QUARTERLY INFORMATION

JUNE 30, 2018

(A free translation of the original in Portuguese)

Independent auditor's report

Report on review of quarterly information

To the Board of Directors and Shareholders

Telefônica Brasil S.A.

Introduction

We have reviewed the accompanying parent company and consolidated interim accounting information of Telefônica Brasil S.A. ("Company"), included in the Quarterly Information Form (ITR) for the quarter ended June 30, 2018, comprising the balance sheet as at that date and the income statements and other comprehensive income for the quarter and six-month periods then ended, and the statements of changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory information.

Management is responsible for the preparation of the parent company interim accounting information in accordance with the accounting standard CPC 21 - "Interim Financial Reporting", of the Brazilian Accounting Pronouncements Committee (CPC), and of the consolidated interim accounting information in accordance with CPC 21 and International Accounting Standard (IAS) 34 - "Interim Financial Reporting" issued by the International Accounting Standards Board (IASB), as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of the Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim accounting information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 - "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" and ISRE 2410 - "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the parent company interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying parent company interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

Conclusion on the consolidated interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

Other matters

Statements of value added

We have also reviewed the parent company and consolidated statements of value added for the six-month period ended June 30, 2018. These statements are the responsibility of the Company's management, and are required to be presented in accordance with standards issued by the CVM applicable to the preparation of Quarterly Information (ITR) and are considered supplementary information under IFRS, which do not require the presentation of the statement of value added. These statements have been submitted to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they have not been prepared, in all material respects, in a manner consistent with the parent company and consolidated interim accounting information taken as a whole.

2) BASIS OF PREPARATION AND PRESENTATION OF THE QUARTERLY FINANCIAL STATEMENTS

a) Statement of compliance

The individual (Company) and consolidated quarterly financial statements were prepared and are presented in accordance with the accounting practices adopted in Brazil, which comprise CVM standards and CPC (Accounting Pronouncements Committee) pronouncements, in compliance with the International Financial Accounting Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB).

All significant information in the quarterly financial statements, and solely such information, is disclosed and corresponds to that used by Company management for administration purposes.

The consolidated quarterly financial statements (Consolidated) have been prepared and are presented in accordance with CPC 21 (R1) Interim Statements and IAS 34 - Interim Financial Reporting, as issued by the IASB and standards established as Resolution No. 739/15 of the CVM.

b) Basis of preparation and presentation

The Company's quarterly financial statements for the six-month period ended June 30, 2018 are presented in thousands of *Reais* (unless otherwise stated), which is the functional currency of the Company.

These quarterly financial statements compares the quarters ended June 30, 2018 and 2017, except for the balance sheets, that compare the positions as at June 30, 2018 and December 31, 2017.

The accounting standards adopted in Brazil require the presentation of the Statement of Value Added ("SVA"), individual and consolidated, while IFRS does not require this presentation. As a result, under IFRS standards, the SVA is being presented as supplementary information, without prejudice to the overall quarterly financial statements.

The Board of Directors authorized the issue of these individual and consolidated financial statements at the meeting held on July 20, 2018.

Business segments are defined as components of a company for which separate financial information is available and regularly assessed by the operational decision making professional in decisions on how to allocate funds to an individual segment and in the assessment of segment performance. Considering that : (i) all officers and managers' decisions are based on consolidated reports; (ii) the Company and subsidiaries' mission is to provide their customers with quality telecommunications services; and (iii) all decisions related to strategic planning, finance, purchases, short and long-term investments are made on a consolidated basis, the Company and subsidiaries operate in a single operating segment, namely the provision of telecommunications services.

The information in the notes to the financial statements that did not significantly change or present irrelevant disclosures as compared to December 31, 2017 were not fully repeated in these quarterly financial statements. However, the Company selected and included information to explain the main events and transactions occurring during the six-month period ended June 30, 2018, so that the changes in the Company's financial position and performance can be understood.

In this context, the Company indicates below the reference to the notes disclosed in the annual financial statements as at December 31, 2017 and not fully repeated in these quarterly financial statements:

- Note 1 - Operations
- Note 2 - Basis of Preparation and Presentation of Financial Statements
- Note 3 - Summary of Significant Accounting Practices

- Note 13 - Intangible Assets, Net

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and six-month periods ended June 30, 2018

(In thousands of *Reais*, unless otherwise stated)

- Note 29 - Share-Based Payment Plans
- Note 30 – Pension Plans and Other Post-Employment Benefits

The quarterly financial statements were prepared in accordance with the principles, practices and accounting criteria consistent with those adopted in the preparation of the financial statements for the fiscal year ended December 31, 2017 (Note 3) Summary of Significant Accounting Practices) and should be analyzed in conjunction with these Financial statements, except for the changes required by the new pronouncements, interpretations and amendments, which came into effect as of January 1, 2018, as described below:

Standards and amendments

IFRS 9	Financial Instruments
IFRS15	Revenue from Contracts with Customers Revenue from Contracts with Customers , issued on April 12, 2016
Clarifications to IFRS 15	Classification and Valuation of Share Based Transactions
Amendments to IFRS 2	Applying IFRS 9 Financial Instruments with IFRS 4 Insurance Contracts
Amendments to IFRS 4	Transfers of Investment Property
Amendments to IAS 40	Foreign Currency Transactions and Advance Consideration
IFRIC 22	2014-2016 Cycle
Improvements to IFRS Standards	

The adoption of many of these standards, changes and interpretations did not have a significant impact on the financial position of the Company and its subsidiaries in the initial period of application. However, for the IFRS 9 and IFRS 15, there was a significant impact on the consolidated financial position at the time of its adoption and prospectively.

IFRS 15 Revenues from Contracts with Customers

With the adoption of IFRS 15, for bundled packages that combine multiple wireline, wireless, data, internet or television goods or services, the total revenue is now allocated to each performance obligation based on their standalone selling prices in relation to the total consideration of the package and will be recognized when (or as) the obligation is satisfied, regardless of whether there are undelivered items. Consequently, when bundles include a discount on equipment, there is an increase in revenues recognized from the sale of handsets and other equipment, in detriment of ongoing service revenue over subsequent periods. To the extent that the packages are marketed at a discount, the difference between the revenue from the sale of equipment and the consideration received from the customer upfront is recognised as a *contract asset* in the statement of financial position.

All incremental costs to obtain a contract (sales commissions and other acquisition costs of third parties) are accounted for as prepaid expenses (assets) and amortized over the same period as the revenue associated with that asset. Similarly, certain contract fulfillment costs are also deferred to the extent that they relate to performance obligations that are satisfied over time.

Revenue from the sale of handsets to dealers is accounted for at the time of delivery and not at the time of sale to the final customer.

Certain changes of the contract have been accounted for as a retrospective change (i.e. as a continuation of the original contract), while other modifications are to be considered prospectively as separate contracts, such as the original contract end and the creation of a new one.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and six-month periods ended June 30, 2018

(In thousands of *Reais*, unless otherwise stated)

The Company adopted the retrospective method modified with the cumulative effect of the initial application recognized as an adjustment to the opening balance of retained earnings on the date of the initial adoption. Therefore, comparative amounts of previous periods will not be restated. To facilitate the understanding and comparability of information, the Company discloses in Note 33 the consolidated income statement for the six-month period ended June 30, 2018, excluding the effects of adopting IFRS 15.

