NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. BASIS OF PRESENTATION

Description of Business

Viacom is home to premier global media brands that create compelling television programs, motion pictures, short-form content, applications (“apps”), games, consumer products, social media experiences and other entertainment content for audiences in more than 180 countries. Viacom operates through two reporting segments: Media Networks and Filmed Entertainment. The Media Networks segment provides entertainment content and related branded products for consumers in targeted demographics attractive to advertisers, content distributors and retailers through three brand groups: the Global Entertainment Group, the Nickelodeon Group and BET Networks. The Filmed Entertainment segment produces, finances, acquires and distributes motion pictures, television programming and other entertainment content under the Paramount Pictures, Paramount Animation, Nickelodeon Movies, MTV Films and Paramount Television brands. References in this document to “Viacom,” “Company,” “we,” “us” and “our” mean Viacom Inc. and our consolidated subsidiaries, unless the context requires otherwise.

Unaudited Interim Financial Statements

The accompanying unaudited consolidated quarterly financial statements have been prepared on a basis consistent with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and pursuant to the rules of the Securities and Exchange Commission (“SEC”). In the opinion of management, the accompanying unaudited financial statements reflect all adjustments, consisting of only normal and recurring adjustments, necessary for a fair presentation of our results of operations, financial position and cash flows for the periods presented. The results of operations for the periods presented are not necessarily indicative of the results expected for the fiscal year ending September 30, 2017 (“fiscal 2017”) or any future period. These financial statements should be read in conjunction with our Form 10-K for the year ended September 30, 2016, as filed with the SEC on November 9, 2016 (the “2016 Form 10-K”).

Use of Estimates

Preparing financial statements in conformity with GAAP requires management to make estimates, judgments and assumptions that affect the reported amounts of assets and liabilities as of the dates presented and the reported amounts of revenues and expenses during the periods presented. Significant estimates inherent in the preparation of the accompanying Consolidated Financial Statements include estimates of film ultimate revenues, product returns, potential outcome of uncertain tax positions, fair value of acquired assets and liabilities, fair value of equity-based compensation and pension benefit assumptions. Estimates are based on past experience and other considerations reasonable under the circumstances. Actual results may differ from these estimates.

Recent Accounting Pronouncements

Income Taxes

In October 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2016-16 - Income Taxes: Intra-Entity Transfers of Assets Other Than Inventory. ASU 2016-16 will require the tax effects of intercompany transactions, other than sales of inventory, to be recognized currently, eliminating an exception under current GAAP in which the tax effects of intra-entity asset transfers are deferred until the transferred asset is sold to a third party or otherwise recovered through use. The guidance will be effective for the first interim period of our 2019 fiscal year, with early adoption permitted. We are currently evaluating the impact of the new standard.

Statement of Cash Flows

In August 2016, the FASB issued ASU 2016-15 - Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments. ASU 2016-15 addresses how certain cash receipts and cash payments are presented and classified in the statement of cash flows. The guidance will be effective for the first interim period of our 2019 fiscal year, with

early adoption permitted. The new standard will impact our statement of cash flows by increasing cash flow from operating activities and decreasing cash flow from financing activities in periods when debt prepayment or debt extinguishment costs are paid.

Financial Instruments

In connection with its financial instruments project, the FASB issued ASU 2016-13 - Financial Instruments - Credit Losses: Measurement of Credit Losses on Financial Instruments in June 2016 and ASU 2016-01 - Financial Instruments - Overall: Recognition and Measurement of Financial Assets and Financial Liabilities in January 2016. ASU 2016-13 introduces a new impairment model for most financial assets and certain other instruments. For trade and other receivables, held-to-maturity debt securities, loans and other instruments, entities will be required to use a forward-looking “expected loss” model that will replace the current “incurred loss” model and generally will result in

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(continued)

earlier recognition of allowances for losses. The guidance will be effective for the first interim period of our 2021 fiscal year, with early adoption in fiscal year 2020 permitted.

ASU 2016-01 addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. Among other provisions, the new guidance requires the fair value measurement of investments in certain equity securities. For investments without readily determinable fair values, entities have the option to either measure these investments at fair value or at cost adjusted for changes in observable prices minus impairment. All changes in measurement will be recognized in net income. The guidance will be effective for the first interim period of our 2019 fiscal year. Early adoption is not permitted, except for certain provisions relating to financial liabilities.

We are currently evaluating the impact of the new standards.

Equity-Based Compensation

In March 2016, the FASB issued ASU 2016-09 - Compensation - Stock Compensation: Improvements to Employee Share-Based Payment Accounting. ASU 2016-09 includes provisions intended to simplify various aspects related to how share-based payments are accounted for and presented in the financial statements, such as requiring all income tax effects of awards to be recognized in the income statement when the awards vest or are settled and allowing a policy election to account for forfeitures as they occur. In addition, all related cash flows resulting from share-based payments will be reported as operating activities on the statement of cash flows. The guidance will be effective for the first interim period of our 2018 fiscal year, with early adoption permitted. The new standard will impact our financial statements by increasing or decreasing our income tax provision and increasing cash flow from operating activities.

Leases

In February 2016, the FASB issued ASU 2016-02 - Leases. ASU 2016-02 requires lessees to recognize a right-of-use asset and a lease liability on the balance sheet for most leases. For income statement purposes, leases will be classified as either operating or finance, generally resulting in straight-line expense recognition for operating leases (similar to current operating leases) and accelerated expense recognition for financing leases (similar to current capital leases). The guidance will be effective for the first interim period of our 2020 fiscal year, with early adoption permitted. We are currently evaluating the impact of the new standard.

