NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)**

June 30, 2005

1. The Company and Basis of Presentation

Pfeiffer Vacuum is a full-line manufacturer in the vacuum technology business offering solutions for a variety of customer applications relating to the generation, control and measurement of vacuum. The products developed and manufactured at the production facility in Asslar, Germany, include turbomolecular pumps, a range of backing pumps, such as rotary vane, Roots and dry pumps, complete pumping stations as well as customized vacuum systems, vacuum components and instruments.

Pfeiffer Vacuum distributes its products through a network of its own sales offices and subsidiaries as well as independent marketing agents. Moreover, there are service support centers in most major industrial locations throughout the world. The Company's primary markets are located in Europe, the United States and Asia.

The Consolidated Financial Statements of Pfeiffer Vacuum Technology AG and its subsidiaries (the Company or Pfeiffer Vacuum) have been prepared in accordance with United States Generally Accepted Accounting Principles (U.S. GAAP). The interim financial statements reflect all adjustments (consisting only of normal recurring adjustments) which are necessary for a fair presentation of the financial position, results of operations and cash flows of the Company.

Pfeiffer Vacuum presents its Consolidated Financial Statements in euros (€).

2. Summary of Significant Accounting Policies

Consolidation Principles

All companies which Pfeiffer Vacuum Technology AG directly or indirectly controls are consolidated. The Company is considered to control an entity if it either directly or indirectly holds a majority of the voting rights and can therefore exercise a controlling influence.

All material intercompany gains and losses, receivables, liabilities, revenues and expenses are eliminated as part of the consolidation process.

Use of Estimates

The preparation of the Consolidated Financial Statements requires management to make estimates and assumptions that affect the amounts of assets and liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the reporting period that are reported in the financial statements and accompanying notes. These estimates and assumptions could differ from the actual results.

Components of operating expenses

Cost of sales include all expenses that are related to the sold product or service in a direct or indirect manner, for example, material consumption (including inbound freight charges), production related wages and salaries, purchasing and receiving costs, inspection costs, warehousing costs and certain service costs. Inventory excess and obsolescence charges are also recorded in cost of sales as well as warranty related expenses. Selling and marketing expenses mainly include wages and salaries, costs for marketing and advertising and costs related to trade fairs and conventions as well as other merchandising costs (including catalogs, brochures, etc.). General and administrative expenses predominantly include wages and salaries, allowance for doubtful accounts, audit and other general consulting fees and other costs that relate to the company as a whole (e.g., IT consulting).

Reclassifications

Certain prior-year amounts have been reclassified to provide comparability with the presentation of the current year financial statements.

Foreign Currency Translation

The financial statements of the Company's foreign subsidiaries have been translated into euros (€) in accordance with Statement of Financial Accounting Standards (SFAS) No. 52, Foreign Currency Translation. The functional currency of all of the Company's foreign subsidiaries is the applicable local currency in which that entity conducts its business. When translating foreign functional currency financial statements, year-end exchange rates are applied to the assets and liabilities, while average annual exchange rates are applied to income statement accounts. The resulting translation adjustments are recorded as accumulated other comprehensive income (loss).

3. New U.S. Legislation and Accounting Rules

As a result of the Company's listing at New York Stock Exchange, it is subject not only to the provisions of German law (corporation, codetermination and capital market legislation) and of its own Articles of Association but also to the licensing requirements of the New York Stock Exchange. American capital market legislation specifically the Sarbanes-Oxley Act and the rules and regulations of the Securities and Exchange Commission (SEC) also apply to Pfeiffer.

4. Restructuring

In July 2002, the FASB issued SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities. This Standard requires that a liability for costs associated with exit or disposal activities be recognized in the period in which the costs are incurred if a reasonable estimate of fair value can be made.

During the third quarter of 2004 and after other cost reduction measures proved ineffective, the Company entered into a plan of termination which impacted employees in the DVD business. This business deals with development and production of manufacturing lines for digital versatile discs and falls within the operating segment Germany. Due to the German Works Council Constitution Act (Betriebsverfassungsgesetz) the Company must reach and reached an agreement with its workers council regarding the provisions of the one-time termination benefits for 51 employees. This agreement included the date of termination of each employment contract, amounts of termination payments and the payment date. The accrued amount includes only the severance payment and not regular salaries which are paid out during the minimum retention period and reflected as period costs. An employee will receive severance regardless of whether such employee remains with the Company for the minimum retention period.

