

**(314) 854-8352**

(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer	Accelerated filer <input checked="" type="checkbox"/>
Non-accelerated filer	Smaller reporting
(do not check if a smaller reporting company)	company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of August 9, 2018:  
43,742,677

**PART I FINANCIAL INFORMATION****Item 1. Financial Statements.**

The following sets forth our unaudited consolidated balance sheet as of June 30, 2018, our audited consolidated balance sheet as of December 31, 2017, our unaudited consolidated statements of operations and comprehensive income for the three-month and six-month periods ended June 30, 2018 and 2017, and our unaudited consolidated statements of cash flows for the six-month periods ended June 30, 2018 and 2017.

**Notes to Consolidated Financial Statements of FutureFuel Corp.**

**(Dollars in thousands, except per share amounts)**

**(Unaudited)**

**1 ) NATURE OF OPERATIONS AND BASIS OF PRESENTATION**

*Organization*

FutureFuel Corp. (“FutureFuel”), through its wholly-owned subsidiary, FutureFuel Chemical Company (“FutureFuel Chemical”), owns and operates a chemical production facility located on approximately 2,200 acres of land six miles southeast of Batesville in north central Arkansas fronting the White River (the “Batesville Plant”). FutureFuel Chemical manufactures diversified chemical products, biobased products comprised of biofuels, and biobased specialty chemical products. FutureFuel Chemical’s operations are reported in two segments: chemicals and biofuels.

The chemicals segment manufactures a diversified portfolio of chemical products that are sold to third party customers. The majority of the revenues from the chemicals segment are derived from the custom manufacturing of specialty chemicals for specific customers.

The biofuels business segment primarily produces and sells biodiesel. FutureFuel Chemical also sells petrodiesel in blends with the company’s biodiesel and, from time to time, with no biodiesel added. Finally, FutureFuel Chemical is a shipper of refined petroleum products on common carrier pipelines and buys and sells petroleum products to maintain an active shipper status on these pipelines.

*Basis of Presentation*

The accompanying unaudited consolidated financial statements have been prepared by FutureFuel in accordance and consistent with the accounting policies stated in FutureFuel’s 2017 audited consolidated financial statements and should be read in conjunction with the 2017 audited consolidated financial statements of FutureFuel.

In the opinion of FutureFuel, all normal recurring adjustments necessary for a fair presentation have been included in the unaudited consolidated financial statements. The unaudited consolidated financial statements have been prepared in compliance with the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) accounting principles generally accepted in the United States (“GAAP”) for interim financial information and with instructions to Form 10-Q adopted by the Securities and Exchange Commission (“SEC”). Accordingly, the financial statements do not include all the information and footnotes required by GAAP for complete financial statements, and do include amounts that are based upon management estimates and judgments. Future actual results could differ from such current estimates. The unaudited consolidated financial statements include assets, liabilities, revenues, and expenses of FutureFuel and its wholly owned subsidiaries; namely, FutureFuel Chemical, FFC Grain, L.L.C., FutureFuel Warehouse Company, L.L.C., and Legacy Regional Transport, L.L.C. Intercompany transactions and balances have been eliminated in consolidation.

## 2) **REINSTATEMENT OF THE BIODIESEL BLENDERS’ TAX CREDIT AND SMALL AGRI-BIODIESEL PRODUCER TAX CREDIT**

The biodiesel Blenders’ Tax Credit (“BTC”) provides a \$1.00 per gallon tax credit to the blender of biomass-based diesel with at least 0.1% petroleum-based diesel fuel. When in effect, FutureFuel is the blender of record and recognizes the credit as a reduction to cost of goods sold. The BTC expired on December 31, 2016 and was not reinstated for 2017 until it was signed into law as part of The Bipartisan Budget Act of 2018 passed by Congress on February 9, 2018. As this act was passed into law in 2018, FutureFuel recognized a net estimated pretax benefit from the reinstatement in the biofuels segment of \$28,869 (a reduction in sales revenue of \$13,559 for customer rebates (“BTC Rebates”) upon reinstatement and a reduction in cost of goods sold of \$42,428). The gallons related to this credit were sold in the twelve months ended December 31, 2017.

As part of the law from which the BTC was reinstated, small agri-biodiesel producers with production capacity not in excess of 60 million gallons were eligible for an additional tax credit of \$0.10 per gallon on the first 15 million gallons of agri-biodiesel sold (the “Small Agri-biodiesel Producer Tax Credit”). The benefit of the Small Agri-biodiesel Producer Tax Credit was recognized as a benefit in the tax provision in the three and six months ended June 30, 2018.

Neither the BTC nor the Small Agri-biodiesel Producer Tax Credit have been passed into law for 2018.

**Notes to Consolidated Financial Statements of FutureFuel Corp.****(Dollars in thousands, except per share amounts)****(Unaudited)****3 ) INVENTORY**

The carrying values of inventory were as follows as of:

	<b>June 30, 2018</b>	<b>December 31, 2017</b>
At average cost (approximates current cost)		
Finished goods	\$ 15,421	\$ 22,998
Work in process	1,549	1,735
Raw materials and supplies	40,671	27,143
	57,641	51,876
LIFO reserve	(10,120)	(8,122 )
Total inventory	\$47,521	\$ 43,754

Lower of Cost or Market ("LCM") adjustments are recorded as a decrease in inventory values and an increase in cost of goods sold. The inventory is relieved at the LCM adjusted cost basis when sold. There was no LCM adjustment in the three and six months ended June 30, 2018. For the three and six months ended June 30, 2017, the LCM adjustment was \$957.

**4 ) DERIVATIVE INSTRUMENTS**

FutureFuel is exposed to certain risks relating to its ongoing business operations. Commodity price risk is the primary risk managed by using derivative instruments. Regulated fixed price futures and option contracts are utilized to manage the price risk associated with future purchases of feedstock used in FutureFuel's biodiesel production along with physical feedstock and finished product inventories attributed to this process.

FutureFuel recognizes all derivative instruments as either assets or liabilities at fair value in its consolidated balance sheets. FutureFuel's derivative instruments do not qualify for hedge accounting under the specific guidelines of ASC 815-20-25, Derivatives and Hedging. None of the derivative instruments are designated and accounted for as hedges primarily as a result of the extensive record keeping requirements.

The fair value of FutureFuel's derivative instruments is determined based on the closing prices of the derivative instruments on relevant commodity exchanges at the end of an accounting period. Realized gains and losses on derivative instruments and changes in fair value of the derivative instruments are recorded in the statements of operations as a component of cost of goods sold, and amounted to a loss of \$3,109 and a gain of \$524 for the three months ended June 30, 2018 and 2017, respectively, and a loss of \$3,271 and a gain of \$1,803 for the six months ended June 30, 2018 and 2017, respectively.

The volumes and carrying values of FutureFuel's derivative instruments were as follows at:

	<b>June 30, 2018</b>		<b>December 31, 2017</b>
	<b>Contract quantity</b>	<b>Fair Value</b>	<b>Contract quantity</b>
	<b>Short</b>		<b>Short</b>
Regulated options, included in other current assets	100	\$(940)	200
Regulated fixed price future commitments, included in other current assets	171	\$71	-
			\$(2,428)
			\$-

The margin account maintained with a broker to collateralize these derivative instruments carried an account balance of \$1,423 and \$2,660 at June 30, 2018 and December 31, 2017, respectively, and is classified as other current assets in the consolidated balance sheets. The carrying values of the margin account and of the derivative instruments are included net, in other current assets.

**Notes to Consolidated Financial Statements of FutureFuel Corp.****(Dollars in thousands, except per share amounts)****(Unaudited)****5 ) MARKETABLE SECURITIES**

At June 30, 2018 and December 31, 2017, FutureFuel had investments in certain debt securities (trust preferred securities and exchange traded debt instruments) and in preferred stock and other equity instruments. These investments are classified as current assets in the consolidated balance sheets. FutureFuel has designated the debt securities as being available-for-sale. Accordingly, debt securities were recorded at fair value, with the unrealized gains and losses, net of taxes, reported as a component of stockholders' equity in the year ended December 31, 2017. For the six months ended, June 30, 2018, in accordance with ASC 321, the change in the fair value of equity securities was reported as (losses)/gains on marketable securities as a component of net income.

