DHI GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of DHI Group, Inc. (“DHI” or the “Company”) have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and disclosures normally included in annual audited consolidated financial statements prepared in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”) have been omitted and condensed pursuant to such rules and regulations. In the opinion of the Company’s management, all adjustments (consisting of only normal and recurring accruals) have been made to present fairly the financial position, results of operations and cash flows of the Company for the periods presented. Although the Company believes that the disclosures are adequate to make the information presented not misleading, these financial statements should be read in conjunction with the Company’s audited consolidated financial statements as of and for the year ended December 31, 2015 included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2015 (the “Annual Report on Form 10-K”). Operating results for the nine month period ended September 30, 2016 are not necessarily indicative of the results to be achieved for the full year.

Preparation of the condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenue and expenses during the period. Management believes the most complex and sensitive judgments, because of their significance to the condensed consolidated financial statements, result primarily from the need to make estimates about the effects of matters that are inherently uncertain. Actual results could differ materially from management’s estimates reported in the condensed consolidated financial statements and footnotes thereto. There have been no significant changes in the Company’s assumptions regarding critical accounting estimates during the nine month period ended September 30, 2016, except as disclosed in Notes 4, 5 and 12 relating to intangible assets and goodwill impairment at the Energy reporting unit within the Global Industry Group segment.

2. NEW ACCOUNTING STANDARDS

Accounting Standards Update (ASU) No. 2015-03, Simplifying the Presentation of Debt Issuance Costs, requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability. The Company adopted the standard during the period ended March 31, 2016 and has retrospectively applied the provisions to all prior periods presented. The Company reclassified the December 31, 2015 balance of \$1.6 million of debt issuance costs from Deferred financing costs to Long-term debt, net on the Condensed Consolidated Balance Sheets.

In August 2015, the FASB issued ASU No. 2015-14, Revenue from Contracts with Customers. The new standard outlines the principles an entity must apply to measure and recognize revenue and the related cash flows it expects to be entitled for the transfer of promised goods or services to customers. The updated standard will replace most existing revenue recognition guidance in U.S. GAAP. The updated standard becomes effective for reporting periods (interim and annual) beginning after December 15, 2017, with no early adoption permitted. The new standard can be applied retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of the change recognized at the date of the initial application. The Company is currently evaluating the impact on its various revenue streams and is continuing to evaluate the potential impact on its consolidated financial statements and has not yet selected a transition method.

In March 2016, the Financial Accounting Standards Board (the “FASB”) issued ASU No. 2016-09, Improvements to Employee Share-Based Payment Accounting. The new standard will require all income tax effects of awards to be recognized in the income statement when the awards vest or are settled. It also will allow an employer to repurchase more of an employee’s shares than it can currently for tax withholding purposes without triggering liability accounting and to make a policy election to account for forfeitures as they occur. The updated standard becomes effective for

fiscal years beginning after December 15, 2016 and interim periods the following year, with early adoption permitted. Amendments requiring recognition of excess tax benefits and tax deficiencies in the income statement should be applied prospectively. Amendments related to the timing of when excess tax benefits are recognized, minimum statutory withholding requirements and forfeitures should be applied using a modified retrospective transition method. Amendments related to the presentation of employee taxes paid on the statement of cash flows when an employer withholds shares to meet the minimum statutory withholding requirement should be applied retrospectively. An entity may elect to apply the amendments related to the presentation of excess tax benefits on the statement of cash flows using either a prospective transition method or a retrospective transition method. The Company is determining the expected impact of this standard on its financial statements.

Table of Contents

DHI GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

In February 2016, the FASB issued ASU No. 2016-02, Leases. The new standard has requirements on how to account for leases by both the lessee and the lessor and adds clarification for what constitutes a lease, among other items. The updated standard becomes effective for fiscal years beginning after December 15, 2018 and interim periods the following year, with early adoption permitted. The new standard must be applied using a modified retrospective transition. The Company is determining the expected impact of this standard on its financial statements.

3. SALE OF SLASHDOT MEDIA

The Company sold the Slashdot and SourceForge businesses (together referred to as “Slashdot Media”) on January 27, 2016 for \$2.8 million cash plus working capital of \$0.4 million and incurred approximately \$0.8 million of selling costs. A \$0.6 million loss on sale of business was recognized in the nine month period ended September 30, 2016. The Slashdot Media business was classified as “held for sale” as of December 31, 2015 and was shown on the Condensed Consolidated Balance Sheets under the heading of “Assets held for sale” and the liabilities were shown under “Liabilities held for sale.” Operating results through date of sale are included in the Corporate & Other segment in Segment Information, Note 12.

There was no revenue for Slashdot Media for the three month period ended September 30, 2016. Revenue was \$3.5 million for the same period in 2015 and \$0.7 million and \$11.2 million for the nine month periods ended September 30, 2016 and 2015, respectively. There was no income before incomes taxes for Slashdot Media for the three month period ended September 30, 2016 and \$0.2 million for the three month period ended September 30, 2015. There was \$2.7 million loss before incomes taxes for Slashdot Media, including loss on sale, severance, and accelerated stock based compensation, for the nine month period ended September 30, 2016 and \$0.7 million of income before taxes for the nine month period ended September 30, 2015.

4. FAIR VALUE MEASUREMENTS

The FASB ASC topic on Fair Value Measurements and Disclosures defines fair value, establishes a framework for measuring fair value and requires certain disclosures for each major asset and liability category measured at fair value on either a recurring or nonrecurring basis. As a basis for considering assumptions, a three-tier fair value hierarchy is used, which prioritizes the inputs used in measuring fair value as follows:

Level 1 – Quoted prices for identical instruments in active markets.

Level 2 – Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations, in which all significant inputs are observable in active markets.

Level 3 – Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The carrying amounts reported in the Condensed Consolidated Balance Sheets for cash, accounts receivable, accounts payable and accrued expenses and long-term debt approximate their fair values. The fair value of the long-term debt was estimated using present value techniques and market based interest rates and credit spreads.

The Company historically had obligations, to be paid in cash, related to its acquisitions if certain future operating and financial goals are met. The fair value of this contingent consideration is determined using expected cash flows and present value technique. Expected cash flows are determined using the probability weighted-average of possible outcomes that would occur should delivery of certain product enhancements occur. There is no market data available to use in valuing the contingent consideration; therefore, the Company developed its own assumptions related to the expected future delivery of product enhancements to estimate the fair value of these liabilities. A 2% discount rate is used to fair value the expected payments. The liabilities for the contingent consideration were established at the time of acquisition and are evaluated at each reporting period.

The Company made the final cash payment of \$3.8 million of acquisition related contingencies in the nine month period ended September 30, 2015 to extinguish the liability. The remaining fluctuation in the nine month period ended

September 30, 2015 was due to foreign currency exchange rate changes.

Impairment—The Company began an interim goodwill impairment test of the Energy reporting unit as of September 30, 2016 because the cash flow projections for this reporting unit decreased due to a decline in financial performance resulting from declining oil prices and the resulting decreased demand for the reporting unit's services. The interim impairment test is not complete but the Company estimates that goodwill at the Energy reporting unit with a carrying value of \$15.4 million

7

Table of Contents

DHI GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

should be written down to zero. Accordingly, the Company has recorded an impairment charge of \$15.4 million as of September 30, 2016 and is reflected as Impairment of Goodwill on the Condensed Consolidated Statements of Operations.

To arrive at the implied fair value of goodwill as of September 30, 2016, the Company performed a preliminary calculation of the fair value of all the assets and liabilities of the reporting unit as if it had been acquired in a business combination. After assigning fair value to the assets and liabilities of the reporting unit, the Company estimated the implied fair value of goodwill was zero in the quarter ended September 30, 2016. The fair value of the assets and liabilities of this reporting unit was determined by a combination of a discounted cash flow methodology and market comparable method. The goodwill balance represented a Level 3 asset measured at fair value on a nonrecurring basis subsequent to its original recognition.

As required under FASB ASC 360, Impairment or Disposal of Long-Lived Assets, an impairment loss shall be recognized only if the carrying amount of the long-lived asset is not recoverable and exceeds its fair value. The long-lived assets of the Energy reporting unit were tested for recoverability due to the downturn in the current and expected future financial performance of the reporting unit. The process will be completed in the fourth quarter but the Company estimated and recorded an impairment charge of unamortized intangible assets of \$9.3 million as of September 30, 2016. Energy is included in the Global Industry Group segment. As of September 30, 2016 unamortized intangible assets at the Energy reporting unit were zero.

5. ACQUIRED INTANGIBLE ASSETS, NET

Below is a summary of the major acquired intangible assets and the weighted-average amortization period for the acquired identifiable intangible assets (in thousands):

	As of September 30, 2016					
	Total Cost	Accumulated Amortization	Foreign Currency Translation Adjustment	Impairment	Acquired Intangible Assets, Net	Weighted- Average Amortization Period
Technology	\$ 10,308	\$ (9,408)	\$ (834)	\$ —	\$ 66	3.8 years
Trademarks and brand names—Dice	39,000	—	—	—	39,000	Indefinite
Trademarks and brand names—Other	23,194	(13,633)	(2,818)	(3,168)	3,575	6.1 years

Candidate and content database	15,918	(14,491)	(1,427)	—	—	2.6 years
Acquired intangible assets, net	\$ 116,893	\$ (49,870)	\$ (7,959)	\$ (9,252)	\$ 49,812	
	As of December 31, 2015					
	Total Cost	Accumulated Amortization	Foreign Currency Translation Adjustment	Acquired Intangible Assets, Net	Weighted- Average Amortization Period	
Technology	\$ 10,308	\$ (8,831)	\$ (615)	\$ 862	3.8 years	
Trademarks and brand names—Dice	39,000	—	—	39,000	Indefinite	
Trademarks and brand names—Other	23,419	(13,156)	(2,238)	8,025	6.1 years	
Customer lists	63,373	(42,808)	(5,068)	15,497	5.5 years	
Candidate and content database	24,888	(22,088)	(892)	1,908	2.4 years	
Acquired intangible assets, net	\$ 160,988	\$ (86,883)	\$ (8,813)	\$ 65,292		

During the second quarter of 2016, the Company retired \$44.1 million of fully amortized acquired intangible assets. During the quarter ended September 30, 2016, the long-lived assets of the Energy reporting unit were tested for recoverability due to the downturn in the current and expected future financial performance of the reporting unit. The

process will be completed in the fourth quarter but the Company estimated and recorded an impairment of unamortized intangible assets of \$9.3 million as of September 30, 2016.

