SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-K

[X] ANNUAL REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2016

[ ] TRANSITION REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period ____________________ to _____________________

Commission File Number 001-12690

UMH Properties, Inc.

(Exact name of registrant as specified in its charter)

Maryland	22-1890929
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer identification number)

3499 Route 9, Suite 3C, Freehold, New Jersey	07728
(Address of principal executive offices)	(Zip code)

Registrant’s telephone number, including area code (732) 577-9997

Securities registered pursuant to Section 12(b) of the Act:

Common Stock $.10 par value-New York Stock Exchange

8.25% Series A Cumulative Redeemable Preferred Stock $.10 par value per share, $25 liquidation value per share – New York Stock Exchange

8.0% Series B Cumulative Redeemable Preferred Stock $.10 par value per share, $25 liquidation value per share – New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. [ ] Yes [X] No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. [ ] Yes [X] No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. [X] Yes [ ] No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). [X] Yes [ ] No

Indicate by check if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K [X].

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act (Check one):

Large accelerated filer	[ ]	Accelerated filer	[X]
Non-accelerated filer	[ ]	Smaller reporting company	[ ]

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). [ ] Yes [X] No

Based upon the assumption that directors and executive officers of the registrant are not affiliates of the registrant, the aggregate market value of the voting stock of the registrant held by nonaffiliates of the registrant at June 30, 2016 was $310,625,561. Presuming that such directors and executive officers are affiliates of the registrant, the aggregate market value of the voting stock of the registrant held by nonaffiliates of the registrant at June 30, 2016 was $282,536,483.

The number of shares outstanding of issuer's common stock as of February 28, 2017 was 30,089,483 shares.

Documents Incorporated by Reference:

-Part III incorporates certain information by reference from the Registrant's proxy statement for the 2017 annual meeting of stockholders, which will be filed no later than 120 days after the close of the Registrant's fiscal year ended December 31, 2016.

-Exhibits incorporated by reference are listed in Part IV; Item 15 (a) (3).

PART I

Item 1 – Business

General Development of Business

UMH Properties, Inc. ("UMH"), together with its predecessors and consolidated subsidiaries, are referred to herein as "we", "us", "our", or "the Company", unless the context requires otherwise.

UMH is a self-administered and self-managed qualified real estate investment trust ("REIT") under Sections 856-860 of the Internal Revenue Code (the "Code"). The Company had elected REIT status effective January 1, 1992 and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code.

The Company was incorporated in the state of New Jersey in 1968. On September 29, 2003, the Company changed its state of incorporation from New Jersey to Maryland by merging with and into a Maryland corporation.

Narrative Description of Business

The Company's primary business is the ownership and operation of manufactured home communities – leasing manufactured home sites to private manufactured home owners. The Company also leases homes to residents, and through its wholly-owned taxable REIT subsidiary, UMH Sales and Finance, Inc. ("S&F"), conducts manufactured home sales in its communities.

As of December 31, 2016, the Company owns and operates 101 manufactured home communities containing approximately 18,000 developed sites. The communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana and Michigan. Subsequent to yearend, the Company acquired an additional five manufactured home communities containing a total of approximately 1,300 developed sites. The Company now owns 106 manufactured home communities consisting of approximately 19,300 developed sites.

A manufactured home community is designed to accommodate detached, single-family manufactured homes. These manufactured homes are produced off-site by manufacturers and installed on sites within the communities. These homes may be improved with the addition of features constructed on-site, including garages, screened rooms and carports. Manufactured homes are available in a variety of designs and floor plans, offering many amenities and custom options. Each manufactured home owner leases the site on which the home is located from the Company.

Manufactured homes are accepted by the public as a viable and economically attractive alternative to common stick-built single-family housing. The affordability of the modern manufactured home makes it a very attractive housing alternative.

Modern residential land lease communities are similar to typical residential subdivisions containing central entrances, paved well-lit streets, curbs and gutters. Generally, modern manufactured home communities contain buildings for recreation, green areas, and other common area facilities, all of which are the property of the community owner. In addition to such general improvements, certain manufactured home communities include recreational improvements such as swimming pools, tennis courts and playgrounds. Municipal water and sewer services are available in some manufactured home communities, while other communities supply these facilities on-site.

Typically, our leases are on an annual or month-to-month basis, renewable upon the consent of both parties. The community manager interviews prospective residents, collects rent and finance payments, ensures compliance with community regulations, maintains public areas and community facilities and is responsible for the overall appearance of the community. Manufactured home communities produce predictable income streams and provide protection from inflation due to the ability to annually increase rents. Manufactured home communities may also appreciate over time.

Many of our communities compete with other manufactured home community properties located in the same or nearby markets that are owned and operated by other companies in our business. We generally monitor the rental rates and other terms being offered by our competitors and consider this information as a factor in determining our own rental rates.

In connection with the operation of its communities, UMH also leases homes to prospective tenants. As of December 31, 2016, UMH owned a total of 4,700 rental homes, representing approximately 26% of its developed sites. These rental homes are owned by the Company and rented to residents. The Company engages in the rental of manufactured homes primarily in areas where the communities have existing vacancies. The rental homes produce income from both the home and the site which might otherwise be non-income producing. The Company sells the rental homes when the opportunity arises.

Inherent in the operation of a manufactured home community is the development, redevelopment, and expansion of our communities. The Company sells and finances the sale of manufactured homes in our communities through S&F. S&F was established to potentially enhance the value of our communities. The home sales business is operated like other homebuilders with sales centers, model homes, an inventory of completed homes and the ability to supply custom designed homes based upon the requirements of the new homeowners.

In addition to its manufactured home community portfolio, the Company also owns a portfolio of marketable REIT securities, which the Company generally limits to no more than approximately 20% of its undepreciated assets (which is the Company’s total assets excluding accumulated depreciation). These liquid real estate holdings provides diversification, additional liquidity and income, and serves as a proxy for real estate when more favorable risk adjusted returns are not available.

Investment and Other Policies

The Company may invest in improved and unimproved real property and may develop unimproved real property. Such properties may be located throughout the United States, but the Company has concentrated on the Northeast.

The Company seeks to finance acquisitions with the most appropriate available source of capital, including purchase money mortgages or other financing, which may be first liens, wraparound mortgages or subordinated indebtedness, sales of investments, and issuance of additional equity securities. In connection with its ongoing activities, the Company may issue notes, mortgages or other senior securities. The Company intends to use both secured and unsecured lines of credit.

The Company may issue securities for property; however, this has not occurred to date. The Company may repurchase or reacquire its shares from time to time if, in the opinion of the Board of Directors, such acquisition is advantageous to the Company. No shares were repurchased or reacquired during 2016 and, as of December 31, 2016, the Company does not own any of its own shares.

The Company also invests in equity securities of other REITs. The Company from time to time may purchase these securities on margin when the interest and dividend yields exceed the cost of funds. As of December 31, 2016, the Company had borrowings of $22,727,458 under its margin line at 2.0% interest. The REIT securities portfolio are subject to risk arising from adverse changes in market rates and prices, primarily interest rate risk and market price risk relating to equity securities. From time to time, the Company may use derivative instruments to mitigate interest rate risk; however, this has not occurred during any periods presented. At December 31, 2016 and 2015, the Company had $108,755,172 and $75,011,260 respectively, of securities available for sale. Included in these securities are Preferred Stock of $13,028,200 and $14,219,712 at December 31, 2016 and 2015, respectively. The realized net gain on securities available for sale at December 31, 2016 and 2015 amounted to $2,285,301 and $204,230, respectively. The unrealized net gain (loss) on securities available for sale at December 31, 2016 and 2015 amounted to $16,717,171 and $(2,055,027), respectively.

Property Maintenance and Improvement Policies

It is the policy of the Company to properly maintain, modernize, expand and make improvements to its properties when required. The Company anticipates that renovation expenditures with respect to its present properties during 2017 will be approximately $8 million. It is the policy of the Company to maintain adequate insurance coverage on all of its properties; and, in the opinion of the Company, all of its properties are adequately insured.

Number of Employees

As of February 28, 2017, the Company had approximately 330 employees, including Officers. During the year, the Company hires approximately 50 part-time and full-time temporary employees as grounds keepers, lifeguards, and for emergency repairs.

Segment Reporting and Financial Information

Management views the Company as a single segment based on its method of internal reporting in addition to its allocation of capital and resources. For required financial information related to our operations and assets, please refer to our consolidated financial statements, including the notes thereto, included in Item 8 “Financial Statements and Supplementary Data” in this Annual Report.

Available Information

Additional information about the Company can be found on the Company’s website which is located at www.umh.reit. Information contained on or hyperlinked from our website is not incorporated by reference into and should not be considered part of this Annual Report on Form 10-K or our other filings with the Securities and Exchange Commission (“SEC”). The Company makes available, free of charge, on or through its website, annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, as soon as reasonably practicable after we electronically file such material with, or furnish it to, the SEC. You can also read and copy any materials the Company files with the SEC at its Public Reference Room at 100 F Street, NE, Washington, DC 20549 (1-800-SEC-0330). The SEC maintains an Internet site (http://www.sec.gov) that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC.

Item 1A – Risk Factors

The following risk factors address the material risks concerning our business. If any of the risks discussed in this report were to occur, our business, prospects, financial condition, results of operation and our ability to service our debt and make distributions to our shareholders could be materially and adversely affected and the market price per share of our stock could decline significantly. Some statements in this report, including statements in the following risk factors, constitute forward-looking statements. Please refer to the section entitled "Cautionary Statement Regarding Forward-Looking Statements."

Real Estate Industry Risks

General economic conditions and the concentration of our properties in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana and Michigan may affect our ability to generate sufficient revenue. The market and economic conditions in our current markets may significantly affect manufactured home occupancy or rental rates. Occupancy and rental rates, in turn, may significantly affect our revenues, and if our communities do not generate revenues sufficient to meet our operating expenses, including debt service and capital expenditures, our cash flow and ability to pay or refinance our debt obligations could be adversely affected. As a result of the geographic concentration of our properties in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana and Michigan, we are exposed to the risks of downturns in the local economy or other local real estate market conditions which could adversely affect occupancy rates, rental rates, and property values in these markets.

Other factors that may affect general economic conditions or local real estate conditions include:

- the national and local economic climate which may be adversely impacted by, among other factors, plant closings, and industry slowdowns;
- local real estate market conditions such as the oversupply of manufactured home sites or a reduction in demand for manufactured home sites in an area;
- the number of repossessed homes in a particular market;
- the lack of an established dealer network;
- the rental market which may limit the extent to which rents may be increased to meet increased expenses without decreasing occupancy rates;
- the safety, convenience and attractiveness of our properties and the neighborhoods where they are located;
- zoning or other regulatory restrictions;
- competition from other available manufactured home communities and alternative forms of housing (such as apartment buildings and single-family homes);
- our ability to provide adequate management, maintenance and insurance;
- increased operating costs, including insurance premiums, real estate taxes and utilities;
- the impact on the national and local regulatory environments as a result of the recent U.S. presidential election; and
- the enactment of rent control laws or laws taxing the owners of manufactured homes.

Our income would also be adversely affected if tenants were unable to pay rent or if sites were unable to be rented on favorable terms. If we were unable to promptly relet or renew the leases for a significant number of sites, or if the rental rates upon such renewal or reletting were significantly lower than expected rates, then our business and results of operations could be adversely affected. In addition, certain expenditures associated with each property (such as real estate taxes and maintenance costs) generally are not reduced when circumstances cause a reduction in income from the property.

We may be unable to compete with our larger competitors for acquisitions, which may increase prices for communities. The real estate business is highly competitive. We compete for manufactured home community investments with numerous other real estate entities, such as individuals, corporations, REITs and other enterprises engaged in real estate activities. In many cases, the competing concerns may be larger and better financed than we are, making it difficult for us to secure new manufactured home community investments. Competition among private and

institutional purchasers of manufactured home community investments has resulted in increases in the purchase price paid for manufactured home communities and consequently higher fixed costs. To the extent we are unable to effectively compete in the marketplace, our business may be adversely affected.

We may not be able to integrate or finance our acquisitions and our acquisitions may not perform as expected. We acquire and intend to continue to acquire manufactured home communities on a select basis. Our acquisition activities and their success are subject to risks, including the following:

- if we enter into an acquisition agreement for a property, it is usually subject to customary conditions to closing, including completion of due diligence investigations to our satisfaction, which may not be satisfied;
- we may be unable to finance acquisitions on favorable terms;
- acquired properties may fail to perform as expected;
- acquired properties may be located in new markets where we face risks associated with a lack of market knowledge or understanding of the local economy, lack of business relationships in the area and unfamiliarity with local governmental and permitting procedures; and
- we may be unable to quickly and efficiently integrate new acquisitions, particularly acquisitions of portfolios of properties, into our existing operations.

If any of the above were to occur, our business and results of operations could be adversely affected.

In addition, we may acquire properties subject to liabilities and without any recourse, or with only limited recourse, with respect to unknown liabilities. As a result, if a liability were to be asserted against us based upon ownership of those properties, we might have to pay substantial sums to settle it, which could adversely affect our cash flow.

We may be unable to accurately estimate and anticipate costs and timing associated with expansion activities. We periodically consider expansion of communities. Our expansion activities are subject to risks such as: construction costs exceeding original estimates, construction and lease-up interruptions resulting in increased construction costs, and lower than anticipated occupancy and rental rates causing a property to be unprofitable or less profitable than prior to the expansion.

We may be unable to sell properties when appropriate because real estate investments are illiquid. Real estate investments generally cannot be sold quickly and, therefore, will tend to limit our ability to vary our property portfolio promptly in response to changes in economic or other conditions. In addition, the Internal Revenue Code limits our ability to sell our properties. The inability to respond promptly to changes in the performance of our property portfolio could adversely affect our financial condition and ability to service our debt and make distributions to our stockholders.

Our ability to sell manufactured homes may be affected by various factors, which may in turn adversely affect our profitability. S&F operates in the manufactured home market offering homes for sale to tenants and prospective tenants of our communities. The market for the sale of manufactured homes may be adversely affected by the following factors:

- downturns in economic conditions which adversely impact the housing market;
- an oversupply of, or a reduced demand for, manufactured homes;
- the difficulty facing potential purchasers in obtaining affordable financing as a result of heightened lending criteria; and
- an increase or decrease in the rate of manufactured home repossessions which provide aggressively priced competition to new manufactured home sales.

Any of the above listed factors could adversely impact our rate of manufactured home sales, which would result in a decrease in profitability.