FutureFuel's available for sale debt securities were comprised of the following at June 30, 2018 and December 31, 2017:

	<b>June 30, 2018</b>			
	<b>Adjusted</b>	<b>Unrealized</b>	<b>Unrealized</b>	<b>Fair</b>
	<b>Cost</b>	<b>Gains</b>	<b>Losses</b>	<b>Value</b>
Exchange traded debt	\$1,429	\$ 96	\$ (9 )	\$1,516
Trust Preferred	3,147	97	-	3,244
<b>Total debt securities</b>	<b>\$4,576</b>	<b>\$ 193</b>	<b>\$ (9 )</b>	<b>\$4,760</b>

	<b>December 31, 2017</b>			
	<b>Adjusted</b>	<b>Unrealized</b>	<b>Unrealized</b>	<b>Fair</b>
	<b>Cost</b>	<b>Gains</b>	<b>Losses</b>	<b>Value</b>
Exchange traded debt	\$1,702	\$ 158	\$ -	\$1,860
Trust Preferred	3,147	114	-	3,261
<b>Total debt securities</b>	<b>\$4,849</b>	<b>\$ 272</b>	<b>\$ -</b>	<b>\$5,121</b>

The aggregate fair value of debt securities with unrealized losses totaled \$297 at June 30, 2018, and the aggregate fair value of debt and equity securities with unrealized losses totaled \$14,103 at December 31, 2017. As of June 30, 2018, FutureFuel had investments in debt securities with a total value of \$168 that were in an unrealized loss position for a greater than a 12-month period. As of December 31, 2017, FutureFuel had investments in debt and equity securities with a total value of \$2,903 that were in an unrealized loss position for a greater than 12-month period. The unrealized loss position for those securities was \$7 and \$124, respectively. Those loss positions represented a minimal reduction for the securities and are expected to fully recover given changes in market value.

## 6 ) ACCRUED EXPENSES AND OTHER CURRENT LIABILITIES

Accrued expenses and other current liabilities, including those associated with related parties, consisted of the following at:

	<b>June 30, 2018</b>	<b>December 31, 2017</b>
Accrued employee liabilities	\$4,681	\$ 976
Accrued property, franchise, motor fuel and other taxes	1,948	1,387
Other	423	105
Total	\$7,052	\$ 2,468

**Notes to Consolidated Financial Statements of FutureFuel Corp.****(Dollars in thousands, except per share amounts)****(Unaudited)****7 ) BORROWINGS**

On April 16, 2015, FutureFuel, with FutureFuel Chemical as the borrower, and certain of FutureFuel's other subsidiaries, as guarantors, entered into a \$150,000 secured and committed credit facility with the lenders party thereto, Regions Bank as administrative agent and collateral agent, and PNC Bank, N.A., as syndication agent. On May 25, 2016, FutureFuel increased the credit facility by \$15,000. The credit facility consists of a five-year revolving credit facility in a dollar amount of up to \$165,000, which includes a sublimit of \$30,000 for letters of credit and \$15,000 for swingline loans (collectively, the "Credit Facility").

The interest rate floats at the following margins over LIBOR or base rate based upon the leverage ratio from time to time:

<b>Consolidated Leverage Ratio</b>	<b>Adjusted LIBOR Rate Loans and Letter of Credit Fee</b>	<b>Base Rate Loans</b>	<b>Commitment Fee</b>
< 1.00:1.0	1.25%	0.25%	0.15%
≥ 1.00:1.0 And < 1.50:1.0	1.50%	0.50%	0.20%
≥ 1.50:1.0 And < 2.00:1.0	1.75%	0.75%	0.25%
≥ 2.00:1.0 And < 2.50:1.0	2.00%	1.00%	0.30%
≥ 2.50:1.0	2.25%	1.25%	0.35%

The terms of the Credit Facility contain certain covenants and conditions including a maximum consolidated leverage ratio, a minimum consolidated fixed charge coverage ratio, and a minimum liquidity requirement. FutureFuel was in

compliance with such covenants as of June 30, 2018.

There were no borrowings under this credit agreement at June 30, 2018 or December 31, 2017.

## 8 ) PROVISION/(BENEFIT) FOR INCOME TAXES

The following table summarizes the provision/(benefit) for income taxes.

	<b>Three months ended June 30,</b>		<b>Six months ended June 30,</b>	
	<b>2018</b>	<b>2017</b>	<b>2018</b>	<b>2017</b>
(Benefit)/provision for income taxes	\$2,003	\$48	\$(1,676)	\$1,645
Effective tax rate	24.9 %	5.4 %	(4.2% )	28.0 %

The effective tax rate for the three months ended June 30, 2018 and 2017 reflects our expected tax rate on reported operating income before income tax. This three-month effective rate is expected to continue for the remainder of 2018.

The effective tax rate for the six months ended June 30, 2018 reflects our expected tax rate on reported operating income before income tax including the positive effect of the retroactive reinstatement of the 2017 BTC and Small Agri-biodiesel Producer Tax Credit. Our effective tax rate in the six months ended June 30, 2017 does not reflect the BTC and Small Agri-biodiesel Producer Tax Credit recognized in 2018 because these credits and incentives were retroactively extended through December 31, 2017 on February 9, 2018. This rate is not expected to continue for the remainder of 2018 as these credits only benefited the three months ended March 31, 2018 and six months ended June 30, 2018.

**Notes to Consolidated Financial Statements of FutureFuel Corp.**

**(Dollars in thousands, except per share amounts)**

**(Unaudited)**

Unrecognized tax benefits totaled \$0 at June 30, 2018 and December 31, 2017.

FutureFuel records interest and penalties, net, as a component of income tax expense. At June 30, 2018 and December 31, 2017, FutureFuel recorded \$0 in accruals for interest or tax penalties.

**9 ) EARNINGS PER SHARE**

The Company computes earnings per share using the two-class method in accordance with ASC Topic No. 260, “*Earnings per Share*.” The two-class method is an allocation of earnings between the holders of common stock and a company’s participating security holders. Outstanding non-vested shares of restricted stock contain non-forfeitable rights to dividends and, therefore, are considered participating securities for purposes of computing earnings per share pursuant to the two-class method. The Company had no other participating securities at June 30, 2018 or 2017.

Contingently issuable shares associated with outstanding service-based restricted stock units were not included in the earnings per share calculations for the three-month periods ended June 30, 2018 or 2017 as the vesting conditions had not been satisfied.

Basic and diluted earnings per common share were computed as follows:

	For the three months ended June 30,		For the six months ended June 30,	
	2018	2017	2018	2017
<b>Numerator:</b>				
Net income	\$6,051	\$834	\$41,877	\$4,230
Less: distributed earnings allocated to non-vested stock	-	-	-	-
Less: undistributed earnings allocated to non-vested restricted stock	(3	) (1	) (24	) (10
<b>Numerator for basic earnings per share</b>	<b>\$6,048</b>	<b>\$833</b>	<b>\$41,853</b>	<b>\$4,220</b>
<b>Effect of dilutive securities:</b>				
Add: undistributed earnings allocated to non-vested restricted stock	3	1	24	10
Less: undistributed earnings reallocated to non-vested restricted stock	(3	) (1	) (24	) (10
<b>Numerator for diluted earnings per share</b>	<b>\$6,048</b>	<b>\$833</b>	<b>\$41,853</b>	<b>\$4,220</b>
<b>Denominator:</b>				
Weighted average shares outstanding – basic	43,716,726	43,665,171	43,716,698	43,641,038
<b>Effect of dilutive securities:</b>				
Stock options and other awards	4,216	10,517	4,870	8,362

**Notes to Consolidated Financial Statements of FutureFuel Corp.**

**(Dollars in thousands, except per share amounts)**

**(Unaudited)**

Certain options to purchase FutureFuel's common stock were not included in the computation of diluted earnings per share for the three and six months ended June 30, 2018 and 2017 because they were anti-dilutive in the periods. The weighted average number of options excluded on this basis was 30,000 and 30,000 for the three-months and six-months ended June 30, 2018, respectively. The weighted average number of options excluded on this basis was 0 and 15,000 for the three-months and six-months ended June 30, 2017, respectively.

