DIVIDEND REINVESTMENT PLANS

Each Fund offers an automatic dividend reinvestment program. If Fund shares are registered in your name and you are not already reinvesting dividends but would like to do so, contact the dividend plan agent, Mellon Investor Services, L.L.C., at 800 851-9677. You will be asked to put your request in writing. If you have shares registered in "street" name, contact your financial advisor or the broker/dealer holding the shares.

Under the current policies of Arizona Municipal Income Fund, Florida Insured Municipal Income Fund, Minnesota Municipal Income Fund I, and Minnesota Municipal Income Fund II, all distributions of net investment income and capital gains to common stock shareholders are automatically reinvested in additional shares unless shareholders elect to receive all dividends and other distributions in cash paid by check mailed directly to shareholders by the dividend plan agent. Under the current policies of Colorado Insured Municipal Income Fund and Minnesota Municipal Income Fund III, distributions of net investment income and capital gains to common shareholders will be paid in cash unless shareholders notify Mellon Investor Services, L.L.C. of their desire to participate in the dividend reinvestment program.

After each Fund declares a dividend or determines to make a capital gains distribution, the plan agent will, as agent for the participants, receive the cash payment and use it to buy shares in the open market on the American Stock Exchange. The Funds will not issue any new shares in connection with the plan. You can contact Mellon at:

Mellon Investor Services, L.L.C.
Dividend Reinvestment Department
Overpeck Centre
85 Challenger Road
Ridgefield, NJ 07660
800 851-9677

Funds are not FDIC insured and are not guaranteed. It is possible to lose the principal amount invested.

Mutual fund advisory services provided by Delaware Management Company, a series of Delaware Management Business Trust, which is a registered investment advisor.

Q: PLEASE DESCRIBE THE OVERALL CONDITIONS IN THE MUNICIPAL BOND MARKETS DURING THE FISCAL YEAR.

A: During the fiscal year, the Federal Reserve embarked upon a tightening program to gradually eliminate the accommodative stance that has been in place since 2002-03. Just prior to the start of the fiscal year, the market was anticipating a higher federal funds rate, and rates across the yield curve moved up. For example, the 10-year Treasury Note had yields increase by over 100 basis points (a basis point equals 1/100th of a percent) from 3.68% on March 16, 2004

to a high of 4.87% on June 14, 2004. As bond yields and bond prices are inversely related, this was a particularly difficult period for bondholders.

However, the municipal bond market dug in its heels and rallied over the next several months, even while the Federal Reserve started its tightening program. The June 30 hike in the fed funds rate from 1.00% to 1.25% was the first of several moves during the fiscal year, with additional 25-basis point increases coming in August, September, November, December, February and March. At the end of the fiscal year, the rate was 2.75%.

A market rally in the face of a Federal Reserve tightening is unusual. Recent tightenings have resulted in the bond markets making an initial move to higher rates, similar to what we witnessed in the second quarter of 2004, followed by a period of consolidation before resuming a march to even higher rates. This time the rally started in June, before the first move by the Fed, and lasted over four months, until the end of October. During this period, yields on the 10-year Treasury Note decreased to 3.97%, nearly erasing all the market decline from earlier in the fiscal year.

Since the end of September, the market has been range-bound with relatively narrow market moves. One of the economic releases providing support to the market against the tightening backdrop has been the monthly employment report. It was higher-than-anticipated non-farm payroll data that spooked the market in April, May and June, and several very weak releases that sparked the rally in the months following. Slightly-below trend releases of late have kept the market range-bound.

Late in the fiscal year, persistent declines in the weekly jobless claims reports, along with higher commodity prices, contributed to market weakness and, as of March 31, 2005, yields in the bond markets were rising and threatening to break out of their recent range on the high side.

In the long maturities, tax-exempt bonds outperformed taxable bonds early in the fiscal year, but since May, have steadily traded weaker against Treasury bonds, as the yield ratio between the 30-year maturities moved from 92.3% in mid-May to 96.9% at the period's end. One of the factors leading to the underperformance of long bonds in the municipal market was the lack of retail demand. Often, a 5% yield for long, high-grade tax-exempt bonds is viewed as an on/off switch for retail investors. When yields fall below 5%, we believe investors are much less interested in buying. Since May, the yields have declined from just above 5% to close the fiscal year at about 4.60%.

Finally, just as it did in fiscal year 2004, credit performed well as spreads continued to compress. For intermediate and long-term tax-exempt bonds, the yield offered to "buy" credit, as defined by the spreads between AAA and BBB-rated securities, narrowed by nearly 25 basis points. This narrowing spread helped A and BBB-rated sectors outperform the higher rated AA and AAA rated sectors during the year. Over the last five years, there is very little difference between the returns in the various rating categories, as the period three and four years ago was difficult for states and municipalities (recall all the fiscal stress and budget shortfalls), which caused their credit spreads to widen.

1

MINNESOTA MUNICIPAL INCOME FUNDS I, II, AND III

Q: WHAT CONDITIONS PREVAILED IN THE MINNESOTA DEBT MARKET?

A: Consistent with activity the previous year, the Minnesota tax-exempt debt market mirrored the national markets. Yields on long-term, high-grade Minnesota bonds were virtually unchanged in the fiscal year, only moving three basis points from 4.57% on March 31, 2004 to 4.60% on March 31, 2005 (source: Municipal Marketing Data [Thompson]). During the 12 months ending March 31,

2005, the Minnesota portion of the Lehman Municipal Bond Index generated a 2.36% total return, 31 basis points below the 2.67% total return of the overall index. Fully half of that difference is due to the influence of California bonds on the overall index. Since a state fiscal crisis in 2003, California bonds have come off their depressed levels, tightened to the general market and posted significantly higher returns. Over the last 12 months, the Lehman Municipal Bond Index, excluding California, would have returned 2.51%.

The supply of new issues decreased nationally during 2004, while new issuance in Minnesota held steady. Nationally, the supply was down 6.6%, but still represented the third most active year in history, exceeded only by 2003 and 2002. During the same time period, Minnesota experienced a modest 2% increase over 2003's new issuance. Some of the decline in issuance nationally was erased in the first quarter of 2005, when the total volume of new issues set a record in the first quarter, with more than \$96 billion brought to market. In Minnesota, issuance was up by over 38% from the volume in the first quarter of last year.

Minnesota's fiscal condition improved during the year, with revenues increasing by over 5.1% in fiscal 2004. Employment expanded at a 1.4% clip over the last year, with manufacturing bucking the national downward trend and growing at an even better 2.2% pace. Unemployment at fiscal year end stood at 4.2%, below the national rate of 5.4%. Expectations of a budget shortfall continue to ratchet down as the Legislature is in the midst of its biennial budget process. As part of that process, the governor has proposed cutbacks in the eligibility for Medicare, attempting to rein in the spending within the health and human services area from its current 18% growth rate.

Recognizing the strong performance by the state, Standard & Poor's upgraded Minnesota's school enhancement program bonds from AA+ to AAA, impacting about \$1.5 billion of school district bond issues, in the third quarter of 2004. A positive change in statutory requirements for debt service reserves resulted in Moody's upgrading general obligation ratings of numerous Minnesota cities and counties. During calendar year 2004, the rating agencies upgrade-to-downgrade ratio for Minnesota was over 20 to 1, with many of the upgrades for general obligation bonds issued by counties, cities, and school districts.

Q: AGAINST THIS BACKDROP, HOW DID THE FUNDS PERFORM?

A: For the fiscal year ended March 31, 2005, the Delaware Investments Minnesota Municipal Income Funds I, II, & III returned 2.87%, 4.03%, and 3.03%* (all returns reflect shares at net asset value with distributions reinvested), respectively, while the Lipper Minnesota Municipal Debt Funds universe average returned 3.62%, and the Lehman Brothers Municipal Bond Index returned 2.67% during the same period. The Funds' dividends from net investment income during the past 12 months were exempt from federal income and Minnesota State personal income taxes.

Q: WHAT STRATEGIES AFFECTED FUND PERFORMANCE?

A: The Funds hold a fair amount of seasoned, higher coupon bonds that trade based on their short call dates (the date at which the issuer may call the bond at par from investors). As portfolio managers, we must decide whether to sell these bonds early, forfeit the higher coupon, and realize a capital gain in order to seek better price performance. We did not believe the low-interest-rate environment and the commencing of the Fed tightening cycle was the proper time to sell early, and therefore, opted to allow our positions to roll down the yield curve. By rolling down the yield curve, we allowed them to be called or mature. This afforded us the opportunity to collect high coupon income as long as possible, while minimizing realized capital gains in the portfolios. However, these shorter bonds did impede price performance when yields declined in the second half of 2004.