Revenue Recognition

In May 2014, the FASB issued ASU 2014-09 - Revenue from Contracts with Customers, a comprehensive revenue recognition model that supersedes the current revenue recognition requirements and most industry-specific guidance. Subsequent accounting standard updates have also been issued which amend and/or clarify the application of ASU 2014-09. The guidance provides a five step framework to recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration it expects to be entitled to in exchange for those goods or services. The guidance will be effective for the first interim period of our 2019 fiscal year (with early adoption permitted beginning with our 2018 fiscal year), and allows adoption either under a full retrospective or a modified retrospective approach. We are currently evaluating the impact of the new standard.

NOTE 2. ACQUISITION

On November 15, 2016, we acquired Televisión Federal S.A. (“Telefe”), one of the main free-to-air channels and biggest content producers in Argentina, for \$336 million, net of cash acquired. Telefe adds to our portfolio of international TV networks and accelerates our growth strategy in Argentina.

The following table summarizes our estimated allocation of the purchase price as of the acquisition date:

Purchase Price Allocation

(in millions)

Current assets	\$88
Goodwill	250
Intangible assets	49
Property and equipment	76
Other assets	13
Assets acquired	476
Accounts payable and accrued expenses	55
Other liabilities	85
Liabilities assumed	140
	\$336

The goodwill, which is not deductible for tax purposes, reflects the Company-specific synergies arising from the acquisition. Intangible assets primarily consist of trade names and broadcast licenses with a useful life of 15 years. The operating results of Telefe in the current and prior year are not material.

In October 2016, we issued a total of \$1.3 billion of senior notes as follows:

• \$400 million in aggregate principal amount of 2.250% senior notes due 2022 at a price equal to 99.692% of the principal amount (the “2022 Senior Notes”); and

• \$900 million in aggregate principal amount of 3.450% senior notes due 2026 at a price equal to 99.481% of the principal amount (the “2026 Senior Notes” and, together with the 2022 Senior Notes, the “Senior Notes”).

The proceeds, net of discount and other issuance fees and expenses, from the issuance of the Senior Notes were \$1.285 billion, a portion of which was used to redeem the senior notes described below.

In November 2016, we redeemed all \$400 million of our outstanding 2.500% senior notes due December 2016 and all \$500 million of our outstanding 3.500% senior notes due April 2017 at a redemption price equal to the sum of the principal amount and a make-whole amount, together totaling \$906 million, and accrued interest of \$6 million. As a result of the redemption, we recognized a pre-tax extinguishment loss of \$6 million, recorded in Other items, net in

the Consolidated Statement of Earnings.

The total unamortized discount and issuance fees and expenses related to our senior notes and debentures was \$469 million as of December 31, 2016 and \$459 million as of September 30, 2016. The fair value of our senior notes and debentures was approximately \$12.3 billion as of December 31, 2016. The valuation of our publicly traded debt is based on quoted prices in active markets.

Credit Facility

At December 31, 2016, there were no amounts outstanding under our \$2.5 billion revolving credit facility due November 2019. The credit facility is used for general corporate purposes and to support commercial paper outstanding, if any. The credit facility has one principal financial covenant that requires our interest coverage for the most recent four consecutive fiscal quarters to be at least 3.0x, which we met as of December 31, 2016.

NOTE 5. PENSION BENEFITS

The components of net periodic benefit cost for our defined benefit pension plans, which are currently frozen to future benefit accruals, are set forth below.

	Quarter Ended December 31,

NOTE 6. REDEEMABLE NONCONTROLLING INTEREST

We are subject to a redeemable put option, payable in a foreign currency, with respect to an international subsidiary. The put option expires in December 2022 and is classified as Redeemable noncontrolling interest in the Consolidated Balance Sheets.

The activity reflected within redeemable noncontrolling interest is as follows:

	Quarter Ended December 31,	
	2016	2015
Redeemable Noncontrolling Interest (in millions)		
Beginning balance	\$211	\$219

Redemption value adjustment	—	20
Ending Balance	\$200	\$231

NOTE 7. COMMITMENTS AND CONTINGENCIES

Commitments

As more fully described in Note 11 of the 2016 Form 10-K, our commitments primarily consist of programming and talent commitments, operating and capital lease arrangements, and purchase obligations for goods and services. These arrangements result from our normal course of business and represent obligations that may be payable over several years.

Contingencies

We have certain indemnification obligations with respect to leases primarily associated with the previously discontinued operations of Famous Players Inc. (“Famous Players”). In addition, we have certain indemnities provided by the acquirer of Famous Players. These lease commitments amounted to approximately \$214 million as of

December 31, 2016. The amount of lease commitments varies over time depending on expiration or termination of individual underlying leases, or of the related indemnification obligation, and foreign exchange rates, among other things. We may also have exposure for certain other expenses related to the leases, such as property taxes and common area maintenance. We have recorded a liability of \$190 million with respect to such obligations as of December 31, 2016. We believe our accrual is sufficient to meet any future obligations based on our consideration of available financial information, the lessees' historical performance in meeting their lease obligations and the underlying economic factors impacting the lessees' business models.

Legal Matters

Litigation is inherently uncertain and always difficult to predict. However, based on our understanding and evaluation of the relevant facts and circumstances, we believe that the legal matters described below and other litigation to which we are a party are not likely, in the aggregate, to have a material adverse effect on our results of operations, financial position or operating cash flows.

Purported Class and Derivative Actions

Between June 17, 2016 and August 1, 2016, three substantially similar purported class action complaints were filed in the Delaware Chancery Court by purported Viacom stockholders, against Viacom and Viacom's directors at the time, as well as National Amusements, Inc. and NAI Entertainment Holdings LLC (together, "NAI"), and were subsequently consolidated into one action. The action - brought on behalf of the class of all holders of Viacom Class B common stock except the named defendants and any person or entity affiliated with any of the defendants - alleges claims for breaches of fiduciary duty against the incumbent director defendants and NAI, and alleges that the Viacom directors who joined the Board of Directors subsequent to the filing of the actions aided and abetted these breaches. In addition to damages and attorneys' fees, the action seeks "such relief as the Court deems just and proper." All defendants, including Viacom and certain of its directors, have moved to dismiss the action. The plaintiffs filed an amended consolidated complaint in November 2016, and we have again moved to dismiss the action.