Licensing laws and compliance could affect our profitability. We are subject to the Secure and Fair Enforcement for Mortgage Licensing Act of 2008 ("SAFE Act"), which requires that we obtain appropriate licenses pursuant to the Nationwide Mortgage Licensing System & Registry in each state where we conduct business. There are extensive federal and state requirements mandated by the SAFE Act and other laws pertaining to financing, including the Dodd-Frank Wall Street Reform and Consumer Protection Act ("Dodd-Frank Act"), and there can be no assurance that we will obtain or renew our SAFE Act licenses, which could result in fees and penalties and have an adverse impact on our ability to continue with our home financing activities.

Costs associated with taxes and regulatory compliance may reduce our revenue. We are subject to significant regulation that inhibits our activities and may increase our costs. Local zoning and use laws, environmental statutes and other governmental requirements may restrict expansion, rehabilitation and reconstruction activities. These regulations may prevent us from taking advantage of economic opportunities. Legislation such as the Americans with Disabilities Act may require us to modify our properties at a substantial cost and noncompliance could result in the imposition of fines or an award of damages to private litigants. Future legislation may impose additional requirements. We cannot predict what requirements may be enacted or amended or what costs we will incur to comply with such requirements. Costs resulting from changes in real estate laws, income taxes, service or other taxes may adversely affect our funds from operations and our ability to pay or refinance our debt. Similarly, changes in laws increasing the potential liability for environmental conditions existing on properties or increasing the restrictions on discharges or other conditions may result in significant unanticipated expenditures, which would adversely affect our business and results of operations.

Laws and regulations also govern the provision of utility services. Such laws regulate, for example, how and to what extent owners or operators of property can charge renters for provision of utilities. Such laws can also regulate the operations and performance of utility systems and may impose fines and penalties on real property owners or operators who fail to comply with these requirements. The laws and regulations may also require capital investment to maintain compliance.

Rent control legislation may harm our ability to increase rents. State and local rent control laws in certain jurisdictions may limit our ability to increase rents and to recover increases in operating expenses and the costs of capital improvements. Currently, rent control affects only two of our manufactured home communities, both of which are in New Jersey, and has resulted in slower growth of earnings from these properties. However, we may purchase additional properties in markets that are either subject to rent control or in which rent-limiting legislation exists or may be enacted.

Environmental liabilities could affect our profitability. Under various federal, state and local laws, ordinances and regulations, an owner or operator of real estate is liable for the costs of removal or remediation of certain hazardous substances at, on, under or in such property, as well as certain other potential costs relating to hazardous or toxic substances. Such laws often impose such liability without regard to whether the owner knew of, or was responsible for, the presence of such hazardous substances. A conveyance of the property, therefore, does not relieve the owner or operator from liability. As a current or former owner and operator of real estate, we may be required by law to investigate and cleanup hazardous substances released at or from the properties we currently own or operate or have in the past owned or operated. We may also be liable to the government or to third parties for property damage, investigation costs and cleanup costs. In addition, some environmental laws create a lien on the contaminated site in favor of the government for damages and costs the government incurs in connection with the contamination. Contamination may adversely affect our ability to sell or lease real estate or to borrow using the real estate as collateral. Persons who arrange for the disposal or treatment of hazardous substances also may be liable for the costs of removal or remediation of such substances at a disposal or treatment facility owned or operated by another person. In addition, certain environmental laws impose liability for the management and disposal of asbestos-containing materials and for the release of such materials into the air. These laws may provide for third parties to seek recovery

from owners or operators of real properties for personal injury associated with asbestos-containing materials. In connection with the ownership, operation, management, and development of real properties, we may be considered an owner or operator of such properties and, therefore, are potentially liable for removal or remediation costs, and also may be liable for governmental fines and injuries to persons and property. When we arrange for the treatment or disposal of hazardous substances at landfills or other facilities owned by other persons, we may be liable for the removal or remediation costs at such facilities. We are not aware of any environmental liabilities relating to our investment properties which would have a material adverse effect on our business, assets, or results of operations. However, we cannot assure you that environmental liabilities will not arise in the future and that such liabilities will not have a material adverse effect on our business, assets or results of operation.

Of the 101 manufactured home communities we currently operate, thirty-nine have their own wastewater treatment facility or water distribution system, or both. At these locations, we are subject to compliance with monthly, quarterly and yearly testing for contaminants as outlined by the individual state’s Department of Environmental Protection Agencies. Currently, we are not subject to radon or asbestos monitoring requirements.

Additionally, in connection with the management of the properties or upon acquisition or financing of a property, the Company authorizes the preparation of Phase I or similar environmental reports (which involves general inspections without soil sampling or ground water analysis) completed by independent environmental consultants. Based upon such environmental reports and the Company's ongoing review of its properties, as of the date of this Annual Report, the Company is not aware of any environmental condition with respect to any of its properties which it believes would be reasonably likely to have a material adverse effect on its financial condition and/or results of operations. However, these reports cannot reflect conditions arising after the studies were completed, and no assurances can be given that existing environmental studies reveal all environmental liabilities, that any prior owner or operator of a property or neighboring owner or operator did not create any material environmental condition not known to us, or that a material environmental condition does not otherwise exist as to any one or more properties.

S***ome of our properties are subject to potential natural or other disasters.*** Certain of our manufactured home communities are located in areas that may be subject to natural disasters, including our manufactured home communities in flood plains or in areas that may be adversely affected by tornados, as well as our manufactured home communities in coastal regions that may be adversely affected by increases in sea levels or in the frequency or severity of hurricanes, tropical storms or other severe weather conditions. The occurrence of natural disasters may delay redevelopment or development projects, increase investment costs to repair or replace damaged properties, increase future property insurance costs and negatively impact the tenant demand for lease space. To the extent insurance is unavailable to us or is unavailable on acceptable terms, or our insurance is not adequate to cover losses from these events, our financial condition and results of operations could be adversely affected.

Actions by our competitors may decrease or prevent increases in the occupancy and rental rates of our properties which could adversely affect our business. We compete with other owners and operators of manufactured home community properties, some of which own properties similar to ours in the same submarkets in which our properties are located. The number of competitive manufactured home community properties in a particular area could have a material adverse effect on our ability to attract tenants, lease sites and maintain or increase rents charged at our properties or at any newly acquired properties. In addition, other forms of multi-family residential properties, such as private and federally funded or assisted multi-family housing projects and single-family housing, provide housing alternatives to potential tenants of manufactured home communities. If our competitors offer housing at rental rates below current market rates or below the rental rates we currently charge our tenants, we may lose potential tenants, and we may be pressured to reduce our rental rates below those we currently charge in order to retain tenants when our tenants' leases expire. As a result, our financial condition, cash flow, cash available for distribution, and ability to satisfy our debt service obligations could be materially adversely affected.

Losses in excess of our insurance coverage or uninsured losses could adversely affect our cash flow. We generally maintain insurance policies related to our business, including casualty, general liability and other policies covering business operations, employees and assets. However, we may be required to bear all losses that are not adequately covered by insurance. In addition, there are certain losses that are not generally insured because it is not economically feasible to insure against them, including losses due to riots, acts of war or other catastrophic events. If an uninsured loss or a loss in excess of insured limits occurs with respect to one or more of our properties, then we could lose the capital we invested in the properties, as well as the anticipated profits and cash flow from the properties and, in the

case of debt which is with recourse to us, we would remain obligated for any mortgage debt or other financial obligations related to the properties. Although we believe that our insurance programs are adequate, no assurance can be given that we will not incur losses in excess of its insurance coverage, or that we will be able to obtain insurance in the future at acceptable levels and reasonable cost.

Our investments are concentrated in the manufactured housing/residential sector and our business would be adversely affected by an economic downturn in that sector. Our investments in real estate assets are primarily concentrated in the manufactured housing/residential sector. This concentration may expose us to the risk of economic downturns in this sector to a greater extent than if our business activities included a more significant portion of other sectors of the real estate industry.

Financing Risks

We face risks generally associated with our debt. We finance a portion of our investments in properties and marketable securities through debt. We are subject to the risks normally associated with debt financing, including the risk that our cash flow will be insufficient to meet required payments of principal and interest. In addition, debt creates other risks, including:

- rising interest rates on our variable rate debt;
- inability to repay or refinance existing debt as it matures, which may result in forced disposition of assets on disadvantageous terms;
- refinancing terms less favorable than the terms of existing debt; and
- failure to meet required payments of principal and/or interest.

We mortgage our properties, which subjects us to the risk of foreclosure in the event of non-payment. We mortgage many of our properties to secure payment of indebtedness. If we are unable to meet mortgage payments, then the property could be foreclosed upon or transferred to the mortgagee with a consequent loss of income and asset value. A foreclosure of one or more of our properties could adversely affect our financial condition, results of operations, cash flow, ability to service debt and make distributions and the market price of our preferred and common stock and any other securities we issue.

We face risks related to "balloon payments" and refinancings. Certain of our mortgages will have significant outstanding principal balances on their maturity dates, commonly known as "balloon payments." There can be no assurance that we will be able to refinance the debt on favorable terms or at all. To the extent we cannot refinance debt on favorable terms or at all, we may be forced to dispose of properties on disadvantageous terms or pay higher interest rates, either of which would have an adverse impact on our financial performance and ability to service debt and make distributions.

We face risks associated with our dependence on external sources of capital. In order to qualify as a REIT, we are required each year to distribute to our stockholders at least 90% of our REIT taxable income, and we are subject to tax on our income to the extent it is not distributed. Because of this distribution requirement, we may not be able to fund all future capital needs from cash retained from operations. As a result, to fund capital needs, we rely on third-party sources of capital, which we may not be able to obtain on favorable terms, if at all. Our access to third-party sources of capital depends upon a number of factors, including (i) general market conditions; (ii) the market's perception of our growth potential; (iii) our current and potential future earnings and cash distributions; and (iv) the market price of our preferred and common stock. Additional debt financing may substantially increase our debt-to-total capitalization ratio. Additional equity issuance may dilute the holdings of our current stockholders.

We may become more highly leveraged, resulting in increased risk of default on our obligations and an increase in debt service requirements which could adversely affect our financial condition and results of operations and our ability to pay distributions. We have incurred, and may continue to incur, indebtedness in furtherance of our activities. Our governing documents do not limit the amount of indebtedness we may incur. Accordingly, our Board of Directors may vote to incur additional debt and would do so, for example, if it were necessary to maintain our status as a REIT. We could therefore become more highly leveraged, resulting in an increased risk of default on our obligations and in an increase in debt service requirements, which could adversely affect our financial condition and results of operations and our ability to pay distributions to stockholders.

Fluctuations in interest rates could materially affect our financial results. Because a portion of our debt bears interest at variable rates, increases in interest rates could materially increase our interest expense. If the United States Federal Reserve increases short-term interest rates, this may have a significant upward impact on shorter-term interest rates, including the interest rates that our variable rate debt is based upon. Potential future increases in interest rates and credit spreads may increase our interest expense and therefore negatively affect our financial condition and results of operations, and reduce our access to the debt or equity capital markets.

Covenants in our credit agreements could limit our flexibility and adversely affect our financial condition. The terms of our various credit agreements and other indebtedness require us to comply with a number of customary financial and other covenants, such as maintaining debt service coverage and leverage ratios and maintaining insurance coverage. These covenants may limit our flexibility in our operations, and breaches of these covenants could result in defaults under the instruments governing the applicable indebtedness even if we had satisfied our payment obligations. If we were to default under our credit agreements, our financial condition would be adversely affected.

A change in the United States government policy with regard to Fannie Mae and Freddie Mac could impact our financial condition. Fannie Mae and Freddie Mac are a major source of financing for the manufactured housing real estate sector. We depend frequently on Fannie Mae and Freddie Mac to finance growth by purchasing or guaranteeing manufactured housing community loans. We do not know when or if Fannie Mae or Freddie Mac will restrict their support of lending to our real estate sector or to us in particular. A decision by the government to eliminate Fannie Mae or Freddie Mac, or reduce their acquisitions or guarantees of our mortgage loans, may adversely affect interest rates, capital availability and our ability to refinance our existing mortgage obligations as they come due and obtain additional long-term financing for the acquisition of additional communities on favorable terms or at all.

We face risks associated with the financing of home sales to customers in our manufactured home communities. To produce new rental revenue and to upgrade our communities, we sell homes to customers in our communities at competitive prices and finance these home sales through S&F. We allow banks and outside finance companies the first opportunity to finance these sales. We are subject to the following risks in financing these homes:

- the borrowers may default on these loans and not be able to make debt service payments or pay principal when due;
- the default rates may be higher than we anticipate;
- demand for consumer financing may not be as great as we anticipate or may decline;
- the value of property securing the installment notes receivable may be less than the amounts owed; and
- interest rates payable on the installment notes receivable may be lower than our cost of funds.

Additionally, there are many regulations pertaining to our home sales and financing activities. There are significant consumer protection laws and the regulatory framework may change in a manner which may adversely affect our operating results. The regulatory environment and associated consumer finance laws create a risk of greater liability from our home sales and financing activities and could subject us to additional litigation. We are also dependent on licenses granted by state and other regulatory authorities, which may be withdrawn or which may not be renewed and which could have an adverse impact on our ability to continue with our home sales and financing activities.

Risks Related to our Status as a REIT

If our leases are not respected as true leases for federal income tax purposes, we would fail to qualify as a REIT. To qualify as a REIT, we must, among other things, satisfy two gross income tests, under which specified percentages of our gross income must be passive income, such as rent. For the rent paid pursuant to our leases, to qualify for purposes of the gross income tests, the leases must be respected as true leases for federal income tax purposes and not be treated as service contracts, joint ventures or some other type of arrangement. We believe that our leases will be respected as true leases for federal income tax purposes. However, there can be no assurance that the Internal Revenue Service ("IRS") will agree with this view. If the leases are not respected as true leases for federal income tax purposes, we would not be able to satisfy either of the two gross income tests applicable to REITs, and we could lose our REIT status.

Failure to make required distributions would subject us to additional tax. In order to qualify as a REIT, we must, among other requirements, distribute, each year, to our stockholders at least 90% of our taxable income, excluding net capital gains. To the extent that we satisfy the 90% distribution requirement, but distribute less than 100% of our taxable income, we will be subject to federal corporate income tax on our undistributed income. In addition, we will

incur a 4% nondeductible excise tax on the amount, if any, by which our distributions (or deemed distributions) in any year are less than the sum of:

85% of our ordinary income for that year;

95% of our capital gain net earnings for that year; and

100% of our undistributed taxable income from prior years.

To the extent we pay out in excess of 100% of our taxable income for any tax year, we may be able to carry forward such excess to subsequent years to reduce our required distributions for purposes of the 4% nondeductible excise tax in such subsequent years. We intend to pay out our income to our stockholders in a manner intended to satisfy the 90% distribution requirement. Differences in timing between the recognition of income and the related cash receipts or the effect of required debt amortization payments could require us to borrow money or sell assets to pay out enough of our taxable income to satisfy the 90% distribution requirement and to avoid corporate income tax.