Normally, when the Fed begins to raise the fed funds rate, longer-term rates

begin to rise in tandem. However, this tightening cycle was unusual in the fact that long-term rates actually declined. Federal Reserve Chairman Alan Greenspan called this phenomenon a "conundrum" in recent testimony to Congress. Therefore, as the bonds did roll off, we chose to invest the proceeds in premium bonds that should act more defensively in a rising-rate environment. That rising-rate environment was slow to develop in 2004, but rates have ended the first quarter higher than calendar year-end.

*Past performance is not a guarantee of future results and a portion of the income from tax-exempt funds may be subject to the alternative minimum tax.

2

Over the last two years, lower-rated bonds outperformed higher quality bonds. For instance, over the last 12 months, in the Lehman Municipal Bond Index, triple-A rated bonds returned 1.88%, while single-A bonds returned 3.41%, and triple-B bonds returned 8.56%. Within the Minnesota Municipal Income Funds, Fund II had a lower weighting in triple-A rated bonds than its counterparts. Conversely, it had a higher weighting in lower-rated bonds, and thus superior return.

Other key contributors to return in the Funds have been the hospital sector and IDR/PCR sector, which includes corporate bonds. Our funds have always had a strong commitment to the hospital sector, which over the trailing 12 months has had the second highest sector return (+5.44%) in the Lehman index. We have a smaller commitment to the corporate sector, but do favor certain industrial development projects secured by companies, such as Potlatch and International Paper. These securities have performed well for the funds.

Q: WHAT WAS YOUR STRATEGY IN MANAGING THE MINNESOTA FUNDS?

A: With interest rates at historically low levels throughout the period, we anticipated an eventual rise in rates and continued to position the three portfolios for such a scenario. Specifically, we kept the Funds' durations relatively modest to make the portfolios less vulnerable in the event rates increase (duration is a common measure of a bond or bond fund's sensitivity to interest rate changes. The longer the duration, the more sensitive the bond or bond fund is to changes in interest rates). The Funds' durations did naturally lengthen throughout the past 12 months as bonds matured from the portfolios and we were forced to reinvest the proceeds at lower prevailing yields. This activity was manageable throughout the period, however, and as of March 31, 2005, we believed the Fund was well-positioned for the higher interest rates.

When making new investments, we continued to emphasize public-power revenue bonds, which at period end made up 30.7%, 11.9%, and 21.8% of portfolio assets in Minnesota Municipal Income Funds I, II, and III, respectively. Our focus was on basic utilities, which provide essential services such as electric generation, transmission, and distribution. Unlike their investor-owned counterparts, the regulated utilities we favored provided relatively stable revenue streams. We also liked that most bonds in this area are insured, giving the Funds an extra layer of security. Because there was a healthy supply of public power bonds during the period, we were able to add to our position in this sector.

We also favored the hospital sector during the period. Following a number of credit problems in the late 1990s and early 2000s, most hospitals have had improvements in their financial strength. Despite these improvements, we believe many hospital bonds are still trading at somewhat depressed levels, given the steady credit improvements made. Through careful research, we have sought to identify attractive value opportunities that we believe can offer higher yields with only a modest amount of additional risk. By contrast, continuing care retirement community (CCRC) bonds represented one area of the market that we de-emphasized. We had concerns about the issuers' ability to meet lofty

occupancy-rate targets at these care facilities for seniors.

ARIZONA MUNICIPAL INCOME FUND

Q: WHAT CONDITIONS PREVAILED IN THE ARIZONA DEBT MARKET?

A: While the Arizona tax-exempt debt markets mirrored the national markets, certain aspects of the municipal market within Arizona resulted in the state's municipal bond market underperforming national averages. During the 12 months ending March 31, 2005, the Arizona portion of the Lehman Brothers Municipal Bond Index generated a 1.97% total return, 70 basis points below the 2.67% total return of the overall Lehman index. Nationally, most bond issues come to market with long-term bonds (typically due in 25 and 30 years) as part of the issue structure. Within Arizona, a large percentage of the issuance comes with maximum maturities of 20 years. As a result, the average maturity of the Arizona portion of the index is approximately 1.5 years less than the overall index.

*Past performance is not a guarantee of future results and a portion of the income from tax-exempt funds may be subject to the alternative minimum tax.

3

These short maturities in Arizona are important to note because the best performing maturities within the tax-exempt market over the last 12 months have been long bonds. As mentioned, the overall index had a total return of 2.67% during the period. That compares with the Lehman Brothers Long Bond Index (bonds over 22 years to maturity) return of 5.46% during the same time period. It is easy to see why Arizona lagged behind the national market in such an environment.

During the calendar year 2004, supply of new issues decreased nationally, but was higher in Arizona. Nationally, the supply was down 6.6%, but still represented the third most active year in history, exceeded only by 2003 and 2002. Arizona's new issuance rose by 15% for the year. These roles reversed in the first quarter of 2005, with national supply setting a record and Arizona experiencing a particularly dry period. The total volume of new issues set a record for issuance in the first quarter, with more than \$96 billion brought to market. In Arizona, the issuance was down by over 40% from last year's levels.

Arizona's fiscal condition improved during the year, with revenues increasing by more than 10% in fiscal 2004 and accelerated to 14% growth in the first quarter of fiscal year 2005. Growth was driven by both the strong economic environment and tax increases. Employment continues to expand at a rapid pace within the state, with unemployment falling over the last 12 months from 5.3% to 4.4%. One of the strongest areas of expansion is construction, with employment growth surging 8.8% over the fiscal year. Overall, this growth has enabled the state to generate a healthy balance in its general fund of 4% at the end of fiscal 2004.

The growth is not limited to the state. Pima County had its general obligation rating raised by Standard & Poor's from A+ to AA- in the second quarter of 2004. The rating agency noted the expansion of the county's tax base as a driver of the higher rating.

Q: AGAINST THIS BACKDROP, HOW DID THE FUND PERFORM?

A: For the fiscal year ended March 31, 2005, the Delaware Investments Arizona Municipal Income Fund returned 3.34%* (shares at net asset value with distributions reinvested), underperforming the Lipper Other States Municipal Debt Funds Average of 3.73%, but outperforming the Lehman Brothers Municipal Bond Index return of 2.67% during the same period. The Fund's dividends from net income during the past 12 months were exempt from federal income and Arizona State personal income taxes.

Q: WHAT STRATEGIES AFFECTED FUND PERFORMANCE?

A: The Fund underperformed its Lipper peer group for two primary reasons - calls of high coupon housing bonds and a heavy weighting in pre-refunded bonds. As the portfolio has seasoned, several of its positions in housing bonds, both multi- and single-family structures, were getting into the range where calls (the issuer redeeming the bonds at 100 or a slight premium prior to final maturity) were beginning to make economic sense for the issuer. In this most recent fiscal year, many of these issues were called. Our exposure to the housing sectors decreased during the year from 7.09% at the beginning to 5.8% as of March 31, 2005. The combined housing bond sectors generated a below-average return of about 1.30% during the year. While this is low, it is important to recognize the defensive nature of these bonds, with little price performance opportunities, up or down.

Another factor affecting fund performance has been an overweighting in pre-refunded bonds. Pre-refunded bonds are seasoned, higher coupon bonds that trade to short calls. While they produce above-average income, their short duration impedes price performance. As portfolio managers, we must decide whether to sell these bonds early, forfeit the higher coupon, and realize a capital gain in order to seek better price performance. We did not believe the low interest rate environment and the commencing of the Fed tightening cycle was the proper time to execute this strategy. Normally, when the Fed begins to raise the fed funds rate, longer-term rates begin to rise in tandem. However, this tightening cycle was unusual in the fact that long-term rates actually declined. Federal Reserve Chairman Alan Greenspan called this a "conundrum" in recent testimony to Congress.

One of the strategies that paid off during the year was an investment in mid- and low-investment-grade bonds (A- and BBB-rated). Lower grade bonds have performed well, and we have invested approximately 5.9% of the assets in low-investment-grade issues, which generated a 5.56% total return over the last 12 months. It is important to note that the Fund has no exposure to below-investment-grade issues.

*Past performance is not a guarantee of future results and a portion of the income from tax-exempt funds may be subject to the alternative minimum tax.

4

In addition, we reinvested maturity and called bond proceeds in some longer-term securities, which happened to be our best performers in the 12-month trailing period. However, that did not represent a large enough portion of the portfolio to have a significant impact on the Fund's return. Since Greenspan's testimony, longer rates have now begun to rise.

