PROXY STATEMENT

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors (the "Board") of Intergraph Corporation, to be voted at the Annual Meeting of Shareholders to be held May 16, 2002, and at any and all adjournments or postponements thereof. Proposals 1 through 4 (the "Proposals") inclusive will be presented at the Meeting by management.

With regard to Proposal 1, the form of proxy permits approval of all nominees or withholding of votes as to all nominees or specific nominees for director, and permits approval, disapproval, or abstention with regards to Proposals 2 through 5 inclusive. If the enclosed form of proxy is properly executed, returned, and not revoked, it will be voted in accordance with the specifications, if any, made by the shareholder and, if specifications are not made, will be voted FOR the nominees named in this Proxy Statement to the Company's Board of Directors, FOR approval and adoption of the amendment to the Company's certificate of incorporation to eliminate the ability of shareholders to act by written consent in lieu of a meeting, FOR approval of the Intergraph Corporation 2002 Stock Option Plan, and FOR the ratification of the appointment of Ernst & Young LLP as the Company's independent auditors for the current year. It is not expected that any matter not referred to herein will be presented for action at the Meeting. If any other matters are properly brought before the Meeting, including without limitation a motion to adjourn such Meeting to another time and/or place for the purpose of, among other things, permitting dissemination of information regarding material developments relating to any of the Proposals, or soliciting additional proxies in favor of the approval of any of the Proposals, the persons named on the accompanying proxy card will vote the shares represented by such proxy upon such matters in their discretion; provided, however, that if the Company proposes to adjourn the Meeting for the purpose of soliciting additional votes in favor of any of the Proposals, and seeks a vote of shareholders on such adjournment, no proxy that is voted against Proposal 5 (or on which a shareholder elects to abstain on such matter) will be voted in favor of any adjournment for the purpose of soliciting additional proxies in favor of any Proposal. Any other proxy will be deemed to have voted FOR such adjournment proposal if such proposal to adjourn is made by the Company. Should the

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

Meeting be reconvened, all proxies will be voted in the same manner as such proxies would have been voted when the Meeting was originally convened, except for the proxies effectively revoked or withdrawn prior to the time proxies are voted at such reconvened Meeting.

The cost of solicitation of proxies will be borne by the Company. Proxies may be solicited by directors, officers, or regular employees of the Company in person or by telephone or mail. In addition, the Company has retained Georgeson Shareholder Communications to assist in soliciting proxies for a fee estimated at \$40,000, plus reimbursements of reasonable out-of-pocket expenses. The Company requests that brokerage houses and other custodians, nominees and fiduciaries forward solicitation materials to the beneficial owners of shares of the Company's common stock held of record by such persons and the Company may reimburse such brokers and other fiduciaries for their reasonable out-of-pocket expenses incurred when the solicitation materials are forwarded. On or about April 5, 2002, the Company will commence mailing this Proxy Statement, the enclosed form of proxy, and the attached Notice to holders of its common stock.

Shareholders who sign proxies have the right to revoke them at any time before they are voted by filing with the Secretary of the Company either an instrument revoking the proxy or a duly executed proxy bearing a later date, or by attending the Meeting and voting in person.

The close of business on March 20, 2002, has been fixed as the record date for the determination of shareholders entitled to notice of and to vote at the Meeting.

GENERAL

The holders of a majority of outstanding shares of Common Stock as of the record date must be present in person or be represented by proxy to constitute a quorum and act upon the proposed business. Failure of a quorum to be represented at the Meeting will necessitate an adjournment or postponement and will subject the Company to additional expense.

Proposal 1 discussed in this Proxy Statement requires the affirmative vote of a plurality of the votes cast at the Meeting. Proposal 2 discussed in this Proxy Statement requires the affirmative vote of a majority of all shares outstanding as of the record date for the Meeting. Proposals 3 and 4 discussed in this Proxy Statement, and, if applicable, Proposal 5, require the affirmative vote of the holders of a majority of the outstanding shares represented at the Meeting and entitled to vote thereon. The Board of Directors recommends that you vote FOR each nominee for director and FOR Proposals 2 through 5 presented in this Proxy Statement.

Votes are counted by the Company's transfer agent. The Company's certificate of incorporation and Bylaws contain no provisions concerning the treatment of abstentions and broker non-votes. In accordance with Delaware law, abstentions and broker non-votes will have no effect on the outcome of Proposal 1. Abstentions and broker non-votes will have the same effect as a vote cast against Proposal 2. Abstentions will have the same

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

effect as a vote cast against Proposals 3, 4, and 5, and broker non-votes will have no effect on the outcome of Proposals 3, 4, and 5. Both abstentions and broker non-votes will be included in the determination of the presence of a quorum.

During the year ended December 31, 2001, the Board of Directors held seven meetings, the Audit Committee held five meetings, the Nominating Committee held three meetings, and the Compensation Committee held two meetings. All of the current directors were present for 75% or more of the aggregate Board and committee meetings for the periods during 2001 in which they served, except for Dr. Greenwood who was present for 71% of the aggregate meetings.

The Audit Committee consists of Mrs. Green, Dr. Greenwood, and Mr. Lee. Mr. McDonald and Mr. Moquin rotated off the Audit Committee effective July 30, 2001. Each member of the Audit Committee is independent within the meaning of the listing standards of the National Association of Securities Dealers. Mr. McDonald was appointed by the Board in 2000 as the lead independent director to serve as coordinator of the activities of the Board's independent directors. Edgar Filing: INTERGRAPH CORP - Form DEF 14A

to effectively and responsibly perform their duties, and coordinating and moderating executive sessions of the Board's independent directors.

The purpose of the Compensation Committee is to recommend and oversee management compensation, including that of the Chief Executive Officer. Additional information regarding the functions performed by the Compensation Committee and the determination of management compensation is included in the "Report of the Compensation Committee" following.

The purpose of the Nominating Committee is to consider and recommend nominees for director, including those recommended by shareholders of the Company. Any recommendations of a nominee should be submitted to John R. Wynn, Secretary, Intergraph Corporation, Huntsville, Alabama 35894-0001. Information regarding the functions performed by the Audit Committee is set forth in the "Report of the Audit Committee" following. The Audit Committee is governed by a written charter that was amended by the Board of Directors on March 4, 2002. For a copy of the charter, refer to Appendix A in this Proxy Statement.

Report of the Audit Committee

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. Management has primary responsibility for the Company's financial statements and reporting process, including the systems of internal controls. In light of recent developments, the Audit Committee reviewed its charter and determined that it was appropriate to amend the charter to include among its specific responsibilities, a review and discussion with management and the independent auditors of the critical accounting policies used in the annual audited financial statements, as well as a discussion with the independent auditors of all matters affecting the quality of the Company's financial reporting and the fairness of the presentation in the financial statements of the financial condition and financial risks of the Company. In fulfilling its oversight responsibilities under this charter, the Committee reviewed with management the Company's audited financial statements included in the 2001 Annual Report, including a discussion of the quality and acceptability of accounting policies and principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

The Company's independent auditors are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles. The Committee reviewed with the independent auditors their judgments as to the quality and acceptability of the Company's accounting policies and principles and such other matters as are required to be discussed with the Committee under generally accepted auditing standards. In addition, the Committee has discussed independence of the auditors from management and the Company, including the matters in the written disclosures by the Independence Standards Board, and considered

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

the compatibility of non-audit services with the auditors' independence.

The Committee discussed with the Company's internal and independent auditors the overall scope and plans for their respective audits. The Committee meets with the internal and independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting.

In reliance on the reviews and discussions referred to above, the Committee recommended and the Board of Directors has approved, the Company's audited financial statements in the Annual Report on Form 10-K for the year ended December 31, 2001, for filing with the Securities and Exchange Commission. The Committee and the Board have also recommended, subject to shareholder approval, the selection of the Company's independent auditors (Proposal 3 in this Proxy Statement).

Members of the Audit Committee:

Linda L. Green, Chair
Thomas J. Lee
Lawrence R. Greenwood

The foregoing report of the Audit Committee does not constitute soliciting material and shall not be deemed incorporated by reference by any general statement incorporating by reference the proxy statement into any filing by the Company under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent that the Company specifically incorporates this information by reference, and shall not otherwise be deemed filed under such acts.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's officers, directors, and persons who own more than ten percent of a registered class of the Company's equity securities, if any, to file reports of ownership and changes in ownership with the SEC and, in the case of the Company, with The Nasdaq Stock Market. Officers, directors, and greater than ten percent shareholders are required by SEC regulation to furnish the Company with copies of all Section 16(a) forms they file.

Based solely on review of the copies of such forms and any amendments thereto furnished to the Company, or on written representations that no forms were required, the Company believes that during the year ended December 31, 2001, all Section 16(a) filing requirements applicable to its officers, directors, and greater than ten percent beneficial owners were met, except that Preetha Pulusani, an Executive Vice President of the Company and President of Intergraph Mapping and GIS Solutions, filed one late report covering one transaction.

Stock Option Grants, Exercises and Year-End Values

Grants. The Company from time to time awards stock options to key employees, including executive officers and directors, pursuant to stock option plans approved by the shareholders of the Company. The following table sets forth information concerning options granted under these plans to the Named Executive Officers during the year ended December 31, 2001.

OPTION GRANTS (1)

Name	Number of Securities Underlying Options Granted (#)	Percent of Total Options Granted to Employees in 2001	Exercise Price per Share	Expiration Date	Grant Date Present Value (2)
William E. Salter, President, Intergraph Government Solutions	40,000	17%	\$11.88	8/13/2011	\$280,185
Gerhard Sallinger, President, Process, Power & Offshore	25,000	11%	\$10.89	10/30/2011	\$158,754

(1) Options were granted at fair market value on the date of grant. Fair market value is the closing sale price of the Company's stock as reported on The Nasdaq Stock Market. Options first become exercisable two years from the date of grant and vest at a rate of 25% per year from that point, with full vesting on the fifth anniversary of the grant date. Options are granted for a term of ten years from the date of grant.

