PROXY STATEMENT

2006 ANNUAL MEETING OF STOCKHOLDERS

China Automotive Systems, Inc. (the "Company") is furnishing this proxy statement and the enclosed proxy in connection with the solicitation of proxies by the Board of Directors of the Company for use at the Annual Meeting of Stockholders to be held on July 6, 2006, Thursday, at 10 a.m. local time, at Minghou Hall, 4th Floor, New Century Grand Hotel, Hangzhou, Hangzhou City, China, and at any adjournments thereof (the "Annual Meeting"). These materials will be mailed to stockholders on or about May 29, 2006.

Only holders of the Company's common stock as of the close of business on May 17, 2006 (the "Record Date") are entitled to vote at the Annual Meeting. Stockholders who hold shares of the Company in "street name" may vote at the Annual Meeting only if they hold a valid proxy from their broker. As of the Record Date, there were 23,244,906 shares of common stock outstanding.

A majority of the outstanding shares of common stock entitled to vote at the Annual Meeting must be present in person or by proxy in order for there to be a quorum at the meeting. Stockholders of record who are present at the meeting in person or by proxy and who abstain from voting, including brokers holding customers' shares of record who cause abstentions to be recorded at the meeting, will be included in the number of stockholders present at the meeting for purposes of determining whether a quorum is present.

Each stockholder of record is entitled to one vote at the Annual Meeting for each share of common stock held by such stockholder on the Record Date. Stockholders do not have cumulative voting rights. Stockholders may vote their shares by using the proxy card enclosed with this proxy statement. All proxy cards received by the Company, which are properly signed and have not been revoked will be voted in accordance with the instructions contained in the proxy cards. If a signed proxy card is received which does not specify a vote or an abstention, the shares represented by that proxy card will be voted for the nominees to the Board of Directors listed on the proxy card and in this proxy statement, and for the ratification of the appointment of Schwartz Levitsky Feldman LLP as the Company's independent auditors for the fiscal year ending December 31, 2006. The Company is not aware, as of the date hereof, of any matters to be voted upon at the Annual Meeting other than those stated in this proxy statement and the accompanying Notice of Annual Meeting of Stockholders. If any other matters are properly brought before the Annual Meeting, the enclosed proxy card gives discretionary authority to the persons named as proxies to vote the shares represented by the proxy card in their discretion.

Under Delaware law and the Company's Certificate of Incorporation and Bylaws, if a quorum exists at the meeting, the affirmative vote of a plurality of the votes cast at the meeting is required for the election of directors. A properly executed proxy marked "Withhold authority" with respect to the election of one or more directors will not be voted with respect to the director or directors indicated, although it will be counted for purposes of determining whether there is a quorum. For each other item, the affirmative vote of the holders of a majority of the shares represented in person or by proxy and entitled to vote on the item will be required for approval. A properly executed proxy marked "Abstain" with respect to any such matter will not be voted, although it will be counted for purposes of determining whether there is a quorum. Accordingly, an abstention will have the effect of a negative vote.

For shares held in "street name" through a broker or other nominee, the broker or nominee may not be permitted to exercise voting discretion with respect to some of the matters to be acted upon. Thus, if stockholders do not give their broker or nominee specific instructions, their shares may not be voted on those matters and will not be counted in determining the number of shares necessary for approval. Shares represented by such "broker non-votes" will, however, be counted in determining whether there is a quorum.

A stockholder of record may revoke a proxy at any time before it is voted at the Annual Meeting by (a) delivering a proxy revocation or another duly executed proxy bearing a later date to Mr. Li Jie, the Secretary of the Company, at No. 1 Henglong Road, Yu Qiao Development Zone, Shashi District, Jing Zhou City, Hubei Province, People's Republic of China, or (b) attending the Annual Meeting and voting in person. Attendance at the Annual Meeting will not revoke a proxy unless the stockholder actually votes in person at the meeting.

The proxy card accompanying this proxy statement is solicited by the Board of Directors of the Company. The Company will pay all of the costs of soliciting proxies. In addition to solicitation by mail, officers, directors and employees of the Company may solicit proxies personally, or by telephone, without receiving additional compensation. The Company, if requested, will also pay brokers, banks and other fiduciaries who hold shares of Common Stock for beneficial owners for their reasonable out-of-pocket expenses of forwarding these materials to stockholders.

