Income taxes paid	\$	680	\$	4,181

**SUPPLEMENTAL SCHEDULE OF NON-CASH INVESTING AND FINANCING ACTIVITIES:**

139,573 shares of common stock were issued in satisfaction of a payable of approximately \$906 related to the acquisition of DIT Industry (H.K.) Limited ( DIT ) in February 2009. (Note 2)

341,228 shares of common stock were issued in satisfaction of the purchase price of approximately \$1,669 in the acquisition of Shenzhen Coson Electronic Co. Ltd. ( Coson ) in February 2009. Additionally, the Company recorded a liability in the amount of \$1,170 representing the estimated fair value of contingent consideration, to be payable in cash, issued in the acquisition. (Note 3)

See the accompanying notes to condensed consolidated financial statements

**CHINA SECURITY & SURVEILLANCE TECHNOLOGY, INC. AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

**Expressed in thousands of U.S. dollars  
(Except for share and per share amounts)**

**1. BASIS OF PRESENTATION**

The accompanying financial statements, as of March 31, 2009 and for the three months ended March 31, 2009 and 2008, have been prepared by CHINA SECURITY & SURVEILLANCE TECHNOLOGY, INC. (the "Company") without an audit. Pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"), certain information and footnote disclosures normally included in the financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP") have been condensed or omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the financial statements and the notes thereto included in the Company's audited annual financial statements for the year ended December 31, 2008, which are included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008, filed with the SEC on March 5, 2009. Amounts as of December 31, 2008 are derived from these audited consolidated financial statements.

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

In the opinion of the management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position as of March 31, 2009, results of operations and cash flows for the three months ended March 31, 2009 and 2008, have been made. The results of operations for the three months ended March 31, 2009 are not necessarily indicative of the operating results for the full year.

**2. SUMMARY OF SELECTED SIGNIFICANT ACCOUNTING POLICIES**

**(a) Accounting for Computer Software to Be Sold, Leased or Otherwise Marketed**

The Company accounts for software development costs in accordance with Statement of Financial Accounting Standards ("SFAS") No. 86, "*Accounting for the Costs of Computer Software to be Sold, Leased, or Otherwise Marketed.*" Costs related to establishing the technological feasibility of a software product are expensed as incurred as a part of research and development in general and administrative expenses. Costs that are incurred to produce the finished product after technological feasibility is established are capitalized and amortized over the estimated economic life of 5 years. The Company performs periodic reviews to ensure that unamortized program costs remain recoverable from future revenue.

As of March 31, 2009 and December 31, 2008, unamortized computer software costs were \$3,211 and \$2,776, respectively. During the three months ended March 31, 2009 and 2008, \$316 and \$254 amortization expense was charged to income, respectively.

**(b) Inventories**

Inventories are stated at the lower of cost, determined on a weighted average basis, or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale.

When inventories are sold, their carrying amount is charged to expense in the year in which the revenue is recognized. Write-downs for declines in net realizable value or for losses of inventories are recognized as an expense in the year

the impairment or loss occurs. There were no declines in net realizable value of inventory for the three months ended March 31, 2009 and 2008.

As of March 31, 2009 and December 31, 2008, inventories held under the product financing arrangements were \$7,713 and \$6,689, respectively.

During the three months ended March 31, 2009 and 2008, inventory purchases from the top five suppliers constituted for approximately 28% and 60% of the total inventory purchases, respectively.

**CHINA SECURITY & SURVEILLANCE TECHNOLOGY, INC. AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

**Expressed in thousands of U.S. dollars  
(Except for share and per share amounts)**

**2. SUMMARY OF SELECTED SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**(c) Accounts Receivable**

Trade receivables are recognized and carried at the original invoice amount less allowance for any uncollectible amounts. An estimate for doubtful accounts is made when collection of the full amount is no longer probable. Bad debts are written off as incurred.

No trade receivable due from any single individual customer exceeds 10% of total accounts receivable at March 31, 2009 and December 31, 2008.

**(d) Revenue Recognition**

Revenues from sales of surveillance and safety products and systems are recognized in accordance with Staff Accounting Bulletin ("SAB") No. 104, *Revenue Recognition*, and related interpretations. Revenues are recognized when the following criteria are met:

- (i) Persuasive evidence of an arrangement exists The Company requires evidence of an agreement with a customer specifying the terms and conditions of the products to be delivered typically in the form of a signed contract or purchase order.
- (ii) Delivery has occurred For product sales, delivery generally takes place when titles to the products are shipped to or accepted by the customer.
- (iii) The fee is fixed or determinable Fees are fixed or determinable based on the contract or purchase order terms.
- (iv) Collection is probable The Company performs a credit review of all customers with significant transactions to determine whether a customer is creditworthy and collection is probable.

The sales contracts generally provide a one to three-year product warranty to customers from the date of purchase. We estimated the costs of satisfying warranty claims based on an analysis of past experience and provide for the future claims in the period the revenue recognized. As of March 31, 2009 and December 31, 2008, no material product warranty reserve was accrued. Warranty costs incurred by the Company have not been material.

The Company derives the bulk of its revenue from the supply and installation of surveillance and safety equipment and the two deliverables do not meet the separation criteria under Emerging Issues Task Force ("EITF") issue 00-21. Revenue from the supply and installation of surveillance and safety equipment are recognized when the installation is completed and the customer acceptance is received. Approximately 1% of contract installation revenue is deferred for the repair work during the one year warranty period. The Company carefully monitors the warranty work requested by its customers, and has determined that very little warranty work has historically been requested to be performed. Management believes that this 1% warranty reserve appears adequate as of March 31, 2009.

Repairs and maintenance service revenue is recognized when the service is performed.

**CHINA SECURITY & SURVEILLANCE TECHNOLOGY, INC. AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

**Expressed in thousands of U.S. dollars  
(Except for share and per share amounts)**

**2. SUMMARY OF SELECTED SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**(d) Revenue Recognition continued**

The Company derives a portion of its revenue from one-year software upgrades. These services are typical postcontract service ( PCS ) arrangements according to AICPA Statement of Position ( SOP ) 97-2. Under SOP 97-2, PCS revenue may be recognized together with the initial licensing fee on delivery of the software if all of the following conditions are met:

- (i) The PCS fee is included with the initial licensing fee;
- (ii) The PCS included with the initial license is for one year or less;
- (iii) The estimated cost of providing PCS during the arrangement is insignificant; and
- (iv) Unspecified upgrades/enhancements offered during PCS arrangements historically have been and are expected to continue to be minimal and infrequent.

Revenue from surveillance and safety system one year software upgrades is recognized when delivery occurs and the risk of ownership passes to the customers, as the Company believes it meets the conditions in compliance with SOP 97-2.

**(e) Research and Development Costs**

Research and development costs are expensed as incurred. Research and development costs included in general and administrative expenses for the three months ended March 31, 2009 and 2008 amounted to \$670 and \$59, respectively.

**(f) Advertising Costs**

The Company expenses advertising costs as incurred or the first time advertising takes place. During the three months ended March 31, 2009 and 2008, the Company incurred advertising costs of approximately \$97 and \$55, respectively.

**(g) Retirement Benefits**

Retirement benefits in the form of contributions under defined contribution retirement plans to the relevant authorities are charged to the consolidated statements of income as incurred. The retirement benefit expenses for the three months ended March 31, 2009 and 2008 were \$270 and \$218, respectively and are included in the selling and marketing expenses and general and administrative expenses.

**(h) Share-based Payments**

On February 7, 2007, the Company adopted the 2007 Equity Incentive Plan ("Plan"), which has a five-year term and provides for grants of stock options, stock appreciation rights, performance units, restricted stock units and performance shares. The total number of shares which may be issued under the plan is 8,000,000 shares of common stock. These restricted stocks are share-based payments subject to the provisions of revised Statement of Financial Accounting Standards ("SFAS") No. 123, Share-Based Payment ("SFAS 123 (R)"). The fair values of these restricted

stock awards are equal to the market value of the Company's stock on the date of grant, after taking into account certain discounts. Such restricted stock is subject to the risk of forfeiture upon the occurrence of certain events. During the three months ended March 31, 2009 and 2008, the Company has recognized \$4,218 and \$2,958 of compensation expense under the Plan, respectively. As of March 31, 2009 and December 31, 2008, there was \$50,841 and \$52,616 of unrecognized compensation expense related to the nonvested restricted stock, respectively. These expenses are expected to be recognized over a four to five -year period.

**CHINA SECURITY & SURVEILLANCE TECHNOLOGY, INC. AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

**Expressed in thousands of U.S. dollars**  
**(Except for share and per share amounts)**

**2. SUMMARY OF SELECTED SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**(i) Income taxes**

The Company adopted the provisions of Financial Accounting Standards Board ( FASB ) Interpretation No. 48, Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No. 109, ( FIN 48 ), on January 1, 2007. The Company did not have any material unrecognized tax benefits and there was no effect on its financial condition or results of operations as a result of implementing FIN 48.

The Company files income tax returns with the relevant government authorities in the U.S. and the PRC. The Company was not subject to U.S. federal tax examinations for years before 2006. The Company does not believe there will be any material changes in its unrecognized tax positions over the next 12 months.

The Company's policy is to recognize interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense. As of the date of adoption of FIN 48, the Company did not have any accrued interest or penalties associated with any unrecognized tax benefits, nor was any interest expense recognized during the three months ended March 31, 2009 and 2008. The Company's effective tax rate differs from the federal statutory rate primarily due to non-deductible expenses, temporary differences, and preferential tax treatment.

On March 16, 2007, the National People's Congress of PRC adopted a new corporate income tax law in its fifth plenary session. The new corporate income tax law unifies the application scope, tax rate, tax deduction and preferential policy for both domestic and foreign-invested enterprises. The new corporate income tax law was effective on January 1, 2008. According to the new corporate income tax law, the applicable income tax rates for our operating subsidiaries were changed.

**(j) Use of Estimates**

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Management makes these estimates using the best information available at the time the estimates are made; however actual results could differ materially from those estimates.

**(k) Earnings Per Share**

SFAS No. 128, Earnings Per Share, requires dual presentation of basic and diluted earnings per share ( EPS ) with a reconciliation of the numerator and denominator of the basic EPS computation to the numerator and denominator of the diluted EPS computation. Basic EPS excludes dilution. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the entity.