The main practical expedients adopted by the Company were: (i) completed contracts: the standard was not retrospectively applied to those contracts that are completed at January 1, 2018; (ii) portfolio approach: the requirements of the standard have been applied for groups of contracts with similar characteristics, since, for the clusters identified, the effects do not differ significantly from an application on a contract by contract basis; (iii) financial component: it was not considered significant when the period between the moment when the promised product or service is transferred to a customer and the moment when the customer pays for that product or service is one year or less.; and (iv) costs to obtain a contract: these costs will be recognised as an expense when incurred if the amortisation period of the asset that the entity would otherwise recognise is one year or less.

The process of implementing the new requirements involved the introduction of modifications to the current information systems, the implementation of new IT tools, and changes in the processes and controls of the entire revenue cycle in the Company. This process of implementation in the Company entailed a high degree of complexity due to factors such as a large number of contracts, numerous data source systems, as well as the need to make complex estimates.

From the analysis performed on the transactions of the 2017 financial year, considering commercial offers as well as the volume of contracts affected, the Company recognized on January 1, 2018 an increase in retained earnings of 156 million reais, before deferred taxes, referring to first-time recognition of contract assets that lead to the early recognition of revenue from the sale of goods and the activation and deferral of incremental costs related to obtaining contracts and contract fulfilment costs that result in the subsequent recognition of customer acquisition costs and other sales.

The following table shows the changes in contractual assets and liabilities and incremental costs of the Company (excluding the effects of sales and income taxes) for the six-month period ended June 30, 2018.

IFRS 15

	Contract assets (1)			Contractual liabilities (3)

Current	258,498	(44,466)	214,032	(154,254)	(344,789)	(499,043)	145,393
Non-current	-	-	-	(39,121)	(23,393)	(62,514)	63,486

The amounts in the above table are classified in the balance sheets as follows: (1) Accounts receivable (Note 4); (2) Prepaid expenses (Note 9); and (3) Deferred income (Note 19).

IFRS 9 Financial Instruments

IFRS 9 simplified the current measurement model for financial assets and established three main categories: (i) amortised cost; (ii) fair value through profit or loss; and (iii) fair value through Other Comprehensive Income (OCI), depending on the business model and the characteristics of the contractual cash flows. Regarding recognition and measurement of financial liabilities there were not significant changes from current criteria except for the recognition of changes in own credit risk in OCI for those liabilities designated at fair value through profit or loss.

IFRS 9 introduced a new model for impairment losses on financial assets, i.e. the expected credit loss model. The Company applied the simplified approach and recorded lifetime expected losses on all trade receivables. Consequently, the application of the new requirements led to an acceleration in the recognition of impairment losses on its financial assets, mainly trade receivables.

Telefônica Brasil S. A.**NOTES TO THE QUARTERLY FINANCIAL STATEMENTS****Three and six-month periods ended June 30, 2018****(In thousands of Reais, unless otherwise stated)**

IFRS 9 introduced a new and less restrictive hedge accounting model, requiring an economic relationship between the hedged item and the hedging instrument and that the hedge ratio be the same as that applied by the entity for risk management, criteria for documenting hedge relationships.

The main changes are related to the documentation of policies and hedging strategies, as well as the estimation and timing of recognition of expected losses on receivables from customers. The Company has decided to apply the option that allows not to restate comparative periods to be presented in the year of initial application.

From the analysis performed on the transactions of the 2017 financial year, the Company recognized on January 1, 2018, a decrease of 364 million reais in retained earnings, before deferred taxes, as a result of the increase in the bad debt provision balance on receivables from customers.

In addition to the effects on provisions for customer receivables defaults mentioned above, the adoption of IFRS 9 had impacts on the classification and measurement of financial assets and liabilities, as presented in the table below.

	Classification by category

The complete information on the Company's financial assets and financial liabilities is disclosed in note 30 of these ITRs.

New IFRS pronouncements, issues, amendments and interpretations of the IASB, applicable to the CPC

On the date of preparation of these quarterly financial statements, the following IFRS amendments had been published; however, their application was not mandatory. The Company does not anticipate the early adoption of any pronouncement, interpretation or amendment that has been issued, before application is mandatory.

Standards and amendments		Mandatory application: annual periods beginning on or after
Improvements to IFRS Standards	2015-2017 Cycle	January 1, 2019
IFRS 16	Leases	January 1, 2019
IFRIC23	Uncertainty over Income Tax Treatments	January 1, 2019
Amendments to IFRS 9	Prepayment Features with Negative Compensation	January 1, 2019
Amendments to IAS 28	Long-term Interest in associates and Joint Ventures	January 1, 2019
Amendments to IFRS 10 and IAS 28	Sale or Contribution of Assets between na Investidor and its Associate or Joint Venture	January 1, 2019
IFRS 17	Insurance Contracts	January 1, 2021

Based on the analyses made to date, the Company estimates that the adoption of these standards, amendments and interpretations will not have a significant impact on the consolidated quarterly financial statements in the initial period of adoption. However, for IFRS 16 - Leases are expected to have a significant impact on the consolidated quarterly financial statements at the time of their adoption and prospectively.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and six-month periods ended June 30, 2018

(In thousands of *Reais*, unless otherwise stated)

IFRS 16 Leases

IFRS 16 requires lessees to recognise assets and liabilities arising from all leases (except for short-term leases and leases of low-value assets) in the statement of financial position.

The Company acts as a lessee on a very significant number of lease agreements over different assets, such as third-party towers, circuits, office buildings and stores and land where the towers are located, mainly. A significant portion of these contracts is accounted for as operating lease under the current lease standard, with lease payments being recognised generally on the straight-line basis over the contract term.

The Company is currently in the process of estimating the impact of this new standard on such contracts. This analysis includes the estimation of the lease term, based on the non-cancellable period and the periods covered by options to extend the lease, when the exercise depends only on Telefônica and where such exercise is reasonably certain. This will depend, to a large extent, on the specific facts and circumstances by class of assets in the telecom industry (technology, regulation, competition, business model, among others). In addition to this, the Company will make assumptions to calculate the discount rate, which will mainly be based on the incremental borrowing rate of interest for the estimated term. On the other hand, the Company is considering not to separately recognise non-lease components from lease components for those classes of assets in which non-lease components are not material with respect to the total value of the lease.

In addition to the mentioned estimations, the standard allows for two transition methods: retrospectively for all periods presented, or using a modified retrospective approach where the cumulative effect of adoption is recognised at the date of initial application. The Company has tentatively decided to adopt the latter transition method; therefore the Company would recognise the cumulative effect of initial application as an adjustment to retained earnings in the year of initial application of IFRS 16. Also, certain practical expedients are available on first-time application in connection with the right of use asset measurement, discount rates, impairment, leases that finish within the twelve months subsequent to the date of first application, initial direct costs, and term of the lease. The Company is evaluating which of these practical expedients will be adopted. In this regard, the Company is considering opting for the practical expedient that allows not reassessing whether a contract is or contains a lease on the date of initial application of IFRS 16 but to directly apply the new requirements to all those contracts which under current accounting were identified as a lease.

