COMBINED PROXY STATEMENT/PROSPECTUS

CORNERSTONE STRATEGIC VALUE FUND, INC. AND CORNERSTONE PROGRESSIVE RETURN FUND

This combined Proxy Statement/Prospectus is being furnished to stockholders of Cornerstone Strategic Value Fund, Inc. ("CLM") and shareholders of Cornerstone Progressive Return Fund ("CFP") for use at CLM and CFP's Special Meeting of Stockholders/Shareholders. CLM and CFP each may be referred to hereinafter as the "Fund" or collectively, the "Funds". Each of the CFP Special Meeting and CLM Special Meeting will be held on May 22, 2015 at 11:00 a.m. (EST) and at 11:30 a.m. (EST), respectively, and at any and all postponements or adjournments thereof.

Throughout this Combined Proxy Statement/Prospectus the CLM Special Meeting and CFP Special Meeting shall collectively be referred to as the "Meetings." Throughout this Combined Proxy Statement/Prospectus the stockholders of CLM and the shareholders of CFP shall collectively be referred to as the "Shareholders." The approximate mailing date of this Proxy Statement/Prospectus is April 15, 2015.

PURPOSE OF THE MEETINGS

The Meetings are being called for the following purpose:

At the CLM and CFP Special Meetings, Shareholders of CLM and CFP will be asked to approve the CFP Merger Agreement and Plan of Reorganization dated [____], 2015 (the "CFP Plan") whereby CFP will merge with and into CLM, in accordance with the Maryland General Corporation Law and the Delaware Statutory Trust Act. A primary purpose for the merger is to allow Shareholders of CFP to take advantage of the managed distribution policy ("MDP") currently in place for CLM. The MDP of CLM relies on the existence of an exemptive order granted to CLM by the SEC. The Board of CFP believes that the MDP of CLM will result in a more defined managed distribution policy for the Shareholders of CFP rather than the distribution policy currently in place for CFP Shareholders. The merger will also create a larger fund, presumably providing better economies of scale, increased liquidity and resulting in a lower expense ratio for CLM Shareholders.

SPECIFICS OF THE PLAN OF REORGANIZATION

CFP MERGER: As a result of the approval of the CFP Merger:

(i) CFP will no longer exist,

(ii) CLM will be the surviving corporation,

each share of beneficial interest of CFP will convert into an equivalent dollar amount of full and fractional shares
(iii) of common stock of CLM based on the relative net asset value per share of CFP and CLM on the business day preceding the day on which the CFP Merger is consummated,

each CFP Shareholder participating in the CFP dividend reinvestment plan shall receive fractional shares of CLM
(iv) based on the relative net asset value per share of CFP and CLM on the business day preceding the day on which the CFP Merger is consummated, and

CFP Shareholders that do not participate in the CFP dividend reinvestment plan will not receive fractional shares,
(v) rather CLM's transfer agent will aggregate all fractional shares, sell the resulting full shares on the NYSE MKT, LLC (the "NYSE MKT") at the then current price and remit the proceeds to CFP's shareholders in proportion to their fractional shares.

In connection with the merger, CLM will issue that number of shares that have an aggregate net asset value equal to the aggregate net asset value of the outstanding shares of CFP. Each CFP Shareholder, in connection with the merger, will receive shares of CLM having an aggregate net asset value equal to the aggregate net asset value of the Shareholder's CFP shares at the close of business on the day before the Effective Date of the CFP Merger. While the total net asset value of shares received by each CFP Shareholder in the merger may be the same as before the merger, the market value of CLM shares that a CFP Shareholder receives in the merger may be more or less than the market value of CFP shares that such Shareholder owned immediately before the merger, depending on the current market discount or premium levels of CLM and CFP. Shares of closed-end investment companies frequently trade at a market price that is less than or greater than the value of the fund's assets.

No assurances can be given that the proposed merger will be approved by the Shareholders of the respective Funds.

CLM and CFP are each registered with the U.S. Securities and Exchange Commission (the "SEC") as a closed-end management investment company and, shares of CLM and CFP are both listed on the NYSE MKT. CLM and CFP are each classified as a diversified closed-end management investment company. CLM's investment objective is to seek long-term capital appreciation through investment in equity securities of U.S. and non-U.S. companies. CFP's investment objective is to provide total return through investing primarily in the equity securities of U.S. and non-U.S. companies. The current investment objective and policies of CLM will continue unchanged regardless of whether the mergers occur.

The terms and conditions of the proposed merger is more fully described in this Proxy Statement/Prospectus and in the CFP Plan, copies of which are attached hereto as Exhibit A.

This Proxy Statement/Prospectus serves as a prospectus for shares of CLM under the Securities Act of 1933, as amended (the "Securities Act"), in connection with the issuance of CLM shares of common stock pursuant to the merger.

CFP MERGER

Assuming the Shareholders of CFP and CLM approve the CFP Merger and that all other conditions contained in the CFP Merger Agreement are satisfied or waived, CFP will file a certificate of merger in the office of the Secretary of State of Delaware. Additionally, CLM will file articles of merger (the "CFP Articles of Merger"), with the State Department of Assessments and Taxation of Maryland (the "Department"). It is proposed that the CFP Merger will become effective on June 19, 2015, or such other date as may result from the application of the terms of the CFP Merger Agreement (the "CFP Effective Date"). CFP, as soon as practicable after the CFP Effective Date, will terminate its registration under the Investment Company Act of 1940, as amended (the "Investment Company Act").

Under Section 3-202 of the Maryland General Corporation Law (the "MGCL"), Shareholders of CLM are not entitled to any appraisal or similar rights in connection with the merger contemplated by the CFP Plan. Under Section 3815 of the Delaware Statutory Trust Act (the "DSTA"), Shareholders of CFP are not entitled to any appraisal or similar rights in connection with the merger contemplated by the CFP Plan.

This combined Proxy Statement/Prospectus sets forth concisely the information about CLM and CFP that you should be aware of before voting upon a merger proposal. You should retain this Proxy Statement/Prospectus for future reference as it sets forth information about CLM and CFP that you should know before voting on any merger proposal.

A Statement of Additional Information (the "SAI") dated April 10, 2015, which contains additional information about CLM has been filed with the SEC. The SAI for CLM and financial statements of CFP and CLM for the calendar year ended December 31, 2014 are incorporated by reference into this Proxy Statement/Prospectus. You may ask questions about CLM and/or CFP by calling (866) 668-6558. CFP has provided the information included in this Proxy Statement/Prospectus regarding that Fund and CLM has provided the information included in this Proxy Statement/Prospectus regarding that Fund.

CLM's shares of common stock are listed on the NYSE MKT under the symbol "CLM," and CFP's shares of beneficial interest are listed on the NYSE MKT under the symbol "CFP." After the Effective Date, shares of common stock of CLM will continue to be listed on the NYSE MKT under the symbol "CLM." Reports, proxy materials and other information concerning CLM and CFP may be inspected at the offices of the NYSE MKT, 11 Wall Street, New York, NY 10005.

The SEC has not approved or disapproved these securities or determined if this Proxy Statement/Prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The Board of Directors/Trustees of each Fund is soliciting proxies for use at each Fund's respective Special Meeting. The mailing address for each Fund is c/o AST Fund Solutions, LLC, 48 Wall Street, 22nd Floor, New York, NY 10005.

This combined Proxy Statement/Prospectus, the Notices of Meeting to Shareholders and the proxy card(s) (attached hereto as Exhibits B1 and B2) are first being mailed to Shareholders on or about April 15, 2015 or as soon as practicable thereafter. Any Shareholder who gives a proxy has the power to revoke the proxy either: (i) by mail, addressed to the Secretary of the respective Fund, at the Fund's mailing address, or (ii) in person at the Meeting by executing a superseding proxy or by submitting a notice of revocation to the respective Fund. All properly executed proxies received in time for the meetings will be voted as specified in the proxy or, if no specification is made, "FOR" the proposal for that Fund.

Shareholders of both CFP and CLM will be asked to vote on Item I - Proposal 1 -- the approval of the CFP Merger.

QUORUM

The presence, either in person or by proxy, of the holders of one-third of the outstanding shares of common stock/beneficial interest entitled to vote at the meetings of CLM and CFP, will constitute a quorum for the transaction of business for each Fund. For purposes of determining the presence of a quorum for transacting business at a meeting, abstentions and broker "non votes" will be treated as shares that are present. Broker non-votes are proxies received by a fund from brokers or nominees, indicating that the broker or nominee has neither received instructions from the beneficial owner or other persons entitled to vote nor has the discretionary power to vote on a particular matter. Shareholders are urged to forward their voting instructions promptly.

REQUIRED VOTE

Item I - Proposal 1 (the CFP Merger), to be submitted at the CFP and CLM Special Meetings, requires the affirmative vote of a majority of the outstanding shares of common stock/beneficial interest of each Fund

Abstentions and broker non-votes will have the effect of a "no" vote for Item I.

Proxy solicitations will be made primarily by mail, but solicitations may also be made by telephone, telegraph or personal interviews conducted by officers or employees of each Fund, Cornerstone Advisors, Inc., the investment adviser of CLM and CFP ("Cornerstone Advisors" or the "Advisor"), AST Fund Solutions, LLC, the administrator for each Fund ("AFS" or the "Administrator"), and AST Fund Solutions, LLC a proxy solicitation firm ("AFS Proxy Solicitor"). Each Fund will bear its costs of solicitation.

An agreement between each Fund and AFS Proxy Solicitor provides for AFS Proxy Solicitor to provide general solicitation services to each Fund at an estimated cost of \$37,000 plus expenses. Each Fund will, upon request, bear the reasonable expenses of brokers, bank and their nominees who are holders of record of the Fund's voting securities on the record date, incurred in mailing copies of this Proxy Statement/Prospectus to the beneficial owners of the Funds' voting securities.

Only Shareholders of record of each Fund at the close of business on April 10, 2015 (the "Record Date"), are entitled to vote. Each outstanding share of each Fund is entitled to one vote on all matters voted upon at a meeting of the Shareholders of that Fund. As of April 10, 2015, there were 8,228,537 shares of CLM outstanding and 16,593,689 shares of CFP outstanding.

Both CLM and CFP provide periodic reports to all of their Shareholders. These reports highlight relevant information including investment results and a review of portfolio changes for each Fund. You may receive a copy of the most recent annual and semi-annual reports for CLM or CFP, without charge, by calling (866) 668-6558 or writing to the Administrator of each Fund AST Fund Solutions, LLC located at 48 Wall Street, 22nd Floor, New York, NY 10005.

The Board of Directors/Trustees of each Fund knows of no business other than the proposal described above which will be presented for consideration at each Fund's respective Special Meeting. If any other matter is properly presented, it is the intention of the persons named in the enclosed proxy to vote on that matter in their discretion.

2

ITEM I. MERGER PROPOSAL TO BE VOTED ON BY SHAREHOLDERS OF CFP AND CLM

PROPOSAL 1: APPROVAL OF THE CFP MERGER AGREEMENT
AND PLAN OF REORGANIZATION (THE "CFP PLAN")

On February 27, 2015, the Board of Directors/Trustees of both Funds, including a majority of the Directors/Trustees who are not "interested persons," as such term is defined in Section 2(a)(19) of the Investment Company Act (the "Non-interested Directors/Trustees"), unanimously:

- (1) declared that the merger of CFP with and into CLM is in the best interest of each Fund and its Shareholders;
- (2) declared that in their respective opinions the interests of the existing Shareholders of CFP and CLM will not be diluted with respect to value but will be diluted with respect to voting, as a result of the CFP Merger;
- (3) approved the CFP Plan; and
- (4) recommended that the Shareholders of each Fund approve the CFP Plan.

Shareholders should note that the composition of the Board of Directors/Trustees of CLM and CFP are identical, therefore, the Non-interested Directors/Trustees are "non-interested" with respect to CLM and CFP but may not be considered to be at arms-length with respect to the proposed CFP Merger. The Board of Directors/Trustees of each Fund suggests that Shareholders carefully review the information contained in the Proxy Statement/Prospectus before casting a vote.

For more information about the merger, see "Information about the CFP Merger."

The CFP Plan is subject to the approval of the Shareholders of each Fund and certain other conditions that are explained below. It provides for the merger (the "CFP Merger") of CFP with and into CLM in accordance with the DSTA and MGCL.

As a result of the CFP Merger:

- (1) CFP will no longer exist;
- (2) CLM will be the surviving corporation, and then each share of beneficial interest of CFP will convert into an equivalent dollar amount of full and fractional shares
- (a) of common stock of CLM based on the relative net asset value per share of CLM and CFP calculated at the close of business on the Business Day (as such term is defined in the CFP Plan) preceding the Effective Date;
- (b) CFP Shareholders participating in CFP's dividend reinvestment plan will receive fractional shares; and
- (c)

CFP Shareholders that do not participate in CFP's dividend reinvestment plan will not receive fractional shares, rather CLM's transfer agent will aggregate all fractional shares, sell the resulting full shares on the NYSE MKT at the then current market price and remit the proceeds to CFP's Shareholders in proportion to their fractional shares.

A copy of the CFP Plan is attached to this combined Proxy Statement/Prospectus as Exhibit A, and the description of the CFP Plan included in this combined Prospectus/Proxy Statement is qualified in its entirety by reference to Exhibit A.

The following provides a more detailed discussion about the CFP Merger, CLM and CFP and additional information that you may find helpful when considering your vote on the CFP Merger.

SYNOPSIS

This summary highlights important information included in this combined Proxy Statement/Prospectus. This summary is qualified by reference to the more complete information included elsewhere in this Proxy Statement/Prospectus and the CFP Plan. Shareholders of each Fund should read this entire Proxy Statement/Prospectus carefully.

THE PROPOSED CFP MERGER

The Board of Directors/Trustees of CLM and CFP, including the Non-interested Directors/Trustees of each Fund, have unanimously approved the CFP Plan. The CFP Plan provides for the merger of CFP with and into CLM. As a result of the CFP Merger:

- each share of beneficial interest of CFP will convert into an equivalent dollar amount of full and fractional shares
- (1) of CLM common stock based on the relative net asset value per share of CLM and CFP calculated at the close of business on the Business Day (as such term is defined in the CFP Plan) preceding the Effective Date;
 - (2) Shareholders participating in CFP's dividend reinvestment plan will, on the Effective Date, receive fractional shares;
Shareholders that do not participate in CFP's dividend reinvestment plan will not receive fractional shares, rather
 - (3) CLM's transfer agent will aggregate all fractional shares, sell the resulting full shares on the NYSE MKT at the then current market price and remit the proceeds to CFP's Shareholders in proportion to their fractional shares.

If the CFP Merger is not consummated, CLM and CFP each will continue as a separately managed investment company. There will be no changes to CLM, however because CFP does not have the same exemption from Section 19 of the Investment Company Act as CLM, the Board of Trustees of CFP will have to review its current level and frequency of distributions and may have to revise the amount and frequency of such distributions.

FORM OF ORGANIZATION

Both CLM and CFP are closed-end, diversified management investment companies, both of which are registered under the Investment Company Act. CLM was organized as a Maryland corporation in 1987. CFP was organized as a Delaware statutory trust in 2007. Both CLM and CFP's Board of Directors/Trustees is responsible for the management of the business and affairs of the respective Fund.

INVESTMENT OBJECTIVES

CLM's investment objective is to seek long-term capital appreciation through investment in equity securities of U.S. and non-U.S. companies. CFP's investment object is to provide total return through investments in equity securities of U.S. and non-U.S. companies.

CLM's investment objective is fundamental, and can only be changed with the approval of the holders of a majority of the outstanding voting securities of CLM, as set forth in Section 2(a)(42) of the Investment Company Act. CFP's investment objective is non-fundamental, which means that it may be changed by the Board of Trustees without the

vote of a majority of the Fund's outstanding shares if the Board believes that it is in the best interests of the Fund and the Shareholders to do so.

The preceding summary of both CLM and CFP's investment objective and certain policies should be considered in conjunction with the discussion below under "Risk Factors and Special Considerations" and "Comparison of Investment Objectives and Policies."

NET ASSETS OF CLM AND CFP

At December 31, 2014, CLM had net assets of \$168,287,331 and CFP had net assets of \$261,342,276.

FEES AND EXPENSES--CFP AND CLM

Cornerstone Advisors serves as the investment adviser for both CLM and CFP. The investment advisory agreements between the Advisor and CLM and CFP respectively are substantially identical. As compensation for its advisory services, Cornerstone Advisors is contractually entitled to receive from CLM and CFP an annual fee of one percent (1.00%) of each Fund's average weekly net assets payable on a monthly basis.

For the year ended December 31, 2014, Cornerstone Advisors earned \$1,755,166 and \$2,284,138 for performing its advisory services to CLM and CFP, respectively.

AFS serves as CFP's and CLM's administrator. CFP and CLM each pay AFS a monthly fee that is computed weekly at an annual rate of 0.075% of the respective Fund's average daily net assets, subject to a minimum annual fee of \$50,000. In addition to the fee, both CFP and CLM are required to reimburse AFS for its reasonable out-of-pocket expenses, including but not limited to the travel and lodging expenses incurred by officers and employees of AFS in connection with attendance at Board meetings and legal fees. For the year ended December 31, 2014, AFS earned \$131,638 and \$171,311 from CLM and CFP, respectively for services performed for each Fund.

Based on net assets at December 31, 2014, and projected expenses for the year 2015, each of CLM's and CFP's annualized expense ratio for 2015 would be expected to be approximately 1.33% and 1.25%, respectively. Based on similar assumptions, CLM's annualized expense ratio after the CFP Merger, not including the expenses of the CFP Merger, is projected to be approximately 1.24% for the 2015 year. The actual expense ratio for the 2015 year, whether or not the CFP Merger occurs, may be higher or lower than these projections and depend upon performance, general stock market and economic conditions, net asset levels, stock prices and other factors.

See "Expense Table" below for the current expenses of CLM and CFP and pro forma expenses following the proposed merger.

DISTRIBUTION POLICIES

CLM

CLM initiated a fixed, monthly distribution to Shareholders in 2002 which, with interim adjustments and extensive disclosure, continues to be a high-level managed distribution plan ("MDP"). The MDP has been maintained through the historic economic volatility, increased regulatory scrutiny and challenging markets of the intervening years.

During recent years, CLM's investments made in accordance with its objective have failed to provide adequate income to meet the requirements of the managed distribution policy. Nevertheless, the Board of Directors of CLM continues to believe that CLM's objective and strategy are complementary to the CLM's commitment, through the MDP, to provide regular distributions which increase liquidity and provide flexibility to individual Shareholders. The Adviser seeks to achieve net investment returns that exceed the amount of CLM's managed distributions, although there is no guarantee that the Adviser will be successful in this regard.

CLM previously filed a registration statement on Form N-2 on September 19, 2014 but does not intend to proceed with the rights offering prior to the proposed CFP Merger, as the Board does not believe that a rights offering would currently be in the best interests of CLM and its Shareholders. If the Board of CLM determines to proceed with a rights offering it would not do so until after the proposed CFP Merger is consummated.

CLM has previously conducted four rights offerings between the calendar years 2010 thru 2013, each of which have increased CLM's assets and provided CLM additional flexibility in maintaining CLM's MDP. The use of the proceeds from previous rights offerings have been, and the use of proceeds from any future rights offerings may be used to maintain CLM's MDP by providing funding for future distributions, some or all of which may constitute a return of its Shareholders' capital. Shareholders should be aware that substantially all of the distributions that CLM made to its Shareholders for the calendar years 2009 thru 2011 consisted of a return of its Shareholders' capital, and not of income or gains generated from CLM's investment portfolio, and a majority of the distributions that CLM made to its Shareholders for the calendar years 2012 thru 2014 consisted of a return of its Shareholders' capital, and not of income or gains generated from CLM's investment portfolio. Additionally, the cash proceeds of any rights offering become assets of the Fund and may be used to pay Fund expenses including management fees as well as for making portfolio investments.

The MDP provides a regular monthly distribution to Shareholders that is adjusted through an annual resetting of the monthly distribution amount per share based on CLM's net asset value on the last business day in October. The terms of the MDP have been reviewed and are approved at least annually by the CLM's Board of Directors and can be modified at the Board's discretion. To the extent that distributions exceed the current net earnings of CLM, the balance of the amounts paid out will be generated from sales of portfolio securities held by CLM and will be distributed either as short-term or long-term capital gains or a tax-free return-of-capital. Although return of capital distributions may not be taxable, such distributions may reduce a Shareholder's cost basis in his or her shares, and therefore may result in an increase in the amount of any taxable gain on a subsequent disposition of such shares, even if such shares are sold at a loss to the Shareholder's original investment amount. To the extent these distributions are not represented by net investment income and capital gains, they will not represent yield or investment return on CLM's investment portfolio. Substantially all of the distributions that CLM made to its Shareholders for years 2010-2011 consisted of a return of its Shareholders' capital, and not of income or gains generated from CLM's investment portfolio, and a majority of the distributions that CLM made to its Shareholders for years 2012-2014 consisted of a return of its Shareholders' capital, and not of income or gains generated from CLM's investment portfolio. A return-of-capital distribution reduces the tax basis of an investor's shares in CLM. The Board of Directors intends to maintain CLM's MDP even if a return-of-capital distribution would exceed an investor's tax basis and therefore be a taxable distribution. The Board of Directors currently plans to maintain this MDP even if regulatory requirements would make part of a return-of-capital, necessary to maintain the distribution, taxable to Shareholders and to disclose that portion of the distribution that is classified as ordinary income. The Board of Directors cannot determine the tax consequences for individual Shareholders in the Fund. In the past, Shareholders have received distributions from the Fund regardless of the tax characterization of the distribution. A substantial portion of CLM's distributions likely will be a return of capital, which constitutes the return of a portion of a Shareholder's original investment. Under the tax rules, such returns of capital are generally not currently taxable, but lower a Shareholder's tax basis in his or her CLM shares. A lower tax basis may result in tax consequences to the Shareholder in the future in connection with the sale of CLM shares, such as a larger capital gain or a smaller capital loss, even if the Fund shares are sold by the Shareholder for an amount less than the Shareholder's original investment. To the extent such excess exceeds a common Stockholder's basis in CLM's common stock, such excess will be taxed as capital gain. Although it has no current intention to do so, the Board may terminate the MDP at any time and such termination may have an adverse effect on the market price for CLM's shares.

The MDP historically has maintained a stable, high rate of distribution. The Board of Directors remains convinced that CLM's Shareholders are well served by a policy of regular distributions which increase liquidity and provide flexibility to individual Shareholders in managing their investments. Shareholders have the option of reinvesting all or a portion of these distributions in additional shares through CLM's distribution reinvestment plan or receiving them in cash.

CLM makes level distributions on a monthly basis and these distributions are not tied to the Fund's net investment income and capital gains, and may not represent yield or investment return on the Fund's portfolio. Under the MDP, CLM makes monthly distributions to Shareholders at a rate that may include periodic distributions of its net earnings or a return of capital. As noted above, Shareholders have the option of reinvesting all or a portion of these distributions in additional shares of CLM through the Fund's distribution reinvestment plan or receiving them in cash. In any fiscal year where total cash distributions exceed net earnings and unrealized gain or loss for the year, such excess will decrease the Fund's total assets and, as a result, will have the likely effect of increasing the Fund's expense ratio. There is a risk that the total net earnings and unrealized gain or loss for years from the Fund's portfolio would not be great enough to fully offset the amount of cash distributions paid to CLM Shareholders. If this were to be the case, CLM's assets would be partially reduced by an equal amount, and there is no guarantee that CLM would be able to replace the assets. In addition, in order to make such distributions, CLM may need to sell a portion of its investment portfolio at a time when independent investment judgment might not dictate such action. Furthermore, the cash used to make distributions will not be available for investment pursuant to the Fund's investment objective.

Funds maintain varying degrees of cash levels pursuant to market conditions and the judgment of the portfolio manager. In addition, portfolio managers must raise cash periodically to cover operating expenses. For any fund, to the extent that cash is held at any given time for operating expenses or other purposes, it will not be available for investment pursuant to that fund's investment objective. In addition to these general cash requirements, a fund's distribution policy may also require that securities be sold to raise cash for those shareholders who elect to take cash distributions rather than reinvest in shares of the fund, in which case, it will also not be available for investment pursuant to the fund's investment objective. It is possible that a situation will occur where the MDP contributes to a reduction of assets over an extended period of time such that the assets of CLM are reduced to a point where CLM would no longer be economically viable. In such event, CLM would need to take additional actions, which may include, for example, liquidation or merger, to address the situation. If the CFP Merger is approved, the Board believes that it would reduce the risk of this situation occurring in the future. While this is one of the risk factors of any managed distribution policy, including the MDP, it is important to note that the MDP was not designed to be a mechanism for the dissolution of CLM or a short-term liquidation policy, and it is not the intention of the Board to allow CLM to self-liquidate through the unsupervised effects of the MDP. The Board monitors the MDP and CLM's asset levels regularly, and remains ready to modify the terms of the MDP if, in its judgment, the Board believes it is in the best interests of the Fund and its Shareholders. To the extent CLM assets are reduced, the Board will consider additional rights offerings in the future.

A return-of-capital distribution reduces the tax basis of an investor's shares, which may make record-keeping by certain Shareholders more difficult.

CLM discloses the characterization of its distributions in notices to Shareholders and press releases to the public. Notwithstanding these communications, it is possible that the MDP may create potential confusion in the marketplace as to whether CLM's distributions are comprised of income or return of capital and how such characterization may influence the market price of CLM's shares.