On July 20, 2016, a purported derivative action was commenced in the Delaware Chancery Court by a purported Viacom stockholder against Viacom and its directors. The complaint alleges that Viacom's directors breached their fiduciary duties to Viacom in connection with compensation paid to Mr. Redstone. These breaches, it is alleged, permitted a waste of corporate assets and the unjust enrichment of Mr. Redstone. We have moved to dismiss the action.

NOTE 8. STOCKHOLDERS' EQUITY

NOTE 9. RESTRUCTURING

During the quarter ended December 31, 2016, we recognized a restructuring charge of \$42 million for severance, including \$7 million of equity-based compensation expense, associated with management changes in connection with ongoing strategic initiatives.

Our restructuring liability by reporting segment is as follows:

Severance payments include \$46 million paid from proceeds in grantor trusts established to facilitate the administration of payments to certain former senior executives. As of December 31, 2016, of the remaining \$110 million liability, \$67 million is classified as a current liability in the Consolidated Balance Sheets, with the remaining \$43 million classified as a noncurrent liability. Amounts classified as noncurrent are expected to be paid through 2019, in accordance with applicable contractual terms.

NOTE 10. EARNINGS PER SHARE

Basic earnings per common share is computed by dividing Net earnings attributable to Viacom by the weighted average number of common shares outstanding during the period. The determination of diluted earnings per common share includes the weighted average number of common shares plus the dilutive effect of equity awards based upon the application of the treasury stock method. Anti-dilutive common shares were excluded from the calculation of diluted earnings per common share.

The following table sets forth the weighted average number of common shares outstanding used in determining basic and diluted earnings per common share and anti-dilutive common shares:

Weighted Average Number of Common Shares Outstanding and Anti-dilutive Common Shares (in millions)	Quarter Ended December 31,	
	2016	2015
Weighted average number of common shares outstanding, basic	397.0	396.6
Dilutive effect of equity awards	0.9	1.8
Weighted average number of common shares outstanding, diluted	397.9	398.4
Anti-dilutive common shares	15.6	12.7

NOTE 11. SUPPLEMENTAL CASH FLOW AND OTHER INFORMATION

Our supplemental cash flow information is as follows:

Supplemental Cash Flow Information (in millions)	Quarter Ended December 31,	
	2016	2015
Cash paid for interest	\$ 150	\$ 157
Cash paid for income taxes	\$ 38	\$ 65

Accounts Receivable

We had \$506 million and \$547 million of noncurrent trade receivables as of December 31, 2016 and September 30, 2016, respectively. Accounts receivables are principally related to long-term television license arrangements at Filmed Entertainment and subscription video-on-demand and other over-the-top arrangements at Media Networks. These amounts are included within Other assets - noncurrent in our Consolidated Balance Sheets. Such amounts are due in accordance with the underlying terms of the respective agreements with companies that are investment grade or with which we have historically done business under similar terms. We have determined that credit loss allowances are generally not considered necessary for these amounts.

Variable Interest Entities

In the normal course of business, we enter into joint ventures or make investments with business partners that support our underlying business strategy and provide us the ability to enter new markets to expand the reach of our brands, develop new programming and/or distribute our existing content. In certain instances, an entity in which we make an

investment may qualify as a variable interest entity (“VIE”). In determining whether we are the primary beneficiary of a VIE, we assess whether we have the power to direct matters that most significantly impact the activities of the VIE and have the obligation to absorb losses or the right to receive benefits from the VIE that could potentially be significant to the VIE.

Our Consolidated Balance Sheets include amounts related to consolidated VIEs totaling \$201 million in assets and \$58 million in liabilities as of December 31, 2016, and \$190 million in assets and \$57 million in liabilities as of September 30, 2016. The consolidated VIEs’ revenues, expenses and operating income were not significant for all periods presented.

Income Taxes

Our effective income tax rate was 27.9% in the quarter ended December 31, 2016, which included a net discrete tax benefit of \$15 million that, when taken together with the tax impact of the restructuring charge and debt extinguishment loss, reduced the effective income tax rate by 2.9 percentage points. The net discrete tax benefit was principally related to the reversal of a valuation allowance on net operating losses upon receipt of a favorable tax authority ruling.

Our effective income tax rate was 35.7% in the quarter ended December 31, 2015, which included a net discrete tax expense of \$21 million that contributed 2.9 percentage points to the effective income tax rate. The net discrete tax expense was principally related to a reduction in qualified production activity tax benefits as a result of retroactively reenacted legislation.

NOTE 12. FAIR VALUE MEASUREMENTS

The following table summarizes our financial assets and liabilities measured and recorded at fair value on a recurring basis as of December 31, 2016 and September 30, 2016:

Financial Asset/(Liability) (in millions)	Total	Quoted	Significant	Significant
		Prices In Active Markets for Identical Assets	Other Observable Inputs	Unobservable Inputs
		Level 1	Level 2	Level 3
December 31, 2016

Marketable securities	\$ 114	\$ 114	\$ —	\$ —
Derivatives	(13)	—	(13)	—
Total	\$ 101	\$ 114	\$ (13)	\$ —

The fair value for marketable securities is determined utilizing a market approach based on quoted market prices in active markets at period end and the fair value for derivatives is determined utilizing a market-based approach. The notional value of all foreign exchange contracts was \$932 million and \$1.149 billion as of December 31, 2016 and September 30, 2016, respectively. At December 31, 2016, \$605 million related to our foreign currency balances and \$327 million related to future production costs. At September 30, 2016, \$874 million related to our foreign currency balances and \$275 million related to future production costs.

