Operating Performance

The numbers related to Grupo Pão de Açúcar's operating and financial performance commented on below are presented: (i) on a **consolidated basis**, which includes the full operating and financial results of Sendas Distribuidora (a joint venture with the Sendas chain in Rio de Janeiro), Assaí (Rede Atacadista Assaí) and, as of the third quarter of 2009, Globex Utilidades S.A. (Ponto Frio); and (ii) on a **comparable basis**, which entirely excludes the operating and financial results of Globex Utilidades S.A. (Ponto Frio).

On December 4, 2009, Grupo Pão de Açúcar and Casas Bahia entered into a Joint Venture Agreement which established the terms and conditions governing the association between Globex and Casas Bahia. **On February 3, 2010**, GPA and Casas Bahia informed their shareholders and the market in general of the main terms of the Provisional Transaction Reversal Agreement (APRO), entered into with CADE, the Brazilian antitrust authority. **On April 13, 2010**, GPA and Globex published a Material Fact announcing that Casas Bahia and its partners had manifested their intention of reviewing the association that was the object of the Joint Venture Agreement.

On July 1, 2010, GPA and Globex executed an addendum to the Joint Venture Agreement, announced in a Material Fact on July 2, 2010. This addendum altered certain conditions of the association between Globex and Casas Bahia, guaranteeing the implementation of the transaction.

In July, 2010, GPA's new organizational structure was implemented, with the adoption of a new integrated business management model. With the adoption of the new model, GPA seeks to evolve from a retail food company into a Multibusiness Conglomerate, which adheres to the group strategy, has a regional approach and seeks to capture synergies.

In the second quarter of 2010, Grupo Pão de Açúcar's gross sales increased by 11.5% over the same period last year to R\$6,287.3 million, while net sales climbed by 12.7% to R\$5,641.9 million.

In same-store terms (i.e. stores that have been operational for at least 12 months, therefore excluding the Ponto Frio stores), gross sales grew by 9.9%(1), giving real growth of 4.6% when deflated by the IPCA consumer price index(2). This performance was adversely impacted by the seasonal effect of the Easter holiday in April and substantial gross same-store sales growth of 13.2% in 2Q09. Net sales recorded nominal growth of 11.3%.

Also on a same-store basis, gross food sales grew by 7.9% in the period, with beverages and perishables doing particularly well. Non-food sales climbed by 16.2%, led by the electronics/household appliance category, which was boosted by the World Cup, as well as the drugstore and textile categories, which recorded higher increases than the non-food average.

The Group's best-performing formats were Extra Supermercados, Extra Eletro and Assaí, which posted sales growth above the Group's average.

In the first half, Grupo Pão de Açúcar reported gross sales of R\$12,630.2 million and net sales of R\$11,357.9 million, 15.5% and 17.7% up, respectively, on the first six months of 2009.

In same-store terms, gross sales climbed by 12.4%, giving real growth of 7.0% when deflated by the IPCA(2), while net sales recorded nominal growth of 14.6%. Sales of food and non-food products increased by 10.6% and 17.8%, respectively.

[Consolidated comments including Globex]

In the second quarter, Grupo Pão de Açúcar's consolidated gross sales grew by 38.5% year-on-year to R\$7,815.4 million, while net sales moved up by 39.4% to R\$6,977.9 million.

Globex's gross sales, including e-commerce operations, climbed by 55.8% over 2Q09 to R\$1,528.2 million, while net sales increased by 71.6% to R\$1,336.0 million. In same-store terms(3), gross sales grew by 54.6%, driven by Mother's Day and the World Cup.

The Group's gross e-commerce sales (Pontofrio.com.br and Extra.com.br) recorded period growth of 45.4% in the quarter.

In the first half, Grupo Pão de Açúcar recorded consolidated gross sales of R\$15,601.1 million and net sales of R\$13,951.4 million, 42.7% and 44.6% up, respectively, on the same period last year.

