The proposed slate of directors includes 10 independent directors and one employee director. Two of our directors are not standing for reelection. Yotaro Kobayashi, who reached his 70th birthday in 2003, is retiring from the Board under the Board's retirement policy and due to an increase in the time required for her other responsibilities, Antonia Ax:son Johnson will not stand for reelection. We are deeply grateful for their many contributions to our company.

It is important that your shares be represented and voted at the Annual Meeting, regardless of whether or not you plan to attend in person. PROXY STATEMENT

GENERAL

The Meeting

The Board of Directors of Xerox Corporation (Xerox, the Company, we or us) is requesting your proxy for the Annual Meeting of Shareholders on May 20, 2004 beginning at 10:00 a.m., and any adjournments thereof. The meeting will be held at the Park Hyatt Philadelphia at the Bellevue, Broad and Walnut Streets, Philadelphia, Pennsylvania.

Shares Entitled to Vote

Holders of record of the Company's Common Stock, par value \$1 per share (Common Stock) and Series B Convertible Preferred Stock (Preferred Stock) as of the close of business on March 23, 2004 are entitled to vote. On that date there were 800,004,957 shares of Common Stock and 6,259,151 shares of Series B Convertible Preferred Stock outstanding. At the meeting each share of Common Stock is entitled to one vote on each proposal and each share of Series B Convertible Preferred Stock is entitled to six votes on each proposal.

Proxy Voting and Quorum

Shareholders of record may vote their proxies by telephone, Internet or mail. By using your proxy to vote in one of these ways, you authorize the three directors whose names are listed on the front of the proxy card accompanying this Proxy Statement to represent you and vote your shares. Holders of a majority of the shares entitled to vote at the meeting must be present in person or represented by proxy to constitute a quorum.

If you attend the meeting, you may of course vote by ballot. If you are not present, your shares can be voted only when represented by a properly submitted proxy.

You may revoke or change your proxy at any time before it is exercised, either in writing to the Secretary of the Company, or through the Internet or by telephone voting.

Choices in Voting

You have several choices in completing your voting.

You may vote on each proposal, in which case your shares will be voted in accordance with your choices.

In voting on directors, you can either vote FOR all the directors or withhold your vote on all or certain of the directors.

You may indicate a preference to abstain on any other proposal, in which case no vote will be recorded.

You may submit a proxy without indicating your voting preferences, in which case the proxies will vote your shares:

for election of the directors nominated by the Board of Directors,

for ratification of the selection of PricewaterhouseCoopers LLP as the Company's independent auditors for the year 2004,

for adoption of the 2004 Performance Incentive Plan and

for adoption of the 2004 Equity Compensation Plan for Non-Employee Directors.

ESOP Voting Instruction

Participants in the Company's Employee Stock Ownership Plan can instruct State Street Bank and Trust Company as Trustee of the Plan by telephone, Internet or mail how to vote. No matter which method is used, the instructions are confidential and will not be disclosed to the

Company. By using the voting instruction in one of these ways, you instruct the Trustee to vote the shares allocated to your Stock Account. You also authorize the Trustee to vote a proportion of the shares held in the ESOP Trust for which no instructions have been received.

4

Required Vote

A *plurality* of the votes cast is required for the election of directors. The affirmative vote of a *majority* of the votes cast is required to ratify the selection of PricewaterhouseCoopers LLP (PwC) as independent auditors for the year 2004, approve adoption of the 2004 Performance Incentive Plan and approve adoption of the 2004 Equity Compensation Plan for Non-Employee Directors. Under the law of New York, the Company's state of incorporation, only votes cast for the election of directors or those cast for or against any other proposal will be counted in determining whether a nominee for director has been elected, the selection of PwC has been ratified, the adoption of the 2004 Performance Incentive Plan or the adoption of the 2004 Equity Compensation Plan for Non-Employee Directors has been approved. Abstentions, broker non-votes and votes withheld are not treated as votes cast at the meeting for such purpose.

Proposal 1 Election of Directors

Shareholders annually elect directors to serve for one year and until their successors have been elected and shall have qualified. The eleven persons whose biographies appear on pages 10 through 13 have been proposed by the Board of Directors based on a recommendation by the Corporate Governance Committee of the Board of Directors, none of whose members is an officer of the Company.

Ten of the eleven nominees are neither employees nor former employees of Xerox, its subsidiaries or associated companies and have been deemed independent by the Board. These Board members bring to us valuable experience from a variety of fields.

If for any reason, which the Board of Directors does not expect, a nominee is unable to serve, the proxies may use their discretion to vote for a substitute proposed by the Board of Directors.

Corporate Governance

During 2003 we further enhanced our corporate governance policies and procedures. In 2002 the Board adopted Corporate Governance Guidelines, a Code of Business Conduct and Ethics For Members of the Board of Directors and new charters for all Committees. The Corporate Governance Committee was created with greatly expanded responsibilities in place of the former Nominating Committee. In 2003 the Board eliminated the Executive Committee and the Company adopted a revised Finance Code of Conduct which is a code of ethics that applies to the Company's principal executive officer, principal financial officer and principal accounting officer, among others. The Corporate Governance Guidelines and the charters of the Audit, Compensation and Corporate Governance Committees are attached to this proxy statement as Exhibits I, II, III and IV. The Corporate Governance Guidelines, the charters of the Audit, Compensation, Corporate Governance and Finance Committees, the Code of Business Conduct and Ethics For Members of the Board of Directors and the Finance Code of Conduct can be found on our website at <http://www.xerox.com/investor> and then clicking on Corporate Governance. We believe that as a result of these actions we are in compliance with the relevant provisions of the Sarbanes-Oxley Act of 2002 and the new Corporate Governance Rules of the New York Stock Exchange (NYSE Rules).

Under our Corporate Governance Guidelines each regularly scheduled Board meeting includes an executive session of all directors with the CEO and, a separate executive session of just the independent directors. The Chairmen of the Corporate Governance Committee and the Compensation Committee rotate responsibility to preside over non-management executive sessions and are responsible for providing appropriate feedback to the CEO.

The NYSE Rules permit a listed company to adopt a percentage test for determining that a director's relationship is immaterial for determining independence. The test adopted by our Board is contained in our Corporate Governance Guidelines. Members of the Xerox Board of Directors will be considered independent if the sales to, and buys from, Xerox are less than one percent of the revenues of companies they serve as officers, partners or of counsel. If Xerox borrows from the other entity the amount must represent less than one percent of our consolidated assets or those of the other entity. Moreover, if a Xerox Director serves as an officer or director of a charitable organization, the Xerox director will be considered independent, if Xerox donates less than five percent of that organization's charitable receipts.

Our Board has determined that based upon this standard and a review of any other relationships, all of the nominees for election as directors are independent under the NYSE Rules, with the exception of Anne M. Mulcahy, our Chairman and Chief Executive Officer. As a result, 91% of the proposed members of our Board are independent.

Set forth below is a list of the Committees of our Board, the number of meetings held and a summary of the responsibilities of each Committee and its membership.

Committee Functions, Membership and Meetings

Our Board of Directors has four standing committees: Audit, Corporate Governance, Compensation and Finance. In December 2003 the Board eliminated the Executive Committee which had not met in 2003 and previously had all the authority of the Board of Directors, except with respect to certain matters that could not be delegated by the Board. Here is a description of each Committee, the number of meetings held during 2003 and its membership:

Audit Committee (15 meetings)

Reference is made to a complete copy of the charter of the Audit Committee which is attached to this Proxy Statement as Exhibit II and is posted on the Company's website as described above. Responsibility:

- oversight of the integrity of the Company's financial statements,
- Company's compliance with legal and regulatory requirements,
- independent auditors' qualifications and independence,
- performance of the Company's independent auditors and the internal audit function and
- Company's code of business conduct and ethics.

The Committee is also responsible for the preparation of the audit committee report required by the Rules of the Securities and Exchange Commission (SEC) to be included in the Company's annual proxy statement.

Consistent with the foregoing, a Report of the Audit Committee appears on pages 28-29 under "Audit Committee Report."

Members: Antonia Ax:son Johnson, Richard J. Harrington, William Curt Hunter, Hilmar Kopper, N. J. Nicholas, Jr., and John E. Pepper, all non-employee directors.

Chairman: Mr. Pepper

The Board of Directors has determined that all of the members of the Audit Committee are independent as defined in Rule 10A-3 under the Securities Exchange Act of 1934, as amended, and the NYSE Rules.

The Board of Directors has determined that the following members of the Audit Committee are "audit committee financial experts" within the meaning of Item 401(h) of Regulation S-K issued by the SEC: Richard J. Harrington, William Curt Hunter, Hilmar Kopper, N. J. Nicholas, Jr. and John E. Pepper. Such members are also "independent" as that term is used in Item 7(d)(3)(iv) of the SEC's Proxy Regulations. The SEC has determined that the designation or identification of a person as an audit committee financial expert does not impose on such person any duties, obligations or liability that are greater than the duties, obligations and liability imposed on such person as a member of the audit committee and the Board of Directors in the absence of such identification.

Corporate Governance Committee (5 meetings)

Reference is made to a complete copy of the charter of the Corporate Governance Committee which is attached to this Proxy Statement as Exhibit IV and is posted on the Company's website as described above. Responsibility:

- identify and recommend to the Board individuals to serve as directors of the Company and on committees of the Board,

advise the Board regarding composition, procedures and committees,
develop and recommend to the Board and annually review a set of corporate governance principles applicable to the Company,
evaluate and recommend director compensation to the Board, and
oversee the annual Board and Committee evaluation processes.

6

The Committee recommends to the Board of Directors nominees for election as directors of the Company and considers the performance of incumbent directors in determining whether to recommend their nomination.

Members: Vernon E. Jordan, Jr., Ralph S. Larsen and N. J. Nicholas, Jr., all non-employee directors.

Chairman: Mr. Jordan

The Board of Directors has determined that all of the members of the Corporate Governance Committee are independent as defined in the NYSE Rules.

Compensation Committee (6 meetings)

Reference is made to a complete copy of the charter of the Compensation Committee which is attached to this Proxy Statement as Exhibit III and is posted on the Company's website as described above. Responsibility:

recommend to the Board of Directors the remuneration arrangements for senior management of the Company including the adoption of compensation plans in which senior management is eligible to participate and the granting of benefits under any such plans;

consult with the Chief Executive Officer and advise the Board with respect to senior management succession planning;

review and approve performance goals and objectives with respect to the compensation of the Chief Executive Officer and all other officers consistent with approved compensation plans; and

oversee the performance evaluation of the Chief Executive Officer and all other officers against approved goals and objectives.

Members: Antonia Ax:son Johnson, Ralph S. Larsen and John E. Pepper, all non-employee directors.

Chairman: Mr. Larsen

The Board of Directors has determined that all of the members of the Compensation Committee are independent as defined in the NYSE Rules.

Finance Committee (5 meetings)

Reference is made to a complete copy of the charter of the Finance Committee which is posted on the Company's website as described above. Responsibility:

oversee the investment management of the Company's employee savings and retirement plans; and

review the Company's asset mix, capital structure and strategies, financing strategies, insurance coverage and dividend policy.