Earnings per basic share of common stock is based on the weighted average number of shares of common stock outstanding during each respective period. Earnings per diluted share of common stock adds to basic weighted shares the weighted average number of shares issuable under convertible securities, contingent issuances, stock options and warrants outstanding during each respective period, using the if-converted or treasury-stock methods.

For purposes of the computation of net income per share, shares issued in connection with acquisitions that are returnable are considered contingently returnable shares under SFAS No. 128. These contingently returnable shares, although classified as issued and outstanding, are not included in basic weighted average number of shares until all necessary conditions are met that no longer cause the shares to be contingently returnable. These contingently returnable shares are included in diluted weighted average number of shares as of the beginning of the period in which the conditions were satisfied (or as of the date of the agreement, if later). Unvested restricted shares issued under the 2007 Equity Incentive Plan are not included in basic weighted average number of shares but are considered to be outstanding as of the grant date for purposes of computing diluted earnings per share even though the shares are subject to vesting requirements.

**CHINA SECURITY & SURVEILLANCE TECHNOLOGY, INC. AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

**Expressed in thousands of U.S. dollars  
(Except for share and per share amounts)**

**2. SUMMARY OF SELECTED SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**(k) Earnings Per Share continued**

The calculation of diluted earnings per share is based on the outstanding warrants for the three months ended March 31, 2009 and 2008. As of March 31, 2009 and December 31, 2008, warrants were outstanding to acquire 174,515 and 174,515 shares of common stock, respectively. As of March 31, 2009 and 2008, warrants which were outstanding to acquire 174,515 and 0 shares of common stock, respectively, were not included in the dilutive calculation for the three months ended March 31, 2009 and 2008, as the effect would be anti-dilutive.

With respect to outstanding warrants, the dilutive impact on the weighted average number of shares was 0 and 21,168 for the three months ended March 31, 2009, and 2008, respectively.

In 2008, the Company agreed to issue 139,573 shares of common stock in connection with the acquisitions of DIT. These shares were issued in February 2009. In 2008, the Company issued an aggregate of 2,470,116 in connection with the acquisitions of Guangdong Stonesonic Digital Technique Co., Ltd. ( Stonesonic ), Shenzhen Longhorn Limited, Beijing Aurine Divine Land Technology Co., Ltd., Shenzhen Jin Lin Technology Co., Ltd. ( Jin Lin ), 100% beneficial interest of Huge Long Limited and the exclusive cooperation agreement with Beijing DM Security & Technology Co., Ltd. excluding contingently returnable shares of 339,949 shares of common stock. The impact of these shares has been included in the weighted average number of shares from the date of the closing of the acquisitions through the earlier of December 31, 2008 or the date the shares were issued.

Approximately 12,222,000 and 5,452,000 shares of common stock underlying the February Notes and April Notes (as defined in Note 14) were not included in the dilutive calculation for the three months ended March 31, 2009 and 2008, respectively, as the effect would be anti-dilutive.

**(l) New Accounting Standards**

In December 2007, the FASB issued SFAS No. 141 (revised 2007), Business Combinations ( SFAS 141(R) ), which addresses the accounting and disclosure for identifiable assets acquired, liabilities assumed, and noncontrolling interests in a business combination. In April 2009, the FASB issued FASB Staff Position No. FAS 141(R)-1,

Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies ( FSP FAS 141(R)-1 ), which amended certain provisions of SFAS 141(R) related to the recognition, measurement, and disclosure of assets acquired and liabilities assumed in a business combination that arise from contingencies. The Company adopted SFAS 141(R) and FSP FAS 141(R)-1 on January 1, 2009. The Company accounted for its January 2009 business acquisition in accordance with these standards. See Note 3 for additional disclosure.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements, an Amendment of Accounting Research Bulletin ( ARB ) No. 51, Consolidated Financial Statements ( SFAS 160 ). SFAS 160 establishes accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. The Company adopted SFAS 160 on January 1, 2009. As a result, the Company has reclassified financial statement line items within our Condensed Consolidated Balance Sheets and Statements of Income and Comprehensive Income for the prior period to conform with this standard.

In April 2009, the FASB issued FSP SFAS 107-1 and Accounting Principles Board Opinion ( APB ) 28-1, "Interim Disclosures about Fair Value of Financial Instruments", or FSP 107-1, which will require that the fair value disclosures required for all financial instruments within the scope of SFAS 107, "Disclosures about Fair Value of Financial Instruments", be included in interim financial statements. This FSP also requires entities to disclose the method and significant assumptions used to estimate the fair value of financial instruments on an interim and annual basis and to highlight any changes from prior periods. FSP 107-1 will be effective for interim periods ending after June 15, 2009. The adoption of FSP 107-1 is not expected to have a material impact on the Company's Consolidated Financial Statements.

(m) Fair Value

SFAS No.157 "*Fair Value Measurements*" which defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The statement clarifies that the exchange price is the price in an orderly transaction between market participants to sell the asset or transfer the liability in the market in which the reporting entity would transact for the asset or liability, that is, the principal or most advantageous market for the asset or liability. It also emphasizes that fair value is a market-based measurement, not an entity-specific measurement, and that market participant assumptions include assumptions about risk and effect of a restriction on the sale or use of an asset.

FAS 157 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FAS 157 are described below:

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability;

Level 3 Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

In February 2008, the Financial Accounting Standards Board issued Staff Position FAS 157-2, which delayed the effective date of SFAS 157 for nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). The Company adopted Staff Position FAS 157-2 on January 1, 2009.

At March 31, 2009, the Company has no financial assets or liabilities subject to recurring fair value measurements. During the three months ended March 31, 2009, the Company completed a business acquisition in which nonfinancial assets and nonfinancial liabilities were initially measured at fair value (see Note 3 for additional information).

SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" ("SFAS 159"), SFAS 159 allows entities to voluntarily choose to measure certain financial assets and liabilities at fair value (fair value option). The fair value option may be elected on an instrument-by-instrument basis and is irrevocable, unless a new election date occurs. If the fair value option is elected for an instrument, SFAS 159 specifies that unrealized gains and losses for that instrument be reported in earnings at each subsequent reporting date. The Company did not elect to apply the fair value option to any outstanding instruments.

### 3. BUSINESS ACQUISITIONS

On January 12, 2009, we entered into an equity transfer agreement with the shareholder of Multiwin International Holdings Limited ( Multiwin ) and acquired 100% ownership of Multiwin which is the holding company that owns all the outstanding equity of Shenzhen Coson Electronic Limited ( Coson ). Coson is an intelligent access control solution provider and provides control access solutions to a wide ranging group of clients that include government buildings, banks, post offices, universities and large residential properties in China. Pursuant to the equity transfer agreement, we have agreed to pay a total consideration up to RMB 51,768 (approximately \$7,518) in exchange for 100% ownership of Multiwin, consisting of RMB 40,000 (approximately \$5,849) in cash and RMB 11,768 (approximately \$1,669) in our shares of common stock. The number of shares issuable in satisfaction of the equity portion of the purchase price is 341,228 which was issued in February 2009. Under the terms of such agreement, 102,368 shares of the Company's common stock were to be returned if Coson did not meet certain net income targets in 2008. These targets were met in 2008. An additional 68,247 shares of the Company's common stock are to be returned if Coson does not meet certain net income targets in 2009. The operational control of Coson passed to the Company effective January 12, 2009. The Company will also pay the remaining RMB 8,000 (approximately \$1,170) if the net income targets are met in 2009. The Company recorded approximately \$293 and \$1,170 related to the estimated fair value of the contingent equity and cash consideration, respectively. The results of Coson's operations from January 12, 2009 through March 31, 2009 are included in the Company's Consolidated Statements of Income and Comprehensive Income.

Approximately 436,110 shares of common stock related to net income targets for 2009 and 2010 for the acquisition of Coson, Stonesonic, Jin Lin and DIT which are returnable.

The Company estimated the fair values of the assets acquired and liabilities assumed at the acquisition date in accordance with SFAS No. 141(R) and, except for cash and cash equivalents, fair value was estimated using level 3 inputs under SFAS No. 157. Level 3 inputs for the nonfinancial assets included a valuation report (prepared by a third party appraisal firm) that primarily utilized an income approach valuation technique. Level 3 inputs for other assets and liabilities included present value techniques applied to receivables and payables, and estimated selling prices (less costs of disposal and profit allowance) for inventories.

The following represents the purchase price allocation at the date of the acquisition of Coson based on the valuation report which was prepared by a third party appraisal firm. The purchase price allocation is not considered final as of the date of this report as the Company, along with the independent appraisal firm, is still reviewing all of the underlying assumptions and calculations used in the allocation. However, the Company believes the final purchase price allocation will not be materially different than presented below.

	<b>Coson</b>	
Cash and cash equivalents	\$	273
Other current assets		2,329
Property, plant and equipment		802
Intangible assets		3,435
Goodwill		2,314
Current liabilities		(1,635)
Total purchase price	\$	7,518

(Except for share and per share amounts)

**4. ACCOUNTS RECEIVABLE**

The Company provides an allowance for doubtful accounts related to its receivables. The receivables and allowance balances at March 31, 2009 and December 31, 2008 are as follows:

	<b>March 31,</b>	<b>December</b>
	<b>2009</b>	<b>31,</b>
		<b>2008</b>
Accounts receivable	\$ 133,775	\$ 149,244
Less: allowance for doubtful accounts	(976)	(1,039)
Accounts receivable, net	\$ 132,799	\$ 148,205

As of March 31, 2009, a local Chinese bank holds RMB 123,046 (approximately \$18,000) of accounts receivable purchased from the Company on a without-recourse-basis in return for RMB 113,000 (approximately \$16,530) resulting in a net of RMB 10,046 (approximately \$1,470) which has been recorded in general and administrative expenses. The Company has accounted for the sale of receivables to the local Chinese bank in accordance with SFAS No. 140, Accounting for the Transfers and Servicing of Financial Assets and Extinguishments of Liabilities.