(2) The grant date present value of the options was determined

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

using the Black-Scholes option-pricing model. Estimated values determined using this model are based on the market value of the stock on the date of grant, the exercise price of the option, and on assumptions as to the risk-free rate of return, volatility of the Company's stock price, and expected term of the option. Dividend yield is excluded from the calculation since it is the present policy of the Company to retain all earnings to finance operations. Assumptions used in valuing the grants included an expected volatility of 73% and an expected option life of 1.09 years after vest date. Risk-free rates of return were determined separately for each of the serial vesting periods of the options and ranged from 3.32% to 4.57%.

The actual value, if any, an executive may realize from the exercise of a stock option will equal the excess of the stock price over the exercise price on the date the option is exercised. There is no assurance that the value realized by an executive will be at or near the value estimated using the Black-Scholes model, or that any value will be realized.

Exercises. There were no options exercised by any of the Named Executive Officers during the year ended December 31, 2001.

Year-End Values. The following table sets forth the number of securities underlying unexercised stock options held by the Named Executive Officers at December 31, 2001.

Name	Number of Securities Underlying Unexercised Options at Year End (#)		Value of Unexercised In-the-Money Options at Year End (\$)	
	Exercisable	Unexercisable	Exercisable	Unexercisable
James F. Taylor Jr., Chairman of the Board and Chief Executive Officer	10,000	10,000	83,650	83,650
William E. Salter, President, Intergraph Government Solutions	---	40,000	---	74,400
Gerhard Sallinger, President, Process, Power & Offshore	6,250	53,750	42,825	305,255
Graeme J. Farrell, Executive Vice President, Asia Pacific Operations	16,250	23,750	68,820	191,715
Roger O. Coupland, President, Intergraph Public Safety, Inc.	20,000	40,000	109,800	328,975

The value of unexercised in-the-money options is determined as the excess of the closing sale price of the Company's Common Stock as reported on The Nasdaq Stock Market on December 31, 2001, over the exercise prices of the options held by the Named Executive Officers.

Compensation of Directors

Directors who are also employees of the Company do not receive additional compensation for their service as directors. Non-employee directors receive an annual retainer of \$20,000, paid in quarterly installments, plus \$500 for each Board and committee meeting attended. Other compensation includes mileage paid at \$.30 per mile for each member whose home is more than 25 miles from Intergraph headquarters and \$50 for each hour traveled, computed round trip. In addition, any commercial travel expenses are fully reimbursed. All directors received the full annual retainer in 2001, except for Mrs. Green who received \$10,000 for her period of service after election to the Board of Directors in May 2001.

The Intergraph Corporation Nonemployee Director Stock Option Plan was approved at the 1998 Annual Shareholders' Meeting. Under this plan, any new non-employee director is granted an option to purchase 3,000 shares of the Company's Common Stock upon his or her first election to the Board. At each annual meeting of shareholders, each non-employee director re-elected to the Board is granted an option to purchase an additional 1,500 shares of the Company's Common Stock. The exercise price of each option granted is the fair market value of the Company's stock on the date of grant. Options are granted for a term of ten years from the date of grant. Options first become exercisable one year from the date of grant and vest at a rate of 33% per year from that point, with full vesting on the third anniversary of the date of grant.

Employment Contracts

Mr. Farrell holds an employment agreement with the Company and one of its Australian business entities that provides him a fixed base salary, supplemental health insurance, supplemental defined contribution pension and life insurance benefits, and expense allowances for a vehicle and other personal expense items. The contract is open-ended, but may be terminated by either party with three months' written notification. The termination provisions of his contract provide for severance benefits calculated as a function of his length of service under the agreement up to a maximum of two years' base salary.

Mr. Sallinger holds an employment agreement with one of the Company's European business entities. The employment agreement provides him a fixed base salary, a permanent advance for travel expenses, and a vehicle. The contract is open-ended, but may be terminated by either party giving a notice of six weeks prior to the end of a quarter. A contract penalty equal to the last gross monthly salary may apply if the employment relationship is terminated prematurely.

Report of the Compensation Committee

The Compensation Committee of the Board of Directors is composed of all non-employee directors. The following Committee report reflects the Committee's activities in 2001 with regard to executive compensation. The Committee held two meetings wherein it made compensation decisions based upon recommendations by the Company's Chief Executive Officer ("CEO"), as well as based upon

its own subjective evaluations. This report also describes the basis for compensation recommendations for 2001, and the objectives that the Committee followed in reviewing and determining executive compensation for 2001, as well as for future years.

Committee Charter and Objectives

In accordance with its Charter, the responsibilities of the Committee include the oversight of the Company's executive officer compensation policies and practices. In fulfilling these responsibilities, the Committee conducts an annual review of the Company's executive compensation programs and policies in order to attain the following objectives:

- o offer fair and competitive base salaries consistent with the Company's position in the markets in which it competes,
- o reward executive officers for corporate and individual performance through incentive bonus programs,
- o encourage future performance through the use of long-term incentives such as stock options, and
- o encourage executive officers to acquire and retain ownership of the Company's Common Stock.

The Company's executive compensation programs and policies are intended to enable the Company to attract, retain, and motivate the highest quality of management talent. To achieve this objective, the Committee utilizes annual base salaries together with annual and long-term incentives tied to corporate performance and increases in shareholder value. As a result, the Committee works closely with the Administrative Committee of the Company's Employee Stock Option Plan ("the Administrative Committee") in the provision of incentive stock options and non-qualified stock options to executive officers and other key employees of the Company. The Administrative Committee reviews and determines the award of individual employee stock option grants under the Company's Employee Stock Option Plan. See "Compensation Committee Interlocks and Insider Participation" following for a summary of the options granted to the Company's executive officers and directors during 2001.

Executive Officer Compensation for 2001

For 2001, the CEO was responsible for formulating a recommendation for the compensation of all other executive officers of the Company based on the authority and discretion granted the CEO by the Board of Directors. The CEO and the Committee also reviewed and considered independent industry survey results concerning the compensation practices of similarly situated companies, including, where available, specific regional, industry, and competitor compensation data (including that of the peer companies in the performance graph following this report). Based upon a review of the information received, their own business experience, and the recommendations of the CEO, the Committee approved the compensation recommendations of the CEO.

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

Each of the Business Segment Presidents participates in a formal bonus plan that is tied to the financial performance of the segment. There is no bonus until the Executive reaches the income from operations targets established in the segment's Annual Operating Plan. As the Executive exceeds the planned performance, bonuses are earned. The bonus is capped at twice the Executives' annual salary. There is no formal cash bonus plan for executive officers that are not responsible for a segment or a geographic region, but exceptional individual performance is occasionally rewarded by a cash bonus. Overall corporate performance neither guarantees nor precludes the award of bonuses, but may influence the amount of such bonuses. Sales executives are paid a base salary that approximates 70% of the executives' total potential annual compensation. The base salary amount may be supplemented in amounts up to an additional 30% of total potential compensation if certain order and revenue objectives are met.

The granting of stock options to purchase shares of the Company's stock over a ten-year period at a specified price is the primary means of providing long-term incentive to executive officers to perform in a manner that benefits themselves, the Company, and the Company's shareholders. There were no standard performance factors, applicable to either the individual and his or her job performance or the financial performance of the Company, considered by the Administrative Committee. Decisions to award stock options were based upon subjective evaluations of job performance and expected contribution to the Company. Stock options have also been used to attract new employees. Previous option awards are considered when awarding new options. With respect to incentive stock options, such options may not exceed the amounts permitted under applicable Internal Revenue Code provisions. The Committee reviewed and approved the recommendations of the CEO with regard to the award of stock options, for both existing executive officers' compensation plans as well as new executive officers retained during 2001.

In the past, the Company has on occasion entered into employment agreements with key executives. Such agreements specified the terms of employment, including duration, separation benefits, and compensation. Under most circumstances, separation amounts do not exceed the balance of compensation due for the remaining unfulfilled term of the agreement. Executives without employment agreements who are terminated through a workforce reduction or job elimination receive severance pay based on standard Company policy applicable to all employees. During 2001, the Committee assimilated all employment agreements existing between the Company and individual employees. The Committee obtained copies of all such employment agreements, in order to determine which agreements remained in effect with Company executive officers. At the end of 2001, only three such employment agreements remained in existence between the Company and executive officers. During 2001, one such agreement expired in accordance with its terms, and a second was exercised when the executive terminated employment with the Company. Additionally, during 2001, an employee of Intergraph (Deutschland) GmbH was promoted to President of the Company's PP&O segment, thereby becoming an executive officer of the Company. Said employee had a preexisting employment agreement with Intergraph (Deutschland) GmbH at the time of his promotion, which will remain effective in his present capacity. The agreement does not address the executive officer's current employment with the Company as

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

President of PP&O. The CEO did not recommend, nor did the Committee approve, any new employment agreements during 2001.

CEO Compensation

There was no change in the compensation of the CEO for 2001. The Committee did not utilize any standard corporate or individual performance factors in its determination of CEO compensation for 2001. The Committee establishes the compensation for the CEO solely on the subjective evaluation of the performance of the CEO and the level of compensation paid to similar executives.

Compensation Committee Interlocks and Insider Participation

The Administrative Committee of the Company's stock option plan, which is appointed by and comprised of all current members of the Board of Directors, may award both incentive stock options and non-qualified stock options to executive officers and other key employees. Members of the Administrative Committee who are also employees of the Company, including James F. Taylor Jr., Chairman of the Board and Chief Executive Officer, and Larry J. Laster, Chief Financial Officer, are eligible to receive options under the Plan. During the year ended December 31, 2001, the Administrative Committee awarded options for a total of 239,000 shares of the Company's Common Stock. Of this total, options for 174,000 shares were awarded to directors and executive officers of the Company, including 9,000 options granted under the Nonemployee Director Stock Option Plan, 65,000 granted to the Named Executive Officers, and 20,000 granted to Mr. Laster.

