## NOTES TO UNAUDITED INTERIM FINANCIAL STATEMENTS

## 1) BASIS OF PRESENTATION

The accompanying unaudited interim financial statements as of March 31, 2015 and for the three months ended March 31, 2015 and 2014 have been prepared in conformity with accounting principles generally accepted in the United States (“GAAP”) for interim financial statements. The financial information as of December 31, 2014 is derived from the audited financial statements presented in the Willamette Valley Vineyards, Inc. (the “Company”) Annual Report on Form 10-K for the year ended December 31, 2014. Certain information or footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, the accompanying financial statements include all adjustments necessary (which are of a normal recurring nature) for the fair statement of the results of the interim periods presented. The accompanying financial statements should be read in conjunction with the Company’s audited financial statements for the year ended December 31, 2014, as presented in the Company’s Annual Report on Form 10-K.

Operating results for the three months ended March 31, 2015 are not necessarily indicative of the results that may be expected for the entire year ending December 31, 2015, or any portion thereof.

The Company’s revenues include direct-to-consumer sales and national sales to distributors. These sales channels utilize shared resources for production, selling and distribution.

Basic earnings per share are computed based on the weighted-average number of common shares outstanding each period. Diluted earnings per share are computed using the weighted average number of shares of common stock and potentially dilutive common shares outstanding during the period. Potentially dilutive shares from stock options and other instruments are excluded from the computation when their effect is anti-dilutive. At March 31, 2015 and 2014, potentially dilutive shares of 0 and 0, respectively, were excluded from the computation as their effect would be anti-dilutive. 72,538 and 100,263 potentially dilutive shares are included in the computation of dilutive earnings per share for the three month periods ended March 31, 2015 and 2014, respectively.

## 4) DISTRIBUTION AGREEMENT RECEIVABLE AND DEFERRED REVENUE

Effective September 1, 2011, the Company entered into an agreement with Young's Market Company for distribution of Company-produced wines in Oregon and Washington. The terms of this contract include exclusive rights to distribute Willamette Valley Vineyard's wines in Oregon and Washington for seven years. In an effort to facilitate the transition with as little disruption as possible, Young's Market Company has agreed to compensate Willamette Valley Vineyards for ongoing Oregon sales and branding efforts. As a result, the Company was due to receive \$250,000 per year starting on September 2011 for each of the next four years for a total of \$1,000,000. In October of 2014, the Company received payment of the final \$250,000 under this agreement. The total amount of \$1,000,000 received by the Company related to this agreement is being recognized as revenue on a straight line basis over the seven year life of the agreement. For the three months ended March 31, 2015 and 2014, the Company has recognized revenue related to this agreement in the amount of \$35,715 and \$35,715, respectively, recorded to other income.

## 5) DEBT

Line of Credit Facility – In December of 2005 the Company entered into a revolving line of credit agreement with Umpqua Bank that allows borrowings of up to \$2,000,000 against eligible accounts receivable and inventories as defined in the agreement. The revolving line bears interest at prime, is payable monthly, and is subject to annual renewal. In July of 2014, the Company renewed the credit agreement for an additional two years. The interest rate was 3.25% at March 31, 2015 and December 31, 2014. At March 31, 2015 and December 31, 2014 there was no outstanding balance on this revolving line of credit.

The line of credit agreement includes various covenants, which among other things, require the Company to maintain minimum amounts of tangible net worth, debt/worth ratio, and debt service coverage as defined. As of March 31, 2015, the Company was in compliance with these financial covenants.

Long Term Debt - The Company has four long term debt agreements with Farm Credit Services with an aggregate outstanding balance of \$5,420,712 and \$5,502,294 as of March 31, 2015 and December 31, 2014, respectively. These loans require monthly principal and interest payments of \$53,058 for the life of the loans, at annual fixed interest rates

ranging from 4.75% to 6.70%, and with maturity dates ranging from 2024 through 2028. The general purposes of these loans were to make capital improvements to the winery and vineyard facilities.

## 6) STOCK BASED COMPENSATION

The Company has a stock incentive plan, originally created in 1992, and most recently amended in 2001. No additional grants may be made under the plan. All stock options have an exercise price that is equal to the fair market value of the Company's stock on the date the options were granted. Administration of the plan, including determination of the number, term, and type of options to be granted, lies with the Board of Directors or a duly authorized committee of the Board of Directors. Options were generally granted based on employee performance with vesting periods ranging from date of grant to seven years. At the date of the grant, the maximum term before expiration is ten years.

