**Report of Independent Registered Public Accounting Firm**

To the Participants, Investment Plan Committee  
and Benefit Funds Committee of the  
Caterpillar Inc. Tax Deferred Retirement Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Caterpillar Inc. Tax Deferred Retirement Plan (the "Plan") at December 31, 2005, and the changes in net assets available for benefits for the year then ended in conformity with accounting principles generally accepted in the United States

of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held at end of year is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**Caterpillar Inc.**  
**Tax Deferred Retirement Plan**  
**Notes to Financial Statements**  
**December 31, 2005**

**1. Plan Description**

The following description of the Caterpillar Inc. Tax Deferred Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

**General**

The Plan is a contributory defined contribution plan established by Caterpillar Inc. (the "Company") to enable eligible employees of the Company and its subsidiaries (the "participating employers"), which adopt the Plan to accumulate funds for retirement. The Plan was established effective December 15, 2004 but was first funded beginning in 2005. There were no plan assets or liabilities at December 31, 2004, nor any activity in the Plan from the effective date to December 31, 2004. The Plan is subject to the provisions of the Employee Retirement Income Security Act, as amended ("ERISA").

**Participation**

Employees of the participating employers who are covered under collective bargaining agreements to which the Plan is extended who meet certain age, service and citizenship or residency requirements are eligible to participate in the Plan. Each employee will be eligible if the employee was hired on or after a specific date varying by union (primarily January 10, 2005) but is not eligible to participate in the Company's Tax Deferred Savings Plan. Participating eligible employees (the "participants") elect to defer a portion of their compensation until retirement.

**Participant Accounts**

Accounts are separately maintained for each participant. The participant's account is credited with the participant's contribution as defined below, employer match contributions and an allocation of (a) employer non-elective contributions and (b) Plan earnings. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Participant Loans**

The Plan provides for participant loans against eligible participants' account balances. Eligible participants obtain participant loans by filing a loan application with the Plan's record keeper and receiving approval thereof. Loan amounts are generally limited to the lesser of \$50,000 or 50 percent of the individual participant's vested account balance, with certain regulatory restrictions. Each loan shall specify a repayment period that shall not extend beyond five years. However, the five-year limit shall not apply to any loan used to acquire any dwelling unit, which within a reasonable time is to be used (determined at the time the loan is made) as the principal residence of the participant.

Loans bear interest at the prime interest rate plus 1 percent, as determined at the time of loan origination. Repayments, including interest, are made through after-tax payroll deductions and are credited to the individual participant's account balance. At December 31, 2005, participant loans have various maturity dates through August 28, 2015, with varying interest rates ranging from 5 to 7.75 percent.

### **Contributions**

Participant contributions are made through a pretax compensation deferral as elected by the participants and are contributed to the Plan by the participating employers. Participants who are at least 50 years old by the end of the calendar year are allowed by the Plan to make a catch-up contribution for that year. Contributions are subject to certain limitations set by the Internal Revenue Code.

Page 7 of 14

---

Employer matching contributions are 50 percent of elective Participant contributions up to a maximum of 6 percent of compensation. Participants also receive an annual employer non-elective contribution equal to 3 percent of compensation for the Plan year, subject to eligibility requirements.

Participants direct the investments of their contributions and employer match contributions into various investment options offered by the Plan as discussed in Note 3, including a self-directed fund option. Participants may change their contribution elections and prospective investment elections on a daily basis and reallocate the investment of their existing account balance every seven business days.

### **Vesting and Distribution Provisions**

Participants are immediately fully vested in their participant contributions and earnings thereon. Participants become fully vested in Company matching and non-elective contributions and the earnings thereon upon completion of three years of service with the Company. Upon termination of employment for any reason, including death, retirement or total and permanent disability, or upon Plan termination, the balance in participants' accounts is distributable in a single lump sum cash payment unless the participant (or beneficiary) elects to receive Company shares in kind. The value of any full or fractional shares paid in cash will be based upon the average price per share the Trustee receives from sales of Company shares for the purpose of making the distribution. Participants also have the option to leave their vested account balance in the Plan, subject to certain limitations.