Members: Vernon E. Jordan, Jr., Hilmar Kopper, N. J. Nicholas, Jr., Ann N. Reese and Stephen Robert, all non-employee directors.

Chairman: Mr. Nicholas

The Board of Directors has determined that all of the members of the Finance Committee are independent as defined in the NYSE Rules.

Attendance and Compensation of Directors

Attendance: 13 meetings of the Board of Directors and 31 meetings of the Board committees were held in 2003. All incumbent directors attended at least 75 percent of the total number of meetings of the Board of Directors and Board committees on which they served.

We believe that attendance at meetings is only one means by which directors may contribute to the effective management of the Company and that the contributions of all directors have been substantial and are highly valued.

Summary of Director Annual Compensation

The compensation of directors during 2003 was as follows:

Cash	\$40,000
Committee Meetings	\$1,500 (for each meeting attended which is not held in connection with a regular Board meeting)
Commitment of Time Outside Meetings	\$1,500 per activity*
Committee Chairmen	\$10,000 (per year for non-employee Chairmen of Board Committees)
Restricted Stock	\$25,000 (number of shares based upon market value at time fee is payable-quarterly)
Options	5,000 options
Expenses	Out-of-pocket expenses in connection with service

* Applied only to commitment of a significant amount of time on substantive matters including informal meetings of the Board or a Committee on days when there is no formal meeting of the Board or such Committee. Payment of such fees were subject to prior approval by the Chairman of the Compensation Committee except in the case of the Chairman of such Committee which must be approved by a majority of the members of the Compensation Committee.

Eligibility: Directors who are our employees receive no compensation for service as a director. Directors who are employees of subsidiary companies are not eligible to receive stock option awards.

Options: Issued at the fair market value on date of grant (generally on the date of the annual meeting of shareholders). The options vest over a three year period. Upon the occurrence of a change in control, as defined, all outstanding options become exercisable.

Restricted Stock: The number of shares issued is based on the market value at the time the fee is payable, which is in quarterly installments. The shares held by directors under this Plan are included in the Xerox securities owned shown in the biographies of the directors beginning on page 10. The shares may not be sold or transferred except upon death, retirement, disability, change in control or termination as a director with the consent of the majority of the Board.

The Board of Directors has significantly revised and simplified the compensation arrangements effective January 1, 2004. As summarized below, this includes changes in cash compensation, elimination of committee meeting fees and fees for outside meeting time commitments. In addition the Board has eliminated stock options and restricted shares under the existing Non-Employee Director Stock Option Plan and the Restricted Stock Plan For Directors and is proposing granting Deferred Stock Units which vest one year following a director's termination of service on the Board. The revisions also recognize the increased time commitment of the committee chairmen and the members of the Audit Committee. The new compensation arrangements were recommended by Frederic W. Cook & Co., Inc., independent consultant to the Corporate

Governance Committee, based upon relevant benchmarks and was approved by the Committee.

Assuming shareholder approval of the 2004 Equity Compensation Plan For Non-Employee Directors at this meeting, or any adjournment thereof, the compensation for directors during 2004 will be:

	<u>Cash</u>	<u>Deferred Stock Units*</u>
Board Fees	\$65,000	\$65,000
Committee Chairman Fees		
-Audit	\$15,000	\$15,000
-Compensation	\$10,000	\$10,000
-Corporate Governance	\$7,500	\$7,500
-Finance	\$7,500	\$7,500
Audit Committee Members	\$5,000	\$5,000
Expenses		Out-of-pocket expenses in connection with service

* The number of Deferred Stock Units will depend upon the price per share of the Company's Common Stock on the effective date of the awards.

If shareholders do not approve the 2004 Equity Compensation Plan For Non-Employee Directors restricted stock and stock options would be awarded to the members of the Board as in the past.

Terms Used in Biographies

To help you consider the nominees, we provide summary biographical information. Certain terms used in the biographies may be unfamiliar to you, so we are defining them here.

Xerox securities owned means the Company's Common Stock, including restricted shares of Common Stock issued under the Restricted Stock Plan For Directors and Series B Convertible Preferred Stock. Series B shares are owned through the individual's account in the Xerox Employee Stock Ownership Plan. None of the nominees owns any of the Company's other securities.

Options/Rights is the number of the Company's shares of Common Stock subject to stock options and incentive stock rights held by a nominee.

Immediate family means the spouse, the minor children and any relatives sharing the same home as the nominee.

Unless otherwise noted, all Xerox securities held are owned beneficially by the nominee. This means he or she has or shares voting power and/or investment power with respect to the securities, even though another name that of a broker, for example appears in the Company's records. All ownership figures are as of March 15, 2004.

Policy Regarding Tax Deductibility of Executive Compensation

Chief Executive Officer Compensation

2004 Performance Incentive Plan

Closing Statement

Purpose of the Compensation Committee

The Board of Directors created the Compensation Committee (the "Committee") to fulfill the Board's responsibilities relating to compensation of the Company's officers. Specific Committee responsibilities include reviewing and recommending to the Board of Directors performance goals of the Chief Executive Officer and approving performance goals for all other officers, overseeing the performance evaluation of all officers, reviewing and approving executive compensation plans, setting the compensation for the Chief Executive Officer and all other officers, and consulting with the Chief Executive Officer and the Board on management succession. The Committee's full Charter is included as Exhibit III and is also available on the Company's website.

The Committee is comprised of three independent directors.

Actions Taken by the Committee in 2003

In connection with our duties, the Committee met six times during 2003.

The Company's executive compensation policies, plans and programs provide competitive levels of compensation that align pay with the Company's annual and long-term performance objectives. They also support the Company objectives of attracting, motivating and retaining high-performing executives and allowing for recognition of superior corporate and individual achievement.

To meet compensation policy objectives, we reviewed Xerox executive officer compensation and compared it to relevant external data. The Committee reviewed the reported compensation data of firms that were part of the *Business Week* Computers and Peripherals Industry Group. The Committee also reviewed a broader group of organizations with which the Company is likely to compete for executive expertise as well as companies of similar size and scope. The latter group includes global companies in technology, office equipment and other related industries.

During 2003, the Company continued to make substantial progress in its business turnaround, reflected by significantly improved cash flow, increased sales of new equipment, and continued disciplined cost and expense management, which resulted in growth of total shareholder return of over 70% for the calendar year. Based on this performance, the Company ranked in the top quartile in total shareholder return in 2003 and in the top quartile over the past three years when compared to the latter group mentioned above.

The Committee set base salaries taking into account competitive data and each executive's performance. In addition, a substantial portion of each executive officer's total compensation, generally two-thirds or more, is at risk and variable from year to year.

Goals for the Company in 2003 focused on Financial and Leadership Effectiveness. Financial goals emphasized improved revenue, earnings per share, cash flow from operations and reduction in accounts receivables and inventory levels. Leadership Effectiveness goals concentrated on effective development and communication of the Company's strategy and execution of short and long-term business plans. Key to achievement of these goals was the continued retention and commitment of the senior management team. The principal pay programs for officers in 2003 are briefly described below:

Annual Performance Incentive Plan (APIP): Under APIP, executive officers of the Company are eligible to receive performance-related cash payments if Committee-established annual performance objectives are met. We approved an annual incentive target and maximum opportunity for 2003, expressed as a percentage of base salary, for each participating officer.

The Committee also set overall threshold, target and maximum measures of performance for the 2003 APIP. The performance measures and weightings for 2003 were revenue (30%), earnings per share (40%), cash flow from operations (15%) and accounts receivable (15%). Additional goals for each officer addressed business-unit specific and/or individual performance goals and objectives, including new product launches and executing business turnarounds. The weightings associated with these additional performance goals vary. In addition, we approved a supplemental award opportunity equal to 100% of the APIP target bonus amount for select officers and other senior managers who have direct revenue generating responsibilities. The supplemental award was payable only if stretch revenue goals were exceeded and operating profit margin targets maintained. One officer received a supplemental award as described above because of the stellar revenue growth his unit delivered.

Edgar Filing: XEROX CORP - Form DEF 14A

For 2003, the performance against the APIP goals was as follows: Revenue performance was below threshold, earnings per share performance was above target, cash flow from operations significantly exceeded maximum and accounts receivable performance exceeded target. Accordingly, the Committee approved APIP awards for 2003 to participating officers that on average were approximately 132% of target levels. Some individuals received higher or lower bonuses based on their individual and unit performance.

Base Salary Adjustments: After reviewing competitive data, we approved base salary adjustments for select officers. Certain executive officers received an additional adjustment to their base salary during 2003 as a result of new responsibilities and/or to address specific retention concerns. The approved adjustments averaged approximately 3.8% on an annualized basis.

Long-Term Incentive Awards: As previously disclosed, the Committee granted the final long-term incentive award under its Leveraged Executive Equity Plan (LEEP) effective January 1, 2003. LEEP was a three-year plan implemented beginning in 2000 for executive officers and other key executives. The primary goals of LEEP were to retain key leadership talent during the Company's turnaround and to provide incentive opportunities aligned to restoring shareholder value.

LEEP consisted of three equal annual grants of stock options and restricted stock. Award levels provided competitive long-term incentive opportunities only if shareholder value increased. Stock options under LEEP vest fully after three years and remain exercisable for ten years following their date of grant. Restricted stock awarded under LEEP vested 100% one year from date of grant.

At our December 9, 2003 meeting, the Committee approved the new Executive Long-Term Incentive Program (E-LTIP) as the successor to the discontinued LEEP program described above. We approved awards made under E-LTIP to executive officers and other key leaders of the Company, effective January 1, 2004.

The objectives of E-LTIP are to:

- Provide long-term incentives for the continuation of the Company's return to greatness
- Encourage ownership of stock by participating executives
- Require retention of a meaningful portion of the shares of Company stock received by executives under E-LTIP
- Provide strong market-competitive awards consistent with good governance practices
- Provide a transition to future long-term incentives that may be awarded under the proposed 2004 Performance Incentive Plan.

Officers' awards under E-LTIP reflect each executive's leadership role within the Company. Award values under E-LTIP were delivered in equal parts of stock options and restricted stock units based on the fair market value on the effective date of grant.

Stock options awarded under E-LTIP were granted at the fair market value on the effective date of grant. They vest in three equal annual installments from the effective date of grant and remain exercisable for eight years from the effective date of grant.

Restricted stock units granted under E-LTIP vest in three equal annual installments from the effective date of grant, except for those granted to the Chairman and CEO which vest 100% after three years from the effective date of grant, except that the vesting can be accelerated by one-third if the Company achieves annual revenue growth. The restricted stock units are eligible for a voluntary deferral election.

Each participant of E-LTIP must satisfy a meaningful ownership requirement. For the Chairman and CEO, the ownership requirement is five times her base salary. For other officers, the ownership requirement is two times base salary. Non-officer participants in E-LTIP have an ownership requirement equal to their base salary. All awards under E-LTIP are subject to a mandatory holding requirement. As determined by the Committee, executives must retain 50% of the net shares for the later of one year, or until they achieve their ownership requirement.

The accompanying charts, tables, and footnotes present more information on the long-term incentive awards to the Named Officers.

Edgar Filing: XEROX CORP - Form DEF 14A

All LEEP and E-LTIP long-term incentive awards were made under the Company's 1991 Long-Term Incentive Plan.

