Southside Bancshares, Inc., incorporated in Texas in 1982, is a bank holding company for Southside Bank, a Texas state bank headquartered in Tyler, Texas that was formed in 1960. We operate through 60 banking centers, 17 of which are located in grocery stores, and 25 motor bank facilities.

At September 30, 2016, Southside had total assets of \$5.46 billion, total loans of \$2.48 billion, deposits of \$3.58 billion and shareholders’ equity of \$472.6 million. Southside has paid a cash dividend every year since 1970 (including dividends paid by Southside Bank prior to the incorporation of Southside Bancshares). On November 3, 2016, Southside’s board of directors declared a regular quarterly cash dividend of \$0.25 per common share and a special cash dividend of \$0.05 per common share. The combined cash dividend of \$0.30 per common share was paid on December 1, 2016 to shareholders of record as of November 17, 2016.

We are a community-focused financial institution that offers a full range of financial services to individuals, businesses, municipal entities, and nonprofit organizations in the communities that we serve. These services include consumer and commercial loans, deposit accounts, trust services, safe deposit services and brokerage services. Our consumer loan services include 1-4 family residential loans, home equity loans, home improvement loans, automobile loans and other installment loans. Commercial loan services include short-term working capital loans for inventory and accounts receivable, short and medium-term loans for equipment or other business capital expansion, commercial real estate loans and municipal loans. We also offer construction loans for 1-4 family residential and commercial real estate.

We offer a variety of deposit accounts with a wide range of interest rates and terms, including savings, money market, interest and noninterest-bearing checking accounts and certificates of deposit. Our trust services include investment management, administration and advisory services, primarily for individuals and, to a lesser extent, partnerships and corporations. At September 30, 2016, our trust department managed approximately \$939.3 million of trust assets. Our business strategy includes evaluating expansion opportunities through acquisitions of financial institutions in market areas that could complement our existing franchise. We generally seek merger partners that are culturally similar, have experienced management and possess either significant market presence or have potential for improved profitability through financial management, economies of scale and expanded services. During 2014, we acquired OmniAmerican Bancorp, Inc., a bank holding company traded on the NASDAQ Global Market and the holding company for OmniAmerican Bank, a federal savings association, headquartered in Fort Worth, Texas, which we refer to as Omni.

We and our subsidiaries are subject to comprehensive regulation, examination and supervision by the Federal Reserve Board, the Texas Department of Banking, and the FDIC, and are subject to numerous laws and regulations relating to our operations, including, among other things, permissible activities, capital adequacy, reserve requirements, standards for safety and soundness, internal controls, consumer protection, anti-money laundering, and privacy and data security.

Tangible book value per share, return on average tangible common equity, the efficiency ratio and the tangible common equity to tangible assets ratio are not measures recognized under generally accepted accounting principles, or GAAP, and therefore are considered non-GAAP financial measures. See "Reconciliation of Non-GAAP Financial Measures" below.

(5)

The amount reflected for 2014 excludes purchased credit impaired loans measured at fair value at acquisition of Omni.

Reconciliation of Non-GAAP Financial Measures

The measures entitled return on average tangible common equity, tangible common equity to tangible assets ratio, tangible book value per share and efficiency ratio referenced in “Summary Selected Financial Data” above are non-GAAP financial measures.

The most comparable GAAP measures to return on average tangible common equity, the tangible common equity to tangible assets ratio and tangible book value per share are the return on average equity, the ratio of total shareholders’ equity to total assets and book value per share, respectively. Management believes that the presentation of these measures excluding the impact of intangible assets provides useful supplemental information that is helpful in understanding our financial condition and results of operations, as they provide a method to assess management’s success in utilizing our tangible capital as well as our capital strength. Management also believes that providing measures that exclude balances of intangible assets, which are subjective components of valuation, facilitates the comparison of our performance with the performance of our peers. In addition, management believes that these are standard financial measures used in the banking industry to evaluate performance.

The efficiency ratio on a tax-equivalent basis is a non-GAAP measure that provides a measure of productivity in the banking industry. This ratio is calculated to measure the cost of generating one dollar of revenue. The ratio is designed to reflect the percentage of one dollar which must be expended to generate that dollar of revenue. We calculate this ratio by dividing noninterest expense, excluding amortization of intangibles and certain non-recurring expense by the sum of net interest income on a tax-equivalent basis and noninterest income, excluding net gains (losses) on sales of available for sale investment securities and certain non-recurring income.

These non-GAAP financial measures are supplemental and are not a substitute for any analysis based on GAAP financial measures. Because not all companies use the same calculation of non-GAAP measures, this presentation may not be comparable to other similarly titled measures as calculated by other companies.

The computation of return on average tangible common equity, tangible common equity to tangible assets ratio and tangible book value per share and the reconciliation of these measures to the most comparable GAAP measure along with our calculation of the efficiency ratio are set forth in the tables below:

RISK FACTORS

Investing in our common stock involves a high degree of risk. You should carefully consider the following risk factors, as well as those contained on page 5 of the accompanying prospectus and in our Annual Report on Form 10-K for the year ended December 31, 2015 and all of the other information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus, before deciding to invest in our common stock. The realization of any of the matters referenced as risk factors could have a material adverse effect on our business, financial condition, liquidity, results of operations and prospects and holders of our common stock could lose some or all of their investment.

Risks Related to Our Common Stock and This Offering

Our stock price can be volatile.

Stock price volatility may make it more difficult for you to resell your common stock when you want and at prices you find attractive. Our stock price can fluctuate significantly in response to a variety of factors including, among other things:

- actual or anticipated variations in our results of operations, financial condition or asset quality;
- recommendations by securities analysts;
- operating and stock price performance of other companies that investors deem comparable to us;
- news reports relating to trends, concerns and other issues in the financial services industry;
- perceptions in the marketplace regarding us and/or our competitors;
- perceptions in the marketplace regarding the impact of the change in price per barrel of crude oil on the Texas economy;
- new technology used, or services offered, by competitors;
- significant acquisitions or business combinations, strategic partnerships, joint ventures or capital commitments by or involving us or our competitors;
- failure to integrate acquisitions or realize anticipated benefits from acquisitions;
- future issuances of our common stock or other securities;
- additions or departures of key personnel;
- changes in government regulations; and

- geopolitical conditions such as acts or threats of terrorism or military conflicts.

General market fluctuations, industry factors and general economic and political conditions and events, such as economic slowdowns or recessions, interest rate changes or credit loss trends, could also cause our stock price to decrease regardless of operating results.

Acquisitions and potential acquisitions may disrupt our business and dilute shareholder value.

We occasionally evaluate merger and acquisition opportunities and conduct due diligence activities related to possible transactions with other financial institutions and financial services companies. As a result, merger or acquisition discussions and, in some cases, negotiations may take place and future mergers or acquisitions involving cash, debt or equity securities may occur at any time. Acquisitions typically involve the payment of a premium over book and fair values, and, therefore, some dilution of our tangible book value and net income per common share may occur in connection with any future transaction. Furthermore, failure to realize expected revenue increases, cost savings, increases in geographic or product presence, and/or other projected benefits and synergies from an acquisition could have a material adverse effect on our financial condition and results of operations.

TABLE OF CONTENTS

The trading volume in our common stock is less than that of other larger financial services companies.

Although our common stock is listed for trading on the NASDAQ Global Select Market, the trading volume for our common stock is low relative to other larger financial services companies, and you are not assured liquidity with respect to transactions in our common stock. A public trading market having the desired characteristics of depth, liquidity and orderliness depends on the presence in the marketplace of willing buyers and sellers of our common stock at any given time. This presence depends on the individual decisions of investors and general economic and market conditions over which we have no control. Given the lower trading volume of our common stock, significant sales of our common stock, or the expectation of these sales, could cause our stock price to fall.

The holders of our subordinated notes and junior subordinated debentures have rights that are senior to those of our shareholders.

On September 19, 2016, we issued \$100 million of 5.50% fixed-to-floating subordinated notes, which mature in September 2026. On September 4, 2003, we issued \$20.6 million of floating rate junior subordinated debentures in connection with a \$20.0 million trust preferred securities issuance by our subsidiary, Southside Statutory Trust III. These junior subordinated debentures mature in September 2033. On August 8 and 10, 2007, we issued \$23.2 million and \$12.9 million, respectively, of fixed-to-floating rate junior subordinated debentures in connection with \$22.5 million and \$12.5 million, respectively, trust preferred securities issuances by our subsidiaries Southside Statutory Trust IV and V, respectively. Trust IV matures October 2037 and Trust V matures September 2037. As part of the acquisition of Fort Worth Bancshares, Inc. on October 10, 2007, we assumed \$3.6 million of floating rate junior subordinated debentures issued to Magnolia Trust Company I in connection with \$3.5 million of trust preferred securities issued in 2005 that matures in 2035. We conditionally guarantee payments of the principal and interest on the trust preferred securities. Our subordinated notes and junior subordinated debentures are senior to our shares of common stock. As a result, we must make payments on the subordinated notes and junior subordinated debentures (and the related trust preferred securities) before any dividends can be paid on our common stock and, in the event of bankruptcy, dissolution or liquidation, the holders of the debentures must be satisfied before any distributions can be made to the holders of common stock. We have the right to defer distributions on our junior subordinated debentures (and the related trust preferred securities) for up to five years, during which time no dividends may be paid to holders of common stock.

Our management will have broad discretion as to the use of proceeds from this offering, and we may not use the proceeds effectively.

We intend to use our net proceeds from this offering for general corporate purposes, including potential future acquisitions and to support organic growth. Our net proceeds and the funds made available to us may be applied in ways with which some investors in this offering may not agree. Moreover, our management may use the proceeds in ways that do not improve our results of operations or enhance the value of our common stock. You will not have the opportunity, as part of your investment decision, to assess whether these proceeds are being used appropriately. Management's failure to use such funds effectively could have an adverse effect on our business, results of operations and financial condition. See "Use of Proceeds."

