BioMed Realty Trust, Inc. Yes No

BioMed Realty, L.P. Yes No

The number of outstanding shares of BioMed Realty Trust, Inc.'s common stock, par value \$0.01 per share, as of October 30, 2014 was 197,442,432.

Table of Contents

EXPLANATORY NOTE

This report combines the quarterly reports on Form 10-Q for the quarter ended September 30, 2014 of BioMed Realty Trust, Inc., a Maryland corporation, and BioMed Realty, L.P., a Maryland limited partnership of which BioMed Realty Trust, Inc. is the parent company and general partner. Unless otherwise indicated or unless the context requires otherwise, all references in this report to “we,” “us,” “our” or “our company” refer to BioMed Realty Trust, Inc. together with its consolidated subsidiaries, including BioMed Realty, L.P. Unless otherwise indicated or unless the context requires otherwise, all references in this report to “our operating partnership” or “the operating partnership” refer to BioMed Realty, L.P. together with its consolidated subsidiaries.

BioMed Realty Trust, Inc. operates as a real estate investment trust, or REIT, and is the general partner of BioMed Realty, L.P. As of September 30, 2014, BioMed Realty Trust, Inc. owned an approximate 97.4% partnership interest and other limited partners, including some of our directors, executive officers and their affiliates, owned the remaining 2.6% partnership interest (including long term incentive plan units) in BioMed Realty, L.P. As the sole general partner of BioMed Realty, L.P., BioMed Realty Trust, Inc. has the full, exclusive and complete responsibility for the operating partnership’s day-to-day management and control.

There are a few differences between our company and our operating partnership, which are reflected in the disclosure in this report. We believe it is important to understand the differences between our company and our operating partnership in the context of how BioMed Realty Trust, Inc. and BioMed Realty, L.P. operate as an interrelated consolidated company. BioMed Realty Trust, Inc. is a REIT, whose only material asset is its ownership of partnership interests of BioMed Realty, L.P. As a result, BioMed Realty Trust, Inc. does not conduct business itself, other than acting as the sole general partner of BioMed Realty, L.P., issuing public equity from time to time and guaranteeing certain debt of BioMed Realty, L.P. BioMed Realty Trust, Inc. itself does not hold any indebtedness but guarantees some of the secured and unsecured debt of BioMed Realty, L.P. BioMed Realty, L.P. holds substantially all the assets of the company and holds the ownership interests in the company’s joint ventures. BioMed Realty, L.P. conducts the operations of the business and is structured as a partnership with no publicly-traded equity. Except for net proceeds from public equity issuances by BioMed Realty Trust, Inc., which are generally contributed to BioMed Realty, L.P. in exchange for partnership units, BioMed Realty, L.P. generates the capital required by the company’s business through BioMed Realty, L.P.’s operations, by BioMed Realty, L.P.’s direct or indirect incurrence of indebtedness or through the issuance of partnership units.

Noncontrolling interests and stockholders’ equity and partners’ capital are the main areas of difference between the consolidated financial statements of BioMed Realty Trust, Inc. and those of BioMed Realty, L.P. The operating partnership and long term incentive plan units in BioMed Realty, L.P. that are not owned by BioMed Realty Trust, Inc. are accounted for as partners’ capital in BioMed Realty, L.P.’s financial statements and as noncontrolling interests in BioMed Realty Trust, Inc.’s financial statements. The noncontrolling interests in BioMed Realty, L.P.’s financial statements include the interests of joint venture partners. The noncontrolling interests in BioMed Realty Trust, Inc.’s financial statements include the same noncontrolling interests at the BioMed Realty, L.P. level as well as the limited partnership unitholders of BioMed Realty, L.P., not including BioMed Realty Trust, Inc. The differences between stockholders’ equity and partners’ capital result from the differences in the equity issued at the BioMed Realty Trust, Inc. and BioMed Realty, L.P. levels.

We believe combining the quarterly reports on Form 10-Q of BioMed Realty Trust, Inc. and BioMed Realty, L.P. into this single report:

- better reflects how management and the analyst community view the business as a single operating unit,
 - enhances investor understanding of our company by enabling them to view the business as a whole and in the same manner as management,
 - is more efficient for our company and results in savings in time, effort and expense, and
 - is more efficient for investors by reducing duplicative disclosure and providing a single document for their review.
- To help investors understand the significant differences between our company and our operating partnership, this report presents the following separate sections for each of BioMed Realty Trust, Inc. and BioMed Realty, L.P.:
- consolidated financial statements,
 - the following notes to the consolidated financial statements:

Equity / Partners' Capital,
Debt, and

2

Table of Contents

Earnings Per Share / Unit,

Liquidity and Capital Resources in Management's Discussion and Analysis of Financial Condition and Results of Operations, and

Unregistered Sales of Equity Securities and Use of Proceeds.

This report also includes separate Item 4. Controls and Procedures sections and separate Exhibit 31 and 32 certifications for each of BioMed Realty Trust, Inc. and BioMed Realty, L.P. in order to establish that the Chief Executive Officer and the Chief Financial Officer of BioMed Realty Trust, Inc. have made the requisite certifications and BioMed Realty Trust, Inc. and BioMed Realty, L.P. are compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934 and 18 U.S.C. §1350.

BIOMED REALTY TRUST, INC. AND BIOMED REALTY, L.P.

BIOMED REALTY TRUST, INC.

BIOMED REALTY, L.P.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Organization of the Parent Company and Description of Business

BioMed Realty Trust, Inc., a Maryland corporation (the “Parent Company”), operates as a fully integrated, self-administered and self-managed real estate investment trust (“REIT”) focused on acquiring, developing, owning, leasing and managing laboratory and office space for the life science industry principally through its subsidiary, BioMed Realty, L.P., a Maryland limited partnership (the “Operating Partnership” and together with the Parent Company referred to as the “Company”). The Company’s tenants primarily include biotechnology and pharmaceutical companies, scientific research institutions, government agencies and other entities involved in the life science industry. The Company’s properties are generally located in markets with well-established reputations as centers for scientific research, including Boston, San Francisco, San Diego, Maryland, New York/New Jersey, Pennsylvania, North Carolina, Seattle and Cambridge (United Kingdom) and, through Wexford Science & Technology, LLC and related entities (collectively, “Wexford”), with universities and their related medical systems.

The Parent Company is the sole general partner of the Operating Partnership and, as of September 30, 2014, owned a 97.4% interest in the Operating Partnership. The remaining 2.6% interest in the Operating Partnership is held by limited partners. Each partner’s percentage interest in the Operating Partnership is determined based on the number of operating partnership units and long-term incentive plan units (“LTIP units” and together with the operating partnership units, the “OP units”) owned as compared to total OP units (and potentially issuable OP units, as applicable) outstanding as of each period end and is used as the basis for the allocation of net income or loss to each partner.

2. Basis of Presentation and Summary of Significant Accounting Policies

The accompanying interim financial statements are unaudited, but have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and in conjunction with the rules and regulations of the U.S. Securities and Exchange Commission. Accordingly, they do not include all the disclosures required by GAAP for complete financial statements. In the opinion of management, all adjustments and eliminations, consisting of normal recurring adjustments necessary for a fair presentation of the financial statements for these interim periods have been recorded. These financial statements should be read in conjunction with the audited consolidated financial statements and notes therein included in the Company’s annual report on Form 10-K for the year ended December 31, 2013.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company, its wholly-owned subsidiaries, partnerships and limited liability companies it controls, and variable interest entities (“VIEs”) for which the Company has determined itself to be the primary beneficiary. All material intercompany transactions and balances have been eliminated. The Company consolidates entities the Company controls and records a noncontrolling interest for the portions not owned by the Company. Control is determined, where applicable, by the sufficiency of equity invested and the rights of the equity holders, and by the ownership of a majority of the voting interests, with consideration given to the existence of approval or veto rights granted to the minority stockholder. If the minority stockholder holds substantive participating rights, it overcomes the presumption of control by the majority voting interest holder. In contrast, if the minority stockholder simply holds protective rights (such as consent rights over certain actions), it does

not overcome the presumption of control by the majority voting interest holder.

Assets and liabilities of subsidiaries outside the United States with non-U.S. dollar functional currencies are translated into U.S. dollars using exchange rates as of the balance sheet dates. Income and expenses are translated using the average exchange rates for the reporting period. Foreign currency translation adjustments are recorded as a component of other comprehensive income. For the three months ended September 30, 2014 and 2013, total revenues from properties outside the United States were \$6.5 million and \$4.5 million, respectively, which represented 3.8% and 2.8% of the Company's total revenues during the respective periods. For the nine months ended September 30, 2014 and 2013, total revenues from properties outside the United States were \$16.1 million and \$13.5 million, respectively, which represented 3.2% and 2.8% of the Company's total revenues during the respective periods. The Company's net investments in properties outside the United States were \$198.2 million and \$190.2 million at September 30, 2014 and December 31, 2013, respectively.

Investments in Partnerships and Limited Liability Companies

18

Table of Contents

The Company has determined that it is the primary beneficiary in six VIEs (excluding certain VIEs associated with tax credits discussed below), consisting of properties in which a tenant has a fixed-price purchase option, which are consolidated and reflected in the accompanying consolidated financial statements. Selected financial data of these VIEs at September 30, 2014 and December 31, 2013 consist of the following (in thousands):

	September 30, 2014	December 31, 2013
Investment in real estate, net	\$437,927	\$336,832
Total assets	498,975	375,443
Total debt	190,878	143,067
Total liabilities	204,323	154,953

Historic Tax Credits and New Market Tax Credits

The Company is a party to certain contractual arrangements with tax credit investors (“TCIs”) that were established to enable the TCIs to receive the benefits of historic tax credits (“HTCs”) and/or new market tax credits (“NMTCs”) for certain properties owned by Wexford. At September 30, 2014, Wexford owned nine properties that had syndicated HTCs or NMTCs, or both, to TCIs.

Capital contributions are made by TCIs into special purpose entities that ultimately invest these funds in the entity that owns the subject property that generates the tax credits. The TCIs are allocated substantially all of the tax credits and hold only a noncontrolling interest in the economic risk and rewards of the special purpose entities. HTCs are delivered to the TCI upon substantial completion of the project. NMTCs are allowed for up to 39% of a qualified investment and are delivered to the TCI after the investment has been funded and spent on a qualified business. HTCs are subject to 20% recapture per year beginning one year after the completion of the historic rehabilitation of the subject property. NMTCs are subject to 100% recapture until the end of the seventh year following the qualifying investment. The Company has provided the TCIs with certain guarantees which protect the TCIs from loss should a tax credit recapture event occur. The contractual arrangements with the TCIs include a put/call provision whereby the Company may be obligated or entitled to repurchase the ownership interest of the TCIs in the special purpose entities at the end of the tax credit recapture period. The Company anticipates that either the TCIs will exercise their put rights or the Company will exercise its call rights; however, the Company believes that the put rights are more likely to be exercised.

The Company has determined that the special purpose entities are VIEs, since there is insufficient capital to finance their activities without further subordinated financial support. The Company has determined that it is the primary beneficiary of these VIEs, because it has the authority to direct the activities which most significantly impact their economic performance.

The portion of the TCI’s capital contribution that is attributed to the put is recorded at fair-value at inception and is accreted to the expected put price as interest expense in the consolidated statement of income. At September 30, 2014, approximately \$4.4 million of put liabilities were included in other liabilities in the consolidated balance sheets. The remaining balance of the TCI’s capital contribution is initially recorded in other liabilities in the consolidated balance sheets and is reclassified, upon delivery of the tax credit to the TCI, to reduce the carrying value of the subject property, net of allocated expenses. Direct and incremental costs incurred in structuring the transaction, consisting of third-party legal, accounting and other professional fees are deferred and will be recognized as an increase in the cost basis of the subject property upon the recognition of the related tax credit as discussed above. During the nine months ended September 30, 2014, \$22.6 million of tax credits, net of costs and estimated put payments, were contributed by TCIs and recorded as other liabilities in the consolidated balance sheets and \$29.2 million in tax credits were delivered to the TCIs and reclassified as a reduction of the carrying value of the subject property.

The Company has determined that certain special purpose entities owning properties under development are VIEs, since there is insufficient capital to finance the remaining development activities without further subordinated financial support. The Company has determined it is the primary beneficiary of these VIEs, because it has the authority to direct the activities which most significantly impact their economic performance. Selected financial data of the VIEs at September 30, 2014 and December 31, 2013 consisted of the following (in thousands):

19

Impairment of Long-Lived Assets and Long-Lived Assets to be Disposed

The Company reviews long-lived assets and certain identifiable intangibles for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The review of recoverability is based on an estimate of the future undiscounted cash flows (excluding interest charges) expected to result from the long-lived asset's use and eventual disposition. These cash flows consider factors such as expected future operating income, trends and prospects, as well as the effects of leasing demand, competition and other factors. If impairment exists due to the inability to recover the carrying value of a long-lived asset, an impairment loss is recorded to the extent that the carrying value exceeds the estimated fair-value of the property. The Company is required to make subjective assessments as to whether there are impairments in the values of its investments in long-lived assets. These assessments have a direct impact on the Company's net income because recording an impairment loss results in an immediate negative adjustment to net income. The evaluation of anticipated cash flows is highly subjective and is based in part on assumptions regarding future occupancy, rental rates and capital requirements that could differ materially from actual results in future periods. Although the Company's strategy is to hold its properties over the long-term, if the Company's strategy changes or market conditions otherwise dictate an earlier sale date, an impairment loss may be recognized to reduce the property to the lower of the carrying amount or fair-value, and such loss could be material. As of and for the three and nine months ended September 30, 2014, no assets have been identified as impaired and no such impairment losses have been recognized.

Deferred Leasing Costs, Net

Leasing commissions and other direct costs associated with obtaining new or renewal leases are recorded at cost and amortized on a straight-line basis over the terms of the respective leases, with remaining terms ranging from less than one year to approximately 20 years as of September 30, 2014. Deferred leasing costs also include the net carrying value of acquired in-place leases and acquired management agreements.

