Forward-Looking Statements

This report contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended (“the Exchange Act”), and Section 27A of the Securities Act of 1933, as amended, relating to our business and financial outlook, which are based on our current beliefs, assumptions, expectations, estimates, forecasts and projections. In some cases, you can identify forward-looking statements by terminology such as “may,” “will,” “should,” “expects,” “plans,” “anticipates,” “believes,” “estimates,” “projects,” “intends,” “predicts,” “potential,” or “continue” or other terminology. These forward-looking statements are not guarantees of our future performance and involve risks, uncertainties, estimates and assumptions that are difficult to predict. Therefore, our actual outcomes and results may differ materially from those expressed in these forward-looking statements. You should not place undue reliance on any of these forward-looking statements. Further, any forward-looking statement speaks only as of the date hereof, unless it is specifically otherwise stated to be made as of a different date. We undertake no obligation to further update any such statement, or the risk factors described in Part I, Item 1A under the heading Risk Factors in our Form 10-K for the year ended December 31, 2016, to reflect new information, the occurrence of future events or circumstances or otherwise.

Notes to the Unaudited Condensed Consolidated Financial Statements

Business and basis of presentation

Orthofix International N.V. (the “Company”) is a diversified, global medical device company focused on improving patients’ lives by providing superior reconstructive and regenerative orthopedic and spine solutions to physicians. The Company has four strategic business units (“SBUs”) that are also its reporting segments: BioStim, Biologics, Extremity Fixation, and Spine Fixation.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Pursuant to these rules and regulations, certain information and note disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted. In the opinion of management, all adjustments (consisting of normal recurring items) considered necessary for a fair statement have been included. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes contained in the Company’s Form 10-K for the year ended December 31, 2016. Operating results for the three and six months ended June 30, 2017 are not necessarily indicative of the results that may be expected for other interim periods or the year ending December 31, 2017. The operating results for the three and six months ended June 30, 2016 have been adjusted from previously reported amounts as a result of the adoption of Accounting Standards Update (“ASU”) 2016-09, which was adopted during the quarter ended September 30, 2016 with an effective date of January 1, 2016.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. On an ongoing basis, the Company evaluates its estimates including those related to revenue recognition, contractual allowances, doubtful accounts, inventories, potential goodwill and intangible asset impairment, fair value measurements, litigation and contingent liabilities, income taxes, and share-based compensation. Actual results could differ from these estimates.

1. Recently issued accounting pronouncements

Topic	Description of Guidance	Effective Date	Status of Company's Evaluation
Revenue Recognition (ASU 2014-09, as amended)	Requires entities to recognize revenue in a way that depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. Applied either	January 1, 2018	The Company is continuing to evaluate the impact this ASU will have on its consolidated financial statements and disclosures. The Company completed an initial impact assessment and believes adopting this ASU will materially impact the timing of revenue recognition, primarily for Extremity Fixation and Spine Fixation product sales to stocking distributors, which are currently accounted for using the sell-through method.

	retrospectively or as a cumulative effect adjustment as of the adoption date.		Specifically, the Company believes the revenue associated with these sales will be recorded at the time of the sale instead of deferring recognition until cash is received. The Company expects to adopt this new guidance using the modified retrospective transition method.
Financial Instruments (ASU 2016-01)	Requires entities to measure equity investments, except in limited circumstances, at fair value and recognize any changes in fair value in net income. Applied prospectively.	January 1, 2018	The Company is currently evaluating the impact this ASU may have on its consolidated financial statements.

7

Topic	Description of Guidance	Effective Date	Status of Company's Evaluation
Leases (ASU 2016-02)	Requires a lessee to recognize lease assets and lease liabilities for leases classified as operating leases. Applied using a modified retrospective approach.	January 1, 2019	The Company is currently evaluating the impact this ASU may have on its consolidated financial statements; however, the Company expects this guidance will result in current operating lease obligations being reflected on the consolidated balance sheet.
Income Taxes (ASU 2016-16)	Reduces complexity by requiring current and deferred income taxes for intra-entity asset transfers, other than inventory, to be recognized when the transfer occurs. Applied using a modified retrospective approach.	January 1, 2018	The Company is currently evaluating the impact this ASU may have on its consolidated financial statements.
Statement of Cash Flows (ASU 2016-18)	Reduces diversity in classification and presentation of restricted cash, including transfers between cash and restricted cash, on the statement of cash flows. Applied retrospectively.	January 1, 2018	The Company is currently evaluating the impact this ASU may have on its consolidated statement of cash flows.