NOTE 13. REPORTING SEGMENTS

The following tables set forth our financial performance by reporting segment. Our reporting segments have been determined in accordance with our internal management structure. We manage our operations through two reporting segments: (i) Media Networks and (ii) Filmed Entertainment. Typical intersegment transactions include the purchase of advertising by the Filmed Entertainment segment on Media Networks' properties and the purchase of Filmed Entertainment's feature films and television programming exhibition rights by Media Networks. The elimination of such intercompany transactions in the Consolidated Financial Statements is included within eliminations in the tables below.

Our measure of segment performance is adjusted operating income. Adjusted operating income is defined as operating income, before equity-based compensation and certain other items identified as affecting comparability, when applicable.

NOTE 14. RELATED PARTY TRANSACTIONS

National Amusements, directly and indirectly, is the controlling stockholder of both Viacom and CBS Corporation (“CBS”). National Amusements owns shares in Viacom representing approximately 79.8% of the voting interest in Viacom and approximately 10% of Viacom’s combined common stock. National Amusements is controlled by Sumner M. Redstone, our Chairman Emeritus, who is the Chairman and Chief Executive Officer of National Amusements, through the Sumner M. Redstone National Amusements Trust (the “SMR Trust”), which owns shares in National Amusements representing 80% of the voting interest of National Amusements. The shares representing the other 20% of the voting interest of National Amusements are held through a trust controlled by Shari E. Redstone, who is Mr. Redstone’s daughter and the non-executive Vice Chair of Viacom’s Board of Directors and the President and a member of the Board of Directors of National Amusements. The shares of National Amusements held by the SMR Trust are voted solely by Mr. Redstone until such time as his incapacity or death. Upon Mr. Redstone’s incapacity or death, (1)

Ms. Redstone will also become a trustee of the SMR Trust and (2) the shares of National Amusements held by the SMR Trust will be voted by the trustees of the SMR Trust. The current trustees include Mr. Redstone and David R. Andelman, a member of the boards of directors of National Amusements and CBS. The current Board of Directors of National Amusements includes Mr. Redstone, Ms. Redstone and Mr. Andelman. In addition, Mr. Redstone serves as Chairman Emeritus of CBS and Ms. Redstone serves as non-executive Vice Chair of CBS. Transactions between Viacom and related parties are overseen by our Governance and Nominating Committee.

On December 12, 2016, our Board of Directors announced that it had discontinued the exploration of a potential combination of Viacom and CBS following receipt of a related letter and request from National Amusements, and that it had dissolved the Special Committee that was formed to evaluate a potential transaction.

Viacom and National Amusements Related Party Transactions

National Amusements licenses films in the ordinary course of business for its motion picture theaters from all major studios, including Paramount. During the quarters ended December 31, 2016 and 2015, Paramount earned revenues from National Amusements in connection with these licenses in the aggregate amounts of approximately \$2 million and \$1 million, respectively.

Viacom and CBS Corporation Related Party Transactions

In the ordinary course of business, we are involved in transactions with CBS and its various businesses that result in the recognition of revenues and expenses by us. Transactions with CBS are settled in cash.

Our Filmed Entertainment segment earns revenues and recognizes expenses associated with its distribution of certain television products into the home entertainment market on behalf of CBS. Pursuant to its agreement with CBS, Paramount distributes CBS's library of television and other content on DVD and Blu-ray disc on a worldwide basis. Under the terms of the agreement, Paramount is entitled to retain a fee based on a percentage of gross receipts and is generally responsible for all out-of-pocket costs, which are recoupable prior to any participation amounts paid. Paramount also earns revenues from CBS through leasing of studio space and licensing of certain film products. Our Media Networks segment recognizes advertising revenues and purchases television programming from CBS. The cost of the programming purchases is initially recorded as acquired program rights inventory and amortized over the estimated period that revenues will be generated.

Both of our segments recognize advertising expenses related to the placement of advertisements with CBS.

The following table summarizes the transactions with CBS as included in our Consolidated Financial Statements:

Other Related Party Transactions

In the ordinary course of business, we are involved in related party transactions with equity investees. These related party transactions primarily relate to the provision of advertising services, licensing of film and programming content, distribution of films and provision of certain administrative support services, for which the impact on our Consolidated Financial Statements is as follows:

Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition.

Management's discussion and analysis of results of operations and financial condition is provided as a supplement to and should be read in conjunction with the unaudited consolidated financial statements and related notes to enhance the understanding of our results of operations, financial condition and cash flows. Additional context can also be found in our Form 10-K for the fiscal year ended September 30, 2016, as filed with the Securities and Exchange Commission ("SEC") on November 9, 2016 (the "2016 Form 10-K"). References in this document to "Viacom," "Company," "we," "us" and "our" mean Viacom Inc. and our consolidated subsidiaries, unless the context requires otherwise. Significant components of management's discussion and analysis of results of operations and financial condition include:

Overview: The overview section provides a summary of our business.

Results of Operations: The results of operations section provides an analysis of our results on a consolidated and reportable segment basis for the quarter ended December 31, 2016, compared with the quarter ended December 31, 2015. In addition, we provide a discussion of items that affect the comparability of our results of operations.

Liquidity and Capital Resources: The liquidity and capital resources section provides a discussion of our cash flows for the quarter ended December 31, 2016, compared with the quarter ended December 31, 2015, and of our outstanding debt, commitments and contingencies existing as of December 31, 2016.

OVERVIEW

Summary

We are home to premier global media brands that create compelling television programs, motion pictures, short-form content, applications ("apps"), games, consumer products, social media experiences and other entertainment content for audiences in more than 180 countries. Our media networks, including Nickelodeon®, COMEDY CENTRAL®, MTV®, VH1®, SPIKE®, BET®, CMT®, TV Land®, Nick at Nite®, Nick Jr.®, Logo®, Nicktoons®, TeenNick®, Channel 5® (United Kingdom), Telefe™ (Argentina) and Paramount Channel™, reach 510 million households worldwide. Viacom Media Networks also operates branded experiences including channels on streaming services and social media platforms such as DIRECTV NOW and Snapchat Discover. Paramount Pictures® is a major global producer and distributor of filmed entertainment. Paramount Television™ develops, finances and produces programming for television and other platforms.

