated" employees will be returned to the respective employee in order to ensure compliance.

Participants immediately vest in their own contributions and earnings, and in the matching and stock contributions made by the Company.

Change in Control Agreements. We have entered into change in control agreements with our senior level managers, including our Named Executive Officers. These agreements provide for continued employment with the same base salary, annual cash incentive and benefits for two years following a change of control. If the employee is terminated after the change of control, other than for death, disability, cause, or the executive terminates the agreement for good reason, then the executive will be entitled to certain benefits. The most significant

Edgar Filing: GREATBATCH, INC. - Form DEF 14A

components of those benefits are as follows:

- a. two times annual salary;
- b. two times average bonus for the three year period prior to the date of termination;
- c. two times the Company's 5% discretionary contributions to the Company's 401(k) Plan;
- d. \$25,000 for outplacement services;
- e. continued coverage under the Company's medical and other benefit plans (i.e. education assistance, financial planning, physicals) for a period of two years; and
- f. all time-based unvested equity awards immediately vest.

Based upon the hypothetical termination date of December 28, 2007, the change in control termination benefits for our Named Executive Officers would be as follows:

	Salary & Bonus -----	Acceleration of Stock-Based Awards(1) -----	Continuance of Benefits -----	401(k) Plan ----	Outplace Service -----
Thomas J. Hook	\$1,861,850	\$1,624,543	\$ 54,820	\$22,500	\$25,000
Thomas J. Mazza	861,600	297,038	137,061	22,500	25,000
Mauricio Arellano	778,140	280,448	48,041	22,500	25,000
Susan M. Bratton	793,867	273,845	142,691	22,500	25,000
Susan H. Campbell	788,533	279,509	44,341	22,500	25,000

- (1) Based upon our closing stock price of \$19.91 per share as of December 28, 2007.
- (2) Computed based upon the assumption that equity awards are paid out in cash and does not consider the value that could be assigned to the non-compete agreement signed by Thomas J. Hook.
- (3) It is assumed that the hypothetical transaction would result in a cash-out of the outstanding equity awards. In the event an actual transactional would occur in which equity awards were converted into equity awards of the buyer, then the value of the equity acceleration for tax purposes could be higher.

In exchange for the above, the terminated executive is required to sign a 36-month confidentiality agreement. In designing these agreements, we considered IRC ss.280G. IRC ss.280G denies a tax deduction for any and all excess parachute payments for corporations undergoing a change in control. In addition, the individual recipient of such payment must pay an extra 20% excise tax on the amount of the payment. IRC ss.280G provides a safe harbor from this excise tax if the present value of any parachute payments under a change in control does not exceed certain thresholds as defined in the IRC. Our change in control agreements provide that an executive is not entitled to a gross-up if the present value of payments does not exceed 110% of the safe harbor threshold. Instead, the payments due to these executives would be reduced to the maximum that could be paid so that the value of the payment would not exceed the safe harbor threshold. To the extent the change in control parachute payment exceeds 110% of the safe harbor threshold, then the participant would be entitled to an excise tax gross-up payment, which is included in the amounts shown above.

Other Personal Benefits

In addition to the elements of compensation discussed above, we also provide senior level managers with various other benefits as follows:

- o Education Assistance
- o Life Insurance
- o Long-Term Disability
- o Executive Financial Planning
- o Executive Physical
- o Other Benefits

We provide these benefits in order to remain competitive with the market and believe that these benefits help us to attract and retain qualified executives. These benefits also reduce the amount of time and attention that senior level managers must spend on personal matters and allow them to dedicate more time to our Company. We believe that these benefits are in-line with the market, are reasonable in nature, are not excessive and are in the best interest of our Company and its stockholders.

Education Assistance. All employees and their dependents are eligible to participate in our Education Assistance Program. This program is provided to support our innovation and commitment to improving our abilities. We believe that education will support the development of our employees for new positions and enhance their contributions to the achievement of our strategic goals. This program was pioneered by our founder, Wilson Greatbatch, who believed as we do that "education is always worth more than it costs in time, money and effort."