**5. INVENTORIES**

Inventories consist of the following as of March 31, 2009 and December 31, 2008:

	<b>March 31,</b>	<b>December</b>
	<b>2009</b>	<b>31,</b>
		<b>2008</b>
Raw materials	\$ 17,686	\$ 16,205
Work in progress	3,048	4,392
Finished goods	43,162	24,408
Installations in process	64,391	73,019
Total	128,287	118,024
Less: allowance for obsolete inventories	(1,177)	(982)
Inventories, net	\$ 127,110	\$ 117,042

**6. PREPAYMENTS AND DEPOSITS**

Prepayments and deposits consist of the following as of March 31, 2009 and December 31, 2008:

	<b>March 31,</b>	<b>December</b>
	<b>2009</b>	<b>31,</b>
		<b>2008</b>
Current portion	\$ 7,052	\$ 7,280
Non current portion		
- Deposits paid for acquisition of subsidiaries	3,722	5,619
- Deposits paid for acquisition of properties and intangible assets	2,263	2,236

\$	5,985	\$	7,855
----	-------	----	-------

The deposits paid for acquisition of subsidiaries, properties and intangible assets are refundable. There are no commitments to acquire the subsidiaries, properties and intangible assets.

**CHINA SECURITY & SURVEILLANCE TECHNOLOGY, INC. AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

Expressed in thousands of U.S. dollars  
(Except for share and per share amounts)

**7. ADVANCE PAYMENTS**

The Company has made payments to unrelated suppliers in advance of receiving merchandise. The advance payments are meant to ensure preferential pricing and delivery. The amounts advanced under such arrangements totaled \$38,461 and \$17,120 as of March 31, 2009 and December 31, 2008, respectively.

**8. PLANT AND EQUIPMENT**

At March 31, 2009 and December 31, 2008, plant and equipment, at cost, consist of

	<b>March 31,</b>		<b>December 31,</b>
	<b>2009</b>		<b>2008</b>
Buildings	\$ 61,006	\$	60,480
Leasehold improvements	1,996		2,017
Plant and equipment	6,775		6,544
Electronic equipment	9,036		8,640
Motor vehicles	4,738		4,528
	83,551		82,209
Less: accumulated depreciation	(8,872)		(7,686)
Plant and equipment, net	\$ 74,679	\$	74,523

Depreciation expense for the three months ended March 31, 2009 and 2008 was \$1,023 and \$635, respectively.

**9. LAND USE RIGHTS**

Land use rights consist of the following as of March 31, 2009 and December 31, 2008:

	<b>March 31,</b>		<b>December 31,</b>
	<b>2009</b>		<b>2008</b>
Cost of land use rights	\$ 8,371	\$	8,371
Less: accumulated amortization	(739)		(696)
Land use rights, net	\$ 7,632	\$	7,675

Amortization expense for the three months ended March 31, 2009 and 2008 was \$43 and \$6, respectively.

Amortization expense for the next five years and thereafter is as follows:

2009 (for the remaining 9 months)	\$ 127
2010	169
2011	169
2012	169
2013	169
Thereafter	6,829
Total	\$ 7,632

The Company disposed of land use rights and properties for total consideration of RMB 119,000 (approximately \$16,119) in December 2007. The remaining proceeds of RMB 24,000 (approximately \$3,379) was received in January 2008.

**11. NOTES PAYABLE**

The following is a summary of the Company's short-term and long-term notes payable as of March 31, 2009 and December 31, 2008:

	<b>March 31, 2009</b>	<b>December 31, 2008</b>
Bank loans	\$ 18,944	\$ 13,095
Less: current portion	(17,555)	(10,242)
Long-term portion	\$ 1,389	\$ 2,853

	<b>Long-term notes</b>	<b>Short-term notes</b>	<b>Total</b>
2009 (for the remaining nine months)	\$ 4,388	\$ 4,389	\$ 8,777
2010	2,853	7,314	10,167
Total	\$ 7,241	\$ 11,703	\$ 18,944

On March 27, 2009, the Company entered into a loan agreement with China Construction Bank. The Company borrowed RMB 10,000 (approximately \$1,463) with an annual interest rate equal to 5.59% and the interest is payable on the 20<sup>th</sup> of each month. The loan is due in July 2009. The loan is guaranteed by a subsidiary of the Company, and is collateralized by the buildings of the subsidiary.

On February 25, 2009, the Company entered into a loan agreement with China Merchants Bank. The Company borrowed RMB 60,000 (approximately \$8,777) with an annual interest rate equal to 92% of benchmark lending rate (4.89% as of March 31, 2009). The loan is due in February 2010 and the interest is payable on the 20<sup>th</sup> of each month. The loan is guaranteed by the CEO of the Company and subsidiaries of the Company, and is collateralized by the land use right of a subsidiary. RMB 10,000 (approximately \$1,463) were repaid in March 2009.

On January 4, 2009, the Company entered into a loan agreement with China Merchants Bank. The Company borrowed RMB20,000 (approximately \$2,926) with an annual interest rate equal to 92% of benchmark lending rate (4.89% as of March 31, 2009) and the interest is payable on the 20<sup>th</sup> of each month. The loan is guaranteed by the CEO of the Company and subsidiaries of the Company, and is collateralized by the land use right of a subsidiary. The loan was repaid in March 2009.

On December 30, 2008, the Company entered into a loan agreement with China Merchants Bank. The Company borrowed RMB20,000 (approximately \$2,926) with an annual interest rate equal to 92% of benchmark lending rate (4.89% as of March 31, 2009) and the interest is payable on the 20<sup>th</sup> of each month. The loan is guaranteed by the CEO of the Company and subsidiaries of the Company, and is collateralized by the land use right of a subsidiary. The loan was repaid in March 2009.

On November 17, 2008, the Company entered into a loan agreement with Industrial Bank. The Company borrowed RMB 20,000 (approximately \$2,926) with an annual interest rate equal to 7.99%. The loan is due in November 2009 and the interest is payable on the 20<sup>th</sup> of each month. The loan is guaranteed by the CEO of the Company and subsidiaries of the Company, and is collateralized by the assets of a subsidiary.

On August 28, 2008, the Company entered into a long term loan agreement with China Construction Bank. As of March 31, 2009 and December 31, 2008, the liability relating to this loan was RMB 49,500 (approximately \$7,241), consisting of a 2-year loan payable to the bank. This loan matures on August 27, 2010 with an annual interest equal to 105% of the one to three years benchmark lending rate (5.67% as of March 31, 2009). The interest rate is charged based on the change of one to three years benchmark lending rate quarterly, and the interest is payable on the 20<sup>th</sup> of each month. The loan agreement requires the Company to use the loan proceeds only for the Company's operations.

## 12. OBLIGATIONS UNDER PRODUCT FINANCING ARRANGEMENTS

In February 2009, the Company entered into product financing agreements with a financial institution. Under the terms of the agreements, the Company agreed to pay an annual interest rate of 10.5% on inventory financings. The Company borrowed RMB 7,114 (approximately \$1,041). The loans expire in February 2013, and payments are due at the end of each quarter.

In July 2008, the Company entered into product financing agreements with a financial institution. Under the terms of the agreements, the Company agreed to pay an annual interest rate of 10% on inventory financings. The Company borrowed RMB 53,492 (approximately \$7,845). The loans expire in July 2011, and payments are due at the end of each quarter.

The Company paid \$188 and \$0 during the three months ended March 31, 2009 and 2008 of interest expense on the product financing arrangements.

The following is a summary of the Company's obligations under product financing arrangements as of March 31, 2009 and December 31, 2008:

	<b>March 31,</b>	<b>December</b>
	<b>2009</b>	<b>31,</b>
		<b>2008</b>
Obligation under product financing arrangements	\$ 6,924	\$ 6,683
Less: current portion	(2,682)	(2,469)
Long-term portion	\$ 4,242	\$ 4,214

Estimated repayments for the next five years and thereafter are as follows:

2009 (for the remaining nine months)	\$ 2,473
2010	3,297
2011	1,764
2012	232
2013	174
Total	7,940
Less: amount representing interest	(1,016)
Net	\$ 6,924

Approximately RMB8,788 (approximately \$1,288) and RMB7,772 (approximately \$1,140) of other costs directly associated with the product financing agreements is recorded as deferred financing costs in the balance sheet at March 31, 2009 and December 31, 2008, respectively. The Company is amortizing these financing costs over the life of the obligation. The amortization is recorded as interest expense, which was \$100 and \$0, respectively for the three months ended March 31, 2009 and 2008.

## 13. DEFERRED INCOME

Deferred income balances as of March 31, 2009 and December 31, 2008 were \$1,022 and \$1,207 respectively, and represented amounts invoiced but deferred as revenue as an estimated warranty reserve.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

**Expressed in thousands of U.S. dollars  
(Except for share and per share amounts)**

**14. CONVERTIBLE NOTES PAYABLE**

On February 16, 2007, pursuant to a notes purchase agreement and indenture with Citadel Equity Fund Ltd. ("Citadel"), the Company issued to Citadel \$60,000 aggregate principal amount of guaranteed senior unsecured convertible notes due 2012 (the "February Notes"). The terms of the February Notes indenture was subsequently amended on each of March 29, 2007 and April 24, 2007. The February Notes financing replaced the existing bridge financing that was closed on February 8, 2007 in which the Company had issued to Citadel \$60,000 aggregate principal amount of senior notes. The February Notes bear an annual interest of 1%. All the net proceeds from the sales of the February Notes are and will be used for the Company's working capital and acquisition plan.

Under the February Notes indenture, the February Notes are convertible, by the holders thereof, at any time on or prior to maturity, into common stock of the Company initially at the conversion price of \$18 per share (subject to adjustment in certain circumstances, including semi-annual reset of the conversion price and upon occurrence of certain dilutive events, in each case subject to certain conditions). If the February Notes are not converted before maturity, the February Notes will be redeemed by the Company on the maturity date at a redemption price equal to 100% of the principal amount of the February Notes then outstanding plus an additional amount of 15.0% per annum, calculated on a quarterly compounded basis, plus any accrued and unpaid interest. In addition, if the 45-day variable weighted average price ("VWAP") during the one year period from February 16, 2009 to February 15, 2010 equals or is greater than \$30.0 per share of common stock, the Company shall, within one trading day, force holders of the February Notes to convert 50% of the then-outstanding principal amount of the February Notes at the then applicable conversion rate on a pro rata basis (the "February Notes 2010 Mandatory Conversion"). If the 45-day VWAP during the one year period from February 16, 2010 to February 15, 2011 equals or is greater than \$35.0 per share of common stock (the "February Notes 2011 Mandatory Conversion Trigger") and the February Notes 2010 Mandatory Conversion had occurred, the Company shall, within one trading day, force holders of the February Notes to convert all of the then-outstanding principal amount of the February Notes at the then applicable conversion price. If the February Notes 2011 Mandatory Conversion Trigger occurs and the February Notes 2010 Mandatory Conversion had not occurred, the Company shall, within one trading day, force holders of the February Notes to convert 50% of the then-outstanding principal amount of the February Notes at the then applicable conversion rate on a pro rata basis.

