## 2. Basis of Preparation and Presentation of the Financial Statements

The individual and consolidated Financial Statements were prepared in accordance with the accounting practices adopted in Brazil and with the procedures issued by the Brazilian Securities Commission (CVM) and by the Brazilian Institute of Accountants (IBRACON).

The conclusion of the preparation of these financial statements was authorized at the board of executive officers meeting, held at April 29, 2008.

On December 28, 2007, the Law 11,638 was enacted, amending, revoking and introducing new provisions to the Law 6,404, as of December 15, 1976 and Law 6,385 as of December 7, 1976. The main purpose of these alterations and insertions is to update the Brazilian Corporate Law in order to allow the convergence of the accounting practices adopted in Brazil with the international accounting practices defined by the rules issued by International Accounting Standards Board IASB.

The requirements of this new Law apply to the financial statements related to the fiscal years starting as of January 1, 2008, and the alterations to these statements for the fiscal year to end on December 31, 2008 shall be applied retroactively to December 31, 2007 or to all periods related to 2007 for the purposes of presentation and comparison of the financial statements to be disclosed in 2008. Among the main alterations to the accounting rules introduced by this new law, we point out below only those that may impact on the financial statements of the Company and its subsidiaries, in a preliminary analysis carried out by the Management:

- a) In the operations related to the business combination between independent parties and subject to the effective transfer of control, the assets and liabilities of the company to be merged, or deriving from merger or spin-off will be recorded by market value. The Company is analyzing the amortization of the remaining goodwill balance. As in previous periods, goodwill was amortized this quarter.
- b) The long-term assets and liabilities must be adjusted by their present value. Other balances shall be adjusted at their present value, only when there is a material effect on the financial statements. Analyses are being prepared for the selection of fees, terms and accounts subject to the application of present value concepts.
- c) The investments in associated companies, the Management of which has significant influence or holding 20% interest or more of the voting capital (and no longer of the total capital), in subsidiaries and other companies composing a same group or under common control shall be assessed by the equity accounting method. The relevance concept was removed. The Company s

## 2. Basis of Preparation and Presentation of the Financial Statements (Continued)

Management believes that said change will not have any significant impact on the financial statements.

d) The possibility of maintaining separately the bookkeeping of transactions in order to comply with the tax laws, and subsequently, the adjustments necessary to be in conformity with the accounting practices. The Company is assessing the impacts of applying such insertion in its internal control structure in order to better define the practice to be adopted.

e) The rights having as purpose tangible assets destined to the maintenance of the Company's activities shall be recorded in property and equipment, including those deriving from operations that transfer benefits, risks and control of assets to the Company, such as, for instance, the financial leasing. In view of the significant volume of contracts with different terms and compensation conditions, the Company intends to undertake more detailed studies, enabling a more appropriate accounting and disclosure of the matter.

f) Requirements that the financial investments, including derivatives are recorded: (i) by their market value or corresponding amount, when we refer to investments for trading or available for sale ; and (ii) by the acquisition cost or issue value, restated according to legal or contractual provisions, adjusted at the probable value of realization, when this is shorter. The Company's Management believes that its financial investments are in line with CVM requirements, meaning that there will be no significant effects caused by the adoption of said rule.

The next steps to be adopted by the Company will consist of measuring the effects of these items and the study of any other further norms that may be issued by the Brazilian Securities and Exchange Commission.

Certain assets, liabilities, revenues and expenses are determined on the basis of estimates when preparing the financial statements. Accordingly, the financial statements of the Company and the consolidated financial statements include various estimates, among which are those relating to calculation of allowance for doubtful accounts, depreciation and amortization, asset valuation allowance, realization of deferred taxes, contingencies and other estimates. Actual results may differ from those estimated.

## 2. Basis of Preparation and Presentation of the Financial Statements (Continued)

#### (ii) Marketable securities

Securities are recorded at cost, accrued of earnings verified up to the balance sheet dates and not exceeding the market value. The marketable securities are redeemable at any time.

### b) Accounts receivable

Accounts receivable are stated at estimated realizable values. An allowance for doubtful accounts is provided in an amount considered by Management to be sufficient to meet probable future losses related to uncollectible accounts.

The setting up of provision is mainly based on the historic average of losses, in addition to specific accounts receivable deemed as uncollectible. The Company's installment sales occur with the intermediation of FIC and financing receivables not remaining in GPA (Note 9 (e)).

The Company carries out securitization operations of the accounts receivable with a special purpose entity, over which it has shared control, the PAFIDC (*Pão de Açúcar Fundo de Investimento em Direitos Creditórios*) (Note 4 (b) and Note 7).

### c) Inventories

Inventories are carried at the lower of cost or market value, whichever is the shorter. The cost of inventories purchased directly by the stores is based on the last purchase price, which approximates the First In, First Out ( FIFO ) method. The cost of inventories purchased through the warehouse is recorded at average cost, including warehousing and handling costs.

Inventories are also stated by the net value of allowance for losses and breakage, which are periodically reviewed and evaluated as to their efficiency.

## 2. Basis of Preparation and Presentation of the Financial Statements (Continued)

### d) Other current and noncurrent assets

Other assets and receivables are stated at cost, including, when applicable, contractual indexation accruals, net of allowances to reflect realizable amounts, if necessary.

### e) Investments

Investments in subsidiaries are accounted for by the equity method, and provision for capital deficiency is recorded, when applicable. Other investments are recorded at acquisition cost.

### f) Property and equipment

These assets are shown at acquisition or construction cost, monetarily restated until December 31, 1995, deducted from the related accumulated depreciation, calculated on a straight-line basis at the rates mentioned in Note 10, which take into account the economic useful lives of the assets or the leasing term, in case of leasehold improvements, whichever is shorter.