Under our Education Assistance Program we reimburse tuition, textbooks and laboratory fees for all of our employees and their dependents. All fulltime employees are eligible for 100% reimbursement upon the successful completion of a job related degree program. The dependent children benefit vests on a straight-line basis over ten years. For employees hired after January 1, 2003, the maximum amount of dependent children reimbursable tuition is the cost of tuition at the recognized local state university, which for 2007 was approximately \$5,000. For employees hired prior to January 1, 2003 and for all of the Named Executive Officers effective January 1, 2007, there is no maximum limit for dependent children reimbursement. Minimum academic achievement is required in order to receive reimbursement under all Education Assistance Programs. In 2007, Thomas J. Mazza and Susan M. Bratton were the only Named Executive Officers who received benefits under this Program.

Life Insurance. Beginning in 2008, our executive officers will receive term life insurance paid by the Company equal to \$5 million for the President & CEO (consistent with prior years) and \$1 million for other executive officers. Additionally, the Company will reimburse the executive officers for any additional tax burden resulting from this benefit. This benefit was added based upon the recommendation of PricewaterhouseCoopers and deemed reasonable by Ernst & Young and approved by the Compensation Committee. We believe this benefit is consistent with and will allow us to remain competitive with the market and believe that these benefits help us to attract and retain qualified executives.

Long-Term Disability. Beginning in 2008, our executive officers will receive long-term disability insurance paid by the Company equal to 60% of salary plus STIC at the 100% level, with no cap. Additionally, the Company will reimburse the executive officers for any additional tax burden resulting from this benefit. This benefit was added based upon the recommendation of

Edgar Filing: GREATBATCH, INC. - Form DEF 14A

PricewaterhouseCoopers and deemed reasonable by Ernst & Young and approved by the Compensation Committee. We believe this benefit is consistent with and will allow us to remain competitive with the market and believe that these benefits help us to attract and retain qualified executives.

Executive Financial Planning. Senior level managers are eligible for reimbursement of financial planning services. Reimbursement is approved for dollar amounts up to \$5,000 in the first year of the program and up to \$2,500 in all other years (\$3,000 for the President & CEO). Qualified expenses include income tax preparation, estate planning and investment planning, among others.

Executive Physical. We have partnered with regional hospitals to provide senior level managers with annual physicals. We cover 100% of the cost of this program. This program was developed to promote the physical well being and health of our senior level managers. We believe this program is in the best long-term interest of our stockholders.

Other Benefits. Senior level managers also participate in other benefit plans that we fully or partially subsidize. Their participation is on the same terms as other employees of the Company. Some of the more significant of these benefits include medical, dental and vision insurance, as well as relocation reimbursement and vacation.

17

Employment Agreements

The Company has entered into an employment agreement with Thomas J. Hook. No other Named Executive Officers has an employment agreement.

We entered into an employment agreement with Mr. Hook in order to secure his services upon his appointment as President & Chief Executive Officer. That agreement provides certain benefits in addition to the other benefits discussed elsewhere in this section as follows:

- a. Term extends through December 31, 2009 with automatic 1 year renewals after that;
- b. Grant of 25,000 shares of non-qualified options and 50,000 shares of restricted stock that vest 25% on December 31, 2008, 25% on December 31, 2009 and 50% on December 31, 2010;
- c. Company financed term life insurance policy of at least \$5 million in face value;
- d. In the event of death or disability - i) salary and fringe benefit continuation through the term of the contract or one year whichever is longer; and ii) immediate vesting of all non-vested equity based awards, except SALT awards;
- e. In the event of termination without cause or with good reason - i) one year salary and STIC incentive payment; and ii) immediate vesting of all non-vested equity based awards, except SALT awards. Right to exercise vested options upon termination is extended to twelve months; and
- f. Non-compete agreement during the term of the contract and 24 months from the date of last payment under the contract.