During the year ended December 31, 2001, no executive officer of the Company served as a director or as a member of the compensation committee, or committee performing equivalent functions, of another business entity.

Performance Graph

The following graph sets forth, for the five-year period ended December 31, 2001, a comparison of the cumulative total shareholder return to the Company's shareholders with that of the Software and Services Index, and that of the Standard & Poor's 500 Stock Index. The Company uses the Media General Computer Software and Services Index as the best representation of the companies with which its business segments compete. The cumulative total return for this index was provided to the Company by Media General Financial Services. Total shareholder return for each was determined by adding a) the cumulative amount of dividends for a given year, assuming dividend reinvestment, and b) the difference between the share price at the beginning and at the end of the year, the sum of which was then divided by the share price at the beginning of such year. The graph assumes \$100 was invested on December 31, 1996.

PROPOSAL 2

AMENDMENT TO CERTIFICATE OF INCORPORATION TO ELIMINATE
THE ABILITY OF SHAREHOLDERS TO ACT BY WRITTEN CONSENT IN LIEU
OF A MEETING

At the Meeting, the shareholders will be asked to approve and adopt an amendment to the certificate of incorporation to eliminate the ability of shareholders to act by written consent in lieu of a meeting, which we refer to as the Proposed Amendment in this Proxy Statement.

Shareholders are urged to read carefully the description and discussion of the Proposed Amendment that follows before voting on this proposal.

If the Proposed Amendment is not approved, the existing certificate of incorporation will remain in effect without amendment. If the Proposed Amendment is approved, the Company intends to amend the certificate of incorporation by filing a certificate of amendment in substantially the form attached hereto as Appendix B (the "Certificate of Amendment") reflecting the Proposed Amendment. The Proposed Amendment would become effective upon the filing of the Certificate of Amendment with the Secretary of State of the State of Delaware. Under Delaware law, the Company's shareholders are not entitled to dissenter's rights with respect to the proposed amendment to the certificate of incorporation. The Board of Directors has reserved the right under Section 242(c) of the Delaware General Corporation Law (the "DGCL") to abandon the Proposed Amendment, notwithstanding approval of such proposal by the shareholders, without further action by the shareholders.

Under Article VIII of the existing certificate of incorporation, the Board of Directors has the power and authority to amend the existing bylaws of the Company. If the Proposed Amendment is approved, the Board of Directors intends to amend and restate the existing bylaws of the Company which were last amended and restated on April 1, 2002, (the "Bylaws") to more closely follow and complement the Proposed Amendment.

The amendment described in Proposal 2 is contained within the Certificate of Amendment set forth in Appendix B to this Proxy Statement, in substantially the form in which it will take effect if the Proposed Amendment is approved by the shareholders. The following description of the amendment contained in the Certificate of Amendment is qualified in its entirety by reference to Appendix B.

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

Pursuant to the DGCL, approval of the Proposed Amendment will require the affirmative vote of a majority of all shares outstanding and entitled to vote as of the record date. In tabulating the vote, abstentions and broker non-votes will have the same effect as a vote cast against the Proposed Amendment. The Board of Directors unanimously recommends that shareholders vote FOR the approval and adoption of the Proposed Amendment.

Description of the Proposed Amendment

Under Section 228 of the DGCL, unless otherwise provided in a corporation's certificate of incorporation, any action required or permitted to be taken by shareholders of a corporation may be taken without a meeting and without a shareholder vote if a written consent setting forth the action to be taken is signed by the holders of shares of outstanding stock having the requisite number of votes that would be necessary to authorize such action at a meeting of shareholders at which all shares entitled to vote thereon were present and voted and is delivered in accordance with the procedures set forth under the DGCL. The Company's certificate of incorporation as currently in effect is silent on the matter of shareholder action by written consent. Accordingly, Delaware law would permit the holders of a majority of the outstanding shares of capital stock of the Company to take such action.

The purpose of the Proposed Amendment is to require that any action to be taken by the Company's shareholders may only be done at a meeting of shareholders duly held upon prior notice. If adopted, shareholders would no longer have the ability to transact business or take action by a consent in writing signed by the holders of at least a majority of the issued and outstanding shares of the Company, without a meeting and without prior written notice.

Reasons for the Proposed Amendment

The Proposed Amendment is not in response to any present effort, of which the Company is aware, to accumulate our Common Stock or to obtain control of the Company. However, the Board of Directors has observed the relatively common use of certain coercive takeover tactics, including tender offers made at less than a full and fair price and the accumulation of substantial capital stock positions as a prelude to a threatened takeover or corporate restructuring, and/or partial tender offers and the related use of "two-tiered" pricing, which may be combined with a proxy contest or consent solicitation, that may lead to the unequal treatment of shareholders and a failure to maximize shareholder value. The Board of Directors is also mindful of the potential impact of current and potential legal proceedings relating to the Company's patents, as well as the significance of the Company's patents to others in the computer industry. The potential for recovery of damages from one or more of these parties could lead one or more of them to seek control of the Company in an effort to end any litigation by the Company against such party or parties before any judgment could be reached on our claims. The Company believes that current or potential litigants of the Company also may, without intending to obtain control of the Company, use the threat of an unfriendly takeover

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

bid in an effort seeking to force the Company to settle with such party to avert the threat of a takeover. Given such circumstances, the Board has determined that the ability of stockholders to act by written consent makes the Company especially vulnerable to the threat of an unsolicited hostile takeover attempt by means of a tender offer combined with a consent solicitation to remove the existing directors without a meeting of stockholders. Since this type of takeover tactic potentially could be accomplished within the minimum twenty business day period prescribed under Federal tender offer rules, barring any regulatory delays, the Board of Directors may not have sufficient time to explore, evaluate and present to shareholders financial alternatives that may be superior to the unsolicited offer.

The Board of Directors believes that the best interests of the Company's shareholders will be served if appropriate defenses to coercive tender offers or other coercive efforts to gain control of the Company are established. By effectively eliminating the ability of a hostile acquiror to replace the then incumbent Board of Directors except at a meeting of shareholders and giving all shareholders the opportunity to consider and evaluate what other alternatives may be available, the Proposed Amendment should provide shareholders with a greater opportunity to maximize the value of their stock if superior financial alternatives are available. The Proposed Amendment will render more difficult, but not prevent, the accomplishment of unsolicited tender offers and the assumption of control by another entity or group of shareholders, and/or the removal of current management and the Board of Directors. Even these effects are somewhat limited, however, as our Board of Directors is not classified and therefore the entire Board of Directors is subject to reelection on an annual basis, meaning another entity or group of shareholders acquiring control of a majority of the shares of the Company, or proxies representing such shares, could elect a new Board of Directors at the next regular annual meeting of the Company.

The Board of Directors also believes that by requiring action to be taken at a meeting of the shareholders and facilitating the concurrent notice and informational disclosure associated with such a meeting, the Proposed Amendment would help to avoid an ill-advised shareholder action in a context that might not permit the shareholders to have the full benefit of the knowledge, advice and participation of the Company's management, Board of Directors and other shareholders. A significant effect of the Proposed Amendment, considered in conjunction with the Company's existing anti-takeover devices described below, is to encourage persons seeking to acquire control of the Company to initiate such an acquisition through arm's length negotiations with the Board of Directors rather than through a hostile takeover bid. Even in the case of an "all cash" offer to all shareholders, the Proposed Amendment can serve to provide leverage for the Board of Directors to facilitate an organized bidding process and to negotiate a higher price for the Company's shareholders. See "Effects of the Proposed Amendment."

Existing Anti-Takeover Devices

Certificate of Incorporation. The existing certificate of incorporation does not contain provisions intended by the Company

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

to serve as anti-takeover devices. However, the certificate of incorporation authorizes 100,000,000 shares of Common Stock, \$.10 par value. Shares of authorized and available Common Stock could, within the limits imposed by applicable law and the rules of the Nasdaq National Market, be issued by the Company as a means to discourage a potential adverse acquiror from seeking control of the Company by diluting public ownership of the Company.

Amended and Restated Rights Agreement. The Board of Directors adopted an amended and restated rights agreement on March 4, 2002 (which became effective March 5, 2002). Rights agreements are designed to encourage potential acquirors to negotiate with a company's board of directors to preserve for shareholders the value of a company in the event of a takeover attempt, particularly if the capital stock of the company is trading at prices substantially lower than the company's long-term value. Rights agreements reduce the likelihood that a potential acquiror unwilling to pay a market premium determined to be sufficient by a company's board of directors will attempt to acquire stock by means of an open-market accumulation, front-end loaded tender offer or other coercive or unfair takeover tactics.

The Company's original rights agreement was put into effect on August 25, 1993, when the Board of Directors authorized a dividend of one Common Stock purchase right (a "Right") for each share of Common Stock outstanding at the close of business on September 7, 1993, and each share issued thereafter during the term of the plan. Unless exercised or triggered, the Rights would have expired on September 7, 2003. On March 5, 2002, the Company entered into an amended and restated rights plan which extended the expiration date of the Rights to March 5, 2012. If triggered, the Rights will cause substantial dilution to a person or group that acquires 15% (and in some instances 10%) or more of the Common Stock then outstanding on terms not approved by the Board of Directors. The description and terms of the Rights are set forth in an amended and restated rights agreement, dated as of March 5, 2002, as the same may be amended from time to time, between the Company and Computershare Investor Services, LLC.

The amended and restated rights agreement may discourage unsolicited takeover bids from undesirable third parties, or make these actions more difficult to accomplish. The rights plan was adopted to ensure that in the case of an unsolicited takeover offer, the Company and its shareholders would be protected from takeover attempts, or the acquisitions of a substantial block of equity, on terms which may be less favorable to its shareholders generally than would be available in transactions negotiated with and approved by the Board of Directors. With the rights agreement in place, if a hostile takeover is threatened or an offer to acquire a substantial block of Common Stock is made, the Board of Directors is better able to manage the process to ensure that any proposal which may be accepted is in the best interest of all shareholders and, if required and to the extent practicable, the price to the shareholders is maximized and that all shareholders are treated equally.