Executive Life Insurance: Effective June 30, 2003, the Company terminated its Contributory Life Insurance Plan, a split-dollar plan, for all participating active employees. Effective July 1, 2003, a new plan, Xerox Universal Life Plan (XUL), was offered to eligible employees, including the Named Officers. Under XUL, participants receive company-paid life insurance equal to their death benefit under the prior program, or three times their base salary, whichever is greater. Executives are the sole owners of their XUL policies and are responsible for any taxes due from Company contributions.

Tax Settlement: The Compensation Committee approved that the Company provide one-time tax related reimbursements to certain officers in the aggregate amount of approximately \$600,000 inclusive of interest.

Policy Regarding Tax Deductibility of Executive Compensation

It is the Company's goal to have most compensation paid to its top officers qualify as tax deductible for federal tax purposes under Section 162(m) of the Internal Revenue Code. We believe it is appropriate to provide competitive compensation opportunities even though they may not be fully tax-deductible in any given year.

Certain compensation paid to Named Officers in 2003 does not meet the requirements of Section 162(m), most notably APIP awards for 2003 and the value of restricted stock awards that vested in 2003, to the extent that compensation exceeds \$1 million for a Named Officer.

Chief Executive Officer Compensation

During the year, we took the following actions with respect to the compensation paid to Mrs. Mulcahy, Chairman and Chief Executive Officer of the Company.

Base Salary: Mrs. Mulcahy's annualized base salary was increased to \$1,100,000 effective February 1, 2003 and was further increased to \$1,320,000 effective January 1, 2004.

2003 Bonus: Mrs. Mulcahy's annual target bonus remained at 100% of base salary. Mrs. Mulcahy was awarded an annual bonus of \$1,750,000, or 132% of target based on the Company's overall results as discussed above under APIP.

Long-Term Incentives: On January 1, 2003, under the LEEP program described earlier, Mrs. Mulcahy received a stock option grant for 934,600 shares that will vest one-third each January 1 following the grant effective date, and a restricted stock award for 250,000 shares that vested on January 1, 2004. The fair market value at the time of these grants was \$7.885 per share.

Effective on January 1, 2004, Mrs. Mulcahy received an award under E-LTIP as described earlier. Her E-LTIP award consisted of a stock option grant for 609,000 shares that will vest one-third each January 1 following the grant effective date, and a restricted stock unit award for 366,000 units that will vest on January 1, 2007. The fair market value at the time of these grants was \$13.685 per share. The vesting of one-third of the restricted stock units will be accelerated in any year that revenue growth occurs, as determined by the Committee.

The Committee made these awards to provide the incentives necessary to retain Mrs. Mulcahy and to reward her for her outstanding contributions and leadership in significantly increasing the profitability and operating cash flow of the Company, improving confidence regarding the financial stewardship of the Company, and creating and maintaining the high morale and commitment of the Company's employees during an extremely challenging phase of the Company's history.

The accompanying charts and tables present detailed information on Mrs. Mulcahy's compensation, as well as that of other highly compensated executives.

2004 Performance Incentive Plan

The Committee and the Board have approved the adoption of a new long-term incentive plan that is being submitted to shareholders. Subject to shareholder approval, the 2004 Performance Incentive Plan (the "2004 Plan" or "Plan") will permit the Committee to grant equity and cash-based awards to any employee of the Company. If shareholders approve the Plan, no further awards may be granted under the Company's 1991 Long-Term Incentive Plan, the 1998 Employee Stock Option Plan, the Xerox Mexicana, S.A. de C.V. Executive Rights Plans, the Xerox Canada

Edgar Filing: XEROX CORP - Form DEF 14A

Inc. Executive Rights Plan and the Xerox Executive Performance Incentive Plan. The Plan is described in greater detail under Proposal 3 Adoption of 2004 Performance Incentive Plan on pages 29-34 of this proxy statement.

Closing Statement

The Committee and the Board are firm in their belief that the quality of Xerox's leadership and the caliber and motivation of its management make a significant contribution to our performance and ability to create sustaining value for our shareholders. We believe our executive compensation programs are an important component of our ability to create competitive advantage for Xerox in light of global competition. Your approval of our new 2004 Performance Incentive Plan (Proposal 3 on the enclosed proxy card) is critical to our continuing ability to offer competitive and motivational equity incentives. We believe it is worthy of your support.

(C) As discussed in the Report of the Compensation Committee of the Board of Directors, for 2003 this column reflects restricted stock awarded January 1, 2003 under LEEP. Restricted stock awarded under LEEP vested one year from the date of the grant. The number of restricted shares and units held by the Named Officers and their value as of December 31, 2003 (based on the closing market price on that date of \$13.80) was as follows: Anne M. Mulcahy 259,440 (\$3,580,272), Lawrence A. Zimmerman 50,000 (\$690,000), Ursula M. Burns 108,800 (\$1,501,440), James A. Firestone 58,580 (\$808,404) and Michael C. Mac Donald 40,000 (\$552,000). This excludes the grants of restricted stock units made on January 1, 2004 under E-LTIP as follows: Anne M. Mulcahy 366,000 (\$5,008,710), Lawrence A. Zimmerman 74,000 (\$1,012,690), Ursula M. This also excludes a grant of 9,000 (\$136,845) restricted stock units made under E-LTIP on February 12, 2004 to Michael C. Mac Donald. Restricted stock units granted under E-LTIP vest in three equal installments from the date of grant, except for those granted to Anne M. Mulcahy which vest 100% after three years from the date of grant, except that the vesting can be accelerated by one-third if the Company achieves annual revenue growth. All awards granted under E-LTIP are subject to a mandatory holding period. Firestone 122,000, and Michael C. Mac Donald 77,000. This also excludes a grant of 15,000 stock options made under E-LTIP effective on February 12, 2004 to Michael C. Mac Donald. Stock options awarded under E-LTIP vest in three equal annual installments from the date of grant and remain exercisable for eight years from their date of grant. As determined by the Committee, executives must retain 50% of net shares for the later of one year, or until they achieve their required ownership level (see Report of the Compensation Committee of the Board of Directors).

(E) The amount shown in this column for 2003 consists of the Company match under the Company's Savings Plans, for which substantially all U.S. employees are eligible, and Company-paid premiums for the Xerox Universal Life Plan as discussed in the Report of the Compensation Committee of the Board of Directors. These premium amounts are: Anne M. Mulcahy \$21,253, Lawrence A. Zimmerman \$3,294, Ursula M. Burns \$6,653, James A. Firestone \$9,391 and Michael C. Mac Donald \$9,732.

Option Grants

The following table sets forth information about awards of stock options to the Named Officers under the Company's 1991 Plan effective during the fiscal year ended December 31, 2003. The amounts shown for potential realizable values are based on arbitrarily assumed annualized rates of stock price appreciation (5% and 10%) over the full ten-year term of the options, pursuant to SEC regulations. Based on a ten-year option term, this would result in stock price increases of 63% and 159% respectively or \$12.844 and \$20.452 for the options with the \$7.885 exercise price. The amounts shown as potential realizable values for all shareholders represent the corresponding increases in the market value of 793,884,396 shares outstanding held by all shareholders as of December 31, 2003. Any gains to shareholders and the Named Officers will depend on future performance of the Common Stock of the Company as well as overall market conditions.

Retirement Plans

Retirement benefits are provided to the executive officers of the Company including the Named Officers primarily under unfunded executive supplemental plans and, due to Internal Revenue Code limitations, to a much lesser extent under the Company's Retirement Income Guarantee Plan. The table below shows the approximate total annual retirement benefit that would accrue for the number of years of credited service at the respective average annual compensation levels. The earliest retirement age for benefit commencement generally is age 60. In the event of a change in control (as defined in the plans) there is no age requirement for eligibility. The benefit accrues generally at the rate of 1-2/3% per year of credited service, but an accelerated benefit may apply for certain executives. No additional benefits are payable for participation in excess of 30 years for those accruing benefits at the rate of 1-2/3% per year. The maximum benefit is 50% of the highest five-year average annual compensation reduced by 50% of the primary Social Security benefit. The benefits shown are payable on the basis of a straight life annuity and a 50% survivor annuity for a surviving spouse.

Accelerated accruals apply to Anne M. Mulcahy and Lawrence A. Zimmerman. The service reported for these two officers reflects these accelerated accruals (i.e., using the service and pay reported in the pension table will yield the appropriate benefit amount).

Certain Transactions

Change In Control Severance Agreements

The Company has severance agreements with 38 executives (including each of the Named Officers), that provide severance benefits in the event of termination of employment under certain circumstances following a change in control of the Company (as defined in the agreement). The agreements provide for the following:

Lump sum severance payment equal to three times total annual cash compensation (base pay plus bonus) for Anne M. Mulcahy and generally two times total cash compensation for other executives

Continuation of certain welfare benefits following termination of employment for a period of 36 months for Anne M. Mulcahy and 24 months for other executives

Gross-up payment if the total payments are subject to excise tax imposed under Section 4999 of the Internal Revenue Code of 1986, as amended

Automatic annual renewal of the agreement unless the Company gives notice that it does not wish to extend it

Continuation of the agreement for two years after a change in control of the Company.

Each agreement also provides that in the event of a potential change in control, subject to the terms of the agreement, the executive will remain in the employ of the Company for nine months following the occurrence of any such potential change in control.

Cash Retention Agreement

During 2003, with the prior approval of the Compensation Committee, the Company entered into a Cash Retention Agreement with Michael C. Mac Donald, Senior Vice President. Under this Agreement, Michael C. Mac Donald is entitled to receive an aggregate of \$300,000 payable in two 50% annual installments in June 2003 and December 2004. The amount payable in June 2003, which has been made, must be paid back to the Company if: (a) employment is terminated by the officer for any reason other than death, disability or for good reason, as defined, or (b) employment is terminated by the Company for cause, as defined. In the event of any such termination prior to December 31, 2004, the final payment will not be made. In the event of death or disability, a pro rata portion is payable.

Relationship With Fuji Xerox

Yotaro Kobayashi, one of our directors, is Chairman of the Board of Fuji Xerox Co., Ltd. (Fuji Xerox), our joint venture with Fuji Photo Film Corp., Ltd.

We have a technology agreement with Fuji Xerox whereby we receive royalty payments and rights to access their patent portfolio in exchange for access to our patent portfolio. In 2003, we earned royalty payment revenues from Fuji Xerox of \$110 million.

We also have arrangements whereby we purchase inventory from and sell inventory to Fuji Xerox. Pricing of the transactions under these arrangements is based on negotiations conducted at arm's length. Certain of these inventory purchases and sales are the result of mutual research and development arrangements. Our purchases from Fuji Xerox are in the normal course of business and typically have a lead-time of three months. In 2003, we sold \$129 million of inventory to Fuji Xerox and purchased \$871 million of inventory from Fuji Xerox. We anticipate that we will purchase approximately \$1 billion of products from Fuji Xerox in 2004.

In addition to the payments described above, in 2003 we paid Fuji Xerox \$33 million and Fuji Xerox paid us \$9 million for unique research and development.

Grantor Trusts

The Company has established grantor trusts with a bank for the purpose of paying amounts due under the deferred compensation plan and the severance agreements described above, and the unfunded supplemental retirement plans described above. The trusts are presently unfunded, but the Company would be required to fund the trusts on the occurrence of certain events.

