## **2. Basis of Preparation and Presentation of the Financial Statements**

The individual and consolidated Financial Statements were prepared in accordance with the accounting practices adopted in Brazil and with the procedures issued by the Brazilian Securities Commission (CVM) and by the Brazilian Institute of Accountants (IBRACON).

The authorization to conclude the preparation of this quarterly information was granted at the audit committee meeting held on July 29, 2008.

At December 28, 2007, Law 11,638 was enacted, amending, revoking and introducing new provisions to Law 6,404 as of December 15, 1976 and Law 6,385 as of December 7, 1976. The main purpose is to update the Brazilian Corporate Law in order to allow the convergence of the accounting practices adopted in Brazil with the international accounting practices defined by the rules issued by International Accounting Standards Board IASB.

The requirements of this Law apply to the financial statements related to the fiscal years starting as of January 1, 2008. These requirements do not qualify as changes in circumstances or estimates and, therefore, the adoption of new practices introduced by Law 11,638/07 should be, as a general rule, shown retrospectively, that is, by means of the application of these new accounting practices as if these practices were in use during all periods, observing the rule which deals with Accounting Practices, Changes in Accounting Estimates and Correction of Mistakes, approved by the Brazilian Securities and Exchange Commission (CVM), by means of Resolution 506.

Thus, changes in accounting practices are recorded in accounting books as adjustments from previous years, therefore, its impact is allocated to each of the periods presented. In the specific case of the Company, in which the financial statements for the year ended at December 31, 2008 will be presented as comparison with the 2007 figures, adjustments will be demonstrated at opening balances (January 1, 2007), so that both years will be presented observing the same accounting practices.

This procedure was also adopted in the preparation and presentation of 2008 Quarterly Information (ITR), so that the effects of changes in accounting practices are being allocated in each of the periods presented.

On May 2, 2008, CVM issued Ruling 469, which partially ruled Law 11,638/07, establishing minimum requirements to be observed in the presentation of quarterly information (ITR) during 2008. This Ruling, under certain conditions, authorized the full adoption of the provisions in said Law. The Company's management did not choose this alternative, and thus applied Law 11,638/07 in the minimum

## 2. Basis of Preparation and Presentation of the Financial Statements

(Continued)

extension required by Ruling CVM 469 in the presentation of its quarterly information (ITR) during 2008.

Among the main changes in accounting rules introduced by said Law, below are those which, in a preliminary analysis made by the Management, could significantly affect the Company's and its subsidiaries' accounting statements for the year ended at December 31, 2008:

i) Analysis of the recovery of property and equipment, intangible and deferred assets as established by Pronouncement 1 of CPC, approved by CVM Deliberation 527. This procedure is adopted by the Company in the assessment of its property and equipment and deferred and intangible assets. Particularly in relation to the analysis on the correct useful life of property and equipment, the Company conducts physical inventory on a two-year period basis and comprises the results in the analysis that defines the correct useful life of assets.

v) The preparation of cash flow statements and added value statements for 2008 becomes compulsory, with no indication of amounts corresponding to the previous year, substituting the statements of changes in financial position. The Company already adopts the procedure to disclose cash flow statements quarterly and added value statement comparatively to previous periods.

As of the quarter ended at March 31, 2008, the Company chose not to present statements of changes in financial position any longer.

Certain assets, liabilities, revenues and expenses are determined on the basis of estimates when preparing the financial statements. Accordingly, the financial statements of the Company and the consolidated financial statements include various estimates, among which are those relating to calculation of allowance for doubtful accounts, depreciation and amortization, asset valuation allowance, realization of deferred taxes, contingencies and other estimates. Actual results may differ from those estimated.

Significant accounting practices and consolidation criteria adopted by the Company are shown below:

a) Cash and cash equivalents

(i) Cash and Banks

Cash and cash equivalents include the cash and checking account balances.

## 2. Basis of Preparation and Presentation of the Financial Statements

(Continued)

### (ii) Marketable securities

Securities are recorded at cost, accrued of earnings verified up to the balance sheet dates and not exceeding the market value and are redeemable at any time.

### b) Accounts receivable

Accounts receivable are stated at estimated realizable values. An allowance for doubtful accounts is provided in an amount considered by Management to be sufficient to meet probable future losses related to uncollectible accounts.

The setting up of provision is mainly based on the historic average of losses, in addition to specific accounts receivable deemed as uncollectible. The Company's installment sales occur with the intermediation of FIC and financing receivables not remaining in GPA (Note 9 (e)).

The Company carries out securitization operations of the accounts receivable with a special purpose entity, over which it has shared control, the PAFIDC (*Pão de Açúcar Fundo de Investimento em Direitos Creditórios*) (Note 4 (b) and Note 7).

### c) Inventories

Inventories are carried at the lower of cost or market value, whichever is the shorter. The cost of inventories purchased directly by the stores is based on the last purchase price, which approximates the First In, First Out ( FIFO ) method. The cost of inventories purchased through the warehouse is recorded at average cost, including warehousing and handling costs.

Inventories are also stated by the net value of allowance for losses and breakage, which are periodically reviewed and evaluated as to their efficiency.

### d) Other current and noncurrent assets

Other assets and receivables are stated at cost, including, when applicable, contractual indexation accruals, net of allowances to reflect realizable amounts, if necessary.

## 2. Basis of Preparation and Presentation of the Financial Statements

(Continued)

### e) Investments

Investments in subsidiaries are accounted for by the equity method, and provision for capital deficiency is recorded, when applicable. Other investments are recorded at acquisition cost.