Due to the different alternatives available, together with the complexity of the estimations and the significant number of lease contracts, the Company has not yet completed the implementation process, so at present it is not possible to make a reasonable estimation of the impact of initial application of the new requirements. However, based on the volume of contracts affected, as well as the magnitude of the future lease commitments, as disclosed in Note 31 herein, the Company expects that the changes introduced by IFRS 16 will have a significant impact on its financial statements from the date of adoption, including the recognition on the balance sheet of right of use assets and their corresponding lease obligations in connection with the majority of contracts that are classified as operating leases under the current lease standard. Also, amortization of the right of use assets and recognition of interest costs on the lease obligation on the statements of income will replace amounts recognised as lease expense under the current lease standard. Classification of lease payments in the statement of cash flows will also be affected by the requirements of the new lease standard. On the other hand,, the Company's Financial Statements will include broader disclosures with relevant information regarding lease contracts.

c) Basis of consolidation

At June 30, 2018 and December 31, 2017, the Company held the following equity interests on the respective dates:

Investees	Type of investment	Equity interests	Country (Headquarters)
Telefônica Data S.A. ("TData") (1)	Wholly-owned subsidiary	100.00%	Brazil
POP Internet Ltda ("POP") (2)	Wholly-owned subsidiary	100.00%	Brazil

Telefônica Brasil S. A.**NOTES TO THE QUARTERLY FINANCIAL STATEMENTS****Three and six-month periods ended June 30, 2018****(In thousands of *Reais*, unless otherwise stated)**

(1) TData is the parent of the wholly-owned subsidiaries Terra Networks and Telefônica Transportes e Logística Ltda. ("TGLog").

(2) POP is the parent of the wholly-owned subsidiary Innoweb Ltda. ("Innoweb").

Interest held in subsidiaries or joint ventures is measured under the equity method in the individual financial statements. In the consolidated financial statements, investments and all asset and liability balances, revenues and expenses arising from transactions and interest held in subsidiaries are fully eliminated. Investments in joint venture are measured under the equity method in the consolidated financial statements.

d) Reclassification of comparative amounts

The Company reclassified the amount of R\$655,084 in the statements of cash flows for the six-month period ended June 30, 2017, referring to the principal amount of the payment made on January 31, 2017 to the "Entidade Administradora do Processo de Redistribuição e Digitalização de Canais de TV e RTV" ("EAD") of the 2nd and 3rd installments of the auction of 700 MHz frequency bands for the provision of SMP. This reclassification was made between "Cash flow from operating activities - Other liabilities" and "Cash flow from investing activities - Acquisitions of property, plant and equipment and intangible assets".

Deferred tax assets		
Deferred tax liabilities	-	(583,967)

(1) This refers to the amounts recorded which, in accordance with Brazilian tax legislation, may be offset to the limit of 30% of the tax bases computed for the following years, with no expiry date. In 2017, there were increases of R\$587,374 in the Company and R\$779,862 in the consolidated, consisting of R\$587,374 of the Company and R\$192,488 of Terra Networks and POP.

(2) This refers to amounts that will be realized upon payment of provisions, occurrence of impairment losses for trade accounts receivable, or realization of inventories, as well as upon reversal of other provisions.

(3) These refer to deferred taxes arising from other temporary differences, such as provision for loyalty program, accelerated accounting depreciation, estimated impairment losses on inventories, derivative financial instruments, deferred income, renewal of licenses subsidy on the sale of mobile phones, among others.

(4) Includes deferred social contribution tax amounts on the adoption of IFRS 9 and 15.

At June 30, 2018, deferred tax credits (income and social contribution tax losses) were not recognized in indirect subsidiaries' (Innoweb and TGLog) accounting records, in the amount of R\$12,897 (R\$11,938 at December 31, 2017), as it is not probable that future taxable profits will be available for these subsidiaries to benefit from such tax credits.

d) Reconciliation of income tax and social contribution expense

The Company and its subsidiaries recognize income and social contribution taxes on a monthly basis, on an accrual basis, and pay the taxes based on estimates, in accordance with the trial balances for tax-reduction/tax-suspension purposes. Taxes calculated on profits until the month of the financial statements are recorded in liabilities or assets, as applicable.

Reconciliation of the reported tax expense and the amounts calculated by applying the statutory tax rate of 34% (income tax of 25% and social contribution tax of 9%) is shown in the table below for the six-month periods ended June 30, 2018 and 2017.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and six-month periods ended June 30, 2018

(In thousands of *Reais*, unless otherwise stated)

(1) This includes credits of ICMS arising from the acquisition of property and equipment (subject to offsetting in 48 months); requests for refund of ICMS, which was paid under invoices that were cancelled subsequently; for the rendering of services; tax substitution; and tax rate difference; among others. Non-current consolidated amounts include credits arising from the acquisition of property and equipment of R\$478,942 and R\$423,588 on June 30, 2018 and December 31, 2017, respectively.

(2) This refers to credits on withholding income tax (IRRF) on short-term investments, interest on equity and others, which are used as deduction in operations for the period and social contribution tax withheld at source on services provided to public agencies.

The balances of June 30, 2018 include the tax credits of PIS and COFINS monetarily restated by SELIC, in the amounts of R\$3,783,625 (Company) and R\$3,842,455 (Consolidated), arising from the final judicial process in Superior Court of Justice on March 20, 2018, in favor of the Company and its subsidiary TData, which recognized the right to deduct ICMS from the basis of calculation of PIS and COFINS contributions for the period from September 2003 to July 2014 (see notes 25 and 26).

The Company has four other lawsuits of the same nature in progress (including lawsuits of companies that have already been merged - Vivo, GVT and Telemig), which cover several periods between December 2001 and June 2017, whose amounts are being measured.

8) JUDICIAL DEPOSITS AND GARNISHMENTS

In some situations, in connection with a legal requirement or to suspension of tax liability, judicial deposits are made to secure the continuance of the claims under discussion. These judicial deposits may be required for claims where the likelihood of loss was analyzed by the Company and its subsidiaries,

grounded on the opinion of its legal advisors as a probable, possible or remote loss.

Non-current	4,826,057	6,155,821	5,012,724	6,339,167

On June 30, 2018, the Company recorded a write-off of R\$232 million resulting from the conclusion of a judicial deposit reconciliation process, with the support of a specialized company, in which information was obtained from banks and the judiciary and reconciled with the accounting records of the Company.

On June 30, 2018, the Company and its subsidiaries had a number of tax-related judicial deposits in the consolidated amount of R\$3,319,152 (R\$4,230,917 at December 31, 2017). In Note 18, we provide further details on issues arising from the most significant judicial deposits.

The table below presents the composition of the balances as at June 30, 2018 and December 31, 2017 of the tax judicial deposits (segregated and summarized by tribute).

A brief description of the main tax-related judicial deposits is as follows:

- Contribution to Empresa Brasil de Comunicação (EBC)

On behalf of its members, Sinditelebrasil (Union of Telephony, and Mobile and Personal Services) is challenging in court payment of the Contribution to Foster Public Radio Broadcasting to EBC, introduced by Law No. 11.652/2008. The Company and TData, as union members, made court deposits relating to that contribution.

- Telecommunications Inspection Fund (FISTEL)

The Company has legal proceedings involving the collection by ANATEL of the Installation Inspection Fee ("TFI") on the renewal of the licenses.