Legal Services

The law firm of Akin, Gump, Strauss, Hauer & Feld LLP, of which Vernon E. Jordan, Jr. is of counsel, was retained by and rendered services to the Company in 2003 and paid fees to such firm of approximately \$20,000. Fees paid to such firm during each of the last three years represented less than one percent of the total fees of the firm during each such year.

Litigation

In re Xerox Derivative Actions: A consolidated putative shareholder derivative action is pending in the Supreme Court of the State of New York, County of New York against several current and former members of the Board of Directors including William F. Buehler, B.R. Inman, Antonia Ax:son Johnson, Vernon E. Jordan, Jr., Yotaro Kobayashi, Hilmar Kopper, Ralph Larsen, George J. Mitchell, N.J. Nicholas, Jr., John E. Pepper, Patricia Russo, Martha Seger, Thomas C. Theobald, Paul Allaire, G. Richard Thoman, Anne Mulcahy and Barry Romeril, and KPMG. The plaintiffs purportedly brought this action in the name of and for the benefit of the Company, which is named as a nominal defendant, and its public shareholders. The second consolidated amended complaint alleged that each of the director defendants breached their fiduciary duties to the Company and its shareholders by, among other things, ignoring indications of a lack of oversight at the Company and the existence of flawed business and accounting practices within the Company's Mexican and other operations; failing to have in place sufficient controls and procedures to monitor the Company's accounting practices; knowingly and recklessly disseminating and permitting to be disseminated, misleading information to shareholders and the investing public; and permitting the Company to engage in improper accounting practices. The plaintiffs further alleged that each of the director defendants breached his/her duties of due care and diligence in the management and administration of the Company's affairs and grossly mismanaged or aided and abetted the gross mismanagement of the Company and its assets. The second amended complaint also asserted claims of negligence, negligent misrepresentation, breach of contract and breach of fiduciary duty against KPMG. Additionally, plaintiffs claimed that KPMG is liable to Xerox for contribution, based on KPMG's share of the responsibility for any injuries or damages for which Xerox is held liable to plaintiffs in related pending securities class action litigation. On behalf of the Company, the plaintiffs seek a judgment declaring that the director defendants violated and/or aided and abetted the breach of their fiduciary duties to the Company and its shareholders; awarding the Company unspecified compensatory damages against the director defendants, individually and severally, together with pre-judgment and post-judgment interest at the maximum rate allowable by law; awarding the Company punitive damages against the director defendants; awarding the Company compensatory damages against KPMG; and awarding plaintiffs the costs and disbursements of this action, including reasonable attorneys' and experts' fees. On December 16, 2002, the Company and the individual defendants answered the complaint. The plaintiffs filed a third consolidated and amended derivative action complaint on July 23, 2003 adding factual allegations relating to subsequent acts and transactions, namely indemnification of six former officers for disgorgements imposed pursuant to their respective settlements with the SEC and related legal fees, and adding a demand for injunctive relief with respect to that indemnification. On September 12, 2003, Xerox and the individuals filed an answer to the third consolidated and amended derivative action complaint. The individual defendants deny any wrongdoing and are vigorously defending the action.

Indemnification Actions

As we previously reported the SEC announced on June 5, 2003 that it had reached a settlement with Messrs. Allaire, Fishbach, Marchibroda, Romeril, Tayler and Thoman who are former officers of Xerox Corporation regarding the same accounting and disclosure matters which were involved in its previously settled investigation of Xerox Corporation. These individuals neither admitted nor denied wrongdoing and agreed to pay fines, disgorgement, and interest.

The Company's By-Laws provide for indemnification of officers and directors to the full extent permitted by New York law. Consistent with these By-Laws, the Board of Directors authorized the Company to pay the counsel fees and other reasonable fees and expenses incurred, and the payment of the disgorgement amount and interest paid by Messrs. Allaire, Fishbach, Marchibroda, Romeril, Tayler and Thoman in connection with the investigation by the SEC and the settlement with these individuals. The Company paid an aggregate of \$557,764 for fees and expenses since the previous report to shareholders in our April 18, 2003 Proxy Statement and \$19.4 million for the disgorgement and interest. These individuals are responsible for paying their own fines in the SEC matter.

Also consistent with the By-Laws, in connection with the derivative action mentioned above as well as *In re Xerox Corporation Securities Litigation; Carlson v. Xerox Corporation, et al; Bingham v. Xerox Corporation, et al; Florida*

Edgar Filing: XEROX CORP - Form DEF 14A

Allaire, et al. the U.S. Attorney's Office Investigation described in Note 15-Litigation, Regulatory Matters and Other Contingencies in the 2003 Annual Report to Shareholders accompanying this Proxy Statement, and a derivative action which was dismissed during 2003, the Board of Directors has authorized the Company to advance counsel fees and other reasonable fees and expenses, actually and necessarily incurred by the present and former directors and officers who are involved, and the Company has advanced, since the previous report to shareholders as to these fees and expenses, an aggregate of \$3,784,869. Each of the individuals is required, in accordance with the requirements of the Business Corporation Law of the State of New York (BCL), to execute an undertaking to repay such expenses if they are finally found not to be entitled to indemnification under the Company's By-Laws and the BCL.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE **FOR** THE RATIFICATION OF THE SELECTION OF PRICEWATERHOUSECOOPERS LLC AS THE COMPANY'S INDEPENDENT AUDITORS FOR THE YEAR 2004.

Proposal 3 Adoption of 2004 Performance Incentive Plan

Background

The Board of Directors believes that the future success of Xerox will depend, in large measure, on its ability to attract, retain and motivate executives with outstanding training, experience and ability. The Company must compete throughout the world with other corporations and institutions recruiting and retaining superior management and executive talent.

The Board of Directors and its Compensation Committee have determined that the adoption of a new incentive plan is necessary to give the Company the flexibility and advantages needed to adapt its compensation practices to today's changing marketplace. The new incentive plan is designed to:

Consolidate all current employee equity programs under one new shareholder-approved plan;

Provide the Company with the ability to issue annual and long-term performance-based awards in order to attract, retain and motivate key employees;

Assure that the Company will be entitled to claim a tax deduction on awards;

Promote strong alignment between shareholder interests and management objectives;

Continue to foster stock ownership;

Apart from the 2004 Performance Incentive Plan provisions, the Compensation Committee has also implemented stock ownership guidelines and mandatory holding requirements for equity acquired under the Executive Long-Term Incentive Program as described in the Report of the Compensation Committee of the Board of Directors (page 17).

Adhere to strict principles of corporate governance.

Edgar Filing: XEROX CORP - Form DEF 14A

Accordingly, the Board of Directors has approved the 2004 Performance Incentive Plan (the 2004 Plan or the Plan) and recommends its adoption by shareholders. The 2004 Plan provides for both long-term and short-term (annual) incentives. The 2004 Plan replaces (i) the Xerox Corporation 1991 Long-Term Incentive Plan, (ii) the Xerox Corporation 1998 Employee Stock Option Plan; (iii) the Xerox Executive Performance Incentive Plan, (iv) the Xerox Mexicana, S.A. de C.V. Executive Rights Plan; and (v) the Xerox Canada Inc. Executive Rights Plan, any or all of which may be referred to as a Predecessor Plan. Upon adoption of the 2004 Plan by shareholders, the Plan will become effective on May 20, 2004 (the Effective Date) and no further grants will be made under any Predecessor Plan. A summary description of the 2004 Plan follows.

After reviewing the Company's corporate governance policies and practices, the Board also believes it is appropriate to adopt a plan that reflects a number of key governance provisions and plan features that align with shareholder interests. As such, the plan includes a number of best practice provisions, including:

The replacement of the annual evergreen allocation provision with a fixed allocation of shares over the term of the Plan;

The elimination of the Company's ability to grant shares in the future under any plan which has not been approved by Xerox shareholders;

The continued prohibition of repricing of options without shareholder approval;

A discounted share reduction formula in the pool of available shares upon the issuance of any shares in connection with options or stock appreciation rights (SARs) whereby the issuance of one share reduces the pool of available shares by 0.6 shares;

A minimum vesting period of three years for restricted stock unless the award is performance-based, in which case the vesting period shall be no less than one year;

The exclusion of reload options;

The requirement that plan amendments of a material nature will require shareholder approval.

This description of the plan is qualified in its entirety by reference to the text of the 2004 Plan that is attached to this proxy statement as Exhibit V.

Shares Under the Plan

Under the 2004 Plan, a total number of 10.0 million shares of Common Stock¹, par value \$1.00 per share, of the Company (Common Stock) will become available for issuance over the life of the Plan provided that any shares issued in connection with options and stock appreciation rights (SARs) will be counted against this limit as 0.6 shares for each one (1) share issued. In addition, any shares available for grant under any Predecessor Plan on the Effective Date not subject to outstanding awards shall become available for issuance under the Plan. (As of May 20, 2004, approximately 15.7 million shares² are expected to be available for issuance under Predecessor Plans.) Thus, the total number available for grant under the 2004 Plan is expected to be 25.7 million shares³. Moreover, any shares underlying awards outstanding after the Effective Date of the 2004 Plan under any Predecessor Plan that are cancelled, are forfeited, or lapse shall become available for issuance under the Plan.

For example, assume the Company issues 5 million restricted shares and 10 million options in 2005. In determining remaining shares available for issuance under the Plan, the initial available pool of 25.7 million shares will be reduced by

¹10.0 million reflects the number of shares if all grants were made in whole value shares (e.g., restricted stock or performance shares). If all grants were made in the form of options or SARs, the number available is 16.7 million.

²15.7 million reflects the number of shares if all grants were made in whole value shares (e.g., restricted stock or performance shares). If all grants were made in the form of options or SARs, the number available is 26.1 million.

³25.7 million reflects the number of shares if all grants were made in whole value shares (e.g., restricted stock or performance shares). If all grants were made in the form of options or SARs, the total number available is 42.8 million.

0.6 shares for every grant of one option or SAR granted (10,000,000 x 0.6 = 6,000,000). The remaining shares available for issuance under the plan would be 14.7 million (25,700,000 - 5,000,000 - 6,000,000 = 14,700,000).

In determining the number of shares available, the following will not be counted against shares available for issuance under the Plan: (i) settlement of stock appreciation rights (SAR) in cash or any form other than shares, and (ii) payment in shares of dividends and dividend equivalents in conjunction with outstanding awards. Any shares that are used by the Company, and any awards that are granted by, or become obligations of, the Company, through the assumption by the Company or any affiliate of, or in substitution for, outstanding awards previously granted by an acquired company will also not be counted against the shares available for issuance under the Plan.

In determining shares available for issuance under the Plan, any awards granted under the Plan that are cancelled, are forfeited, or lapse will become eligible again for issuance under the Plan. In addition, shares withheld or tendered to pay taxes under the Plan provisions, and shares tendered to exercise stock options, will be treated as shares again eligible for issuance under the Plan.