### f) Property and equipment

These assets are shown at acquisition or construction cost, monetarily restated until December 31, 1995, deducted from the related accumulated depreciation, calculated on a straight-line basis at the rates mentioned in Note 10, which take into account the economic useful lives of the assets or the leasing term, in case of leasehold improvements, whichever is shorter.

Interest and financial charges on loans and financing obtained from third parties directly or indirectly attributable to the process of purchase, construction and operating expansion, are capitalized during the construction and refurbishment of the Company's and its subsidiaries' stores in conformity with CVM Deliberation 193. The capitalized interest and financial charges are appropriated to results over the depreciation periods of the corresponding assets.

Expenditures for repairs and maintenance that do not significantly extend the useful lives of related assets are charged to expense as incurred. Expenditures that significantly extend the useful lives of existing facilities and equipment are added to the property and equipment value.

### g) Intangible assets

Intangible assets include goodwill derived from the acquisition of companies and amounts related to acquisition of commercial rights and outlets. These amounts are supported by appraisal reports issued by independent experts, based on the expectation of future profitability, and are amortized in accordance with projected profitability over a maximum period of ten years.

### h) Deferred charges

The expenditures related to the implementation of projects and development of new products and business models were recorded based on feasibility studies and are amortized for a term not exceeding five years.

## 2. Basis of Preparation and Presentation of the Financial Statements

(Continued)

### i) Other current and noncurrent liabilities

These liabilities are stated at known or estimated amounts including, when applicable, accrued charges and interest or foreign exchange variations.

### j) Derivative financial instruments

The Company uses derivative financial instruments to reduce its exposure to market risk resulting from fluctuations in interest and foreign currency exchange rates. In the case of financial assets instruments, these are accounted for at the lower of cost or market value, whichever is the shorter.

### k) Taxation

Revenues from sales and services are subject to taxation by State Value-Added Tax ( ICMS ), Services Tax ( ISS ), Social Contribution Tax on Gross Revenue for Social Integration Program ( PIS ) and Social Contribution Tax on Gross Revenue for Social Security Financing ( COFINS ) at rates prevailing in each region and are presented as sales deductions in the statement of income.

The credits derived from non-cumulative PIS and COFINS are shown deducted from cost of goods sold in the statement of income. The debits derived from financial income and credits derived from financial expenses are shown deducted in these proper items of the statement of income.

The advances or amounts subject to offsetting are shown in the current and noncurrent assets, in accordance with the estimate for their realization.

The taxation on income comprises the Corporate Income Tax ( IRPJ ) and Social Contribution on Net Income ( CSLL ), which are calculated based on taxable income (adjusted income), at rates applicable according to the prevailing laws 15%, accrued of 10% over the amount exceeding R\$240 yearly for IRPJ and 9% for CSLL.

Deferred IRPJ and CSLL assets were recorded under the item deferred IRPJ and CSLL from tax losses, negative basis of social contribution and temporary differences, taking into account the prevailing rates of said taxes, pursuant to the provisions of CVM Deliberation 273, as of August 20, 1998, CVM Ruling 371, as of June 27, 2002 and taking into account the history of profitability and the expectation of generating future taxable income based on a technical feasibility study, annually approved by the Board of Directors.

### l) Provision for contingencies

### n) Earnings per share

The calculation is made according to the ratio  $\text{Net Income} / \text{number of outstanding shares}$ , pursuant to the Brazilian Corporate Law, profits may be: distributed, used in a capital increase or establishment of an expansion profit reserve, based on the capital budget.

### o) Consolidated financial statements

The other members have no effective veto or other participating or protective rights. Under the Bylaws of Novasoc, the appropriation of its net income does not need to be proportional to the quotas of interest held in the company.

The subsidiary Sendas Distribuidora was fully consolidated, in accordance with the shareholders' agreement, which establishes the operating and administrative management by the Company.

The proportional investment of the Parent Company in the income of the investee, the balances payable and receivable, revenues and expenses and the unrealized profit originated in transactions between the consolidated companies were eliminated in the accounting financial statements.

Pursuant to CVM Ruling 408 as of August 18, 2004, the Company as of the first quarter of 2005, started to consolidate PAFIDC's financial statements, as it understood this is a special purpose entity, organized with exclusive purpose of conducting the securitization of receivables of the Company and its subsidiaries, and most of risks and benefits related to the fund profitability are linked to subordinated quotas, maintained by the Company.

Since prevailing decisions related to the operational management of Miravalles lies on another partner quotaholder, Miravalles is not consolidated in the Company's financial statements.

b) Change in Investments (Continued)

Under Novasoc Bylaws, the distribution of its net income need not be proportional to the holding of each shareholder in the capital of the Company. As per members' decision, the Company holds 99.98% of Novasoc's results as of 2000.

At June 30, 2008, the subsidiary Novasoc recorded capital deficiency. With a view to the future operating continuity and economic feasibility of such subsidiary, assured by the parent company, the Company recorded R\$20,899 (R\$23,675 at March 31, 2008), under Provision for loss in investments to recognize its obligations before creditors.

(ii) Sé Sé holds direct interest in Miravalles corresponding to 50% of capital stock, which indirectly represents the investment in FIC.