In the second quarter of 2018, the judicial discussion regarding the exclusion of the calculation basis of the Installation Inspection Fee ("TFI") and Inspection and Operation Fee ("TFF") of mobile (cellular) stations that are not owned by the Company was unfavorable to the Company after it withdrew its appeal. Consequently, the amounts of R\$1,126,810 deposited judicially were handed over to ANATEL.

Possible losses	169,552	210,211	208,370	261,876

Labor provisions and contingencies involve labor claims filed by former employees and outsourced employees (the latter alleging subsidiary or joint liability) claiming for, among other issues, overtime, salary equalization, post-retirement benefits, allowance for health hazard and risk premium, and matters relating to outsourcing. The Company finalized an improvement work in calculating the estimate of the labor provision value for cases of solidarity with third parties, evolving from a calculation based on the historical

average of payments to an assessment of the expected loss in an individualized way for each process, resulting in an increase in the provision of R\$116 million.

The Company is also a defendant in labor claims filed by retired former employees who are covered by the Retired Employees Medical Assistance Plan ("PAMA"), who, among other issues, are demanding the cancellation of amendments to this plan. Most of these claims await a decision by the Regional Labor Court of São Paulo and the Superior Labor Court. Based on the opinion of its legal counsel and recent decisions of the courts, management considers the risk of loss in these cases as possible. No amount has been specified for these claims, since is not possible to estimate the cost to the Company in the event of loss.

In addition, the Company is party to Public Civil Actions filed by the Labor Public Prosecutor's Office, mainly in relation to the determination that the Company must cease the engagement of intermediaries to carry out its core activities. No amounts were allocated to the possible degree of risk in these Public Civil Actions in the above table, since at this stage of the proceedings it is not possible to estimate the cost to the Company in the event of loss.

- The Company and/or its subsidiaries are parties to proceedings involving rights to the supplementary amounts from shares calculated on network expansion plans since 1996 (supplement of share proceedings). These proceedings are at different stages: lower courts, court of justice and high court of justice. At June 30, 2018, consolidated provisions totaled R\$313,389 (R\$324,232 at December 31, 2017).
- The Company and/or its subsidiaries are parties to various civil proceedings related to consumers at the administrative and judicial level, relating to the non-provision of services and/or products sold. At June 30, 2018, consolidated provisions totaled R\$393,503 (R\$296,169 at December 31, 2017).
- The Company and/or its subsidiaries are parties to various civil proceedings of a non-consumer nature at administrative and judicial levels, all arising in the ordinary course of business. At June 30, 2018, consolidated provisions totaled R\$341,301 (R\$435,476 at December 31, 2017).

c.2) Civil contingencies assessed as possible losses

Management and its legal counsel understand that losses are possible in the following civil proceedings:

- Collective Action filed by SISTEL Participants' Association (ASTEL) in the state of São Paulo, in which SISTEL associates in the state of São Paulo challenge the changes made in the health insurance plan for retired employees ("PAMA") and claim for the reestablishment of the prior "status quo". This proceeding is still in the appeal phase, and awaits a decision on the Interlocutory Appeal filed by the Company against

the decision on possible admission of the appeal to higher and supreme courts filed in connection with the Court of Appeals' decision, which changed the decision rendering the matter groundless. The amount cannot be estimated, and the claims cannot be settled due to their unenforceability because it entails the return to the prior plan conditions.

- Civil Class Actions filed by ASTEL, in the state of São Paulo, and by the Brazilian National Federation of Associations of Retirees, Pensioners and Pension Fund Members of the Telecommunications Industry (FENAPAS), both against SISTEL, the Company and other carriers, in order to annul the spin-off of the PBS private pension plan, alleging, in short, the "windup of the supplementary private pension plan of the SISTEL Foundation", which led to various specific mirror PBS plans, and corresponding allocation of funds from technical surplus and tax contingencies existing at the time of the spin-off. The amount cannot be estimated, and the claims cannot be settled due to their unenforceability because this involves the return of the spun-off assets of SISTEL relating to telecommunication carriers of the former Telebrás System.
- The Company is party to other civil claims, at several levels, related to service rendering rights. Such claims have been filed by individual consumers, civil associations representing consumer rights or by the Bureau of Consumer Protection (PROCON), as well as by the Federal and State Public Prosecutor's Office. The Company is also party to other claims of several types related to the ordinary course of business. At June 30, 2018, the consolidated amount totaled R\$3,082,280 (R\$2,827,071 at December 31, 2017).
- TGLog (company controlled by TData) is a party to the civil enforcement action process in the 3rd Civil Court of Barueri - SP for the allegation of contractual noncompliance with the transportation of goods. At December 31, 2017, the amount was R\$178.
- Terra Networks (company controlled by TData) is a party to: (i) supplier action related to the transmission of events; (ii) PROCON fine (annulment action); (iii) indemnification action related to the use of content; (iv) ECAD action on copyright collection; and (v) claim actions filed by former subscribers regarding unrecognized collection, collection of undue value and contractual noncompliance. At June 30, 2018, the amount was R\$14,576 (R\$17,340 at December 31, 2017).

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and six-month periods ended June 30, 2018

(In thousands of *Reais*, unless otherwise stated)

- The Company has received notices regarding noncompliance with the Customer Service (SAC) Decree. The Company is currently party to various lawsuits (administrative and legal proceedings). At June 30, 2018 and December 31, 2017, the amount was R\$14,207.
- Intellectual Property: Lune Projetos Especiais Telecomunicação Comércio e Ind. Ltda. (Lune), a Brazilian company, filed an action on November 20, 2001 against 23 wireless carriers claiming to own the patent for caller ID and the trademark "Bina". The purpose of that lawsuit was to interrupt provision of such service by carriers and to seek indemnification equivalent to the amount paid by consumers for using the service.

An unfavorable decision was handed down determining that the Company should refrain from selling mobile phones with Caller ID service ("Bina"), subject to a daily fine of R\$10,000.00 (Ten thousand reais) in case of noncompliance. Furthermore, according to that decision, the Company must pay indemnification for royalties, to be calculated on settlement. Motions for Clarification were proposed by all parties and Lune's motions for clarification were accepted since an injunctive relief in this stage of the proceedings was deemed applicable. A bill of review appeal was filed in view of the current decision which granted a stay of execution suspending that unfavorable decision until final judgment of the review. A bill of review was filed in view of the sentence handed down on June 30, 2016, by the 4th Chamber of the Court of Justice of the Federal District, in order to annul the lower court sentence and remit the proceedings back to the lower court for a new examination. We brought a Special Appeal against the aforementioned judgment in order to recognize the active illegitimacy of Lune and determined the termination of the proceedings, and such appeal is awaiting judgment before the Superior Court of Justice ("STJ"). There is no way to determine at this time the extent of potential liabilities with respect to this claim.

- The Company and other wireless carriers figure as defendants in several lawsuits filed by the Public Prosecutor's Office and consumer associations to challenge imposition of a period to use prepaid minutes. The plaintiffs allege that the prepaid minutes should not expire after a specific period. Conflicting decisions

were handed down by courts on the matter, even though the Company understands that its criteria for the period determination comply with ANATEL standards.

d.1) Provisions for regulatory proceedings assessed as probable losses

The Company is party to administrative proceedings against ANATEL, filed based on an alleged failure to meet sector regulations, and to judicial proceedings to contest sanctions applied by ANATEL at the administrative level. At June 30, 2018, consolidated provisions totaled R\$984,759 (R\$1,103,792 at December 31, 2017).