In no event, however, except as subject to adjustment in the case of a corporate change, will more than (a) 10.0 million shares of Common Stock be available for issuance pursuant to the exercise of incentive stock options (ISOs) awarded under the Plan; and (b) 15.0 million shares of Common Stock will be made the subject of awards under any combination of awards (other than cash awards) to any single individual over the life of the plan, of which no more than 10.0 million may be shares of restricted stock. SARs whether settled in cash or shares of Common Stock will be counted against the individual reserve limitation.

Any shares issued under the Plan may consist, in whole or in part, of authorized and unissued shares or of treasury shares, and no fractional shares will be issued under the Plan. Cash may be paid in lieu of any fractional shares in settlements of awards under the Plan.

In the event of changes in the outstanding Common Stock of the Company or other changes affecting shares, the 2004 Plan provides for appropriate adjustments in the number of shares available for issuance and covered by outstanding awards and/or in the price per share for outstanding awards.

Administration of the Plan

The 2004 Plan will be administered by the independent Compensation Committee (Committee) of the Board or such other independent committee appointed by the Board of Directors. The Committee is comprised entirely of non-employee members of the Board of Directors, who shall be qualified to administer this Plan as contemplated by (a) Rule 16b-3 under the Securities Exchange Act of 1934 (the 1934 Act) or any successor rule, (b) Section 162(m) of the Internal Revenue Code of 1986, as amended, and the regulations thereunder (Section 162(m)), and (c) any rules and regulations of a stock exchange on which Common Stock of the Company is listed. The Committee has full and exclusive power, within the limitations set forth in the 2004 Plan, to make all decisions and determinations regarding the selection of participants and the granting of awards, establishing the terms and conditions relating to each award, adopting rules, regulations and guidelines for carrying out the Plan's purposes, and interpreting and otherwise construing the Plan. Except for the power to amend and except as may otherwise be required under applicable NYSE Rules, the Committee may delegate to one or more officers of the Company all of its powers under the 2004 Plan other than determinations regarding awards made to employees who are subject to Section 16 of the 1934 Act, or who are, or may become, subject to the Section 162(m) compensation deductibility limit, subject to such conditions and restrictions as the Committee may establish from time to time.

The Committee may amend the 2004 Plan as it deems necessary, provided that no amendment may be made without the approval of shareholders if such amendment would increase the number of shares available for issuance under the Plan or otherwise cause the Plan to not comply with Rule 16b-3 of the 1934 Act, Section 162(m), or the New York Business Corporation Law. No such amendments may adversely affect any outstanding awards under the 2004 Plan without the consent of the holders thereof. Notwithstanding the foregoing, an amendment that constitutes a material revision, as defined by the NYSE Rules must be submitted to the Company's shareholders for approval. In addition, any revision that deletes or limits the scope of the Plan provision prohibiting repricing of options without shareholder approval will be considered a material revision and would require shareholder approval.

The Board may terminate the Plan at any time. Upon termination of the Plan, no future awards may be granted, but previously made awards will remain outstanding in accordance with their applicable terms and conditions, and the terms of the Plan. Absent any prior termination no awards or grants can be made after January 1, 2008.

Eligibility

Any employee of the Company or of any entity which is controlled by the Company or in which the Company has a significant equity interest will be eligible to receive an award under the 2004 Plan. Awards may be granted to employees who are foreign nationals or employed outside the United States on such terms as may be necessary or desirable, in the judgment of the Committee, to assure the viability of such awards consistent with the Plan's purpose.

Types of Awards

Consistent with the 1991 Plan, the 2004 Plan provides flexibility in structuring long-term incentive awards for various groups and levels of executives and other participants. The flexibility will continue to permit the Company to grant one form of award or a combination of awards to one level of executives while using another award type or mix for others. With the exception of cash awards, all awards under the 2004 Plan will be denominated in shares, or consist of actual shares of Common Stock of the Company. Thus, the most significant components of the 2004 Plan will reward participants directly in concert with the returns realized by shareholders and increased shareholder value.

Stock Options Stock options will constitute rights entitling their holders to purchase shares of the Company's Common Stock during a specified period at a purchase price that is not less than 100% of Fair Market Value on the effective date of grant. Fair Market Value for purpose of the 2004 Plan means the average of the high and low traded prices of Common Stock on such date of grant or such average for the first preceding date on which there are trades if no trades occur on such effective grant date. Any stock option granted in the form of an incentive stock option (ISO) will be intended to comply with the requirements of Section 422 of the Internal Revenue Code of 1986, as amended. Shares purchased upon exercise of stock options must be paid for in full at the time of exercise in cash or such other method as the Committee may permit from time to time. Such payment may include tendering shares of common stock (either constructively or by attestation) or surrender of a stock award (in either case valued at the market value at the time of exercise) or surrender of a cash award, or a combination of methods. A repricing of a stock option will be allowed by the Committee only with the approval of the Company's shareholders to the extent required under the NYSE Rules. For this purpose, a repricing will be defined as described in the NYSE Rules. In addition, under no circumstances may stock option awards be made which provide by their terms for the automatic award of additional stock options upon the exercise of such awards, including, without limitation, reload options.

Stock Appreciation Rights Stock appreciation rights (SARs) entitle their recipients to receive payments in cash, shares or a combination as determined by the Committee. Any such payments will represent the appreciation in the market value of a specified number of shares from the date of grant until the date of exercise. Such appreciation will be measured by the excess of the market value at the time of exercise over the Fair Market Value of the Company's common stock on the effective date of the grant of SARs.

Stock Awards Stock awards may constitute actual shares of common stock or may be denominated in stock units. Stock awards may be subject to such restrictions and contingencies regarding vesting and eventual payment as the Committee shall from time to time determine.

Cash Awards Cash Awards may be any of the following:

(i) an annual incentive award in connection with which the Committee will establish specific performance periods (not to exceed twelve months) to provide cash awards for the purpose of motivating participants to achieve goals for the performance period. An annual incentive award shall specify the minimum, target and maximum amounts of awards for a performance period for a participant or any groups of participants, and, to the extent applicable to Covered Employees (as defined in the Plan), comply with the Plan requirements relating to performance-based awards under Section 162(m) of the Internal Revenue Code; or

(ii) a long-term award denominated in cash with the eventual payment amount subject to future service and such other restrictions and conditions as may be established by the Committee, and as set forth in the award agreement, including, but

not limited to continuous service with the Company, achievement of specific business objectives and other measurement of individual, business unit or Company performance.

(iii) Cash Awards under this section to any single Covered Employee, including dividend equivalents in cash or shares of Common Stock payable based upon attainment of specific performance goals, may not exceed in the aggregate \$10,000,000 in the case of the Chief Executive Officer and \$5,000,000 in the case of any other participant, such limits being applicable to each twelve-month performance period established by the Committee under the Plan.

The Committee has discretion with respect to any award granted under this Plan to establish upon its grant conditions under which (i) the award may be later forfeited, cancelled, rescinded, suspended, withheld or otherwise limited or restricted; or (ii) gains realized by the grantee in connection with an award or an award's exercise may be recovered; provided that such conditions and their consequences are: (a) clearly set forth in the grant agreement or other grant document; and (b) fully comply with applicable laws. These conditions may include, without limitation, actions by the participant which constitute a conflict of interest with the Company, are prejudicial to the Company's interests, or are in violation of any non-compete agreement or obligation, any confidentiality agreement or obligation, the Company's applicable policies, its Code of Business Conduct and Ethics, or the participant's terms and conditions of employment.

Awards (other than annual incentive cash awards) will be evidenced by agreements approved by the Committee which set forth the terms and conditions of each award. Awards may be granted singly, in tandem with or in replacement or as alternatives for other awards, including awards made under other plans.

The Committee may provide that awards (other than cash awards) under the 2004 Plan earn dividend equivalents, to be paid currently or at a later date or dates, subject to such conditions as the Committee may also establish. Award payments may also be deferred as determined by the Committee. Such deferral settlements may include the crediting of (a) dividend equivalents if denominated in stock awards or (b) interest if denominated in cash.

Generally, all awards under the 2004 Plan are nontransferable except by will or in accordance with laws of descent and distribution or pursuant to a domestic relations order. During the life of the participant, awards generally can be exercised only by him or her. However, the Committee may provide that any award of non-qualified stock options may be transferable by the recipient to family members or family trusts established by the recipient. The Committee may permit a participant to designate a beneficiary to exercise or receive any rights that may exist under the 2004 Plan upon the participant's death. Awards granted, and shares issued in conjunction with the settlement of any award under the 2004 Plan may be subject to forfeiture back to the Company and/or restrictions on transferability for such periods as the Committee may determine.

Additional Information Applicable to Certain Performance-Based Awards

Performance-based awards made to certain senior executives will be made by the Committee within the time period required under Section 162(m) for the establishment of performance goals and will specify, among other things, the performance period(s) for such award (which will be not less than one year), the performance criteria and the performance targets. The performance criteria will be any one or more of the following as determined by the Committee and may differ as to type of award and from one performance period to another: earnings per share, cash flow, document processing profit, cost reduction, days sales outstanding, cash conversion cycle, cash management (including, without limitation, inventory and/or capital expenditures), total shareholder return, return on shareholders' equity, economic value added measures, return on assets, pre- or post-currency revenue, pre- or post-currency performance profit, profit before tax, profit after tax, revenues, stock price and return on sales. Payment or vesting of awards to such employees will be contingent upon satisfaction of the performance criteria and targets as certified by the Committee by resolution of the Committee. To the extent provided at the time of an award, the Committee may in its sole discretion reduce any award to any employee receiving such an award to any amount, including zero. Any performance-based awards made may include annual incentive awards and long-term awards.

Change in Control

Upon the occurrence of a change in control of the Company, as defined in the 2004 Plan, with certain exceptions, all awards outstanding under the 2004 Plan become immediately vested and are settled or paid out. The amount of cash to be paid shall be determined by multiplying the number of such awards, as the case may be, by: (i) in the case of stock awards,

the CIC Price (as defined in the plan), (ii) in the case of SARs, the difference between the exercise price of the related option per share and the CIC Price; (iii) in the case of cash awards where the award period, if any, has not been completed upon the occurrence of a change in control, the pro rata value of such awards or such higher amount as determined by the Committee, without regard to the performance criteria, if any, applicable to such award; and (iv) in the case of cash awards where the award period, if any, has been completed on or prior to the occurrence of a change in control: (aa) where the cash award is payable in cash, the value of such award as determined in accordance with the award agreement, and (bb) where the cash award is payable in shares of Common Stock, the CIC Price.

CIC Price shall mean the higher of (a) the highest price paid for a share of the Company's Common Stock in the transaction or series of transactions pursuant to which a change in control of the Company shall have occurred, or (b) the highest price paid for a share of the Company's Common Stock during the 60-day period immediately preceding the date upon which the event constituting a change in control shall have occurred as reported in The Wall Street Journal in the New York Stock Exchange Composite Transactions or similar successor consolidated

transactions reports.