We may not have sufficient cash available from operations to pay distributions to our stockholders, and, therefore, distributions may be made from borrowings. The actual amount and timing of distributions to our stockholders will be determined by our Board of Directors in its discretion and typically will depend on the amount of cash available for distribution, which will depend on items such as current and projected cash requirements, limitations on distributions imposed by law on our financing arrangements and tax considerations. As a result, we may not have sufficient cash available from operations to pay distributions as required to maintain our status as a REIT. Therefore, we may need to borrow funds to make sufficient cash distributions in order to maintain our status as a REIT, which may cause us to incur additional interest expense as a result of an increase in borrowed funds for the purpose of paying distributions.

We may be required to pay a penalty tax upon the sale of a property. The federal income tax provisions applicable to REITs provide that any gain realized by a REIT on the sale of property held as inventory or other property held primarily for sale to customers in the ordinary course of business is treated as income from a "prohibited transaction" that is subject to a 100% penalty tax. Under current law, unless a sale of real property qualifies for a safe harbor, the question of whether the sale of real estate or other property constitutes the sale of property held primarily for sale to customers is generally a question of the facts and circumstances regarding a particular transaction. We intend that we and our subsidiaries will hold the interests in the real estate for investment with a view to long-term appreciation, engage in the business of acquiring and owning real estate, and make occasional sales as are consistent with our investment objectives. We do not intend to engage in prohibited transactions. We cannot assure you, however, that we will only make sales that satisfy the requirements of the safe harbors or that the IRS will not successfully assert that one or more of such sales are prohibited transactions.

We may be adversely affected if we fail to qualify as a REIT. If we fail to qualify as a REIT, we will not be allowed to deduct distributions to stockholders in computing our taxable income and will be subject to Federal income tax, including any applicable alternative minimum tax, at regular corporate rates. In addition, we might be barred from qualification as a REIT for the four years following disqualification. The additional tax incurred at regular corporate rates would reduce significantly the cash flow available for distribution to stockholders and for debt service. Furthermore, we would no longer be required to make any distributions to our stockholders as a condition to REIT qualification. Any distributions to noncorporate stockholders would be taxable as ordinary income to the extent of our current and accumulated earnings and profits, although such dividend distributions generally would be subject to a top federal income tax rate of 20%. Corporate distributees would in that case generally be eligible for the dividends received deduction on the distributions, subject to limitations under the Code.

To qualify as a REIT, we must comply with certain highly technical and complex requirements. We cannot be certain we have complied, and will always be able to comply, with the requirements to qualify as a REIT because there are few judicial and administrative interpretations of these provisions. In addition, facts and circumstances that may be beyond our control may affect our ability to continue to qualify as a REIT. We cannot assure you that new legislation, regulations, administrative interpretations or court decisions will not change the tax laws significantly with respect to our qualification as a REIT or with respect to the Federal income tax consequences of qualification. We believe that we have qualified as a REIT since our inception and intend to continue to qualify as a REIT. However, we cannot assure you that we are qualified or will remain qualified.

There is a risk of changes in the tax law applicable to REITs. Because the IRS, the United States Treasury Department and Congress frequently review federal income tax legislation, we cannot predict whether, when or to what extent new federal tax laws, regulations, interpretations or rulings will be adopted. Numerous changes to the U.S. federal income tax laws are proposed on a regular basis. Any of such legislative action may prospectively or retroactively modify our tax treatment and, therefore, may adversely affect taxation of us and/or our investors. Moreover, legislative and regulatory changes may be more likely during the 115th Congress because the Presidency and Congress will be controlled by the same political party, and significant tax reform has been described publicly as a legislative priority. Additionally, the REIT rules are constantly under review by persons involved in the legislative process and by the IRS and the U.S. Treasury Department, which may result in revisions to regulations and interpretations in addition to statutory changes. If enacted, certain proposed changes could have an adverse impact on our business and financial results. For example, certain proposals set forth by the President and Congress could reduce the relative competitive advantage of operating as a REIT. These proposals include: the lowering of income tax rates on individuals and corporations, which could ease the burden of double taxation on corporate dividends and make the single level of taxation on REIT distributions relatively less attractive; allowing the expensing of capital expenditures, which could have a similar impact and also could result in the bunching of taxable income and required distributions for REITs; and further limiting or eliminating the deductibility of interest expense, which could disrupt the real estate market and could increase the amount of REIT taxable income that must be distributed as dividends to shareholders.

We may be unable to comply with the strict income distribution requirements applicable to REITs. To maintain qualification as a REIT under the Code, a REIT must annually distribute to its stockholders at least 90% of its REIT taxable income, excluding the dividends paid deduction and net capital gains. This requirement limits our ability to accumulate capital. We may not have sufficient cash or other liquid assets to meet the distribution requirements. Difficulties in meeting the distribution requirements might arise due to competing demands for our funds or to timing differences between tax reporting and cash receipts and disbursements, because income may have to be reported before cash is received, because expenses may have to be paid before a deduction is allowed, because deductions may be disallowed or limited or because the IRS may make a determination that adjusts reported income. In those situations, we might be required to borrow funds or sell properties on adverse terms in order to meet the distribution requirements and interest and penalties could apply which could adversely affect our financial condition. If we fail to make a required distribution, we could cease to be taxed as a REIT.

If we were considered to have actually or constructively paid a "preferential dividend" to certain of our stockholders, our status as a REIT could be adversely affected. In order to qualify as a REIT, we must distribute annually to our stockholders at least 90% of our REIT taxable income (which does not equal net income as calculated in accordance with accounting principles generally accepted in the United States of America ("GAAP")), determined without regard to the deduction for dividends paid and excluding net capital gain. For distributions to be counted as satisfying the annual distribution requirements for REITs, and to provide us with a REIT level tax deduction, the distributions for REIT years beginning prior to January 1, 2015 must not be "preferential dividends." A dividend is not a preferential dividend if the distribution is pro rata among all outstanding shares of stock within a particular class, and in accordance with the preferences among different classes of stock as set forth in a REIT's organizational documents. There is no de minimis exception with respect to preferential dividends; therefore, if the IRS were to take the position that we inadvertently paid a preferential dividend, for a REIT year beginning prior to January 1, 2015, we may be deemed to have failed the 90% distribution test, and our status as a REIT could be terminated for the year in which such determination is made if we were unable to cure such failure. While we believe that our operations have been structured in such a manner that we will not be treated as inadvertently having paid preferential dividends for a REIT year beginning prior to January 1, 2015, we can provide no assurance to this effect.

Notwithstanding our status as a REIT, we are subject to various federal, state and local taxes on our income and property. For example, we will be taxed at regular corporate rates on any undistributed taxable income, including undistributed net capital gains; provided, however, that properly designated undistributed capital gains will effectively avoid taxation at the stockholder level. We may be subject to other Federal income taxes and may also have to pay some state income or franchise taxes because not all states treat REITs in the same manner as they are treated for Federal income tax purposes.

Other Risks

We may not be able to obtain adequate cash to fund our business. Our business requires access to adequate cash to finance our operations, distributions, capital expenditures, debt service obligations, development and redevelopment

costs and property acquisition costs, if any. We expect to generate the cash to be used for these purposes primarily with operating cash flow, borrowings under secured and unsecured loans, proceeds from sales of strategically identified assets and, when market conditions permit, through the issuance of debt and equity securities from time to time. We may not be able to generate sufficient cash to fund our business, particularly if we are unable to renew leases, lease vacant space or re-lease space as leases expire according to our expectations.

We are dependent on key personnel. Our executive and other senior officers have a significant role in our success. Our ability to retain our management group or to attract suitable replacements should any members of the management group leave is dependent on the competitive nature of the employment market. The loss of services from key members of the management group or a limitation in their availability could adversely affect our financial condition and cash flow. Further, such a loss could be negatively perceived in the capital markets.

We may amend our business policies without stockholder approval. Our Board of Directors determines our growth, investment, financing, capitalization, borrowing, REIT status, operations and distributions policies. Although our Board of Directors has no present intention to change or reverse any of these policies, they may be amended or revised without notice to stockholders. Accordingly, stockholders may not have control over changes in our policies. We cannot assure you that changes in our policies will serve fully the interests of all stockholders.

The market value of our preferred and common stock could decrease based on our performance and market perception and conditions. The market value of our preferred and common stock may be based primarily upon the market's perception of our growth potential and current and future cash dividends, and may be secondarily based upon the real estate market value of our underlying assets. The market price of our preferred and common stock is influenced by their respective distributions relative to market interest rates. Rising interest rates may lead potential buyers of our stock to expect a higher distribution rate, which would adversely affect the market price of our stock. In addition, rising interest rates would result in increased expense, thereby adversely affecting cash flow and our ability to service our indebtedness and pay distributions.

There are restrictions on the transfer of our capital stock. To maintain our qualification as a REIT under the Code, no more than 50% in value of our outstanding capital stock may be owned, actually or by attribution, by five or fewer individuals, as defined in the Code to also include certain entities, during the last half of a taxable year. Accordingly, our charter contains provisions restricting the transfer of our capital stock. These restrictions may discourage a tender offer or other transaction, or a change in management or of control of us that might involve a premium price for our common stock or preferred stock or that our shareholders otherwise believe to be in their best interests, and may result in the transfer of shares acquired in excess of the restrictions to a trust for the benefit of a charitable beneficiary and, as a result, the forfeiture by the acquirer of the benefits of owning the additional shares.

Our earnings are dependent, in part, upon the performance of our investment portfolio. As permitted by the Code, we invest in and own securities of other REITs, which we generally limit to no more than approximately 20% of our undepreciated assets. To the extent that the value of those investments declines or those investments do not provide a return, our earnings and cash flow could be adversely affected.

We are subject to restrictions that may impede our ability to effect a change in control. Certain provisions contained in our charter and bylaws and certain provisions of Maryland law may have the effect of discouraging a third party from making an acquisition proposal for us and thereby inhibit a change in control. These provisions include the following:

Our charter provides for three classes of directors with the term of office of one class expiring each year, commonly referred to as a "staggered board." By preventing common stockholders from voting on the election of more than one class of directors at any annual meeting of stockholders, this provision may have the effect of keeping the current

members of our Board of Directors in control for a longer period of time than stockholders may desire.

Our charter generally limits any holder from acquiring more than 9.8% (in value or in number, whichever is more restrictive) of our outstanding equity stock (defined as all of our classes of capital stock, except our excess stock). While this provision is intended to assure our ability to remain a qualified REIT for Federal income tax purposes, the ownership limit may also limit the opportunity for stockholders to receive a premium for their shares of common stock that might otherwise exist if an investor was attempting to assemble a block of shares in excess of 9.8% of the outstanding shares of equity stock or otherwise effect a change in control.

The request of stockholders entitled to cast at least a majority of all votes entitled to be cast at such meeting is necessary for stockholders to call a special meeting. We also require advance notice by common stockholders for the nomination of directors or proposals of business to be considered at a meeting of stockholders.

Our Board of Directors may authorize and cause us to issue securities without shareholder approval. Under our charter, the board has the power to classify and reclassify any of our unissued shares of capital stock into shares of capital stock with such preferences, rights, powers and restrictions as the Board of Directors may determine.

“Business combination” provisions that provide that, unless exempted, a Maryland corporation may not engage in certain business combinations, including mergers, dispositions of 10 percent or more of its assets, certain issuances of shares of stock and other specified transactions, with an “interested shareholder” or an affiliate of an interested shareholder for five years after the most recent date on which the interested shareholder became an interested shareholder, and thereafter unless specified criteria are met. An interested shareholder is defined generally as any person who beneficially owns 10% or more of the voting power of our shares or an affiliate thereof or an affiliate or associate of ours who was the beneficial owner, directly or indirectly, of 10% or more of the voting power of our then outstanding voting stock at any time within the two-year period immediately prior to the date in question. In our charter, we have expressly elected that the Maryland Business Combination Act not govern or apply to any transaction with our affiliated company, Monmouth Real Estate Investment Corporation (“MREIC”), a Maryland corporation.

The duties of directors of a Maryland corporation do not require them to, among other things (a) accept, recommend or respond to any proposal by a person seeking to acquire control of the corporation, (b) authorize the corporation to redeem any rights under, or modify or render inapplicable, any shareholders rights plan, (c) make a determination under the Maryland Business Combination Act or the Maryland Control Share Acquisition Act to exempt any person or transaction from the requirements of those provisions, or (d) act or fail to act solely because of the effect of the act or failure to act may have on an acquisition or potential acquisition of control of the corporation or the amount or type of consideration that may be offered or paid to the shareholders in an acquisition.

We cannot assure you that we will be able to pay distributions regularly. Our ability to pay distributions in the future is dependent on our ability to operate profitably and to generate cash from our operations and the operations of our subsidiaries and is subject to limitations under our financing arrangements and Maryland law. Under the Maryland General Corporation Law, (“MGCL”), a Maryland corporation generally may not make a distribution if, after giving effect to the distribution, the corporation would not be able to pay its debts as the debts became due in the usual course of business, or the corporation’s total assets would be less than the sum of its total liabilities plus, unless the charter permits otherwise, the amount that would be needed if the corporation were to be dissolved at the time of the distribution to satisfy the preferential rights upon dissolution of stockholders whose preferential rights on dissolution are superior to those receiving the distribution. Accordingly, we cannot guarantee that we will be able to pay distributions on a regular quarterly basis in the future.

Dividends on our capital stock do not qualify for the reduced tax rates available for some dividends. Income from “qualified dividends” payable to U.S. stockholders that are individuals, trusts and estates are generally subject to tax at preferential rates. Dividends payable by REITs, however, generally are not eligible for the preferential tax rates applicable to qualified dividend income. Although these rules do not adversely affect our taxation or the dividends payable by us, to the extent that the preferential rates continue to apply to regular corporate qualified dividends, investors who are individuals, trusts and estates may perceive an investment in us to be relatively less attractive than an investment in the stock of a non-REIT corporation that pays dividends, which could materially and adversely affect the value of the shares of, and per share trading price of, our capital stock.

We are subject to risks arising from litigation. We may become involved in litigation. Litigation can be costly, and the results of litigation are often difficult to predict. We may not have adequate insurance coverage or contractual protection to cover costs and liability in the event we are sued, and to the extent we resort to litigation to enforce our rights, we may incur significant costs and ultimately be unsuccessful or unable to recover amounts we believe are owed to us. We may have little or no control of the timing of litigation, which presents challenges to our strategic planning.