(iii) At November 1, 2007, GPA, by means of subsidiary company controlled by Sé (Sevilha), acquired shares representing 60% of the total and voting capital of Barcelona, a recipient company of Assai's spun-off assets related to the activities previously carried out by Assai in the wholesale market of the food industry by the amount of R\$208,504, originating a R\$206,068 goodwill recorded in the subsidiary Sevilha.

For non-controlling shareholders holding 40% interest in Barcelona, a shareholders' agreement was entered into that established a put and call option of such interest, under the following conditions:

1) Criteria for calculation of purchase or sale price for remaining interest of 40%:

- The highest amount between 7 times EBITDA and 35.16% of net sales over the past 12 months immediately prior to the Option exercise date, deducting net indebtedness and probable contingencies of loss. Should EBITDA margin be lower than 4.62%, only the 7 times EBITDA criterion will be taken into account;
- Initial purchase value net of distributed dividend, restated by IPCA + 6.5% p.a.

**9. Investments** (Continued)

b) Change in Investments (Continued)

2) Call Option ( CALL ) of total partners shares 40%

- Should GPA require the dismissal of chairman due to performance (by means of specific criteria set forth in the shareholders agreement) by criterion 1 of sales price;
- Should the chairman resign or be absent for more than 1/3 of Board meetings called during a determined fiscal year by the lowest value between criterion 1 or 125% of criterion 2 of the sales price;
- At any moment, up to December 31, 2011 - by the highest value between criterion 1 or 125% of criterion 2 of the sales price;
- From January 1 to 15 of each calendar year between 2012 and 2014 - by the highest value between criterion 1 and criterion 2 of the sales price;
- At any time in the event of disability or decease of the chairman, by criterion 1 of the sales price.

The Board of Directors is composed of 7 members, with a 3-year term of office, of which 4 members shall be appointed by GPA and 3 members by former partners of Assai, appointing among the latter, the Chairman of the Board of Directors. The former partners of Assai may also exercise the Put option as of January 1, 2012 as per conditions set forth in the item abovementioned.

The Board of Directors Meeting of Barcelona held at March 31, 2008, approved the reverse merger of Sevilha Empreendimentos e Participações Ltda., former parent company of Barcelona, with reference date as of February 28, 2008. The referred merger was carried out by book value, based on the appraisal report prepared by independent experts. With the merger of Sevilha into Barcelona, Sé now holds 60% direct interest in the total and voting capital of Barcelona. This operation gave rise to a record under the item: Goodwill on investments in Sé, corresponding to the amount of R\$134,291. c) Investment agreement Company and Sendas

At October 19, 2006, Sendas S.A. notified the Company, expressing the exercise of put, pursuant to Clause 6.7 of Sendas Distribuidora Shareholders' Agreement, related to the transfer of equity control. The Company, understanding that a sale of control was not held, sent a counter-notice to Sendas S.A.

At October 31, 2006, the Company was notified by the *Câmara de Conciliação e Arbitragem da Fundação Getúlio Vargas - FGV* (Chamber of Conciliation and Arbitration of the Fundação Getúlio Vargas) informing that Sendas S.A. has filed and brought the matter to arbitration, authority expected to discuss such matter.

At January 5, 2007, Sendas S.A. notified the Company, expressing the exercise of right to swap the totality of paid-in shares owned thereby with preferred shares of the Company's capital stock, pursuant to Clause 6.9.1 of Sendas Distribuidora Shareholders' Agreement, subjecting the effectiveness of swap to the award of arbitration mentioned above not to acknowledge the put exercise right on the part of Sendas.

At March 13, 2007, the Company and Sendas entered into a commitment, commencing the arbitration proceeding.

At April 29, 2008, the Arbitration Court rendered an award agreeing with the rules of the Panel of Conciliation and Arbitration of FGV-RJ, with a favorable decision to GPA that sale of its share control did not occur, when the partnership operation with Casino was concluded in 2005.

Therefore, the claims of Sendas S.A. were rejected in the arbitration based on the non-existence of sale of control, especially that claim pleading the acknowledgment of supposed right to exercise PUT options for its shares in Sendas Distribuidora S.A.

With the conclusion of the favorable decision to GPA, the effectuation of PUT is under negotiation notified to the Company on January 5, 2007; by Sendas S.A. showing the exercise of the right to swap all paid-up shares it holds for preferred shares of the Company's capital stock, set forth in Clause 6.9.1 of the Shareholders' Agreement of Sendas Distribuidora.

The Company uses swap operations to convert U.S. dollar-denominated, yen-denominated obligations and fixed interest rate to Brazilian *real* pegged to CDI (floating) interest rate. The Company entered, contemporaneously with the same counterparty, into cross-currency interest rate swaps and has treated the instruments on a combined basis as though the loans were originally denominated in *reais* and accrued interest at floating rates.

**13. Loans and Financing** (Continued)

The annualized CDI benchmark rate at June 30, 2008 stood at 11.17% (11.33% at March 31, 2008).

(i) Working capital financing

Obtained from local banks and part of it is used to fund customer credit (the remaining balance not granted to PAFIDC), or originated from needs of financing of GPA growth. This is made without guarantees, but endorsed by the Company in case of Sendas Distribuidora.

(ii) BNDES credit line

The line of credit agreements, denominated in *reais*, with the Brazilian National Bank for Economic and Social Development (BNDES), are either subject to the indexation based on TJLP rate (long-term rate), plus annual interest rates, or are denominated based on a basket of foreign currencies to reflect the BNDES funding portfolio, plus annual interest rates. Financing is paid in monthly installments after a grace period, as mentioned below.