Based on the carrying value of the acquired finite-lived intangible assets recorded as of September 30, 2016, and assuming no subsequent impairment of the underlying assets, the estimated future amortization expense is as follows (in thousands):

2019	1,476
2020	1,421
2021 and thereafter	3,254
Total	\$10,812

6. INDEBTEDNESS

Credit Agreement—In November 2015, the Company, together with Dice Inc. (a wholly-owned subsidiary of the Company) and its wholly-owned subsidiary, Dice Career Solutions, Inc. (collectively, the “Borrowers”) entered into an Amended and Restated Credit Agreement (the “Credit Agreement”), which provides for a revolving loan facility of \$250.0 million maturing in November 2020. The Company borrowed \$105.0 million under the new Credit Agreement to repay all outstanding indebtedness, including accrued interest and fees, under the previously existing credit agreement dated October 2013, terminating that agreement.

Borrowings under the Credit Agreement bear interest, at the Company’s option, at a LIBOR rate or a base rate plus a margin. The margin ranges from 1.75% to 2.50% on LIBOR loans and 0.75% to 1.50% on base rate loans, determined by the Company’s most recent consolidated leverage ratio. The facility may be prepaid at any time without penalty.

The Credit Agreement contains various customary affirmative and negative covenants and also contains certain financial covenants, including a consolidated leverage ratio and a consolidated interest coverage ratio. Negative covenants include restrictions on incurring certain liens; making certain payments, such as stock repurchases and dividend payments; making certain investments; making certain acquisitions; and incurring additional indebtedness. Restricted payments are allowed under the Credit Agreement to the extent the consolidated leverage ratio, calculated on a pro forma basis, is equal to or less than 2.0 to 1.0, plus an additional \$5.0 million of restricted payments. The Credit Agreement also provides that the payment of obligations may be accelerated upon the occurrence of customary events of default, including, but not limited to, non-payment, change of control, or insolvency. As of September 30, 2016, the Company was in compliance with all of the financial covenants under the Credit Agreement.

The obligations under the Credit Agreement are guaranteed by four of the Company’s wholly-owned subsidiaries, eFinancialCareers, Inc., Targeted Job Fairs, Inc., Rigzone.com, Inc. and onTargetJobs, Inc., and secured by substantially all of the assets of the Borrowers and the guarantors and stock pledges from certain of the Company’s foreign subsidiaries.

Debt issuance costs of \$646,000 were incurred and are being amortized over the life of the loan. These costs are included in interest expense. Unamortized deferred financing costs from the previous credit facility of \$973,000 are being amortized over the life of the new Credit Agreement.

The amounts borrowed as of September 30, 2016 and December 31, 2015 are as follows (dollars in thousands):

	September 30, 2016	December 31, 2015
Amounts borrowed:		
Revolving credit facility	\$ 92,000	\$ 101,000

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

7. COMMITMENTS AND CONTINGENCIES

Leases

The Company leases equipment and office space under operating leases expiring at various dates through December 2025. Future minimum lease payments under non-cancellable operating leases as of September 30, 2016 are as follows (in thousands):

October 1, 2016 through December 31, 2016	\$1,169
2017	4,352
2018	4,143
2019	3,707
2020	3,293
2021 and thereafter	7,231
Total minimum payments	\$23,895

Rent expense was \$1.1 million and \$3.4 million for the three and nine month periods ended September 30, 2016, respectively, and \$1.2 million and \$3.4 million for the three and nine month periods ended September 30, 2015, respectively, and is included in General and Administrative expense in the Condensed Consolidated Statements of Operations.

Litigation

The Company is subject to various claims from taxing authorities, lawsuits and other complaints arising in the ordinary course of business. The Company records provisions for losses when claims become probable and the amounts are reasonably estimable. Although the outcome of these legal matters cannot be determined, it is the opinion of management that the final resolution of these matters will not have a material effect on the Company's financial condition, operations or liquidity.

Tax Contingencies

The Company operates in a number of tax jurisdictions and is routinely subject to examinations by various tax authorities with respect to income taxes and indirect taxes. The determination of the Company's worldwide provision for taxes requires judgment and estimation. The Company has reserved for potential examination adjustments to our provision for income taxes and accrual of indirect taxes in amounts which the Company believes are reasonable.

8. EQUITY TRANSACTIONS

Stock Repurchase Plans—The Company's board of directors approved a stock repurchase program that permits the Company to repurchase its common stock. Management has discretion in determining the conditions under which shares may be purchased from time to time. The following table summarizes the Stock Repurchase Plans approved by the board of directors:

	V	VI
Approval Date	December 2014	December 2015
Authorized Repurchase Amount of Common Stock	\$50 million	\$50 million
Effective Dates	December 2014 to December 2015	December 2015 to December 2016

During the quarter ended September 30, 2016 purchases of the Company's common stock pursuant to Stock Repurchase Plans were as follows:

Total Number of Shares	Average Price Paid per Share	Approximate Dollar Value of Shares Purchased	Approximate Dollar Value of Shares that May Yet
------------------------	------------------------------	--	---

Purchased			Be
			Purchased
			Under the
			Plans or
			Programs
410,000	\$ 6.70	\$ 2,746,000	\$ 22,313,000

10

Table of Contents

DHI GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

There were no unsettled share repurchases as of September 30, 2016. Approximately \$0.9 million of share repurchases had not settled as of December 31, 2015, and are included in accounts payable and accrued expenses in the accompanying Condensed Consolidated Balance Sheets.

9. ACCUMULATED OTHER COMPREHENSIVE LOSS

Accumulated other comprehensive loss, net consists of the following components (in thousands):

	September 30, 2016	December 31, 2015
--	-----------------------	----------------------

Foreign currency translation adjustment	\$ (29,325)	\$ (20,468)
---	--------------	--------------

Changes in accumulated other comprehensive loss during the three month period ended September 30, 2016 are as follows (in thousands):

	Foreign currency translation adjustment
Beginning balance	\$ (27,104)
Other comprehensive loss	(2,221)
Ending balance	\$ (29,325)

Changes in accumulated other comprehensive loss during the three month period ended September 30, 2015 are as follows (in thousands):

	Foreign currency translation adjustment	Unrealized gains on investments	Total
Beginning balance	\$ (14,107)	\$ 3	\$ (14,104)
Other comprehensive loss	(3,972)	(3)	(3,975)
Ending balance	\$ (18,079)	\$ —	\$ (18,079)

Changes in accumulated other comprehensive loss during the nine month period ended September 30, 2016 are as follows (in thousands):

	Foreign currency translation adjustment
Beginning balance	\$ (20,468)
Other comprehensive loss	(8,857)
Ending balance	\$ (29,325)

Changes in accumulated other comprehensive loss during the nine month period ended September 30, 2015 are as follows (in thousands):

	Foreign currency translation adjustment	Unrealized gains on investments	Total
Beginning balance	\$ (13,909)	\$ 3	\$ (13,906)
Other comprehensive loss	(4,170)	(3)	(4,173)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

10. DISPOSITION RELATED AND OTHER COSTS

In January 2016, the Company completed the sale of Slashdot Media and incurred severance costs and additional stock based compensation expense for the acceleration of stock vesting. As a result, the Company recognized a loss on the sale of assets of Slashdot Media.

Effective January 1, 2016, the Company organized leadership responsibilities to leverage operating capabilities more effectively across four of its brands which serve specific industries, and to optimize these brands for future growth by streamlining operations and development. This entailed combining four of its global brands (eFinancialCareers, Rigzone, Hcareers and BioSpace) to have one management structure under a combined group called Global Industry Group (“GIG”).

The following table displays a roll forward of the disposition related and other costs and related liability balances:

	Accrual at December 31, 2015	Expense	Cash Payments	Non-Cash	Accrual at September 30, 2016
Severance—Slashdot Media	\$	—\$ 981	\$ (981)	\$—	\$ —
Accelerated stock based compensation expense—Slashdot Media	—	900	—	(900)	—
Loss on sale of Slashdot Media	—	639	—	(639)	—
Severance related to other brands	—	827	(827)	—	—
Total	\$	—\$ 3,347	\$ (1,808)	\$(1,539)	\$ —

11. STOCK BASED COMPENSATION

Under the 2012 Omnibus Equity Award Plan, the Company has granted stock options, restricted stock and Performance-Based Restricted Stock Units (“PSUs”) to certain employees and directors. Compensation expense for stock-based awards made to employees and directors in return for service is recorded in accordance with Compensation-Stock Compensation of the FASB ASC. The Company estimates forfeitures that it expects will occur and records expense based upon the number of awards expected to vest.

The Company recorded total stock based compensation expense of \$2.3 million during the three month period ended September 30, 2016 and \$8.8 million of compensation expense, which included \$0.9 million of accelerated compensation due to Slashdot Media as shown in Note 10 during the nine month period ended September 30, 2016. The Company recorded \$2.4 million and \$7.5 million during the three and nine month periods ended September 30, 2015, respectively. At September 30, 2016, there was \$17.0 million of unrecognized compensation expense related to unvested awards, which is expected to be recognized over a weighted-average period of approximately 1.6 years.

Restricted Stock—Restricted stock is granted to employees of the Company and its subsidiaries, and to non-employee members of the Company’s Board. These shares are part of the compensation plan for services provided by the employees or Board members. The closing price of the Company’s stock on the date of grant is used to determine the fair value of the grants. The expense related to the restricted stock grants is recorded over the vesting period. There was no cash flow impact resulting from the grants.

The restricted stock vests in various increments on the anniversaries of each grant, subject to the recipient’s continued employment or service through each applicable vesting date. Vesting occurs over one year for Board members and over four years for employees.