Future terrorist attacks and military conflicts could have a material adverse effect on general economic conditions, consumer confidence and market liquidity. Among other things, it is possible that interest rates may be affected by these events. An increase in interest rates may increase our costs of borrowing, leading to a reduction in our earnings. Terrorist acts affecting our properties could also result in significant damages to, or loss of, our properties. Additionally, we may be unable to obtain adequate insurance coverage on acceptable economic terms for losses resulting from acts of terrorism. Our lenders may require that we carry terrorism insurance even if we do not believe this insurance is necessary or cost effective. Should an act of terrorism result in an uninsured loss or a loss in excess of insured limits, we could lose capital invested in a property, as well as the anticipated future revenues from a property, while remaining obligated for any mortgage indebtedness or other financial obligations related to the property. Any loss of these types would adversely affect our financial condition.

Disruptions in the financial markets could affect our ability to obtain financing on reasonable terms and have other adverse effects on us and the market price of our capital stock. Over the last several years, the U.S. stock and credit markets have experienced significant price volatility, dislocations and liquidity disruptions, which have caused market prices of many stocks and debt securities to fluctuate substantially and the spreads on prospective debt financing to widen considerably. Moreover, the U.S. interest rate environment, oil price fluctuations, the election of a new U.S. President, uncertain tax and economic plans in Congress, and turmoil in emerging markets have created additional uncertainty and volatility in the U.S. and global economies. Continued economic uncertainty, both nationally and internationally, causes increased volatility in investor confidence, thereby creating similar volatility in the availability of both debt and equity capital in the financial markets. The U.S. Federal Reserve has predicted that more interest rate increases may occur in 2017, raising borrowing costs for consumers and businesses. Uncertainty in the stock and credit markets may negatively impact our ability to access additional financing at reasonable terms, which may negatively affect our ability to acquire properties and otherwise pursue our investment strategy. A prolonged downturn in the stock or credit markets may cause us to seek alternative sources of potentially less attractive financing, and may require us to adjust our investment strategy accordingly. These types of events in the stock and credit markets may make it more difficult or costly for us to raise capital through the issuance of the common stock, preferred stock or debt securities. The potential disruptions in the financial markets may have a material adverse effect on the market value of the common stock and preferred stock and the return we receive on our properties and investments, as well as other unknown adverse effects on us or the economy in general.

We may be adversely impacted by volatility in foreign financial markets. During the last few years, the financial crisis in Europe (including financial difficulties at several large European banks) has led to increased price volatility, dislocations and liquidity disruptions. Adding to the European credit crisis, in June 2016, voters in the United Kingdom elected to withdraw from the European Union in a national referendum. The referendum has created significant uncertainty about the future relationship between the United Kingdom and the European Union and has continued to have a material adverse effect on global economic conditions and the stability of global financial markets and could significantly reduce global market liquidity and restrict the ability of key market participants to operate in certain financial markets.

Security breaches and other disruptions could compromise our information and expose us to liability, which would cause our business and reputation to suffer. In the ordinary course of our business, we collect and store sensitive

data, including our business information and the personal information of our residents and our employees, in our facility and on our network. Despite our security measures, our information technology and infrastructure may be vulnerable to attacks by hackers or breached due to employee error, malfeasance or other disruptions. Any such breach could compromise our network and the information stored there could be accessed, publicly disclosed, lost or stolen. Any such access, disclosure or other loss of information could result in legal claims or proceedings, disrupt our operations, damage our reputation, and cause a loss of confidence, which could adversely affect our business.

We face risks relating to expanding use of social media mediums. The use of social media could cause us to suffer brand damage or information leakage. Negative posts or comments about us or our properties on any social networking website could damage our, or our properties' reputations. In addition, employees or others might disclose non-public sensitive information relating to our business through external media channels. The continuing evolution of social media may present us with new challenges and risks.

Item 1B – Unresolved Staff Comments

None.

Item 2 – Properties

UMH Properties, Inc. is engaged in the ownership and operation of manufactured home communities located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana and Michigan. As of December 31, 2016, the Company owns 101 manufactured home communities containing approximately 18,000 developed sites. The rents collectible from the land ultimately depend on the value of the home and land. Therefore, fewer but more expensive homes can actually produce the same or greater rents. There is a long-term trend toward larger manufactured homes. Manufactured home communities designed for older manufactured homes must be modified to accommodate modern, wider and longer manufactured homes. These changes may decrease the number of homes that may be accommodated in a manufactured home community. For this reason, the number of developed sites operated by the Company is subject to change, and the number of developed sites listed is always an approximate number. The following table sets forth certain information concerning the Company's real estate investments as of December 31, 2016.

Name of Community	Number of Developed Sites	Sites Occupied at 12/31/16	Occupancy Percentage		Acreage Developed	Additional Acreage	Approximate Monthly Rent Per Site at 12/31/16	
Allentown 4912 Raleigh-Millington Road Memphis, TN 38128	434	402	93	%	76	-0-	$	440

(1) Community was closed due to an unusual flooding throughout the region in May 2011. We are currently working on the redevelopment of this community.

(2) We are currently seeking site plan approvals for approximately 160 sites for this property.

(3) Community subject to local rent control laws.

(4) Does not include vacant sites at Memphis Blues.

(5) Weighted average monthly rent per site.

The Company also has approximately 1,400 additional sites at its properties in various stages of engineering/construction. Due to the difficulties involved in the approval and construction process, it is difficult to predict the number of sites which will be completed in a given year.

Significant Properties

The Company operates manufactured home properties with an approximate cost of $640,217,000. These properties consist of 101 separate manufactured home communities and related improvements. No single community constitutes more than 10% of the total assets of the Company. Our larger properties consist of: Woods Edge with 597 developed sites, Port Royal Village with 465 developed sites, Catalina with 462 developed sites, Allentown with 434 developed sites and Heather Highlands with 404 developed sites.

Mortgages on Properties

The Company has mortgages on many of its properties. The maturity dates of these mortgages range from the years 2017 to 2026, with a weighted average term of 6.9 years. Interest rates vary from fixed rates ranging from 3.71% to 6.83% and variable rates of Prime plus 1.0% and LIBOR plus 3.0%. The weighted average interest rate on our mortgages was approximately 4.4% and 4.6% at December 31, 2016 and 2015, respectively. The aggregate balances of these mortgages, net of unamortized debt issuance costs, total $293,025,592 and $283,049,802 at December 31, 2016 and 2015, respectively. (For additional information, see Part IV, Item 15(a) (1) (vi), Note 5 of the Notes to Consolidated Financial Statements – Loans and Mortgages Payable).

Item 3 – Legal Proceedings

The Company is subject to claims and litigation in the ordinary course of business. For additional information about legal proceedings, see Part IV, Item 15(a)(1)(vi), Note 12 of the Notes to Consolidated Financial Statements – Commitments, Contingencies and Legal Matters.

Item 4 – Mine Safety Disclosures

Not Applicable.

PART II

Item 5 – Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Since March 2, 2012, the Company's common and preferred shares are traded on the New York Stock Exchange ("NYSE"), under the symbol "UMH". Previously, the Company's common and preferred shares were traded on the NYSE Amex. The per share range of high and low quotes for the Company's common stock and distributions paid to common shareholders for each quarter of the last two years are as follows:

	2016			2015		
	High	Low	Distribution	High	Low	Distribution
First Quarter	$10.79	$9.00	$ 0.18	$10.40	$9.27	$ 0.18
Second Quarter	11.26	9.53	0.18	10.64	9.39	0.18
Third Quarter	12.70	11.07	0.18	10.09	9.01	0.18
Fourth Quarter	15.50	11.28	0.18	10.55	9.25	0.18
			$ 0.72			$ 0.72

On February 28, 2017, the closing price of the Company's stock was $14.85.

As of February 28, 2017, there were approximately 1,015 registered shareholders of the Company's common stock based on the number of record owners.

For the years ended December 31, 2016 and 2015, total distributions paid by the Company for common stock amounted to $20,018,822 or $0.72 per share (for income tax purposes, $0.09549 characterized as ordinary income, $0.01425 characterized as capital gains and $0.61026 characterized as return of capital) and $18,747,120 or $0.72 per share (for income tax purposes, $0.72 characterized as a return of capital), respectively.

We have historically paid regular quarterly distributions to holders of our common stock. In addition, we are obligated to make distributions to holders of shares of Series A and Series B Preferred Stock. It is the Company's intention to continue making comparable quarterly distributions to holders of our common stock. On January 19, 2017, the Board of Directors declared a cash dividend of $0.18 per share to be paid on March 15, 2017 to common shareholders of record as of the close of business on February 15, 2017. Future dividend policy is dependent on the Company's earnings, capital requirements, REIT requirements, financial condition, availability and cost of bank financing and other factors considered relevant by the Board of Directors.

For the year ended December 31, 2016, total distributions paid by the Company for our Series A Preferred Stock amounted to $7,556,588 or $2.0625 per share (for income tax purposes, $1.79472 characterized as ordinary income and $0.26778 characterized as capital gains). For the year ended December 31, 2015, total distributions paid by the Company for our Series A Preferred Stock amounted to $7,556,588 or $2.0625 per share (for income tax purposes, $1.36264 characterized as ordinary income, $0.03439 characterized as capital gains and $0.66547 characterized as return of capital).

On January 19, 2017, the Board of Directors declared a quarterly dividend of $0.515625 per share for the period from December 1, 2016 through February 28, 2017, on the Company's 8.25% Series A Cumulative Redeemable Preferred Stock payable March 15, 2017 to preferred shareholders of record as of the close of business on February 15, 2017. Series A preferred share dividends are cumulative and payable quarterly at an annual rate of $2.0625 per share.

For the year ended December 31, 2016, total distributions paid by the Company for our Series B Preferred Stock amounted to $7,007,057 or $2.22466 per share (for income tax purposes, $1.93582 characterized as ordinary income and $0.28884 characterized as capital gains).

On January 19, 2017, the Board of Directors declared a quarterly dividend of $0.50 per share for the period from December 1, 2016 through February 28, 2017, on the Company's 8.0% Series B Cumulative Redeemable Preferred Stock payable March 15, 2017 to preferred shareholders of record as of the close of business on February 15, 2017. Series B preferred share dividends are cumulative and payable quarterly at an annual rate of $2.00 per share.

Recent Sales of Unregistered Securities

None.

Issuer Purchases of Equity Securities

On January 19, 2017, the Board of Directors reaffirmed its Share Repurchase Program (the “Repurchase Program”) that authorizes the Company to purchase up to $10,000,000 in the aggregate of the Company’s common stock. The Repurchase Program was originally created in June 2008 and is intended to be implemented through purchases made from time to time using a variety of methods, which may include open market purchases, privately negotiated transactions or block trades, or by any combination of such methods, in accordance with applicable insider trading and other securities laws and regulations. The size, scope and timing of any purchases will be based on business, market

and other conditions and factors, including price, regulatory and contractual requirements or consents, and capital availability. The Repurchase Program does not require the Company to acquire any particular amount of common stock, and the Repurchase Program may be suspended, modified or discontinued at any time at the Company's discretion without prior notice. There have been no purchases under the Repurchase Program to date.

Securities Authorized for Issuance Under Equity Compensation Plans

On June 13, 2013, the shareholders approved and ratified the Company's 2013 Stock Option and Stock Award Plan (the "2013 Plan") authorizing the grant to officers and key employees of options to purchase up to 3,000,000 shares of common stock. The 2013 Plan replaced the Company's 2003 Stock Option and Award Plan, as amended, which, pursuant to its terms, terminated in 2013. The outstanding options under the 2003 Stock Option and Award Plan, as amended, remain outstanding until exercised, forfeited or expired. See Note 6 of the Notes to the Consolidated Financial Statements for a description of the plans. See Item 12 – Security Ownership of Certain Beneficial Owners and Management and Related Matters for a table of beneficial ownership of the Company's common stock.

The following table summarizes information, as of December 31, 2016, relating to equity compensation plans of the Company (including individual compensation arrangements) pursuant to which equity securities of the Company are authorized for issuance:

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights (a)	Weighted Average Exercise Price of Outstanding Options, Warrants and Rights	Number of Securities Remaining Available for Future Issuance under Equity Compensation Plans (excluding Securities reflected in column (a))
Equity Compensation Plans Approved by Security Holders	1,760,000	$ 9.97	1,235,500
Equity Compensation Plans not Approved by Security Holders	N/A	N/A	N/A
Total	1,760,000	$ 9.97	1,235,500

Comparative Stock Performance

The following line graph compares the total return of the Company's common stock for the last five years to the FTSE NAREIT All REITs Index published by the National Association of Real Estate Investment Trusts ("NAREIT") and to the S&P 500 Index for the same period. The graph assumes a $100 investment in our common stock and in each of the indexes listed below on December 31, 2011 and the reinvestment of all dividends. The total return reflects stock price appreciation and dividend reinvestment for all three comparative indices. The information herein has been obtained from sources believed to be reliable, but neither its accuracy nor its completeness is guaranteed. Our stock performance shown in the graph below is not indicative of future stock performance.

Item 6 – Selected Financial Data

The following table sets forth selected financial and other information for the Company as of and for each of the years in the five year period ended December 31, 2016. The historical financial data has been derived from our historical financial statements. This table should be read in conjunction with all of the financial statements and notes thereto included elsewhere herein.

(1) Financial information has been revised to reflect certain reclassifications in prior periods to conform to the current period presentation.

(2) Refer to Item 7, Supplemental Measures, contained in this Form 10-K for information regarding the presentation of community NOI, and for the presentation and reconciliation of funds from operations, core funds from operations and normalized funds from operations to net income (loss) attributable to common shareholders.

Item 7 – Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with "Selected Financial Data" and the historical Consolidated Financial Statements and Notes thereto included elsewhere in this Form 10-K.

Cautionary Statement Regarding Forward-Looking Statements

Statements contained in this Form 10-K, that are not historical facts are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Forward-looking statements provide our current expectations or forecasts of future events. Forward-looking statements include statements about the Company's expectations, beliefs, intentions, plans, objectives, goals, strategies, future events, performance and underlying assumptions and other statements that are not historical facts. Forward-looking statements can be identified by their use of forward-looking words, such as "may," "will," "anticipate," "expect," "believe," "intend," "plan," "should," "seek" or c terms, or the negative use of those words, but the absence of these words does not necessarily mean that a statement is not forward-looking.

