PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights selected information about our company, this offering and information appearing elsewhere in this prospectus supplement, in the accompanying prospectus, in the documents we incorporate by reference herein and therein and in any free writing prospectus that we have authorized for use in connection with this offering. This summary is not complete and does not contain all the information that you should consider before investing in our securities. You should read this entire prospectus supplement and the accompanying prospectus carefully, including the “Risk Factors” contained in this prospectus supplement, the accompanying prospectus and the financial statements and the notes thereto incorporated by reference in this prospectus supplement and the accompanying prospectus and any free writing prospectus that we have authorized for use in connection with this offering, before making an investment decision. This prospectus supplement may add to, update or change information in the accompanying prospectus.

Issuer Direct Corporation

Issuer Direct is an industry-leading global communications and compliance company focusing on the needs of corporate issuers. Issuer Direct's principal platform, Platform id.TM, empowers users by thoughtfully integrating the most relevant tools, technologies and products, thus eliminating the complexity associated with producing and distributing their business communications and financial information.

We work with a diverse customer base in the financial services industry, including brokerage firms, banks and mutual funds. We also sell products and services to corporate issuers, professional firms, such as investor relations and public relations firms, and the accounting and the legal communities. Corporate issuers and their service providers utilize Platform id. and related services from document creation all the way to dissemination to regulatory bodies, platforms and shareholders.

In order to provide a good representation of our business and reflect our platform first engagement strategy, we report revenue in two revenue streams: (i) Platform and Technology and (ii) Services. Due to the adoption of Accounting Standards Codification (“ASC”) 606 Revenue from Contracts with Customers as of January 1, 2018, we reclassified revenue associated with the Company's shareholder outreach offering that included both electronic dissemination and physical delivery of a customer's annual report. Historically, revenue from these bundled contracts was reported in the Services revenue stream because an allocation between electronic and physical hardcopy distribution was not made, however, under ASC 606, a portion of the revenue from these contracts is required to be allocated to the Platform and Technology revenue stream in accordance with stand-alone contracts for the shareholder outreach subscription. Revenue of \$186,000 and \$393,000 for the three and six months ended June 30, 2017, respectively, which was previously reported as Services revenue was reclassified as Platform and Technology revenue.

Set forth below is an infographic depicting the modules included in Platform id. and the services we provide:

S-4

RISK FACTORS

An investment in our securities involves a high degree of risk. You should consider the risks, uncertainties and assumptions discussed below, together with all of the other information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus, including our Annual Report on Form 10-K/A for the fiscal year ended December 31, 2017, as well as subsequently filed Quarterly Reports on Form 10-Q with the SEC. It is not possible to predict or identify all such risks. Consequently, we could also be affected by additional factors that are not presently known to us or that we currently consider to be immaterial to our operations. The occurrence of any of these known or unknown risks might cause you to lose all or part of your investment in the offered securities.

Risks Related to this Offering and our Common Stock

The price of our common stock may fluctuate significantly, which could lead to losses for stockholders.

The stock prices of smaller public companies can experience extreme price and volume fluctuations. These fluctuations often have been unrelated or out of proportion to the operating performance of such companies. We expect our stock price to be similarly volatile. These broad market fluctuations may continue and could harm our stock price. Any negative change in the public's perception of our prospects or companies in our market could also depress our stock price, regardless of our actual results. Factors affecting the trading price of our common stock may include:

variations in operating results;

announcements of strategic alliances or significant agreements by the Company or by competitors;

recruitment or departure of key personnel;

litigation, legislation, regulation of all or part of our business; and

changes in the estimates of operating results or changes in recommendations by any securities analyst that elect to follow our common stock.

Management will have broad discretion as to the use of the net proceeds from this offering, and we may not use the proceeds effectively.

Our management will have broad discretion in the application of the net proceeds from this offering and could spend the proceeds in ways that do not improve our results of operations or enhance the value of our common stock. Our failure to apply these funds effectively could have a material adverse effect on our business and cause the price of our common stock to decline.

If you purchase the common stock sold in this offering, you will experience immediate and substantial dilution in your investment.

Since the price per share of our common stock being offered is substantially higher than the net tangible book value per share of our common stock, you will suffer substantial dilution with respect to the net tangible book value of the common stock you purchase in this offering. Based on the public offering price of \$15.50 per share, and our net tangible book value as of June 30, 2018, if you purchase shares of common stock in this offering, you will suffer immediate and substantial dilution of \$10.53 per share with respect to the net tangible book value of the common stock purchased in this offering. See "Dilution" for a more detailed discussion of the dilution you will incur if you purchase common stock in this offering.

Sales of a substantial number of shares of our common stock by our existing stockholders or investors in this offering in the public market could cause our stock price to fall.

Sales of a substantial number of shares of our common stock in the public market following this offering, or the perception in the market that the holders of a large number of shares intend to sell, could significantly reduce the market price of our common stock even if our business is doing well. We also currently have two non-affiliate shareholders who own more than 5% but less than 10% of our outstanding stock. After this offering, we will have 3,913,223 shares of common stock outstanding based on the number of shares outstanding as of June 30, 2018. This includes the shares that we are selling in this offering, which may be resold in the public market immediately without restriction, unless purchased by our affiliates or existing stockholders who have signed lock-up agreements, and excluding any shares that may be purchased by the underwriter pursuant to its over-allotment option granted in connection with this offering. Of the shares outstanding as of June 30, 2018, 904,789 shares are subject to lock-up agreements with the underwriter for a period of 90 days following the date of this prospectus supplement. The underwriter may, in its sole discretion, release the lock-up restrictions on any such shares at any time without notice.

The trading volume of our common stock is currently very limited, and, as such, you may find it difficult to dispose of our common stock at a price that is acceptable to you.

Our common stock is currently listed on the NYSE American, however, there is presently limited trading activity. We can give no assurance that an active market will develop, or if developed, that it will be sustained. If an investor acquires shares of our common stock, the investor may not be able to liquidate the shares should there be a need or desire to do so at a price that is acceptable to you.

If securities or industry analysts issue an adverse opinion regarding our stock, our stock price and trading volume could decline.

The trading market for our common stock is influenced by the research and reports that securities or industry analysts may publish about us, our business, our market or our competitors. If any of the analysts who may cover us adversely change their recommendation regarding our common stock, or provide more favorable relative recommendations about our competitors, the trading price of our common stock could decline. If any analyst who may cover us were to cease coverage of our company or fail to regularly publish reports on us, we could lose visibility in the financial markets, which in turn could cause the trading price of our common stock or trading volume to decline.

The market price of our common stock may be adversely affected by market conditions affecting the stock markets in general, including price and trading fluctuations on the NYSE American.

Market conditions may result in volatility in the level of, and fluctuations in, market prices of stocks generally and, in turn, our common stock and sales of substantial amounts of our common stock in the market, in each case being unrelated or disproportionate to changes in our operating performance. A weak global economy could also contribute to extreme volatility of the markets, which may have an effect on the market price of our common stock.

You may lose your investment in the shares.

An investment in the shares involves a high degree of risk. An investment in shares of our common stock is suitable only for investors who can bear a loss of their entire investment. We paid dividends in 2012, and in part of 2013, and every quarter since the fourth quarter of 2015, but there can be no assurances that dividends will be paid in the future in the form of either cash or stock.

We currently have authorized but unissued “blank check” preferred stock. Without the vote of our shareholders, the Board of Directors may issue such preferred stock with both economic and voting rights and preferences senior to those of the holders of our common stock. Any such issuances may negatively impact the ultimate benefits to the holders of our common stock in the event of a liquidation event and may have the effect of preventing a change of control and could dilute the voting power of our common stock and reduce the market price of our common stock.

Future sales and issuances of our capital stock or rights to purchase capital stock could result in additional dilution of the percentage ownership of our stockholders and could cause our stock price to decline.

Our certificate of incorporation authorizes us to issue up to 20,000,000 shares of common stock. Future sales and issuances of our capital stock or rights to purchase our capital stock could result in substantial dilution to our existing stockholders. We may sell common stock, convertible securities and other equity securities in one or more transactions at prices and in a manner as we may determine from time to time. If we sell any such securities in subsequent transactions, investors may be materially diluted which could result in downward pressure on the price of our common stock. New investors in subsequent transactions could gain rights, preferences and privileges senior to those of holders of our common stock. In addition, if outstanding stock options are exercised or when outstanding restricted stock units are settled in shares, investors purchasing our common stock in this offering would experience further dilution.

We will continue to incur significantly increased costs and devote substantial management time as a result of operating as a public company.

As a public company, we incur significant legal, accounting and other expenses that would not be incurred as a private company. For example, we are subject to the reporting requirements of the Securities Exchange Act of 1934, as

amended (the “Exchange Act”), and are required to comply with the applicable requirements of the Sarbanes-Oxley Act and the Dodd-Frank Act, as well as rules and regulations subsequently implemented by the SEC and the NYSE American, including the establishment and maintenance of effective disclosure and financial controls and changes in corporate governance practices. Compliance with these requirements has increased our legal and financial compliance costs and made some activities more time consuming and costly. Many of these costs recur annually. We expect to incur significant expenses and devote substantial management effort toward ensuring compliance with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act. As a result, management’s attention may be diverted from other business concerns, which could adversely affect our business and operating results.

S-6

A failure to maintain adequate internal controls over our financial and management systems could cause errors in our financial reporting, which could cause a loss of investor confidence and result in a decline in the price of our common stock.

The Sarbanes-Oxley Act requires, among other things, that we maintain effective disclosure controls and procedures and internal control over financial reporting. In order to maintain and, if required, improve our disclosure controls and procedures and internal control over financial reporting to meet this standard, significant resources and management oversight may be required. If we have a material weaknesses or significant deficiency in our internal control over financial reporting, we may not detect errors on a timely basis and our financial statements may be materially misstated. Effective internal controls are necessary for us to produce reliable financial reports and are important to prevent fraud. As a result, our failure to satisfy the requirements of Section 404 of the Sarbanes-Oxley Act on a timely basis could result in us being subject to regulatory action and a loss of investor confidence in the reliability of our financial statements, both of which in turn could cause the market value of our common stock to decline and affect our ability to raise capital.