2. Inventories

Inventories were as follows:

	December	
	June 30,	31,
(U.S. Dollars, in thousands)	2017	2016
Raw materials	\$5,049	\$ 7,978
Work-in-process	11,339	9,505
Finished products	55,706	42,434
Deferred cost of sales	3,775	3,429
	\$75,869	\$ 63,346

3. Other current liabilities

In December 2016, the Company approved and initiated a planned restructuring, which primarily affects the Extremity Fixation SBU, to streamline costs, improve operational performance, and wind down a non-core business. The restructuring plan consists primarily of severance charges and the write-down of certain assets. The Company expects to incur total pre-tax expense of approximately \$2.9 million in connection with this restructuring activity and has

incurred cumulative costs to date of \$2.0 million. The Company had an accrual of \$1.5 million as of December 31, 2016 in other current liabilities related to the planned restructuring. In the six months ended June 30, 2017, the Company increased its estimate of costs to be incurred by approximately \$0.1 million and made additional payments of \$0.6 million, resulting in an ending accrual of \$1.0 million as of June 30, 2017.

4. Long-term debt

As of June 30, 2017, the Company has not made any borrowings under its five year \$125 million secured revolving credit facility with JPMorgan Chase Bank, N.A., as Administrative Agent, and certain lenders party thereto. The Company has also not made any borrowings on its €5.8 million (\$6.6 million) available line of credit in Italy at June 30, 2017. The Company is in compliance with all required financial covenants as of June 30, 2017.

5. Fair value measurements

The fair value of the Company's financial assets and liabilities measured on a recurring basis were as follows:

(U.S. Dollars, in thousands)	June 30,			December 31,	
	2017		Level 3	2016	
	Level 1	Level 2		Total	Total
Assets					
Collective trust funds	\$—	\$1,574	\$—	\$1,574	\$ 1,584
Treasury securities	525	—	—	525	467
Certificates of deposit	—	—	—	—	468
Debt security	—	—	9,000	9,000	12,220
Total	\$525	\$1,574	\$9,000	\$11,099	\$ 14,739
Liabilities					
Deferred compensation plan	\$—	\$(1,271)	\$—	\$(1,271)	\$(1,452)
Total	\$—	\$(1,271)	\$—	\$(1,271)	\$(1,452)

The fair value of the debt security, which is recorded within other long-term assets, is based upon significant unobservable inputs, including the use of a discounted cash flow model, requiring the Company to develop its own assumptions; therefore, the Company has categorized this asset as a Level 3 financial asset. As of June 30, 2017, the Company reassessed its estimate of fair value based on current financial information and other assumptions, resulting in a fair value of \$9.0 million, which is consistent with the Company's estimated fair value from the first quarter of 2017. This compares to an amortized cost basis in the debt security of \$18.0 million.

The Company evaluated the decline in fair value recorded during the first quarter of 2017 to determine if the impairment was other-than-temporary. Based on this evaluation, the Company recorded an other-than-temporary impairment charge of \$5.6 million before income taxes, which is recorded in other expense. In addition to the decrease in fair value, the other-than-temporary impairment included a reclassification of the amount that was previously considered temporary and included in accumulated other comprehensive loss.

The following table provides a reconciliation of the beginning and ending balances for debt securities measured at fair value using significant unobservable inputs (Level 3):

(U.S. Dollars, in thousands)	2017	2016
Balance at January 1	\$12,220	\$12,658
Accrued interest income	—	640
Gains or losses recorded for the period		
Recognized in net income	(5,585)	—
Recognized in other comprehensive income	2,365	(3,860)
Balance at June 30	\$9,000	\$9,438

6. Contingencies

In addition to the matters described below, in the normal course of its business, the Company is involved in various lawsuits from time to time and may be subject to certain other contingencies. The Company believes losses with respect to these additional matters are individually and collectively immaterial as to a possible loss and range of loss.

Discontinued Operations – Matters Related to Breg and Possible Indemnification Obligations

On May 24, 2012, the Company sold Breg to an affiliate of Water Street Healthcare Partners II, L.P. (“Water Street”). Under the terms of the agreement, the Company indemnified Water Street and Breg with respect to certain specified matters, including the following:

Breg was engaged in the manufacturing and sale of local infusion pumps for pain management from 1999 to 2008. Since 2008, numerous product liability cases have been filed in the United States alleging that the local anesthetic, when dispensed by such infusion pumps inside a joint, causes a rare arthritic condition called “chondrolysis.” One case remains outstanding for which the Company currently cannot reasonably estimate the possible loss, or range of loss.