Interest and financial charges on loans and financing obtained from third parties directly or indirectly attributable to the process of purchase, construction and operating expansion, are capitalized during the construction and refurbishment of the Company's and its subsidiaries' stores in conformity with CVM Deliberation 193. The capitalized interest and financial charges are appropriated to results over the depreciation periods of the corresponding assets.

Expenditures for repairs and maintenance that do not significantly extend the useful lives of related asset are charged to expense as incurred. Expenditures that significantly extend the useful lives of existing facilities and equipment are added to the property and equipment value.

### g) Intangible assets

### j) Derivative financial instruments

In the case of financial assets and liability instruments, these are accounted for at the lower of cost or market value, whichever is the shorter.

### k) Taxation

Revenues from sales and services are subject to taxation by State Value-Added Tax ( ICMS ), Services Tax ( ISS ), Social Contribution Tax on Gross Revenue for Social Integration Program ( PIS ) and Social Contribution Tax on Gross Revenue for Social Security Financing ( COFINS ) at rates prevailing in each region and are presented as sales deductions in the statement of income.

The credits derived from non-cumulative PIS and COFINS are shown deducted from cost of goods sold in the statement of income. The debits derived from financial income and credits derived from financial expenses are shown deducted in these proper items of the statement of income.

The advances or amounts subject to offsetting are shown in the current and noncurrent assets, in accordance with the estimate for their realization.

The taxation on income comprises the Corporate Income Tax ( IRPJ ) and Social Contribution on Net Income ( CSLL ), which are calculated based on taxable income (adjusted income), at rates applicable according to the prevailing laws 15%, accrued of 10% over the amount exceeding R\$240 yearly for IRPJ and 9% for CSLL.

## 2. Basis of Preparation and Presentation of the Financial Statements (Continued)

Deferred IRPJ and CSLL assets were recorded under the item deferred IRPJ and CSLL from tax losses, negative basis of social contribution and temporary differences, taking into account the prevailing rates of said taxes, pursuant to the provisions of CVM Deliberation 273, as of August 20, 1998, CVM Ruling 371, as of June 27, 2002 and taking into account the history of profitability and the expectation of generating future taxable income based on a technical feasibility study, annually approved by the Board of Directors.

Cost of merchandise includes warehousing and handling costs in the warehouses.

### n) Earnings per share

The calculation was made based on the number of outstanding shares at the end of the quarter as if net income for the period was fully distributed. Earnings may be distributed, used for capital increase purposes, or to compose the profit reserve for expansion, based on capital budget.

### o) Consolidated financial statements

The consolidated financial statements were prepared in conformity with the consolidation principles prescribed by the Brazilian Corporate Law and CVM Ruling 247, and include the annual information of the Company and its subsidiaries Novasoc, S , Sendas Distribuidora, PAFIDC, PA Publicidade Ltda. The other members have no effective veto or other participating or protective rights. Under the Bylaws of Novasoc, the appropriation of its net income does not need to be proportional to the quotas of interest held in the company.

The proportional investment of the Parent Company in the income of the investee, the balances payable and receivable, revenues and expenses and the unrealized profit originated in transactions between the consolidated companies were eliminated in the accounting financial statements.

Pursuant to CVM Ruling 408 as of August 18, 2004, the Company as of the first quarter of 2005, started to consolidate PAFIDC's financial statements, as it understood this is a special purpose entity, organized with exclusive purpose of conducting the securitization of receivables of the Company and its subsidiaries, and most of risks and benefits related to the fund profitability are linked to subordinated quotas, maintained by the Company.

PAFIDC is a receivables securitization fund formed in compliance with CVM Rulings 356 and 393 for the purpose of acquiring the Company and its subsidiaries' trade receivables, arising from sales of products and services to their customers. Initially, the fund would acquire credit rights derived from credit cards sales, meal ticket, installment system or post-dated checks. In the fourth quarter of 2005, the fund no longer acquired receivables from installment system and in July 2007, receivables from post-dated checks.

A letter proposal was signed at February 22, 2008 to extend the fund maturity for up to two years, as of its maturity date at May 26, 2008. As from this date, the new quotas will be remunerated to 105% of CDI, further conditions of

operation remain the same. The capital structure of the fund, at March 31, 2008, is composed of 10,256 senior quotas, held by third parties in the amount of R\$845,960, which represent 92.23% of the fund's equity (93.1% at December 31, 2007) and 2,864 subordinated quotas, held by the Company and

The net assets of PAFIDC at March 31, 2008 and December 31, 2007 are summarized as follows:

	<b>03.31.2008</b>	<b>12.31.2007</b>
<b>Assets</b>		
Cash and cash equivalents	<b>169,890</b>	64,466

The retained interest in subordinated quotas represents the maximum exposure to loss under the securitization transactions.

The series B quotaholders will redeem the remaining balance of R\$137,162 (R\$133,682 at December 31, 2007) at the end of the fund's term. The series A quotaholders will redeem their quotas only at the end of the fund's term, the amount of which at March 31, 2008 corresponds to R\$571,852 (R\$556,776 at December 31, 2007). The series C quotaholders will redeem the balance of R\$136,946 (R\$133,344 at December 31, 2007) at the end of the fund's term (Note 13 (iii)).

The Company will redeem the subordinated quotas only after the redemption of senior quotas or at the end of the fund's term. Once the senior quotas have been yielded, the subordinated quotas will receive the balance of the fund's net assets after absorbing any default on the credit rights transferred to the fund and any losses attributed to the fund. Their redemption value is subject to credit, prepayment, and interest rate risks on the transferred financial assets.

