This is the proposal we have to present.

São Paulo, August 9th, 2013.

BOARD OF DIRECTORS

Annex to the Proposal of Management Remuneration (Item 13 of the Reference Form, ICVM 480/2009)

13.1 Description of the compensation policy or practice, including for Non-Statutory Board of Executive Officers

(a) *objectives of the remuneration policy or practice*

The objective of this remuneration policy or practice is to remunerate Company's management and committee members in line with market practices, allowing the Company to attract and retain qualified professionals, in addition to promoting their engagement with the Company.

(b) *Compensation breakdown, including*

i description of the elements that compose the compensation and the purpose of each of them

The members of the Board of Directors and committees, external member included, as well as our Fiscal Council, are compensated on monthly bases, not in connection with their effective participation of these meetings. The purpose of this compensation is to ensure compliance with the general market practice and meets the very best interest of the Company.

The compensation of Executive Officers consists of the following elements: (i) fixed remuneration reflected in a base salary, with the purpose of ensuring compliance with the general market practice; (ii) profit sharing plan, with the purpose of encouraging professionals to seek the success of the Company and of sharing Company's results with them; and (iii) a stock option plan, which is an incentive offered to Company's executives in order to ensure a sustainable and long-lasting business.

ii. the proportion of each element in the total compensation

The table below shows the proportion of each element of the total compensation for the fiscal year ended December 31, 2012:

	<i>% of total compensation</i>			
	Base Salary		Base Salary	
Board of Directors	0%	100%	0%	100%
Board of Officers	30.51%	30.26%	39.23%	100%
Fiscal Council	100%	0%	0%	100%

iii. methodology for the calculation and readjustment of each element of the compensation

In order to define the compensation of the management and committee members, we regularly conduct market research to evaluate if the parameters and conditions we adopt to define the fixed compensation are satisfactory and enable us to retain Company’s professionals, as well to analyze the need to propose adjustments to any component of remuneration which may be misaligned. These surveys are conducted annually by recognized expert advice and market contracted by us, and use as benchmarks the major economic groups operating in the country, including in particular, the groups that operate in the retail sector.

The profit sharing portion allocated to the Executive Officers, on the other hand, is computed based on indicators aligned to the Company's strategic planning, determined in line with Company's business plan and the goals to be met.

O cálculo da participação de nossos Diretores em nossos resultados, por sua vez, é baseado em indicadores alinhados ao planejamento estratégico da nossa Companhia, definidos com base em nosso plano de negócios e nos resultados a serem alcançados.

For additional information on Company's stock option plan please refer to item 13.4 below.

iv. reasons that justify the composition of the compensation

What justifies the breakdown of Company's compensation policy is Company's result-oriented strategy, which depends on the continuous search for competent, qualified, dedicated and valuable professionals for the Company.

(c) key performance indicators considered in determining each element of the compensation

For setting the variable portion of remuneration, we consider performance indicators that we consider strategic, as gross sales, net income, total expenditure, working capital, engagement and turnover, beyond the level of excellence of managers in performing their functions, considering the degree of responsibility and individual assignments. Performance indicators are not taken into consideration for determining the proportion of fixed remuneration.

(d) the way the compensation is structured to reflect the evolution of the performance indicators

We structure Company's compensation through programs that monitor the accomplishment of goals previously determined by the Company and the results effectively met.

(e) the way the compensation policy or practice is aligned with the Company's short, medium and long-term interests

For short, medium and long-term interests, we offer to the Executive Officers a fixed compensation (base salary) and a variable compensation (profit sharing and stock option plans).

The compensation of the members of the Board of Directors, Fiscal Council and other committees is readjusted based on the amount usually paid in the industry, encouraging such professionals to maintain the excellence in exercising their functions and to strive for the improvement of Company's results. Therefore, we understand that the compensation policy or practice is aligned with Company's short, medium and long-term interests.

(f) *existence of compensation supported by subsidiaries or direct or indirect controlling shareholders*

The compensation of the management and committee members is supported exclusively by the Company.

(g) *existence of any compensation or benefit connected to the occurrence of a determined corporate event, such as the transfer of the Company's controlling stock*

No compensation or benefit is paid to the management or committee members in connection with the occurrence of corporate events.