9

At the time of its divestiture by the Company, Breg was engaged in the manufacturing and sales of motorized cold therapy units used to reduce pain and swelling. Several domestic product liability cases have been filed in recent years, mostly in California state court. In September 2014, the Company entered into a master settlement agreement resolving then pending pre-close cold therapy claims. Currently pending is a post-close cold therapy claim in California state court. As of June 30, 2017, the Company has an accrual of \$2.6 million recorded within other current liabilities; however, the actual liability could be higher or lower than the amount accrued.

Charges incurred as a result of this indemnification are reflected as discontinued operations in the condensed consolidated statements of operations.

7. Accumulated other comprehensive loss

The components of and changes in accumulated other comprehensive loss were as follows:

(U.S. Dollars, in thousands)	Currency Translation		Accumulated Other
	Adjustments	Debt Security	Comprehensive Loss
Balance at December 31, 2016	\$ (5,115)	\$ (1,465)	\$ (6,580)

	\$2,676	\$1,913	\$5,492	\$4,012

During the three months ended June 30, 2017 and 2016, the Company issued 76,596 and 325,393 shares, respectively, of common stock related to stock purchase plan issuances, stock option exercises and the vesting of restricted stock awards. During the six months ended June 30, 2017 and 2016, the Company issued 291,275 and 528,791 shares, respectively, of common stock related to stock purchase plan issuances, stock option exercises and the vesting of restricted stock awards.

11. Income taxes

Income tax provisions for interim periods are based on an estimated annual income tax rate, adjusted for discrete tax items. As a result, the Company's interim effective tax rates may vary significantly from the statutory tax rate and the annual effective tax rate.

For the three months ended June 30, 2017 and 2016, the effective tax rate on continuing operations was 45.3% and (138.5%), respectively. For the six months ended June 30, 2017 and 2016, the effective tax rate on continuing operations was 76.4% and 128.5%. The primary factors affecting the Company's effective tax rate for the three and six months ended June 30, 2017, were the method for estimating income taxes at interim periods, the mix of earnings among tax jurisdictions and current period losses in certain jurisdictions for which the Company does not currently receive a tax benefit.

The Internal Revenue Service is currently conducting examinations of the Company's federal income tax returns for 2012 and 2013. The Company cannot reasonably determine if these examinations will have a material impact on its financial statements and cannot predict the timing regarding resolution of these tax examinations.

12. Earnings per share ("EPS")

For the three and six months ended June 30, 2017 and 2016, no adjustments were made to net income (loss) for purposes of calculating basic and diluted EPS. The following is a reconciliation of the weighted average shares used in diluted EPS computations.

	Three Months Ended		Six Months Ended	
	June 30, 2017	2016	June 30, 2017	2016
Weighted average common shares-basic	18,050,551	18,147,681	18,015,308	18,312,781
Effect of dilutive securities				
Unexercised stock options and stock purchase plan	156,109	—	115,560	—
Unvested time-based restricted stock awards	136,378	—	157,182	—
Weighted average common shares-diluted	18,343,038	18,147,681	18,288,050	18,312,781

There were 462,146 and 532,277 outstanding options, restricted stock, and performance-based or market-based equity awards not included in the diluted earnings per share computation for the three months ended June 30, 2017 and 2016, respectively, and 506,964 and 499,620 outstanding options, restricted stock, and performance-based or market-based equity awards not included in the diluted earnings per share computation for the six months ended June 30, 2017 and 2016, respectively, because inclusion of these awards was anti-dilutive or, for performance-based and market-based awards, all necessary conditions had not been satisfied by the end of the respective period.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of our operations should be read in conjunction with the “Forward-Looking Statements” and our condensed consolidated financial statements and related notes thereto appearing elsewhere in this Form 10-Q.

Executive Summary

Orthofix International N.V. (sometimes referred to as “we,” “us” or “our”) is a diversified, global medical device company focused on improving patients’ lives by providing superior reconstructive and regenerative orthopedic and spine solutions to physicians worldwide. Headquartered in Lewisville, Texas, we have four strategic business units (“SBUs”) that are also our reporting segments: BioStim, Biologics, Extremity Fixation and Spine Fixation. Our products are widely distributed by our sales representatives and distributors.