The Company's indirect interest in Sendas Distribuidora at March 31, 2008 corresponded to 42.57% of total capital. Pursuant to the shareholders' agreement, it is incumbent upon GPA's Board of Executive Officers to conduct the operating and administrative management of Sendas Distribuidora.

Pursuant to its Shareholders' Agreement, as of February 1, 2007, Sendas S.A. had the right to swap its paid-in shares or a portion thereof, for preferred shares of the Company. At March 31, 2008, Sendas S.A. held 42.57% shareholding in the total capital of Sendas Distribuidora, 23.65% of which already paid-in and 18.92% not paid-in yet. Pursuant to the 2<sup>nd</sup> addendum to the Shareholders' Agreement, Sendas S.A. shall pay-in the remaining installment of R\$200,000 up to 2014.

At October 19, 2006, Sendas S.A. notified the Company, expressing the exercise of put, pursuant to Clause 6.7 of Sendas Distribuidora Shareholders' Agreement, related to the transfer of equity control. The Company, understanding that a sale of control was not held, sent a counter-notice to Sendas S.A.

representing the Company to assess the outcome and eventual settlement amount of the proceeding.

On April 29, 2008, the Arbitration Court rendered an award agreeing with the rules of the Panel of Conciliation and Arbitration of FGV-RJ, with a favorable decision to GPA that sale of its share control did not occur, when the partnership operation with Casino was concluded in 2005. Therefore, the claims of Sendas S/A were rejected in the arbitration based on the nonexistence of sale of control, especially that claim pleading the acknowledgment of supposed right to exercise PUT options for its shares in Sendas Distribuidora S.A.

Since PUT of Sendas S.A. has not been exercised, in view of the establishment of transfer amounts, the Company's Management did not change the interest percentage currently used for the purposes of calculating the equity accounting and consolidating the quarterly information of Sendas Distribuidora.

By such amendment, the meeting of goals and the guarantee account are not longer tied, and fines for noncompliance of the referred performance goals were established.

This partnership is effective for 20 years and may be extended for an indeterminate term. The operational management of FIC is under the responsibility of Itaú.

The Miravalles' financial statements for the periods ended at March 31, 2008 and 2007 and the financial statements for the year ended at December 31, 2007, were audited by other independent auditors. #### (ii) BNDES credit line

The line of credit agreements, denominated in *reais*, with the Brazilian National Bank for Economic and Social Development (BNDES), are either subject to the indexation based on TJLP rate (long-term rate), plus annual interest rates, or are denominated based on a basket of foreign currencies to reflect the BNDES funding portfolio, plus annual interest rates. Financing is paid in monthly installments after a grace period, as mentioned below.

The Company cannot offer any assets as collateral for loans to other parties without the prior authorization of BNDES and is required to comply with certain debt covenants, calculated on the balance sheet, in accordance with Brazilian GAAP, including: (i) maintenance of a capitalization ratio (shareholders' equity/total assets) equal to or in excess of 0.4 and (ii) maintenance of a current ratio (current assets/current liabilities) equal to or in excess of 1.05. Management effectively controls and monitors covenants, which were fully performed. The parent company offered pledges as a joint and several liable party for settlement of the agreements.

a) Taxes

Tax-related contingencies are indexed to the Central Bank Overnight Rate ( SELIC ), which stood at 10.82% at March 31, 2008 (11.25% at December 31, 2007), and are subject, when applicable, to fines. In all cases, both interest charges and fines, when applicable, have been computed with respect to unpaid amounts and are fully accrued.

*COFINS and PIS*

In 1999, the rate for COFINS increased from 2% to 3%, and the tax base of both COFINS and PIS was extended to encompass other types of income, including financial income. The Company is challenging the increase in contributions of COFINS and the extension of base of such contributions. Provision for COFINS and PIS includes unpaid amounts, monetarily restated, amounting to R\$996,421 (R\$971,004 at December 31, 2007) resulting from the lawsuit filed by the Company and its subsidiaries, claiming the right to not

apply Law 9,718/98, permitting it to determine the payment of COFINS under the terms of Complementary Law 70/91 (2% of revenue) and of PIS under Law 9,715/98 (0.65% of revenue) as of February 1, 1999. The lawsuits are in progress at the Regional Federal Court, and up to this moment, the Company has not been required to make judicial deposits.

As the calculation system of such contributions started to use the non-cumulative tax principle, starting by PIS as of December 1, 2002, with the Law 10,637/02, and COFINS, as of February 2004 by means of Law 10,833/03, the Company and its subsidiaries then started to apply said rules, as well as, to question with the Judiciary Branch, the extension of tax base of such contributions, aiming at continuing its application by the concept of sales results, as well as the appropriation of credits not accepted by laws and that the Management understands to be subject to appropriation, such as financial expenses and third parties expenses. The provision recorded in the balance sheet in the amount of R\$129,293 (R\$115,177 at December 31, 2007), includes the unpaid installment, monetarily restated. In addition, the Company challenges the limit of percentage and the term for appropriation of COFINS credit over the opening inventory derived from Law 10,833/03, recording in its balance sheet the difference of appropriated credit under such rule by virtue of judicial authorization. There are no judicial deposits for such discussions.