**10 ) SEGMENT INFORMATION**

FutureFuel has two reportable segments organized along similar product groups – chemicals and biofuels.

*Chemicals*

FutureFuel's chemicals segment manufactures diversified chemical products that are sold externally to third party customers. This segment is comprised of two components: "custom manufacturing" (manufacturing chemicals for specific customers) and "performance chemicals" (multi-customer specialty chemicals).

*Biofuels*

FutureFuel's biofuels business segment primarily manufactures and markets biodiesel. Biodiesel revenues are generated through the sale of biodiesel to customers through FutureFuel's distribution network at the Batesville Plant, through distribution facilities available at leased oil storage facilities, and through a network of remotely located tanks. Biofuels revenues also include the sale of biodiesel blends with petrodiesel, petrodiesel with no biodiesel added,

internally generated, separated Renewable Identification Numbers (“RINs”), biodiesel production byproducts, and the purchase and sale of other petroleum products on common carrier pipelines. Biodiesel selling prices and profitability can at times fluctuate based on the timing of unsold, internally generated RINs. FutureFuel does not allocate production costs to internally generated RINs, and, from time to time, can enter into sales of biodiesel on a “RINs-free” basis. Such method of selling results in FutureFuel maintaining possession of the applicable RINs from the sale. The benefit derived from the eventual sale of the RINs is not reflected in results of operations until such time as the RIN sale has been completed, which may lead to variability in reported operating results.

*Summary of long-lived assets and revenues by geographic area*

All of FutureFuel’s long-lived assets are located in the United States.

Most of FutureFuel’s sales are transacted with control and title passing at the time of shipment from the Batesville Plant, although some sales are transacted with control and title passing at the delivery point. While many of FutureFuel’s chemicals are utilized to manufacture products that are shipped, further processed, and/or consumed throughout the world, the chemical products, with limited exceptions, generally leave the United States only after ownership has transferred from FutureFuel to the customer. FutureFuel is rarely the exporter of record, never the importer of record into foreign countries, and is not always aware of the exact quantities of its products that are moved into foreign markets by its customers. FutureFuel does track the addresses of its customers for invoicing purposes and uses this address to determine whether a particular sale is within or outside the United States. FutureFuel’s revenues attributable to the United States and foreign countries (based upon the billing addresses of its customers) were as follows:

	<b>Three months ended June 30,</b>		<b>Six months ended June 30,</b>	
	<b>2018</b>	<b>2017</b>	<b>2018</b>	<b>2017</b>
United States	\$87,525	\$66,918	\$142,791	\$120,333
All Foreign Countries	811	1,130	1,292	1,826
Total	\$88,336	\$68,048	\$144,083	\$122,159

Revenues from a single foreign country during the three and six months ended June 30, 2018 and 2017 did not exceed 1% of total revenues.

**Notes to Consolidated Financial Statements of FutureFuel Corp.****(Dollars in thousands, except per share amounts)****(Unaudited)***Summary of business by segment*

	<b>Three months ended June 30,</b>		<b>Six months ended June 30,</b>	
	<b>2018</b>	<b>2017</b>	<b>2018</b>	<b>2017</b>

Income before interest and taxes	5,840	(626 )	40,407	2,849
Interest and other income	2,434	1,991	4,145	3,714
Interest and other expense	(220 )	(483 )	(4,351 )	(688 )
(Provision)/benefit for income taxes	(2,003 )	(48 )	1,676	(1,645 )
Net income	\$6,051	\$834	\$41,877	\$4,230

Depreciation is allocated to segment costs of goods sold based on plant usage. The total assets and capital expenditures of FutureFuel have not been allocated to individual segments as large portions of these assets are shared to varying degrees by each segment, causing such an allocation to be of little value.

## 11 ) FAIR VALUE MEASUREMENTS

Fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. Fair value accounting pronouncements also include a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs market participants would use in valuing the asset or liability developed based on market data obtained from sources independent of FutureFuel. Unobservable inputs are inputs that reflect FutureFuel's assumptions about the factors market participants would use in valuing the asset or liability developed based upon the best information available in the circumstances. The hierarchy is broken down into three levels. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs (other than quoted prices) that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for the asset or liability. Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

**Notes to Consolidated Financial Statements of FutureFuel Corp.****(Dollars in thousands, except per share amounts)****(Unaudited)**

The following tables provide information by level for assets and liabilities that are measured at fair value, on a recurring basis, at June 30, 2018 and December 31, 2017.

Total reclassifications	\$-	\$(370)	

\*Effective January 1, 2018, FutureFuel's unrealized gains/(losses) on available-for-sale securities includes debt securities only in accordance with ASC 320 and ASC 321. The prior year was not restated under the modified retrospective approach in adoption of ASC 321. Please see Note 18 for further details on the adoption of this standard.

### **13 ) LEGAL MATTERS**

From time to time, FutureFuel and its operations are parties to, or targets of, lawsuits, claims, investigations, regulatory matters, and proceedings, which are being handled and defended in the ordinary course of business. While FutureFuel is unable to predict the outcomes of these matters, it does not believe, based upon currently available facts, that the ultimate resolution of any such pending matters will have a material adverse effect on its overall financial condition, results of operations, or cash flows.

### **14 ) RELATED PARTY TRANSACTIONS**

FutureFuel enters into transactions with companies affiliated with or controlled by a director and significant shareholder. Revenues, expenses, prepaid amounts, and unpaid amounts related to these transactions are captured in the accompanying consolidated financial statements as related party line items.

Related party revenues are the result of sales of biodiesel, petrodiesel, blends, other petroleum products, and other similar or related products to these related parties.

Related party cost of goods sold and distribution are the result of sales of biodiesel, petrodiesel, blends, and other petroleum products to these related parties along with the associated expense from the purchase of natural gas, storage and terminalling services, and income tax and consulting services by FutureFuel from these related parties.

**Notes to Consolidated Financial Statements of FutureFuel Corp.****(Dollars in thousands, except per share amounts)****(Unaudited)****15 ) INTANGIBLE ASSET**

In April of 2015, FutureFuel acquired additional historical line space on a pipeline for \$1,408. The acquired line space was recorded as an intangible asset with an indefinite life as there was no foreseeable limit on the time period over which it is expected to contribute to cash flows. The carrying value of the asset was \$1,408 as of June 30, 2018 and December 31, 2017. FutureFuel tests the intangible asset for impairment in accordance with ASC 350-30-35-18 through 35-20.

**16 ) RECENTLY ISSUED ACCOUNTING STATEMENTS**

The following table provides a brief description of recent Accounting Standard Updates ("ASU") issued by the FASB:

<b>Standard</b>	<b>Description</b>	<b>Effective Date</b>	<b>Effect on the Financial Statements or Other Significant Matters</b>
In February 2016, the FASB issued ASU 2016-02, Leases.	The new guidance supersedes the lease guidance under FASB ASC Topic 840, Leases, resulting in the creation of FASB ASC Topic 842, Leases. The guidance requires a lessee to recognize in the statement of financial position a liability to make lease payments and a right-of-use asset representing its right to use the underlying asset for the lease term for both finance and operating leases.	Annual periods beginning after December 15, 2018. Early adoption is permitted.	The Company is currently evaluating its population of leases, and is continuing to assess all potential impacts of the standard, but currently believes the most significant impact relates to its accounting for logistics equipment. The Company anticipates recognition of additional assets and corresponding liabilities related to leases upon adoption. The Company plans to adopt the

