1.

The Group's business and general information

These Financial Statements have been approved for issuance by the Board of Directors, on November 8, 2017.

IRSA was founded in 1943, and it is engaged in a diversified range of real estate activities in Argentina since 1991.

IRSA and its subsidiaries are collectively referred to hereinafter as "the Group". Cresud is our direct parent company and IFIS Limited is our ultimate parent company. The Group has established two Operations Centers, Argentina and Israel, to manage its global business, mainly through the following companies:

(i)

Remains in current and non-current assets, as financial asset held for sale.

(ii)

Corresponds to Group's associates, which are hence excluded from consolidation.

(iii)

Disclosed in group of assets and liabilities held for sale.

Within the operations center in Israel and in relation with IDBD's financial position, its cash flow and its ability to meet its financial commitments, the following should be taken into consideration:

Since September 2016, after the sale of Adama and the increase in its subsidiaries' market value, IDBD considers that it is possible to obtain new financing or refinance its actual debts. In this regard, IDBD has recently successfully completed issuance of debentures, as mentioned in Note 20 to the Consolidated Financial Statements as of June 30, 2017. Additionally, it has made early repayments of its financial debt and has managed to renegotiate the related financial restrictions.

As mentioned in Note 7 to the Consolidated Financial Statements as of June 30, 2017, DIC declared dividends, out of which IDBD received approximately NIS 271 (equivalent to approximately Ps. 1,219), net of the exercise of warrants mentioned in Note 4.C to the Consolidated Financial Statements as of June 30, 2017.

IRSA Inversiones y Representaciones Sociedad Anónima

In February 2017, Standard & Poor's Maalot (S&P Maalot) upgraded the rating of IDBD debentures, from CCC to BB. Subsequently, in July 2017, S&P Maalot increased the rating again to BBB with stable outlook.

As mentioned in Note 14 to the Consolidated Financial Statements as of June 30, 2017, IDBD sold part of its stake in Clal and signed a swap agreement for the future sale.

Given the reasons described above, IDBD considers that it has enough resources to continue operating for at least 12 months after the date of these Financial Statements.

It should be noted that the IDBD's Board of Directors has in place a cash flow forecast to June 30, 2019, which assumes that IDBD will receive cash from the realization of private investments directly held by IDBD. As a result, IDBD expects to honor all its liabilities until the second quarter of 2019. Even though consummation of such plans does not depend entirely on factors under its control, IDBD believes it will succeed in finalizing these or other plans.

Based on the foregoing, IDBD's management considers that there are currently no material uncertainties regarding its ability to operate as a going concern, given its current financial position and its ability to fulfil its financial commitments in time and in due form and its capacity to carry out its business plan.

Notwithstanding the foregoing, IDBD should pay financial liabilities for NIS 1,413 (equivalent to approximately Ps. 6,740 as of the closing date of these Financial Statements) in November 2019, that payment would be affected by factors that are out of IDBD control, such as, its ability to carry out its plans to sell its equity interest in Clal considering the scheme determined by the "Capital Market, Insurance and Saving Commission of Israel" ("the Commissioner"), the requirements of the "Act to Promote Competition and Reduce Concentration" ("Concentration Act") and its ability to deal with the implications of the Concentration Act and to comply with the restrictions set out therein regarding the control of companies through a pyramidal structure (Note 7 to the Consolidated Financial Statements as of June 30, 2017), among others.

IDBD expects that the consideration to be received from the sale of Clal pursuant to the Commissioner's scheme, (i.e., the sale in tranches of 5% each every four months) to the extent it is implemented, will be lower and even significantly lower as compared to a block sale of its controlling interest in Clal. However, even if Clal's shares continue to be sold in accordance to the scheme established by the Commissioner, IDBD's management considers that it would as well have additional sources of cash flows available to satisfy its commitments in November 2019. IDBD's management considers that it will be able to address its commitments timely and continue with its operations.