### *Other*

The Company and its subsidiaries have other tax contingencies, which after analysis of its legal counsels, were deemed as probable losses: a) lawsuit questioning the non-levy of excise tax ( IPI ) over codfish imports, which awaits decision by appellate court judge; b) federal administrative assessment about the restatement of equity accounts by an index higher than that accepted by tax authorities, which awaits decision by administrative appellate court judge ( Summer Plan ); c) administrative assessment referring to the collection of debts of withholding tax (IRRF), social contribution on net income (CSLL), which also awaits decision by administrative appellate court judge, d) administrative assessment due to offsetting of INSS credit verified by the Company under the viewpoint of undue payment over allowance not provided for by law, awaiting for court verdict; e) tax assessment related to purchase, manufacturing and sale transactions for export purposes of soybean and its byproducts, in which, in the tax authorities understanding, the circulation of products did not take place. Within the federal scope, the Company was served notice for these operations, in relation to PIS, COFINS and IRPJ. The amount recorded in accounting books for such issues is R\$31,817 (R\$29,539 at December 31, 2007). The Company has no judicial deposits related to such issues.

## 16. Provision for Contingencies (Continued)

### b) Labor claims

The Company is party to numerous lawsuits involving disputes with its employees, primarily arising from layoffs in the ordinary course of business. At March 31, 2008, the Company recorded a provision of R\$50,721 (R\$50,166 at December 31, 2007) assessed as probable risk. Lawsuits the loss of which is deemed as possible by our legal counsels stand at R\$6,733 (R\$7,151 at December 31, 2007). Management, assisted by its legal counsels, evaluates these contingencies and provides for losses where reasonably estimable, bearing in mind previous experiences in relation to the amounts sought. Labor claims are indexed to the Referential Interest Rate ( TR ) (2.0% accumulated in the year ended at March 31, 2008) plus 1% monthly interest. The balance of net allowance for earmarked judicial deposits is R\$1,717 (R\$2,401 at December 31, 2007).

### c) Civil and other

The Company is a defendant, at several judicial levels, in lawsuits of civil natures, among others. The Company s Management sets up provisions in amounts considered sufficient to cover unfavorable court decisions when its internal and external legal counsels consider losses to be probable.

Among these lawsuits, we point out the following:

- The Company brought a writ of mandamus in order to be entitled to not pay the contributions provided for by Complementary Law 110/2001 related to the FGTS (Government Severance Indemnity Fund for Employees) financing. The Company obtained a preliminary injunction recognizing the right of not paying such contributions. Subsequently, this preliminary injunction was reversed, determining the judicial deposit of unpaid amounts during the effectiveness period of the preliminary injunction. The enforceability of tax credit is suspended in view of appeal filed, which awaits decision by the Regional Federal Court. The amount accrued is R\$48,750 (R\$46,896 at December 31, 2007) and the Company effected a R\$8,050 (R\$8,036 at December 31, 2007) judicial deposit, protecting the period in which it was not covered by the preliminary injunction.
- The Company filed a declaratory action of absence of legal relationship, in what concerns the contribution to SEBRAE, as enacted by Law 8,029/90, in order to also obtain the acknowledgement of restated credit for offsetting with balances payable to SESC (Social Service for Trade) and SENAC (National Service for Commercial Training), excluding the 30% limit. The Company was granted the right of not paying the falling due contributions, provided that judicial deposits are made, as usual. The proceeding awaits a

decision of the extraordinary appeal. The accrued amount is R\$39,068 at March 31, 2008, (R\$37,511 at December 31, 2007), and judicial deposit in the amount of R\$38,944 (R\$37,328 at December 31, 2007).

- The Company by means of a writ of mandamus is challenging the constitutionality of the FUNRURAL (Rural Workers Assistance Fund) for companies located in urban areas. The lawsuit is in progress at the Regional Federal Court and the amount of the provision is R\$33,740 (R\$33,141 at December 31, 2007). There is no judicial deposit for such proceeding.
- The Company files and answers various lawsuits in which it requests the review of lease amounts paid by the stores. In these lawsuits, the judge determines a provisional lease amount, which then is paid by the stores, until report and decision define the final lease amount. The set up provision of difference between the amount originally paid by the stores and that defined provisionally in these lawsuits. At March 31, 2008 the accrual amount for these lawsuits is R\$12,955 (R\$11,955 at December 31, 2007), for which there are no judicial deposits.

### d) Possible losses

The Company has other contingencies which have been analyzed by the legal counsel and deemed as possible but not probable; therefore, have not been accrued, at March 31, 2008, as follows:

- INSS (Social Security Tax) The Company was also served notice regarding the non-levy of payroll charges on benefits granted to its employees, and the loss, considered possible, amounts to R\$118,877 (R\$116,462 at December 31,2007). These proceedings are under administrative discussion.
- IRPJ, IRRF, and CSLL The Company was served several administrative assessment notices regarding the taxes mentioned, with varied subject- matters, such as offsetting proceedings, undeductible provisions, and all of them await decision in the administrative level, the amount of which corresponds to R\$100,595 (R\$69,309 at December 31, 2007).
- COFINS, PIS and CPMF The Company was served notice in the administrative level regarding the taxes mentioned with varied subject- matters, motion for offsetting the Social Investment Fund ( FINSOCIAL ), tax payment discrepancies, in addition to PIS and

COFINS in the assessment of soybean operations, previously mentioned. The amount involved in these assessments is R\$237,700 (R\$243,637 at December 31, 2007) and await administrative decision.