FLORIDA INSURED MUNICIPAL INCOME FUND

Q: WHAT CONDITIONS PREVAILED IN THE FLORIDA DEBT MARKET?

A: Consistent with activity the previous year, the Florida tax-exempt debt markets mirrored the national markets. Yields on long-term high-grade Florida bonds were virtually unchanged in the fiscal year, only moving one basis point from a 4.65% on March 31, 2004 to 4.64% on March 31, 2005 (source: Municipal Marketing Data [Thompson]). During the 12 months ending March 31, 2005, the Florida portion of the Lehman Brothers Municipal Bond Index slightly outperformed the overall index.

The supply of new issues decreased both nationally and in the state during calendar year 2004. Nationally, the supply was down 6.6%, but still represented the third most active year in history, exceeded only by 2003 and 2002. Florida's new issuance was down dramatically, falling by nearly 40% for the year. Some of the decline, nationally and specifically within Florida, was erased in the first quarter of 2005. In fact, the total volume of new issues set a record for issuance in the first quarter with more than \$96 billion brought to market. In

Florida, issuance was up by more than 67% from the depressed levels of last year.

Florida's fiscal condition improved during the year, with revenues increasing 9.1% in fiscal 2004 and accelerated with 12.7% growth the first quarter of fiscal 2005. Employment continues to expand at a rapid pace within the state. It rose while the rest of the nation lost jobs. As a result, unemployment was down to 4.5% in February 2005. This has enabled state finances to remain strong and the state benefited by generating the highest general fund balance of any state, standing at \$5.0 billion.

This strong performance by the state was recognized by the ratings agencies, and both Moody's and Standard & Poor's rewarded Florida by upgrading its general obligation bonds (to Aa1 and AAA, respectively) in the first quarter of 2005.

In his fiscal 2005-06 budget proposal, the governor has included a two-year phase out of the state's Intangibles Tax. This tax was reduced in 1999 with an intention of phasing it out, but the budget squeeze in the early 2000's forced the state to keep the tax as an important revenue source. Elimination of the state's intangibles tax would cost Florida approximately \$300 million per year in lost revenues. We are closely monitoring the situation.

Q: AGAINST THIS BACKDROP, HOW DID THE FUND PERFORM?

A: For the fiscal year ended March 31, 2005, the Delaware Investments Florida Insured Municipal Income Fund returned 1.59%* (shares at net asset value with distributions reinvested), underperforming both the Lipper Florida Municipal Debt Funds Universe average of 3.72% and the Lehman Brothers Municipal Bond Index return of 2.67% during the same period. The Fund's dividends from net investment income during the past 12 months were exempt from federal income and Florida tangible personal property taxes.

Q: WHAT STRATEGIES AFFECTED FUND PERFORMANCE?

A: The Fund underperformed its Lipper peer group and the Lehman Index primarily due to the nature of the Fund being largely a triple-A insured fund. Over the last two years, triple-A bonds have underperformed lower-rated securities. For instance, over this 12-month period, in the Lehman Brothers Municipal Bond Index, triple-A rated bonds returned 1.88%, while single-A bonds returned 3.41%, and triple-B bonds returned 8.56%. Although we cannot change the insured mandate of the Fund, we can state that we have found, over time, that these discrepancies revert to the mean. For instance, over a five-year cumulative period, the triple-A sector return for the Lehman Brothers Municipal Bond Index was 34%, while the single-A sector return was 32%, and the triple-B sector was 39%.

*Past performance is not a guarantee of future results and a portion of the income from tax-exempt funds may be subject to the alternative minimum tax.

5

Another factor affecting performance of the Fund has been an overweighting in pre-refunded bonds. Pre-refunded bonds are seasoned, higher coupon bonds that trade to short calls. While they produce above average income, their short duration impedes price performance. As portfolio managers, we must decide whether to sell these bonds early, forfeit the higher coupon, and realize a capital gain in order to seek better price performance. We did not believe the low-interest-rate environment and the commencing of the Fed tightening cycle was the proper time to execute this strategy. Normally, when the Fed begins to raise the fed funds rate, longer-term rates begin to rise in tandem. However, this tightening cycle was unusual in that long-term rates actually declined. Federal Reserve Chairman Alan Greenspan called this phenomenon a "conundrum" in recent testimony to Congress.

We did, however, reinvest maturity and called bond proceeds in some longer-term securities, which happened to be our best performers in the 12-month trailing period. However, this did not represent a large enough portion of the portfolio to have a significant impact on the Fund's return. Since Greenspan's testimony, longer rates have now begun to rise.

COLORADO INSURED MUNICIPAL INCOME FUND

Q: WHAT CONDITIONS PREVAILED IN THE COLORADO DEBT MARKET?

A: After underperforming the general market substantially in the previous fiscal year, the Colorado municipal market generated total returns that were close to market levels. During the 12 months ending March 31, 2005, the Colorado portion of the Lehman Index generated a 2.37% total return, 30 basis points below the 2.67% total return of the overall Lehman Brothers Municipal Bond Index. Fully half of that difference is due to the influence of California bonds in the overall index. Since its fiscal crisis in 2003, California bonds have come off their depressed levels, tightened to the general market, and posted significantly higher returns. In fact, over the last 12 months, the Lehman index, excluding California, would have returned 2.51%.

During calendar year 2004, supply of new issues decreased nationally, but was higher in Colorado. Nationally, the supply was down 6.6%, but still represented the third most active year in history, exceeded only by 2003 and 2002. Colorado's new issuance rose by 22% for the year. These roles reversed in first quarter 2005, with national supply setting a record and Colorado experiencing a particularly dry period. The total volume of new issues set a record for issuance in the first quarter, with more than \$96 billion brought to market. In Colorado, the issuance was down by more than 20% from last year's levels.

Colorado is rebounding from the severe economic downturn it experienced at the beginning of the decade due to the decline in telecommunications and technology. State revenues increased 5.1% in fiscal 2004 after declining 5.1% in fiscal 2003. Revenue growth accelerated into this fiscal year, increasing 6.5% in the first quarter of fiscal 2005. The state is starting to rebuild its general fund balance, with a fiscal 2004-ending balance equaling about 3.9% of expenditures. Unemployment has declined over the last year from 5.8% to 4.9%. The bond market will be closely monitoring the budgeting process as the Governor has proposed an \$850 million tobacco settlement bond issue, part of the proceeds to go to operating income and part to help create a "rainy day" fund.

Growth is not limited to state government. While there were not any significant ratings changes within Colorado during the fiscal year, Moody's upgraded the general obligation ratings of several school districts' bonds. In most of these upgrades, the ratings agency noted the expansion of the tax base as one of the drivers of the higher ratings.

Q: AGAINST THIS BACKDROP, HOW DID THE FUND PERFORM?

A: For the fiscal year ended March 31, 2005, the Delaware Investments Colorado Insured Municipal Income Fund returned 2.56%* (shares at net asset value with distributions reinvested), underperforming the Lipper Other States Municipal Debt Funds Universe average of 3.73% and the Lehman Brothers Municipal Bond Index return of 2.67% during this period. The Fund's dividends from net investment income during the past 12 months were exempt from federal income and Colorado State personal income taxes.

*Past performance is not a guarantee of future results and a portion of the income from tax-exempt funds may be subject to the alternative minimum tax.

Q: WHAT STRATEGIES AFFECTED FUND PERFORMANCE?

A: The Fund underperformed its Lipper peer group primarily due to the nature of

the Fund being largely a triple-A insured fund. Over the last two years, triple-A bonds have underperformed lower-rated securities. For instance, over this 12-month period, in the Lehman Brothers Municipal Bond Index, triple-A rated bonds returned 1.88%, while single-A bonds returned 3.41%, and triple-B bonds returned 8.56%. Although we cannot change the insured mandate of the Fund, we can state that we have found, over time, that these discrepancies revert to the mean. For instance, over a cumulative five-year period, the triple-A sector return for the Lehman Brothers Municipal Bond Index was 34%, while the single-A sector return was 32%, and the triple-B sector 39%.

Another factor affecting performance has been an overweighting in bonds with medium durations. Due to the seasoning of the portfolio, many bonds that were originally purchased with 10-year call protection are now being priced based on shorter calls that are now in the three- to seven-year range. The three- and five-year portions of the Lehman index only returned 0.09% and 0.26% over the period, the worst of any maturities. Longer bonds, with more than 22 years to maturity, were the best-performing sector, with a 5.46% total return over the fiscal year.