In order to maintain the MDP, CLM applied for and received an exemption from the requirements of Section 19(b) of the Investment Company Act and Rule 19b-1 thereunder permitting it to make periodic distributions of long-term capital gains, provided that the MDP calls for periodic (e.g., quarterly/monthly) distributions in an amount equal to a fixed percentage of CLM's average net asset value over a specified period of time or market price per share at or about

the time of distribution or pay-out of a level dollar amount.

The MDP results in the payment of approximately the same amount per share to CLM's Shareholders each month. These distributions are not to be tied to CLM's investment income and capital gains and do not represent yield or investment return on CLM's portfolio. Section 19(a) of the Investment Company Act and Rule 19a-1 thereunder require CLM to provide a written statement accompanying any such payment that adequately discloses its source or sources, other than net investment income. Thus, if the source of some or all of the dividend or other distribution were the original capital contribution of the Shareholder, and the payment amounted to a return of capital, CLM would be required to provide written disclosure to that effect. Nevertheless, persons who periodically receive the payment of a dividend or other distribution may be under the impression that they are receiving net profits when they are not. Shareholders should read any written disclosure provided pursuant to Section 19(a) and Rule 19a-1 carefully, and should not assume that the source of any distribution from CLM is net profit. A return of capital distribution does not reflect positive investment performance. Shareholders should not draw any conclusions about CLM's investment performance from the amount of its managed distributions or from the terms of the MDP. When CLM issues a written disclosure pursuant to Section 19(a) and Rule 19a-1, CLM will refer to such a notice as a "Rule 19a-1 Notice Accompanying Distribution Payment". In addition, CLM will refer to the return of capital distributions as "Paid-in-capital" which will be presented under the "Source of payment" heading in such notice.

On August 8, 2014, the Board of Directors of CLM announced that the distribution percentage for the calendar year 2015 was to remain at 21%, which was applied to the net asset value of CLM at the end of October 2014 to determine the distribution amounts for calendar year 2015. The distribution percentage is not a function of, nor is it related to, the investment return on CLM's portfolio but the 2015 distributions based on the distribution percentage may consist of a return of Shareholders' capital invested in CLM.

The Board of Directors of CLM reserves the right to change the MDP from time to time.

CFP

The Fund seeks to make a distribution to Shareholders each month (the "Distribution Policy"). It is important to note that the Board of Trustees of CFP has not adopted a MDP for CFP because CFP does not have an exemption from Section 19 of the Investment Company Act similar to the exemption obtained by CLM.

During recent years, the Fund's investments made in accordance with its objective have failed to provide adequate income to meet the requirements of the Distribution Policy. Nevertheless, the Board of Trustees of CFP continues to believe that the Fund's objective and strategy are complementary to the Fund's commitment, through the Distribution Policy, to provide regular distributions which increase liquidity and provide flexibility to individual Shareholders. The Adviser seeks to achieve net investment returns that exceed the amount of the Fund's distributions, although there is no guarantee that the Adviser will be successful in this regard.

CFP seeks to make a distribution to Shareholders each month. These distributions are not tied to the Fund's investment income and capital gains and do not represent yield or investment return on CFP's portfolio. The distribution rate may be modified by the Board of Trustees from time to time. To the extent that distributions exceed the Fund's current net income and net capital gains, the balance of the amounts paid out will be generated from sales of portfolio securities held by CFP and will be distributed either as short-term or long-term capital gains or a tax-free return-of-capital. Although return-of-capital distributions may not be taxable, such distributions may reduce a Shareholder's cost basis in his or her shares, and therefore may result in an increase in the amount of any taxable gain on a subsequent disposition of such shares, even if such shares are sold at a loss to the Shareholder's original investment amount. To the extent these distributions are not represented by net investment income and capital gains, they will not represent yield or investment return on CFP's investment portfolio. Most of the distributions that CFP made to its Shareholders for years 2010 - 2014 consisted of a return of its Shareholders' capital, and not of income or gains generated from CFP's investment portfolio. CFP's final distribution for each calendar year is expected to include any remaining investment company taxable income and net tax-exempt income undistributed during the year, as well as all net capital gain realized during the year. However, if it determines it is appropriate to do so, the Board of Trustees may elect to not distribute realized gains and to pay taxes incurred. In general, the total distributions made in any taxable year (other than distributions of net capital gain or return of capital) would be treated as ordinary dividend income to the extent of CFP's current and accumulated earnings and profits. Distributions in excess of the earnings and profits would first be a tax-free return of capital to the extent of the adjusted tax basis in the shares. Shareholders are advised to consult their own tax advisers with respect to the tax consequences of their investment in CFP. The Distribution Policy may, under certain circumstances, have adverse consequences to the Fund and the Shareholders

because it may result in a return of capital resulting in less of a Shareholder's assets being invested in CFP and, over time, increase the Fund's expense ratio. To the extent necessary to meet the amounts distributed under the Distribution Policy, portfolio securities may be sold to the extent adequate income is not available.

Unless the registered owner of shares elects to receive cash, all distributions declared on shares are automatically reinvested in additional Shares.

If the CFP Merger is not approved, the Board of Trustees will consider what steps should be taken with regard to continuing its Distribution Policy, including modifying it, or eliminating it. The Board of Trustees of CFP may determine in the future to authorize the filing of an exemptive application with the SEC seeking an order under the Investment Company Act to exempt CFP from the requirements of Section 19(b) of the Investment Company Act and Rule 19b-1 thereunder, permitting the Fund to make periodic distributions of long-term capital gains, provided that the distribution policy of the Fund with respect to its shares calls for periodic (for example, quarterly/monthly) distributions in an amount equal to a fixed percentage of the CFP's average net asset value over a specified period of time or market price per share at or about the time of distribution or pay-out of a level dollar amount. It is important to note that the conditions contained in any exemptive relief granted by the staff of the SEC will differ considerably from the conditions contained in CLM's exemptive order. It is important to note that the conditions contained in recent requests for exemptive relief granted by the staff of the SEC differ considerably from the conditions contained in CLM's exemptive order ("Order"). CLM's Order granted by the SEC provided that the Order would terminate upon the effective date of a registration statement under the Securities Act of 1933 for any future public offering by CLM of its common shares other than: (i) a non-transferable rights offering to shareholders of CLM, provided that such offering does not include solicitation by brokers or the payment of any commission or underwriting fee; and (ii) an offering in connection with a merger, consolidation, acquisition, spin-off or reorganization including, the registration statements filed on Form N-14; unless CLM has received from the staff of the Commission written assurance that the order will remain in effect. More recent exemptive orders granted by the SEC have contained the following conditions; (i) quarterly compliance review and reporting to the Board; (ii) ongoing disclosures to fund stockholders including detailed reporting relating to fund distributions; (iii) a requirement to produce written communications to stockholders, prospective stockholders and third parties in regard to fund distributions; (iv) a requirement to deliver Rule 19(a) notices to beneficial owners; (v) additional Board determinations in regard to the continuation of the distribution policy for funds whose common stock trades at a premium to net asset value; and (vi) a requirement that the fund will not make a public offer of the fund's common stock other than through (a) a rights offering below net asset value to holder's of the fund's common stock or (b) an offering in connection with a dividend reinvestment plan, merger, consolidation, acquisition, spin off or reorganization of the Fund. The Board will monitor whether such relief is appropriate given these new and different conditions. In the event the Board determines to authorize the filing of such an exemptive application, there can be no assurance that the staff of the SEC will grant such relief to CFP or, if granted, that the Board will determine to implement a managed distribution plan. No assurance can be given that the SEC will grant the exemption to CFP if requested. Since its inception, CFP has maintained a high level of distributions utilizing its loss carry forwards to offset its realized long-term capital gains. The Board of CFP has determined not to file for exemptive relief at this time. Although no assurance can be given, management and the Board believe it is possible that CFP can continue its distribution policy indefinitely, at the discretion of the Board.

7

The level monthly dividend distribution described above results in the payment of approximately the same amount or percentage to the Shareholders each month. These distributions are not tied to the Fund's investment income and capital gains and do not represent yield or investment return on CFP's portfolio. Section 19(a) of the Investment Company Act and Rule 19a-1 thereunder require CFP to provide a written statement accompanying any such payment that adequately discloses its source or sources, other than net investment income. Thus, if the source of some or all of the dividend or other distribution were the original capital contribution of the Shareholder, and the payment amounted to a return of capital, CFP would be required to provide written disclosure to that effect. Nevertheless, persons who periodically receive the payment of a dividend or other distribution may be under the impression that they are receiving net profits when they are not. Shareholders should read any written disclosure provided pursuant to Section 19(a) and Rule 19a-1 carefully, and should not assume that the source of any distribution from the Fund is net profit.

If CFP were to merge into CLM, CFP Shareholders will become Shareholders of CLM and will take part in the MDP that currently exists in CLM including, CLM's exemption from Section 19(b) of the Investment Company Act currently held by CLM.

FEDERAL INCOME TAX CONSEQUENCES OF THE CFP MERGER

As a condition to the closing of the CFP Merger, each Fund will receive an opinion of Blank Rome LLP, counsel to each Fund, stating that the CFP Merger will constitute a tax-free reorganization within the meaning of Section 368(a)(1) of the Internal Revenue Code of 1986, as amended (the "Code"). Accordingly, CLM, CFP, CLM Shareholders, and CFP Shareholders that participate in the CFP dividend reinvestment plan will not recognize any substantial gain or loss as a result of the CFP Merger. However, CFP Shareholders that do not participate in the CFP dividend reinvestment plan and receive cash in lieu of the fractional shares may recognize some gain, which is believed to be de minimis. The holding period and the aggregate tax basis of CLM shares (including fractional shares) received by a CFP shareholder will be the same as the holding period and aggregate tax basis of the shares of CFP previously held by the Shareholder. The holding period and the aggregate tax basis of the assets received by CLM in the CFP Merger will be the same as the holding period and the tax basis of such assets in the hands of CFP immediately before the CFP Merger. For more information about the tax consequences of the CFP Merger, see "Information about the CFP Merger - Tax Considerations and Consequences of the Merger."

UNREALIZED CAPITAL GAINS/LOSSES

As of December 31, 2014, CLM had approximately \$28,045,935 in net unrealized capital gains representing 16.7% of net assets, and CFP had \$15,211,963 in net unrealized capital losses representing 5.8% of net assets.

EXPENSES OF THE CFP MERGER

In evaluating the proposed CFP Merger, the Board of Directors/Trustees of each Fund have estimated the amount of expenses CLM and CFP would incur to be approximately \$185,000 and \$150,000 respectively, which includes, but is not limited to, SEC registration fees, legal and accounting fees, proxy and distribution costs, and expenses incurred in connection with the CFP Merger. Each Fund will bear its respective costs of the CFP Merger, however, to the extent that any of the expenses incurred relate specifically to actions taken by CLM as a result of the CFP Merger, such as SEC registration fees, such expenses will be allocated on the basis of relative net assets of each Fund.

PRINCIPAL RISK FACTORS

Both CLM and CFP are closed-end management investment companies and are designed primarily for long-term investors and not as trading vehicles.

Stock Market Volatility. Stock markets can be volatile. In other words, the prices of stocks can rise or fall rapidly in response to developments affecting a specific company or industry, or to changing economic, political or market conditions. Each Fund is subject to the general risk that the value of its investments may decline if the stock markets perform poorly. There is also a risk that each Fund's investments will underperform either the securities markets generally or particular segments of the securities markets.

Issuer Specific Changes. Changes in the financial condition of an issuer, changes in the specific economic or political conditions that affect a particular type of security or issuer, and changes in general economic or political conditions can affect the credit quality or value of an issuer's securities. Lower-quality debt securities tend to be more sensitive to these changes than higher-quality debt securities.

Other Investment Company Securities Risk. Each Fund invests a significant portion of its assets in the securities of other closed-end investment companies and in exchange traded funds (“ETFs”). Investing in other investment companies and ETFs involves substantially the same risks as investing directly in the underlying instruments, but the total return on such investments at the investment company level may be reduced by the operating expenses and fees of such other investment companies, including advisory fees. To the extent that each Fund invests a portion of its assets in investment company securities, those assets will be subject to the risks of the purchased investment company’s portfolio securities, and a Shareholder in each Fund will bear not only his/her proportionate share of the expenses of the Fund, but also, indirectly, the expenses of the purchased investment company. There can be no assurance that the investment objective of any investment company or ETF in which each Fund invests will be achieved.

Common Stock Risk. Each Fund will invest a portion of its net assets in common stocks. Common stocks represent an ownership interest in a company. Each Fund may also invest in securities that can be exercised for or converted into common stocks (such as convertible preferred stock). Common stocks and similar equity securities are more volatile and more risky than some other forms of investment. Therefore, the value of your investment in each Fund may sometimes decrease instead of increase. Common stock prices fluctuate for many reasons, including changes in investors’ perceptions of the financial condition of an issuer, the general condition of the relevant stock market or when political or economic events affecting the issuers occur. In addition, common stock prices may be sensitive to rising interest rates, as the costs of capital rise for issuers. Because convertible securities can be converted into equity securities, their values will normally increase or decrease as the values of the underlying equity securities increase or decrease. The common stocks in which each Fund will invest are structurally subordinated to preferred securities, bonds and other debt instruments in a company’s capital structure in terms of priority to corporate income and assets and, therefore, will be subject to greater risk than the preferred securities or debt instruments of such issuers.

Foreign Securities Risk. Investments in securities of non-U.S. issuers involve special risks not presented by investments in securities of U.S. issuers, including the following: less publicly available information about companies due to less rigorous disclosure or accounting standards or regulatory practices; the impact of political, social or diplomatic events, including war; possible seizure, expropriation or nationalization of the company or its assets; possible imposition of currency exchange controls; and changes in foreign currency exchange rates. These risks are more pronounced to the extent that each Fund invests a significant amount of its investments in companies located in one region. These risks may be greater in emerging markets and in less developed countries. For example, prior governmental approval for foreign investments may be required in some emerging market countries, and the extent of foreign investment may be subject to limitation in other emerging countries. With respect to risks associated with changes in foreign currency exchange rates, each Fund does not expect to engage in foreign currency hedging transactions.

Market Discount From Net Asset Value. Shares of closed-end investment companies frequently trade at a discount from their net asset value. This characteristic is a risk separate and distinct from the risk that each Fund’s net asset value could decrease as a result of its investment activities and may be greater for investors expecting to sell their shares in a relatively short period following the CFP Merger, if it occurs. Whether investors will realize gains or losses upon the sale of the common stock will depend not upon each Fund’s net asset value but entirely upon whether the market price of the shares at the time of sale is above or below the investor’s purchase price for the shares. Because the market price of the shares will be determined by factors such as relative supply of and demand for the shares in the market, general market and economic conditions, and other factors beyond the control of each Fund, each Fund cannot predict whether the shares will trade at, below or above net asset value. As of December 31, 2014, each of CLM and

CFP were trading at discounts to their net asset value, 2.53% and 3.61%, respectively.

Defensive Positions. During periods of adverse market or economic conditions, each Fund may temporarily invest all or a substantial portion of its assets in cash or cash equivalents. Each Fund would not be pursuing its investment objective in these circumstances and could miss favorable market developments.

Management Risk. Each Fund is subject to management risk because it is an actively managed portfolio. Each Fund's successful pursuit of its investment objective depends upon the Advisor's ability to find and exploit market inefficiencies with respect to undervalued securities. Such situations occur infrequently and sporadically and may be difficult to predict, and may not result in a favorable pricing opportunity that allows the Advisor to fulfill each Fund's investment objective. The Advisor's security selections and other investment decisions might produce losses or cause each Fund to underperform when compared to other funds with similar investment goals. If one or more key individuals leave the employ of the Advisor, the Advisor may not be able to hire qualified replacements, or may require an extended time to do so. This could prevent each Fund from achieving its investment objective. The Advisor may also benefit from the offering because its fee is based on the assets of each Fund, which could be perceived as a conflict of interest.

Managed Distribution Risk. Under CLM's MDP and CFP's managed distribution policy (collectively the "Distribution Policy"), each Fund makes monthly distributions to Shareholders at a rate that may include periodic distributions of its net income and net capital gains ("Net Earnings"), or from return-of-capital. For any fiscal year where total cash distributions exceeded Net Earnings (the "Excess"), the Excess would decrease each Fund's total assets and, as a result, would have the likely effect of increasing each Fund's expense ratio. There is a risk that the total Net Earnings from each Fund's portfolio would not be great enough to offset the amount of cash distributions paid to Shareholders. If this were to be the case, each Fund's assets would be depleted, and there is no guarantee that each Fund would be able to replace the assets. In addition, in order to make such distributions, each Fund may have to sell a portion of its investment portfolio, including securities purchased with the proceeds of the offering, at a time when independent investment judgment might not dictate such action. Furthermore, such assets used to make distributions will not be available for investment pursuant to each Fund's investment objective. Since CLM adopted the Distribution Policy in 2002, the Fund's distributions have exceeded its Net Earnings for each year except one (2005). Since CFP adopted the Distribution Policy, the Fund's distributions have exceeded its Net Earnings for each year. For the taxable Shareholders, the portion of distribution that constitutes ordinary income and/or capital gains is taxable to such Shareholders in the year the distribution is declared. A return of capital is non-taxable to the extent of the Shareholder's basis in the shares. The Shareholders would reduce their basis in the shares by the amount of the distribution and therefore may result in an increase in the amount of any taxable gain on a subsequent disposition of such shares, even if such shares are sold at a loss to the Shareholder's original investment amount. Any return of capital will be separately identified when Shareholders receive their tax statements. Any return of capital that exceeds cost basis may be treated as capital gain. Shareholders are advised to consult with their own tax advisers with respect to the tax consequences of their investment in CLM and CFP. Furthermore, each Fund may need to raise additional capital in order to maintain the Distribution Policy.

Preferred Securities Risk. Investment in preferred securities carries risks including credit risk, deferral risk, redemption risk, limited voting rights, risk of subordination and lack of liquidity. Fully taxable or hybrid preferred securities typically contain provisions that allow an issuer, at its discretion, to defer distributions for up to 20 consecutive quarters. Traditional preferred also contain provisions that allow an issuer, under certain conditions to skip (in the case of "noncumulative preferreds") or defer (in the case of "cumulative preferreds"), dividend payments. If each Fund owns a preferred security that is deferring its distributions, each Fund may be required to report income for tax purposes while it is not receiving any distributions. Preferred securities typically contain provisions that allow for redemption in the event of tax or security law changes in addition to call features at the option of the issuer. In the event of a redemption, each Fund may not be able to reinvest the proceeds at comparable rates of return. Preferred securities typically do not provide any voting rights, except in cases when dividends are in arrears beyond a certain time period, which varies by issue. Preferred securities are subordinated to bonds and other debt instruments in a company's capital structure in terms of priority to corporate income and liquidation payments, and therefore will be subject to greater credit risk than those debt instruments. Preferred securities may be substantially less liquid than many other securities, such as U.S. government securities, corporate debt or common stocks. Dividends paid on preferred securities will generally not qualify for the reduced federal income tax rates applicable to qualified dividends under the Code.

Convertible Securities Risk. The value of a convertible security, including, for example, a warrant, is a function of its "investment value" (determined by its yield in comparison with the yields of other securities of comparable maturity and quality that do not have a conversion privilege) and its "conversion value" (the security's worth, at market value, if converted into the underlying common stock). The investment value of a convertible security is influenced by changes in interest rates, with investment value declining as interest rates increase and increasing as interest rates decline. The

credit standing of the issuer and other factors may also have an effect on the convertible security's investment value. The conversion value of a convertible security is determined by the market price of the underlying common stock. If the conversion value is low relative to the investment value, the price of the convertible security is governed principally by its investment value. Generally, the conversion value decreases as the convertible security approaches maturity. To the extent the market price of the underlying common stock approaches or exceeds the conversion price, the price of the convertible security will be increasingly influenced by its conversion value. A convertible security generally will sell at a premium over its conversion value by the extent to which investors place value on the right to acquire the underlying common stock while holding a fixed income security.

A convertible security may be subject to redemption at the option of the issuer at a price established in the convertible security's governing instrument. If a convertible security held by a Fund is called for redemption, a Fund will be required to permit the issuer to redeem the security, convert it into the underlying common stock or sell it to a third party. Any of these actions could have an adverse effect on the Fund's ability to achieve its investment objective.

Emerging Markets Securities Risk. CFP may invest up to 20% of its net assets in securities of issuers located in “emerging markets” through its investments in ETFs, other investment companies and depository receipts and may invest up to 5% of its net assets directly in emerging market securities. Because of less developed markets and economies and, in some countries, less mature governments and governmental institutions, the risks of investing in foreign securities can be intensified in the case of investments in issuers domiciled or doing substantial business in emerging market countries. These risks include high concentration of market capitalization and trading volume in a small number of issuers representing a limited number of industries, as well as a high concentration of investors and financial intermediaries; lack of liquidity and greater price volatility due to the smaller size of the market for such securities and lower trading volume; political and social uncertainties; national policies that may restrict CFP’s investment opportunities including restrictions on investing in issuers or industries deemed sensitive to relevant national interests; greater risks of expropriation, confiscatory taxation and nationalization; over-dependence on exports, especially with respect to primary commodities, making these economies vulnerable to changes in commodity prices; overburdened infrastructure and obsolete or unseasoned financial systems; environmental problems; less developed legal systems; and less reliable custodial services and settlement practices. Dividends paid by issuers in emerging market countries will generally not qualify for the reduced federal income tax rates applicable to qualified dividends under the Code. Unlike CFP, CLM is not restricted when investing in securities of issuers located in “emerging markets.” If the CFP Merger is approved by Shareholders of CFP, the Shareholders of CFP who will become Shareholders of CLM, will no longer be subject to the restrictions of investing in securities of issuers located in “emerging markets.”

As a Shareholder, you may pay certain fees and expenses if you hold shares of CLM or CFP, or in CLM-Post CFP Merger. These fees and expenses, including fees and expenses based on a pro forma basis, post the merger are set forth in the table below and the example that follows.

EXPENSE TABLE FOR SHAREHOLDERS

Total Expenses Table for Shareholders of the Funds as of December 31, 2014

The following tables illustrate the anticipated reduction or increases in the total expense ratio for the Shareholders of each Fund expected as a result of the completion of the CFP Merger. The table sets forth (i) the total expense ratio for each Fund for the 12-month period ended December 31, 2014; and (ii) the *pro forma* total expense ratio for the combined fund, assuming the merger had taken place on December 31, 2014.

	CFP	CLM	CLM Pro Forma, Post CFP Merger^(a)
Shareholder Transaction Expenses	None	None	None

Maximum Sales Load (as a percentage of the offering price) imposed on purchases of common shares^(b)

Distribution Reinvestment Plan fees None None None

Annual Total Expenses (as a percentage of average net assets attributable to shares)

Investment Management Fees ^(c)	1.00%	1.00%	1.00%
Other Expenses ^(d)	0.25%	0.33%	0.24%
Acquired Fund Fees and Expenses ^(e)	0.92%	0.53%	0.75%
Total Annual Expenses	2.17%	1.86%	1.99%

^(a) Assumes the merger had taken place on December 31, 2014. These figures also reflect the anticipated reduction in other operating expenses due to elimination of certain duplicative expenses as a result of the merger. The pro forma annual operating expenses are projections for a 12-month period and do not include expenses to be borne by the Funds in connection with the merger.

^(b) No sales load will be charged in connection with the issuance of CLM shares as part of the merger. Shares are not available for purchase from the Funds but may be purchased on the NYSE MKT, through a broker-dealer subject to individually negotiated commission rates. Shares purchased in the secondary market may be subject to brokerage commissions or other charges.

Both CFP and CLM each pay the Investment Adviser a contractual management fee at an annual rate of 1.00% of each Fund's average weekly net assets. If the merger is consummated, the annual contractual investment advisory fee rate of CLM Post CFP Merger will be 1.00% of the average weekly net assets of the combined fund.

"Other Expenses" are based upon gross estimated amounts for the current fiscal year and include among other expenses, administration and accounting fees. Pro forma "other expenses" reflect the elimination of duplicative costs and other efficiencies expected to arise from the merger. Each Fund has no current intention to borrow money for investment purposes and each has adopted a fundamental policy against selling securities short.

Each Fund invests in other closed-end investment companies and exchange traded funds ("ETFs") (collectively, the "Acquired Funds"). Each Fund's Shareholders indirectly bear a pro rata portion of the fees and expenses of the Acquired Funds in which the respective Fund invests. Acquired Fund Fees and Expenses are based on estimated amounts for the fiscal year ended December 31, 2014.

Each Fund will bear expenses incurred in connection with the merger (whether or not the merger is consummated), including but not limited to, costs related to the preparation and distribution of materials distributed to each Fund's Board of Directors/Trustees, expenses incurred in connection with the preparation of the merger agreement and the registration statement on Form N-14, SEC filing fees and legal and accounting fees in connection with the merger, legal fees incurred preparing each Fund's Board of Directors/Trustees materials, attending each Fund's Board of Directors/Trustees meetings, stock exchange fees, transfer agency fees and any similar expenses incurred in connection with the merger. Expenses specific to one or each of CFP or CLM are expensed as incurred while non-fund specific expenses are allocated on a pro rata basis based upon net assets. Merger costs are estimated to be \$150,000 for CFP and \$185,000 for CLM, for a total of \$335,000. Costs related to the merger are currently estimated to be approximately 0.08 % of net assets, which equates to \$0.01 per share for CFP and \$0.02 per share for CLM as of December 31, 2014. The actual costs associated with the proposed merger may be more or less than the estimated costs discussed herein.