It should be noted that the financial position of IDBD and its subsidiaries at the Operations Center in Israel does not affect the financial position of IRSA and subsidiaries at the Operations Center in Argentina.

In addition, the commitments and other covenants resulting from IDBD's financial debt do not have impact on IRSA since such indebtedness has no recourse against IRSA and it is not granted by IRSA's assets.

Summary of significant accounting policies

2.1.
Basis of preparation of the Financial Statements

a.
Basis of preparation

These Financial Statements have been prepared in accordance with IAS 34 "Interim Financial Reporting", therefore, should be read together with the Annual Financial Statements of the Group as of June 30, 2017 prepared in accordance with IFRS in force. Furthermore, these Financial Statements include supplementary information required by Law N° 19,550 and/or regulations of the CNV. Such information is included in notes to these Financial Statements according to IFRS.

IRSA Inversiones y Representaciones Sociedad Anónima

These Financial Statements corresponding to the interim three-month periods ended September 30, 2017 and 2016 have not been audited. The management considers they include all necessary adjustments to fairly present the results of each period. The Company's interim periods results do not necessarily reflect the proportion of the Group's full-year results.

Under IAS 29 "Financial Reporting in Hyperinflationary Economies", the Financial Statements of an entity whose functional currency belongs to a hyperinflationary economy, regardless of whether they apply historic cost or current cost methods, should be stated at the current unit of measure as of the date of this Consolidated Financial Statements. For such purpose, in general, inflation is to be computed in non-monetary items from the acquisition or revaluation date, as applicable. In order to determine whether an economy is to be considered hyperinflationary, the standard lists a set of factors to be taken into account, including an accumulated inflation rate near or above 100% over a three-year period.

For the Groups' business in Argentina, considering the released inflation data in Argentina and the declining inflation trend in recent years, the Board of Directors is of the view that there is not enough evidence to conclude that Argentina is a hyperinflationary economy. Therefore, no restatement has been applied on financial information, as set forth by IAS 29, for the reporting periods. However, over the last years, certain macroeconomic variables, such as payroll costs and input prices, have experienced significant annual changes, which should be taken into consideration in assessing and interpreting the financial situation and results of operations of the Company in these Financial Statements.

b.

Recast of Financial Statements previously issued due to change in accounting policies

As mentioned in Note 2 to the Consolidated Financial Statements as of June 30, 2017, during the fiscal year ended June 30, 2017 the Group's Board of Directors decided to change the accounting policy for investment property from cost model to fair value model, as permitted under IAS 40. Therefore, the previously issued Interim Financial Statements were retroactively recast as required by IAS 8.

The table below includes the reconciliation between the Statements of Income and the Statements of Comprehensive Income / (operations) for the three-month period ended September 30, 2016 as they were originally issued, and the recast statements included in these Financial Statements for comparative purpose. There is no impact on any of the relevant total sums of the Consolidated Statement of Cash Flows.

2.2.
Significant accounting policies

The accounting policies applied in the presentation of these Financial Statements are consistent with those applied in the preparation of the Consolidated Financial Statements as of June 30, 2017, as described in Note 2 to those Financial Statements

2.3.
Use of estimates

The preparation of Financial Statements at a certain date requires the Management to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these financial statements. In the preparation of these financial statements, the significant judgments made by Management in applying the Group's accounting policies and the main sources of uncertainty were the same applied by the Group in the preparation of the Consolidated Financial Statements as of June 30, 2017 described in Note 3 to those Financial Statements.

2.4.
Comparability of information

Balance items as of June 30, 2017 and September 30, 2016 shown in these Unaudited Condensed Interim Consolidated Financial Statements for comparative purposes arise from financial statements then ended. As explained in Note 2.1.b. certain figures of the originally issued financial statements as of September 30, 2016 have been adjusted to reflect the change of accounting policy related to investment property as determined by the Board of Directors during the fiscal year ended June 30, 2017.