Because we are a smaller reporting company, our independent registered public accounting firm did not perform an audit of our internal control over financial reporting for the fiscal year ended December 31, 2017.

S-8

USE OF PROCEEDS

We estimate that we will receive net proceeds of approximately \$11.6 million (or approximately \$13.3 million if the underwriter exercises its option to purchase additional shares in full), based on the public offering price of \$15.50 per share from the sale of the shares of common stock offered by us in this offering, after deducting the underwriting discounts and commissions and estimated offering expenses payable by us.

We intend to use the net proceeds from this offering for working capital and general corporate purposes. We may also use a portion of the net proceeds to in-license, acquire or invest in complementary businesses, technologies, products or assets. Although we have no specific agreements, commitments or understandings with respect to any acquisition, we regularly evaluate acquisition opportunities and engage in related discussions with other companies.

As of the date of this prospectus supplement, we cannot specify with certainty all of the particular uses of the proceeds from this offering. Accordingly, our management will have broad discretion in the use of the net proceeds from this offering, and investors will be relying on the judgment of our management regarding the application of the net proceeds.

Pending use of the proceeds as described above or otherwise, we intend to invest the net proceeds in short-term interest-bearing, investment-grade securities or hold them in cash. We cannot predict whether the proceeds invested will yield a favorable return.

DILUTION

If you purchase shares of our common stock in this offering, you will experience dilution to the extent of the difference between the public offering price per share in this offering and our as adjusted net tangible book value per share immediately after this offering. Net tangible book value is total assets minus the sum of liabilities and intangible assets. Net tangible book value per share is net tangible book value divided by the total number of shares of common stock outstanding. As of June 30, 2018, our net tangible book value was approximately \$7.9 million, or approximately \$2.54 per share, based upon 3,103,370 shares of common stock outstanding as of such date. Dilution in net tangible book value per share represents the difference between the amount per share paid by purchasers of shares of common stock in this offering and the net tangible book value per share of common stock immediately after this offering.

After giving effect to the sale by us of 806,451 shares of common stock at a public offering price of \$15.50 per share, and after deducting the underwriting discounts and commissions and estimated offering expenses payable by us, our as adjusted net tangible book value as of June 30, 2018 would have been approximately \$19.4 million, or approximately \$4.97 per share. This amount represents an immediate increase in net tangible book value of \$2.43 per share to existing stockholders and an immediate dilution in net tangible book value of \$10.53 per share to purchasers of our common stock.

The following table illustrates the dilution in net tangible book value per share to new investors:

| | |
|---|---------|
| Public offering price per share: | \$15.50 |
| Historical net tangible book value per share as of June 30, 2018 | \$2.54 |
| Increase in net tangible book value per share after this offering | \$2.43 |
| As adjusted net tangible book value per share after this offering | \$4.97 |
| Dilution per share to new investors | \$10.53 |

If the underwriter exercises its option in full to purchase 120,967 additional shares of common stock in this offering at the public offering price, the as adjusted net tangible book value per share as of June 30, 2018, after giving effect to this offering, would have been \$5.26 per share, representing an increase in net tangible book value of \$2.72 per share to existing stockholders and immediate dilution of \$10.24 per share to investors purchasing our common stock in this offering at the public offering price.

The foregoing discussion and table do not take into account further dilution to new investors that could occur upon the exercise of outstanding options or warrants having a per share exercise price less than the public offering price in this offering. In addition, we may choose to raise additional capital due to market conditions or strategic considerations, even if we believe we have sufficient funds for our current or future operating plans. To the extent that we raise additional capital through the sale of equity or convertible debt securities, the issuance of those securities could result in further dilution to our stockholders.

The number of shares of our common stock that will be outstanding immediately after the offering is based on 3,103,370 shares outstanding as of June 30, 2018. Unless we specifically state otherwise, the share information in this prospectus supplement excludes:

106,413 shares of common stock reserved for issuance upon exercise of outstanding stock options under our 2010 Equity Incentive Plan and our 2014 Equity Incentive Plan, as amended, with a weighted average exercise price of \$11.63 per share;

45,669 shares of unvested restricted stock units granted under our 2014 Equity Incentive Plan, as amended; and

61,000 shares of common stock reserved for future issuance in connection with future grants under our 2014 Equity Incentive Plan, as amended.

After the offering, these figures may be changed by the underwriter.

The shares sold in this offering are expected to be ready for delivery on or about August 21, 2018, against payment in immediately available funds. The underwriter may reject all or part of any order.

We have granted to the underwriter an option to purchase up to an additional 120,967 shares of common stock from us at the same price to the public, and with the same underwriting discount, as set forth in the table below. The underwriter may exercise this option any time during the 30-day period after the date of this prospectus supplement, but only to cover over-allotments, if any. To the extent the underwriter exercises the option, the underwriter will become obligated, subject to certain conditions, to purchase the shares for which it exercises the option.

The table below summarizes the underwriting discounts that we will pay to the underwriter. These amounts are shown assuming both no exercise and full exercise of the over-allotment option. In addition to the underwriting discount, we have agreed to pay up to \$100,000 of the fees and expenses of the underwriter, which may include the fees and expenses of counsel to the underwriter. The fees and expenses of the underwriter that we have agreed to reimburse are not included in the underwriting discounts set forth in the table below.

We granted the underwriter a right of first refusal to serve as exclusive placement agent in connection with a private offering or lead-managing underwriter in connection with future public offering of securities we undertake within six months following the effective date of this offering. In accordance with applicable rules of FINRA, the underwriter does not have more than one opportunity to waive or terminate the right of first refusal in consideration of any payment or fee, and any payment or fee to waive or terminate the right of first refusal must be paid in cash and have a value not in excess of the greater of 1% of the proceeds in this offering (or, if greater, the maximum amount permitted by FINRA rules for compensation in connection with this offering) or 5% of the underwriting discounts or commissions paid in connection with any future financing subject to right of first refusal (including any over-allotment option that may be exercised). This right of first refusal is not reflected in the table below.

Except as disclosed in this prospectus supplement, the underwriter has not received and will not receive from us any other item of compensation or expense in connection with this offering considered by FINRA to be underwriting compensation under FINRA Rule 5110. The underwriting discount and reimbursable expenses the underwriter will

Edgar Filing: ISSUER DIRECT CORP - Form 424B5

receive were determined through arms' length negotiations between us and the underwriter.

| | Per Share | Total with no Over-Allotment | Total with Over-Allotment |
|--|-----------|------------------------------|---------------------------|
| Underwriting discount to be paid by us | \$0.93 | \$749,999 | \$862,499 |

We estimate that the total expenses of this offering, excluding underwriting discounts, will be \$188,630. This includes \$100,000 of the fees and expenses of the underwriter. These expenses are payable by us.

We also have agreed to indemnify the underwriter against certain liabilities, including civil liabilities under the Securities Act of 1933, as amended, or to contribute to payments that the underwriter may be required to make in respect of those liabilities.

S-12

No Sales of Similar Securities

We, each of our directors and officers and certain of our stockholders have agreed not to offer, sell, agree to sell, directly or indirectly, or otherwise dispose of any shares of common stock or any securities convertible into or exchangeable for shares of common stock without the prior written consent of the underwriter for a period of 90 days after the date of this prospectus supplement. These lock-up agreements provide limited exceptions and their restrictions may be waived at any time by the underwriter.

Price Stabilization, Short Positions and Penalty Bids

To facilitate this offering, the underwriter may engage in transactions that stabilize, maintain or otherwise affect the price of our common stock during and after the offering. Specifically, the underwriter may over-allot or otherwise create a short position in our common stock for its own account by selling more shares of common stock than we have sold to the underwriter. The underwriter may close out any short position by either exercising its option to purchase additional shares or purchasing shares in the open market.

In addition, the underwriter may stabilize or maintain the price of our common stock by bidding for or purchasing shares in the open market and may impose penalty bids. If penalty bids are imposed, selling concessions allowed to broker-dealers participating in this offering are reclaimed if shares previously distributed in this offering are repurchased, whether in connection with stabilization transactions or otherwise. The effect of these transactions may be to stabilize or maintain the market price of our common stock at a level above that which might otherwise prevail in the open market. The imposition of a penalty bid may also affect the price of our common stock to the extent that it discourages resales of our common stock. The magnitude or effect of any stabilization or other transactions is uncertain. These transactions may be effected on the NYSE American or otherwise and, if commenced, may be discontinued at any time.

In connection with this offering, the underwriter and selling group members may also engage in passive market making transactions in our common stock on the NYSE American. Passive market making consists of displaying bids on the NYSE American limited by the prices of independent market makers and effecting purchases limited by those prices in response to order flow. Rule 103 of Regulation M promulgated by the Securities and Exchange Commission limits the amount of net purchases that each passive market maker may make and the displayed size of each bid. Passive market making may stabilize the market price of our common stock at a level above that which might otherwise prevail in the open market and, if commenced, may be discontinued at any time.

Neither we nor the underwriter make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our common stock. In addition, neither we nor the underwriter make any representation that the underwriter will engage in these transactions or that any transaction, if commenced, will not be discontinued without notice.

THE COMPANY

Overview

Issuer Direct is an industry-leading global communications and compliance company focusing on the needs of corporate issuers. Issuer Direct's principal platform, Platform id.TM, empowers users by thoughtfully integrating the most relevant tools, technologies and products, thus eliminating the complexity associated with producing and distributing their business communications and financial information.

We work with a diverse customer base in the financial services industry, including brokerage firms, banks and mutual funds. We also sell products and services to corporate issuers, professional firms, such as investor relations and public relations firms, and the accounting and the legal communities. Corporate issuers and their service providers utilize Platform id. and related services from document creation all the way to dissemination to regulatory bodies, platforms and shareholders.

In order to provide a good representation of our business and reflect our platform first engagement strategy, we report revenue in two revenue streams: (i) Platform and Technology and (ii) Services. Due to the adoption of Accounting Standards Codification (“ASC”) 606 Revenue from Contracts with Customers as of January 1, 2018, we reclassified revenue associated with the Company’s shareholder outreach offering that included both electronic dissemination and physical delivery of a customer’s annual report. Historically, revenue from these bundled contracts was reported in the Services revenue stream because an allocation between electronic and physical hardcopy distribution was not made, however, under ASC 606, a portion of the revenue from these contracts is required to be allocated to the Platform and Technology revenue stream in accordance with stand-alone contracts for the shareholder outreach subscription. Revenue of \$186,000 and \$393,000 for the three and six months ended June 30, 2017, respectively, which was previously reported as Services revenue was reclassified as Platform and Technology revenue.