Deferred leasing costs, net at September 30, 2014 consisted of the following (in thousands):

	\$482,696	\$(284,629)) \$198,067

Investments

Investments in equity securities, which are included in other assets on the accompanying consolidated balance sheets, consisted of the following (in thousands):

	September 30, 2014	December 31, 2013
Available-for-sale securities, historical cost	\$7,297	\$8,543
Unrealized gain, net	22,109	11,023
Available-for-sale securities, fair-value (1)	29,406	19,566
Privately-held securities, cost basis	30,929	18,485
Total equity securities	\$60,335	\$38,051

(1) Determination of fair-value is classified as Level 1 in the fair-value hierarchy based on the use of quoted prices in active markets.

The Company holds investments in available-for-sale securities of certain publicly-traded companies. Changes in the fair-value of investments classified as available-for-sale are recorded in comprehensive income. The fair-value of the Company's equity investments in publicly-traded companies are based upon the closing trading price of the equity security as of the balance sheet date. At September 30, 2014, none of these investments have fair-values less than the Company's cost basis, net of previous other-than-temporary impairment. However, management will continue to periodically evaluate whether any investment, the fair-value of which is less than the Company's cost basis, should be considered other-than-temporarily impaired. If other-than-temporary impairment is considered to exist, the related unrealized loss will be reclassified from accumulated other comprehensive loss and recorded as a reduction of net income.

The Company also holds investments in securities of certain privately-held companies and funds, which are recorded at cost basis due to the Company's lack of control or significant influence over such companies and funds.

During the nine months ended September 30, 2014, the Company recorded a \$1.3 million impairment charge, which is included in other expense in the consolidated statements of income. The impairment charge related to the Company's investment in a privately-held company. Other than this investment there were no identified events or changes in circumstances that may have a significant adverse effect on the carrying value of the Company's cost basis investments and therefore, no evaluation of impairment was performed during the nine months ended September 30, 2014 on the Company's remaining cost basis investments.

Construction Loan Receivable

The Company had a \$255.0 million interest in a \$355.0 million construction loan secured by first priority mortgages on a 1.1 million square foot laboratory, office and retail development project located in Boston, Massachusetts, which is 95% leased to Vertex Pharmaceuticals Incorporated to serve as its new corporate headquarters (the "Construction Loan"). As of December 31, 2013, the Company had invested approximately \$151.8 million in the Construction Loan, which is included in other assets on the Company's consolidated balance sheets. In May 2014, the borrower repaid the

then outstanding principal and accrued interest balance prior to maturity, of which the Company's portion was approximately \$191.2 million. The Company also received prepayment fees of approximately \$8.1 million, resulting in other revenue of \$7.5 million, net of deferred loan fees write-offs.

Lease Termination

During the three and nine months ended September 30, 2014, the Company recorded lease termination revenue, net of write-offs of lease intangibles, included in other revenue on the consolidated statements of income of approximately \$3.3 million and \$9.8 million, respectively. Lease termination revenue for the three months ended September 30, 2014 primarily related to the

Table of Contents

early termination of leases at two of the Company's properties. For the nine months ended September 30, 2014, lease termination revenue also included the early termination of leases at the Company's 4570 Executive Drive property. During the three and nine months ended September 30, 2013, the Company recorded lease termination revenue, net of write-offs of lease intangibles, included in other revenue on the consolidated statements of income of approximately \$1.5 million and \$42.8 million, respectively. Lease termination revenue for the nine months ended September 30, 2013 primarily related to the termination of a lease with Elan Corporation at the Company's Science Center at Oyster Point property for which Elan paid the Company \$46.5 million. The impact of the Elan lease termination was recognized through the date of the termination of the lease in April 2013.

Management's Estimates

Management has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reporting of revenue and expenses during the reporting period to prepare these consolidated financial statements in conformity with GAAP. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and reported amounts of revenue and expenses that are not readily apparent from other sources. Actual results could differ from those estimates under different assumptions or conditions.

3. Equity of the Parent Company

During the nine months ended September 30, 2014, the Parent Company issued restricted stock awards to the Company's employees and directors totaling 565,107 and 22,555 shares of common stock, respectively (218,663 shares of common stock were surrendered to the Company and subsequently retired in lieu of cash payments for taxes due on the vesting of restricted stock and 7,702 shares were forfeited during the same period), which are included in the total of common stock outstanding as of the period end.

During the three months ended September 30, 2014, at the request of the holders that exercised their exchange right pursuant to the terms of the Operating Partnership's Exchangeable Senior Notes due 2030 (the "Exchangeable Senior Notes"), the Parent Company issued 4,955,377 shares of its common stock in exchange for approximately \$84.3 million in aggregate principal amount of the Exchangeable Senior Notes.

The Parent Company awarded units to certain of its executive officers (the "Performance Units"), which represent a contingent right to receive one share of the Parent Company's common stock if vesting conditions are satisfied. Outstanding Performance Units vest ratably over two or three year periods (each, a "Performance Period") based upon the Parent Company's total stockholder return relative to its peer group (the "Market Conditions"). The grant date fair-value of the Performance Units was estimated using a Monte Carlo simulation which considered the likelihood of achieving the Market Conditions. The expected value of the Performance Units on the grant date was determined by simulating the total stockholder return for the Parent Company and the peer group, considering the stock price variance for each of the peer group companies compared to each other and the Parent Company. In January 2014, of the 136,296 Performance Units which were originally granted to certain executive officers in January 2012 and represent the maximum number of Performance Units that could have vested, 20,224 Performance Units vested (resulting in the issuance of 20,224 shares of the Parent Company's common stock, 7,243 shares of which were surrendered to the Company and subsequently retired in lieu of cash payments for taxes due on the vesting of the Performance Units) and the remaining 116,072 Performance Units were forfeited, based on the Parent Company's total stockholder return relative to its peer group for the two years ended December 31, 2013. During the nine months ended September 30, 2014, the Parent Company awarded 494,410 Performance Units which represent the maximum number of Performance Units that may vest and which vest over a three-year Performance Period. The grant date fair-value of these awards of approximately \$3.8 million will be recognized as compensation expense on a

straight-line basis over each respective Performance Period. The total compensation remaining on the Performance Units granted during the nine months ended September 30, 2014 to be expensed in future periods over a weighted-average term of approximately 2.3 years was \$2.9 million as of September 30, 2014. No dividends will be paid or accrued on the Performance Units, and shares of the Parent Company's common stock will not be issued until vesting of the Performance Units occurs.

Common Stock, Operating Partnership Units and LTIP Units

As of September 30, 2014, the Company had outstanding 197,455,157 shares of the Parent Company's common stock and 5,083,400 and 322,074 operating partnership and LTIP units, respectively (excluding operating partnership units held by the Parent Company). A share of the Parent Company's common stock and the operating partnership and LTIP units have essentially the same economic characteristics as they share equally in the total net income or loss and distributions of the Operating Partnership.

Dividends and Distributions

22

Table of Contents

The following table lists the dividends and distributions declared by the Parent Company and the Operating Partnership during the nine months ended September 30, 2014:

Declaration Date	Securities Class	Amount Per Share/Unit	Period Covered	Dividend and Distribution Payable Date	Dividend and Distribution Amount (In thousands)
March 17, 2014	Common stock and OP units	\$0.250	January 1, 2014 to March 31, 2014	April 15, 2014	\$49,479
June 16, 2014	Common stock and OP units	\$0.250	April 1, 2014 to June 30, 2014	July 15, 2014	\$49,483
September 15, 2014	Common stock and OP units	\$0.250	July 1, 2014 to September 30, 2014	October 15, 2014	\$50,714

Changes in Accumulated Other Comprehensive Loss by Component

The following table shows the changes in accumulated other comprehensive loss for the Parent Company for the nine months ended September 30, 2014, by component (in thousands):

	Foreign currency translation adjustments	Unrealized gains on available-for-sale securities	Gain / (loss) on derivative instruments	Total
Balance at December 31, 2013	\$3,905	\$ 8,938	\$(45,766)	\$(32,923)
Other comprehensive (loss) / income before reclassifications	(484)	20,300	(3,426)	16,390
Amounts reclassified from accumulated other comprehensive income (1)	—	(9,322)	7,729	(1,593)
Net other comprehensive (loss) / income	\$(484)	\$ 10,978	\$4,303	\$14,797
Net other comprehensive loss / (income) allocable to noncontrolling interests	13	(2,689)	(113)	(2,789)
Balance as of September 30, 2014	\$3,434	\$ 17,227	\$(41,576)	\$(20,915)

Amounts reclassified from unrealized gain on available-for-sale securities are included in other income, net in the consolidated statements of income. Amounts reclassified from loss on derivative instruments are included in (1) interest expense, net in the consolidated statements of income. See Note 9 for further information on derivative instruments.

Noncontrolling Interests

Noncontrolling interests on the consolidated balance sheets of the Parent Company relate primarily to the OP units in the Operating Partnership that are not owned by the Parent Company. With respect to the noncontrolling interests in the Operating Partnership, noncontrolling interests with redemption provisions that permit the issuer to settle in either cash or common stock at the option of the issuer are further evaluated to determine whether temporary or permanent equity classification on the balance sheet is appropriate. Because the OP units comprising the noncontrolling interests contain such a provision, the Company evaluated this guidance, including the requirement to settle in unregistered shares, and determined that the OP units meet the requirements to qualify for presentation as permanent equity.

The Company evaluates individual redeemable noncontrolling interests for the ability to continue to recognize the noncontrolling interest as permanent equity in the consolidated balance sheets. Any redeemable noncontrolling interest that fails to qualify as permanent equity will be reclassified as temporary equity and adjusted to the greater of (1) the carrying amount, or (2) its redemption value at the end of the period in which the determination is made.

The redemption value of the OP units not owned by the Parent Company, had such units been redeemed at September 30, 2014, was approximately \$110.8 million based on the average closing price of the Parent Company's common stock of \$20.50 per share for the ten consecutive trading days immediately preceding September 30, 2014.

The following table shows the vested ownership interests in the Operating Partnership:

Table of Contents

	September 30, 2014		December 31, 2013			
	Operating Partnership Units and LTIP Units	Percentage of Total		Operating Partnership Units and LTIP Units	Percentage of Total	
BioMed Realty Trust	196,034,482	97.4	%	190,676,428	97.3	%
Noncontrolling interest consisting of:						
Operating partnership and LTIP units held by employees and related parties	2,645,888	1.3	%	2,656,388	1.4	%
Operating partnership and LTIP units held by third parties	2,627,145	1.3	%	2,627,145	1.3	%
Total	201,307,515	100.0	%	195,959,961	100.0	%

4. Capital of the Operating Partnership

Operating Partnership Units and LTIP Units

As of September 30, 2014, the Operating Partnership had outstanding 202,538,557 operating partnership units and 322,074 LTIP units. The Parent Company owned 97.4% of the partnership interests in the Operating Partnership at September 30, 2014, is the Operating Partnership's general partner and is responsible for the management of the Operating Partnership's business. As the general partner of the Operating Partnership, the Parent Company effectively controls the ability to issue common stock of the Parent Company upon a limited partner's notice of redemption. In addition, the Parent Company has generally acquired OP units upon a limited partner's notice of redemption in exchange for shares of its common stock. The redemption provisions of OP units owned by limited partners that permit the Parent Company to settle in either cash or common stock at the option of the Parent Company are further evaluated in accordance with applicable accounting guidance to determine whether temporary or permanent equity classification on the balance sheet is appropriate. The Operating Partnership evaluated this guidance, including the requirement to settle in unregistered shares, and determined that these OP units meet the requirements to qualify for presentation as permanent equity.

The redemption value of the OP units owned by the limited partners, not including the Parent Company, had such units been redeemed at September 30, 2014, was approximately \$110.8 million based on the average closing price of the Parent Company's common stock of \$20.50 per share for the ten consecutive trading days immediately preceding September 30, 2014.

Changes in Accumulated Other Comprehensive Loss by Component

The following table shows the changes in accumulated other comprehensive loss for the Operating Partnership for the nine months ended September 30, 2014, by component (in thousands):

	Foreign currency translation adjustments	Unrealized gains on available-for-sale securities	Gain / (loss) on derivative instruments	Total
Balance at December 31, 2013	\$4,006	\$9,186	\$(43,855)	\$(30,663)
Other comprehensive (loss) / income before reclassifications	(484)	20,300	\$(3,426)	16,390

Amounts reclassified from accumulated other comprehensive income (1)

Net other comprehensive (loss) / income	\$ (484)	\$ 10,978	\$ 4,303	\$ 14,797		
Net other comprehensive income allocable to noncontrolling interest	—	(2,461)	—	(2,461)	
Balance as of September 30, 2014	\$ 3,522		\$ 17,703	\$ (39,552)	\$ (18,327)

(1) Amounts reclassified from unrealized gain on available-for-sale securities are included in other income, net in the consolidated statements of income. Amounts reclassified from loss on derivative instruments are included in interest expense, net in the consolidated statements of income. See Note 9 for further information on derivative instruments.

Table of Contents

5. Debt

Debt of the Parent Company

The Parent Company does not hold any indebtedness. All debt is held directly or indirectly by the Operating Partnership; however, the Parent Company has guaranteed the Operating Partnership's Exchangeable Senior Notes, Unsecured Senior Notes due 2016 (the "Notes due 2016"), Unsecured Senior Notes due 2019 (the "Notes due 2019"), Unsecured Senior Notes due 2020 (the "Notes due 2020"), Unsecured Senior Notes due 2022 (the "Notes due 2022"), Unsecured Senior Term Loan due 2017 (the "Term Loan due 2017"), Unsecured Senior Term Loan due 2018 (the "Term Loan due 2018") and unsecured line of credit.