### **Administration**

The Plan is administered by Caterpillar Inc., who is responsible for non-financial matters, and the Benefit Funds Committee of Caterpillar Inc., which is responsible for financial aspects of the Plan. Caterpillar Inc. and the Benefit Funds Committee have entered into a trust agreement with The Northern Trust Company (the "Trustee") to receive contributions, administer the assets of the Plan and distribute withdrawals pursuant to the Plan.

### **Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan at any time to terminate the Plan subject to provisions of ERISA and the provisions of the collective bargaining agreements. In the event of Plan termination, Plan assets will be distributed in accordance with the provisions of the Plan.

### **Plan Qualification**

The Plan is intended to meet the tax qualification requirements of Section 401(a) of the Internal Revenue Code of 1986, as amended. On September 15, 2005, Caterpillar submitted the Plan to the Internal Revenue Service (the "IRS") for a determination regarding its tax-qualified status. As of the date of this filing, the IRS has not made a determination regarding the Plan. The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Therefore, no provision for income taxes has been included in the Plan's financial statements.

## 2. Summary of Significant Accounting Policies

### Basis of Accounting

The Plan's accounts are maintained on the accrual basis of accounting.

### Investments

The Plan's interest in the Caterpillar Investment Trust is valued as described in Note 4. Investments included in the self-directed fund option are valued at quoted market prices which, for registered investment companies, represent the net asset value of shares held by the Plan at year-end. Participant loans are valued at estimated fair value consisting of principal and any accrued interest. Interest on investments is recorded as earned. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis.

Page 8 of 14

---

### Administrative Expenses

Administrative costs, including trustee fees and certain investment costs, are paid by the Company.

### Withdrawals

Withdrawals are recorded when paid.

### Transfers

Transfers to/from other plans generally represent account balance transfers for participants who transfer from one plan to another plan primarily due to employment status changes.

### Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein. Actual results could differ from those estimates. The Company believes the techniques and assumptions used in establishing these amounts are appropriate.

### Risks and Uncertainties

The Plan provides for various investment options in any combination of stocks, bonds, fixed income securities, mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits. Approximately 32 percent of the Plan's investments are invested in Caterpillar Inc. Common Stock.

## 3. Investment Programs

The majority of the Plan's assets are invested in the Caterpillar Investment Trust as discussed in Note 4, except for the self-directed fund option and participant loans receivable.

Participants can elect to have their contributions invested in any combination of the following investment fund options:

\*Caterpillar Stock Fund

\*Preferred Stable Principal Fund

\*Preferred Small Cap Growth Fund

\*US Equity Broad Index Fund

- |  |                                      |
|--|--------------------------------------|
| Preferred Short-Term Government Securities |                                      |
| *Fund                                      | *Preferred Mid Cap Growth Fund       |
| *Preferred Money Market Fund               | *Preferred International Growth Fund |
| *Preferred Value Fund                      | *Model Portfolio - Income            |
|  | Model Portfolio - Conservative       |
| *Preferred International Value Fund        | *Growth                              |
| *Preferred Large Cap Growth Fund           | *Model Portfolio - Moderate Growth   |
| *Preferred Asset Allocation Fund           | *Model Portfolio - Growth            |
| *Preferred Fixed Income Fund               |                                      |

The Model Portfolios contain a specific mix of the Plan's core investments. Each portfolio's mix of stocks and bonds is automatically rebalanced on the last business day of each calendar quarter. The targeted percentage of stocks and bonds in each of the Model Portfolios is as follows:

*Income	20% stocks and 80% bonds
*Conservative Growth	40% stocks and 60% bonds
*Moderate Growth	60% stocks and 40% bonds
*Growth	80% stocks and 20% bonds

The Caterpillar Stock Fund consists of Caterpillar Inc. common stock and a small amount of cash equivalents.