DIRECTOR NOMINATION

Criteria for Board Membership. In recommending candidates for appointment or re-election to the Board, the nominating/corporate governance committee (the nominating/corporate governance committee) considers the appropriate balance of experience, skills and characteristics required of the Board of Directors. It seeks to ensure that at least three directors are independent under the rules of the Nasdaq Stock Market, that members of the Company's audit committee meet the financial literacy and sophistication requirements under the rules of the Nasdaq Stock Market, and at least one member of the Board qualifies as an audit committee financial expert under the rules of the Securities and Exchange Commission. Nominees for director are recommended on the basis of their depth and breadth of experience, integrity, ability to make independent analytical inquiries, understanding of the Company's business environment, and willingness to devote adequate time to Board duties.

Stockholder Nominees. The nominating/corporate governance committee will consider written proposals from stockholders for nominees for director. Any such nominations should be submitted to the nominating/corporate governance committee c/o Mr. Li Jie, the Secretary of the Company, and should include the following information: (a) all information relating to such nominee that is required to be disclosed pursuant to Regulation 14A under the Securities Exchange Act of 1934 (including such person's written consent to being named in the proxy statement as a nominee and to serving as a director if elected); (b) the names and addresses of the stockholders making the nomination and the number of shares of the Company's common stock which are owned beneficially and of record by such stockholders; and (c) appropriate biographical information and a statement as to the qualification of the nominee, and should be submitted in the time frame described in the Bylaws of the Company and under the caption, "Stockholder Proposals for 2006 Annual Meeting" below.

Process for Identifying and Evaluating Nominees. The nominating/corporate governance committee believes the company is well-served by its current directors. In the ordinary course, absent special circumstances or a material change in the criteria for Board membership, the nominating/corporate governance committee will renominate incumbent directors who continue to be qualified for Board service and are willing to continue as directors. If an incumbent director is not standing for re-election, or if a vacancy on the Board occurs between annual stockholder meetings, the nominating/corporate governance committee will seek out potential candidates for Board appointment who meet the criteria for selection as a nominee and have the specific qualities or skills being sought. Director candidates will be selected based on input from members of the Board, senior management of the company and, if the nominating/corporate governance committee deems appropriate, a third-party search firm. The nominating/corporate governance committee will evaluate each candidate's qualifications and check relevant references; in addition, such candidates will be interviewed by at least one member of the nominating/corporate governance committee. Candidates meriting serious consideration will meet with all members of the Board. Based on this input, the nominating/corporate governance committee will evaluate which of the prospective candidates is qualified to serve as a director and whether the committee should recommend to the Board that this candidate be appointed to fill a current vacancy on the Board, or presented for the approval of the stockholders, as appropriate.

The Company has never received a proposal from a stockholder to nominate a director. Although the nominating/corporate governance committee has not adopted a formal policy with respect to stockholder nominees, the committee expects that the evaluation process for a stockholder nominee would be similar to the process outlined above.

Board Nominees for the 2006 Annual Meeting. Each of the nominees listed in this proxy statement are current directors standing for re-election.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Effective August 31, 2004, in order to concentrate on its main products, namely steering and automotive parts, the Company disposed of its 51% interest in Jingzhou Henglong Fulida Textile Co., Ltd., Jingzhou , by entering into an exchange agreement with Hubei Wanlong Investment Co., Ltd., HBWL , which is controlled by Mr. Hanlin Chen, the Chairman of the Company. Pursuant to the exchange agreement, the 51% equity interest in Jingzhou owned by Ji Long Enterprise Investment Limited was exchanged for 2.5% of HBWL 's equity interests in Jinzhou Henglong Automotive Parts Co., Ltd., Henglong , based on their respective fair market values as determined by an independent appraisal firm. The difference between the fair value and the book value resulting from the disposition of the joint venture interest in Jingzhou was debited to additional paid-in capital. With respect to consideration paid by the Company in excess of the Chairman 's basis in his investment, such excess has been charged to additional paid-in capital as a distribution to the Chairman, resulting in the acquired 2.5% equity interests in Henglong being recorded by the Company at the Chairman 's original cost basis. The Company paid approximately \$90,000 to HBWL in conjunction with this transaction.

During the year ended December 31, 2004, the Company co-built a Scientific Research and Administrative Building with WuHan Geological University Information S&T Development Co., Ltd., WuHan Information . The building was completed in 2005, and the Company paid \$2,468,574 in advance for WuHan Information, which was recorded in the other receivables of the balance sheet for December 31, 2005. This advance is secured by a mortgage and bears interest at a conventional bank rate.

Based solely on its review of copies of these reports and representations of such reporting persons, the Company believes that during fiscal year 2005, such SEC filing requirements were satisfied.