Telefônica Brasil S. A.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and six-month periods ended June 30, 2018

(In thousands of *Reais*, unless otherwise stated)

According to the Company's management and legal counsel, the likelihood of loss of the following regulatory proceedings is possible:

- The Company is party to administrative proceedings filed by ANATEL alleging noncompliance with the obligations set forth in industry regulations, as well as legal claims which discuss the sanctions applied by ANATEL at the administrative level. At June 30, 2018, the consolidated amount was R\$5,289,064 (R\$5,065,907 at December 31, 2017).
- Administrative and judicial proceedings discussing payment of a 2% charge on interconnection services revenue arising from the extension of right of use of SMP related radio frequencies. Under clause 1.7 of the authorization term that grants right of use of SMP related radio frequencies, the extension of right of use of such frequencies entails payment every two years, during the extension period (15 years) of a 2% charge calculated on net revenues from the service provider's Basic and Alternative Plans of the service company, determined in the year before that of payment.

However, ANATEL determined that in addition to revenues from Service Plans, the charge corresponding to 2% should also be levied on interconnection revenues and other operating revenues, which is not stipulated in clause 1.7 of referred Authorization Term.

Considering, based on the provisions of the Authorization Terms, that revenue from interconnection services should not be included in the calculation of the 2% charge for radiofrequency use right extension, the Company filed administrative and legal proceedings challenging these charges, based on ANATEL's position.

d.3) Term of Conduct Adjustment ("TAC")

In 2014, the Company proposed the conclusion of the TAC, with respect to the subjects Universalization and Expansion of Access, Quality, Interruptions, Rights and Guarantees of Users and Supervision, with ANATEL, whose Board of Directors approved October 27, 2016. On 27 September of 2017, this instrument was judged by the Federal Audit Court ("TCU"), with the instruction of recommendations and determinations to ANATEL for the continuation of the analysis of the agreement.

On March 8, 2018, ANATEL ultimately adjudicated fines in the updated amount of R\$700 million, which were withdrawn from the TAC. The Company has expressed with ANATEL the interest in reviewing the terms of the agreement, due to the imbalance caused by this fact. However, on April 25, ANATEL's Board of Directors decided, with three votes to two, to close the process that established the Company's TAC, which substituted fines for investments. The measure met the recommendation of the technical area of ANATEL not to enter into an agreement with the Company. With the decision not to conclude the agreement, the Company again has the fine amounts charged by ANATEL, which were suspended until this decision, but may appeal to the courts for charges that it considers undue.

There is no accounting impact that should be recognized in the Company's financial statements as of June 30, 2018 as a result of the discontinuation of the TAC negotiations.

e) Guarantees

The Company and its subsidiaries granted guarantees for tax, civil and labor proceedings, as follows:

(1) This refers mainly to the balances of revenues from recharging prepaid services, which are recognized in income as services are provided to customers. It includes the amount of the agreement the Company entered into for industrial use of its mobile network by a different SMP operator in Regions I, II and III of the general authorizations plan, which is intended solely for the rendering of SMP services by the operator for its customers.

(2) Includes the net balances of the residual values from sale of non-strategic towers and rooftops, which are transferred to income as the conditions for recognition are fulfilled.

(3) This refers to the deferred activation revenue (fixed) recognized in income over the estimated period in which a customer remains in the base.

(4) This refers to points earned under the Company's loyalty program, which enables customers to accumulate points by paying bills relating to use of services offered. The balance represents the Company's estimate of customers exchanging points for goods and / or services in the future.

(5) This refers to: i) government subsidy arising from funds obtained from BNDES credit lines to be used in the acquisition of domestic equipment, which have been amortized over the useful life cycle of the equipment; and ii) subsidies arising from projects related to state taxes, which are being amortized over the contractual period.

(6) Refers to the balance of contractual liabilities arising from the adoption of IFRS 15 (Note 2.b) and amounts related to customer contracts (services and goods, activation revenue and customer loyalty program) were reclassified to the line of "Contractual Liabilities - IFRS 15". The amounts on June 30, 2018 were R\$368,182, of which: (i) services and goods R\$312,936; (ii) activation revenue R\$4,220 and (iii) customer loyalty program R\$51,026.

(7) Includes amounts of the reimbursement for costs for leaving radio frequency sub-bands 2,500MHz to 2,690MHz due to cancellation of the Multichannel Multipoint Distribution Service (MMDS).

Guarantees:

(1) Guarantee in receivables relating to 15% of the outstanding debt balance or four times the largest installment, whichever is higher.

(2) Pledge of financed assets.

(3) Assignment of receivables corresponding to 20% of outstanding debt balance or 1 time the last installment of sub-credit facility "A" (UMIPCA) plus 5 times the last installment of each of the other sub-credit facilities, whichever is greater.

(4) Bank guarantee in an amount equivalent to 100% of the outstanding financing debt balance. Setting up a liquidity fund represented by financial investments in the amount equivalent to three installments of repayment referenced to the average post-grace period performance. Balances were R\$12,093 and R\$11,722 at June 30, 2018 and December 31, 2017, respectively.

a.1) Loans and financing

Some financing agreements with the BNDES described above, have lower interest rates than those prevailing on the market. These operations fall within the scope of IAS 20 / CPC 7 and thus the subsidies granted by BNDES were adjusted to present value and deferred in accordance with the useful lives of the financed assets, resulting in a balance as at June 30, 2018 of R\$26,779 (R\$32,155 at December 31, 2017), Note 19.

a.2) Financing - Suppliers

Under bilateral agreements with suppliers, the Company obtained extension of the terms for payment of trade accounts payable at a cost based on fixed CDI rate for the corresponding periods, with the net cost equivalent to between 104.4% to 112.4% of CDI (101.4% to 109.4% of CDI at December 31, 2017).

a.3) Finance lease

(A free translation of the original in Portuguese)

Telefônica Brasil S. A.**NOTES TO THE QUARTERLY FINANCIAL STATEMENTS****Three and six-month periods ended June 30, 2018****(In thousands of *Reais*, unless otherwise stated)**

The Company has agreements classified as finance lease agreements in the condition of lessee relate to: (i) lease of towers and rooftops arising from sale and finance leaseback transactions; (ii) lease of Built to Suit ("BTS") sites to install antennas and other equipment and transmission facilities; (iii) lease of information technology equipment and; (iv) lease of infrastructure and transmission facilities associated with the power transmission network. The net carrying amount of the assets has remained unchanged until sale thereof, and a liability is recognized corresponding to the present value of mandatory minimum installments of the agreement.

The amounts recorded in property, plant and equipment are depreciated over the estimated useful lives of the assets or the lease term, whichever is shorter.