Set forth below is an infographic depicting the modules included in Platform id. and the services we provide:

Platform and Technology

As we continue our transition to a cloud-based subscription business, we expect the Platform and Technology portion of our business to continue to increase over the next several years, both in terms of overall revenue and as compared to the Services portion of our business. Platform and Technology revenue grew to 59% of total revenue for the second quarter of 2018, compared to 55% of our revenue for 2017 and approximately 44% of our revenue in 2016. Our ACCESSWIRE® news business offering represented a majority of the year over year growth in our Platform and Technology revenue during 2017 and continues to lead our transition to a full platform solution.

As part of our Platform and Technology strategy, we have been working with several select stock exchanges, whereby we make available certain parts of our platform, under agreement, to integrate our offerings. Such partnerships should yield increased exposure to a targeted customer base that could impact our revenue and overall brand in the market.

Additionally, we plan to continue to invest in both our current Platform id. offering as well as additional offerings, which we believe provide long term opportunity. These advancements will leverage our current application technology framework and give us an opportunity to further expand our customer and user base.

Platform id.

Platform id. is our primary cloud-based subscription platform that efficiently and effectively helps manage the events of our customers seeking to distribute their messaging to key constituents, investors, markets and regulatory systems around the globe. Currently, Platform id. consists of several related but distinct shareholder communications and compliance modules. Certain of these capabilities were historically part of our disclosure management and shareholder communications offerings, but are now included into our fully integrated platform.

Within most of our target markets, customers require several individual services and/or software providers to meet their investor relations, communications and compliance needs. We believe Platform id. can address all those needs in a single, secure, cloud-based platform - one that offers a company control, increases efficiencies, demonstrates a clear value and, most importantly, delivers consistent and compliant messaging from one centralized platform.

While the complete platform is available for a single subscription fee, companies also have the flexibility to choose one or more of the specific modules that fit their needs.

Communications Modules

Our press release offering, which is marketed under the brand, ACCESSWIRE, is a cost-effective Fair Disclosure, Regulation FD, news dissemination and media outreach service. The ACCESSWIRE product offering focuses on press release distribution for both private and publicly held companies globally. ACCESSWIRE is fast becoming a competitive alternative to the traditional newswires because we have been able to integrate customer editing features and improve our targeting and growing analytics reporting systems, which we believe will enable us to add new customers for the remainder of 2018 and beyond. We have also been able to maintain flexible pricing by offering our customers the option to pay per release or enter into longer-term subscriptions. Currently, approximately 60% of our ACCESSWIRE revenue is on a subscription basis.

On July 3, 2018, we completed the acquisition of Filing Services Canada Inc. (“FSCwire”), which not only increased our customer base, but more importantly increased our global footprint, distribution capabilities and editorial team. Once the integration of FSCwire is complete it will be rebranded ACCESSWIRE Canada, which should be completed by the end of the third quarter of this year.

We will continue to brand our press release offerings under the name ACCESSWIRE, which we believe will solidify our market position in the newswire business. Our ACCESSWIRE news editing offering is available within our core Platform id. subscription or as a stand-alone module.

ACCESSWIRE is dependent upon several key partners for news distribution, some of which are also partners that we rely on for other investor outreach offerings. A disruption in any of these partnerships could have a materially adverse impact on our business.

Also included in Platform id. is our targeting and outreach database and intelligence analytics module. This module is centered around both our shareholder communications and news distribution offerings. We anticipate the analytics and peer review components will become a focal point for Platform id. in the future, as customers become increasingly interested in peer performance and real-time alerts to vital data points throughout the day.

We believe our data-set is an attractive option for both investor relations and public relations firms and for customers looking for an alternative to current products in the market, based on price, as well as data quality and quantity. During the fourth quarter of 2017, our dataset and analytics were integrated into our ACCESSWIRE offering as a way to add value and expand distribution via highly targeted lists of professionals from the dataset. We expect this to increase future ACCESSWIRE revenues per press release as well as ACCESSWIRE subscriptions throughout 2018.

Over the past year, we have been focused on refining the model of digital distribution of our customers' message to the investment community and beyond. This has been accomplished by integrating our shareholder outreach module, formerly known as Investor Network, into and with Platform id. Most of the customers subscribing to this module today are historical PrecisionIR ("PIR") – Annual Report Service ("ARS") users, as well as new customers purchasing the entire Platform id. subscription. We have migrated many of the customers from the traditional ARS business into this new digital subscription business. However, there can be no assurances these customers will continue using this digital platform in the long term if market conditions or shareholder interest is not present.

There are over 5,000 companies in North America conducting earnings events each quarter that include teleconference, webcast or both as part of their events. Platform id. incorporates each element of the earnings event including earnings date/call announcement, earnings press release and SEC Form 8-K filings. There are a handful of our competitors that can offer this today. However, we believe our real-time event setup and integrated approach offers a more effective way to manage the process as well as attract an audience of investors.

The earnings event industry is a highly competitive space with the majority of the business being driven from practitioners in the investor relations and communications firms. In the past, we invested time and financial resources developing and integrating systems and processes within Platform id. by creating an application programming interface ("API") for the webcast marketplace, that we will begin offering to partners and publishers for their platforms under license. We believe this offering will further increase our brand awareness. This API license will allow publishers to query single or multiple companies' current and past earnings calls and present those webcasts on their platforms, under a subscription to Platform id. Additionally, as a commitment to broadening the reach of our webcast platform, all events will be broadcast live within our shareholder outreach module, which will drive new audiences and give companies the ability to view their analytics and engagement of each event. We believe these analytics will increase the demand for our webcasting platform among the corporate issuer community.

Our investor relations content network is another component of Platform id., which is used to create the investor relations' tab of a public company's website. This investor relations content network is a robust series of data feeds including news feeds, stock feeds, fundamentals, regulatory filings, corporate governance and many other components that are aggregated from a majority of the major exchanges and news distribution outlets around the world. Customers can subscribe to one or more of these data feeds from us or as a component of a fully designed and hosted website for pre-IPO, reporting companies and partners seeking to display our content on their corporate sites. The clear benefit to our investor relations module is its integration into and with the rest of Platform id., meaning companies can produce content for public distribution and it is automatically linked to their corporate site, distributed to targeted groups and placed into and with our data feed partners.

Compliance Modules

Platform id.'s disclosure reporting module is a document conversion, editing and filing offering, which is designed for reporting companies and professionals seeking to insource the document drafting, editing and filing processes to the SEC and SEDAR, which is the Canadian equivalent of EDGAR. This module is available in both a secure public cloud within our Platform id. subscription, as well as in a private cloud option for corporations, mutual funds and the legal community looking to further enhance their internal document process. We believe that once this module is fully marketed and adopted by our customers, we will see a negative impact on our legacy disclosure conversion services

business in the future. However, the margins associated with our Platform and Technology business compared to our Services business are higher and align with our long-term strategy, and as such, we believe this module will have a positive impact on our compliance business.

Toward the latter part of 2017, we completed upgrades to our disclosure reporting product to include tagging functionality that meets newly mandated SEC requirements. On June 28, 2018, the SEC voted to adopt rules mandating the use of Inline XBRL (Inline Extensible Business Reporting Language or “iXBRL”) for the submission of financial statement information to the SEC. The new requirements for iXBRL will have a three-year phase in beginning for large accelerated filers that use U.S. GAAP to be compliant for fiscal periods ending on or after June 15, 2019, for accelerated filers to begin reporting for fiscal periods ending on or after June 15, 2020 and for all other filers to begin reporting for fiscal periods ending on or after June 15, 2021. These upgrades also include meeting new SEC mandates for foreign filers that compile financial statements using International Financial Reporting Standards (“IFRS”) to be able to utilize our cloud-based platform. Foreign filers with fiscal year’s ending on or after December 15, 2017, are now required to begin reporting their financial statements in XBRL with the SEC in 2018. Issuer Direct's Platform id. has adopted the new IFRS taxonomy into and with its new disclosure upgrade for iXBRL to ensure our customers are able to meet these new mandates.

Our whistleblower module is an add-on product within Platform id. This system delivers secure notifications and basic incident workflow management processes that align with a company's corporate governance whistleblower policy. As a supported and subsidized bundle product of the New York Stock Exchange ("NYSE") offerings, we hope we will gain relationships with new IPO customers and other larger cap customers listed on the NYSE.

A valued subscription add-on in our Platform id. offering is the ability for our customers to gain access to real-time information of their shareholders, stock ledgers, reports, and issue new shares from our cloud-based stock transfer module. Managing the capitalization table of a public company or pre-IPO company is the cornerstone of corporate governance and transparency, and as such companies and community banks have chosen us to assist with their stock transfer needs, including bond offerings and dividend management. This is an industry which has experienced declining overall revenues as it was affected by the replacement of paper certificates with digital certificates. However, we have recently been focused on selling subscriptions of the stock transfer component of our platform, allowing customers to gain access to our cloud-based system in order to move shares or query shareholders, which has significantly changed the long term dynamics for both our customers and us.

On October 2, 2017, we completed the acquisition of Interwest Transfer Company, Inc. ("Interwest"), a company specializing in stock registrar and transfer agent services. During the fourth quarter of 2017 and first half of 2018, we have been combining the stock information of both the legacy Issuer Direct customers and the acquired customers from Interwest. We have also begun and will continue to market the other modules of Platform id. and services to these new customers to help them meet all of their shareholder communication and compliance needs.

Our proxy module is marketed as a fully integrated, real-time voting platform for our customers and their shareholders of record. This module is utilized for every annual meeting and or special meeting we manage for our customer base and offers both full-set mailing and notice of internet availability options.

Services

As we focus on expanding our cloud-based subscription business, we expect to see a decrease in the overall revenues associated with our Services business. Typically, Services revenues relate to activities where substantial resources are required to perform the work for our customers and or hard goods are utilized as part of the engagement. To date, most of our Services have been related to converting and editing SEC documents and XBRL tagging, which has been our core disclosure business over the last 11 years. Services also include telecommunications services and print, fulfillment and delivery of stock certificates, proxy materials or annual reports depending on each customer's engagement. Services are not required, but are optional for customers that utilize our Platform id.