Seasoned bonds generally are higher coupon bonds that were purchased in a higher yield environment. While they produce above-average income, their short duration can impede price performance. As portfolio managers, we must decide whether to sell these bonds early, forfeit the higher coupon, and realize a capital gain in order to seek better price performance. We did not believe the low interest rate environment and the commencing of the Fed tightening cycle was the proper time to execute this strategy. Normally, when the Fed begins to raise the fed funds rate, longer-term rates begin to rise in tandem. However, this tightening cycle was unusual in that long-term rates actually declined. Federal Reserve Chairman Alan Greenspan even called this a "conundrum" in recent testimony to Congress.

We did, however, reinvest maturity and called bond proceeds in some longer-term securities, which happened to be among our best performers in the 12-month trailing period. However, that did not represent a large enough portion of the portfolio to have a significant impact on the Fund's return. Since Greenspan's testimony, longer rates have now begun to rise. Currently, we are maintaining a modestly defensive position, holding a duration (a measure of the portfolio's sensitivity to interest rate changes) of 4.8 years, below that of both its Lipper peer group (5.5 year average) and the Lehman Brothers Municipal Bond Index (5.45 years).

*Past performance is not a guarantee of future results and a portion of the income from tax-exempt funds may be subject to the alternative minimum tax.

YOUR FUND MANAGERS:

Joseph Baxter is vice president and senior portfolio manager of municipal bond investments. Prior to joining Delaware in 1999, he held investment positions with First Union. Most recently, he served as a municipal portfolio manager for the Evergreen Funds. Mr. Baxter is a graduate of LaSalle University and joined Delaware Investments in 1999.

Robert Collins is vice president and senior portfolio manager of municipal bond development. Prior to joining Delaware Investments, Mr. Collins was a senior vice president and director of portfolio management in the Municipal Investment Group within PNC Advisors. Mr. Collins earned bachelor's degree in economics from Ursinus College. He is a Chartered Financial Analyst and a member of the Financial Analysts of Philadelphia.

Denise Franchetti received bachelor's and MBA degrees from LaSalle University. Prior to joining Delaware Investments in 1997, Ms. Franchetti was a fixed-income trader for Provident Mutual Life Insurance Company. Before that, she worked as an investment analyst for General Accident Insurance Company. Ms. Franchetti, a CFA Charterholder, is a member of the Association for Investment Management and Research and the Financial Analysts of Philadelphia.

SECTOR ALLOCATION As of March 31, 2005

The SEC adopted a requirement that all funds present their categories of portfolio holdings in a table, chart, or graph format in their annual and semiannual shareholder reports, whether or not a schedule of investments is utilized. The following charts list the Fund's categories of portfolio holdings as a percentage of total net assets and is provided in compliance with such requirement.

*Pre-Refunded Bonds are municipals that are generally backed or secured by U.S. Treasury bonds. For Pre-Refunded Bonds, the stated maturity is followed by the year in which the bond is pre-refunded. See Note 6 in "Notes to Financial Statements."

&An inverse floater bond is a type of bond with variable or floating interest rates that move in the opposite direction of short-term interest rates. Interest rate disclosed is in effect as of March 31, 2005. Illiquid security see Note 6 in "Notes to Financial Statements."

oVariable rate notes. The interest rate shown is the rate as of March 31, 2005.

SUMMARY OF ABBREVIATIONS:

- AMBAC - Insured by the AMBAC Assurance Corporation
- AMT - Subject to Alternative Minimum Tax
- FGIC - Insured by the Financial Guaranty Insurance Company
- FHA - Insured by the Federal Housing Administration
- FSA - Insured by Financial Security Assurance
- GNMA - Insured by the Government National Mortgage Association
- MBIA - Insured by the Municipal Bond Insurance Association
- RADIAN - Insured by Radian Asset Assurance
- ROs - Residual Option Longs
- VA - Insured by the Veterans Administration

*Pre-Refunded Bonds are municipals that are generally backed or secured by U.S. Treasury bonds. For Pre-Refunded Bonds, the stated maturity is followed by the year in which the bond is pre-refunded. See Note 6 in "Notes to Financial Statements."

&An inverse floater bond is a type of bond with variable or floating interest

rates that move in the opposite direction of short-term interest rates.
Interest rate disclosed is in effect as of March 31, 2005. Illiquid security
see Note 6 in "Notes to Financial Statements."

oVariable rate notes. The interest rate shown is the rate as of March 31, 2005.

RATIOS AND SUPPLEMENTAL DATA:			
Net assets applicable to common shares, end of period (000 omitted)	\$37,738	\$38,978	\$40,122
Ratio of expenses to average net assets applicable to common shares(3)	1.27%	1.20%	1.21%
Ratio of net investment income to average net assets applicable to common shares(3)	6.12%	6.57%	7.35%
Ratio of net investment income to average net assets applicable to common shares net of dividends to preferred shares(4)	5.31%	5.90%	6.68%
Portfolio turnover	12%	50%	38%
LEVERAGE ANALYSIS:			
Value of preferred shares outstanding (000 omitted)	\$20,000	\$20,000	\$20,000
Net asset coverage per share of preferred shares, end of period	\$144,344	\$147,445	\$150,306
Liquidation value per share of preferred shares(5)	\$50,000	\$50,000	\$50,000

- (1) As required, effective April 1, 2001, the Fund adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies that require amortization of all premiums and discounts on debt securities. The effect of this change for the year ended March 31, 2002 was an increase in net investment income per share of \$0.006, a decrease in net realized and unrealized gain (loss) per share of \$0.006, and an increase in the ratio of net investment income to average net assets of 0.04%. Per share data and ratios for periods prior to April 1, 2001 have not been restated to reflect this change in accounting.
- (2) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for the purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.
- (3) Ratios do not reflect the effect of dividend payments to preferred shareholders.
- (4) Ratio reflects total net investment income less dividends paid to preferred shareholders from net investment income divided by average net assets applicable to common shareholders.
- (5) Excluding any accumulated but unpaid dividends.

See accompanying notes

- (1) As required, effective April 1, 2001, the Fund adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies that require amortization of all premiums and discounts on debt securities. The effect of this change for the year ended March 31, 2002 was an increase in net investment income per share of \$0.007, a decrease in net realized and unrealized gain (loss) per share of \$0.007, and an increase in the ratio of net investment income to average net assets of 0.04%. Per share data and ratios for periods prior to April 1, 2001 have not been restated to reflect this change in accounting.
- (2) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for the purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.
- (3) Ratios do not reflect the effect of dividend payments to preferred shareholders.
- (4) Ratio reflects total net investment income less dividends paid to preferred shareholders from net investment income divided by average net assets

applicable to common shareholders.

(5) Excluding any accumulated but unpaid dividends.

NOTES
TO FINANCIAL STATEMENTS

DELAWARE INVESTMENTS CLOSED-END MUNICIPAL BOND FUNDS
March 31, 2005

Delaware Investments Minnesota Municipal Income Fund, Inc. ("Minnesota Municipal Fund"); Delaware Investments Minnesota Municipal Income Fund II, Inc. ("Minnesota Municipal Fund II"); Delaware Investments Minnesota Municipal Income Fund III, Inc. ("Minnesota Municipal Fund III"); Delaware Investments Arizona Municipal Income Fund, Inc. ("Arizona Municipal Fund"); and Delaware Investments Colorado Insured Municipal Income Fund, Inc. ("Colorado Insured Municipal Fund") are organized as Minnesota corporations and Delaware Investments Florida Insured

Municipal Income Fund ("Florida Insured Municipal Income Fund") is organized as a Massachusetts Business Trust (each referred to as a "Fund" and collectively as the "Funds"). The Minnesota Municipal Fund II, Florida Insured Municipal Fund and Arizona Municipal Fund are diversified closed-end management investment companies and Minnesota Municipal Fund, Minnesota Municipal Fund III and Colorado Insured Municipal Fund are non-diversified closed-end management investment companies under the Investment Company Act of 1940, as amended. The Funds' shares trade on the American Stock Exchange.

The investment objective of each Fund is to provide high current income exempt from federal income tax and from the personal income tax of its state, if any, consistent with the preservation of capital. Florida Insured Municipal Fund will generally seek investments that will enable its shares to be exempt from Florida's intangible personal property tax. Each Fund will seek to achieve its investment objective by investing substantially all of its net assets in investment grade, tax-exempt municipal obligations of its respective state.

1. SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies are in accordance with U.S. generally accepted accounting principles and are consistently followed by the Funds.