Table of Contents

DHI GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

A summary of the status of restricted stock awards as of September 30, 2016 and 2015 and the changes during the periods then ended is presented below:

	Three Months Ended September 30, 2016		Three Months Ended September 30, 2015	
	Shares	Weighted- Average Fair Value at Grant Date	Shares	Weighted- Average Fair Value at Grant Date
Non-vested at beginning of the period	2,236,250	\$ 8.10	2,249,600	\$ 8.55
Granted	165,700	\$ 6.90	23,500	\$ 8.94
Forfeited	(142,875)	\$ 8.00	(86,875)	\$ 8.35

	Nine Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
	Shares	Weighted- Average Fair Value at Grant Date	Shares	Weighted- Average Fair Value at Grant Date
Non-vested at beginning of the period	2,122,225	\$ 8.54	1,786,581	\$ 8.45
Granted	1,199,200	\$ 7.47	1,211,600	\$ 8.85
Forfeited	(294,375)	\$ 8.15	(231,937)	\$ 8.29
Vested	(833,225)	\$ 8.57	(626,144)	\$ 8.92
Non-vested at end of period	2,193,825	\$ 8.00	2,140,100	\$ 8.56

PSUs—PSUs are granted to employees of the Company and its subsidiaries. These shares are part of the compensation plan for services provided by the employees. The fair value of PSUs is measured using the Monte Carlo pricing model. The expense related to the PSUs is recorded over the vesting period. These shares will vest on the dates the Compensation Committee certifies the Company's achievement of stock price performance relative to the Russell 2000 Index, provided that the recipient remains employed through such date. Performance will be measured over three separate measurement periods: a one-year measurement period, a two-year measurement period and a three-year measurement period. For performance periods one and two, vesting is not to exceed total grant divided by three. For performance period three, vesting is no less than zero and no greater than 150% of initial grant less shares vested in performance periods one and two. There was no cash flow impact resulting from the grants. The fair value of PSUs is measured using the Monte Carlo pricing model using the following assumptions:

	Nine Months Ended September 30,			
	2016	2015		
Weighted average fair value of PSUs granted	\$7.24	\$9.25		
Dividend yield	—	%	—	%
Risk free interest rate	0.9	%	1.1	%
Expected volatility	33.5	%	33.6	%

Non-vested at end of period	580,004	\$ 8.02	415,000	\$ 9.25

Stock Options—The fair value of each option grant is estimated using the Black-Scholes option-pricing model using the weighted-average assumptions in the table below. This valuation model requires the Company to make assumptions and judgments about the variables used in the calculation, including the fair value of the Company's common stock, the expected life (the period of time that the options granted are expected to be outstanding), the volatility of the Company's common stock, a risk-free interest rate and expected dividends. The expected life of options granted is derived from historical exercise behavior. The risk-free rate for periods within the expected life of the option is based on the U.S. Treasury rates in effect at the time of grant. The stock options vest 25% after one year, beginning on the first anniversary date of the grant, and 6.25% each quarter following the first anniversary. There was no cash flow impact resulting from the grants. No stock options were granted during the nine month periods ended September 30, 2016 and September 30, 2015.

A summary of the status of options previously granted as of September 30, 2016 and 2015, and the changes during the periods then ended is presented below:

	Three Months Ended September 30, 2016

	1,870,400		1,574,804

12. SEGMENT INFORMATION

The Company changed its reportable segments during the first quarter of 2016 to reflect the current operating structure. Accordingly, all prior periods have been recast to reflect the current segment presentation.

The Company has three reportable segments: Tech & Clearance, Global Industry Group and Healthcare. The Tech & Clearance reportable segment includes the Dice, Dice Europe and ClearanceJobs services. The Global Industry Group reportable segment includes the eFinancialCareers, Rigzone, Hcareers and BioSpace services. The Healthcare reportable segment includes the Health eCareers service. Management has organized its reportable segments based upon our internal management reporting.

The Company has other services and activities that individually are not more than 10% of consolidated revenues, operating income or total assets. These include Slashdot Media (business sold in the first quarter of 2016) and Brightmatter, which are reported in the “Corporate & Other” category, along with corporate-related costs which are not considered in a segment.

15

Table of Contents

DHI GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The Company's foreign operations are comprised of the Dice Europe operations and a portion of the eFinancialCareers and Rigzone services, which operate in Europe, the financial centers of the gulf region of the Middle East and Asia Pacific. The Company's foreign operations also include Hcareers, which operates in Canada and a portion of Brightmatter, which operates in Europe. Revenue by geographic region, as shown in the table below, is based on the location of each of the Company's subsidiaries.

The following table shows the carrying amount of goodwill by segment as of December 31, 2015 and September 30, 2016 and the changes in goodwill for the nine month period ended September 30, 2016 (in thousands):

	Tech & Clearance	Global Industry Group	Healthcare	Corporate & Other	Total
Goodwill at December 31, 2015	\$95,523	\$80,096	\$ 6,269	\$16,710	\$198,598
Foreign currency translation adjustment	(1,111)	(5,388)	—	(2,090)	(8,589)
Impairment	—	(15,369)	—	—	(15,369)
Goodwill at September 30, 2016	\$94,412	\$59,339	\$ 6,269	\$14,620	\$174,640

The decline in oil prices in 2014 and 2015 and the continued volatility in 2016 has decreased demand for energy professionals worldwide. This decline in demand and any future declines in demand for energy professionals could significantly decrease the use of the Company’s energy industry job posting websites and related services, which may adversely affect the Energy reporting unit’s financial condition and results of operations. As a result of these factors, the Company further evaluated the fair value of this reporting unit and recorded an estimated goodwill impairment of \$15.4 million during the quarter ended September 30, 2016 at the Global Industry Group segment bringing goodwill for the Energy reporting unit to zero.

On June 23, 2016, the United Kingdom (“UK”) held a referendum in which British citizens approved an exit from the EU, commonly referred to as “Brexit.” As a result of the referendum, Brexit could cause disruptions to and create uncertainty surrounding our business, including affecting our relationships with our existing and future customers and employees based in the UK and Europe along with adversely impacting foreign currencies, particularly the British Pound Sterling as compared to the United States dollar. These disruptions and uncertainties could decrease demand

for finance, technology and energy professionals in the markets we serve. This decline in demand and any future declines in demand could significantly decrease the use of our finance, technology and energy industry job posting websites and related services, which may adversely affect the related reporting unit's financial condition and results of operations. If recruitment activity is slow in the industries in which we operate during 2016 and beyond, our revenues and results of operations will be negatively impacted. As a result of these factors, the Company further evaluated the fair value of the following reporting units - Dice Europe and Finance - and does not believe they are currently at risk of failing the first step of the impairment test. If events and circumstances change resulting in significant reductions in actual operating income or projections of future operating income, the Company will test these reporting units for impairment prior to the annual impairment test.

Table of Contents

DHI GROUP, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

13. EARNINGS PER SHARE

Basic earnings per share (“EPS”) is computed based on the weighted-average number of shares of common stock outstanding. Diluted EPS is computed based on the weighted-average number of shares of common stock outstanding plus common stock equivalents assuming exercise of stock options, where dilutive. In 2016, shares issuable from stock-based awards of 0.8 million for both the three and nine month periods ended September 30, 2016 were excluded from the computation of shares contingently issuable upon exercise as we recognized a net loss. Stock-based awards of approximately 2.5 million shares were outstanding during the three and nine month periods ended September 30, 2016, and approximately 2.5 million and 2.4 million shares were outstanding during the three and nine month periods ended September 30, 2015, respectively, but were excluded from the calculation of diluted EPS for the periods then ended because the effect of the awards are anti-dilutive. The following is a calculation of basic and diluted earnings per share and weighted-average shares outstanding (in thousands, except per share amounts):

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
Income (loss) from continuing operations—basic and diluted	\$ (16,841)	\$ 6,511	\$ (10,876)	\$ 17,281
Weighted-average shares outstanding—basic	47,719	51,228	48,596	51,792
Add shares issuable from stock-based awards	—	1,002	—	1,264
Weighted-average shares outstanding—diluted	47,719	52,230	48,596	53,056
Basic earnings (loss) per share	\$ (0.35)	\$ 0.13	\$ (0.22)	\$ 0.33
Diluted earnings (loss) per share	\$ (0.35)	\$ 0.12	\$ (0.22)	\$ 0.33

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our unaudited condensed consolidated financial statements and the related notes included elsewhere in this report. See also our consolidated financial statements and the notes thereto and the section entitled "Note Concerning Forward-Looking Statements" in our Annual Report on Form 10-K for the year ended December 31, 2015.

Information contained herein contains forward-looking statements. You should not place undue reliance on those statements because they are subject to numerous uncertainties and factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control. Forward-looking statements include, without limitation, information concerning our possible or assumed future results of operations, including descriptions of our business strategy. These statements often include words such as "may," "will," "should," "believe," "expect," "anticipate," "intend," "plan," "estimate" or similar expressions. These statements are based on assumptions that we have made in light of our experience in the industry as well as our perceptions of historical trends, current conditions, expected future developments and other factors we believe are appropriate under the circumstances. Although we believe that these forward-looking statements are based on reasonable assumptions, you should be aware that many factors could affect our actual financial results or results of operations and could cause actual results to differ materially from those in the forward-looking statements. These factors include, but are not limited to, competition from existing and future competitors in the highly competitive market in which we operate, failure to adapt our business model to keep pace with rapid changes in the recruiting and career services business, failure to maintain and develop our reputation and brand recognition, failure to increase or maintain the number of customers who purchase recruitment packages, cyclicalities or downturns in the economy or industries we serve, the uncertainty surrounding the UK's future departure from the European Union ("EU"), including uncertainty in respect of the regulation of data protection and data privacy, failure to attract qualified professionals to our websites or grow the number of qualified professionals who use our websites, failure to successfully identify or integrate acquisitions, U.S. and foreign government regulation of the Internet and taxation, our ability to borrow funds under our revolving credit facility or refinance our indebtedness and restrictions on our current and future operations under such indebtedness. These factors and others are discussed in more detail in our filings with the Securities and Exchange Commission, including our Annual Report on Form 10-K for the fiscal year ended December 31, 2015, under the headings "Risk Factors," "Forward-Looking Statements" and "Management's Discussion and Analysis of Financial Condition and Results of Operations."