<p>In February 2018, the FASB issued ASU 2018-02, Income Statement-Reporting Comprehensive Income.</p>	<p>The amendments in this Update allow a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the Tax Cuts and Jobs Act passed by congress on December 22, 2017 and certain disclosures related to those stranded tax effects.</p>	<p>Annual periods beginning after December 15, 2018. Early adoption is permitted.</p>	<p>standard effective January 1, 2019.</p>
<p>In June 2018, the FASB issued ASU 2018-07, Improvements to Nonemployee Share-Based Payment Accounting.</p>	<p>This Update is part of the FASB Simplification Initiative. Under the new standard, Topic 718 is expanded to include the nonemployee share-based payments. As a result, companies will no longer be required to value non-employee awards differently from employee awards. This means that companies will value all equity classified awards at their grant-date under ASC Topic 718 and forgo revaluing the award after that date as currently required under Subtopic 505-50.</p>	<p>Annual periods beginning after December 15, 2018. Early adoption is permitted.</p>	<p>The Company is currently evaluating the impact of this standard. The Company plans to adopt the standard on or before January 1, 2019.</p>
			<p>The Company believes the adoption of the standard will have minimal impact on our financial statements. The Company plans to adopt the standard effective January 1, 2019.</p>

**(Dollars in thousands, except per share amounts)**

**(Unaudited)**

**17 ) REVENUE RECOGNITION**

On January 1, 2018, FutureFuel adopted ASU 2014-09 Revenue Recognition (“Topic 606”). Under this standard, FutureFuel recognizes revenue when performance obligations of the sale are satisfied. FutureFuel sells to customers through master sales agreements or standalone purchase orders. The majority of FutureFuel's terms of sale have a single performance obligation to transfer products. Accordingly, FutureFuel recognizes revenue when control has been transferred to the customer, generally at the time of shipment or delivery of products. Under the previous revenue recognition accounting standard (“Topic 605”), FutureFuel recognized revenue upon the transfer of title and risk of loss, generally upon shipment or delivery of goods, although some revenue was recognized on a bill and hold basis.

A select number of FutureFuel custom chemical contracts within the chemical segment contain a material right as defined by Topic 606 as a result of upfront payments provided by customers. Each contract also has a performance obligation to transfer products with 30-day payment terms. FutureFuel recognizes revenue when the customer takes control of the inventory, either upon shipment or when the material is made available for pickup. FutureFuel has applied the renewal option approach in allocating the transaction price to these material rights and transfer of product. As a basis for allocating the transaction price to the material right and transfer of product, FutureFuel estimated the expected life of the product, the expected contractual volumes to be sold over that life, and the most likely expected sales price. Each estimate will be updated quarterly on a prospective basis. In applying the cumulative effect of Topic 606 as of January 1, 2018, FutureFuel recorded a gross reduction to opening retained earnings of \$6,900 and a net of tax reduction of \$5,178. Additionally, the adoption of Topic 606 resulted in one contract recognizing revenue on a bill and hold basis, whereas under Topic 605 it was recognized at point of shipment. The adoption of Topic 606 also increased short term deferred revenue \$3,251 and long term deferred revenue \$3,293 and reduced inventory \$356 as of January 1, 2018.

The majority of our revenue is from short term contracts with revenue recognized when a single performance obligation to transfer product under the terms of a contract with a customer are satisfied. Accordingly, FutureFuel recognizes revenue when control is transferred to the customer, which is when products are considered to meet customer specification and title and risk of loss are transferred. This typically occurs at the time of shipment or delivery, however, for certain contracts, this occurs upon delivery of the material to a FutureFuel storage location,

ready for customer pickup and separated from other FutureFuel inventory. Revenue is measured as the amount of consideration FutureFuel expects to receive in exchange for transferring products and is generally based upon a negotiated price. FutureFuel sells its products directly to customers generally under agreements with payment terms of 30 to 75 days for chemical segment customers and 3 to 10 days for biofuel segment customers. For these short term contracts, there was no material change in recognizing revenue under Topic 606 and Topic 605.

**Contract Assets and Liabilities:**

Contract assets consist of unbilled amounts typically resulting from revenue recognized through bill and hold arrangements. The contract assets are recorded as accounts receivable on the consolidated balance sheet. Contract liabilities consist of advance payments related to material rights. These amounts were historically recorded as deferred revenue which primarily related to upfront capital payments. The contract liabilities are recorded as deferred revenue in the consolidated balance sheets and are reduced as FutureFuel transfers product to the customer under the renewal option approach.

**Notes to Consolidated Financial Statements of FutureFuel Corp.****(Dollars in thousands, except per share amounts)****(Unaudited)**

These contract assets and liabilities are reported on the consolidated balance sheets on a contract-by-contract basis at the end of each reporting period.

The following table reflects the changes in FutureFuel's contract assets and contract liabilities for the three and six months ended June 30, 2018. There were no contract assets recognized under Topic 605:

**Contract assets - short-term (included in accounts receivable)**

#### **Transaction price allocated to the remaining performance obligations**

As of June 30, 2018, approximately \$18,155 of revenue is expected to be recognized from remaining performance obligations. FutureFuel expects to recognize this revenue ratably over expected sales over the expected term of its long-term contracts which range from one to five years. Approximately 30% of this revenue is expected to be recognized over the next 12 months, and 70% is expected to be recognized between one and 5 years. These amounts are subject to change based upon changes in the estimated contract life and estimated quantities to be sold over the contract life.

**Notes to Consolidated Financial Statements of FutureFuel Corp.****(Dollars in thousands, except per share amounts)****(Unaudited)**

We applied the practical expedient in ASC 606-10-50-14 and have excluded the value of unsatisfied performance obligations for (i) contracts with an original expected length of one year or less; and (ii) contracts for which we recognize revenue at the amount to which we have the right to invoice for services performed.

**Disaggregation of revenue – contractual and non-contractual**

	<b>Three months ended June 30,</b>		<b>Six months ended June 30,</b>	
	<b>2018</b>	<b>2017<sup>(a)</sup></b>	<b>2018</b>	<b>2017<sup>(a)</sup></b>

Total revenue	\$ 88,336	\$ 68,048	\$ 144,083	\$ 122,159

(a) Prior periods have not been adjusted under the modified retrospective method for Topic 606.

For both long term and short term contracts, FutureFuel has elected to account for shipping and handling as activities to fulfill the promise to transfer the good. As such, shipping and handling fees billed to customers in a sales transaction are recorded in net sales and shipping and handling costs incurred are recorded in cost of goods sold and distribution. FutureFuel has elected to exclude from net sales any taxes which it collects concurrent with revenue-producing activities. These accounting policy elections are consistent with the manner in which FutureFuel historically recorded shipping and handling fees and taxes.

The following table summarizes the impacts of Topic 606 adoption on the Company's consolidated statement of operations and comprehensive income for the three and six months ended June 30, 2018.

	<b>Three months ended June 30, 2018</b>

**(Unaudited)**

**18 ) CHANGE IN ACCOUNTING PRINCIPLE AND ERROR CORRECTIONS**

In January 2016, the FASB issued ASU 2016-01, Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. One provision of this update requires that equity investments, except those accounted for under the equity method or resulting in consolidation, be measured at fair value and changes in fair value recognized in net income. The provisions of this update are recognized as a cumulative-effect adjustment to the balance sheet as of the beginning of the fiscal year of adoption. For public entities, this guidance was effective for years beginning after December 15, 2017, including interim periods within those years.

The new accounting standard related to the recognition and measurement of financial assets and liabilities makes the following changes to prior guidance and requires:

certain equity investments to be measured at fair value with changes in fair value now recognized in net income. However, equity investments that do not have readily determinable fair values may be measured at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or similar investment of the same issuer;

a qualitative assessment of equity investments without readily determinable fair values to identify impairment; and separate presentation of financial assets and financial liabilities by measurement category and form of financial asset on the balance sheet or in the accompanying notes to the financial statements.

We adopted the new accounting standard utilizing the modified retrospective method, and, therefore, no adjustments were made to amounts in our prior period financial statements. We recorded the cumulative effect of adopting the standard as an adjustment to increase the opening balance of retained earnings by \$13,139 on a pre-tax basis (\$8,273 after-tax) related to the net impact of unrealized gains and losses primarily on equity securities and preferred stock.