Federal Tax Aspects of the 2004 Plan

The Company believes that under the present law, the following are the federal tax consequences generally arising with respect to awards granted under the 2004 Plan. The grant of an option or SAR will create no tax consequences for an optionee or the Company. The optionee will have no taxable income upon exercising an ISO (except that the alternative minimum tax may apply), and the Company will receive no deduction when an ISO is exercised. Upon exercising an option other than an ISO, the optionee must recognize ordinary income equal to the difference between the exercise price and the fair market value of the stock on the date of exercise; the Company will be entitled to a deduction for the same amount. The treatment of an optionee on a disposition of shares acquired through the exercise of an option depends on how long the shares have been held and on whether such shares were acquired by exercising an ISO or by exercising an option other than an ISO. Generally, there will be no tax consequence to the Company in connection with a disposition of shares acquired under an option except that the Company may be entitled to a deduction in the case of a disposition of shares acquired under an ISO before the applicable ISO holding periods have been satisfied. With respect to other awards granted under the 2004 Plan that are settled either in cash or in stock or other property that is either transferable or not subject to substantial risk of forfeiture, the participant must recognize ordinary income equal to the cash or the fair market value of shares or other property received; the Company will be entitled to a deduction for the same amount, assuming that, where applicable, the requirements of Section 162(m) are met. With respect to awards that are settled in stock or other property that is restricted as to transferability and subject to substantial risk of forfeiture, the participant must recognize ordinary income equal to the fair market value of the shares or other property received at the time the shares or other property become transferable or not subject to substantial risk of forfeiture, whichever occurs earlier; the Company will be entitled to a deduction for the same amount, assuming that, where applicable, the requirements of Section 162(m) are met. Different tax rules may apply with respect to participants who are subject to Section 16 of the Securities Exchange Act of 1934, as amended (1934 Act).

Proposal 4 Adoption of 2004 Equity Compensation Plan For Non-Employee Directors

Background

On December 10, 2003 the Board of Directors (the Board) approved and recommended for submission to the shareholders for their adoption the 2004 Equity Compensation Plan for Non-Employee Directors (the 2004 Non-Employee Director Plan).

The Board believes that the adoption of the 2004 Non-Employee Director Plan is desirable because it will advance the Company's interests and those of its shareholders by attracting and retaining qualified individuals to serve as directors of the Company and to align the long-term interests of such individuals with those of the Company's shareholders through grants of equity which directors must retain until one year after Board service termination.

If the 2004 Non-Employee Director Plan is approved by shareholders, the 1996 Non-Employee Director Stock Option Plan as amended in 1999 will be terminated and the Company will no longer provide option grants to Non-Employee Directors. After approval, the 2004 Non-Employee Director Plan will remain in effect until the earlier of the date when no additional shares are available for issuance under the Plan or the date when the Board terminates the Plan. If the 2004 Non-Employee Director Plan is not approved, the 1996 Non-Employee Director Stock Option Plan will remain in place.

The following summary of the material features of the 2004 Non-Employee Director Plan is qualified in its entirety by the complete text of the Plan, a copy of which is attached to this Proxy Statement as Exhibit VI.

Shares Subject to the 2004 Non-Employee Director Plan

Under the 2004 Non-Employee Director Plan, up to 1,000,000 shares of Common Stock, par value \$1.00, of the Company (Common Stock) will become available for issuance under the 2004 Non-Employee Director Plan. While the Board does not anticipate issuing stock options, if in the future it did, any shares issued in connection with options or stock appreciation rights (SARs) would be counted against this limit as 0.6 shares for each one (1) share issued.

In determining the number of shares available, the following will not be counted against shares available for issuance under the 2004 Non-Employee Director Plan: settlement of SARs in cash or any form other than shares; and payment in shares of dividends and dividend equivalents in conjunction with outstanding awards.

In addition, in determining shares available for issuance under the 2004 Non-Employee Director Plan, any awards granted under the 2004 Non-Employee Director Plan that are cancelled, forfeited or lapse will become eligible again for issuance under the 2004 Non-Employee Director Plan.

The Board may make adjustments as it deems appropriate in the shares available under the 2004 Non-Employee Director Plan and in outstanding grants in the event of any stock dividend, stock split, combination or exchange of shares, merger, consolidation, spin-off or other distribution (other than normal cash dividends) of Company assets to shareholders, or any other change affecting shares, provided that these actions are consistently and equitably applicable to all affected Non-Employee Directors.

Administration of the 2004 Non-Employee Director Plan

The 2004 Non-Employee Director Plan will be administered by the Board upon advice of the Board's Corporate Governance Committee. The Board has full and exclusive power, within the limitations of the 2004 Non-Employee Director Plan, to do all things necessary or desirable in connection with the administration of the 2004 Non-Employee Director Plan. This includes, but is not limited to, prescribing, amending and rescinding rules relating to the 2004 Non-Employee Director Plan, constructing the form of documentation used to evidence any grant awarded under the 2004 Non-Employee Director Plan, establishing and verifying the extent of satisfaction of any conditions to exercisability and/or receipt or vesting of awards, and interpreting and construing the 2004 Non-Employee Director Plan, any rules and regulations under the 2004 Non-Employee Director Plan and the terms and conditions of awards granted under the 2004 Non-Employee Director Plan. Furthermore, the Board has the full power and authority to determine under what circumstances an award is canceled or suspended, such as for activity by Non-Employee Directors which constitutes a conflict of interest with the Company or is in violation of Company policies.

35

All determinations, interpretations, and other decisions under or with respect to the 2004 Non-Employee Director Plan are final, conclusive and binding upon the Company, all participants and any holder or beneficiary of any award under the 2004 Non-Employee Director Plan. The Board may consider such factors as it deems relevant, in its sole and absolute discretion, in making its decisions, determinations and interpretations including, without limitation, the recommendations or advice of any officer or other employee of the Company and any attorneys, consultants and accountants as it may select.

The Board may periodically amend the 2004 Non-Employee Director Plan as it deems appropriate, without further action by the Company's shareholders except to the extent required by applicable law or NYSE listing requirements. Notwithstanding the foregoing, the 2004 Non-Employee Director Plan may not be amended to materially increase the number of shares of Common Stock authorized for issuance under the 2004 Non-Employee Director Plan, unless the amendment is approved by the Company's shareholders or is a result of a reorganization or other adjustment in the stock permitted under the 2004 Non-Employee Director Plan.

Additionally, the Board may terminate the 2004 Non-Employee Director Plan at any time. Amendments or termination of the 2004 Non-Employee Director Plan will not affect the rights and obligations arising under outstanding stock options or stock grants previously awarded and then in effect without the participant's consent.

All questions pertaining to the construction, regulation, validity and effect of the 2004 Non-Employee Director Plan will be determined in accordance with the laws of the state of New York and applicable Federal law.

Eligibility

Any Non-Employee Director, defined as a member of the Board who is not at the time also an employee of the Company or any of its direct or indirect majority-owned subsidiaries, is eligible to receive an award under the 2004 Non-Employee Director Plan.

Types of Awards

The 2004 Non-Employee Director Plan provides increased flexibility in structuring long-term incentive awards for Non-Employee Directors. Part of this flexibility includes the ability to grant awards singly, in combination or in tandem so that the settlement or payment of one award automatically reduces or cancels the other. All awards will be evidenced by agreements provided by the Board which set forth the terms and conditions of each award.

While the Board currently anticipates granting awards only of deferred stock units, the following is a list of awards that may be granted, either individually or collectively, to participants pursuant to the provisions of the 2004 Non-Employee Director Plan.

Deferred Stock Units (DSUs) DSUs are a bookkeeping entry that represents the right to receive one share of Common Stock at a future date, such as retirement from the Board. Outright grants may be made as part of the Non-Employee Directors' annual compensation for services rendered or as a result of a voluntary election by Non-Employee Directors to defer cash compensation otherwise payable to Non-Employee Directors. DSUs can be structured to include the right to receive dividend equivalents which are credited in the form of additional DSUs payable in Common Stock following termination of Board service.

The Board may require or permit participants to elect to defer the issuance of shares or the settlement of awards in cash under rules and procedures established under the 2004 Non-Employee Director Plan. It may also provide that deferred settlements include the payment or crediting of interest on the deferral amounts or the payment or crediting of dividend equivalents on deferred settlements denominated in shares.

Stock Options Stock options constitute a right to purchase a specified number of shares of Common Stock during a specified period, no longer than seven years, at a purchase price not less than 100% of Fair Market Value on the effective date of grant. For purpose of the 2004 Non-Employee Director Plan, Fair Market Value is defined as of any date, as the average of the high and low trading prices of a share of Common Stock as reported in The Wall Street Journal listing of composite transactions for New York Stock Exchange issues or similar successor consolidated transaction reports for the relevant date, unless the Board specifies otherwise. Note that Fair Market Value can not be less than the par value of the Common Stock.

Participants may exercise stock option grants in whole or in installments in accordance with any vesting schedule established by the Board or upon the death of the Non-Employee Director. At the time of exercise, participants may pay the full purchase price of Common Stock in cash or shares, including tendering (either actually or by attestation) Common Stock or surrendering a stock award valued at Fair Market Value on the date of surrender. Lastly, under no circumstances may stock option awards be made which provide by their terms for the automatic award of additional stock options upon the exercise of such awards, including, without limitation, reload options. Notwithstanding any provision of the 2004 Non-Employee Director Plan, a repricing of a Stock Option shall not be allowed by the Board.

Stock Appreciation Rights (SARs) SARs constitute a right to receive a payment, in cash and/or Common Stock, as determined by the Board, equal to the excess of the Fair Market Value of a specified number of shares of Common Stock on the date the SAR is exercised over the Fair Market Value on the effective date of grant of the SAR as set forth in the applicable award agreement. The maximum term for SARs is seven years.

Stock Awards Stock awards are awards made in Common Stock of the Company. All or part of any stock award may be subject to conditions established by the Board and set forth in the award agreement which may include, but is not limited to, continuous service with the Company.

Generally, all awards under the 2004 Non-Employee Director Plan are nontransferable except by will or the laws of descent and distribution or pursuant to a domestic relations order. In limited circumstances, the Board may provide that an option award may be transferable by the participant to family members or family trusts established by the participant. In addition, awards under the 2004 Non-Employee Director Plan are exercisable only by the Non-Employee Director during his or her lifetime except that the Board may permit Non-Employee Directors to designate a beneficiary to exercise the rights of the director and receive any distributions upon his or her death.

Lastly, the 2004 Non-Employee Director Plan is unfunded and does not create a trust or a separate fund or funds. The 2004 Non-Employee Director Plan does not establish any fiduciary relationship between the Company and any participant or other person. To the extent any person holds any rights by virtue of a grant awarded under the 2004 Non-Employee Director Plan, these rights (unless otherwise determined by the Board) are no greater than the right of an unsecured general creditor of the Company.

Change In Control

Upon the occurrence of a change in control of the Company, as defined in the 2004 Non-Employee Director Plan, with certain exceptions, all awards outstanding under the 2004 Non-Employee Director Plan become immediately vested and are settled or paid out. The amount of cash to be paid shall be determined (i) in the case of stock options, by multiplying the number of stock options by the difference between the exercise price and the CIC Price (as defined in the 2004 Non-Employee Director Plan), (ii) in the case of DSUs, by multiplying the number of DSUs by the CIC Price and (iii) in the case of SARs, by multiplying the number of SARs by the difference between the exercise price of the related option per share and the CIC Price.

