#### Summary of Significant Accounting Policies

## Basis of Presentation and Principles of Consolidation

Unless the context otherwise requires, the terms "Hill-Rom," "we," "our" and "us" refer to Hill-Rom Holdings, Inc. and ou wholly-owned subsidiaries. The unaudited Condensed Consolidated Financial Statements appearing in this Quarterly Report on Form 10-Q should be read in conjunction with the audited Consolidated Financial Statements and notes thereto included in our latest Annual Report on Form 10-K for the fiscal year ended September 30, 2012 ("2012 Form 10-K") as filed with the United States ("U.S.") Securities and Exchange Commission. The September 30, 2012 Condensed Consolidated Balance Sheet was derived from audited Consolidated Financial Statements, but does not include all disclosures required by accounting principles generally accepted in the U.S. In the opinion of management, the Condensed Consolidated Financial Statements herein include all adjustments, consisting only of normal recurring adjustments, necessary to state fairly the financial position, results of operations and cash flows for the interim periods presented. Quarterly results are not necessarily indicative of annual results.

The Condensed Consolidated Financial Statements include the accounts of Hill-Rom and its wholly-owned subsidiaries. Intercompany accounts and transactions have been eliminated in consolidation.

# Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires our management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the period. Actual results could differ from those estimates. Examples of such estimates include our accounts receivable reserves (Note 2), accrued warranties (Note 11), investments (Note 6), income taxes (Note 8) and commitments and contingencies (Note 13), among others.

#### **Investment Securities**

At December 31, 2012, investment securities consisted primarily of AAA rated student loan auction rate securities ("ARS"). These securities are generally insured through the U.S. government's Federal Family Education Loan Program, to the extent the borrowers meet certain prescribed criteria in their underlying lending practices. These securities are classified as available-for-sale and changes in their fair value are recorded in Accumulated Other Comprehensive Loss ("AOCL").

We regularly evaluate all investments classified as available-for-sale for possible impairment based on current economic conditions, credit loss experience and other criteria. The evaluation of investments for impairment requires significant judgments to be made including (i) the identification of potentially impaired securities; (ii) the determination of their estimated fair value; (iii) the assessment of whether any decline in estimated fair value is other-than-temporary; and (iv) the likelihood of selling before recovery. If there is a decline in a security's net realizable value that is other-than-temporary and we are not likely to sell before recovery, the decline is separated into the amount of impairment related to credit loss and the amount of impairment related to all other factors. The decline related to the credit loss is recognized in earnings, while the decline related to all other factors is recognized in AOCL.

See Note 6 for further details on our fair value measurements.

During the first quarter of fiscal 2013, we recorded an adjustment to goodwill related to the Aspen Surgical acquisition completed during the fourth quarter of fiscal 2012. See Note 3 for further details.

Taxes Collected from Customers and Remitted to Governmental Units

Taxes assessed by a governmental authority that are directly imposed on a revenue producing transaction between us and our customers, including but not limited to sales taxes, use taxes and value added taxes, are accounted for on a net (excluded from revenues and costs) basis.

#### Income Taxes

We and our eligible domestic subsidiaries file a consolidated U.S. income tax return. Foreign operations file income tax returns in a number of jurisdictions. Deferred income taxes are computed using an asset and liability approach to reflect the net tax effects of temporary differences between the financial reporting carrying amounts of assets and liabilities and the corresponding income tax amounts. We have a variety of deferred tax assets in numerous tax jurisdictions. These deferred tax assets are subject to periodic assessment as to recoverability. If it is determined that it is more likely than not that the benefits will not be realized, valuation allowances are recognized. In evaluating whether it is more likely than not that we would recover these deferred tax assets, future taxable income, the reversal of existing temporary differences and tax planning strategies are considered.

Entering the fiscal year we had \$8.6 million of valuation allowances on deferred tax assets, on a tax-effected basis, primarily related to foreign operating loss carryforwards and other tax attributes. We believe that our estimates for the valuation allowances recorded against deferred tax assets are appropriate based on current facts and circumstances.

We account for uncertain income tax positions using a threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The difference between the tax benefit recognized in the financial statements for an uncertain income tax position and the tax benefit claimed in the tax return is referred to as an unrecognized tax benefit.

Recently Issued Accounting Standards

There have been no significant changes to our assessment of the impact of recently issued accounting standards included in Note 1 of Notes to Consolidated Financial Statements in our 2012 Form 10-K except as noted below:

In June 2011, the FASB issued an amendment to the authoritative guidance on comprehensive income. The amendment eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity or include the components in the Notes to our Consolidated Financial Statements and instead requires the presentation of comprehensive income in either (1) a continuous statement of comprehensive income or (2) two separate but consecutive statements. Effective October 1, 2012, we adopted the two consecutive statements approach for the presentation of components of net income and other comprehensive income (loss) and a total for comprehensive income.

3. Acquisitions

#### Aspen Surgical

2.

On July 23, 2012, we completed a stock purchase agreement with the stockholders and optionholders of Aspen Surgical Products Holding, Inc. ("Aspen Surgical") to acquire the entire equity interest in Aspen Surgical. Aspen Surgical provided a portfolio of well-established surgical consumable and specialty medical products, focused on improving the safety of patients and health care professionals.

The purchase price for Aspen Surgical was \$402.2 million (\$399.8 million net of cash acquired). We funded the transaction with a combination of cash on hand and borrowings under the revolving credit facility. The results of Aspen Surgical are included in the Condensed Consolidated Financial Statements since the date of acquisition.

The following summarizes the fair value of assets acquired and liabilities assumed at the date of the acquisition.