The following table presents the benefits that would be received by Mr. Hook in the event of a hypothetical termination as of December 28, 2007 as follows:

Compensation Tables

Summary Compensation Table

The following table summarizes the total compensation paid or earned by each of the Named Executive Officers for fiscal year 2007 and 2006. We have entered into an employment agreement with Thomas J. Hook - see the "Employment Agreements" section of the Compensation Discussion and Analysis for further discussion. The Named Executive Officers were not entitled to receive payments which would be characterized as "Bonus" payments for fiscal year 2007 or 2006. Total cash compensation, which includes salary and non-equity incentive plan compensation, is based on individual performance as well as on the overall performance of the Company as more fully described in the "Base Salary" and "Annual Cash Incentives" sections of the Compensation Discussion and Analysis. Generally, the emphasis that is placed on stock-based compensation increases as the level of responsibility of the individual employee increases.

2007 Grants of Plan-Based Awards

The following table summarizes the grants of plan-based awards to each of the Named Executive Officers during fiscal year 2007. All stock-based awards in 2007 were granted under our 2005 Stock Incentive Plan. Under the 2005 Stock Incentive Plan, all stock options expire 10 years from the date of grant and acceleration of vesting occurs for time-based awards upon a change in control. Acceleration of vesting does not automatically occur upon death, disability or retirement.

Prior to vesting, employees who receive a grant of restricted stock are eligible to participate in the rights or privileges of a stockholder of the Company in respect to those shares, including the right to receive dividends and vote. We did not pay any cash dividends in 2007 and currently intend to retain all earnings to further develop and grow our business.

CORPORATE GOVERNANCE AND BOARD MATTERS

The business of the Company is managed under the direction of the Board. The Board has adopted Corporate Governance Guidelines (the "Guidelines") for the Company that reflect the Company's commitment to good corporate governance. The full text of the Guidelines is posted in the Investor Relations section of the Company's website at www.greatbatch.com under "Governance."

The Board has also adopted a Code of Business Conduct and Ethics for all directors, executive officers and employees of the Company. The full text of the code is posted in the Investor Relations section of the Company's website. The Company intends to post on its website any amendment to or waiver from any provision in the Code of Business Conduct and Ethics that relates to any element of the standards enumerated in the rules of the Securities and Exchange Commission.

A copy of the Guidelines and the Code of Business Conduct and Ethics may be obtained without charge by any stockholder of record by written request made to the Manager of External Reporting and Investor Relations, Greatbatch, Inc., 10000 Wehrle Drive, Clarence, New York 14031.

Board Independence

Except for Mr. Hook and Edward F. Voboril, the former Chairman of the Board who retired on January 31, 2008, all of the Company's directors are independent under the standards set by the New York Stock Exchange's Corporate Governance Listing Standards, as amended, and consistent with the Company's Guidelines. The Guidelines specify the criteria by which the independence of the Company's directors will be determined and provide that a director is independent if the director is neither a current or former employee or officer of the Company, the director does not receive any remuneration from the Company, either directly or indirectly, in any capacity other than as a director, and the director is not a partner or controlling stockholder or executive officer of any organization that has a business relationship with the Company. When making an independence determination, the Board endeavors to consider all relevant facts and circumstances.

In making determinations of independence, the Board also uses categorical standards set forth by the New York Stock Exchange to assist it in making independence determinations. Under these standards, absent other material relationships with the Company that the Board believes to jeopardize a director's independence from management, a director will be independent unless the director or any of his or her immediate family members had any of the following relationships with the Company: employment during any of the past three years (as an executive officer in the case of family members); the receipt of more than \$100,000 per year in direct compensation (other than director fees) during any of the past three years; affiliation or employment with a present or former internal or external auditor during any of the past three years;

employment with another company where any executive officers of the Company serve on that company's compensation committee during any of the past three years; being an executive officer of a charitable organization to which the Company contributed the greater of \$1 million or 2% of such charitable organization's consolidated gross revenues in any single fiscal year during the preceding three years; or being an executive officer of a company that makes

Edgar Filing: GREATBATCH, INC. - Form DEF 14A

payments to, or receives payments from, the Company for property or services in a fiscal year in an amount in excess of the greater of \$1 million or two percent (2%) of such other company's consolidated gross revenues.