	<b>Three months ended June 30, 2018</b>		<b>Six months ended June 30, 2018</b>	
	<b>2018</b>	<b>2017*</b>	<b>2018</b>	<b>2017*</b>
Net gains/(losses) recognized on equity securities	\$281	\$(438 )	\$(4,088)	\$(569 )
Less: net gains/(losses) recognized during the period				
on equity securities sold during the period	663	(438 )	2,324	(569 )
Unrealized gains/(losses) during the reporting period				
on equity securities held at the reporting date	\$(382)	\$-	\$(6,412)	\$-

\*Prior periods have not been adjusted under the modified retrospective method for Topic 321.

For the three months ended March 31, 2018, the Company had failed to adopt the standard and presented the unrealized loss on equity investments as a change in accumulated other comprehensive income within the equity section of the Consolidated Balance Sheets. Within the six-month period, the Company corrected the first quarter of 2018, by recording \$5,744 of unrealized pre-tax losses (\$4,528, net of tax) on equity securities from accumulated other comprehensive income to net income. The restated balances ended March 31, 2018 were as follows:

**Notes to Consolidated Financial Statements of FutureFuel Corp.****(Dollars in thousands, except per share amounts)****(Unaudited)**

	<b>As Reported</b>	<b>Adjustment for Adoption of Topic 321</b>	<b>As Recast</b>
<u><i>Balance sheet impact to previously reported period</i></u>			
Liabilities and stockholders' equity			
Additional other comprehensive income	\$ 3,847	\$ (3,745 )	\$ 102

Other than temporary impairment of marketable securities	286	(286 )	-

*With adoption of the Topic 321, the prior period change in net gains/(losses) was as follows:*

	<b>Three months ended March 31,</b>	
	<b>2018</b>	<b>2017</b>
Net losses recognized on equity securities	\$(4,369)	\$(131)
Less: net gains recognized during the period on equity securities sold during the period	1,661	(131)
Unrealized losses during the reporting period on equity securities held at the reporting date	\$(6,030)	\$-

## **Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.**

**All dollar amounts expressed as numbers in this M D&A are in thousands (except per share amounts).**

**Certain tables may not add due to rounding.**

The following Management’s Discussion and Analysis of Financial Condition and Results of Operations should be read together with our consolidated financial statements, including the notes thereto, set forth herein. This discussion contains forward-looking statements that reflect our current views with respect to future events and financial performance. Actual results may differ materially from those anticipated in these forward-looking statements. See “Forward Looking Information” below for additional discussion regarding risks associated with forward-looking statements.

### **Overview**

Our company is managed and reported in two reporting segments: chemicals segment and biofuels segment. Within the chemicals segment are two product groupings: custom chemicals and performance chemicals. The custom product group is comprised of specialty chemicals manufactured for a single customer whereas the performance product group is comprised of chemicals manufactured for multiple customers. The biofuels segment is comprised of one product group. Management believes that the diversity of each segment strengthens the company in the ability to utilize resources and is committed to growing each segment.

### **Summary of Financial Results**

Set forth below is a summary of certain consolidated financial information for the periods indicated.

<b>Three months ended June 30,</b>

	<b>2018</b>	<b>2017</b>	<b>Dollar Change</b>	<b>% Change</b>	
Revenues	\$144,083	\$122,159	\$21,924	17.9	%
Income from operations	\$40,407	\$2,849	\$37,558	1,318.3	%
Net income	\$41,877	\$4,230	\$37,647	890.0	%
Earnings per common share:					
Basic	\$0.96	\$0.10	\$0.86	860.0	%
Diluted	\$0.96	\$0.10	\$0.86	860.0	%
Capital expenditures and intangibles (net of customer reimbursements and regulatory grants)	\$897	\$1,557	\$(660)	(42.4)	%
Adjusted EBITDA	\$49,264	\$7,648	\$41,616	544.1	%

We use adjusted EBITDA as a key operating metric to measure both performance and liquidity. Adjusted EBITDA is a non-GAAP financial measure. Adjusted EBITDA is not a substitute for operating income, net income, or cash flow from operating activities (each as determined in accordance with GAAP) as a measure of performance or liquidity. Adjusted EBITDA has limitations as an analytical tool, and should not be considered in isolation or as a substitute for analysis of results as reported under GAAP. We define adjusted EBITDA as net income before interest, income taxes, depreciation, and amortization expenses, excluding, when applicable, non-cash stock-based compensation expenses, public offering expenses, acquisition-related transaction costs, purchase accounting adjustments, losses on disposal of property and equipment, gains or losses on derivative instruments, and other non-operating income or expenses. Information relating to adjusted EBITDA is provided so that investors have the same data that we employ in assessing the overall operation and liquidity of our business. Our calculation of adjusted EBITDA may be different from similarly titled measures used by other companies; therefore, the results of our calculation are not necessarily comparable to the results of other companies.

Adjusted EBITDA allows our chief operating decision makers to assess the performance and liquidity of our business on a consolidated basis to assess the ability of our operating segments to produce operating cash flow to fund working capital needs, to fund capital expenditures and to pay dividends. In particular, our management believes that adjusted EBITDA permits a comparative assessment of our operating performance and liquidity, relative to a performance and liquidity based on GAAP results, while isolating the effects of certain items, including depreciation and amortization, which may vary among our operating segments without any correlation to their underlying operating performance, non-cash stock-based compensation expense, which is a non-cash expense that varies widely among similar companies, and gains and losses on derivative instruments, which can cause net income to appear volatile from period to period relative to the sale of the underlying physical product.

We enter into commodity derivative instruments primarily to protect our operations from downward movements in commodity prices, and to provide greater certainty of cash flows associated with sales of our commodities. We enter into hedges, and we utilize mark-to-market accounting to account for these instruments. Thus, our results in any given period can be impacted, and sometimes significantly, by changes in market prices relative to our contract price along with the timing of the valuation change in the derivative instruments relative to the sale of biofuel. We include this item as an adjustment as we believe it provides a relevant indicator of the underlying performance of our business in a given period.

The following table reconciles adjusted EBITDA with net income, the most directly comparable GAAP performance financial measure.

Edgar Filing: FutureFuel Corp. - Form 10-Q

	<b>Three months ended June 30,</b>		<b>Six months ended June 30,</b>	
	<b>2018</b>	<b>2017</b>	<b>2018</b>	<b>2017</b>

**Results of Operations***Consolidated*

	Three months ended June 30,				Six months ended June 30,			
	2018	2017	Change Amount	%	2018	2017	Change Amount	%
Revenues	\$88,336	\$68,048	\$20,288	29.8 %	\$144,083	\$122,159	\$21,924	17.9 %
Volume/product mix effect			\$14,739	21.7 %			\$21,342	17.5 %
Price effect			\$5,549	8.2 %			\$582	0.5 %
Gross profit	\$8,271	\$1,798	\$6,473	360.0%	\$45,778	\$7,928	\$37,850	477.4%

Consolidated sales revenue in the three and six months ended June 30, 2018 increased \$20,288 and \$21,924, compared to the three and six months ended June 30, 2017. The three-month period increased \$8,111 from higher chemical sales volumes from strong demand in the agrochemical and energy markets; \$6,628 from stronger biodiesel sales volumes, and \$5,484 from higher biofuel sales prices. The six-month period increased \$9,472 from higher chemical sales volumes, \$1,428 from higher chemical sales prices primarily from the adoption of ASC 606, and in part from higher prices indexed to raw materials. Also benefiting sales revenue for the six-month period was stronger biodiesel sales volumes of \$11,870 which was net of the retroactive reinstatement of the 2017 blenders' tax credit (BTC) passed into law on February 9, 2018, presented as a price effect. Please see Note 2 for additional discussion.

Gross profit in the three and six months ended June 30, 2018 increased \$6,473 and \$37,850 compared to the three months and six months ended June 30, 2017. The three-month increase was driven by higher volumes in the agrochemical and energy markets and stronger margins on higher volumes in the biofuel segment. The six-month increase was primarily from the biofuel segment as the result of the BTC which expired on December 31, 2016 and was retroactively reinstated for 2017 (but, not beyond 2017) on February 9, 2018 resulting in the benefit being recognized in 2018. Also benefiting gross profit was increased sales volumes in both the chemicals and biofuels segments.