Notable highlights and achievements in the second quarter of 2017 include the following:

- ◆ Net sales were \$108.9 million, an increase of 4.7% on a reported basis and 5.1% on a constant currency basis
- ◆ Strong performance in our Biologics and Spine Fixation SBUs due to the renewed engagement of our sales partners, the addition of new distributors in underserved markets and our flow of new products to the field
- ◆ Operating income of \$8.0 million, an increase of \$10.7 million, compared to operating loss of \$2.7 million in the prior year

Results of Operations

The following table provides certain items in our condensed consolidated statements of operations as a percent of net sales:

BioStim

BioStim manufactures, distributes, and provides support services of market leading devices that enhance bone fusion. BioStim uses distributors and sales representatives to sell its devices to hospitals, doctors, other healthcare providers, and patients.

Three months ended June 30, 2017 compared to 2016

Net sales increased \$2.4 million, or 5.4%, as we continue to leverage the engagement of our expansive sales force, the positive North American Spine Society (“NASS”) coverage recommendation and the launch of our next generation products

Six months ended June 30, 2017 compared to 2016

Net sales increased \$5.9 million, or 6.9%, as we continue to leverage the engagement of our expansive sales force, the positive NASS coverage recommendation and the launch of our next generation products

Biologics

Biologics provides a portfolio of regenerative products and tissue forms that allow physicians to successfully treat a variety of spinal and orthopedic conditions. Biologics markets its tissues primarily in the U.S. through a network of distributors and independent sales representatives to supply to hospitals, doctors, and other healthcare providers.

Three months ended June 30, 2017 compared to 2016

Net sales increased \$1.4 million or 9.9%

- Increase in volume for our Trinity products driven by the addition of new distributors over the past twelve months
- Benefit from improving performance from our national distribution partner and the reacquisition of a national hospital contract

Six months ended June 30, 2017 compared to 2016

Net sales increased \$2.3 million or 8.1%

- Increase in volume for our Trinity products driven by the addition of new distributors over the past twelve months
- Benefit from improving performance from our national distribution partner and the reacquisition of a national hospital contract

Extremity Fixation

Extremity Fixation offers products and solutions that allow physicians to successfully treat a variety of orthopedic conditions unrelated to the spine. Extremity Fixation distributes its products globally through a network of distributors and sales representatives to sell orthopedic products to hospitals, doctors, and other health providers.

14

Three months ended June 30, 2017 compared to 2016

Net sales decreased \$2.0 million or 7.7%

Decrease related to our international restructuring, which consists of the divestiture of a non-core business in the United Kingdom and a reduction in sales in Brazil and Puerto Rico as we convert from a direct sales model to the use of stocking distributors of \$1.0 million

Decrease as a result of changes in foreign currency exchange rates of \$0.5 million

Decrease in year-over-year cash collections for the quarter from international distributors whose revenue is recognized upon cash receipt

Partially offset by growth in the U.S., largely due to the continued adoption of our TL-HEX product line

Six months ended June 30, 2017 compared to 2016

Net sales decreased \$2.8 million or 5.5%

Decrease related to our international restructuring, which consists of the divestiture of a non-core business in the United Kingdom and a reduction in sales in Brazil and Puerto Rico as we convert from a direct sales model to the use of stocking distributors of \$1.5 million

Decrease as a result of changes in foreign currency exchange rates of \$1.0 million

Decrease in year-over-year cash collections for the quarter from international distributors whose revenue is recognized upon cash receipt

Partially offset by growth in the U.S., largely due to the continued adoption of our TL-HEX product line

Spine Fixation

Spine Fixation specializes in the design, development and marketing of a portfolio of implant products used in surgical procedures of the spine. Spine Fixation distributes its products globally through a network of distributors and sales representatives to sell spine products to hospitals, doctors and other healthcare providers.