We operate through two reporting segments: Media Networks and Filmed Entertainment. Our measure of segment performance is adjusted operating income. We define adjusted operating income for our segments as operating income, before equity-based compensation and certain other items identified as affecting comparability, when applicable. Equity-based compensation is excluded from our segment measure of performance since it is set and approved by the Compensation Committee of Viacom's Board of Directors in consultation with corporate executive management, and is included as a component of consolidated adjusted operating income.

Media Networks

Our Media Networks segment generates revenues in three categories: (i) the sale of advertising and marketing services, (ii) affiliate fees from distributors of our programming and program services, such as cable television operators, direct-to-home satellite television operators, Internet distributors, mobile networks and subscription video-on-demand ("SVOD") and other over-the-top ("OTT") services, and (iii) ancillary revenues. Ancillary revenues are principally derived from consumer products, which includes licensing our brands and intellectual property, creation and publishing of interactive games across various platforms (including mobile, PC, and console) and recreation experiences, viewing of our programming through download-to-own and download-to-rent services and the sale of DVDs and Blu-ray discs, and television syndication.

Media Networks segment expenses consist of operating expenses, selling, general and administrative ("SG&A") expenses and depreciation and amortization. Operating expenses are comprised of costs related to original and acquired programming, including programming amortization, expenses associated with the distribution of home entertainment products and consumer products licensing, participations and residuals, integrated marketing expenses and other costs of sales. SG&A expenses consist primarily of employee compensation, marketing, research and professional service fees and facility and occupancy costs. Depreciation and amortization expenses reflect depreciation of fixed assets, including transponders financed under capital leases, and amortization of finite-lived intangible assets.

Filmed Entertainment

Our Filmed Entertainment segment generates revenues principally from: (i) the worldwide theatrical release and/or distribution of motion pictures, (ii) home entertainment, which includes the worldwide sales and distribution of DVDs and Blu-ray discs relating to the motion pictures released theatrically by Paramount and programming of other Viacom brands such as

Table of ContentsManagement's Discussion and Analysis

(continued)

Nickelodeon, MTV, Comedy Central and BET, as well as certain acquired films and content distributed on behalf of third parties such as CBS, the viewing of our films through transactional video-on-demand and download-to-own services, for a fee and/or on a revenue sharing basis, (iii) licensing of film and television programs produced, acquired and/or distributed by Paramount that are licensed on a territory by territory basis, for a fee or on a revenue sharing basis, to SVOD, pay and basic cable television, free television and free video-on-demand services and (iv) ancillary revenues from providing production and facilities services to third parties, primarily at Paramount's studio lot, licensing its brands for consumer products, themed restaurants, hotels and resorts, live stage plays, film clips and theme parks, and sale of film rights.

Filmed Entertainment segment expenses consist of operating expenses, SG&A expenses and depreciation and amortization. Operating expenses principally include the amortization of costs of our released feature films and television programming (including participations and residuals), print and advertising expenses and other distribution costs. We incur marketing costs before and throughout the theatrical release of a film and, to a lesser extent, other distribution windows. Such costs are incurred to generate public interest in our films and are expensed as incurred; therefore, we typically incur losses with respect to a particular film prior to and during the film's theatrical exhibition and profitability may not be realized until well after a film's theatrical release. Therefore, the results of the Filmed Entertainment segment can be volatile as films work their way through the various distribution windows. SG&A expenses include employee compensation, facility and occupancy costs, professional service fees and other overhead costs. Depreciation and amortization expense principally consists of depreciation of fixed assets.

* See "Factors Affecting Comparability" section below for a reconciliation of our reported results to our adjusted results, which are calculated on a non-GAAP basis.

Factors Affecting Comparability

The Consolidated Financial Statements reflect our results of operations, financial position and cash flows reported in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Our results have been affected by certain items identified as affecting comparability. Accordingly, when applicable, we use non-GAAP measures such as consolidated adjusted operating income, adjusted earnings before provision for income taxes,

adjusted provision for income taxes, adjusted net earnings attributable to Viacom and adjusted diluted earnings per share (“EPS”), among other measures, to evaluate our actual operating performance and for planning and forecasting of future periods. We believe that the adjusted results provide relevant and useful information for investors because they clarify our actual operating performance, make it easier to compare our results with those of other companies and allow investors to review performance in the same way as our management. Since these are not measures of performance calculated in accordance with GAAP, they should not be considered in isolation of, or as a substitute for, operating income, earnings before provision for income taxes, provision for income taxes, net earnings attributable to Viacom and diluted EPS as indicators of operating performance and they may not be comparable to similarly titled measures employed by other companies.

Adjusted results (Non-GAAP)	\$839	\$ 717	\$ 235	\$ 470	\$ 1.18

Restructuring charge: We recognized a pre-tax restructuring charge of \$42 million for severance associated with management changes in connection with ongoing strategic initiatives. As we continue to evaluate our strategic initiatives, we may incur additional restructuring charges in the second fiscal quarter.

Loss on extinguishment of debt: In November 2016, we redeemed all \$400 million of our outstanding 2.500% senior notes due December 2016 and all \$500 million of our outstanding 3.500% senior notes due April 2017 at a redemption price equal to the sum of the principal amount and a make-whole amount, together totaling \$906 million, and accrued interest of \$6 million. As a result, we recognized a pre-tax extinguishment loss of \$6 million.

Discrete taxes: The net discrete tax benefit in the quarter ended December 31, 2016 was principally related to the reversal of a valuation allowance on net operating losses upon receipt of a favorable tax authority ruling. The net discrete tax expense in the quarter ended December 31, 2015 was principally related to a reduction in qualified production activity tax benefits as a result of retroactively reenacted legislation.