On April 24, 2007, pursuant to another notes purchase agreement with Citadel, the Company issued to Citadel \$50,000 aggregate principal amount of guaranteed senior unsecured convertible notes due 2012 (the "April Notes"). The April Notes bear an annual interest of 1%. All the net proceeds from the sales of the April Notes are and will be used for the Company's working capital and acquisition plan.

Under the April Notes indenture, the April Notes are convertible, by the holders thereof, at any time on or prior to maturity, into common stock of the Company initially at the conversion price of \$23.60 per share (subject to adjustment in certain circumstances, including semi-annual reset of the conversion price and upon occurrence of certain dilutive events, in each case subject to certain conditions). If the April Notes are not converted before maturity, the April Notes will be redeemed by the Company on the maturity date at a redemption price equal to 100% of the principal amount of the April Notes then outstanding plus an additional amount of 15.0% per annum, calculated on a quarterly compounded basis, plus any accrued and unpaid interest. In addition, if the 45-day VWAP during the one year period from February 16, 2009 to February 15, 2010 equals or is greater than \$40.00 per share of common stock, the Company shall, within one trading day, force holders of the April Notes to convert 50% of the then-outstanding principal amount of the April Notes at the then applicable conversion rate on a pro rata basis (the "April Notes 2010 Mandatory Conversion"). If the 45-day VWAP during the one year period from February 16, 2010 to February 15, 2011 equals or is greater than \$45.00 per share of common stock (the "April Notes 2011 Mandatory Conversion

Trigger") and the April Notes 2010 Mandatory Conversion had occurred, the Company shall, within one trading day, force holders of the April Notes to convert all of the then-outstanding principal amount of the April Notes at the then applicable conversion price. If the April Notes 2011 Mandatory Conversion Trigger occurs and the April Notes 2010 Mandatory Conversion had not occurred, the Company shall, within one trading day, force holders of the April Notes to convert 50% of the then-outstanding principal amount of the April Notes at the then applicable conversion rate on a pro rata basis.

The February Notes and April Notes indentures, the notes purchase agreements and certain investor rights agreements between the Company and Citadel entered into in connection with the February Notes and April Notes financings contain various covenants that may limit the Company's discretion in operating its business. In particular, the Company is limited in its ability to merge, consolidate or transfer substantially all of its assets, issue stock of subsidiaries, incur additional debt and create liens on assets to secure debt. In addition, if there is a default, or if the Company does not maintain certain financial covenants or does not maintain borrowing availability in excess of certain pre-determined levels, the February Notes and the April Notes may be accelerated with the balance becoming due and payable immediately and the Company may be unable to incur additional indebtedness, make restricted payments (including paying cash dividends on capital stock) or redeem or repurchase capital stock. As of March 31, 2009 and December 31, 2008, the Company has complied with all the required covenants.

**CHINA SECURITY & SURVEILLANCE TECHNOLOGY, INC. AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

**Expressed in thousands of U.S. dollars  
(Except for share and per share amounts)**

**14. CONVERTIBLE NOTES PAYABLE (CONTINUED)**

The Company has accreted \$5,375 and \$4,363 for the three months ended March 31, 2009 and 2008 respectively of the additional redemption amount related to the February Notes and April Notes, which amount is included in interest expense.

Approximately \$176 of legal fees and other costs directly associated with the issuance of the February Notes and April Notes is recorded as deferred financing costs in the balance sheet at March 31, 2009 and December 31, 2008. The Company has amortized these financing costs over the life of the February Notes and April Notes. The amortization for the three months ended March 31, 2009 and 2008 was \$9 and \$9, respectively.

**15. ISSUANCE OF COMMON STOCK AND WARRANTS**

On July 6, 2006, the Company entered into a definitive Securities Purchase Agreement with certain accredited investors relating to the private placement of units, consisting of one share of the Company's common stock and a warrant to purchase one-fifth of one share of common stock.

Such Securities Purchase Agreement was amended on each of July 30, 2006 and July 31, 2006 (as amended, the "Securities Purchase Agreement"). Closing thereunder occurred on July 31, 2006. The purchase price of each unit was \$3.50 and the exercise price for each whole warrant was set at \$4.80. The warrants have a term of five years and include a cashless exercise feature which does not apply when there is an effective registration statement covering the shares underlying the warrants. In addition, the Company had granted a put right to all of the investors which would have allowed the investors to require the Company to repurchase all, but not less than all, of the securities issued pursuant to the Securities Purchase Agreement if the Company had failed to obtain the necessary governmental approvals to consummate the acquisition of Cheng Feng on or before December 31, 2006. As such governmental approvals were obtained before December 31, 2006 the put right has terminated.

Pursuant to the Securities Purchase Agreement, the Company sold 4,634,592 units to certain accredited investors at \$3.50 per unit for gross proceeds of \$16,200.

Net proceeds to the Company from the sale of all of the units pursuant to the Securities Purchase Agreement was approximately \$14,900. 0 and 57,776 warrants were exercised at \$4.80 per share during the three months ended March 31, 2009 and 2008, respectively.

The Company also issued warrants to purchase 324,421 shares of its common stock with an exercise price of \$4.20 to two private placement agents as commission for their services in connection with the private placement. During the three months ended March 31, 2009 and 2008, no warrants were exercised using the cashless exercise feature, respectively.

On July 23, 2008, the Company consummated a private placement transaction in which it issued 722,544 units to certain non-U.S. investors for an aggregate gross cash purchase price of \$10,000 at a per unit price of \$13.84. Net proceeds to the Company from this private placement were approximately \$9,700. Each unit consists of one share of the Company's common stock and a warrant to purchase one-fifth of one share of common stock. The Company issued warrants to purchase 144,509 shares of its common stock with an exercise price of \$19.23. The warrants have a term of 3 years and include a cashless exercise feature. No warrants were exercised during the three months ended March 31, 2009.

A summary of the status of the Company's warrants issued in 2008 and 2006 as described above, and the changes during the three months ended March 31, 2009 and 2008, is presented below:

	2009		2008	
	Shares	Weighted Exercise Prices	Shares	Weighted Exercise Prices
Outstanding at January 1	174,515	\$ 16.75	87,782	\$ 4.80
Granted	--	--	--	--
Exercised	--	--	(57,776)	(4.80)
Outstanding at March 31	174,515	\$ 16.75	30,006	\$ 4.80

## 16. EQUITY INCENTIVE PLAN

On February 7, 2007, the Company adopted the 2007 Equity Incentive Plan which was amended in February 2008 (the "Plan"). The Plan has a five-year term and provides for grants of stock options, stock appreciation rights, performance units, restricted stock units and performance shares. The total number of shares which may be issued under the Plan are 8,000,000 shares of common stock. During the three months ended March 31, 2009 and 2008, 419,818 and 181,500 shares of restricted stock were granted. The shares issued vest over a four or five year period, and at issue resulted in total deferred compensation of \$1,827 and \$2,652, respectively. The fair values of these restricted stock awards are equal to the fair value of the Company's stock on the date of grant after taking into account certain discounts. Such restricted stock is subject to the risk of forfeiture upon the occurrence of certain events. During the three months ended March 31, 2009 and 2008, the Company recognized \$4,218 and \$2,958, respectively, of compensation expense under the Plan. As of March 31, 2009 and December 31, 2008, there was \$50,841 and \$52,616 of unrecognized compensation expense related to the nonvested restricted stock. This cost is expected to be recognized over a four to five -year period.

The following table summarizes the status of the Company's nonvested restricted stock awards during the three months ended March 31, 2009 and 2008:

	Nonvested Restricted Stock and Stock Unit Awards 2009			Nonvested Restricted Stock and Stock Unit Awards 2008		
	Number of Shares		Weighted Average Grant Date Fair Values	Number of Shares		Weighted Average Grant Date Fair Values

## 17. CONSOLIDATED SEGMENT DATA

Segment information is consistent with how management reviews the businesses, makes investing and resource allocation decisions and assesses operating performance. The segment data presented reflects this segment structure. The Company reports financial and operating information in the following three segments:

(a)

System installation: designs, sells, installs, services and monitors electronics surveillance and safety systems to residential, commercial, industrial and governmental customers (the Installation segment );

(b)

Manufacturing of surveillance and safety products: designs, manufactures and sells surveillance and safety products, including intrusion security, access control and video management systems (the Manufacturing segment ); and

(c)

Distribution of surveillance and safety products: sells surveillance and safety products, including intrusion security, access control and video management systems (the Distribution segment ).

The Company also provides general corporate services to its segments and these costs are reported as Corporate and others.

Distribution segment	11,976	11,976
	\$ 75,529	\$ 73,216

Depreciation and amortization by segment for the three months ended March 31, 2009 and 2008 are as follows:

<b>Depreciation and amortization:</b>	<b>2009</b>	<b>2008</b>
Installation segment	\$ 1,137	\$ 867
Manufacturing segment	1,453	614
Distribution segment	357	301
Corporate and others	116	118
	\$ 3,063	\$ 1,900

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

### *Special Note Regarding Forward Looking Statements*

This Quarterly Report on Form 10-Q, including the following "Management's Discussion and Analysis of Financial Condition and Results of Operations," contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such statements include, among others, those concerning our expected financial performance and strategic and operational plans, as well as all assumptions, expectations, predictions, intentions or beliefs about future events. You are cautioned that any such forward-looking statements are not guarantees of future performance and that a number of risks and uncertainties could cause actual results of the Company to differ materially from those anticipated, expressed or implied in the forward-looking statements. The words "believe," "expect," "anticipate," "project," "targets," "optimistic," "intend," "aim," "will" or similar expressions are intended to identify forward-looking statements. All statements other than statements of historical fact are statements that could be deemed forward-looking statements. Risks and uncertainties that could cause actual results to differ materially from those anticipated include risks related to new and existing products; any projections of sales, earnings, revenues, margins or other financial items; any statements of the plans, strategies and objectives of management for future operations; any statements regarding future economic conditions or performance; uncertainties related to conducting business in China; any of the factors mentioned in the "Risk Factors". section of our Annual Report on Form 10-K for the year ended December 31, 2008 and subsequent SEC filings. The Company assumes no obligation and does not intend to update any forward-looking statements, except as required by law.