Bylaws. The Company's Bylaws currently provide that shareholders may not call special meetings of shareholders and the Board of Directors is authorized to fix the date, time and place of the annual meeting (subject to the right of shareholder under the DGCL to require the holding of an annual meeting to

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

elect directors if there is a failure to hold an annual meeting within thirteen months of the last such annual meeting). In addition, the Bylaws require compliance with a specific notice procedure with regard to the nomination by shareholders, other than by or at the direction of the Board of Directors, of candidates for election as directors (the "Nomination Procedure") and with regard to shareholder proposals to be brought before an annual meeting of shareholders (the "Business Procedure"). Nominations of persons for election to the Board of Directors and the proposal of business to be considered by the shareholders may be made at an annual meeting of shareholders pursuant to the Company's notice of meeting, by or at the direction of the Board of Directors, or by a shareholder who has given timely prior written notice to the Secretary of the Company prior to the meeting. To be timely, notice for nominations or shareholder proposals must be received by the Company not later than 60 days nor more than 90 days prior to the first anniversary of the preceding year's annual meeting (or, for annual meetings not held within 30 days before or 60 days after such anniversary, not earlier than 90 days prior to such annual meeting and not later than the close of business on the later of the 60th day prior to such annual meeting or the 10th day following the day on which such meeting is publicly announced or disclosed).

Under the Nomination Procedure, notice to the Company from a shareholder who proposes to nominate a person at a meeting for election as a director must contain the information required to be disclosed by Regulation 14A under the Securities Exchange Act of 1934, as amended, about that person, including, among other things, name, age, principal occupation, the class and number of shares of Common Stock or other capital stock beneficially owned, the consent of such person to be nominated and such other information as would be required to be included in a proxy statement soliciting proxies for the election of the proposed nominee, and certain information about the shareholder proposing to nominate that person. Under the Business Procedure, notice relating to a shareholder proposal must contain certain information about such proposal and about the shareholder who proposes to bring the proposal before the meeting. Business transacted at any special meetings of shareholders is limited to matters relating to the purposes stated in the notice of that meeting.

The purpose of the Nomination Procedure is, by requiring a specified amount of advance notice of nominations by shareholders, to afford the Board of Directors a meaningful opportunity to consider the qualifications of the proposed nominees during the appropriate period when the Board of Directors is focused on nominations and, to the extent deemed necessary or desirable by the Board of Directors, to inform shareholders about the qualifications of the proposed nominee. The purpose of the Business Procedure is, by requiring a specified amount of advance notice of shareholder proposals, to provide a more orderly procedure for conducting annual meetings of shareholders and, to the extent deemed necessary or desirable by the Board of Directors, to provide the Board of Directors with a meaningful opportunity to analyze such proposals and to decide whether it is appropriate to either (i) omit such proposal or (ii) inform shareholders, prior to such meetings, of any proposal to be introduced at such meetings, together with any recommendation of the Board of Directors as to action to be taken

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

with respect to such proposal, so as to enable shareholders better to determine whether they desire to attend such meeting or grant a proxy to the Board of Directors as to the disposition of any such proposal.

Although these advance notice procedures do not give the Board of Directors the power to approve or disapprove shareholder nominations for the election of directors or any other proposal submitted by shareholders, they could have the effect of making more difficult a shareholder nomination for the election of directors or the submission by shareholders of proposals at a particular shareholders meeting because of the specificity of the procedures to be followed.

The Bylaws also require that any action by shareholders to alter or amend the Bylaws requires the affirmative vote of a majority in voting power of all shares entitled to elect directors.

Delaware Law. Section 203 of the DGCL provides, in relevant part, that the corporation shall not engage in any business combination for a period of three years following the time on which such stockholder first becomes an "interested stockholder" unless (i) prior to the time the stockholder first becomes an "interested stockholder," the board of directors of the corporation approved either the business combination or the transaction which resulted in the stockholder becoming an "interested stockholder," (ii) upon becoming an "interested stockholder," such stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced (excluding certain shares), or (iii) on or subsequent to the time on which the stockholder becomes an "interested stockholder," the business combination is approved by the board of directors and authorized at an annual or special meeting of stockholders by the affirmative vote of at least two-thirds of the outstanding voting stock which is not owned by the "interest stockholder."

Although Section 214 of the DGCL provides that a corporation's certificate of incorporation may provide for cumulative voting for directors, the certificate of incorporation does not provide for cumulative voting. As a result, the holders of a majority of the shares of Common Stock have the ability to elect all of the directors being elected at any annual meeting of shareholders.

The Board of Directors has no current intention to propose other additional anti-takeover measures in future solicitations, although the Board of Directors may determine to propose one or more of such measures at a later date. Except for the filing of the Certificate of Amendment and the adoption of amended and restated Bylaws, both as discussed above, the Board of Directors has no current intention to otherwise adopt any other anti-takeover measures, although the Board of Directors may determine to adopt one or more of such measures at a later date.

Effects of the Proposed Amendment

Although the Board of Directors believes that the Proposed Amendment should be adopted for the reasons set forth in this Proxy Statement, the Board of Directors is aware that the Proposed Amendment may have anti-takeover effects. Although the

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

Proposed Amendment is designed as a protective measure for the Company's shareholders, the Proposed Amendment may have the effect of preventing shareholders from realizing an opportunity to sell their shares of Common Stock at higher than market prices by deterring unfriendly tender offers or other efforts to obtain control of the Company. The Proposed Amendment would also mean that incumbent directors could not be replaced through a consent solicitation even though a majority of the shareholders may deem such a result desirable.

The Board of Directors believes that the approval and adoption of the Proposed Amendment should encourage those seeking to obtain control of the Company to negotiate with the Board of Directors. The Board of Directors believes that if the Company is to be acquired, the interests of the shareholders will best be served by a negotiated transaction that results from careful consideration of all strategic alternatives available to the Company and its shareholders, in addition to the proposed terms of any takeover proposal, such as the availability of the benefits of the transaction to all shareholders, the price to be paid to shareholders (including minority shareholders) and the form of consideration paid and tax effects of the transaction.

The Board of Directors believes that the use of certain takeover tactics, combined with the written consent process, can be highly disruptive to a corporation as well as divert valuable corporate resources and place undue pressure on a corporation's board of directors and shareholders to act hastily and without complete information. These tactics can also result in a lost opportunity to consider fully all available alternatives, before shareholders are forced to act, so as to avoid the differences in treatment of shareholders that may occur between those who act immediately in response to announcements of takeover activity and those who do not act.

Even though the Board of Directors believes that the Proposed Amendment would help to protect the Company's shareholders and may help the Company obtain the best price in a potential transaction, shareholders should also note that there are certain disadvantages. The Proposed Amendment may have the effect of deterring or delaying certain types of takeover attempts that may not be approved by the incumbent directors, but that the holders of a majority of the shares of Common Stock may deem to be in their best interests or in which some or all of the Company's shareholders may receive a substantial premium over the prevailing market price of their shares of Common Stock. The Proposed Amendment may delay the assumption of control by a holder of a large block of Common Stock and the removal of incumbent directors and management, even if such removal may be beneficial to some or all of the Company's shareholders. By discouraging takeover attempts, the Proposed Amendment also could have the incidental effect of inhibiting the temporary fluctuations in the market price of Common Stock that often result from actual or rumored takeover attempts.

The Board of Directors recognizes that a takeover might in some circumstances be beneficial to some or all of the Company's shareholders, but, nevertheless, believes that the shareholders as a whole will benefit from the adoption of the Proposed Amendment. The Board of Directors further believes that it is preferable to act on the Proposed Amendment now when it can be

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

considered carefully rather than hastily during an unsolicited bid for control.

Recommendation of the Board of Directors

The Board of Directors has carefully considered the potential adverse effects of the Proposed Amendment and has concluded that these effects are substantially outweighed by the benefits that it would afford the Company and its shareholders. Accordingly, the Board of Directors unanimously recommends that shareholders vote FOR the approval and adoption of the Proposed Amendment.

PROPOSAL 3 APPROVAL OF THE INTERGRAPH CORPORATION 2002 STOCK OPTION PLAN

At the Meeting, the shareholders will be asked to approve and adopt the Intergraph Corporation 2002 Stock Option Plan (the "Plan"), which has been unanimously approved by the Board, subject to its approval by the shareholders.

The following description of the principal provisions of the Plan is intended solely as a summary, and is subject to, and qualified by, the full text of the Plan set forth in Appendix C attached to this Proxy Statement.

The Board believes that the Plan will encourage key employees to increase their productivity, will motivate them to excel on behalf of the Company, and will help the Company attract highly qualified employees. The Plan will serve not only to attract and retain outstanding employees, but also will enable these employees to acquire or increase their proprietary interest in the Company.

The Plan permits the Committee (as defined below) to grant both incentive stock options ("Incentive Options"), within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended, and options which do not qualify as Incentive Options ("Non-Statutory Options"). (Incentive Options and Non-Statutory Options are collectively referred to as "Options".) The Committee is also entitled to make awards of restricted stock ("Restricted Stock"). For purposes of the Plan, Incentive Options, Non-Statutory Options, and awards of Restricted Stock, whether singly or in combination, are sometimes referred to as "Awards."

The Plan will be administered by a committee (the "Committee") composed of either the entire Board of Directors or composed solely of two or more "Non-Employee Directors," as defined in Rule 16b-3 of the General Rules and Regulations under the Securities Exchange Act of 1934, as amended. As of the date of this Proxy Statement, the entire Board of Directors constitutes the Committee. In the event the Committee is composed of two or more Non-Employee Directors, the Board of Directors may from time to time remove members from, add members to, and fill vacancies on the Committee. The Committee shall select one of its members as Chairman, and shall hold meetings at such times and places as it may determine. Action taken by a majority of the Committee at which a quorum is present, or action reduced

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

to writing or approved in writing by a majority of the members of the Committee, shall be valid acts of the Committee.