CIC Price shall mean the higher of (a) the highest price paid for a share of the company's Common Stock in the transaction or series of transactions pursuant to which a change in control of the Company shall have occurred, or (b) the highest price paid for a share of the Company's Common Stock during the 60-day period immediately preceding the date upon which the event constituting a change in control shall have occurred as reported in The Wall Street Journal in the New York Stock Exchange Composite Transactions or similar successor consolidated transactions reports.

Federal Tax Aspects of the 2004 Non-Employee Director Plan

The Company believes that under the present law, the following are the federal tax consequences generally arising with respect to awards granted under the 2004 Non-Employee Director Plan. The grant of an option or SAR will create no tax consequences for an optionee or the Company. Upon exercising an option, the optionee must recognize ordinary income equal to the difference between the exercise price and the fair market value of the stock on the date of exercise; the Company will be entitled to a deduction for the same amount. The treatment of an optionee on a disposition of shares acquired through the exercise of an option depends on how long the shares have been held. If the shares are held for more than one year, long-term capital gain or loss treatment will apply. There will be no tax consequence to the Company in connection with a disposition of shares acquired under an option.

37

With respect to other awards (including dividends and dividend equivalents) granted under the 2004 Non-Employee Director Plan that are settled either in cash or in stock or other property that is either transferable or not subject to substantial risk of forfeiture, the participant must recognize ordinary income equal to the cash or the fair market value of shares or other property received; the Company will be entitled to a deduction for the same amount. With respect to awards (including dividends and dividend equivalents) that are settled in stock or other property that is restricted as to transferability and subject to substantial risk of forfeiture, the participant must recognize ordinary income equal to the fair market value of the shares or other property received at the time the shares or other property become transferable or not subject to substantial risk of forfeiture, whichever occurs earlier; the Company will be entitled to a deduction for the same amount. Different tax rules may apply with respect to participants who are subject to section 16 of the 1934 Act.

Income that is currently recognized will be reported to directors on IRS Form 1099 for such year.

Corporate Governance Committee Director Nomination Process

The Corporate Governance Committee considers candidates for Board membership recommended by its members and other Board members, as well as by management and shareholders (see below). The Committee has paid a fee to a third party search firm to assist in the identification of potential candidates based upon criteria provided by the Committee. There are no specific minimum qualifications that the Committee believes must be met by candidates. The Corporate Governance Guidelines require that a substantial majority of the Board should consist of independent directors. Any management representation should be limited to top Company management. Nominees are to be selected on the basis of, among other things, broad perspective, integrity, independence of judgment, experience, expertise, diversity, ability to make independent analytical inquiries, understanding of the Company's business environment and willingness to devote adequate time and effort to Board responsibilities. Members should represent a predominance of business backgrounds and bring a variety of experiences and perspectives to the Board. The Committee evaluates nominations by shareholders in the same manner as nominations received from any of the other sources described above.

39

Shareholders who wish to recommend individuals for consideration by the Committee may do so by submitting a written recommendation to the Secretary of the Company, P.O. Box 1600, Stamford, Connecticut 06904. Submissions must include sufficient biographical information concerning the recommended individual, including age, employment and board memberships (if any), for the Committee to consider. Recommendations received by December 31, 2004 will be considered for nomination at the 2005 Annual Meeting of Shareholders. Exhibit I

Xerox Corporate Governance Guidelines
(Amended 3/19/2004)

The following Corporate Governance Guidelines have been adopted by the Board of Directors of Xerox Corporation to assist the Board in the exercise of its responsibilities. These Corporate Governance Guidelines reflect the Board's commitment to monitor the effectiveness of policy and decision making both at the Board and management level, with a view to enhancing long-term shareholder value. These Corporate Governance Guidelines shall be reviewed by the Board, through the Corporate Governance Committee, on an annual basis and are subject to modification from time to time by the Board acting by a majority of the independent directors as determined under these Guidelines. Waivers of these Corporate Governance Guidelines may be made by the Board or the Corporate Governance Committee only.

THE BOARD

The Board's Goals

The Xerox Board of Directors represents the owners' interest in the operation of a successful business, including optimizing long-term financial returns. The Board is responsible for determining that the Company is managed in such a way to ensure this result, which will also assure the company's vitality for its customers, employees and the other individuals and organizations that depend on it. This is an active, not a passive, responsibility. The Board has the responsibility to ensure that in good times, as well as difficult ones, management is capably executing its responsibilities.

The Board's responsibility is to regularly monitor the effectiveness of management policies and decisions including the creation and execution of its strategies. The Board is also responsible for monitoring the establishment and enforcement of procedures designed to ensure that the Company's management and employees operate in a legal and ethically responsible manner. When it is appropriate or necessary, it is the Board's responsibility to remove the Chief Executive Officer and to select his or her successor.

To achieve the above goals, the Board will monitor the performance of the Company (in relation to its goals, strategy and competitors) and the performance of the Chief Executive Officer and offer advice and feedback.

Role of Directors

The business of the Company is managed under the direction of the Board. Normally it is management's job to formalize, propose and implement strategic choices, and the Board's role to approve strategic direction and evaluate strategic results. However, as a practical matter, the Board and management will be better able to carry out their respective responsibilities if there is an ongoing dialogue among the Chief Executive Officer, other members of top management and Board members. To facilitate such discussions, the Board conducts an annual review of the Company's long-term strategic plans and principal issues. Periodically during the year, the Board receives strategy updates from members of senior management of the Company.

Directors are expected to spend the time and effort necessary to properly discharge their responsibilities. Accordingly, a Director is expected to regularly attend meetings of the Board and committees on which he or she sits, and to review prior to meetings material distributed in advance for such meetings. A Director who is unable to attend a Board or Committee meeting (which, it is understood will occur on occasion) is expected to notify the Secretary of the Company who will advise the Chairman of the Board and/or the Chairman of the relevant Committee. All Directors are expected to attend the Company's Annual Meeting of Shareholders.

Selection of the Chairman of the Board

The Board does not require the separation of the offices of the Chairman of the Board and the Chief Executive Officer. The Board shall be free to choose its Chairman in any way that it deems best for the Company at any given point in time.

Size of the Board

In recent years the Board has had 8-12 Directors and it is the sense of the Board that this size is about right. This range permits diversity of experience without hindering effective discussion or diminishing individual accountability.

Independence of the Board

The Board is comprised of a substantial majority of Directors who qualify as independent Directors under the listing standards of the New York Stock Exchange (NYSE) and the more stringent standards adopted by the Board. Under these more stringent standards, members of the Company's Board of Directors will be considered independent if the sales to, and buys from, the Company are less than one percent of the revenues of companies they serve as officers, partners or of counsel. If the Company borrows from the other entity the amount must represent less than one percent of our consolidated assets or those of the other entity. Moreover, if a Director of the Company serves as an officer or director of a charitable organization, such director will be considered independent, if the Company donates less than five percent of that organization's charitable receipts.

The Corporate Governance Committee as well as the Board annually review the relationships that each Director has with the Company (either directly or as a partner, shareholder or officer of an organization that has a relationship with the Company) to insure compliance with NYSE listing standards and requirements otherwise imposed by law or regulation. Following this review, only those Directors who the Board affirmatively determines have no material relationship with the Company (either directly or as a partner, shareholder or officer of an organization that has a relationship with the Company) will be considered independent Directors under such standards, law or regulation.

Board Membership Criteria

The ultimate responsibility for the selection of new Directors resides with the Board. The identification, screening and recommendation process has been delegated to the Corporate Governance Committee, which reviews candidates for election as Directors and annually recommends a slate of Directors for approval by the Board and election by the shareholders.

The Board requires that a substantial majority of the Board should consist of independent Directors. Any management representation should be limited to top Xerox management. Nominees for Director are selected on the basis of, among other things, broad perspective, integrity, independence of judgment, experience, expertise, diversity, ability to make independent analytical inquiries, understanding of the Company's business environment and willingness to devote adequate time and effort to Board responsibilities. Members should represent a predominance of business backgrounds and bring a variety of experiences and perspectives to the Board.

Other Company Directorships

The Company does not have a policy limiting the number of other company boards of directors upon which a Director may sit. However, the Corporate Governance Committee shall consider the number of other company boards and other boards (or comparable governing bodies) on which a prospective nominee is a member. It is the sense of the Board that prospective Directors should simultaneously serve on no more than 2-4 other company Boards, depending on their personal circumstances.

Directors are expected to advise the Chairman of the Board and the Chairman of the Corporate Governance Committee in advance of accepting any other company directorship or any assignment to the audit committee or compensation committee of the Board of Directors of any other company.

Directors Who Change Their Present Job Responsibility

Any Director whose affiliation or position of principal employment changes substantially after election to the Board will be expected to submit a resignation as a Director for consideration by the Corporate Governance Committee and the Board. The Corporate Governance Committee will review with the Board the effects of this change upon the interests of the Company and recommend to the Board whether to accept the resignation. Directors who are also Xerox employees are expected to offer their resignation from the Board at the same time they leave active employment with the Company, which shall be subject to acceptance by the Board.

Retirement Age

It is the general policy of the Board that Directors will not stand for re-election after reaching age 70. However, the Board may determine to waive this policy in individual cases.

Term Limits

The Board does not believe it should establish term limits. While term limits could help ensure that there are fresh ideas and viewpoints available to the Board, they hold the disadvantage of losing the contribution of Directors who have been able to develop, over a period of time, increasing insight into the Company and its operations and, therefore, provide an increasing contribution to the Board as a whole.

As an alternative to term limits, the Corporate Governance Committee, in conjunction with the Chairman of the Board, will formally review each Director's continuation on the Board every five years. This will also allow each Director the opportunity to conveniently confirm his or her desire to continue as a member of the Board.

Board Compensation

A Director who is also an officer of the Company shall not receive additional compensation for such service as a Director.

The Company believes that compensation for non-employee Directors should be competitive and should encourage increased ownership of the Company's stock through the payment of a portion of Director compensation in Company stock or similar compensation. The Corporate Governance Committee will periodically review the level and form of the Company's Director compensation, including how such compensation compares to Director compensation of companies of comparable size, industry and complexity. Changes to Director compensation will be proposed to the full Board for consideration.

No member of the Audit Committee may receive, directly or indirectly, any compensation from the Company other than (a) fees paid to directors for service on the Board, (b) additional fees paid to directors for service on a committee of the Board (including the Audit Committee) and/or for serving as the chairperson of such a committee and (c) a pension or other deferred compensation for prior service that is not contingent on future services on the Board.

Board Access to Management, other Employees and Advisors

Board members have complete access to the Company's senior management and other employees. Board members have the authority to obtain advice and assistance from outside legal, accounting or other advisors of their own choosing, at the expense of the Company.

Board Interaction with Investors, Analysts, Press and Customers

The Board believes that management generally should speak for the Company. Any interested parties desiring to communicate with the non-management Directors regarding the Company may directly contact the Chairman of the Corporate Governance Committee, Mr. Vernon E. Jordan, Jr., Senior Managing Director, Lazard Freres & Co., LLC, 30 Rockefeller Center, New York, New York 10020.

Board Orientation and Continuing Education

The Company has an orientation process for new Directors to familiarize them with the Company's business, strategic plans, significant financial, accounting and risk management issues, compliance programs, conflicts policies, code of business conduct and business ethics and corporate governance guidelines. This process includes review of background materials, meetings with senior management and visits to Company facilities. Each Director is expected to participate in continuing educational programs in order to maintain the necessary level of expertise to perform his or her responsibilities as a Director.