The forward-looking statements are based on our beliefs, assumptions and expectations of our future performance, taking into account all information currently available to us. Forward-looking statements are not predictions of future events. These beliefs, assumptions and expectations can change as a result of many possible events or factors, not all of which are known to us. Some of these factors are described below and under the headings "Business", "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations". These and other risks, uncertainties and factors could cause our actual results to differ materially from those included in any forward-looking statements we make. Any forward-looking statement speaks only as of the date on which it is made. New risks and uncertainties arise over time, and it is not possible for us to predict those events or how they may affect us. Except as required by law, we are not obligated to, and do not intend to, update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Important factors that could cause actual results to differ materially from our expectations include, among others:

- changes in the real estate market conditions and general economic conditions;
- the inherent risks associated with owning real estate, including local real estate market conditions, governing laws and regulations affecting manufactured housing communities and illiquidity of real estate investments;
- increased competition in the geographic areas in which we own and operate manufactured housing communities;

our ability to continue to identify, negotiate and acquire manufactured housing communities and/or vacant land which may be developed into manufactured housing communities on terms favorable to us;

our ability to maintain rental rates and occupancy levels;

changes in market rates of interest;

our ability to repay debt financing obligations;

our ability to refinance amounts outstanding under our credit facilities at maturity on terms favorable to us;

our ability to comply with certain debt covenants;

our ability to integrate acquired properties and operations into existing operations;

the availability of other debt and equity financing alternatives;

continued ability to access the debt or equity markets;

the loss of any member of our management team;

our ability to maintain internal controls and processes to ensure all transactions are accounted for properly, all relevant disclosures and filings are timely made in accordance with all rules and regulations, and any potential fraud or embezzlement is thwarted or detected;

the ability of manufactured home buyers to obtain financing;

the level of repossessions by manufactured home lenders;

- market conditions affecting our investment securities;
- changes in federal or state tax rules or regulations that could have adverse tax consequences;
- our ability to qualify as a REIT for federal income tax purposes; and
- those risks and uncertainties referenced under the heading “Risk Factors” contained in this Form 10-K and the Company’s filings with the Securities and Exchange Commission.

You should not place undue reliance on these forward-looking statements, as events described or implied in such statements may not occur. The forward-looking statements contained in this Form 10-K speak only as of the date hereof and the Company expressly disclaims any obligation to publicly update or revise any forward-looking statements whether as a result of new information, future events, or otherwise.

2016 Accomplishments

- Generated an increase in Normalized FFO per share growth of 20.0%, representing our fourth consecutive year of double-digit growth;
- Increased Community Net Operating Income (“NOI”) by 27.4%;
- Increased same property Community NOI by 18.9%;
- Increased same property occupancy from 82.9% to 84.8%;
- Improved our Operating Expense Ratio from 49.6% to 47.0%;
- Generated approximately $2.3 million in net-realized gains in addition to the $16.7 million in unrealized gains we held at year end on our REIT securities investments;
- Acquired 3 communities containing approximately 300 home sites for a total of $7.3 million;
- Increased our rental home portfolio by 900 homes, representing an increase of 25% to 4,700 total rental homes;
- Raised approximately $22 million in common equity capital through our Dividend Reinvestment and Stock Purchase Plan;
- Issued 2 million shares of our 8.0% Series B Cumulative Redeemable Preferred Stock raising net proceeds of approximately $49 million;
- Financed/refinanced four communities for a total of $32 million; and

Reduced our overall weighted average mortgage interest rate from 4.6% to 4.4%.

Overview

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto included elsewhere herein.

The Company is a self-administered, self-managed, REIT with headquarters in Freehold, New Jersey. The Company's primary business is the ownership and operation of manufactured home communities, which includes leasing manufactured home spaces on an annual or month-to-month basis to residential manufactured home owners. The Company also leases homes to residents and, through its taxable REIT subsidiary, S&F, sells and finances homes to residents and prospective residents of our communities.

Our communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana and Michigan. UMH has continued to execute our growth strategy of purchasing well-located communities in our target markets, including the energy-rich Marcellus and Utica shale regions. During the year ended December 31, 2016, we purchased three manufactured home communities located in Ohio, for an aggregate purchase price of $7,277,000. These acquisitions added approximately 300 developed sites to our portfolio, bringing our total to 101 communities containing approximately 18,000 developed sites. Subsequent to yearend, the Company acquired an additional five manufactured home communities containing a total of 1,300 sites for a total an aggregate purchase price of $36.5 million. These acquisitions increased our portfolio to 106 communities containing approximately 19,300 developed sites.

The Company's income primarily consists of rental and related income from the operation of its manufactured home communities. Occupancy in our properties, as well as our ability to increase rental rates, directly affects revenues. In 2016, total income increased 22% from the prior year and Community NOI increased 27.4% from the prior year, primarily due to the acquisition and rental programs in 2015 and 2016. Overall occupancy increased from 79.5% at December 31, 2015 to 81.0% at December 31, 2016. Same property occupancy increased from 82.9% at December 31, 2015 to 84.8% at December 31, 2016.

Income also includes sales of manufactured homes. In 2016, sales of manufactured homes increased by approximately 26%. Our sales operations have continued to be affected by the limited ability of homebuyers to qualify for loans to purchase homes. We are optimistic that future regulatory changes may increase our consumer's ability to qualify for loans to purchase homes which should result in increased demand. As a result of continued increases in single-family conventional home prices and apartment rental rates, our property type offers substantial comparative value that should result in increased demand. Additionally, the Company anticipates that as national home sales of first time home buyers and purchasers of retirement homes improve, our sales operations will return to profitability.

The macro-economic environment and current housing fundamentals continue to favor home rentals. Rental homes in a manufactured home community allow the resident to obtain the efficiencies of factory-built housing and the amenities of community living for less than the cost of other forms of affordable housing. We continue to see increased demand for rental homes. During 2016, we added a net of approximately 900 rental units to selected communities. Occupied rental units represent approximately 29.4% of total occupied sites. Occupancy in rental homes continues to be strong and is at 91.5% as of December 31, 2016. We compare favorably with other types of rental housing, including apartments, and we will continue to allocate capital to rental home purchases, as demand dictates.

Revenues also include interest and dividend income and net realized gain on securities transactions. The Company holds a portfolio of marketable securities of other REITs with a fair value of $108,755,172 at December 31, 2016. The Company generally limits its marketable securities investments to no more than approximately 20% of its undepreciated assets. The REIT securities portfolio provides the Company with additional liquidity and additional income and serves as a proxy for real estate when more favorable risk adjusted returns are not available. The Company invests in these REIT securities and, from time to time, may use margin debt when an adequate yield spread can be obtained. As of December 31, 2016, the Company has borrowings of $22,727,458 under its margin line at 2.0% interest. As of December 31, 2016, the Company's portfolio consisted of 12% REIT preferred stocks and 88% REIT common stocks. The Company's weighted average yield on the securities portfolio was approximately 6.8% at December 31, 2016. The Company realized a net gain of $2,285,301 on sale of securities in 2016 as compared to a net gain of $204,230 during 2015. At December 31, 2016, the Company had unrealized gains of $16,717,171 in its REIT securities portfolio. The dividends received from our securities investments continue to meet our expectations. It is our intent to hold these securities for investment on a long-term basis.

The Company continues to strengthen its balance sheet. During 2016, the Company raised approximately $22 million in new capital through the Dividend Reinvestment and Stock Purchase Plan ("DRIP"). The Company also issued

2,000,000 shares of its 8.0% Series B Cumulative Redeemable Preferred Stock in a registered direct placement, with net proceeds of approximately $49 million after deducting offering related expenses. This capital was used for general corporate purposes, which included purchase of manufactured homes for sale or lease to customers, expansion of its existing communities, acquisitions of additional properties, and repayment of indebtedness on a short-term basis.

Over the past several years, we have taken advantage of historically low long-term mortgage interest rates and have been financing and refinancing our communities. The weighted average interest rate on our mortgage debt is now 4.4% at December 31, 2016, with a weighted average maturity of 6.9 years.

At December 31, 2016, the Company had approximately $4.2 million in cash and cash equivalents and $15 million available on our credit facility, with an additional $15 million potentially available pursuant to an accordion feature. We also had $28.2 million available on our revolving lines of credit for the financing of home sales and the purchase of inventory. In addition, we held approximately $108.8 million in marketable REIT securities encumbered by $22.7 million in margin loans. In general, the Company may borrow up to 50% of the value of the marketable securities.

The Company intends to continue to increase its real estate investments. Our business plan includes acquiring communities that yield in excess of our cost of funds and then making physical improvements, including adding rental homes onto otherwise vacant sites. In 2015 and 2016, we have added a total of thirteen manufactured home communities to our portfolio, encompassing approximately 3,100 developed sites. These manufactured home communities were acquired with an average occupancy rate of 65%. The Company will utilize the rental home program to increase occupancy rates and improve operating results at these communities. In addition to the five communities acquired in the first quarter of 2017 to date, we will continue to seek opportunistic investments. There is no guarantee that any additional opportunities will materialize or that the Company will be able to take advantage of such opportunities. The growth of our real estate portfolio depends on the availability of suitable properties which meet the Company's investment criteria and appropriate financing. Competition in the market areas in which the Company operates is significant and affects acquisitions, occupancy levels, rental rates and operating expenses of certain properties. Transaction costs, such as legal, valuation, and other professional fees related to acquisitions are expensed as incurred.

See PART I, Item 1- Business and Item 1A – Risk Factors for a more complete discussion of the economic and industry-wide factors relevant to the Company, the Company's lines of business and principal products and services, and the opportunities, challenges and risks on which the Company is focused.

Acquisitions

Supplemental Measures

In addition to the results reported in accordance with GAAP, management's discussion and analysis of financial condition and results of operations include certain non-GAAP financial measures that in management's view of the business we believe are meaningful as they allow the investor the ability to understand key operating details of our business both with and without regard to certain accounting conventions or items that may not always be indicative of recurring annual cash flow of the portfolio. These non-GAAP financial measures as determined and presented by us may not be comparable to related or similarly titled measures reported by other companies, and include Community Net Operating Income ("Community NOI"), Funds from Operations ("FFO"), Core Funds from Operations ("Core FFO") and Normalized Funds from Operations ("Normalized FFO").

We define Community NOI as rental and related income less community operating expenses such as real estate taxes, repairs and maintenance, community salaries, utilities, insurance and other expenses. We believe that Community NOI is helpful to investors and analysts as a direct measure of the actual operating results of our manufactured home communities, rather than our Company overall. Community NOI should not be considered a substitute for the reported results prepared in accordance with GAAP. Community NOI should not be considered as an alternative to net income (loss) as an indicator of our financial performance, or to cash flows as a measure of liquidity; nor is it indicative of funds available for our cash needs, including our ability to make cash distributions.

The Company's Community NOI is calculated as follows:

	2016	2015	2014	2013	2012
Rental and Related Income	$90,679,557	$74,762,548	$63,886,010	$53,477,893	$38,012,231
Community Operating Expenses	(42,638,333)	(37,049,462)	(33,592,327)	(29,140,920)	(20,564,286)
Community NOI	$48,041,224	$37,713,086	$30,293,683	$24,336,973	$17,447,945

We also assess and measure our overall operating results based upon an industry performance measure referred to as FFO, which management believes is a useful indicator of our operating performance. FFO is used by industry analysts and investors as a supplemental operating performance measure of a REIT. FFO, as defined by NAREIT, represents net income (loss) attributable to common shareholders, as defined by GAAP, excluding extraordinary items, as defined under GAAP, gains or losses from sales of previously depreciated real estate assets, impairment charges related to depreciable real estate assets, plus certain non-cash items such as real estate asset depreciation and amortization. NAREIT created FFO as a non-GAAP supplemental measure of REIT operating performance. We define Core FFO as FFO plus acquisition costs and costs of early extinguishment of debt. We define Normalized FFO as Core FFO excluding gains and losses realized on securities investments and certain non-recurring charges. FFO, Core FFO and Normalized FFO should be considered as supplemental measures of operating performance used by

REITs. FFO, Core FFO and Normalized FFO exclude historical cost depreciation as an expense and may facilitate the comparison of REITs which have a different cost basis. The items excluded from FFO, Core FFO and Normalized FFO are significant components in understanding the Company's financial performance.

FFO, Core FFO and Normalized FFO (i) do not represent Cash Flow from Operations as defined by GAAP; (ii) should not be considered as an alternative to net income (loss) as a measure of operating performance or to cash flows from operating, investing and financing activities; and (iii) are not alternatives to cash flow as a measure of liquidity. FFO, Core FFO and Normalized FFO, as calculated by the Company, may not be comparable to similarly titled measures reported by other REITs.

The Company's FFO, Core FFO and Normalized FFO are calculated as follows:

	2016	2015	2014	2013	2012
Net Income (Loss) Attributable to Common Shareholders	$(2,568,873)	$(6,122,993)	$(3,318,785)	$(1,719,765)	$1,749,339
Depreciation Expense	23,214,100	18,877,511	15,163,420	11,681,724	7,357,158
(Gain) Loss on Sales of Depreciable Assets	2,163	80,268	(7,313)	(18,803)	41,481
FFO	20,647,390	12,834,786	11,837,322	9,943,156	9,147,978
Adjustments:					
Acquisition Costs	79,231	957,219	483,522	1,455,542	862,169
Early Extinguishment of Debt (1)	5,121	475,031	-0-	-0-	-0-
Core FFO	20,731,742	14,267,036	12,320,844	11,398,698	10,010,147
Adjustments:					
Gain on Sales of Securities, net	(2,285,301)	(204,230)	(1,542,589)	(4,055,812)	(4,092,585)
Settlement of Memphis Mobile City Litigation (2)	-0-	125,000	-0-	-0-	-0-
Normalized FFO	$18,446,441	$14,187,806	$10,778,255	$7,342,886	$5,917,562

(1) Included in Interest Expense on the Consolidated Statements of Income (Loss).

(2) Included in Community Operating Expenses on the Consolidated Statements of Income (Loss).

Results of Operations

2016 vs. 2015

Rental and related income increased from $74,762,548 for the year ended December 31, 2015 to $90,679,557 for the year ended December 31, 2016, or 21%. This increase was due to the acquisitions during 2015 and 2016, as well as an increase in rental rates, same property occupancy and additional rental homes. During 2016, the Company raised rental rates by 3% to 5% at most communities. Rent increases vary depending on overall market conditions and demand. Occupancy, as well as the ability to increase rental rates, directly affects revenues. The Company has been acquiring communities with vacant sites that can potentially be occupied and earn income in the future. Occupancy has increased from 79.5% at December 31, 2015 to 81.0% at December 31, 2016. The overall occupancy rate is exclusive of 156 vacant sites at Memphis Blues caused by the 2011 flood. Same property occupancy has increased from 82.9% at December 31, 2015 to 84.8% at December 31, 2016. Demand for rental homes continues to be strong. As of December 31, 2016, we had approximately 4,700 rental homes with an occupancy of 91.5%. We continue to

evaluate the demand for rental homes and will invest in additional homes as demand dictates. Vacant sites allow for future revenue growth.

Community operating expenses increased from $37,049,462 for the year ended December 31, 2015 to $42,638,333 for the year ended December 31, 2016, or 15%. This increase was due to the acquisitions during 2015 and 2016.