### ***Overview of Our Business***

China Security & Surveillance Technology, Inc. is a Delaware holding company whose China-based operating subsidiaries are primarily engaged in manufacturing, distributing, installing and servicing security and surveillance products and systems and developing security and surveillance related software in China. Our customers are mainly comprised of (i) commercial entities (including airports, hotels, real estate development companies, banks, mines, railways, supermarkets and entertainment venues); and (ii) governmental entities (including customs agencies, courts, public security bureaus and prisons). These account for approximately 54% and 46% of our revenues for the three months ended March 31, 2009, respectively.

Our sales network covers most of China's populated areas and we do not rely on any particular region of China for revenues. Our subsidiaries collectively have more than 150 branch offices and distribution points.

### ***Reportable Operating Segments***

Segment information is consistent with how management reviews the businesses, makes investing and resource allocation decisions and assesses operating performance. The Company reports financial and operating information in the following three segments:

- The Installation segment provides design, sales, installation, services and monitoring of electronics surveillance and safety systems to residential, commercial, industrial and governmental customers (the Installation segment);
- The Manufacturing segment provides design, manufacturing and sales of surveillance and safety products, including intrusion security, access control and video management systems (the Manufacturing segment); and
- The Distribution segment provides distribution and sales of surveillance and safety products and services, including intrusion security, access control and video management systems (the Distribution segment).

The Company also provides general corporate services to its segments and these costs are reported as "Corporate and others."

### ***First Quarter Financial Performance Highlights***

We continued to experience strong demand for our products and services during the first quarter of 2009 and growth in our revenues. The surveillance and safety product market in China continued to expand in the first quarter of 2009 due, in part, to several programs and regulatory drivers initiated by the Chinese government in 2006. In 2006, the Chinese government promulgated State Ordinance 458 and the Safe City program, which require many public places to install security systems, including city-wide surveillance systems, traffic conjunctions, critical government locations, cyber cafés, bars and discotheques. The ongoing installation of these security systems as required by applicable Chinese law is being conducted by the affected constituents. In addition, the economic development in China and the fact that the population in China in general is becoming relatively wealthier also contributed to increased demand for surveillance and safety products within various industries and organizations, such as residential real estate, factories and shopping centers. Our first fiscal quarter financial results also benefited from the consolidation of Stonesonic, Longhorn, Guanling, Jin Lin and DIT which were acquired in second, third and fourth quarters of 2008 and from the consolidation of Coson which was acquired in the first quarter of 2009 and contributed approximately \$8.49 million and \$0.83 million revenues in aggregate, accounting for approximately 8.8% and 0.9% of the total revenues of the first quarter of 2009.

Following are some financial highlights for the first quarter of 2009:

- *Revenues:* Revenues increased \$24.64 million, or 34.3%, to \$96.42 million for the three months ended March 31, 2009, from \$71.78 million for the three months ended March 31, 2008.
- *Gross margin:* Gross margin was 26.0% for the three months ended March 31, 2009, compared to 31.0% for the three months ended March 31, 2008. Such decrease was primarily due to a change of product mix and lower selling prices.
- *Income from operations:* Income from operations decreased \$3.16 million, or 28.4%, to \$7.98 million for the three months ended March 31, 2009, from \$11.14 million in 2008.
- *Operating margin:* Operating margin (the ratio of income from operations to revenues, expressed as a percentage) was 8.3% for the three months ended March 31, 2009, compared to 15.5% in 2008.
- *Net income:* Net income decreased \$2.47 million, or 55.3%, to \$2.00 million for the three months ended March 31, 2009, from \$4.47 million for the three months ended March 31, 2008.
- *Net margin:* Net margin (the ratio of net income to revenues, expressed as a percentage) was 2.1% for the three months ended March 31, 2009, compared to 6.2% for the three months ended March 31, 2008. The decrease was primarily due to non-cash expenses described below.
- *Fully diluted net income per share:* Fully diluted net income per share was \$0.04 for the three months ended March 31, 2009, as compared to \$0.11 for the three months ended March 31, 2008.
- *Non-cash expenses:* Non-cash expenses included (i) the redemption accretion on convertible notes of \$5.38 million, (ii) depreciation and amortization of \$3.06 million, and (iii) non cash employee compensation expense of \$4.22 million for the three months ended March 31, 2009. Total non-cash expenses are \$12.66 million, representing an increase of \$3.44 million, or 37.3%, from \$9.22 million during the three months ended March 31, 2008.

Our net income, as reported in our results of operations for the period ended March 31, 2009 and 2008 were approximately \$2.00 million, and \$4.47 million, respectively. Our net income was materially impacted by depreciation and amortization of long-lived assets in the subsidiaries we acquired, non cash employee compensation recognized pursuant to SFAS 123 (R) and redemption accretion on convertible notes. In the table below, we have presented a non-GAAP financial disclosure to provide a quantitative analysis of the impact of the depreciation and amortization of long-lived assets in the subsidiaries we acquired, non cash employee compensation and redemption accretion on convertible notes on our net income. Because these items do not require the use of current assets, management does not include these items in its analysis of our financial results or how we allocate our resources. Because of this, we deemed it meaningful to provide this non-GAAP disclosure of the impact of these significant items on our financial results.

The following table summarizes the Company's non-cash expenses during the three months ended March 31, 2009 and 2008:

All amounts in millions of U.S. dollars

Non-cash expenses	Three Months Ended March 31,		
	2009	2008	Increase
Depreciation and amortization	\$ 2.82	\$ 1.82	\$ 1.00
Depreciation and amortization (included in cost of goods sold)	0.24	0.08	0.16
Non cash employee compensation	4.22	2.96	1.26
Redemption accretion on convertible notes	5.38	4.36	1.02
<b>Total</b>	<b>\$ 12.66</b>	<b>\$ 9.22</b>	<b>\$ 3.44</b>

### *Results of Operations*

The following table sets forth key components of our results of operations for the three months ended March 31, 2009 and 2008, in dollars and as a percentage of revenues.

All amounts, other than percentages, in millions of U.S. dollars

	2009		2008	
<b>Revenues</b>	\$ 96.42	100.0%	\$ 71.78	100.0%
Cost of goods sold (including depreciation and amortization amounted \$0.24 and \$0.08, respectively)	(71.39)	74.0%	(49.52)	69.0%
<b>Gross profit</b>	<b>25.03</b>	<b>26.0%</b>	<b>22.26</b>	<b>31.0%</b>
Selling and marketing	(2.71)	2.8%	(2.14)	3.0%

**Revenues**

Our revenues are generated from system installations and manufacturing and distribution of surveillance and safety products. During the first quarter of 2009, we experienced solid growth in revenues. Revenues increased from \$71.78 million for the first quarter of 2008 to \$96.42 million for the first quarter of 2009, representing a 34.3% increase. Such increase was mainly attributable to growth in the surveillance and safety market in China, the increased market demand for our products, our increased brand recognition and the acquisition of several companies in 2008 and 2009 as discussed in detail below. Our strategic efforts to increase our distribution channels during 2008 and sufficient working capital from prior fundraising activities with local Chinese banks also should allow us to successfully take advantage of the growth in market demand in the future. Historically, the first quarter has generally been a slow quarter for us due to the Chinese New Year holiday and the third quarter has generally been the strongest quarter. Management expects the same trend in 2009 and that revenue growth will remain strong in the remainder of 2009.

After the acquisition of Coson was closed in January 2009, we consolidated the financial results of Coson in the first quarter of 2009, which contributed \$0.83 million to revenues in the first quarter of 2009. After Stonesonic, Longhorn, Guanling, Jin Lin and DIT became our wholly owned subsidiaries, we consolidated the financial results of these five companies beginning in the second, third and fourth quarters of 2008, which contributed \$8.49 million to revenues in the first quarter of 2009. As the acquisitions of Hongtianshi, HiEasy, Minking and Tsingvision have surpassed the one year anniversary, we have included these revenues in our organic growth since the third and fourth quarter of 2008.

The following table shows the components of revenues recognized in the first quarter of 2009:

(In millions of U.S. dollars)

Revenues from the Installation segment recognized from installation contracts signed in 2008	\$	29.46
Revenues from the Installation segment recognized from installation contracts signed in 2009	\$	45.46
Revenues from the Manufacturing segment recognized from manufacturing contracts signed in 2008	\$	2.80
Revenues from the Manufacturing segment recognized from manufacturing contracts signed in 2009	\$	12.51
Revenues from the Distribution segment recognized from distribution contracts signed in 2008	\$	0.94
Revenues from the Distribution segment recognized from distribution contracts signed in 2009	\$	5.25
Total revenues recognized in the first quarter of 2009	\$	96.42
Revenues deferred	\$	1.02
Backlog of contracts for system installation and manufacturing of surveillance and safety products signed before March 31, 2009 <sup>(1)</sup>	\$	86.87

<sup>(1)</sup> We have conservatively not included the letter of intents, framework agreements and various signed partnership agreements in our backlog numbers as they are subject to final binding individual agreements to be entered into at later dates.

Our revenues are generated from three business segments: Installation segment, Manufacturing segment and Distribution segment. The following table shows the different segments comprising our total revenues for the three months ended March 31, 2009 and 2008.