Debt of the Operating Partnership

The following is a summary of the Operating Partnership's outstanding consolidated debt as of September 30, 2014 and December 31, 2013 (dollars in thousands):

	Stated Interest Rate	Effective Interest Rate	Principal Balance		Maturity Date
			September 30, 2014	December 31, 2013

Table of Contents

- (1) On April 1, 2014, the Operating Partnership repaid in full the mortgage loan secured by the Company's Center for Life Science | Boston property prior to its scheduled maturity date.
- (2) Mortgage notes payable assumed on April 4, 2014 in connection with the acquisition of the related properties. In August 2012, the Operating Partnership converted approximately \$156.4 million of outstanding borrowings into British pounds sterling ("GBP") equal to £100.0 million, which was designated as a net investment hedge to mitigate the risk of fluctuations in foreign currency exchange rates. The principal balance represents the U.S. dollar amount based on the exchange rates of \$1.62 to £1.00 and \$1.65 to £1.00 at September 30, 2014 and December 31, 2013, respectively. The effective interest rate includes the impact of interest rate swap agreements (see Note 9 for further discussion of interest rate swap agreements).
- (3)
- (4) At September 30, 2014, the Operating Partnership had additional borrowing capacity under the unsecured line of credit of up to approximately \$671.0 million.

Exchangeable Senior Notes

During the three months ended September 30, 2014, at the request of the holders that exercised their exchange right pursuant to the terms of the Operating Partnership's Exchangeable Senior Notes, the Parent Company issued 4,955,377 shares of its common stock in exchange for approximately \$84.3 million in aggregate principal amount of the Exchangeable Senior Notes.

Notes due 2019

On April 23, 2014, the Operating Partnership issued \$400.0 million aggregate principal amount of its Notes due 2019. The Notes due 2019 are senior unsecured obligations of the Operating Partnership and rank equally in right of payment with all other senior unsecured indebtedness of the Operating Partnership. However, the Notes due 2019 are effectively subordinated to the Operating Partnership's existing and future mortgages and other secured indebtedness (to the extent of the value of the collateral securing such indebtedness) and to all existing and future preferred equity and liabilities, whether secured or unsecured, of the Operating Partnership's subsidiaries. The Notes due 2019 bear interest at 2.625% per annum, priced at 99.408% of the principal amount to yield 2.752% to maturity. Interest is payable on May 1 and November 1 of each year beginning November 1, 2014 until the maturity date of May 1, 2019. The Operating Partnership's obligations under the Notes due 2019 are fully and unconditionally guaranteed by the Parent Company.

Net Investment Hedge

The Operating Partnership designated the GBP denominated debt under the Term Loan due 2017 as a net investment hedge. The Operating Partnership entered into this net investment hedge to protect a designated amount of the Operating Partnership's net investment in a GBP functional currency subsidiary against the risk of adverse changes in the GBP/U.S. dollar exchange rate (foreign exchange risk). Variability in the GBP/U.S. dollar exchange rate impacts the Operating Partnership (a U.S. dollar functional currency entity) as the financial statements of the GBP functional currency subsidiary are translated each period, with the effect of changes in the GBP/U.S. dollar exchange rate being recorded in accumulated other comprehensive income. When the net investment is sold or substantially liquidated, the balance of the translation adjustment accumulated in other comprehensive income will be reclassified into earnings. The Operating Partnership is hedging the risk of changes in the U.S. dollar equivalent value of a portion of its net investment in its GBP subsidiary attributable to changes in the GBP/U.S. dollar exchange rate during the period of investment during which the hedging instrument is outstanding.

Maturities of Long-Term Debt

Edgar Filing: BioMed Realty Trust Inc - Form 10-Q

As of September 30, 2014, principal payments due for the Operating Partnership's consolidated indebtedness (excluding debt premiums and discounts) were as follows (in thousands):

2014	\$2,080
2015	31,784
2016	629,632
2017	438,182
2018	626,804
Thereafter (1)	1,117,203
	\$2,845,685

Table of Contents

- (1) Includes approximately \$95.7 million in remaining principal payments of the Exchangeable Senior Notes based on a contractual maturity date of January 15, 2030.

6. Earnings Per Share of the Parent Company

Through September 30, 2014 all of the Company's participating securities (including the OP units) received dividends/distributions at an equal dividend/distribution rate per share/unit. As a result, the portion of net income allocable to the weighted-average unvested restricted stock outstanding for the three and nine months ended September 30, 2014 and 2013 has been deducted from net income available to common stockholders to calculate basic earnings per share. The calculation of diluted earnings per share for the three and nine months ended September 30, 2014 and 2013 includes the outstanding OP units (both vested and unvested) in the weighted-average shares, and net income attributable to noncontrolling interests in the Operating Partnership has been added back to net income available to common stockholders. For the three and nine months ended September 30, 2014 and 2013, the Performance Units were dilutive to the calculation of diluted earnings per share as calculated, assuming that September 30, 2014 and 2013 were the end dates of the respective Performance Units' Performance Periods. For the three and nine months ended September 30, 2014 and 2013, the unvested restricted stock was anti-dilutive to the calculation of diluted earnings per share and was therefore excluded. As a result, diluted earnings per share was calculated based upon net income available to common stockholders less net income allocable to unvested restricted stock and distributions in excess of earnings attributable to unvested restricted stock. Additionally, 7,589,600 and 9,571,008 shares issuable upon settlement of the exchange feature of the Exchangeable Senior Notes were anti-dilutive and were not included in the calculation of diluted earnings per share based on the "if converted" method for the three and nine months ended September 30, 2014, respectively. For the three and nine months ended September 30, 2013, 10,405,224 shares issuable upon settlement of the exchange feature of the Exchangeable Senior Notes were anti-dilutive and were not included in the calculation of diluted earnings per share based on the "if converted" method for each period. No other shares were considered anti-dilutive for the three and nine months ended September 30, 2014 or 2013.

Computations of basic and diluted earnings per share (in thousands, except share data) were as follows:

Table of Contents

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014	2013
Basic earnings per share:				
Net income	\$ 16,976	\$ 4,136	\$ 56,841	\$ 36,633

Basic and diluted earnings per share:				
Net income per share available to common stockholders - basic and diluted	\$ 0.08	\$ 0.02	\$ 0.27	\$ 0.15

7. Earnings Per Unit of the Operating Partnership

Through September 30, 2014, all of the Operating Partnership's participating securities received distributions at an equal distribution rate per unit. As a result, the portion of net income allocable to the weighted-average unvested OP units outstanding for the three and nine months ended September 30, 2014 and 2013, has been deducted from net income available to unitholders to calculate basic earnings per unit. For the three and nine months ended September 30, 2014 and 2013, the unvested OP units were anti-dilutive to the calculation of earnings per unit and were therefore excluded from the calculation of diluted earnings per unit, and diluted earnings per unit was calculated based upon net income attributable to unitholders. For the three and nine months ended September 30, 2014 and 2013, the Performance Units were dilutive to the calculation of diluted earnings per unit as calculated, assuming that September 30, 2014 and 2013 were the end dates of the respective Performance Units' Performance Periods. Additionally, 7,589,600 and 9,571,008 units issuable upon settlement of the exchange feature of the Exchangeable Senior Notes were anti-dilutive and were not included in the calculation of diluted earnings per unit based on the "if converted" method for the three and nine months ended September 30, 2014, respectively. For the three and nine months ended September 30, 2013,

Table of Contents

10,405,224 shares issuable upon settlement of the exchange feature of the Exchangeable Senior Notes were anti-dilutive and were not included in the calculation of diluted earnings per share based on the “if converted” method for each period. No other units were considered anti-dilutive for the three and nine months ended September 30, 2014 or 2013.

Computations of basic and diluted earnings per unit (in thousands, except unit data) were as follows:

	Three Months Ended September 30, 2014		Nine Months Ended September 30, 2013	
Basic and diluted earnings per unit:				
Net income	\$ 16,976	\$ 4,136	\$ 56,841	\$ 36,633
(Income) / loss attributable to noncontrolling interests	(587) 229	(1,948) 266

Diluted	199,574,893	196,131,643	197,651,357	183,120,286
Basic and diluted earnings per unit:				
Net income per unit available to unitholders - basic and diluted	\$ 0.08	\$ 0.02	\$ 0.27	\$ 0.15

8. Investment in Unconsolidated Partnerships

The accompanying consolidated financial statements include investments in two limited liability companies with Prudential Real Estate Investors (“PREI”), 10165 McKellar Court, L.P. (“McKellar Court”), a limited partnership with Quidel Corporation, the tenant which occupies the McKellar Court property, and BioPark Fremont, LLC (“BioPark Fremont”), a limited liability company with RPC Poppleton, LLC. General information on the PREI limited liability companies, the McKellar Court partnership and BioPark Fremont (each referred to in this footnote individually as a “partnership” and collectively as the “partnerships”) as of September 30, 2014 was as follows:

Name	Partner	Company's Ownership Interest	Company's Economic Interest	Date Acquired
PREI I LLC (1)	PREI	20%	20%	April 4, 2007
PREI II LLC	PREI	20%	20%	April 4, 2007
McKellar Court (2)	Quidel Corporation	22%	22%	September 30, 2004
BioPark Fremont	RPC Poppleton, LLC	50%	50%	May 31, 2013

(1) PREI I LLC owns two properties in Cambridge, Massachusetts. At September 30, 2014, there were \$139.0 million in outstanding borrowings on a secured loan facility held by a wholly-owned subsidiary of PREI I LLC, with a contractual interest rate of 2.21% (including the applicable credit spread) and a maturity date of August 13, 2015 (with an option to extend the maturity date to August 13, 2016 at its discretion after satisfying certain conditions

and paying an extension fee).

(2) The Company's investment in the McKellar Court partnership (maximum exposure to losses) was approximately \$11.9 million at September 30, 2014. The Company's economic interest in the McKellar Court partnership entitles it to 75% of the extraordinary cash flows after repayment of the partners' capital contributions and 22% of the operating cash flows.

The condensed combined balance sheets for all of the Company's unconsolidated partnerships were as follows (in thousands):

	September 30, 2014	December 31, 2013
Assets:		
Investments in real estate, net	\$270,040	\$262,753
Cash and cash equivalents (including restricted cash)	12,235	3,855
Other assets	10,530	5,301
Total assets	\$292,805	\$271,909
Liabilities and members' equity:		
Mortgage notes payable and secured loan	\$152,036	\$151,968
Other liabilities	11,425	12,102
Members' equity	129,344	107,839
Total liabilities and members' equity	\$292,805	\$271,909
Company's net investment in unconsolidated partnerships	\$36,275	\$32,137

Table of Contents

The selected data and condensed results of operations for the unconsolidated partnerships were as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2014	2013	2014	2013
Total revenues	\$18,173	\$3,778	\$27,386	\$9,486
Total expenses	(15,693)	(5,328)	(27,681)	(16,013)
Net income / (loss)	\$2,480	\$(1,550)	\$(295)	\$(6,527)
Company's equity in net income / (loss) of unconsolidated partnerships	\$733	\$(112)	\$585	\$(697)
Fees earned by the Company (1)	\$140	\$35	\$678	\$121

The Company acts as the operating member or partner, as applicable, and day-to-day manager for the partnerships. (1) The Company is entitled to receive fees for providing construction and development services (as applicable) and management services to the PREI joint ventures, which are reflected in tenant recoveries and other income in the consolidated statements of income.

9. Derivatives and Other Financial Instruments

The Company is exposed to the effect of changes in interest rates on the Operating Partnership's U.S. dollar-LIBOR-based and GBP-LIBOR-based debt. The Company limits this risk by following established risk management policies and procedures including the use of derivatives. The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements related to the Operating Partnership's LIBOR-based debt. To accomplish these objectives, the Company primarily uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. The interest rate swaps hedge the Company's exposure to the variability on expected cash flows attributable to changes in interest rates. These interest rate swaps are currently intended to hedge interest payments associated with the Operating Partnership's Term Loan due 2017 and Term Loan due 2018.

As of September 30, 2014, the Company had deferred interest costs of approximately \$30.3 million in accumulated other comprehensive loss related to forward starting swaps, which were settled with the corresponding counterparties in 2009. The forward starting swaps were entered into to mitigate the Company's exposure to the variability in expected future cash flows attributable to changes in future interest rates associated with a forecasted issuance of fixed-rate debt, with interest payments for a minimum of ten years. The deferred interest costs will be amortized as additional interest expense over a remaining period of approximately four years.

The following is a summary of the terms of the interest rate swaps, other derivatives and their respective fair-values (dollars in thousands):

Table of Contents

	Notional Amount	Strike Rate	Effective Date	Expiration Date	Fair-Value(1)	
					September 30, 2014	December 31, 2013
Interest rate swaps	\$200,000	1.1630 %	March 30, 2012	March 30, 2017	\$(1,259)	\$(1,876)
Interest rate swaps	200,000	0.7010 %	October 1, 2013	October 1, 2016	(68)	(288)
Interest rate swaps(2)	81,140	0.7310 %	August 2, 2012	March 30, 2017	968	1,545
Interest rate swaps(2)	81,140	0.7425 %	August 2, 2012	March 30, 2017	943	1,519
Total interest rate swaps	\$562,280				584	900
Other derivatives					118	416
Total					\$702	\$1,316

(1) Fair-value of derivative instruments does not include any related accrued interest payable, which is included in accrued expenses on the accompanying consolidated balance sheets. Derivative valuations are classified in Level 2 of the fair-value hierarchy. Assets are included in other assets and liabilities are included in accounts payable, accrued expenses and other liabilities on the accompanying consolidated balance sheets.

(2) Translations to U.S. dollars are based on exchange rates of \$1.62 to £1.00 and \$1.65 to £1.00 at September 30, 2014 and December 31, 2013, respectively.

For derivatives designated as cash flow hedges, the effective portion of changes in the fair-value of the derivative is initially reported in other comprehensive income (outside of earnings) and subsequently reclassified to earnings in the period in which the hedged forecasted transaction affects earnings. During the three and nine months ended September 30, 2014 and 2013, such derivatives were used to hedge the variable cash flows associated with existing variable-rate debt. The ineffective portion of the change in fair-value of the derivatives is recognized directly in earnings. No portion of the derivatives designated as cash flow hedges were classified as ineffective during the three and nine months ended September 30, 2014 and 2013.