3.
Seasonal effects on operations

Operations Center in Argentina

The operations of the Group's shopping malls are subject to seasonal effects, which affect the level of sales recorded by lessees. During summer time in Argentina (January and February), the lessees of shopping malls experience the lowest sales levels in comparison with the winter holidays (July) and Christmas and year-end holidays celebrated in December, when they tend to record peaks of sales. Apparel stores generally change their collections during the spring and the fall, which impacts positively on shopping malls sales. Sale discounts at the end of each season also affect the business. As a consequence, for shopping mall operations, a higher level of business activity is expected in the period ranging between July and December, compared to the period between January and June.

IRSA Inversiones y Representaciones Sociedad Anónima

Operations Center in Israel

The operations of the Shufersal supermarket chain are subject to fluctuations of quarterly sales and income due to the increase in activity during religious holidays in different quarters throughout the year. For instance, in Pesaj (Passover) sometime between March and April, and Rosh Hashaná (Jewish New Year), sometime between September and October each year.

The results of operations of Cellcom and IDBD Tourism are also usually affected by seasonality in summer months in Israel and by the Jewish New Year, given a higher consumption due to internal and external tourism.

4.

Acquisitions and disposals

Significant acquisitions and disposals for the three-month period ended September 30, 2017 are detailed below. Significant acquisitions and disposals for the fiscal year ended June 30, 2017, are detailed in Note 4 to the Consolidated Financial Statements as of June 30, 2017.

Ispro

In August 2017, PBC's Board of Directors, decided to start a process to examine the potential sale of its interest in Ispro. In this respect, it has received several offers.

Agreement for New Pharm acquisition

As mentioned in Note 4.G to the Consolidated Financial Statements as of June 30, 2017, Shufersal entered into an agreement (the "agreement") for the purchase of the shares of New Pharm Drugstores Ltd. ("New Pharm"), representative of 100% of that Company's share capital. On September 6, 2017, the Antitrust Commission approved the merger between Shufersal and New Pharm subject to certain conditions. On September 28, 2017, the parties signed an Addendum to such agreement whereby they agreed to sell 9 New Pharm stores to a third party and one Shufersal store to another party. The proceeds from the sale of New Pharm stores will be collected by this company before the merger, thus changing the transaction price, albeit not significantly. The deadline for the execution of the sale agreement has been set on November 30, 2017 and the execution date on December 31, 2017.

Tender offer of DIC

As mentioned in Note 7 to the Consolidated Financial Statements as of June 30, 2017, after June 30, 2017, Dolphin Netherlands B.V. made a non-binding tender offer for the acquisition of all DIC shares held by IDBD.

For purposes of the transaction, a committee of independent directors has been set up to assess the tender offer and negotiate the terms and conditions. In response to an inquiry, the Audit Committee has issued an opinion without reservations as to the transaction in accordance with the terms of section 72 et al. of the Capital Markets Law N° 26,831.

In September 2017, IDBD informed that the Company and Dolphin signed a letter of intent. The transaction's completion is dependent upon the execution of the definitive transaction documents (the "Definitive Documents") by the parties on or before November 16, 2017, as well as upon approval of the transaction by the parties' respective Boards of Directors and compliance with additional guarantees until December 10, 2017 (the "Transaction Closing Date"). The

main items of the letter of intent are the following:

12

IRSA Inversiones y Representaciones Sociedad Anónima

The buyer will acquire all of DIC shares held by IDBD at a price of NIS 16.6 per share (equal to approximately Ps. 80 per share as of the date of these Financial Statements).

The buyer will issue a promissory note, maturing five years from the effective transaction date which shall accrue interest at an annual rate of 5.5%. Until the promissory note is fully paid, any dividend payment made by DIC shall be paid through an Israeli bank and will be pledged in favor of the seller.

All DIC shares that are currently securing debt, shall continue to be collateral for that debt, and those shares that are currently unencumbered will be pledged to secure payment of the promissory note.