Community NOI increased from $37,713,086 for the year ended December 31, 2015 to $48,041,224 for the year ended December 31, 2016, or 27%. This increase was primarily due to the acquisitions during 2015 and 2016 and an increase in rental rates, occupancy and rental homes. The Company has also been reducing its Operating Expense Ratio (defined as Community Operating Expenses divided by Rental and Related Income). The Operating Expense Ratio decreased from 49.6% for the year ended December 31, 2015 to 47.0% for the year ended December 31, 2016, a decrease of 260 basis points. Many acquisitions have deferred maintenance requiring higher than normal expenditures in the first two years of ownership. Because most of the community expenses are fixed costs, as occupancy rates continue to increase, these expense ratios will continue to improve. Because of the Company’s ability to increase its rental rates annually, increasing costs due to inflation and changing prices have generally not had a material effect on revenues and income from continuing operations.

Sales of manufactured homes increased from $6,754,123 for the year ended December 31, 2015 to $8,534,272 for the year ended December 31, 2016, or 26%. The total number of homes sold was 170 homes in 2016 as compared to 135 homes in 2015. There were 61 new homes sold in 2016 as compared to 65 in 2015. The Company's average sales price was $50,202 and $50,031 for the years ended December 31, 2016 and 2015, respectively. Cost of sales of manufactured homes increased from $5,058,350 for the year ended December 31, 2015 to $6,466,520 for the year ended December 31, 2016, or 28%. The gross profit percentage was 24% and 25% for 2016 and 2015, respectively. Selling expenses remained relatively stable at $2,852,405 for the year ended December 31, 2016 as compared to $2,788,360 for the year ended December 31, 2015. Loss from the sales operations (defined as sales of manufactured homes less cost of sales of manufactured homes less selling expenses less interest on the financing of inventory) decreased from $1,851,780 for the year ended December 31, 2015 to $1,444,076 for the year ended December 31, 2016, an improvement of 22%. The losses on sales include selling expenses of approximately $2.9 million for the year ended December 31, 2016. Many of these costs, such as rent, salaries, and to an extent, advertising and promotion, are fixed. Sales of manufactured homes have not yet returned to pre-recession levels. The U.S. homeownership rate fell to 63.7% in the fourth quarter of 2016, according to the U.S. Census. This is down from 69.2% at its peak at the end of 2004. The conventional single-family housing market is gradually strengthening. However, our sales continue to be negatively impacted as a result of the inability of our customers to sell their current homes, limited wage growth, new licensing laws and government regulations. The Company continues to be optimistic about future sales and rental prospects given the fundamental need for affordable housing. The Company believes that sales of new homes produces new rental revenue and is an investment in the upgrading of our communities.

General and Administrative Expenses increased from $7,345,644 for the year ended December 31, 2015 to $8,004,925 for the year ended December 31, 2016, or 9%. This increase was primarily due to an increase in personnel and personnel costs and the issuance of restricted stock and stock options to one employee of retirement age. The entire compensation cost of $312,400 for this employee was recognized at the time of grant. General and Administrative expenses as a percentage of gross revenue (Total Income plus Interest, Dividend and Other Income) improved from 8.3% in 2015 to 7.4% in 2016.

Acquisition costs, relating to the transaction, due diligence and other related costs associated with the acquisitions of communities, decreased from $957,219 for the year ended December 31, 2015 to $79,231 for the year ended December 31, 2016, or 92%. This decrease was due to the decrease in acquisitions in 2016 with an aggregate purchase price of $7,277,000 as compared to 2015 with an aggregate purchase price of $81,217,000.

Depreciation expense increased from $18,877,511 for the year ended December 31, 2015 to $23,214,100 for the year ended December 31, 2016, or 23%. This increase was primarily due to the acquisitions and the increase in rental homes during 2015 and 2016.

Interest income decreased from $1,819,567 for the year ended December 31, 2015 to $1,584,585 for the year ended December 31, 2016, or 13%. This decrease was primarily due to a decrease in the average balance of notes receivable from $19.5 million for the year ended December 31, 2015 to $18.3 million for the year ended December 31, 2016.

Dividend income increased from $4,399,181 for the year ended December 31, 2015 to $6,636,126 for the year ended December 31, 2016, or 51%. This increase was due to an increase in the average balance of securities from $69,283,611 for the year ended December 31, 2015 to $91,883,216 for the year ended December 31, 2016. The dividends received from our securities investments were at a weighted average yield of 6.8% and 7.7% as of December 31, 2016 and 2015, respectively.

Realized gain on sales of securities, net consists of the following:

	Year Ended December 31,	
	2016	2015
Gross realized gains	$2,287,454	$208,200
Gross realized losses	(2,153)	(3,970)
Total Realized Gain on Sales of Securities, net	$2,285,301	$204,230

The Company had an accumulated net unrealized gain on its securities portfolio of $16,717,171 as of December 31, 2016.

Other income remained relatively stable for the year ended December 31, 2016 as compared to the year ended December 31, 2015.

Interest expense increased from $14,074,446 for the year ended December 31, 2015 to $15,432,364 for the year ended December 31, 2016, or 10%. This increase was primarily due to the new mortgage loans for the community acquisitions as well as additional community financings/refinancings in 2016. During the year, we obtained 4 new mortgage loans totaling $32 million. The average balance of mortgages payable was approximately $288 million during 2016 as compared to approximately $235 million during 2015. The increase in interest expense was partially offset by the decrease in the weighted average interest rate on its mortgages which was 4.4%, including the effect of unamortized debt issuance costs, at December 31, 2016 as compared to 4.6% at December 31, 2015.

2015 vs. 2014

Rental and related income increased from $63,886,010 for the year ended December 31, 2014 to $74,762,548 for the year ended December 31, 2015, or 17%. This increase was due to the acquisitions during 2014 and 2015, as well as an increase in rental rates, same property occupancy and rental homes. During 2015, the Company raised rental rates by approximately 2% to 6% at most communities. Rent increases vary depending on overall market conditions and demand. Occupancy, as well as the ability to increase rental rates, directly affects revenues. The Company has been acquiring communities with vacant sites that can potentially be occupied and earn income in the future. Due to the acquisition of approximately 2,800 sites at a weighted average occupancy rate of 64%, overall occupancy has decreased from 82.3% at December 31, 2014 to 79.5% at December 31, 2015. The overall occupancy rate is exclusive of 156 vacant sites at Memphis Blues caused by the 2011 flood. Same property occupancy has increased from 83.2%

at December 31, 2014 to 83.9% at December 31, 2015. In the current environment, the demand for rental homes is high. As of December 31, 2015, we had approximately 3,700 rental homes with an occupancy of 92.9%. We continue to evaluate the demand for rental homes and will invest in additional homes as demand dictates. Vacant sites allow for future revenue growth.

Community operating expenses increased from $33,592,327 for the year ended December 31, 2014 to $37,049,462 for the year ended December 31, 2015, or 10%. This increase was due to the acquisitions during 2014 and 2015. Additionally, the Company incurred additional non-recurring expenses relating to our acquisitions and to the one-time final settlement of a lawsuit relating to a 2010 flood in our Memphis Blues community of $125,000.

Community NOI increased from $30,293,683 for the year ended December 31, 2014 to $37,713,086 for the year ended December 31, 2015, or 24%. This increase was primarily due to the acquisitions during 2014 and 2015 and an increase in rental rates, occupancy and rental homes. The Company has also been reducing its Operating Expense Ratio (defined as Community Operating Expenses divided by Rental and Related Income). The Operating Expense Ratio decreased from 52.6% for the year ended December 31, 2014 to 49.6% for the year ended December 31, 2015, a decrease of 300 basis points. Many acquisitions have deferred maintenance requiring higher than normal expenditures in the first two years of ownership. Because most of the community expenses are fixed costs, as occupancy rates continue to increase, these expense ratios will continue to improve. Because of the Company’s ability to adjust its rental rates at least annually, inflation and changing prices have generally not had a material effect on revenues and income from continuing operations.

Sales of manufactured homes decreased from $7,545,923 for the year ended December 31, 2014 to $6,754,123 for the year ended December 31, 2015, or 10%. The total number of homes sold was 135 homes in 2015 as compared to 134 homes in 2014. There were 65 new homes sold in 2015 as compared to 69 in 2014. The Company's average sales price was $50,031 and $56,313 for the years ended December 31, 2015 and 2014, respectively. Cost of sales of manufactured homes decreased from $5,832,540 for the year ended December 31, 2014 to $5,058,350 for the year ended December 31, 2015, or 13%. Selling expenses decreased from $2,983,376 for the year ended December 31, 2014 to $2,788,360 for the year ended December 31, 2015, or 7%. Loss from the sales operations (defined as sales of manufactured homes less cost of sales of manufactured homes less selling expenses less interest on the financing of inventory) remained relatively stable at $1,881,936 for the year ended December 31, 2014 and $1,851,780 for the year ended December 31, 2015. The losses on sales include selling expenses of approximately $2.8 million for the year ended December 31, 2015. Many of these costs, such as rent, salaries, and to an extent, advertising and promotion, are fixed. Sales of manufactured homes have not yet returned to pre-recession levels. The U.S. homeownership rate fell to 63.8% in the fourth quarter of 2015, according to the U.S. Census. This is down from 69.2% at its peak at the end of 2004. Although, the conventional single-family housing market is gradually strengthening, the inability of our customers to sell their current homes, limited wage growth and new licensing laws and government regulations, including the SAFE Act and the Dodd–Frank Act, have all negatively impacted our sales. The Company continues to be optimistic about future sales and rental prospects given the fundamental need for affordable housing. The Company believes that sales of new homes produces new rental revenue and is an investment in the upgrading of our communities.

General and Administrative Expenses increased from $6,465,973 for the year ended December 31, 2014 to $7,345,644 for the year ended December 31, 2015, or 14%. This increase was primarily due to an increase in office space and personnel costs.

Acquisition costs, relating to the transaction, due diligence and other related costs associated with the acquisitions of communities, increased from $483,522 for the year ended December 31, 2014 to $957,219 for the year ended December 31, 2015, or 98%. This increase was due to the increase in acquisitions in 2015 with an aggregate purchase price of $81,217,000 as compared to 2014 with an aggregate purchase price of $42,550,000.

Depreciation expense increased from $15,163,420 for the year ended December 31, 2014 to $18,877,511 for the year ended December 31, 2015, or 24%. This increase was primarily due to the acquisitions and increase in rental homes during 2014 and 2015.

Interest income decreased from $2,098,974 for the year ended December 31, 2014 to $1,819,567 for the year ended December 31, 2015, or 13%. This decrease was primarily due to a decrease in the average balance of notes receivable from $22.2 million for the year ended December 31, 2014 to $19.5 million for the year ended December 31, 2015.

Dividend income increased from $4,065,986 for the year ended December 31, 2014 to $4,399,181 for the year ended December 31, 2015, or 8%. This increase was due to an increase in the average balance of securities from $61,405,452 for the year ended December 31, 2014 to $69,283,611 for the year ended December 31, 2015 and from the increase in the Company’s weighted average yield on the securities portfolio which was approximately 6.1% and 7.7% as of December 31, 2014 and 2015, respectively.

Realized gain on sales of securities, net consists of the following:

	Year Ended December 31,	
	2015	2014
Gross realized gains	$208,200	$1,555,656
Gross realized losses	(3,970)	(13,067)
Total Realized Gain on Sales of Securities, net	$204,230	$1,542,589

The Company had an accumulated net unrealized loss on its securities portfolio of $2,055,026 as of December 31, 2015.

Other income remained relatively stable for the year ended December 31, 2015 as compared to the year ended December 31, 2014.

Interest expense increased from $10,716,722 for the year ended December 31, 2014 to $14,074,446 for the year ended December 31, 2015, or 30%. This increase was primarily due to the new mortgage loans for the community acquisitions as well as additional community financings/refinancings in 2015. Included in interest expense for 2015 was $475,031 associated with the early extinguishment of debt. During the year, we obtained 21 new mortgage loans totaling $139 million. The average balance of mortgages payable was approximately $235 million during 2015 as compared to approximately $172 million during 2014. The increase in interest expense was partially offset by the decrease in the weighted average interest rate on its mortgages which was 4.5%, not including the effect of unamortized debt issuance costs, at December 31, 2015 as compared to 4.8% at December 31, 2014.

Liquidity and Capital Resources

The Company operates as a REIT deriving its income primarily from real estate rental operations. The Company's principal liquidity demands have historically been, and are expected to continue to be, distribution requirements, acquisitions, capital improvements, development and expansions of properties, debt service, purchases of manufactured homes, investment in debt and equity securities of other REITs, financing of manufactured home sales and payments of expenses relating to real estate operations. The Company's ability to generate cash adequate to meet these demands is dependent primarily on income from its real estate investments and securities portfolio, the sale of real estate investments and securities, financing and refinancing of mortgage debt, leveraging of real estate investments, availability of bank borrowings, proceeds from the DRIP, and access to the capital markets.

The Company has a DRIP in which participants can purchase stock from the Company at a price of approximately 95% of market. During 2016, amounts received, including dividends reinvested of $2,388,552, totaled $22,400,945. The Company also issued 2,000,000 shares of its 8.0% Series B Cumulative Redeemable Preferred Stock in a registered direct placement, with net proceeds of approximately $49 million after deducting offering related expenses.

During 2016, the Company distributed to our common shareholders a total of $20,018,822, including dividends reinvested. It is anticipated, although no assurances can be given, that the level of participation in the DRIP in 2017 will be comparable to 2016. In addition, the Company also paid $14,563,645 in preferred dividends.

The Company intends to operate its existing properties from the cash flows generated by the properties. However, the Company's expenses are affected by various factors, including inflation. Increases in operating expenses raise the breakeven point for a property and, to the extent that they cannot be passed on through higher rents, reduce the amount of available cash flow which can adversely affect the market value of the property.

The Company has the ability to finance home sales, inventory purchases and rental home purchases. The Company has a $10,000,000 revolving line of credit for the financing of homes, of which all $4,000,000 was utilized at December 31, 2016, and revolving credit facilities totaling $28,500,000 to finance inventory purchases, of which $6,314,352 was utilized at December 31, 2016. We also had $15,000,000 available on our credit facility, with an additional $15,000,000 potentially available pursuant to an accordion feature. Subsequent to yearend, we drew down the remaining $15,000,000 for the funding of the acquisition of five communities.

As of December 31, 2016, the Company had $4,216,592 of cash and cash equivalents and securities available for sale of $108,755,172 encumbered by $22,727,458 in margin loans. At December 31, 2016, the Company owns 101 communities of which twenty-five are unencumbered. As of December 31, 2016, we have two mortgages with a total balance of approximately $19.7 million due in 2017. The Company's marketable securities and non-mortgaged properties provide us with additional liquidity. The Company believes that cash on hand, funds generated from operations, the DRIP and capital market, the funds available on the lines of credit, together with the ability to finance and refinance its properties will provide sufficient funds to adequately meet its obligations over the next several years.