Our investor outreach and engagement offering, formerly known as the ARS, was acquired from PIR. The ARS business has existed for over 20 years primarily as a physical hard copy delivery service of annual reports and prospectuses. We continue to operate a portion of this legacy system for those who opt to take advantage of physical delivery of material. Additionally, we continue to attempt to migrate the install base over to subscriptions of our digital outreach engagement module within Platform id. We believe we will continue to see further attrition of both customers and revenues in this category as we focus our efforts on our Platform and Technology business.

Selected Risk Factors

Our business is subject to substantial risk. Please carefully consider the section titled "Risk Factors" on page 8 of this prospectus for a discussion of the factors you should carefully consider before deciding to purchase the securities offered by this prospectus. These risks include, among others:

Legislative and regulatory changes can influence demand for our solutions and could adversely affect our business.

The environment in which we compete is highly competitive, which creates adverse pricing pressures and may harm our business and operating results if we cannot compete effectively.

Our revenue growth rate in the recent period relating to our Platform and Technology business may not be indicative of this business segment's future performance.

The success of our cloud-based software largely depends on our ability to provide reliable solutions to our customers. If a customer were to experience a product defect, a disruption in its ability to use our solutions or a security flaw, demand for our solutions could be diminished, we could be subject to substantial liability and our business could suffer.

A substantial portion of our business is derived from our ACCESSWIRE brand, which is dependent on technology and key partners.

Failure to manage our growth may adversely affect our business or operations.

If we are unable to retain our key employees and attract and retain other qualified personnel, our business could suffer.

If we fail to keep our customers' information confidential or if we handle their information improperly, our business and reputation could be significantly and adversely affected.

We must adapt to rapid changes in technology and customer requirements to remain competitive.

Our business could be materially harmed if we do not successfully manage the integration of our October 2017 acquisition of Interwest Transfer Company, Inc.

Additionally, our business could be harmed if we do not successfully manage the integration of any business that we may acquire in the future.

New issuers seeking to raise capital and become SEC registrants may choose to utilize Regulation A+ and we may see a significant decline in the number of filings as part of our current disclosure management business.

Revenue from Platform id. subscriptions and many of our service contracts is recognized ratably over the term of the contract or subscription period. As a result, downturns or upturns in sales may not be immediately reflected in our operating results.

We cannot accurately predict subscription renewal or upgrade rates and the impact these rates may have on our future revenue and operating results.

Although we have generated positive cash flows from operations for the past ten year, we have incurred operating losses in the past and may do so again in the future

We continue to transition our business from a services company to a software as a service company, which makes it difficult to predict our future operating results.

We are subject to general litigation and regulatory requirements that may materially adversely affect us.

New and existing laws make determining our income tax rate complex and subject to uncertainty.

We are subject to U.S. and foreign data privacy and protection laws and regulations as well as contractual privacy obligations, and our failure to comply could subject us to fines and damages and would harm our reputation and business.

Our business may be affected by factors outside of our control.

If potential customers take a long time to evaluate the use of our products, we could incur additional selling expenses and require additional working capital.

The seasonality of business makes it difficult to predict future results based on specific quarters.

If we are unable to successfully develop and timely introduce new technology-based products or enhance existing technology-based products, our business may be adversely affected.

The price of our common stock may fluctuate significantly, which could lead to losses for stockholders.

The trading volume of our common stock is currently very limited. As such, you may find it difficult to dispose of our common stock at a price that is acceptable to you.

We have two non-affiliate stockholders who hold more than 5% but less than 10% of our outstanding common stock. In the event either of those stockholders elected to liquidate a substantial portion of their position, our stock price may decline materially.

You may lose your investment in our shares.

Future sales and issuances of our capital stock or rights to purchase capital stock could result in additional dilution of the percentage ownership of our stockholders and could cause our stock price to decline.

We will continue to incur significantly increased costs and devote substantial management time as a result of operating as a public company.

A failure to maintain adequate internal controls over our financial and management systems could cause errors in our financial reporting, which could cause a loss of investor confidence and result in a decline in the price of our common stock.

Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations. You should be able to bear a complete loss of your investment.

The risks and uncertainties we have described in our Annual Report on Form 10-K/A for the fiscal year ended December 31, 2017 and subsequent Quarterly Reports on Form 10-Q are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our operations. The occurrence of any of these known or unknown risks might cause you to lose all or part of your investment in the offered securities.

Our authorized capital stock consists of 20,000,000 shares of common stock, \$0.001 par value per share, and 1,000,000 shares of preferred stock, \$0.001 par value per share. The following is a description of our common stock and certain provisions of our certificate of incorporation, as amended (“Certificate”), and our amended and restated bylaws (“Bylaws”), and certain provisions of Delaware law.

As of August 2, 2018, there were issued and outstanding or reserved for issuance:

3,106,772 shares of common stock outstanding held by approximately 144 stockholders of record;

106,413 shares of common stock reserved for issuance upon exercise of outstanding stock options under our 2010 Equity Incentive Plan and our 2014 Equity Incentive Plan, as amended, with a weighted average exercise price of \$11.63 per share;

45,669 shares of unvested restricted stock units granted under our 2014 Equity Incentive Plan, as amended; and

61,000 shares of common stock reserved for future issuance in connection with future grants under our 2014 Equity Incentive Plan, as amended.

Common Stock

This section describes the general terms of our common stock that we may offer from time to time. For more detailed information, a holder of our common stock should refer to our Certificate and our Bylaws.

Except as otherwise expressly provided in our Certificate, or as required by applicable law, all shares of our common stock have the same rights and privileges and rank equally, share ratably and are identical in all respects as to all matters, including, without limitation, those described below. All outstanding shares of common stock are fully paid and nonassessable.

Voting Rights

Each holder of our common stock is entitled to cast one vote for each share of common stock held on all matters submitted to a vote of stockholders. Cumulative voting for election of directors is not allowed under our Certificate, which means that a plurality of the shares voted can elect all of the directors then outstanding for election. Except as otherwise provided under Delaware law or our Certificate, and Bylaws, on matters other than election of directors, action on a matter is approved if the votes cast favoring the action exceed the votes cast opposing the action.

Dividend Rights

The holders of outstanding shares of our common stock are entitled to receive dividends out of funds legally available, if our board of directors, in its discretion, determines to issue dividend, and only at the times and in the amounts that our board of directors may determine. Our board of directors is not obligated to declare a dividend.

Liquidation Rights

Upon our liquidation, dissolution or winding-up, the holders of our common stock will be entitled to share equally, identically and ratably in all assets remaining, subject to the prior satisfaction of all outstanding debt and liabilities and the preferential rights and payment of liquidation preferences, if any, on any outstanding shares of preferred stock.

No Preemptive or Similar Rights

Our common stock is not subject to conversion, redemption, sinking fund or similar provisions.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is Direct Transfer, LLC, Morrisville, North Carolina, which is a wholly-owned subsidiary of Issuer Direct.

Preferred Stock

This section describes the general terms and provisions of our outstanding shares of preferred stock, as well as preferred stock that we may offer from time to time. The applicable prospectus supplement will describe the specific terms of the shares of preferred stock offered through that prospectus supplement, which may differ from the terms we describe below. We will file a copy of the certificate of designation that contains the terms of each new series of preferred stock with the SEC each time we issue a new series of preferred stock, and these certificates of designation will be incorporated by reference into the registration statement of which this prospectus is a part. Each certificate of designation will establish the number of shares included in a designated series and fix the designation, powers, privileges, preferences and rights of the shares of each series as well as any applicable qualifications, limitations or restrictions. A holder of our preferred stock should refer to the applicable certificate of designation, our Certificate and the applicable prospectus supplement (and any related free writing prospectus that we may authorize to be provided to you) for more specific information.

We are authorized, subject to limitations prescribed by Delaware law, to issue up to 1,000,000 shares of preferred stock in one or more series, to establish from time to time the number of shares to be included in each series and to fix the designation, powers, preferences and rights of the shares of each series and any of its qualifications, limitations or restrictions. Our board of directors can increase or decrease the number of shares of any series, but not below the number of shares of that series then outstanding, without any further vote or action by our stockholders. Our board of directors may authorize the issuance of preferred stock with voting or conversion rights that could adversely affect the voting power or other rights of the holders of the common stock. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could, among other things, have the effect of delaying, deferring or preventing a change in control of the Company and may adversely affect the market price of our common stock and the voting and other rights of the holders of our common stock.

Outstanding Series of Preferred Stock

Currently, there are no shares of our preferred stock outstanding or designated.

DESCRIPTION OF OUR DEBT SECURITIES

This section describes the general terms and provisions of debt securities that we may issue from time to time. We may issue debt securities, in one or more series, as either senior or subordinated debt or as senior or subordinated convertible debt. While the terms we have summarized below will apply generally to any future debt securities we may offer under this prospectus, the applicable prospectus supplement or free writing prospectus will describe the specific terms of any debt securities offered through that prospectus supplement or free writing prospectus. The terms of any debt securities we offer under a prospectus supplement or free writing prospectus may differ from the terms we describe below. Unless the context requires otherwise, whenever we refer to the “indentures,” we also are referring to any supplemental indentures that specify the terms of a particular series of debt securities.

In the event that we issue any debt securities, we will issue such senior debt securities under a senior indenture that we will enter into with the trustee named in such senior indenture. We will file forms of these documents as exhibits to the registration statement, of which this prospectus is a part, and supplemental indentures and forms of debt securities containing the terms of the debt securities being offered will be filed as exhibits to the registration statement of which this prospectus is a part or will be incorporated by reference from reports that we file with the SEC.

The indentures will be qualified under the Trust Indenture Act of 1939, as amended, (the “Trust Indenture Act”). We use the term “trustee” to refer to either the trustee under the senior indenture or the trustee under the subordinated indenture, as applicable.