IDBD is currently analyzing the next steps to continue controlling its subsidiaries in 2019.

Tender offer for Clal

In July 2017, IDBD received a non-binding offer from an international group for the potential acquisition of its entire interest in Clal. For consideration that will be based on the equity value of Clal, in accordance with Clal Financial Statement at the time of specifying the transaction and is subject to the performance of a due diligence and the execution of an agreement, as well as getting the approvals required by law. IDBD is analyzing the offer. On June 30, 2017, this value amounted to NIS 4,880 (equivalent to approximately Ps. 23,278 as of the date of these Financial Statements). There is no certainty that the offer will go forward under the terms offered, or that the transaction will be completed.

5.

Operations Center in Argentina

IRSA CP: On September 5, 2017 Class III and IV NCN were tendered under the Program approved for up to US\$ 500 for a nominal value of US\$ 140 to be matured 36 months after the issuing date, paid in and payable in US Dollars, which will accrue interest at an annual fixed interest rate of 5.0%, interest payable on a quarterly basis. Principal will be amortized in only one installment due on September 14, 2020. The settlement took place on September 12, 2017. The offering of Class III NCN was declared vacant.

Operations Center in Israel

IDBD: In July 2017, IDBD made a public offering of approximately NIS 642.1 nominal value of corporate notes (Series N), the corporate notes accrue interest at a 5% annual rate. Taking into account the issue costs, the net consideration reflects an effective interest rate of 5.3% per year. Principal will be canceled in only one installment due on December 30, 2022 and interest will be payable on a quarterly basis. IDBD is entitled to redeem corporate notes, in whole or in part, through an early redemption in accordance with the provisions of the issue prospectus. To secure full compliance with all commitments, IDBD has pledged around 60.4 million of shares of DIC with a single first lien and in guarantee by means of the lien, in an unlimited amount, in favor of the trustee for the benefit of corporate

note-holders.

DIC: On September 28, 2017 DIC offered the holders of NCN Series F to swap their notes for NCN Series J. NCN Series J terms and conditions differ substantially from those of Series F. Therefore, DIC recorded the payment of NCN Series F and recognized a new financial commitment at fair value for NCN Series J. As a result of the swap, DIC recorded a loss resulting from the difference between the NCN Series F cancellation value and the new debt value in the amount of approximately NIS 461 (equal to approximately Ps. 2,228 as of that date), which was accounted for under "Financial costs" (Note 23).

REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

To the Shareholders, President and Directors of
IRSA Inversiones y Representaciones Sociedad Anónima
Legal address: Bolivar 108 – 1° floor
Autonomous City Buenos Aires
Tax Code No. 30-52532274-9

Introduction

We have reviewed the unaudited condensed interim consolidated financial statements of IRSA Inversiones y Representaciones Sociedad Anónima and its subsidiaries (hereinafter “the Company”) which included the unaudited condensed interim consolidated statement of financial position as of September 30, 2017 and the unaudited condensed interim consolidated statements of income and comprehensive income for the three-month period ended September 30, 2017, the unaudited condensed interim consolidated statements of changes in shareholders’ equity and the unaudited condensed interim consolidated statements of cash flows for the three-month period then ended and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2017 and the interim periods within that fiscal year are an integral part of these financial statements and, therefore, they should be considered in relation to those financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim consolidated financial statements in accordance with the International Financial Reporting Standards (IFRS), adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and added by the National Securities Commission (CNV) to its regulations, as approved by the International Accounting Standard Board (IASB) and , for this reason, is responsible for the preparation and presentation of the unaudited condensed interim consolidated financial statements above mentioned in the first paragraph according to the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34).

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina in Technical Resolution No. 33 of the FACPCE, without modification as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim consolidated financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the consolidated statement of financial position, the consolidated statement of income, the consolidated statement of comprehensive income and consolidated statement of cash flows of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim consolidated financial statements above mentioned in the first paragraph of this report have not been prepared in all material respects in accordance with International Accounting Standard 34.