The Company's focus is on real estate investments. The Company has historically financed purchases of real estate primarily through mortgages. During 2016, total investment property increased 11% or $62,507,693. The Company made acquisitions of three manufactured home communities totaling 289 developed sites at an aggregate purchase price of $7,227,000. These acquisitions were funded through new mortgages, the use of our unsecured credit facility and the issuance of preferred stock. See Note 3 of the Notes to Consolidated Financial Statements for additional information on our acquisitions and Note 5 of the Notes to Consolidated Financial Statements for related debt transactions. The Company continues to evaluate acquisition opportunities. The funds for these acquisitions may come from bank borrowings, proceeds from the DRIP, and private placements or public offerings of common or preferred stock. To the extent that funds or appropriate properties are not available, fewer acquisitions will be made.

The Company also invests in rental homes and as of December 31, 2016 the Company owns approximately 4,700 rental homes making up approximately 26% of our sites. During 2016, rental homes increased by $38,153,464. The Company added approximately 900 net rental homes to selected communities. The Company actively markets these rental homes for sale to existing residents. The Company estimates that in 2017 it will purchase approximately 800 manufactured homes to use as rental units for a total cost, including setup, of approximately $32,000,000. Rental home rates on new homes range from $700-$1,200 per month, including lot rent, depending on size, location and market conditions. During 2016, the Company also invested approximately $17,000,000 in other improvements to our communities.

Additionally, the Company invests in marketable debt and equity securities of other REITs. The REIT securities portfolio provides the Company with liquidity and additional income and serves as a proxy for real estate when more favorable risk adjusted returns are not available. The Company generally limits its marketable securities investments to no more than approximately 20% of its undepreciated assets. The securities portfolio increased 45% or $33,743,912 primarily due to the increase in the net unrealized gain of $18,772,197 and purchases of $27,518,151, partially offset by sales of securities with a cost of $12,546,436. The Company recognized gains on sales of securities of $2,285,301 in addition to the dividend income earned of $6,636,126 in 2016. The Company from time to time may purchase these securities on margin when there is an adequate yield spread. At December 31, 2016, $22,727,458 was outstanding on the margin loan at a 2.0% interest rate.

Net cash provided by operating activities amounted to $29,353,412, $25,708,212 and $24,326,461 for the years ended December 31, 2016, 2015 and 2014, respectively. These increases were primarily due to the increase in income from operations generated from the acquisitions and the increased rental homes.

Net cash used by investing activities amounted to $77,567,390, $148,674,626 and $56,033,767 for the years ended December 31, 2016, 2015 and 2014, respectively. Cash flows used by investing activities decreased in 2016 as compared to 2015 primarily due to a decrease in acquisitions of manufactured home communities in 2016 as compared to 2015. Cash flows used by investing activities increased in 2015 as compared to 2014 primarily due to an increase in in acquisitions of manufactured home communities and securities available for sale in 2015 as compared to 2014.

Net cash provided by financing activities amounted to $45,894,673, $121,419,519 and $32,174,955 for the years ended December 31, 2016, 2015 and 2014, respectively. Cash flows provided by financing activities decreased in 2016 as compared to 2015 primarily due to the financing/ refinancing of 4 communities for $32 million in 2016 as compared to 21 communities for $139 million in 2015. Cash flows provided by financing activities increased in 2015 as compared to 2014 primarily due to new mortgages in 2015 for the purchase of manufactured home communities, in addition to the proceeds from our 8.0% Series B Preferred Offering.

Cash flow was primarily used for purchases of manufactured home communities, capital improvements, payment of dividends, purchases of securities available for sale, purchase of inventory and rental homes, loans to customers for the sales of manufactured homes, and expansion of existing communities. The Company meets maturing mortgage obligations by using a combination of cash flow and refinancing. The dividend payments were primarily made from cash flow from operations.

Capital improvements include amounts needed to meet environmental and regulatory requirements in connection with the manufactured home communities that provide water or sewer service. Excluding expansions and rental home purchases, the Company is budgeting approximately $8 million in capital improvements for 2017.

The Company's significant commitments and contractual obligations relate to its mortgages and loans payable, acquisitions of manufactured home communities, retirement benefits, and the lease on its corporate offices as described in Note 8 to the Consolidated Financial Statements.

The Company has 1,370 acres of undeveloped land which it could develop over the next several years. The Company continues to analyze the best use of its vacant land.

As of December 31, 2016, the Company had total assets of $680,444,818 and total liabilities of $363,412,851. The Company believes that it has the ability to meet its obligations and to generate funds for new investments.

Off-Balance Sheet Arrangements and Contractual Obligations

The Company has not executed any off-balance sheet arrangements.

The following is a summary of the Company's contractual obligations as of December 31, 2016:

Contractual Obligations	**Total**	Less than 1 year	**1-3 years**	**3-5 years**	More than 5 years
Mortgages Payable	$296,563,983	$25,905,661	$34,376,379	$26,175,881	$210,106,062
Interest on Mortgages Payable	78,408,441	12,558,037	21,924,663	19,233,577	24,692,164
Loans Payable	58,393,439	30,566,256	511,120	4,382,402	22,933,661
Interest on Loans Payable	4,877,753	1,757,161	1,346,976	1,296,094	477,522
Operating Lease Obligations	963,200	178,800	357,600	365,600	61,200
Purchase of Properties	36,510,000	36,510,000	-0-	-0-	-0-
Retirement Benefits	450,000	-0-	-0-	-0-	450,000
Total	$476,166,816	$107,475,915	$58,516,738	$51,453,554	$258,720,609

Mortgages payable represents the principal amounts outstanding based on scheduled payments. The interest rates on these mortgages vary from fixed rates ranging from 3.71% to 6.83% and variable rates of Prime plus 1.0% to LIBOR plus 3.0%. The weighted average interest rate was approximately 4.4% at December 31, 2016. As of December 31, 2016, the weighted average loan maturity of the mortgage payable is 6.9 years.

Loans payable represents $20,000,000 outstanding on the Company’s unsecured line of credit with an interest rate ranging from LIBOR plus 1.75% to 2.50% or Prime plus 0.75% to 1.50%, based on the Company’s overall leverage (interest rate of 2.69% as of December 31, 2016); $22,727,458 outstanding on its margin line with an interest rate of 2.0% at December 31, 2016; $6,314,352 outstanding on the Company’s revolving credit agreements to finance inventory with interest rates ranging from prime with a minimum of 6% to Prime plus 2% with a minimum of 8% after 18 months (weighted average interest rate of 5.9% as of December 31, 2016); $467,101 loans outstanding for the finance of rental homes with an interest rate of 6.99% at December 31, 2016; $4,000,000 outstanding on its commercial term loan with an interest rate of 4.625% at December 31, 2016; $4,000,000 outstanding on the Company’s revolving line of credit secured by eligible notes receivables with an interest rate of prime plus 50 basis points (interest rate of 4.25% as of December 31, 2016); and $884,528 outstanding on its automotive loans with a weighted average interest rate of 3.8%.

Operating lease obligations represent a lease with a related party for the Company’s corporate offices. On May 1, 2015, the Company renewed this lease for additional space and for an additional seven-year term with monthly lease payments of $14,900 through April 30, 2020 and $15,300 through April 30, 2022. The Company is also responsible for its proportionate share of real estate taxes and common area maintenance.

Purchase of Properties represents the total purchase price of two communities under contract in Ohio, two communities in Indiana and one community in Pennsylvania, totaling 1,291 developed home sites. All five acquisitions, with a purchase price of approximately $36,510,000, were completed in January 2017.

Retirement benefits of $450,000 represent the total future amount to be paid, on an undiscounted basis, relating to the Company's Founder and Chairman. These benefits are based upon his specific employment agreement. The agreement does not require the Company to separately fund the obligation and therefore will be paid from the general assets of the Company. The Company has accrued these benefits on a present value basis over the term of the agreement (See Note 8 of the Notes to Consolidated Financial Statements).

Critical Accounting Policies and Estimates

The discussion and analysis of the Company's financial condition and results of operations are based upon the Company's consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these consolidated financial statements requires management to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of the Company's consolidated financial statements. Actual results may differ from these estimates under different assumptions or conditions.

Significant accounting policies are defined as those that involve significant judgment and potentially could result in materially different results under different assumptions and conditions. Management believes the following critical accounting policies are affected by our more significant judgments and estimates used in the preparation of the Company's consolidated financial statements. For a detailed description of these and other accounting policies, see Note 2 of the Notes to Consolidated Financial Statements included in this Form 10-K.

Real Estate Investments

The Company applies Financial Accounting Standards Board Accounting Standards Codification ("ASC") 360-10, Property, Plant & Equipment ("ASC 360-10") to measure impairment in real estate investments. Rental properties are individually evaluated for impairment when conditions exist which may indicate that it is probable that the sum of expected future cash flows (on an undiscounted basis without interest) from a rental property is less than the carrying value under its historical net cost basis. These expected future cash flows consider factors such as future operating income, trends and prospects as well as the effects of leasing demand, competition and other factors. Upon determination that a permanent impairment has occurred, rental properties are reduced to their fair value. For properties to be disposed of, an impairment loss is recognized when the fair value of the property, less the estimated

cost to sell, is less than the carrying amount of the property measured at the time there is a commitment to sell the property and/or it is actively being marketed for sale. A property to be disposed of is reported at the lower of its carrying amount or its estimated fair value, less its cost to sell. Subsequent to the date that a property is held for disposition, depreciation expense is not recorded.

Upon acquisition of a property, the Company applies ASC 805, Business Combinations (“ASC 805”) and allocates the purchase price of the property based upon the fair value of the assets acquired, which generally consist of land, site and land improvements, buildings and improvements and rental homes. The Company allocates the purchase price of an acquired property generally determined by internal evaluation as well as third-party appraisal of the property obtained in conjunction with the purchase. Transaction costs, such as broker fees, transfer taxes, legal, accounting, valuation, and other professional and consulting fees, related to acquisitions are expensed as incurred.

The Company conducted a comprehensive review of all real estate asset classes in accordance with ASC 360-10-35-21, which indicates that asset values should be analyzed whenever events or changes in circumstances indicate that the carrying value of a property may not be fully recoverable. The process entails the analysis of property for instances where the net book value exceeds the estimated fair value. In accordance with ASC 360-10-35-17, an impairment loss shall be recognized if the carrying amount of a long-lived asset is not recoverable and exceeds its fair value. The Company utilizes the experience and knowledge of its internal valuation team to derive certain assumptions used to determine an operating property’s cash flow. Such assumptions include lease-up rates, rental rates, rental growth rates, and capital expenditures. The Company reviewed its operating properties in light of the requirements of ASC 360-10 and determined that, as of December 31, 2016, the undiscounted cash flows over the holding period for these properties were in excess of their carrying values and, therefore, no impairment charges were required.

Securities Available for Sale

Investments in non-real estate assets consist primarily of marketable securities. The Company individually reviews and evaluates our marketable securities for impairment on a quarterly basis or when events or circumstances that may indicate possible impairment occur. The Company considers, among other things, credit aspects of the issuer, amount of decline in fair value over cost and length of time in a continuous loss position. The Company has developed a general policy of evaluating whether an unrealized loss is other than temporary. On a quarterly basis, the Company makes an initial review of every individual security in its portfolio. If the security is impaired, the Company first determines our intent and ability to hold this investment for a period of time sufficient to allow for any anticipated recovery in market value. Next, the Company determines the length of time and the extent of the impairment. Barring other factors, including the downgrading of the security or the cessation of dividends, if the fair value of the security is below cost by less than 20% for less than 6 months and the Company has the intent and ability to hold the security, the security is deemed to not be other than temporarily impaired. Otherwise, the Company reviews additional information to determine whether the impairment is other than temporary. The Company discusses and analyzes any relevant information known about the security, such as:

a. Whether the decline is attributable to adverse conditions related to the security or to specific conditions in an industry or in a geographic area.

b. Any downgrading of the security by a rating agency.

c. Whether the financial condition of the issuer has deteriorated.

d. Status of dividends – Whether dividends have been reduced or eliminated, or scheduled interest payments have not been made.

e. Analysis of the underlying assets (including NAV analysis) using independent analysis or recent transactions.

The Company generally holds REIT securities long-term and has the ability and intent to hold securities to recovery. If a decline in fair value is determined to be other than temporary, an impairment charge is recognized in earnings and the cost basis of the individual security is written down to fair value as the new cost basis.

The Company’s securities consist primarily of common and preferred stock of other REITs. These securities are all publicly-traded and purchased on the open market, through private transactions or through dividend reinvestment plans. These securities are classified among three categories: Held-to-maturity, trading and available-for-sale. As of December 31, 2016 and 2015, the Company’s securities are all classified as available-for-sale and are carried at fair value based upon quoted market prices. Gains or losses on the sale of securities are based on average cost and are accounted for on a trade date basis. Unrealized holding gains and losses are excluded from earnings and reported as a separate component of Shareholders’ Equity until realized. The change in net unrealized holding gains and losses are reflected as comprehensive income (loss).

Other

Estimates are used when accounting for the allowance for doubtful accounts for our rents and loans receivable, potentially excess and obsolete inventory and contingent liabilities, among others. These estimates are susceptible to change and actual results could differ from these estimates. The effects of changes in these estimates are recognized in the period they are determined.

Recent Accounting Pronouncements

See Note 2 of the Notes to Consolidated Financial Statements.

Item 7A – Quantitative and Qualitative Disclosures about Market Risk

The Company's principal market risk exposure is interest rate risk. The Company mitigates this risk by maintaining prudent amounts of leverage, minimizing capital costs and interest expense while continuously evaluating all available debt and equity resources and following established risk management policies and procedures, which include the periodic use of derivatives. The Company's primary strategy in entering into derivative contracts is to minimize the variability that changes in interest rates could have on its future cash flows. The Company generally employs derivative instruments that effectively convert a portion of its variable rate debt to fixed rate debt. The Company does not enter into derivative instruments for speculative purposes.

The following table sets forth information as of December 31, 2016, concerning the Company's mortgages payable, including principal cash flow by scheduled maturity, weighted average interest rates and estimated fair value.