Example. The purpose of the following example is to help you understand the costs and expenses you may bear, directly or indirectly, as a Shareholder. This example is based on the level of total annual operating expenses for each Fund listed in the table above, the total expenses relating to a \$1,000 investment, assuming a 5% annual return and reinvestment of all dividends and distributions. Shareholders do not pay these expenses directly, they are paid by the Funds before they distribute net investment income to Shareholders. This example should not be considered a representation of future expenses, and actual expenses may be greater or less than those shown. Federal regulations require the example to assume a 5% annual return, but actual annual returns will vary.

COMPARISON OF INVESTMENT OBJECTIVES AND POLICIES

ORGANIZATION

CLM is a closed-end, diversified management investment company registered under the Investment Company Act. CLM was incorporated in Maryland on May 1, 1987 and commenced operations on June 30, 1987. CFP is a closed-end, diversified management investment company registered under the Investment Company Act. CFP was organized as a Delaware statutory trust on April 26, 2007 and commenced operations on September 10, 2007. Each Fund is managed and advised by Cornerstone Advisors. The shares of common stock/beneficial interest of each Fund are listed and trade on the NYSE MKT under the symbols "CLM" and "CFP", respectively. After the CFP Merger, CLM's shares will continue to trade on the NYSE MKT under the symbol "CLM", while CFP's shares will be delisted and CFP will cease to exist.

The shares of common stock/beneficial interest of each Fund have equal non-cumulative voting rights and equal rights with respect to dividends, assets and dissolution. Each Fund's shares of common stock/beneficial interest are fully paid and non-assessable and have no preemptive, conversion or other subscription rights. Fluctuations in the market price of each Fund's shares is the principal investment risk of an investment in either Fund. Portfolio management, market conditions, investment policies and other factors affect such fluctuations. Although the investment objectives, policies and restrictions of each Fund are similar, there are differences between them, as discussed below. There can be no assurance that either Fund will achieve its stated investment objective.

INVESTMENT OBJECTIVES

CLM

CLM's investment objective is to seek long-term capital appreciation through investment primarily in equity securities of U.S. and non-U.S. companies which CLM management believes have demonstrated fundamental investment value and favorable growth prospects, as determined by the Advisor. In general, CLM invests primarily in common stocks, preferred stocks, rights, warrants and securities convertible into common stocks that are listed on stock exchanges or traded over the counter.

CFP

CFP's investment objective is to provide total return through investing primarily in the equity securities of U.S. and non-U.S. companies. In general, CFP invests primarily all of its assets in equity securities of U.S. issuers, non-U.S. issuers whose securities trade on a U.S. securities exchange or over the counter or as American Depositary Receipts ("ADRs") or other forms of depositary receipts, such as International Depositary Receipts ("IDRs"), which trade in the United States, closed-end investment companies and ETFs. CFP pursues current income, as a component of total return, by investing in dividend-paying equity securities and U.S. dollar-denominated debt securities.

CLM's investment objective is fundamental, and can only be changed with the approval of the holders of a majority of the outstanding voting securities of CLM, as set forth in Section 2(a)(42) of the Investment Company Act. CFP's investment objective is non-fundamental, which means that it may be changed by the Board of Trustees without the vote of a majority of CFP's outstanding shares if the Board believes that it is in the best interests of the Fund and the Shareholders to do so.

COMPARISON OF INVESTMENT POLICIES

CLM

CLM's portfolio, may under normal market conditions, consist of the equity securities of U.S. and non-U.S. companies. CLM may invest without limitation in other closed-end investment companies and ETFs, provided that CLM limits its investment in securities issued by other investment companies so that not more than 3% of the outstanding voting stock of any one investment company will be owned by CLM. As a shareholder in any investment company, the Fund will bear its ratable share of the investment company's expenses and would remain subject to payment of the Fund's advisory and administrative fees with respect to the assets so invested. As of December 31, 2014, 41.6% of CLM's portfolio consisted of other closed-end investment companies.

In general, the Fund invests in other closed-end investment companies, ETFs, common stocks, preferred stocks, rights, warrants and securities convertible into common stocks that are listed on stock exchanges or traded over the counter. CLM may, without limitation, hold cash or invest in assets in money market instruments, including U.S. and non-U.S. government securities, high grade commercial paper and certificates of deposit and bankers' acceptances issued by U.S. and non-U.S. banks having deposits of at least \$500 million. In addition, CLM may engage in hedging transactions to reduce its company market and currency exchange exposure.

In determining which securities to buy for CLM's portfolio, the Advisor uses a balanced approach, including "value" and "growth" investing by seeking out companies at reasonable prices, without regard to sector or industry, which demonstrate favorable long-term growth characteristics. Valuation and growth characteristics may be considered for purposes of selecting potential investment securities. In general, valuation analysis is used to determine the inherent value of the company by analyzing financial information such as a company's price to book, price to sales, return on equity, and return on assets ratios; and growth analysis is used to determine a company's potential for long-term dividends and earnings growth due to market-oriented factors such as growing market share, the launch of new products or services, the strength of its management and market demand. Fluctuations in these characteristics may trigger trading decisions to be made by the Advisor.

Although CLM has the ability to invest a portion of its assets in non-U.S. companies, CLM has consistently maintained the investment of at least 95% of its assets in U.S. listed companies since June 30, 2001.

To comply with provisions of the Investment Company Act, on any matter upon which CLM is solicited to vote as a shareholder in an investment company in which it invests, the Advisor votes such shares in the same general proportion as shares held by other shareholders of that investment company. The Fund does not and will not invest in any other closed-end funds managed by the Advisor.

CLM may invest up to 15% of its assets in illiquid U.S. and non-U.S. securities, provided that CLM may not invest more than 3% of CLM's assets in the securities of companies that, at the time of investment, had less than a year of operations, including operations of predecessor companies. CLM will invest only in such illiquid securities that, in the opinion of the Advisor, present opportunities for substantial growth over a period of two to five years.

CLM's investment policies emphasize long-term investment in securities. Therefore, the CLM's annual portfolio turnover rate is expected to continue to be relatively low, ranging between 10% and 90%. Higher portfolio turnover rates resulting from more actively traded portfolio securities generally result in higher transaction costs, including brokerage commissions and related capital gains or losses.

CLM's foregoing investment policies may be changed by CLM's Board of Directors without Shareholder vote.

Although CLM does not anticipate having any securities lending income during the current calendar year, CLM may lend the securities that it owns to others, which would allow the Fund the opportunity to earn additional income. Although CLM will require the borrower of the securities to post collateral for the loan in accordance with market practice and the terms of the loan will require that CLM be able to reacquire the loaned securities if certain events occur, CLM is still subject to the risk that the borrower of the securities may default, which could result in CLM losing money, which would result in a decline in CLM's net asset value.

CLM may, from time to time, take temporary defensive positions that are inconsistent with CLM's principal investment strategies in attempting to respond to adverse market, economic, political or other conditions. During such times, the Fund may temporarily invest up to 100% of its assets in cash or cash equivalents, including money market instruments, prime commercial paper, repurchase agreements, Treasury bills and other short-term obligations of the U. S. Government, its agencies or instrumentalities. In these and in other cases, CLM may not achieve its investment objective.

The Advisor may invest CLM's cash balances in any investments it deems appropriate. The Advisor expects that such investments will primarily be pursuant to a repurchase agreement, however such investments may also be made in, without limitation and as permitted under the Investment Company Act, money market funds, additional repurchase agreements, U.S. Treasury and U.S. agency securities, municipal bonds and bank accounts. Any income earned from such investments is ordinarily reinvested by the Fund in accordance with its investment program. Many of the considerations entering into the Advisor's recommendations and the portfolio manager's decisions are subjective.

CLM has no current intent to use leverage; however, CLM reserves the right to utilize limited leverage through issuing preferred shares. CLM also may borrow money in amounts not exceeding 10% of its total assets (including the amount borrowed) for temporary or emergency purposes, including the payment of dividends and the settlement of securities transactions, which otherwise might require untimely dispositions of CLM securities. In addition, CLM may incur leverage through the use of investment management techniques (e.g., "uncovered" sales of put and call options, futures contracts and options on futures contracts). In order to hedge against adverse market shifts and for non-hedging, speculative purposes, CLM may utilize up to 5% of its net assets to purchase put and call options on securities or stock indices.

CFP

Under normal market conditions, the Fund's portfolio consists principally of the equity securities of U.S. and non-U.S. companies. Equity securities in which CFP may invest include common and preferred stocks, closed-end investment companies, convertible securities, warrants and other securities having the characteristics of common stocks, such as American Depositary Receipts ("ADRs") and International Depositary Receipts ("IDRs"), and ETFs.

CFP may invest a portion of its assets in U.S. dollar-denominated debt securities when the Advisor believes that it is appropriate to do so to earn current income. For example, when interest rates are high in comparison to anticipated returns on equity investments, the Advisor may determine to invest in U.S. dollar-denominated debt securities. Debt securities in which CFP may invest include U.S. dollar-denominated bank, corporate or government bonds, notes, and debentures of any maturity determined by the Advisor to be suitable for investment by the Fund. CFP may invest in the securities of issuers that it determines to be suitable for investment by CFP regardless of their rating; provided, however, that the Fund may not invest directly in debt securities that are determined by the Advisor to be rated below "BBB" by S&P or "Baa" by Moody's, commonly referred to as "junk bonds".

CFP may invest without limitation in other closed-end investment companies and ETFs, provided that the Fund limits its investment in securities issued by other investment companies so that not more than 3% of the outstanding voting stock of any one investment company will be owned by CFP. As a shareholder in any investment company, the Fund will bear its ratable share of the investment company's expenses and would remain subject to payment of the Fund's advisory and administrative fees with respect to the assets so invested. As of December 31, 2014, 68.3% of CFP's total assets were invested in closed-end funds.

The Advisor utilizes a balanced approach, including "value" and "growth" investing by seeking out companies at reasonable prices, without regard to sector or industry, which demonstrate favorable long-term growth characteristics. Valuation and growth characteristics may be considered for purposes of selecting potential investment securities. In general, valuation analysis is used to determine the inherent value of the company by analyzing financial information such as a company's price to book, price to sales, return on equity, and return on assets ratios; and growth analysis is used to determine a company's potential for long-term dividends and earnings growth due to market-oriented factors such as growing market share, the launch of new products or services, the strength of its management and market demand. Fluctuations in these characteristics may trigger trading decisions to be made by the Advisor with respect to the Fund's portfolio.

To comply with provisions of the Investment Company Act, on any matter upon which CFP is solicited to vote as a shareholder in an investment company in which it invests, the Advisor votes such shares in the same general proportion as shares held by other shareholders of that investment company. The Fund will not invest in any other closed-end funds managed by the Advisor.

Generally, securities will be purchased or sold by CFP on national securities exchanges and in the over-the-counter market. From time to time, securities may be purchased or sold in private transactions, including securities that are not publicly traded or that are otherwise illiquid. The Advisor does not expect investments in illiquid securities to comprise more than 10% of the Fund's net assets (determined at the time the investment is made). CFP will invest only in illiquid securities that, in the opinion of the Advisor, present opportunities for substantial growth over a period of two to five years.

CFP's foregoing investment policies may be changed by the Fund's Board of Trustees without Shareholder vote.

CFP may, from time to time, take temporary defensive positions that are inconsistent with CFP's principal investment strategies in attempting to respond to adverse market, economic, political or other conditions. During such times, the Fund may temporarily invest up to 100% of its assets in cash or cash equivalents, including money market instruments, prime commercial paper, repurchase agreements, Treasury bills and other short-term obligations of the U. S. Government, its agencies or instrumentalities. In these and in other cases, CFP may not achieve its investment objective.

The Advisor may invest the Fund's cash balances in any investments it deems appropriate. The Advisor expects that such investments will primarily be pursuant to a repurchase agreement, however such investments may also be made in, without limitation and as permitted under the Investment Company Act, money market funds, additional repurchase agreements, U.S. Treasury and U.S. agency securities, municipal bonds and bank accounts. Any income earned from such investments is ordinarily reinvested by the Fund in accordance with its investment program. Many of the considerations entering into the Adviser's recommendations and the portfolio manager's decisions are subjective.

CFP has no current intent to use leverage; however, CFP reserves the right to utilize limited leverage through issuing preferred shares. The Fund also may borrow money as a temporary measure for extraordinary or emergency purposes, including the payment of dividends and the settlement of securities transactions, which otherwise might require untimely dispositions of Fund securities. In addition, CFP may incur leverage through the use of investment management techniques (e.g., “uncovered” sales of put and call options, futures contracts and options on futures contracts). In order to hedge against adverse market shifts and for non-hedging, speculative purposes, CFP may utilize up to 5% of its net assets to purchase put and call options on securities or stock indices. The Fund has no current intention to enter into any derivative transactions.

Under the Investment Company Act, neither CLM or CFP may: (1) invest more than 5% of its total assets in the securities of any one investment company, nor (2) acquire more than 3% of the outstanding voting securities of any such company.

The following is a summary of the material rights of Shareholders of CFP and CLM, but does not purport to be a complete description of these rights. These rights may be determined in full by reference to the DSTA and CFP’s Declaration of Trust and By-Laws and to the MGCL and CLM’s Articles of Incorporation and By-Laws (collectively, the “Governing Instruments”). The Governing Instruments are subject to amendment in accordance with their terms.

	Maryland Corporation	Delaware Statutory Trust
Voting Requirement for CFP Merger	CLM’s Articles of Incorporation state that for any action, including a merger of the kind contemplated in this combined proxy/prospectus, to be effective and valid requires an affirmative vote of a majority of the total number of votes entitled to be cast. In contrast, §3-105 of the Maryland Corporate Law requires an affirmative vote of the holders of at least sixty-six and two thirds percent (66 2/3%) of the outstanding shares. Pursuant to §2-104 of the Maryland Corporate Law states that the Articles of Incorporation may have a provision that requires for any purpose a lesser proportion of the votes of all shareholders, but the proportion may not be less than a majority of all the votes entitled to be cast on the matter.	Affirmative vote of the holders of at least fifty percent (50%) of the outstanding shares of beneficial interest
Shareholder Liability	The Maryland Corporate Law states that a shareholder of a corporation is not personally liable for the acts or obligations of the corporation.	The Delaware Statutory Trust Act does not include an express provision relating to the limitation of liability of the beneficial owners of a Delaware statutory trust. CFP’s Declaration of Trust states that no shareholder of the trust shall be subject in such capacity to any personal liability whatsoever to any person in connection with trust property or the acts, obligations or affairs of the trust.
Preemptive Rights	Shareholders of a Maryland Corporation are not entitled to any preference, preemptive, appraisal or conversion rights.	Shareholders of a Delaware Statutory Trust are not entitled to

any preference, preemptive,
appraisal or conversion rights.

UNITED STATES FEDERAL INCOME TAXES

The following is a brief summary of certain United States federal income tax issues that apply to each Fund. Shareholders should consult their own tax advisers with regard to the federal tax consequences of the purchase, ownership and disposition of each Fund's shares, as well as tax consequences arising under the laws of any state, foreign country, or other taxing jurisdiction.

Each Fund has qualified, and intends to continue to qualify and elect to be treated, as a regulated investment company ("RIC"), for each taxable year under Subchapter M of the Code. A RIC generally is not subject to federal income tax on income and gains distributed in a timely manner to its shareholders.

Each Fund intends to distribute annually to its shareholders substantially all of its investment company taxable income. The Board of Directors/Trustees of each Fund will determine annually whether to distribute any net realized long-term capital gains in excess of net realized short-term capital losses, including any capital loss carryovers. Each Fund currently expects to distribute any excess annually to their shareholders. However, if either Fund retains for investment an amount equal to its net long-term capital gains in excess of its net short-term capital losses and capital loss carryovers, it will be subject to a corporate tax, currently at a rate of 35%, on the amount retained. In that event, that Fund expects to designate such retained amounts as undistributed capital gains in a notice to its shareholders who:

- (1) will be required to include in income for United States federal income tax purposes, as long-term capital gains, their proportionate shares of the undistributed amount;
will be entitled to credit their proportionate shares of the 35% tax paid by that Fund on the undistributed amount
- (2) against their United States federal income tax liabilities, if any, and to claim refunds to the extent their credits exceed their liabilities, if any; and
- (3) will be entitled to increase their tax basis, for United States federal income tax purposes, in their shares by an amount equal to 65% of the amount of undistributed capital gains included in the shareholder's income.

Income received by a Fund from sources within countries other than the United States may be subject to withholding and other taxes imposed by such countries, which will reduce the amount available for distribution to shareholders. If more than 50% of the value of either Fund's total assets at the close of its taxable year consists of securities of foreign corporations, that Fund will be eligible and intends to elect to "pass-through" to shareholders the amount of foreign income and similar taxes it has paid. Pursuant to this election, shareholders of the electing Fund will be required to include in gross income (in addition to the full amount of the taxable dividends actually received) their pro rata share of the foreign taxes paid by that Fund. Each such shareholder will also be entitled either to deduct (as an itemized deduction) its pro rata share of foreign taxes in computing its taxable income or to claim a foreign tax credit against its U.S. federal income tax liability, subject to limitations. No deduction for foreign taxes may be claimed by a shareholder who does not itemize deductions, but such a shareholder may be eligible to claim the foreign tax credit.

The deduction for foreign taxes is not allowable in computing alternative minimum taxable income. Each shareholder will be notified within 60 days after the close of that Fund's taxable year whether the foreign taxes paid by the Fund will "pass through" for that year.

Generally, a credit for foreign taxes is subject to the limitation that it may not exceed the shareholder's U.S. tax attributable to his or her foreign source taxable income. For this purpose, if the pass-through election is made, the source of each Fund's income flows through to its shareholders. Any gains from the sale of securities by either Fund will be treated as derived from U.S. sources and certain currency fluctuation gains, including fluctuation gains from foreign currency-denominated debt securities, receivables and payables, will be treated as ordinary income derived from U.S. sources. The limitation on the foreign tax credit is applied separately to foreign source passive income (as defined for purposes of the foreign tax credit), including the foreign source passive income passed through by each Fund. Because of the limitation, shareholders taxable in the United States may be unable to claim a credit for the full amount of their proportionate share of the foreign taxes paid by each Fund. The foreign tax credit also cannot be used to offset more than 90% of the alternative minimum tax (as computed under the Code for purposes of this limitation) imposed on corporations and individuals.

Shareholders will be notified annually by each Fund as to the United States federal income tax status of the dividends, distributions and deemed distributions made by the Fund to its shareholders. Furthermore, shareholders will also receive, if appropriate, various written notices after the close of each Fund's taxable year regarding the United States federal income tax status of certain dividends, distributions and deemed distributions that were paid, or that are treated as having been paid, by that Fund to its shareholders during the preceding taxable year. For a more detailed discussion of tax matters affecting each Fund and its shareholders, see "Taxation" in the SAI.

INFORMATION ABOUT THE MERGER

GENERAL

Under the CFP Plan, CFP will merge with and into CLM on the Effective Date. As a result of the CFP Merger and on the Effective Date:

- (1) CFP will no longer exist; and
- (2) CLM will be the surviving corporation and CFP will then:
 - (a) deregister as an investment company under the Investment Company Act of 1940;
 - (b) withdraw from registration under the Securities Exchange Act of 1934 (the "Exchange Act");
 - (c) remove its shares of beneficial interest from listing on the NYSE MKT; and
 - (d) cease its separate existence under Delaware law.

Each share of beneficial interest of CFP will convert into an equivalent dollar amount of full and fractional shares of CLM common stock, based on the relative net asset value per share of CLM and CFP calculated at the close of business on the Business Day preceding the Effective Date. CLM full and fractional shares will be issued to all of the CFP Shareholders. CFP Shareholders that participate in CFP's dividend reinvestment plan will receive fractional shares. Any CFP Shareholder that does not participate in CFP's dividend reinvestment plan will not receive fractional shares, rather CLM's transfer agent will aggregate all fractional shares, sell the resulting full shares on the NYSE MKT at the then current market price and remit the proceeds to CFP's Shareholders in proportion to their fractional shares.

The CFP Plan may be terminated and the CFP Merger abandoned, whether before or after approval by the Funds' Shareholders, at any time prior to the Effective Date (i) by the mutual written consent of the Board of

Directors/Trustees of CLM and CFP, or (ii) by either Fund's Board of Directors/Trustees if the conditions to that Fund's obligations under the CFP Plan have not been satisfied or waived.

If the CFP Merger has not been consummated by December 31, 2015, the CFP Plan automatically terminates on that date, unless a later date is mutually agreed upon by the Board of Directors/Trustees of each Fund.

REASONS FOR THE CFP MERGER

The Board of Directors/Trustees of each Fund, including all of the Non-Interested Directors/Trustees, considered the proposed CFP Merger at a meeting of each Board held on February 27, 2015 and unanimously approved the proposed CFP Merger. For the reasons discussed below, the Board of Directors/Trustees of each Fund, including the Non-interested Directors/Trustees of the Funds, after consideration of the potential benefits of the CFP Merger to the Shareholders of each Fund and the expenses expected to be incurred by each Fund in connection therewith, unanimously determined that:

- (1) the interests of the existing Shareholders of CFP and CLM will not be diluted with respect to value but will be diluted with respect to voting, as a result of the proposed CFP Merger;
the managed distribution policy currently in place for CLM, which relies on the existence of an exemptive order granted to CLM by the SEC, is a better defined managed distribution policy for the Shareholders of CFP than the
- (2) distribution policy currently in place for CFP Shareholders due to the fact that under Section 19 of the Investment Company Act, the distribution policy in place for CFP may have to change to avoid violation of Section 19 without obtaining exemptive relief; and

the proposed CFP Merger is in the best interests of each Fund and its Shareholders due to the fact that it will (3) increase the assets of CLM presumably providing better economies of scale, increased liquidity and resulting in a lower expense ratio for CLM Shareholders.

The reasons stated above were fully recorded in each Fund's minute book.

Three principal factors led the Board of Directors/Trustees of each Fund to reach these conclusions: (i) the CFP Merger will create a larger Fund and, consequently, all other factors being equal, should result in an expense ratio that is lower than the current expense ratio of either CLM or CFP; (ii) the managed distribution policy maintained by CLM in reliance on an exemptive order granted under Section 19(b) of the Investment Company Act that permits CLM to make periodic distributions of long-term capital gains in an amount equal to a fixed percentage of CLM's average net asset value or market price over a specified period of time would benefit the Shareholders of CFP and (iii) the larger Fund should provide better market liquidity for Shareholders who want to sell their shares or add to their holdings. The Board of Directors/Trustees of each Fund also considered additional factors they deemed relevant and used their own business judgment in determining the material factors to consider in evaluating the CFP Merger and the weight to be given to each factor. Each Director/Trustee weighed the various factors differently in reaching his conclusion with respect to the CFP Merger. The Board of Directors/Trustees of each Fund believe that, all other things being equal, a lower expense ratio, a more defined managed distribution policy and better market liquidity for the shares would be a beneficial result to the surviving Fund.

IN THE JUDGMENT OF THE BOARD OF DIRECTORS/TRUSTEES OF EACH FUND, THE CFP MERGER SERVES THE BEST INTERESTS OF EACH FUND AND ITS SHAREHOLDERS.

Shareholders should note that the Boards of Directors/Trustees of CLM and CFP are identical, therefore, although the Non-interested Directors/Trustees are "non-interested" with respect to each of the Funds under the Investment Company Act, they are not at arm's-length with respect to the proposed CFP Merger.

The Board of Directors/Trustees of each Fund, in declaring advisable and recommending the proposed CFP Merger, also considered the following:

- 1) the capabilities and resources of Cornerstone Advisors in the area of investment management;
- 2) the experience of Cornerstone Advisors in managing an investment company that has implemented a fixed monthly distribution policy;
- 3) expense ratios and information regarding fees and expenses of CLM and CFP, both currently and on a pro forma basis after the CFP Merger;
- 4) the terms and conditions of the CFP Merger and whether it would result in dilution of the interests of each Fund and its existing Shareholders;
- 5) the compatibility of CLM and CFP's portfolio securities, investment objective, policies and restrictions;
- 6) the tax consequences to each Fund and its Shareholders in connection with the CFP Merger; and
- 7) the anticipated expenses of the CFP Merger.

In reviewing issues relating to the structure of the CFP Merger and the selection of the surviving corporation in the CFP Merger, each Board also considered information provided to them by Cornerstone Advisors concerning:

- 1) the comparative performance records of CLM and CFP;
- 2) public and market perception of CLM and CFP;
- 3) the relative size of CLM and CFP;
- 4) the investment policies, strategies and personnel Cornerstone Advisors intends to utilize in managing the surviving Fund;
- 5) Cornerstone Advisors' recommendation that CLM be the surviving corporation; and
- 6) the relative tax positions of CLM and CFP.

TERMS OF THE CFP MERGER AGREEMENT

The following is a summary of the significant terms of the CFP Plan. This summary is qualified in its entirety by reference to the CFP Plan, attached hereto as Exhibit A.

Each share of beneficial interest of CFP will convert into an equivalent dollar amount of full and fractional shares of CLM common stock based on the relative net asset value per share of CLM and CFP calculated at the close of business on the Business Day (as defined in the CFP Plan) preceding the Effective Date. CLM full and fractional shares will be issued to all of the CFP Shareholders. CFP Shareholders that participate in CFP's dividend reinvestment plan will receive fractional shares. Any CFP Shareholder that does not participate in CFP's dividend reinvestment plan will not receive fractional shares, rather CLM's transfer agent will aggregate all fractional shares, sell the resulting full shares on the NYSE MKT at the then current market price and remit the proceeds to CFP's Shareholders in proportion to their fractional shares.