13.4 Share-based compensation plan of the Board of Directors and Statutory Board of Executive Officers

On December 31, 2012, the Company had one stock-option plan, which was approved at an Special Shareholders' Meeting held on December 20, 2006 ("Stock Option").

Company's stock option plan is managed by a committee elected by Board of Directors, named Stock Option Management Committee ("Stock Option Committee"). This committee establishes the employees to periodically benefit from the stock options, based on the duties, responsibilities and performance, establishing the applicable conditions.

In addition to managing the Stock Option Plan, the Stock Option Committee is responsible for selecting the executives and the employees that are entitled to the options, in addition to determining the terms and conditions of each stock option agreement applicable to each beneficiary, including, but not limited to, the number of shares to be acquired, the acquisition conditions and prices, and the respective payments means.

The Executive Officers and some high-skill employees receive stock-based payments as part of their compensation. We recognize expenses with stock-based compensation on the fair value of premiums as of

Edgar Filing: BRAZILIAN DISTRIBUTION CO COMPANHIA BRASILEIRA DE DISTR CBD - Form 6-K
the grant date.

The Stock Option Plan includes only preferred shares issued by the Company

13

a. General Terms and Conditions

Company's Stock Option Committee usually develops annual cycles for the granting of options. Each granting cycle receives a serial number initiated by the letter A, starting from "Series A1". In the year ended December 31, 2012, the options granted in Series A4 to the A6 are in full effect.

The options granted in the Stock Option Plan are divided into "Gold" and "Silver" options, which implies a change in the options' exercise price, as explained in item (i) below.

The Stock Option Committee established the criteria to calculate the reduction and/or increase index (reducer or accelerator) for the number of options granted and classified as "Gold" in each series of the Stock Option Plan, according to the analysis of the concept of return on invested capital (ROIC). In accordance with item 3.3 of the Stock Option Plan, the Committee has decided that from Series A6, including, the increase or decrease of the number of "Gold" options shall be determined based on CBD's "Return in Capital Employment". For both criteria, the accelerator or reducer shall follow the hereunder terms:

(i) if the average ROIC/ROCE of CBD in the last 3 fiscal years before the *Vesting of the options* (the "Verified ROIC/ROCE") is higher than the ROIC/ROCE established as confrontation base ("Base ROIC/ROCE"), o the amount of granted "Gold" options shall be added certain amount of "Gold" options, by percentage points as the Verified ROIC/ROCE exceed the Base ROIC/ROCE ;

(ii) if the **Verified ROIC/ROCE** is less than the Base ROIC/ROCE, the amount of granted "Gold" options shall be reduced by certain amount of "Gold" options, by percentage points as the Verified ROCE do not exceed the Base ROIC/ROCE;

(iii) the Base ROIC/ROCE shall be calculated as set by the hereunder equation:

$$\text{Base ROIC/ROCE} = \{[(1+R_1)*(1+R_2)*(1+R_3)]^{(1/3)}\}-1$$

In which,

(Item 13 of the Reference Form, ICVM 480/2009)

$R_1 = \text{ROIC/ROCE (1}^\circ \text{ fiscal year)} = X\%$

$R_2 = \text{ROIC/ROCE (2}^\circ \text{ fiscal year)} = Y\%$

$R_3 = \text{ROIC/ROCE (3}^\circ \text{ fiscal year)} = Z\%$

(e) Calculation of ROIC/ROCE Criterion: the criterion to determine the increase rate and/or the reduction rate (accelerator or reducer) of the amount of “Gold” options shall be in accordance with the analysis of compliance ROIC/ROCE, as follows:

(i) **Turn of Profitability** = $[(1 + \text{Verified ROIC/ROCE}) / (1 + \text{Base ROIC/ROCE})] - 1$

(ii) **Accelerator**: from 3%, for each 1% more than in the rate of return, increase 0.5% on the amount of granted “Gold” shares.