All amounts in millions of U.S. dollars

Revenues	2009		2008			
Installation segment	\$	74.92	77.7%	\$	59.54	83.0%
Manufacturing segment		15.31	15.9%		8.13	11.3%
Distribution segment		6.19	6.4%		4.11	5.7%
Total	\$	96.42	100.0%	\$	71.78	100.0%

For the three months ended March 31, 2009 and 2008, our Installation segment generated revenues of \$74.92 million and \$59.54 million which represented 77.7% and 83.0% of our total revenues, respectively. The increase in revenues was mainly due to the following factors: First, demand for security and surveillance products has grown in China, which we attribute in part to the population in China in general becoming relatively wealthier; as well as increased demand within various industries and organizations, such as residential real estate, factories and shopping centers. Second, the Chinese government initiated several programs and regulatory drivers during 2006, such as State Ordinance 458 and the "3111" program, that require many public places, including city-wide surveillance systems, traffic surveillance systems, critical government locations, cyber cafés, bars and discotheques, to install security systems. Third, our strategic efforts to increase our distribution channels during 2007 and 2008 allowed us to successfully take advantage of the growth in market demand in the first quarter of 2009. Fourth, we have been successful in raising sufficient working capital to facilitate expansion in the China market. Finally, our increased brand recognition in 2008 also contributed to the growth in sales revenue.

For the three months ended March 31, 2009 and 2008, our Manufacturing segment generated revenues of \$15.31 million and \$8.13 million, representing 15.9% and 11.3% of our total revenues, respectively. For the three months ended March 31, 2009 and 2008, our Distribution segment generated revenues of \$6.19 million and \$4.11 million, representing 6.4% and 5.7% of our total revenues. Management believes that revenues from the installation projects will continue to be the Company's major revenue source in the next few years. With the acquisitions of 2008 and 2009 and other planned acquisitions, management believes that the percentage of revenues from the Manufacturing segment and the Distribution segment will increase in the future.

Management expects growth in all three segments to remain strong in the remainder of 2009 due to (i) continued growth in the security and surveillance market both within the corporate and government sectors, (ii) better capitalization of the Company to fuel its growth, (iii) continuing to enhance our branding and profiling in China, and (iv) acquisition strategy intended to boost our market share and competitiveness.

#### ***Cost of goods sold***

Our cost of goods sold is primarily comprised of the costs of our raw materials, labor and overhead. Cost of goods sold for the first quarter of 2009 increased by 44.2% to \$71.39 million as compared to \$49.52 million for the same period last year. The increase was generally in line with the increase of revenues.

#### ***Gross profit and gross margin***

Our gross profit is equal to the difference between our revenues and our cost of goods sold. Our gross profit increased \$2.77 million, or 12.4%, to \$25.03 million for the three months ended March 31, 2009 from \$22.26 million for the same period last year. Gross margin for the three months ended March 31, 2009 was 26.0%, as compared to 31.0% for the same period of 2008. The decrease in our gross margin was primarily driven by declining selling prices.

The following table shows the different segment components comprising our gross profit margin over the three months ended March 31, 2009 and 2008.

<b>Gross Margin</b>	<b>2009</b>	<b>2008</b>
Installation segment	25.8%	29.7%
Manufacturing segment	27.5%	35.9%
Distribution segment	23.6%	39.9%
Total	26.0%	31.0%

For the three months ended March 31, 2009, gross margins of the Installation segment, Manufacturing segment and Distribution segment were approximately 25.8%, 27.5% and 23.6%, respectively, compared to 29.7%, 35.9% and 39.9% for the same period last year. Gross margins of the Installation segment decreased due to the declining margins from smaller scale projects. This was mainly due to our efforts in maintaining market share and expansion of customer

base. Also, gross margin for the Manufacturing segment decreased to 27.5% for the three months ended March 31, 2009 from 35.9% for the same period last year. The decrease in our gross margin was primarily driven by the selling prices decreases. Gross margin for the Distribution segment decreased to 23.6% for the three months ended March 31, 2009 from 39.9% for the same period last year. Such high gross margin in the same period last year was mainly because our software solutions, that were sold during the same period last year, generally had a higher margin.

### ***Selling and marketing expenses***

Our selling and marketing expenses are comprised primarily of sales commissions, the cost of advertising and promotional materials, salaries and fringe benefits of sales personnel, after-sale support services and other sales related costs. Our selling and marketing expenses increased \$0.57 million, or 26.6%, to \$2.71 million for the three months ended March 31, 2009 from \$2.14 million for the same period in 2008. This dollar increase was primarily attributable to the consolidation of the financial results of Stonesonic, Longhorn, Guanling, Jin Lin, DIT and Coson which incurred selling and marketing expenses associated with sales of their products. As a percentage of revenues, our selling and marketing expenses decreased to 2.8% for the three months ended March 31, 2009 from 3.0% for the same period in 2008. The percentage slightly decrease was due to the cost efficiency.

### ***General and administrative expenses***

General and administrative expenses consist primarily of compensation and benefits to our general management, finance and administrative staff, professional advisor fees, audit fees and other expenses incurred in connection with general operation. Our general and administrative expenses increased \$3.10 million, or 73.8%, to \$7.30 million for the three months ended March 31, 2009 from \$4.20 million of the same period in 2008. As a percentage of revenues, general and administrative expenses increased to 7.6% for the three months ended March 31, 2009 from 5.9% for the same period in 2008. The dollar and percentage increase was mainly due to the hiring of additional staff, and professional expenses related to the costs of being a public reporting company.

### ***Non cash employee compensation***

Effective February 7, 2007, our board of directors adopted our 2007 Equity Incentive Plan (the "Plan"). The Plan was subsequently amended and approved by the Company's stockholders in February 2008. The Plan provides for grants of stock options, stock appreciation rights, performance units, restricted stock, restricted stock units and performance shares. A total of 8,000,000 shares of our common stock may be issued under the Plan. During the three months ended March 31, 2009, we granted an aggregate of 419,818 shares of restricted stock pursuant to the Plan to our employees and consultants. These shares will vest with respect to each of the employees and consultants over a period of four years.

Non cash employee compensation for the three months ended March 31, 2009 increased to \$4.22 million from \$2.96 million for the same period in 2008, primarily as a result of the adoption of the Plan and grants to employees and consultants made under the Plan.

### ***Depreciation and amortization***

Our depreciation and amortization costs increased \$1.16 million, or 61.1%, to \$3.06 million (including \$0.24 million depreciation and amortization costs included under cost of goods sold) for the three months ended March 31, 2009 from \$1.90 million for the same period in 2008. As a percentage of revenues, depreciation and amortization expenses increased to 3.2% for the three months ended March 31, 2009 from 2.6% for the same period in 2008. Such dollar and percentage increase was primarily due to the amortization of intangible assets from the acquisition of Stonesonic, Longhorn, Guanling, Jin Lin, DIT and Coson. The amortization of intangible assets increased as a result of these acquisitions.

### ***Income from operations***

Our income from operations decreased \$3.16 million, or 28.4%, to \$ 7.98 million for the three months ended March 31, 2009 as compared to \$11.14 million for the same period in 2008. As a percentage of revenues, income from operations decreased to 8.3% for the three months ended March 31, 2009 from 15.5% for the same period in 2008. Such percentage decrease was primarily due to the decrease of our gross margin and the increase of our selling and

marketing expenses, general and administrative expenses and non-cash employee compensation as discussed above.

The following table shows the different segments comprising our income from operations for the three months ended March 31, 2009 and 2008.

All amounts in millions of U.S. dollars

<b>Income from operations</b>	<b>2009</b>		<b>2008</b>	
Installation segment	\$ 14.00	175.4%	\$ 14.97	134.4%
Manufacturing segment	(0.46)	(5.8%)	1.09	9.8%
Distribution segment	(0.38)	(4.8%)	0.59	5.3%
Corporate and others	(5.18)	(64.8%)	(5.51)	(49.5%)
<b>Total</b>	<b>\$ 7.98</b>	<b>100.0%</b>	<b>\$ 11.14</b>	<b>100.0%</b>

Income from operations related to the Installation segment decreased 6.5%, or \$0.97 million to \$14.00 million for the three months ended March 31, 2009, compared to \$14.97 million for the same period in 2008. Such decrease was mainly due to lower selling price of small projects.

Loss from operations related to the Manufacturing segment was \$0.46 million for the three months ended March 31, 2009, compared to the operating profit of \$1.09 million for the same period in 2008. Such decrease was mainly due to the non cash compensation to the Manufacturing segment amounted of \$0.74 million and \$0.56 million, respectively, for the three months ended March 31, 2009 and 2008 and amortization related to acquisitions we made in 2007, 2008 and 2009, amounted \$1.45 million and \$0.61 million for the three months ended March 31, 2009 and 2008, respectively. The Company expects that the Manufacturing segment margin will increase as we integrate the recently completed acquisitions which will allow us to further benefit from economies of scale.

Loss from operations related to the Distribution segment was \$0.38 million for the three months ended March 31, 2009, compared to the operating profit of \$0.59 million for the same period in 2008. Such decrease was mainly due to the gross margin decreased.

Loss from operations related to the Corporate and others decreased 6.0%, or \$0.33 million to \$5.18 million for the three months ended March 31, 2009, compared to \$5.51 million for the same period in 2008. Such decrease was mainly due to cost control.

#### ***Other income***

Our other income decreased 29.7%, or \$0.11 million to \$0.26 million for the three months ended March 31, 2009 from \$0.37 million for the same period in 2008. As a percentage of revenues, other income decreased to 0.3% for the three months ended March 31, 2009 from 0.5% for the same period in 2008.

#### ***Interest expense (excluding redemption accretion on convertible notes)***

During the first quarter of 2009, we borrowed funds under 3 short-term and 1 long-term loans from local Chinese banks and incurred a total interest expense of \$0.66 million. For the convertible notes, we paid \$0.28 million interest during the three months ended March 31, 2009. Such increase was primarily due to the increase in the outstanding balances of our bank loans and obligations under product financing arrangements for our operations.

#### ***Redemption accretion on convertible notes***

Redemption accretion on convertible notes for the three months ended March 31, 2009 was \$5.38 million, as compared to \$4.36 million for the same period in 2008. We raised \$110 million from the issuance of convertible notes in February and April 2007 to finance our acquisitions. The redemption accretion on convertible notes will not be repaid if the convertible notes are converted into shares of our common stock before their respective maturities.