The Company cannot offer any assets as collateral for loans to other parties without the prior authorization of BNDES and is required to comply with certain debt covenants, calculated on the balance sheet, in accordance with Brazilian GAAP, including: (i) maintenance of a capitalization ratio (shareholders' equity/total assets) equal to or in excess of 0.4 and (ii) maintenance of a current ratio (current assets/current liabilities) equal to or in excess of 1.05. Management effectively controls and monitors covenants, which were fully performed. The parent company offered pledges as a joint and several liable party for settlement of the agreements.

In the event the TJLP exceeds 6% per annum, the excess is added to the principal. In the periods ended at June 30, 2008 and March 31, 2008, R\$158 and R\$178, were added to the principal, respectively.

a) Taxes

Tax-related contingencies are indexed to the Central Bank Overnight Rate ( SELIC ), which stood at 5.38% at June 30, 2008 (2.84% at March 31, 2008), and are subject, when applicable, to fines. In all cases, both interest charges and fines, when applicable, have been computed with respect to unpaid amounts and are fully accrued.

*COFINS and PIS*

In 1999, the rate for COFINS increased from 2% to 3%, and the tax base of both COFINS and PIS was extended to encompass other types of income, including financial income. The Company is challenging the increase in contributions of COFINS and the extension of base of such contributions. Provision for COFINS and PIS includes unpaid amounts, monetarily restated, at June 30, 2008, amounting to R\$1,015,792 (R\$996,421 at March 31, 2008) resulting from the lawsuit filed by the Company and its subsidiaries, claiming the right to not apply Law 9,718/98, permitting it to determine the payment of COFINS under the terms of Complementary Law 70/91 (2% of revenue) and of PIS under Law 9,715/98 (0.65% of revenue) as of February 1, 1999. The lawsuits are in progress at the

Regional Federal Court, and up to this moment, the Company has not been required to make judicial deposits.

## 16. Provision for Contingencies (Continued)

### a) Taxes (Continued)

As the calculation system of such contributions started to use the non-cumulative tax principle, starting by PIS as of December 1, 2002, with Law 10,637/02, and COFINS, as of February 2004 by means of Law 10,833/03, the Company and its subsidiaries then started to apply said rules, as well as, to question with the Judiciary Branch, the extension of tax base of such contributions, aiming at continuing its application by the concept of sales results, as well as the appropriation of credits not accepted by laws and that the Management understands to be subject to appropriation, such as financial expenses and third parties expenses. The provision recorded in the balance sheet at June 30, 2008 in the amount of R\$141,852 (R\$129,293 at March 31, 2008), includes the unpaid installment, monetarily restated. In addition, the Company challenges the limit of percentage and the term for appropriation of COFINS credit over the opening inventory derived from Law 10,833/03, recording in its balance sheet the difference of appropriated credit under such rule by virtue of judicial authorization. There are no judicial deposits for such discussions.

### *Other*

The Company and its subsidiaries have other tax contingencies, which after analysis of its legal counsels, were deemed as probable losses: a) lawsuit questioning the non-levy of excise tax ( IPI ) over codfish imports, which awaits decision by appellate court judge; b) federal administrative assessment about the restatement of equity accounts by an index higher than that accepted by tax authorities, which awaits decision by administrative appellate court judge ( Summer Plan ); c) administrative assessment referring to the collection of debts of withholding tax (IRRF), social contribution on net income (CSLL), which also awaits decision by administrative appellate court judge, d) administrative assessment due to offsetting of INSS credit verified by the Company under the viewpoint of undue payment over allowance not provided for by Law, awaiting for court verdict; e) tax assessment related to purchase, manufacturing and sale transactions for export purposes of soybean and its byproducts, in which, in the tax authorities understanding, the circulation of products did not take place. Within the federal scope, the Company was served notice for these operations, in relation to PIS, COFINS and IRPJ. The amount recorded at June 30, 2008 in accounting books for such issues is R\$32,454 (R\$31,817 at March 31, 2008). The Company has no judicial deposits related to such issues.

## 16. Provision for Contingencies (Continued)

### b) Labor claims

The Company is party to numerous lawsuits involving disputes with its employees, primarily arising from layoffs in the ordinary course of business. At June 30, 2008, the Company recorded a provision of R\$52,362 (R\$50,721 at March 31, 2008) assessed as probable risk. Lawsuits the loss of which is deemed as possible by our legal counsels stand at R\$6,391 (R\$6,733 at March 31, 2008). Management, assisted by its legal counsels, evaluates these contingencies and provides for losses where reasonably estimable, bearing in mind previous experiences in relation to the amounts sought. Labor claims are indexed to the Referential Interest Rate ( TR ) (2.0% accumulated in the year ended at June 30, 2008) plus 1% monthly interest. The balance of net allowance for earmarked judicial deposits is R\$2,340 (R\$1,717 at March 31, 2008).

### c) Civil and other

The Company is a defendant, at several judicial levels, in lawsuits of civil natures, among others. The Company s Management sets up provisions in amounts considered sufficient to cover unfavorable court decisions when its internal and external legal counsels consider losses to be probable.