The following is a summary of the amount of loss recognized in other comprehensive income related to the derivative instruments (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2014	2013	2014	2013
Amount of (loss) / income recognized in other comprehensive income (effective portion):				
Cash flow hedges				
Interest rate swaps	\$(726)	\$(1,371)	\$(3,426)	\$2,653
Amount of loss reclassified from accumulated other comprehensive loss to earnings(effective portion):				
Cash flow hedges				
Interest rate swaps (1)	\$895	\$600	\$2,677	\$1,752
Forward starting swaps (2)	1,677	1,705	5,052	5,134
Total interest rate swaps	\$2,572	\$2,305	\$7,729	\$6,886

Amount represents payments made to swap counterparties for the effective portion of interest rate swaps that were (1) recognized as an increase to interest expense for the periods presented (the amount was recorded as an increase and corresponding decrease to accumulated other comprehensive loss in the same accounting period).

(2)

Amount represents reclassifications of deferred interest costs from accumulated other comprehensive loss to interest expense related to the Company's previously settled forward starting swaps.

During the next twelve months, the Company estimates that an additional \$9.5 million will be reclassified from accumulated other comprehensive loss as an increase to interest expense.

Table of Contents

During the three and nine months ended September 30, 2014, the Company recorded total unrealized loss on derivative instruments of \$190,000 and \$298,000, respectively, related to changes in the fair-value of other derivative instruments, included in other income, net in the consolidated statements of income.

10. Fair-Value of Financial Instruments

The Company's disclosures of estimated fair-value of financial instruments at September 30, 2014 and December 31, 2013 were determined using available market information and appropriate valuation methods. Considerable judgment is necessary to interpret market data and develop estimated fair-value. The use of different market assumptions or estimation methods may have a material effect on the estimated fair-value amounts.

The carrying amounts for cash and cash equivalents, accounts receivable, accounts payable, accrued expenses and other liabilities approximate fair-value due to the short-term nature of these instruments.

The Company utilizes quoted market prices to estimate the fair-value of its fixed-rate and variable-rate debt, when available. If quoted market prices are not available, the Company calculates the fair-value of its fixed-rate mortgage notes payable and other fixed-rate debt based on a currently available market rate assuming the loans are outstanding through maturity and considering the collateral. In determining the current market rate for fixed-rate debt, a market credit spread is added to the quoted yields on federal government treasury securities with similar terms to debt. In determining the current market rate for variable-rate debt, a market credit spread is added to the current effective interest rate. The carrying values of interest rate swaps are reflected at their fair-values.

At September 30, 2014 and December 31, 2013, the aggregate fair-value and the carrying value of the Company's financial instruments were as follows (in thousands):

	September 30, 2014		December 31, 2013	
	Fair-Value (1)	Carrying Value	Fair-Value (1)	Carrying Value
Mortgage notes payable, net	\$484,685	\$478,543	\$730,394	\$709,324
Exchangeable Senior Notes	113,259	95,678	202,626	180,000
Notes due 2016, net	415,680	399,171	417,040	398,787
Notes due 2019, net	414,800	397,785	—	—
Notes due 2020, net	285,025	248,388	275,600	248,210
Notes due 2022, net	256,000	248,227	240,400	248,086
Term Loan due 2017 - U.S. dollar	243,000	243,596	244,751	243,596
Term Loan due 2017 - GBP (2)	161,885	162,280	165,969	165,190
Term Loan due 2018	346,431	350,000	350,000	350,000
Unsecured line of credit	227,438	229,000	128,000	128,000
Derivative instruments (3)	(702) (702) (1,316) (1,316
Available-for-sale securities	29,406	29,406	19,566	19,566

(1) Fair-values of debt and derivative instruments are classified in Level 2 of the fair-value hierarchy. Fair-value of available-for-sale securities are classified in Level 1 of the fair-value hierarchy.

(2) The principal balance represents the U.S. dollar amount based on the exchange rate of \$1.62 to £1.00 and \$1.65 to £1.00 at September 30, 2014 and December 31, 2013, respectively.

(3) The Company's derivative instruments are reflected in other assets and in accounts payable, accrued expenses and other liabilities on the accompanying consolidated balance sheets based on their respective balances (see Note 9).

Note 11. Acquisitions

The Company acquired the following properties during the nine months ended September 30, 2014. The table below reflects the preliminary purchase price allocation for these acquisitions (in thousands). The Company expects the purchase price allocations to be finalized within one year of the acquisition date.

Table of Contents

Property	Acquisition Date	Investments in Real Estate	Above Market Lease	Below Market Lease	Below Market Ground Lease	In-Place Lease	Debt Premium	Acquisition Date Fair-Value
100 College Street (1)	April 4, 2014	\$ 63,361	\$—	\$—	\$—	\$33,239	\$—	\$ 96,600
300 George Street (2)	April 4, 2014	107,021	63	(3,926)	—	17,808	(3,966)	117,000
430 Cambridge Science Center (3)	May 15, 2014	—	—	—	3,836	—	—	3,836
Total		\$ 170,382	\$63	\$(3,926)	\$3,836	\$51,047	\$(3,966)	\$ 217,436
Weighted average intangible amortization life (in months)			21	143	1500	159	135	

(1) The property is currently under construction in New Haven, Connecticut and is expected to be a 510,419 square foot laboratory and office building. The total project investment is expected to be approximately \$191.0 million, comprised of (1) approximately \$89.0 million in cash, assumption of mortgage notes payable and a noncontrolling interest of Winstanley Enterprises LLC and affiliates, which will also continue to provide construction and property management services for the property, and (2) approximately \$102.0 million of remaining construction costs. As of April 4, 2014, Winstanley Enterprises LLC and affiliates retained an approximate 25% noncontrolling interest. On June 3, 2014, Winstanley Enterprises LLC's and its affiliates' noncontrolling interest was reduced to approximately 7% as a result of additional investments by the Company. Upon completion of construction and repayment of the related construction loan, the Company expects Winstanley Enterprises LLC's and its affiliates' noncontrolling interest in the property to be reduced to approximately 2.5%.

(2) The property is a 518,940 square foot laboratory and office building in New Haven, Connecticut. The total consideration also included the assumption of \$46.3 million of mortgage notes payable and a 7% noncontrolling interest of Winstanley Enterprises LLC, which will also continue to provide property management services for the property.

(3) The property is currently under construction in Cambridge, United Kingdom and is expected to be a 42,410 square foot laboratory and office building. The total project investment is expected to be approximately \$24.4 million.

Revenues of approximately \$4.7 million and net loss of approximately \$40,000 associated with properties acquired in 2014 listed above are included in the consolidated statements of income for the three months ended September 30, 2014 for both the Parent Company and the Operating Partnership.

Revenues of approximately \$9.2 million and net loss of approximately \$318,000 associated with properties acquired in 2014 listed above are included in the consolidated statements of income for the nine months ended September 30, 2014 for both the Parent Company and the Operating Partnership.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

As used herein, the terms "we," "us," "our" or the "Company" refer to BioMed Realty Trust, Inc., a Maryland corporation, and any of our subsidiaries, including BioMed Realty, L.P., a Maryland limited partnership of which BioMed Realty Trust, Inc. is the parent company and general partner, which may be referred to herein as the "operating partnership." The following discussion should be read in conjunction with the consolidated financial statements and notes thereto appearing elsewhere in this report. We make statements in this report that are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. In particular, statements pertaining to our capital

resources, portfolio performance and results of operations contain forward-looking statements. Forward-looking statements involve numerous risks and uncertainties and you should not rely on them as predictions of future events. Forward-looking statements depend on assumptions, data or methods which may be incorrect or imprecise, and we may not be able to realize them. We do not guarantee that the transactions and events described will happen as described (or that they will happen at all). You can identify forward-looking statements by the use of forward-looking terminology such as “believes,” “expects,” “may,” “will,” “should,” “seeks,” “approximately,” “intends,” “plans,” “estimates” or the negative of these words and phrases or similar words or phrases. You can also identify forward-looking statements by discussions of strategy, plans or intentions. The following factors, among others, could cause actual results and future events to differ materially from those set forth or contemplated in the forward-looking statements: adverse economic or real estate developments in the life science industry or in our target markets, including the inability of our tenants to obtain funding to run their businesses; our dependence upon significant tenants; our failure to obtain necessary outside financing on favorable terms or at all, including the continued availability of our unsecured line of credit; general economic

Table of Contents

conditions, including downturns in the foreign, domestic and local economies; changes in interest rates and foreign currency exchange rates; volatility in financial and securities markets; defaults on or non-renewal of leases by tenants; our inability to compete effectively; increased operating costs; our inability to successfully complete real estate acquisitions, developments and dispositions; risks and uncertainties affecting property development and construction; risks associated with tax credits, grants and other subsidies to fund development activities; our failure to effectively manage our growth and expansion into new markets or to successfully operate acquired properties and companies; our ownership of properties outside of the United States that subject us to different and potentially greater risks than those associated with our domestic operations; risks associated with our investments in loans, including borrower defaults and potential principal losses; reductions in asset valuations and related impairment charges; the loss of services of one or more of our executive officers; our failure to qualify or continue to qualify as a REIT; our failure to maintain our investment grade corporate credit ratings or a downgrade in our investment grade corporate credit ratings from one or more of the rating agencies; government approvals, actions and initiatives, including the need for compliance with environmental requirements; the effects of earthquakes and other natural disasters; lack of or insufficient amounts of insurance; risks associated with security breaches and other disruptions to our information technology networks and related systems; and changes in real estate, zoning and other laws and increases in real property tax rates. We disclaim any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The risks included here are not exhaustive, and additional factors could adversely affect our business and financial performance, including factors and risks included in other sections of this report. In addition, we discussed a number of material risks in our annual report on Form 10-K for the year ended December 31, 2013. Those risks continue to be relevant to our performance and financial condition. Moreover, we operate in a very competitive and rapidly changing environment. New risk factors emerge from time to time and it is not possible for management to predict all such risk factors, nor can it assess the impact of all such risk factors on our company's business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results.

Overview

We operate as a fully integrated, self-administered and self-managed REIT focused on acquiring, developing, owning, leasing and managing laboratory and office space for the life science industry. Our tenants primarily include biotechnology and pharmaceutical companies, scientific research institutions, government agencies and other entities involved in the life science industry. Our properties are generally located in markets with well-established reputations as centers for scientific research, including Boston, San Francisco, San Diego, Maryland, New York/New Jersey, Pennsylvania, North Carolina, Seattle and Cambridge (United Kingdom) and, through Wexford Science & Technology, LLC and related entities, or Wexford, with universities and their related medical systems.

At September 30, 2014, we owned or had interests in a portfolio of properties with an aggregate of approximately 17.2 million rentable square feet.

The following reflects the classification of our properties between operating properties, development properties (existing properties that are currently under development through ground up construction), redevelopment properties (properties that are currently being prepared for their intended use), unconsolidated partnership properties (properties which we partially own, but are not included in our consolidated financial statements), pre-development properties (development properties that are engaged in activities related to planning, entitlement or other preparations for future construction), and development potential (representing management's estimates of rentable square footage if development of these properties was undertaken) at September 30, 2014:

	Gross Book Value (In thousands)	Buildings	Rentable Square Feet	Weighted- Average Leased % (1)	
Operating portfolio	5,774,159	174	15,738,610	92.6	%
Development (2)	277,949	6	1,034,398	83.8	%

Edgar Filing: BioMed Realty Trust Inc - Form 10-Q

Redevelopment	14,984	1	41,257	86.5	%
Unconsolidated partnership portfolio	36,275	3	355,080	99.9	%
Pre-development (2)	119,604	—	1,124,000	—	
Development potential (2)	287,035	—	6,254,000	—	
Total portfolio	\$6,510,006	184	24,547,345		

(1) Calculated based on gross book value for each asset multiplied by the percentage leased.

34

Table of Contents

(2) Rentable square feet represents management's estimates.

Factors Which May Influence Future Operations

Our long-term corporate strategy is to continue to focus on acquiring, developing, owning, leasing and managing laboratory and office space for the life science industry. As of September 30, 2014, our total operating portfolio was 92.6% leased on a weighted-average basis to 328 tenants. As of December 31, 2013, our total operating portfolio was 91.4% leased on a weighted-average basis to 296 tenants.

Our leasing strategy for 2014 focuses on leasing vacant space, negotiating renewals for leases scheduled to expire during the year, and identifying new tenants or existing tenants seeking additional space to occupy the spaces for which we are unable to negotiate such renewals. We may proceed with additional new developments and acquisitions, as real estate and capital market conditions permit. As of September 30, 2014, leases representing 1.5% and 5.3% of our leased square feet were scheduled to expire during 2014 and 2015, respectively. The success of our leasing and development strategy depends on, among other things, general economic conditions, real estate market conditions and life science industry trends in our target markets in the United States and the United Kingdom.

As a result of changing market conditions, we believe that the fair-values of some of our properties may have declined below their respective carrying values. However, to the extent that a property has a substantial remaining estimated useful life and management does not believe that the property will be disposed of prior to the end of its useful life, it would be unusual for undiscounted cash flows to be insufficient to recover the property's carrying value. We presently have the ability and intent to continue to own and operate our existing portfolio of properties and estimated undiscounted future cash flows from the operation of the properties are expected to be sufficient to recover the carrying value of each property. Accordingly, we do not believe that the carrying value of any of our properties is impaired. If our ability and/or our intent with regard to the operation of our properties otherwise dictate an earlier sale date, an impairment loss may be recognized to reduce the property to fair-value and such loss could be material.

A discussion of additional factors which may influence future operations can be found below under Part II, Item 1A, "Risk Factors," and in our annual report on Form 10-K for the year ended December 31, 2013.

Critical Accounting Policies

A complete discussion of our critical accounting policies can be found in our annual report on Form 10-K for the year ended December 31, 2013.