For purposes of valuing assets in connection with the CFP Merger, the assets of CFP will be valued pursuant to the principles and procedures consistently utilized by CLM, which principles and procedures are also utilized by CFP in valuing its own assets and determining its own liabilities. As a result, it is not expected that CLM's valuation procedures as applied to CFP's portfolio securities will result in any difference from the valuation that would have resulted from the application of CFP's valuation procedures to such securities. The net asset value per share of CLM common stock will be determined in accordance with these principles and procedures, and CLM will certify the computations involved. The net asset value per share of each Fund will not be adjusted to take into account differences in unrealized gains and losses, nor will it be adjusted to take into account the potential value of tax loss carryforwards.

Neither CLM nor CFP issue stock certificates. The shares of beneficial interest of CFP that will be converted into shares of common stock of CLM will be held in book-entry form, with a statement provided to each Shareholder indicating such book-entry shares held behalf of each Shareholder.

The net asset value of the CLM shares received by CFP Shareholders will be equal to the aggregate net asset value of the CFP shares exchanged.

The CFP Plan provides, among other things, that the CFP Merger will not take place without (i) the requisite approval of the Shareholders of CFP and CLM, and (ii) the effectiveness of a Registration Statement on Form N-14.

The CFP Plan may be terminated at any time prior to the Effective Date by mutual agreement of each Fund's Board of Directors/Trustees or by either Fund if the other has violated a condition of the CFP Plan. The CFP Plan will automatically terminate after December 31, 2015 if the CFP Merger has not been consummated, unless such time is extended by mutual agreement of the Board of Directors/Trustees of each Fund.

The CFP Plan may be amended, modified or supplemented by mutual agreement of the Boards of Directors/Trustees of CLM and CFP. However, no amendments which would have the effect of changing the provisions for determining the number of shares issued to CFP Shareholders will be permitted following the meeting unless CFP Shareholders

consent to the amendment.

EXPENSES OF THE CFP MERGER

In evaluating the proposed CFP Merger, the Board of Directors/Trustees of each Fund has estimated the amount of expenses each Fund will incur, including, but not limited to, SEC registration fees, legal and accounting fees, proxy and distribution costs, and expenses incurred in connection with the CFP Merger. The estimated total expenses pertaining to the CFP Merger is approximately \$150,000 for CFP and \$185,000 for CLM, such number is inclusive of the expense that CLM will incur in connection with the CFP Merger. Each Fund will bear its respective costs of the CFP Merger, however, to the extent that any of the expenses incurred relate specifically to actions taken by CLM as a result of the CFP Merger, such as SEC registration fees, such expenses will be allocated on the basis of relative net assets of each Fund.

The expenses of the CFP Merger are expected to result in a reduction in net asset value per CLM share of approximately \$0.02, and a reduction in net asset value per CFP share of approximately \$0.01.

TAX CONSIDERATIONS AND CONSEQUENCES OF THE MERGER

THE FOLLOWING IS A DISCUSSION OF CERTAIN U.S. FEDERAL INCOME TAX CONSEQUENCES OF THE MERGER TO CFP SHAREHOLDERS WHO EXCHANGE THEIR SHARES OF CFP BENEFICIAL INTEREST FOR SHARES OF CLM COMMON STOCK IN THE MERGER. THIS DISCUSSION ADDRESSES ONLY CFP SHAREHOLDERS WHO ARE U.S. HOLDERS (AS DEFINED BELOW) AND HOLD CFP SHARES OF BENEFICIAL INTEREST AS A CAPITAL ASSET. IT DOES NOT ADDRESS ALL OF THE U.S. FEDERAL INCOME TAX CONSEQUENCES THAT MAY BE RELEVANT TO A PARTICULAR CFP SHAREHOLDER IN LIGHT OF THAT SHAREHOLDER'S INDIVIDUAL CIRCUMSTANCES OR TO A CFP SHAREHOLDER WHO IS SUBJECT TO SPECIAL RULES, INCLUDING, WITHOUT LIMITATION:

- a financial institution or insurance company;
- a shareholder who is not a U.S. Holder;
- a pass-through entity or an investor in such an entity;
- a dealer or broker in securities or foreign currencies; and
- a shareholder who holds CFP stock as part of a hedge, appreciated financial position, straddle, constructive sale or conversion transaction.

The following discussion is based on the Code, applicable Treasury Regulations, administrative interpretations and court decisions, each as in effect as of the date of this Proxy Statement/Prospectus and all of which are subject to change, possibly with retroactive effect. This discussion is not binding on the Internal Revenue Service, which is referred to as the IRS, and there can be no assurance that the IRS (or a court, if challenged by the IRS) will agree with the conclusions stated herein. In addition, this discussion does not address any state, local or foreign tax consequences of the merger.

CFP SHAREHOLDERS ARE URGED TO CONSULT THEIR TAX ADVISORS AS TO THE SPECIFIC TAX CONSEQUENCES TO THEM OF THE MERGER IN LIGHT OF THEIR PARTICULAR CIRCUMSTANCES INCLUDING THE APPLICABILITY AND EFFECT OF U.S. FEDERAL, STATE, LOCAL, FOREIGN AND OTHER TAX LAWS.

"U.S. Holder" refers to a beneficial holder of stock that is (i) an individual citizen or resident of the United States, (ii) a corporation, or other entity taxable as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States, any state thereof or the District of Columbia, (iii) an estate the income of which is subject to U.S. federal income taxation regardless of its source or (iv) a trust (x) that is subject to the supervision of a court within the United States and the control of one or more U.S. persons as described in section 7701(a)(30) of the Code or (y) that has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

If a partnership holds CFP shares of beneficial interest, the tax treatment of a partner will generally depend upon the status of the partner and the activities of that partnership. If a U.S. Holder is a partner of a partnership holding that CFP share of beneficial interest, the holder is urged to consult its tax advisor regarding the tax consequences of the merger.

It is a non-waivable condition to the completion of the merger that CFP and CLM receive a written opinion from Blank Rome LLP dated as of the effective date of the merger, to the effect that the merger will qualify as a reorganization within the meaning of Section 368(a) of the Code. The opinion will rely on certain assumptions as well as representations and covenants made by each of CFP and CLM. If any of those assumptions, representations or covenants are inaccurate, Blank Rome may not be able to render the required opinion and the tax consequences of the merger could differ from those discussed here. An opinion of counsel is not binding on the IRS or any court, nor does it preclude the IRS from adopting a contrary position. No ruling has been or will be sought from the IRS on the U.S. federal income tax consequences of the merger.

Assuming that the merger qualifies as a reorganization within the meaning of Section 368(a) of the Code, for U.S. federal income tax purposes:

a CFP shareholder whose CFP shares of beneficial interest are exchanged in the merger for shares of CLM common stock will not recognize gain or loss, except to the extent of chase, if any received in lieu of a fractional share of CLM common stock;

A CFP shareholder's aggregate tax basis in shares of CLM common stock received in the merger (including any fractional share interests deemed to be received and converted to cash) will equal the aggregate tax basis of the CFO share of beneficial interest surrendered in the merger; and

A CFP shareholder's holding period for shares of CLM common stock received in the merger will include the holding period for the shares of beneficial interest of CFP in the merger

CASH IN LIEU OF FRACTIONAL SHARES

To the extent that a CFP shareholder receives cash in lieu of a fractional share of CLM common stock, the shareholder will be deemed to have received that fractional share in the merger and then to have received the cash in exchanged for that fractional share. The shareholder will generally recognize capital gain or loss equal to the difference between the cash received and the portion of the shareholder's tax basis in the shares of beneficial interest of CFP surrendered allocable to that fractional share. This capital gain or loss will generally be long-term capital gain or loss if the CFP shareholder's holding period for its shares of beneficial interest CFP exceeded one year at the effective time of the merger.

While CLM is not aware of any adverse state or local tax consequences of the proposed CFP Merger, it has not requested any ruling or opinion with respect to such consequences and shareholders may wish to consult their own tax advisers with respect to such matters.

The Board of Directors/Trustees of each Fund considered the tax loss carryforward and current capital loss positions of each Fund as part of their overall process of considering the proposed CFP Merger. They also considered professional advice that they received regarding the future use of these various capital loss categories to offset future capital gains. This professional advice included the possibility that in some circumstances utilization of the capital loss carryforwards might be restricted, in part because of the CFP Merger, although based on current knowledge, any such restriction was believed to be de minimis. The Boards also considered whether the ability to continue to utilize the capital loss carryforwards should be made a condition to the effectiveness of the CFP Merger and concluded that it should not. It is believed that the effective utilization of the capital loss carryforward of CFP, without triggering adverse income tax consequences, will have little if any impact whether the CFP Merger is approved or not. The Boards concluded that in their respective judgments, under all of the facts and circumstances known to them after considering the advice of their professional advisers, the CFP Merger is in the best interests of each Fund and its shareholders, because any "truncation" (restriction on the utilization) of the capital loss carryforwards under the Code is currently believed to be de minimis. It is expected that there will be a de minimis amount, if any, of the capital loss carry forward either lost or restricted as a result of the CFP Merger. The capital loss carry forwards will continue to benefit all Shareholders after the CFP Merger which can be viewed as a benefit to CLM Shareholders.

ADDITIONAL INFORMATION ABOUT THE FUNDS

DESCRIPTION OF SECURITIES TO BE ISSUED

The authorized stock of CLM currently consists of one hundred million (100,000,000) shares of common stock, \$0.001 par value per share. Shares of CLM entitle its holders to one vote per share. Holders of CLM's common stock are entitled to share equally in distributions authorized by the Fund's Board of Directors payable to the holders of such common stock and in the net assets of CLM available for distribution to holders of such common stock. Shares have noncumulative voting rights and no conversion, preemptive or other subscription rights, and are not redeemable. The outstanding shares of common stock of CLM are fully paid and non-assessable. In the event of liquidation, each share of common stock is entitled to its proportion of the Fund's assets after payment of debts and expenses. CLM holds shareholder meetings annually.

The following table shows information about the common stock/shares of beneficial interest of each Fund as of December 31, 2014.

	AMOUNT AUTHORIZED	AMOUNT HELD BY FUND	AMOUNT OUTSTANDING
CLM COMMON STOCK	100,000,000	0	8,194,717
CFP SHARES OF BENEFICIAL INTEREST	unlimited	0	16,565,151

As of December 31, 2014, the net asset value of CLM common stock was \$20.54, and the market price per share was \$20.02. As of that same date, the net asset value of CFP shares of beneficial interest was \$15.78, and the market price per share was \$15.21.

PREMIUM/DISCOUNT TO NET ASSET VALUE

Shares of closed-end investment companies frequently trade at a discount from net asset value. This characteristic is a risk separate and distinct from the risk that the Funds' net asset values may decrease, and this risk may be greater for Shareholders expecting to sell their shares in a relatively short period. **THE SHARES OF COMMON STOCK/BENEFICIAL INTEREST OF THE FUNDS SHOULD THUS BE VIEWED AS BEING DESIGNED PRIMARILY FOR LONG-TERM INVESTORS AND SHOULD NOT BE CONSIDERED A VEHICLE FOR TRADING PURPOSES.**

During the six year period (2009-2014) of CLM and CFP, the common stock/shares of beneficial interest of each Fund have generally traded at times at substantial premiums to net asset value, however, as of October 2014, both CLM and CFP have consistently traded at discounts through the end of the calendar year. As of the last business day prior to the announcement of the proposed CFP Merger, common stock of CLM was trading at a premium and shares of beneficial interest of CFP were trading at a slight discount. It is not possible to state whether shares of CLM will trade at a premium or discount to net asset value following the CFP Merger, or the extent of any such premium or discount.

DIVIDENDS AND OTHER DISTRIBUTIONS

CLM initiated a fixed, monthly distribution to Shareholders in 2002, which with interim adjustments and extensive disclosure continues to be a high-level managed distribution plan (“MDP”). The MDP provides a regular monthly distribution to Shareholders that is adjusted through an annual resetting of the monthly distribution amount per share based on CLM’s net asset value on the last business day in October. To the extent that distributions exceed the current net earnings of CLM, the balance of the amounts paid out will be generated from sales of portfolio securities held by CLM and will be distributed either as short-term or long-term capital gains or a tax-free return-of-capital. Although return of capital distributions may not be taxable, such distributions may reduce a Shareholder’s cost basis in his or her shares, and therefore may result in an increase in the amount of any taxable gain on a subsequent disposition of such shares, even if such shares are sold at a loss to the Shareholder’s original investment amount. To the extent these distributions are not represented by net investment income and capital gains, they will not represent yield or investment return on CLM’s investment portfolio.

CLM makes level distributions on a monthly basis and these distributions are not tied to the Fund's net investment income and capital gains, and may not represent yield or investment return on the Fund's portfolio. Under the MDP, CLM makes monthly distributions to Shareholders at a rate that may include periodic distributions of its net earnings or a return of capital. Shareholders have the option of reinvesting all or a portion of these distributions in additional shares of CLM through the Fund's distribution reinvestment plan or receiving them in cash. In any fiscal year where total cash distributions exceed net earnings and unrealized gain or loss for the year, such excess will decrease the Fund's total assets and, as a result, will have the likely effect of increasing the Fund's expense ratio. There is a risk that the total net earnings and unrealized gain or loss for years from the Fund's portfolio would not be great enough to fully offset the amount of cash distributions paid to CLM Shareholders. If this were to be the case, CLM's assets would be partially reduced by an equal amount, and there is no guarantee that CLM would be able to replace the assets. In addition, in order to make such distributions, CLM may need to sell a portion of its investment portfolio at a time when independent investment judgment might not dictate such action. Furthermore, the cash used to make distributions will not be available for investment pursuant to the Fund's investment objective.

In order to maintain the MDP, CLM applied for and received an exemption from the requirements of Section 19(b) of the Investment Company Act and Rule 19b-1 thereunder permitting it to make periodic distributions of long-term capital gains, provided that the MDP calls for periodic (e.g., quarterly/monthly) distributions in an amount equal to a fixed percentage of CLM's average net asset value over a specified period of time or market price per share at or about the time of distribution or pay-out of a level dollar amount.

The MDP results in the payment of approximately the same amount per share to CLM's Shareholders each month. These distributions are not to be tied to CLM's investment income and capital gains and do not represent yield or investment return on CLM's portfolio. Section 19(a) of the Investment Company Act and Rule 19a-1 thereunder require CLM to provide a written statement accompanying any such payment that adequately discloses its source or sources, other than net investment income. Thus, if the source of some or all of the dividend or other distribution were the original capital contribution of the Shareholder, and the payment amounted to a return of capital, CLM would be required to provide written disclosure to that effect. Nevertheless, persons who periodically receive the payment of a dividend or other distribution may be under the impression that they are receiving net profits when they are not. Shareholders should read any written disclosure provided pursuant to Section 19(a) and Rule 19a-1 carefully, and should not assume that the source of any distribution from CLM is net profit. A return of capital distribution does not reflect positive investment performance. Shareholders should not draw any conclusions about CLM's investment performance from the amount of its managed distributions or from the terms of the MDP. When CLM issues a written disclosure pursuant to Section 19(a) and Rule 19a-1, CLM will refer to such a notice as a "Rule 19a-1 Notice Accompanying Distribution Payment". In addition, CLM will refer to the return of capital distributions as "Paid-in-capital" which will be presented under the "Source of payment" heading in such notice.

On August 8, 2014, the Board of Directors of CLM announced that the distribution percentage for the calendar year 2015 is to remain at 21%, which was applied to the net asset value of CLM at the end of October 2014 to determine the distribution amounts for calendar year 2015. The distribution percentage is not a function of, nor is it related to, the investment return on CLM's portfolio but the 2015 distributions based on the distribution percentage are expected to consist principally or entirely of a return of Shareholders' capital invested in CLM.

CFP seeks to make a distribution to Shareholders each month. These distributions are not tied to the Fund's investment income and capital gains and do not represent yield or investment return on CFP's portfolio. The distribution rate may be modified by the Board of Trustees from time to time. To the extent that distributions exceed the Fund's current net income and net capital gains, the balance of the amounts paid out will be generated from sales of portfolio securities held by CFP and will be distributed either as short-term or long-term capital gains or a tax-free return-of-capital. Although return-of-capital distributions may not be taxable, such distributions may reduce a Shareholder's cost basis in his or her shares, and therefore may result in an increase in the amount of any taxable gain on a subsequent disposition of such shares, even if such shares are sold at a loss to the Shareholder's original investment amount. To the extent these distributions are not represented by net investment income and capital gains, they will not represent yield or investment return on CFP's investment portfolio. CFP's final distribution for each calendar year is expected to include any remaining investment company taxable income and net tax-exempt income undistributed during the year, as well as all net capital gain realized during the year. However, if it determines it is appropriate to do so, the Board of Trustees may elect to not distribute realized gains and to pay taxes incurred. In general, the total distributions made in any taxable year (other than distributions of net capital gain or return of capital) would be treated as ordinary dividend income to the extent of CFP's current and accumulated earnings and profits. Distributions in excess of the earnings and profits would first be a tax-free return of capital to the extent of the adjusted tax basis in the shares. Shareholders are advised to consult their own tax advisers with respect to the tax consequences of their investment in CFP. The Distribution Policy may, under certain circumstances, have adverse consequences to the Fund and the Shareholders because it may result in a return of capital resulting in less of a Shareholder's assets being invested in CFP and, over time, increase the Fund's expense ratio. To the extent necessary to meet the amounts distributed under the Distribution Policy, portfolio securities may be sold to the extent adequate income is not available.

Unless the registered owner of shares elects to receive cash, all distributions declared on shares are automatically reinvested in additional Shares.

If the CFP Merger is not approved, the Board of Trustees of CFP may determine in the future to authorize the filing of an exemptive application with the SEC seeking an order under the Investment Company Act to exempt CFP from the requirements of Section 19(b) of the Investment Company Act and Rule 19b-1 thereunder, permitting the Fund to make periodic distributions of long-term capital gains, provided that the distribution policy of the Fund with respect to its shares calls for periodic (for example, quarterly/monthly) distributions in an amount equal to a fixed percentage of the CFP's average net asset value over a specified period of time or market price per share at or about the time of distribution or pay-out of a level dollar amount. It is important to note that the conditions contained in any exemptive relief granted by the staff of the SEC will differ considerably from the conditions contained in CLM's exemptive order. The Board will monitor whether such relief is appropriate given these new and different conditions. In the event the Board determines to authorize the filing of such an exemptive application, there can be no assurance that the staff of the SEC will grant such relief to CFP or, if granted, that the Board will determine to implement a managed distribution plan. No assurance can be given that the SEC will grant the exemption to CFP if requested.

The level monthly dividend distribution described above results in the payment of approximately the same amount or percentage to the Shareholders each month. These distributions are not tied to the Fund's investment income and capital gains and do not represent yield or investment return on CFP's portfolio. Section 19(a) of the Investment Company Act and Rule 19a-1 thereunder require CFP to provide a written statement accompanying any such payment that adequately discloses its source or sources, other than net investment income. Thus, if the source of some or all of the dividend or other distribution were the original capital contribution of the Shareholder, and the payment amounted to a return of capital, CFP would be required to provide written disclosure to that effect. Nevertheless, persons who periodically receive the payment of a dividend or other distribution may be under the impression that they are receiving net profits when they are not. Shareholders should read any written disclosure provided pursuant to Section 19(a) and Rule 19a-1 carefully, and should not assume that the source of any distribution from the Fund is net profit.

It is the current intention of the Board of Directors of CLM to continue CLM's current monthly distribution policy after the CFP Merger.

PORTFOLIO VALUATION

Investments of each Fund are stated at value in each Fund's financial statements. All securities for which market quotations are readily available are valued at the last sales price or lacking any sales, at the closing price last quoted for the securities (but if bid and asked quotations are available, at the mean between the current bid and asked prices). Securities that are traded over-the-counter are valued at the mean between the current bid and the asked prices, if available. All other securities and assets are valued at fair value as determined in good faith by each Fund's Board of Directors/Trustees. Short-term investments having a maturity of 60 days or less are valued on the basis of amortized cost. The Board of Directors/Trustees of each Fund has established general guidelines for calculating fair value of

securities that are not readily marketable. At December 31, 2014, both CFP and CLM held no securities valued in good faith by the Board of Directors/Trustees. The net asset value per share of each Fund is made available to the public on a weekly basis.

For purposes of valuing assets in connection with the CFP Merger, the assets of CFP will be valued pursuant to the principles and procedures consistently utilized by CLM, which principles and procedures are also utilized by CFP in valuing its own assets and determining its own liabilities. It is not expected that CLM's valuation procedures as applied to CFP's portfolio securities will result in any difference from the valuation that would have resulted from the application of CFP's valuation procedures to such securities.

DIVIDEND REINVESTMENT PLAN

Each Fund operates a distribution reinvestment plan (the "Plan"), administered by American Stock Transfer and Trust Company, LLC (the "Agent"), pursuant to which each Fund's income dividends or capital gains or other distributions (each, a "Distribution" and collectively, "Distributions"), net of any applicable U.S. withholding tax, are reinvested in each Fund's shares.

Shareholders automatically participate in the Plan, unless and until an election is made to withdraw from the Plan on behalf of such participating Shareholder. Shareholders who do not wish to have Distributions automatically reinvested should so notify the Agent at P.O. Box 922, Wall Street Station, New York, New York 10269-0560. Under the Plan, Distributions to Shareholders are reinvested in full and fractional shares as described below.

When the respective Fund declares a Distribution, the Agent, on the Shareholder's behalf, will (i) receive additional authorized shares from the Fund either newly issued or repurchased from Shareholders by the Fund and held as treasury stock ("Newly Issued Shares") or (ii) purchase outstanding shares on the open market, on the NYSE MKT or elsewhere, with cash allocated to it by the Fund ("Open Market Purchases").

The method for determining the number of Newly Issued Shares received when Distributions are reinvested will be determined by dividing the amount of the Distribution either by the respective Fund's last reported net asset value per share or by a price equal to the average closing price of the respective Fund over the five trading days preceding the payment date of the Distribution, whichever is lower. However, if the last reported net asset value of the respective Fund's shares is higher than the average closing price of the Fund over the five trading days preceding the payment date of the Distribution (i.e., the Fund is selling at a discount), shares may be acquired by the Agent in Open Market Purchases and allocated to the reinvesting Shareholders based on the average cost of such Open Market Purchases. Upon notice from each Fund, the Agent will receive the distribution in cash and will purchase shares of common stock/shares of beneficial interest in the open market, on the NYSE MKT or elsewhere, for the participants' accounts, except that the Agent will endeavor to terminate purchases in the open market and cause each Fund to issue the remaining shares if, following the commencement of the purchases, the market value of the shares, including brokerage commissions, exceeds the net asset value at the time of valuation. These remaining shares will be issued by each Fund at a price equal to the net asset value at the time of valuation. In a case where the Agent has terminated open market purchases and caused the issuance of remaining shares by each Fund, the number of shares received by the participant in respect of the cash dividend or distribution will be based on the weighted average of prices paid for shares purchased in the open market, including brokerage commissions, and the price at which each Fund issues the remaining shares. To the extent that the Agent is unable to terminate purchases in the open market before the Agent has completed its purchases, or remaining shares cannot be issued by each Fund because each Fund declared a dividend or distribution payable only in cash, and the market price exceeds the net asset value of the shares, the average share purchase price paid by the Agent may exceed the net asset value of the shares, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by each Fund.

Whenever the respective Fund declares a Distribution and the last reported net asset value of the Fund's shares is higher than its market price, the Agent will apply the amount of such Distribution payable to Plan Participants of the Fund in shares (less such participant's pro rata share of brokerage commissions incurred with respect to Open Market Purchases in connection with the reinvestment of such Distribution) to the purchase on the open market of shares for such participant's account. Such purchases will be made on or after the payable date for such Distribution, and in no event more than 30 days after such date except where temporary curtailment or suspension of purchase is necessary to comply with applicable provisions of federal securities laws. The Agent may aggregate a participant's purchases with the purchases of other participants, and the average price (including brokerage commissions) of all shares purchased by the Agent shall be the price per share allocable to each participant.

Registered Shareholders who do not wish to have their Distributions automatically reinvested should so notify the respective Fund in writing. If a Shareholder has not elected to receive cash Distributions and the Agent does not receive notice of an election to receive cash Distributions prior to the record date of any Distribution, the Shareholder will automatically receive such Distributions in additional Shares.

Participants in the Plan may withdraw from the Plan by providing written notice to the Agent at least 30 days prior to the applicable Distribution payment date. When a participant withdraws from the Plan, or upon suspension or termination of the Plan at the sole discretion of each Fund's Board of Directors/Trustees, certificates for whole shares credited to such participant's account under the Plan will, upon request, be issued. Whether or not a participant requests that certificates for whole shares be issued, a cash payment will be made for any fraction of a share credited to such account.

The Agent will maintain all Shareholder accounts in the Plan and furnish written confirmations of all transactions in the accounts, including information needed by Shareholders for personal and tax records. The Agent will hold shares in the account of the Plan participant in non-certificated form in the name of the participant, and each Shareholder's proxy will include those shares purchased pursuant to the Plan. The Agent will distribute all proxy solicitation materials to participating Shareholders.

In the case of Shareholders, such as banks, brokers or nominees, that hold shares for others who are beneficial owners participating in the Plan, the Agent will administer the Plan on the basis of the number of shares certified from time to time by the record Shareholder as representing the total amount of shares registered in the Shareholder's name and held for the account of beneficial owners participating in the Plan.