Three months ended June 30, 2017 compared to 2016

Net sales increased \$3.1 million or 17.1%

- Increase in U.S. sales due to the addition of new distributor partners in the last several quarters, the uptake of recent product introductions, and improved distributor engagement

Partially offset by a decrease in year-over-year international sales, largely due to a decrease in cash collections for the quarter from international distributors whose revenue is recognized upon cash receipt

Six months ended June 30, 2017 compared to 2016

Net sales increased \$3.6 million or 9.6%

- Increase in U.S. sales due to the addition of new distributor partners in the last several quarters, the uptake of recent product introductions, and improved distributor engagement

Partially offset by a decrease in year-over-year international sales, largely due to a decrease in cash collections for the quarter from international distributors whose revenue is recognized upon cash receipt

15

Three months ended June 30, 2017 compared to 2016

Gross profit, sales and marketing expense, and non-GAAP net margin, an internal metric that we define as gross profit less sales and marketing expense changed as follows:

• Gross profit increased \$4.2 million, primarily due to the growth in net sales

• Sales and marketing expense increased \$4.4 million, primarily due to a higher mix of sales from new distributors in Biologics, who typically receive higher commissions in their first year, and higher spending in Extremity Fixation related to our sales growth in the U.S.

• Non-GAAP net margin decreased by \$0.2 million as a result of the changes in gross profit and sales and marketing expense

Six months ended June 30, 2017 compared to 2016

Gross profit, sales and marketing expense, and non-GAAP net margin, an internal metric that we define as gross profit less sales and marketing expense changed as follows:

• Gross profit increased \$7.8 million, primarily due to the growth in net sales

• Sales and marketing expense increased \$8.1 million, primarily due to a higher mix of sales from new distributors in Biologics and Spine Fixation, who typically receive higher commissions in their first year, and higher spending in Extremity Fixation related to our sales growth in the U.S.

• Non-GAAP net margin decreased by \$0.3 million as a result of the changes in gross profit and sales and marketing expense

The following table provides non-GAAP net margin by SBU. The reasons for the changes in non-GAAP net margin by SBU are generally consistent with the information provided above for gross profit and sales and marketing expense.

Decrease of \$12.9 million related to charges for settlements with the Division of Enforcement of the SEC in 2016 related to the SEC's investigation of (1) our prior accounting review and restatements of financial statements and (2) allegations of improper payments in Brazil. For additional information, see Note 12 within our Form 10-K for the year ended December 31, 2016.

Non-operating Income and Expense

In the first quarter of 2017, we recorded an other-than-temporary impairment on the eNeura debt security of \$5.6 million before income taxes. For additional discussion see Note 5 to the Notes to the Unaudited Condensed Consolidated Financial Statements.

Income Taxes

Three months ended June 30, 2017 compared to 2016

The increase in the effective tax rate is due to charges related to U.S. Government resolutions which were non-deductible for tax purposes and did not recur in 2017. The primary factors affecting our effective tax rate for the second quarter of 2017 are as follows:

- The mix of earnings among tax jurisdictions
- Current period losses in jurisdictions where we do not currently receive a tax benefit

Six months ended June 30, 2017 compared to 2016

The decrease in the effective tax rate was primarily a result of the following factors:

Charges related to U.S. Government resolutions in 2016, which were non-deductible for tax purposes, that did not recur in 2017

Partially offset by the other-than-temporary impairment on the eNeura debt security in the first quarter of 2017

The primary factors affecting our effective tax rate for the six months ended June 30, 2017 are as follows:

The mix of earnings among tax jurisdictions

Current period losses in jurisdictions where we do not currently receive a tax benefit

Liquidity and Capital Resources

Cash and cash equivalents at June 30, 2017, were \$44.3 million compared to \$39.6 million at December 31, 2016.

(U.S. Dollars, in thousands)	Six Months Ended June 30,

The following table presents free cash flow, a non-GAAP financial measure, which is calculated by subtracting capital expenditures from net cash from operating activities.

(U.S. Dollars, in thousands)	Six Months Ended June 30,		
	2017	2016	Change
Net cash from operating activities	\$9,727	\$21,373	\$(11,646)
Capital expenditures	(8,593)	(10,356)	1,763
Free cash flow	\$1,134	\$11,017	\$(9,883)

Operating Activities

Cash flows from operating activities decreased \$11.6 million

Increase in net income of \$4.8 million

Net increase of \$10.6 million for non-cash gains and losses, largely related to the other-than-temporary impairment on the eNeura debt security in the first quarter of 2017, deferred income tax expense, and share-based compensation expense

Net decrease of \$27.0 million relating to changes in working capital accounts, primarily attributable to changes in other current liabilities as a result of U.S. Government resolutions (discussed in further detail below), an increase in our inventory balance as a result of new product introductions, and accounts receivable as a result of the increase in net sales

Our two primary working capital accounts are accounts receivable and inventory. Days sales in receivables were 51 days at June 30, 2017 compared to 49 days at June 30, 2016. Inventory turns were 1.2 times as of June 30, 2017 compared to 1.5 times at June 30, 2016. The decline in inventory turns reflects the new product introductions in our Spine Fixation and Extremity Fixation SBUs.