In addition, a self-directed fund option allows participants to invest in various other investments outside of the standard Plan options. Harris Direct serves as custodian for funds invested through this self-directed fund option. Investments in the self-directed brokerage account consist primarily of registered investment companies and net investment income consists primarily of net appreciation (depreciation) in the fair value of investments in registered investment companies.

#### 4. Master Trust

A portion of the Plan's investments are in the Caterpillar Investment Trust (the "Master Trust"), which was established for the investment of the Plan and other Company sponsored retirement plans. These plans pool their investments in the Master Trust in exchange for a percentage of participation in the Trust. The assets of the Master Trust are held by The Northern Trust Company (the "Trustee").

The percentage of the Plan's participation in the Master Trust was determined based on the December 31, 2005 fair values of net assets, as accumulated by the Trustee for the investment fund options chosen by participants of each plan. At December 31, 2005, the Plan's interest in the net assets of the Master Trust was 0.06 percent.

The Master Trust's investments are stated at fair value. Common stock is valued at quoted market prices. Shares of registered investment companies are valued at quoted market prices that represent the net asset value of shares held by the Master Trust at year-end. Common and collective trust investments are stated at unit value, which represents the fair value of the underlying investments.

The net investment income or loss of the Master Trust is reflected in the financial statements of the Plan based on the actual earnings of each investment fund as allocated to the Plan based on average investment balances throughout the year.

Details of the Master Trust net assets and significant components of the net investment income of the Master Trust are as follows:

<i>(in thousands of dollars)</i>	<b>2005</b>
<b>Investments, at fair value</b>	
Caterpillar Inc. common stock, 39,883,224 shares	\$ 2,304,054
Registered investment companies	1,626,639
Common and collective trusts	424,008
	<u>4,354,701</u>
Dividend and interest receivable	80
Other, net - pending trade sales	8,443
Net assets of the Master Trust	<u>\$ 4,363,224</u>
Plan's interest in the Master Trust	<u>\$ 2,686</u>

<i>(in thousands of dollars)</i>	<b>2005</b>
<b>Investment income</b>	
Dividends	16,575
Net appreciation in fair value of investments:	
Common stock	380,583
Registered investment companies	101,749
Common and collective trusts	14,817
Net Master Trust investment income	<u>\$ 513,724</u>
Plan's interest in net Master Trust investment income	<u>\$ 128</u>

## 5. Related Parties

The Trustee is authorized, under contract provisions and by exemption under 29 CFR 408(b) of ERISA regulations, to invest in securities under its control and in securities of the Company.

The Master Trust invests mainly in the Preferred Group of Mutual Funds, registered investment companies that are sponsored by Caterpillar Investment Management Ltd. (CIML), a wholly-owned subsidiary of Caterpillar Inc. The investment options available to the participants are summarized in Note 3 and include the Caterpillar Stock Fund. The Master Trust also invests in the US Equity Broad Index Fund, which is sponsored and managed by The Northern Trust Company, the Trustee for the Master Trust.

CIML manages the Preferred Short-Term Government Securities Fund while all other funds are managed by unrelated investment managers. Caterpillar Securities, Inc., a wholly-owned subsidiary of CIML, distributes the shares of the registered investment companies to the Master Trust.

**6. Subsequent Event**

In October 2005, Caterpillar made the strategic decision to exit the investment management business. As a result, the Benefit Funds Committee, which oversees the financial aspects of the Company’s savings and investment plans, has selected new investment options for the Plans to replace the Preferred Group of Mutual Funds. The transition of the investment or participant account balances to the new investment options was implemented after the close of the market effective May 26, 2006. The new investment options are similar in nature to those listed in Note 3. Participant accounts and future deferral elections were automatically transferred to the most similar new investment option.