Globex's gross sales climbed by 52.8% over 1H09 to R\$2,970.9 million, while net sales increased by 69.5% to R\$2,593.5 million. In same-store terms(3), Globex's gross sales increased by 51.5%. Gross e-commerce sales (Pontofrio.com.br and Extra.com.br) posted period growth of 57.4%.

Note that as of 2Q10, the sales of Extra.com.br were consolidated into Globex's operations. However, for same-store comparative purposes, these sales are still reflected in GPA's figures.

Like ABRAS (the Brazilian Supermarket Association), the Company has adopted the IPCA consumer price Index as its inflation indicator, since it gives a more accurate reflection of the Company's product and brand mix.

Ponto Frio's same-store concept includes physical and electronic/wholesale sales.

In the second quarter, gross profit totaled R\$1,398.2 million, 10.3% up year-on-year, accompanied by a gross margin of 24.8%, down by 50 bps over 2Q09 but an improvement over the 24.6% recorded in the 1Q10. The main factors contributing to the year-on-year reduction were:

- (i) the increased share of Assaí in the Group's sales, which had a negative impact of 40 bps partially offset by higher gross profit in absolute terms (cash margin);
- (ii) the expansion of the ICMS tax substitution regime, which had a negative impact of 20 bps.

These impacts were also partially offset in the amount of 10 bps by more advantageous negotiations with suppliers and a more profitable product mix.

In the first half, gross profit amounted to R\$2,804.7 million, 14.8% up on the same period last year, accompanied by a gross margin of 24.7%, 60 bps less than the 25.3% recorded in 1H09, chiefly due to the change in the ICMS tax substitution regime, which accounted for 50 bps.

[Consolidated comments including Globex]

In the second quarter, consolidated gross profit came to R\$1,635.3 million, with a margin of 23.4%.

The reduction over the comparable-basis gross margin was primarily due to the higher share of electronics/household appliances in the Group's total sales. These items have lower margins than food products.

In the first half, gross profit totaled R\$3,307.1 million, a 35.3% improvement over the first six months of 2009, while the gross margin stood at 23.7%.

(3) Reclassification in Selling, General and Administrative Expenses in 2009

In the second quarter, total operating expenses (including selling, general and administrative expenses) increased by 12.6% year-on-year to R\$1,038.4 million, chiefly due to two factors: (i) the opening of 62 stores in the last 12 months; and (ii) higher expenses with advertising, marketing and IT. As a percentage of net sales, operating expenses remained flat at 18.4% the same on 2Q09.

In the first half, total operating expenses totaled R\$2,067.7 million, 15.8% more than in 1H09, and represented 18.2% of net sales, 30 bps down on the same period last year.

[Consolidated comments including Globex]

In the second quarter, operating expenses amounted to R\$1,240.4 million, equivalent to 17.8% of net sales.

In the first half, total operating expenses stood at R\$2,501.8 million, equivalent to 17.9% of net sales.

[Comparable-basis comments excluding Globex]

In the second quarter, financial revenue grew by 22.6% over 2Q09 thanks to the higher average cash position, while financial expenses moved up from 37.1% to R\$159.2 million, due to: (i) the period R\$12.6 million increase in the average gross debt; (ii) the mark-to-market effect of financial instruments in the amount of R\$9.7 million; and (iii) the monetary restatement of tax installment payments totaling R\$8.4 million. Consequently, the net financial result was an expense of R\$91.8 million, 50.2% higher than in 2Q09.

The Group's capital structure remains solid, with stable cash flow, although net debt has increased, leading to a net debt/EBITDA ratio of 0.97x.

[Consolidated comments including Globex]

In the second quarter, the consolidated net financial result was an expense of R\$169.0 million. The net debt/EBITDA ratio stood at 1.1x, due to Globex's limited contribution to the Group's total EBITDA.