(iii) **Reduction:** from 3%, for each 1% less than in the rate of return, decrease 5% on the amount of granted “Gold” shares.

b. Plan’s Main Objectives

The objectives of the Stock Option Plan are: (i) to attract and retain highly qualified executives and professionals in the Company; (ii) to allow executives and employees to own Company’s capital stock and the equity additions arising from the results said executives, employees and contractors have contributed to; and (iii) to align the interests of executives and employees with the interests of Company’s shareholders, encouraging the good performance of these professionals and ensuring Company’s management continuity.

c. The Way the Plan Contributes to the Achievement of these Goals

The Stock Option Plan beneficiaries are encouraged to generate more results for the Company so that they achieve their goals as executives and employees of the Company, and for the shares received as compensation to have their value increased over time

d. The Way the Plan is included in the Company’s Compensation Policy

The Stock Option Plan is an element of the compensation of Company’s executives, and it is in line with the compensation policy, which goal is to retain executives and employees and to encourage better results.

e. The Way the Plan Aligns the Interests of the Executives and of the Company in the Short, Medium, and Long terms

As the options are granted every year and based on Company's results, we understand the Stock Option Plan is in line with Company's short-term interests, since it encourage the beneficiaries to achieve their individual goals and the Company's goals. Furthermore, it also retains Executive Officers and beneficiaries of the Stock Option Plans, in addition to attracting new professionals, which is in line with Company's medium-term interests. Finally, as mentioned in item (j) herein, the beneficiaries of the Stock Option Plan will only be apt to exercise their options after a certain time working with the Company, which encourages them to generate better results in the long term so their shares gain value, in addition to retaining them for a longer period, in line with Company's long-term interests.

f. Maximum Number of Shares Involved

The maximum number of shares included in the Stock Option Plan is 15,500,000 preferred shares (as resolved by the Board of Directors at the meeting held on February 19, 2013).

The amount indicated above shall always observe the authorized capital limit of the Company and may be changed at any time by the Board of Directors. When the call options are exercised, it is issued new shares to the beneficiaries, observing Company's right to use treasury shares.

g. Maximum Number of Options to be Granted

There is no maximum number of options to be granted within the scope of the Stock Option Plans, provided that the total number of shares resulting from their exercise does not surpass the limit indicated in item (f) above and the limit of 2% of Company's capital stock per Series.

h. Conditions for the Acquisition of Shares

The Stock Option Committee will determine, for each Series and in each case if necessary, the terms and conditions for the acquisition of the right to exercise granted options, by means of an express provision in the subscription agreement signed by the beneficiary.

In order to acquire shares of the Stock Option Plans, the beneficiaries shall remain bound to the Company for a specific period, pursuant to item (j) below, except for the cases of termination of employment described in item (n) below.

The options shall be fully or partially exercised up to the expiration date of the respective option. For further information on the options' expiration dates currently in effect, please refer to item 13.6 below.

i. Criteria for Setting the Acquisition or Exercise Price

For the options classified as “Silver”, the exercise price per preferred share shall correspond to the average of the closing price of the preferred shares issued by the Company and traded in the 20 sessions of the BM&FBOVESPA prior to the date the Stock Option Committee resolves on the granting of the option. After the average price is determined, a negative goodwill of 20% shall be applied.

For the options classified as “Gold”, the exercise price will be R\$0.01 per preferred share.

j. Criteria for Determining the Exercise Price

As general rule for the Stock Option Plan, which may be amended by the Committee on each series, the right to exercise the stock option shall mature after the 36th month and up to the 48th month following the execution of the respective subscription agreement, the beneficiary will have the right to acquire 100% of the shares for “Silver” options. The exercise of the “Gold” options will happen in the same period, but the percentage of said options subject to exercise will be determined by the Stock Option Committee in the 35th month following the date of execution of the respective subscription agreement.

The options granted in both Stock Option Plans shall be fully or partially exercised. It is worth mentioning that “Gold” options supplement “Silver” options, and, therefore, “Gold” options shall only be exercised together with “Silver” options.

k. Settlement Means

The exercise price of the options granted under the Stock Option Plan shall be fully paid in local currency by the beneficiary, being that the exercise price shall be paid in cash and in one installment, 30 days following the date of subscription of the respective shares, except for the cases of termination of employment of the beneficiary described in item (n) below, in which case the exercise price shall be paid in cash upon subscription

l. Restrictions to the Transfer of Shares

The Stock Option Committee shall set restrictions to the transfer or trading of the shares obtained through the exercise of the options

m. Criteria and Events That, When Verified, Shall Result in the Subscription, Amendment or Termination of the Plan

The number of shares to be acquired in the Second Plan’s “Gold” Series, as explained in item (j) above, shall be limited by the Stock Option Committee.