Information contained herein contains certain non-GAAP financial measures. These measures are not in accordance with, or an alternative for measures in accordance with U.S. GAAP. Such measures presented herein include adjusted earnings before interest, taxes, depreciation, amortization, non-cash stock based compensation expense, and other non-recurring income or expense ("Adjusted EBITDA") and Free Cash Flow. See "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources."

You should keep in mind that any forward-looking statement made by us herein, or elsewhere, speaks only as of the date on which it is made. New risks and uncertainties come up from time to time, and it is impossible to predict these events or how they may affect us. We have no obligation to update any forward-looking statements after the date hereof, except as required by federal securities laws.

Our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, proxy and information statements and other material information concerning us are available free of charge on the Investors page of our website at www.dhigroupinc.com. Our reports filed with the SEC are also available at the SEC's Public Reference Room at 100 F Street, NE, Washington, DC 20549, by calling 1-800-SEC-0330, or by visiting <http://www.sec.gov>.

Overview

We are a leading provider of data, insights and employment connections through our specialized services for professional communities including the following industry groups: technology and security clearance, financial services, energy, healthcare and hospitality. Our mission is to empower professionals and organizations to compete and win through specialized insights and relevant employment connections. Employers and recruiters use our websites and services to source and hire the most qualified professionals in select and highly-skilled occupations, while

professionals use our websites and services to find the best employment opportunities in and the most timely news and information about their respective areas of expertise.

In online recruitment, we target employment categories in which there has been a long-term scarcity of highly skilled, highly qualified professionals relative to market demand. Our websites serve as online marketplaces where employers and recruiters find and recruit prospective employees, and where professionals find relevant job opportunities and information to further their careers.

Table of Contents

Our websites offer job postings, news and content, career development and recruiting services tailored to the specific needs of the professional community that each website serves.

Through our predecessors, we have been in the recruiting and career development business for more than 26 years.

Based on our operating structure, we have identified three reportable segments.

Our reportable segments include:

• Tech & Clearance— Dice, Dice Europe and ClearanceJobs

• Global Industry Group— eFinancialCareers, Rigzone, Hcareers and BioSpace

• Healthcare— Health eCareers

We have other services and activities that individually are not more than 10% of consolidated revenues, operating income or total assets. These include Slashdot Media (business sold in the first quarter of 2016) and Brightmatter and are reported in the “Corporate & Other” category, along with corporate-related costs which are not considered in a segment.

Recent Developments

Declines and continued volatility in oil prices have decreased demand for energy professionals worldwide. This decline in demand for energy professionals has significantly decreased the use of our energy industry job posting websites and related services. As a result, we recorded an impairment of goodwill and intangible assets of \$24.6 million at the Energy reporting unit within the Global Industry Group segment.

Our Revenues and Expenses

We derive the majority of our revenues from customers who pay fees, either annually, quarterly or monthly, to post jobs on our websites and to access our searchable databases of resumes. Our fees vary by customer based on the number of individual users of our databases of resumes, the number and type of job postings purchased and the terms of the package purchased. Our Tech & Clearance segment sells recruitment packages that can include both access to our databases of resumes and Open Web profiles, as well as job posting capabilities. Our Global Industry Group and Healthcare segments sell job postings and access to our resume databases either as part of a package or individually. We believe the key metrics that are material to an analysis of our businesses are our total number of recruitment package customers and the revenue, on average, that these customers generate. Average monthly revenue per recruitment package customer is calculated by dividing recruitment package customer revenue by the daily average count of recruitment package customers during the month, adjusted to reflect a thirty day month. We use the simple average of each month to derive the quarterly amount. At September 30, 2016 and June 30, 2016, Dice had approximately 7,250 and 7,300 total recruitment package customers in the U.S., respectively, and the average monthly revenue per U.S. recruitment package customer increased from \$1,101 and \$1,087 for the three and nine months ended September 30, 2015, respectively, to \$1,122 and \$1,121 for the three and nine months ended September 30, 2016, respectively. Deferred revenue is a key metric of our business as it indicates a level of sales already made that will be recognized as revenue in the future. Deferred revenue reflects the impact of our ability to sign customers to longer term contracts. We recorded deferred revenue of \$82.4 million at September 30, 2016 and \$84.3 million at December 31, 2015, including \$969,000 of Slashdot Media deferred revenue classified as held for sale as of December 31, 2015.

We also generate revenue from advertising on our various websites or from lead generation and marketing solutions provided to our customers. Advertisements include various forms of rich media and banner advertising, text links, sponsorships, and custom content marketing solutions. Lead generation information utilizes advertising and other methods to deliver leads to a customer.

The Company’s revenues for the third quarter of 2016 declined year-over-year in each of our brands except ClearanceJobs and declined for the nine month period in each of our brands except ClearanceJobs and Health eCareers. The declines are due to many factors including macroeconomic impacts and evolutions in the digital recruitment market. Macroeconomic drivers include the prolonged down-turn in the Energy market resulting in year-over-year revenue declines of \$2.6 million in the third quarter and \$9.3 million for the nine month period. Foreign currency, primarily changes in the USD:GBP exchange rate, contributed \$1.2 million of the year-over-year revenue reduction for the quarter and \$2.2 million for the nine month period. Uncertainty around Brexit has also contributed to lower revenues. The digital recruitment market continues to be impacted by attribution, which reflects

our ability to receive the proper credit for value delivered to customers based on our customers' internal tracking systems. Demonstrating attribution for candidates provided to each customer is a key initiative for the Company. However, attribution challenges have contributed to lower renewal rates as demonstrated by the reduction in recruitment package customer count at Dice.

20

Table of Contents

The Company continues to evolve and present new products to the market such as getTalent, Lengo, Shift and others. Our ability to grow our revenues will largely depend on our ability to grow our customer bases in the markets in which we operate by acquiring new recruitment package customers and advertisers while retaining a high proportion of the customers we currently serve, and to expand the breadth of services our customers purchase from us. We continue to make investments in our business and infrastructure to help us achieve our long-term growth objectives. Other material factors that may affect our results of operations include our ability to attract qualified professionals that become engaged with our websites and our ability to attract customers with relevant job opportunities. The more qualified professionals that use our websites, the more attractive our websites become to employers and advertisers, which in turn makes them more likely to become our customers, resulting positively on our results of operations. If we are unable to continue to attract qualified professionals to engage with our websites, our customers may no longer find our services attractive, which could have a negative impact on our results of operations. Additionally, we need to ensure that our websites remain relevant in order to attract qualified professionals to our websites and to engage them in high-valued tasks, such as posting resumes and/or applying to jobs.

The largest components of our expenses are personnel costs and marketing and sales expenditures. Personnel costs consist of salaries, benefits, and incentive compensation for our employees, including commissions for salespeople. Personnel costs are categorized in our statement of operations based on each employee's principal function. Marketing expenditures primarily consist of online advertising, brand promotion and lead generation to employers and job seekers.

Critical Accounting Policies

There have been no material changes to our critical accounting policies as compared to the critical accounting policies described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

Three Months Ended September 30, 2016 Compared to the Three Months Ended September 30, 2015

Revenues

	Three Months		Increase	Percent
	Ended September		(Decrease)	Change
	30,			
	2016	2015		
	(in thousands, except percentages)			
Tech & Clearance	\$33,971	\$35,723	\$ (1,752)	(4.9)%
eFinancialCareers	8,766	9,287	(521)	(5.6)%
Rigzone	2,122	4,734	(2,612)	(55.2)%
Hcareers	3,631	3,900	(269)	(6.9)%
BioSpace	833	944	(111)	(11.8)%
Global Industry Group	15,352	18,865	(3,513)	(18.6)%
Healthcare	6,735	6,912	(177)	(2.6)%
Corporate & Other	15	3,638	(3,623)	(99.6)%
Total revenues	\$56,073	\$65,138	\$ (9,065)	(13.9)%

Revenues for the three months ended September 30, 2016 decreased \$9.1 million, or 13.9% from the same period of 2015 due to a decrease of \$3.5 million of revenue from the Slashdot business which was sold in January 2016 and decreases of \$2.6 million in the Rigzone business and \$1.8 million in the Tech & Clearance segment. The decrease in the Tech & Clearance segment of \$1.8 million, or 4.9%, was primarily at Dice, which decreased by \$2.0 million compared to the same period in 2015. Recruitment package customer count in the U.S. decreased from 7,700 at September 30, 2015 to 7,250 at September 30, 2016. However, average monthly revenue per U.S. recruitment package customer increased approximately 2% from the three month period ended September 30, 2015 to the three month period ended September 30, 2016. Revenues for Dice Europe decreased \$0.3 million for the three month period ended September 30, 2016 compared to the three month period ended September 30, 2015 due to lower renewals. Revenues for ClearanceJobs increased by \$0.6 million for the three month period ended September 30, 2016 as compared to the same period in 2015, primarily due to favorable market conditions and increased sales of its "pay-for-performance" product.

The Global Industry Group segment revenue decreased \$3.5 million, or 18.6%. This decrease was primarily due to a decrease at the Rigzone business of \$2.6 million as a result of continued difficult conditions in the energy market.
Currency

21

Table of Contents

translation for the three month period ended September 30, 2016 negatively impacted eFinancialCareers revenue by approximately \$0.9 million.

The Healthcare segment, consisting of Health eCareers, decreased revenue by \$0.2 million, or 2.6% from the comparable 2015 period due to decreased usage of job posting products by certain customers.

Revenues from Corporate & Other, which consists of revenue from Slashdot Media and Brightmatter, decreased by \$3.6 million or 99.6% primarily due to the sale of the Slashdot Media business in January 2016.