### *Income before taxes*

Our income before taxes decreased \$4.45 million, or 66.9%, to \$2.20 million for the three months ended March 31, 2009 from \$6.65 million for the same period in 2008. As a percentage of revenues, income before taxes decreased to 2.3% from 9.2% for the same period in 2008. Such percentage decrease was primarily due to increased non-cash expenses, including the redemption accretion on convertible notes, depreciation and amortization and non-cash employee compensation as discussed above.

### *Income Taxes*

China Security & Surveillance Technology, Inc. is subject to the United States federal income tax at a tax rate of 34%. No provision for income taxes in the United States has been made as China Security & Surveillance Technology, Inc. had no United States taxable income during the three months ended March 31, 2009.

Our wholly owned subsidiary Safetech was incorporated in the British Virgin Island and, under the current laws of the BVI, is not subject to income taxes.

Before January 1, 2008, foreign invested enterprises ("FIEs") established in the PRC were generally subject to an enterprise income tax ("EIT") rate of 33.0%, which included a 30.0% state income tax and a 3.0% local income tax. FIEs established in Shenzhen Special Economic Zone, such as our Chinese subsidiaries Golden and certain high-technology company were subject to reduced tax rate. On March 16, 2007, the National People's Congress of China passed the new Enterprise Income Tax Law ("EIT Law"), and on November 28, 2007, the State Council of China passed the Implementing Rules for the EIT Law ("Implementing Rules") which took effect on January 1, 2008. The EIT Law and Implementing Rules impose a unified EIT of 25.0% on all domestic-invested enterprises and FIEs, unless they qualify under certain limited exceptions. Therefore, nearly all FIEs are subject to the new tax rate alongside other domestic businesses rather than benefiting from the EIT, and its associated preferential tax treatments, beginning January 1, 2008.

Despite these pending changes, the EIT Law gives the Old FIEs a five-year grandfather period during which they can continue to enjoy their existing preferential tax treatments. During this five-year grandfather period, the Old FIEs which enjoyed tax rates lower than 25% under the original EIT Law shall gradually increase their EIT rate within 5 years until the tax rate reaches 25%. In addition, the Old FIEs that are eligible for the two-year exemption and three-year half reduction or five-year exemption and five-year half-reduction under the original EIT Law, are allowed to remain to enjoy their preference until these holidays expire. The discontinuation of any such special or preferential tax treatment or other incentives would have an adverse effect on any organization's business, fiscal condition and current operations in China.

In addition to the changes to the current tax structure, under the EIT Law, an enterprise established outside of China with de facto management bodies within China is considered a resident enterprise and will normally be subject to an EIT of 25.0% on its global income. The Implementing Rules define the term de facto management bodies as an establishment that exercises, in substance, overall management and control over the production, business, personnel, accounting, etc., of a Chinese enterprise. If the PRC tax authorities subsequently determine that the Company should be classified as a resident enterprise, then the organization's global income will be subject to PRC income tax of 25.0% .

Our subsidiary Golden was subject to an EIT rate of 15% for the fiscal year 2009. Hongtianshi is located in Shenzhen and its 2009 EIT rate was 9% because it receives a lower tax rate as a high-technology company. HiEasy, Minking, and Stonesonic were subject to an EIT rate of 15% in 2009 due to its high-technology or software company status. Longhorn is located in Shenzhen and its 2009 EIT rate was 10% because it receives a lower tax rate as a high-technology company. Coson and Zhuhai DIT Digital Technology Limited were subject to an EIT rate of 20% in 2009 due to its high-technology status. Cheng Feng and Tsingvision were subject to an EIT rate of 12.5% in 2009 due

to its software company status. Guanling was subject to an EIT rate of 25% in 2009. CSST PRC and Jin Lin were exempted from EIT in 2009.

Income taxes decreased \$1.98 million to \$0.20 million for the three months ended March 31, 2009 from \$2.18 million for the same period of 2008. We fully utilized the tax exemption for our subsidiaries CSST PRC, which were incorporated in 2006, and Jin Lin, which became our subsidiaries in 2008.

### *Net income*

Net income decreased \$2.47 million, or 55.3%, to \$2.00 million for the three months ended March 31, 2009 from \$4.47 million for the same period in 2008. As a percentage of revenues, net income decreased to 2.1% for the three months ended March 31, 2009 from 6.2% for the same period in 2008. This percentage decrease was mainly due to the increase of non-cash expenses including the redemption accretion on our convertible notes, depreciation and amortization and non cash employee compensation as discussed above.

### *Foreign Currency Translation Gains*

Our operating subsidiaries are located in China. The operating subsidiaries purchase all products and render services in China, and receive payment from customers in China using RMB as the functional currency. We do not engage in currency hedging.

We incurred a foreign currency translation gain of \$0.05 million for the three months ended March 31, 2009 as compared with the foreign currency translation gain of \$8.50 million for the same period in 2008.

As we have done since China revalued RMB by 2.1 percent and allowed the RMB to appreciate as much as 0.3 percent per day against the U.S. dollar, we implemented different exchange rates in translating RMB into U.S. dollars in our financial statements for fiscal quarter ended March 31, 2009 and 2008.

For the three months ended March 31, 2009, the exchange rates of 6.8359, 6.8373 and 8.04 were implemented in calculating the assets and liabilities, revenue and expenses, and shareholders' equity, respectively, which results in a \$0.05 million foreign currency translation gain in the first quarter of 2009. In the first quarter of 2008, the exchange rates of 7.019, 7.1034 and 8.04 were implemented in calculating the assets and liabilities, revenue and expenses, and shareholders' equity, respectively, which results in an \$8.50 million foreign currency translation gain in such period.

### *Liquidity and Capital Resources*

#### *General*

As of March 31, 2009 and December 31, 2008, we had cash and cash equivalents of \$72.47 million and \$47.78 million, respectively. The following table provides detailed information about our net cash flow for the three months ended March 31, 2009 and 2008.

#### **Cash Flow**

All amounts in millions of U.S. dollars

	<b>Three months ended March 31,</b>	
	<b>2009</b>	<b>2008</b>
Net cash provided by (used in) operating activities	\$ 21.44	\$ (2.50)
Net cash used in investing activities	(2.81)	(10.94)
Net cash provided by (used in) financing activities	5.95	(1.28)
Effect of exchange rate changes on cash	0.11	2.76
Net cash inflow (outflow)	\$ 24.69	\$ (11.96)

***Operating Activities:***

Net cash provided by operating activities was \$21.44 million for the three months ended March 31, 2009, which is an increase of \$23.94 million from the \$2.50 million of the net cash used in operating activities for the same period in 2008. The increase was mainly due to decrease in advance payments, prepayment and deposits and trade receivables.

**Investing Activities:**

Our main uses of cash for investing activities during the first quarter of 2009 were deposits for the acquisition of subsidiaries and businesses and for property, plant and equipment.

Net cash used in investing activities for the three months ended March 31, 2009 was \$2.81 million, which is a decrease of \$8.13 million from net cash used in investing activities of \$10.94 million in the same period of 2008. Such decrease was primarily due to decreased deposits for acquisitions of subsidiaries and proceeds from the disposal of land use rights and properties in 2008.

We closed the acquisition of Coson on January 12, 2009. In addition, we have signed letters of intent to acquire Shenzhen Alean Technology Development Co., Ltd., Shenzhen Skywise Limited. Pursuant to the letters of intent, the cash consideration for these two intended acquisitions is expected to total \$20 million with additional consideration to be paid in equity. Consummation of these two acquisitions is subject to customary closing conditions, including execution of definitive agreement and receipt of governmental approval. We expect to finance the cash portion of the purchase price with the net proceeds from our \$50 million convertible notes financing that closed in April 2007.

**Financing Activities:**

Net cash provided by financing activities in the three months ended March 31, 2009 totaled \$5.95 million as compared to \$1.28 million used in financing activities in the same period of 2008. The net cash provided by financing activities was mainly attributable to the additional bank loans raised in the first quarter of 2009.

**Loan Facilities**

As of March 31, 2009, the amounts, maturity dates and term of each of our bank loans are as follows:

All amounts in millions of U.S. dollars

<b>Lender</b>	<b>Amount</b>	<b>Maturity Date</b>	<b>Duration</b>
A Financial Institution	\$ 0.84	February 2013	5 years
A Financial Institution	6.09	July 2011	3 years
China Construction Bank	7.24	August 2010	2 years
China Merchants Bank	7.31	February 2010	1 year
Industrial Bank	2.93	November 2009	1 year
China Construction Bank	1.46	July 2009	4 months
<b>Total</b>	<b>\$ 25.87</b>		

In February 2009, we entered into product financing agreements with a financial institution. Under the terms of the agreements, we agreed to pay an annual interest rate of 10.5% on inventory financings. The Company borrowed RMB 7.11 million (approximately \$1.04 million), consisting of a 5-year loan payable to that financial institution. The loans expire in February 2013, and payments are due at the end of each quarter. As of March 31, 2009, the outstanding liability relating to this loan was RMB5.74 million (approximately \$0.84 million).

In July 2008, we entered into product financing agreements with a financial institution pursuant to which we borrowed RMB53 million (approximately \$7.85 million), consisting of a 3-year loan payable to that financial institution. These

loans mature on July 2011. The interest is payable at the end of each quarter. As of March 31, 2009, the outstanding liability relating to this loan was RMB41.63 million (approximately \$6.09 million).

On March 27, 2009, we entered into a loan agreement with China Construction Bank. The Company borrowed RMB10 million (approximately \$1.46 million) with an annual interest rate equal to 5.59% and the interest is payable at the 20<sup>th</sup> of each month. The loan is due in July 2009. The loan is guaranteed by a subsidiary of the Company, and is collateralized by the buildings of the subsidiary.

On February 25, 2009, we entered into a loan agreement with China Merchants Bank. We borrowed RMB60 million (approximately \$8.77 million) with an annual interest rate equal to 92% of the one- to three-year benchmark lending rate of The People's Bank of China (4.89% as of March 31, 2009) and the interest is payable at the 20<sup>th</sup> of each month. The loan is guaranteed by our CEO and our subsidiaries. The loan matures in February, 2010 and RMB10 million (approximately \$1.46 million) is repaid in March 2009. As of March 31, 2009, the outstanding liability relating to this loan was RMB50 million (approximately \$7.31 million).