Security Valuation -- Long-term debt securities are valued by an independent pricing service and such prices are believed to reflect the fair value of such securities. Short-term debt securities having less than 60 days to maturity are valued at amortized cost, which approximates market value. Other securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith under the direction of the Funds' Board of Trustees/Directors.

Federal Income Taxes -- Each Fund intends to continue to qualify for federal income tax purposes as a regulated investment company and make the requisite distributions to shareholders. Accordingly, no provision for federal income taxes has been made in the financial statements.

Use of Estimates -- The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Other -- Expenses common to all funds within the Delaware Investments Family of Funds are allocated amongst the Funds on the basis of average net assets. Management fees and some other expenses are paid monthly. Security transactions are recorded on the date the securities are purchased or sold (trade date). Costs used in calculating realized gains and losses on the sale of investment securities are those of the specific securities sold. Interest income is recorded on the accrual basis. Discounts and premiums are amortized to interest income over the lives of the respective securities. Each Fund declares and pays dividends from net investment income monthly and distributions from net realized gain on investments, if any, annually. In addition, in order to satisfy certain distribution requirements of the Tax Reform Act of 1986, the Funds may declare special year-end dividend and capital gains distributions during November or December to shareholders of record on a date in such month. Such distributions, if received by shareholders by January 31, are deemed to have been paid by the Funds and received by shareholders on the earlier of the date paid or December 31 of the prior year.

Expenses Paid Indirectly -- The Funds receive earnings credits from their custodian when positive cash balances are maintained, which are used to offset custody fees. The expense paid under the above arrangement is included in custodian fees on the Statements of Operations with the corresponding expense

Edgar Filing: DELAWARE INVESTMENTS FLORIDA INSURED MUNICIPAL INCOME FUND - Form N-CSR

offset shown as expenses paid indirectly. The amount of the expense for each Fund for the year ended March 31, 2005 was as follows:

	Minnesota Municipal Fund -----	Minnesota Municipal Fund II -----	Minnesota Municipal Fund III -----	Arizona Municipal Fund -----	Florida Municipal Fund -----
Earnings credits	\$2,197	\$4,763	\$1,712	\$2,861	\$

2. INVESTMENT MANAGEMENT, ADMINISTRATION AGREEMENTS AND OTHER TRANSACTIONS WITH AFFILIATES

In accordance with the terms of its respective investment management agreement, each Fund pays Delaware Management Company (DMC), a series of Delaware Management Business Trust and the investment manager, an annual fee of 0.40% which is calculated daily based on the average daily net assets of each Fund, including assets attributable to any preferred stock that may be outstanding.

As of September 1, 2004, DMC has voluntarily agreed to waive that portion, if any, of its management fee and reimburse the Minnesota Municipal Fund to the extent necessary to ensure that annual operating expenses, exclusive of taxes, interest, brokerage commissions, remarketing and rating agency fees, certain insurance costs and extraordinary expenses, do not exceed 0.72% of average daily net assets of the Fund, including assets attributable to any preferred stock that may be outstanding, through September 30, 2005. This waiver may be revoked at any time.

The Funds have engaged Delaware Service Company, Inc., (DSC), an affiliate of DMC, to provide accounting and administration services which are based on average net assets and paid on a monthly basis, subject to certain minimums.

37

NOTES DELAWARE INVESTMENTS CLOSED-END MUNICIPAL BOND FUNDS TO FINANCIAL STATEMENTS (CONTINUED)

2. INVESTMENT MANAGEMENT, ADMINISTRATION AGREEMENTS AND OTHER TRANSACTIONS WITH AFFILIATES (CONTINUED)

At March 31, 2005, the Funds had liabilities payable to affiliates as follows:

	Minnesota Municipal Fund -----	Minnesota Municipal Fund II -----	Minnesota Municipal Fund III -----	Arizona Municipal Fund -----
Investment management fee payable to DMC	\$19,357	\$56,242	\$13,631	\$23,429
Accounting, administration, and other expenses payable to DSC	15,125	16,903	22,735	15,302
Other expenses payable to DMC and affiliates*	6,388	15,336	3,844	7,292

*DMC, as part of its administrative services, pays operating expenses on behalf of the Funds and is reimbursed on a periodic basis. Such expenses include items such as printing of shareholder reports, fees for audit, legal and tax services, stock exchange fees, custodian fees, and director/trustees fees.

As provided in the investment management agreement, the Funds bear the cost of certain legal services expenses, including internal legal services provided to

Edgar Filing: DELAWARE INVESTMENTS FLORIDA INSURED MUNICIPAL INCOME FUND - Form N-CSR

the Funds by DMC employees. For the year ended March 31, 2005, the Delaware Investments Minnesota Municipal Income Fund, Delaware Investments Minnesota Municipal Income Fund II, Delaware Investments Minnesota Municipal Income Fund III, Delaware Investments Arizona Municipal Income Fund, Delaware Investments Florida Insured Municipal Income Fund, and Delaware Investments Colorado Insured Municipal Income Fund were charged \$1,263, \$2,959, \$765, \$1,230, \$1,064, and \$2,209, respectively, for internal legal services provided by DMC.

Certain officers of DMC and DSC are officers, and or directors/trustees of the Funds. These officers and directors/trustees are paid no compensation by the Funds.

3. INVESTMENTS

For the year ended March 31, 2005, the Funds made purchases and sales of investment securities other than short-term investments as follows:

	Minnesota Municipal Fund -----	Minnesota Municipal Fund II -----	Minnesota Municipal Fund III -----	Arizona Municipal Fund -----
Purchases	\$6,788,141	\$24,615,474	\$4,725,790	\$5,794,702
Sales	7,483,510	28,404,831	5,829,100	7,485,212

At March 31, 2005, the cost of investments and unrealized appreciation (depreciation) for federal income tax purposes for each Fund were as follows:

	Minnesota Municipal Fund -----	Minnesota Municipal Fund II -----	Minnesota Municipal Fund III -----	Arizona Municipal Fund -----
Cost of investments	\$55,128,768 =====	\$157,691,301 =====	\$38,006,719 =====	\$63,354,559 =====
Aggregate unrealized appreciation	\$ 2,121,448	\$ 7,168,613	\$ 1,868,447	\$ 3,421,433
Aggregate unrealized depreciation	(209,015)	(611,131)	(102,935)	(154,344)
Net unrealized appreciation	\$ 1,912,433 =====	\$ 6,557,482 =====	\$ 1,765,512 =====	\$ 3,267,089 =====

38

NOTES DELAWARE INVESTMENTS CLOSED-END MUNICIPAL BOND FUNDS TO FINANCIAL STATEMENTS (CONTINUED)

4. DIVIDEND AND DISTRIBUTION INFORMATION

Income and long-term capital gain distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles. Additionally, net short-term gains on sales of investment securities are treated as ordinary income for federal income tax purposes. The tax character of dividends and distributions paid during the years ended March 31, 2005 and 2004 was as follows:

	Minnesota Municipal Fund -----	Minnesota Mu -----
	3/31/05	3/31/04

Edgar Filing: DELAWARE INVESTMENTS FLORIDA INSURED MUNICIPAL INCOME FUND - Form N-CSR

Tax-exempt income	\$2,744,238	\$2,538,026	\$8,535,622

Ordinary Income	--	--	14,636
Long-term capital gain	261,818	123,426	143,726
	-----	-----	-----
Total	\$3,007,584	\$2,731,448	\$5,404,037
	=====	=====	=====

As of March 31, 2005, the components of net assets on a tax basis were as follows:

	Minnesota Municipal Fund	Minnesota Municipal Fund
	-----	-----
Paid in capital	\$35,426,619	\$ 99,710,000
Undistributed tax-exempt income	389,101	2,250,617
Undistributed long-term gains	9,441	--
Capital loss carry forward	--	(560,224)
Unrealized appreciation	1,912,433	6,557,482
	-----	-----
Net assets	\$37,737,594	\$107,957,875
	=====	=====

	Arizona Municipal Fund	Florida Insured Municipal Fund
	-----	-----
Paid in capital	\$40,838,893	\$33,361,389
Undistributed tax-exempt income	765,316	799,507
Undistributed long-term gains	64,461	24,324
Unrealized appreciation	3,267,089	2,980,833
	-----	-----
Net assets	\$44,935,759	\$37,166,053
	=====	=====

The difference between book basis and tax basis components of net assets are primarily attributable to tax treatment of market discounts on debt instruments.