An investment in our common stock is not an insured deposit.

Our common stock is not a bank deposit and, therefore, is not insured against loss by the FDIC, any other deposit insurance fund or by any other public or private entity. Investment in our common stock is inherently risky for the reasons described in this "Risk Factors" section, elsewhere in this prospectus supplement and in the information incorporated herein by reference, including under heading "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2015. Investment in our common stock is also subject to the market forces that affect the price of common stock in any company. As a result, if you acquire our common stock, you may lose some or all of your investment.

Provisions of our certificate of formation and bylaws, as well as state and federal banking regulations, could delay or prevent a takeover of us by a third party.

Our certificate of formation and bylaws could delay, defer or prevent a third party from acquiring us, despite the possible benefit to our shareholders, or otherwise adversely affect the price of our common

S-8

TABLE OF CONTENTS

stock. These provisions include, among others, requiring advance notice for raising business matters or nominating directors at shareholders' meetings and staggered board elections.

Any individual, acting alone or with other individuals, who are seeking to acquire, directly or indirectly, 10.0% or more of our outstanding common stock must comply with the Change in Bank Control Act, which requires prior notice to the Federal Reserve for any acquisition. Additionally, any entity that wants to acquire 5.0% or more of our outstanding common stock, or otherwise control us, may need to obtain the prior approval of the Federal Reserve under the Bank Holding Company Act of 1956, as amended. As a result, prospective investors in our common stock need to be aware of and comply with those requirements, to the extent applicable.

These provisions may discourage potential acquisition proposals and could delay or prevent a change in control, including under circumstances in which our shareholders might otherwise receive a premium over the market price of our shares.

We may issue additional securities, which could dilute your ownership percentage.

In certain situations, our board of directors has the authority, without any vote of our shareholders, to issue shares of our authorized but unissued stock. In the future, we may issue additional securities, through public or private offerings, to raise additional capital or finance acquisitions. Any such issuance would dilute the ownership of current holders of our common stock.

We rely on dividends from our subsidiary for most of our revenue.

Southside Bancshares is a separate and distinct legal entity from our subsidiaries. We receive substantially all of our revenue from dividends from our subsidiary, Southside Bank. These dividends are the principal source of funds to pay dividends on our common stock and interest and principal on our debt. Various federal and/or state laws and regulations limit the amount of dividends that Southside Bank and certain nonbank subsidiaries may pay to us. Also, Southside Bancshares' right to participate in a distribution of assets upon a subsidiary's liquidation or reorganization is subject to the prior claims of the subsidiary's creditors. In the event Southside Bank is unable to pay dividends to Southside Bancshares, we may not be able to service debt, pay obligations or pay dividends to our shareholders. As a result, the inability to receive dividends from Southside Bank could have a material adverse effect on Southside Bancshares' business, financial condition and results of operations.

You may not receive dividends on our common stock.

Although we have historically declared quarterly cash dividends on our common stock, we are not required to do so and may reduce or cease to pay common stock dividends in the future. If we reduce or cease to pay common stock dividends, the market price of our common stock could be adversely affected.

As noted above, our ability to pay dividends depends primarily upon the receipt of dividends or other capital distributions from Southside Bank. Southside Bank's ability to pay dividends to us is subject to, among other things, its earnings, financial condition and need for funds, as well as federal and state governmental policies and regulations applicable to us and Southside Bank, including the statutory requirement that we serve as a source of financial strength for Southside Bank, which limit the amount that may be paid as dividends without prior regulatory approval. Additionally, if Southside Bank's earnings are not sufficient to pay dividends to us while maintaining adequate capital levels, we may not be able to pay dividends to our shareholders. See "Supervision and Regulation — Holding Company Regulation — Dividends" in our Annual Report on Form 10-K for the year ended December 31, 2015 for a discussion of regulatory and other restrictions on dividend declarations.

There were approximately 1,500 holders of record of our common stock, the only class of equity securities currently issued and outstanding, as of December 2, 2016. On December 2, 2016, the closing sale price for our common stock was \$38.13 per share, as reported on the NASDAQ Global Select Market.

We have paid a cash dividend at least once every year since 1970 (including dividends paid by Southside Bank prior to the incorporation of Southside Bancshares). Future dividends will depend on our earnings, financial condition and other factors that our board of directors considers to be relevant. In addition, we must make payments on our subordinated notes and junior subordinated debentures before any dividends can be paid on our common stock. For additional discussion relating to restrictions that limit our ability to pay dividends refer to “Item 1. Business — Supervision and Regulation” and “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations — Capital Resources” of our Annual Report on Form 10-K for the year ended December 31, 2015, which is incorporated herein by reference.

MATERIAL U.S. FEDERAL INCOME AND
ESTATE TAX CONSEQUENCES TO NON-U.S. HOLDERS

The following is a general discussion of material U.S. federal income and estate tax consequences of the acquisition, ownership and disposition of our common stock by certain “non-U.S. holders” (as defined below). This discussion is limited to non-U.S. holders who purchase and hold our common stock as a capital asset for U.S. federal income tax purposes (generally property held for investment). This discussion is based upon provisions of the Internal Revenue Code of 1986, as amended, or the “Code,” Treasury regulations, judicial decisions, and administrative pronouncements of the Internal Revenue Service, or the “IRS,” all as in effect on the date hereof and all of which are subject to change or differing interpretation, possibly with retroactive effect, which could affect the U.S. federal income and estate tax consequences described herein. No rulings have been or will be sought from the IRS with respect to the matters discussed below, and there can be no assurance that the IRS will not take a different position regarding the tax consequences of a non-U.S. holder’s acquisition, ownership or disposition of our common stock or that any such position would not be sustained by a court.

For purposes of this discussion, a “non-U.S. holder” means a beneficial owner of shares of our common stock that is not for U.S. federal income tax purposes:

- an entity or arrangement treated as a partnership;
- an individual citizen or resident of the United States (including certain former citizens and former long-term residents of the United States);
- a corporation (or other entity treated as a corporation) created or organized in or under the laws of the United States, any state thereof, or the District of Columbia;
- an estate the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust if it (a) is subject to the primary supervision of a court within the United States and one or more United States persons as defined under the Code have the authority to control all substantial decisions of the trust or (b) that was in existence on August 20, 1996, and (c) has made a valid election under applicable Treasury regulations to be treated as a United States person as defined under the Code.

This discussion does not address all aspects of U.S. federal income and estate taxation (such as the Medicare contribution tax or the alternative minimum tax) that may be applicable to investors in light of their particular circumstances, and does not address any state, local, foreign or other tax considerations that may be relevant to non-U.S. holders in light of their particular circumstances (such as U.S. gift tax consequences). Furthermore, this discussion does not describe the U.S. federal income tax consequences applicable to a non-U.S. holder who is subject to special treatment under U.S. federal income tax laws (including, but not limited to, a U.S. expatriate, a bank or financial institution, a broker, a dealer in securities or currencies, an insurance company, a tax-exempt organization, a “controlled foreign corporation,” a “passive foreign investment company,” a corporation that accumulates earnings to avoid U.S. federal income tax, a pass-through entity for U.S. federal income tax purposes or an investor in a pass-through entity for U.S. federal income tax purposes, a person who acquired our common stock pursuant to the exercise of employee stock options or otherwise as compensation, or a person holding our common stock as part of a hedging or conversion transaction or straddle or other integrated investment). Furthermore, this discussion does not address U.S. federal estate (except as specifically addressed herein with respect to U.S. federal estate taxes), gift tax, or any aspects of state, local, or foreign tax laws. We cannot assure you that a change in law will not significantly alter the tax considerations that we describe in this discussion.

If a partnership (or any other entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds our common stock, the U.S. federal income tax treatment of a partner in the partnership generally will depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership holding our common stock, you should consult your independent tax advisors as to the particular U.S. federal income tax consequences to you of the acquisition, ownership and disposition of our common stock.

THIS DISCUSSION IS PROVIDED FOR GENERAL INFORMATION ONLY AND DOES NOT CONSTITUTE LEGAL ADVICE TO ANY PROSPECTIVE PURCHASER OF OUR COMMON STOCK. IF YOU ARE CONSIDERING THE PURCHASE OUR COMMON STOCK, YOU SHOULD CONSULT YOUR OWN TAX ADVISORS CONCERNING THE U.S. FEDERAL INCOME AND ESTATE TAX CONSEQUENCES OF PURCHASING, OWNING AND DISPOSING OF OUR COMMON STOCK IN LIGHT OF YOUR PARTICULAR CIRCUMSTANCES AND ANY CONSEQUENCES ARISING UNDER THE LAWS OF APPLICABLE STATE, LOCAL OR FOREIGN TAXING JURISDICTIONS.

Distributions on Common Stock

In general, if distributions are made to non-U.S. holders with respect to our common stock, such distributions will be treated as dividends to the extent of our current and accumulated earnings and profits as determined under the Code, and may be subject to tax as discussed below. Any portion of a distribution that exceeds our current and accumulated earnings and profits will first be applied to reduce the non-U.S. holder's basis in the common stock and, to the extent such portion exceeds the non-U.S. holder's basis, the excess will be treated as gain from the disposition of the common stock, the tax treatment of which is discussed below under "— Disposition of Common Stock." Any distribution described in this paragraph would also be subject to the discussion below under "— Additional withholding and reporting requirements under FATCA."

Any dividends paid to you as a non-U.S. holder of common stock that are not "effectively connected" with your trade or business in the United States (as described below) will generally be subject to U.S. federal withholding tax at a rate of 30% on the gross amount (or if you are eligible for the benefits of an income tax treaty and certain certification requirements are satisfied, at the lower rate specified in such applicable income tax treaty). A non-U.S. holder who wishes to claim the benefit of an applicable treaty and avoid backup withholding (as discussed below) for dividends will be required to (i) complete IRS Form W-8BEN or W-8BEN-E (or other applicable form) and certify under penalty of perjury that such non-U.S. holder is not a United States person as defined under the Code and is eligible for treaty benefits, or (ii) if our common stock is held through certain foreign intermediaries, satisfy the relevant certification requirements of applicable Treasury regulations. A non-U.S. holder of our common stock eligible for a reduced rate of U.S. federal withholding tax under an income tax treaty may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for a refund together with the required information with the IRS. You should consult your independent tax advisors regarding your entitlement to benefits under a relevant income tax treaty.