Among these lawsuits, we point out the following:

- The Company brought a writ of mandamus in order to be entitled to not pay the contributions provided for by Complementary Law 110/2001 related to the FGTS (Government Severance Indemnity Fund for Employees) financing. The Company obtained a preliminary injunction recognizing the right of not paying such contributions. Subsequently, this preliminary injunction was reversed, determining the judicial deposit of unpaid amounts during the effectiveness period of the preliminary injunction. The enforceability of tax credit is suspended in view of appeal filed, which awaits decision by the Regional Federal Court. At June 30, 2008, the amount accrued is R\$50,860 (R\$48,750 at March 31, 2008) and the Company effected a R\$8,070 (R\$8,050 at March 31, 2008) judicial deposit, protecting the period in which it was not covered by the preliminary injunction.

## 16. Provision for Contingencies (Continued)

### c) Civil and other (Continued)

- The Company filed a declaratory action of absence of legal relationship, in what concerns the contribution to SEBRAE, as enacted by Law 8,029/90, in order to also obtain the acknowledgement of restated credit for offsetting with balances payable to SESC (Social Service for Trade) and SENAC (National Service for Commercial Training), excluding the 30% limit. The Company was granted the right of not paying the falling due contributions, provided that judicial deposits are made, as usual. The proceeding awaits a decision of the extraordinary appeal. The accrued amount is R\$40,695 at June 30, 2008, (R\$39,068 at March 31, 2008), and judicial deposit in the amount of R\$40,892 (R\$38,944 at March 31, 2008).
- The Company by means of a writ of mandamus is challenging the constitutionality of the FUNRURAL (Rural Workers Assistance Fund) for companies located in urban areas. The lawsuit is in progress at the Regional Federal Court and the amount of the provision is R\$34,178 at June 30, 2008 (R\$33,740 at March 31, 2008). There is no judicial deposit for such proceeding.
- The Company files and answers various lawsuits in which it requests the review of lease amounts paid by the stores. In these lawsuits, the judge determines a provisional lease amount, which then is paid by the stores, until report and decision define the final lease amount. The set up provision of difference between the amount originally paid by the stores and that defined provisionally in these lawsuits. At June 30, 2008 the accrual amount for these lawsuits is R\$14,165 (R\$12,955 at March 31, 2008), for which there are no judicial deposits.

### d) Possible losses

The Company has other contingencies which have been analyzed by the legal counsel and deemed as possible but not probable; therefore, have not been accrued, at June 30, 2008, as follows:

- INSS (Social Security Tax) The Company was served notice regarding the non-levy of payroll charges on benefits granted to its employees, and the loss, considered possible, amounts to R\$119,525 (R\$118,877 at March 31, 2008). These proceedings are under administrative and court discussion.

b) Share rights

The preferred shares are non-voting and have preference with respect to the distribution of capital in the event of liquidation. Each shareholder has the right pursuant to the Company's Bylaws to receive a proportional amount, based on their respective holdings to total common and preferred shares outstanding, of a total dividend of at least 25% of annual net income determined on the basis of financial statements prepared in accordance with Brazilian GAAP, to the extent profits are distributable, and after transfers to reserves as required by Brazilian Corporation Law, and a proportional amount of any additional dividends declared.

The Company's Bylaws provide that, to the extent funds are available, minimum non-cumulative preferred dividend to the preferred shares in the amount of R\$0.08 per share. Beginning in 2003, the preferred shares are entitled to receive a dividend 10% greater than that paid to common shares or, if determined by the shareholders, in excess of the mandatory distribution.

Management is required by the Brazilian Corporation Law to propose dividends at year-end, at least, until the amount of mandatory dividend, which can include the interest on shareholders' equity, net of tax.

c) Capital reserve Special goodwill reserve

This reserve was set up as a result of the corporate restructuring process outlined in Note 17b(ii), in contra account to the merged net assets and represents the amount of future tax benefit to be earned by means of amortization of goodwill merged. The special reserve portion corresponding to the benefit earned may be capitalized at the end of each fiscal year to the benefit of the controlling shareholders, with the issue of new shares. The capital increase will be subject to the preemptive right of non-controlling shareholders, in the proportion of their respective interest, by type and class, at the time of the issue, and the amounts paid in the year related to such right will be directly delivered to the controlling shareholder, pursuant to provision in CVM Ruling 319/99 and CVM 349/01.

At December 31, 2006, the tax benefit recorded derived from the goodwill merged from Vieri amounted to R\$517,294, which will be used in the capital increase, upon the realization of reserve.

At March 31, 2008, a tax benefit deriving from the goodwill in the merger of Sevilha into Barcelona was recorded in the amount of R\$69,180, which will be used to increase capital, upon realization of reserve.

d) Revenue reserve

(ii) Expansion reserve: was approved by the shareholders to reserve funds to finance additional capital investments and working and current capital through the appropriation of up to 100% of the net income remaining after the legal appropriations and supported by capital budget, approved at meeting.

(iii) Profit retention: the balance at December 31, 2007 is available to the Shareholders General Meeting for allocation.

### e) Preferred stock option plan

The Company offers a stock option plan for the purchase of preferred shares to management and employees. The exercise of options guarantees the beneficiaries the same rights granted to the Company's other shareholders. The management of this plan was attributed to a committee designated by the Board of Directors.

The granting price for each lot of shares is, at least, 60% of the weighted average price of the preferred shares traded in the week the option is granted.

The number of lot of shares may vary for each beneficiary or series.

The right to exercise the options is acquired in the following manner and terms: (i) 50% in the last month of the third year following the granting date (1<sup>st</sup> tranche) and (ii) up to 50% in the last month of the fifth year following the granting date (2<sup>nd</sup> tranche), and the remaining portion of the second lot subject to restraint on alienation until the beneficiary's retirement, as per formula defined in the regulation.