Equity Income

FIC's result came to R\$14.6 million in the quarter

With the incorporation of Banco Investcred (Financeira Globex) by FIC (Financeira Itaú CBD) on October 1, 2009 and given their respective shareholders' equities, GPA now retains a 36% interest in FIC, excluding Globex, while Globex retains a 14% stake. The Group's consolidated interest in FIC remains at 50%.

In the second quarter, FIC, including Globex's operations, accounted for 15.0% of total sales, closing the period with 7.4 million clients and a receivables portfolio of R\$3.1 billion. Default remained under control, thanks to a rigorous credit-granting policy and the acceptance of the Ponto Frio Flex Card in GPA stores and vice-versa.

As a result, FIC's equity income was R\$14.6 million, a hefty 332.3% more than the same period a year earlier. Of this total, R\$10.7 million went to Grupo Pão de Açúcar and R\$4.0 million to Globex.

In the first half, equity income's results, including Globex's, totaled R\$24.2 million, of which R\$16.9 million went to Grupo Pão de Açúcar and R\$7.3 million to Globex. Note that FIC's results on a comparable basis, thus excluding Globex, more than doubled over the same period in 2009, thanks to several competitive initiatives, including exclusive benefits, advantages and promotional campaigns for FIC card holders.

In the second quarter, net income came to R\$82.5 million, 37.4% down on the same period last year, with a net margin of 1.5%, jeopardized by the non-recurring impact of adherence to the tax installment payment program. Net of income tax and minority interests, this came to R\$44.5 million (R\$70.1 million gross). Excluding this amount, adjusted net income stood at R\$127.0 million, 3.6% less than in 2Q09.

In the first half, net income totaled R\$212.4 million, equivalent to 1.9% of net sales. Excluding the above-mentioned effect, adjusted net income came to R\$256.9 million, 13.4% up year-on-year.

[Consolidated comments including Globex]

In the second quarter, consolidated net income stood at R\$62.3 million, accompanied by a net margin of 0.9%, impacted by the non-recurring installment payment of tax debts. This amount, net of income tax and minority interest, comes to R\$40.8 million, giving an adjusted net income of R\$103.1 million and a net margin of 1.5%.

In the first half, consolidated net income came to R\$188.5 million, equivalent to 1.4% of net sales. Excluding the effects mentioned above, adjusted net income stood at R\$229.3 million, with a margin of 1.6%.

Assaí Atacadista

EBITDA margin widened by 50 bps in the quarter

In the second quarter, Assaí recorded **gross sales** of R\$742.5 million, including the stores in São Paulo, Ceará, Rio de Janeiro, Pernambuco and Tocantins, 47.1% up on 2Q09, fueled by the opening of new stores and the conversion of existing ones in the last 12 months and the format improved operating result. **Net sales** climbed by 46.7% to R\$668.0 million.

Gross profit totaled R\$103.3 million, with a margin of 15.5%, same level as in 2Q09. **Total operating expenses** came to R\$80.5 million, 40.3% up on 2Q09, but still less than the 47.1% upturn in net sales in the same period. As a percentage of net sales, total operating expenses fell from 12.6% in 2Q09 to 12.1%, due to stringent control over expenses and synergy gains with Grupo Pão De Açúcar, enabling the Company to reinvest in price competitiveness without jeopardizing profit margins.

EBITDA amounted to R\$22.8 million, with a **margin** of 3.4%, up by 50 bps, thanks to substantial sales growth, more advantageous negotiations with suppliers and the rationalization of expenses.

In the first half, Assaí posted **gross sales** of R\$1,412.4 million and net sales of R\$1,276.7 million, 49.4% and 50.6% up, respectively, on 1H09.

Gross profit totaled R\$181.7 million, with a margin of 14.2%, down 40 bps on 1H09. Total operating expenses amounted to R\$142.9 million, representing 11.2% of net sales.

EBITDA came to R\$38.8 million, 216.7% up year-on-year, with an **EBITDA margin** of 3.0%, an improvement of 160 bps over the same period in the previous year.

Globex Utilidades S.A.