The redundancy plan was approved by the management, having the corresponding authority to do so, the employees to be terminated, their function and their location were identified in this plan, each dismissed employee was able to calculate their individual indemnity by using the formula set up in the plan (depending on age, seniority and salary) and it was and is still unlikely that significant changes to the plan will be made or that the plan will be withdrawn. The total amount expensed in the third quarter of 2004 regarding this redundancy plan was approximately 1.2 million. The accrued restructuring costs due to the redundancy program amounted to 0.9 million at December 31, 2004 and decreased to approximately 0.1 million at June 30, 2005, as payments were made. The remaining payment will be in the third quarter 2005.

5. Discontinued Operations

In the second quarter of 2005, the management board committed to a plan to dispose of this business, having obtained supervisory board approval as required in order to terminate this sideline activity. Beginning with the second quarter of 2005, the DVD business as part of the segment Germany is reflected as a discontinued operation. All prior period statements have been restated accordingly.

In April 2005 the Company sold by auction the fixed assets and the respective inventories of the manufacturing site in Aschaffenburg. The disposal of the fixed assets and the respective inventories resulted in a loss of approximately 0.2 million.

Gains and losses of discontinued operations were as follows:

	Three months ended		Six months ended	
	June 30,		June 30,	
	2005	2004	2005	2004
	(in thousands)		(in thousands)

6. Inventories

Inventories are stated at the lower of cost or market. Cost is determined using the first-in, first-out method. Inventories consist of the following:

	June 30, 2005	December 31, 2004
	(in thousands)	
Raw materials	4,098	4,218
Work-in-process	4,433	4,241

Total inventories	15,174	13,954

7. Investment Securities

The Company holds investment securities amounting to 4.0 million, which will be held until final maturity and are consequently valued at carrying cost of acquisition.

Within the second quarter of 2005, the issuer executed the right to repay the investment security amounting to 9.0 million before original maturity according to the notes of the investment. Interest income amounting to 144,000 for the six month ended June 30, 2005 was paid by the issuer and included in the Company's interest income of 2005.

8. Stock-Based Compensation Convertible Bonds

As permitted under SFAS No. 123, Accounting for Stock-Based Compensation, as amended, the Company applies the intrinsic value-based method in accordance with APB Opinion No. 25 for its stock-based compensation plans.

Under APB No. 25 Accounting for Stock Issued to Employees, compensation expense is recorded on the measurement date only if the current market price of the underlying stock exceeds the exercise price.

As of June 30, 2005, employees had returned 3,000 of these convertible bonds having an aggregate principal value of 384,000 and repaid the corresponding employee loans.

Accounting for Stock Based Compensation

A summary of option shares related to the convertible bonds is as follows:

PFEIFFER VACUUM TECHNOLOGY AG
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

Shares exercisable at June 30, 2005 totaled 228,000. The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following assumptions used for grants in 2002 and 2000: Risk-free interest rates ranging from 4% to 5%; expected lives ranging from 4.5 to 6 years; expected dividend yield of 1% to 2%; and expected volatility ranging from 30% to 40%.

SFAS 123 requires disclosure of pro forma information regarding net income and earnings per share as if the Company had accounted for its stock-based compensation to employees using the fair value method. For pro forma purposes, using the fair value method the Company's net income from continuing operations would have been K 10,901 and the respective earnings per share would have been 1.25 and net loss from discontinued operations would have been K 1,035 and the respective earnings per share would have been (0.12) for the six months ended June 30, 2005. For the three months ended June 30, 2005 the proforma net income from continuing operations would have been K 5,738 and the respective earnings per share would have been 0.66, the net loss from discontinued operations would have been K 584 and the respective earnings per share would have been (0.07).

The Company's manpower dropped in Germany by 9.1% primarily due to its withdrawal from DVD business. The above figures for the German production group as of June 30, 2005 contain three remaining employees from the discontinued DVD business.

12. Pension Benefits and Similar Obligations

Most employees of the Company are entitled to receive pension benefits from Pfeiffer Vacuum, which are covered by defined benefit plans. Plan assets for the German Pension Plans are held in the Pfeiffer Vacuum Trust e.V. (the Trust), a registered association. It is an independent, bankruptcy-protected, separate legal entity whose sole purpose is to act in a fiduciary capacity as trustee for the assets held. Contributions for the year 2004 totaled K 836. The trust has invested this cash in a mutual fund managed by an unrelated third party that pursues a target allocation of 30% in equities and 70% in fixed-income securities and cash.

<i>Net Sales from discontinued operations</i>		
Germany	363	1,431

The Company's total net sales from continuing operations amounted to 39.9 million in the three months ended June 30, 2005 and increased by 2.1 million or 5.6% from 37.8 million in the previous year's period. The segment Germany (German subsidiaries) increased its sales by 1.1 million primarily due to increased demand of German customers in the second quarter of 2005 compared to the second quarter of 2004. The sales of the European subsidiaries increased by 0.7 million. The revenues of the U.S. sales company increased in U.S. dollar by \$1.1 million or 11.0%, but due to the weakness of the U.S. dollar against the euro the sales were adversely impacted by the effect of exchange rate differences amounting to approximately 0.4 million. The sales of the Company's DVD business, reported in discontinued operations (segment Germany), decreased by 1.1 million.