- **ICMS** The Company was served notice by the state tax authorities regarding the appropriation of electricity credits, acquisitions from suppliers considered to be disreputable, refund of tax replacement without due compliance of ancillary obligations brought by CAT Ordinance 17 of the State of São Paulo, among others, not relevant. At the end of 2007, the Company was again served notice by the State of São Paulo, amounting to nearly R\$31,426, of which approximately R\$24,570 were classified by the management and legal counsels, as possible losses. The total amount of these assessments is R\$931,448 (R\$878,062 at December 31, 2007), which await a final decision in the administrative and court levels.
- **ISS, Municipal Real Estate Tax ( IPTU ), Property Transfer Tax ( ITBI ) and other** These are related to assessments on third parties retention, tax payment discrepancies, fines due to non-compliance of ancillary obligations and sundry taxes, the amount of which is R\$18,646 (R\$17,891 at December 31, 2007) and await administrative and court decisions.
- **Other contingencies** They are related to administrative lawsuits and lawsuits under the civil court scope, special civil court, Consumer Protection Agency ( PROCON ) (in many states), Weight and Measure Institute ( IPEM ), National Institute of Metrology, Standardization and Industrial Quality ( INMETRO ) and National Health Surveillance Agency ( ANVISA ), in great majority related to suits for damages, amounting to R\$59,228 (R\$45,139 at December 31, 2007).

Occasional adverse changes in the expectation of risk of the referred lawsuits may require that additional provision for contingencies be set up.

### e) Appeal and judicial deposits

The Company is challenging the payment of certain taxes, contributions and labor-related obligations and has made court escrow deposits (restricted deposits) of equivalent amounts pending final legal decisions, in addition to collateral deposits related to provisions for judicial suits.

## (ii) Income tax on goodwill

At December 20, 2006, at Extraordinary General Meeting, the Company's shareholders approved the merger operation of its parent company Vieri.

The special goodwill reserve, set up as a result of this merger, pursuant to paragraph 1 of article 6 of the CVM Ruling 319/99, will be purpose of capitalization to the benefit of controlling shareholders, without prejudice to the preemptive right ensured to other shareholders in the subscription of capital increase resulting from said capitalization, all pursuant to article 7, *caput* and paragraphs 1 and 2 of CVM Ruling 319/99, to the extent that the tax benefit earned, as a result of goodwill amortization, represents an effective decrease of taxes paid.

**17. Income and Social Contribution Taxes (Continued)**b) Breakdown of deferred income and social contribution taxes (Continued)

In order to enable a better presentation of the financial statements, the goodwill net amount of R\$515,488, less provision, which substantially represents the tax credit balance plus the amount of R\$1,806 were classified as deferred IRPJ.

The Extraordinary General Meeting held on March 31, 2008 approved the reverse merger of Sevilha into Barcelona. ### b) Share rights

The preferred shares are non-voting and have preference with respect to the distribution of capital in the event of liquidation. Each shareholder has the right pursuant to the Company's Bylaws to receive a proportional amount, based on their respective holdings to total common and preferred shares outstanding, of a total dividend of at least 25% of annual net income determined on the basis of financial statements prepared in accordance with Brazilian GAAP, to the extent profits are distributable, and after transfers to reserves as required by Brazilian Corporation Law, and a proportional amount of any additional dividends declared. Beginning in 2003, the preferred shares are entitled to receive a dividend 10% greater than that paid to common shares.

The Company's Bylaws provide that, to the extent funds are available, minimum non-cumulative preferred dividend to the preferred shares in the amount of R\$ 0.08 per share and dividends to the preferred shares shall be 10% higher than the dividends to common shares up to or, if determined by the shareholders, in excess of the mandatory distribution.

Management is required by the Brazilian Corporation Law to propose dividends at year-end, at least, until the amount of mandatory dividend, which can include the interest on shareholders' equity, net of tax.

### c) Capital reserve Special goodwill reserve

This reserve was set up as a result of the corporate restructuring process outlined in Note 17 (ii), in contra account to the merged net assets and represents the amount of future tax benefit to be earned by means of amortization of goodwill merged. The special reserve portion corresponding to the benefit earned may be capitalized at the end of each fiscal year to the benefit of the controlling shareholders, with the issue of new shares. The capital increase will be subject to the preemptive right of non-controlling shareholders, in the proportion of their respective interest, by type and class, at the time of the issue, and the amounts paid in the year related to such right will be directly delivered to the controlling shareholder, pursuant to provision in CVM Ruling 319/99 and CVM 349/01.

At December 31, 2006, the tax benefit recorded derived from the goodwill merged amounted to R\$ 517,294, which will be used in the capital increase, upon the realization of reserve.

At March 31, 2008, a tax benefit deriving from the goodwill in the merger of Sevilha into Barcelona was recorded in the amount of R\$69,180, which will be used to increase capital, upon realization of reserve.

**18. Shareholders Equity** (Continued)

d) Revenue reserve

(i) Legal reserve: is formed based on appropriations from retained earnings of 5% of annual net income, before any appropriations, and limited to 20% of the capital.

(ii) Expansion reserve: was approved by the shareholders to reserve funds to finance additional capital investments and working and current capital through the appropriation of up to 100% of the net income remaining after the legal appropriations and supported by capital budget, approved at meeting.

(iii) Profit retention: the balance at December 31, 2007 is available to the Shareholders General Meeting for allocation.

e) Preferred stock option plan

The Company offers a stock option plan for the purchase of preferred shares to management and employees. The exercise of options guarantees the beneficiaries the same rights granted to the Company's other shareholders. The management of this plan was attributed to a committee designated by the Board of Directors.

The granting price for each lot of shares is, at least, 60% of the weighted average price of the preferred shares traded in the week the option is granted. The number of lot of shares may vary for each beneficiary or series.

The right to exercise the options is acquired in the following manner and terms: (i) 50% in the last month of the third year following the granting date (1<sup>st</sup> tranche) and (ii) up to 50% in the last month of the fifth year following the granting date (2<sup>nd</sup> tranche), and the remaining portion of this second lot subject to restraint on alienation until the beneficiary's retirement, as per formula defined in the regulation.

