#### TO THE STOCKHOLDERS

For the three months ended March 31, 2004, the investment return to our stockholders was 2.5% (assuming reinvestment of all dividends). The net asset value per Common Share increased by the same amount, 2.5%. By comparison, the rate of return (including income) for our benchmark, the Standard & Poor's 500 Stock Index, was 1.7%. For the twelve months ended March 31, 2004, the return to our stockholders was 33.3% and the return on the net asset value per Common Share was 33.1%; these compare with a return of 35% for the S&P 500. During each period, the discount at which our shares traded fluctuated moderately and at March 31, 2004, it was 10.2%.

As set forth in the accompanying financial statements (unaudited), as of March 31, 2004, the net assets applicable to the Company's Common Stock were \$995,994,179, equal to \$33.81 per Common Share.

The increase in net assets resulting from operations for the three months ended March 31, 2004 was \$22,969,210. During this period, the net realized gain on securities sold was \$10,542,000 and the increase in unrealized appreciation was \$15,389,666. Net investment income for the three months was \$12,544 and distributions to preferred stockholders amounted to \$2,975,000.

During the three months, 331,900 shares of the Company's Common Stock were repurchased for \$10,116,510 at an average discount from net asset value of 9.6%.

Our portfolio continues to perform well, benefiting from continuing gains in equity markets generally and the productive employment of our liquid assets. For the most part, corporate profits have exceeded earlier estimates while inflation and interest rates remain in constructive ranges. The appearance of price stability, however, has been influenced by the importation of Asian goods and the outsourcing of services, to some degree, with the attendant consequence of slower than average recovery in our jobs market. Should interest rates rise precipitously, of course, stocks are likely to be impacted adversely. We remain focused on longer-term trends and practice our discipline with the patience that we believe will continue to reward our shareholders.

We are pleased to report that on April 14, 2004, at the Company's annual meeting, the Stockholders (1) elected ten directors, including two directors who were elected by the holders of the Company's Preferred Stock, and (2) ratified the selection of Ernst & Young LLP as auditors of the Company for the year 2004.

At its meeting on April 14, 2004, the Board of Directors appointed American Stock Transfer & Trust Company the transfer agent and registrar for the Company,

effective June 1, 2004.

The information about the Company, including our investment objective, operating policies and procedures, investment results, record of dividend payments, financial reports and press releases, contained at our website has been updated through March 31, 2004. It can be accessed on the Internet at www.generalamericaninvestors.com.

By Order of the Board of Directors,

General American Investors Company, Inc.

Spencer Davidson

President and Chief Executive Officer

April 14, 2004

General American Investors

#### 1. SIGNIFICANT ACCOUNTING POLICIES

General American Investors Company, Inc. (the "Company"), established in 1927, is registered under the Investment Company Act of 1940 as a closed-end, diversified management investment company. It is internally managed by its officers under the direction of the Board of Directors.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Certain prior year financial statement items have been reclassified to conform to the current year presentation.

- a. SECURITY VALUATION Securities traded on securities exchanges or on the NASDAQ National Market System are valued at the last reported sales price on the last business day of the period. Listed and NASDAQ securities for which no sales are reported on that day and other securities traded in the over-the-counter market are valued at the last bid price (asked price for open short positions) on the valuation date. Corporate discount notes are valued at amortized cost, which approximates market value. Special holdings are valued at fair value in the opinion of the Directors. In determining fair value, in the case of restricted shares, consideration is given to cost, operating and other financial data and, where applicable, subsequent private offerings or market price of the issuer's unrestricted shares (to which a 30 percent discount would be applied).
- b. SHORT SALES The Company may make short sales of securities for either speculative or hedging purposes. When the Company makes a short sale, it borrows the securities sold short from a broker; in addition, the Company places cash with that broker and securities in a segregated account with the custodian, both as collateral for the short position. The Company may be required to pay a fee to borrow the securities and may also be obligated to pay any dividends declared on the borrowed securities. The Company will realize a gain if the security price decreases and a loss if the security price increases between the date of the short sale and the date on which the Company replaces the borrowed securities.
- c. FEDERAL INCOME TAXES The Company's policy is to fulfill the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all taxable income to its stockholders. Accordingly, no provision for Federal income taxes is required.
- d. OTHER Comprehensive Income Pursuant to FAS 87, the Company recognizes on an amortized basis the excess of the fair value of its pension plan assets over the present value of accumulated plan benefits.
- e. OTHER As customary in the investment company industry, securities transactions are recorded as of the trade date. Dividend income and distributions to stockholders are recorded as of the ex-dividend dates. Interest income, adjusted for amortization of discount and premium on investments, is earned from settlement date and is recognized on the accrual basis. Cost of  $\verb|short-term| investments| \verb|represents| amortized| cost.$

# 2. CAPITAL STOCK AND DIVIDEND DISTRIBUTIONS

The authorized capital stock of the Company consists of 50,000,000 shares of Common Stock, \$1.00 par value, and 10,000,000 shares of Preferred Stock, \$1.00 par value, of which 29,457,363 shares and 8,000,000 shares, respectively, were

outstanding at March 31, 2004.