The Committee will have the discretion to designate Awards recipients and the number of Awards to be granted to each such recipient, provided that not more than 200,000 Options shall be granted to the Chief Executive Officer of the Company and the other four (4) most highly compensated officers in any calendar year.

Awards may be granted pursuant to the Plan from June 1, 2002, through May 31, 2012, to key employees (including officers and Committee members) of the Company and its subsidiaries (approximately 650 persons as of January 31, 2002). An Award recipient may, subject to the terms and restrictions set forth in the Plan, hold more than one type of Award. In selecting individuals for Awards, the Committee will weigh the position and responsibility of the individual being considered, the nature of his or her services, his or her present and potential contributions to the Company, and other factors deemed relevant by the Committee. The Committee has full discretion to determine the timing and recipients of any Awards under the Plan and the number of shares subject to Awards that may be granted under the Plan. Therefore, the Awards that may be granted under the Plan or that would have been granted under the Plan during the year ended December 31, 2001, if the Plan had been in effect, are not determinable.

The stock subject to Awards issued under the Plan will be shares of the Company's authorized but unissued or reacquired Common Stock. Under the Plan, the Committee may, in its discretion, grant Awards for up to 2,000,000 shares of the Company's Common Stock, of which no more than 400,000 shall be shares of Common Stock with respect to which Restricted Stock awards may be granted. The 2,000,000 shares authorized for issuance under the Plan represent approximately four percent (4%) of the Common Stock outstanding as of January 31, 2002 (subject to adjustment in the event of stock dividends, stock splits, or stock consolidations of the Common Stock, or any other increase or decrease in the number of shares effected without receipt of consideration by the Company). The closing sale price of the Common Stock on January 31, 2002, was \$14.40 per share.

The Committee will have the sole and complete authority to determine the participants to whom Restricted Shares shall be granted, the number of Restricted Shares to each participant, the duration of the period during which the Restricted Shares may be forfeited to the Company, and the other terms and conditions of such Restricted Share awards. An award agreement will set forth the period of time during which the grantee of a Restricted Share award must remain in the continuous employment of the Company in order for the forfeiture and transfer restrictions to lapse. As determined by the Committee, the restrictions may lapse during the restricted period in installments with respect to specified portions of shares of Common Stock covered by the Restricted Share award.

At the time of a Restricted Share award, a certificate representing the number of shares of Common Stock awarded thereunder shall be registered in the name of the grantee. Such certificate shall be held by the Company or any custodian

appointed by the Company for the account of the grantee subject to the terms and conditions of the Plan, and shall bear such a legend setting forth the restrictions imposed thereon as the Committee, in its discretion, may determine. The grantee shall have all rights of a stockholder with respect to the Restricted Shares, including the right to receive dividends and the right to vote such shares of Common Stock, subject to the following restrictions: (i) the grantee shall not be entitled to delivery of the stock certificate until the expiration of the restricted period and the fulfillment of any other restrictive conditions set forth in the award agreement with respect to such shares of Common Stock; (ii) none of the shares of Common Stock may be sold, assigned, transferred, pledged, hypothecated or otherwise encumbered or disposed of during such restricted period or until after the fulfillment of any such other restrictive conditions; and (iii) except as otherwise determined by the Committee at or after grant, all of the shares of Common Stock shall be forfeited and all rights of the grantee to such shares of Common Stock shall terminate, without further obligation on the part of the Company, unless the grantee remains in the continuous employment of the Company for the entire restricted period in relation to which such shares of Common Stock were granted and unless any other restrictive conditions relating to the Restricted Share award are met. Any shares of Common Stock, any other securities of the Company, and any other property (except for cash dividends) distributed with respect to the shares of Common Stock subject to Restricted Share awards shall be subject to the same restrictions, terms, and conditions as such Restricted Shares.

At the end of the restricted period and provided that any other restrictive conditions of the Restricted Share awards are met, or at such earlier time as otherwise determined by the Committee, all restrictions set forth in the award agreement relating to the Restricted Share award or in the Plan shall lapse as to the restricted shares of Common Stock subject thereto, and a stock certificate for the appropriate number of shares of Common Stock, free of the restrictions and restricted stock legend, shall be delivered to the grantee or the grantee's beneficiary or estate, as the case may be.

Each Award agreement shall state the number of shares to which it pertains, whether the Award granted is an Incentive Option, a Non-Statutory Option (and, in the case of Non-Statutory Options, the vesting period relating to such Options) or an award of Restricted Stock.

Each Option agreement shall state the Option exercise price. The per share exercise price for shares obtainable to any Option, shall not be less than 100% of the Fair Market Value (as defined below) of the shares of Common Stock on the date the Option is granted. The Fair Market Value of shares, unless otherwise determined by the Committee in good faith, will be the closing sale price of the Common Stock as reported on the Nasdaq National Market (or the mean between the highest and lowest per share sales price should the Common Stock be listed on an exchange) on a given day, or if such stock is not traded on that day, then on the next preceding day on which such stock was traded (the "Fair Market Value"). The aggregate Fair Market Value (determined at the time the Incentive Option is granted) of the Common Stock with respect to which Incentive Options are exercisable for the first time by the Option recipient during

any calendar year (under all such plans of the Company and its subsidiaries) will not exceed \$100,000. If an Option recipient is granted an Incentive Option which exceeds this limitation, the Incentive Option shall be considered a Non-Statutory Option to the extent the limitation is exceeded. No Incentive Option shall be granted to an employee who, immediately after such Incentive Option is granted, owns or has rights to stock possessing more than ten percent (10%) of the total combined voting power of all classes of stock of the Company, unless such Incentive Option is granted at a price which is at least ten percent (10%) greater than the Fair Market Value of the stock subject to the Incentive Option, and such Incentive Option by its terms is not exercisable after the expiration of five (5) years from the date such Incentive Option is granted.

The Option recipient may pay the Option exercise price in cash, by means of unrestricted shares of the Company's Common Stock (subject to certain restrictions outlined below), or any combination thereof. As determined by the Committee in its discretion, at or (except in the case of an Incentive Option) after grant, payment in full or in part may be made in the form of Common Shares already owned by the optionee and held by the Option recipient for at least six (6) months. If payment is made in the Company's Common Stock, the shares so used will be taken at the Fair Market Value on the date the Option is exercised. The Option recipient must pay for shares received pursuant to an Option exercise on or before the date the Option recipient takes delivery of the shares. Subject to the requirements of rules promulgated by the Securities and Exchange Commission and Regulation T promulgated by the Federal Reserve Board, the Committee, in its sole discretion, may establish procedures whereby an employee may exercise an Option or a portion thereof without making a direct payment of the Option price to the Company. If the Committee so elects to establish a cashless exercise program, the Committee shall determine, in its sole discretion, and from time to time, such administrative procedures and policies as it deems appropriate and such procedures and policies shall be binding on any Option recipient utilizing the cashless exercise program. The proceeds from all payments pursuant to the exercise of Options will be used for general corporate purposes. The Company and its subsidiaries will receive no cash or other payment upon the granting of Options pursuant to the Plan.

The vesting period for all Non-Statutory Options shall be determined by the Committee in its sole discretion. No Incentive Option will be exercisable either in whole or in part prior to twelve (12) months from the date it is granted, and in no event will an Option be exercisable after the expiration of ten (10) years from the date it is granted. Up to one-fourth of the Options granted pursuant to an Incentive Option may be exercised in each of the following installment periods, each beginning from the date the Option is granted: (1) after twelve (12) months, (2) after twenty-four (24) months, (3) after thirty-six (36) months, and (4) after forty-eight (48) months. Option recipients may accumulate installments not yet exercised, which may be exercised, in whole or in part, in any subsequent period but not later than ten (10) years from the date the Option is granted. Notwithstanding the foregoing, the Committee, in its discretion, may provide for the exercise of Options after the initial twelve (12) month period, either as an increased percentage of shares per year or as to all remaining shares, if

the Option recipient dies, is or becomes disabled or retires. An Option will be exercisable only by the Option recipient (or the Option recipient's guardian or legal representative) and will not be assignable or transferable other than by will or the laws of descent and distribution.

If, for any reason other than death, an Option recipient ceases to be employed by the Company or its subsidiaries, all Options held by him under the Plan will terminate and become void and of no effect three (3) months from the date the Option recipient's employment with the Company terminates, provided that no Option shall be exercisable after ten (10) years from the date it is granted. If the Option recipient dies while employed by the Company, the Option recipient's successors in interest, within one (1) year of death, may exercise the unexercised portion of any of the Option recipient's exercisable but unexercised Options; however, in no event shall an Option be exercisable after ten (10) years from the date it is granted. Such successors in interest, where the Option is transferred to the Option recipient's estate or another person, may not transfer such Option except to the distributees of the Option recipient's estate entitled thereto.

Subject to the terms and limitations of the Plan, the Committee may modify, extend, or renew outstanding Options granted under the Plan, or accept the surrender of outstanding Options and authorize the granting of new Options in substitution for such outstanding Options. The Committee may not, however, modify any outstanding Incentive Options so as to specify a lower price, or accept the surrender of any outstanding Incentive Options and authorize the granting of new Options in substitution therefore specifying a lower price. The Board may, to the extent permitted by law, from time to time, with respect to any shares not then subject to Options, suspend, discontinue, revise, or amend the Plan in any respect, but may not, without shareholder approval, change the number of shares for which Awards may be granted under the Plan, change the provisions relating to the determination of employees eligible to receive Awards, decrease the price at which Incentive Options may be granted, or remove the administration of the Plan from the Committee.