Shares subject to restraint on alienation ( $Q$ ), upon the exercise of the options, are calculated by using the following formula outlined in the stock option plan:

$Q$  = Amount of 1000 (one thousand) shares to be encumbered by restraint on alienation.

$QI$  = 50% of the total lots of Company's shares as of the granting date.

$Pm$  = Market price of the lot of Company's shares as of the exercise date.

$Pe$  = Original exercise price of the lot, determined on the granting date, observing the terms of the Plan.

The option price from the date of concession to the date of its exercise is updated by reference to the General Market Price Index - IGP-M variation, less dividends attributed for the period.

e) Preferred stock option plan (Continued)

Pursuant to Clause 14.5 of the Plan, the application of the mentioned formula shall be adjusted taking into account the reverse share split of shares representing the Company's capital stock, approved at the Extraordinary General Meeting held at July 30, 2007.

**New preferred stock option plan**

The Extraordinary General Meeting held at December 20, 2006, approved the amendment to the Company's Stock Option Plan, approved by the Extraordinary General Meeting held at April 28, 1997.

As from 2007, the granting of preferred stock option plan to management and employees will take place as follows:

Shares will be classified into two types: Silver and Gold, and the quantity of Gold-type shares may be decreased and/or increased (reducer or accelerator), at discretion of the Plan Management Committee, in the course of 35 months following the granting date.

The price for each Silver-type share will correspond to the average of closing price of negotiations of the Company's preferred shares occurred over the last 20 trading sessions of BOVESPA, prior to the date on which the Committee resolves on the granting of option, with negative goodwill of 20%. The price per each Gold-type share will correspond to R\$0.01 and the granting of these options are additional to the Silver options, and the granting or the exercise of Gold options is not possible separately. In both cases, the prices will not be restated.

The acquisition of rights to the options exercise will occur as follows in the following term: as of the 36<sup>th</sup> month to 48<sup>th</sup> month as of the start date defined as the date of the adhesion agreement of respective series and: a) 100% of granting of Silver-type shares; b) the quantity of Gold-type options to be determined by the Committee, after the compliance with granting conditions.

**20. Financial Instruments**a) General considerations

Management considers that risk of concentration in financial institutions is low, as operations are limited to traditional, highly-rated banks and within limits approved by the Management.

b) Concentration of credit risk

The Company carries out sales directly to individuals by means of post-dated checks, within a small portion of sales (approximately 1% of sales in the quarter). The risk in this portion is minimized by a large client portfolio.

**20. Financial Instruments** (Continued)b) Concentration of credit risk (Continued)

In order to minimize credit risk from investments, the Company adopts policies restricting the marketable securities that may be allocated to a single financial institution, and which take into consideration monetary limits and financial institution credit ratings.

c) Market value of financial instruments

Estimated market value of financial instruments at June 30, 2008 approximates market value, reflecting maturities or frequent price adjustments of these instruments, as shown below:

Market value of financial assets and of current and noncurrent financing, when applicable, was determined using current interest rates available for operations carried out under similar conditions and remaining maturities.

In order to translate the financial charges and exchange variation of loans denominated in foreign currency into local currency, the Company contracted swap operations, pegging the referred to charges to the CDI variation, which reflects market value.

d) Management of exchange and interest rate risk

The utilization of instruments and derivatives operations bearing interest rates aims at protecting the results of the Company's assets and liabilities operations. The transactions are carried out by the financial operations department according to a strategy previously approved by the Management.

**20. Financial Instruments** (Continued)d) Management of exchange and interest rate risk (Continued)

The cross-currency interest rate swaps enable the Company to exchange short-term and long-term loans (Note 13), contracted at U.S.dollar- denominated fixed interest rates with loans at Reais-denominated floating interest rates. **08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE DURING THE QUARTER****Operating Performance**

The Group's 2Q08 operating results were adversely affected by the fact that Easter took place in the second quarter in 2007 and in the first quarter in 2008. Nevertheless, the Company still recorded a substantial improvement.

The numbers related to the Group's operating performance presented and commented on below refer to the consolidated figures, which include the entire operating results of Sendas Distribuidora (a joint venture with the Sendas chain in Rio de Janeiro) and Assai (a joint venture with Atacadista Assai in São Paulo).

In addition, the 2Q07 pro-forma operating result excludes restructuring costs of R\$ 7.3 million, R\$ 3.7 million of which impacted selling expenses and R\$ 3.6 million affected general and administrative expenses.

The 1H08 entries in the tables below were based in pro-forma figures due to the restructuring costs incurred in the 1Q08. The latter totaled R\$ 23.0 million, R\$ 8.7 million of which in selling expenses and R\$ 14.3 million in G&A expenses. This type of expense did not reoccur in the 2Q08 and should not do so in the following quarters.

(2) basis points

Second-quarter gross sales totaled R\$ 4,888.0 million, 16.2% up on 2Q07, while net sales increased by 19.5% to R\$ 4,239.3 million. In same-store terms, gross sales recorded an increase of 4.3% and net sales moved up by 7.4%. The difference between gross and net sales growth was due to the fact that the State of São Paulo altered the way in which the ICMS tax (state VAT) is collected on certain products, with a resulting impact on the cost of goods sold (COGS), rather than sales taxes.

As mentioned above, 2Q08 sales were jeopardized by the calendar effect of Easter falling in the first quarter this year and in the second quarter in 2007.