The following summaries of material provisions of potential senior debt securities, subordinated debt securities and the indentures are subject to, and qualified in their entirety by reference to, all of the provisions of the indenture applicable to a particular series of debt securities. We urge you to read the applicable prospectus supplement or free writing prospectus and any related free writing prospectuses related to the debt securities that we may offer under this prospectus, as well as the complete applicable indenture that contains the terms of the debt securities. Except as we may otherwise indicate, the terms of the senior indenture and the subordinated indenture are identical.

whether or not we will issue the series of debt securities in global form, and, if so, the terms and who the depository will be;

whether and under what circumstances, if any, we will pay additional amounts on any debt securities held by a person who is not a United States person for tax purposes, and whether we can redeem the debt securities if we have to pay such additional amounts;

the annual interest rate, which may be fixed or variable, or the method for determining the rate and the date interest will begin to accrue, the dates interest will be payable and the regular record dates for interest payment dates or the method for determining such dates;

our right, if any, to defer payment of interest and the maximum length of any such deferral period; the date, if any, after which, the conditions upon which, and the price at which, we may, at our option, redeem the series of debt securities pursuant to any optional or provisional redemption provisions and the terms of those redemption provisions;

the date, if any, on which, and the price at which we are obligated, pursuant to any mandatory sinking fund or analogous fund provisions or otherwise, to redeem, or at the holder's option, to purchase, the series of debt securities and the currency or currency unit in which the debt securities are payable;

whether the indenture will restrict our ability or the ability of our subsidiaries to:

the denominations in which we will issue the series of debt securities, if other than denominations of \$1,000 and any integral multiple thereof;

any other specific terms, preferences, rights or limitations of, or restrictions on, the debt securities, including any additional events of default or covenants provided with respect to the debt securities, and any terms that may be required by us or advisable under applicable laws or regulations or advisable in connection with the marketing of the debt securities.

Conversion or Exchange Rights

We will set forth in the applicable prospectus supplement or free writing prospectus the terms on which a series of debt securities may be convertible into or exchangeable for our common stock, our preferred stock or other securities (including securities of a third-party). We will include provisions as to whether conversion or exchange is mandatory, at the option of the holder or at our option. We may include provisions pursuant to which the number of shares of our common stock, our preferred stock or other securities (including securities of a third-party) that the holders of the series of debt securities receive would be subject to adjustment.

Consolidation, Merger or Sale

Unless we provide otherwise in the prospectus supplement or free writing prospectus applicable to a particular series of debt securities, the indentures will not contain any covenant that restricts our ability to merge or consolidate, or sell, convey, transfer or otherwise dispose of all or substantially all of our assets. However, any successor to or acquirer of such assets must assume all of our obligations under the indentures or the debt securities, as appropriate. If the debt securities are convertible into or exchangeable for other securities of ours or securities of other entities, the person with whom we consolidate or merge or to whom we sell all of our property must make provisions for the conversion of the debt securities into securities that the holders of the debt securities would have received if they had converted the debt securities before the consolidation, merger or sale.

Events of Default Under the Indenture

Unless we provide otherwise in the prospectus supplement or free writing prospectus applicable to a particular series of debt securities, the following are events of default under the indentures with respect to any series of debt securities that we may issue:

if we fail to pay interest when due and payable and our failure continues for 90 days and the time for payment has not been extended;

if we fail to pay the principal, premium or sinking fund payment, if any, when due and payable at maturity, upon redemption or repurchase or otherwise, and the time for payment has not been extended;

if we fail to observe or perform any other covenant contained in the debt securities or the indentures, other than a covenant specifically relating to another series of debt securities, and our failure continues for 90 days after we receive notice from the trustee or holders of at least 25% in aggregate principal amount of the outstanding debt securities of the applicable series; and

if specified events of bankruptcy, insolvency or reorganization occur.

We will describe in each applicable prospectus supplement or free writing prospectus any additional events of default relating to the relevant series of debt securities.

If an event of default with respect to debt securities of any series occurs and is continuing, other than an event of default specified in the last bullet point above, the trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series, by notice to us in writing, and to the trustee if notice is given by such holders, may declare the unpaid principal, premium, if any, and accrued interest, if any, due and payable immediately. If an event of default specified in the last bullet point above occurs with respect to us, the unpaid principal, premium, if any, and accrued interest, if any, of each issue of debt securities then outstanding shall be due and payable without any notice or other action on the part of the trustee or any holder.

The holders of a majority in principal amount of the outstanding debt securities of an affected series may waive any default or event of default with respect to the series and its consequences, except defaults or events of default regarding payment of principal, premium, if any, or interest, unless we have cured the default or event of default in accordance with the indenture. Any waiver shall cure the default or event of default.

Subject to the terms of the indentures, if an event of default under an indenture shall occur and be continuing, the trustee will be under no obligation to exercise any of its rights or powers under such indenture at the request or direction of any of the holders of the applicable series of debt securities, unless such holders have offered the trustee reasonable indemnity or security satisfactory to it against any loss, liability or expense. The holders of a majority in principal amount of the outstanding debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any trust or power conferred on the trustee, with respect to the debt securities of that series, provided that:

the direction so given by the holder is not in conflict with any law or the applicable indenture; and

subject to its duties under the Trust Indenture Act, the trustee need not take any action that might involve it in personal liability or might be unduly prejudicial to the holders not involved in the proceeding.

A holder of the debt securities of any series will have the right to institute a proceeding under the indentures or to appoint a receiver or trustee, or to seek other remedies if:

the holder has given written notice to the trustee of a continuing event of default with respect to that series;

the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series have made written request, and such holders have offered reasonable indemnity to the trustee or security satisfactory to it against any loss, liability or expense or to be incurred in compliance with instituting the proceeding as trustee; and

the trustee does not institute the proceeding, and does not receive from the holders of a majority in aggregate principal amount of the outstanding debt securities of that series other conflicting directions within 90 days after the notice, request and offer.

These limitations do not apply to a suit instituted by a holder of debt securities if we default in the payment of the principal, premium, if any, or interest on, the debt securities, or other defaults that may be specified in the applicable

prospectus supplement or free writing prospectus.

We will periodically file statements with the trustee regarding our compliance with specified covenants in the indentures.

Modification of Indenture; Waiver

Subject to the terms of the indenture for any series of debt securities that we may issue, we and the trustee may change an indenture without the consent of any holders with respect to the following specific matters:

to fix any ambiguity, defect or inconsistency in the indenture;

to comply with the provisions described above under “Description of Our Debt Securities—Consolidation, Merger or Sale ;”

to comply with any requirements of the SEC in connection with the qualification of any indenture under the Trust Indenture Act;

to add to, delete from or revise the conditions, limitations, and restrictions on the authorized amount, terms, or purposes of issue, authentication and delivery of debt securities, as set forth in the indenture;

to provide for the issuance of and establish the form and terms and conditions of the debt securities of any series as provided under “Description of Our Debt Securities—General ,” to establish the form of any certifications required to be furnished pursuant to the terms of the indenture or any series of debt securities, or to add to the rights of the holders of any series of debt securities;

to evidence and provide for the acceptance of appointment hereunder by a successor trustee;

to provide for uncertificated debt securities and to make all appropriate changes for such purpose;

to add to our covenants such new covenants, restrictions, conditions or provisions for the benefit of the holders, to make the occurrence, or the occurrence and the continuance, of a default in any such additional covenants, restrictions, conditions or provisions an event of default or to surrender any right or power conferred to us in the indenture; or

to change anything that does not materially adversely affect the interests of any holder of debt securities of any series.

In addition, under the indentures, the rights of holders of a series of debt securities may be changed by us and the trustee with the written consent of the holders of at least a majority in aggregate principal amount of the outstanding debt securities of each series that is affected. However, subject to the terms of the indenture for any series of debt securities that we may issue or as otherwise provided in the prospectus supplement or free writing prospectus applicable to a particular series of debt securities, we and the trustee may make the following changes only with the consent of each holder of any outstanding debt securities affected:

extending the stated maturity of the series of debt securities;

reducing the principal amount, reducing the rate of or extending the time of payment of interest, or reducing any premium payable upon the redemption or repurchase of any debt securities; or

reducing the percentage of debt securities, the holders of which are required to consent to any amendment, supplement, modification or waiver.

Discharge

Each indenture provides that, subject to the terms of the indenture and any limitation otherwise provided in the prospectus supplement or free writing prospectus applicable to a particular series of debt securities, we can elect to be discharged from our obligations with respect to one or more series of debt securities, except for specified obligations, including obligations to:

register the transfer or exchange of debt securities of the series;

replace stolen, lost or mutilated debt securities of the series;

maintain paying agencies;

hold monies for payment in trust;

recover excess money held by the trustee;

compensate and indemnify the trustee; and

appoint any successor trustee.

In order to exercise our rights to be discharged, we must deposit with the trustee money or government obligations sufficient to pay all the principal of, and any premium and interest on, the debt securities of the series on the dates payments are due.

Form, Exchange and Transfer

In the event that we issue debt securities, we will issue such debt securities of each series only in fully registered form without coupons and, unless we otherwise specify in the applicable prospectus supplement or free writing prospectus, in denominations of \$1,000 and any integral multiple thereof. The indentures provide that we may issue debt securities of a series in temporary or permanent global form and as book-entry securities that will be deposited with, or on behalf of, The Depository Trust Company or another depository named by us and identified in a prospectus supplement or free writing prospectus with respect to that series.

At the option of the holder, subject to the terms of the indentures and the limitations applicable to global securities described in the applicable prospectus supplement or free writing prospectus, the holder of the debt securities of any series can exchange the debt securities for other debt securities of the same series, in any authorized denomination and of like tenor and aggregate principal amount.

Subject to the terms of the indentures and the limitations applicable to global securities set forth in the applicable prospectus supplement or free writing prospectus, holders of the debt securities may present the debt securities for exchange or for registration of transfer, duly endorsed or with the form of transfer endorsed thereon duly executed if

so required by us or the security registrar, at the office of the security registrar or at the office of any transfer agent designated by us for this purpose. Unless otherwise provided in the debt securities that the holder presents for transfer or exchange, we will make no service charge for any registration of transfer or exchange, but we may require payment of any taxes or other governmental charges.