The balance of amounts payable relating to aforementioned transactions comprises the following effects:

	Company / Consolidated	
	06/30/18	12/31/17
Nominal value payable	768,109	787,147
Unrealized financial expenses	(390,888)	(401,687)

Aging list of finance lease payable at June 30, 2018 is as follows:

	Company / Consolidated Nominal value payable	Present value payable
Up to 1 year	63,775	56,227
From 1 to 5 years	202,318	143,950
Over five years	502,016	177,044
Total	768,109	377,221

There are no unsecured residual values resulting in benefits to the lessor or contingent payments recognized as revenue at June 30, 2018 and December 31, 2017.

a.4) Contingent consideration

As part of the Purchase and Sale Agreement and Other Covenants executed by and between the Company and Vivendi to acquire all shares in GVTPart., a contingent consideration relating to the judicial deposit made by GVT for the monthly installments of deferred income tax and social contribution on goodwill amortization was agreed, arising from the corporate restructuring process completed by GVT in 2013. If these funds are realized (being reimbursed, refunded, or via netting), they will be returned to Vivendi, as long as they are obtained in a final unappeasable decision. Reimbursement will be made within 15 years and this amount is subject to monthly restatement at the SELIC rate.

b) Debentures

The contractual terms of the debentures are the same as in Note 20) Loans, Financing and Debentures, disclosed in the financial statements for the fiscal year ended December 31, 2017.

Total	1,076,726	3,115,010	320,994	455,962	4,968,692

d) Covenants

There are loans and financing with BNDES and debentures with specific covenants involving a penalty in the event of breach of contract. A breach of contract provided for in the agreements with the institutions listed above is characterized as noncompliance with covenants (analyzed on a quarterly, half-yearly or yearly basis), being a breach of a contractual clause, resulting in the early maturity of the contract.

At June 30, 2018 and December 31, 2017 all economic and financial indexes established in existing contracts have been achieved.

e) Changes

Changes in loans and financing, debentures, finance lease agreements and contingent considerations are as follows:

(3) This refers to payroll withholdings and taxes withheld from pay-outs of interest on equity and on provision of services.

22) EQUITY

a) Capital

According to its Articles of Incorporation, the Company is authorized to increase its share capital up to 1,850,000,000 common and preferred shares. The Board of Directors is the competent body to decide on any increase and consequent issue of new shares within the authorized capital limit.

Telefônica Brasil S. A.**NOTES TO THE QUARTERLY FINANCIAL STATEMENTS****Three and six-month periods ended June 30, 2018****(In thousands of *Reais*, unless otherwise stated)**

Nevertheless, Brazil's Corporation Law (Law No. 6404/76, Article 166, item IV) - establishes that capital may be increased by means of a Special Shareholders' Meeting resolution to decide about amendments to the Articles of Incorporation, if the authorized capital increase limit has been reached.

Capital increases do not necessarily observe the proportion between the number of shares of each class to be maintained, however the number of non-voting or restricted-voting preferred shares must not exceed 2/3 of total shares issued.

Preferred shares are non-voting, except for cases set forth in Articles 9 and 10 of the Articles of Incorporation, but have priority in the event of reimbursement of capital, without premium, and are entitled to dividends 10% higher than those paid on common shares, as per Article 7 of the Company's Articles of Incorporation and item II, paragraph 1, Article 17 of Law No. 6404/76.

Preferred shares are also entitled to full voting rights if the Company fails to pay the minimum dividend to which they are entitled for three consecutive financial years and this right will be kept until payment of said dividend.

Subscribed and paid-in capital at June 30, 2018 and December 31, 2017 amounted to R\$63,571,416, divided into shares without par value, held as follows:

b) Management compensation

Consolidated key management personnel compensation paid by the Company to its Board of Directors and Statutory Officers were R\$12,307 and R\$10,617 for the six-month ended June 30, 2018 and 2017 respectively. Of this amount, R\$8,538 (R\$6,774 at June 30, 2017) corresponds to salaries, benefits and social charges and R\$3,769 (R\$3,843 at June 30, 2017) to variable compensation.

These amounts were recorded as expenses with personnel under the General and administrative expenses group of accounts (Note 24).

For the six-month ended June 30, 2018 and 2017, our Directors and Officers did not receive any pension, retirement or similar benefits.

28) SHARE-BASED PAYMENT PLANS

Telefónica, as the Company's parent company, has different share-based payment plans based on their shares, which were also offered to management and employees of its subsidiaries, including Telefônica Brasil and its subsidiaries.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and six-month periods ended June 30, 2018

(In thousands of *Reais*, unless otherwise stated)

The fair value of these options is estimated on the grant date, based on a binomial pricing model reflecting terms and conditions of instruments granted.

The Company and its subsidiaries reimburse Telefônica for the amount of the fair value of the benefits granted to management and employees on the grant date.

The details of these plans are the same as in Note 29) Share-Based Payment Plans, as disclosed in the financial statements for the fiscal year ended December 31, 2017.

The main plans in force at June 30, 2018 and December 31, 2017 were:

Performance & Investment Plan (“PIP”) to reward senior management's global commitment: cycle 2015-2018 (October 1, 2015 to September 30, 2018): with 70 active Company executives (including 3 executives appointed under the Articles of Incorporation of the Company), hold the right to potentially receive 417,077 Telefônica shares (includes initial amounts and co-investment).

Talent for the Future Share Plan (“TFSP”) to reward the global commitment: cycle 2015-2018 cycle (October 1, 2015 to September 30, 2018): with the right to potentially receive 73,500 Telefônica shares (includes initial amounts).

At June 30, 2018, the value of Telefônica' share price was Eur 7.2790.

The expenses of the Company and its subsidiaries with the share-based compensation plans described above, where applicable, are recorded as personnel expenses, divided into the groups Cost of Services, Selling expenses and General and Administrative Expenses (Note 24), corresponding to R\$935 and R\$8,057 for the six-month periods ended June 30, 2018 and 2017.

29) PENSION PLANS AND OTHER POST-EMPLOYMENT BENEFITS

The plans sponsored by the Company and related benefit types are as follows:

Plan	Type	Entity	Sponsor
PBS-A	Defined benefit (DB)	Sistel	Telefônica Brasil, jointly with other telecoms resulting from privatization of the Sistema Telebrás
PAMA / PCE	Defined benefit (DB)	Sistel	Telefônica Brasil, jointly with other telecoms resulting from privatization of the Sistema Telebrás

30) FINANCIAL INSTRUMENTS AND RISK AND CAPITAL MANAGEMENT

a) Derivative transactions

The derivative financial instruments contracted by the Company are mainly intended to hedge against foreign exchange risk arising from assets and liabilities in foreign currency, risk of inflation on its debentures and leases indexed to the IPCA and against the risk of changes in TJLP of a portion of debt with BNDES. There are no derivative financial instruments for speculative purposes and possible currency risks are hedged.

Management understands that the Company's internal controls for its derivatives are adequate to control risks associated with each strategy for the market. Gains/losses obtained or sustained by the Company in relation to its derivatives show that its risk management has been appropriate.

As long as these derivatives contracts qualify for hedge accounting, the hedged item may also be adjusted to fair value, offsetting the result of the derivatives, according to the rules of hedge accounting. This hedge accounting applies both to financial liabilities and probable cash flows in foreign currency.

At June 30, 2018 and December 31, 2017, the Company held no embedded derivatives contracts.

Derivatives contracts include specific penalties for breach of contract. Breach of contract provided for in agreements made with financial institutions leads to the anticipated liquidation of the contract.

a.1) Fair value of derivative financial instruments

The valuation method used to calculate the fair value of financial liabilities (if applicable) and derivative financial instruments was the discounted cash flow method, based on expected settlements or realization of liabilities and assets at market rates prevailing at the balance sheet date.