U.S. Government Resolutions

In January 2017, the U.S. Securities and Exchange Commission (the “SEC”) approved our offers of settlement in connection with the SEC’s investigations of accounting matters leading to our prior restatement of financial statements and our review of improper payments in Brazil. The settlements approved by the SEC resolved these two matters, and included payments to the SEC of amounts previously accrued and funded into escrow during 2016.

Investing Activities

Cash flows from investing activities increased \$5.9 million

• Increase of \$3.6 million from the purchase of certain inventory and intellectual property assets of \$2.6 million and our additional investment in Bone Biologics, Inc. of \$1.0 million during 2016

• Increase of \$1.8 million related to reduced capital expenditures, largely as a result of completing Project Bluecore in 2016

Financing Activities

Cash flows from financing activities increased \$33.3 million

• Increase of \$43.9 million related to the share repurchase plan, which was completed in 2016

• Partially offset by a decrease in net proceeds of \$10.6 million from the issuance of common shares

Credit Facilities

There have been no material changes to our debt instruments as disclosed in our Form 10-K for the year ended December 31, 2016.

Other

For information regarding Contingencies, see Note 6 to the Notes to the Unaudited Condensed Consolidated Financial Statements contained herein.

Off-balance Sheet Arrangements

As of June 30, 2017, we did not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, cash flows, liquidity, capital expenditures or capital resources that are material to investors.

Contractual Obligations

There have been no material changes in any of our material contractual obligations as disclosed in our Form 10-K for the year ended December 31, 2016.

Critical Accounting Estimates

There have been no material changes to our critical accounting estimates, as described in our Form 10-K for the year ended December 31, 2016.

Recently Issued Accounting Pronouncements

See Note 1 of the Notes to the Unaudited Condensed Consolidated Financial Statements for detailed information regarding the status of recently issued accounting pronouncements.

Non-GAAP Financial Measures

We believe that providing non-GAAP financial measures that exclude certain items provides investors with greater transparency to the information used by senior management in its financial and operational decision-making. We believe it is important to provide investors with the same non-GAAP metrics used to supplement information regarding the performance and underlying trends of our business operations in order to facilitate comparisons to

historical operating results and internally evaluate the effectiveness of the our operating strategies. Disclosure of these non-GAAP financial measures also facilitates comparisons of our underlying operating performance with other companies in the industry that also supplement their GAAP results with non-GAAP financial measures.

The non-GAAP financial measures used in this filing may have limitations as analytical tools, and should not be considered in isolation or as a replacement for GAAP financial measures. Some of the limitations associated with the use of these non-GAAP financial measures are that they exclude items that reflect an economic cost that can have a material effect on cash flows.

Constant Currency

Constant currency is calculated by using foreign currency rates from the comparable, prior-year period, to present net sales at comparable rates. Constant currency can be presented for numerous GAAP measures, but is most commonly used by management to analyze net sales without the impact of changes in foreign currency rates.

Non-GAAP Net Margin

Non-GAAP net margin is an internal metric that we define as gross profit less sales and marketing expense. Non-GAAP net margin is the primary metric used by our Chief Operating Decision Maker in managing the business.

Free Cash Flow

Free cash flow is calculated by subtracting capital expenditures from net cash from operating activities. Free cash flow is an important indicator of how much cash is generated or used by our normal business operations, including capital expenditures. Management uses free cash flow as a measure of progress on its capital efficiency and cash flow initiatives.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes to our market risks as disclosed in our Form 10-K for the year ended December 31, 2016.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) of the Exchange Act) designed to provide reasonable assurance that the information required to be disclosed in reports filed or submitted under the Exchange Act are recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms. These include controls and procedures designed to ensure that this information is accumulated and communicated to management, including our President and Chief Executive Officer and our Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Management, with the participation of the President and Chief Executive Officer and the Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of June 30, 2017. Based on this evaluation, our President and Chief Executive Officer and our Chief Financial Officer have concluded that the disclosure controls and procedures were effective as of June 30, 2017.