In accordance with the Guidelines, the Board undertook its annual review of director independence. During this review, the Board considered the materiality of any relationships with the Company from the director's perspective and the perspective of any persons or organizations with which the director is affiliated. Material relationships may include commercial, industrial, banking, consulting, legal, accounting, charitable or familial relationships and can also be indirect, such that serving as a partner or officer, or holding shares, of an organization that has a relationship with the Company may cause the director not to be independent. As provided in the Guidelines, the purpose of this review was to determine whether any such relationships or transactions existed that were inconsistent with a determination that the director is independent.

Pursuant to the Guidelines and following the review described above, the Board has affirmatively determined that no current director has a material relationship with the Company that is inconsistent with a determination of independence, except Mr. Hook. Therefore, the Board affirmatively determined that all the current directors, with the exception of Mr. Hook, are independent.

Meetings and Committees of the Board

The Board has standing Audit, Compensation and Organization, Corporate Governance and Nominating and Science and Technology Development Committees. Each committee has a written charter posted on the Investor Relations section of the Company's website under "Governance." Copies of the charters may be obtained without charge by any stockholder of record by written request made to the Manager of External Reporting and Investor Relations, Greatbatch, Inc., 10000 Wehrle Drive, Clarence, New York 14031.

The Board held twelve meetings in 2007. Each director attended at least 75% of the meetings of the Board and meetings of the committees of the Board on which each director served. All of the Company's directors attended the 2007 annual meeting of stockholders. The Company requests, but has no formal policy regarding director attendance at its annual meeting of stockholders.

Audit Committee - The Audit Committee consists of Messrs. Summer (Chair), Melia, Summers and Wareham. In January 2008, Mr. Summer notified the Company that he will not stand for re-election at its 2008 Annual Meeting of Stockholders because of responsibilities associated with a new employment position that he recently accepted. Mr. Summer will complete his current term as a director of the Company and Chair of the Audit Committee, which continues until the 2008 Annual Meeting of Stockholders. Mr. Melia has been designated as the successor to Mr. Summer to serve as Chair of the Audit Committee after the 2008 Annual Meeting of Stockholders. The Audit Committee's primary purpose is assisting the Board in overseeing the (i) integrity of the Company's financial statements, (ii) Company's compliance with legal and regulatory requirements, (iii) the Company's independent registered public accounting firm qualifications and independence, (iv) performance of the Company's internal audit function and independent registered public accounting firm and (v) Company's system of disclosure controls and system of internal controls regarding finance, accounting, legal compliance, related person transactions and ethics that management and the Board have established. The Audit Committee had nine meetings in 2007.

Compensation and Organization Committee - The Compensation and Organization Committee consists of Messrs. Summers (Chair), Soderberg and Summer. The Compensation and Organization Committee's primary purpose is establishing the Company's executive compensation philosophy that will attract, retain and motivate superior executives and ensure that senior executives of the Company

Edgar Filing: GREATBATCH, INC. - Form DEF 14A

and its wholly owned subsidiaries are compensated appropriately in a manner consistent with the compensation philosophy, internal equity considerations, competitive practice and the requirements of the appropriate regulatory bodies. The Compensation and Organization Committee also administers the Company's 1997 and 1998 Stock Option Plans, the Company's 2002 Restricted Stock Plan and the Company's 2005 Stock Incentive Plan. The Compensation and Organization Committee had seven meetings in 2007.