Gross profit was favorably impacted in the three and six months ended June 30, 2018, as compared to the prior year period, by the adjustment in the carrying value of our inventory as determined utilizing the LIFO method of inventory

accounting. The change in this adjustment increased gross profit \$943 and \$3,150 in the three and six months ended June 30, 2018 as compared to the three and six months ended June 30, 2017. This change in LIFO resulted in a lower of cost or market adjustment of \$957 in the three and six months ended June 30, 2017 and no such adjustment was necessary in the three months ended June 30, 2018. Please see Note 3 for additional discussion.

Gross profit was negatively impacted by the change in the unrealized and realized activity in derivative instruments with a loss of \$3,109 and \$3,271 in the three and six months ended June 30, 2018, as compared to a gain of \$524 and \$1,803, in the prior year period.

### *Operating Expenses*

Operating expenses increased \$7 and \$292 in the three and six months ended June 30, 2018, respectively, as compared to the three and six months ended June 30, 2017. This increase was primarily from an increase in compensation.

### *Provision/(Benefit) for Income Taxes*

The effective tax rate for the three months ended June 30, 2018 and 2017 reflects our expected tax rate on reported operating income before income tax. This three-month effective rate is expected to continue for the remainder of 2018.

The effective tax rate for the six months ended June 30, 2018 reflects our expected tax rate on reported operating income before income tax including the favorable effect of the retroactive reinstatement of the 2017 BTC and Small Agri-biodiesel Producer Tax Credit. Our effective tax rate in the six months ended June 30, 2017 does not reflect the BTC and Small Agri-biodiesel Producer Tax Credit recognized in 2018 because these credits and incentives were retroactively extended through December 31, 2017 on February 9, 2018. This six-month effective rate is not expected to continue for the remainder of 2018 as these credits only benefited the three months ended March 31, 2018.

Unrecognized tax benefits totaled \$0 at both June 30, 2018 and December 31, 2017.

### *Net Income*

Net income for the three and six months ended June 30, 2018 increased \$5,217 and \$37,647 as compared to the same periods in 2017. The increase was primarily from stronger sales volumes and a 14% reduction in the federal statutory tax rate. The first three months ended March 31, 2018 was benefited by tax credits and incentives that were not in effect for 2017 (see Note 2) but not in effect in the prior year. Also benefitting net income was the change in adjustments in the carrying value of our inventory as determined utilizing the LIFO method of inventory accounting. The change in this adjustment increased net income in the three and six months of 2018 as compared to the same periods of 2017. Net income was further benefited from the absence of a lower or cost market write-down compared to the prior three and six months ended June 30, 2017.

### *Chemicals Segment*

	Three months ended June 30,				Six months ended June 30,			
	2018	2017	Change Amount	%	2018	2017	Change Amount	%
Revenues	\$31,527	\$23,351	\$8,176	35.0%	\$60,608	\$49,708	\$10,900	21.9%
Volume/product mix effect			\$8,111	34.7%			\$9,472	19.1%
Price effect			\$65	0.3%			\$1,428	2.9%
Gross profit	\$8,016	\$5,332	\$2,684	50.3%	\$15,572	\$12,341	\$3,231	26.2%

Sales revenue in the three and six months ended June 30, 2018 increased \$8,176 and \$10,900 compared to the three and six months ended June 30, 2017. Sales revenue for our custom chemicals (unique chemicals produced for specific

customers) for the three months and six months ended June 30, 2018 totaled \$27,072 and \$50,492, an increase of \$7,428 and \$8,896 from the comparable periods, respectively in 2017. This increase was primarily attributed to increased sales volumes in the agrochemical and energy markets. In addition, the six-month comparison period sales were benefited from the change in the recognition of contract liabilities in deferred revenue for a few custom chemical contracts from the adoption of ASC 606. See Note 17 for additional discussion. Performance chemicals (comprised of multi-customer products, which are sold based on specification) sales revenues were \$4,455 and \$10,116, in the three and six months ended June 30, 2018, an increase of \$748 and \$2,004 from the three and six months ended June 30, 2017, respectively. This increase was primarily from higher glycerin prices and the timing of the sales of products we campaign.

Gross profit for the chemicals segment for the three and six months ended June 30, 2018, increased \$2,684 and \$3,231 when compared to the three and six months ended June 30, 2017, respectively. This increase was driven primarily by higher volumes in the agrochemical and energy markets, and to a lesser extent, from a favorable product mix. For the three and six-month comparison period, gross profit was benefited by the change in the recognition of contract liabilities in deferred revenue for a few customer chemical contracts given the adoption of ASC 606. See Note 17 for additional discussion.

*Biofuels Segment*

	Three months ended June 30,				Six months ended June 30,			
	2018	2017	Change Amount	%	2018	2017	Change Amount	%
Revenues	\$56,809	\$44,697	\$12,112	27.1 %	\$83,475	\$72,451	\$11,024	15.2 %
Volume/product mix effect			\$6,628	14.8 %			\$11,870	16.4 %
Price effect			\$5,484	12.3 %			\$(846 )	(1.2 %)
Gross profit	\$255	\$(3,534 )	\$3,789	107.2 %	\$30,206	\$(4,413 )	\$34,619	784.5 %

Biofuels sales revenue in the three and six months ended June 30, 2018 increased \$12,112 and \$11,024 when compared to the three and six months ended June 30, 2017. This increase was primarily from increased sales volumes and higher average selling prices. Sales price in the first three months ended March 31, 2018 decreased primarily from the retroactive reinstatement of the 2017 BTC (see Note 2).

Revenue from common carrier pipelines varies as its revenue recognition depends upon whether a transaction is bought from and sold to the same party. Purchases and sales of inventory with the same counterparty that are entered into in contemplation of one another (including buy/sell agreements) are combined and recorded on a net basis. Additionally, revenue from common carrier pipelines fluctuates with market conditions. Revenue from net transactions was zero in both of the three months ended June 30, 2018 and 2017.

A portion of our biodiesel sold in 2018 and 2017 was to one major refiner/blender. No assurances can be given that we will continue to sell to such major refiner, or, if we do sell, the volume we will sell or the profit margin we will realize. We do not believe that the loss of this customer would have a material adverse effect on our biofuels segment or on us as a whole in that: (i) unlike our custom manufacturing products, biodiesel is a commodity with a large potential customer base; (ii) we believe that we could readily sell our biodiesel to other customers as potential demand from other customers for biodiesel exceeds our production capacity; (iii) our sales to these customers are not under fixed terms and the customers have no fixed obligation to purchase any minimum quantities except as stipulated by short term purchase orders; and (iv) the prices we receive from these customers are based upon then-market rates, as would be the case with sales of this commodity to other customers.

Biofuels gross profit in the three and six months ended June 30, 2018 increased \$3,789 and \$34,619 when compared to the three and six months ended June 30, 2017. The increase in the three-month period was primarily from higher sales volumes and improved petroleum margins. The increase for the six-month period was benefited from the recognition in the first quarter of 2018 of the retroactive reinstatement of the 2017 BTC totaling \$28,869. Also benefitting gross profit was the change in adjustments in the carrying value of our inventory as determined utilizing the LIFO method of inventory accounting. The change in this adjustment increased biofuels gross profit in the three and six months of 2018 over the same periods of 2017 by \$732 and \$2,333 and was further benefited from the absence of a lower or cost market write-down, which was \$957 in the prior three and six months ended June 30, 2017.

Biofuels gross profit in the three and six months ended June 30, 2018 was reduced by the change in activity in derivative instruments of \$3,109 and \$3,271 in comparison to an increase in gross profit in the three and six months ended June 30, 2017 of \$524 and \$1,803. In order to better manage the commodity price risk caused by market fluctuations in biofuel prices, we may enter into exchange traded commodity futures and options contracts. We account for these derivative instruments in accordance with accounting standards whereby the fair value of FutureFuel's derivative instruments is determined based on the closing prices of the derivative instruments on relevant commodity exchanges at the end of an accounting period. Realized gains and losses on derivative instruments and changes in fair value of the derivative instruments are recorded in the statement of operations as a component of cost of goods sold within the biofuels segment.