Neither the Agent nor the Funds shall have any responsibility or liability beyond the exercise of ordinary care for any action taken or omitted pursuant to the Plan, nor shall they have any duties, responsibilities or liabilities except such as expressly set forth herein. Neither shall they be liable hereunder for any act done in good faith or for any good faith omissions to act, including, without limitation, failure to terminate a participant's account prior to receipt of written notice of his or her death or with respect to prices at which shares are purchased or sold for the participant's account and the terms on which such purchases and sales are made, subject to applicable provisions of the federal securities laws.

The automatic reinvestment of Distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such Distributions.

Each Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan.

Participants may at any time sell some or all their shares through the Agent. Shares may be sold via the internet at www.amstock.com or through the toll free number. Participants can also use the tear off portion attached to the bottom of their statement and mail the request to American Stock Transfer and Trust Company LLC, P.O. Box 922, Wall Street Station, New York, N.Y. 10269-0560. There is a fee of \$15.00 per transaction and commission of \$0.10 per share.

All correspondence concerning the Plan should be directed to the Agent at P.O. Box 922, Wall Street Station, New York, New York 10269-0560. Certain transactions can be performed online at www.amstock.com or by calling the toll-free number, (866) 668-6558.

CORPORATE GOVERNANCE PROVISIONS.

CLM is a Maryland corporation and CFP is a Delaware statutory trust. In many respects the Articles of Incorporation and the Declaration of Trust for each Fund as well as the by-law provisions of each Fund are similar to each other.

SPECIAL VOTING PROVISIONS AND REQUIREMENTS

The Articles of Incorporation/Declaration of Trust and By-laws of each Fund contain provisions that could have the effect of limiting the ability of other entities or persons to acquire control of the Fund, to cause it to engage in certain transactions or to modify its structure.

The affirmative vote of at least sixty-six and two-thirds percent (66 2/3%) of the holders of the shares of CLM is required to authorize any of the following transactions:

- 1) merger, consolidation or share exchange of the Fund with or into any Principal Shareholder (as defined below);
- 2) issuance by the Fund of any securities of the Fund to any Principal Shareholder for cash;
sale, lease, or exchange by either of all or any substantial part of the assets a Fund to any Principal Shareholder
- 3) (except assets having an aggregate fair market value of less than \$1,000,000 aggregating for the purpose of such computation all assets sold, leased or exchanged in any series of similar transactions within a twelve-month period);
and
the sale, lease or exchange to a Fund, in exchange for securities of the Fund, of any assets of any Principal
- 4) Shareholder (except assets having an aggregate fair market value of less than \$1,000,000 aggregating for the purpose of such computation all assets sold, leased or exchanged in any series of similar transactions within a twelve-month period).

The affirmative vote of at least fifty percent (50%) of the holders of the shares of CFP is required to authorize any of the following transactions:

- 1) The merger or consolidation of the Fund or any subsidiary of the Fund with or into any Principal Shareholder.

The issuance of any securities of the Fund to any Principal Shareholder for cash (other than pursuant to any automatic dividend reinvestment plan or pursuant to any offering in which such Principal Shareholder acquires securities that represent no greater a percentage of any class or series of securities being offered than the percentage of any class of Shares beneficially owned by such Principal Shareholder immediately prior to such offering or, in the case of securities, offered in respect of another class or series, the percentage of such other class or series beneficially owned by such Principal Shareholder immediately prior to such offering).

2) The sale, lease or exchange of all or any substantial part of the assets of the Fund to any Principal Shareholder (except assets having an aggregate fair market value of less than \$1,000,000, aggregating for the purpose of such computation all assets sold, leased or exchanged in any series of similar transactions within a twelve-month period.)

3) The sale, lease or exchange to the Fund or any subsidiary thereof, in exchange for securities of the Fund of any assets of any Principal Shareholder (except assets having an aggregate fair market value of less than \$1,000,000, aggregating for the purposes of such computation all assets sold, leased or exchanged in any series of similar transactions within a twelve-month period).

4) The purchase by the Fund or any Person controlled by the Fund of any Common Shares of the Fund from such Principal Shareholder or any person to whom such Principal Shareholder shall have transferred such Common Shares.

Each Fund's By-laws contain provisions the effect of which is to prevent matters, including nominations of directors/trustees, from being considered at Shareholders' meetings where the Fund has not received sufficient prior notice of the matters.

The Board of Directors/Trustees of each Fund has determined that the foregoing voting requirements are in the best interests of Shareholders generally. A "Principal Shareholder" is defined in each Fund's respective Articles of Incorporation/Declaration of Trust as any corporation, person or other entity which is the beneficial owner, directly or indirectly, of more than five percent (5%) of the outstanding shares of any class of stock of the respective Fund and shall include any affiliate or associate, as such terms are defined in clause (ii) below, of a Principal Shareholder. In addition to the shares which a corporation, person or other entity beneficially owns directly, (a) any corporation, person or other entity shall be deemed to be the beneficial owner of any shares of either of the Funds (i) which it has the right to acquire pursuant to any agreement or upon exercise of conversion rights or warrants, or otherwise (but excluding share option granted by the respective Fund), or (ii) which are beneficially owned, directly or indirectly (including shares deemed owned through application of clause (i) above), by any other corporation, person or entity with which it or its "affiliate" or "associate" (as defined below) has any agreement, arrangement or understanding for the purpose of acquiring, holding, voting or disposing of shares of either Fund, or which is its "affiliate" or "associate," as those terms are defined in Rule 12b-2 of the Exchange Act, and (b) the outstanding shares of either Fund shall include shares deemed owned through application of clauses (i) and (ii) above but shall not include any other shares which may be issuable pursuant to any agreement, or upon exercise of conversions rights or warrants, or otherwise.

BY-LAWS

Each Fund's By-laws provide, among other things, that:

- (1) certain advance notice requirements must be met in order for Shareholders to submit proposals at annual meetings and for nominations by Shareholders for election to the Board of Directors/Trustees; and
- (2) the power to amend the By-laws is reserved to the Board of Directors/Trustees, except as otherwise required by the Investment Company Act.

MANAGEMENT OF THE FUNDS

DIRECTORS AND PRINCIPAL OFFICERS

The business and affairs of each Fund are managed under the direction of that Fund's Board of Directors/Trustees, and the day-to-day operations are conducted through or under the direction of the officers of that Fund. The composition of the Boards of Directors/Trustees of each Fund and the executive officers of each Fund is identical. Below is a description of the Boards of Directors/Trustees and the executive officers of each Fund.

The Boards of Directors/Trustees of the Funds (the "Boards") have the responsibility for the overall management of the Funds, including general supervision and review of each Fund's investment activities and its conformity with Maryland/Delaware law and the policies of each Fund. The Boards elect the officers of each Fund, who are responsible for administering each Fund's day-to-day operations.

The Directors/Trustees, including the Directors/Trustees who are not interested persons of the Funds, as that term is defined in the Investment Company Act (“Independent Directors”), and executive officers of the Funds, their ages and principal occupations during the past five years are set forth below.

As of December 31, 2014, the Fund Complex is comprised of Cornerstone Strategic Value Fund, Inc., Cornerstone **Total Return Fund, Inc. and Cornerstone Progressive Return Fund, all of which are managed by Cornerstone Advisors, Inc. Each of the above Directors oversees all of the Funds in the Fund Complex.

*** Mr. Bradshaw is an “interested person” as defined in the Investment Company Act of 1940 because of his affiliation with Cornerstone Advisors, Inc.

The Boards believe that the significance of each Director/Trustee’s experience, qualifications, attributes or skills is an individual matter (meaning that experience that is important for one Director/Trustee may not have the same value for another) and that these factors are best evaluated at the Board level, with no single Director/Trustee, or particular factor, being indicative of the Board’s effectiveness. The Boards determined that each of the Directors/Trustees is qualified to serve as a Director/Trustee of each Fund based on a review of the experience, qualifications, attributes and skills of each Director/Trustee. In reaching this determination, the Boards have considered a variety of criteria, including, among other things: character and integrity; ability to review critically, evaluate, question and discuss information provided, to exercise effective business judgment in protecting shareholder interests and to interact effectively with the other Directors/Trustees, the Adviser, other service providers, counsel and the independent registered accounting firm (“independent auditors”); and willingness and ability to commit the time necessary to perform the duties of a Director/Trustee. Each Director/Trustee’s ability to perform his duties effectively is evidenced by his experience or achievements in the following areas: management or board experience in the investment management industry or companies or organizations in other fields, educational background and professional training; and experience as a Director/Trustee of each Fund. In addition, the Board values the diverse skill sets and experiences that each Director/Trustee contributes. The Boards consider that its diversity as a whole is as a result of a combination of Directors/Trustees who are working in the private, as opposed to public, sector, those that are retired from professional work and the various perspectives that each Director/Trustee provides as a result of his present experiences and his background. Information discussing the specific experience, skills, attributes and qualifications of each Director/Trustee which led to the Boards’ determination that the Director/Trustee should serve in this capacity is provided below.

In addition to the leadership and management skills obtained through this work, he contributes a non-profit perspective and community insight to the Board's discussions and deliberations, which provides desirable diversity. Mr. Rogers provides the Board with effective business judgment and an ability to interact effectively with the other Directors/Trustees, as well as with the Adviser, other service providers, counsel and each Fund's independent auditor. Mr. Rogers has demonstrated a willingness to commit the time necessary to serve as an effective Director/Trustee. The Board values his strong moral character and integrity.

The board values his strong moral character and integrity.

Specific details regarding each Director/Trustee's principal occupations during the past five years are included in the table above. The summaries set forth above as to the experience, qualifications, attributes and/or skills of the Directors/Trustees do not constitute holding out the Board or any Director/Trustee as having any special expertise or experience, and do not impose any greater responsibility or liability on any such person or on the Board as a whole than would otherwise be the case. The following table sets forth, for each Director/Trustee, the aggregate dollar range of equity securities owned of each Fund and of all Funds overseen by each Director/Trustee in the Fund Complex as of December 31, 2014. DIRECTOR/TRUSTEE TRANSACTIONS WITH FUND AFFILIATES

As of December 31, 2014, neither the Independent Directors/Trustees nor members of their immediate family owned securities beneficially or of record in Cornerstone Advisors, Inc., or any affiliate thereof. Furthermore, over the past five years, neither the Independent Directors/Trustees nor members of their immediate family have any direct or indirect interest, the value of which exceeds \$120,000, in Cornerstone Advisors, Inc. or any affiliate thereof. In addition, since the beginning of the last two fiscal years, neither the Independent Directors/Trustees nor members of their immediate family have conducted any transactions (or series of transactions) or maintained any direct or indirect relationship in which the amount involved exceeds \$120,000 and to which Cornerstone Advisors, Inc. or any affiliate thereof, the Funds, an officer of the Funds, an investment company which the Cornerstone Advisors, Inc. advises or an officer thereof was a party.

BOARD COMPOSITION AND LEADERSHIP STRUCTURE

Each of the Boards consist of six individuals, one of whom is an Interested Director/Trustee. The Chairman of each of the Boards, Mr. Bradshaw, is the Interested Director/Trustee and is the President of each Fund and the President of the Adviser. The Boards do not have a lead independent director. Because the Boards believes that its structure is sufficient to ensure active participation by all of its members and at the same time rely on the expertise and knowledge of Mr. Bradshaw as the Chairman of the Boards.

Each of the Boards believes that its leadership structure facilitates the orderly and efficient flow of information to the Directors/Trustees from the Adviser and other service providers with respect to services provided to the Funds, potential conflicts of interest that could arise from these relationships and other risks that the Funds may face. Each of the Boards further believes that its structure allows all of the Directors/Trustees to participate in the full range of the Board's oversight responsibilities. Each of the Boards believes that the orderly and efficient flow of information and the ability to bring each Director/Trustee's talents to bear in overseeing each Fund's operations is important, in light of the size and complexity of each Fund and the risks that each Fund faces. Each of the Boards and its committees review their structure regularly, to help ensure that it remains appropriate as the business and operations of each Fund and the environment in which each Fund operates changes.

Currently, each of the Boards has an Audit Committee and a Nominating and Corporate Governance Committee. The responsibilities of each committee and its members are described below.

THE AUDIT COMMITTEE

Each Fund has a standing Audit Committee (the “Audit Committee”), which is comprised of Messrs. Wilcox, Meese, Rogers, Strauss and Dean, all of whom are Directors/Trustees who are not interested persons of the Funds, as such term is defined in Section 2(a)(19) of the Investment Company Act. Each Audit Committee has a written charter. The principal functions of the Audit Committee include but are not limited to, (i) the oversight of the accounting and financial reporting processes of the Funds and its internal control over financial reporting; (ii) the oversight of the quality and integrity of the Funds’ financial statements and the independent audit thereof; and (iii) the approval, prior to the engagement of, the Funds’ independent registered public accounting firm and, in connection therewith, to review and evaluate the qualifications, independence and performance of the Funds’ independent registered public accounting firm.

The Audit Committee of each Fund currently does not have an Audit Committee Financial Expert, as such term is defined in Section 407 of the Sarbanes-Oxley Act of 2002. Rather, the Audit Committee members believe that each of their individual experiences provide the Audit Committee with sufficient experience and expertise to allow them to perform their duties as members of the Audit Committee.

THE NOMINATING AND CORPORATE GOVERNANCE COMMITTEE

Each Fund has a standing Nominating and Corporate Governance Committee (the “N&CG Committee”), which is comprised of Messrs. Wilcox, Sr., Strauss, Rogers, Meese and Dean, all of whom are Independent Directors/Trustees. The N&CG Committee has a written charter. In addition to its responsibility to oversee the corporate governance of the Funds, the N&CG Committee’s principal function is to identify and select qualified candidates for the Boards who have exhibited strong decision making ability, substantial business experience, relevant knowledge of the investment company industry (including closed-end funds), skills or technological expertise and exemplary personal integrity and reputation. In addition, the N&CG Committee seeks candidates that have experience and knowledge involving all of the service providers of a registered investment company.

Each N&CG Committee will consider all nominees recommended by shareholders of its Fund, so long as shareholders send their recommendations in writing to the Secretary of the Funds in a manner consistent with each Fund's By-laws. Specifically, the N&CG Committee assesses all director/trustee nominees taking into account several factors, including, but not limited to, issues such as the current needs of the Boards and the nominee's: (i) integrity, honesty, and accountability; (ii) successful leadership experience and strong business acumen; (iii) forward-looking, strategic focus; (iv) collegiality; (v) independence and absence of conflicts of interests; and (vi) ability to devote necessary time to meet Director/Trustee responsibilities. The N&CG Committee does not have a policy with regard to considering diversity when identifying candidates for election, but would expect to consider racial, gender and professional experience diversity when identifying future candidates. The N&CG Committee will ultimately recommend nominees that it believes will enhance each Board's ability to effectively oversee, in an effective manner, the affairs and business of each Fund. The N&CG Committee will consider and evaluate shareholder-recommended candidates by applying the same criteria used to evaluate director/trustee-recommended candidates.

BOARD'S ROLE IN RISK OVERSIGHT OF THE FUND

Each Boards oversees risk management for its Fund directly and, as to certain matters, through its Audit and N&CG Committees. Each Boards exercises its oversight in this regard primarily through requesting and receiving reports from and otherwise working with each Fund's senior officers (including each Fund's Chief Compliance Officer), portfolio management personnel of the Adviser, each Fund's independent auditors, legal counsel and personnel from each Fund's other service providers. At its regular quarterly meetings, each Board receives a report regarding risks applicable to the Funds presented by the Adviser and the Chief Compliance Officer. Each of the Boards has adopted, on behalf of its Fund, and periodically reviews with the assistance of each Fund's Chief Compliance Officer, policies and procedures designed to address certain risks associated with each Fund's activities. In addition, the Adviser and each Fund's other service providers also have adopted policies, processes and procedures designed to identify, assess and manage certain risks associated with each Fund's activities, and the Board receives reports from service providers with respect to the operation of these policies, processes and procedures as required and/or as the Boards deem appropriate. The Boards do not believe that a separate Risk Oversight Committee is necessary for effective risk oversight at this time, but intend to continuously evaluate how it assesses risk and will consider again in the future whether any changes to their current structure are prudent.

6.5. PRESERVATION OF ASSETS. CLM agrees that it has no plan or intention to sell or otherwise dispose of the assets of CFP to be acquired in the Merger, except for dispositions made in the ordinary course of business.

6.6. TAX MATTERS. Each Fund agrees that by the Effective Date all of its federal and other tax returns and reports required to be filed on or before such date shall have been filed and all taxes shown as due on said returns either have been paid or adequate liability reserves have been provided for the payment of such taxes. In connection with this covenant, the Funds agree to cooperate with each other in filing any tax return, amended return or claim for refund, determining a liability for taxes or a right to a refund of taxes or participating in or conducting any audit or other proceeding in respect of taxes. CLM agrees to retain for a period of ten (10) years following the Effective Date all returns, schedules and work papers and all material records or other documents relating to tax matters of CFP for its final taxable year and for all prior taxable periods. Any information obtained under this Section 6.6 shall be kept confidential except as otherwise may be necessary in connection with the filing of returns or claims for refund or in conducting an audit or other proceeding. After the Effective Date, CLM shall prepare, or cause its agents to prepare, any federal, state or local tax returns, including any Forms 1099, required to be filed and provided to required persons by CFP with respect to its final taxable years ending with the Effective Date and for any prior periods or taxable years for which the due date for such return has not passed as of the Effective Date and further shall cause such tax returns and Forms 1099 to be duly filed with the appropriate taxing authorities and provided to required persons. Notwithstanding the aforementioned provisions of this Section 6.6, any expenses incurred by CLM (other than for payment of taxes) in excess of any accrual for such expenses by CFP in connection with the preparation and filing of said tax returns and Forms 1099 after the Effective Date shall be borne by CLM.

6.7. SHAREHOLDER LIST. Prior to the Effective Date, CFP shall have made arrangements with its transfer agent to deliver to CLM, a list of the names and addresses of all of the shareholders of record of CFP on the Effective Date and the number of shares of common stock of CFP owned by each such shareholder, certified by CFP's transfer agent or President to the best of their knowledge and belief.

6.8. DELISTING, TERMINATION OF REGISTRATION AS AN INVESTMENT COMPANY. CFP agrees that the (i) delisting of the shares of CFP from the NYSE MKT and (ii) termination of its registration as a RIC will be effected in accordance with applicable law as soon as practicable following the Effective Date.

7.2. CERTIFICATES AND STATEMENTS BY CFP.

(b) CFP shall have furnished to CLM a certificate signed by its President (or any Vice President), dated the Effective Date, certifying that as of the Effective Date, all representations and warranties made in this Agreement are true and correct in all material respects as if made at and as of such date and each has complied with all of the agreements and satisfied all of the conditions on its part to be performed or satisfied at or prior to such dates.

(c) CFP shall have delivered to CLM a letter from Tait, Weller & Baker, LLP, dated the Effective Date, stating that such firm has performed a limited review of the federal, state and local income tax returns for the period ended December 31, 2014, and that based on such limited review, nothing came to their attention which caused them to believe that such returns did not properly reflect, in all material respects, the federal, state and local income taxes of CFP for the period covered thereby; and that for the period from December 31, 2014 to and including the Effective Date and for any taxable year ending upon the Effective Date, such firm has performed a limited review to ascertain the amount of such applicable federal, state and local taxes, and has determined that either such amount has been paid or reserves have been established for payment of such taxes, this review to be based on unaudited financial data; and that based on such limited review, nothing has come to their attention which caused them to believe that the taxes paid or reserves set aside for payment of such taxes were not adequate in all material respects for the satisfaction of federal, state and local taxes for the period from December 31, 2014, to and including the Effective Date and for any taxable year ending upon the Effective Date or that CFP would not continue to qualify as a RIC for federal income tax purposes.

7.6. LIABILITIES. The assets or liabilities of CFP to be transferred to CLM shall not include any assets or liabilities which CLM, by reason of limitations in its Registration Statement or Articles of Incorporation, may not properly acquire or assume. CLM does not anticipate that there will be any such assets or liabilities but CLM will notify CFP if any do exist and will reimburse CFP for any reasonable transaction costs incurred by CFP for the liquidation of such assets and liabilities.

7.7. EFFECTIVENESS OF N-14 REGISTRATION STATEMENT. The N-14 Registration Statement shall have become effective under the 1933 Act and no stop order suspending such effectiveness shall have been instituted or, to the knowledge of CLM, contemplated by the SEC.

7.8. ADMINISTRATIVE RULINGS, PROCEEDINGS. The SEC shall not have issued an unfavorable advisory report under Section 25(b) of the 1940 Act, nor instituted or threatened to institute any proceeding seeking to enjoin consummation of the Merger under Section 25(c) of the 1940 Act; no other legal, administrative or other proceeding shall be instituted or threatened which would materially affect the financial condition of CFP or would prohibit the Merger.

7.9. SATISFACTION OF CORNERSTONE PROGRESSIVE RETURN FUND. All proceedings taken by CFP and its counsel in connection with the Merger and all documents incidental thereto shall be satisfactory in form and substance to CLM.

7.10. DIVIDENDS. 8.3. ABSENCE OF LITIGATION. There shall be no material litigation pending with respect to the matters contemplated by this Agreement.

8.4. LEGAL OPINION. CFP shall have received an opinion from Blank Rome LLP and dated the Effective Date, to the effect that for federal income tax purposes (i) the Merger as provided in this Agreement will constitute a reorganization within the meaning of Section 368(a)(1) of the Code and that CLM and CFP will each be deemed a "party" to a reorganization within the meaning of Section 368(b) of the Code; (ii) no gain or loss will be recognized to CFP as a result of the Merger or on the conversion of CFP shares to CLM common stock; (iii) no gain or loss will be recognized to CLM as a result of the Merger; (iv) no gain or loss will be recognized to the shareholders of CFP on the conversion of their shares into CLM common stock; (v) gain or loss may be recognized by any CFP stockholder that receives cash in lieu of fractional shares; (vi) the tax basis of CFP's assets in the hands of CLM will be the same as the tax basis of such assets in the hands of CFP prior to the consummation of the Merger; (vii) immediately after the Merger, the tax basis of CLM common stock received by the shareholders of CFP in the Merger will be equal, in the aggregate, to the tax basis of the shares of CFP converted pursuant to the Merger; (viii) a shareholder's holding period for CLM common stock will be determined by including the period for which he or she held the common stock of CFP converted pursuant to the Merger, provided, that such CFP shares were held as a capital asset; and (ix) CLM's holding period with respect to CFP assets transferred will include the period for which such assets were held by CFP.

8.7. REGULATORY FILINGS.

(a) The SEC shall not have issued an unfavorable advisory report under Section 25(b) of the 1940 Act, nor instituted or threatened to institute any proceeding seeking to enjoin consummation of the Merger under Section 25(c) of the 1940 Act; no other legal, administrative or other proceeding shall be instituted or threatened which would materially affect the financial condition of CFP or would prohibit the Merger.

(b) CLM shall have received from any relevant state securities administrator such order or orders as are reasonably necessary or desirable under the 1933 Act, the 1934 Act, the 1940 Act, and any applicable state securities or blue sky laws in connection with the transactions contemplated hereby, and that all such orders shall be in full force and effect.

8.8. SATISFACTION OF CFP. All proceedings taken by CLM and its counsel in connection with the Merger and all documents incidental thereto shall be satisfactory in form and substance to CFP.

8.9. DIVIDENDS. Prior to the Effective Date, CLM shall have declared and paid a dividend or dividends which, together with all such previous dividends, shall have the effect of distributing to its shareholders substantially all of its net investment company taxable income that has accrued through the Effective Date, if any (computed without regard to any deduction of dividends paid), and substantially all of its net capital gain, if any, realized through the Effective Date.

9. PAYMENT OF EXPENSES

9.1. ALLOCATION. All expenses incurred in connection with the Merger shall be allocated to the respective Fund which incurred the expense. Such expenses shall include, but not be limited to, all costs related to the preparation and distribution of the N-14 Registration Statement, proxy solicitation expenses, and SEC registration fees. Neither of the Funds owes any broker's or finder's fees in connection with the transactions provided for herein.

10. COOPERATION FOLLOWING EFFECTIVE DATE

In case at any time after the Effective Date any further action is necessary to carry out the purposes of this Agreement, each Fund will take such further action (including the execution and delivery of such further instruments and documents) as any other Party may reasonably request, all at the sole cost and expense of the requesting Party (unless the requesting Party is entitled to indemnification as described below). CFP acknowledges and agrees that from and after the Effective Date, CLM shall be entitled to possession of all documents, books, records, agreements and financial data of any sort pertaining to CFP.

A-10

11. INDEMNIFICATION

11.1. CFP. CLM agrees to indemnify and hold harmless CFP and each of CFP's trustees and officers from and against any and all losses, claims, damages, liabilities or expenses (including, without limitation, the payment of reasonable legal fees and reasonable costs of investigation) to which jointly and severally, CFP or any of its directors or officers may become subject, insofar as any such loss, claim, damage, liability or expense (or actions with respect thereto) arises out of or is based on any breach by CLM of any of its representations, warranties, covenants or agreements set forth in this Agreement.

11.2. CLM. CFP agrees to indemnify and hold harmless CLM and each of CLM's directors and officers from and against any and all losses, claims, liabilities or expenses (including, without limitation, the payment of reasonable legal fees and reasonable costs of investigation) to which jointly and severally, CLM or any of its directors or officers may become subject, insofar as any such loss, claim, damage, liability or expense (or actions with respect thereto) arises out of or is based on any breach by CFP of any of its representations, warranties, covenants or agreements set forth in this Agreement.