Any dividends paid to a non-U.S. holder that are "effectively connected" with the conduct of a trade or business by the non-U.S. holder within the United States (and, if required by an applicable income tax treaty, are attributable to a permanent establishment or fixed base maintained by the non-U.S. holder in the United States) will not be subject to U.S. federal withholding tax if the non-U.S. holder timely provides us or our paying agent with a valid IRS Form W-8ECI (or successor form) properly certifying such exemption and containing the non-U.S. holder's taxpayer identification number. Instead, such "effectively connected" dividends will generally be subject to U.S. federal income tax on a net income basis in the same manner as if the non-U.S. holder were a United States person under the Code, unless an applicable income tax treaty provides otherwise. In addition, if such non-U.S. holder is treated as a corporation for U.S. federal income tax purposes, any "effectively connected" dividends that it receives may, under certain circumstances, be subject to an additional "branch profits tax" at a 30% rate, or such lower rate if specified by an applicable income tax treaty.

Disposition of Common Stock

Subject to the discussion below regarding backup withholding and FATCA, a non-U.S. holder generally will not be subject to U.S. federal income or withholding tax on gain realized on the disposition of our common stock unless:

- the gain is "effectively connected" with the conduct of a trade or business of the non-U.S. holder in the United States (and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment or fixed base maintained by the non-U.S. holder in the United States);

TABLE OF CONTENTS

- the non-U.S. holder is an individual who is present in the United States for 183 days or more in the taxable year of that disposition, and certain other conditions are met; or

- we are or have been a United States real property holding corporation, or a “USRPHC,” for U.S. federal income tax purposes, at any time within the shorter of the five-year period preceding the disposition or such non-U.S. holder’s holding period with respect to the applicable shares of our common stock (the “relevant period”) and, if shares of our common stock are regularly traded on an established securities market (within the meaning of Section 897(c)(3) of the Code), such non-U.S. holder owns directly or is deemed to own pursuant to attribution rules more than 5% of shares of our common stock at any time during the relevant period. We believe we are not, and do not expect to become, a USRPHC. However, because the determination of whether we are a USRPHC depends on the fair market value of our U.S. real property interests relative to the fair market value of our other business assets, there can be no assurance that we will not become a USRPHC in the future. Generally, a corporation is a USRPHC only if the fair market value of its U.S. real property interests equals or exceeds 50% of the sum of the fair market value of its worldwide real property interests plus any other assets used or held for use in a trade or business.

A non-U.S. holder described in the first bullet point above will generally be subject to tax on the net gain derived from the disposition under regular graduated U.S. federal income tax rates in the same manner as if the non-U.S. holder was a United States person as defined under the Code. For a corporate non-U.S. holder for U.S. federal income tax purposes, such “effectively connected” gains may also, under certain circumstances, be subject to an additional “branch profits tax” at a 30% rate.

An individual non-U.S. holder described in the second bullet point above will generally be subject to a flat 30% tax (or at such lower rate as may be specified by an applicable income tax treaty) on the gain derived from the disposition, which may be offset by U.S.-source capital losses.

A non-U.S. holder described in the third bullet point above, will be subject to the U.S. federal income tax under the regular graduated U.S. federal income tax rates with respect to the gain recognized in the same manner as if the non-U.S. holder were a United States person as defined under the Code, except that the “branch profits tax” will not apply. However, we believe we are not, and we do not anticipate becoming, a “United States real property holding corporation” for U.S. federal income tax purposes.

Information Reporting and Backup Withholding

We generally must report annually to the IRS and to each non-U.S. holder the amount of dividends paid to such non-U.S. holder and the tax withheld with respect to such dividends, regardless of whether withholding was required. Copies of the information returns reporting such dividends and withholding may also be made available to the tax authorities in the country in which the non-U.S. holder resides under the provisions of an applicable income tax treaty. A non-U.S. holder will be subject to backup withholding on dividends paid to such non-U.S. holder unless such non-U.S. holder certifies under penalty of perjury that it is not a United States person as defined under the Code, or otherwise establishes an exemption in the manner described above (and the payor does not have actual knowledge or reason to know that such non-U.S. holder is a United States person as defined under the Code, or that the conditions of any other exemption are not, in fact, satisfied).

Depending on the circumstances, information reporting and backup withholding may apply to the proceeds received by a non-U.S. holder from the disposition of our common stock, unless the non-U.S. holder certifies under penalty of perjury that it is not a United States person as defined under the Code, or otherwise establishes an exemption in the manner described above (and the payor does not have actual knowledge or reason to know that such non-U.S. holder is a United States person as defined under the Code, or that the conditions of any other exemption are not, in fact, satisfied).

U.S. backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a non-U.S. holder’s U.S. federal income tax liability provided the required information is timely furnished to the IRS.

generally will be treated as U.S. situs property and included in such person's gross estate for U.S. federal estate tax purposes, unless an applicable estate tax treaty provides otherwise, and thus may be subject to U.S. federal estate tax.

Additional Withholding and Reporting Requirements Under FATCA

Subject to certain exceptions, the Foreign Account Tax Compliance Act, or "FATCA," generally imposes a withholding tax of 30% on dividends paid with respect to our common stock, and the gross proceeds from the disposition of our common stock paid, to a "foreign financial institution" (as specifically defined under these rules) after December 31, 2018 (regardless of whether the foreign financial institution holds such common stock for its own account or as an intermediary), unless such institution (i) enters into an agreement with the U.S. government and complies with such agreement or (ii) registers with the Internal Revenue Services and complies with an applicable intergovernmental agreement between the United States and a foreign jurisdiction (an "IGA") or any foreign law implementing an applicable IGA, in either case to, among other things, collect and provide to the United States or other relevant tax authorities certain information regarding U.S. account holders of such institution (which would include certain equity and debt holders of such institution, as well as certain account holders that are foreign entities with U.S. owners). In addition, subject to certain exceptions, FATCA also generally imposes a withholding tax of 30% on dividends paid with respect to our common stock, and the gross proceeds from the disposition of our common stock paid, to a non-financial foreign entity after December 31, 2018, unless such entity provides the withholding agent with a certification that it does not have any substantial U.S. owners or provides information to the withholding agent identifying the substantial U.S. owners of the entity. Under certain circumstances, a non-U.S. holder might be eligible for refunds or credits of such withholding taxes.

Non-U.S. holders are encouraged to consult with their own tax advisors regarding the possible implications of FATCA on their ownership and disposition of our common stock.

CERTAIN ERISA CONSIDERATIONS

The following is a summary of certain considerations associated with the purchase of the offered securities by employee benefit plans that are subject to Title I of the Employee Retirement Income Security Act of 1974, as amended, or ERISA; Keogh plans, individual retirement accounts and other plans or arrangements that are subject to Section 4975 of the Code; persons who are fiduciaries with respect to such plans or arrangements; or provisions under any federal, state, local, non-U.S. or other laws or regulations that are similar to such provisions of the Code or ERISA (collectively referred to as Similar Laws); and entities (including certain insurance company general accounts) whose underlying assets are considered to include “plan assets” (as defined in U.S. Department of Labor regulation 29 C.F.R. Section 2510.3-101, as modified by Section 3(42) of ERISA) by reason of any such plan’s, account’s or arrangement’s investment therein, each referred to as a Plan.

The following summarizes certain aspects of ERISA, the Code, and Similar Laws that may affect a decision by Plans to invest in the offered securities described herein. The following discussion is general in nature and not intended to be a complete discussion of the applicable laws pertaining to a Plan’s decision to invest and is not intended to be legal advice. Fiduciaries of any Plan should consult their own legal counsel before investing in the offered securities described herein.

General Fiduciary Matters

ERISA and the Code impose certain duties on persons who are fiduciaries of a Plan subject to Title I of ERISA or Section 4975 of the Code (referred to as an ERISA Plan) and prohibit certain transactions involving the assets of an ERISA Plan and its fiduciaries or other interested parties. Under ERISA and the Code, any person who exercises any discretionary authority or control over the management or administration of such an ERISA Plan or the management or disposition of the assets of such an ERISA Plan, or who renders investment advice for a fee or other compensation, direct or indirect, to such a Plan, or has any authority or responsibility to do so, is generally considered to be a fiduciary of the ERISA Plan.

In considering an investment in the offered securities of a portion of the assets of any Plan, a fiduciary should determine whether the investment is in accordance with the documents and instruments governing the Plan and the applicable provisions of ERISA, the Code or any Similar Law relating to a fiduciary’s duties to the Plan including, without limitation, the exclusive benefit rule and the prudence, diversification, delegation of control and prohibited transaction provisions of ERISA, the Code and any other applicable Similar Laws. In considering whether an investment in the offered securities is prudent for ERISA purposes, a Plan fiduciary should consider all relevant facts and circumstances, including the limitations imposed on transferability, whether the investment provides sufficient liquidity in light of the foreseeable needs of the Plan, the tax consequences of the investment, and whether the investment is reasonably designed, as part of the Plan’s portfolio, to further the Plan’s purposes, taking into consideration the risk of loss and opportunity for gain association with the offered securities.

Prohibited Transaction Issues

Section 406 of ERISA and Section 4975 of the Code prohibit ERISA Plans from engaging in specified transactions involving “plan assets” with persons who are “parties in interest” under ERISA or “disqualified persons” under the Code with respect to such ERISA Plans, unless an exemption is available under applicable law or issued by the U.S.