REPORT OF THE COMPENSATION COMMITTEE

Under the guidance of a written charter adopted by the Board, the purpose of the compensation committee is to develop and review compensation policies and practices applicable to executive officers, review and recommend goals for the Company's Chief Executive Officer and evaluate his performance in light of these goals, review and evaluate goals and objectives for other officers, oversee and evaluate the Company's equity incentive plans and review and approve the creation or amendment of such plans. We believe that the composition of the Company's compensation committee meets the requirements for independence under, and the functioning of the Company's compensation committee complies with, any applicable requirements of the Sarbanes-Oxley Act of 2002, the Nasdaq National Market and the rules and regulations of the Securities and Exchange Commission.

Compensation Philosophy

The compensation committee designs the Company's executive compensation to attract, retain and motivate key executive staff, encourage high performance, and align employee incentives with the interests of stockholders.

Currently, executive compensation comprises of base salaries competitive with comparable automotive parts manufacturers in China, including companies with which the Company competes for similar talented executives. The compensation committee may award bonuses to encourage executives to focus on the achievement of specific short-term corporate goals as well as longer-term strategic objectives and reward them for their achievement. The compensation committee may award stock options and reward management for performance, which benefits our shareholders.

The Company strives to provide a total compensation package to senior management that is competitive in the marketplace, recognizes individual performance and provides opportunities to earn rewards based on achievement of short-term and long-term individual and corporate objectives. The compensation committee may use traditional measures of corporate performance, such as earnings per share or sales growth, in reviewing performance of executives. It also evaluates other indications of performance, such as corporate development activities. These considerations necessarily involve an assessment by the compensation committee of individual and corporate performance.

This report is submitted by the compensation committee and addresses the compensation policies for 2005 as such policies affected Mr. Hanlin Chen, in his capacity as Chief Executive Officer of the Company, and the other executive officers of the Company.

Base Salary

Base salary ranges are reviewed annually and adjustments are made at the beginning of the fiscal year to reflect changes in position responsibilities or market conditions. When establishing or reviewing compensation levels for each executive officer, the compensation committee considers numerous factors, including the qualifications of the executive, his or her level of relevant experience, specific operating roles and duties and strategic goals for which the executive has responsibility.

The compensation committee compares salary levels of its executive officers with those of leading comparable companies in order to determine the competitiveness of the pay structure for its executive officers annually. In setting annual base salaries, the compensation committee also reviews and evaluates the performance of the department or activity for which the executive has responsibility, the impact of that department or activity on the Company and the skills and experience required for the job, coupled with a comparison of these elements with similar elements for peer executives both inside and outside the Company. Adjustments to each individual's base salary are made in connection with annual performance reviews. The level of salaries paid to the Company's executive officers takes into account an evaluation of the individual performance and contribution of each executive to the Company's performance for the year.

Discretionary Bonuses

Cash bonuses are awarded on a discretionary basis, usually following the Company's fiscal year-end, and are based on the achievement of corporate and individual goals set by the Board and the Company's Chief Executive Officer at the beginning of the year, as well as the financial condition of the Company. The compensation committee has not awarded any bonuses for fiscal 2005. Generally, the compensation committee may recommend to the Board the amount of the bonus, with advice from the Company's management. The compensation committee makes its recommendations based upon an assessment of the individual's contributions and accomplishments achieved during the past year. The compensation committee also considers general business and economic factors relating to the Company in recommending the size of the bonus pool and adjusts bonuses based on those factors as well. The compensation committee typically sets target bonus opportunities for the executive officers, calculated as a percentage of base salary.

Stock Options

The Company may use the grant of options under its 2004 stock option plan to underscore the common interests of stockholders and management. The compensation committee has not granted any options to management for fiscal 2005. Options to be granted to executive officers are intended to provide a continuing financial incentive to maximize long-term value to stockholders and to make each executive's total compensation opportunity competitive. Options will encourage executives to remain in the long-term employ of the Company because the right to purchase shares of common stock underlying options generally vest over a period of four years and, if exercised prior to vesting, are subject to a right of repurchase by the Company at the original exercise price, which lapses over a period of several years. In determining the amount of an option to be granted to an executive officer, the compensation committee takes into account an officer's position and level of responsibility within the Company, the officer's existing stock and option holdings, and the potential reward to the officer if the stock price appreciates in the public market. Stock option awards are intended to align the interests of executives with the interests of the stockholders in our long-term performance.

In addition, the compensation committee reviews the equity position of all executive officers on an annual basis and awards stock options to executive officers periodically.