Results of Operations

Leasing Activity

During the nine months ended September 30, 2014, we executed 169 leasing transactions representing 1,950,414 square feet, including 129 new leases totaling 1,180,917 square feet and 40 renewals and extensions totaling 769,497 square feet. The following table summarizes our leasing activity, including leasing activity in our unconsolidated portfolio, during the nine months ended September 30, 2014:

Table of Contents

	Leased square feet	Current annualized base rent per leased square foot (1)	Current annualized base rent per leased square foot - GAAP basis (2)
Leased square feet as of December 31, 2013	14,320,202		
Acquisitions	1,060,442	\$23.04	\$23.24
Expirations	(1,405,232)	24.32	24.36
Terminations	(332,620)	42.39	43.72
Forward-leased delivery (3)	229,124	33.21	34.82
Renewals and extensions	769,497	25.31	26.99
New leases - first generation (4)	479,723	26.73	29.45
New leases - second generation (5)	340,384	35.82	38.68
New leases - pre-leased (6)	55,084	31.27	34.91
Leased square feet as of September 30, 2014	15,516,604		
Forward-leased square feet as of December 31, 2013 (3)	102,547		
Forward-leased new leases - second generation (3) (5)	305,726	\$34.98	\$38.54
Forward-leased delivery (3)	(229,124)	33.21	34.82
Forward-leased square feet as of September 30, 2014 (3)	179,149		

Current annualized base rent per leased square foot is the monthly contractual rent per leased square foot as of the (1) period end, or if rent has not yet commenced, the first monthly rent payment per leased square foot due at each rent commencement date, multiplied by 12 months.

Current annualized base rent per leased square foot - GAAP basis is the monthly contractual rent per square foot as of the period end, or if rent has not yet commenced, the first monthly rent payment per square foot due at each rent commencement date, multiplied by 12 months (as adjusted for straight line rent, fair-value lease revenue and lease incentive revenue).

(3) Leases on space which is currently occupied and where the leases are expected to commence upon vacancy of the existing tenants.

(4) Leases on space which, in management's evaluation, require significant improvements to prepare or condition the premises for its intended purpose or enhance the value of the property. This generally includes capital expenditures for development, redevelopment or repositioning a property.

(5) Leases which are not considered by management to be first generation leases.

(6) Leases on space which, prior to the execution, was classified as pre-development or development potential and is expected to enter our operating portfolio at a future date.

The following table summarizes our leasing activity and associated leasing costs for the nine months ended September 30, 2014:

	Number of leases	Square feet	Tenant improvement costs per square foot	Lease commission costs per square foot	Tenant concession costs per square foot (1)
Renewals and extensions (2)	40	769,497	\$5.28	\$2.28	\$0.15
New leases - first generation	41	479,723	59.72	9.60	4.58
New leases - second generation	85	646,110	72.72	9.51	8.65
New leases - pre-leased	3	55,084	67.75	18.29	9.99

Edgar Filing: BioMed Realty Trust Inc - Form 10-Q

Total / weighted-average	169	1,950,414	\$42.77	\$6.93	\$4.33
--------------------------	-----	-----------	---------	--------	--------

(1) Includes both rent concessions due to free or discounted rent periods and lease incentives paid to tenants.

(2) Renewals and extensions were leased at a weighted-average current annualized base rent of \$26.99 per square foot, representing an increase of 5.6% over the previously expiring rents on a GAAP basis.

Development/Redevelopment Activity

36

Table of Contents

The following table summarizes our consolidated properties under development or redevelopment at September 30, 2014 (dollars in thousands):

Property	Rentable Square Feet	Percent Pre-Leased	Investment to Date (1)	Estimated Total Investment (2)	Estimated In-Service Date (3)
Development					
100 College Street	510,419	99.1	% \$ 101,000	\$ 191,000	Q1 2016
Landmark at Eastview III	297,000	100.0	% 83,800	165,900	Q4 2015
500 Fairview Avenue	121,569	20.5	% 5,600	73,000	Q1 2016
430 Cambridge Science Park	42,410	100.0	% 3,900	24,400	Q3 2015
450 Kendall Street (Kendall G)	63,000	—	27,700	45,500	Q2 2015
Total / weighted-average	1,034,398	84.1	% \$ 222,000	\$ 499,800	
Redevelopment					
60 Hampshire Street	41,257	86.5	% \$ 11,200	\$ 15,900	Q4 2014
Total / weighted-average	41,257	86.5	% \$ 11,200	\$ 15,900	
Total			\$ 233,200		

Includes amounts paid for acquiring the property, landlord improvements and tenant improvement allowances, but (1)excludes any amounts accrued, and payroll, interest, ground rent, or operating expenses capitalized, through September 30, 2014.

(2)Includes construction costs associated with speculative leasing.

Management's estimate of the time in which construction will be substantially completed. A project is considered (3)substantially complete and held available for occupancy upon the completion of tenant improvements, but no later than one year from cessation of major construction activity.

The following summarizes our capital expenditures during the nine months ended September 30, 2014 and 2013 (dollars in thousands):

	Nine Months Ended		Change	Percent Change	
	September 30, 2014	2013			
Development / Pre-development (1)	\$ 174,120	\$ 50,428	\$ 123,692	245.3	%
Redevelopment	10,925	2,641	8,284	313.7	%
Tenant improvements - first generation	31,093	25,951	5,142	19.8	%
Recurring capital expenditures and second generation tenant improvements (2)	46,291	32,251	14,040	43.5	%
Other capital	15,730	31,562	(15,832)	(50.2)	%
Total capital expenditures	\$ 278,159	\$ 142,833	\$ 135,326	94.7	%

(1) Includes projects that received tax credit funding which offset actual capital expenditures incurred during the applicable period.

Recurring capital expenditures exclude (a) items associated with the expansion of a building or its improvements, (b) renovations to a building which change the underlying classification of the building, incurred to prepare or (2)condition the premises for its intended purpose (for example, from office to laboratory) or (c) capital improvements that represent an addition to the property rather than the replacement of property, plant or equipment. Includes revenue enhancing and non-revenue enhancing recurring capital expenditures.

Total capital expenditures increased \$135.3 million to \$278.2 million for the nine months ended September 30, 2014 from \$142.8 million for the nine months ended September 30, 2013. The change was primarily the result of projects under development in the Wexford portfolio, which was acquired in May 2013. See the section entitled “Liquidity and Capital Resources of BioMed Realty, L.P.” below for further information on obligations for capital expenditures expected to be incurred in the future.

(1) Current annualized base rent per square foot - GAAP basis is the monthly contractual rent per square foot as of the period end, or if rent has not yet commenced, the first monthly rent payment per square foot due at each rent commencement date, multiplied by 12 months (as adjusted for straight line rent, fair-value lease revenue and lease incentive revenue).

During the three months ended September 30, 2014 and 2013, we recorded lease termination revenue of (2) approximately \$3.3 million and \$1.5 million, respectively. Lease termination revenue for the three months ended September 30, 2014 primarily related to the early termination of leases at two properties.

Adjustments to cash basis exclude adjustments to expenses accrued in rental operations, but include straight line (3) rents, fair-value lease revenue, lease incentive revenue, bad debt expense and other revenue (including lease termination revenue).

Table of Contents

The following table provides a reconciliation of net operating income - cash basis to net income for the three months ended September 30, 2014 and 2013 (dollars in thousands):

	Three Months Ended			Percent	
	September 30,		Change		
	2014	2013			
Net operating income - cash basis	\$109,856	\$100,465	\$9,391	9.3	%
Adjustments to cash basis	4,161	7,079	(2,918)	(41.2))%
Net operating income	114,017	107,544	6,473	6.0	%
Unallocated expense:					
Depreciation and amortization expense	64,452	61,898	2,554	4.1	%
General and administrative expense	12,768	11,934	834	7.0	%
Acquisition-related expenses	487	907	(420)	(46.3))%
Income from operations	36,310	32,805	3,505	10.7	%
Equity in net income/(loss) of unconsolidated partnerships	733	(112)	845	(754.5))%
Interest expense, net	(22,215)	(27,870)	5,655	(20.3))%
Other income/(expense)	2,148	(687)	2,835	(412.7))%
Net income	\$16,976	\$4,136	\$12,840	310.4	%

Net Operating Income. Net operating income increased \$6.5 million to \$114.0 million for the three months ended September 30, 2014 compared to \$107.5 million for the three months ended September 30, 2013. Excluding the impact of lease termination revenue for both periods, net operating income increased by \$4.7 million primarily due to the acquisition of the 300 George Street property located in New Haven, Connecticut totaling 518,940 square feet in April 2014, which contributed an additional \$2.5 million in net operating income for the three months ended September 30, 2014 compared to the same period in 2013. Additionally, receipt of deferred rent of approximately \$2.0 million was recognized as rental and tenant recoveries revenue during the three months ended September 30, 2014.

Depreciation and Amortization Expense. Depreciation and amortization expense increased approximately \$2.6 million to \$64.5 million for the three months ended September 30, 2014 compared to \$61.9 million for the three months ended September 30, 2013. The increase was primarily due to the acquisition of the 300 George Street property in April 2014, which had an acquisition date fair-value of \$117.0 million.

General and Administrative Expenses. General and administrative expenses increased \$834,000 to \$12.8 million for the three months ended September 30, 2014 compared to \$11.9 million for the three months ended September 30, 2013. The increase was primarily due to higher staffing levels.

Acquisition-Related Expenses. Acquisition-related expenses decreased to \$487,000 for the three months ended September 30, 2014 compared to \$907,000 for the three months ended September 30, 2013. Acquisition-related expenses for the three months ended September 30, 2014 primarily related to our acquisition of 430 Cambridge Science Center and potential acquisitions under evaluation. Acquisition-related expenses for the three months ended September 30, 2013 primarily related to our merger with Wexford in May 2013.

Equity in net income/(loss) of unconsolidated partnerships. Equity in net income of unconsolidated partnerships increased \$845,000 to \$733,000 for the three months ended September 30, 2014 compared to equity in net loss of unconsolidated partnerships of \$112,000 for the three months ended September 30, 2013. The increase was primarily due to our \$2.0 million share of lease termination revenue at the 650 East Kendall property, which is owned by our PREI joint venture.

Interest Expense, Net. Interest cost incurred for the three months ended September 30, 2014 totaled \$28.3 million compared to \$31.9 million for the three months ended September 30, 2013. Total interest cost incurred decreased primarily as a result of the \$333.4 million early repayment of the mortgage note secured by our Center for Life Science | Boston property and the exchange of approximately \$84.3 million in aggregate principal amount of the Exchangeable Senior Notes, for shares of common stock, partially offset by the issuance of our Unsecured Senior

Notes due 2019, or the Notes due 2019 and the assumption of mortgages in our acquisitions of the 300 George Street and 100 College Street properties in April 2014. Interest expense, net decreased \$5.7 million to \$22.2 million for the three months ended September 30, 2014 compared to \$27.9 million for the three months ended September 30, 2013, primarily as a result of the decrease in interest cost incurred and a \$2.1 million increase in capitalized interest related to increased development in 2014.

Table of Contents

Interest expense, net consisted of the following (in thousands):

	Three Months Ended September 30,	
	2014	2013
Mortgage notes payable	\$6,157	\$11,968
Amortization of debt premium on mortgage notes payable	(665) (511
Amortization of deferred interest costs	1,677	1,705
Derivative instruments	895	600
Unsecured senior term loans	1,785	1,993
Exchangeable senior notes	1,241	1,688
Unsecured senior notes	12,959	10,334
Amortization of debt discount on notes	326	228
Unsecured line of credit	1,793	1,242
Unsecured line of credit fees	460	602
Amortization of deferred loan fees	1,451	1,825
Amortization - put / call / preferred return	256	179
Interest cost incurred	28,335	31,853
Capitalized interest	(6,120) (3,983
Total interest expense, net	\$22,215	\$27,870

Other Income / (Expense). Other income of \$2.1 million for the three months ended September 30, 2014 was primarily due to a \$2.3 million increase in the value of our investment in a privately-held company which completed a capital transaction during the quarter, and \$681,000 in dividend income relating to investment securities, partially offset by an income tax expense of \$538,000. Other expense of \$687,000 for the three months ended September 30, 2013 consisted primarily of foreign income tax expense related to entity-level income taxes on our Granta Park investment.

Comparison of the Nine Months Ended September 30, 2014 to the Nine Months Ended September 30, 2013

The following table sets forth historical financial information of the continuing operations for same properties (all properties except properties held for sale, development/redevelopment properties, new properties and corporate entities), development/redevelopment properties (properties that were entirely or primarily under redevelopment or development during either of the nine months ended September 30, 2014 or 2013), new properties (properties that were not owned for each of the nine months ended September 30, 2014 and 2013 and were not under development/redevelopment) and corporate entities (legal entities performing general and administrative and other corporate level functions) (dollars in thousands, except on a per square foot basis):

(1) Current annualized base rent per square foot - GAAP basis is the monthly contractual rent per square foot as of the period end, or if rent has not yet commenced, the first monthly rent payment per square foot due at each rent commencement date, multiplied by 12 months (as adjusted for straight line rent, fair-value lease revenue and lease incentive revenue).

(2) During the nine months ended September 30, 2014 and 2013, we recorded lease termination revenue of approximately \$9.8 million and \$42.8 million, respectively. Lease termination revenue for the nine months ended September 30, 2014 primarily related to the early termination of leases at our 4570 Executive Drive property. Lease termination revenue for the nine months ended September 30, 2013 primarily related to the Elan lease termination. During the nine months ended September 30, 2014, we also recorded a prepayment fee of approximately \$7.5 million, net of deferred loan fees write-offs, related to the investment in our construction loan, which was fully repaid in May 2014 prior to maturity. During the nine months ended September 30, 2014 and 2013, we also recorded \$3.9 million and \$3.4 million, respectively, of interest income related to our construction loan.