Department of Labor, or DOL. A violation of these prohibited transaction rules may result in an excise tax or other liabilities under ERISA and/or Section 4975 of the Code for such parties in interest, disqualified persons, or fiduciaries, unless exemptive relief is available under an applicable statutory or administrative exemption.

The acquisition and/or holding of the offered securities by an ERISA Plan with respect to which the Company or the underwriter is considered a party in interest or a disqualified person may constitute or result in a direct or indirect prohibited transaction under Section 406 of ERISA and/or Section 4975 of the Code, unless the investment is acquired and is held in accordance with an applicable statutory, class or individual prohibited transaction exemption. In this regard, the DOL has issued prohibited transaction class exemptions, or “PTCEs,” that may apply to the acquisition and holding of the offered securities. These class exemptions include, without limitation, PTCE 84-14 respecting transactions determined by

TABLE OF CONTENTS

independent qualified professional asset managers, PTCE 90-1 respecting insurance company pooled separate accounts, PTCE 91-38 respecting bank collective investment funds, PTCE 95-60 respecting life insurance company general accounts and PTCE 96-23 respecting transactions determined by in-house asset managers. In addition, Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code provide relief from the prohibited transaction provisions of ERISA and Section 4975 of the Code for certain transactions, provided that neither the issuer of the securities nor any of its affiliates (directly or indirectly) have or exercise any discretionary authority or control or render any investment advice with respect to the assets of any ERISA Plan involved in the transaction and provided further that the ERISA Plan pays no more, and receives no less, than adequate consideration in connection with the transaction. There can be no assurance that all of the conditions of any such exemptions will be satisfied or that these statutory or class exemptions will be available with respect to a transaction involving the offered securities or with respect to any particular Plan.

A fiduciary of any such Plan, account, or arrangement must determine that the purchase and holding of an interest in the offered securities is consistent with its fiduciary duties and will not constitute or result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code, or a violation under any applicable Similar Laws. The offered securities should not be purchased or held by any person investing “plan assets” of any Plan, unless such purchase and holding will not constitute or result in (i) a non-exempt prohibited transaction under ERISA and the Code or similar violation of any applicable Similar Laws, (ii) an impermissible or imprudent investment, or (iii) a breach of fiduciary duty or applicable law. Each purchaser or holder of the offered securities will have exclusive responsibility for ensuring that its purchase, holding, and subsequent disposition of the offered securities does not violate ERISA, the Code, or any Similar Law. Nothing herein shall be construed as a representation that an investment in the offered securities would meet any or all of the relevant legal requirements with respect to investments by, or that investment in the offered securities is appropriate for, ERISA Plans or other plans and arrangements.

UNDERWRITING

Subject to the terms and conditions set forth in the underwriting agreement between us and Keefe, Bruyette & Woods, Inc., as underwriter, we have agreed to sell to the underwriter, and the underwriter has agreed to purchase from us, 1,900,000 shares of common stock.

The underwriting agreement provides that the underwriter’s obligation to purchase our common stock depends on the satisfaction of the conditions contained in the underwriting agreement, including:

- the representations and warranties made by us to the underwriter are true;
- there is no material adverse change in the financial markets; and
- we deliver customary closing documents and legal opinions to the underwriter.

Subject to these conditions, the underwriter is committed to purchase and pay for all shares of common stock offered by this prospectus supplement, if any such shares of our common stock are purchased. The underwriter is not, however, obligated to purchase or pay for the shares of our common stock covered by the underwriter’s option to purchase additional shares described below, unless and until they exercise this option.

The common stock is being offered by the underwriter, subject to prior sale, when, as and if issued to and accepted by it, subject to approval of certain legal matters by counsel for the underwriter and other conditions. The underwriter reserves the right to withdraw, cancel or modify this offering and to reject orders in whole or in part.

Offering Price

We have been advised that the underwriter proposes to offer our common stock to the public at the offering price set forth on the cover page of this prospectus supplement and to certain selected dealers at this price, less a concession not in excess of \$0.9855 per share. The underwriter may allow, and any selected dealers may reallow, a concession not to exceed \$0.10 per share to certain brokers and dealers. After our common stock is released for sale to the public, the offering price and other selling terms may from time to time be changed by the underwriter.

Listing

Our common stock is listed on the NASDAQ Global Select Market under the trading symbol “SBSI.”

Electronic Prospectus Delivery

A prospectus supplement in electronic format may be made available on the websites maintained by the underwriter or any selling group member. In connection with this offering, the underwriter, any selling group member or securities dealers may distribute prospectuses electronically. The underwriter may agree to allocate a number of shares of our common stock to selling group members, if any, for sale to their online brokerage account holders. The underwriter will allocate shares of our common stock to any selling group member that may make Internet distributions on the same basis as other allocations. Other than this prospectus supplement in electronic format, the information on any of these websites and any other information contained on a website maintained by the underwriter or any selling group member is not part of this prospectus supplement.

Underwriting Discount and Offering Expenses

The table below shows the per share and total underwriting discount that we will pay to the underwriter. These amounts are shown reflecting no exercise and full exercise of the underwriter’s option to purchase additional shares.

	Per Share	No Exercise	Full Exercise
Public offering price	\$ 36.5000	\$ 69,350,000.00	\$ 79,752,500.00
Underwriting discount	\$ 1.6425	\$ 3,120,750.00	\$ 3,588,862.50
Proceeds, before expenses, to us	\$ 34.8575	\$ 66,229,250.00	\$ 76,163,637.50

TABLE OF CONTENTS

We estimate that our share of the total offering expenses, excluding the underwriting discount, will be approximately \$250,000. We have agreed to reimburse the underwriter for all expenses in connection with any blue sky surveys and filings and the costs associated with creating and maintaining a “net roadshow” presentation for investors.

Underwriter’s Option to Purchase Additional Shares

We have granted to the underwriter a 30-day option to purchase additional shares, from the date of the pricing of this offering, to purchase up to an aggregate of 285,000 shares of our common stock at the public offering price, less the underwriting discount set forth above.

Indemnification and Contribution

We have agreed to indemnify the underwriter and persons who control the underwriter against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the underwriter may be required to make for these liabilities.

Lock-Up Agreements

We, our directors and certain of our officers have agreed that for a period of 90 days from the date of this prospectus supplement (subject to possible extension), neither we nor any of our executive officers or directors will, without the prior written consent of the underwriter, sell, offer to sell or otherwise dispose of or hedge any of our common stock or any securities convertible into or exercisable or exchangeable for our common stock. These lock-up agreements contain exceptions, including for certain gifts, estate planning transactions and transfers of shares to us in connection with the exchange or transfer of shares in satisfaction or payment of the exercise price of stock options, or to satisfy tax withholding obligations in connection with the exercise or vesting of options, restricted stock units or other stock-based awards granted under our incentive plan. The underwriter, in its sole discretion, may release the securities subject to these lock-up agreements at any time without notice.

Price Stabilization and Short Positions

In connection with this offering, the underwriter and any selling group member may engage in activities that stabilize, maintain or otherwise affect the price of our common stock, including:

- stabilizing transactions;
- short sales; and
- purchases to cover positions created by short sales.

Stabilizing transactions consist of bids or purchases made for the purpose of preventing or retarding a decline in the market price of our common stock while this offering is in progress. These transactions may also include making short sales of our common stock, which involve the sale by the underwriter or any selling group member of a greater number of shares of common stock than they are required to purchase in this offering. Short sales may be “covered short sales,” which are short positions in an amount not greater than the underwriter’s option to purchase additional shares referred to above, or may be “naked short sales,” which are short positions in excess of that amount.

The underwriter may close out any covered short position either by exercising its option to purchase additional shares, in whole or in part, or by purchasing shares in the open market. In making this determination, the underwriter and any selling group member will consider, among other things, the price of shares available for purchase in the open market compared to the price at which they may purchase shares through the option to purchase additional shares. The underwriter and any selling group member must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriter or any selling group member is concerned that there may be downward pressure on the price of the common stock in the open market that could adversely affect investors who purchased in this offering.

TABLE OF CONTENTS

As a result of these activities, the price of our common stock may be higher than the price that otherwise might exist in the open market. If these activities are commenced, the underwriter or any selling group member may discontinue them at any time. The underwriter and any selling group member may carry out these transactions on the NASDAQ Global Select Market, in the over-the-counter market or otherwise.

Passive Market Marketing

In connection with this offering, the underwriter, any selling group member and selected dealers may engage in passive market making transactions in our common stock on the NASDAQ Global Select Market in accordance with Rule 103 of Regulation M under the Exchange Act during a period before the commencement of offers or sales of common stock and extending through the completion of the distribution of this offering. A passive market maker must display its bid at a price not in excess of the highest independent bid of that security. However, if all independent bids are lowered below the passive market maker's bid that bid must then be lowered when specified purchase limits are exceeded. Passive market making may cause the price of our common stock to be higher than the price that otherwise would exist in the open market in the absence of those transactions. The underwriter, any selling group member and selected dealers are not required to engage in a passive market making and may end passive market making activities at any time.

Affiliations

The underwriter and its affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment advisory, investment research, principal investment, hedging, financing, loan referrals, valuation and brokerage activities. From time to time, the underwriter and/or its affiliates have directly and indirectly engaged, and may in the future engage, in various financial advisory, investment banking loan referrals and commercial banking services with us and our affiliates, for which they received or paid, or may receive or pay, customary compensation, fees and expense reimbursement. In the ordinary course of their various business activities, the underwriter and its affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and those investment and securities activities may involve securities and/or instruments of ours. The underwriter and its affiliates may also make investment recommendations and/or publish or express independent research views in respect of those securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in those securities and instruments.

The underwriter served as our financial advisor in connection with our acquisition of OmniAmerican Bancorp, Inc., which closed in December 2014.

Other Considerations

It is expected that delivery of the common stock will be made against payment therefor on or about the date specified on the cover page of this prospectus supplement. Under Rule 15c6-1 promulgated under the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise.