Revenues

Worldwide revenues increased \$170 million, or 5%, to \$3.324 billion in the quarter ended December 31, 2016. Filmed Entertainment revenues increased \$146 million, or 24%, primarily reflecting higher theatrical and ancillary revenues. Media Networks revenues increased \$24 million, or 1%, principally reflecting higher affiliate and ancillary revenues, partially offset by lower advertising revenues.

Expenses

Total expenses increased \$303 million, or 13%, to \$2.618 billion in the quarter ended December 31, 2016, reflecting higher segment expenses and the \$42 million restructuring charge. Filmed Entertainment expenses increased \$180 million, or 24%, driven by higher operating expenses and Media Networks expenses increased \$94 million, or 6%, driven by higher SG&A and operating expenses.

Operating

Operating expenses increased \$226 million, or 14%, to \$1.819 billion in the quarter. Filmed Entertainment operating expenses increased \$184 million, or 28%, and Media Networks operating expenses increased \$45 million, or 5%.

Table of Contents

Management's Discussion and Analysis
of Results of Operations and Financial Condition
(continued)

Selling, General and Administrative

SG&A expenses increased \$34 million, or 5%, to \$701 million in the quarter, primarily driven by an increase in Media Networks SG&A expenses of \$47 million, or 9%.

Operating Income

Operating income decreased \$133 million, or 16%, to \$706 million in the quarter ended December 31, 2016, reflecting the operating results discussed above. Excluding the items discussed in "Factors Affecting Comparability", adjusted operating income decreased \$91 million, or 11%, to \$748 million. Media Networks adjusted operating income decreased \$70 million, or 7%, reflecting higher expenses that more than offset revenue gains. Filmed Entertainment adjusted operating results decreased \$34 million, or 23%, principally reflecting higher print and advertising expenses associated with our fiscal 2017 theatrical releases.

Income Taxes

Our effective income tax rate was 27.9% in the quarter ended December 31, 2016. The net discrete tax benefit of \$15 million, taken together with the impact of the other factors affecting comparability discussed above, reduced the effective income tax rate by 2.9 percentage points. Excluding the impact of these items, our adjusted effective income tax rate was 30.8%, a decline of 2 percentage points from the prior year quarter primarily driven by the change in the mix of domestic and international income.

Our effective income tax rate was 35.7% in the quarter ended December 31, 2015. The net discrete tax expense of \$21 million contributed 2.9 percentage points to the effective income tax rate in the quarter. Excluding the impact of the net discrete tax expense, our adjusted effective income tax rate was 32.8%.

Net Earnings Attributable to Viacom

Net earnings attributable to Viacom decreased \$53 million, or 12%, to \$396 million in the quarter, principally due to the decline in tax-effected operating income described above and a decline in equity in net earnings of investee companies. Excluding the items discussed in "Factors Affecting Comparability", adjusted net earnings attributable to Viacom decreased \$57 million, or 12%, to \$413 million.

Diluted Earnings Per Share

Diluted EPS decreased \$0.13 per diluted share to \$1.00 in the quarter, reflecting the impact of net earnings. Excluding the items discussed in "Factors Affecting Comparability", adjusted diluted EPS decreased \$0.14 per diluted share to \$1.04.

Segment Results of Operations

Transactions between reportable segments are accounted for as third-party arrangements for the purposes of presenting segment results of operations. Typical intersegment transactions include the purchase of advertising by the Filmed Entertainment segment on Media Networks' properties and the purchase of Filmed Entertainment's feature films and television programming exhibition rights by Media Networks.

Excluding foreign exchange, which had a 2-percentage point unfavorable impact, worldwide revenues increased 3%, including a 1-percentage point favorable impact from the acquisition of Televisión Federal S.A. ("Telefe"). Domestic revenues were substantially flat at \$2.055 billion and international revenues increased \$26 million, or 5%, to \$534 million. Excluding foreign exchange, which had a 13-percentage point unfavorable impact, international revenues increased 18%, driven by growth in Europe and the acquisition of Telefe, which had an 8-percentage point favorable impact on international revenues.

Advertising

Worldwide advertising revenues decreased \$26 million, or 2%, to \$1.294 billion in the quarter. Excluding foreign exchange, which had a 3-percentage point unfavorable impact, worldwide advertising revenues increased 1%, including a 2-percentage point favorable impact from the acquisition of Telefe. Domestic advertising revenues decreased \$30 million, or 3%, to \$991 million. While pricing increased, softer ratings at certain of our networks contributed to lower audience delivery, reducing impressions and associated revenue. International advertising revenues increased \$4 million, or 1%, to \$303 million. Excluding foreign exchange, which had a 15-percentage point unfavorable impact, international advertising revenues increased 16%, driven by the acquisition of Telefe, which had a 10-percentage point favorable impact on international revenues, and growth in Europe.

Affiliate

Worldwide affiliate revenues increased \$25 million, or 2%, to \$1.144 billion in the quarter. Excluding foreign exchange, which had a 2-percentage point unfavorable impact, worldwide affiliate revenues increased 4%. Domestic affiliate revenues increased \$21 million, or 2%, to \$985 million, principally reflecting rate increases and the impact of SVOD and other OTT agreements, partially offset by a modest decline in subscribers and the impact of rate equalization due to the consolidation of a major distribution agreement. Excluding the impact from the timing of product available under SVOD and other OTT agreements, domestic affiliate revenues were substantially flat. International affiliate revenues increased \$4 million, or 3%, to \$159 million. Excluding foreign exchange, which had a 9-percentage point unfavorable impact, international affiliate revenues increased 12%, which reflects the impact of rate increases, subscriber growth and new channel launches, as well as higher revenues from SVOD and other OTT agreements.