Edgar Filing: BioMed Realty Trust Inc - Form 10-Q

Adjustments to cash basis exclude adjustments to expenses accrued in rental operations, but include straight line (3)rents, fair-value lease revenue, lease incentive revenue, bad debt expense and other revenue (including lease termination revenue).

The following table provides a reconciliation of net operating income - cash basis to net income for the nine months ended September 30, 2014 and 2013 (dollars in thousands):

41

Table of Contents

	Nine Months Ended			Percent	
	September 30, 2014	2013	Change	Change	
Net operating income - cash basis	\$319,446	\$297,280	\$22,166	7.5	%
Adjustments to cash basis	28,449	47,859	(19,410)	(40.6))%
Net operating income	347,895	345,139	2,756	0.8	%
Unallocated expense:					
Depreciation and amortization expense	189,597	186,219	3,378	1.8	%
General and administrative expense	37,153	32,358	4,795	14.8	%

Income from operations	118,274	121,299	(3,025)	(2.5))%
Equity in net loss of unconsolidated partnerships	585	(697)	1,282	(183.9))%
Interest expense, net	(73,356)	(79,890)	6,534	(8.2))%
Other income / (expense)	11,338	(4,079)	15,417	(378.0))%
Net income	\$56,841	\$36,633	\$20,208	55.2	%

Net Operating Income. Net operating income increased \$2.8 million to \$347.9 million for the nine months ended September 30, 2014 compared to \$345.1 million for the nine months ended September 30, 2013. Excluding the impact of lease terminations and construction loan prepayment fee, net operating income increased \$28.2 million primarily due to the following:

The acquisition of properties totaling approximately 2.9 million square feet in 2013 contributed an additional \$25.7 million in net operating income for the nine months ended September 30, 2014 compared to the nine months ended September 30, 2013.

Same property net operating income, excluding the impact of lease terminations, increased approximately \$4.4 million to \$286.2 million for the nine months ended September 30, 2014 compared to \$281.8 million for the nine months ended September 30, 2013, primarily due to an increase in the leased percentage of the same property portfolio.

Depreciation and Amortization Expense. Depreciation and amortization expense increased \$3.4 million to \$189.6 million for the nine months ended September 30, 2014 compared to \$186.2 million for the nine months ended September 30, 2013. The net increase was primarily due to the acquisition of properties totaling approximately 2.9 million square feet with an acquisition date fair-value of \$842.6 million in 2013 and the acquisition of 300 George Street in April 2014, partially offset by accelerated amortization of deferred leasing costs during the nine months ended September 30, 2013 primarily related to the termination of a lease with Elan Corporation and placement of one property that was operating in 2013 into redevelopment in April 2014.

General and Administrative Expenses. General and administrative expenses increased \$4.8 million to \$37.2 million for the nine months ended September 30, 2014 compared to \$32.4 million for the nine months ended September 30, 2013. The increase was primarily due to higher staffing levels reflecting our merger with Wexford.

Acquisition-Related Expenses. Acquisition-related expenses decreased to \$2.9 million for the nine months ended September 30, 2014 compared to \$5.3 million for the nine months ended September 30, 2013. Acquisition-related expenses for the nine months ended September 30, 2014 primarily related to our acquisitions of the 300 George Street, 100 College Street and 430 Cambridge Science Center properties. Acquisition-related expenses for the nine months ended September 30, 2013 primarily related to our merger with Wexford.

Equity in net income/(loss) of unconsolidated partnerships. Equity in net income of unconsolidated partnerships increased \$1.3 million to \$585,000 for the nine months ended September 30, 2014 compared to equity in net loss of unconsolidated partnerships of \$697,000 for the nine months ended September 30, 2013. The increase was primarily due to our \$2.0 million share of lease termination revenue at the 650 East Kendall property, which is owned by our

PREI joint venture.

Interest Expense, Net. Interest cost incurred for the nine months ended September 30, 2014 totaled \$89.1 million compared to \$89.9 million for the nine months ended September 30, 2013. Total interest cost incurred decreased primarily as a result of the \$333.4 million early repayment of the mortgage note secured by our Center for Life Science | Boston property and the exchange of approximately \$84.3 million in aggregate principal amount of the Exchangeable Senior Notes for shares of common stock, partially offset by the issuance of our Notes due 2019 and the assumption of mortgages in our acquisitions of the 300 George Street and 100 College Street properties in April 2014. Interest expense, net decreased \$6.5 million to \$73.4 million for the nine

Table of Contents

months ended September 30, 2014 compared to \$79.9 million for the nine months ended September 30, 2013, primarily as a result of a \$5.7 million increase in capitalized interest related to increased development in 2014. Interest expense, net consisted of the following (in thousands):

	Nine Months Ended September 30,	
	2014	2013
Mortgage notes payable	\$23,731	\$32,647
Amortization of debt premium on mortgage notes payable	(1,831) (1,011
Amortization of deferred interest costs	5,052	5,134
Derivative instruments	2,677	1,752
Unsecured senior term loans	5,572	5,921
Exchangeable senior notes	4,616	5,063
Unsecured senior notes	35,582	31,003
Amortization of debt discount on notes	858	673
Unsecured line of credit	5,981	1,997
Unsecured line of credit fees	1,494	1,922
Amortization of deferred loan fees	4,667	4,550
Amortization - put / call / preferred return	691	238
Interest cost incurred	89,090	89,889
Capitalized interest	(15,734) (9,999
Total interest expense, net	\$73,356	\$79,890

Other Income / (Expense). Other income of \$11.3 million for the nine months ended September 30, 2014 was primarily due to \$12.8 million of gains and dividend income relating to investment securities, partially offset by a \$1.3 million other-than-temporary impairment relating to our cost basis investment in a privately-held company. Other expense of \$4.1 million for the nine months ended September 30, 2013 was primarily due to a \$2.8 million impairment charge relating to our cost basis investment in, and notes receivable from, a privately-held company that was in liquidation.

Table of Contents

Cash Flows

Comparison of the Nine Months Ended September 30, 2014 to the Nine Months Ended September 30, 2013

	2014	2013	Change
	(In thousands)		
Net cash provided by operating activities	\$223,866	\$204,702	\$19,164
Net cash used in investing activities	(270,680) (704,902) 434,222
Net cash provided by financing activities	46,180	509,507	(463,327
Ending cash and cash equivalents balance	33,864	29,230	4,634

Net cash provided by operating activities increased \$19.2 million to \$223.9 million for the nine months ended September 30, 2014 compared to \$204.7 million for the nine months ended September 30, 2013. The increase was primarily due to cash flow generated by acquisitions, cash rent commencements on new leases and the receipt of a prepayment fee for our construction loan receivable in May 2014.

Net cash used in investing activities decreased \$434.2 million to \$270.7 million for the nine months ended September 30, 2014 compared to \$704.9 million for the nine months ended September 30, 2013. The decrease primarily resulted from lower acquisition related activities and the repayment of our construction loan receivable, partially offset by increased capital expenditures on projects under development.

Net cash provided by financing activities of \$46.2 million during the nine months ended September 30, 2014 primarily resulted from proceeds from the issuance of our Notes due 2019 and net draw on our line of credit, partially offset by the early repayment of the mortgage note secured by our Center for Life Science | Boston property and payment of dividends. Net cash provided by financing activities of \$509.5 million during the nine months ended September 30, 2013 primarily resulted from the net impact of proceeds from the issuances of common stock used to redeem our Series A preferred stock and proceeds from our Term Loan due 2018, partially offset by payment of dividends.

Funds from Operations

We present funds from operations, or FFO, and FFO excluding acquisition-related expenses, or CFFO, available to common shares and OP units because we consider them to be important supplemental measures of our operating performance and believe they are frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO and CFFO when reporting their results. FFO and CFFO are intended to exclude GAAP historical cost depreciation and amortization of real estate and related assets, which assumes that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. Because FFO and CFFO exclude depreciation and amortization unique to real estate, gains and losses from property dispositions and extraordinary items, and, in the case of CFFO, acquisition-related expenses, they provide performance measures that, when compared year over year, reflect the impact to operations from trends in occupancy rates, rental rates, operating costs, development activities and interest costs, providing perspective not immediately apparent from net income. We compute FFO in accordance with standards established by the Board of Governors of the National Association of Real Estate Investment Trusts, or NAREIT. As defined by NAREIT, FFO represents net income (computed in accordance with GAAP), excluding gains (or losses) from sales of depreciable property, impairment charges on depreciable real estate, real estate related depreciation and amortization (excluding amortization of loan origination costs) and after adjustments for unconsolidated partnerships and joint ventures. Our computations may differ from the methodologies for calculating FFO and CFFO utilized by other equity REITs and, accordingly, may not be comparable to such other REITs. Further, FFO and CFFO do not represent amounts available for management's discretionary use because of needed capital replacement or expansion, debt service obligations, or other commitments and uncertainties. FFO and CFFO should not be considered alternatives to net income / (loss) (computed in accordance with GAAP) as indicators of our financial performance or to cash flow from operating activities (computed in accordance with GAAP) as indicators of our liquidity, nor are they indicative of funds

available to fund our cash needs, including our ability to pay dividends or make distributions.

Our FFO and CFFO available to common shares and OP units and a reconciliation to net income for the three and nine months ended September 30, 2014 and 2013 (in thousands, except per share and share data) were as follows:

44

Net income allocable to noncontrolling interests in the operating partnership is included in net income available to (1) unitholders of the operating partnership as reflected in the consolidated financial statements of our operating partnership, included elsewhere herein.

Reflects interest expense adjustment of the Exchangeable Senior Notes based on the “if converted” method. The three and nine months ended September 30, 2014 include 7,589,600 and 9,571,008 shares of potentially issuable common stock, respectively, pursuant to the exchange feature of the Exchangeable Senior Notes based on the “if converted” method. Both the three and nine months ended September 30, 2013 include 10,405,224 shares of potentially issuable common pursuant to the exchange feature of the Exchangeable Senior Notes based on the “if converted” method.

The three months ended September 30, 2014 and 2013 include 1,484,648 and 1,415,135 shares of unvested restricted stock, respectively, which are considered anti-dilutive for purposes of calculating diluted earnings per (3) share. The nine months ended September 30, 2014 and 2013 include 1,501,559 and 1,373,245 shares of unvested restricted stock, respectively, which are considered anti-dilutive for purposes of calculating diluted earnings per share.

Liquidity and Capital Resources of BioMed Realty Trust, Inc.

In this “Liquidity and Capital Resources of BioMed Realty Trust, Inc.” section, the term the “Company” refers only to BioMed Realty Trust, Inc. on an unconsolidated basis, and excludes the operating partnership and all other subsidiaries. For further discussion of the liquidity and capital resources of the Company on a consolidated basis, see the section entitled “Liquidity and Capital Resources of BioMed Realty, L.P.” below.

The Company's business is operated primarily through the operating partnership. The Company issues public equity from time to time, but does not otherwise generate any capital itself or conduct any business itself, other than incurring certain expenses in operating as a public company which are fully reimbursed by the operating partnership. The Company itself does not hold any indebtedness, and its only material asset is its ownership of partnership interests of the operating partnership. The Company's principal funding requirement is the payment of dividends on its common stock. The Company's principal source of funding for its dividend payments is distributions it receives from the operating partnership.

Table of Contents

As of September 30, 2014, the Company owned an approximate 97.4% partnership interest and other limited partners, including some of our directors, executive officers and their affiliates, owned the remaining 2.6% partnership interest (including LTIP units) in the operating partnership. As the sole general partner of the operating partnership, BioMed Realty Trust, Inc. has the full, exclusive and complete responsibility for the operating partnership's day-to-day management and control.

The liquidity of the Company is dependent on the operating partnership's ability to make sufficient distributions to the Company. The primary cash requirement of the Company is its payment of dividends to its stockholders. The Company also guarantees some of the operating partnership's debt, as discussed further in Note 5 of the Notes to Consolidated Financial Statements included elsewhere herein. If the operating partnership fails to fulfill certain of its debt requirements, which trigger the Company's guarantee obligations, then the Company will be required to fulfill its cash payment commitments under such guarantees. However, the Company's only significant asset is its investment in the operating partnership.

We believe the operating partnership's sources of working capital, specifically its cash flow from operations, and borrowings available under its unsecured line of credit, are adequate for it to make its distribution payments to the Company and, in turn, for the Company to make its dividend payments to its stockholders. However, we cannot assure you that the operating partnership's sources of capital will continue to be available at all or in amounts sufficient to meet its needs, including its ability to make distribution payments to the Company. The unavailability of capital could adversely affect the operating partnership's ability to pay its distributions to the Company, which would in turn, adversely affect the Company's ability to pay cash dividends to its stockholders.

Our short-term liquidity requirements consist primarily of funds to pay for future dividends expected to be paid to the Company's stockholders, operating expenses and other expenditures directly associated with our properties, interest expense and scheduled principal payments on outstanding indebtedness, general and administrative expenses, construction projects, capital expenditures, tenant improvements and leasing commissions.

The Company may from time to time seek to repurchase or redeem the operating partnership's outstanding debt, the Company's shares of common stock or other securities in open market purchases, privately negotiated transactions or otherwise. Such repurchases or redemptions, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. The amounts involved may be material.

For the Company to maintain its qualification as a REIT, it must pay dividends to its stockholders aggregating annually at least 90% of its REIT taxable income, excluding net capital gains. While historically the Company has satisfied this distribution requirement by making cash distributions to its stockholders, it may choose to satisfy this requirement by making distributions of cash or other property, including, in limited circumstances, the Company's own stock. As a result of this distribution requirement, the operating partnership cannot rely on retained earnings to fund its ongoing operations to the same extent that other companies whose parent companies are not REITs can. The Company may need to continue to raise capital in the equity markets to fund the operating partnership's working capital needs, acquisitions and developments.