Self-Evaluation by the Board

The Corporate Governance Committee will sponsor an annual self-assessment of the Board's performance as well as the performance of each committee of the Board, the results of which will be discussed with the full Board and each committee. The assessment will include a review of any areas in which the Board or management believes the Board can make a better contribution to the Company. The Corporate Governance Committee will also utilize the results of this self-evaluation process in assessing and determining the characteristics and critical skills required of prospective candidates for election to the Board and making recommendations to the Board with respect to assignments of Board members to various committees.

BOARD MEETINGS

Frequency of Meetings

There are 6 regularly scheduled meetings of the Board each year with at least one regularly scheduled meeting of the Board held each quarter.

Selection of Agenda Items for Board Meetings

The Chairman of the Board annually prepares a Board of Directors Master Agenda. This Master Agenda sets forth a general agenda of items to be considered by the Board at each of its regular meetings during the year. Thereafter, the Chairman of the Board may adjust the agenda to include special items not contemplated during the initial preparation of the annual Master Agenda. Board members are invited to suggest inclusion of items on the agenda and are free to raise, at any Board meeting, subjects that are not specifically on the agenda.

Executive Sessions of Outside Directors

Each regularly scheduled Board meeting includes an executive session of all Directors and the CEO and, a separate executive session of just the Directors who are independent as determined under these Guidelines. The Chairmen of the Governance Committee and the Compensation Committee will rotate responsibility to preside over non-management executive sessions and will be responsible for providing appropriate feedback to the CEO.

Attendance of Senior Management Personnel at Board Meetings

The Board expects the regular attendance at each of its meetings of non-Board members who are in the most senior management positions of the Company. In addition, the General Counsel and Corporate Secretary regularly attend Board meetings. Should the Chief Executive Officer want to add additional people as attendees on a regular basis, it is expected that this suggestion would be made to the Board for its concurrence.

Board Materials Distributed in Advance

Information and materials that are important to the Board's understanding of the agenda items and other topics to be considered at a Board meeting are distributed sufficiently in advance of the meeting to permit prior review by the Directors. The Directors are expected to review such material prior to the meeting. In the event of a pressing need for the Board to meet on short notice or on occasions where the subject matter is too sensitive to be put on paper, certain proposals will be discussed at the meeting.

COMMITTEE MATTERS

Number and Names of Board Committees

The Company has 4 standing committees: Audit, Compensation, Corporate Governance and Finance. The purpose and responsibilities for each of these committees is outlined in committee charters adopted by the Board. The Board may, from time to time, form a new committee or disband a current committee depending on circumstances. In addition, the Board may determine to form ad hoc committees from time to time, and determine the composition and areas of competence of such committees.

Independence of Board Committees

Each of the Audit, Compensation, Corporate Governance and Finance Committees are composed entirely of independent Directors satisfying applicable legal, regulatory and stock exchange requirements necessary for an assignment to any such committee.

Assignment and Rotation of Committee Members

The Corporate Governance Committee is responsible, after consultation with the Chairman of the Board, for making recommendations to the Board with respect to the assignment of Board members to various committees. After reviewing the Corporate Governance Committee's recommendations, the Board is responsible for appointing the Chairman and members to the committees on an annual basis.

The Corporate Governance Committee annually reviews the Committee assignments and considers the rotation of the Chairman and members with a view toward balancing the benefits derived from continuity against the benefits derived from the diversity of experience and viewpoints of the various Directors.

Committee Meetings

The Chairman of each committee, in consultation with the committee members, will determine the frequency and length of the committee meetings consistent with any requirements set forth in the committee's charter. The Chairman of each committee, in consultation with the appropriate members of the committee and management, will develop the committee's agenda. The schedule for each committee will be furnished to all Directors.

LEADERSHIP DEVELOPMENT

Selection of the Chief Executive Officer

The Board is responsible for identifying potential candidates for, and selecting, the Company's Chief Executive Officer. In identifying potential candidates for and selecting the Company's Chief Executive Officer, the Board considers, among other things, a candidate's experience, understanding of the Company's business environment, leadership qualities, knowledge, skills, expertise, integrity, and reputation in the business community.

Evaluation of Chief Executive Officer

The Compensation Committee is responsible for overseeing the evaluation process for the Chief Executive Officer.

The process is intended to formally assess the Chief Executive Officer's past performance as well as to help the Board determine future developmental needs for the Chief Executive Officer. Consequently, there are two types of measures: 1) Financial Performance Measures (such as cash, profit and revenue) which track accountability for past performance, and 2) Leadership Effectiveness Measures (such as employee morale, strategic leadership, and enterprise guardianship) which single out the key objectives that will assure the future success of the company.

The following steps are utilized to carry out this review:

The Compensation Committee reviews performance measures and targets and submits these for Board approval on or before the start of the first meeting of the fiscal year.

The Chief Executive Officer provides a self-evaluation to the Board within one-month of the end of the fiscal year.

The non-management Directors will provide their individual assessments of the Chief Executive Officer's performance. These assessments should include the Director's appraisal of the Financial Performance Measures and the Leadership Performance Measures approved by the Board as well as any other aspect of the Chief Executive Officer's performance that the non-management Director deems relevant. In addition, non-management Directors should identify any future developmental needs they deem necessary for the Chief Executive Officer.

The Compensation Committee synthesizes this information and recommends annual incentive compensation of the Chief Executive Officer based on the evaluation. The Board will do this in executive session.

After agreement by the non-management Directors to the evaluation, the chairs of the Compensation Committee and the Corporate Governance Committee will meet with the Chief Executive Officer to discuss the Board's assessment of performance and developmental needs for the Chief Executive Officer. The Chief Executive Officer may then take the opportunity to discuss his or her reaction to the evaluation.

Succession Planning

The Board shall plan for the succession to the position of the Chief Executive Officer. To assist the Board, the Chief Executive Officer shall conduct an annual succession planning session with the Board at which an assessment of senior managers will be conducted including their potential to succeed the Chief Executive Officer and other senior management positions.

Management Development

The Board shall determine that a satisfactory system is in effect for education, development, and orderly succession of senior and mid-level managers throughout the Company.

POLICIES AND GUIDELINES

Copies of the current version of these Corporate Governance Guidelines, the Company's Code of Business Conduct and Ethics for Members of the Board of Directors, the Company's Ethics Policy and Finance Code of Conduct for employees and officers and the charter of each key committee of the Board shall be posted on the Company's website.

Audit Committee Charter
(Amended 2/12/2004)

Purpose

The purpose of the Audit Committee (the Committee) of the Board of Directors (the Board) of Xerox Corporation (the Company) shall be to assist in Board oversight of (1) the integrity of the Company's financial statements, (2) the Company's compliance with legal and regulatory requirements, (3) the independent auditors' qualifications and independence, (4) the performance of the Company's independent auditors (the Auditors) and internal audit function (5) the Company's code of business conduct and ethics; and to prepare the audit committee report that the rules of the Securities and Exchange Commission (the SEC) require to be included in the Company's annual proxy statement.

Duties and Responsibilities of the Committee

The Committee's function is one of oversight. The Company's management is responsible for preparing the Company's financial statements and, along with the internal auditors, for developing and maintaining systems of internal accounting and financial controls, while the Auditors will assist the Committee and the Board in fulfilling their responsibilities for their review of these financial statements and internal controls. The Committee expects the Auditors to call to their attention any accounting, auditing, internal accounting control, regulatory or other related matters that they believe warrant consideration or action. The Committee recognizes that the financial management and the internal and outside auditors have more knowledge and information about the Company than do Committee members. Consequently, in carrying out its oversight responsibilities, the Committee does not provide any expert or special assurance as to the Company's financial statements or internal controls or any professional certification as to the Auditors' work.

The Committee shall undertake the following activities in carrying out its oversight responsibilities:

Internal and External Audit Responsibilities

1. The Committee shall have the sole authority to directly appoint, retain, compensate, evaluate and, where appropriate, replace the Auditors (subject, if appropriate, to ratification by a vote of the shareholders of the Company). The Auditors shall report directly to the Committee. The Committee must be directly responsible for oversight of the independent auditors, including resolution of disagreements between management and the Auditors.
2. Review and pre-approve all the audit services to be performed, including the Auditors' engagement letter for the annual audit of the Company in accordance with U.S. generally accepted auditing standards and the proposed fees in connection with such audit. Any additional services that management chooses to hire the independent auditors to perform must be approved individually by the Committee, prior to the independent auditors engagement. The authority for such pre-approval may be delegated to one or more members of the Committee; the decisions of any member to whom pre-approval authority is delegated shall be presented to the full Committee at the next Committee meeting. Additionally, the Committee can establish pre-approval policies and procedures with respect to the engagement of the Company's independent accountant's for non-audit services. Such policies and procedures would allow management to engage the Company's independent accountant's for non-audit services, provided the pre-approval policies and procedure are detailed as to the particular service and the Committee is informed of each service and such policies and procedures do not include delegation of the Committee's responsibilities under the Securities Exchange Act of 1934 to management. Engagement letters with respect to the services to be performed, whether audit or non-audit, approved in accordance with the foregoing may be signed on behalf of the Committee by its Chairman and on behalf of the Company by the Chief Financial Officer, Controller or Chief Accounting Officer of the Company.
3. Examine and make recommendations, if any, with respect to the audit scope, plans for (including staffing and budgeting), and the results of, the annual audit conducted by the Auditors and the internal auditors.

Edgar Filing: XEROX CORP - Form DEF 14A

Annually, obtain and review a report by the Auditors describing their internal quality-control procedures, any material issues raised by the most recent internal quality-control review or peer review, or by any inquiry or investigation by governmental or professional authorities, within the preceding five years, with respect to any independent audit carried out by the firm. Such report shall also detail steps taken to resolve any issues raised in the above reviews, inquiries or investigations and all relationships between the independent auditor and the Company, including the matters covered by Independence Standards Board Standard Number 1. The Committee shall review and discuss with the Auditors any relationships or services that may impact the objectivity and independence of the Auditors and take appropriate action in response to the Auditors report to satisfy itself of the Auditors independence. This review shall include an evaluation of the lead partner of the Auditors. The Committee shall insure that the lead audit partner is rotated at least every five years to the extent required by the Securities Exchange Act of 1934, as amended by the Sarbanes Oxley Act of 2002 (the Act), and shall consider whether there should be regular rotation of the Auditors. The Committee shall present its findings from this report to the Board.
5. The Committee shall establish clear policies with respect to the hiring of employees or former employees of the Auditors.
6. The Committee shall ensure that none of the individuals serving in the positions of chief executive officer, chief financial officer, corporate controller, chief accounting officer, or any person serving in an equivalent position participated in any capacity in the audit of the Company as an employee of the Auditors during the 1-year period preceding the date of initiation of any audit being performed by the Auditors.
7. Review with the Auditors the matters required to be discussed by Statement on Auditing Standards No. 61 relating to communications with audit committees (SAS 61), all alternative accounting treatments of financial information discussed with management (including the ramifications of using such alternative disclosures and treatments and the Auditors preferences) and all material written communications with management.