Same-store food products sales posted year-on-year growth of 2.4%, impacted by the calendar effect, while non-food items grew by 10.4%, led by the sub-categories entertainment ( Mundo Entretenimento ) and general merchandise ( Mundo Casa ).

**08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE DURING THE QUARTER**

In terms of format, CompreBem, Extra-Eleto and Extra.com.br. were the best performers, while figures recently published by the competition show that our hypermarkets recorded an increase in market share.

First-half gross sales totaled R\$ 9,878.8 million and net sales came to R\$ 8,483.4 million, 18.0% and 19.9% up year-on-year, respectively.

Despite the inflationary upturn and higher interest rates, the sector numbers also show that retail sales in general did not suffer, being sustained by the increase in the bulk of wages and the expansion of credit. It is worth noting that the Group sales outperformed the averages recorded by both the IBGE and ABRAS (the Brazilian Supermarket Association), both in the quarter and year-to-date.

(2) basis points

The Group recorded a 2Q08 gross margin of 26.1%, versus 28.1% in 2Q07. The reduction was due to a combination of the following factors:

(i) maintenance of the price competitiveness strategy;

(ii) the increased share of non-food sales, especially electronics items, whose margins are lower than those of food products but which help push up the average ticket;

(iii) the consolidation of the Assai chain, whose margins are lower than the Group's other banners;

(iv) specific promotions of low-turnover non-food products in order to eliminate discontinued items and ensure healthier inventories;

(v) the change in the São Paulo ICMS (state VAT) tax system which has led to an increase in COGS and net revenue to the detriment of the sales taxes line.

Nevertheless, second-quarter gross profit moved up 11.0% up year-on-year to R\$ 1,106.1 million.

SG&A expenses represented 18.4% of net sales, well below the 21.0% recorded in 2Q07. In absolute terms, they totaled R\$ 779.8 million, 4.9% up year-on-year. If non-recurring restructuring expenses of R\$ 7.3 million in 2Q07 were excluded, this growth would have come to 5.9% . It is important to note, however, that the growth in expenses was substantially lower than period sales growth.

Total operating expenses, including taxes and other charges, represented 18.9% of net sales, lower than the annual target of 19%, due to the implementation of a new culture in the Company which resulted in a major process overhaul and changes in the corporate structure. This level was maintained despite the Easter effect, which leveraged sales in the previous quarter.

Second-quarter EBITDA totaled R\$ 303.7 million, 33.0% up year-on-year. In the comparison with 2Q07 pro-forma EBITDA (which excludes restructuring costs), growth came to 28.9% . The EBITDA margin stood at 7.2%, an improvement over 1Q08, when Easter pushed quarterly sales. It is important to emphasize that this EBITDA recovery took place despite the absence of Easter sales. Even though the gross margin suffered a year-on-year decline, this was more than offset by the reduction in expenses, pushing the EBITDA margin up by 80 bps over 2Q07.

Excluding Assai, the EBITDA margin would have come to 7.5% .

**08.01 COMMENTS ON THE CONSOLIDATED PERFORMANCE DURING THE QUARTER**

First-half pro-forma EBITDA, excluding restructuring expenses, totaled R\$ 604.5 million, 30.7% up on the 1H07, while the pro-forma EBITDA margin moved up 60 bps, from 6.5% in the 1H07 to 7.1% .

It is also worth noting that year-to-date operating results were in line with the Group s period strategy and budget, confirming that it is on the right path towards meeting the established annual targets.

Financial revenue fell 6.9% year-on-year to R\$ 60.3 million in 2Q08, while financial expenses totaled R\$ 141.3 million, 20.3% up on the R\$ 117.5 million recorded in 2Q07.

The net financial result was R\$ 81.0 million negative, versus R\$ 52.7 million negative in the second quarter of 2007, mainly due to the following factors: (i) the consolidation of the leasing of the Assai stores, with an impact of around R\$ 4.0 million; (ii) the reduction in interest installment payments (R\$ 5.0 million); (iii) the updating of provisions for contingencies (R\$ 12 million); (iv) the reduction in capitalized interest (R\$ 2.0 million); (v) higher financial costs (R\$ 5.0 million) due to the increase in the net debt.

### **Equity Income**

#### **FIC posts a positive result for the second consecutive quarter**

With a 13.0% share of the Company s 2Q08 sales, FIC - Financeira Itaú CBD generated equity income of R\$ 1.4 million, versus a negative R\$ 10.9 million in 2Q07.

The client portfolio closed the quarter at 5.7 million and the receivables portfolio at R\$ 1.3 billion.

The main reasons behind this performance were:

- growth in card activation levels due to the advantages offered to card holders;
- the continued migration of private label cards to Mastercard co-branded cards;
- the substantial growth of extended warranty penetration in electronics sales;
- sales team training and sales performance awards;
- default levels strictly under control.

**Minority Interest: Sendas Distribuidora**  
**2Q08 EBITDA moves up 213.5% year-on-year**

Sendas Distribuidora posted gross sales of R\$ 796.4 million in 2Q08, accounting for 16.3% of the Group total, while net sales came to R\$ 693.9 million, 2.1% up year-on-year, despite the unfavorable calendar effect of Easter in 2008.

The second-quarter gross margin stood at 25.5%, 60 bps down on the 2Q07, reflecting increased competitiveness in the region.