We will name in the applicable prospectus supplement or free writing prospectus the security registrar, and any transfer agent in addition to the security registrar that we initially designate for any debt securities. We may at any time designate additional transfer agents or rescind the designation of any transfer agent or approve a change in the office through which any transfer agent acts, except that we will be required to maintain a transfer agent in each place of payment for the debt securities of each series. If we elect to redeem the debt securities of any series, we will not be required to:

issue, register the transfer of, or exchange any debt securities of that series during a period beginning at the opening of business 15 days before the day of mailing of a notice of redemption of any debt securities that may be selected for redemption and ending at the close of business on the day of the mailing; or

register the transfer of or exchange any debt securities so selected for redemption, in whole or in part, except the unredeemed portion of any debt securities we are redeeming in part.

Information Concerning the Trustee

The trustee, other than during the occurrence and continuance of an event of default under an indenture, undertakes to perform only those duties as are specifically set forth in the applicable indenture. Upon an event of default under an indenture, the trustee must use the same degree of care as a prudent person would exercise or use in the conduct of his or her own affairs.

Subject to this provision, the trustee is under no obligation to exercise any of the powers given it by the indentures at the request of any holder of debt securities unless it is offered reasonable security and indemnity against the costs, expenses and liabilities that it might incur.

Payment and Paying Agents

Unless we otherwise indicate in the applicable prospectus supplement or free writing prospectus, we will make payment of the interest on any debt securities on any interest payment date to the person in whose name the debt securities, or one or more predecessor securities, are registered at the close of business on the regular record date for the interest.

We will pay principal of and any premium and interest on the debt securities of a particular series at the office of the paying agents designated by us, except that unless we otherwise indicate in the applicable prospectus supplement or free writing prospectus, we will make interest payments by check that we will mail to the holder or by wire transfer to certain holders. Unless we otherwise indicate in the applicable prospectus supplement or free writing prospectus, we will designate the corporate trust office of the trustee as our sole paying agent for payments with respect to debt securities of each series. We will name in the applicable prospectus supplement or free writing prospectus any other paying agents that we initially designate for the debt securities of a particular series. We will maintain a paying agent in each place of payment for the debt securities of a particular series.

All money we pay to a paying agent or the trustee for the payment of the principal of or any premium or interest on any debt securities that remains unclaimed at the end of two years after such principal, premium or interest has become due and payable will be repaid to us, and the holder of the debt security thereafter may look only to us for payment thereof.

Governing Law

The indentures and the debt securities will be governed by and construed in accordance with the laws of the State of Delaware, except to the extent that the Trust Indenture Act is applicable.

Ranking of Debt Securities

The subordinated debt securities will be subordinate and junior in priority of payment to certain of our other indebtedness to the extent described in a prospectus supplement or free writing prospectus. The subordinated indenture does not limit the amount of subordinated debt securities that we may issue. It also does not limit us from issuing any other secured or unsecured debt.

The senior debt securities will rank equally in right of payment to all our other senior unsecured debt. The senior indenture does not limit the amount of senior debt securities that we may issue. It also does not limit us from issuing any other secured or unsecured debt.

DESCRIPTION OF OUR WARRANTS

The following description, together with the additional information we include in any applicable prospectus supplements or free writing prospectus, summarizes the material terms and provisions of the warrants that we may offer under this prospectus, which may consist of warrants to purchase common stock, preferred stock and/or debt securities in one or more series. Warrants may be offered independently or together with common stock, preferred stock and/or debt securities offered by any prospectus supplement or free writing prospectus, and may be attached to or separate from those securities. While the terms we have summarized below will generally apply to any future warrants we may offer under this prospectus, we will describe the particular terms of any warrants that we may offer in more detail in the applicable prospectus supplement or free writing prospectus. The terms of any warrants we offer under a prospectus supplement or free writing prospectus may differ from the terms we describe below.

In the event that we issue warrants, we will issue the warrants under a warrant agreement which we will enter into with a warrant agent to be selected by us. Forms of these warrant agreements and forms of the warrant certificates representing the warrants, and the complete warrant agreements and forms of warrant certificates containing the terms of the warrants being offered, will be filed as exhibits to the registration statement of which this prospectus is a part or will be incorporated by reference from reports that we file with the SEC. We use the term “warrant agreement” to refer to any of these warrant agreements. We use the term “warrant agent” to refer to the warrant agent under any of these warrant agreements. The warrant agent will act solely as an agent of ours in connection with the warrants and will not act as an agent for the holders or beneficial owners of the warrants.

The following summaries of material provisions of the warrants and the warrant agreements are subject to, and qualified in their entirety by reference to, all the provisions of the warrant agreement applicable to a particular series of warrants. We urge you to read the applicable prospectus supplements or free writing prospectus related to the warrants that we sell under this prospectus, as well as the complete warrant agreements that contain the terms of the warrants.

General

We will describe in the applicable prospectus supplement or free writing prospectus the terms relating to a series of warrants. If warrants for the purchase of debt securities are offered, the prospectus supplement or free writing prospectus will describe the following terms, to the extent applicable:

the offering price and the aggregate number of warrants offered;

the currencies in which the warrants are being offered;

the designation, aggregate principal amount, currencies, denominations and terms of the series of debt securities that can be purchased if a holder exercises a warrant;

the designation and terms of any series of debt securities with which the warrants are being offered and the number of warrants offered with each such debt security;

the date on and after which the holder of the warrants can transfer them separately from the related series of debt securities;

the principal amount of the series of debt securities that can be purchased if a holder exercises a warrant and the price at which and currencies in which such principal amount may be purchased upon exercise;

the terms of any rights to redeem or call the warrants;

the date on which the right to exercise the warrants begins and the date on which such right expires;

federal income tax consequences of holding or exercising the warrants; and

any other specific terms, preferences, rights or limitations of, or restrictions on, the warrants.

If warrants for the purchase of common stock or preferred stock are offered, the prospectus supplement or free writing prospectus will describe the following terms, to the extent applicable:

the offering price and the aggregate number of warrants offered;

the total number of shares that can be purchased if a holder of the warrants exercises them and, in the case of warrants for preferred stock, the designation, total number and terms of the series of preferred stock that can be purchased upon exercise;

the designation and terms of any series of preferred stock with which the warrants are being offered and the number of warrants being offered with each share of common stock or preferred stock;

the date on and after which the holder of the warrants can transfer them separately from the related common stock or series of preferred stock;

the number of shares of common stock or preferred stock that can be purchased if a holder exercises the warrant and the price at which such common stock or preferred stock may be purchased upon exercise, including, if applicable, any provisions for changes to or adjustments in the exercise price and in the securities or other property receivable upon exercise;

the terms of any rights to redeem or call, or accelerate the expiration of, the warrants;

the date on which the right to exercise the warrants begins and the date on which that right expires;

federal income tax consequences of holding or exercising the warrants; and

any other specific terms, preferences, rights or limitations of, or restrictions on, the warrants.

Exercise of Warrants

Each holder of a warrant is entitled to purchase the principal amount of debt securities or number of shares of common stock or preferred stock, as the case may be, at the exercise price described in the applicable prospectus supplement or free writing prospectus. After the close of business on the day when the right to exercise terminates (or a later date if we extend the time for exercise), unexercised warrants will become void.

A holder of warrants may exercise them by following the general procedure outlined below:

delivering to the warrant agent the payment required by the applicable prospectus supplement or free writing prospectus to purchase the underlying security;

properly completing and signing the reverse side of the warrant certificate representing the warrants; and

delivering the warrant certificate representing the warrants to the warrant agent within five business days of the warrant agent receiving payment of the exercise price.

If you comply with the procedures described above, your warrants will be considered to have been exercised when the warrant agent receives payment of the exercise price, subject to the transfer books for the securities issuable upon exercise of the warrant not being closed on such date. After you have completed those procedures and subject to the foregoing, we will, as soon as practicable, issue and deliver to you the debt securities, common stock or preferred stock that you purchased upon exercise. If you exercise fewer than all of the warrants represented by a warrant certificate, a new warrant certificate will be issued to you for the unexercised amount of warrants. Holders of warrants will be required to pay any tax or governmental charge that may be imposed in connection with transferring the underlying securities in connection with the exercise of the warrants.

Amendments and Supplements to the Warrant Agreements

We may amend or supplement a warrant agreement without the consent of the holders of the applicable warrants to cure ambiguities in the warrant agreement, to cure or correct a defective provision in the warrant agreement, or to provide for other matters under the warrant agreement that we and the warrant agent deem necessary or desirable, so long as, in each case, such amendments or supplements do not materially adversely affect the interests of the holders of the warrants.

Warrant Adjustments

Unless the applicable prospectus supplement or free writing prospectus states otherwise, the exercise price of, and the number of securities covered by, a common stock warrant or preferred stock warrant will be adjusted proportionately if we subdivide or combine our common stock or preferred stock, as applicable. In addition, unless the prospectus supplement or free writing prospectus states otherwise, if we, without receiving payment:

issue capital stock or other securities convertible into or exchangeable for common stock or preferred stock, or any rights to subscribe for, purchase or otherwise acquire any of the foregoing, as a dividend or distribution to holders of our common stock or preferred stock;

pay any cash to holders of our common stock or preferred stock other than a cash dividend paid out of our current or retained earnings or other than in accordance with the terms of the preferred stock;

issue any evidence of our indebtedness or rights to subscribe for or purchase our indebtedness to holders of our common stock or preferred stock; or

issue common stock or preferred stock or additional stock or other securities or property to holders of our common stock or preferred stock by way of spinoff, split-up, reclassification, combination of shares or similar corporate rearrangement,

then the holders of common stock warrants and preferred stock warrants, as applicable, will be entitled to receive upon exercise of the warrants, in addition to the securities otherwise receivable upon exercise of the warrants and without paying any additional consideration, the amount of stock and other securities and property such holders would have been entitled to receive had they held the common stock or preferred stock, as applicable, issuable under the warrants on the dates on which holders of those securities received or became entitled to receive such additional stock and other securities and property.

Except as stated above or as otherwise set forth in the applicable prospectus supplement or free writing prospectus, the exercise price and number of securities covered by a common stock warrant and preferred stock warrant, and the amounts of other securities or property to be received, if any, upon exercise of those warrants, will not be adjusted or provided for if we issue those securities or any securities convertible into or exchangeable for those securities, or securities carrying the right to purchase those securities or securities convertible into or exchangeable for those securities.