The Company is a well-known seasoned issuer with an effective shelf registration statement that allows the Company to register an unspecified amount of various classes of equity securities and the operating partnership to register an unspecified amount of various classes of debt securities. As circumstances warrant, the Company may issue equity from time to time on an opportunistic basis, dependent upon market conditions and available pricing. When the Company receives proceeds from preferred or common equity issuances, it is required by the operating partnership's partnership agreement to contribute the proceeds from its equity issuances to the operating partnership in exchange for preferred or common partnership units of the operating partnership. The operating partnership may use the proceeds to repay debt, to develop new or existing properties, to acquire properties or for general corporate purposes.

Liquidity and Capital Resources of BioMed Realty, L.P.

In this "Liquidity and Capital Resources of BioMed Realty, L.P." section, the terms "we," "our" and "us" refer to the operating partnership together with its consolidated subsidiaries or the operating partnership and BioMed Realty Trust, Inc. together with their consolidated subsidiaries, as the context requires. BioMed Realty Trust, Inc., or our Parent Company, is our sole general partner and consolidates our results of operations for financial reporting purposes.

Because we operate on a consolidated basis with our Parent Company, the section entitled “Liquidity and Capital Resources of BioMed Realty Trust, Inc.” should be read in conjunction with this section to understand our liquidity and capital resources on a consolidated basis.

Our short-term liquidity requirements consist primarily of funds to pay for future dividends expected to be paid to our Parent Company’s stockholders, operating expenses and other expenditures directly associated with our properties, interest expense and scheduled principal payments on outstanding indebtedness, general and administrative expenses, construction projects, capital expenditures, tenant improvements and leasing commissions.

Table of Contents

The remaining principal payments due for our consolidated and our proportionate share of unconsolidated indebtedness (excluding debt premiums and discounts) as of September 30, 2014 were as follows (in thousands):

	2014	2015	2016	2017	2018	Thereafter	Total
Consolidated indebtedness:							
Secured mortgages	\$2,080	\$31,784	\$229,632	\$32,306	\$47,804	\$121,525	\$465,131

Secured construction loan	—	27,795	—	—	—	—	27,795
Total share of unconsolidated indebtedness	—	29,185	—	—	—	—	29,185
Total indebtedness	\$2,080	\$60,969	\$629,632	\$438,182	\$626,804	\$1,117,203	\$2,874,870

(1) The principal balance represents the U.S. dollar amount based on the exchange rate of \$1.62 to £1.00 at September 30, 2014.

Certain mortgage loans include financial covenants which require us to maintain minimum levels of debt service coverage and a minimum amount of net worth. Management believes that we were in compliance with these covenants as of September 30, 2014.

On April 1, 2014, we repaid in full the mortgage loan secured by our Center for Life Science | Boston property in Boston, Massachusetts prior to its scheduled maturity date. The then-outstanding loan amount of approximately \$333.4 million, which bore interest at a fixed rate of 7.75% per annum, was paid off by borrowings under our \$900.0 million unsecured line of credit.

On April 4, 2014, we completed an investment in two properties, 300 George Street and 100 College Street, in New Haven, Connecticut. In connection with that investment, we assumed a \$46.3 million mortgage note secured by the 300 George Street property and a construction loan with \$21.7 million of outstanding borrowings that were used to partially fund the development of the 100 College Street property. In addition, we expect to incur approximately \$102.0 million of additional construction costs to complete the development of the 100 College Street property.

On April 23, 2014, we issued \$400.0 million principal amount of the Notes due 2019, which are governed by a base indenture and supplemental indenture, dated March 30, 2011 and April 23, 2014, respectively, among us, as issuer,

our Parent Company, as guarantor, and U.S. Bank National Association, as trustee.

On May 7, 2014, the borrower prepaid the then outstanding principal balance of the Construction Loan, of which our portion was approximately \$184.2 million. In connection with the prepayment, we recognized an early termination fee of approximately \$7.5 million, net of deferred loan fees write-offs, which is included in other revenue.

In July 2014, a wholly-owned subsidiary of PREI I LLC entered into an agreement with the lenders of its secured construction loan facility to extend the maturity date from August 13, 2014 to August 13, 2015 and reduce the applicable credit spread, with

Table of Contents

an option to extend the maturity date to August 13, 2016 at its discretion, after satisfying certain conditions and paying an extension fee.

During the three months ended September 30, 2014, at the request of the holders that exercised their exchange right pursuant to the terms of the Exchangeable Senior Notes, our Parent Company issued 4,955,377 shares of common stock in exchange for approximately \$84.3 million in aggregate principal amount of the Exchangeable Senior Notes.

The credit facilities governing our unsecured line of credit, Term Loan due 2017 and Term Loan due 2018 include certain restrictions and covenants relating to, among other things, overall leverage and unsecured leverage ratios, fixed charge coverage, unsecured debt service coverage, maximum amount of secured indebtedness and certain investment limitations. Management believes that we were in compliance with these covenants as of September 30, 2014.

The terms of the indentures governing the Notes due 2016, the Notes due 2019, the Notes due 2020 and the Notes due 2022 require compliance with various financial covenants, including limits on the amount of total leverage and secured debt maintained by us and which require us to maintain minimum levels of debt service coverage.

Management believes that we were in compliance with these covenants as of September 30, 2014.

Our long-term liquidity requirements consist primarily of funds to pay for scheduled debt maturities, construction obligations, renovations, expansions, capital commitments and other non-recurring capital expenditures that need to be made periodically, and the costs associated with acquisitions of properties that we pursue. At September 30, 2014, we had entered into construction contracts and lease agreements, with a remaining commitment totaling approximately \$363.8 million related to tenant improvements, leasing commissions and construction-related capital expenditures.

We expect to satisfy our short-term liquidity requirements through our existing working capital and cash provided by our operations, the issuance of long-term secured and unsecured indebtedness, the issuance of additional equity or debt securities and the use of net proceeds from the disposition of non-strategic assets. Our rental revenues, provided by our leases, generally provide cash inflows to meet our debt service obligations, pay general and administrative expenses, and fund regular distributions. We expect to satisfy our long-term liquidity requirements through our existing working capital, cash provided by operations, long-term secured and unsecured indebtedness and the issuance of additional equity or debt securities. We also expect to use funds available under our unsecured line of credit to finance acquisition and development activities and capital expenditures on an interim basis. We also expect to utilize tax credits, grants and other subsidies from time to time to fund development activities. In addition, we have an investment grade credit rating, which we believe will provide us with continued access to the unsecured debt markets, providing us with an additional source of long term financing.

BioMed Realty Trust, Inc.'s total capitalization at September 30, 2014 was approximately \$6.9 billion and was comprised of the following (dollars in thousands):

	Shares/Units at September 30, 2014	Aggregate Principal Amount or Dollar Value Equivalent	Percent of Total Capitalization	
Debt:				
Mortgage notes payable (1)		\$465,131	6.7	%
Exchangeable senior notes		95,678	1.4	%
Unsecured senior notes (1)		1,300,000	18.7	%
Unsecured senior term loans (1)(2)		755,876	10.9	%
Unsecured line of credit		229,000	3.3	%
Total debt		2,845,685	41.0	%
Equity:				
	202,860,631	4,097,785	59.0	%

Edgar Filing: BioMed Realty Trust Inc - Form 10-Q

Common shares, operating partnership and LTIP units outstanding

(3)

Total equity	4,097,785	59.0	%
Total capitalization	\$6,943,470	100.0	%

(1) Amounts exclude unamortized debt premiums and unamortized debt discounts.

48

Table of Contents

In August 2012, the Operating Partnership converted approximately \$156.4 million of outstanding borrowings of the Term Loan due 2017 into British pounds sterling, or GBP, equal to £100.0 million, which was designated as a (2) net investment hedge to mitigate the risk of fluctuations in foreign currency exchange rates. \$162.3 million of the principal balance represents the U.S. dollar amount based on the exchange rate of \$1.62 to £1.00 at September 30, 2014.

Aggregate amount based on the market closing price of the common stock of our Parent Company of \$20.20 per share on the last trading day of the quarter. Limited partners who have been issued OP units have the right to require the operating partnership to redeem part or all of their OP units, which right with respect to LTIP units is (3) subject to vesting and the satisfaction of other conditions. We may elect to redeem those OP units in exchange for shares of our Parent Company's common stock on a one-for-one basis, subject to adjustment. At September 30, 2014, 197,455,157 of the outstanding OP units had been issued to our Parent Company upon receipt of the net proceeds from the issuance of an equal number of shares of our Parent Company's common stock.

Our organizational documents do not limit the amount of indebtedness that we may incur, and we may modify our financing strategy from time to time in light of current economic or market conditions including, but not limited to, the relative costs of debt and equity capital, market conditions for debt and equity securities and fluctuations in the market price of our Parent Company's common stock. In addition, the terms of the indentures governing the Notes due 2016, Notes due 2019, Notes due 2020 and Notes due 2022, and the credit facilities governing our unsecured line of credit, Term Loan due 2017 and Term Loan due 2018 require compliance with various financial covenants and ratios, which are discussed in detail above and in Note 5 of the Notes to Consolidated Financial Statements contained elsewhere herein.

We may from time to time seek to repurchase or redeem our outstanding debt or OP units (including in connection with the repurchase or redemption of an equivalent number of shares of common stock by our Parent Company) or other securities, and our Parent Company may seek to repurchase or redeem its outstanding shares of common stock or other securities, in each case in open market purchases, privately negotiated transactions or otherwise. Such repurchases or redemptions, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. The amounts involved may be material.

Off-Balance Sheet Arrangements

As of September 30, 2014, we had investments in the following unconsolidated partnerships: (1) BioPark Fremont, LLC, which owns a land parcel located in Baltimore; (2) McKellar Court limited partnership, which owns a single tenant occupied property located in San Diego; and (3) two limited liability companies with PREI, which own a portfolio of properties located in Cambridge, Massachusetts (see Note 8 of the Notes to Consolidated Financial Statements included elsewhere herein for more information).

BioPark Fremont, LLC is a VIE; however, we are not the primary beneficiary. We will receive 50% of the operating cash flows and 50% of the gains upon sale of the property. We account for our membership interest using the equity method. The assets of BioPark Fremont, LLC were \$2.7 million at each of September 30, 2014 and December 31, 2013. The liabilities were \$2.8 million at each of September 30, 2014 and December 31, 2013. Our equity in net loss of BioPark Fremont, LLC was \$39,000 for the nine months ended September 30, 2014.

The McKellar Court partnership is a VIE; however, we are not the primary beneficiary. The limited partner at McKellar Court is the only tenant in the property and will bear a disproportionate amount of any losses. We, as the general partner, will receive 22% of the operating cash flows and 75% of the gains upon sale of the property. We account for our general partner interest using the equity method. The assets of the McKellar Court partnership were \$13.5 million and \$13.8 million at September 30, 2014 and December 31, 2013, respectively. The liabilities were \$10.7 million at each of September 30, 2014 and December 31, 2013. Our equity in net income of the McKellar Court partnership was \$686,000 and \$683,000 for the nine months ended September 30, 2014 and 2013, respectively. In December 2009, we provided funding in the form of a promissory note to the McKellar Court partnership in the amount of \$10.3 million, which matures at the earlier of (1) January 1, 2020, or (2) the day that the limited partner exercises an option to purchase our ownership interest. Interest-only payments on the promissory note are due monthly at a fixed rate of 8.15% (the rate may adjust higher after January 1, 2015), with the principal balance

outstanding due at maturity.

PREI II LLC is a VIE; however, we are not the primary beneficiary. PREI will bear the majority of any losses incurred. PREI I LLC does not qualify as a VIE. In addition, consolidation is not required as we do not control the limited liability companies. In connection with the formation of the PREI joint ventures in April 2007, we contributed 20% of the initial capital. However, the amount of cash flow distributions that we receive may be more or less based on the nature of the circumstances underlying the cash distributions due to provisions in the operating agreements governing the distribution of funds to each member and the occurrence of extraordinary cash flow events. We account for our member interests using the equity method for both limited liability companies. The assets of the PREI joint ventures were \$276.6 million and \$255.5 million at September 30, 2014 and December 31, 2013, respectively, and the liabilities were \$149.9 million and \$150.7 million at September 30, 2014 and

Table of Contents

December 31, 2013, respectively. Our equity in net loss of the PREI joint ventures was \$62,000 and \$1.4 million for the nine months ended September 30, 2014 and 2013, respectively.

We are the primary beneficiary in six other VIEs, consisting of properties in which the tenant has a fixed-price purchase option, and VIEs at nine properties with tax credit structures, which are consolidated and reflected in our consolidated financial statements.

Our proportionate share of outstanding debt related to our unconsolidated partnerships is summarized below (dollars in thousands):

Name	Ownership Percentage	Interest Rate(2)	Principal Amount(1)		Maturity Date
			September 30, 2014	December 31, 2013	
BioPark Fremont	50	% 3.7	% \$ 1,390	\$ 1,356	May 1, 2015
PREI I LLC (3)	20	% 2.2	% 27,795	27,795	August 13, 2015
Total			\$29,185	\$ 29,151	

(1) Amount represents our proportionate share of the total outstanding indebtedness for each of the unconsolidated partnerships.

(2) Effective or weighted-average interest rate of the outstanding indebtedness as of September 30, 2014.

Amount represents our proportionate share of a secured loan, which bears interest at a LIBOR-indexed variable rate with a borrowing capacity of up to \$139.0 million. The secured loan was executed by a wholly-owned subsidiary of PREI I LLC in connection with the construction of the 650 East Kendall Street property. In accordance with the loan agreement, Prudential Insurance Corporation of America has guaranteed repayment of the secured loan. In July 2014, the wholly-owned subsidiary of PREI I LLC entered into an agreement with the lenders of its secured construction loan facility to extend the maturity date to August 13, 2015 and reduce the applicable credit spread, with an option to extend the maturity date to August 13, 2016 at its discretion, after satisfying certain conditions and paying an extension fee.