	Fixed Rate Carrying Value	Weighted Average Fixed Interest Rate		Variable Rate Carrying Value	Total Long-Term Debt
2017	9,035,246	6.18	%	10,625,352	19,660,598
2018	8,818,862	6.83	%	354,531	9,173,393
2019	2,889,970	5.63	%	-0-	2,889,970
2020	12,525,896	5.94	%	-0-	12,525,896
2021	2,228,629	6.50	%	-0-	2,228,629
Thereafter	250,085,497	4.17	%	-0-	250,085,497
Total	$285,584,100	4.08	%	$10,979,883	$296,563,983
Estimated Fair Value	$282,369,063			$10,979,883	$293,348,946

The Company's variable rate long-term debt consists of two mortgage loans with a total balance of $10,979,883 as of December 31, 2016. Interest rates on these mortgages are at Prime plus 1.0% and LIBOR plus 3.0%. To minimize the variability that changes in interest rates could have on its future cash flows, the Company has entered into a separate interest rate swap agreement for one of these loans. This interest rate swap agreement has the effect of fixing the interest rate relative to a mortgage loan with a balance of approximately $10.6 million at December 31, 2016. The unrealized loss in fair value of the interest rate swap agreement amounted to $3,983 for the year ended December 31, 2016. The effective fixed interest rates on this loan is 3.89%.

The Company's remaining variable rate mortgage totals approximately $355,000 as of December 31, 2016. Interest rates on this mortgage is Prime plus 1%. If prime increased or decreased by 1.0%, the Company believes its interest expense would have increased or decreased by approximately $3,600, based on the balance of the variable rate long-term debt outstanding at December 31, 2016.

On March 29, 2013, the Company entered into a $35 million Unsecured Revolving Credit Facility ("Credit Facility") with Bank of Montreal ("BMO"). The Company has the ability to increase the borrowing capacity by an amount not to exceed $15 million, representing a maximum aggregate borrowing capacity of $50 million, subject to various conditions, as defined in the agreement. The maturity date of the Credit Facility has been extended to March 29, 2017. The Company is in the process of renewing this Credit Facility. Borrowings under the Credit Facility can be used for, among other things, acquisitions, working capital, capital expenditures, and repayment of other indebtedness. Borrowings bear interest at the Company's option of LIBOR plus 1.75% to 2.50% or BMO's prime lending rate plus

0.75% to 1.50%, based on the Company's overall leverage. The Company incurs a fee on the unused commitment amount of up to 0.35% per annum. The Credit Facility replaced the Company's previous $5.0 million unsecured line of credit. As of December 31, 2016, the balance outstanding on the Credit Facility was $20,000,000. Based on the current leverage ratio, interest on this borrowing is at LIBOR plus 2.00% for an interest rate of 2.69% as of December 31, 2016.

The Company also has approximately $10,300,000 in variable rate debt. This debt primarily consists of approximately $6.3 million outstanding on our inventory financing lines with interest rates ranging from prime with a minimum of 6% to Prime plus 2% with a minimum of 8% after 18 months (weighted average interest rate of 5.87% as of December 31, 2016) and $4 million outstanding on our revolving line of credit to finance home sales with an interest rate of prime plus 50 basis points (interest rate of 4.25% as of December 31, 2016). The carrying value of the Company's variable rate debt approximates fair value at December 31, 2016. Additionally, at December 31, 2016, the Company has fixed rate debt consisting of $4,000,000 outstanding on its commercial term loan with an interest rate of 4.625%, approximately $467,000 loan outstanding for the financing of rental homes with an interest rate of 6.99% and approximately $885,000 outstanding on its automotive loans with a weighted average interest rate of 3.80%.

The Company invests in equity securities of other REITs and is primarily exposed to market price risk from adverse changes in market rates and conditions. The Company generally limits its marketable securities investments to no more than approximately 20% of its undepreciated assets. All securities are classified as available for sale and are carried at fair value.

The Company obtains margin loans secured by its marketable securities. The interest rate on the margin account is the bank's margin rate and was 2.0% at December 31, 2016 and 2015. There was $22,727,458 outstanding on the margin loans as of December 31, 2016. As of December 31, 2016, the value of marketable securities was $108,755,172. In general, the Company may borrow up to 50% of the value of the marketable securities.

Item 8 – Financial Statements and Supplementary Data

The financial statements and supplementary data listed in Part IV, Item 15(a)(1) are incorporated herein by reference and filed as part of this report.

The following is the Unaudited Selected Quarterly Financial Data:

SELECTED QUARTERLY FINANCIAL DATA (UNAUDITED)

THREE MONTHS ENDED

2016	**March 31**	**June 30**	**September 30**	**December 31**

Item 9 – Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

There were no changes in, or any disagreements with, the Company’s independent registered public accounting firm on accounting principles and practices or financial disclosure during the years ended December 31, 2016 and 2015.

Item 9A – Controls and Procedures

Disclosure Controls and Procedures

Management, with the participation of the Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Securities Exchange Act of 1934 Rule 13a-15(e) and 15d-15(e)) as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective to give reasonable assurances to the timely collection, evaluation and disclosure of information that would potentially be subject to disclosure under the Securities Exchange Act of 1934, as amended, and the rules and regulations promulgated thereunder as of December 31, 2016.

Internal Control over Financial Reporting

(a) Management's Annual Report on Internal Control over Financial Reporting

Management of the Company is responsible for establishing and maintaining effective internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act). The Company's internal control system was designed to provide reasonable assurance regarding the preparation and fair presentation of published financial statements. Notwithstanding the foregoing, a control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that we will detect or uncover failures to disclose material information otherwise required to be set forth in our periodic reports.

Management assessed the Company's internal control over financial reporting as of December 31, 2016. This assessment was based on criteria for effective internal control over financial reporting established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") (2013 framework). Based on this assessment, management has concluded that the Company's internal control over financial reporting was effective as of December 31, 2016.

PKF O'Connor Davies, LLP, the Company's independent registered public accounting firm, has issued their report on their audit of the Company's internal control over financial reporting, a copy of which is included herein.

(b) Attestation Report of the Independent Registered Public Accounting Firm

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders

UMH Properties, Inc.

We have audited UMH Properties, Inc.'s (the "Company") internal control over financial reporting as of December 31, 2016, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") (2013 framework). UMH Properties, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control over Financial Reporting included in the accompanying Item 9A. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control, based upon the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, (3) receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (4) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, UMH Properties, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2016 based on criteria established in Internal Control-Integrated Framework issued by COSO (2013 framework).

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of UMH Properties, Inc. as of December 31, 2016 and 2015, and the related consolidated statements of income (loss), comprehensive income (loss), shareholders' equity and cash flows for each of the three years in the period ended December 31, 2016 and our report dated March 7, 2017 expressed an unqualified opinion thereon.

/s/ PKF O'Connor Davies, LLP

New York, New York
March 7, 2017

(c) Changes in Internal Control over Financial Reporting

There have been no changes to our internal control over financial reporting during the Company's fourth quarter that have materially affected, or are reasonably likely to materially affect our internal controls over financial reporting.

Item 9B – Other Information

None.

PART III

(1) Class I, II and III Directors have terms expiring at the annual meetings of the Company's shareholders to be held in 2019, 2017 and 2018, respectively, and when their respective successors are duly elected and qualify.

(2) Independent within the meaning of applicable New York Stock Exchange listing standards and SEC rules.

All officers serve at the pleasure of the Board of Directors, subject to the rights, if any, of any officer under any employment contract. Officers are elected by the Board of Directors annually and as may be appropriate to fill a vacancy in an office.

Family Relationships

There are no family relationships between any of the directors or executive officers of the Company, with the exception of Samuel A. Landy and Michael P. Landy, who are the sons of the Company's Founder, Eugene W. Landy, who is the Chairman of the Board and a Director of the Company.

Audit Committee

The Company has a separately-designated standing audit committee established in accordance with section 3(a)(58)(A) of the Exchange Act (15 U.S.C. 78c(a)(58)(A)). The members of the audit committee are Jeffrey A. Carus, Stuart D. Levy, James E. Mitchell and Stephen B. Wolgin (Chairman). The Company's Board of Directors has determined that Mr. Carus, Mr. Levy, Mr. Mitchell and Mr. Wolgin are "independent" as defined by the rules of the SEC and the listing standards of the NYSE and "audit committee financial experts" within the meaning of the rules of the SEC. The audit committee operates under the Audit Committee Charter which is available on the Company's website at www.umh.reit. The charter is reviewed annually for adequacy.

Section 16(a) Beneficial Ownership Reporting Compliance

There have been no delinquent filers pursuant to Item 405 of regulation S-K, to the best of management's knowledge.

Code of Ethics

The Company has adopted the Code of Business Conduct and Ethics applicable to its Chief Executive Officer and Chief Financial Officer, as well as the Company's other officers, directors and employees (the "Code of Ethics"). The Code of Ethics can be found at the Company's website at www.umh.reit. The Code of Ethics is also available in print to any person without charge who requests a copy by writing or telephoning us at the following address and telephone number: UMH Properties, Inc., Attention: Stockholder Relations, 3499 Route 9 North, Suite 3-C, Juniper Business Plaza, Freehold, New Jersey 07728, (732) 577-9997. The Company will satisfy any disclosure requirements under Item 5.05(c) of Form 8-K regarding a waiver from any provision of the Code of Ethics for principal officers or directors by disclosing the nature of such amendment of waiver on our website.

Item 11 – Executive Compensation

The Company will file its definitive Proxy Statement for its 2017 Annual Meeting of Stockholders within the period required under the applicable rules of the Securities and Exchange Commission. Additional information required by this Item is included under the caption "ELECTION OF DIRECTORS", "EXECUTIVE COMPENSATION" and "CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS" of such Proxy Statement and is incorporated herein by reference.

Compensation Discussion and Analysis

Overview of Compensation Program

The Compensation Committee (for purposes of this analysis, the "Committee") of the Board has been appointed to discharge the Board's responsibilities relating to the compensation of the Company's executive officers. The Committee has the overall responsibility for approving and evaluating the executive officer compensation plans, policies and programs of the Company. The Committee's primary objectives include serving as an independent and objective party to review such compensation plans, policies and programs. The Committee has not retained or obtained the advice of a compensation committee consultant for determining or recommending the amount of executive or director compensation.

Throughout this report, the individuals who served as the Company's chief executive officer and chief financial officer during 2016, as well as certain other individuals included in the Summary Compensation Table presented below in

Item 11 of this report, are sometimes referred to in this report as the “named executive officers.”

Compensation Philosophy and Objectives

The Committee believes that a well-designed compensation program should align the goals of the chief executive officer with the goals of the shareholders, and that a significant part of the executive’s compensation, over the long term, should be dependent upon the value created for shareholders. In addition, all executives should be held accountable through their compensation for the performance of the Company, and compensation levels should also reflect the executive’s individual performance in an effort to encourage increased individual contributions to the Company’s performance. The compensation philosophy, as reflected in the Company’s employment agreements with its executives, is designed to motivate executives to focus on operating results and create long-term shareholder value by:

- establishing a plan that attracts, retains and motivates executives through compensation that is competitive with a peer group of other publicly-traded REITs;
- rewarding executives for individual accomplishments and achievements;
- linking a portion of executives’ compensation to the achievement of the Company’s business plan by using measurements of the Company’s operating results and shareholder return; and
- building a pay-for-performance system that encourages and rewards successful initiatives within a team environment.

The Committee believes that each of the above factors is important when determining compensation levels for named executive officers. The Committee reviews and approves the employment contracts for the Chairman of the Board, the President and Chief Executive Officer, and the Vice President and Chief Financial Officer, as well as other named executive officers, including performance goals and objectives. The Committee annually evaluates performance of these executive officers in light of those goals and objectives. The Committee considers the Company's performance, relative stockholder return, the total compensation provided to comparable officers at similarly-situated companies, and compensation given to named executive officers in prior years. The Committee uses the Residential Sector of the Real Estate Compensation Survey (the "Survey"), produced under the guidance of NAREIT, as a guide to setting compensation levels. Participant company data is not presented in a manner that specifically identifies any named individual or company. The Survey details compensation by position type and company size with statistical salary and bonus information for each position. The Company's salaries, bonus amounts and long-term compensation awards are compared to the ranges presented for reasonableness. The Committee believes executive compensation packages provided by the Company to its executive officers should include both base salaries, annual bonuses and long-term compensation awards that reward corporate and individual performance, as well as give incentives to executives to meet or exceed established goals.

Role of Executive Officers in Compensation Decisions

The Committee makes all final compensation decisions for the Company's named executive officers. The Chairman of the Board and the President and Chief Executive Officer annually review the performance of the other named executive officers and then present their conclusions and recommendations to the Committee with respect to base salary adjustments and annual cash bonus and stock option and restricted stock awards. The Committee exercises its own discretion in modifying any recommended adjustments or awards, but does consider the recommendations from management who work closely with the other named executive officers.

Role of Grants of Stock Options and Restricted Stock in Compensation Analysis

The Committee views the grant of stock options and restricted stock awards as a form of long-term compensation. The Committee believes that such grants promote the Company's goal of retaining key employees, and aligns the key employee's interests with those of the Company's shareholders from a long-term perspective. The number of options or shares of restricted stock granted to each employee is determined by consideration of various factors including, but not limited to, the employee's contribution, title, responsibilities and years of service.

Role of Employment Agreements in Determining Executive Compensation

Most of the Company's currently employed named executive officers are parties to employment agreements. These agreements provide for base salaries, bonuses and customary fringe benefits. Other key elements of the Company's compensation program for the named executive officers are stock options, restricted stock awards and other benefits. Each of these is addressed separately below. In determining initial compensation, the Committee considers all elements of a named executive officer's total compensation package in comparison to current market practices and other benefits.

Shareholder Advisory Vote

One way to determine if the Company's compensation program reflects the interests of shareholders is through their non-binding vote. At the Annual Meeting of Shareholders held on June 12, 2014, the Company's shareholders approved by their advisory vote the compensation of the named executive officers.

Base Salaries

Base salaries are paid for ongoing performance throughout the year. In order to compete for and retain talented executives who are critical to the Company's long-term success, the Committee has determined that the base salaries of named executive officers should approximate those of executives of other equity REITs that compete with the Company for employees, investors and business, while also taking into account the named executive officers' performance and tenure and the Company's performance relative to its peer companies within the REIT industry using the Survey described above.

Bonuses

In addition to the provisions for base salaries under the terms of their employment agreements, the President and Chief Executive Officer and the Vice President and Chief Financial Officer are entitled to receive annual cash bonuses for each year during the terms of each respective agreement. These bonuses are based on the achievement of certain performance goals set by the Committee as described below.

For the President and Chief Executive Officer:

Increase same store occupancy	0.75%	1.00%	1.25%
Bonus	$47,300	$94,600	$118,250
Increase same store revenue	3%	4%	5%
Bonus	$47,300	$94,600	$141,900
Increase same store rental units	400 units	500 units	600 units
Bonus	$94,600	$94,600	$118,250
Increase same store sales profit	Breakeven	Up to $500,000	Over $500,000
Bonus	$47,300	$47,300 plus 10% of profit	$97,300 plus 12% of profit over $500,000
Reduce and or maintain same store operating costs as a percentage of revenue	50%	50%