Holders of common stock warrants and preferred stock warrants may have additional rights under the following circumstances:

certain reclassifications, capital reorganizations or changes of the common stock or preferred stock, as applicable;

certain share exchanges, mergers, or similar transactions involving us and which result in changes of the common stock or preferred stock, as applicable; or

certain sales or dispositions to another entity of all or substantially all of our property and assets.

If one of the above transactions occurs and holders of our common stock or preferred stock are entitled to receive stock, securities or other property with respect to or in exchange for their securities, the holders of the common stock warrants and preferred stock warrants then outstanding, as applicable, will be entitled to receive upon exercise of their warrants the kind and amount of shares of stock and other securities or property that they would have received upon the applicable transaction if they had exercised their warrants immediately before the transaction.

DESCRIPTION OF OUR UNITS

This section outlines some of the provisions of the units and the unit agreements. This information may not be complete in all respects and is qualified entirely by reference to the unit agreement with respect to the units of any particular series. The specific terms of any series of units will be described in the applicable prospectus supplement or free writing prospectus. If so described in a particular prospectus supplement or free writing prospectus, the specific terms of any series of units may differ from the general description of terms presented below.

As specified in the applicable prospectus supplement, we may issue units consisting of one or more shares of common stock, shares of preferred stock, debt securities, warrants or any combination of such securities.

The applicable prospectus supplement will specify the following terms of any units in respect of which this prospectus is being delivered:

the terms of the units and of any of the shares of common stock, shares of preferred stock, debt securities, or warrants comprising the units, including whether and under what circumstances the securities comprising the units may be traded separately;

a description of the terms of any unit agreement governing the units;

if appropriate, a discussion of material U.S. federal income tax considerations; and

a description of the provisions for the payment, settlement, transfer or exchange of the units.

DESCRIPTION OF OVERALLOTMENT PURCHASE RIGHTS

We summarize below some of the provisions that will apply to the overallocation purchase rights unless the applicable prospectus supplement provides otherwise. This summary may not contain all information that is important to you. The complete terms of the overallocation purchase rights will be contained in the applicable overallocation purchase rights certificate and overallocation purchase rights agreement. These documents have been or will be included or incorporated by reference as exhibits to the registration statement of which this prospectus is a part. You should read the overallocation purchase rights certificate and the overallocation purchase rights agreement. You should also read the prospectus supplement, which will contain additional information and which may update or change some of the information below.

General

We may issue, together with common or preferred stock or warrants as units or separately, overallocation purchase rights for the purchase of shares of our common or preferred stock or warrants. The terms of each overallocation purchase right will be discussed in the applicable prospectus supplement relating to the particular series of overallocation purchase rights. The form(s) of certificate representing the overallocation purchase rights and/or the overallocation purchase right agreement, will be, in each case, filed with the SEC as an exhibit to a document incorporated by reference in the registration statement of which this prospectus is a part on or prior to the date of any prospectus supplement relating to an offering of the particular overallocation purchase right. The following summary of material provisions of the overallocation purchase rights and the overallocation purchase right agreements is subject

to, and qualified in their entirety by reference to, all the provisions of the overallotment purchase rights agreement and overallotment purchase rights certificate applicable to a particular series of overallotment purchase rights.

The prospectus supplement relating to any series of overallotment purchase rights that are offered by this prospectus will describe, among other things, the following terms to the extent they are applicable to that series of overallotment purchase rights:

the procedures and conditions relating to the exercise of the overallotment purchase rights;

the number of shares of our common or preferred stock or warrants, if any, issued with the overallotment purchase rights;

the date, if any, on and after which the overallotment purchase rights and any related shares of our common or preferred stock or warrants will be separately transferable;

the offering price of the overallotment purchase rights, if any;

the number of shares of our common or preferred stock or warrants which may be purchased upon exercise of the overallotment purchase rights and the price or prices at which the shares or warrants may be purchased upon exercise;

the date on which the right to exercise the overallotment purchase rights will begin and the date on which the right will expire;

a discussion of the material United States federal income tax considerations applicable to the exercise of the overallotment purchase rights;

anti-dilution provisions of the overallotment purchase rights, if any;

call provisions of the overallotment purchase rights, if any; and

any other material terms of the overallotment purchase rights.

Each overallotment purchase right may entitle the holder to purchase for cash, or, in limited circumstances, by effecting a cashless exercise for, the number of shares of our common or preferred stock or warrants at the exercise price that is described in the applicable prospectus supplement. Overallotment purchase rights will be exercisable during the period of time described in the applicable prospectus supplement. After that period, unexercised overallotment purchase rights will be void. Overallotment purchase rights may be exercised in the manner described in the applicable prospectus supplement.

A holder of an overallotment purchase right will not have any of the rights of a holder of our common or preferred stock before the stock is purchased upon exercise of the overallotment purchase right. Therefore, before an overallotment purchase right is exercised, the holder of the overallotment purchase right will not be entitled to receive any dividend payments or exercise any voting or other rights associated with shares of our common or preferred stock which may be purchased when the overallotment purchase right is exercised.

Transfer Agent and Registrar

The transfer agent and registrar, if any, for any overallotment purchase rights will be set forth in the applicable prospectus supplement.

PLAN OF DISTRIBUTION

We may sell the securities being offered hereby in one or more of the following ways from time to time:

through agents to the public or to investors;

to underwriters for resale to the public or to investors;

negotiated transactions;

block trades;

directly to investors; or

through a combination of any of these methods of sale.

As set forth in more detail below, the securities may be distributed from time to time in one or more transactions:

at a fixed price or prices, which may be changed;

at market prices prevailing at the time of sale;

at prices related to such prevailing market prices; or

at negotiated prices.

We will set forth in a prospectus supplement the terms of that particular offering of securities, including:

the name or names of any agents or underwriters;

the purchase price of the securities being offered and the proceeds we will receive from the sale;

any over-allotment options under which underwriters may purchase additional securities from us;

any agency fees or underwriting discounts and other items constituting agents' or underwriters' compensation;

any initial public offering price;

any discounts or concessions allowed or reallocated or paid to dealers; and

any securities exchanges or markets on which such securities may be listed.

Only underwriters named in the prospectus supplement are underwriters of the securities offered by the prospectus supplement.

If underwriters are used in an offering, we will execute an underwriting agreement with such underwriters and will specify the name of each underwriter and the terms of the transaction (including any underwriting discounts and other terms constituting compensation of the underwriters and any dealers) in a prospectus supplement. The securities may be offered to the public either through underwriting syndicates represented by managing underwriters or directly by one or more investment banking firms or others, as designated. If an underwriting syndicate is used, the managing underwriter(s) will be specified on the cover of the prospectus supplement. If underwriters are used in the sale, the offered securities will be acquired by the underwriters for their own accounts and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. Any public offering price and any discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time. Unless otherwise set forth in the prospectus supplement, the obligations of the underwriters to purchase the offered securities will be subject to conditions precedent and the underwriters will be obligated to purchase all of the offered securities if any are purchased.

We may grant to the underwriters options to purchase additional securities to cover over-allotments, if any, at the public offering price, with additional underwriting commissions or discounts, as may be set forth in a related prospectus supplement. The terms of any over-allotment option will be set forth in the prospectus supplement for those securities.

If we use a dealer in the sale of the securities being offered pursuant to this prospectus or any prospectus supplement, we will sell the securities to the dealer, as principal. The dealer may then resell the securities to the public at varying prices to be determined by the dealer at the time of resale. The names of the dealers and the terms of the transaction will be specified in a prospectus supplement.

We may sell the securities directly or through agents we designate from time to time. We will name any agent involved in the offering and sale of securities and we will describe any commissions we will pay the agent in the prospectus supplement. Unless the prospectus supplement states otherwise, any agent will act on a best-efforts basis for the period of its appointment.

We may authorize agents or underwriters to solicit offers by institutional investors to purchase securities from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. We will describe the conditions to these contracts and the commissions we must pay for solicitation of these contracts in the prospectus supplement.

In connection with the sale of the securities, underwriters, dealers or agents may receive compensation from us or from purchasers of the securities for whom they act as agents in the form of discounts, concessions or commissions. Underwriters may sell the securities to or through dealers, and those dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters or commissions from the purchasers for whom they may act as agents. Underwriters, dealers and agents that participate in the distribution of the securities, and any institutional investors or others that purchase securities directly and then resell the securities, may be deemed to be underwriters, and any discounts or commissions received by them from us and any profit on the resale of the securities by them may be deemed to be underwriting discounts and commissions under the Securities Act.

We may provide agents and underwriters with indemnification against particular civil liabilities, including liabilities under the Securities Act, or contribution with respect to payments that the agents or underwriters may make with respect to such liabilities. Agents and underwriters may engage in transactions with, or perform services for, us in the ordinary course of business.

In addition, we may enter into derivative transactions with third parties (including the writing of options), or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with such a transaction, the third parties may, pursuant to this prospectus and the applicable prospectus supplement, sell securities covered by this prospectus and the applicable prospectus supplement. If so, the third party may use securities borrowed from us or others to settle such sales and may use securities received from us to close out any related short positions. We may also loan or pledge securities covered by this prospectus and the applicable prospectus supplement to third parties, who may sell the loaned securities or, in an event of default in the case of a pledge, sell the pledged securities pursuant to this prospectus and the applicable prospectus supplement. The third party in such sale transactions will be an underwriter and will be identified in the applicable prospectus supplement or in a post-effective amendment.

To facilitate an offering of a series of securities, persons participating in the offering may engage in transactions that stabilize, maintain, or otherwise affect the market price of the securities. This may include over-allotments or short sales of the securities, which involves the sale by persons participating in the offering of more securities than have been sold to them by us. In those circumstances, such persons would cover such over-allotments or short positions by

purchasing in the open market or by exercising the over-allotment option granted to those persons. In addition, those persons may stabilize or maintain the price of the securities by bidding for or purchasing securities in the open market or by imposing penalty bids, whereby selling concessions allowed to underwriters or dealers participating in any such offering may be reclaimed if securities sold by them are repurchased in connection with stabilization transactions. The effect of these transactions may be to stabilize or maintain the market price of the securities at a level above that which might otherwise prevail in the open market. Such transactions, if commenced, may be discontinued at any time. We make no representation or prediction as to the direction or magnitude of any effect that the transactions described above, if implemented, may have on the price of our securities.

