Item 2.02. Results of Operations and Financial Condition.

During the first quarter of fiscal 2011, we changed our segment reporting to reflect changes in our organizational structure and management's view of the company. We moved our surgical reporting unit from the International and Surgical segment (now referred to as the International segment) to the North America Acute Care segment. In addition, manufacturing and research and development costs were further allocated to the segments such that all manufacturing and research and development costs are now included in divisional income. We also assigned additional direct functional costs to the segments as well as an allocation of certain corporate functional expenses that can be attributed to the segments.

We provided updated prior period segment revenue data for the first quarter of fiscal year 2010 in our most recent Quarterly Report on Form 10-Q, and we are issuing this Form 8-K in order to provide investors with similar data for all quarters in fiscal years 2009 and 2010. The attached schedules solely reflect reclassified data, and in no way restate our previously released financial statements for any period.

Item 9.01 Financial Statements and Exhibits.