Selling Restrictions

European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "Relevant Member State"), the underwriter has represented and agreed that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "Relevant Implementation Date") it has not made and will not make an offer of shares to the public in that Relevant Member State prior to the publication of a prospectus in relation to the shares of common stock offered hereby which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to

the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive, except that it may, with effect from and including the Relevant Implementation Date, make an offer of shares to the public in that Relevant Member State at any time:

- to legal entities which are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;
- to any legal entity which has two or more of (i) an average of at least 250 employees during the last financial year, (ii) a total balance sheet of more than €43,000,000 and (iii) an annual net turnover of more than €50,000,000, as shown in its last annual or consolidated accounts;
- to fewer than 100 natural or legal persons (other than qualified investors, as defined in the Prospectus Directive); or
- in any other circumstances which do not require the publication by us of a prospectus pursuant to Article 3 of the Prospectus Directive.

These services include consumer and commercial loans, deposit accounts, trust services, safe deposit services and brokerage services.

Our consumer loan services include 1-4 family residential loans, home equity loans, home improvement loans, automobile loans and other installment loans. Commercial loan services include short-term working capital loans for inventory and accounts receivable, short and medium-term loans for equipment or other business capital expansion, commercial real estate loans and municipal loans. 	Six Months Ended June 30, 2016	Year Ended December 31,				
		2015	2014	2013	2012	2011

TABLE OF CONTENTS

DESCRIPTION OF CAPITAL STOCK

The following descriptions are summaries of the material terms of our Restated Certificate of Formation and Amended and Restated Bylaws and include all material information with respect to our capital stock. Reference is made to the more detailed provisions of the Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws, copies of which will be filed with the SEC as exhibits to the registration statement of which this prospectus is a part, and applicable law. See “Where You Can Find More Information.”

General

Our Restated Certificate of Formation authorizes us to issue up to 40,000,000 shares of common stock, par value \$1.25 per share.

As of September 7, 2016, there were 26,276,812 shares of common stock outstanding, approximately 796,000 shares issuable upon exercise of outstanding stock options and approximately 72,000 shares issuable upon the vesting of restricted stock units.

Common Stock

Voting Rights

Each holder of shares of Southside common stock is entitled to one vote for each share held on all questions submitted to a vote at a meeting of shareholders. Holders of shares of Southside common stock do not have cumulative voting rights in the election of directors.

Election of our directors requires the approval by a plurality of the votes cast by the holders of shares entitled to vote in the election of directors at a shareholder meeting at which a quorum is present. Other matters (other than the election of directors or a matter for which the affirmative vote of the holders of a specified portion of the shares entitled to vote is required by Texas law or the restated certificate of formation) require approval by the affirmative vote of the holders of a majority of the shares entitled to vote on, and voted for or against, or expressly abstained from voting with respect to, the matter at a shareholder meeting at which a quorum is present.

Our restated certificate of formation provides for the election of directors to three classes, as nearly equal in number as possible, to hold office for staggered terms. Directors elected to each class shall hold office until the expiration of the three-year term applicable to the class of directorship to which the respective director is elected and until their successors are elected and qualified, or they shall hold office until death or retirement or until resignation or removal in the manner provided in our amended and restated bylaws. This helps ensure the continuity of our board of directors and effectively makes it more difficult for potential acquirers of Southside to acquire control of us through control of our board of directors.

Dividends

Our board of directors may declare, at its discretion, dividends payable in cash, property or shares of Southside, subject to our restated certificate of formation and to the extent permitted by applicable law.

Liquidation

Subject to the prior rights of our creditors, in the event of our liquidation, dissolution or winding up, holders of our common stock will be entitled to share ratably in the net assets legally available for distribution to shareholders.

Preemptive Rights

Holders of shares of our common stock do not have preemptive rights. Preemptive rights are the priority right to buy additional shares if we issue more shares in the future. Therefore, if additional shares are issued by us without the opportunity for existing shareholders to purchase more shares, a shareholder’s ownership interest in us may be subject to dilution.

Shareholder Meetings

Our Amended and Restated Bylaws provide that special meetings of the shareholders may be called by our President and shall be called by our President or Secretary at the request in writing of a majority of our board of directors, or at the request in writing of Southside shareholders owning not less than 10% of all the shares entitled to vote at the meeting. A request for a special meeting must state the purpose of the proposed meeting. Business transacted at a special meeting shall be limited to the purposes stated in the notice of such meeting.

Action by Shareholders without a Meeting

The TBOC permits shareholder action by unanimous written consent. Our Amended and Restated Bylaws provide that shareholders have the authority to take any action by unanimous written consent.

No Cumulative Voting

The TBOC provides that a corporation may limit or prohibit a shareholder’s right to cumulate votes in the election of directors pursuant to its certificate of formation. Our Restated Certificate of Formation prohibits cumulative voting in the election of directors.

Director Removal

Our Bylaws provide that any or all of our directors may be removed from office, for cause only, by a majority shareholder vote.

Classified Board and Term of Directors

Our Restated Certificate of Formation provides for the election of directors to three classes, as nearly equal in number as possible, to hold office for staggered terms. Directors elected to each class shall hold office until the expiration of the three-year term applicable to the class of directorship to which the respective director is elected and until their successors are elected and qualified, or they shall hold office until death or retirement or until resignation or removal in the manner provided in our Amended and Restated Bylaws.

Requirements for Advance Notification of Shareholder Nominations and Proposals

Our Amended and Restated Bylaws set forth advance notice procedures with respect to shareholder proposals and the nomination of candidates for election as directors, other than nominations made by or at the direction of our Board of Directors or its committees.

Texas Business Combination Statute

We are subject to the affiliated business combinations provisions of Chapter 21, Subchapter M of the TBOC (Sections 21.601 through 21.610), which provide that a Texas corporation may not engage in certain business combinations, including mergers, share exchanges and asset sales, with a person, or an affiliate or associate of such person, who is an “Affiliated Shareholder” (generally defined as the holder of 20% or more of the corporation’s voting shares) for a period of three years from the date such person became an Affiliated Shareholder unless: (1) the business combination or purchase or acquisition of shares made by

TABLE OF CONTENTS

the Affiliated Shareholder was approved by the board of directors of the corporation before the Affiliated Shareholder became an Affiliated Shareholder or (2) the business combination was approved by the affirmative vote of the holders of at least two-thirds of the outstanding voting shares of the corporation not beneficially owned by the Affiliated Shareholder or an affiliate or associate of the Affiliated Shareholder, at a meeting of shareholders called for that purpose (and not by written consent), not less than six months after the Affiliated Shareholder became an Affiliated Shareholder.

Neither our Restated Certificate of Formation nor our Amended and Restated Bylaws contain any provision expressly providing that we will not be subject to the affiliated business combinations provisions of the TBOC. The affiliated business combinations provisions of the TBOC may have the effect of inhibiting a non-negotiated merger or other business combination involving Southside, even if such event(s) would be beneficial to our shareholders.

Limitations on Liability and Indemnification of Directors and Officers

Our Restated Certificate of Formation limits the liability of our directors to the fullest extent permitted by Texas statutory or decisional law. The TBOC currently prohibits the elimination of personal liability for (1) a breach of the director's duty of loyalty, (2) acts or omissions not in good faith that (a) constitute a breach of the director's duty to the corporation or (b) involve intentional misconduct or a knowing violation of law, (3) any transaction from which the director derived an improper personal benefit, or (4) acts or omissions for which the liability of a director is expressly provided by an applicable statute.

TABLE OF CONTENTS

DESCRIPTION OF WARRANTS

This section describes the general terms and provisions of the warrants that we may offer by this prospectus. The applicable prospectus supplement will describe the specific terms of the warrants then offered, and the terms and provisions described in this section will apply only to the extent not superseded by the terms of the applicable prospectus supplement.

We may issue warrants for the purchase of common stock, debt securities, other securities or any combination of these securities. Securities warrants may be issued independently or together with any other securities offered by this prospectus and any accompanying prospectus supplement and may be attached to or separate from such other securities. Each issuance of the warrants will be issued under a separate securities warrant agreement to be entered into by us and a bank or trust company, as securities warrant agent, all as set forth in the prospectus supplement relating to the particular issue of offered warrants. Each issue of warrants will be evidenced by warrant certificates. The securities warrant agent will act solely as an agent of ours in connection with the securities warrant certificates and will not assume any obligation or relationship of agency or trust for or with any holder of securities warrant certificates or beneficial owners of warrants.

If we offer warrants pursuant to this prospectus in the future, the applicable prospectus supplement will describe the terms of such warrants, including the following, where applicable:

- the offering price at which we will issue the warrants;
- the total number of warrants;
- any applicable anti-dilution provisions to adjust the number of shares to be delivered upon exercise of warrants to purchase common stock;
- the designation and terms of the securities with which the warrants are being offered, if any, the number of the warrants being offered with each security, and the number of shares purchasable upon exercise of the warrants;
- the price at which investors may purchase the underlying securities purchasable upon exercise of the warrants, as well as related adjustment provisions affecting that exercise price;
- the date on and after which the warrants and any related securities will be transferable separately;
- the dates on which the right to exercise the warrants shall commence and expire;
- federal income tax considerations; and
- any other material terms of the warrants.

Prior to the exercise of their warrants, holders of warrants exercisable for debt securities will not have any of the rights of holders of the debt securities purchasable upon the exercise and will not be entitled to payments of principal (or premium, if any) or interest, if any, on the debt securities purchasable upon the exercise. Prior to the exercise of their warrants, holders of warrants exercisable for shares of common stock will not have any rights of holders of the

common stock purchasable upon the exercise and will not be entitled to dividend payments, if any, or voting rights of the common stock purchasable upon the exercise.

TABLE OF CONTENTS

DESCRIPTION OF SENIOR AND SUBORDINATED DEBT SECURITIES

We may offer from time to time debt securities in the form of either senior debt securities or subordinated debt securities. Unless otherwise specified in a prospectus supplement, the debt securities will be our direct, unsecured obligations and will rank equally with all of our other unsecured and unsubordinated indebtedness. We will issue debt securities under one or more separate indentures between us and a trustee to be identified in the applicable prospectus supplement.