The Stock Option Plan and the options granted shall be automatically extinguished if the Company is dissolved or liquidated.

Finally, the Stock Option Committee shall determine the suspension, amendment to or termination of the Stock Option Plan without the prior consent of the beneficiaries, provided that their rights and obligations are not harmed.

n. Effects of the Executive's Leaving the Company on his Rights Provided for in the Stock-Based Compensation Plan

In the case of involuntary termination of employment by any Executive Officer or employee beneficiary of the Second Plan up to the last working day of the 35th month following the date of execution of the respective subscription agreement, the right to exercise 100% of the "Silver" and "Gold" options will be granted. In this case, the limit determined by the Stock Option Committee shall not apply for the number of shares resulting from the exercise of the "Gold" options, described in item (j) above, and the total number of shares initially determined by the Committee shall be subject to exercise.

In the case of involuntary termination of employment by any Executive Officer or employee beneficiary of the Second Plan from the last working day of the 35th month to the last working day of the 48th month following the date of execution of the respective subscription agreement, the right to exercise 100% of the “Silver” and “Gold” options will also be granted. In this case, however, the limit determined by the Stock Option Committee will remain applicable for the number of shares resulting from the exercise of the “Gold” options, described in item (j) above.

In both cases, the beneficiaries shall communicate their intention to exercise the options granted to them within up to 15 days following the date of termination of employment.

In the case of voluntary termination of employment of any Executive Officer or employee beneficiary of the Plan and/or termination with cause, pursuant to the Brazilian labor law, the right to exercise the “Silver” and “Gold” options will not be granted.

In the case of death or permanent disability of any Executive Officer or employee beneficiary of the Plan, the rules for involuntary termination of employment described above shall apply, and the exercise shall be carried out by a person duly authorized by the appropriate authority.

13.9 Brief description of the information necessary for the understanding of the data disclosed in items “13.6” to “13.8”, and explanation of the pricing method used for the shares and options

a. pricing method

The fair value of each option granted is estimated on the grant date using the *Black-Scholes-Merton* options pricing model

b. data and premises used in the pricing model, including the average weighted price of the shares, exercise price, expected volatility, option term, expected dividends, and risk-free interest rate

The market price of each granted option is estimated on the grant date using the *Black-Scholes-Merton* options pricing model, considering the following premises for the options in effect in 2013:

	<u>On the grant date</u>
Average weighted price of the shares (per share), according to the average value of the last 20 trading sections on the grant date	Series A4: R\$ 58.11 Series A5: R\$ 68.36 Series A6: R\$ 80.16 Series A7: R\$ 100.00
Exercise price	Series A4 “Gold”: R\$ 0.01 Series A4 “Silver”: R\$ 46.49 Series A5 “Gold”: R\$ 0.01 Series A5 “Silver”: R\$ 54.69 Series A6 “Gold”: R\$ 0.01 Series A6 “Silver”: R\$ 64.13 Series A7 “Gold”: R\$ 0.01

	Series A7 "Silver": R\$ 80.00
Expected updated volatility	28.91%
Options term	4 years
Expected dividends	0.88%
Risk-free interest rate	10.86%
Fair value of the option on the grant date (per option)	Please check item 13.6 above

c. Method and Premises Used to Incorporate the Expected Effects of Early Exercise

We do not take into account, for purposes of pricing the options, early exercises resulting from involuntary termination of employment, death or permanent disability of the beneficiary, and as a result of corporate events.

We adopt the premise that the options will be exercised from the moment they become exercisable. Therefore, the options term adopted in the calculations ranges from 1 to 5 years, depending on the series and the corresponding vesting periods of the options.

d. How the Expected Volatility is Determined

In calculating the expected volatility, we used the standard deviation of the natural logarithms of the historic daily variations of the prices of the shares issued by the Company, according to the effective term of the options.

e. Other Characteristics Incorporated in the Measurement of the Options' Fair Value

Up to the end of the vesting period, the non-exercisable options are considered as call options in the calculations made using the Black-Scholes-Merton method. When they become exercisable, the options are considered as put options, that is, exercisable at any time up to the expiration date.