Operating expenses (SG&A expenses) fell 13.4% year-on-year in absolute terms and from 23.8% to 20.2%, or 360 bps, as a percentage of net sales. It is worth noting the hefty 270 bps drop in G&A expenses and the 90 bps decline in selling expenses in a period when Easter had a seasonally negative impact.

EBITDA totaled R\$ 29.2 million, 213.5% up year-on-year, with a 4.2% margin, a 280 bps improvement and three times higher than in 2Q07.

Sendas generated a positive minority interest of R\$ 8.3 million for the Group.

**Minority Interest: Assai Atacadista**  
**Gross margin widens by 60 bps over 1Q08**

Assai recorded gross sales of R\$ 325.6 million in 2Q08, equivalent to 6.7% of the Group total. Net sales totaled R\$ 284.1 million.

Gross profit stood at R\$ 39.1 million, with a gross margin of 13.8%, 60 bps higher than the 1Q08 figure.

Operating expenses represented 11.7% of net sales. EBITDA totaled R\$ 5.9 million, with a margin of 2.1%. This result was expected, thanks to the Company's continuing investments in improving competitiveness in order to gain market share. In addition, certain conservative measures were introduced to bring controls into line with the Group's accounting procedures. Therefore, our target is the recovery of EBITDA margin as of the second half of the year.

Net income totaled R\$ 2.1 million, generating a negative minority interest of R\$ 0.7 million.

The Group posted a second-quarter net income of R\$ 60.4 million, 118.9% up on the 2Q07 figure. In the comparison with 2Q07 pro-forma net income (which excludes restructuring costs), growth came to 82.8% . This result was chiefly fueled by the improved operating performance, with a big upturn in sales despite the absence of the Easter boost, and consistent control over operating expenses.

First-half pro-forma net income moved up 79.1% over the 1H07, from R\$ 63.5 million to R\$ 113.7 million, while the net margin widened by 40 bps to 1.3% pro-forma.

It is worth pointing out that net income was jeopardized by non-cash expenses. If these accounts were excluded, net income would have come to R\$ 86.9 million in the 2Q08 and R\$ 166.6 million pro-forma in the 1H08.

Two Extra Fácil and one Pão de Açúcar store were opened in the quarter, all of which in São Paulo. In addition, one Extra, one Extra Perto and one Extra Fácil stores are under construction and will be inaugurated in the second half.

The main quarterly highlights were:

- R\$ 49.0 million in the opening and construction of new stores;
- R\$ 26.3 million in the acquisition of strategic sites;
- R\$ 18.2 million in store renovation;
- R\$ 11.7 million in infrastructure (technology and logistics).

**17.01 SPECIAL REVIEW REPORT UNQUALIFIED OPINION**

**A free translation from Portuguese into English of Review Report of Independent Auditors on quarterly financial information prepared in Brazilian currency in accordance with the accounting practices adopted in Brazil and specific norms issued by IBRACON (Institute of Independent Auditors of Brazil), CFC (Federal Board of Accountancy) and CVM (Brazilian Securities Exchange Commission)**

**REVIEW REPORT OF INDEPENDENT AUDITORS**

The Board of Directors and Shareholders  
**Companhia Brasileira de Distribuição**

1. We have performed a review of the accompanying unconsolidated and consolidated Quarterly Financial Information ( ITR ) of Companhia Brasileira de Distribuição and Companhia Brasileira de Distribuição and subsidiaries ( the Company ) for the quarter ended June 30, 2008, including the balance sheet, statements of income, statements of cash flows and statements of added value, report on the Company s performance and relevant information, prepared under responsibility of management of the Company. The financial statements of the investee Miravalles Empreendimentos e Participações S.A. (which significant amounts are mentioned in note 9) for the quarter ended June 30, 2008, were reviewed by other auditors. Our review report on investments and equity pickup for the quarter ended June 30, 2008 and other information disclosed in the footnotes of unconsolidated and consolidated quarterly financial information of the Company, pertaining to said investee, are exclusively based on the financial statements reported by this investee, which were reviewed by other auditors.

2. Our review was conducted in accordance with the specific procedures determined by the Institute of Independent Auditors of Brazil ( IBRACON ) and the Federal Board of Accountancy ( CFC ), and included principally: (a) inquiries of and discussions with the management responsible for the Company s accounting, financial and operating areas regarding the criteria adopted for the preparation of the quarterly information and (b) review of information and subsequent events which have or might have significant effects on the Company s operations and financial position.

3. Based on our review and on the review performed by other independent auditors, we are not aware of any material modification that should be made to the Quarterly Financial Information referred above for it to comply with rules and/or guidances issued by Brazilian Securities Exchange Commission - CVM applicable to the preparation of Quarterly Financial Information, including the instruction CVM no. 469 of May 2, 2008.

4. As mentioned in note 2, in December 28, 2007, was enacted law no. 11,638 effective upon January 1, 2008. This law changed, revoked and inserted certain provisions to the law no. 6,404/76 (Corporation law) resulting in some changes to the accounting practices adopted in Brazil. Despite to the fact that the mentioned law is already effective, some changes proposed depend on the standardization by regulators to be fully implemented by the companies. Therefore, in the transition stage, CVM, through instruction no. 469 allowed the companies not to apply the provisions of law no. 11,638/07 in the preparation of the quarterly financial information ITR. Therefore, the accounting information contained in the ITR for the quarter ended June 30, 2008, were prepared in accordance with the instructions issued by CVM and do not consider all the changes in the accounting practices enacted by law no. 11,638/07.