In the event of an actual or anticipated change in ownership of the Company, the Committee may take any of the following actions that the Committee may deem appropriate in its sole and absolute discretion: (i) cancel any Option by providing for the payment to the Award recipient of the excess of the Fair Market Value of the shares subject to the Award over the exercise price of the Option, (ii) substitute a new Option of substantially equivalent value for any Option, (iii) accelerate the exercise terms of any Award, or (iv) make such other adjustments in the terms and conditions of any Option as it deems appropriate.

The shares purchased under the Incentive Stock Option provisions of the Plan may qualify for special tax treatment under United States federal income tax rules. The shares purchased under the Non-Statutory Stock Option provisions of the Plan are subject to tax treatment under Section 83 of the United States federal income tax Code. Generally, the tax treatment of the options may be summarized as follows:

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

1. There will be no tax consequences to optionees when an Option is granted.

2. There will be no tax consequence to optionees when an Incentive Stock Option is exercised, except that the difference between the exercise price per share and the Fair Market Value per share constitutes a tax preference item for purposes of the alternative minimum tax. In the case of Non-Statutory Options, optionees will recognize ordinary income when such Options are exercised in an amount equal to the difference between the exercise price per share and the Fair Market Value per share as of the date of exercise. The Company will withhold an amount for payroll withholding and taxes based upon this difference.

3. In general, the difference between the cost of the stock acquired by exercise of an Incentive Stock Option and the sale price realized upon sale of the stock will be taxed to the optionee at the time he or she sells the stock. Stock sold prior to the required holding period, however, is a "disqualifying disposition." A disqualifying disposition occurs if an optionee disposes of his or her stock within two (2) years after the option is granted or within one (1) year after the option is exercised. Gains from the sale or exchange of an optionee's stock which is not a disqualifying disposition are treated for federal income tax purposes as long-term capital gains. Long-term capital gains are included in income and taxed at a maximum rate of 20%.

4. In the case of Non-Statutory Options, optionees will be taxed when the stock is sold on the difference between (a) the cost of the stock, increased by the taxable income realized upon exercise of the Non-Statutory Option and (b) the sale price realized upon sale of the stock. If the stock is sold after having been held more than one (1) year after exercise of the Non-Statutory Option, the amount realized will be subject to long-term capital gain or loss treatment. If the stock is held for one year or less, the optionee will recognize short-term gain or loss. Short-term capital gains are taxed as ordinary income; however, the maximum federal income tax rate at which long-term capital gains will be taxed is 20%.

This is merely a summary of some of the tax consequences of the grant, exercise and disposition of the Options. Option recipients should consult with their tax advisers regarding the Option granted to them for more specific information. Income tax liability is the responsibility of the Option recipients. An Option recipient's tax consequences may change if new tax laws are enacted after the date of the grant of an Option. In order to provide the Company with the opportunity to claim the benefit of any income tax deductions which may be available to it upon the exercise of an Option or upon a disqualifying disposition, and in order to comply with all applicable federal or state tax laws or regulations, the Company may take such action, including withholding additional amounts from an Option recipient's regular wages or salary, as it deems appropriate to insure that, if necessary, all applicable federal, state or other taxes are withheld or collected from such Option recipient.

APPENDIX A

INTERGRAPH CORPORATION AMENDED AND RESTATED AUDIT COMMITTEE CHARTER

I. Organization

This charter governs the operations of the audit committee. The committee shall review and reassess the charter at least annually and obtain the approval of the board of directors. The audit committee shall be appointed by the board of directors and shall comprise at least three directors. Each director shall meet the independence and experience and other requirements of the Nasdaq rules. Accordingly, all committee members shall be independent as defined by Nasdaq rules and shall be financially literate, or shall become financially literate within a reasonable period of time after appointment to the committee,

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

and at least one member shall have accounting or related financial management expertise. The duties of the Chairman of the Audit Committee shall be to call meetings of the Audit Committee and to preside at such meetings.

II. Statement of Policy

The audit committee shall provide assistance to the board of directors in fulfilling their oversight responsibility to the shareholders and others relating to the Company's financial statements and the financial reporting process, the systems of internal accounting and financial controls, the internal audit function, and the annual independent audit of the Company's financial statement. In so doing, it is the responsibility of the committee to maintain free and open communication between the committee, the independent auditors, the internal auditors, and management of the Company. In discharging its oversight role, the committee is empowered to investigate (or direct management or internal audit to investigate) any matter brought to its attention with full access to all books, data, records, facilities, and personnel of the Company and the power to retain outside counsel, or other experts for this purpose.

III. Responsibilities

The Committee's duty is one of oversight, and it recognizes that the Company's management is responsible for preparing the Company's financial statements and that the outside auditors are responsible for auditing those financial statements. Additionally, the Committee recognizes that the Company's financial management, including the internal audit department, as well as its outside auditors, have more knowledge and more detailed information regarding the Company and its financial reports than do Committee members; consequently, in carrying out its oversight responsibilities, the Committee is not providing any expert or special assurance as to the Company's financial statements or any professional certification as to the outside auditors' work, and is not conducting an audit or investigation of the financial statements nor determining that the financial statements are true and complete or have been prepared in accordance with generally accepted accounting principles. Nor is it the duty of the Committee to resolve disagreements, if any, between management and the outside auditors or to ensure compliance with laws and regulations or any compliance or ethical policies of the Company.

The directors serving on the Audit Committee of the Company shall have no greater standard of liability in the performance of their duties than the standard of liability applicable to all directors. Audit Committee members who are previously employed by the Company or who have special training or experience in financial or audit matters shall have no greater duty or responsibility as a result of such prior training services or experience. Members of the Audit Committee shall have the full protection against personal liability for breach of fiduciary duties as set forth in Article IX to the Certificate of Incorporation, adopted by the shareholders in the meeting of April 23, 1987. In addition, members of the Audit Committee shall be entitled to be indemnified against liability by the Corporation as provided in Articles VIII and IX of the

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

Certificate of Incorporation and Article Nine of the By-laws.

IV. Processes

The following shall be the principal recurring processes of the audit committee in carrying out its oversight responsibilities. The processes are set forth as a guide with the understanding that the committee may supplement them as appropriate without modifying this charter.

- A. The committee shall have a clear understanding with management and the independent auditors that the independent auditors are ultimately accountable to the board and the audit committee, as representatives of the Company's shareholders. The committee shall have the ultimate authority and responsibility to evaluate and, where appropriate, replace the independent auditors. The committee shall discuss with the auditors their independence from management and the Company and matters included in the written disclosures required by the Independence Standards Board. The committee shall consider whether to establish policies and procedures for the engagement of the outside auditor to provide non audit services and whether the provision of non audit services by the outside auditors is compatible with maintaining the outside auditors' independence. Annually, the committee shall review and recommend to the board the selection of the Company's independent auditors.
- B. The committee shall discuss with the internal auditors and the independent auditors the overall scope and plans for their respective audits including the adequacy of staffing and compensation. Also, the committee shall discuss with management, the internal auditors, and the independent auditors the adequacy and effectiveness of the accounting and financial controls. Further, the committee shall meet separately with the internal auditors and the independent auditors, with and without management present to discuss the results of their examinations.
- C. The committee shall review the interim financial statements with management and the independent auditors prior to the public release of such interim financial statement and prior to the filing of the Company's Quarterly Report on Form 10Q. Also, the committee shall discuss the results of the quarterly review and any other matters required to be communicated to the committee by the independent auditors under generally accepted auditing standards. The chair of the committee may represent the entire committee for the purpose of this review.
- D. The committee shall review and discuss with management and the independent auditors the financial statements to be included in the Company's Annual Report on Form 10-K (or the annual report to the shareholders if distributed prior to the filing of Form 10-K), and the selection, application and disclosure of critical accounting policies used in such financial statements.

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

The review and discussion shall include their judgment about the quality, not just the acceptability, of accounting principles, the reasonableness of significant judgments, and the clarity of the disclosures in such financial statements. Also, the committee shall review and discuss any off balance sheet financing transactions, any related party transactions, and any issues that may affect in any material way the fairness of the financial statement presentation, the financial risks of the Company and the internal control systems of the Company.

- E. The committee shall, at least annually, meet with the senior officer with oversight of the Company's ethics and compliance policies for a report on such programs.

APPENDIX C

INTERGRAPH CORPORATION
2002 STOCK OPTION PLAN

1. PURPOSE

This 2002 Stock Option Plan of Intergraph Corporation (the "Plan") is intended as an incentive for key employees (including officers) which will foster increased productivity, encourage them to remain in the employ of Intergraph Corporation (the "Corporation"), and enable them to acquire or increase their proprietary interest in the Corporation. At the discretion of the Committee (as defined below), options issued pursuant to this Plan may be either incentive stock options within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended ("Incentive Options"), or options which are not Incentive Options ("Non-Statutory Options") (Incentive Options and Non-Statutory Options are collectively referred to as "Options"). The Committee shall also be entitled to make awards of restricted stock ("Restricted Stock") in accordance with the terms of the Plan. For the purposes of the Plan, Incentive Options, Non-Statutory Options and awards of Restricted Stock, whether singly or in combination, shall sometimes be referred to as "Awards."

2. ADMINISTRATION

The Plan shall be administered by a committee (the "Committee") composed of the entire Board of Directors or a committee of the Board of Directors that is composed solely of two or more "Non-Employee Directors." For this purpose, the term "Non-Employee Director" shall mean a person who is a member of the Corporation's Board of Directors who (a) is not currently an employee and is not, nor has ever been, an officer of the Corporation or any parent or subsidiary of the Corporation, (b) does not directly or indirectly receive compensation for serving as a consultant or in any other non-director capacity from the Corporation or any parent or subsidiary of the Corporation that exceeds the dollar amount for which disclosure would be required pursuant to Item 404(a) of Regulation S-K promulgated under the Securities Act of 1933, as amended, and the Securities Exchange

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

Act of 1934, as amended ("Regulation S-K"), (c) does not possess any interest in any other transaction with the Corporation or any parent or subsidiary of the Corporation for which disclosure would be required pursuant to Item 404(a) of Regulation S-K, and (d) is not engaged in a business relationship with the Corporation or any parent or subsidiary of the Corporation which would be disclosable under Item 404 (b) of Regulation S-K. In the event the Committee is a committee composed of two or more Non-Employee Directors, the Board of Directors may from time to time remove members from, add members to, and fill vacancies on, the Committee. A member of the Committee shall be eligible to participate in the Plan and receive Awards under the Plan.