**18. Shareholders Equity** (Continued)

e) Preferred stock option plan (Continued)

Shares subject to restraint on alienation ( $Q$ ), upon the exercise of the options, are calculated by using the following formula outlined in the stock option plan:

where:

$Q$  = Amount of 1000 (one thousand) shares to be encumbered by restraint on alienation.

$QI$  = 50% of the total lots of Company's shares as of the granting date.

$Pm$  = Market price of the lot of Company's shares as of the exercise date.

$Pe$  = Original exercise price of the lot, determined on the granting date, observing the terms of the Plan.

The option price from the date of concession to the date of exercise thereof by the beneficiary is updated by reference to the General Market Price Index - IGP-M variation, less dividends attributed for the period.

Pursuant to Clause 14.5 of the Plan, the application of the mentioned formula shall be adjusted taking into account the reverse share split of shares representing the Company's capital stock, approved at the Extraordinary General Meeting held on July 30, 2007.

**New preferred stock option plan**

The Extraordinary General Meeting held on December 20, 2006, approved the amendment to the Company's Stock Option Plan, approved by the Extraordinary General Meeting held at April 28, 1997.

As from 2007, the granting of preferred stock option plan to management and employees will take place as follows:

Shares will be classified into two types: Silver and Gold, and the quantity of Gold-type shares may be decreased and/or increased (reducer or accelerator), at discretion of the Plan Management Committee, in the course of 35 months following the granting date.

**18. Shareholders Equity** (Continued)e) Preferred stock option plan (Continued)

The price for each Silver-type share will correspond to the average of closing price of negotiations of the Company's preferred shares occurred over the last 20 trading sessions of BOVESPA, prior to the date on which the Committee resolves on the granting of option, with negative goodwill of 20%. **20. Financial Instruments**a) General considerations

Management considers that risk of concentration in financial institutions is low, as operations are limited to traditional, highly-rated banks and within limits approved by the Management.

b) Concentration of credit risk

The Company's sales are direct to individual customers through post-dated checks, in a small portion of sales (nearly 1.03% of sales in the quarter). In such portion, the risk is minimized by the large customer base.

The advances to suppliers are made only to selected suppliers. We do not have credit risk with suppliers, since we discount only own payments of goods already delivered.

**20. Financial Instruments** (Continued)

In order to minimize credit risk from investments, the Company adopts policies restricting the marketable securities that may be allocated to a single financial institution, and which take into consideration monetary limits and financial institution credit ratings.

c) Market value of financial instruments

Estimated market value of financial instruments at March 31, 2008 approximates market value, reflecting maturities or frequent price adjustments of these instruments, as shown below:

Market value of financial assets and of current and noncurrent financing, when applicable, was determined using current interest rates available for operations carried out under similar conditions and remaining maturities.

In order to translating the financial charges and exchange variation of loans denominated in foreign currency into local currency, the Company contracted swap operations, pegging the referred to charges to the CDI variation, which reflects market value.

d) Management of exchange and interest rate risk

The utilization of instruments and derivatives operations bearing interest rates aims at protecting the results of the Company's assets and liabilities operations. The transactions are carried out by the financial operations department according to a strategy previously approved by the Management.

The cross-currency interest rate swaps enable the Company to exchange short-term and long-term loans (Note 13), contracted at U.S.dollar- denominated fixed interest rates with loans contracted at Reais-denominated floating interest rates. On March 31, 2008, the balances of short-term and long-term financing

**08.01 - COMMENTS ON THE CONSOLIDATED PERFORMANCE DURING THE QUARTER****Operating Performance**

The comments on the Group's operating performance presented below refer to the consolidated proforma figures, which include the entire operating results of Sendas Distribuidora (a joint venture with the Sendas chain in Rio de Janeiro) and Assai (a joint venture with the Atacadista Assai chain in São Paulo) and exclude restructuring costs.

The 1Q08 operating result was jeopardized by restructuring costs of R\$ 23.0 million, R\$ 8.7 million of which impacted selling expenses and R\$ 14.3 million affected general and administrative expenses.

In order to allow an analysis of the Company's real performance, these costs were excluded, as shown in the table below:

**Sales Performance**  
**Same-store sales increase 8.5% in the quarter**

(R\$ million)	1Q08 Pro-forma	1Q07 Pro-forma	Chg.
Gross Sales	4,990.8	4,168.0	19.7%
Net Sales	4,244.1	3,530.3	20.2%

First-quarter gross sales totaled R\$ 4,990.8 million, 19.7% up on 1Q07, while net sales climbed by 20.2% to R\$ 4,244.1 million, fueled by the consolidation of Assai's sales and the impact of Easter. In the same-store concept, gross sales recorded an increase of 8.5% and net sales moved up by 8.9% .

Also in the same-store concept, food products posted a 7.6% year-on-year upturn, benefiting from Easter sales, due to the fact that Easter took place in the first quarter this year, while non-food items grew by 11.4%, led by the sub-categories Mundo Casa (general merchandise) and Mundo Entretenimento (entertainment), both of which recorded high period growth.

Among the formats, the Extra banner was the best performer, driven by Easter sales and the electronics subcategory ( Mundo Entretenimento ), while Pão de Açúcar, CompreBem and Sendas recorded growth very close to the Company average. Sendas Distribuidora's same-store growth also made an important contribution to the healthy quarterly performance.

(2) basis points

The Group's 1Q08 gross margin stood at 26.2%, 160 bps down on 1Q07. However, the comparison is a distorted one, given that this was the first complete quarter influenced by the consolidation of Assai, whose margins are substantially lower than those of the Company's other banners. If we exclude the Assai chain, the Company's gross margin would have come

to 27.1%, still less than the 27.8% recorded in the 1Q07, reflecting the impact of the Easter promotional offers.