To the Shareholders, President and Directors of
IRSA Inversiones y Representaciones Sociedad Anónima
Legal address: Bolivar 108 – 1° floor
Autonomous City Buenos Aires
Tax Code No. 30-52532274-9

Introduction

We have reviewed the unaudited condensed interim separate financial statements of IRSA Inversiones y Representaciones Sociedad Anónima (hereinafter “the Company”) which included the unaudited condensed interim separate statement of financial position as of September 30, 2017, and the unaudited condensed interim separate statements of income and comprehensive income for the three-month period ended September 30, 2017, the unaudited condensed interim separate statements of changes in shareholders’ equity and the unaudited condensed interim separate statements of cash flows for the three-month period then ended and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2017 and the interim periods within that fiscal year are an integral part of these financial statements and, therefore, they should be considered in relation to those financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim separate financial statements in accordance with the International Financial Reporting Standards (IFRS), adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and added by the National Securities Commission (CNV) to its regulations, as approved by the International Accounting Standard Board (IASB) and, for this reason, is responsible for the preparation and presentation of the unaudited condensed interim separate financial statements above mentioned in the first paragraph according to the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34).

REVIEW REPORT ON THE UNAUDITED CONDENSED
INTERIM SEPARATE FINANCIAL STATEMENTS (Continued)

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina in Technical Resolution No. 33 of the FACPCE, without modification as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim separate financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the separate statement of financial position, the separate statement of income, the separate statement of comprehensive income and the separate statement of cash flows of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim separate financial statements above mentioned in the first paragraph of this report have not been prepared in all material respects in accordance with International Accounting Standard 34.

During the first three months of fiscal year 2018, revenues from the offices segment increased 20.8% as compared to the same period of 2017, whereas Adjusted EBITDA from this segment reached ARS 104 million, 35.1% higher than in the previous year, mainly due to higher revenues resulting from the depreciation of the Peso vis-à-vis the US dollar during the period, and lower loan loss charges, which offset the smaller leaseable area. Rental prices in USD per sqm increased, reaching USD 26.8 per sqm.

Alto Palermo Expansion

The expansion project of Alto Palermo shopping mall will add a gross leaseable area of approximately 4,000 square meters to the shopping mall with the highest sales per square meter in our portfolio and it consists in moving the food court to a third level by using the area of an adjacent building acquired in 2015. Demolition was completed in FY2017, and the expansion works are estimated to start during this fiscal year 2018.

First Stage of Polo Dot

The project called "Polo Dot", located in the commercial complex adjacent to our Dot Baires shopping mall, has experienced significant growth since our first investments in the area. The total project will consist in 3 office buildings (one of them could include a hotel) in land reserves owned by the Company and the expansion of the shopping mall by approximately 15,000 square meters of gross leaseable area. At a first stage, we are developing an 11-floor office building with an area of approximately 32,000 square meters on an existing building, in respect of which we have already executed lease agreements for almost all the footage. Construction works started in the second quarter of FY2017, and they are estimated to last between 18 and 24 months before the building becomes operational. As of September 30, 2017, degree of progress was 20%. The second stage of the project will include two office/hotel buildings that will add 38,400 square meters of gross leaseable area to the complex. We have seen a significant demand for Premium office spaces in this new commercial hotspot, and we are confident that we will be able to open these buildings with attractive rent levels and high occupancy.

Catalinas Building

The “Catalinas” project is located in one of the most sought-after spots for Premium office development in Argentina. The building to be constructed will have 35,468 square meters of gross leaseable area in 30 office floors and 316 parking spaces. The works’ degree of progress is 5.2%, and the building is expected to become operational in FY2020.

