¹Adjustments of the period reflect updates related to the project's scope, date of launch and prices.

GAFISA SEGMENT

Focus on residential projects in the Middle, Medium-High and High income segments, with average unit sales price exceeding R\$250,000.

Gafisa Launches

Third quarter launches totaled R\$411.0 million and consisted of 4 projects/phases in São Paulo. The sales speed of these launches reached 30.7%. In the 9M16, the Gafisa segment launches reached R\$621.4 million or 64.3% of consolidated launches.

Gafisa Pre-Sales

Third quarter gross sales in the Gafisa segment totaled R\$364.4 million. Dissolutions in 3Q16 were R\$106.1 million, yielding total net pre-sales of R\$258.3 million, up 99.5% q-o-q and 4.3% y-o-y, primarily due to the good performance of projects launched in the quarter, which accounted for 48.8% of net pre-sales in the period. Year-to-date, net pre-sales totaled R\$454.7 million. Of the total R\$ 258.3 million in net pre-sales in 3Q16, 56.8% relate to sales of launches within the year, with less construction work evolution.

The Gafisa segment's SoS for the last twelve months reached 26.1%, compared to 29.6% in the past 12-month period. In the 3Q16, SoS was 11.5%, compared to 6.3% in the previous quarter and 11.0% in 3Q15.

Despite the still challenging economic environment, and its ongoing effects on the pricing of inventory products, the segment outperformed previous quarter's sales results. Improved sales performance of launches relate to changes in sales execution processes and development of new products, aiming at higher level of efficiency, and may signal a slight recovery in buyers' confidence. In addition to the strong sales performance, with gross sales increasing 39.1% to R\$364.4 million from 2Q16, the level of dissolutions declined.

The Company continues to focus its efforts on the sale of remaining units, reaching 43.2% of net sales for the quarter related to projects launched before 2016. Dissolutions, in turn, were concentrated in projects launched until 2014, with more advanced construction work undertaken, and result in greater contribution to revenue recognition and margin composition.

Out of the 713 Gafisa segment units cancelled and returned to inventory during the semester, 55.0%, or 392 units were resold during the same period.

Gafisa Delivered Projects

In 3Q16, 7 projects/phases were delivered, accounting for 1,899 units and representing a total of R\$935.7 million in PSV, with 42.3% of this volume related to commercial projects. In keeping with its policy of dissolving contracts with ineligible clients in order to sell the units to qualified customers, dissolutions increased by 90.4% in 3Q16 when compared to 3Q15 and increased by 38.1% compared to 2Q16, ending the period at R\$ 80.0 million, due to the following factors: (i) seasonality related to sales made during the Caixa Econômica Federal housing fair (2Q16); (ii) introduction of in-person

interviews in bank branches as an additional step in the process of analysis and granting of credit by financial agents, which led to the annulment of approvals to customers already pre-approved in system, and; (iii) review of Tenda's unilateral dissolution process for sales not transferred after a period exceeding three months as the prior process allowed for some units to remain beyond the deadline deemed appropriate by the Company. We estimate that this last factor should result in the temporary maintenance of the Company dissolutions level at a higher level over the coming quarters, before returning to the average levels appropriate to the New Tenda's business model.

From 1,268 Tenda units dissolved and returned to inventory in the 9M16, 65.4% were resold to qualified customers during the same period.