4. DIVIDEND AND DISTRIBUTION INFORMATION (CONTINUED)

For financial reporting purposes, capital accounts are adjusted to reflect the tax character of permanent book/tax differences. For the year ended March 31, 2005, the Funds recorded the following reclassifications. Reclassifications are primarily due to tax treatment of market discounts on certain debt instruments and the expiration of capital loss carryforwards. Results of operations and net assets were not affected by these reclassifications.

	Minnesota Municipal Fund -----	Minnesota Municipal Fund -----
Undistributed net investment income	\$34,059	\$2,247
Accumulated realized gain (loss) on investments	(34,059)	(2,247)
Paid-in capital	--	--
		Arizona Municipal Fund -----
Undistributed net investment income		\$(3,156)
Accumulated realized gain (loss) on investments		3,156

For federal income tax purposes in 2005, certain Funds had accumulated capital losses as of March 31, 2005, which may be carried forward and applied against future capital gains. Such capital loss carryforward amounts will expire as follows:

	2006 -----	2008 -----	2009 -----	2010 -----
Minnesota Municipal Fund II	\$ --	\$376,004	\$175,804	\$8,416
Minnesota Municipal Fund III	6,539	56,856	153,308	--

For federal income tax purposes, in 2005 Minnesota Municipal Income Funds II and Minnesota Municipal Income Funds III utilized \$266,585 and \$119,447, respectively, of capital loss carryforwards from prior years. Capital loss carryforward of \$336,219 expired in 2005 for Minnesota Municipal Income Fund III.

5. CAPITAL STOCK

Pursuant to their articles of incorporation, Minnesota Municipal Fund, Minnesota Municipal Fund II, Minnesota Municipal Fund III, Arizona Municipal Fund and Colorado Insured Municipal Fund each have 200 million shares of \$0.01 par value common shares authorized. Florida Insured Municipal Fund has been authorized to issue an unlimited amount of \$0.01 par value common shares. The Funds did not repurchase any shares under the Share Repurchase Program during the year ended March 31, 2005. Shares issuable under the Funds' dividend reinvestment plan are

purchased by the Funds' transfer agent, Mellon Investor Services, LLC, in the open market.

For the year ended March 31, 2005, the Funds did not have any transactions in common shares.

The Funds each have one million shares of \$0.01 par value preferred shares authorized, except for Florida Insured Municipal Fund, which has an unlimited amount of \$0.01 par value preferred shares authorized. Under resolutions adopted by the Board of Directors, Minnesota Municipal Fund is allowed to issue up to 400 preferred shares, of which the entire amount was issued on August 6, 1992. On May 14, 1993, Minnesota Municipal Fund II, Arizona Municipal Fund and Florida Insured Municipal Fund issued 1,200, 500 and 400 preferred shares, respectively. On December 10, 1993, Minnesota Municipal Fund III issued 300 preferred shares and on September 23, 1993, Colorado Insured Municipal Fund issued 800 preferred shares. The preferred shares of each Fund have a liquidation preference of \$50,000 per share plus an amount equal to accumulated but unpaid dividends.

Dividends for the outstanding preferred shares of each Fund are cumulative at a rate established at the initial public offering and are typically reset every 28 days based on the results of an auction. Dividend rates (adjusted for any capital gain distributions) ranged during the year ended March 31, 2005 as follows:

Fund ----	Low ---		High ----
Minnesota Municipal Fund	1.02%	to	2.60%
Minnesota Municipal Fund II	1.00%	to	2.40%
Minnesota Municipal Fund III	1.05%	to	2.40%
Arizona Municipal Fund	0.95%	to	2.30%
Florida Insured Municipal Fund	0.95%	to	2.40%
Colorado Insured Municipal Fund	0.97%	to	2.35%

Salomon Smith Barney, Inc. and Merrill Lynch Pierce, Fenner & Smith Inc. (Colorado Insured Municipal Fund only), as the remarketing agents, receive an annual fee from each of the Funds of 0.25% of the average amount of preferred stock outstanding.

Under the 1940 Act, the Funds may not declare dividends or make other distributions on common shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding preferred stock is less than 200%. The preferred shares are redeemable at the option of the Funds, in whole or in part, on any dividend payment date at \$50,000 per share plus any accumulated but unpaid dividends whether or not declared. The preferred shares are also subject to mandatory redemption at \$50,000 per share plus any accumulated but unpaid dividends whether or not declared, if certain requirements relating to the composition of the assets and liabilities of each Fund are not satisfied. The holders of preferred shares have voting rights equal to the holders of common shares (one vote per share) and will vote together with holders of common shares as a single class. However, holders of preferred shares are also entitled to elect two of each Fund's Directors. In addition, the 1940 Act requires that along with approval by shareholders that might otherwise be required, the approval of the holders of a majority of any outstanding preferred shares, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the preferred shares, and (b) take any action requiring a vote of security holders pursuant of Section 13(a) of the 1940 Act, including, among

other things, changes in each of the Fund's subclassification as a closed-end investment company or changes in their fundamental investment restrictions.

NOTES
DELAWARE INVESTMENTS CLOSED-END MUNICIPAL BOND FUNDS
TO FINANCIAL STATEMENTS (CONTINUED)

6. CREDIT AND MARKET RISKS

The Funds concentrate their investments in securities issued by municipalities. The value of these investments may be adversely affected by new legislation within the states, regional or local economic conditions, and differing levels of supply and demand for municipal bonds. Many municipalities insure repayment for their obligations. Although bond insurance reduces the risk of loss due to default by an issuer, such bonds remain subject to the risk that market value may fluctuate for other reasons and there is no assurance that the insurance company will meet its obligations. These securities have been identified in the Statements of Net Assets.

The Funds may invest in inverse floating rate securities ("inverse floaters"), a type of derivative tax-exempt obligation with floating or variable interest rates that move in the opposite direction of short-term interest rates, usually at an accelerated speed. Consequently, the market values of inverse floaters will generally be more volatile than other tax-exempt investments. Such securities are denoted on the Statements of Net Assets.

The Funds may invest in advanced refunded bonds, escrow secured bonds or defeased bonds. Under current federal tax laws and regulations, state and local government borrowers are permitted to refinance outstanding bonds by issuing new bonds. The issuer refinances the outstanding debt to either reduce interest costs or to remove or alter restrictive covenants imposed by the bonds being refinanced. A refunding transaction where the municipal securities are being refunded within 90 days or less from the issuance of the refunding issue is known as a "current refunding". "Advance refunded bonds" are bonds in which the refunded bond issue remains outstanding for more than 90 days following the issuance of the refunding issue. In an advance refunding, the issuer will use the proceeds of a new bond issue to purchase high grade interest bearing debt securities which are then deposited in an irrevocable escrow account held by an escrow agent to secure all future payments of principal and interest and bond premium of the advance refunded bond. Bonds are "escrowed to maturity" when the proceeds of the refunding issue are deposited in an escrow account for investment sufficient to pay all of the principal and interest on the original interest payment and maturity dates. Bonds are considered "pre-refunded" when the refunding issue's proceeds are escrowed only until a permitted call date or dates on the refunded issue with the refunded issue being redeemed at that time, including any required premium. Bonds become "defeased" when the rights and interests of the bondholders and their lien on the pledged revenues or other security under the terms of the bond contract are substituted with an alternative source of revenues (the escrow securities) sufficient to meet payments of principal and interest to maturity or to the first call dates. Escrowed secured bonds will often receive a rating of AAA from Moody's, S&P, and/or Fitch due to the strong credit quality of the escrow securities and the irrevocable nature of the escrow deposit agreement.

Each Fund may invest up to 15% of its net assets in illiquid securities, which may include securities with contractual restrictions on resale, securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended, and other securities which may not be readily marketable. The relative illiquidity of these securities may impair the Fund from disposing of them in a timely manner and at a fair price when it is necessary or desirable to do so. Such securities are denoted on the Statements of Net Assets.

7. CONTRACTUAL OBLIGATIONS

The Funds enter into contracts in the normal course of business that contain a variety of indemnifications. The Funds' maximum exposure under these arrangements is unknown. However, the Funds have not had prior claims or losses pursuant to these contracts. Management has reviewed the Funds' existing contracts and expects the risk of loss to be remote.

8. TAX INFORMATION (UNAUDITED)

The information set forth is for each Fund's fiscal year end as required by federal laws. Shareholders, however, must report distributions on a calendar year basis for income tax purposes, which may include distributions for portions of two fiscal years of a fund. Accordingly, the information needed by shareholders for income tax purposes will be sent to them in January of each year. Please consult your tax advisor for proper treatment of this information.