The Committee shall select one of its members as Chairman, and shall hold meetings at such times and places as it may determine. Action taken by a majority of the Committee at which a quorum is present, or action reduced to writing or approved in writing by a majority of the members of the Committee, shall be valid acts of the Committee.

The Committee may from time to time and at its discretion, grant Awards to eligible employees. Subject to the terms of this Plan, the Committee shall exercise its sole discretion in determining which eligible employees shall receive Awards, and the number of shares subject to each Award granted; provided that not more than 200,000 Options shall be granted to any 162(m) Employee in any calendar year. For the purposes of this Plan, a "162(m) Employee" shall mean the Chief Executive Officer of the Corporation and the other four (4) most highly compensated officers, within the meaning of U.S. Treasury Regulation Section 1.162-27(c) (2).

The Committee's interpretation and construction of any provision of the Plan, or any Award granted under it, shall be final. No member of the Committee shall be liable for any action or determination made in good faith with respect to the Plan or any Award granted under the Plan.

3. ELIGIBILITY

Persons eligible to receive Awards shall be such key employees (including officers) of the Corporation and its subsidiaries as the Committee shall from time to time select. The determination of whether a company is a subsidiary of the Corporation shall be made in accordance with Section 425(f) of the Internal Revenue Code, as amended. An Award recipient may, subject to the terms and restrictions set forth in the Plan, hold more than one type of Award. No person shall be eligible to receive an Award for a larger number of shares than is granted to him or her by the Committee. In selecting the individuals to whom Awards shall be granted, as well as determining the number of shares subject to each Award, the Committee shall weigh the position and responsibility of the individual being considered, the nature of his or her services, his or her present and potential contributions to the Corporation, and such other factors as the Committee deems relevant to accomplish the purposes of the Plan.

4. STOCK

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

The stock subject to Awards issued under the Plan shall be shares of the Corporation's authorized but unissued, or reacquired, ten cent (\$.10) par value common stock (hereafter sometimes called "Capital Stock" or "Common Stock"). The aggregate number of shares which may be issued pursuant to Awards under the Plan shall not exceed 2,000,000 shares of Capital Stock, of which no more than 400,000 shall be shares of Capital Stock with respect to which Restricted Stock awards may be granted. The limitations established by each of the preceding sentences shall be subject to adjustment as provided in Article 6(g) of the Plan. Notwithstanding the foregoing and subject to Article 6(g) of the Plan, no Award recipient may receive Awards under the Plan in any calendar year that relate to more than 200,000 shares of Capital Stock.

In the event that any outstanding Award under the Plan for any reason expires or is terminated, the shares of Capital Stock allocable to the unexercised portion of such Award may again be subjected to an Award under the Plan.

5. RESTRICTED SHARES

(a) Grant

(i) Subject to the provisions of the Plan, the Committee shall have sole and complete authority to determine the participants to whom Restricted Shares shall be granted, the number of Restricted Shares to each participant, the duration of the period during which, and the conditions under which, the Restricted Shares may be forfeited to the Corporation, and the other terms and conditions of such Restricted Share awards. The Restricted Share awards shall be evidenced by agreements in such form as the Committee shall from time to time approve, which agreements shall comply with and be subject to the terms and conditions provided hereunder and any additional terms and conditions established by the Committee that are consistent with the terms of the Plan.

(ii) Subject to Section 4, each Restricted Share award made under the Plan shall be for such number of shares of Capital Stock as shall be determined by the Committee and set forth in the award agreement containing the terms of such Restricted Share award. Such agreement shall set forth a period of time during which the grantee must remain in the continuous employment of the Corporation in order for the forfeiture and transfer restrictions to lapse. If the Committee so determines, the restrictions may lapse during such restricted period in installments with respect to specified portions of the shares of Capital Stock covered by the Restricted Share award. The award agreement may also, in the discretion of the Committee, set forth performance or other conditions that will subject the shares of Capital Stock to forfeiture and transfer restrictions. The Committee may, at its discretion, waive all or any part of the restrictions applicable to any or all outstanding Restricted Share awards.

(b) Delivery of Shares and Transfer Restrictions

At the time of a Restricted Share award, a certificate

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

representing the number of shares of Capital Stock awarded thereunder shall be registered in the name of the grantee. Such certificate shall be held by the Corporation or any custodian appointed by the Corporation for the account of the grantee subject to the terms and conditions of the Plan, and shall bear such a legend setting forth the restrictions imposed thereon as the Committee, in its discretion, may determine. The grantee shall have all rights of a stockholder with respect to the Restricted Shares, including the right to receive dividends and the right to vote such shares of Capital Stock, subject to the following restrictions: (i) the grantee shall not be entitled to delivery of the stock certificate until the expiration of the restricted period and the fulfillment of any other restrictive conditions set forth in the award agreement with respect to such shares of Capital Stock; (ii) none of the shares of Capital Stock may be sold, assigned, transferred, pledged, hypothecated or otherwise encumbered or disposed of during such restricted period or until after the fulfillment of any such other restrictive conditions; and (iii) except as otherwise determined by the Committee at or after grant, all of the shares of Capital Stock shall be forfeited and all rights of the grantee to such shares of Capital Stock shall terminate, without further obligation on the part of the Corporation, unless the grantee remains in the continuous employment of the Corporation for the entire restricted period in relation to which such shares of Capital Stock were granted and unless any other restrictive conditions relating to the Restricted Share award are met. Any shares of Capital Stock, any other securities of the Corporation and any other property (except for cash dividends) distributed with respect to the shares of Capital Stock subject to Restricted Share awards shall be subject to the same restrictions, terms and conditions as such Restricted Shares.

(c) Termination of Restrictions

At the end of the restricted period and provided that any other restrictive conditions of the Restricted Share award are met, or at such earlier time as otherwise determined by the Committee, all restrictions set forth in the award agreement relating to the Restricted Share award or in the Plan shall lapse as to the restricted shares of Capital Stock subject thereto, and a stock certificate for the appropriate number of shares of Capital Stock, free of the restrictions and restricted stock legend, shall be delivered to the grantee or the grantee's beneficiary or estate, as the case may be.

6. TERMS AND CONDITIONS OF THE PLAN

No obligation to retain an Award recipient as an employee of the Corporation or its subsidiaries, or to provide or continue providing the Award recipient with, or to permit the Award recipient to retain, any incident associated with or arising out of employment with the Corporation or its subsidiaries, including, but not limited to, tenure, salary, benefits, title or position, shall be imposed on the Corporation or its subsidiaries by virtue of the adoption of the Plan, the grant or acceptance of an Award granted pursuant to the Plan, or the exercise of an

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

Option under the Plan. Awards granted under the Plan shall be authorized by the Committee and shall be evidenced by agreements in such form as the Committee shall from time to time approve. Such agreements shall conform with, and be subject to, the following terms and conditions:

(a) Number of Shares and Form of Award

Each Award agreement shall state the number of shares to which it pertains, whether the Award granted is an Incentive Option, a Non-Statutory Option (and, in the case of Non-Statutory Options, the vesting period relating to such Options) or an award of Restricted Stock.

(b) Option Price

Each Option agreement shall state the Option exercise price. The per share exercise price for shares obtainable pursuant to any Option, including any Option granted to a 162(m) Employee, shall not be less than 100% of the Fair Market Value, as defined below, of the shares of Capital Stock of the Corporation on the date the Option is granted. For all purposes under the Plan, "Fair Market Value" shall mean, unless otherwise determined by the Committee in good faith, the closing sale price of the Common Stock as reported on the Nasdaq National Market (or the mean between the highest and lowest per share sales price should the Common Stock be listed on an exchange) on a given day, or if the Common Stock is not traded on that day, then on the next preceding day on which such stock was traded (the "Fair Market Value"). Subject to the foregoing, the Committee shall have full authority and discretion, and shall be fully protected, with respect to the price fixed for shares obtainable pursuant to the exercise of Options. The aggregate Fair Market Value (determined at the time the Incentive Option is granted) of the Common Stock with respect to which Incentive Options are exercisable for the first time by the Option recipient during any calendar year (under all such plans of the Corporation and its subsidiary corporations) shall not exceed \$100,000. If an Option recipient is granted Incentive Options which exceed this limitation, the Incentive Options shall be considered a Non-Statutory Option to the extent such limitation is exceeded. Notwithstanding the foregoing, no Incentive Option shall be granted to an employee who, immediately after such Option is granted, owns or has rights to stock possessing more than ten percent (10%) of the total combined voting power of all classes of stock of the Corporation, unless such Option is granted at a price which is at least 10% greater than the Fair Market Value of the stock subject to the Incentive Option and such Option by its terms is not exercisable after the expiration of five (5) years from the date such Option is granted.

(c) Medium and Time of Payment

Subject to any other exercise restrictions contained in the Plan, the Option recipient may pay the Option exercise price in cash, by means of unrestricted shares of the Corporation's Common Stock (subject to the provisions of this Section 6(c)), or in any combination thereof. As determined by the Committee, in its sole discretion, at or (except in the case of an Incentive Option) after grant, payment in full or in part may be made in the form of shares of Common Stock already owned by the optionee and held

by the Option recipient for at least six months (in each case valued at the Fair Market Value of the Common Stock on the date the Option is exercised). The Option recipient must pay for shares received pursuant to an Option exercise on or before the date of delivery of the shares to the Option recipient. Subject to the requirements of rules promulgated by the Securities and Exchange Commission and Regulation T promulgated by the Federal Reserve Board, the Committee, in its sole discretion, may establish procedures whereby an Option recipient may exercise an Option or a portion thereof without making a direct payment of the Option price to the Corporation. If the Committee so elects to establish a cashless exercise program, the Committee shall determine, in its sole discretion, and from time to time, such administrative procedures and policies as it deems appropriate and such procedures and policies shall be binding on any Option recipient utilizing the cashless exercise program. Payment in currency or by check, bank draft, cashier's check, or postal money order shall be considered payment in cash. In the event of payment in the Corporation's Common Stock, the shares used in payment of the purchase price shall be taken at the Fair Market Value of such shares on the date they are tendered to the Corporation.