The following summary of the general terms and provisions of the indenture is not complete (the text below refers to both indentures as the form of “indenture”). Forms of indentures for senior indebtedness and subordinated indebtedness are included as exhibits to the registration statement of which this prospectus forms a part. The indentures are substantially identical except as described below under “Subordinated Debt Securities” in this section. You should read the indentures for provisions that may be important to you.

When we offer to sell a particular series of debt securities, the prospectus supplement will describe the specific terms of the series, and it will also address whether the general terms and provisions described below apply to the particular series of debt securities. Capitalized terms used in the summary have the meanings specified in the forms of indenture.

General

Unless otherwise provided in a supplemental indenture, our board of directors will set the particular terms of each series of debt securities, which will be described in a prospectus supplement relating to such series. We can issue an unlimited amount of debt securities under the indenture, in one or more series with the same or various maturities, at par, at a premium or at a discount. Among other things, the prospectus supplement relating to a series of debt securities being offered will address the following terms of the debt securities:

- the title of the debt securities;
- the price(s), expressed as a percentage of the principal amount, at which we will sell the debt securities;
- whether the debt securities will be senior or subordinated, and, if subordinated, any such provisions that are different from those described below under “Subordinated Debt Securities;”
- any limit on the aggregate principal amount of the debt securities;
- the date(s) when principal payments are due on the debt securities;
- the interest rate(s) on the debt securities, which may be fixed or variable, per annum or otherwise, and the method used to determine the rate(s), the dates on which interest will begin to accrue and be payable, and any regular record date for the interest payable on any interest payment date;
- the place(s) where principal of, premium and interest on the debt securities will be payable;
- provisions governing redemption of the debt securities, including any redemption or purchase requirements pursuant to any sinking fund or analogous provisions or at the option of a holder of debt securities, and the redemption price and other detailed terms and provisions of such repurchase obligations;
-

the denominations in which the debt securities will be issued, if other than minimum denominations of \$1,000 and any integral multiple in excess thereof;

•

whether the debt securities will be issued in the form of certificated debt securities or global debt securities;

•

the portion of the principal of the debt securities payable upon declaration of acceleration of the maturity date, if other than the entire principal amount;

TABLE OF CONTENTS

- any additional or modified events of default from those described in this prospectus or in the indenture and any change in the acceleration provisions described in this prospectus or in the indenture;

- any additional or modified covenants from those described in this prospectus or in the indenture with respect to the debt securities;

- any depositaries, interest rate calculation agents, exchange rate calculation agents or other agents with respect to the debt securities; and

- any other specific terms of such debt securities.

In addition, we may issue convertible debt securities. Any conversion provisions of a particular series of debt securities will be set forth in the officer's certificate or supplemental indenture related to that series of debt securities and will be described in the relevant prospectus supplement. To the extent applicable, conversion may be mandatory, at the option of the holder or at our option, in which case the number of shares of common or preferred stock to be received upon conversion would be calculated as of a time and in the manner stated in the prospectus supplement. The applicable prospectus supplement will provide an overview of the U.S. federal income tax considerations and other special considerations applicable to any debt securities we offer for sale.

Transfer and Exchange

As described in the applicable prospectus supplement, each debt security will be represented by either a certificate issued in definitive registered form (we will refer to any debt security represented by a certificated security as a "certificated debt security") or one or more global securities registered in the name of a depository, or its nominee (we will refer to any debt security represented by a global debt security as a "book-entry debt security"), in the aggregate principal amount of the series of debt securities. Except as described below under the heading "Global Debt Securities and Book-Entry System," book-entry debt securities will not be certificated.

Certificated Debt Securities

You can transfer certificated debt securities (and the right to receive the principal of, premium and interest thereon) only by surrendering the certificate representing those certificated debt securities. Either we or the trustee will reissue the existing certificate, or issue a new certificate, to the new holder.

You may transfer or exchange certificated debt securities at any office we maintain for this purpose in accordance with the terms of the indenture. There is no service charge, but we may require payment of a sum sufficient to cover any taxes or other governmental charges payable in connection with a transfer or exchange.

Global Debt Securities and Book-Entry System

Each global debt security representing book-entry debt securities will be deposited with, or on behalf of, The Depository Trust Company (which we refer to below as "DTC" or the "depository"), as the depository, and registered in its (or its nominee's) name. DTC is a limited-purpose trust company and a "banking organization" organized under New York law, a member of the Federal Reserve System, a "clearing corporation" within in the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to Section 17A of the Exchange Act. We understand that DTC intends to follow the following procedures with respect to book-entry debt securities.

Ownership of beneficial interests in book-entry debt securities will be limited to "participants" or persons that may hold interests through participants (sometimes called "indirect participants"). A participant is a person having an account with the depository for the related global debt security, typically broker-dealers, banks, trust companies, clearing corporations and certain other organizations. Upon the issuance of a global debt security, the depository will credit the participants' accounts on its book-entry registration and transfer system with the respective principal amounts of the book-entry debt securities owned by such participants; the depository will have no knowledge of the underlying beneficial owners of

TABLE OF CONTENTS

the book-entry debt securities owned by participants. Any dealers, underwriters or agents participating in the distribution of the book-entry debt securities will designate accounts to be credited. Ownership of book-entry debt securities will be shown on, and the transfer of such ownership interests will be effected only through, records maintained by the depository for the related global debt security (with respect to interests of participants) and on the records of participants (with respect to interests of indirect participants). Some states may legally require certain purchasers to take physical delivery of such securities, which may impair your ability to own, transfer or pledge beneficial interests in book-entry debt securities.

So long as DTC (or its nominee) is the registered owner of a global debt security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the book-entry debt securities represented by such global debt security for all purposes under the indenture. This means that, except as described below, beneficial owners of book-entry debt securities will not be entitled to have securities registered in their names or to receive physical delivery of a certificate in definitive form nor will such beneficial owners be considered the owners or holders of those securities under the indenture. Accordingly, to exercise any rights of a holder under the indenture each person beneficially owning book-entry debt securities must rely on DTC's procedures for the related global debt security and, if such person is not a participant, on the procedures of the participant through which such person owns its interest. As a beneficial owner of book-entry debt securities, information regarding your holdings will come through the participant, or indirect participant, through which you own such securities.

Notwithstanding the above, under existing industry practice, the depository may authorize persons on whose behalf it holds a global debt security to exercise certain of a holder's rights. For purposes of obtaining any consents or directions required to be given by holders of the debt securities under the indenture, we, the trustee and our respective agents will treat DTC as the holder of a debt security and/or any persons specified in a written statement of the depository with respect to that global debt security.

All payments of principal of, and premium and interest on, book-entry debt securities will be paid to DTC (or its nominee) as the registered holder of the related global debt security, and any redemption notices will be sent directly to DTC. Neither we, the trustee nor any other agent of ours or agent of the trustee will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in a global debt security or for maintaining, supervising or reviewing any records relating to beneficial ownership interests. We expect DTC, upon receipt of any payment of principal of, premium or interest on a global debt security, to immediately credit participants' accounts with payments ratably according to the respective amounts of book-entry debt securities held by each participant. We also expect that payments by participants to owners of beneficial interests in book-entry debt securities held through those participants will be governed by standing customer instructions and customary practices, similar to those for securities held in "street name."

We will issue certificated debt securities in exchange for each global debt security if the depository at any time cannot or will not continue as depository or ceases to be a clearing agency registered under the Exchange Act, and we fail to appoint a successor depository registered as a clearing agency under the Exchange Act within 90 days. In addition, we may at any time and in our sole discretion decide not to have the book-entry debt securities represented by global debt securities; in that event, we will issue certificated debt securities in exchange for the global debt securities of that series. If an event of default with respect to the book-entry debt securities represented by those global debt securities has occurred and is continuing, holders may exchange global debt securities for certificated debt securities.

We have obtained the foregoing information concerning DTC and its book-entry system from sources we believe to be reliable, but we take no responsibility for the accuracy of this information.

No Protection in the Event of a Change of Control

Unless we state otherwise in the applicable prospectus supplement, the debt securities will not contain any provisions affording holders of the debt securities protection, such as prior consent or acceleration rights, in the event we agree to a change in control or a highly leveraged transaction (whether or not such transaction results in a change in control), which could adversely affect holders of debt securities.

TABLE OF CONTENTS

Covenants

The applicable prospectus supplement will describe any restrictive covenants applicable to any debt securities we offer for sale.

Consolidation, Merger and Sale of Assets

We may not consolidate or merge with, or sell or lease all or substantially all of our properties and assets to, any person, which we refer to as a “successor,” unless:

- we are the surviving corporation or the successor (if not us) is a corporation organized and existing under the laws of any U.S. domestic jurisdiction and expressly assumes our obligations on the debt securities and under the indenture;
- immediately after giving effect to the transaction, no event of default, and no event which after the giving of notice or lapse of time or both, would become an event of default, shall have occurred and be continuing under the indenture; and
- certain other conditions are met.

Events of Default

For any series of debt securities, in addition to any event of default described in the prospectus supplement applicable to that series, an event of default will include the following events:

- default in the payment when due of any interest on any debt security of that series, and continuance of such default for a period of 30 days (unless we deposit the entire amount of such payment with the trustee or with a paying agent prior to the expiration of such 30-day period);
- default in the payment when due of principal of any debt security of that series;
- default in the deposit when due of any sinking fund payment in respect of any debt security of that series;
- default in the performance or breach of any other covenant or warranty in the indenture that applies to such series, which default continues (without such default or breach having been waived in accordance with the provisions of the indenture) for a period of 90 days after we have received written notice of the failure to perform in the manner specified in the indenture; and
- certain events of bankruptcy, insolvency or reorganization involving us.