12. TERMINATION, POSTPONEMENT AND WAIVERS

12.1. TERMINATION.

(a) Notwithstanding anything to the contrary in this Agreement, this Agreement may be terminated and the Merger abandoned at any time (whether before or after adoption by the shareholders of each Fund) prior to the Effective Date, or the Effective Date may be postponed by: (i) mutual agreement of the Funds' Board of Directors/Trustees; (ii) the Board of Directors of CLM if any of the obligations of CFP set forth in this Agreement has not been fulfilled or waived by such Board or if CFP has made a material and intentional misrepresentation herein or in connection herewith; or (iii) the Board of Trustees of CFP if any of the obligations of CLM set forth in this Agreement has not been fulfilled or waived by such Board or if CLM has made a material and intentional misrepresentation herein or in connection herewith.

(b) If the transaction contemplated by this Agreement shall not have been consummated by December 31, 2015, this Agreement automatically shall terminate on that date, unless a later date is mutually agreed to by the Boards of Directors/Trustees of each Fund.

(c) In the event of termination of this Agreement pursuant to the provisions hereof, the Agreement shall become void and have no further effect, and there shall not be any liability hereunder on the part of either Fund or their directors/trustees or officers, except for any such material breach or intentional misrepresentation, as to each of which all remedies at law or in equity of the party adversely affected shall survive.

12.2. WAIVER. At any time prior to the Effective Date, any of the terms or conditions of this Agreement may be waived by the Board of Directors/Trustees of either CFP or CLM (whichever is entitled to the benefit thereof), if, in the judgment of such Board after consultation with its counsel, such action or waiver will not have a material adverse effect on the benefits intended in this Agreement to the shareholders of their respective fund, on behalf of which such action is taken.

12.3. EXPIRATION OF REPRESENTATIONS AND WARRANTIES.

(a) The respective representations and warranties contained in Articles 3 and 4 of this Agreement shall expire with, and be terminated by, the consummation of the Merger, and neither Fund nor any of their officers, directors, trustees, agents or shareholders shall have any liability with respect to such representations or warranties after the Effective Date. This provision shall not protect any officer, director, trustee, agent or shareholder of a Fund against any liability to the entity for which that officer, director, agent or shareholder so acts or to its shareholders to which that officer, director, trustee, agent or shareholder would otherwise be subject by reason of willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties in the conduct of such office.

(b) If any order or orders of the SEC with respect to this Agreement shall be issued prior to the Effective Date and shall impose any terms or conditions which are determined by action of the Boards of Directors/Trustees of a Fund to be acceptable, such terms and conditions shall be binding as if a part of this Agreement without further vote or approval of the shareholders of a Fund, unless such terms and conditions shall result in a change in the method of computing the number of shares of CLM common stock to be issued pursuant to this Agreement, in which event, unless such terms and conditions shall have been included in the proxy solicitation materials furnished to the shareholders of the Fund prior to the meetings at which the Merger shall have been approved, this Agreement shall not be consummated and shall terminate unless the Funds call special meetings of shareholders at which such conditions so imposed shall be submitted for approval.

13. MISCELLANEOUS

13.1. TRANSFER RESTRICTION. Pursuant to Rule 145 under the 1933 Act, and in connection with the issuance of any shares to any person who at the time of the Merger is, to its knowledge, an affiliate of a party to the Merger pursuant to Rule 145(c), CLM will cause to be affixed upon the certificate(s) issued to such person (if any) a legend as follows:

THESE SHARES ARE SUBJECT TO RESTRICTIONS ON TRANSFER UNDER THE SECURITIES ACT OF 1933 AND MAY NOT BE SOLD OR OTHERWISE TRANSFERRED EXCEPT TO PROGRESSIVE RETURN FUND, INC. (OR ITS STATUTORY SUCCESSOR) UNLESS (I) A REGISTRATION STATEMENT WITH RESPECT THERETO IS EFFECTIVE UNDER THE SECURITIES ACT OF 1933 OR (II) IN THE OPINION OF COUNSEL REASONABLY SATISFACTORY TO THE FUND, SUCH REGISTRATION IS NOT REQUIRED.

and, further, that stop transfer instructions will be issued to CLM's transfer agent with respect to such shares. CFP will provide CLM on the Effective Date with the name of any CFP Shareholder who is to the knowledge of CFP an affiliate of it on such date.

13.2. MATERIAL PROVISIONS. All covenants, agreements, representations and warranties made under this Agreement and any certificates delivered pursuant to this Agreement shall be deemed to have been material and relied upon by each Fund, notwithstanding any investigation made by them or on their behalf.

CORNERSTONE STRATEGIC VALUE FUND, INC.

INTRODUCTION

This SAI is intended to supplement the information provided in the combined Proxy Statement/Prospectus dated April 10, 2015 (the "Proxy Statement/Prospectus"). The Proxy Statement/Prospectus has been sent to the Shareholders of (1) CLM in connection with the solicitation of proxies by the Board of Directors to be voted at the CLM Special Meeting of Shareholders and (2) CFP in connection with the solicitation of proxies by the Board of Trustees to be voted at the CFP Special Meeting of Shareholders, all to be held on May 22, 2015. FORWARD-LOOKING STATEMENTS

This SAI contains or incorporates by reference "forward-looking statements" (within the meaning of the federal securities laws) that involve risks and uncertainties. Forward-looking statements are excluded from the safe harbor protection provided by Section 27A of the Securities Act of 1933. These statements describe our plans, strategies and goals and our beliefs and assumptions concerning future economic or other conditions and the outlook for the Fund, based on currently available information. In this SAI, words such as "anticipates," "believes," "expects," "objectives," "goals," "future," "intends," "seeks," "will," "may," "could," "should," and similar expressions are used in an effort to identify forward-looking statements, although some forward-looking statements may be expressed differently.

The Fund's actual results could differ materially from those anticipated in the forward-looking statements because of various risks and uncertainties, including the factors set forth in the section headed "Risk Factors" in the Fund's prospectus and elsewhere in the prospectus and this SAI. You should consider carefully the discussions of risks and uncertainties in the "Risk Factors" section in the prospectus. The forward-looking statements contained in this SAI are based on information available to the Fund on the date of this SAI, and the Fund assumes no obligation to update any such forward-looking statements, except as required by law.

INVESTMENT RESTRICTIONS

The Fund has adopted certain fundamental investment restrictions that may not be changed without the prior approval of the holders of a majority of the Fund's outstanding voting securities. For purposes of the restrictions listed below, all percentage limitations, with the exception of the percentage limitation listed in 2 below, apply immediately after a purchase or initial investment, and any subsequent change in any applicable percentage resulting from market fluctuations does not require elimination of any security from the Fund's portfolio. Fund policies which are not fundamental may be modified by the Board of Directors if, in the reasonable exercise of the Board's business

judgment, modification is determined to be necessary or appropriate to carry out the Fund's objective. Under its fundamental restrictions, the Fund may not:

1. With respect to 75% of its total assets, purchase a security, other than securities issued or guaranteed by the U.S. Government or securities of other regulated investment companies, if as a result of such purchase, more than 5% of the value of that Fund's total assets would be invested in the securities of any one issuer, or that Fund would own more than 10% of the voting securities of any one issuer.

2. Invest 25% or more of the total value of its assets in a single industry. This restriction does not apply to investments in United States Government securities.

3. Issue senior securities, borrow or pledge its assets, except that the Fund may borrow from a bank for temporary or emergency purposes or for the clearance of transactions in amounts not exceeding 10% (taken at the lower of cost or current value) of its total assets (not including the amount borrowed) and may also pledge its assets to secure such borrowings. Additional investments will not be made when borrowings exceed 5% of the Fund's assets.

4. Make short sales of securities or maintain a short position in any security.

5. Purchase securities on margin, except such short-term credits as may be necessary or routine for the clearance or settlement of transactions and the maintenance of margin with respect to forward contracts or other hedging transactions.

6. Underwrite securities of other issuers, except insofar as the Fund may be deemed an underwriter under the 1933 Act in selling portfolio securities.

7. Purchase or sell commodities or real estate, except that the Fund may invest in securities secured by real estate or interests in real estate or in securities issued by companies, including real estate investment trusts, that invest in real estate or interests in real estate, and may purchase and sell forward contracts on foreign currencies to the extent permitted under applicable law.

8. Make investments for the purpose of exercising control over, or management of, the issuers of any securities.

NON-FUNDAMENTAL POLICIES

The following policies of the Fund are non-fundamental and may be changed by the Fund's Board of Directors without stockholder vote. Under its non-fundamental restrictions, the Fund may not:

1. Invest in more than 3% of any one investment company's total outstanding stock.

Invest more than 15% of its assets in illiquid U.S. and non-U.S. securities and may not invest more than 3% of the Fund's assets in the securities of companies that, at the time of investment, had less than a year of operations, including operations of predecessor companies.

MANAGEMENT

The Board of Directors of the Fund (the "Board") has the responsibility for the overall management of the Fund, including general supervision and review of the Fund's investment activities and its conformity with Maryland law and the policies of the Fund. The Board elects the officers of the Fund, who are responsible for administering the Fund's day-to-day operations.

For information concerning CLM's Directors and Officers, please refer to CLM's Proxy Statement/Prospectus dated April 10, 2015.

The Fund has an Audit Committee and a Nominating and Corporate Governance Committee each of which is comprised of all of the non-interested members of the Board of Directors. For additional information concerning the Audit Committee and the Nominating and Corporate Governance Committee, please refer to CLM's Proxy Statement/Prospectus dated April 10, 2015.

CODE OF ETHICS

The Adviser and the Fund have each adopted a Code of Ethics, pursuant to Section 204A and Rule 204A-1 under the Investment Advisers Act of 1940 and Rule 17j-1 under the 1940 Act, respectively. Each Code of Ethics applies to the personal investing activities of the Directors, officers and certain employees of the Fund or the Adviser (“Access Persons”), as applicable. Rule 17j-1 and each Code of Ethics are designed to prevent unlawful practices in connection with the purchase or sale of securities by Access Persons. Each Code of Ethics permits Access Persons to trade securities for their own accounts, including securities that may be purchased or held by the Fund, and generally requires them to report their personal securities transactions and holdings. The Fund’s Code of Ethics is included as an exhibit to the Fund’s registration statement, which will be on file with the SEC, and available as described on the cover page of this SAI. The Adviser’s and the Fund’s Codes of Ethics may also be reviewed and copied at the SEC’s Public Reference Room in Washington, D.C., and information on the operation of the Public Reference Room may be obtained by calling the SEC at (800) SEC-0330. The Codes of Ethics are also available on the EDGAR Database on the SEC’s website at www.sec.gov, and copies of the Codes of Ethics may be obtained, after paying a duplicating fee, by electronic request at the following E-mail address: publicinfo@sec.gov, or by writing the SEC’s Public Reference Section, Washington, D.C. 20549-0102.

PROXY VOTING PROCEDURES

PROXY VOTING POLICIES AND PROCEDURES

The Fund provides a voice on behalf of stockholders of the Fund. The Fund views the proxy voting process as an integral part of the relationship with the Fund. The Fund has delegated its authority to vote proxies to the Adviser, subject to the supervision of the Board of Directors. The Adviser has entered into an arrangement with Glass, Lewis & Co., LLC. (“Glass Lewis”) whereby Glass Lewis votes all of the Fund’s portfolio companies’ proxy statements and records all of the proxy votes for compilation in the Form N-PX. The Fund believes that by engaging Glass Lewis, the Fund is in a better position to monitor corporate actions, analyze proxy proposals, make voting decisions and ensure that proxies are submitted promptly. The fundamental purpose of Glass Lewis’ Voting Policy Guidelines is to ensure that each vote will be in a manner that reflects the best interest of the Fund and its stockholders, and that maximizes the value of the Fund’s investment.

POLICIES OF THE ADVISER

The Adviser has a contractual arrangement, on behalf of the Fund, with Glass Lewis for proxy voting services related to Fund portfolio holdings. Glass Lewis provides the Fund with a set of voting policies and procedures and votes all of the Fund's portfolio securities on behalf of the Fund in accordance with those policies. It is the Adviser's policy to vote all proxies received by the Fund in a timely manner. Upon receiving each proxy, Glass Lewis will review the issues presented and make a decision to vote for, against or abstain on each of the issues presented in accordance with the proxy voting guidelines adopted by the Fund. Generally, the guidelines support policies, plans and structures that give quality management teams appropriate latitude to run the business in a way that is likely to maximize value for owners. Conversely, the guidelines generally oppose proposals that clearly have the effect of restricting the ability of stockholders to realize the full potential value of their investment. With respect to shares of other investment companies, Glass Lewis will vote such shares in the same general proportion as shares held by other stockholders of that investment company.

CONFLICTS OF INTEREST

The Adviser's duty is to vote in the best interests of the Fund's stockholders. The Adviser believes that, by delegating authority to vote all proxies to Glass Lewis, it will avoid potential conflicts of interest between the Adviser's interests and the Fund's interests. However, if a potential conflict of interest does arise, Glass Lewis will take one of the following steps to resolve the conflict:

1. If a proposal is addressed by the guidelines, Glass Lewis will vote in accordance with those guidelines; or

2. If the Adviser believes it is in the Fund's best interest to depart from the guidelines provided, the Adviser will disclose the conflict to the Fund and obtain its consent to the proposed vote prior to voting the securities and instruct accordingly.

INVESTMENT ADVISORY AND OTHER SERVICES

INVESTMENT ADVISORY SERVICES

The management of the Fund is supervised by the Board of Directors. Cornerstone Advisors, Inc. provides investment advisory services to the Fund pursuant to an investment management agreement entered into with the Fund (an “Investment Management Agreement”).

The Adviser, located at 1075 Hendersonville Road, Suite 250, Asheville, North Carolina, 28803, is a North Carolina corporation. It was formed in February 2001 for the purpose of providing investment advisory and management services to investment companies. Ralph W. Bradshaw, the Fund’s Chairman and President, and Gary A. Bentz, the Fund’s Chief Compliance Officer, Secretary and Assistant Treasurer, are the only stockholders of the Adviser.

Under the general supervision of the Fund’s Board of Directors, the Adviser carries out the investment and reinvestment of the net assets of the Fund, continuously furnishes an investment program with respect to the Fund, determines which securities should be purchased, sold or exchanged, and implements such determinations. The Adviser furnishes to the Fund investment advice and office facilities, equipment and personnel for servicing the investments of the Fund.

The annual percentage rate and method used in computing the investment advisory fee of the Fund is described in the combined Proxy Statement/Prospectus.

The Investment Management Agreement is terminable, without penalty, on sixty days' written notice, by a vote of the holders of a majority of the Fund's outstanding shares, by the Directors of the Fund or by the Adviser. The Investment Management Agreement provides that it will automatically terminate in the event of its assignment. The Investment Management Agreement provides in substance that the Adviser shall not be liable for any action or failure to act in accordance with its duties thereunder in the absence of willful misfeasance, bad faith or gross negligence on the part of the Adviser or of reckless disregard of its obligations thereunder.

ADMINISTRATIVE SERVICES

Under the Administration Agreement, AST Fund Solutions, LLC ("AFS"), located at 48 Wall Street, 22nd Floor, New York, NY 10005, supplies executive, administrative and regulatory services for the Fund. Frank J. Maresca, the Fund's Treasurer, is an Executive Vice President of AFS. AFS supervises the preparation of reports to stockholders for the Fund, reports to and filings with the Securities and Exchange Commission and materials for meetings of the Board of Directors. For these services, the Fund pays AFS a monthly fee at an annual rate of 0.075% of its average daily net assets, subject to an annual minimum fee of \$50,000.

FUND ACCOUNTING AGREEMENT

Under the Fund Accounting Agreement, Ultimus Fund Solutions, LLC ("Ultimus"), located at 225 Pictoria Drive, Suite 450, Cincinnati, OH 45246 is responsible for calculating the net asset value of the common shares of the Fund and maintains the financial books and records of the Fund. For the performance of these services, the Fund pays Ultimus a base fee of \$2,500 per month plus an asset based fee of 0.010% of the first \$500 million of average daily net assets and 0.005% of such assets in excess of \$500 million.

Information regarding the Fund's custodian, transfer agent and independent public accounting firm is described in the combined Proxy Statement/Prospectus.

PORTFOLIO MANAGERS

Ralph W. Bradshaw is the portfolio manager responsible for the day-to-day management of the Fund (the “Portfolio Manager”). In addition, Mr. Bradshaw may consult with Gary Bentz, an officer of the Adviser, regarding investment decisions. The following table shows the number of other accounts managed by Mr. Bradshaw and the total assets in the accounts managed within various categories as of December 31, 2014.

TYPE OF ACCOUNTS	NUMBER OF ACCOUNTS	TOTAL NET ASSETS (\$ IN MILLIONS)	ADVISORY FEE BASED ON PERFORMANCE	
			NUMBER OF ACCOUNTS	TOTAL ASSETS
Registered Investment Companies	2	\$345	0	0
Other Pooled Investments	0	0	0	0
Other Accounts	0	0	0	0

CONFLICTS OF INTEREST

Conflicts of interest may arise because the Fund’s Portfolio Manager has day-to-day management responsibilities with respect to the Fund and two other accounts (i.e., Cornerstone Total Return Fund, Inc. and Cornerstone Progressive Return Fund). These potential conflicts include:

LIMITED RESOURCES. The Portfolio Manager cannot devote his full time and attention to the management of each of the accounts that he manages. Accordingly, the Portfolio Manager may be limited in his ability to identify investment opportunities for each of the accounts that are as attractive as might be the case if the Portfolio Manager was to devote substantially more attention to the management of a single account. The effects of this potential conflict may be more pronounced where the accounts have different investment strategies.

LIMITED INVESTMENT OPPORTUNITIES. Other investment funds of the Adviser may have investment objectives and policies similar to those of the Fund. The Adviser may, from time to time, make recommendations which result in the purchase or sale of a particular security by its other investment funds simultaneously with the Fund. If transactions on behalf of more than one investment fund during the same period increase the demand for securities being purchased or the supply of securities being sold, there may be an adverse effect on price or quantity. It is the policy of the Adviser to allocate advisory recommendations and the placing of orders in a manner that it believes is equitable to the accounts involved, including the Fund. When two or more investment funds of the Adviser are purchasing or selling the same security on a given day from the same broker-dealer, such transactions may be averaged as to price. See "Allocation of Brokerage".

DIFFERENT INVESTMENT STRATEGIES. The accounts managed by the Portfolio Manager have differing investment strategies. If the Portfolio Manager determines that an investment opportunity may be appropriate for only some of the accounts or decides that certain of the accounts should take different positions with respect to a particular security, the Portfolio Manager may effect transactions for one or more accounts which may affect the market price of the security or the execution of the transaction, or both, to the detriment or benefit of one or more other accounts.

SELECTION OF BROKERS. The Portfolio Manager selects the brokers that execute securities transactions for the accounts that he supervises, including the Fund. See "Allocation of Brokerage."

Where conflicts of interest arise between the Fund and other accounts managed by the Portfolio Manager, the Portfolio Manager will use good faith efforts so that the Fund will not be treated materially less favorably than other accounts.

COMPENSATION

The Portfolio Manager's compensation will be made up of a fixed salary amount which is not based on the value of the assets in the Fund's portfolio.

SECURITIES OWNED IN THE FUND BY PORTFOLIO MANAGERS

As of the date of this SAI, the Portfolio Manager owned 4,509 shares of the Fund. See "Director Ownership of Fund Shares."

ALLOCATION OF BROKERAGE

Decisions regarding the placement of orders to purchase and sell investments for the Fund are made by the Adviser, subject to the supervision of the Directors. A substantial portion of the transactions in equity securities for the Fund will occur on domestic stock exchanges. Transactions on stock exchanges involve the payment of brokerage commissions. In transactions on stock exchanges in the United States and some foreign exchanges, these commissions are negotiated. However, on many foreign stock exchanges these commissions are fixed. In the case of securities traded in the foreign and domestic over-the-counter markets, there is generally no stated commission, but the price usually includes an undisclosed commission or markup. Over-the-counter transactions will generally be placed directly with a principal market maker, although the Fund may place an over-the-counter order with a broker-dealer if a better price (including commission) and execution are available.

It is anticipated that most purchase and sale transactions involving fixed income securities will be with the issuer or an underwriter or with major dealers in such securities acting as principals. Such transactions are normally effected on a net basis and generally do not involve payment of brokerage commissions. However, the cost of securities purchased from an underwriter usually includes a commission paid by the issuer to the underwriter. Purchases or sales from dealers will normally reflect the spread between the bid and ask price.

The policy of the Fund regarding transactions for purchases and sales of securities is that primary consideration will be given to obtaining the most favorable prices and efficient executions of transactions. Consistent with this policy, when securities transactions are effected on a stock exchange, the Fund's policy is to pay commissions which are considered fair and reasonable without necessarily determining that the lowest possible commissions are paid in all circumstances. The Board of Directors of the Fund believes that a requirement always to seek the lowest commission cost could impede effective management and preclude the Fund and the Adviser from obtaining high quality brokerage and research services. In seeking to determine the reasonableness of brokerage commissions paid in any transaction, the Adviser may rely on its experience and knowledge regarding commissions generally charged by various brokers and on its judgment in evaluating the brokerage and research services received from the broker effecting the transaction. Such determinations are necessarily subjective and imprecise, as in most cases an exact dollar value for those services is not ascertainable.

In seeking to implement the Fund's policies, the Adviser will place transactions with those brokers and dealers who it believes provide the most favorable prices and which are capable of providing efficient executions. If the Adviser believes such price and execution are obtainable from more than one broker or dealer, it may give consideration to placing transactions with those brokers and dealers who also furnish research or research related services to the Fund or the Adviser. Such services may include, but are not limited to, any one or more of the following: information as to the availability of securities for purchase or sale; statistical or factual information or opinions pertaining to investments; and appraisals or evaluations of securities. The information and services received by the Adviser from brokers and dealers may be of benefit in the management of accounts of other clients and may not in all cases benefit the Fund directly. While such services are useful and important in supplementing its own research and facilities, the Adviser believes the value of such services is not determinable and does not significantly reduce its expenses.

The Fund has adopted procedures under Rule 17a-7 of the 1940 Act to permit purchase and sales transactions to be effected between the Fund and other accounts that are managed by the Adviser. The Fund may from time to time engage in such transactions in accordance with these procedures.

Securities considered as investments for the Fund may also be appropriate for other investment accounts managed by the Adviser or its affiliates. Whenever decisions are made to buy or sell securities by the Fund and one or more of such other accounts simultaneously, the Adviser will allocate the security transactions (including "hot" issues) in a manner which it believes to be equitable under the circumstances. As a result of such allocations, there may be instances where the Fund will not participate in a transaction that is allocated among other accounts. If an aggregated order cannot be filled completely, allocations will generally be made on a pro rata basis. An order may not be allocated on a pro rata basis where, for example: (i) consideration is given to an account with specialized investment policies that coincide with the particulars of a specific investment; (ii) pro rata allocation would result in odd-lot or de minimis amounts being allocated to a portfolio or other client; or (iii) where the Adviser reasonably determines that departure from a pro rata allocation is advisable. While these aggregation and allocation policies could have a detrimental effect on the price or amount of the securities available to the Fund from time to time, it is the opinion of the Directors of the Fund that the benefits from the Adviser's organization outweigh any disadvantage that may arise from exposure to simultaneous transactions.

During the fiscal years ended December 31, 2014, 2013 and 2012, the Fund paid \$69,908, \$86,421, and \$50,518 respectively, in brokerage commissions.

TAXES

THE FOLLOWING IS A SUMMARY DISCUSSION OF THE MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES THAT MAY BE RELEVANT TO A STOCKHOLDER OF ACQUIRING, HOLDING AND DISPOSING OF SHARES OF THE FUND. THIS DISCUSSION DOES NOT ADDRESS THE SPECIAL TAX RULES APPLICABLE TO CERTAIN CLASSES OF INVESTORS, SUCH AS TAX-EXEMPT ENTITIES, FOREIGN INVESTORS, INSURANCE COMPANIES AND FINANCIAL INSTITUTIONS. THIS DISCUSSION

ADDRESSES ONLY U.S. FEDERAL INCOME TAX CONSEQUENCES TO U.S. STOCKHOLDERS WHO HOLD THEIR SHARES AS CAPITAL ASSETS AND DOES NOT ADDRESS ALL OF THE U.S. FEDERAL INCOME TAX CONSEQUENCES THAT MAY BE RELEVANT TO PARTICULAR STOCKHOLDERS IN LIGHT OF THEIR INDIVIDUAL CIRCUMSTANCES. IN ADDITION, THE DISCUSSION DOES NOT ADDRESS ANY STATE, LOCAL OR FOREIGN TAX CONSEQUENCES, AND IT DOES NOT ADDRESS ANY U.S. FEDERAL TAX CONSEQUENCES OTHER THAN U.S. FEDERAL INCOME TAX CONSEQUENCES. THE DISCUSSION IS BASED UPON PRESENT PROVISIONS OF THE INTERNAL REVENUE CODE OF 1986, AS AMENDED (THE "CODE"), THE REGULATIONS PROMULGATED THEREUNDER, AND JUDICIAL AND ADMINISTRATIVE RULING AUTHORITIES, ALL OF WHICH ARE SUBJECT TO CHANGE OR DIFFERING INTERPRETATIONS (POSSIBLY WITH RETROACTIVE EFFECT). NO ATTEMPT IS MADE TO PRESENT A DETAILED EXPLANATION OF ALL U.S. FEDERAL INCOME TAX CONCERNS AFFECTING THE FUND AND ITS STOCKHOLDERS, AND THE DISCUSSION SET FORTH HEREIN DOES NOT CONSTITUTE TAX ADVICE. INVESTORS ARE URGED TO CONSULT THEIR OWN TAX ADVISORS TO DETERMINE THE SPECIFIC TAX CONSEQUENCES TO THEM OF INVESTING IN THE FUND, INCLUDING THE APPLICABLE FEDERAL, STATE, LOCAL AND FOREIGN TAX CONSEQUENCES TO THEM AND THE EFFECT OF POSSIBLE CHANGES IN TAX LAWS.