(d) Term and Exercise of Options

The vesting period for all Non-Statutory Options shall be determined by the Committee in its sole discretion. No Incentive Options shall be exercisable either in whole or in part prior to twelve (12) months from the date that they are granted. Subject to the right of accretion provided in the next to last sentence of this Article 6(d), each Incentive Option shall be exercisable in four (4) installments, as follows: (1) up to one-fourth of the total shares covered by the Option may be purchased after twelve (12) months from the date the Option is granted; (2) one-fourth of the total shares covered by the Option may be purchased after twenty-four (24) months from the date the Option is granted; (3) up to one-fourth of the total shares covered by the Option may be purchased after thirty-six (36) months from the date the Option is granted; and (4) up to one-fourth of the total shares covered by the Option may be purchased after forty-eight (48) months from the date the Option is granted. The Committee may provide, however, for the exercise of an Option after the initial twelve (12) month period, either as an increased percentage of shares per year or as to all remaining shares, if the Option recipient dies, is or becomes disabled or retires. During the Option recipient's lifetime, the Option shall be exercisable only by the Option recipient, or the Option recipient's guardian or legal representative if one has been appointed, and shall not be assignable or transferable other than by will or the laws of descent and distribution. To the extent not exercised, Option installments shall accumulate and be exercisable, in whole or in part, in any subsequent period but not later than ten (10) years from the date the Option is granted. No Option is exercisable after the expiration of ten (10) years from the date it is granted.

(e) Termination of Employment Except Death

If an Option recipient's employment with the Corporation or its subsidiaries ceases for any reason other than the Option recipient's death, all Options held by him pursuant to the Plan and not previously exercised as of the date of such termination

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

shall terminate and become void and of no effect three (3) months from the date the Option recipient's employment is terminated, provided that no Option shall be exercisable after the expiration of ten (10) years from the date it is granted. Authorized leaves of absence or absence for military service shall not constitute termination of employment for the purposes of the Plan.

(f) Death of Option Recipient and Transfer of Option

If an Option recipient dies while employed by the Corporation or its subsidiaries and has not fully exercised all of his or her exercisable Options, such Options may be exercised, at any time within one (1) year after death, by the Option recipient's executors or administrators, or by any person or persons who shall have acquired the Option directly from the Option recipient by bequest or inheritance. In no event, however, shall the Option be exercisable more than ten (10) years after the date such Option is granted. An Option transferred to an Option recipient's estate or to a person to whom such right devolves by reason of the Option recipient's death shall be nontransferable by the Option recipient's executor or administrator or by such person, except that the Option may be distributed by the Option recipient's executors or administrators to the distributees of the Option recipient's estate entitled thereto.

(g) Recapitalization

Subject to any required action by the shareholders, the aggregate number of shares which may be issued pursuant to Awards, the number of shares of Capital Stock covered by each outstanding Award, and the price per share applicable to shares under such Awards, shall be proportionately adjusted for any increase or decrease in the number of issued shares of Capital Stock of the Corporation resulting from a subdivision or consolidation of shares or the payment of a stock dividend (but only on the Capital Stock), or any other increase or decrease in the number of such shares effected without receipt of consideration by the Corporation.

If the Corporation is merged with or consolidated into any other corporation, or if all or substantially all of the business or property of the Corporation is sold, or if the Corporation is liquidated or dissolved, or if a tender or exchange offer is made for all or any part of the Corporation's voting securities, or if any other actual or threatened change in control of the Corporation occurs, the Committee, with or without the consent of the Option recipient, may (but shall not be obligated to), either at the time of or in anticipation of any such transaction, take any of the following actions that the Committee may deem appropriate in its sole and absolute discretion: (i) cancel any Option by providing for the payment to the Award recipient of the excess of the Fair Market Value of the shares subject to the Award over the exercise price of the Option, (ii) substitute a new Option of substantially equivalent value for any Option, (iii) accelerate the exercise terms of any Award, or (iv) make such other adjustments in the terms and conditions of any Option as it deems appropriate.

In the event of a change in Capital Stock of the Corporation as presently constituted, which is limited to a change of all of its authorized shares with par value into the same number of

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

shares with a different par value or without par value, the shares resulting from any change shall be deemed to be the Capital Stock within the meaning of the Plan.

To the extent that the foregoing adjustments relate to stock or securities of the Corporation, such adjustments shall be made by the Committee, whose determination in that respect shall be final.

Except as otherwise expressly provided in this Article 6(g), the Option recipient shall have no rights by reason of any subdivision or consolidation of shares of stock of any class, or the payment of any stock dividend or any other increase or decrease in the number of shares of stock of any class, or by reason of any dissolution, liquidation, merger or consolidation or spin-off of assets or stock of another corporation. Any issue by the Corporation of shares of stock of any class, or securities convertible into shares of stock of any class, shall not affect, and no adjustment by reason thereof shall be made with respect to, the number or price of shares of Capital Stock subject to the Option.

The grant of an Option pursuant to the Plan shall not affect in any way the right or power of the Corporation to make adjustments, reclassifications, reorganizations, or changes of its capital or business structure, or to merge, consolidate, dissolve, liquidate, sell, or transfer all or any part of its business or assets.

(h) Rights as a Stockholder

An Option recipient or a transferee of an Option shall have no rights as a stockholder with respect to any shares subject to his Option until a stock certificate is issued to him for such shares. No adjustment shall be made for dividends (ordinary or extraordinary, whether in cash, securities, or other property), distributions, or other rights for which the record date is prior to the date such stock certificate is issued, except as provided in Article 6(g) of the Plan.

(i) Modification, Extension, and Renewal of Awards

Subject to the terms of the Plan, the Committee may modify, extend, or renew outstanding Options granted under the Plan, or accept the surrender of outstanding Options (to the extent not theretofore exercised) and authorize the granting of new Options in substitution therefor (to the extent not theretofore exercised). The Committee shall not, however, modify any outstanding Incentive Options so as to specify a lower price, or accept the surrender of outstanding Incentive Options and authorize the granting of new Options in substitution therefor specifying a lower price. Notwithstanding the foregoing, however, no modification of an Option shall, without the consent of the Option recipient, alter or impair any rights or obligations under any Option theretofore granted under the Plan.

(j) Withholding

Whenever the Corporation proposes or is required to issue or transfer shares of Capital Stock under the Plan, the Corporation shall have the right to require the Option recipient, prior to the issuance or delivery of any certificates for such shares, to

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

remit to the Corporation, or provide indemnification satisfactory to the Corporation for, an amount sufficient to satisfy any federal, state, local, and foreign withholding tax requirements incurred as a result of an Award under the Plan by such Award recipient. The Corporation shall have the right to withhold such amounts from any other source owed to the recipient, including regular wages or salary.

(k) Other Provisions

The Award agreements authorized under the Plan shall contain such other provisions, including, without limitation, restrictions upon the exercise of the Award, as the Committee shall deem advisable. Limitations and restrictions shall be placed upon the exercise of Incentive Options, in the Incentive Option agreement, so that such Options will be "incentive stock options" as defined in Section 422 of the Internal Revenue Code of 1986.

7. TERM OF PLAN

Awards may be granted pursuant to the Plan from time to time within a period of ten (10) years commencing on June 1, 2002, and continuing through May 31, 2012.

8. INDEMNIFICATION OF COMMITTEE

In addition to such other rights of indemnification as they may have as directors or as members of the Committee, the members of the Committee shall be indemnified by the Corporation against the reasonable expenses, including, attorney's fees, actually and necessarily incurred in connection with the defense of any action, suit, or proceeding, or in connection with any appeal therein, to which they or any of them may be a party by reason of any action taken or failure to act under or in connection with the Plan or any Award granted hereunder, and against all amounts paid by them in settlement thereof (provided such settlement is approved by independent legal counsel selected by the Corporation) or paid by them in satisfaction of a judgment in any such action, suit, or proceeding, except in relation to matters as to which it shall be adjudged in such action, suit, or proceeding, that such Committee member is liable for willful misconduct in the performance of his duties; provided, that within sixty (60) days after institution of any such action, suit, or proceeding a Committee member shall in writing offer the Corporation the opportunity, at its own expense, to handle and defend the same.

9. AMENDMENT OF THE PLAN

The Board of Directors, insofar as permitted by law, shall have the right from time to time with respect to any shares at the time not subject to Awards, to suspend or discontinue the Plan or revise or amend it in any respect whatsoever, except that without approval of the shareholders of the Company, no such revision or amendment shall: (a) change the number of shares for which Awards may be granted under the Plan either in the aggregate or to any individual employee, (b) change the provisions relating to the determination of employees to whom

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

Awards shall be granted, (c) remove the administration of the Plan from the Committee, or (d) decrease the price at which Incentive Options may be granted.

10. APPLICATION OF FUNDS

The proceeds received by the Corporation from the sale of Capital Stock pursuant to the exercise of Options will be used for general corporate purposes.

11. NO OBLIGATION TO EXERCISE OPTION

The granting of an Option shall impose no obligation upon the Option recipient to exercise such Option.

12. APPROVAL OF STOCKHOLDERS

This Plan shall take effect on June 1, 2002, subject to approval by the affirmative vote of the holders of the majority of the outstanding shares of Capital Stock of the Corporation present, or represented, and entitled to vote at a meeting of the shareholders, which approval must occur within the period beginning twelve (12) months before and ending twelve (12) months after the date the Plan is adopted by the Board of Directors.