The applicable prospectus supplement will explain whether or not an event of default with respect to one series of debt securities will constitute a cross-default with respect to any other series of debt securities (except that certain events of bankruptcy, insolvency or reorganization will always constitute cross-defaults).

If an event of default with respect to any outstanding debt securities occurs and is continuing, then the trustee or the holders of 25.0% in aggregate principal amount of the outstanding debt securities of that series may, by written notice to us (and to the trustee if given by the holders), accelerate the payment of the principal (or, if the debt securities of that series are discount securities, that portion of the principal amount as may be specified in the terms of that series) of and accrued and unpaid interest, if any, on all debt securities of that series. Such acceleration is automatic (without any notice required) in the case of an event of default resulting from certain events of bankruptcy, insolvency or

reorganization. Following acceleration, payments on our subordinated debt securities, if any, will be subject to the subordination provisions described below under “Subordinated Debt Securities.” At any time after acceleration with respect to debt securities of any series, but before the trustee has obtained a court judgment or decree for payment of the amounts due, the holders of a majority in principal amount of the outstanding debt securities of that series may rescind and annul the acceleration if all events of default, other than the non-payment of accelerated principal and interest, if any, with respect to debt securities of that series which have become due solely by such declaration of acceleration, have been cured or waived as provided in the

16

TABLE OF CONTENTS

indenture. The prospectus supplement relating to any series of debt securities that are discount securities will contain particular provisions relating to acceleration of a portion of the principal amount of such discount securities upon the occurrence of an event of default.

The indenture provides that the trustee will be under no obligation to exercise any rights or powers under the indenture at the request of any holder of outstanding debt securities unless the trustee is indemnified against any loss, liability or expense. Subject to certain rights of the trustee, the holders of a majority in principal amount of the outstanding debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to the debt securities of that series.

No holder of any debt security may institute any proceeding, judicial or otherwise, with respect to the indenture or for the appointment of a receiver or trustee, or for any remedy under the indenture, unless:

- that holder has previously given to the trustee written notice of a continuing event of default with respect to debt securities of that series; and
- the holders of at least a majority in principal amount of the outstanding debt securities of that series have requested the trustee in writing (and offered reasonable indemnity to the trustee) to institute the proceeding (and have not subsequently given contrary instructions), and the trustee has failed to institute the proceeding within 60 days.

Notwithstanding the foregoing, the holder of any debt security will have an absolute and unconditional right to receive payment of the principal of, premium and any interest on that debt security on or after the due dates expressed in that debt security and to institute suit for the enforcement of payment.

Under the indenture we must furnish the trustee a statement as to compliance with the indenture within 120 days after the end of our fiscal year. The indenture provides that, other than with respect to payment defaults, the trustee may withhold notice to the holders of debt securities of any series of a default or event of default if it in good faith determines that withholding notice is in the interests of the holders of those debt securities.

Modification and Waiver

We may amend or supplement the indenture or a series of debt securities if the holders of at least a majority in principal amount of the outstanding debt securities of each series affected by the modifications or amendments consent thereto. We may not make any amendment or waiver without the consent of the specific holder of an affected debt security then outstanding if that amendment or waiver will:

- reduce the amount of debt securities whose holders must consent to an amendment, supplement or waiver;
- reduce the rate of, or extend the time for payment of, interest (including default interest) on any debt security;
- reduce the principal or change the stated maturity of any debt security or reduce the amount of, or postpone the date fixed for, the payment of any sinking fund or analogous obligation;
- reduce the principal amount of discount securities payable upon acceleration of maturity;
- waive a default or event of default in the payment of the principal of or interest, if any, on any debt security (except a rescission of acceleration by the holders of at least a majority in aggregate principal amount of the then outstanding debt securities of that series and a waiver of the payment default that resulted from such acceleration);

- make the principal of or interest, if any, on any debt security payable in any currency other than that stated in the debt security;
- make any change to certain provisions of the indenture relating to, among other things, holders' rights to receive payment of the principal of, premium and interest on those debt securities and to institute suit for the enforcement of any such payment and to waivers or amendments; or

TABLE OF CONTENTS

•
waive a redemption payment with respect to any debt security.

Except for certain specified provisions, the holders of at least a majority in principal amount of the outstanding debt securities of any series may on behalf of all holders waive our compliance with provisions of the indenture. The holders of a majority in principal amount of the outstanding debt securities of any series may on behalf of all holders waive any past default under the indenture with respect to that series and its consequences, except a payment default or a default of a covenant or provision which cannot be modified or amended without the consent of the holder of each outstanding debt security of the series affected; provided, however, that the holders of a majority in principal amount of the outstanding debt securities of any series may rescind an acceleration and its consequences, including any related payment default that resulted from such acceleration.

Defeasance of Debt Securities and Certain Covenants in Certain Circumstances

Legal Defeasance

We may deposit with the trustee, in trust, cash or U.S. government securities in an amount that, which through the payment of interest and principal in accordance with their terms, will provide, not later than one day before the due date of any payment of money, an amount in cash, which is sufficient in the opinion of our independent public accountants to make all payments of principal and interest on, and any mandatory sinking fund payments in respect of, the debt securities of that series on the due dates for such payments in accordance with the terms of the indenture and those debt securities. If we make such a deposit, unless otherwise provided under the applicable series of debt securities, we will be discharged from any and all obligations in respect of the debt securities of such series (except for obligations relating to the transfer or exchange of debt securities and the replacement of stolen, lost or mutilated debt securities and relating to maintaining paying agencies and the treatment of funds held by paying agents and certain rights of the trustee and our obligations with respect thereto). However, this discharge may occur only if, among other things, we have delivered to the trustee a legal opinion stating that we have received from, or there has been published by, the U.S. Internal Revenue Service a ruling or, since the date of execution of the indenture, there has been a change in the applicable U.S. federal income tax law, in either case to the effect that, and, based thereon confirming that, the holders of the debt securities of that series will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the deposit, defeasance and discharge and will be subject to U.S. federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the deposit, defeasance and discharge had not occurred.

Defeasance of Certain Covenants

Under the indenture (and unless otherwise provided by the terms of the applicable series of debt securities), upon making the deposit and delivering the legal opinion described in “Legal Defeasance” above, we will not need to comply with the covenants described under the heading “Consolidation, Merger and Sale of Assets” and certain other covenants set forth in the indenture, as well as any additional covenants that may be set forth in the applicable prospectus supplement, and any such noncompliance will not constitute a default or an event of default with respect to the debt securities of that series, or covenant defeasance.

Covenant Defeasance and Events of Default

If we exercise our option to effect covenant defeasance with respect to any series of debt securities and the debt securities of that series are declared due and payable because of the occurrence of any event of default, the amounts on deposit with the trustee will be sufficient to pay amounts due on the debt securities of that series at the time of their stated maturity but may not be sufficient to pay amounts due on the debt securities of that series at the time of the acceleration resulting from the event of default. We will remain liable for those payments.

The Trustee

The indentures limit the right of the trustee, should it become a creditor of us, to obtain payment of claims or secure its claims. The trustee is permitted to engage in certain other transactions. However, if the trustee acquires any conflicting interest, and there is a default under the debt securities of any series for which it is trustee, the trustee must eliminate the conflict or resign.

TABLE OF CONTENTS

Subordinated Debt Securities

The indenture will govern the extent to which payment on any subordinated debt securities will be subordinated to the prior payment in full of all of our senior indebtedness. The subordinated debt securities also are effectively subordinated to all debt and other liabilities, including trade payables and lease obligations, if any, of our subsidiaries. Upon any distribution of our assets upon any dissolution, winding up, liquidation or reorganization, the payment of principal and interest on subordinated debt securities will be subordinated to the prior payment in full of all senior indebtedness in cash or other payment satisfactory to the holders of such senior indebtedness. If subordinated debt securities are accelerated because of an event of default, the holders of any senior indebtedness would be entitled to payment in full in cash or other payment satisfactory to such holders of all senior indebtedness obligations before the holders of the subordinated debt securities are entitled to receive any payment or distribution. The indenture requires us or the trustee to promptly notify holders of designated senior indebtedness of any acceleration of payment of the subordinated debt securities.

We may not make any payment on the subordinated debt securities, including upon redemption (whether at the holder's or our option) if:

- a default in the payment of the principal, premium, if any, interest, rent or other obligations in respect of any senior indebtedness occurs and is continuing beyond any applicable grace period (called a "payment default"); or
- a default (other than a payment default) with respect to designated senior indebtedness occurs and is continuing that permits holders of designated senior indebtedness to accelerate its maturity, and the trustee receives a notice of such default (called a "payment blockage notice") from us or any other person permitted to give such notice under the indenture (called a "non-payment default").

We may resume payments and distributions on the subordinated debt securities, in the case of a payment default, upon the date on which such default is cured or waived or ceases to exist; and, in the case of a non-payment default, the earlier of the date on which such nonpayment default is cured or waived and 179 days after the date on which the payment blockage notice is received, if the maturity of the designated senior indebtedness has not been accelerated, unless the indenture otherwise prohibits such payment or distribution at the time of such payment or distribution.

No new payment blockage notice may be given unless and until 365 days have elapsed since the initial effectiveness of the immediately prior payment blockage notice and all scheduled payments, premium, if any, and interest on the debt securities that have come due have been paid in full in cash. A non-payment default existing or continuing on the date of delivery of any payment blockage notice cannot be the basis for any later payment blockage notice.

If the trustee or any holder of the notes receives any payment or distribution of our assets in contravention of the foregoing subordination provisions, then such payment or distribution will be held in trust for the benefit of holders of senior indebtedness or their representatives to the extent necessary to make payment in full in cash or payment satisfactory to the holders of senior indebtedness of all unpaid senior indebtedness.

In the event of our bankruptcy, dissolution or reorganization, holders of senior indebtedness may receive more, ratably, and holders of the subordinated debt securities may receive less, ratably, than our other creditors (including our trade creditors). This subordination will not prevent the occurrence of any event of default under the indenture. The indenture does not prohibit us from incurring debt, including senior indebtedness. We may from time to time incur additional debt, including senior indebtedness.