Net sales revenue in the Company's core product, the turbo pump, increased by 1.6 million or 10.2% from 15.5 million in the second quarter of 2004 to 17.0 million in 2005. In fore vacuum pumps an increase by 1.6 million or 40.4% was recorded, offset by decreased sales in vacuum system by 1.1 million. Revenue in service decreased by 0.3 million, sales in vacuum instruments and components increased by 0.3 million.

The Company's sales increase in the second quarter of the year 2005 compared to the second quarter of the year 2004 was mainly due to an increase in the volume of products slightly offset by an altered product mix.

Additionally, for the readers convenience the Company summarized its net sales by **geographical area** in the following table. Net sales by geographical area include all sales within a particular area, regardless of which subsidiary realizes the revenues.

The Company's net sales from continuing operations by **geographical area** are:

	Three months ended			
	June 30, 2005		June 30, 2004	
	(in thousands)	%	(in thousands)	%
<i>Net Sales</i>				
Germany	10,944	27.4	9,865	26.1

Rest of World	471	1.2	337	0.9
Total	39,931	100.0	37,816	100.0

The Company's total net sales from continuing operations increased by 2.1 million or 5.6% from 37.8 million in the three months ended June 30, 2004 to 39.9 million in the respective period of the current year. In the second quarter of 2005 sales in Germany increased by 1.1 million and made up the sales decrease in Germany in the first quarter of 2005, offset by decreased sales in Europe (excluding Germany) by 0.8 million. Sales in the U.S. increased by 0.5 million despite the adversely effect of the weakness of the U.S. dollar against the euro amounting to approximately 0.4 million. The Company's efforts to expand its sales in the Asian region led to a sales increase of 1.2 million or 20.3%. In the rest of world a small increase by 0.1 million was realized.

Order intake and Order backlog

The order intake increased by 2.5 million (6.4%) from 39.1 million in the three month period ended June 30, 2004 to 41.6 million in 2005. Orders in turbo pumps, the Company's core product, recorded a significant increase by 4.1 million or 29.7% from 13.8 million in the second quarter of 2004 to 17.9 million in 2005. Additionally, orders received in fore vacuum pumps increased by 1.5 million or 33.3%, offset by decreased orders in vacuum systems amounting to 1.8 million. Service orders declined slightly by 0.3 million.

Order backlog increased by 6.8 million from 24.6 million at June 30, 2004 to 31.4 million in June 30, 2005. The significant increases were recorded in turbo pumps by 5.9 million or 51.3% and fore vacuum pumps by 1.6 million or 48.5%. The Company considers its order intake and order backlog positions as an indication for a business development against the general economic trend.

Contracts are included in backlog only if they represent firm orders and include firm shipping schedules. The backlog position at any particular time should generally not be construed to represent future levels of sales and orders.

Gross Profit

The gross profit increased by 1.0 million (5.4%) from 17.6 million in the second quarter 2004 to 18.6 million in 2005, primarily due to the higher sales revenues. The Company's gross margin decreased slightly from 46.6% in 2004 to 46.5% in 2005.

The Company's total net sales from continuing operations amounted to 77.5 million in the six months ended June 30, 2005 and increased by 2.2 million or 3.0% from 75.3 million in the previous year's period. The segment Germany (German subsidiaries) increased its sales by 0.5 million, primarily due to increased demand of German customers in 2005 compared to 2004. The sales of the European subsidiaries increased by 2.6 million or 11.4%. The revenues of the U.S. sales company increased in U.S. dollar by \$1.4 million or 7.0%, but due to the weakness of the U.S. dollar against the euro the sales were adversely impacted by the effect of exchange rate differences amounting to approximately 0.8 million. The sales subsidiaries in the Asian market (rest of World) recorded a sales decrease of 1.2 million. The sales of the Company's DVD business, reported in discontinued operations (segment Germany), decreased by 2.6 million.

The major part of the net sales increase was recorded in fore vacuum pumps by 2.1 million or 24.5% from 8.5 million in the first six months of 2004 to 10.5 million in 2005. In the Company's core product, the turbo pump, only a small increase by 0.3 million to 31.5 million was realized. Sales in vacuum systems increased by 0.8 million, offset by declining service sales by 0.8 million.

The Company's sales increase in the six months ended June 30, 2005 compared to the previous year's period was mainly due to a more favorable product mix and a decrease in the volume of products.