The fair values of positions in Reais are calculated by projecting future inflows from transactions using B3 yield curves discounting these flows to present value using market DI rates for swaps announced by B3.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and six-month periods ended June 30, 2018

(In thousands of *Reais*, unless otherwise stated)

The market values of foreign-exchange derivatives were obtained using the market exchange rates in effect at the balance sheet date and projected market rates obtained from the currency's coupon-rate yield curves. The linear convention of 360 calendar days was used to determine coupon rates of positions indexed in foreign currencies, while the exponential convention of 252 business days was used to determine coupon rates for positions indexed to CDI rates.

Consolidated derivatives financial instruments shown below are registered with B3 and classified as swaps, usually, that do not require margin deposits.

(6) The information of December 31, 2017 refers to the IGPM swap x CDI , swap operations contracted with the purpose of protecting the risk of IGPM variation in regulatory commitments linked to a 4G license. The commitment of the 4G license was withdrawn from the EAD on January 31, 2018 for the R\$42,842 (note 21) and the respective swap operations were finalized on the same date.

(7) NDF US\$ (R\$1,485) - NDF operations US\$ X BRL contracted with maturities up to August 21, 2018, with the purpose of protecting against exchange variation risks of imported products.

The table below shows the breakdown of swaps maturing after June 30, 2018:

	Company/Consolidated				2021 onwards	Amount receivable (payable) at 06.30.18

Total	39,526	66,494	1,234	(2,530)	(2,530)	104,724

For the purposes of preparing its financial statements, the Company adopted the fair value hedge accounting methodology for its foreign currency swaps x CDI, IPCA x CDI and TJLP x CDI for hedging or financial debt. Under this arrangement, both derivatives and hedged risk are recognized at fair value.

The ineffective portion at June 30, 2018 was R\$1,137 (R\$1,289 at December 31, 2017).

At June 30, 2018 and 2017, the transactions with derivatives generated consolidated negative (net) result of R\$5,433 and R\$37,232, respectively (Note 26).

a.2) Sensitivity analysis to the Company's risk variables

CVM Resolution 604/09 requires listed companies to comply with CPC 40 (R1) Financial Instruments: Disclosures (IFRS 7) by disclosing sensitivity analyses for each type of market risk that management understands to be significant when originated by financial instruments to which the entity is exposed at the end of each period, including all derivatives financial instrument transactions.

In making the above analysis, each of the transactions with derivative financial instruments was assessed and assumptions included a probable scenario and two others that could adversely impact the Company.

In the probable scenario the assumption is to use, on the maturity dates of each of the transactions, what the market had been showing through B3 yield curves (currencies and interest rates), as well as data available at IBGE, Central Bank, FGV, among others. In the probable scenario, there is no impact on the fair value of the above-mentioned derivatives. However, for scenarios II and III, as per CVM ruling, risk variables were considered to deteriorate by 25% and 50% respectively.

Since the Company only holds derivatives to hedge its foreign-currency assets and liabilities, changing scenarios are tracked by the corresponding hedged items, thus showing that effects are almost non-existent. For these transactions, the Company reported the consolidated net exposure in each of the above-mentioned three scenarios at June 30, 2018.

Telefônica Brasil S. A.**NOTES TO THE QUARTERLY FINANCIAL STATEMENTS****Three and six-month periods ended June 30, 2018****(In thousands of *Reais*, unless otherwise stated)**

The assumptions used by the Company for the sensitivity analysis at June 30, 2018 were as follows:

<u>Risk Variable</u>	Probable	25% depreciation	50% depreciation
US\$	3.8558	4.8198	5.7837
EUR	4.4930	5.6162	6.7395
JPY	0.0348	0.0435	0.0522
IPCA	4.27%	5.33%	6.40%
IGPM	6.92%	8.65%	10.38%
IGP-DI	8.20%	10.25%	12.30%
UMBND	0.0753	0.0941	0.1129
TJLP	0.0660	0.0825	0.0990
CDI	6.39%	7.99%	9.59%

For calculation of the net exposure for the sensitivity analysis, all derivatives were considered at market value and hedged items designated for hedge for accounting purposes were also considered at fair value.

The fair values shown in the table above are based on the portfolio position at June 30, 2018, but do not reflect an estimate for realization due to the dynamism of the market, which is constantly monitored by the Company. The use of different assumptions could significantly affect the estimates.

b) Fair value

The Company and its subsidiaries assessed their financial assets and liabilities in relation to market values using available information and appropriate valuation methodologies. However, both the interpretation of market data and the selection of valuation methods require considerable judgment and reasonable estimates to produce the most adequate realization value. As a result, the estimates shown do not

necessarily indicate amounts that could be realized in the current market. The use of different assumptions for the market and/or methodologies may have a material effect on estimated realization values. At June 30, 2018 and December 31, 2017, neither the Company nor its subsidiaries detected any significant and enduring impairment of their financial instruments.

The fair value of all assets and liabilities are classified within the fair value hierarchy described below, based on the lowest level of information that is significant to the fair value measurement as a whole:

Level 1: quoted market prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: valuation techniques for which significant lower level of information to measure the fair value directly or indirectly observable; and

Level 3: valuation techniques for which the lowest and significant level of information to measure the fair value is not available.

The following tables show the composition of financial assets and liabilities at June 30, 2018 and December 31, 2017. During the periods shown in the tables below, there were no transfers between fair value measurements of Level 3 and levels 1 and 2.

The following tables show the composition and classification of financial assets and liabilities at June 30, 2018 and December 31, 2017, considering the assumptions of IFRS 9.

c) Capital management

The purpose of the Company's capital management is to ensure maintenance of a high credit rating before institutions and an optimal capital ratio in order to support the Company's business and maximize shareholder value.

The Company manages its capital structure by making adjustments and adapting to current economic conditions. For this purpose, the Company may pay dividends, obtain new loans, issue debentures and contract derivatives. For the quarter ended June 30, 2018, there were no changes in capital structure objectives, policies or processes.

In its net debt structure, the Company includes balances referring to loans, financing, debentures, finance leasing, contingent consideration and transactions with derivatives, less cash and cash equivalents, short-term investments to secure BNB financing and guarantor of the contingent consideration liability.

The Company's ratio of consolidated debt to shareholders' equity consists of the following:

d) Risk management policy

The Company and its subsidiaries are exposed to several market risks as a result of its commercial operations, debts contracted to finance its activities and debt-related financial instruments.

d.1) Currency Risk

There is risk arising from the possibility that the Company may incur losses due to fluctuating exchange rates, which add to costs arising from loans denominated in foreign currencies.

At June 30, 2018, 2.7% of financial debt was foreign-currency denominated (2.7% at December 31, 2017). The Company enters into derivative transactions (currency hedge) with financial institutions to hedge

against exchange rate variation affecting its total indebtedness in foreign currency (R\$178,596 and R\$225,254 at June 30, 2018 and December 31, 2017, respectively). Its total debt on these dates was covered by asset positions in currency-exchange hedge transactions with CDI-rate swaps.

There is also foreign exchange risk for non-financial assets and liabilities denominated in foreign currencies, which may generate a smaller amount receivable or larger amount payable depending on the exchange rate in the period.