Unless otherwise specified in the applicable prospectus supplement, each class or series of securities will be a new issue with no established trading market, other than our common stock, which is listed on the NYSE American. We may elect to list any other class or series of securities on any exchange or market, but we are not obligated to do so. It is possible that one or more underwriters may make a market in a class or series of securities, but the underwriters will not be obligated to do so and may discontinue any market making at any time without notice. We cannot give any assurance as to the liquidity of the trading market for any of the securities.

In order to comply with the securities laws of some states, if applicable, the securities offered pursuant to this prospectus will be sold in those states only through registered or licensed brokers or dealers. In addition, in some states securities may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and complied with.

Any underwriter may engage in overallotment, stabilizing transactions, short covering transactions and penalty bids in accordance with the Exchange Act or Regulation M under the Exchange Act. Overallotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Short covering transactions involve purchases of the securities in the open market after the distribution is completed to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a covering transaction to cover short positions. Those activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of these activities at any time.

Any underwriters who are qualified market makers on the NYSE American may engage in passive market making transactions in the securities on the NYSE American in accordance with Rule 103 of Regulation M, during the business day prior to the pricing of the offering, before the commencement of offers or sales of the securities. Passive market makers must comply with applicable volume and price limitations and must be identified as passive market makers. In general, a passive market maker must display its bid at a price not in excess of the highest independent bid for such security. If all independent bids are lowered below the passive market maker's bid, however, the passive market maker's bid must then be lowered when certain purchase limits are exceeded.

LEGAL MATTERS

The validity of the securities offered by this prospectus will be passed upon by Quick Law Group PC, Boulder, Colorado. Certain legal matters will be passed upon for any underwriters, dealers or agents by the law firm identified as counsel to such underwriters, dealers or agents in the applicable prospectus supplement.

Our historical success has resulted largely from the size of our community of active users. We had approximately 29,000 active users at the end of 2007, compared to approximately 26,000 users at the end of 2006. We define an active user as any user who bought or sold an item during the most recent 12-month period. We believe our sales and marketing efforts make inefficient markets more efficient because:

- Our website includes more than 25,000 items on any given day and makes available to our users a wide variety of goods; and
- We bring buyers and sellers together for lower costs than traditional intermediaries.

We have had increased success throughout the years attracting repeat customers. In 2006, approximately 27% of our sales volume was purchased by individuals who purchased through our website four times or more. In 2007 and 2008, the sales volume of individuals who purchased through our website four times or more increased to 31% and 40%, respectively.

Reverse Merger with Insignia Solutions plc

On June 23, 2008, we entered into a series of transactions to effect a reverse merger with Insignia (the “Merger”). These transactions consisted of the following:

- We formed a wholly owned Delaware corporation DollarDays International, Inc. (“DDI Inc.”) and contributed all our assets and liabilities in exchange for 100% of the stock of DDI Inc.
- DDI Inc. merged with Joede, Inc., a Delaware corporation and a wholly-owned subsidiary of Insignia, whereby DDI Inc. was the surviving corporation and a wholly-owned subsidiary of Insignia and Insignia agreed to issue 73,333,333 American Depository Receipts (“ADRs”), which are common stock equivalents of Insignia in exchange for all of the outstanding common stock of DDI Inc.
- The combined entity was to issue an aggregate of 7,682,926 ADRs to Amorim in exchange for cash of \$550,000 and the conversion of note payable of \$450,000.

Under the agreement and plan of Merger, Insignia shareholders maintained approximately 37.1% ownership of the combined company, DDI Inc. shareholders obtained 56.7%, and Amorim obtained 6.2% of the combined company stock. The Merger is accounted for as a reverse merger whereby DDI Inc is the accounting acquirer resulting in a recapitalization of DDI Inc. equity. Accordingly, the Company has retroactively restated all equity and per share amounts for periods prior to the Merger to reflect the equivalent amounts based on the exchange ratio set forth in the Merger Agreement.

As a result of Insignia not having enough authorized capital to issue all of the consideration due pursuant to the Merger Agreement, as a closing condition to the Merger Agreement, Insignia was required to (1) issue 46,978,375 ADSs to Dollardays’ Stockholders at the time of the closing of the Merger, (2) issue 4,921,791 ADSs to Amorim and (3) take all necessary actions, including obtaining stockholder approval as may be necessary, to authorize and deliver the remaining consideration due under the terms of the Merger Agreement.

As of the date of this Report on Form 10-Q, Insignia has issued 44,695,981 ADSs to DollarDays Stockholders and 5,596,984 ADSs to Amorim, representing approximately 49.7% of the issued and outstanding ordinary shares of Insignia. Insignia intends to propose to stockholders, for their approval, to increase the authorized capital of the Company at its next Annual General Meeting so that Insignia can fulfill its obligations to issue the remaining consideration under the terms of the Merger Agreement. On November 12, 2008, our Board of Directors approved an increase of the authorized capital from 110,000,000 ordinary shares to 300,000,000 ordinary shares, which it intends to submit for stockholder approval. Assuming the increased authorized share capital is approved and the remaining Merger consideration is issued, the DollarDays Stockholders will own approximately 63% of the issued and outstanding ordinary shares of Insignia.

Because DDI Inc. is the accounting acquirer, all historical financial information for periods prior to June 23, 2008 are those of DDI Inc. and do not reflect the activities of Insignia.

Liquidity and Capital Resources

Our operating cash outflows were \$803,259 for the nine months ended September 30, 2008, as compared to \$974,007 for the nine months ended September 30, 2007, a decrease of \$170,748. Our operating cash flows improved as gains in operating efficiencies were realized.

Investing cash inflows for the nine months ended September 30, 2008 consisted of \$3,133,692 of cash acquired in connection with our reverse merger with Insignia Solutions plc, net of acquisition costs of approximately \$308,000, partially offset by \$76,674 of investments in additional equipment to support our business operations. We had investments of \$20,545 in additional equipment in the nine months ended September 30, 2007

Financing cash inflows were \$122,500 for the nine months ended September 30, 2008 as compared to \$804,108 for the nine months ended September 30, 2007. Financing cash flows in the nine months ended September 30, 2007 consisted of proceeds from the issuance of long term debt and advances on our line of credit offset by repayments of long-term debt.

Our financial statements have been prepared assuming we will continue as a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. We have a recent history of operating losses and operating cash outflows. These factors raise substantial doubt about our ability to continue as a going concern. The financial statements do not include any adjustments that might result from this uncertainty.

Off-balance sheet arrangements

We did not have any off-balance sheet arrangements at September 30, 2008.

Recent Accounting Pronouncements

In December 2007, the FASB issued SFAS No. 141 (revised 2007) “Business Combinations” (“SFAS 141R”). SFAS 141R establishes the requirements for how an acquirer recognizes and measures the identifiable assets acquired, the liabilities assumed, any non-controlling interest in the acquiree and the goodwill acquired. SFAS 141R requires acquisition costs be expensed instead of capitalized as is required currently under SFAS 141 and also establishes disclosure requirements for business combinations. SFAS 141R applies to business combinations for which the acquisition date is on or after fiscal years beginning on or after December 15, 2008 and, as such, SFAS 141R is effective beginning in the Company’s fiscal year 2009. We are still evaluating the potential impact on our consolidated financial statements upon adoption of SFAS 141R.

In September 2006, the FASB issued SFAS No. 157, “ Fair Value Measurements ” (“SFAS 157”), which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS 157 does not require any new fair value measurements, but provides guidance on how to measure fair value by providing a fair value hierarchy used to classify the source of the information. In February 2008, the FASB issued FASB Staff Position 157-1, “ Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements That Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13. ” (“FSP 157-1”). FSP 157-1 amends SFAS 157 to exclude leasing transactions accounted for under SFAS 13 and related guidance from the scope of SFAS 157. In February 2008, the FASB issued FASB Staff Position 157-2 (“FSP 157-2”), “ Effective Date of FASB Statement 157, ” which delays the effective date of SFAS 157 for all non-financial assets and non-financial liabilities, except for items that are recognized or disclosed as fair value in the financial statements on a recurring basis (at least annually). SFAS 157 is effective for fiscal year 2009, however, FSP 157-2 delays the effective date for certain items to fiscal year 2010. We are evaluating the potential impact on our consolidated financial statements upon adoption of SFAS 157.

In February 2006, the FASB issued SFAS No. 155, “Accounting for Certain Hybrid Financial Instruments — an Amendment of FASB Statements No. 133 and 140” (“SFAS 155”). SFAS 155 allows financial instruments that contain an embedded derivative and that otherwise would require bifurcation to be accounted for as a whole on a fair value basis, at the holders’ election. SFAS 155 also clarifies and amends certain other provisions of SFAS 133 and SFAS 140. SFAS 155 was effective beginning with our 2007 fiscal year. The adoption of SFAS 155 did not have a material effect on our consolidated financial statements.

Item 4T. Controls and Procedures.

Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, of the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)). Based upon that evaluation, our principal executive officer and principal financial officer concluded that, as of the end of the period covered in this report, our disclosure controls and procedures were not effective to ensure that information required to be disclosed in reports filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the required time periods and is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure. These controls were not effective based on the following factors:

- We have recently merged with an entity that maintains accounts in foreign countries with which we are unfamiliar in doing business
- Because of our small size and limited financial resources, we have limited finance staff, who are not likely to be able to maintain a comprehensive knowledge of all relevant elements of changing reporting and accounting requirements, and who may not provide adequate resources in all circumstances to manage the complex accounting of a software company with operations in several countries.
- We have had to rely on contract consulting staff who are less likely to remain with us over the long term.
- Our accounting system and related infrastructure was acquired or built to handle the finances of a company significantly larger than we are currently, and any turnover in our finance staff may lead us to lose the ability to operate the system effectively.

Our management, including our principal executive officer and principal financial officer, does not expect that our disclosure controls and procedures of our internal controls will prevent all error or fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Due to the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected.

We began remediation efforts in 2009 to address deficiencies in our disclosure controls and procedures. We expect most deficiencies to be corrected during 2009.

Changes in Internal Controls Over Financial Reporting

There have not been any changes in our internal controls over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) that occurred during the fiscal quarter ending September 30, 2008 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.