For the fiscal year ended March 31, 2005, each Fund designates distributions paid during the year as follows:

	Long-Term Capital Gains Distributions	Ordinary Income Distributions	Tax Exempt Income	To Distri (Tax
	-----	-----	-----	-----
Minnesota Municipal Fund	1%	1%	98%	
Minnesota Municipal Fund II	--	1%	99%	
Minnesota Municipal Fund III	--	--	100%	
Arizona Municipal Fund	2%	3%	95%	
Florida Insured Municipal Fund	9%	--	91%	
Colorado Insured Municipal Fund	3%	--	97%

REPORT

OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors/Trustees

Delaware Investments Minnesota Municipal Income Fund, Inc.
 Delaware Investments Minnesota Municipal Income Fund II, Inc.
 Delaware Investments Minnesota Municipal Income Fund III, Inc.
 Delaware Investments Arizona Municipal Income Fund, Inc.
 Delaware Investments Florida Insured Municipal Income Fund
 Delaware Investments Colorado Insured Municipal Income Fund, Inc.

We have audited the accompanying statements of net assets of Delaware Investments Minnesota Municipal Income Fund, Inc., Delaware Investments Minnesota Municipal Income Fund II, Inc., Delaware Investments Minnesota Municipal Income Fund III, Inc., Delaware Investments Arizona Municipal Income Fund, Inc., Delaware Investments Florida Insured Municipal Income Fund and Delaware Investments Colorado Insured Municipal Income Fund, Inc. ("the Funds"), as of March 31, 2005, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company

Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of March 31, 2005, by correspondence with the custodian and brokers. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the respective Funds at March 31, 2005, the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended, and their financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

DELAWARE INVESTMENTS FAMILY OF FUNDS
 BOARD OF TRUSTEES/DIRECTORS AND OFFICERS ADDENDUM

A mutual fund is governed by a Board of Trustees/Directors ("Trustees"), which has oversight responsibility for the management of a fund's business affairs. Trustees establish procedures and oversee and review the performance of the investment manager, the distributor and others that perform services for the fund. The independent fund trustees, in particular, are advocates for shareholder interests. The following is a list of the Trustees and Officers with certain background and related information.

(1) Delaware Investments is the marketing name for Management Holdings, Inc. and its subsidiaries, including the Fund's(s') investment advisor, principal underwriter and its transfer agent.

(2) Mr. Driscoll is considered to be an "Interested Trustee" because he is an executive officer of the Fund's(s') manager and distributor.

(3) Mr. Bishof, Ms. Maestro and Mr. O'Connor also serve in similar capacities

for the six portfolios of the Optimum Fund Trust, which have the same investment advisor, principal underwriter, and transfer agent as the registrant.

The Statement of Additional Information for the Fund(s) includes additional information about the Trustees/Directors and Officers and is available, without charge, upon request by calling 800 523-1918.

Item 2. Code of Ethics

The registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party. A copy of the registrant's Code of Business Ethics has been posted on Delaware Investments' internet website at www.delawareinvestments.com. Any amendments to the Code of Business Ethics, and information on any waiver from its provisions granted by the registrant, will also be posted on this website within five business days of such amendment or waiver and will remain on the website for at least 12 months.

Item 3. Audit Committee Financial Expert

The registrant's Board of Trustees/Directors has determined that each member of the registrant's Audit Committee is an audit committee financial expert, as defined below. For purposes of this item, an "audit committee financial expert" is a person who has the following attributes:

a. An understanding of generally accepted accounting principles and financial statements;

b. The ability to assess the general application of such principles in connection with the accounting for estimates, accruals, and reserves;

c. Experience preparing, auditing, analyzing, or evaluating financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of issues that can reasonably be expected to be raised by the registrant's financial statements, or experience actively supervising one or more persons engaged in such activities;

d. An understanding of internal controls and procedures for financial reporting; and

e. An understanding of audit committee functions.

An "audit committee financial expert" shall have acquired such attributes through:

a. Education and experience as a principal financial officer, principal accounting officer, controller, public accountant, or auditor or experience in one or more positions that involve the performance of similar functions;

b. Experience actively supervising a principal financial officer, principal accounting officer, controller, public accountant, auditor, or person performing similar functions;

c. Experience overseeing or assessing the performance of companies or public accountants with respect to the preparation, auditing, or evaluation of financial statements; or

d. Other relevant experience.

The registrant's Board of Trustees/Directors has also determined that each member of the registrant's Audit Committee is independent. In order to be "independent" for purposes of this item, the Audit Committee member may not: (i) other than in his or her capacity as a member of the Board of Trustees/Directors or any committee thereof, accept directly or indirectly any consulting, advisory or other compensatory fee from the issuer; or (ii) be an "interested person" of the registrant as defined in Section 2(a)(19) of the Investment Company Act of 1940.

The names of the audit committee financial experts on the registrant's Audit Committee are set forth below:

Thomas L. Bennett(1)
Thomas F. Madison
Janet L. Yeomans(1)
J. Richard Zecher

Item 4. Principal Accountant Fees and Services

(a) Audit fees.

The aggregate fees billed for services provided to the registrant by its independent auditors for the audit of the registrant's annual financial statements and for services normally provided by the independent auditors in connection with statutory and regulatory filings or engagements were \$18,950 for the fiscal year ended March 31, 2005.

The aggregate fees billed for services provided to the registrant by its independent auditors for the audit of the registrant's annual financial statements and for services normally provided by the independent auditors in connection with statutory and regulatory filings or engagements were \$16,950 for the fiscal year ended March 31, 2004.

(1) The instructions to Form N-CSR require disclosure on the relevant experience of persons who qualify as audit committee financial experts based on "other relevant experience." The Board of Trustees/Directors had determined that Mr. Bennett qualifies as an audit committee financial expert by virtue of his education, Chartered Financial Analyst designation, and his experience as a credit analyst, portfolio manager and the manager of other credit analysts and portfolio managers. The Board of Trustees/Directors has determined that Ms. Yeomans qualifies as an audit committee financial expert by virtue of her education and experience as the Treasurer of a large global corporation.

(b) Audit-related fees.

The aggregate fees billed by the registrant's independent auditors for services relating to the performance of the audit of the registrant's financial statements and not reported under paragraph (a) of this Item were \$6,695 for the fiscal year ended March 31, 2005. The percentage of these fees relating to services approved by the registrant's Audit Committee pursuant to the de minimis exception from the pre-approval requirement in Rule 2-01(c)(7)(i)(C) of Regulation S-X was 0%. These audit-related services were as follows: agreed upon procedures with respect to the preferred stock rating agency reports.

The aggregate fees billed by the registrant's independent auditors for services relating to the performance of the audit of the financial statements of the registrant's investment adviser and other service providers under common control with the adviser and that relate directly to the operations or financial reporting of the Registrant were \$21,350 for the Registrant's fiscal year ended March 31, 2005. The percentage of these fees relating to services approved by the registrant's Audit Committee pursuant to the de minimis exception from the pre-approval requirement in Rule 2-01(c)(7)(i)(C) of Regulation S-X was 0%. These audit-related services were as follows: issuance of agreed-upon procedures reports to the registrant's Board in connection with the annual fund accounting service agent contract renewal and the pass-through of internal legal costs relating to the operations of the Registrant.

The aggregate fees billed by the registrant's independent auditors for services relating to the performance of the audit of the registrant's financial statements and not reported under paragraph (a) of this Item were \$9,900 for the fiscal year ended March 31, 2004. The percentage of these fees relating to services approved by the registrant's Audit Committee pursuant to the de minimis exception from the pre-approval requirement in Rule 2-01(c)(7)(i)(C) of Regulation S-X was 0%. These audit-related services were as follows: quarterly agreed upon procedures with respect to the preferred stock rating agency reports.

The aggregate fees billed by the registrant's independent auditors for services relating to the performance of the audit of the financial statements of the registrant's investment adviser and other service providers under common control with the adviser and that relate directly to the operations or financial reporting of the registrant were \$15,750 for the registrant's fiscal year ended March 31, 2004. The percentage of these fees relating to services approved by the registrant's Audit Committee pursuant to the de minimis exception from the pre-approval requirement in Rule 2-01(c)(7)(i)(C) of Regulation S-X was 0%. These audit-related services were as follows: issuance of agreed-upon procedures reports to the registrant's Board in connection with the annual fund accounting service agent contract renewal and the pass-through of internal legal costs relating to the operations of the Registrant.

(c) Tax fees.