FutureFuel recognizes all derivative instruments as either assets or liabilities at fair value in its consolidated balance sheet. FutureFuel's derivative instruments do not qualify for hedge accounting under the specific guidelines of ASC 815-20-25, *Derivatives and Hedging*. None of the derivative instruments are designated and accounted for as hedges due primarily to the extensive record keeping requirements.

The volumes and carrying values of FutureFuel’s derivative instruments were as follows:

	<b>June 30, 2018</b>		<b>December 31, 2017</b>	
	<b>Number of contracts</b>	<b>Fair Value</b>	<b>Number of contracts</b>	
	<b>Short</b>		<b>Short</b>	
Regulated options, included in other current assets	100	\$(940 )	200	\$(2,428)
Regulated fixed price future commitments, included in other current assets	171	\$ 71	-	\$-

\*All derivative instruments are entered into with the standard contract terms and conditions in accordance with major trading authorities of the New York Mercantile Exchange.

### Critical Accounting Estimates

#### *Revenue Recognition*

On January 1, 2018, we adopted Topic 606 using the modified retrospective method applied to those contracts which were not completed as of January 1, 2018. Results for reporting periods beginning after January 1, 2018 are presented under Topic 606, while prior period amounts are not adjusted and continue to be reported in accordance with our historical accounting under Topic 605.

Certain long-term contracts had an upfront non-cancellable payment considered a material right. The Company applied the renewal option approach in allocating the transaction price to the material right. For each of these contracts the Company estimated the expected contractual volumes to be sold at the most likely expected sales price as a basis for allocating the transaction price to the material right. Each estimate will be updated quarterly on a prospective basis. These custom chemical contracts have payment terms of 30 days. Please see Note 17 for additional discussion.

For most product sales, revenue is recognized when product is shipped from our facilities and risk of loss and title have passed to the customer, which is in accordance with our customer contracts and the stated shipping terms. Nearly all custom manufactured products are manufactured under written master service agreements. Performance chemicals and biodiesel are generally sold pursuant to the terms of written purchase orders. In general, customers do not have any rights of return, except for quality disputes. All of our products are tested for quality before shipment, and historically returns have been inconsequential. We do not offer rebates, except those related to the BTC, or other warranties.

Biodiesel selling prices can at times fluctuate based on the timing of unsold, internally generated RINs. From time to time, sales of biodiesel are on a "RINs-free" basis. Such method of selling results in applicable RINs being held. The value of the RINs is not reflected in revenue until such time as the RIN sale has been completed.

Revenue from bill and hold transactions in which a performance obligation exists is recognized when the total performance obligation has been met and control of the product has transferred. Bill and hold transactions for the three months ended June 30, 2018 and 2017 were related to custom chemicals customers whereby revenue was recognized in accordance with contractual agreements based upon product being produced and ready for use by the customer. These sales were subject to written monthly purchase orders with agreement that production was reasonable. The product was custom manufactured and stored at the customer's request and could not be sold to another buyer. Credit and payment terms for bill and hold customers are similar to other custom chemicals customers. Sales revenue under bill and hold arrangements were \$13,373 and \$3,460 for the three months ended June 30, 2018 and 2017, respectively. For the six months ended June 30, 2018 and 2017, bill and hold inventory was \$20,894 and \$7,958, respectively.

## Liquidity and Capital Resources

Our net cash provided by (used in) operating activities, investing activities, and financing activities for the three months ended June 30, 2018 and 2017 are set forth in the following chart.

	<b>Six months ended</b>	
	<b>June 30,</b>	
	<b>2018</b>	<b>2017</b>
Net cash provided by operating activities	\$65,360	\$27,959
Net cash provided by/(used in) investing activities	\$25,182	\$(10,774 )
Net cash used in financing activities	\$(5,248 )	\$(105,447)

### *Operating Activities*

Cash from operating activities increased from \$27,959 of cash provided by operating activities in the first six months of 2017 to \$65,360 of cash provided by operating activities in the first six months of 2018. This increase was primarily attributable to the increase of \$37,647 in net income, the increase in the change in accounts payable, including accounts payable - related parties, of \$20,539 offset by the decrease in the change in inventory of \$18,964.

### *Investing Activities*

Cash provided by investing activities increased \$35,956, from cash used in investing activities of \$10,774 in the first six months of 2017 compared to \$25,182 of cash provided by investing activities in the first six months of 2018. Of this change, \$34,082 was the result of net sales of marketable securities in the first six months of 2018 compared to net purchases in the first six months of 2017. Such net sales totaled \$25,028, in the first six months of 2018, compared

to \$9,054 in net purchases in the first six months of 2017. Our capital expenditures and customer reimbursements for capital expenditures are summarized in the following table:

	<b>Six months ended June 30,</b>	
	<b>2018</b>	<b>2017</b>
Cash paid for capital expenditures and intangibles	\$1,103	\$1,686
Cash received as reimbursement of capital expenditures	\$(206 )	\$(129 )
Cash paid, net of reimbursement, for capital expenditures	\$897	\$1,557

### *Financing Activities*

Cash used in financing activities decreased to \$5,248 in the first six months of 2018 from \$105,447 in the first six months of 2017. This change is the result of payments of dividends on our common stock in the first six months of 2018 compared to the first six months of 2017. The payment of dividends totaled \$5,248 and \$105,438 in the first six months of 2018 and 2017, respectively.

### *Credit Facility*

Effective April 16, 2015, we entered into a new \$150,000 secured committed credit facility with a syndicated group of commercial banks. On May 25, 2016, we increased the facility \$15,000. The loan is a revolving facility, the proceeds of which may be used for our working capital, capital expenditures, and general corporate purposes. The facility terminates on April 16, 2020. See Note 7 for additional information regarding our Credit Agreement.

We intend to fund future capital requirements for our businesses from cash flow as well as from existing cash, cash investments, and, if the need should arise, borrowings under our credit facility. We do not believe there will be a need to issue any securities to fund such capital requirements.

### *Dividends*

In the first and second quarters of 2018, we paid a regular cash dividend in the amount of \$0.06 per share on our common stock. The regular cash dividend amounted to \$2,624 in the first and second quarters of 2018 for a total of \$5,248. In the first two quarters of 2017, we paid a regular cash dividend in the amount of \$0.06 per share on our common stock. The regular cash dividend amounted to \$2,625 per quarter. In the first quarter of 2017, we also paid a special cash dividend of \$2.29 per share on our common stock. This special cash dividend amounted to \$100,188. Total cash dividends paid were \$105,438 in the first six months of 2017.

### *Capital Management*

As a result of our initial equity offering, our subsequent positive operating results, the exercise of warrants, and the issuance of shares in our at-the-market offering, we accumulated excess working capital. Some of this excess working capital has been paid out as special and regular cash dividends. Additionally, regular cash dividends will be paid in 2018, as previously reported. Third parties have not placed significant restrictions on our working capital management decisions.

A significant portion of these funds was held in cash or cash equivalents at multiple financial institutions. In the periods ended June 30, 2018 and December 31, 2017, we also had investments in certain preferred stock, trust preferred securities, exchange traded debt instruments, and other equity instruments. We classify these investments as current assets in the accompanying consolidated balance sheets and designate the debt securities as being “available-for-sale.” Accordingly, the debt securities are recorded at fair value, with the unrealized gains and losses, net of taxes, reported as a component of stockholders’ equity. We also held equity securities with readily available market values. These equity instruments are recorded at fair value, with the unrealized gains and losses in net income. The fair value of the debt securities, and equity instruments totaled \$91,564 and \$120,699 at June 30, 2018 and December 31, 2017, respectively.

Lastly, we maintain depository accounts such as checking accounts, money market accounts, and other similar accounts at selected financial institutions.