Cost of Revenues

	Three Months Ended September 30,		Decrease	Percent Change
	2016	2015		
	(in thousands, except percentages)			
Cost of revenues	\$7,943	\$9,765	\$(1,822)	(18.7)%
Percentage of revenues	14.2 %	15.0 %		

Corporate & Other decreased by \$1.4 million primarily due to lower expenses at Slashdot Media since the business was sold in January 2016. The Global Industry Group segment decreased by \$348,000 due to decreased employee-related expenses and savings as a result of fewer job fairs. The Healthcare segment decreased by \$161,000 primarily due to lower royalties of \$230,000 paid to healthcare associations, partially offset by increased compensation costs.

Product Development Expenses

	Three Months Ended September 30,		Decrease	Percent Change
	2016	2015		
	(in thousands, except percentages)			
Product development	\$6,018	\$7,938	\$(1,920)	(24.2)%
Percentage of revenues	10.7 %	12.2 %		

Corporate & Other decreased \$600,000 with a decrease at Slashdot Media of \$921,000 since the business was sold in January 2016, partially offset by Brightmatter increasing \$330,000 due to an increase in the number of employees supporting the development of next generation recruitment products and services. The Global Industry Group segment decreased \$854,000 and the Tech & Clearance segment decreased \$580,000 primarily due to lower compensation costs.

Sales and Marketing Expenses

	Three Months Ended September 30,		Decrease	Percent Change
	2016	2015		
	(in thousands, except percentages)			
Sales and marketing	\$19,425	\$19,779	\$(354)	(1.8)%
Percentage of revenues	34.6 %	30.4 %		

Sales and marketing costs for the Global Industry Group segment decreased \$810,000 primarily due to decreased discretionary marketing spend and decreased employee-related expenses. Corporate & Other was down \$442,000 due to Slashdot Media since the business was sold in January 2016, partially offset by an increase at Brightmatter of \$203,000 due to increased compensation costs and increased discretionary marketing spend. The Tech & Clearance segment increased by \$510,000 primarily due to a branding campaign at Dice and other marketing initiatives. The Healthcare segment increased \$388,000 primarily due to increased discretionary marketing spend.

General and Administrative Expenses

	Three Months Ended September 30,		Decrease	Percent Change
	2016	2015		

Edgar Filing: DHI GROUP, INC. - Form 10-Q

(in thousands, except percentages)

General and administrative	\$10,101	\$10,958	\$ (857)	(7.8)%
Percentage of revenues	18.0	%	16.8	%

22

Table of Contents

General and administrative expense for the Global Industry Group segment decreased \$705,000 primarily attributable to decreased compensation costs and employee-related expenses. Corporate & Other was flat with savings of \$180,000 recognized from the sale of Slashdot Media in January 2016 and decreased compensation costs at Corporate of \$395,000 offset by increased compensation costs at Brightmatter of \$254,000 and recruiting and legal fees at Corporate of \$368,000.

Depreciation

	Three Months			
	Ended September		Increase	Percent
	30,			Change
	2016	2015		
	(in thousands, except percentages)			
Depreciation	\$2,478	\$2,364	\$ 114	4.8 %
Percentage of revenues	4.4 %	3.6 %		

The increase was due to increased capital expenditures in the Healthcare segment in the second half of 2015 and Brightmatter in 2016, which increased the amount of depreciable assets.

Amortization of Intangible Assets

	Three Months			
	Ended September		Decrease	Percent
	30,			Change
	2016	2015		
	(in thousands, except percentages)			
Amortization	\$1,570	\$3,376	\$(1,806)	(53.5)%
Percentage of revenues	2.8 %	5.2 %		

Amortization expense for the three month period ended September 30, 2016 decreased by \$840,000, \$630,000 and \$245,000 due to certain intangible assets at the Global Industry Group, Tech & Clearance and Healthcare segments, respectively, becoming fully amortized.

Impairment of Goodwill

Goodwill of \$15.4 million related to Rigzone, the Energy reporting unit, was written down to zero in the third quarter of 2016 due to the decline in demand for energy professionals, which has significantly decreased the use of our energy industry job posting websites and related services.

Impairment of Intangible Assets

Unamortized intangible assets of \$9.3 million related to Rigzone, the Energy reporting unit, were written off in the third quarter of 2016 as a result of the decline in demand for energy professionals, which has significantly decreased the use of our energy industry job posting websites and related services.

Operating Income (Loss)

Operating income (loss) for the three month period ended September 30, 2016 was \$(16.1) million compared to \$11.0 million for the same period in 2015, a decrease of \$27.0 million or 246.8%. The decrease was primarily driven by the impairment of goodwill and intangible assets at Rigzone of \$24.6 million.

Interest Expense

	Three Months			
	Ended		Increase	Percent
	September 30,			Change
	2016	2015		
	(in thousands, except percentages)			
Interest expense	\$901	\$831	\$ 70	8.4 %
Percentage of revenues	1.6 %	1.3 %		

Interest expense for the three month period ended September 30, 2016 approximates the three month period ended September 30, 2015.

23

Table of Contents

Income Taxes

	Three Months Ended	
	September 30,	
	2016	2015
	(in thousands, except percentages)	
Income (loss) before income taxes	\$(16,985)	\$10,134
Income tax (benefit) expense	(144)	3,623
Effective tax rate	0.8	% 35.8 %

The effective income tax rate was 0.8% and 35.8% for the three month periods ended September 30, 2016 and 2015, respectively. The rate was lower in the current period because of a \$2.8 million tax benefit from the reduction of deferred tax liabilities resulting from an impairment of intangible assets. Excluding the impairment, the effective tax rate related to ordinary income was 35.2%, which was similar to the prior year period.

Earnings (Loss) per Share

Basic earnings (loss) per share was \$(0.35) and \$0.13 for the three month periods ended September 30, 2016 and September 30, 2015, respectively, while diluted earnings (loss) per share was \$(0.35) and \$0.12, respectively. The decreases were primarily due to a decrease in net income, partially offset by decreased weighted-average shares outstanding due to stock repurchases. We recorded an impairment of goodwill and intangible assets of \$24.6 million or \$0.45 per diluted share related to the Global Industry Group segment.

Nine Months Ended September 30, 2016 Compared to the Nine Months Ended September 30, 2015

Revenues

	Nine Months Ended		Increase (Decrease)	Percent Change
	September 30,			
	2016	2015		
	(in thousands, except percentages)			
Tech & Clearance	\$102,130	\$104,688	\$(2,558)	(2.4)%
eFinancialCareers	26,724	26,800	(76)	(0.3)%
Rigzone	7,455	16,795	(9,340)	(55.6)%
Hcareers	11,477	12,217	(740)	(6.1)%
BioSpace	2,796	3,268	(472)	(14.4)%
Global Industry Group	48,452	59,080	(10,628)	(18.0)%
Healthcare	20,648	19,473	1,175	6.0%
Corporate & Other	802	11,469	(10,667)	(93.0)%
Total revenues	\$172,032	\$194,710	\$(22,678)	(11.6)%

Revenues for the nine months ended September 30, 2016 decreased \$22.7 million, or 11.6% from the same period of 2015 due to a decrease of \$10.4 million related to the sale of the Slashdot business in January 2016 and decreases of \$9.3 million in the Rigzone business and \$2.6 million in the Tech & Clearance segment. We experienced a decrease in the Tech & Clearance segment revenue of \$2.6 million, or 2.4%. Revenue at Dice decreased by \$3.5 million compared to the same period in 2015. Recruitment package customer count in the U.S. decreased from 7,700 at September 30, 2015 to 7,250 at September 30, 2016. However, average monthly revenue per U.S. recruitment package customer increased approximately 3% from the nine month period ended September 30, 2015 to the nine month period ended September 30, 2016. Revenues for Dice Europe decreased \$0.9 million for the nine month period ended September 30, 2016 as compared to the same period in 2015, primarily due to lower renewals. Revenues for ClearanceJobs increased by \$1.8 million for the nine month period ended September 30, 2016 as compared to the same period in 2015, primarily due to favorable market conditions and increased sales of its “pay-for-performance” product.

The Global Industry Group segment revenue decreased \$10.6 million, or 18.0%. This decrease was primarily due to a decrease at the Rigzone business of \$9.3 million as a result of continued difficult conditions in the energy market.

Currency translation for the nine month period ended September 30, 2016 negatively impacted eFinancialCareers revenue by approximately \$1.6 million.

24

Table of Contents

The Healthcare segment, consisting of Health eCareers, increased revenue by \$1.2 million, or 6.0% from the comparable 2015 period, as a result of enhanced product offerings.

Revenues from Corporate & Other, which consists of revenue from Slashdot Media and Brightmatter, decreased by \$10.7 million or 93.0% primarily due to the sale of the Slashdot Media business in January 2016.

Cost of Revenues

	Nine Months Ended		Decrease	Percent Change
	September 30, 2016	2015		
	(in thousands, except percentages)			
Cost of revenues	\$24,557	\$29,255	\$(4,698)	(16.1)%
Percentage of revenues	14.3	% 15.0	%	

Corporate & Other decreased by \$3.9 million primarily due to lower expenses at Slashdot Media since the business was sold in January 2016. The Global Industry Group segment decreased by \$980,000 as a result of fewer events and decreased employee-related expenses.

Product Development Expenses

	Nine Months Ended		Decrease	Percent Change
	September 30, 2016	2015		
	(in thousands, except percentages)			
Product development	\$19,323	\$22,082	\$(2,759)	(12.5)%
Percentage of revenues	11.2	% 11.3	%	

The Global Industry Group segment decreased \$1.6 million primarily due to compensation costs and lower consulting expenses. Corporate & Other decreased \$1.2 million due to a decrease at Slashdot Media of \$2.4 million since the business was sold in January 2016, partially offset by Brightmatter increasing \$1.3 million due to an increase in the number of employees supporting the development of next generation recruitment products and services. The Tech & Clearance segment decreased \$691,000 due to savings in compensation costs. An increase of \$752,000 was experienced in the Healthcare segment, primarily driven by additional salaries and related costs due to the increased number of employees.