Ancillary

Worldwide ancillary revenue increased \$25 million, or 20%, to \$151 million in the quarter. Excluding foreign exchange, which had a 4-percentage point unfavorable impact, worldwide ancillary revenues increased 24%, including a 4-percentage point favorable impact from the acquisition of Telefe. Domestic ancillary revenues increased \$7 million, or 10%, to \$79 million, principally driven by higher home video sales. International ancillary revenues increased \$18 million, or 33%, to \$72 million. Excluding foreign exchange, which had a 10-percentage point unfavorable impact, international ancillary revenues increased 43%, principally driven by higher consumer product revenue and the acquisition of Telefe, which had a 10-percentage point favorable impact on international ancillary revenues.

Expenses

Media Networks segment expenses increased \$94 million, or 6%, to \$1.602 billion in the quarter. Excluding foreign exchange, which had a 3-percentage point favorable impact, worldwide expenses increased 9%, including an unfavorable 2-percentage point impact from the acquisition of Telefe.

Operating

Operating expenses increased \$45 million, or 5%, to \$1.002 billion in the quarter, driven by higher programming costs of \$48 million, or 6%, primarily reflecting our continuing investment in original content. Distribution and other expenses declined \$3 million, or 3%.

Selling, General and Administrative

SG&A expenses increased \$47 million, or 9%, to \$557 million in the quarter, principally driven by an increase in incentive compensation costs. We anticipate SG&A expenses will be higher in the second quarter due to costs associated with the integration of Telefe.

Adjusted Operating Income

Adjusted operating income decreased \$70 million, or 7%, to \$987 million in the quarter, reflecting the operating results discussed above and foreign exchange, which had a 2-percentage point unfavorable impact.

Revenues

Worldwide revenues increased \$146 million, or 24%, to \$758 million in the quarter ended December 31, 2016. Domestic revenues increased 50% to \$465 million. International revenues decreased 3% to \$293 million, driven by the unfavorable impact of foreign exchange.

Theatrical

Worldwide theatrical revenues increased \$98 million, or 104%, to \$192 million in the quarter due to higher revenues from our current year releases. Significant current quarter releases were Jack Reacher: Never Go Back, Arrival, Allied, Office Christmas Party and Fences, compared with Daddy's Home, Paranormal Activity: The Ghost Dimension and The Big Short in the prior year quarter. Domestic theatrical revenues increased 128% and international theatrical revenues increased 73%. Foreign exchange had a 3-percentage point unfavorable impact on international theatrical revenues.

Home Entertainment

Worldwide home entertainment revenues increased \$4 million, or 2%, to \$243 million in the quarter. Significant current quarter releases were Star Trek Beyond, Ben-Hur and Florence Foster Jenkins, while the prior year quarter included Mission: Impossible - Rogue Nation and Terminator: Genisys. Domestic home entertainment revenues increased 12% on strong holiday sales, while international home entertainment revenues decreased 14%. Foreign exchange had a 6-percentage point unfavorable impact on international home entertainment revenues.

Licensing

Licensing revenues increased \$8 million, or 3%, to \$245 million in the quarter. Domestic licensing revenues increased 41%, primarily driven by the release of television product, while international licensing revenues decreased 17%.

Ancillary

Ancillary revenues increased \$36 million, or 86%, to \$78 million in the quarter. Domestic ancillary revenues increased 109%, driven by the sale of a partial copyright interest in certain films released in the quarter in connection with a slate financing arrangement. International ancillary revenues increased 10%.

Expenses

Total expenses increased \$180 million, or 24%, to \$938 million in the quarter, driven by higher operating expenses.

Operating

Operating expenses increased \$184 million, or 28%, to \$847 million in the quarter. Distribution and other costs, principally print and advertising expenses, increased \$151 million, or 47%, primarily driven by higher marketing costs for our current year slate. Film costs increased \$33 million, or 10%, driven by higher television production costs.

Selling, General and Administrative

SG&A expenses decreased \$3 million, or 4%, to \$79 million in the quarter.

Adjusted Operating Loss

Adjusted operating loss was \$180 million in the quarter compared with \$146 million for the prior year quarter. The decline of \$34 million in operating results principally reflects higher print and advertising expenses associated with our fiscal 2017 theatrical releases. Operating losses reflect the recognition of print and advertising expenses incurred in the period, generally before and throughout the theatrical release of a film, while revenues for the respective films are recognized as earned through its theatrical exhibition and subsequent distribution windows.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity

Sources and Uses of Cash

Our primary source of liquidity is cash provided through the operations of our businesses. We have access to external financing sources such as our \$2.5 billion five-year revolving credit facility and the capital markets. Our principal uses of cash from operations include the creation of new programming and film content, acquisitions of third-party content, and interest and income tax payments. We also use cash for the repayment of debt, quarterly cash dividends, capital expenditures and acquisitions of businesses, as well as discretionary share repurchases under our stock repurchase program, as deemed appropriate.

We believe that our cash flows from operating activities together with our credit facility provide us with adequate resources to fund our anticipated ongoing cash requirements. We anticipate that future debt maturities will be funded with cash and cash equivalents, cash flows from operating activities and future access to capital markets, including our credit facility.

We may continue to access external financing from time to time depending on our cash requirements, assessments of current and anticipated market conditions and after-tax cost of capital. Our access to capital markets can be impacted by factors outside our control, including economic conditions; however, we believe that our strong cash flows and balance sheet, our credit facility and our credit rating will provide us with adequate access to funding given our expected cash needs. Any new borrowing cost would be affected by market conditions and short and long-term debt ratings assigned by independent rating agencies, and there can be no assurance that we will be able to access capital markets on terms and conditions that will be favorable to us.

In December 2016, we entered into a three-year strategic agreement with Shanghai Film Group and Huahua Media. As part of the agreement, Shanghai Film Group and Huahua Media will co-finance approximately twenty-five percent of Paramount's slate of films for a three-year period, with an option for an additional year.