Corporate Governance and Nominating Committee - The Corporate Governance and Nominating Committee consists of Ms. Bailey (Chair), Messrs. Sanford and Soderberg, Dr. Miller and Dr. Wisniewski. The Corporate Governance and Nominating Committee identifies qualified individuals to become members of the Board, recommends to the Board the selection of director nominees, develops and recommends to the Board a set of corporate governance principles applicable to the Company and evaluates the effectiveness of the Board. The Corporate Governance and Nominating Committee reviews with the Board, on an annual basis, the composition of the Board and whether the Company is being well served by the directors taking into account their independence, age, skills, experience and availability for service. The Corporate Governance and Nominating Committee recommends director nominees to the Board considering the factors discussed above, provided that no director may sit on the board of, or beneficially own stock in (other than through mutual funds or similar non-discretionary,

25

undirected arrangement), any of the Company's competitors in its principal lines of business. The Corporate Governance and Nominating Committee may, and has sole authority to, retain a search firm to assist in identifying qualified director candidates. Kevin C. Melia and Dr. Helena S. Wisniewski each were initially identified as a potential candidate for election to the Board by a search firm retained by the Corporate Governance and Nominating Committee. The Corporate Governance and Nominating Committee's policy is to consider director candidates recommended from all sources, including stockholder recommendations, to the extent those candidates will improve the Board's composition based on the factors discussed above. The Corporate Governance and Nominating Committee uses the same process for evaluating candidates for director regardless of the source of the recommendation. Stockholders wishing to submit recommendations for candidates to the Board must supply information in writing regarding the candidate to the Corporate Governance and Nominating Committee at the Company's executive offices at 10000 Wehrle Drive, Clarence, New York 14031. The information should include, at a minimum, the candidate's name, biographical information, qualifications and availability for service. The Corporate Governance and Nominating Committee had seven meetings in 2007.

Science and Technology Development Committee - The Science and Technology Development Committee consists of Dr. Miller (Chair), Mrs. Bailey, Messrs. Hook, Melia and Wareham and Dr. Wisniewski. The Science and Technology Development Committee periodically examines management's direction and investment in the Company's research and development, as well as in its technology initiatives and advises the Board on scientific matters that include major internal projects, interaction with academic and other outside research organizations and the acquisition of technologies and products. The Science and Technology Development Committee had five meetings in 2007.

Executive Sessions of the Board

The independent non-management directors, consisting of all current directors except for Mr. Hook, meet without management at regularly scheduled executive sessions at the conclusion of each regular quarterly Board meeting and at such other times as they deem appropriate.

Edgar Filing: GREATBATCH, INC. - Form DEF 14A

Sanford or Summer via the Whistleblower Information page of the Investor Relations section of the Company's website (www.greatbatch.com) under "Governance", by leaving a confidential voicemail message for either Mr. Sanford (716-759-5501) or Mr. Summer (716-759-5508), or by writing to the following address: Board of Directors, Greatbatch, Inc., 10000 Wehrle Drive, Clarence, NY 14031.

Compensation and Organization Committee Interlocks and Insider Participation

In fiscal year 2007, Messrs. Summer, Summers and Soderberg served on the Compensation and Organization Committee. No person who served as a member of the Compensation and Organization Committee during fiscal year 2007 was (i) an officer or employee of the Company or any of its subsidiaries during such fiscal year (ii) formerly an officer of the Company or any of its subsidiaries or (iii) had any relationship requiring disclosure by the Company under Item 404 of Regulation S-K under the Securities Act of 1933.

Director Compensation

The Company uses a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve on our Board. In setting director compensation, the Company considers the significant amount of time that directors expend in fulfilling their duties to the Company as well as the skill-level required for members of the Board. Directors who are also employees of the Company receive no additional remuneration for services as a director.

Cash Compensation - For 2007, each non-employee director received an annual retainer of \$30,000.