We are obligated to pay reasonable compensation to the trustee, reimburse the trustee for reasonable expenses and to indemnify the trustee against certain losses, liabilities or expenses it incurs in connection with its duties relating to the subordinated debt securities. The trustee's claims for these payments will generally be senior to those of noteholders in respect of all funds collected or held by the trustee and will not be subject to subordination.

- our indebtedness to any of our majority-owned subsidiaries.

Governing Law

Unless otherwise set forth in the prospectus supplement applicable to the particular series of debt securities, the indenture and the debt securities will be governed by, and construed in accordance with, the laws of the State of New York.

- currencies; or
- commodities.

Each purchase contract will entitle the holder thereof to purchase or sell, and obligate us to sell or purchase, on specified dates, such securities, currencies or commodities at a specified purchase price, which may be based on a formula, all as set forth in the applicable prospectus supplement. We may, however, satisfy our obligations, if any, with respect to any purchase contract by delivering the cash value of such purchase contract or the cash value of the property otherwise deliverable or, in the case of purchase contracts on underlying currencies, by delivering the underlying currencies, as set forth in the applicable prospectus supplement. The applicable prospectus supplement will also specify the methods by which the holders may purchase or sell such securities, currencies or commodities and any acceleration, cancellation or termination provisions or other provisions relating to the settlement of a purchase contract.

The purchase contracts may require us to make periodic payments to the holders thereof or vice versa, which payments may be deferred to the extent set forth in the applicable prospectus supplement.

DESCRIPTION OF UNITS

We may issue units consisting of one or more of the other securities that may be offered under this prospectus, in any combination. Units may also include debt obligations of a third party. These units may be issuable as, and for a specified period of time may be transferable only as, a single security, rather than as the separate constituent securities comprising such units. The statements made in this section relating to the units are summaries only and are not complete. When we issue units, we will provide the specific terms of the units in a prospectus supplement. To the extent the information contained in the prospectus supplement differs from this summary description, you should rely on the information in the prospectus supplement.

When we issue units, we will provide in a prospectus supplement the following terms of the units being issued when applicable:

- the title of any series of units;
- identification and description of the separate constituent securities comprising the units;
- the price or prices at which the units will be issued;
- the date, if any, on and after which the constituent securities comprising the units will be separately transferable;
- information with respect to any book-entry procedures;
-

and

- any other material terms of the units and their constituent securities.

TABLE OF CONTENTS

SELLING SHAREHOLDERS

Selling shareholders are persons or entities that, directly or indirectly, have acquired or will from time to time acquire from us shares of our common stock in various private transactions. Such selling shareholders may be parties to registration rights agreements with us, or we otherwise may have agreed or will agree to register their securities for resale. The initial purchasers of our securities, as well as their transferees, pledgees, donees or successors, all of whom we refer to as “selling shareholders,” may from time to time offer and sell shares of our common stock pursuant to this prospectus and any applicable prospectus supplement.

We are a well-known seasoned issuer, as defined in Rule 405 of the Securities Act, which allows us to register secondary sales of shares of our common stock by any selling shareholder by filing a prospectus supplement with the Commission. We may register these shares to permit selling shareholders to resell their shares when they deem appropriate. We will not receive any proceeds from the sale of the securities by the selling shareholders, but in certain cases we may pay fees and expenses relating to the registration or an offering of such securities, such as registration and filing fees, fees and expenses for complying with federal and state securities laws and the rules and regulations of the NASDAQ Global Select Market, and fees and expenses incurred in connection with a listing, if any, of any of the securities on any securities exchange or association.

Selling shareholders may offer for sale all, some portion or none of the securities that they hold. To the extent that any of the selling shareholders are brokers or dealers, they are deemed to be, under interpretations of the SEC, “underwriters” within the meaning of the Securities Act. Selling shareholders may also sell, transfer or otherwise dispose of some or all of their shares of our common stock in transactions exempt from the registration requirements of the Securities Act.

We do not know when or in what amounts the selling shareholders may offer shares for sale under this prospectus and any prospectus supplement. The applicable prospectus supplement will set forth the name of each of the selling shareholders, the number and classes of our securities beneficially owned by such selling shareholders that are offered by such prospectus supplement, the amount to be offered for the shareholder’s account, and the amount and (if one percent or more) the percentage of the class to be owned by such shareholder after completion of the offering. The applicable prospectus supplement will also disclose whether any of the selling shareholders has held any position or office with, has been employed by or otherwise has had a material relationship with us during the three years prior to the date of the prospectus supplement.

PLAN OF DISTRIBUTION

We and/or any selling shareholders may sell the securities offered by this prospectus from time to time in one or more transactions, including without limitation:

- directly to a limited number of purchasers or to a single purchaser;
- through agents;
- to or through underwriters, brokers or dealers; or
- through a combination of these methods.

In addition, we may enter into option, share lending or other types of transactions that require us to deliver shares of common stock to an underwriter, broker or dealer, who will then resell or transfer the shares of common stock under this prospectus. We may also enter into hedging transactions with respect to the securities offered by this prospectus, or we may also distribute such securities through the issuance of derivative securities, including without limitation, warrants, exchangeable securities, forward delivery contracts and the writing of options.

We may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third party may use securities pledged by us or borrowed from us or others to settle those sales or to close out any related open borrowings of stock, and may use securities received from us in settlement of those derivatives to close out any related open borrowings of stock. The third party in such sale transactions will be an underwriter and, if not identified in this prospectus, will be identified in the applicable prospectus supplement (or a post-effective amendment). In addition, we may otherwise loan or pledge securities to a financial institution or other third party that in turn may sell the securities short using this prospectus. Such financial institution or other third party may transfer its economic short position to investors in our securities or in connection with a concurrent offering of other securities.

Shares of common stock may also be exchanged for satisfaction of the selling shareholders' obligations or other liabilities to their creditors. Such transactions may or may not involve brokers or dealers.

In addition, the manner in which we and/or any selling shareholders may sell some or all of the securities covered by this prospectus includes, without limitation, through:

- a block trade in which a broker-dealer will attempt to sell as agent, but may position or resell a portion of the block, as principal, in order to facilitate the transaction;
- purchases by a broker-dealer, as principal, and resale by the broker-dealer for its account;
- ordinary brokerage transactions and transactions in which a broker solicits purchasers; or
- privately negotiated transactions.

Any selling shareholder will act independently of us in making decisions with respect to the timing, manner and size of each sale of shares of common stock covered by this prospectus.

A prospectus supplement will state the terms of the offering of the securities, including:

- the name or names of any underwriters, dealers, agents or other third parties and the amounts of securities underwritten or purchased by each of them, if any;
- the public offering price or purchase price of the securities and the net proceeds to be received by us and/or the selling shareholders from the sale;
- any delayed delivery arrangements;
- any underwriting discounts or agency fees and other items constituting underwriters' or agents' compensation;
- any discounts or concessions allowed or reallocated or paid to dealers; and

TABLE OF CONTENTS

- any securities exchange on which the securities may be listed.

The offer and sale of the securities described in this prospectus by us, the underwriters, any selling shareholders, or the third parties described above may be effected from time to time in one or more transactions, including privately negotiated transactions, either:

- at a fixed price or prices, which may be changed;

- at market prices prevailing at the time of sale;

- at prices related to the prevailing market prices; or

- at negotiated prices.

Unless otherwise stated in a prospectus supplement, the obligations of the underwriters to purchase any securities will be conditioned on customary closing conditions and the underwriters will be obligated to purchase all of such series of securities, if any are purchased.

We may sell the securities through agents from time to time. The prospectus supplement will name any agent involved in the offer or sale of the securities and any commissions we pay to them. Generally, any agent will be acting on a best efforts basis for the period of its appointment.

We may authorize underwriters, dealers or agents to solicit offers by certain purchasers to purchase the securities from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. The contracts will be subject only to those conditions set forth in the prospectus supplement, and the prospectus supplement will set forth any commissions we pay for solicitation of these contracts.

Underwriters and agents may be entitled under agreements entered into with us, to indemnification by us against certain civil liabilities, including liabilities under the Securities Act, or to contribution with respect to payments which the underwriters or agents may be required to make. Underwriters and agents may be customers of, engage in transactions with, or perform services for us and our affiliates in the ordinary course of business.

The selling shareholders might not sell any shares of common stock under this prospectus. In addition, any shares of common stock covered by this prospectus that qualify for sale pursuant to Rule 144 of the Securities Act may be sold under Rule 144 rather than pursuant to this prospectus. The securities may be sold directly by us or through agents designated by us from time to time. Any agent involved in the offer or sale of the securities in respect of which this prospectus is delivered will be named, and any commissions payable by us to such agent will be set forth in, the prospectus supplement. Unless otherwise indicated in the prospectus supplement, any such agent will be acting on a best efforts basis for the period of its appointment.

Each series of securities will be a new issue of securities and will have no established trading market other than the common stock which is listed on the NASDAQ Global Select Market. Any underwriters to whom securities are sold for public offering and sale may make a market in the securities, but such underwriters will not be obligated to do so and may discontinue any market making at any time without notice. The securities, other than the common stock, may or may not be listed on a national securities exchange.

In compliance with the guidelines of the Financial Industry Regulatory Authority, or FINRA, the aggregate maximum discount, commission, agency fees, or other items constituting underwriting compensation to be received by any FINRA member or independent broker-dealer will not exceed 8% of any offering pursuant to this prospectus and any applicable prospectus supplement; however, we anticipate that the maximum commission or discount to be received in any particular offering of securities will be significantly less than this amount.

If at the time of any offering made under this prospectus a member of FINRA participating in the offering has a “conflict of interest” as defined in FINRA’s Rule 5121, or Rule 5121, that offering will be conducted in accordance with the relevant provisions of Rule 5121.

There can be no assurance that we will sell all or any of the securities offered by this prospectus.
