## **NOTICE TO THE MARKET**

**São Paulo, June 23, 2015** - Braskem S.A. (BM&FBovespa: BRKM5, BRKM3, BRKM6; NYSE: BAK; LATIBEX: XBRK) announces that the federal government published the Provisional Measure (MP) 677/15, which amends the power supply contracts of Companhia Hidro Elétrica do São Francisco – Chesf with the basic industries in Brazil's Northeast.

The new contractual amendments, which will be valid through 2037, are expected to be signed by June 30, 2015.

The Provisional Measure further authorizes Chesf to participate in the Northeast Energy Fund (FEN), which aims to provide funds to new electric power projects, primarily in this region.

Braskem believes that signing this new amendment will provide a solid foundation for the perpetuity and competitiveness of its electro-intensive operations in Brazil's Northeast, and that Chesf's participation in FEN represents a structural and long-term solution for the Brazilian market.

More information can be obtained from Braskem's Investor Relations Department by calling +55 (11) 3576-9531 or sending an e-mail to [braskem-ri@braskem.com.br](mailto:braskem-ri@braskem.com.br).

### FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
