Ten newbuilding semi-refrigerated gas carriers on order for delivery between April 2014 and April 2016

London, England, March 17, 2014 - Navigator Holdings Ltd. ( Navigator ) (NYSE: NVGS), the owner and operator of the world's largest fleet of handysize liquefied gas carriers, announced its preliminary fourth quarter and Financial

Year 2013 results.

#### **Fourth Quarter 2013 Financial Results Overview**

Operating revenue for the three months ended December 31, 2013 was \$71.3 million, an increase of \$31.1 million, or 77.3%, when compared to the \$40.2 million of operating revenue for the three months ended December 31, 2012. This increase was primarily due to the additional eleven vessels acquired from AP Moller-Maersk during 2013, the last of which was delivered in October 2013, as well as improvements in charter rates, and was partially offset by a reduction in vessel utilization, contributed to by a fire in the engine room of Navigator Capricorn that caused the vessel to be out of service for 47 days in the fourth quarter of 2013.

Other cargo revenue of \$4.1 million represents the sale proceeds of a partial cargo of butane already loaded on board Navigator Capricorn when the engine room fire broke out. This butane cargo was bought by the Company from the charterer for \$4.3 million, to enable the repairs to the vessel to be efficiently carried out, and as there were restrictions in re-importing the cargo into Russia, resulting in a loss of \$204,000.

During the fourth quarter of 2013, the average time charter equivalent rate across the entire fleet, including our fully-refrigerated vessels was approximately \$830,500 per calendar month (\$27,300 per day), compared to \$798,230 per calendar month (\$26,243 per day) for the comparable period in 2012. The Company did not have any fully-refrigerated vessels during 2012.

Fleet utilization across the 24 vessels, including the chartered-in vessel, decreased to 90.7% for the fourth quarter of 2013, from 99.8% for the fourth quarter of 2012. Approximately half of the aggregate 203 days in which the vessels in the fleet did not earn income resulted from the fire on Navigator Capricorn, and from Navigator Leo having to ballast 41 days from South Korea to Northern Russia to take up a ten year charter. Additionally, six other vessels sailed in ballast to take up time charters during the fourth quarter of 2013 and there was some increased idle time.

<sup>1</sup> EBITDA represents net income before net interest expense, income taxes and depreciation and amortization. EBITDA does not represent and should not be considered as an alternative to consolidated net income or cash generated from operations, as determined by U.S. GAAP, and our calculation of EBITDA may not be comparable to that reported by other companies. EBITDA is not a recognized measurement under U.S. GAAP. Please see Appendix A for a reconciliation to the most directly comparable GAAP financial measure.

Net operating revenue, which is operating revenue less voyage expenses, amounted to \$53.8 million for the three months ended December 31, 2013, up from \$33.8 million for the same period in 2012. \$23.2 million of the increase

in net operating revenue resulted from having additional vessels in the fleet in 2013 and \$2.3 million resulted from an increase in charter rates. The increase in net operating revenue was partially offset by a reduction of \$5.5 million as a result of the decrease in vessel utilization.

Vessel operating expenses increased by \$9.5 million to \$18.1 million for the three months ended December 31, 2013, from \$8.6 million for the same period in 2012. This increase principally reflects the increased number of vessels in the fleet in 2013, as ownership days increased to 2,187 days for the three months ended December 31, 2013, compared to 1,288 days for the equivalent period of 2012.

Net income rose to \$10.9 million for the three months ended December 31, 2013, or \$0.22 per share, based on an increased weighted average number of shares outstanding of 49.8 million, up from \$8.8 million or \$0.23 per share for the same period in 2012.

EBITDA for the fourth quarter of 2013 was \$30.0 million, compared to \$18.1 million for the fourth quarter of 2012.

#### **Year Ended December 31, 2013 Financial Results Overview:**

Operating revenue for the year ended December 31, 2013 amounted to \$234.3 million (excluding the cargo revenue mentioned above), an increase of \$87.6 million compared to operating revenue of \$146.7 million for the year ended December 31, 2012. Net operating revenue, which is operating revenue less voyage expenses, amounted to \$185.0 million for the year ended December 31, 2013, an increase of \$66.1 million on the year ended December 31, 2012.