The following table presents information related to the value of outstanding stock options for the period shown:

	Three months ended March 31, 2015	
	Weighted Average Exercise Shares	Price
Outstanding at beginning of period	222,971	\$ 3.79
Granted	-	-
Exercised	(30,000 )	4.24
Forfeited	-	-
Outstanding at end of period	192,971	\$ 3.72

At March 31, 2015, the Company had 34,000 unvested stock options with associated unrecognized compensation cost of \$12,116 that will be recognized over a weighted-average period of 1.53 years. The intrinsic value of the 158,971 stock options exercisable at March 31, 2015 was \$332,308.

The Company expenses stock options on a straight-line basis over the options' related vesting term. Pretax compensation expense related to stock options for the three months ended March 31, 2015 and 2014 was \$5,291 and \$5,292, respectively.

Stock options exercised during the three months ended March 31, 2015 and 2014 were 30,000 and 7,200, respectively.

## 7) INTEREST AND TAXES PAID

Income taxes – The Company paid \$101,550 and \$114,550 in income taxes for the three months ended March 31, 2015 and 2014, respectively.

Interest - The Company paid \$77,593 and \$82,788 for the three months ended March 31, 2015 and 2014, respectively, in interest on long-term debt and revolving line of credit.

## 8) OTHER INCOME

On March 10, 2014 the Company experienced an inadvertent spillage of approximately 29,000 gallons of bulk wine during a filtration process. Subsequent to this loss, the Company filed an insurance claim with its carrier and received

a partial settlement of \$75,000 during the three months ended March 31, 2014 which, net of wine cost of \$49,687, resulted in \$25,313 being recorded to other income for the three months ended March 31, 2014.

#### 9) SEGMENT REPORTING

The Company has identified two operating segments, Direct Sales and Distributor Sales, based upon their different distribution channels, margins and selling strategies. Direct Sales includes retail sales in the tasting room and remote sites, Wine Club sales, on-site events, kitchen and catering sales and other sales made directly to the consumer without the use of an intermediary, including sales of bulk wine or grapes. Distributor Sales include all sales through a third party where prices are given at a wholesale rate.

## NOTES TO UNAUDITED INTERIM FINANCIAL STATEMENTS

## 9) SEGMENT REPORTING (CONTINUED)

The two segments reflect how the Company's operations are evaluated by senior management and the structure of its internal financial reporting. The Company evaluates performance based on the gross profit of the respective business segments. Selling expenses that can be directly attributable to the segment, including depreciation of segment specific assets, are included, however, centralized selling expenses and general and administrative expenses are not allocated between operating segments. Therefore, net income information for the respective segments is not available. Discrete financial information related to segment assets, other than segment specific depreciation associated with selling, is not available and that information continues to be aggregated.

The following table outlines the sales, cost of sales, gross margin, directly attributable selling expenses, and contribution margin of the segments for the three month periods ending March 31, 2015 and 2014. Sales figures are net of related excise taxes.

	Three Months Ended March 31,

Direct sales include \$248,138 and \$0 of bulk wine sales in the three months ended March 31, 2015 and 2014, respectively.

## 10) SUBSEQUENT EVENTS

Subsequent events are events or transactions that occur after the balance sheet date but before financial statements are issued. The Company recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing the financial statements. The Company's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the balance sheet but arose after the balance sheet date and before financial statements are issued.

In April of 2015, the Company completed the purchase of approximately 42 acres of undeveloped farmland in the Walla Walla Valley AVA for \$736,250, with an option to purchase an additional 45 acres for \$433,000. This purchase is part of the Company's plan to broaden its product and brand line of ultra-premium wines.

ITEM 2:

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

This Management's Discussion and Analysis of Financial Condition and Results of Operations and other sections of this Form 10-Q contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements involve risks and uncertainties that are based on current expectations, estimates and projections about the Company's business, and beliefs and assumptions made by management. Words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates" and variations of such words and expressions are intended to identify such forward-looking statements. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements due to numerous factors, including, but not limited to: availability of financing for growth, availability of adequate supply of high quality grapes, successful performance of internal operations, impact of competition, changes in wine broker or distributor relations or performance, impact of possible adverse weather conditions, impact of reduction in grape quality or supply due to disease, impact of governmental regulatory decisions, and other risks disclosed from time to time in the Company's Securities and Exchange Commission filings and reports. In addition, such statements could be affected by general industry and market conditions and growth rates, and general domestic economic conditions. The forward-looking statements are made as of the date hereof, and, except as otherwise required by law, the Company disclaims any intention or obligation to update or revise any forward-looking statements or to update the reasons why the actual results could differ materially from those projected in the forward-looking statements, whether as a result of new information, future events or otherwise.