Executive Officer Compensation and Chief Executive Officer's Compensation

In setting compensation payable for fiscal year 2005 and planning the compensation payable for fiscal year 2005 to the Company's Chief Executive Officer, Mr. Hanlin Chen, and to the other executive officers, the compensation committee reviewed the importance of each executive officer's individual achievements in meeting the Company's goals and objectives set for the prior fiscal year as well as the overall achievement of the goals by the entire company.

The determination by the compensation committee of the Chief Executive Officer's remuneration is based upon methods consistent with those used for other executive officers. The compensation committee considers certain quantitative factors, including the Company's financial, strategic, and operating performance for the year as well as certain qualitative criteria including leadership qualities and management skills, as exhibited by innovations, time and effort devoted to the Company and other general considerations in determining appropriate compensation of the Chief Executive Officer.

In 2005, the compensation committee continued Mr. Chen's annualized salary at \$100,000. The compensation committee did not grant any bonus or stock option to Mr. Chen. In determining Mr. Chen's 2005 compensation, including whether to grant stock options to him, the compensation committee considered Mr. Chen's overall compensation package as compared with other chief executive officers in our industry, as well as the effectiveness of Mr. Chen's leadership of the Company.

The compensation committee believes that the continued commitment and leadership of our executive officers through fiscal year 2005 were and continue to be important factors in the achievements of the Company.

Compliance with Internal Revenue Code Section 162(m)

Section 162(m) of the U.S. Internal Revenue Code limits the tax deductibility by a corporation of compensation in excess of \$1 million paid to any of its five most highly compensated executive officers. However, compensation which qualifies as performance-based is excluded from the \$1 million limit if, among other requirements, the compensation is payable only upon attainment of pre-established, objective performance goals under a plan approved by stockholders. The compensation committee does not presently expect total cash compensation payable for salaries to exceed the \$1 million limit for any individual executive. It is the current policy of the compensation committee to maximize, to the extent reasonably possible, our ability to obtain a corporate tax deduction for compensation paid to our executive officers to the extent consistent with the best interests of our company and our stockholders.

REPORT OF THE AUDIT COMMITTEE

Under the guidance of a written charter adopted by the Board of Directors, the purpose of the Audit Committee is to oversee the accounting and financial reporting processes of the Company and audits of its financial statements. The responsibilities of the Audit Committee include appointing and providing for the compensation of the independent accountants. Each of the members of the Audit Committee meets the independence requirements of Nasdaq.

Management has primary responsibility for the system of internal controls and the financial reporting process. The independent accountants have the responsibility to express an opinion on the financial statements based on an audit conducted in accordance with generally accepted auditing standards.

In this context and in connection with the audited financial statements contained in the Company's Annual Report on Form 10-K for 2005, the Audit Committee:

reviewed and discussed the audited financial statements as of and for the fiscal year ended December 31, 2005 with the Company's management and the independent accountants;

discussed with Schwartz Levitsky Feldman LLP, the Company's independent auditors, the matters required to be discussed by Statement of Auditing Standards No. 61, Communication with Audit Committees, as amended by Statement of Auditing Standards No. 90, Audit Committee Communications;

reviewed the written disclosures and the letter from Schwartz Levitsky Feldman LLP required by the Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, discussed with the auditors their independence, and concluded that the non-audit services performed by Schwartz Levitsky Feldman LLP are compatible with maintaining their independence;

based on the foregoing reviews and discussions, recommended to the Board of Directors that the audited financial statements be included in the Company's 2005 Annual Report on Form 10-K for the fiscal year ended December 31, 2005 filed with the Securities and Exchange Commission; and

instructed the independent auditors that the Audit Committee expects to be advised if there are any subjects that require special attention.

AUDIT COMMITTEE

William E. Thomson (chairman), Robert Tung and Dr. Haimian Cai.

Audit Committee's Pre-Approval Policy

During fiscal years ended December 31, 2003, 2004 and 2005, the Audit Committee of the Board of Directors adopted policies and procedures for the pre-approval of all audit and non-audit services to be provided by the Company's independent auditor and for the prohibition of certain services from being provided by the independent auditor. The Company may not engage the Company's independent auditor to render any audit or non-audit service unless the service is approved in advance by the Audit Committee or the engagement to render the service is entered into pursuant to the Audit Committee's pre-approval policies and procedures. On an annual basis, the Audit Committee may pre-approve services that are expected to be provided to the Company by the independent auditor during the fiscal year. At the time such pre-approval is granted, the Audit Committee specifies the pre-approved services and establishes a monetary limit with respect to each particular pre-approved service, which limit may not be exceeded without obtaining further pre-approval under the policy. For any pre-approval, the Audit Committee considers whether such services are consistent with the rules of the Securities and Exchange Commission on auditor independence.