The reduction in the gross margin leveraged sales growth, generating a 13.3% increase in gross profit to R\$ 1,112.6 million, versus R\$ 981.8 million in 1Q07.

**Operating Expenses**

The comments below refer to operating expenses before taxes and charges.

Pro-forma operating expenses represented 18.4% of net sales in 1Q08, 210 bps less than in the first three months of the previous year. In absolute terms, they totaled R\$ 782.3 million, 8.2% up year-on-year. The consolidation of Assai accounted for an expense reduction of around 50 bps.

Pro-forma selling expenses recorded a hefty 170 bps reduction in percentage of net sales terms, falling from 17.2%, in 1Q07, to 15.5%. In absolute terms, they stood at R\$ 658.2 million, jeopardized by the following factors: (i) the opening of 31 new stores, plus the acquisition of the Rossi and Assai chains (5 stores and 15 stores, respectively) and (ii) the 6% period wage increase. Pro-forma G&A expenses totaled R\$ 124.1 million, 6.0% up year-on-year. All the expenses related to the administrative overhaul, which resulted in the Company's new management model, were booked in the 1Q08. We expect no further restructuring expenses this year.

These important advances in reducing operating expenses underline the Company's efficiency gains. The expense committees (personnel, marketing, maintenance and others), which were implemented at the beginning of 2008, have played an important role in this process, although we believe there are still substantial gains to be captured throughout 2008.

**Pro-forma EBITDA margin reaches 7.1% in the quarter**

(R\$ million)	<b>1Q08 Pro-forma</b>	<b>1Q07 Pro-forma</b>	<b>Chg.</b>
EBITDA	300.7	235.6	27.7%

The pro-forma EBITDA margin, which excludes the restructuring effects, stood at 7.1% in the 1Q08, 40 bps higher than in the same period the year before. In absolute terms, pro-forma EBITDA totaled R\$ 300.7 million, 27.7% up year-on-year.

This quarterly performance reflects the reduction in the gross margin and the substantial decrease in operating expenses.

(1) Totals may not tally as the figures are rounded off

Financial revenue fell 4.2% year-on-year in 1Q08 to R\$ 69.4 million, pulled down by the period decline in the average cash position and the reduction in the base interest rate.

Financial expenses stood at R\$ 135.6 million, 1.4% up on the R\$ 133.7 million recorded in 1Q07, pressured by the increase in the Company's gross debt, which was partially offset by the elimination of the CPMF (financial transaction tax) and the year-on-year decline in the base interest rate.

As a result, the net financial result was R\$ 66.1 million negative, an 8.0% increase over the 1Q07.

**Equity Income**  
**Equity income records its first quarterly profit**

With a 12.0% share of the Company's sales, FIC Financeira Itaú CBD posted its first-ever quarterly profit, recording 1Q08 equity income of R\$ 1.2 million, versus a negative R\$ 5.9 million in 1Q07.

The client portfolio closed the quarter at 5.6 million, 7.6% up year-on-year, while the receivables portfolio grew by 48.2% to R\$ 1,292 million. This growth also reflects the absorption of the portfolio of co-branded cards previously belonging to Credicard.

The healthy performance was the result of a series of initiatives implemented throughout 2007, which generated important gains for the portfolio. Among the main such initiatives that will continue to generate benefits in 2008 are:

- growth in card activation levels due to exclusive promotions for private label and co-branded card holders; and
- expansion of the receivables portfolio, due to greater card use, the addition of new clients and the migration of private label cards to Mastercard co-branded cards.

**Minority Interest: Sendas Distribuidora**  
**Gross margin gains and a hefty reduction in expenses lead to a substantial improvement in the EBITDA margin**

In the first quarter of 2008, Sendas Distribuidora's gross sales accounted for 17.1% of the Company total. Operations in Rio de Janeiro recorded gross sales of R\$ 853.4 million and net sales of R\$ 744.1 million, in both cases representing a 7.2% improvement over the same period in 2007. The 1Q08 gross margin moved up 200 bps year-on-year to 27.6%, due to the following factors: (i) more advantageous negotiations with regional suppliers; (ii) a product assortment more appropriate for the target public and therefore more profitable; and (iii) the rationalization of special offers through a promotional policy that seeks a greater balance between discounts and regular prices, respecting the clustering of the recently implanted micro-regions without jeopardizing the Company's price image. As a result, gross profit totaled R\$ 205.2 million in the quarter, 15.7% up on the first three months of 2007.

Operating expenses fell by a hefty 330 bps over 1Q07, from 22.8% of net sales to 19.5%, and by 80 bps over 4Q07, demonstrating the consolidation of the programs to improve store productivity and impose greater control over administrative expenses and in-stores expenses.

As a result 1Q08 EBITDA jumped 310.3% year-on-year to R\$ 52.5 million, with a margin of 7.1%, versus 1.8% in 1Q07.

The net financial result totaled a negative R\$ 23.2 million, a substantial 26.2% year-on-year improvement, pushed by the period upturn in financial revenue. Net income stood at R\$ 4.7 million, thanks to the improved operating performance, generating a negative minority interest of R\$ 2.7 million for the Group.

**Minority Interest: Assai Atacadista**  
**Beginning of store conversion program in the quarter**

In the 1Q08, the Assai stores recorded gross sales of R\$ 307.3 million, 6.2% of the Group's total gross sales, and net sales of R\$ 263.9 million. Total sales moved up 28.6% year-on-year and same-store by 14.8%. One of the quarterly highlights was the initiation of the program to convert stores to the Assai banner, which got under way with the first conversion of a CompreBem store in São Paulo's east zone, on March 12. A further three such conversions and the opening of one new store are scheduled before the end of the first half.