Cash Distribution Policy

We elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended, or the Code, commencing with our taxable year ended December 31, 2004. To qualify as a REIT, we must meet a number of organizational and operational requirements, including the requirement that we distribute currently at least 90% of our ordinary taxable income to our stockholders. It is our intention to comply with these requirements and maintain our REIT status. As a REIT, we generally will not be subject to U.S. corporate federal, state or local income taxes on taxable income we distribute currently (in accordance with the Code and applicable regulations) to our stockholders. If we fail to qualify as a REIT in any taxable year, we will be subject to U.S. federal, state and local income taxes at regular corporate rates and may not be able to qualify as a REIT for subsequent tax years. Even if we qualify as a REIT for federal income tax purposes, we may be subject to certain foreign, state and local taxes on our income and to federal income and excise taxes on our undistributed taxable income, i.e., taxable income not distributed in the amounts and in the time frames prescribed by the Code and applicable regulations thereunder.

While we most recently paid a dividend on shares of common stock at an annual dividend rate of \$1.00 per share, the actual dividend payable in the future will be determined by our board of directors based upon the circumstances at the time of declaration and, as a result, the actual dividend payable in the future may vary from the current rate. The decision to declare and pay dividends on shares of our common stock in the future, as well as the timing, amount and composition of any such future dividends, will be at the sole discretion of our board of directors in light of conditions then existing, including our earnings, financial condition, capital requirements, debt maturities, the availability of debt and equity capital, applicable REIT and legal restrictions and general overall economic conditions and other factors.

The following table provides historical dividend information for our common and preferred stock for the prior two fiscal years and the nine months ended September 30, 2014:

50

Table of Contents

Quarter Ended	Date Declared	Date Paid	Dividend per Common Share	Dividend per Preferred Share

June 30, 2014	June 16, 2014	July 15, 2014	0.250	—
September 30, 2014	September 16, 2014	October 15, 2014	0.250	—

(1) On March 15, 2013, we redeemed all 7,920,000 outstanding shares of our Series A preferred stock for approximately \$198.0 million, or \$25.00 per share, net of accrued dividends of approximately \$2.4 million, or \$0.30217 per share.

Inflation

Some of our leases contain provisions designed to mitigate the adverse impact of inflation. These provisions generally increase rental rates during the terms of the leases either at fixed rates or indexed escalations (based on the Consumer Price Index or other measures). We may be adversely impacted by inflation on the leases that do not contain indexed escalation provisions. In addition, most of our leases require the tenant to pay an allocable share of operating expenses, including common area maintenance costs, real estate taxes and insurance. This may reduce our exposure to increases in costs and operating expenses resulting from inflation, assuming our properties remain leased and tenants fulfill their obligations to reimburse us for such expenses.

Our unsecured line of credit, portions of our Term Loan due 2017 and Term Loan due 2018, the outstanding balance of a note payable secured by a property in Connecticut and our proportionate share of the outstanding balance of the PREI joint ventures' secured construction loan bear interest at variable rates, which will be influenced by changes in short-term interest rates, and will be sensitive to inflation.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our future income, cash flows and fair-values relevant to financial instruments depend upon prevailing market interest rates. Market risk is the exposure to loss resulting from changes in interest rates, foreign currency exchange rates, commodity prices and equity prices. Many factors, including governmental monetary and tax policies, domestic and international economic and political considerations and other factors that are beyond our control contribute to interest rate risk, equity price risk and foreign currency exchange rate risk.

Interest Rate Risk

As of September 30, 2014, our consolidated debt consisted of the following (dollars in thousands):

	Principal Balance (1)	Percent of Total Debt	Effective Interest Rate at September 30, 2014	
Fixed interest rate (2)	\$1,806,569	63.3	% 4.28	%
Variable interest rate - hedged (3)	562,280	19.7	% 2.21	%
Variable interest rate - unhedged (4)	483,820	17.0	% 1.45	%
Total/weighted-average effective interest rate	\$2,852,669	100.0	% 3.39	%

(1) Principal balance includes only consolidated indebtedness.

Includes eleven mortgage notes payable secured by certain of our properties (including unamortized premiums),

(2) our Exchangeable Senior Notes, our Notes due 2016 (including unamortized debt discount), our Notes due 2019 (including

51

Table of Contents

unamortized debt discount), our Notes due 2020 (including unamortized debt discount) and our Notes due 2022 (including unamortized debt discount).

Includes the hedged portions of our Term Loan due 2017 and Term Loan due 2018, which bear interest at LIBOR-indexed variable interest rates, plus a credit spread. On August 2, 2012, we converted approximately \$156.4 million of outstanding borrowings of the Term Loan due 2017 into GBP equal to £100.0 million. The principal balance represents the U.S. dollar amount based on the exchange rate of \$1.62 to £1.00 at September 30, 2014. The stated effective rate for the variable interest hedged debt includes the impact of our interest rate swap agreements. We have entered into four U.S. dollar interest rate swaps, which are intended to have the effect of fixing the interest rate on \$200.0 million of the outstanding amount under our Term Loan due 2017 at a weighted-average interest rate of approximately 2.56% for the remaining term of the Term Loan due

(3) 2017 (including applicable credit spreads for the underlying debt), subject to adjustment based on our credit ratings.

We have entered into two GBP interest rate swaps, which are intended to have the effect of fixing the interest rate on £100.0 million of the outstanding amount under our Term Loan due 2017 at approximately 2.14% for the remaining term of the Term Loan due 2017 (including applicable credit spreads for the underlying debt), subject to adjustment based on our credit ratings. On September 25, 2013, we entered into three U.S. dollar interest rate swaps, which are intended to have the effect of fixing the interest rate on \$200.0 million of the outstanding amount under our Term Loan due 2018 at a weighted-average interest rate of approximately 1.90% through October 1, 2016 (including applicable credit spreads for the underlying debt), subject to adjustment based on our credit ratings.

(4) Includes one variable rate mortgage, the unhedged portions of our Term Loan due 2017 and Term Loan due 2018 and our unsecured line of credit, which bear interest at LIBOR-indexed variable interest rates, plus a credit spread.

To determine the fair-value of our outstanding consolidated indebtedness, we utilize quoted market prices to estimate the fair-value, when available. If quoted market prices are not available, we calculate the fair-value of our mortgage notes payable and other fixed-rate debt based on an estimate of current lending rates, assuming the debt is outstanding through maturity and considering the notes' collateral. In determining the current market rate for fixed-rate debt, a market credit spread is added to the quoted yields on federal government treasury securities with similar terms to debt. In determining the current market rate for variable-rate debt, a market credit spread is added to the current effective interest rate. At September 30, 2014, the fair-value of all fixed-rate debt was estimated to be \$1.9 billion compared to the net carrying value of \$1.8 billion (including debt premiums and discounts). At September 30, 2014, both the fair-value and carrying value of all variable-rate debt was estimated to be \$1.0 billion. We do not believe that the interest rate risk represented by our fixed-rate debt or the risk of changes in the credit spread related to our variable-rate debt was material as of September 30, 2014 in relation to total assets of \$6.2 billion and equity market capitalization of \$4.1 billion of BioMed Realty Trust, Inc.'s common stock and BioMed Realty, L.P.'s OP units. Based on the unhedged outstanding balances of our unsecured line of credit, our Term Loan due 2017, our Term Loan due 2018 and our proportionate share of the outstanding balance of the PREI joint ventures' secured construction loan at September 30, 2014, a 1% change in interest rates would change our interest costs by approximately \$5.1 million per year. This amount was determined by considering the impact of hypothetical interest rates on our financial instruments. This analysis does not consider the effect of any change in overall economic activity that could occur in that environment. Further, in the event of a change of the magnitude discussed above, we may take actions to further mitigate our exposure to the change. However, due to the uncertainty of the specific actions that would be taken and their possible effects, this analysis assumes no changes in our financial structure.

In order to modify and manage the interest rate characteristics of our outstanding debt and to limit the effects of interest rate risks on our operations, we may utilize a variety of financial instruments, including interest rate swaps, caps and treasury locks in order to mitigate our interest rate risk on a related financial instrument. The use of these types of instruments to hedge our exposure to changes in interest rates carries additional risks, including counterparty credit risk, the enforceability of hedging contracts and the risk that unanticipated and significant changes in interest rates will cause a significant loss of basis in the contract. To limit counterparty credit risk we will seek to enter into such agreements with major financial institutions with high credit ratings. There can be no assurance that we will be able to adequately protect against the foregoing risks and will ultimately realize an economic benefit that exceeds the

related amounts incurred in connection with engaging in such hedging activities. We do not enter into such contracts for speculative or trading purposes.

Equity Price Risk

We have exposure to equity price market risk because of our equity investments in certain publicly-traded companies and privately-held entities. We classify investments in publicly-traded companies as “available for sale” and, consequently, record them on our condensed consolidated balance sheets at fair-value, with unrealized gains or losses reported as a component of accumulated other comprehensive income or loss. Investments in privately-held entities are generally accounted for under the cost method because we do not influence any of the operating or financial policies of the entities in which we invest. For all investments, we recognize other-than-temporary declines in value against earnings in the same period during which the decline in value was deemed to have occurred. There is no assurance that future declines in value will not have a material adverse impact on our future

Table of Contents

results of operations. A 10% decrease in the fair-value of our equity investments as of September 30, 2014, would equal approximately \$6.0 million.

Foreign Currency Exchange Rate Risk

We have exposure to foreign currency exchange rate risk related to our subsidiary operating in the United Kingdom. The functional currency of our foreign subsidiary is GBP. Gains or losses resulting from the translation of our foreign subsidiary's balance sheet and statement of income are included in other comprehensive income. Gains or losses will be reflected in our statements of income when there is a sale of our investment in these operations or upon a complete or substantially complete liquidation of the investment. For the three months ended September 30, 2014 and 2013, total revenues from properties outside the United States were \$6.5 million and \$4.5 million, respectively, which represented 3.8% and 2.8% of our total revenues during the respective periods. For the nine months ended September 30, 2014 and 2013, total revenues from properties outside the United States were \$16.1 million and \$13.5 million, respectively, which represented 3.2% and 2.8% of our total revenues during the respective periods. Our net investments in properties outside the United States were \$198.2 million and \$190.2 million at September 30, 2014 and December 31, 2013, respectively. On August 2, 2012, we converted a portion of the outstanding borrowings of our Term Loan due 2017 into GBP, which we designated as a net investment hedge to mitigate our risk to fluctuations in foreign currency exchange rates. As a result, our unhedged net investment in properties outside the United States was \$35.9 million as of September 30, 2014.

ITEM 4. CONTROLS AND PROCEDURES

Controls and Procedures (BioMed Realty Trust, Inc.)

BioMed Realty Trust, Inc. maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in its reports under the Securities Exchange Act of 1934, as amended, or the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to its management, including BioMed Realty Trust, Inc.'s Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Also, BioMed Realty Trust, Inc. has investments in unconsolidated entities. As BioMed Realty Trust, Inc. manages these entities, its disclosure controls and procedures with respect to such entities are essentially consistent with those it maintains with respect to its consolidated entities.

As required by Rule 13a-15(b) under the Exchange Act, BioMed Realty Trust, Inc. carried out an evaluation, under the supervision and with the participation of its management, including BioMed Realty Trust, Inc.'s Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of BioMed Realty Trust, Inc.'s disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, BioMed Realty Trust, Inc.'s Chief Executive Officer and Chief Financial Officer concluded that BioMed Realty Trust, Inc.'s disclosure controls and procedures were effective at the reasonable assurance level.

There has been no change in BioMed Realty Trust, Inc.'s internal control over financial reporting during the quarter ended September 30, 2014 that has materially affected, or is reasonably likely to materially affect, BioMed Realty Trust, Inc.'s internal control over financial reporting.

Controls and Procedures (BioMed Realty, L.P.)

BioMed Realty, L.P. maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in its reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to its management, including BioMed Realty Trust, Inc.'s Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Also, BioMed Realty, L.P. has investments in unconsolidated entities. As BioMed Realty, L.P. manages these entities, its disclosure controls and procedures with respect to such entities are essentially consistent with those it maintains with respect to its consolidated entities.

As required by 13a-15(b) under the Exchange Act, BioMed Realty, L.P. carried out an evaluation, under the supervision and with the participation of its management, including BioMed Realty Trust, Inc.'s Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of BioMed Realty, L.P.'s disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, BioMed Realty Trust, Inc.'s Chief Executive Officer and Chief Financial Officer concluded that BioMed Realty, L.P.'s disclosure controls and procedures were effective at the reasonable assurance level.

There has been no change in BioMed Realty, L.P.'s internal control over financial reporting during the quarter ended September 30, 2014 that has materially affected, or is reasonably likely to materially affect, BioMed Realty, L.P.'s internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Although we are involved in legal proceedings arising in the ordinary course of business, we are not currently a party to any legal proceedings nor is any legal proceeding threatened against us that we believe would have a material adverse effect on our financial position, results of operations or liquidity.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our annual report on Form 10-K for the year ended December 31, 2013, which could materially affect our business, financial condition and/or results of operations. There have been no material changes to the risk factors described in the "Risk Factors" section in our annual report on Form 10-K for the year ended December 31, 2013. The risks described in our annual report on Form 10-K are not the only risks facing our company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or results of operations.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Unregistered Sales of Equity Securities and Use of Proceeds (BioMed Realty Trust, Inc.)

None.

Unregistered Sales of Equity Securities and Use of Proceeds (BioMed Realty L.P.)

During the three months ended September 30, 2014, our Parent Company issued an aggregate of 5,370 shares of its common stock (excluding the forfeiture of an aggregate of 31,356 shares of common stock over the same period) in connection with restricted stock awards under its incentive award plan for no cash consideration. For each share of common stock issued by our Parent Company in connection with such an award, the operating partnership issued a restricted operating partnership unit to our Parent Company, in reliance on the exemption from registration provided by Section 4(a)(2) of the Securities Act of 1933, as amended. During the three months ended September 30, 2014, the operating partnership issued an aggregate of 5,370 restricted operating partnership units to our Parent Company, as required by the operating partnership's partnership agreement (excluding the forfeiture of 31,356 shares of common stock over the same period).

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.