The aggregate fees billed by the registrant's independent auditors for tax-related services provided to the registrant were \$1,750 for the fiscal year ended March 31, 2005. The percentage of these fees relating to services approved by the registrant's Audit Committee pursuant to the de minimis exception from the pre-approval requirement in Rule 2-01(c)(7)(i)(C) of Regulation S-X was 0%. These tax-related services were as follows: review of income tax return and review of annual excise distribution calculation.

The aggregate fees billed by the registrant's independent auditors for tax-related services provided to the registrant's investment adviser and other service providers under common control with the adviser and that relate directly to the operations or financial reporting of the Registrant were \$0 for the registrant's fiscal year ended March 31, 2005.

The aggregate fees billed by the registrant's independent auditors for tax-related services provided to the registrant were \$1,250 for the fiscal year ended March 31, 2004. The percentage of these fees relating to services approved by the registrant's Audit Committee pursuant to the de minimis exception from the pre-approval requirement in Rule 2-01(c)(7)(i)(C) of Regulation S-X was 0%. These tax-related services were as follows: review of income tax return and review of annual excise distribution calculation.

The aggregate fees billed by the registrant's independent auditors for tax-related services provided to the registrant's adviser and other service providers under common control with the adviser and that relate directly to the operations or financial reporting of the registrant were \$0 for the Registrant's fiscal year ended March 31, 2004.

(d) All other fees.

The aggregate fees billed for all services provided by the independent auditors to the Registrant other than those set forth in paragraphs (a), (b) and (c) of this Item were \$0 for the fiscal year ended March 31, 2005.

The aggregate fees billed for all services other than those set forth in paragraphs (b) and (c) of this Item provided by the registrant's independent auditors to the registrant's adviser and other service providers under common control with the adviser and that relate directly to the operations or financial reporting of the registrant were \$0 for the registrant's fiscal year ended March 31, 2005.

The aggregate fees billed for all services provided by the independent auditors to the registrant other than those set forth in paragraphs (a), (b) and (c) of this Item were \$0 for the fiscal year ended March 31, 2004.

The aggregate fees billed for all services other than those set forth in paragraphs (b) and (c) of this Item provided by the registrant's independent auditors to the registrant's adviser and other service providers under common control with the adviser and that relate directly to the operations or financial reporting of the registrant were \$0 for the registrant's fiscal year ended March 31, 2004.

(e) The registrant's Audit Committee has not established pre-approval policies and procedures as permitted by Rule 2-01(c)(7)(i)(B) of Regulation S-X.

(f) Not applicable.

(g) The aggregate non-audit fees billed by the registrant's independent auditors for services rendered to the registrant and to its investment adviser and other service providers under common control with the adviser were \$235,079 and \$166,625 for the registrant's fiscal years ended March 31, 2005 and March 31, 2004, respectively.

(h) In connection with its selection of the independent auditors, the registrant's Audit Committee has considered the independent auditors' provision of non-audit services to the registrant's investment adviser and other service providers under common control with the adviser that were not required to be pre-approved pursuant to Rule 2-01(c)(7)(ii) of Regulation S-X. The Audit

Committee has determined that the independent auditors' provision of these services is compatible with maintaining the auditors' independence.

Item 5. Audit Committee of Listed Registrants

The registrant has a separately-designated standing Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The members of the registrant's Audit Committee are Thomas L. Bennett, Thomas F. Madison, Janet L. Yeomans and J. Richard Zecher.

Item 6. Schedule of Investments

Included as part of report to shareholders filed under Item 1 of this Form N-CSR.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies

The registrant has formally delegated to its investment adviser(s) (including any sub-adviser) (the "Adviser") the ability to make all proxy voting decisions in relation to portfolio securities held by the registrant. If and when proxies need to be voted on behalf of the registrant, the Adviser will vote such proxies pursuant to its Proxy Voting Policies and Procedures (the "Procedures"). The Adviser has established a Proxy Voting Committee (the "Committee") which is responsible for overseeing the Adviser's proxy voting process for the registrant. One of the main responsibilities of the Committee is to review and approve the Procedures to ensure that the Procedures are designed to allow the Adviser to vote proxies in a manner consistent with the goal of voting in the best interests of the registrant.

In order to facilitate the actual process of voting proxies, the Adviser has contracted with Institutional Shareholder Services ("ISS") to analyze proxy statements on behalf of the registrant and other Adviser clients and vote proxies generally in accordance with the Procedures. The Committee is responsible for overseeing ISS's proxy voting activities. If a proxy has been voted for the registrant, ISS will create a record of the vote. Information (if any) regarding how the registrant voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge (i) through the registrant's website at <http://www.delawareinvestments.com>; and (ii) on the Commission's website at <http://www.sec.gov>.

The Procedures contain a general guideline that recommendations of company management on an issue (particularly routine issues) should be given a fair amount of weight in determining how proxy issues should be voted. However, the Adviser will normally vote against management's position when it runs counter to its specific Proxy Voting Guidelines (the "Guidelines"), and the Adviser will also vote against management's recommendation when it believes that such position is not in the best interests of the registrant.

As stated above, the Procedures also list specific Guidelines on how to vote proxies on behalf of the registrant. Some examples of the Guidelines are as follows: (i) generally vote for shareholder proposals asking that a majority or more of directors be independent; (ii) generally vote against proposals to require a supermajority shareholder vote; (iii) votes on mergers and acquisitions should be considered on a case-by-case basis, determining whether the transaction enhances shareholder value; (iv) generally vote against proposals to create a new class of common stock with superior voting rights; (v) generally vote re-incorporation proposals on a case-by-case basis; (vi) votes

with respect to management compensation plans are generally determined on a case-by-case basis; (vii) generally vote for reports on the level of greenhouse gas emissions from a company's operations and products; and (viii) generally vote for proposals requesting the company to report on its policies and practices related to social, environmental and economic sustainability.

Because the registrant has delegated proxy voting to the Adviser, the registrant is not expected to encounter any conflict of interest issues regarding proxy voting and therefore does not have procedures regarding this matter. However, the Adviser does have a section in its Procedures that addresses the possibility of conflicts of interest. Most proxies which the Adviser receives on behalf of the registrant are voted by ISS in accordance with the Procedures. Because almost all registrant proxies are voted by ISS pursuant to the pre-determined Procedures, it normally will not be necessary for the Adviser to make an actual determination of how to vote a particular proxy, thereby largely eliminating conflicts of interest for the Adviser during the proxy voting process. In the very limited instances where the Adviser is considering voting a proxy contrary to ISS's recommendation, the Committee will first assess the issue to see if there is any possible conflict of interest involving the Adviser or affiliated persons of the Adviser. If a member of the Committee has actual knowledge of a conflict of interest, the Committee will normally use another independent third party to do additional research on the particular proxy issue in order to make a recommendation to the Committee on how to vote the proxy in the best interests of the registrant. The Committee will then review the proxy voting materials and recommendation provided by ISS and the independent third party to determine how to vote the issue in a manner which the Committee believes is consistent with the Procedures and in the best interests of the registrant.

Item 8. Portfolio Managers of Closed-End Management Investment Companies

Applicable to Form N-CSRs filed for fiscal years ending on or after December 31, 2005.

Item 9. Purchases of Equity Securities by Closed-End Management Investment Companies and Affiliated Purchasers

Not applicable.

Item 10. Submission of Matters to a Vote of Security Holders

Not applicable.

Item 11. Controls and Procedures

The registrant's principal executive officer and principal financial officer have evaluated the registrant's disclosure controls and procedures within 90 days of the filing of this report and have concluded that they are effective in providing reasonable assurance that the information required to be disclosed by the registrant in its reports or statements filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission.

There were no significant changes in the registrant's internal control over financial reporting that occurred during the second fiscal quarter of the period covered by the report to stockholders included herein (i.e., the registrant's fourth fiscal quarter) that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 12. Exhibits

- (a) (1) Code of Ethics

Not applicable.

- (2) Certifications of Principal Executive Officer and Principal Financial Officer pursuant to Rule 30a-2 under the Investment Company Act of 1940 are attached hereto as Exhibit 99.CERT.

- (3) Written solicitations to purchase securities pursuant to Rule 23c-1 under the Securities Exchange Act of 1934.

Not applicable.

- (b) Certifications pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 are furnished herewith as Exhibit 99.906CERT.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf, by the undersigned, thereunto duly authorized.

NAME OF REGISTRANT: DELAWARE INVESTMENTS FLORIDA INSURED MUNICIPAL INCOME FUND

JUDE T. DRISCOLL

By: Jude T. Driscoll

Title: Chief Executive Officer

Date: June 7, 2005