Gross profit totaled R\$ 34.8 million, with a gross margin of 13.2%, impacted by deliberate margin reductions in order to gain market share in regions where we wish to consolidate our presence, such as Ribeirão Preto and Santo André. In addition, this result was expected in that we adopted certain highly conservative assumptions in the 1Q08 in order to align controls with the Group's accounting methods. This was particularly true in the case of the allowance for doubtful accounts and provisions for shrinkage lines.

For the coming quarter, managerial indicators point to a substantial improvement in the gross margin of around 100 bps, the result of a more appropriate margin mix without a negative impact on competitiveness.

Operating expenses represented 11.0% of net sales, remembering that the first quarter is traditionally the weakest for the *cash&carry* segment due to the school vacations in January and February. EBITDA totaled R\$ 5.7 million, with a margin of 2.2%. Higher sales levels in the coming months will help dilute operating expenses and we are therefore maintaining our 2008 EBITDA margin target of more than 4%, fueled by a recovery as of the second quarter and a strong performance in the final three months.

Net income totaled R\$ 1.0 million, generating a negative minority interest of R\$ 0.4 million.

**Net Income****Excluding restructuring expenses, growth would have been 43.3%**

Net Income	53.4	37.3	43.3%

The Company posted a 1Q08 pro-forma net income of R\$ 53.4 million, 43.3% up year-on-year.

The Company's net income is impacted by a number of non-cash expenses, as follows:

(R\$ million) <sup>(1)</sup>	1Q08
Pro-forma Net Income	<b>53.4</b>
Amortization of Goodwill	25.2
Non-Operating Result	(2.3)
<b>Adjusted Net Income</b>	<b>76.3</b>

(1) Totals may not tally as the figures are rounded off

Following this concept, which excludes non-cash expenses, adjusted net income amounted to R\$ 76.3 million, a 42.9% increase as compared to the pro-forma net income.

**Investments****Group invests R\$ 118.5 million in 1Q08**

First-quarter investments totaled R\$ 118.5 million, versus R\$ 204.2 million in 1Q07, allocated as follows: (i) the acquisition of four strategic sites; (ii) the construction of new stores (one Pão de Açúcar, to be opened in May, and one Extra hypermarket, scheduled for inauguration in June, as well as three Extra Fácil units); (iii) the opening of two new Extra Fácil stores and the conversion of one CompreBem outlet to the Assai format, all in São Paulo in 1Q08; and (iv) store renovations.

The funds were divided as follows:

- R\$ 30.0 million in the opening and construction of new stores;

- R\$ 33.8 million in the acquisition of strategic sites;
- R\$ 35.7 million in store renovation;
- R\$ 19.0 million in infrastructure (technology and logistics).

## **17.01 SPECIAL REVIEW REPORT UNQUALIFIED OPINION**

**A free translation from Portuguese into English of Review Report of Independent Auditors on quarterly financial information prepared in Brazilian currency in accordance with the accounting practices adopted in Brazil and specific norms issued by IBRACON (Institute of Independent Auditors of Brazil), CFC (Federal Board of Accountancy) and CVM (Brazilian Securities Exchange Commission)**

### **REVIEW REPORT OF INDEPENDENT AUDITORS**

The Board of Directors and Shareholders  
**Companhia Brasileira de Distribuição**

1. We have performed a review of the accompanying unconsolidated and consolidated Quarterly Financial Information ( ITR ) of Companhia Brasileira de Distribuição and Companhia Brasileira de Distribuição and subsidiaries ( the Company ) for the quarter ended March 31, 2008, including the balance sheet, statements of income, statements of cash flows and statements of added value, report on the Company s performance and relevant information, prepared under responsibility of management of the Company. The financial statements of the investee Miravalles Empreendimentos e Participações S.A. (which significant amounts are mentioned in note 9) for the quarter ended March 31, 2008, were reviewed by other auditors. Our review report on investments and equity pickup for the quarter ended March 31, 2008 and other information disclosed in the footnotes of unconsolidated and consolidated quarterly financial information of the Company, pertaining to said investee, are exclusively based on the financial statements reported by this investee, which were reviewed by other auditors.
2. Our review was conducted in accordance with the specific procedures determined by the Institute of Independent Auditors of Brazil ( IBRACON ) and the Federal Board of Accountancy ( CFC ), and included principally: (a) inquiries of and discussions with the management responsible for the Company s accounting, financial and operating areas regarding the criteria adopted for the preparation of the quarterly information and (b) review of information and subsequent events which have or might have significant effects on the Company s operations and financial position.
3. Based on our review and on the limited review performed by other independent auditors, we are not aware of any material modification that should be made to the Quarterly Financial Information referred above for it to comply with rules and/or guidances issued by Brazilian Securities Exchange Comission - CVM applicable to the preparation of Quarterly Financial Information, including the instruction CVM no. 469 of May 2, 2008.

4. As mentioned in note 2, in December 28, 2007, was enacted law no. 11,638 effective upon January 1, 2008. This law changed, revoked and inserted certain provisions to the law no. 6,404/76 (Corporation law) resulting in some changes to the accounting practices adopted in Brazil. Despite to the fact that the mentioned law is already effective, some changes proposed depend on the standardization by regulators to be fully implemented by the companies. Therefore, in the transition stage, CVM, through instruction no. 469 allowed the companies not to apply the provisions of law no. 11,638/07 in the preparation of the quarterly financial information ITR.