The Fund intends to elect to be treated and to qualify each year as a regulated investment company (a “RIC”) under the Code. Accordingly, the Fund must, among other things, (i) derive in each taxable year at least 90% of its gross income (including tax-exempt interest) from (a) dividends, interest, payments with respect to certain securities loans, and gains from the sale or other disposition of stock, securities or foreign currencies, or other income (including but not limited to gain from forward contracts) derived with respect to its business of investing in such stock, securities or currencies; and (b) net income from interests in “qualified publicly traded partnerships” (as defined in the Code); (ii) diversify its holdings so that, at the end of each quarter of each taxable year (a) at least 50% of the value of the Fund’s total assets is represented by cash and cash items, U.S. government securities, the securities of other regulated investment companies and other securities, with such other securities limited, in respect of any one issuer, to an amount not greater than 5% of the value of the Fund’s total assets and not more than 10% of the outstanding voting securities of such issuer and (b) not more than 25% of the value of the Fund’s total assets is invested in the securities (other than U.S. government securities and the securities of other regulated investment companies) of (I) any one issuer; (II) any two or more issuers that the Fund controls and that are determined to be engaged in the same business or similar or related trades or businesses or (III) any one or more “qualified publicly traded partnerships” (as defined in the Code); and (iii) distribute at least 90% of its investment company taxable income (as defined in the Code, but without regard to the deduction for dividends paid) and 90% of its tax-exempt interest income (net of certain deductions and amortizable bond premiums) for such taxable year in accordance with the timing requirements imposed by the Code, so as to maintain its RIC status and to avoid paying any U.S. federal income tax. For purposes of the 90% of gross income requirement described above, the Code expressly provides the U.S. Treasury with authority to issue regulations that would exclude foreign currency gains from qualifying income if such gains are not directly related to the Fund’s business of investing in stock or securities. While to date the U.S. Treasury has not exercised this regulatory authority, there can be no assurance that it will not issue regulations in the future (possibly with retroactive application) that would treat some or all of the Fund’s foreign currency gains as non-qualifying income. To the extent it qualifies for treatment as a RIC and satisfies the above-mentioned distribution requirements, the Fund will not be subject to U.S. federal income tax on income paid to its stockholders in the form of dividends or capital gain distributions.

In order to avoid incurring a U.S. federal excise tax obligation, the Code requires that the Fund distribute (or be deemed to have distributed) by December 31 of each calendar year an amount at least equal to the sum of (i) 98% of its ordinary income for such year and (ii) 98.2% of its capital gain net income (which is the excess of its realized capital gain over its realized capital loss), generally computed on the basis of the one-year period ending on October 31 of such year, after reduction by any available capital loss carryforwards, plus (iii) 100% of any ordinary income and capital gain net income from previous years (as previously computed) that were not paid out during such years and on which the Fund paid no U.S. federal income tax.

If the Fund does not qualify as a RIC for any taxable year, the Fund’s taxable income will be subject to corporate income taxes, and all distributions from earnings and profits, including distributions of net capital gain (if any), will be taxable to the stockholder as ordinary income. Such distributions generally will be eligible (i) for the dividends received deduction in the case of corporate stockholders and (ii) for treatment as “qualified dividends” as discussed below, in the case of individual stockholders provided certain holding period and other requirements are met, as described below. In addition, in order to requalify for taxation as a RIC, the Fund may be required to recognize unrealized gains, pay substantial taxes and interest, and make certain distributions.

Distributions from the Fund, except in the case of distributions of qualified dividend income or capital gain dividends, as described below, generally will be taxable to stockholders as ordinary dividend income to the extent of the Fund's current and accumulated earnings and profits. Distributions of net capital gains (that is, the excess of net gains from the sale of capital assets held more than one year over net losses from the sale of capital assets held for not more than one year) properly designated as capital gain dividends ("Capital Gain Dividends") will be taxable to stockholders as long-term capital gain, regardless of how long a stockholder has held the shares in the Fund.

If a stockholder's distributions are automatically reinvested pursuant to the Plan and the Plan Administrator invests the distribution in shares acquired on behalf of the stockholder in open-market purchases, for U.S. federal income tax purposes, the stockholder will generally be treated as having received a taxable distribution in the amount of the cash dividend that the stockholder would have received if the stockholder had elected to receive cash. If a stockholder's distributions are automatically reinvested pursuant to the Plan and the Plan Administrator invests the distribution in newly issued shares of the Fund, the stockholder will generally be treated as receiving a taxable distribution equal to the fair market value of the stock the stockholder receives.

Under current law, certain income distributions paid by the Fund to individual taxpayers are taxed at rates equal to those applicable to net long-term capital gains (generally, 20%). This tax treatment applies only if certain holding period requirements and other requirements are satisfied by the stockholder and the dividends are attributable to qualified dividend income received by the Fund itself. For this purpose, “qualified dividend income” means dividends received by the Fund from certain United States corporations and qualifying foreign corporations, provided that the Fund satisfies certain holding period and other requirements in respect of the stock of such corporations. For these purposes, a “qualified foreign corporation” means any foreign corporation if (i) such corporation is incorporated in a possession of the United States, (ii) such corporation is eligible for benefits of a qualified comprehensive income tax treaty with the United States and which includes an exchange of information program, or (iii) the stock of such corporation with respect to which such dividend is paid is readily tradable on an established securities market in the United States. A “qualified foreign corporation” does not include any foreign corporation which for the taxable year of the corporation in which the dividend was paid, or the preceding taxable year, is a “passive foreign investment company” (as defined in the Code). In the case of securities lending transactions, payments in lieu of dividends are not qualified dividends.

A dividend will not be treated as qualified dividend income (whether received by the Fund or paid by the Fund to a stockholder) if (1) the dividend is received with respect to any share held for fewer than 61 days during the 121-day period beginning on the date which is 60 days before the date on which such share becomes ex-dividend with respect to such dividend, (or fewer than 91 days during the associated 181-day period in the case of certain preferred stocks), (2) to the extent that the recipient is under an obligation (whether pursuant to a short sale or otherwise) to make related payments with respect to positions in substantially similar or related property, or (3) if the recipient elects to have the dividend treated as investment income for purposes of the limitation on deductibility of investment interest. Distributions of income by the Fund, other than qualified dividend income and Capital Gains Dividends, are taxed as ordinary income, at rates currently up to 39.6% for taxpayers other than corporations.

We cannot assure you as to what percentage of the dividends paid on the shares will consist of qualified dividend income or long-term capital gains, both of which are taxed at lower rates for individuals than are ordinary income and short-term capital gains.

Dividends and interest received, and gains realized, by the Fund on foreign securities may be subject to income, withholding or other taxes imposed by foreign countries and U.S. possessions (collectively “foreign taxes”) that would reduce the return on its securities. Tax conventions between certain countries and the United States, however, may reduce or eliminate foreign taxes, and many foreign countries do not impose taxes on capital gains in respect of investments by foreign investors. If more than 50% of the value of the Fund’s total assets at the close of its taxable year consists of securities of foreign corporations, it will be eligible to, and may, file an election with the Internal Revenue Service (the “IRS”) that will enable its stockholders, in effect, to receive the benefit of the foreign tax credit with respect to any foreign taxes paid by the Fund. Pursuant to the election, the Fund would treat those taxes as dividends paid to its stockholders and each stockholder (1) would be required to include in gross income, and treat as paid by such stockholder, a proportionate share of those taxes, (2) would be required to treat such share of those taxes and of any dividend paid by the Fund that represents income from foreign or U.S. possessions sources as such stockholder’s own income from those sources, and, if certain conditions are met, (3) could either deduct the foreign taxes deemed paid in computing taxable income or, alternatively use the foregoing information in calculating the foreign tax credit against federal income tax (but IRA accounts may not be able to use the foreign tax credit). The Fund will report to its

stockholders shortly after each taxable year their respective shares of foreign taxes paid and the income from sources within, and taxes paid to, foreign countries and U.S. possessions if it makes this election. The rules relating to the foreign tax credit are complex. Each stockholder should consult his own tax adviser regarding the potential application of foreign tax credits.

If the Fund acquires any equity interest in certain foreign corporations that receive at least 75% of their annual gross income from passive sources (such as interest, dividends, certain rents and royalties, or capital gains) or that hold at least 50% of their assets in investments producing such passive income (“passive foreign investment companies”), the Fund could be subject to U.S. federal income tax and additional interest charges on “excess distributions” received from such companies or on gain from the sale of stock in such companies, even if all income or gain actually received by the Fund is timely distributed to its stockholders. The Fund would not be able to pass through to its stockholders any credit or deduction for such a tax. An election may generally be available that would ameliorate these adverse tax consequences, but any such election could require the Fund to recognize taxable income or gain (subject to tax distribution requirements) without the concurrent receipt of cash and would require certain information to be furnished by the foreign corporation, which may not be provided. These investments could also result in the treatment of associated capital gains as ordinary income. The Fund may limit and/or manage its holdings in passive foreign investment companies to limit its tax liability or maximize its return from these investments. Dividends paid by passive foreign investment companies will not qualify as qualified dividend income eligible for taxation at reduced tax rates.

If the Fund utilizes leverage through borrowing, it may be restricted by loan covenants with respect to the declaration of, and payment of, dividends in certain circumstances. Limits on the Fund's payments of dividends may prevent the Fund from meeting the distribution requirements, described above, and may, therefore, jeopardize the Fund's qualification for taxation as a RIC and possibly subject the Fund to the 4% excise tax. The Fund will endeavor to avoid restrictions on its ability to make dividend payments.

The sale, exchange or redemption of Fund shares may give rise to a gain or loss. Such gain or loss would generally be treated as capital gain or loss if the Fund shares are held as a capital asset. In general, any gain or loss realized upon a taxable disposition of shares will be treated as long-term capital gain or loss if the shares have been held for more than 12 months. Otherwise, the gain or loss on the taxable disposition of Fund shares will be treated as short-term capital gain or loss. The maximum long-term capital gain rate is 20%. Any loss realized upon the sale or exchange of Fund shares with a holding period of 6 months or less will be treated as a long-term capital loss to the extent of any capital gain distributions received with respect to such shares. The use of capital losses is subject to limitations. In addition, all or a portion of a loss realized on a redemption or other disposition of Fund shares may be disallowed under "wash sale" rules to the extent the shares disposed of are replaced with other substantially identical shares (whether through the reinvestment of distributions or otherwise) within a 61-day period beginning 30 days before the redemption of the loss shares and ending 30 days after such date. Any disallowed loss will result in an adjustment to the stockholder's tax basis in some or all of the other shares acquired.

Dividends and distributions on the Fund's shares are generally subject to federal income tax as described herein to the extent they do not exceed the Fund's realized income and gains, even though such dividends and distributions may economically represent a return of a particular stockholder's investment. Such distributions are likely to occur in respect of shares purchased at a time when the Fund's net asset value reflects gains that are either unrealized, or realized but not distributed. Such realized gains may be required to be distributed even when the Fund's net asset value also reflects unrealized losses. Certain distributions declared in October, November or December and paid in the following January will be taxed to stockholders as if received on December 31 of the year in which they were declared. In addition, certain other distributions made after the close of a taxable year of the Fund may be "spilled back" and treated as paid by the Fund (except for purposes of the 4% excise tax) during such taxable year. In such case, stockholders will nevertheless be treated as having received such dividends in the taxable year in which the distributions were actually made.

Amounts paid by the Fund to individuals and certain other stockholders who have not provided the Fund with their correct taxpayer identification number ("TIN") and certain certifications required by the Internal Revenue Service as well as stockholders with respect to whom the Fund has received certain information from the IRS or a broker may be subject to "backup" withholding of federal income tax arising from the Fund's taxable dividends and other distributions as well as the gross proceeds of sales of shares, currently equal to 28%. An individual's TIN is generally his or her social security number. Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules from payments made to a stockholder may be refunded or credited against such stockholder's U.S. federal income tax liability, if any, provided that the required information is furnished to the IRS.

Under Treasury regulations, if a stockholder recognizes a loss on disposition of the Fund's shares of \$2 million or more for an individual stockholder or \$10 million or more for a corporate stockholder, the stockholder generally must file with the IRS a disclosure statement on Form 8886 except to the extent such losses are from assets that have a qualifying basis and meet certain other requirements. Direct stockholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, stockholders of a regulated investment company are not excepted. Future guidance may extend the current exception from this reporting requirement to stockholders of most or all regulated investment companies. In addition, pursuant to recently enacted legislation, significant penalties may be imposed for the failure to comply with the reporting requirements. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer's treatment of the loss is proper. Stockholders should consult their tax advisers to determine the applicability of these regulations in light of their individual circumstances.

The foregoing discussion does not address the special tax rules applicable to certain classes of investors, such as tax-exempt entities, foreign investors, insurance companies and financial institutions. Stockholders should consult their own tax advisers with respect to special tax rules that may apply in their particular situations, as well as the state, local, and, where applicable, foreign tax consequences of investing in the Fund.

The Fund will inform stockholders of the source and tax status of all distributions promptly after the close of each calendar year. The IRS currently requires that a RIC that has two or more classes of stock allocate to each such class proportionate amounts of each type of its income (such as ordinary income, capital gains, dividends qualifying for the dividends received deduction and qualified dividend income) based upon the percentage of total dividends paid out of earnings or profits to each class for the tax year. Accordingly, if the Fund issues preferred shares in the future, the Fund intends each year to allocate capital gain dividends, dividends qualifying for the dividends received deduction and dividends derived from qualified dividend income, if any, between its common shares and preferred shares in proportion to the total dividends paid out of earnings or profits to each class with respect to such tax year.

MEDICARE TAX

An additional 3.8% Medicare tax is imposed on certain net investment income (including ordinary dividends and capital gain distributions received from the Fund and net gains from redemptions or other taxable dispositions of Shares) of U.S. individuals, estates and trusts to the extent that such person's "modified adjusted gross income" (in the case of an individual) or "adjusted gross income" (in the case of an estate or trust) exceed certain threshold amounts.

STATE AND LOCAL TAXES

Stockholders should consult their own tax advisers as to the state or local tax consequences of investing in the Fund.

CLM FINANCIAL STATEMENTS

The financial statements included in the Fund's Annual Report for the year ended December 31, 2014, filed with the Securities and Exchange Commission on February 24, 2015 (File No.811-05150), are herein incorporated by reference.

CORNERSTONE PROGRESSIVE RETURN FUND

(FOR THE PURPOSES OF THE SECTION ONLY, CORNERSTONE PROGRESSIVE RETURN FUND IS HEREIN REFERRED TO AS THE "FUND")

FORWARD-LOOKING STATEMENTS

This SAI contains or incorporates by reference "forward-looking statements" (within the meaning of the federal securities laws) that involve risks and uncertainties. Forward-looking statements are excluded from the safe harbor protection provided by Section 27A of the Securities Act of 1933. These statements describe our plans, strategies and goals and our beliefs and assumptions concerning future economic or other conditions and the outlook for the Fund, based on currently available information. In this SAI, words such as "anticipates," "believes," "expects," "objectives," "goals," "future," "intends," "seeks," "will," "may," "could," "should," and similar expressions are used in an effort to identify forward-looking statements, although some forward-looking statements may be expressed differently.

The Fund's actual results could differ materially from those anticipated in the forward-looking statements because of various risks and uncertainties, including the factors set forth in the section headed "Risk Factors" in the Fund's prospectus and elsewhere in the prospectus and this SAI. You should consider carefully the discussions of risks and uncertainties in the "Risk Factors" section in the prospectus. The forward-looking statements contained in this SAI are based on information available to the Fund on the date of this SAI, and the Fund assumes no obligation to update any such forward-looking statements, except as required by law.

INVESTMENT RESTRICTIONS

FUNDAMENTAL POLICIES

The following investment restrictions of the Fund are designated as fundamental policies and as such may not be changed without the approval of a majority of the Fund's outstanding common shares.

Diversification

With respect to 75% of its total assets, the Fund may not purchase a security, other than securities issued or guaranteed by the U.S. Government, its agencies or instrumentalities, if as a result of such purchase, more than 5% of the value of that Fund's total assets would be invested in the securities of any one issuer, or the Fund would own more than 10% of the voting securities of any one issuer.

Underwriting

The Fund will not underwrite any issue of securities except as it may be deemed an underwriter under the 1933 Act in connection with the sale of securities in accordance with its investment objective, policies and limitations.

Interests in Oil, Gas or Other Mineral Exploration or Development Programs

The Fund may not purchase, sell or invest in interests in oil, gas or other mineral exploration or development programs.

Short Sales

The Fund may not sell a security short if, as a result of such sale, the current value of securities sold short by the Fund would exceed 10% of the value of the Fund's total assets; provided, however, if the Fund owns or has the right to obtain securities equivalent in kind and amount to the securities sold short (i.e., short sales "against the box"), this limitation is not applicable. The Fund has no current intention to take short positions in securities. However, if the Fund does take any short positions, it will maintain sufficient segregated liquid assets to cover the short position.

Lending of Funds and Securities

To generate additional income, the Fund may lend up to 33% of its total assets. The Fund receives payments from borrowers equivalent to the dividends and interest that would have been earned on securities lent while simultaneously seeking to earn interest on the investment of cash collateral. Loans are subject to termination by the Fund or the borrower at any time, and are, therefore, not considered to be illiquid investments. Loans of securities are required at all times to be secured by collateral equal to at least 100% of the market value of securities on loan. However, in the event of default or bankruptcy of the other party to the agreement, realization and/or retention of the collateral may be subject to legal proceedings. In the event that the borrower fails to return securities, and collateral maintained by the lender is insufficient to cover the value of loaned securities, the borrower is obligated to pay the amount of the shortfall (and interest thereon) to the Fund. However, there can be no assurance the Fund can recover this amount.

Commodities

The Fund may not purchase, sell or invest in commodities, provided that this restriction shall not prohibit the Fund from purchasing and selling financial futures contracts and related options, including but not limited to, currency futures contracts.

Real Estate

The Fund may not purchase, sell or invest in real estate, but may invest in securities of companies that deal in real estate or are engaged in the real estate business, including real estate investment trusts, and securities secured by real estate or interests therein and may hold and sell real estate acquired through default, liquidation or other distributions of an interest in real estate as a result of the Fund's ownership of such securities.

Borrowing, Senior Securities

The Fund may not issue senior securities as defined by the 1940 Act, other than preferred shares which immediately after issuance will have asset coverage of at least 200% and except that the Fund may borrow money from banks or other financial institutions for extraordinary or emergency purposes, subject to the overall limitation that total borrowings by the Fund may not exceed 10% of the value of the Fund's total assets (measured at the time of borrowing and including the amount borrowed).

Pledging Assets

Other than as set forth above in "Lending of Funds and Securities" and except to secure permitted borrowing and to implement collateral and similar arrangements incident to permitted investment activities, the Fund may not pledge, mortgage, hypothecate or otherwise encumber its assets.

Concentration in Any One Industry

The Fund may not invest 25% or more of the value of its total assets in the securities in any single industry, provided that there shall be no limitation on the purchase of U.S. Government securities.

NON-FUNDAMENTAL POLICIES

The following policies of the Fund are non-fundamental and may be changed by the Board of Trustees without the approval of the Fund's shareholders. In addition, the Fund's investment objective is a non-fundamental policy that may be changed by the Board of Trustees without the approval of the Fund's shareholders.

Purchase of Securities on Margin

The Fund may not purchase securities on margin, except that it may obtain such short-term credits as may be necessary for the clearance of transactions. A deposit or payment by that Fund of initial or variation margin in connection with financial futures contracts or related options transactions is not considered the purchase of a security on margin.

Joint Trading

The Fund may not participate on a joint or joint and several basis in any trading account in any securities. (The "bunching" of orders for the purchase or sale of portfolio securities with the Fund's investment adviser (the "Adviser") or accounts under its management to reduce brokerage commissions, to average prices among them or to facilitate such transactions is not considered a trading account in securities for purposes of this restriction.)

Investing in Securities of Other Investment Companies

The Fund may invest in securities of other investment companies. The Fund will limit its investment in securities issued by other investment companies so that not more than 3% of the outstanding voting stock of any one investment company will be owned by the Fund, or its affiliated persons, as a whole in accordance with the 1940 Act and applicable Federal securities laws.

Illiquid Securities

The Fund may not invest more than 15% of its net assets in illiquid securities and other securities which are not readily marketable, excluding securities eligible for resale under Rule 144A of the 1933 Act which the Trustees have determined to be liquid.

Options

The Fund may but, has no current intention to, write, purchase or sell put or call options on foreign currencies, options on securities or stock indices as discussed in the prospectus.

Futures Contracts

The Fund may purchase financial futures contracts and related options for speculative or for “bona fide hedging” purposes, provided that aggregate initial margin deposits plus premiums paid by that Fund for open futures options positions, less the amount by which any such positions are “in-the-money,” may not exceed 5% of the Fund’s net assets. The Fund has filed a notice of eligibility for exclusion from the definition of the term “commodity pool operator” with the National Futures Association. Therefore, the Fund is not subject to registration or regulation as a commodity pool operator under the Commodity Exchange Act.

If a percentage limitation set forth in an investment policy or restriction of the Fund is adhered to at the time of investment or at the time the Fund engages in a transaction, a subsequent increase or decrease in percentage resulting from a change in value of an investment or position, or a change in the net assets of the Fund, will not result in a violation of such restriction, provided, however, that the asset coverage requirement applicable to borrowings and the limitation on investment in illiquid securities shall each be maintained in the manner contemplated by applicable law.

For purposes of its policies and limitations, the Fund considers certificates of deposit and demand and time deposits issued by a U.S. branch of a domestic bank or savings and loan association having capital, surplus, and undivided profits in excess of \$100,000,000 at the time of investment to be “cash items.”

INVESTMENT ADVISORY AND OTHER SERVICES

INVESTMENT ADVISORY SERVICES

The management of the Fund is supervised by the Board of Trustees. Cornerstone Advisors, Inc. provides investment advisory services to the Fund pursuant to an investment management agreement entered into with the Fund (an “Investment Management Agreement”).

The Adviser, located at 1075 Hendersonville Road, Suite 250, Asheville, North Carolina, 28803, is a North Carolina corporation. It was formed in February 2001 for the purpose of providing investment advisory and management services to investment companies. Ralph W. Bradshaw, the Fund’s Chairman and President, and Gary A. Bentz, the Fund’s Chief Compliance Officer, Secretary and Assistant Treasurer, are the only shareholders of the Adviser.

Under the general supervision of the Fund’s Board of Trustees, the Adviser carries out the investment and reinvestment of the net assets of the Fund, continuously furnishes an investment program with respect to the Fund, determines which securities should be purchased, sold or exchanged, and implements such determinations. The Adviser furnishes to the Fund investment advice and office facilities, equipment and personnel for servicing the investments of the Fund.

The annual percentage rate and method used in computing the investment advisory fee of the Fund is described in the combined Proxy Statement/Prospectus.

The Investment Management Agreement is terminable, without penalty, on sixty days’ written notice, by a vote of the holders of a majority of the Fund’s outstanding shares of beneficial interest, by the Trustees of the Fund or by the Adviser. The Investment Management Agreement provides that it will automatically terminate in the event of its assignment. The Investment Management Agreement provides in substance that the Adviser shall not be liable for any action or failure to act in accordance with its duties thereunder in the absence of willful misfeasance, bad faith or gross negligence on the part of the Adviser or of reckless disregard of its obligations thereunder.

ADMINISTRATIVE SERVICES

Under the Administration Agreement, AST Fund Solutions, LLC (“AFS”), located at 48 Wall Street, New York, NY 10005, supplies executive, administrative and regulatory services for the Fund. Frank J. Maresca, the Fund’s Treasurer, is an Executive Vice President of AFS. AFS supervises the preparation of reports to shareholders for the

Fund, reports to and filings with the Securities and Exchange Commission and materials for meetings of the Board of Trustees. For these services, the Fund pays AFS a monthly fee at an annual rate of 0.075% of its average daily net assets, subject to an annual minimum fee of \$50,000.

FUND ACCOUNTING AGREEMENT

Under the Fund Accounting Agreement, Ultimus Fund Solutions, LLC (“Ultimus”), located at 225 Pictoria Drive, Suite 450, Cincinnati, OH 45246, is responsible for calculating the net asset value of the shares of beneficial interest of the Fund and maintains the financial books and records of the Fund. For the performance of these services, the Fund pays Ultimus a base fee of \$2,500 per month plus an asset based fee of 0.010% of the first \$500 million of average daily net assets and 0.005% of such assets in excess of \$500 million.

Information regarding the Fund’s custodian, transfer agent and independent public accounting firm is contained in the combined Proxy Statement/Prospectus.

PORTFOLIO MANAGERS

Ralph W. Bradshaw is the portfolio manager responsible for the day-to-day management of the Fund (the “Portfolio Manager”). In addition, Mr. Bradshaw may consult with Gary Bentz, an officer of the Adviser, regarding investment decisions. The following table shows the number of other accounts managed by Mr. Bradshaw and the total assets in the accounts managed within various categories as of December 31, 2014.