Cash Flows

Cash and cash equivalents were \$443 million as of December 31, 2016, an increase of \$64 million compared with September 30, 2016.

The following tables include information driving the change in cash and cash equivalents and a reconciliation of net cash provided by/(used in) operating activities (GAAP) to free cash flow and operating free cash flow (non-GAAP). We define free cash flow as net cash provided by/(used in) operating activities minus capital expenditures, plus excess tax benefits from equity-based compensation awards (actual tax deductions in excess of amounts previously recognized, which is included within financing activities in the statement of cash flows), as applicable. We define operating free cash flow as free cash flow, excluding the impact of the cash premium on the extinguishment of debt, as applicable. Free cash flow and operating free cash flow are non-GAAP measures. Management believes the use of this measure provides investors with an important perspective on, in the case of free cash flow, our liquidity, including our ability to service debt and make investments in our businesses, and, in the case of operating free cash flow, our liquidity from ongoing activities.

Operating Activities

Cash provided by operating activities improved \$285 million for the quarter ended December 31, 2016, primarily reflecting the timing of film and programming spend.

Investing Activities

Cash used in investing activities increased \$293 million for the quarter ended December 31, 2016, principally driven by the acquisition of Telefe for \$336 million, net of cash acquired, in the current quarter.

Financing Activities

Cash provided by financing activities increased \$282 million for the quarter ended December 31, 2016, primarily driven by debt transactions totaling \$95 million and lower dividend payments of \$80 million. In addition, we did not repurchase stock in the current quarter compared with stock repurchase payments of \$100 million in the prior year quarter.

Capital Resources

Capital Structure and Debt

Total debt was \$12.300 billion as of December 31, 2016, an increase of \$387 million from \$11.913 billion at September 30, 2016.

In October 2016, we issued a total of \$1.3 billion of senior notes as follows:

\$400 million in aggregate principal amount of 2.250% senior notes due 2022 at a price equal to 99.692% of the principal amount (the “2022 Senior Notes”); and

\$900 million in aggregate principal amount of 3.450% senior notes due 2026 at a price equal to 99.481% of the principal amount (the "2026 Senior Notes" and, together with the 2022 Senior Notes, the "Senior Notes").

The proceeds, net of discount and other issuance fees and expenses, from the issuance of the Senior Notes were \$1.285 billion, a portion of which was used to redeem the senior notes described below.

In November 2016, we redeemed all \$400 million of our outstanding 2.500% senior notes due December 2016 and all \$500 million of our outstanding 3.500% senior notes due April 2017 at a redemption price equal to the sum of the principal amount and a make-whole amount, together totaling \$906 million, and accrued interest of \$6 million. As a result of the redemption, we recognized a pre-tax extinguishment loss of \$6 million.

Credit Facility

At December 31, 2016, there were no amounts outstanding under our credit facility. The credit facility is used for general corporate purposes and to support commercial paper outstanding, if any. The credit facility has one principal financial covenant that requires our interest coverage for the most recent four consecutive fiscal quarters to be at least 3.0x, which we met as of December 31, 2016.

Commitments and Contingencies

Legal Matters

See Note 7 to the Consolidated Financial Statements for information regarding legal matters.

OTHER MATTERS

Related Parties

In the ordinary course of business we enter into transactions with related parties, including National Amusements, Inc., CBS Corporation, their respective subsidiaries and affiliates, and companies that we account for under the equity method of accounting. For additional information, see Note 14 to the Consolidated Financial Statements.

On December 12, 2016, our Board of Directors announced that it had discontinued the exploration of a potential combination of Viacom and CBS following receipt of a related letter and request from National Amusements, and that it had dissolved the Special Committee that was formed to evaluate a potential transaction.

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

This quarterly report on Form 10-Q, including "Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition," contains both historical and forward-looking statements. All statements that are not statements of historical fact are, or may be deemed to be, forward-looking statements. Forward-looking statements reflect our current expectations concerning future results, objectives, plans and goals, and involve known and unknown risks, uncertainties and other factors that are difficult to predict and which may cause future results, performance or achievements to differ. These risks, uncertainties and other factors include, among others: the effect of recent changes in management and our board of directors; the public acceptance of our brands, programs, motion pictures and other entertainment content on the various platforms on which they are distributed; the impact of inadequate audience measurement on our program ratings and advertising and affiliate revenues; technological developments and their effect in our markets and on consumer behavior; competition for content, audiences, advertising and distribution; the impact of piracy; economic fluctuations in advertising and retail markets, and economic conditions generally; fluctuations in our results due to the timing, mix, number and availability of our motion pictures and other programming; the potential for loss of carriage or other reduction in the distribution of our content; changes in the Federal communications or other laws and regulations; evolving cybersecurity and similar risks; other domestic and global economic, business, competitive and/or regulatory factors affecting our businesses generally; and other factors described below and in our news releases and filings with the Securities and Exchange Commission, including but not limited to our 2016 Form 10-K and reports on Form 10-Q and Form 8-K. The forward-looking statements included in this document are made only as of the date of this document, and we do not

have any obligation to publicly update any forward-looking statements to reflect subsequent events or circumstances.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

We are exposed to the impact of interest rate changes, foreign currency fluctuations and changes in the market value of investments. In the ordinary course of business, we may employ established and prudent policies and procedures to manage our exposure principally to changes in interest rates and foreign exchange risks. The objective of such policies and procedures is to

manage exposure to market risks in order to minimize the impact on earnings and cash flows. We do not hold or enter into financial instruments for speculative trading purposes.

Item 4. Controls and Procedures.

Our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) of the Securities Exchange Act of 1934, as amended (“Exchange Act”)) were effective, based on the evaluation of these controls and procedures required by Rule 13a-15(b) or 15d-15(b) of the Exchange Act.

There were no changes in our internal control over financial reporting during the quarter ended December 31, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