Sales and Marketing Expenses

	Nine Months Ended		Decrease	Percent Change
	September 30, 2016	2015		
	(in thousands, except percentages)			
Sales and marketing	\$58,573	\$60,984	\$(2,411)	(4.0)%
Percentage of revenues	34.0	% 31.3	%	

Sales and marketing costs for the Global Industry Group segment decreased by \$2.4 million due to decreased discretionary marketing spend of \$1.7 million and lower compensation expenses. Corporate & Other was down \$1.2 million primarily due to a decrease at Slashdot Media since the business was sold in January 2016, partially offset by an increase at Brightmatter of \$349,000 in compensation expense due to increased headcount and increased marketing initiatives. The Healthcare segment sales and marketing expense increased \$892,000 primarily due to increased discretionary marketing spend and compensation costs.

General and Administrative Expenses

	Nine Months Ended		Decrease	Percent Change
	September 30, 2016	2015		
	(in thousands, except percentages)			
General and administrative	\$32,822	\$34,059	\$(1,237)	(3.6)%
Percentage of revenues	19.1	% 17.5	%	

Table of Contents

General and administrative expense for the Global Industry Group segment decreased \$2.0 million primarily attributable to decreased compensation costs, recruiting fees and rent expense. The Tech & Clearance segment was down \$257,000 primarily due to decreased compensation costs and lower bad debt expense, partially offset by increased facilities cost related to a new office in 2015. Healthcare was down \$248,000 due to lower employee-related costs while Corporate & Other was up \$1.1 million primarily due to an increase in professional fees and related costs at Corporate of \$1.2 million, including \$640,000 of professional fees, \$371,000 of fees associated with the agreement to add a director, and recruiting fees of \$165,000. In addition, Brightmatter expenses increased \$765,000 due to compensation costs. Partially offsetting these increases was a decrease at Slashdot Media of \$953,000 since the business was sold in January 2016.

Stock-based compensation expense was \$8.8 million, including \$0.9 million of accelerated stock compensation expense related to Slashdot Media as shown in Note 10, an increase of \$1.3 million compared to the same period in 2015. The increase was primarily due to PSUs issued in 2015 and 2016 which vest over a three-year period as described in Note 11 to the Condensed Consolidated Financial Statements.

Disposition Related and Other Costs

	Nine Months Ended		Increase	Percent Change
	September 30, 2016	September 30, 2015		
Disposition related and other costs	\$3,347	\$ —	\$ 3,347	n.m.
Percentage of revenues	1.9 %	—%		

The disposition related and other costs are primarily due to the sale of Slashdot Media, including severance of \$981,000, stock based compensation acceleration of \$900,000, and a loss on sale of \$639,000. Also included in disposition related and other costs is other severance primarily related to the formation of Global Industry Group of \$827,000.

Depreciation

	Nine Months Ended		Increase	Percent Change
	September 30, 2016	September 30, 2015		
Depreciation	\$7,639	\$6,821	\$ 818	12.0 %
Percentage of revenues	4.4 %	3.5 %		

The increase was primarily due to increased capital expenditures in the Healthcare segment in the second half of 2015 and Tech & Clearance segment and Brightmatter in 2016, which increased the amount of depreciable assets.

Amortization of Intangible Assets

	Nine Months Ended		Decrease	Percent Change
	September 30, 2016	September 30, 2015		
Amortization	\$6,106	\$10,875	\$(4,769)	(43.9)%
Percentage of revenues	3.5 %	5.6 %		

Amortization expense for the nine month period ended September 30, 2016 decreased by \$2.8 million, \$940,000 and \$735,000 due to certain intangible assets at the Global Industry Group, Tech & Clearance and Healthcare segments, respectively, becoming fully amortized.

Impairment of Goodwill

Goodwill of \$15.4 million related to Rigzone, the Energy reporting unit, was written down to zero in the third quarter of 2016 due to the decline in demand for energy professionals, which has significantly decreased the use of our energy industry job posting websites and related services.

Table of Contents

Impairment of Intangible Assets

Unamortized intangible assets of \$9.3 million related to Rigzone, the Energy reporting unit, were written off in the third quarter of 2016 as a result of the decline in demand for energy professionals, which has significantly decreased the use of our energy industry job posting websites and related services.

Operating Income (Loss)

Operating income (loss) for the nine month period ended September 30, 2016 was \$(5.0) million compared to \$30.6 million for the same period in 2015, a decrease of \$35.6 million or 116.2%. The decrease was primarily due to impairment of goodwill and intangible assets at Rigzone of \$24.6 million, the sale of Slashdot Media in January 2016, and increased investment in Brightmatter.

Interest Expense

	Nine Months Ended September 30,		Increase	Percent Change
	2016	2015		
	(in thousands, except percentages)			
Interest expense	\$2,593	\$2,472	\$ 121	4.9 %
Percentage of revenues	1.5 %	1.3 %		

Interest expense for the nine month period ended September 30, 2016 approximates the nine month period ended September 30, 2015.

Income Taxes

	Nine Months Ended September 30,	
	2016	2015
	(in thousands, except percentages)	
Income (loss) before income taxes	\$(7,582)	\$28,160
Income tax expense	3,294	10,879
Effective tax rate	(43.4)%	38.6 %

The effective income tax rate was (43.4)% and 38.6% for the nine month periods ended September 30, 2016 and 2015, respectively. The rate was lower in the current period because of a \$2.8 million tax benefit from the reduction of deferred tax liabilities resulting from an impairment of intangible assets. Excluding the impairment, the effective tax rate related to ordinary income was 35.9%. The rate on ordinary income was higher in the prior year period because of changes resulting from a state tax examination and adjustments of estimated amounts related to prior-year foreign returns, each a result of the OnTargetJobs acquisition, and because of the cumulative effect of state tax legislation which affected our apportionment methodology.

Earnings (Loss) per Share

Basic and diluted earnings (loss) per share were \$(0.22) for the nine month period ended September 30, 2016 and \$0.33 for the nine month period ended September 30, 2015. The decreases were due to a decrease in net income, partially offset by decreased weighted-average shares outstanding due to stock repurchases. We recorded an impairment of goodwill and intangible assets of \$24.6 million or \$0.44 per diluted share related to the Global Industry Group segment.

Liquidity and Capital Resources

Non-GAAP Measures

We have provided certain non-GAAP financial information as additional information for our operating results. These measures are not in accordance with, or an alternative for measures in accordance with U.S. GAAP and may be different from similarly titled non-GAAP measures reported by other companies. We believe the presentation of non-GAAP measures, such as Adjusted EBITDA and Free Cash Flow, provides useful information to management and investors regarding certain financial and business trends relating to our financial condition and results of operations.

Table of Contents

Adjusted EBITDA

Adjusted EBITDA is a non-GAAP metric used by management to measure operating performance. Management uses Adjusted EBITDA as a performance measure for internal monitoring and planning, including preparation of annual budgets, analyzing investment decisions and evaluating profitability and performance comparisons between us and our competitors. We also use this measure to calculate amounts of performance based compensation under the senior management incentive bonus program. Adjusted EBITDA, as defined in our Credit Agreement as “Consolidated EBITDA”, represents net income plus (to the extent deducted in calculating such net income) interest expense, income tax expense, depreciation and amortization, non-cash stock option expenses, losses resulting from certain dispositions outside the ordinary course of business, certain writeoffs in connection with indebtedness, impairment charges with respect to long-lived assets, expenses incurred in connection with an equity offering or any other offering of securities by the Company, extraordinary or non-recurring non-cash expenses or losses, transaction costs in connection with the Credit Agreement up to \$250,000, deferred revenues written off in connection with acquisition purchase accounting adjustments, writeoff of non-cash stock compensation expense, and business interruption insurance proceeds, minus (to the extent included in calculating such net income) non-cash income or gains, interest income, and any income or gain resulting from certain dispositions outside of the ordinary course of business.

We present Adjusted EBITDA as a supplemental performance measure because we believe that this measure provides our board of directors, management and investors with additional information to measure our performance, provide comparisons from period to period and company to company by excluding potential differences caused by variations in capital structures (affecting interest expense) and tax positions (such as the impact on periods or companies of changes in effective tax rates or net operating losses), and to estimate our value.

We also present Adjusted EBITDA because covenants in our Credit Agreement contain ratios based on this measure. Our Credit Agreement is material to us because it is one of our primary sources of liquidity. If our Adjusted EBITDA were to decline below certain levels, covenants in our Credit Agreement that are based on Adjusted EBITDA may be violated and could cause a default and acceleration of payment obligations under our Credit Agreement. See Note 6 “Indebtedness” for additional information on the covenants for our Credit Agreement.

Adjusted EBITDA is not a measurement of our financial performance under U.S. GAAP and should not be considered as an alternative to net income, operating income or any other performance measures derived in accordance with U.S. GAAP as a measure of our profitability.

We understand that although Adjusted EBITDA is frequently used by securities analysts, lenders and others in their evaluation of companies, Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our liquidity or results as reported under U.S. GAAP. Some limitations are:

- Adjusted EBITDA does not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments;

- Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;

- Adjusted EBITDA does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments on your debt;

Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized often will have to be replaced in the future, and Adjusted EBITDA does not reflect any cash requirements for such replacements; and

- Other companies in our industry may calculate Adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure.

To compensate for these limitations, management evaluates our liquidity by considering the economic effect of excluded expense items independently, as well as in connection with its analysis of cash flows from operations and through the use of other financial measures, such as capital expenditure budget variances, investment spending levels and return on capital analysis.

Table of Contents

A reconciliation of Adjusted EBITDA for the nine month periods ended September 30, 2016 and 2015 (in thousands) follows:

	For the nine months ended September 30,	
	2016	2015
Reconciliation of Net Income (Loss) to Adjusted EBITDA:		
Net income (loss)	\$(10,876)	\$17,281
Interest expense	2,593	2,472

Severance—Slashdot Media	981	—
Change in accrual for unrecognized tax benefits	(166)	(172)
Change in accounts receivable	(8,047)	(3,437)
Change in deferred revenue	493	2,132
Changes in working capital and other	6,286	(5,483)
Adjusted EBITDA	\$43,780	\$55,820

Free Cash Flow

We define free cash flow as net cash provided by operating activities minus capital expenditures. We believe free cash flow is an important non-GAAP measure for management and investors as it provides useful cash flow information regarding our ability to service, incur or pay down indebtedness or repurchase our common stock. We use free cash flow as a measure to reflect cash available to service our debt as well as to fund our expenditures. A limitation of using free cash flow versus the U.S. GAAP measure of net cash provided by operating activities is free cash flow does not represent the total increase or decrease in the cash balance from operations for the period since it includes cash used for capital expenditures during the period.