TYPE OF ACCOUNTS	NUMBER OF ACCOUNTS	TOTAL NET ASSETS (\$ IN MILLIONS)	ADVISORY FEE BASED ON PERFORMANCE	
			NUMBER OF ACCOUNTS	TOTAL ASSETS
Registered Investment Companies	2	\$254	0	0
Other Pooled Investments	0	0	0	0
Other Accounts	0	0	0	0

CONFLICTS OF INTEREST

Conflicts of interest may arise because the Fund's Portfolio Manager has day-to-day management responsibilities with respect to the Fund and two other accounts (i.e., Cornerstone Total Return Fund, Inc. and Cornerstone Strategic Value Fund, Inc.). These potential conflicts include:

LIMITED RESOURCES. The Portfolio Manager cannot devote his full time and attention to the management of each of the accounts that he manages. Accordingly, the Portfolio Manager may be limited in his ability to identify investment opportunities for each of the accounts that are as attractive as might be the case if the Portfolio Manager was to devote substantially more attention to the management of a single account. The effects of this potential conflict may be more pronounced where the accounts have different investment strategies.

LIMITED INVESTMENT OPPORTUNITIES. Other investment funds of the Adviser may have investment objectives and policies similar to those of the Fund. The Adviser may, from time to time, make recommendations which result in the purchase or sale of a particular security by its other investment funds simultaneously with the Fund. If transactions on behalf of more than one investment fund during the same period increase the demand for securities being purchased or the supply of securities being sold, there may be an adverse effect on price or quantity. It is the policy of the Adviser to allocate advisory recommendations and the placing of orders in a manner that it believes is equitable to the accounts involved, including the Fund. When two or more investment funds of the Adviser are purchasing or selling the same security on a given day from the same broker-dealer, such transactions may be averaged as to price. See "Allocation of Brokerage".

DIFFERENT INVESTMENT STRATEGIES. The accounts managed by the Portfolio Manager have differing investment strategies. If the Portfolio Manager determines that an investment opportunity may be appropriate for only some of the accounts or decides that certain of the accounts should take different positions with respect to a particular security, the Portfolio Manager may effect transactions for one or more accounts which may affect the market price of the security or the execution of the transaction, or both, to the detriment or benefit of one or more other accounts.

SELECTION OF BROKERS. The Portfolio Manager selects the brokers that execute securities transactions for the accounts that he supervises, including the Fund. See “Allocation of Brokerage.”

Where conflicts of interest arise between the Fund and other accounts managed by the Portfolio Manager, the Portfolio Manager will use good faith efforts so that the Fund will not be treated materially less favorably than other accounts.

COMPENSATION

The Portfolio Manager’s compensation will be made up of a fixed salary amount which is not based on the value of the assets in the Fund’s portfolio.

SECURITIES OWNED IN THE FUND BY PORTFOLIO MANAGERS

As of the date of this SAI, the Portfolio Manager owned 5,599 shares of beneficial interest of the Fund. See “Trustee Ownership of Fund Shares.”

ALLOCATION OF BROKERAGE

Decisions regarding the placement of orders to purchase and sell investments for the Fund are made by the Adviser, subject to the supervision of the Trustees. A substantial portion of the transactions in equity securities for the Fund will occur on domestic stock exchanges. Transactions on stock exchanges involve the payment of brokerage commissions. In transactions on stock exchanges in the United States and some foreign exchanges, these commissions are negotiated. However, on many foreign stock exchanges these commissions are fixed. In the case of securities traded in the foreign and domestic over-the-counter markets, there is generally no stated commission, but the price usually includes an undisclosed commission or markup. Over-the-counter transactions will generally be placed directly with a principal market maker, although the Fund may place an over-the-counter order with a broker-dealer if a better price (including commission) and execution are available.

It is anticipated that most purchase and sale transactions involving fixed income securities will be with the issuer or an underwriter or with major dealers in such securities acting as principals. Such transactions are normally effected on a net basis and generally do not involve payment of brokerage commissions. However, the cost of securities purchased from an underwriter usually includes a commission paid by the issuer to the underwriter. Purchases or sales from dealers will normally reflect the spread between the bid and ask price.

The policy of the Fund regarding transactions for purchases and sales of securities is that primary consideration will be given to obtaining the most favorable prices and efficient executions of transactions. Consistent with this policy, when securities transactions are effected on a stock exchange, the Fund's policy is to pay commissions which are considered fair and reasonable without necessarily determining that the lowest possible commissions are paid in all circumstances. The Board of Trustees of the Fund believes that a requirement always to seek the lowest commission cost could impede effective management and preclude the Fund and the Adviser from obtaining high quality brokerage and research services. In seeking to determine the reasonableness of brokerage commissions paid in any transaction, the Adviser may rely on its experience and knowledge regarding commissions generally charged by various brokers and on its judgment in evaluating the brokerage and research services received from the broker effecting the transaction. Such determinations are necessarily subjective and imprecise, as in most cases an exact dollar value for those services is not ascertainable.

In seeking to implement the Fund's policies, the Adviser will place transactions with those brokers and dealers who it believes provide the most favorable prices and which are capable of providing efficient executions. If the Adviser believes such price and execution are obtainable from more than one broker or dealer, it may give consideration to placing transactions with those brokers and dealers who also furnish research or research related services to the Fund or the Adviser. Such services may include, but are not limited to, any one or more of the following: information as to the availability of securities for purchase or sale; statistical or factual information or opinions pertaining to investments; and appraisals or evaluations of securities. The information and services received by the Adviser from brokers and dealers may be of benefit in the management of accounts of other clients and may not in all cases benefit the Fund directly. While such services are useful and important in supplementing its own research and facilities, the Adviser believes the value of such services is not determinable and does not significantly reduce its expenses.

The Fund has adopted procedures under Rule 17a-7 of the 1940 Act to permit purchase and sales transactions to be effected between the Fund and other accounts that are managed by the Adviser. The Fund may from time to time engage in such transactions in accordance with these procedures.

Securities considered as investments for the Fund may also be appropriate for other investment accounts managed by the Adviser or its affiliates. Whenever decisions are made to buy or sell securities by the Fund and one or more of such other accounts simultaneously, the Adviser will allocate the security transactions (including “hot” issues) in a manner which it believes to be equitable under the circumstances. As a result of such allocations, there may be instances where the Fund will not participate in a transaction that is allocated among other accounts. If an aggregated order cannot be filled completely, allocations will generally be made on a pro rata basis. An order may not be allocated on a pro rata basis where, for example: (i) consideration is given to an account with specialized investment policies that coincide with the particulars of a specific investment; (ii) pro rata allocation would result in odd-lot or de minimis amounts being allocated to a portfolio or other client; or (iii) where the Adviser reasonably determines that departure from a pro rata allocation is advisable. While these aggregation and allocation policies could have a detrimental effect on the price or amount of the securities available to the Fund from time to time, it is the opinion of the Trustees of the Fund that the benefits from the Adviser’s organization outweigh any disadvantage that may arise from exposure to simultaneous transactions.

During the fiscal years ended December 31, 2014, 2013 and 2012, the Fund paid \$108,403, \$215,270, and \$167,151 respectively, in brokerage commissions.

TAXES

THE FOLLOWING IS A SUMMARY DISCUSSION OF THE MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES THAT MAY BE RELEVANT TO A SHAREHOLDER OF ACQUIRING, HOLDING AND DISPOSING OF SHARES OF BENEFICIAL INTEREST OF THE FUND. THIS DISCUSSION DOES NOT ADDRESS THE SPECIAL TAX RULES APPLICABLE TO CERTAIN CLASSES OF INVESTORS, SUCH AS TAX-EXEMPT ENTITIES, FOREIGN INVESTORS, INSURANCE COMPANIES AND FINANCIAL INSTITUTIONS. THIS DISCUSSION ADDRESSES ONLY U.S. FEDERAL INCOME TAX CONSEQUENCES TO U.S. SHAREHOLDERS WHO HOLD THEIR SHARES AS CAPITAL ASSETS AND DOES NOT ADDRESS ALL OF THE U.S. FEDERAL INCOME TAX CONSEQUENCES THAT MAY BE RELEVANT TO PARTICULAR SHAREHOLDERS IN LIGHT OF THEIR INDIVIDUAL CIRCUMSTANCES. IN ADDITION, THE DISCUSSION DOES NOT ADDRESS ANY STATE, LOCAL OR FOREIGN TAX CONSEQUENCES, AND IT DOES NOT ADDRESS ANY U.S. FEDERAL TAX CONSEQUENCES OTHER THAN U.S. FEDERAL INCOME TAX CONSEQUENCES. THE DISCUSSION IS BASED UPON PRESENT PROVISIONS OF THE INTERNAL REVENUE CODE OF 1986, AS AMENDED (THE "CODE"), THE REGULATIONS PROMULGATED THEREUNDER, AND JUDICIAL AND ADMINISTRATIVE RULING AUTHORITIES, ALL OF WHICH ARE SUBJECT TO CHANGE OR DIFFERING INTERPRETATIONS (POSSIBLY WITH RETROACTIVE EFFECT). NO ATTEMPT IS MADE TO PRESENT A DETAILED EXPLANATION OF ALL U.S. FEDERAL INCOME TAX CONCERNS AFFECTING THE FUND AND ITS SHAREHOLDERS, AND THE DISCUSSION SET FORTH HEREIN DOES NOT CONSTITUTE TAX ADVICE. INVESTORS ARE URGED TO CONSULT THEIR OWN TAX ADVISORS TO DETERMINE THE SPECIFIC TAX CONSEQUENCES TO THEM OF INVESTING IN THE FUND, INCLUDING THE APPLICABLE FEDERAL, STATE, LOCAL AND FOREIGN TAX CONSEQUENCES TO THEM AND THE EFFECT OF POSSIBLE CHANGES IN TAX LAWS.

The Fund intends to elect to be treated and to qualify each year as a regulated investment company (a "RIC") under the Code. Accordingly, the Fund must, among other things, (i) derive in each taxable year at least 90% of its gross income (including tax-exempt interest) from (a) dividends, interest, payments with respect to certain securities loans, and gains from the sale or other disposition of stock, securities or foreign currencies, or other income (including but not limited to gain from forward contracts) derived with respect to its business of investing in such stock, securities or currencies; and (b) net income from interests in "qualified publicly traded partnerships" (as defined in the Code); (ii) diversify its holdings so that, at the end of each quarter of each taxable year (a) at least 50% of the value of the Fund's total assets is represented by cash and cash items, U.S. government securities, the securities of other regulated investment companies and other securities, with such other securities limited, in respect of any one issuer, to an amount not greater than 5% of the value of the Fund's total assets and not more than 10% of the outstanding voting securities of such issuer and (b) not more than 25% of the value of the Fund's total assets is invested in the securities (other than U.S. government securities and the securities of other regulated investment companies) of (I) any one issuer; (II) any two or more issuers that the Fund controls and that are determined to be engaged in the same business or similar or related trades or businesses or (III) any one or more "qualified publicly traded partnerships" (as defined in the Code); and (iii) distribute at least 90% of its investment company taxable income (as defined in the Code, but without regard to the deduction for dividends paid) and 90% of its tax-exempt interest income (net of certain

deductions and amortizable bond premiums) for such taxable year in accordance with the timing requirements imposed by the Code, so as to maintain its RIC status and to avoid paying any U.S. federal income tax. For purposes of the 90% of gross income requirement described above, the Code expressly provides the U.S. Treasury with authority to issue regulations that would exclude foreign currency gains from qualifying income if such gains are not directly related to the Fund's business of investing in stock or securities. While to date the U.S. Treasury has not exercised this regulatory authority, there can be no assurance that it will not issue regulations in the future (possibly with retroactive application) that would treat some or all of the Fund's foreign currency gains as non-qualifying income. To the extent it qualifies for treatment as a RIC and satisfies the above-mentioned distribution requirements, the Fund will not be subject to U.S. federal income tax on income paid to its shareholders in the form of dividends or capital gain distributions.

In order to avoid incurring a U.S. federal excise tax obligation, the Code requires that the Fund distribute (or be deemed to have distributed) by December 31 of each calendar year an amount at least equal to the sum of (i) 98% of its ordinary income for such year and (ii) 98.2% of its capital gain net income (which is the excess of its realized capital gain over its realized capital loss), generally computed on the basis of the one-year period ending on October 31 of such year, after reduction by any available capital loss carryforwards, plus (iii) 100% of any ordinary income and capital gain net income from previous years (as previously computed) that were not paid out during such years and on which the Fund paid no U.S. federal income tax.

If the Fund does not qualify as a RIC for any taxable year, the Fund's taxable income will be subject to corporate income taxes, and all distributions from earnings and profits, including distributions of net capital gain (if any), will be taxable to the shareholder as ordinary income. Such distributions generally will be eligible (i) for the dividends received deduction in the case of corporate shareholders and (ii) for treatment as "qualified dividends" as discussed below, in the case of individual shareholders provided certain holding period and other requirements are met, as described below. In addition, in order to requalify for taxation as a RIC, the Fund may be required to recognize unrealized gains, pay substantial taxes and interest, and make certain distributions.

Distributions from the Fund, except in the case of distributions of qualified dividend income or capital gain dividends, as described below, generally will be taxable to shareholders as ordinary dividend income to the extent of the Fund's current and accumulated earnings and profits. Distributions of net capital gains (that is, the excess of net gains from the sale of capital assets held more than one year over net losses from the sale of capital assets held for not more than one year) properly designated as capital gain dividends ("Capital Gain Dividends") will be taxable to shareholders as long-term capital gain, regardless of how long a shareholder has held the shares in the Fund.

If a shareholder's distributions are automatically reinvested pursuant to the Plan and the Plan Administrator invests the distribution in shares acquired on behalf of the shareholder in open-market purchases, for U.S. federal income tax purposes, the shareholder will generally be treated as having received a taxable distribution in the amount of the cash dividend that the shareholder would have received if the shareholder had elected to receive cash. If a shareholder's distributions are automatically reinvested pursuant to the Plan and the Plan Administrator invests the distribution in newly issued shares of the Fund, the shareholder will generally be treated as receiving a taxable distribution equal to the fair market value of the stock the shareholder receives.

Under current law, certain income distributions paid by the Fund to individual taxpayers are taxed at rates equal to those applicable to net long-term capital gains (generally, 20%). This tax treatment applies only if certain holding period requirements and other requirements are satisfied by the shareholder and the dividends are attributable to qualified dividend income received by the Fund itself. For this purpose, "qualified dividend income" means dividends received by the Fund from certain United States corporations and qualifying foreign corporations, provided that the Fund satisfies certain holding period and other requirements in respect of the stock of such corporations. For these purposes, a "qualified foreign corporation" means any foreign corporation if (i) such corporation is incorporated in a possession of the United States, (ii) such corporation is eligible for benefits of a qualified comprehensive income tax treaty with the United States and which includes an exchange of information program, or (iii) the stock of such corporation with respect to which such dividend is paid is readily tradable on an established securities market in the United States. A "qualified foreign corporation" does not include any foreign corporation which for the taxable year of the corporation in which the dividend was paid, or the preceding taxable year, is a "passive foreign investment company" (as defined in the Code). In the case of securities lending transactions, payments in lieu of dividends are not qualified dividends. Thereafter, the Fund's dividends, other than Capital Gain Dividends, will be fully taxable at ordinary income tax rates unless further Congressional legislative action is taken.

A dividend will not be treated as qualified dividend income (whether received by the Fund or paid by the Fund to a shareholder) if (1) the dividend is received with respect to any share held for fewer than 61 days during the 121-day

period beginning on the date which is 60 days before the date on which such share becomes ex-dividend with respect to such dividend, (or fewer than 91 days during the associated 181-day period in the case of certain preferred stocks), (2) to the extent that the recipient is under an obligation (whether pursuant to a short sale or otherwise) to make related payments with respect to positions in substantially similar or related property, or (3) if the recipient elects to have the dividend treated as investment income for purposes of the limitation on deductibility of investment interest.

Distributions of income by the Fund, other than qualified dividend income and Capital Gains Dividends, are taxed as ordinary income, at rates currently up to 39.6% for taxpayers other than corporations.

We cannot assure you as to what percentage of the dividends paid on the shares will consist of qualified dividend income or long-term capital gains, both of which are taxed at lower rates for individuals than are ordinary income and short-term capital gains.

The Fund's investment in zero coupon and certain other securities will cause it to realize income prior to the receipt of cash payments with respect to these securities. Such income will be accrued daily by the Fund and, in order to avoid a tax payable by the Fund, the Fund may be required to liquidate securities that it might otherwise have continued to hold in order to generate cash so that the Fund may make required distributions to its shareholders.

Investments in lower rated or unrated securities may present special tax issues for the Fund to the extent that the issuers of these securities default on their obligations pertaining thereto. The Code is not entirely clear regarding the federal income tax consequences of the Fund's taking certain positions in connection with ownership of such distressed securities.

Any recognized gain or income attributable to market discount on long-term debt obligations (i.e., obligations with a term of more than one year except to the extent of a portion of the discount attributable to original issue discount) purchased by the Fund is taxable as ordinary income. A long-term debt obligation is generally treated as acquired at a market discount if purchased after its original issue at a price less than (i) the stated principal amount payable at maturity, in the case of an obligation that does not have original issue discount or (ii) in the case of an obligation that does have original issue discount, the sum of the issue price and any original issue discount that accrued before the obligation was purchased, subject to a *de minimis* exclusion.

Under Section 988 of the Code, gains or losses attributable to fluctuations in exchange rates between the time the Fund accrues income or receivables or expenses or other liabilities denominated in a foreign currency and the time the Fund actually collects such income or receivables or pays such liabilities are generally treated as ordinary income or loss. Similarly, gains or losses on foreign currency forward contracts and the disposition of debt securities denominated in a foreign currency, to the extent attributable to fluctuations in exchange rates between the acquisition and disposition dates, are also treated as ordinary income or loss.

Dividends and interest received, and gains realized, by the Fund on foreign securities may be subject to income, withholding or other taxes imposed by foreign countries and U.S. possessions (collectively, "foreign taxes") that would reduce the return on its securities. Tax conventions between certain countries and the United States, however, may reduce or eliminate foreign taxes, and many foreign countries do not impose taxes on capital gains in respect of investments by foreign investors. If more than 50% of the value of the Fund's total assets at the close of its taxable year consists of securities of foreign corporations, it will be eligible to, and may, file an election with the Internal Revenue Service (the "IRS") that will enable its shareholders, in effect, to receive the benefit of the foreign tax credit with respect to any foreign taxes paid by the Fund. Pursuant to the election, the Fund would treat those taxes as dividends paid to its shareholders and each shareholder (1) would be required to include in gross income, and treat as paid by such shareholder, a proportionate share of those taxes, (2) would be required to treat such share of those taxes and of any dividend paid by the Fund that represents income from foreign or U.S. possessions sources as such shareholder's own income from those sources, and, if certain conditions are met, (3) could either deduct the foreign taxes deemed paid in computing taxable income or, alternatively use the foregoing information in calculating the foreign tax credit against federal income tax (but IRA accounts may not be able to use the foreign tax credit). The Fund will report to its shareholders shortly after each taxable year their respective shares of foreign taxes paid and the income from sources within, and taxes paid to, foreign countries and U.S. possessions if it makes this election. The rules relating to the foreign tax credit are complex. Each shareholder should consult his own tax adviser regarding the potential application of foreign tax credits.

If the Fund acquires any equity interest in certain foreign corporations that receive at least 75% of their annual gross income from passive sources (such as interest, dividends, certain rents and royalties, or capital gains) or that hold at

least 50% of their assets in investments producing such passive income (“passive foreign investment companies”), the Fund could be subject to U.S. federal income tax and additional interest charges on “excess distributions” received from such companies or on gain from the sale of stock in such companies, even if all income or gain actually received by the Fund is timely distributed to its shareholders. The Fund would not be able to pass through to its shareholders any credit or deduction for such a tax. An election may generally be available that would ameliorate these adverse tax consequences, but any such election could require the Fund to recognize taxable income or gain (subject to tax distribution requirements) without the concurrent receipt of cash and would require certain information to be furnished by the foreign corporation, which may not be provided. These investments could also result in the treatment of associated capital gains as ordinary income. The Fund may limit and/or manage its holdings in passive foreign investment companies to limit its tax liability or maximize its return from these investments. Dividends paid by passive foreign investment companies will not qualify as qualified dividend income eligible for taxation at reduced tax rates.

If the Fund utilizes leverage through borrowing, it may be restricted by loan covenants with respect to the declaration of, and payment of, dividends in certain circumstances. Limits on the Fund’s payments of dividends may prevent the Fund from meeting the distribution requirements, described above, and may, therefore, jeopardize the Fund’s qualification for taxation as a RIC and possibly subject the Fund to the 4% excise tax. The Fund will endeavor to avoid restrictions on its ability to make dividend payments.

The sale, exchange or redemption of Fund shares may give rise to a gain or loss. Such gain or loss would generally be treated as capital gain or loss if the Fund shares are held as a capital asset. In general, any gain or loss realized upon a taxable disposition of shares will be treated as long-term capital gain or loss if the shares have been held for more than 12 months. Otherwise, the gain or loss on the taxable disposition of Fund shares will be treated as short-term capital gain or loss. The maximum long-term capital gain rate applicable to individuals is 20%. Any loss realized upon the sale or exchange of Fund shares with a holding period of 6 months or less will be treated as a long-term capital loss to the extent of any capital gain distributions received with respect to such shares. The use of capital losses is subject to limitations. In addition, all or a portion of a loss realized on a redemption or other disposition of Fund shares may be disallowed under “wash sale” rules to the extent the shares disposed of are replaced with other substantially identical shares (whether through the reinvestment of distributions or otherwise) within a 61-day period beginning 30 days before the redemption of the loss shares and ending 30 days after such date. Any disallowed loss will result in an adjustment to the shareholder’s tax basis in some or all of the other shares acquired.

Dividends and distributions on the Fund’s shares are generally subject to federal income tax as described herein to the extent they do not exceed the Fund’s realized income and gains, even though such dividends and distributions may economically represent a return of a particular shareholder’s investment. Such distributions are likely to occur in respect of shares purchased at a time when the Fund’s net asset value reflects gains that are either unrealized, or realized but not distributed. Such realized gains may be required to be distributed even when the Fund’s net asset value also reflects unrealized losses. Certain distributions declared in October, November or December and paid in the following January will be taxed to shareholders as if received on December 31 of the year in which they were declared. In addition, certain other distributions made after the close of a taxable year of the Fund may be “spilled back” and treated as paid by the Fund (except for purposes of the 4% excise tax) during such taxable year. In such case, shareholders will nevertheless be treated as having received such dividends in the taxable year in which the distributions were actually made.

Amounts paid by the Fund to individuals and certain other shareholders who have not provided the Fund with their correct taxpayer identification number (“TIN”) and certain certifications required by the Internal Revenue Service as well as shareholders with respect to whom the Fund has received certain information from the IRS or a broker may be subject to “backup” withholding of federal income tax arising from the Fund’s taxable dividends and other distributions as well as the gross proceeds of sales of shares, currently equal to 28%. An individual’s TIN is generally his or her social security number. Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules from payments made to a shareholder may be refunded or credited against such shareholder’s U.S. federal income tax liability, if any, provided that the required information is furnished to the IRS.

Under Treasury regulations, if a shareholder recognizes a loss on disposition of the Fund’s shares of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder, the shareholder generally must file with the IRS a disclosure statement on Form 8886 except to the extent such losses are from assets that have a qualifying basis and meet certain other requirements. Direct shareholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, shareholders of a regulated investment company are not excepted. Future guidance may extend the current exception from this reporting requirement to shareholders of most or all regulated investment companies. In addition, pursuant to recently enacted legislation, significant penalties may be imposed for the failure to comply with the reporting requirements. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer’s treatment of the loss is proper.

Shareholders should consult their tax advisers to determine the applicability of these regulations in light of their individual circumstances.

The foregoing discussion does not address the special tax rules applicable to certain classes of investors, such as tax-exempt entities, foreign investors, insurance companies and financial institutions. Shareholders should consult their own tax advisers with respect to special tax rules that may apply in their particular situations, as well as the state, local, and, where applicable, foreign tax consequences of investing in the Fund.

The Fund will inform shareholders of the source and tax status of all distributions promptly after the close of each calendar year. The IRS currently requires that a RIC that has two or more classes of stock allocate to each such class proportionate amounts of each type of its income (such as ordinary income, capital gains, dividends qualifying for the dividends received deduction and qualified dividend income) based upon the percentage of total dividends paid out of earnings or profits to each class for the tax year. Accordingly, if the Fund issues preferred shares in the future, the Fund intends each year to allocate capital gain dividends, dividends qualifying for the dividends received deduction and dividends derived from qualified dividend income, if any, between its shares of beneficial interest and preferred shares in proportion to the total dividends paid out of earnings or profits to each class with respect to such tax year.

MEDICARE TAX

For taxable years beginning after December 31, 2012, an additional 3.8% Medicare tax will be imposed on certain net investment income (including ordinary dividends and capital gain distributions received from the Fund and net gains from redemptions or other taxable dispositions of Shares) of U.S. individuals, estates and trusts to the extent that such person's "modified adjusted gross income" (in the case of an individual) or "adjusted gross income" (in the case of an estate or trust) exceed certain threshold amounts.

STATE AND LOCAL TAXES

Shareholders should consult their own tax advisers as to the state or local tax consequences of investing in the Fund.