In addition to their annual retainer, directors received cash payments as follows:

Lead Independent Director	\$20,000
Audit Committee Chair	\$10,000
Compensation & Organization Committee Chair	\$ 7,500
Corporate Governance & Nominating Committee Chair	\$ 5,000
Science & Technology Committee Chair	\$ 5,000
Committee Meeting Fees	\$ 1,000 per meeting attended \$ 500 per telephonic meeting

Equity Compensation - Equity-based compensation awarded to non-employee directors is based upon the guidelines of the LTIP Program. For 2007, each non-employee director received \$60,000 of equity based compensation. The equity compensation was comprised of 1/2 non-qualified stock options and 1/2 restricted stock. The amount of stock options awarded is calculated using the Black-Scholes value of our stock on the date of grant. The amount of restricted shares granted is calculated using the closing price of the Company's Common Stock on the date of grant. For 2007, all equity-based awards vested immediately.

Retirement - Upon Board approved retirement, each outstanding director receives

Edgar Filing: GREATBATCH, INC. - Form DEF 14A

- o immediate vesting of any unvested equity-based awards; and
- o the right to exercise all outstanding stock options for a period of 3 years.

All awards and changes to director's compensation are approved by the Board.

The following table contains information concerning the total compensation earned by each individual who served as a director of Greatbatch during 2007, other than directors who are also Named Executive Officers:

- (2) The amounts indicated represent the aggregate dollar amount of compensation expense related to restricted stock and stock option awards granted that was recognized in our financial statements during 2007 and includes amounts from awards granted prior to 2007. The determination of this expense is based on the methodology set forth in notes 1 and 10 to our financial statements included in our Annual Report on Form 10-K, which was filed with the SEC on February 26, 2008. In 2007, each non-employee director other than Mr. Melia received restricted stock awards and stock options with an aggregate grant date fair value of \$34,374 and \$29,993, respectively. The amounts for Mr. Voboril which are in excess of \$10,000 include: 401(k) Contribution - \$15,298 and Auto allowance - \$14,400. The remaining All Other Compensation relates to benefits received in accordance with Mr.

Edgar Filing: GREATBATCH, INC. - Form DEF 14A

Voboril's employment agreement. See note 4 below.

- (4) Effective August 8, 2006, Mr. Voboril was succeeded by Mr. Hook as President & Chief Executive Officer but continued to serve as Chairman until his retirement on January 31, 2008. In order to ensure the successful implementation of his succession plan, in June 2006 the Company entered into an employment agreement with Mr. Voboril that provided certain benefits, including a base salary of \$225,000 from January 1, 2007 to January 31, 2008 and an award of 50,879 shares of Common Stock on December 31, 2007.

27

On December 10, 2007, the Board, on the recommendation of the Corporate Governance and Nominating Committee of the Board, approved a new compensation program for non-employee Directors effective beginning in 2008. Consistent with current best practices, the Board reviews, with the assistance of information provided by Ernst & Young, director compensation every 2 to 3 years. The last review was performed in 2005.

Under the new program, the annual cash retainer will be \$30,000. For each meeting of the Board in excess of five attended by a Director in any calendar year, the Director will be paid a meeting fee of \$1,000. The Company will pay \$1,000 for each Board committee meeting attended in person or telephonically. In the case of a committee chairperson, additional retainers will be paid as follows: Audit Committee chair, \$20,000; Compensation and Organization Committee chair, \$15,000; Corporate Governance and Nominating Committee chair, \$10,000; and Science and Technology Development Committee chair, \$10,000.

In addition, each non-employee director will receive an annual incentive award under the Company's 2005 Stock Incentive Plan equal in value to \$120,000 and consisting of 1/2 in shares of Common Stock (based on the closing price of the Common Stock on the date of grant) and 1/2 in stock options (computed using the Black-Scholes method), each of which vests on the last day of the fiscal year in which the award was made.

The Non-Executive Chairman will be paid an additional annual cash retainer of \$40,000 and annual additional equity compensation of \$60,000. The additional equity compensation shall be awarded at the same time and in the same manner as the annual equity compensation paid to each non-employee Director. The stock options granted will have an exercise price equal to the closing price of the Common Stock as of the close of business on the grant date.