On September 24, 2003, the Company issued and sold 8,000,000 shares of its 5.95% Cumulative Preferred Stock, Series B in an underwritten offering. The Preferred Shares are noncallable for 5 years and have a liquidation preference of \$25.00 per share plus an amount equal to accumulated and unpaid dividends to the date of redemption. The underwriting discount and other expenses associated with the Preferred Stock offering amounted to \$6,700,000 and were charged to paid-in capital.

The Company is required to allocate distributions from long-term capital gains and other types of income proportionately among holders of shares of Common Stock and Preferred Stock. To the extent that dividends on the shares of Preferred Stock are not paid from long-term capital gains, they will be paid from ordinary income or net short-term capital gains or will represent a return of capital.

Under the Investment Company Act of 1940, the Company is required to maintain an asset coverage of at least 200% for the Preferred Stock. In addition, pursuant to the Rating Agency Guidelines, the Company is required to maintain a certain discounted asset coverage for its portfolio that equals or exceeds the Basic Maintenance Amount under the guidelines established by Moody's Investors Service, Inc. The Company has met these requirements since the issuance of the Preferred Stock. If the Company fails to meet these requirements in the future and does not cure such failure, the Company may be required to redeem in whole or in part, shares of Preferred Stock at a redemption price of \$25.00 per share plus accumulated and unpaid dividends (whether or not earned or declared). In addition, the Company's failure to meet the foregoing asset coverage requirements could restrict its ability to pay dividends on shares of Common Stock and could lead to sales of portfolio securities at inopportune times.

The holders of Preferred Stock have voting rights equivalent to those of the holders of Common Stock (one vote per share) and, generally, vote together with the holders of Common Stock as a single class.

At all times, holders of Preferred Stock will elect two members of the Company's Board of Directors and the holders of Preferred and Common Stock, voting as a single class, will elect the remaining directors. If the Company fails to pay dividends on the Preferred Stock in an amount equal to two full years' dividends, the holders of Preferred Stock will have the right to elect a majority of the directors. In addition, the Investment Company Act of 1940 requires that approval of the holders of a majority of any outstanding Preferred Shares, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the Preferred Stock and (b) take any action requiring a vote of security holders, including, among other things, changes in the Company's subclassification as a closed-end investment company or changes in its fundamental investment policies.

The Company classifies its Preferred Stock pursuant to the requirements of EITF D-98, Classification and Measurement of Redeemable Securities, which require that preferred stock for which its redemption is outside of the company's control should be presented outside of net assets in the statement of assets and liabilities.

(Continued from bottom of previous page.)

Transactions in Common Stock during the three months ended March 31, 2004 and the year ended December 31, 2003 were as follows:

	SHARES	
	2004	2003
Shares issued in payment of dividends (includes 334,507 shares issued from treasury) Increase in paid-in capital	-	334,507
Total increase		
Shares purchased (at an average discount from net asset value of 9.6% and 9.7%, respectively)  Decrease in paid-in capital	331,900	1,106,600

Total decrease

Net decrease

Distributions for tax and book purposes are substantially the same.

At March 31, 2004, the Company held in its treasury 1,774,200 shares of Common Stock with an aggregate cost in the amount of \$38,869,449.

### 3. OFFICERS' COMPENSATION AND RETIREMENT AND THRIFT PLANS

The aggregate compensation paid by the Company during the three months ended March 31, 2004 to its officers amounted to \$1,225,250.

The Company has non-contributory retirement plans and a contributory thrift plan which cover substantially all employees. The costs to the Company and the assets and liabilities of the plans are not material. Costs of the plans are funded currently.

### 4. PURCHASES AND SALES OF SECURITIES

Purchases and sales of securities (other than short-term securities) for the three months ended March 31, 2004 amounted to on long transactions \$109,029,314 and \$40,699,946, respectively, and, with respect to short sale transactions, purchases for the three months amounted to \$14,182,941.

At March 31, 2004, the cost of investments for Federal income tax purposes was the same as the cost for financial reporting purposes.

# 5. RESTRICTED SECURITIES

Total		\$8,009,720	\$2,036,000
		========	========

#### 6. OPERATING LEASE COMMITMENT

In July 1992, the Company entered into an operating lease agreement for office space which expires in 2007 and provides for future rental payments in the aggregate amount of approximately \$5.6 million. The lease agreement contains a clause whereby the Company received twenty months of free rent beginning in December 1992 and escalation clauses relating to operating costs and real property taxes.

Rental expense approximated \$89,000 for the three months ended March 31, 2004. Minimum rental commitments under the operating lease are approximately \$505,000 per annum in 2004 through 2007.

In January 2003, the Company extended a sublease agreement (originally entered into in March 1996) which expires in 2007 and provides for future rental receipts. Minimum rental receipts under the sublease are approximately \$254,000 per annum in 2004 through 2007. The Company will also receive its proportionate share of operating expenses and real property taxes under the sublease.

#### Unaudited

\_\_\_\_\_\_

In addition to purchases of the Company's Common Stock as set forth in Note 2 above, purchases of Common Stock may be made at such times, at such prices, in such amounts and in such manner as the Board of Directors may deem advisable.