### **Off- Balance Sheet Arrangements**

We engage in two types of hedging transactions. First, we hedge our biofuels sales through the purchase and sale of futures contracts and options on futures contracts of energy commodities. This activity was captured on our balance sheet at June 30, 2018 and December 31, 2017. Second, we hedge our biofuels feedstock through the execution of purchase contracts and supply agreements with certain vendors. These hedging transactions are recognized in earnings and were not recorded on our balance sheet at June 30, 2018 or December 31, 2017 because they do not meet the definition of a derivative instrument as defined under GAAP. The purchase of biofuels feedstock generally involves two risk components: basis and price. Basis covers any refining or processing required as well as transportation. Price covers the purchases of the actual agricultural commodity. Both basis and price fluctuate over time. A supply agreement with a vendor constitutes a hedge when we have committed to a certain volume of feedstock in a future period and have fixed the basis for that volume.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk.**

**All dollar amounts expressed as numbers in these Market Risk Disclosures are in thousands (except per share amounts).**

In recent years, general economic inflation has not had a material adverse impact on our costs and, as described elsewhere herein, we have passed some price increases along to our customers. However, we are subject to certain market risks as described below.

Market risk represents the potential loss arising from adverse changes in market rates and prices. Commodity price risk is inherent in the chemicals and biofuels business both with respect to inputs (electricity, coal, raw materials, biofuels feedstock, etc.) and outputs (manufactured chemicals and biofuels).

We seek to mitigate our market risks associated with the manufacturing and sale of chemicals by entering into long-term sale contracts that include contractual market price adjustment protections to allow changes in market prices of key raw materials to be passed on to the customer. Such price protections are not always obtained, however, and some raw material price risk remains significant.

In order to manage price risk caused by market fluctuations in biofuels prices, we may enter into exchange traded commodity futures and options contracts. We account for these derivative instruments in accordance with ASC 815-20-25, *Derivatives and Hedging*. Under this standard, the accounting for changes in the fair value of a derivative instrument depends upon whether it has been designated as an accounting hedging relationship and, further, on the type of hedging relationship. To qualify for designation as an accounting hedging relationship, specific criteria must be met and appropriate documentation maintained. We had no derivative instruments that qualified under these rules as designated accounting hedges in the first six months of 2018 or 2017. Changes in the fair value of our derivative instruments are recognized at the end of each accounting period and recorded in the statement of operations as a component of cost of goods sold within the biodiesel segment.

Our immediate recognition of derivative instrument gains and losses can cause net income to be volatile from period to period due to the timing of the change in value of the derivative instruments relative to the volume of biofuel being sold. As of June 30, 2018 and December 31, 2017, the fair values of our derivative instruments were a net liability in the amount of \$869 and \$2,428, respectively.

Our gross profit will be impacted by the prices we pay for raw materials and conversion costs (costs incurred in the production of chemicals and biofuels) for which we do not possess contractual market price adjustment protection. These items are principally comprised of crude corn oil and yellow grease and petrodiesel. The availability and price of these items are subject to wide fluctuations due to unpredictable factors such as weather conditions, overall economic conditions, governmental policies, commodity markets, and global supply and demand.

We prepared a sensitivity analysis of our exposure to market risk with respect to key raw materials and conversion costs for which we do not possess contractual market price adjustment protections, based on average prices for the first six months of 2018. We included only those raw materials and conversion costs for which a hypothetical adverse change in price would result in a 1% or greater decrease in gross profit. Assuming that the prices of the associated finished goods could not be increased and assuming no change in quantities sold, a hypothetical 10% change in the average price of the commodity listed below would result in the following change in gross profit.

(Volume and dollars in thousands)

Item	Volume Requirements (a)	Units	Hypothetical Adverse Change in Price	Decrease in Gross Profit	Percentage Decrease in Gross Profit
Biodiesel feedstock	205,476	LB	10	% \$ 5,363	11.7 %
Methanol	90,467	LB	10	% \$ 1,710	3.7 %

(a) Volume requirements and average price information are based upon volumes used and prices obtained for the six months ended June 30, 2018. Volume requirements may differ materially from these quantities in future years as our business evolves.

We had no borrowings as of June 30, 2018 or December 31, 2017 and, as such, we were not exposed to interest rate risk for those periods. Due to the relative insignificance of transactions denominated in foreign currency, we consider our foreign currency risk to be immaterial.

#### Item 4. Controls and Procedures.

Under the supervision and with the participation of our chief executive officer and our principal financial officer and other senior management personnel, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15(d)-15(e)) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), as of the end of the period covered by this report. Based on that evaluation, our chief executive officer and our principal financial officer have concluded that these disclosure controls and procedures as of June 30, 2018 were effective to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms.

There were no changes in our internal control over financial reporting during our last fiscal quarter that materially affected, or were reasonably likely to materially affect, our internal control over financial reporting.

## **PART II OTHER INFORMATION**

### **Item 1. Legal Proceedings.**

We are not a party to, nor is any of our property subject to, any material pending legal proceedings, other than ordinary routine litigation incidental to our business. However, from time to time, we may be a party to, or a target of, lawsuits, claims, investigations, and proceedings, including product liability, personal injury, asbestos, patent and intellectual property, commercial, contract, environmental, antitrust, health and safety, and employment matters, which we expect to be handled and defended in the ordinary course of business. While we are unable to predict the outcome of any matters currently pending, we do not believe that the ultimate resolution of any such pending matters will have a material adverse effect on our overall financial condition, results of operations, or cash flows. However, adverse developments could negatively impact earnings or cash flows in future periods.

### **Item 1A. Risk Factors.**

There have been no material changes to the risk factors we previously disclosed in Item 1A of our Form 10-K, Annual Report for the year ended December 31, 2017 filed with the SEC on March 16, 2018.

### **Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

None.

### **Item 3. Defaults Upon Senior Securities.**

None.

**Item 4. Mine Safety Disclosures.**

None.

**Item 5. Other Information.**

None.

**Item 6. Exhibits.**

**Exhibit Description**

11. Statement re Computation of per Share Earnings

31(a). Rule 13a-15(e)/15d-15(e) Certification of chief executive officer

31(b). Rule 13a-15(e)/15d-15(e) Certification of chief principal officer

32. Section 1350 Certification of chief executive officer and principal financial officer

Pursuant to

Rule 406T of Regulation S-T, the Interactive Data Files in Exhibit 101 hereto are deemed not filed or

\*\* part of a registration statement or prospectus for purposes of Section 11 or 12 of the Securities Act of 1933, as amended, are deemed not filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, and otherwise are not subject to liability under those sections.

### **Special Note Regarding Forward Looking Information**

This report, and the documents incorporated by reference into this report contain forward-looking statements. Forward-looking statements deal with our current plans, intentions, beliefs, and expectations, and statements of future economic performance. Statements containing such terms as “believe,” “do not believe,” “plan,” “expect,” “intend,” “estimate,” “anticipate,” and other phrases of similar meaning are considered to contain uncertainty and are forward-looking statements. In addition, from time to time we or our representatives have made or will make forward-looking statements orally or in writing. Furthermore, such forward-looking statements may be included in various filings that we make with the SEC, or in press releases, or in oral statements made by or with the approval of one of our authorized executive officers.

These forward-looking statements are subject to certain known and unknown risks and uncertainties, as well as assumptions that could cause actual results to differ materially from those reflected in these forward-looking statements. Factors that might cause actual results to differ include, but are not limited to, those set forth under the headings “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in FutureFuel’s Form 10-K Annual Report for the year ended December 31, 2017 and in our future filings made with the SEC. You should not place undue reliance on any forward-looking statements contained in this report which reflect our management’s opinions only as of their respective dates. Except as required by law, we undertake no obligation to revise or publicly release the results of any revisions to forward-looking statements. The risks and uncertainties described in this report and in subsequent filings with the SEC are not the only ones we face. New factors emerge from time to time, and it is not possible for us to predict which will arise. There may be additional risks not presently known to us or that we currently believe are immaterial to our business. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. If any such risks occur, our business, operating results, liquidity, and financial condition could be materially affected in an adverse manner. You should consult any additional disclosures we have made or will make in our reports to the SEC on Forms 10-K, 10-Q, and 8-K, and any amendments thereto. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements contained in this report.

## **SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