Critical Accounting Policies

The foregoing discussion and analysis of the Company's financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires the Company's management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to revenue recognition, collection of accounts receivable, valuation of inventories, and amortization of vineyard development costs. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. A description of the Company's critical accounting policies and related judgments and estimates that affect the preparation of the Company's financial statements is set forth in the Company's Annual Report on Form 10-K for the year ended December 31, 2014. Such policies were unchanged during the three months ended March 31, 2015.

Overview

The Company generates revenues from the sales of wine to wholesalers and direct to consumers. Direct to consumer sales primarily include sales through the Company's Tasting Rooms and Wine Club. Direct to consumer sales are more profitable to the Company due to prices received being closer to retail than those prices paid by wholesalers. The Company continues to emphasize growth in direct to consumer sales through the Hospitality Center remodel and expansion and growth in wine club membership. Wine Club membership increased by approximately 242 net new members, or 4.2%, for the three months ending March 31, 2015. Periodically, the Company will sell grapes or bulk wine, due to them not meeting Company standards or being excess to production targets, however this

activity is not a significant part of the Company's activities.

The Company sold approximately 26,555 and 21,704 cases of produced wine during the three months ended March 31, 2015 and 2014, respectively, an increase of 4,851 cases, or 22.4% in the current year period over the prior year period. The increase in wine sales was primarily the result of increased direct to consumer sales.

Cost of sales includes grape costs, whether purchased or grown at Company vineyards, crush costs, winemaking and processing costs, bottling, packaging, warehousing and shipping and handling costs. For grapes grown at Company vineyards, costs include farming expenditures and amortization of vineyard development costs.

At March 31, 2015, wine inventory includes approximately 66,000 cases of bottled wine and 302,000 gallons of bulk wine in various stages of the aging process. Case wine is expected to be sold over the next 12 to 24 months and generally before the release date of the next vintage. The winery bottled approximately 29,000 cases during the three months ended March 31, 2015.

Net income for the three months ended March 31, 2015 and 2014 was \$314,238 and \$174,915, respectively, an increase of \$139,323, or 79.7%, in the current year period over the prior year period. Overall gross profit for the three months ended March 31, 2015 and 2014 was \$2,304,034 and \$1,721,989, respectively, an increase of \$582,045, or 33.8%, in the current year period over the prior year period. Gross profit percent for the three months ended March 31, 2015 and 2014 was 58.9% and 57.9%, an increase of 1.0 percentage point, in the current year period over the prior year period.

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

The Company generated \$0.06 and \$0.04 in basic earnings per share during the three months ended March 31, 2015 and 2014, respectively.

Willamette Valley Vineyards continues to receive positive recognition through online bloggers, local newspapers, publications and national magazines.

The Company's 2013 Pinot Gris and 2013 Riesling both received Gold Medals at The San Francisco Chronicle Wine Competition in January 2015.

In February 2015, Willamette Valley Vineyard's 2012 Estate Pinot Noir received a Gold Medal at the Seattle Wine & Food Experience Wine Competition.

## RESULTS OF OPERATIONS

### Revenue

Sales for the three months ended March 31, 2015 and 2014 were \$3,912,501 and \$2,971,879, respectively, an increase of \$940,622, or 31.7%, in the current year period over the prior year period. This is caused by an increase in direct sales of \$512,913, including bulk wine sales of \$248,138, and an increase in sales through distributors of \$427,709 in the current year three month period over the prior year period. The increase in direct sales to consumers is primarily the result of increased wine club, tasting room and kitchen sales in addition to bulk wine sales that occurred in 2015 that were not present in 2014. Management believes that the increase in sales through distributors was due to increased sales made to several large chain retailers in the three months ended March 31, 2015.

### Cost of Sales

Cost of Sales for the three months ended March 31, 2015 and 2014 were \$1,608,467 and \$1,249,890, respectively, an increase of \$358,577, or 28.7%, in the current period over the prior year period. This change was primarily the result of an overall increase in sales of wine, partially offset by a shift to more direct sales to consumers which achieve a higher profit margin.

Gross profit margin for the three months ended March 31, 2015 and 2014 was 58.9% and 57.9%, respectively, an increase of 1.0 percentage point, in the current year period over the prior year period.