Hedging transactions were contracted to minimize the risks associated with exchange-rate variation of non-financial assets and liabilities in foreign currencies. This balance is subject to daily changes due to the dynamics of the business. However, the Company intends to cover the net balance of these rights and obligations (US\$16,042 thousand and €37,888 thousand receivable at June 30, 2018 and US\$16,953 thousand and €17,535 thousand receivable at December 31, 2017) to mitigate its foreign exchange risks.

d.2) Interest and Inflation Risk

This risk arises because the Company may incur losses in the event of an unfavorable change in the domestic interest rate, which may adversely affect financial expenses resulting from the portion of debentures referenced to the CDI and liability positions in derivatives (currency hedge, IPCA and TJLP) pegged to floating interest rates (CDI).

The debt with BNDES is indexed to the Long-Term Interest Rate (TJLP) which is set on a quarterly basis by the National Monetary Council. In the first quarter of 2017, the TJLP was 7.5%. As of the second quarter of 2017, the TJLP remained at 7.0% up to the end of the year. In the first quarter of 2018, the TJLP was 6.75%, declining to 6.60% in the second quarter of 2018.

Inflation risk arises from the "Minas Comunica" debentures of the 1st issue, which are tied to the IPCA and thus may adversely affect financial expenses in the event of an unfavorable change in this index.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and six-month periods ended June 30, 2018

(In thousands of *Reais*, unless otherwise stated)

To reduce exposure to the variable interest rate (CDI), the Company and its subsidiaries invested their cash equivalents of R\$4,339,666 at June 30, 2018 (R\$3,932,539 at December 31, 2017), mostly in short-term CDI-based financial investments (Bank Deposit Certificates). The carrying amounts of these instruments approximate their fair values, as they may be redeemed in the short term.

d.3) Liquidity Risk

Liquidity risk is the possibility of the Company or its subsidiaries not holding sufficient funds to meet their commitments due to different currencies and dates of realization of rights and settlement of obligations.

The Company structures the maturity dates of non-derivative financial contracts, as shown in Note 20, and their respective derivatives, as shown in the schedule of payments disclosed in this note, to avoid affecting their liquidity.

The Company's cash flow and liquidity are managed on a daily basis by the departments in charge to ensure that operating cash flows and prior funding, when necessary, will be sufficient to meet their schedule of commitments in order to avoid liquidity risk.

Below, we summarize the maturity profile of our consolidated financial liabilities as set forth in loan agreements:

	Less than one year	From 1 to 2 years	From 2 to 5 years	Over 5 years	Total
At 06.30.18

Total	10,485,780	847,249	3,927,412	669,151	15,929,592

d.4) Credit Risk

The risk arises from the possibility of the Company and its subsidiaries incurring losses due to difficulty in receiving amounts billed to their customers and sales of prepaid handsets and cards that have been pre-activated for the distribution network.

The credit risk on accounts receivable is diversified and mitigated by strict control of the customer base. The Company constantly monitors the level of accounts receivable from postpaid services, and limits bad-debt risk by cutting off access to telephone lines if bills are past due. The mobile customer base predominantly uses the prepaid system, which requires purchase of credits beforehand and therefore does not pose credit risk. Exceptions are made for emergency services that must be maintained for security or national defense reasons.

Telefônica Brasil S. A.

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

Three and six-month periods ended June 30, 2018

(In thousands of *Reais*, unless otherwise stated)

Credit risk on sales of pre-activated prepaid handsets and cards is managed by a conservative policy for granting credit, using modern credit scoring methods, analyzing financial statements and consultations to commercial databases, in addition to requesting guarantees.

The Company and its subsidiaries are also subject to credit risk arising from their investments, letters of guarantee received as collateral for certain transactions and receivables from derivative transactions. The Company and its subsidiaries control the credit limits granted to each counterpart and diversify this exposure across first tier financial institutions as per current credit policies of financial counterparties.

d.5) Social and Environmental Risks

Our operations and properties are subject to various environmental laws and regulations that, among others, govern environmental licenses and records, protection of fauna and flora, air emissions, waste management and remediation of contaminated sites. If we fail to meet present and future requirements, or to identify and manage new or existing contamination, we will incur in significant costs, which include cleaning costs, damages, compensation, fines, activities suspension and other penalties, investments to improve our facilities or change our processes, or interruption of operations. The identification of environmental conditions not currently identified, more stringent inspections by regulatory agencies, the entry into force of more stringent laws and regulations or other unanticipated events may occur and, ultimately, result in significant environmental liabilities and their costs. The occurrence of any of the above factors could have a material adverse effect on our business, results of operations and financial position. According to Article 75 of Law No. 9605 of 1998, the maximum fine per breach of environmental law is R\$50,000.

From the social point of view, we are exposed to contingent liabilities due to the fact that our structure foresees the hiring of outsourced service providers. These potential liabilities may involve labor claims by employees of the service providers who, in suits against the service provider and Company, request the

conviction of the Company in a subsidiary manner, that is, we may be compelled to pay in the case the provider does not settle these obligations. There is also a more remote possibility that these employees will be treated as direct employees by the Company, which would generate the risk of a joint and several conviction. The demands that are known to Telefónica are already provided.

d.6) Insurance Coverage

The policy of the Company and its subsidiaries, as well as the Telefónica Group, includes contracting insurance coverage for all assets and liabilities involving significant and high-risk amounts, based on management's judgment and following Telefónica corporate program guidelines.

At June 30, 2018, maximum limits of claims (established pursuant to the agreements of each entity consolidated by the Company) for significant assets, liabilities or interests covered by insurance and their respective amounts were R\$850,000 for operational risks (including business interruption) and R\$75,000 for general civil liability.

d.7) Other Risks

The Company is required to comply with Brazilian anti-corruption laws and regulations, as well as laws and regulations on the same subject in jurisdictions where it has its securities traded. In particular, the Company is subject, in Brazil, to the Law No. 12.846/2013 and, in the United States, to the U.S. Foreign Corrupt Practices Act of 1977.

Although the Company has internal policies and procedures designed to ensure compliance with the aforementioned anti-corruption laws and regulations, there can be no assurance that such policies and procedures will be sufficient or that the Company's employees, directors, officers, partners, agents and service providers will not take actions in violation of the Company's policies and procedures (or otherwise in violation of the relevant anti-corruption laws and regulations) for which the Company or they may be ultimately held responsible. Violations of anti-corruption laws and regulations could lead to financial penalties, damage to the Company's reputation or other legal consequences that could have a material adverse effect on the Company's business, results of operations and financial condition.

Telefônica Brasil S. A.**NOTES TO THE QUARTERLY FINANCIAL STATEMENTS****Three and six-month periods ended June 30, 2018****(In thousands of *Reais*, unless otherwise stated)**

In connection with the above-mentioned policies, the Company is currently conducting an internal investigation - which is part of a broader investigation being conducted by the controlling shareholder of the Company (Telefônica, S.A.) - regarding possible violations of the abovementioned laws and regulations. The Company is in contact with governmental authorities about this matter and intends to cooperate with those authorities as the investigation continues. It is not possible at this time to predict the scope or duration of this matter or its likely outcome.

31) COMMITMENTS AND GUARANTEES (RENTALS)

The Company and its subsidiaries lease equipment, facilities, and several stores, administrative buildings, and sites (containing radio-base stations and towers), through several non-cancellable operating agreements maturing on different dates, with monthly payments.

At June 30, 2018, the total amounts corresponding to the full period of the contracts were as follows:

	Company	Consolidated
Up to 1 year	2,537,643	2,543,157