We have summarized our free cash flow for the nine month periods ended September 30, 2016 and 2015 (in thousands).

Table of Contents

	For the nine months ended September 30,	
	2016	2015
Cash from operating activities	\$36,612	\$49,369
Purchases of fixed assets	(8,461)	(6,710)
Free cash flow	\$28,151	\$42,659

Cash Flows

We have summarized our cash flows for the nine month periods ended September 30, 2016 and 2015 (in thousands).

	For the nine months ended September 30,	
	2016	2015
Cash from operating activities	\$36,612	\$49,369
Cash from investing activities	(6,032)	(6,710)
Cash from financing activities	(34,894)	(35,919)

Cash from operating activities	\$36,612	\$49,369
Cash from investing activities	(6,032)	(6,710)
Cash from financing activities	(34,894)	(35,919)

We have financed our operations primarily through cash provided by operating activities and borrowings under our revolving credit facility. At September 30, 2016, we had cash of \$29.4 million compared to \$34.1 million at December 31, 2015. Cash held in non-United States jurisdictions totaled approximately \$23.4 million at September 30, 2016. This cash is indefinitely reinvested in those jurisdictions. Cash balances and cash generation in the United States, along with the unused portion of our revolving credit facility, is sufficient to maintain liquidity and meet our obligations without being dependent on our foreign cash and earnings.

Liquidity

Our principal internal source of liquidity is cash, as well as the cash flow that we generate from our operations. In addition, externally, we had \$158.0 million in borrowing capacity under our Credit Agreement at September 30, 2016. We believe that our existing cash, cash generated from operations and available borrowings under our Credit Agreement will be sufficient to satisfy our currently anticipated cash requirements through at least the next 12 months and the foreseeable future thereafter. However, it is possible that one or more lenders under the Credit Agreement may refuse or be unable to satisfy their commitment to lend to us or we may need to refinance our debt and be unable to do so. In addition, our liquidity could be negatively affected by a decrease in demand for our products and services. We may also make acquisitions and may need to raise additional capital through future debt financings or equity offerings to the extent necessary to fund such acquisitions, which we may not be able to do on a timely basis or on terms satisfactory to us or at all.

Operating Activities

Net cash from operating activities primarily consists of net income adjusted for certain non-cash items, including depreciation, amortization, changes in deferred tax assets and liabilities, stock based compensation, impairment of goodwill and intangible assets and the effect of changes in working capital. Net cash provided by operating activities was \$36.6 million and \$49.4 million for the nine month periods ended September 30, 2016 and 2015, respectively. The cash provided by operating activities during the 2016 period decreased primarily due to the timing of tax payments and a decrease in operating income.

Investing Activities

During the nine month period ended September 30, 2016, net cash used by investing activities was \$6.0 million compared to cash used of \$6.7 million in the nine month period ended September 30, 2015. Cash used by investing activities during the nine month period ended September 30, 2016 consisted of cash paid for purchase of fixed assets of \$8.5 million, partially offset by cash received on sale of Slashdot Media of \$2.4 million. Cash used by investing activities for the nine month period ended September 30, 2015 consisted of cash paid for the purchase of fixed assets of \$6.7 million.

Financing Activities

Cash used for financing activities during the nine month periods ended September 30, 2016 and 2015 was \$34.9 million and \$35.9 million, respectively. The cash used during the current period was primarily due to \$26.2 million of payments to repurchase the Company's common stock and \$9.0 million in net repayments on long-term debt. During the nine month period ended September 30, 2015, the cash used was primarily due to \$29.6 million of payments to repurchase the Company's common stock, \$8.9 million in net repayments on long-term debt, and \$3.8 million in payment of acquisition related contingencies related to The IT Job Board acquisition.

Table of Contents

Credit Agreement

In November 2015, we entered into an Amended and Restated Credit Agreement, which provides for a revolving loan facility of \$250.0 million, maturing in November 2020. The Company borrowed \$105.0 million under the new Credit Agreement to repay in full all outstanding indebtedness under the previously existing credit facility dated October 2013, terminating that agreement.

Borrowings under the Credit Agreement bear interest, at the Company's option, at a LIBOR rate or a base rate plus a margin. The margin ranges from 1.75% to 2.50% on LIBOR loans and 0.75% to 1.50% on base rate loans, determined by the Company's most recent consolidated leverage ratio. The facility may be prepaid at any time without penalty. The Credit Agreement contains various customary affirmative and negative covenants and also contains certain financial covenants, including a consolidated leverage ratio and a consolidated interest coverage ratio. Negative covenants include restrictions on incurring certain liens; making certain payments, such as stock repurchases and dividend payments; making certain investments; making certain acquisitions; and incurring additional indebtedness. Restricted payments are allowed under the Credit Agreement to the extent the consolidated leverage ratio, calculated on a pro forma basis, is equal to or less than 2.0 to 1.0, plus an additional \$5.0 million of restricted payments. The Credit Agreement also provides that the payment of obligations may be accelerated upon the occurrence of customary events of default, including, but not limited to, non-payment, change of control, or insolvency. As of September 30, 2016, the Company was in compliance with all of the financial covenants under the Credit Agreement. Refer to Note 6 in the Notes to the Condensed Consolidated Financial Statements.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Commitments and Contingencies

The following table presents certain minimum payments due and the estimated timing under contractual obligations with minimum firm commitments as of September 30, 2016:

	Payments due by period				
	Total	Less Than 1 Year	2-3 Years	4-5 Years	More Than 5 Years
	(in thousands)				
Credit Agreement	\$92,000	\$—	\$—	\$92,000	\$—
Operating lease obligations	23,895	1,169	8,495	7,000	7,231
Total contractual obligations	\$115,895	\$1,169	\$8,495	\$99,000	\$7,231

We make commitments to purchase advertising from online vendors which we pay for on a monthly basis. We have no significant long-term obligations to purchase a fixed or minimum amount with these vendors.

Our principal commitments consist of obligations under operating leases for office space and equipment and long-term debt. As of September 30, 2016, we had \$92.0 million outstanding under our Credit Agreement. Interest payments are due quarterly or at varying, specified periods (to a maximum of three months) based on the type of loan (LIBOR or base rate loan) we choose. See Note 6 "Indebtedness" in our condensed consolidated financial statements for additional information related to our Credit Agreement.

Future interest payments on our Credit Agreement are variable due to our interest rate being based on a LIBOR rate or a base rate. Assuming an interest rate of 2.56% (the rate in effect on September 30, 2016) on our current borrowings, interest payments are expected to be \$0.7 million for October through December 2016, \$5.8 million in 2017-2018, and \$5.6 million in 2019-2020.

As of September 30, 2016, we recorded approximately \$3.6 million of unrecognized tax benefits as liabilities, and we are uncertain if or when such amounts may be settled. Related to the unrecognized tax benefits considered permanent differences, we have also recorded a liability for potential penalties and interest. Included in the balance of unrecognized tax benefits at September 30, 2016 are \$3.6 million of tax benefits that if recognized, would affect the

effective tax rate. The Company

31

Table of Contents

believes it is reasonably possible that as much as \$1.5 million of its unrecognized tax benefits may be recognized in the next twelve months as a result of a lapse of the statute of limitations.

Cyclicalities

The labor market and certain of the industries that we serve have historically experienced short-term cyclicalities. However, we believe that the economic and strategic value provided by online career websites has led to an overall increase in the use of these services during the most recent labor market cycle. That increased usage has somewhat lessened the impact of cyclicalities on our businesses as compared to traditional offline competitors.

Any slowdown in recruitment activity that occurs will negatively impact our revenues and results of operations. Alternatively, a decrease in the unemployment rate or a labor shortage, including as a result of an increase in job turnover, generally means that employers (including our customers) are seeking to hire more individuals, which would generally lead to more job postings and database licenses and have a positive impact on our revenues and results of operations. Based on historical trends, improvements in labor markets and the need for our services generally lag behind overall economic improvements. Additionally, there has historically been a lag from the time customers begin to increase purchases of our recruitment services and the impact to our revenues due to the recognition of revenue occurring over the length of the contract, which can be several months to a year.

The significant increase in the unemployment rate and general reduction in recruitment activity experienced in 2008 through 2009 is an example of how economic conditions can negatively impact our revenues and results of operations. During 2010 and the first half of 2011, we saw a significant improvement in recruitment activity, resulting in revenue and customer growth. From the second half of 2011 into 2014, we saw tougher market conditions in our finance segment and a less urgent recruiting environment for technology professionals. Declines in oil prices in 2014 and 2015 and the continued volatility in 2016 have decreased demand for energy professionals worldwide. This decline in demand and any future declines in demand for energy professionals could significantly decrease the use of our energy industry job posting websites and related services. If recruitment activity continues to be slow in the industries in which we operate during 2016 and beyond, our revenues and results of operations will be negatively impacted.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We have exposure to financial market risks, including changes in foreign currency exchange rates, interest rates, and other relevant market prices.

Foreign Exchange Risk

We conduct business serving multiple markets, in four languages, mainly across Europe, Asia, Australia, and North America using the eFinancialCareers name. Rigzone, Dice Europe and Hcareers also conduct business outside the United States. For the nine month periods ended September 30, 2016 and 2015, approximately 26% and 28% of our revenues, respectively, were earned outside the United States and collected in local currency. We are subject to risk for exchange rate fluctuations between such local currencies and the British Pound Sterling and between local currencies and the United States dollar and the subsequent translation of the British Pound Sterling to United States dollars. We currently do not hedge currency risk. A decrease in foreign exchange rates during a period would result in decreased amounts reported in our Condensed Consolidated Balance Sheets, Condensed Consolidated Statements of Operations, Comprehensive Income, and of Cash Flows. For example, if foreign exchange rates between the British Pound Sterling and United States dollar decreased by 1.0%, the impact on our revenues during 2016 would have been a decrease of approximately \$219,000.