VI. Hotels

For the first three months of fiscal year 2018, revenues from the hotel segment grew 23.7%, mainly due to the increase in the average rate per room and a 3.1 pp rise in the occupancy rate, which reached 68.4% in IQ18. However this segment’s EBITDA totaled ARS 2 million during the quarter under review.

XVII. Brief comment on prospects for the next period

Our businesses in the operations center in Argentina and Israel have posted sound operating results in the first quarter of fiscal year 2018. We believe that the diversification of our business, with real estate assets in Argentina and abroad, favorably positions us to face all the challenges and opportunities that may arise in the coming years.

As concerns our operations center in Argentina, our subsidiary IRSA Propiedades Comerciales S.A. continues to consolidate itself as the leading commercial real estate company in Argentina, as its main shopping mall and office businesses keep recording positive growth levels. Our tenants' sales recovered slightly from the figures recorded at year-end, occupancy remains significantly high and the public keeps choosing each of our proposals; besides, top-notch domestic and international corporations continue to select our office spaces.

In the next fiscal year, we plan to make progress in the commercial developments already launched, including the 4,000 sqm expansion of our Alto Palermo shopping mall, the development of the 32,000 sqm office building in the commercial complex adjoining our Dot Baires shopping mall, and the "Catalinas" building in Buenos Aires. In addition, in fiscal year 2018 we expect to carry out expansion works in some of our shopping malls for approximately 21,000 of GLA. We will build 2,200 sqm to add 6 cinema screens in Alto Comahue, a large store of 3,000 sqm in Alto Rosario shopping mall, and a 12,700 sqm Sodimac store in Mendoza Plaza Shopping, and we will expand Alto Avellaneda, our shopping mall located in the southern region of Buenos Aires, by 3,500 sqm. In addition, we will continue working on optimizing the performance of our current properties through improvements that allow us to take best advantage of their GLA potential and to furnish them with increased functionality and appeal for the benefit of consumers and tenants alike.

We will continue to promote marketing actions, events and targeted promotions at our shopping malls to attract consumers, through the joint endeavors of the Company, the retailers and the credit card issuer banks, as these actions have proved to be highly effective and are welcomed by the public.

We are optimistic about the opportunities that may arise in Argentina for fiscal year 2018. We have a large reserve of lands for future shopping mall and office development projects in an industry scenario with high growth potential.

As concerns our investments outside Argentina, we will continue working in the improvement of the operating ratios of our “Lipstick” building in New York and backing the new strategy of selectively selling low-class hotels and replacing them with higher-class hotels, that is being developed by the “Condor Hospitality Trust” hotel REIT (NASDAQ: CDOR), which made a capital increase in March this year and in which we hold 28.5% of its capital stock and voting rights.

Regarding our investment in the Israeli company IDBD, we are much pleased with the results obtained in the past fiscal year, following the sale of the agrochemical company ADAMA, the improvement in the listing price of Clal Insurance company, which is recorded at fair value, and the recent debt issues made by different companies, which refinanced short-term debt at very attractive rates. In 2018, we will continue to work towards deleveraging the company, selling non-strategic assets in its portfolio and improving the operating margins of each of its operating subsidiaries.

Taking into account the quality of the real estate assets in our portfolio, the Company's financial position and low indebtedness level and its franchise for accessing the capital markets, we remain confident that we will continue consolidating the best real estate portfolio in Argentina and Israel. Moreover, in line with our continuous pursuit of business opportunities and having in mind the general and specific conditions of the national and international markets, we keep evaluating different actions to optimize our capital structure. As concerns our operations center in Argentina, to keep increasing the liquidity of our controlled company IRSA Propiedades Comerciales S.A., the Company could make additional sales of the shares held by it in such company, in one or more tranches, in the over-the-counter market or through a private sale, as agreed by the Company's shareholders in due course. As concerns our operations center in Israel, in this fiscal year the Company will analyze the possibility of increasing its interest in IDB Development Corporation Ltd. through the purchase of shares held by its related parties.