In same-store terms, gross sales increased by 54.6%

In the second quarter of 2010, gross sales climbed by 55.8% over 2Q09 to R\$1,528.2 million, while net sales came to R\$1,336.0 million, up by 71.6%.

Gross profit totaled R\$237.2 million, 80.5% up on the same period last year, with a gross margin of 17.8%, a 90 bps improvement, chiefly due to more advantageous negotiations with suppliers and the incorporation of a more profitable mix, reflecting the measures introduced in the first quarter and which continued to generate positive results in the second.

Total operating expenses (including selling, general and administrative expenses) fell by 35.6% year-on-year to R\$202.0 million. Excluding non-recurring effects occurred in 2Q09, amounting to R\$97.0 million, total operating expenses would have come to R\$216.8 million in 2Q09, R\$14.8 million higher than 2Q10. In percentage-of-net-sales terms, however, there was a 1270 bps improvement over 2Q09.

EBITDA was a positive R\$35.2 million, with a margin of 2.6%, versus a negative R\$182.4 million posted in 2Q09.

The **net financial result** was a negative R\$77.2 million, versus a negative R\$25.4 million in 2Q09, impacted chiefly by: (i) the increased share of non-interest-bearing installment sales, leading to an upturn in the volume of discounted receivables in relation to 2Q09; (ii) the higher debt due to new working capital funding; and (iii) changes in the criterion for booking the cost of new discounted receivables, which are now recognized in the same month as the discount, given that the Company is no longer subject to the risk that these credits may not be realized.

Equity income, considering Globex's 14% interest in FIC and 50% interest in the remaining equity of BINV, came to R\$4.0 million, thanks to rigorous credit granting criteria and the acceptance of Ponto Frio cards in Grupo Pão de Açúcar stores and vice-versa. It is also worth mentioning several competitive initiatives, such as exclusive benefits, advantages and promotional campaigns for FIC card users.

Net income totaled R\$36.0 million, a R\$318.7 million improvement over the loss recorded in 2Q09.

Excluding the non-recurring items in 2Q10 related to: (i) the reversal of provisions constituted due to the adherence to state and municipal tax repayment installment plans; and, chiefly, (iii) the amount arising from the First Addendum to the Joint Venture Agreement between Globex, CBD and Casas Bahia, which granted Globex the right to indemnification by CBD of certain recognized contingencies owed by Globex as of June 30, 2010, the result would be impacted in R\$59.9 million, net of taxes, which would bring to a negative R\$23.9 million in 2Q10, versus a negative R\$94.0 million in 2Q09, also adjusted for non-recurring items, and an improvement of R\$70.1 million.

In the first half, gross sales totaled R\$2,970.9 million, 52.8% up on the same period last year, while net sales grew by 69.5% to R\$2,593.5 million. In same-store terms, gross sales increased by 51.5% over 1H09. **Gross profit** climbed by 77.1% year-on-year, while the gross margin widened by 80 bps.

Total operating expenses amounted to R\$434.1 million, 12.0% down on 1H09 and equivalent to 16.7% of net sales, versus 32.3% in the same period last year.

Excluding non-recurring items totaling R\$97.0 million in 1H09, these expenses would come to R\$396.4 million in 1H09, an increase of R\$37.7 million in absolute terms and a reduction of 920 bps in percentage-of-net-revenue terms in 1H10 thanks to improved expense management and controls in this semester.

EBITDA came to R\$68.3 million, with a margin of 2.6%, versus the negative R\$209.7 million posted in 1H09.

The **net financial result** totaled R\$104.3 million, R\$68.9 million up year-on-year in absolute terms.

Equity income amounted to R\$7.3 million.

Net income came to R\$32.3 million, versus the R\$318.2 million loss recorded in 1H09. Excluding non-recurring effects, Globex would have declared a net loss of R\$27.6 million in 1H10, versus a loss of R\$129.5 million in 1H09, an improvement of R\$101.9 million.