On June 23, 2016, the UK held a referendum in which British citizens approved an exit from the EU, commonly referred to as "Brexit." As a result of the referendum, the global markets and currencies have been adversely impacted, including a sharp decline in the value of the British Pound Sterling as compared to the United States dollar. Volatility in exchange rates is expected to continue in the short term as the UK negotiates its exit from the EU. We currently do not hedge our British Pound Sterling exposure and therefore are susceptible to currency risk. In the longer term, any impact from Brexit on us will depend, in part, on the outcome of tariff, trade, regulatory and other negotiations.

Although it is unknown what the result of those negotiations will be, it is possible that new terms may adversely affect our operations and financial results.

The financial statements of our non-United States subsidiaries are translated into United States dollars using current exchange rates, with gains or losses included in the cumulative translation adjustment account, which is a component of stockholders' equity. As of September 30, 2016 and December 31, 2015, our translation adjustment decreased stockholders' equity by \$29.3 million and \$20.5 million, respectively. The change from December 31, 2015 to September 30, 2016 is primarily attributable to the position of the United States dollar against the British Pound Sterling.

Table of Contents

Interest Rate Risk

We have interest rate risk primarily related to borrowings under our Credit Agreement. Borrowings under our Credit Agreement bear interest, at our option, at a LIBOR rate or base rate plus a margin. The margin ranges from 1.75% to 2.50% on the LIBOR loans and 0.75% to 1.50% on the base rate, as determined by our most recent consolidated leverage ratio. As of September 30, 2016, we had outstanding borrowings of \$92.0 million under our Credit Agreement. If interest rates increased by 1.0%, interest expense in the remainder of 2016 on our current borrowings would increase by approximately \$230,000.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We have established a system of controls and procedures designed to ensure that information required to be disclosed in our periodic reports filed under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), is recorded, processed, summarized and reported within the time periods specified by the Exchange Act and in the rules and forms of the Securities and Exchange Commission (the “SEC”). These disclosure controls and procedures have been evaluated under the direction of our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”) as of September 30, 2016. Based on such evaluations, our CEO and CFO have concluded that the disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified by the SEC, and that such information is accumulated and communicated to management, including the CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Controls

No change in our internal control over financial reporting (as defined in Rules 13a-15(f) under the Exchange Act) occurred during the quarter ended September 30, 2016 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II

Item 1. Legal Proceedings

From time to time we may be involved in disputes or litigation relating to claims arising out of our operations. We are currently not a party to any material pending legal proceedings.

Item 1A. Risk Factors

The UK’s impending departure from the EU could adversely affect us.

The UK held a referendum on June 23, 2016 in which a majority of voters voted to exit the EU (“Brexit”). Brexit could cause disruptions to and create uncertainty surrounding our business, including affecting our relationships with our existing and future customers and employees based in the UK and Europe. For example, if as a result of Brexit, financial institutions move all or a portion of their operations out of the UK, it may result in decreased demand for jobs in the financial sector in the UK and could negatively impact the performance of our eFinancialCareers business. Further, the potential loss of the EU “passport,” or any other potential restriction on free travel of UK citizens to Europe, and vice versa, could adversely impact the jobs market in general and our operations in Europe.

In addition, Brexit has resulted in significant volatility in the value of the British Pound Sterling and Euro currencies. Since our financial statements are denominated in U.S. dollars and we currently do not hedge currency risk, a decline in the value of the Pound or Euro may have an adverse impact on our financial condition and results of operations. In the short- to medium-term, because the UK is, and will continue to be for at least two years following official notification to withdraw, a member of the EU, the prospect of Brexit has not impacted UK data protection law. On July 12, 2016, however, the European Commission adopted the EU-U.S. Privacy Shield, which provides a framework for the transfer of personal data of EU data subjects, and on May 4, 2016, the EU General Data Protection Regulation (“GDPR”), which will replace Directive 95/46/EC (commonly referred to as the “Data Protection Directive”), was

formally published. The GDPR will go into effect on May 25, 2018 and as a regulation as opposed to a directive will be directly applicable in EU member states. Among other things, the GDPR applies to data controllers and processors outside the EU whose processing activities relate to the offering of goods or services to, or monitoring the behavior within the EU of, EU data subjects. The regulation of data privacy in the EU continues to evolve, and it is not possible to predict the ultimate content, and therefore the effect, of data protection regulation over time. The current uncertainty surrounding the outcome of the referendum on the UK's membership in

Table of Contents

the EU, and a likely withdrawal of the UK from the EU, could impact a range of EU regulations, including in respect of data protection. This uncertainty subjects us to substantial operational and compliance risk, the results of which could have a material adverse effect on our financial condition and results of operations.

The ultimate effects of Brexit are uncertain and will depend on any agreements the UK makes to retain access to EU markets either during a transitional period or more permanently. Brexit could adversely affect European and worldwide economic and market conditions and could contribute to instability in global financial and foreign exchange markets. In addition, Brexit is likely to lead to legal uncertainty, including uncertainty regarding taxation, and potentially divergent national laws and regulations as the UK determines which EU laws to replace or replicate. Any of these effects of Brexit, and others we cannot anticipate, could adversely affect our business, results of operations and financial condition.

We have disclosed under the heading “Risk Factors” in our Annual Report on Form 10-K the risk factors which materially affect our business, financial condition or results of operations. Except as otherwise described herein, as of November 1, 2016 there have been no material changes from the risk factors previously disclosed. You should carefully consider the risk factors set forth in the Annual Report on Form 10-K and the other information set forth elsewhere in this Quarterly Report on Form 10-Q. You should be aware that these risk factors and other information may not describe every risk facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Repurchases of Equity Securities

Our board of directors approved a stock repurchase program that permitted the Company to repurchase our common stock. Management has discretion in determining the conditions under which shares may be purchased from time to time. The following table summarizes the stock repurchase plans approved by the board of directors:

	V	VI
Approval Date	December 2014	December 2015
Authorized Repurchase Amount of Common Stock	\$50 million	\$50 million
Effective Dates	December 2014 to December 2015	December 2015 to December 2016

During the three months ended September 30, 2016, purchases of our common stock pursuant to the Stock Repurchase Plans were as follows:

(a) Total Number of Shares Purchased [1]	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	(d) Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
July 1 through July 31, 2016	\$ 6.70	410,000	\$22,313,000
—	—	—	22,313,000

August 1 through August 31, 2016			
September 1 through September 30, 2016	—	—	22,313,000
Total	\$ 6.70	410,000	

[1] No shares of our common stock were purchased other than through a publicly announced plan or program.

Item 5. Other Information

Appointment of Chief Financial Officer on Interim Basis

On October 30, 2016, the Board of Directors of the Company (the “Board”) appointed Michael Durney, our President and Chief Executive Officer, to the additional position of Chief Financial Officer of the Company on an interim basis until the filing

Table of Contents

of this Quarterly Report on Form 10-Q (the “Form 10-Q”). Upon the filing of this Form 10-Q, Mr. Durney will cease to be (and will be removed as) the Chief Financial Officer of the Company.

Appointment of Chief Financial Officer

On November 1, 2016, the Company announced that Luc Grégoire, 56, joined the Company as Chief Financial Officer, effective upon the filing of this Form 10-Q (the “Employment Commencement Date”). Mr. Grégoire will be responsible for the Company’s financial organization, including financial and strategic planning, corporate development, accounting, financial reporting, investor relations, treasury, internal audit and tax, as well as the Company’s legal organization.

Prior to joining the Company, Mr. Grégoire served as the Chief Financial Officer of Avepoint, Inc. since 2014. From 2008 until 2014 Mr. Grégoire served as Senior Vice President, Finance of Take Two Interactive, Inc.

Employment Agreement with Luc Grégoire

In connection with the employment of Mr. Grégoire as Chief Financial Officer of the Company, Dice Inc., a subsidiary of the Company, and Mr. Grégoire have entered into an employment agreement, dated as of November 1, 2016 (the “Employment Agreement”). Mr. Grégoire’s annual base salary will be \$340,000, prorated for calendar year 2016. Mr. Grégoire’s annual target cash bonus will be 50% of his base salary and his bonus with respect to calendar year 2016 will be at least \$50,000.

In connection with Mr. Grégoire’s appointment and pursuant to the Company’s 2012 Omnibus Equity Award Plan, on the Employment Commencement Date, Mr. Grégoire will receive restricted shares of the Company’s common stock (the “Restricted Shares”) valued at \$400,000. Mr. Grégoire will also be eligible to receive a grant of Restricted Shares valued at \$50,000 and a target number of performance share units valued at \$200,000 at the same time annual grants are made to other senior executives in 2017.

The Employment Agreement contains a covenant not to engage in any business that competes with the Company during the term of his employment and for a period of twelve months thereafter, and a covenant not to solicit employees during the term of his employment and for a period of twelve months thereafter.

If Mr. Grégoire’s employment with the Company is terminated by the Company without Cause (as defined in the Employment Agreement) at any time prior to a Change of Control (as defined in the Employment Agreement), upon his execution of a release, Mr. Grégoire would be entitled to receive (i) a lump-sum severance payment equal to 100% of his then-current annual base salary, (ii) a pro-rata bonus and (iii) accelerated vesting with respect to 25% of the shares of common stock underlying Mr. Grégoire’s then-unvested equity-based awards. If Mr. Grégoire’s employment is terminated by the Company without Cause, or by him for Good Reason (as defined in the Employment Agreement), in either case during the 12-month period following a Change of Control of the Company, upon his execution of a release, Mr. Grégoire would be entitled to receive (i) a lump-sum severance payment equal to 100% of his then-current annual base salary, (ii) the amount of his then-current bonus target and (iii) accelerated vesting with respect to 100% of his outstanding equity-based awards (if any). Upon any termination by the Company without Cause or by Mr. Grégoire for Good Reason, subject to his execution of a release, Mr. Grégoire would be entitled to reimbursement for the cost of COBRA coverage, in excess of the cost of such benefits that active employees are required to pay, for a period of 12 months following termination.