At December 31, 2013, Navigator has 24 handysize liquefied gas carrier vessels in operation, including the one chartered-in vessel, and it has an additional ten vessels on order, which are expected to be delivered between April 2014 and April 2016.

At December 31, 2013, 13 of the 18 semi-refrigerated gas carriers operated by Navigator were on time charters at an average rate of approximately \$910,000 per calendar month. The remaining semi-refrigerated vessels were trading on the spot market or on contracts of affreightment. For the fully-refrigerated gas carriers, the average rate for all charters undertaken by those vessels during 2013 was \$778,000 per calendar month. The average time charter equivalent rate during 2013, across the entire fleet, was \$859,635 per calendar month (\$28,262 per day), compared to a rate of \$779,490 per calendar month (\$25,627 per day) during 2012. All six fully-refrigerated gas carriers in the fleet are currently on time charter for original terms of between one and five years, at an average rate of \$810,000.

Fleet utilization was 92.9% for the twelve months to December 31, 2013 compared to 99.5% for the full year of 2012.

Vessel operating expenses were \$56.0 million for the year ended December 31, 2013, an increase of \$23.2 million from the same period in 2012, primarily reflecting the increased number of vessels in the fleet in 2013, with a total ownership days of 7,168 days for the year ended December 31, 2013, compared to 4,663 days for the same period in 2012.

Net income rose to \$41.0 million for the year ended December 31, 2013, or \$0.89 per share, based on a weighted average number of 46.0 million shares outstanding at the end of 2013, (following the 3-for-1 stock split that became effective as of October 29, 2013), compared to \$30.5 million, or \$0.82 per share, for the year ended December 31, 2012, based on a weighted average number of 37.3 million shares outstanding at the end of 2012. As at December 31, 2013, there were 55,326,765 shares outstanding.

EBITDA for the year to December 31, 2013 was \$106.8 million, compared with \$63.9 million for the same period in 2012.

## FORWARD LOOKING STATEMENTS

Statements included in this press release concerning plans and objectives of management for future operations or economic performance, or assumptions related thereto, including our financial forecast, contain forward-looking statements. In addition, we and our representatives may from time to time make other oral or written statements that are also forward-looking statements. Such statements include, in particular, statements about our plans, strategies, business prospects, changes and trends in our business and the markets in which we operate as described in this press release. In some cases, you can identify the forward-looking statements by the use of words such as may, could, should, would, expect, plan, anticipate, intend, forecast, believe, estimate, predict, propose, negative of these terms or other comparable terminology. These risks and uncertainties include, but are not limited to:

- n future operating or financial results;
- n pending acquisitions, business strategy and expected capital spending;
- n operating expenses, availability of crew, number of off-hire days, drydocking requirements and insurance costs;
- n general market conditions and shipping market trends, including charter rates and factors affecting supply and demand;
- n our financial condition and liquidity, including our ability to obtain additional financing in the future to fund capital expenditures, acquisitions and other corporate activities;
- n estimated future capital expenditures needed to preserve our capital base;
- n our expectations about the receipt of our ten newbuildings and, if exercised, our option newbuilding, and the timing of the receipt thereof;
- n our expectations about the availability of vessels to purchase, the time that it may take to construct new vessels, or the useful lives of our vessels;
- n our continued ability to enter into long-term, fixed-rate time charters with our customers;

n changes in governmental rules and regulations or actions taken by regulatory authorities;

n potential liability from future litigation;

n our expectations relating to the payment of dividends; and

n other factors discussed in Navigators filings with the U.S. Securities and Exchange Commission.

We expressly disclaim any obligation to update or revise any of these forward-looking statements, whether because of future events, new information, a change in our views or expectations, or otherwise. We make no prediction or statement about the performance of our common stock.