On January 4, 2009, we entered into a loan agreement with China Merchants Bank. We borrowed RMB20 million (approximately \$2.93 million) with an annual interest rate equal to 92% of the one- to three-year benchmark lending rate of The People's Bank of China (4.89% as of March 31, 2009) and the interest is payable at the 20<sup>th</sup> of each month. The loan is guaranteed by our CEO and our subsidiaries. The loan was repaid in March 2009.

On December 30, 2008, we entered into a loan agreement with China Merchants Bank. We borrowed RMB20 million (approximately \$2.93 million) with an annual interest rate equal to 92% of the one- to three-year benchmark lending rate of The People's Bank of China (4.89% as of March 31, 2009) and the interest is payable at the 20<sup>th</sup> of each month. The loan is guaranteed by our CEO and our subsidiaries. The loan was repaid in March 2009.

On November 17, 2008, we entered into a loan agreement with Industrial Bank under which we borrowed RMB20 million (approximately \$2.93 million) with an annual interest rate of 7.99% . The loan matures in November 2009 and the interest is payable at the 20<sup>th</sup> of each month. The loan is guaranteed by our CEO and our subsidiaries.

On August 28, 2008, we entered into a long-term loan agreement with China Construction Bank. As of March 31, 2009, the outstanding liability relating to this loan was RMB49.5 million (approximately \$7.24 million), consisting of a 2-year loan payable to the bank. This loan matures on August 27, 2010 with an annual interest rate equal to 105% of the one- to three-year benchmark lending rate of The People's Bank of China (5.67% as of March 31, 2009). The interest rate is adjusted quarterly based on any changes to the one- to three-year benchmark lending rate, and the interest is payable at the 20<sup>th</sup> of each month. The loan agreement requires us to use the loan proceeds only for our operations.

On October 3, 2006, we signed a banking facility agreement with China Construction Bank under which the bank agreed to provide a new receivable-based facility to support our efforts in securing new contracts relating to the Safe City Project initiative, also known as Plan 3111. This facility will provide three possible financing options: (1) the government takes a loan from the bank to finance the project; (2) we sell the accounts receivable to the bank, 85% of the total account receivables value will be paid by the bank to the Company and the remaining 15% will be collected by the bank from the government; from the 15% collected from the government, the bank will retain certain finance charges and pay the remainder over to the Company; or (3) we take a loan from the bank to finance the project. As part of this agreement, we will make periodic deposits with the bank, which, depending upon the specific project, will provide a maximum factoring capacity of five to ten times the amount deposited. None of the facility has been drawn down as of the date of this report.

We believe that our currently available working capital, after receiving the aggregate proceeds of our capital raising activities and the credit facilities referred to above and in our Annual Report on Form 10-K filed on March 5, 2009, should be adequate to sustain our operations at our current levels through at least the next twelve months.

**Obligations Under Material Contracts**

Below is a table setting forth our material contractual obligations as of March 31, 2009:

All amounts in millions of U.S. dollars

	Total	Payments due by period			More than 5 years
		Less than 1 year	1-3 years	3-5 years	
Debt Obligations	\$ 175.69	20.94	5.68	149.07	\$ --
Operating Lease Obligations	1.04	0.67	0.31	0.06	--
Total	\$ 176.73	21.61	5.99	149.13	\$ --

**Recent Pronouncements**

In December 2007, the FASB issued SFAS No. 141 (revised 2007), *Business Combinations* ( SFAS 141(R) ), which addresses the accounting and disclosure for identifiable assets acquired, liabilities assumed, and noncontrolling interests in a business combination. In April 2009, the FASB issued FASB Staff Position No. FAS 141(R)-1,

*Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies* ( FSP FAS 141(R)-1 ), which amended certain provisions of SFAS 141(R) related to the recognition, measurement, and disclosure of assets acquired and liabilities assumed in a business combination that arise from contingencies. The Company adopted SFAS 141(R) and FSP FAS 141(R)-1 on January 1, 2009. We accounted for its January 2009 business acquisition in accordance with these standards. See Note 3 to the financial statements for additional disclosure.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements, an Amendment of Accounting Research Bulletin ( ARB ) No. 51, Consolidated Financial Statements* ( SFAS 160 ). SFAS 160 establishes accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. The Company adopted SFAS 160 on January 1, 2009. As a result, we have reclassified financial statement line items within our Condensed Consolidated Balance Sheets and Statements of Income and Comprehensive Income for the prior period to conform with this standard.

In April 2009, the FASB issued FSP SFAS 107-1 and Accounting Principles Board Opinion ( APB ) 28-1, "Interim Disclosures about Fair Value of Financial Instruments", or FSP 107-1, which will require that the fair value disclosures required for all financial instruments within the scope of SFAS 107, "Disclosures about Fair Value of Financial Instruments", be included in interim financial statements. This FSP also requires entities to disclose the method and significant assumptions used to estimate the fair value of financial instruments on an interim and annual basis and to highlight any changes from prior periods. FSP 107-1 will be effective for interim periods ending after June 15, 2009. The adoption of FSP 107-1 is not expected to have a material impact on our Consolidated Financial Statements.

### ***Critical Accounting Policies***

See Item 7, Management's Discussion and Analysis of Results of Operations and Financial Condition in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2008, for a discussion of the Company's critical accounting policies.

### ***Seasonality***

Our operating results and operating cash flows historically have been subject to seasonal variations. Our revenues are usually higher in the second half of the year than in the first half of the year and the first quarter is usually the slowest quarter because fewer projects are undertaken during and around the Chinese spring festival.

### ***Off-Balance Sheet Arrangements***

We do not have any off-balance sheet arrangements.

## **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK**

### ***Interest Rate Risk***

The Company deposits surplus funds with Chinese banks earning daily interest. The Company does not invest in any instruments for trading purposes. All of the Company's outstanding debt instruments carry fixed rates of interest. The Company's operations generally are not directly sensitive to fluctuations in interest rates. The amount of long-term debt outstanding as of March 31, 2009 and December 31, 2008 was \$154.35 million and \$150.41 million, respectively. A hypothetical 1.0% increase in the annual interest rates for all of our credit facilities under which we had outstanding borrowings at March 31, 2009 would not have any material impact on our net income before provision for income taxes for the quarter. Management monitors the banks' prime rates in conjunction with our cash requirements to determine the appropriate level of debt balances relative to other sources of funds. We have not entered into any hedging transactions in an effort to reduce our exposure to interest rate risk.

### ***Foreign Exchange Risk***

While our reporting currency is the U.S. dollar, all of our consolidated revenues and consolidated costs and expenses are denominated in RMB. All of our assets are denominated in RMB except for cash. As a result, we are exposed to foreign exchange risk as our revenues and results of operations may be affected by fluctuations in the exchange rate between U.S. dollars and RMB. If the RMB depreciates against the U.S. dollar, the value of our RMB revenues, earnings and assets as expressed in our U.S. dollar financial statements will decline. Assets and liabilities are translated at exchange rates at the balance sheet dates and revenue and expenses are translated at the average exchange rates and shareholders' equity is translated at historical exchange rates. Any resulting translation adjustments are not included in determining net income but are included in determining other comprehensive income, a component of shareholders' equity. An average appreciation (depreciation) of the RMB against the U.S. dollar of 5% would increase (decrease) our comprehensive income by \$0.05 million based on our outstanding revenues, costs and expenses, assets and liabilities denominated in RMB as of March 31, 2009. As of March 31, 2009, our accumulated other comprehensive income was \$29.22 million. We have not entered into any hedging transactions in an effort to reduce our exposure to foreign exchange risk.

The value of the Renminbi against the U.S. dollar and other currencies is affected by, among other things, changes in China's political and economic conditions. Since July 2005, the Renminbi has not been pegged to the U.S. dollar. Although the People's Bank of China regularly intervenes in the foreign exchange market to prevent significant short-term fluctuations in the exchange rate, the Renminbi may appreciate or depreciate significantly in value against the U.S. dollar in the medium to long term. Moreover, it is possible that in the future, PRC authorities may lift

restrictions on fluctuations in the Renminbi exchange rate and lessen intervention in the foreign exchange market.

### ***Inflation***

Inflationary factors such as increases in the cost of our product and overhead costs may adversely affect our operating results. Although we do not believe that inflation has had a material impact on our financial position or results of operations to date, a high rate of inflation in the future may have an adverse effect on our ability to maintain current levels of gross margin and selling, general and administrative expenses as a percentage of net revenues if the selling prices of our products do not increase with these increased costs.

## **ITEM 4. CONTROLS AND PROCEDURES**

*Evaluation of Disclosure Controls and Procedures.* We maintain a system of disclosure controls and procedures. The term "disclosure controls and procedures," as defined by regulations of the SEC, means controls and other procedures that are designed to ensure that information required to be disclosed in the reports that we file or submit to the SEC under the Exchange Act, is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file or submit to the SEC under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and our principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions to be made regarding required disclosure. Each of Guoshen Tu, our Chief Executive Officer, and Terence Yap, our Chief Financial Officer, have evaluated the design and operating effectiveness of our disclosure controls and procedures as of March 31, 2009. Based upon their evaluation, these executive officers have concluded that our disclosure controls and procedures are effective as of March 31, 2009.

*Changes in Internal Control over Financial Reporting.* There has been no change to our internal control over financial reporting during the quarter ended March 31, 2009 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## **PART II**

### **OTHER INFORMATION**

#### **ITEM 1. LEGAL PROCEEDINGS**

From time to time, we may have disputes that arise in the ordinary course of its business. Currently, there are no material legal proceedings to which we are a party, or to which any of our property is subject, that we expect to have a material adverse effect on our financial condition.

#### **ITEM 1A. RISK FACTORS**

There are no material changes from the risk factors previously disclosed in Part I, Item 1A. "Risk Factors" of our Annual Report on Form 10-K for the year ended December 31, 2008, filed with the SEC on March 5, 2009.

#### **ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

In February 2009, pursuant to the acquisitions of DIT and Coson, we issued 139,573 and 341,228 shares of our common stock to DIT and Coson. The issuance was made in an offshore transaction pursuant to Regulation S under the Securities Act.

#### **ITEM 3. DEFAULTS UPON SENIOR SECURITIES**

None.

**ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

None.

**ITEM 5. OTHER INFORMATION**

None.
